

1
00:00:00,060 --> 00:00:00,780
NeedToKnow.today

2
00:00:07,680 --> 00:00:14,580
This is NEED TO KNOW. Real talk about the
reality of Unidentified Anomalous Phenomena.

3
00:00:15,960 --> 00:00:25,680
From Australia Ross Coulthart; from the U.S. Bryce
Zabel. Well it's good to be back and we have had

4
00:00:25,680 --> 00:00:30,840
something of an absence and I think that requires
some explanation so I'm going to bring my co-host

5
00:00:30,840 --> 00:00:36,840
buddy and good colleague Bryce in to explain
what's been going on. Well there's a lot been

6
00:00:36,840 --> 00:00:42,120
going on and we could lay it off too well we've
been doing an intense investigation but what

7
00:00:42,120 --> 00:00:50,220
actually happened is my daughter came back home
from a trip and had gotten, what do we call

8
00:00:50,220 --> 00:00:57,600
it?, a strep throat from a karaoke session so I got
it, then two days later my wife shows up and she's

9
00:00:57,600 --> 00:01:04,380
got Covid and now I have Covid and strep throat so
yeah I kind of went into about a two-week tunnel

10
00:01:04,380 --> 00:01:09,060
where it was all I could do to get up in the
morning and then go back to bed. But now I

11

00:01:09,060 --> 00:01:15,840

feel better I'm back uh and I'm ready! Now we're
doing this recording on March the 15th which is

12

00:01:15,840 --> 00:01:22,080

an auspicious date in history Bryce the The Ides
of March notable in Rome is a time of settling

13

00:01:22,080 --> 00:01:28,920

debts and also apparently maybe you can refresh
my memory yeah some little little thing like the

14

00:01:28,920 --> 00:01:35,280

assassination of Julius Caesar I think happened
on on that time in 44 BC uh I don't know that

15

00:01:35,280 --> 00:01:40,860

we'll be as auspicious today as Caesar's passing
probably was but I'm willing to give it a try

16

00:01:41,760 --> 00:01:47,880

so listen it's been quite a news time in the
period since we last spoke and I I think one

17

00:01:47,880 --> 00:01:53,100

of the things that fascinates me is particularly
from The Daily Mail Josh Boswell Christopher sharp

18

00:01:53,100 --> 00:01:59,520

Liberation times there's been a lot of talk
that we're going to see Congressional hearings

19

00:01:59,520 --> 00:02:06,060

there's a lot of speculation about a new push
in Congress for public hearings into purported

20

00:02:06,060 --> 00:02:15,240

secret UAP reverse engineering programs which is a
a big claim and um I know louisando has made a new

21

00:02:15,240 --> 00:02:20,400

statement as well where he's basically applauded
efforts to get to the bottom of any Legacy efforts

22

00:02:20,400 --> 00:02:27,120

to exploit UAP materials and he said not just
looking at Lockheed Martin I would not limit

23

00:02:27,120 --> 00:02:32,820

the focus of the inquiry to just one Aerospace
company but to several others that have paid a

24

00:02:32,820 --> 00:02:39,360

key historical role in this endeavor so we're
being told my friend that there is an ongoing

25

00:02:39,360 --> 00:02:47,340

push behind the scenes for people to come forward
and for possibly in you know the increased chance

26

00:02:47,340 --> 00:02:54,240

of public hearings you know the thing Ross that
is funny about that Lou Elizondo uh statement that

27

00:02:54,240 --> 00:02:59,040

you read where he says I applaud the effort to
get to the bottom of any Legacy efforts to exploit

28

00:02:59,040 --> 00:03:05,700

blah blah blah and then ending where you just
said for a guy that keeps quoting his NDA I can't

29

00:03:05,700 --> 00:03:11,700

talk about this I can't talk about that he always
manages to literally State what he means which in

30

00:03:11,700 --> 00:03:17,460

this case if he's saying I would also go one step
further and not limit the focus of the inquiry to

31

00:03:17,460 --> 00:03:23,700

just one Aerospace company but to several others\h
that have played a key role well okay I guess Lou\h\h

32

00:03:23,700 --> 00:03:28,980

Elizondo is coming right out and saying yeah\h
there's crash wreckage out there and there are\h\h

33

00:03:28,980 --> 00:03:34,380

Legacy programs that have been looking into it\h
and some of them are private Aerospace so you\h\h

34

00:03:34,380 --> 00:03:40,320

know to the extent I know people fall into the\h
pro Lou and anti-loo column these days which is\h\h

35

00:03:40,320 --> 00:03:45,660

unfortunate but if you trust what Lou Elizondo\h
is saying he's saying it again there's crash\h\h

36

00:03:45,660 --> 00:03:50,820

wreckage there's private companies that have been\h
looking into it and he thinks it's about time to\h\h

37

00:03:50,820 --> 00:03:55,020

do that so the only question I had about what\h
you just said though is yeah there is a lot of\h\h

38

00:03:55,020 --> 00:04:01,500

speculation about these uh the possibility of more\h
public hearings but my question is who's doing all\h\h

39

00:04:01,500 --> 00:04:07,980

this speculating you know where where is the heart\h
of the speculation uh and and how informed is it\h\h

40

00:04:08,820 --> 00:04:13,380

look it's a good question and and one of the\h
issues is that frankly none of us really know\h\h

41

00:04:13,380 --> 00:04:17,100

none of us really know for sure I mean a\h
lot of people myself included are being\h\h

42

00:04:17,820 --> 00:04:25,140

encouraged to the belief that there is a push\h
towards a greater disclosure in the Congress\h\h

43

00:04:26,340 --> 00:04:31,860

and frankly I'm not sure we should buy it I'm\h
I'm very very skeptical about a lot of what\h\h

44

00:04:31,860 --> 00:04:37,800

we're being told at the moment I mean for example\h
let's just deal with one thing um and I think this\h\h

45

00:04:37,800 --> 00:04:42,780

is quite important because it's kind of slipped\h
through the cracks in the news language recently\h\h

46

00:04:44,280 --> 00:04:48,780

what I can tell you Bryce is that I know for\h
a fact that there are people who have given\h\h

47

00:04:48,780 --> 00:04:56,520

evidence to Congress in camera who purport to\h
have knowledge of the program and there are\h\h

48

00:04:56,520 --> 00:05:03,300

people who are coming forward who purport to have\h
knowledge of the program if the program exists\h\h

49

00:05:03,840 --> 00:05:09,300

I think we should all maintain severe skepticism\h\h

50

00:05:11,160 --> 00:05:18,540

um just to correct just to go deeper skepticism\h
about the fact that a program existed or\h\h

51

00:05:18,540 --> 00:05:22,920

skepticism about the fact that they're actually
ready to have public hearings of some kind

52
00:05:23,700 --> 00:05:32,940
both all right both I mean I I still think we need
to be very very strict with ourselves in testing

53
00:05:32,940 --> 00:05:39,000
claims that are being made um so let's for example
I mean one of the things that just bobbed up in

54
00:05:39,000 --> 00:05:44,100
the news in the last few days is and you've got to
you've got to figure this out by putting together

55
00:05:44,100 --> 00:05:49,740
various bits of a jigsaw but it's very clear
that representative Tim Burchette and Matt Gates

56
00:05:50,400 --> 00:05:56,520
uh to Republican congressmen appear
to have attended a classified UAP

57
00:05:56,520 --> 00:06:03,840
briefing on a military base somewhere in
Florida on or around February the 21st and

58
00:06:03,840 --> 00:06:08,220
um I think this is an important story because
it's illustrative of what's going on behind the

59
00:06:08,220 --> 00:06:14,820
scenes neither of them can talk about it in all
that much detail publicly but what we do know is

60
00:06:15,540 --> 00:06:19,920
um Matt Gates first came out and he's a
controversial figure because he's done some

61
00:06:19,920 --> 00:06:25,440

pretty wacky and said some pretty wacky things\h
in his time he came up and he's a member of the\h\h

62

00:06:25,440 --> 00:06:31,260

House armed services committee so he does have the\h
right to be briefed on these UAP issues because\h\h

63

00:06:31,260 --> 00:06:37,320

the house armed services committee is one of the\h
Committees that is dealing with this UAP issue\h\h

64

00:06:37,320 --> 00:06:42,720

and I know that staffers on that committee are\h
engaging with people inviting them to come forward\h\h

65

00:06:43,560 --> 00:06:49,200

anyway in a discussion on Newsmax the news\h
organization Gates talked about how he'd seen\h\h

66

00:06:49,200 --> 00:06:57,420

evidence of a mysterious craft that did not appear\h
to belong to the U.S its allies or adversaries and\h\h

67

00:06:57,420 --> 00:07:02,940

he said I have seen evidence of craft that\h
I am not familiar with any of our allies or\h\h

68

00:07:02,940 --> 00:07:08,700

adversaries or even of our country possessing\h
I've seen that craft taken by air Crews I think\h\h

69

00:07:08,700 --> 00:07:14,280

it means photograph who've gotten quite close to\h
it and we've got a lot more questions about why\h\h

70

00:07:14,280 --> 00:07:19,680

this information isn't more broadly available to\h
the American people if there's stuff flying over\h\h

71

00:07:19,680 --> 00:07:24,480

our skies and we don't know about it whether it's
Chinese or whether it's unworldly I think we need

72

00:07:24,480 --> 00:07:30,600

a lot more transparency and we've actually got
a group of Congress members together and we're

73

00:07:30,600 --> 00:07:34,860

going to be conducting a lot more investigations
and trying to get this information before the

74

00:07:34,860 --> 00:07:39,960

public so that we can have a lot more assessment
of the Threat Level and the risk level so that's

75

00:07:39,960 --> 00:07:44,820

why people are talking about public hearings Gates
has talked about it on the Newsmax Channel sure

76

00:07:44,820 --> 00:07:52,140

and his comments also followed an interview with
Newsweek magazine when Congressman Tim burchett

77

00:07:53,400 --> 00:07:59,820

um he basically told Newsweek that he believed
quote we have recovered a craft at some point and

78

00:07:59,820 --> 00:08:06,600

possible beings I think that a lot of that's being
reverse engineered right now but we just don't

79

00:08:06,600 --> 00:08:13,320

understand it he said and in the same interview
with Matt Gates Tim Birch had appeared as well on

80

00:08:13,320 --> 00:08:20,340

the news Max interview and he admitted he was in
a meeting together with Gates the previous day in

81

00:08:20,340 --> 00:08:26,580

Florida that was the key word and he said I can't talk about it it was classified top secret so I can't

82
00:08:26,580 --> 00:08:32,280
can't talk about it and then to complete the next bit of the jigsaw puzzle that was all that Richard

83
00:08:32,280 --> 00:08:38,160
could say about the briefing he received but then Fox news's Tucker Carlson did an interview with a

84
00:08:38,160 --> 00:08:45,540
podcast called Full Max in which he described a recent conversation with a congressman who went

85
00:08:45,540 --> 00:08:51,120
to a briefing in the state of Florida and I think it's reasonable to speculate that's

86
00:08:51,120 --> 00:08:56,460
got to be birchette and by implication also Gates who's also talked about being briefed in Florida

87
00:08:56,460 --> 00:09:02,640
and Carlson told the podcast four of these things like a raptor pilot an American pilot

88
00:09:02,640 --> 00:09:07,980
took these images of these objects right next to his plane and then he goes on to talk about how

89
00:09:07,980 --> 00:09:12,000
they got a thermal read on them and the thermal read was at the bottom of the plane and frankly

90
00:09:12,000 --> 00:09:18,120
what Carlson says doesn't quite make a lot of sense but my takeaway is that both birchette

91
00:09:18,120 --> 00:09:24,840

and Gates appear to have been shown classified
images at a Florida base of some kind probably

92

00:09:24,840 --> 00:09:30,480

an Air Force Base and these craft are four
anomalous craft photographed right next to

93

00:09:30,480 --> 00:09:39,660

U.S aircraft and they were shown this allegedly by
quote a Commanding General well that's there's a

94

00:09:39,660 --> 00:09:45,060

lot to unpack and what you just said um and first
of all folks before I go any further please don't

95

00:09:45,060 --> 00:09:53,460

send me email about being a partisan on this whole
thing look Gates is controversial as as Ross said

96

00:09:54,240 --> 00:10:01,440

um and I wish that the same statement was coming
from somebody a little less to one Spectrum or the

97

00:10:01,440 --> 00:10:05,580

other because it would it would sort of help
with the credibility of it I wonder and and

98

00:10:05,580 --> 00:10:12,060

Ross is a good question I think is is the issue
starting to be politicized are we starting to see

99

00:10:12,060 --> 00:10:17,700

Republicans drift into one column and Democrats
into another I'm not quite sure but I I had a lot

100

00:10:17,700 --> 00:10:22,920

of questions when we were talking about this
initially which is why Gates and Burchette

101

00:10:23,520 --> 00:10:30,120

why Florida uh you know because if you're going to be getting a deep briefing traditionally that

102

00:10:30,120 --> 00:10:36,420

happens in one of those secure compartmentalized information facilities uh under the capitol or

103

00:10:36,420 --> 00:10:42,000

somewhere in DC and uh instead of a Florida Air Force Base so these are the things I'm thinking

104

00:10:42,000 --> 00:10:46,980

about but I you know as the as the historian here I just wanted to throw one thing out

105

00:10:46,980 --> 00:10:51,840

because later on we were going to talk about some of the things that happened uh 50 years ago in

106

00:10:51,840 --> 00:11:01,680

1973 well 50 years ago in 1973 it's reputed that there was another historic visit by two people uh

107

00:11:01,680 --> 00:11:07,380

involved in uh one of who was heavily involved in Washington politics to a Florida Air Force Base

108

00:11:07,380 --> 00:11:13,620

I'm talking about the Homestead Air Force Base visit supposedly where Richard Nixon took his

109

00:11:13,620 --> 00:11:19,920

buddy a comedian Jackie Gleason in the middle of the night and took him to Homestead Air Force Base

110

00:11:19,920 --> 00:11:25,200

and introduced them to some wreckage and some bodies nobody he's ever been able to tie that

111

00:11:25,200 --> 00:11:32,700

down but uh what's that allegedly no totally\h
allegedly uh no one's ever been able to tie\h\h

112

00:11:32,700 --> 00:11:38,040

that down but Gleason to the end of his days\h
always said it happened no one else has laid\h\h

113

00:11:38,040 --> 00:11:42,240

it out like that I'm just I'm just throwing it\h
out there as as just yeah these things come up\h\h

114

00:11:42,240 --> 00:11:47,340

but let me go back to these questions I'd love to\h
hear what your thoughts are why them why Florida\h\h

115

00:11:48,960 --> 00:11:55,200

okay temperature it's been quite prominent\h
in speaking out on this issue uh and he's\h\h

116

00:11:55,200 --> 00:12:00,180

been pushing you know he's been he's been\h
he's been asking for briefings and and\h\h

117

00:12:00,180 --> 00:12:05,820

um he's on the house oversight and accountability\h
committee so I guess to some degree he has a right\h\h

118

00:12:05,820 --> 00:12:12,120

to ask and Matt Gates of course is on the um\h
Services committee on the house so he has an\h\h

119

00:12:12,120 --> 00:12:17,040

absolute right to ask as a Committee Member\h
so maybe it's as simple as they've asked for\h\h

120

00:12:17,040 --> 00:12:22,080

a briefing we just don't know because Heston\h
burchett says it's all top secret and they've\h\h

121

00:12:22,080 --> 00:12:27,900

probably transgressed by even talking about it
what intrigues me is I'm aware of other people

122

00:12:27,900 --> 00:12:32,880

who've received similar briefings and you know
this has been going on this is what's happening

123

00:12:32,880 --> 00:12:38,760

at the moment behind the scenes is there are these
kind of briefings happening people congressmen

124

00:12:39,840 --> 00:12:47,580

um key opinion leaders are being shown information
and I just wonder what the agenda is like what's

125

00:12:47,580 --> 00:12:56,700

driving this um I have a I have a suspicion that
part of what is driving this is an attempt to

126

00:12:56,700 --> 00:13:02,940

contain I wish it was a Content an attempt to
to disclose or just for God's sake just let's

127

00:13:02,940 --> 00:13:07,920

just get a clear breast of what the hell is going
on here and bring it all out into the open and we

128

00:13:07,920 --> 00:13:13,140

can test the data look at the evidence and make
a judgment about whether any of this is true

129

00:13:13,740 --> 00:13:19,740

but I I somebody's playing a game behind
the scenes and I I don't like it I really

130

00:13:19,740 --> 00:13:26,820

don't like it I agree with you that ultimately if
it's okay to show two politicians four allegedly

131

00:13:26,820 --> 00:13:32,700

anomalous objects sitting next to a U.S Air Force uh fighter jet or maybe it was a Navy fighter jet

132

00:13:33,540 --> 00:13:38,460

um uh why the hell can't the public see it and okay there might be there might be some

133

00:13:38,460 --> 00:13:44,100

reason there might be something to do with the sensor systems or the the capabilities of U.S

134

00:13:44,100 --> 00:13:50,280

photographic reconnaissance which means that it's not it's not allowed to show the public because

135

00:13:50,280 --> 00:13:56,760

to do so would reveal systems or Technologies which can't be revealed but I'm told that in

136

00:13:56,760 --> 00:14:03,300

many cases what these are are photographs taken by pilots with good old-fashioned a-type mobile

137

00:14:03,300 --> 00:14:09,300

phones you know so why the hell can't we see this stuff and and rather than baiting us and getting

138

00:14:09,300 --> 00:14:16,260

people like Matt Gates and Timber Chet to put out claims on on U.S national media which frankly sink

139

00:14:16,260 --> 00:14:23,040

and disappear without Trace um why not just put it out there I mean essentially if the U.S Air

140

00:14:23,040 --> 00:14:28,620

Force is briefing people let's see it let's see the briefing material I mean I got to tell you

141

00:14:28,620 --> 00:14:34,980

well you know this above anybody but most
of our listeners and viewers do as well I'm just

142

00:14:34,980 --> 00:14:41,040

a radical on this subject I've just I'm fed up
this has been 75 to 80 years where this has been

143

00:14:41,040 --> 00:14:49,620

going on and I you know you release one Crystal
Clear photo or one fantastically uh clear video

144

00:14:49,620 --> 00:14:55,560

and it's it's not game over but it's at least
we've switched from do they exist don't they

145

00:14:55,560 --> 00:15:01,740

exist what are they can we if you see one of these
things in in in the shocking reality that other

146

00:15:01,740 --> 00:15:07,980

people have seen then I think we would move to a
new phase very quickly you know it's so yeah we

147

00:15:07,980 --> 00:15:14,340

should get that done there's absolutely no reason
that the American public and the world Community

148

00:15:14,340 --> 00:15:20,940

have not seen some crystal clear photos taken
by the militaries of the world and that would

149

00:15:20,940 --> 00:15:27,960

not necessarily ruin anybody's day when it came to
uh you know keeping track of the tech technology

150

00:15:27,960 --> 00:15:33,360

they have and not wanting to share it with their
adversaries the second part of that though is that

151

00:15:33,360 --> 00:15:40,320

the outlines of what these photos and and various things are have emerged from a pilot testimony

152

00:15:40,320 --> 00:15:47,160

they just don't have access to being able to show us the the the film and the or the video and the

153

00:15:47,160 --> 00:15:52,380

photos that they have seen for example Ryan Graves who we all know is a jet fighter pilot

154

00:15:52,380 --> 00:15:58,560

who now has a really terrific podcast of his own called merged I mean he describes a couple of jets

155

00:15:58,560 --> 00:16:05,220

flying along together and a thing flies between them and that thing I'm quoting now was an object

156

00:16:05,220 --> 00:16:13,320

that was quote dark gray or Black Cube inside of a clear sphere now I'm come on let's see that photo

157

00:16:13,320 --> 00:16:19,920

that photo exists why can't we see it I mean it's just irritating I'm an irritated man over

158

00:16:19,920 --> 00:16:25,920

this topic I'm never gonna get over it I'm never going to stop agitating for it and I you know

159

00:16:25,920 --> 00:16:32,400

don't care whether you're a skeptic or a Believer or somewhere in between on the Spectrum we paid

160

00:16:32,940 --> 00:16:40,500

for the aircraft and the systems that are able to gather this information we did not give somebody

161

00:16:40,500 --> 00:16:45,960

a blank check and say never ever let us know\h
what you get with it we've actually financed\h\h

162

00:16:45,960 --> 00:16:50,880

it and it's time to at least stop this so if\h
there are going to be public hearings they can\h\h

163

00:16:50,880 --> 00:16:57,240

start the public hearing with the single great\h
photo and I would I'd be a happy man yeah I'm\h\h

164

00:16:57,240 --> 00:17:01,740

not 100 sure by the way that that particular\h
incident where the object flew between the two\h\h

165

00:17:01,740 --> 00:17:06,540

Jets I don't think they've ever said that there's\h
an actual photograph of that happening but I do\h\h

166

00:17:06,540 --> 00:17:11,940

think that there are images and sensor system data\h
that from all of those incidents off to the east\h\h

167

00:17:11,940 --> 00:17:18,660

coast and the west coast and just while we're on\h
the the issue of what's been seen by U.S Navy Jets\h\h

168

00:17:19,740 --> 00:17:25,320

um it's really interesting just in the last few\h
hours our friends at the male Josh Boswell from\h\h

169

00:17:25,320 --> 00:17:30,780

the males broken a story in the Daily Mail which\h
I think he's applied a little bit of stick to what\h\h

170

00:17:30,780 --> 00:17:36,300

Jay Stratton said but essentially the former head\h
of the government's UFO task force Jay Stratton\h\h

171

00:17:36,300 --> 00:17:43,260

and uh Travis Taylor the chief scientist on that
task force they spoke at aliencon in Pasadena

172

00:17:43,260 --> 00:17:50,700

Pasadena in early March and they talked about the
fact that they'd investigated the objects that

173

00:17:50,700 --> 00:17:56,880

buzzed around a fleet of eight Navy ships off the
U.S West Coast in July of 2019 and remember Bryce

174

00:17:56,880 --> 00:18:02,400

this is the stuff that you and I in our special
with Spotlight we went to Jeremy core Bill's

175

00:18:03,600 --> 00:18:09,960

um office and we actually investigated with Jeremy
what what was being looked at for example the

176

00:18:09,960 --> 00:18:16,680

weird objects over the USS Omaha and the splash
splash splash video where the object appears to go

177

00:18:16,680 --> 00:18:27,180

into the ocean now at aliencon both Stratton and
Taylor left them worried that whatever this was it

178

00:18:27,180 --> 00:18:34,920

was a conclusion that Russia or China could have
achieved some kind of incredible drone Battery

179

00:18:34,920 --> 00:18:41,520

Technology or maybe they'd launched quadcopters
quadcopters from submarines that somehow evaded

180

00:18:41,520 --> 00:18:48,660

the Navy's best radar miles from the mainland
but what what the daily mail says is that the

181

00:18:48,660 --> 00:18:54,600

story uh that was put by the Pentagon to the
Congress and this is a very serious allegation

182

00:18:55,200 --> 00:19:00,420

essentially um the story that was put by the
Pentagon bosses to the politicians in the public

183

00:19:00,420 --> 00:19:07,680

last year and the speech to Congress it suggested
that what Jay Stratton told alien con was

184

00:19:08,400 --> 00:19:14,340

that this was a misrepresentation to the
Congress I.E that the former head of the

185

00:19:14,340 --> 00:19:22,560

UFO Task Force is is allegedly stating that
Congress was deliberately misled by Scott Bray

186

00:19:22,560 --> 00:19:27,360

the deputy director of Naval intelligence
and Ronald Moultrie the under secretary of

187

00:19:27,360 --> 00:19:33,780

defense for intelligence and security when they
testified to the house intelligence committee and

188

00:19:33,780 --> 00:19:38,820

um this matters Bryce and I think it
requires explanation because apparently

189

00:19:39,840 --> 00:19:46,500

um the Department's now saying it stands by
the testimony given by Bray and Moultrie but

190

00:19:46,500 --> 00:19:53,160

um Taylor Travis Taylor said he and Stratton
watched the presentation at their new employees

191

00:19:53,160 --> 00:19:59,220

employers Radiance Technologies and when they
started talking about the USS Russell incident

192

00:19:59,220 --> 00:20:05,220

Travis says quote I was like we did not brief
him that way this is this is not what we told

193

00:20:05,220 --> 00:20:12,240

him it really really did upset both Travis and
me when we were watching that hearing Stratton

194

00:20:12,240 --> 00:20:18,180

added I would not have gone and briefed Congress
that I believe these triangular shaped objects

195

00:20:18,180 --> 00:20:24,780

to be real without my ducks in a row and the
ability to answer any question thrown at me

196

00:20:25,500 --> 00:20:33,000

and this is important this matters because has a
misrepresentation been made to Congress that's the

197

00:20:33,000 --> 00:20:40,740

worry well yes it has um you know let's forget
the Daily Mail as the source of it they people

198

00:20:40,740 --> 00:20:45,720

attack them for the type of newspaper they
are but at least they're boldly going out

199

00:20:45,720 --> 00:20:50,400

there look at the source instead the sources
are Jay Stratton and Travis Taylor who are

200

00:20:50,400 --> 00:20:58,020

pretty impeccable sources and you know just one
thought it wasn't a speech to Congress in in my

201

00:20:58,020 --> 00:21:06,060

view on May 17th of 2022 it was sworn testimony\h
tenderness it wasn't sworn actually it's funny \h\h

202

00:21:06,060 --> 00:21:11,400
went back and double checked this yeah they were\h
not put under oath and I I really think this is\h\h

203

00:21:11,400 --> 00:21:18,840
important neither Moultrie nor Bray were put under\h
oath but by golly if if they have misled Congress\h\h

204

00:21:19,500 --> 00:21:24,960
that's a worry I not only is it a worry if \h
was uh in Congress and it looks like some of\h\h

205

00:21:24,960 --> 00:21:30,120
the people who are in Congress are equally as\h
ticked off um I would just say I'm not taking\h\h

206

00:21:30,120 --> 00:21:36,420
people in for a public hearing on something and\h
letting them lie and or misrepresent to us and\h\h

207

00:21:36,420 --> 00:21:41,940
I would hold them accountable but uh obviously\h
if there are going to be public hearings in the\h\h

208

00:21:41,940 --> 00:21:46,740
future uh they better start with somebody holding\h
up their hand and swearing to tell the whole truth\h\h

209

00:21:46,740 --> 00:21:53,280
and nothing but the truth so help them whatever\h
so I think it is time to start swearing people in\h\h

210

00:21:53,280 --> 00:21:59,340
because how else do you hold them accountable and\h
but but the other thing about this is it you and\h\h

211

00:21:59,340 --> 00:22:05,100

I knew this in fact most people who watched that hearing we said how in the world could a topic

212

00:22:05,100 --> 00:22:12,180

this complex with this much data that's been come up with over the past seven to eight decades how

213

00:22:12,180 --> 00:22:19,500

could you start as these guys did and and take the position that they took and and frankly most

214

00:22:19,500 --> 00:22:23,640

people on that committee let them get away with it even the people who knew that they

215

00:22:23,640 --> 00:22:31,440

were prevaricating or at least misleading so yeah the whole the the I I must say this and I think

216

00:22:31,440 --> 00:22:37,560

you agree with me on this uh there's no Panacea to public hearings you can have a public hearing and

217

00:22:37,560 --> 00:22:42,780

witness what uh Moultrie and Bray did they went to a public hearing they put on their nice suits

218

00:22:42,780 --> 00:22:48,960

and their uniforms or and they they came in there and they they tried their best not to be direct

219

00:22:48,960 --> 00:22:56,040

with the American people I resent it as a citizen I resent it as a taxpayer I resented as someone

220

00:22:56,040 --> 00:23:01,560

who wants to hear the truth who figures I'm due to hear it one of these days so we've got to

221

00:23:01,560 --> 00:23:07,140

get these people wised up before we start hauling
them back into public hearings so I hope that the

222

00:23:07,140 --> 00:23:12,060

people we're talking about whether it's Burchette
uh whether whether it's Matt Gates whether it's

223

00:23:12,060 --> 00:23:17,760

any of the people from gillibrand and Rubio and
all the other people uh who have been involved in

224

00:23:17,760 --> 00:23:23,460

this they need to toughen enough and make sure
that the people they are going to put in these

225

00:23:23,460 --> 00:23:30,540

committee hearings know that their their testimony
means something and if they don't uh take a direct

226

00:23:30,540 --> 00:23:35,520

approach with the questions they're going to be
held responsible and other people are going to

227

00:23:35,520 --> 00:23:41,520

be brought in to comment on whether they're being
directly uh honest or not is well this has to end

228

00:23:42,060 --> 00:23:49,260

yeah look I agree but but also let's be very clear
about this nobody here is suggesting that whatever

229

00:23:49,260 --> 00:23:56,580

these objects are they are inevitably anomalous or
paranormal essentially all we're asking for is an

230

00:23:56,580 --> 00:24:01,980

investigation into the mystery and and the thing
that fascinates me in the Daily Mail story that

231

00:24:01,980 --> 00:24:08,520

Josh Boswell's done today is that Stratton told
the alien con conference and he obviously didn't

232

00:24:08,520 --> 00:24:13,380

intend for this to be recorded so somebody's very
naughtily recorded this and taken a transcript but

233

00:24:13,380 --> 00:24:19,320

thank heavens for posterity that somebody did he
said I got an email from the carrier strike group

234

00:24:19,320 --> 00:24:26,880

Commander saying Jay we've got some uaap referring
to unidentified anomalous phenomena I had a guy on

235

00:24:26,880 --> 00:24:31,860

board his carrier within a day in order to start
educating start collecting data start getting the

236

00:24:31,860 --> 00:24:36,120

folks talking going to each ship in a helicopter
and bringing everything back to DC immediately

237

00:24:36,900 --> 00:24:42,420

they claim that far from a simple case of a
misidentified drone which is if you remember

238

00:24:42,420 --> 00:24:48,900

mate what Congress was told Congress was told
that these were misidentified drones there was

239

00:24:48,900 --> 00:24:55,560

a very clear impression given that what we were
talking about here was was drone technology rather

240

00:24:55,560 --> 00:25:00,900

than a simple case of a misidentified drone
it was a shocking event involving multiple

241

00:25:00,900 --> 00:25:10,920

U.S ships swarmed by around 100 objects some truly
triangle-shaped that flew for such long distances

242

00:25:10,920 --> 00:25:16,380
and times they feared America as adversaries
it cracked breakthrough Battery Technology

243

00:25:16,380 --> 00:25:23,940
the incidents went on for hours and were repeated
through the month now Stratton actually is quoted

244

00:25:23,940 --> 00:25:27,720
in the uh in the article from the alien con
conferences saying that he had a high enough

245

00:25:27,720 --> 00:25:34,680
security clearance to determined that the objects
were not us operated we had a much bigger picture

246

00:25:34,680 --> 00:25:40,920
he said when we were briefing the seniors The
Briefing was very detailed and highly footnoted um

247

00:25:40,920 --> 00:25:49,020
it sounds like he and Travis did a very thorough
investigation and Jay's basically told the the

248

00:25:49,020 --> 00:25:54,900
alien con Moultrie and Bray quote just weren't
briefed to the level that I would have prepared

249

00:25:54,900 --> 00:26:02,280
them and as Travis Taylor says it seemed odd it
felt like we'd been practicing all year got to

250

00:26:02,280 --> 00:26:09,720
the playoffs and lost 42 nil it was a real weird
kick in the guts now that implied I mean it's a

251

00:26:09,720 --> 00:26:14,400

really interesting situation here you've got the
former head of the pentagon's UAP investigation

252
00:26:14,400 --> 00:26:21,840
program saying they investigated this technology
and they could not explain these away as drones or

253
00:26:21,840 --> 00:26:28,020
known drone technology that nobody is saying
that this is aliens nobody is saying this is

254
00:26:28,020 --> 00:26:34,260
Paranormal all they're basically saying is that
this is a mystery have the Chinese or the Russians

255
00:26:34,260 --> 00:26:40,260
developed technology which allows them to operate
some kind of new drone or balloon technology

256
00:26:40,260 --> 00:26:45,840
over U.S warships in a restricted training
area in a way that's never been done before

257
00:26:47,100 --> 00:26:53,340
why this matters and what matters is why were
Moultrie and Bray trying to play it down in their

258
00:26:53,340 --> 00:27:01,740
evidence to Congress and did they mislead Congress
as Jay Stratton and Travis Taylor appear to have

259
00:27:01,740 --> 00:27:11,220
told aliencon they were you know I'm just going to
go out on a limb here you you're being uh what a

260
00:27:11,220 --> 00:27:14,820
good journalist should be you're being cautious
you're saying nobody is saying this is aliens

261
00:27:14,820 --> 00:27:20,940

that is technically true nobody is saying this\h
is aliens or even paranormal or even anomalous\h\h

262

00:27:20,940 --> 00:27:27,300

although the name of the office is the all\h
domain uh anomaly resolution office so whatever\h\h

263

00:27:28,260 --> 00:27:34,740

um here's my problem with continuing to say\h
that while it is possible that Russia or\h\h

264

00:27:34,740 --> 00:27:39,240

China has come up with hundreds of drone\h
swarms that can be out there doing that\h\h

265

00:27:40,200 --> 00:27:44,820

um I don't think that's the first explanation\h
that we should be looking for it's a it's an\h\h

266

00:27:44,820 --> 00:27:51,480

explanation but that's knowable and doable but it\h
doesn't explain the kinds of things that have been\h\h

267

00:27:51,480 --> 00:27:58,740

reported not just by citizens uh from around the\h
entire planet but by militaries from around the\h\h

268

00:27:58,740 --> 00:28:06,780

entire planet going back these 75 or 80 years\h
so those things were not Russia or China back\h\h

269

00:28:06,780 --> 00:28:12,420

in the early days and yet we reported uh through\h
our military many of the same kind of behaviors\h\h

270

00:28:12,420 --> 00:28:17,640

and some that were even more strange so from my\h
point of view no I'm not willing to say anything\h\h

271

00:28:17,640 --> 00:28:23,700

is alien alien to many people just means okay\h
they're extraterrestrials they're coming from\h\h

272

00:28:23,700 --> 00:28:29,160

some place that isn't here to here and they're\h
being flown by somebody that isn't us I get that\h\h

273

00:28:29,160 --> 00:28:34,740

I'm not saying they're aliens but I'm saying\h
that the more likely resolution of this thing\h\h

274

00:28:34,740 --> 00:28:42,840

is going to take us into some strange anomalous\h
explanations and that's why I get more and more\h\h

275

00:28:42,840 --> 00:28:48,120

frustrated by the US Military and frankly the\h
militaries of the rest of the world which are\h\h

276

00:28:48,120 --> 00:28:53,280

all playing in concert and have been for many\h
decades with the United States on this issue\h\h

277

00:28:53,280 --> 00:28:59,400

I I'm frustrated that they will not take us to\h
this next level if we're supposed to determine\h\h

278

00:28:59,400 --> 00:29:07,500

whether they're anomalous alien or plain drones\h
from somebody then how about sharing your work\h\h

279

00:29:07,500 --> 00:29:13,560

these people have been doing it on our budget for\h
All These Years and they're not sharing their work\h\h

280

00:29:13,560 --> 00:29:20,280

in fact as you've pointed out and as you and I\h
were appalled to watch on May 17th uh they're\h\h

281

00:29:20,280 --> 00:29:24,960

they're they're not telling the truth they're
trying deliberately to play Down things and

282

00:29:24,960 --> 00:29:29,520

they shouldn't be doing that and uh you know
we had that same remember on that same show

283

00:29:29,520 --> 00:29:35,220

Lou Elizondo was on with us and he was as appalled
as we were and and frankly he's been on the inside

284

00:29:35,220 --> 00:29:42,600

so I I just I I think it's not going to be drones
uh there may there are drones out there but

285

00:29:42,600 --> 00:29:48,240

don't look at this final resolution that we're
coming up on hopefully as going as one that lays

286

00:29:48,240 --> 00:29:54,120

out the Drone card and says okay nothing to see
here for the last eight decades it was all Chinese

287

00:29:54,120 --> 00:29:59,340

drones well if it was Chinese drones Ross then
they're also time traveling drones because they

288

00:29:59,340 --> 00:30:04,680

went back to the 40s and 50s and 60s and I don't
think we're talking about that I love the way

289

00:30:04,680 --> 00:30:09,000

you always go back to the history mate and it's
good it's one of your strengths I just love the

290

00:30:09,000 --> 00:30:16,380

fact that as you say there is this incredible
Rich Archive of sightings going back 70 80 100

291

00:30:17,460 --> 00:30:23,700

000 years you know phenomena that has been seen\h
by Humanity over many many years that cannot be\h\h

292

00:30:23,700 --> 00:30:29,940

explained including the kind of swarms that we're\h
talking about here let's go on to something else\h\h

293

00:30:29,940 --> 00:30:34,800

um yeah I don't know if people remember that\h
um oh gosh must have been last year sometime\h\h

294

00:30:36,000 --> 00:30:43,740

um the philosopher Sam Harris and now more\h
recently Eric Weinstein have both talked\h\h

295

00:30:43,740 --> 00:30:52,440

about the fact that they have been approached by\h
unnamed purported government officials offering\h\h

296

00:30:52,440 --> 00:31:00,000

to give them insights about uaps offering to\h
give them information about the secrets of uaps\h\h

297

00:31:00,600 --> 00:31:08,940

and um on a Lex Friedman podcast recently Harris\h
explained that um let's ask him about it I love\h\h

298

00:31:08,940 --> 00:31:14,100

Lex's podcasts by the way they're fantastic Harris\h
explained in response to Lex's questions about\h\h

299

00:31:14,100 --> 00:31:18,600

this I think Eric went down this Rabbit Hole\h
further than I did we were contacted by the\h\h

300

00:31:18,600 --> 00:31:23,940

same person it wasn't clear to me who this person\h
was or how this person got my cell phone number\h\h

301

00:31:24,660 --> 00:31:29,280

that they didn't seem like we were getting punked\h
I presume he means tricked there and say what that\h\h

302
00:31:29,280 --> 00:31:35,100
means this person there was a show that was done\h
uh in the last decade I believe maybe two decades\h\h

303
00:31:35,100 --> 00:31:41,160
ago called punk and it was basically I think\h
Ashton Kutcher who would literally it was like\h\h

304
00:31:41,160 --> 00:31:47,400
candid camera but it was on MTV and it was bunked\h
all right okay so so um Sam said this person\h\h

305
00:31:47,400 --> 00:31:52,800
seemed credible to me and Lex comes in and says\h
so they were talking to you about the release of\h\h

306
00:31:52,800 --> 00:31:58,440
different videos about uaps and Harris says yeah\h
this was when there was a big flurry of activity\h\h

307
00:31:58,440 --> 00:32:02,820
around this there was a New Yorker article on\h
UFOs there was rumors of Congressional hearings\h\h

308
00:32:02,820 --> 00:32:07,020
I think coming and there was the videos that\h
were being debunked or not and so this person\h\h

309
00:32:07,020 --> 00:32:13,080
contacted both of us I think around the same time\h
what happened Sam Harris says is that the person\h\h

310
00:32:13,080 --> 00:32:19,140
kept writing a check that he didn't cash it's\h
a great line like he kept saying next week I\h\h

311
00:32:19,140 --> 00:32:22,980

understand this is sounding spooky and you have
no reason to really trust me but next week I'm

312

00:32:22,980 --> 00:32:27,780

going to put you on a zoom call with people who
you will recognize and they're going to be former

313

00:32:27,780 --> 00:32:33,420

heads of the CIA people who within five seconds of
being on the zoom call you will know this is not

314

00:32:33,420 --> 00:32:39,900

a hoax I said great just let me know just send me
the zoom link and that happened maybe three times

315

00:32:41,580 --> 00:32:46,020

um and it's worth reading this in full because
it's important phone conversation and then a

316

00:32:46,020 --> 00:32:50,820

bunch of texts and then I think Eric spent more
time with this person and I haven't spoken about

317

00:32:50,820 --> 00:32:55,620

it I think he's spoken about it publicly so
it's not that my [] detector ever went

318

00:32:55,620 --> 00:33:00,300

off Sam Harris says in a really big way it's
just the thing never happened I lost interest

319

00:33:01,620 --> 00:33:08,040

and it's really interesting to me because I've
been approached by similar people purporting

320

00:33:08,040 --> 00:33:14,640

to be from the intelligence community and they've
never come up with the goods either and just part

321

00:33:14,640 --> 00:33:22,860

of me is wondering were Sam Harris and Eric
Weinstein punked or was there a deliberate

322

00:33:22,860 --> 00:33:27,480

attempt by somebody in government to basically
give them the impression that at some stage they

323

00:33:27,480 --> 00:33:32,460

were going to be I think the way Eric described
it Eric Weinstein seems to have suggested that

324

00:33:32,460 --> 00:33:38,040

at one stage he was being told they were going to
be flown to a Colorado Air Force Base they'd be

325

00:33:38,040 --> 00:33:45,540

blindfolded and they'd be taken and shown things
which frankly for anybody would be tempting but

326

00:33:45,540 --> 00:33:51,240

is it possible they were punked that they were
tricked that they were being pulled Along by a

327

00:33:51,240 --> 00:33:56,340

Walter Mitty there are Walter mitty's art there
and there are people who are purporting to have

328

00:33:56,340 --> 00:34:04,140

government connections who don't well were they
punked uh is it possible yeah I mean it's totally

329

00:34:04,140 --> 00:34:09,840

possible they were punked however um you know as
you mentioned you've you've had similar kinds of

330

00:34:09,840 --> 00:34:16,200

approaches and I I'm semi Infamous because the
same thing kind of happened to me during the

331

00:34:16,200 --> 00:34:21,660

Dark Skies series and one of the reasons that we have had some time off is by the way to our

332

00:34:21,660 --> 00:34:27,540

listeners and viewers Ross has been working on the US edition of in-plane sight where you've added a

333

00:34:27,540 --> 00:34:32,280

couple of new chapters and I've been working on preparing a show that we're going to do

334

00:34:32,280 --> 00:34:39,060

next uh probably for channel 7 Spotlight Australia where we look into the very case that you're that

335

00:34:39,060 --> 00:34:43,980

that I'm referring to where my co-creator on Dark Skies uh Brent Friedman and myself

336

00:34:44,580 --> 00:34:50,160

were either punked or approached by the Office of Naval intelligence I'm not going to say too

337

00:34:50,160 --> 00:34:55,020

much more about it it's a story that has been told a couple of times but what we're going to try to

338

00:34:55,020 --> 00:35:00,840

do is uh tell it in the greatest depth that it's ever been told and so I've given a lot of thought

339

00:35:00,840 --> 00:35:10,620

to this Ross I think don't bury your lead mate okay we have some amazing new information in that

340

00:35:10,620 --> 00:35:17,340

story we did and I'm quite excited to tell you yeah we do have a whole new piece of it and and

341

00:35:17,340 --> 00:35:23,100

the whole Dark Skies thing uh you could do an
entire show on what was in darks guys because

342

00:35:23,100 --> 00:35:28,140

that was it was like the most subversive show on
TV when it was on but you could also do a show

343

00:35:28,140 --> 00:35:33,300

about the behind the scenes of Dark Skies because
Brent and I were exposed to a lot of crazy things

344

00:35:33,300 --> 00:35:38,280

so that we're going to be talking about what do
I think about Harris though and and Weinstein

345

00:35:38,280 --> 00:35:43,500

look it sounds to me like they were approached
by somebody who at least sounded serious but

346

00:35:43,500 --> 00:35:49,560

it also sounds like they didn't get much proof
of that this person was who they said they were

347

00:35:50,280 --> 00:35:55,440

um in which case yeah I can see why they would
get uh tired of it I wanted to bring one other

348

00:35:55,440 --> 00:36:00,900

thing up though on on this topic because um one of
the things Harris said that I found particularly

349

00:36:00,900 --> 00:36:06,360

interesting which is kind of a sidebar issue here
but he said quote if this is true this is the

350

00:36:06,360 --> 00:36:12,480

biggest story in anyone's lifetime contact with
alien intelligence is the biggest story in human

351

00:36:12,480 --> 00:36:18,660

history why isn't that just totally captivating he\h
was referring to the fact that he'd kind of burned\h\h

352

00:36:18,660 --> 00:36:24,420

himself out and he couldn't quite figure out why\h
if this was so important he wasn't uh you know\h\h

353

00:36:24,420 --> 00:36:30,300

all up in arms about it and why his attention\h
was kind of drifting on the topic well I'm just\h\h

354

00:36:30,300 --> 00:36:36,480

going to tell you something that I bet you could\h
almost uh match I've written a UFO book I've done\h\h

355

00:36:36,480 --> 00:36:45,480

UFO series you and I have this podcast uh members\h
of my own family Russ my own family believe that\h\h

356

00:36:45,480 --> 00:36:50,940

I'm that I'm on to something they don't think I'm\h
crazy anymore if they ever did but I don't think\h\h

357

00:36:50,940 --> 00:36:55,980

a member of my family has even read the UFO book\h
I wrote and I don't think a member of my family\h\h

358

00:36:55,980 --> 00:37:02,400

has voluntarily without me pointing uh you know a\h
sharp object at their head actually watched a need\h\h

359

00:37:02,400 --> 00:37:07,500

to know episode now why is that it's not because\h
they don't think it's important it's not because\h\h

360

00:37:07,500 --> 00:37:13,020

they don't want to support me it's because there\h
is something about the topic that is so deeply\h\h

361

00:37:13,020 --> 00:37:18,540

disquieting to at least certain people some of
us like you and I are compelled we say this is

362

00:37:18,540 --> 00:37:24,840

a effin mystery that must be solved and we're
willing to devote our our time and resources to

363

00:37:24,840 --> 00:37:30,300

solving it but a whole lot of other people say
yeah I'll spot you that it's probably real but

364

00:37:30,300 --> 00:37:35,460

I don't really want to talk about it I don't
want to listen to a podcast about it and this

365

00:37:35,460 --> 00:37:41,040

is my own family so I mean I don't know do you
have any of the same responses yeah I do it's

366

00:37:41,040 --> 00:37:45,000

funny talking about again about Sam Harris I mean
one of the things he said in the same interview

367

00:37:45,000 --> 00:37:50,100

with Lex Friedman was that quote he had the
impression that no one had had the bandwidth

368

00:37:50,100 --> 00:37:56,340

to even be interested in this UFO UAP issue and
and he said he was amazed that he wasn't more

369

00:37:56,340 --> 00:38:03,060

interested himself in figuring out what was going
on and when he explained this one of the things

370

00:38:03,060 --> 00:38:09,660

that puzzled and slightly disappointed me was that
he seemed to be suggesting that he was buying all

371

00:38:09,660 --> 00:38:15,840

of the debunking explanations and he cited big
West's skeptical analysis of some of the recent

372

00:38:15,840 --> 00:38:24,120

videos and stated that some of those analyzes
seemed like credible debunking um I think he was

373

00:38:24,120 --> 00:38:31,500

talking about either the um the gimbal analysis
that um Midwest has done or maybe he was talking

374

00:38:31,500 --> 00:38:38,520

about the bokeh analysis that Midwest have done
on the 2019 pyramidal objects over the USS Omaha

375

00:38:38,520 --> 00:38:43,200

and it's interesting because if you balance
what Jay stratton's just told UFO alien con

376

00:38:44,040 --> 00:38:48,660

um Jay Stratton is basically saying that they
did verify a pyramidal objects that they're not

377

00:38:48,660 --> 00:38:55,200

easily dismissed as conventional drones and so my
takeaway with this is that there really does need

378

00:38:55,920 --> 00:39:02,280

it's time for ufology to step up and it's not
good enough just to basically put stuff out there

379

00:39:02,280 --> 00:39:10,200

and make assertions they need to prove it and so
if Nick West is providing debunking arguments

380

00:39:10,200 --> 00:39:17,040

think those need to be responded to you and I met
with Jeremy Corbell and he said categorically that

381

00:39:17,040 --> 00:39:23,160

whatever though pyramidal objects were over USS\h
Omaha they were not a production of bokeh now as\h\h

382

00:39:23,160 --> 00:39:29,460

I understand it and my brain can't deal with the\h
explanation that Mick um that Mick has to try and\h\h

383

00:39:29,460 --> 00:39:34,020

explain it here in this show as I understand\h
it Mick is basically saying that there is an\h\h

384

00:39:34,020 --> 00:39:40,080

artifact or a lens situation in the camera which\h
distorts the image to such a degree that creates\h\h

385

00:39:40,080 --> 00:39:45,480

a pyramidal object which is not pyramidal and that\h
essentially by implication these objects must be\h\h

386

00:39:45,480 --> 00:39:54,360

stars now whatever the truth is it needs to be\h
scientifically tested and verified and checked\h\h

387

00:39:54,360 --> 00:39:59,520

my worry about all of this is that you know\h
at the moment Sam Harris one of the greatest\h\h

388

00:39:59,520 --> 00:40:05,520

and most of an influential public intellectuals\h
in America if not the world is basically saying\h\h

389

00:40:05,520 --> 00:40:10,620

he's bought the debunking argument and that's\h
fair enough if that's the way Sam feels about it\h\h

390

00:40:11,460 --> 00:40:17,100

and maybe the reason why he feels that way is\h
because basically ufology is Duck and covering\h\h

391

00:40:17,640 --> 00:40:25,380

it's not responding to skeptical arguments that
are legitimately being put up from time to time by

392

00:40:25,380 --> 00:40:30,720

people like Mick West who some people in ufology
may not like but he needs to be addressed what

393

00:40:30,720 --> 00:40:36,420

he's doing is a very useful and real purpose he's
questioning which is what we should all be doing

394

00:40:36,420 --> 00:40:42,000

and and however much people want to believe
that he's not correct there's a conversation

395

00:40:42,000 --> 00:40:48,960

here that needs to be had don't you agree well
I do but uh I feel like it's kind of an unfair

396

00:40:48,960 --> 00:40:55,920

fight because what you have is you have Mick West
and and certain people who feel as he do who are

397

00:40:55,920 --> 00:41:02,580

considered Skeptics and and I agree that is a
valid and reasonable thing to do with anything

398

00:41:02,580 --> 00:41:10,080

that uh looks like it exists outside of normalcy
and then there's the rest of uh the people who are

399

00:41:10,080 --> 00:41:15,960

looking into it people like corbel and yourself
and myself and other people but it none of this

400

00:41:15,960 --> 00:41:23,160

takes into account the third rail if you will
which is the forces of governments around the

401

00:41:23,160 --> 00:41:30,480

world and militaries around the world who actually
have done work on this and if they shared even 1\h\h

402

00:41:30,480 --> 00:41:37,080

100th of the work that they've done in the last
eight decades it would have a very important and\h\h

403

00:41:37,080 --> 00:41:43,140

valuable impact on our ability to assess this
thing instead we're being left to do it on our\h\h

404

00:41:43,140 --> 00:41:49,740

own and and of course we will but you know as as
far as Harris though I just think if he's you know\h\h

405

00:41:49,740 --> 00:41:56,100

what uh if he feels that way he should bow out
and ask him to find somebody else to breathe in\h\h

406

00:41:56,100 --> 00:42:00,660

if that's the case I wish they would brief you
in because the truth is if I had to vote for\h\h

407

00:42:00,660 --> 00:42:06,120

one person who I wanted to be briefed in who Could
then brief me and it wasn't me I would I would go\h\h

408

00:42:06,120 --> 00:42:11,280

with you uh when we talk about the secrets of UAP
though you know you're going to brief people in\h\h

409

00:42:11,280 --> 00:42:18,960

on the secrets of uaps well think about it would
you really fly a couple of guys someplace take\h\h

410

00:42:18,960 --> 00:42:25,380

them into some kind of secret facility to brief
them on Chinese drones I I doubt absolutely yeah\h\h

411

00:42:25,380 --> 00:42:30,300

I just really doubt that that would happen
you know and I'm I'm being facetious here

412

00:42:31,080 --> 00:42:37,680

partially at least but if Hera I don't think
Harris and Weinstein are necessarily the right

413

00:42:37,680 --> 00:42:42,000

people for this anyway because the truth is if
Harrison Weinstein got briefed in and came back

414

00:42:42,000 --> 00:42:46,380

out and said well we can't really talk too much
about this but we have seen evidence that makes

415

00:42:46,380 --> 00:42:52,320

us believe X Y and Z uh most people would go okay
who is Harris who's Weinstein I mean I'd rather

416

00:42:52,320 --> 00:42:57,000

they take Stephen Colbert and Tucker Carlson in
and then let them go on the air and talk about it

417

00:42:57,000 --> 00:43:04,860

or something I I just feel like uh the idea that
these two guys who listen I enjoy hearing both of

418

00:43:04,860 --> 00:43:10,800

them talk and I think they're both very bright
intelligent men and I think that it's it's all

419

00:43:10,800 --> 00:43:17,280

positive that they're now focusing at least some
of their energies uh intellectual and otherwise on

420

00:43:17,280 --> 00:43:23,640

this topic but they're not the only guys that can
do this and if if uh if they're bored move on uh

421

00:43:23,640 --> 00:43:28,320

but and if there are people on the inside I don't know whether they're in private Enterprise or in the

422

00:43:28,320 --> 00:43:33,540

the government I would simply say to them those who are listening right now get your act together

423

00:43:34,500 --> 00:43:41,700

figure out what you can tell in terms of sharing your work start if you have to start slowly start

424

00:43:41,700 --> 00:43:47,940

sharing it but come on Tom DeLong was not the best possible person to share it with if indeed that's

425

00:43:47,940 --> 00:43:54,000

what happened and neither would Sam Harris or Eric Weinstein be the the go-to guys there's probably

426

00:43:54,000 --> 00:43:59,340

other uh people out there who could do this as well let's get this process going enough of this

427

00:43:59,340 --> 00:44:05,880

screwing around I'm tired of it let's let's go on to another issue now Bryce which actually raises

428

00:44:05,880 --> 00:44:11,880

some of the same issues um Avi lope Professor Avi Loeb from the Harvard University Galileo project

429

00:44:11,880 --> 00:44:21,120

and the all domain anomaly resolution office boss Sean Kirkpatrick published a new not yet peered

430

00:44:21,120 --> 00:44:28,140

reviewed article that was co-written together entitled physical constraints on unidentified

431

00:44:28,140 --> 00:44:36,420

aerial phenomena and a lot of people in ufology\h
took a huge swipe at Professor Loeb for basically\h\h

432

00:44:36,420 --> 00:44:41,880

collaborating with what they perceive to be\h
the enemy Sean Kirkpatrick the head of Arrow\h\h

433

00:44:41,880 --> 00:44:48,000

and frankly I think that's pure Isle I really do\h
I think it's important that there be scientific\h\h

434

00:44:48,000 --> 00:44:52,560

collaboration and if the head of the UFO\h
UAP investigation office in the Pentagon\h\h

435

00:44:52,560 --> 00:45:01,860

is prepared to sit down and write a paper that\h
discusses issues with what objects ordinarily\h\h

436

00:45:01,860 --> 00:45:08,880

do in the atmosphere and how they should behave\h
even how it's not capable of being explained with\h\h

437

00:45:09,660 --> 00:45:14,340

you know there's two explanations that come out\h
in the paper it spends a lot of time speculating\h\h

438

00:45:14,340 --> 00:45:18,780

about how and why an extraterrestrial\h
intelligence would end up in our backyard\h\h

439

00:45:19,440 --> 00:45:25,320

but it makes a whole lot of conclusions about the\h
physics the the limitations with our understanding\h\h

440

00:45:25,320 --> 00:45:30,000

of Newtonian physics behind the sightings that\h
have happened and one of the points that they\h\h

441

00:45:30,000 --> 00:45:36,000

make is that if in Newtonian physics if an object moves as fast as these objects do in the

442

00:45:36,000 --> 00:45:41,820

atmosphere these solid objects there should be friction and you know you should be seeing some

443

00:45:41,820 --> 00:45:49,560

kind of um a heat signature in the U.S Navy videos and they're trying in the paper to explain why

444

00:45:49,560 --> 00:45:55,200

there was none now a lot of people in the UFO Twitter World basically spend a large part of

445

00:45:55,200 --> 00:46:00,540

their time and energy attacking Sean Kirkpatrick and Avi Loeb for doing this collaboration

446

00:46:01,800 --> 00:46:08,700

and I just think that's silly because what they were doing was starting a scientific debate you

447

00:46:08,700 --> 00:46:14,520

know at the point that they were making was that highly maneuverable UFO sightings indeed appear

448

00:46:14,520 --> 00:46:20,700

to not abide by the known laws of physics as a bright Optical Fireball should be created by the

449

00:46:20,700 --> 00:46:27,060

abiding the ensuring friction and so what they were basically saying is that there's a useful

450

00:46:27,060 --> 00:46:33,420

limit on observations of UAP that that bound the hypothetical explanations and that's known science

451

00:46:34,200 --> 00:46:38,760

and essentially they're suggesting that there's
a problem with the sensors they're throwing it

452

00:46:38,760 --> 00:46:44,040

back on the sensors and they're suggesting that
for example one of the most common sets of data

453

00:46:44,040 --> 00:46:49,980

within the military Holdings comes from forward
looking infrared pods and they provide an accurate

454

00:46:49,980 --> 00:46:56,280

resolved image of relative thermal measurements
and typical UAP sightings they contend in their

455

00:46:56,280 --> 00:47:02,220

paper are too far away to get a highly resolved
image of an object and that the determination

456

00:47:02,220 --> 00:47:09,240

of the object's motion is limited by the lack of
range data now this is relevant Bryce because what

457

00:47:09,240 --> 00:47:15,840

they appear to be suggesting is that some of the
most important videos the gimbal video the go fast

458

00:47:15,840 --> 00:47:22,080

video all of these objects that have been recorded
on in some cases Fleur Imaging have limitations

459

00:47:22,080 --> 00:47:28,440

because of the limitations of those senses and
it's not good enough for us just to basically

460

00:47:28,440 --> 00:47:35,220

say well obviously it is a new type of physics
involved whatever these objects are they are

461

00:47:35,220 --> 00:47:40,020

um they're moving at speeds that humans have not
yet conceived therefore it must be aliens it must

462

00:47:40,020 --> 00:47:46,920

be anomalous it must be paranormal the simple fact
is that what Loeb and Kirkpatrick are doing is

463

00:47:46,920 --> 00:47:51,900

setting the argument because they're saying that
another possible explanation is that we're perhaps

464

00:47:51,900 --> 00:47:57,900

drawing conclusions from sensor systems which are
not equipped to provide us with the conclusions

465

00:47:57,900 --> 00:48:06,060

that we think we can validly draw do you see
my point I do um it's a very complex thing uh

466

00:48:07,080 --> 00:48:13,020

let's put it this way I'm not affiliated with
UFO Twitter although I hashtag them when I post

467

00:48:13,020 --> 00:48:19,740

on Twitter and and uh there are a lot of really
great people in it um I do think uh this sensor

468

00:48:19,740 --> 00:48:26,220

thing as I read the article kind of set me off a
little bit because when we talk about limitation

469

00:48:26,220 --> 00:48:32,160

of sensors all right and we say well maybe that's
the problem maybe that's why we have this issue

470

00:48:32,160 --> 00:48:37,620

and we can't really tell with what's going on
because the sensors are limited well maybe

471

00:48:37,620 --> 00:48:43,260

mean or maybe there are better sensors that again\h
have been highly classified and we're not allowed\h\h

472

00:48:43,260 --> 00:48:49,980

to even know they exist I still think that those\h
three videos that came out five years ago there's\h\h

473

00:48:49,980 --> 00:48:55,020

probably really great versions of them that exist\h
I've been told that there are I've been told that\h\h

474

00:48:55,020 --> 00:49:00,360

Congress has seen them so I'm not going to get\h
into sensor bashing here I also have a question is\h\h

475

00:49:00,360 --> 00:49:06,720

what is Sean Kirkpatrick's job why is he writing\h
an article with avilobe at this particular Point\h\h

476

00:49:07,500 --> 00:49:14,880

um I think that Sean Kirkpatrick ought to you know\h
if his job is to run the uh all domain anomaly\h\h

477

00:49:14,880 --> 00:49:20,820

resolution office um I don't think he needs to\h
be co-writing scientific papers he needs to be\h\h

478

00:49:20,820 --> 00:49:25,740

getting that office up on its feet lead lobbying\h
for as much money as he can get to investigate\h\h

479

00:49:25,740 --> 00:49:31,020

things and start reaching hell if you want Sean\h
if you're looking for somebody to write an article\h\h

480

00:49:31,020 --> 00:49:35,520

with you Ross and I volunteer right here and\h
there can I make one point though I mean the\h\h

481

00:49:35,520 --> 00:49:41,520

thing that did frustrate me about the RV load
Sean Kirkpatrick paper is that they drew their

482

00:49:41,520 --> 00:49:46,980

attention their their con their criticism of the
limitations of the data to the Fleur Imaging data

483

00:49:46,980 --> 00:49:52,140

which they know is the only data in the public
domain apart from the direct pilot evidence

484

00:49:52,860 --> 00:49:59,460

now we know that there is other sensor data
from the E2 Hawkeye from the USS Princeton

485

00:49:59,460 --> 00:50:05,820

and the nemis incident uh and from other aircraft
in the area we know that the data tapes the data

486

00:50:05,820 --> 00:50:11,760

disks have been downloaded and what I was looking
for in that article was an acknowledgment from

487

00:50:11,760 --> 00:50:18,360

Sean Kirkpatrick of aaro Ro that that there
is in fact other data and he didn't do that

488

00:50:18,360 --> 00:50:24,360

and I do think it is a legitimate criticism of
Professor Loeb that he didn't ask his co-author

489

00:50:25,020 --> 00:50:29,940

to actually say well where the hell is this other
data you know it's all very well focusing just on

490

00:50:29,940 --> 00:50:34,740

the floor Imaging data and making the criticism
that the floor Imaging data has its limitations

491

00:50:34,740 --> 00:50:40,920

if you're the head of the pentagon's UFO office\h
You by definition have access to all of the data\h\h

492

00:50:40,920 --> 00:50:47,520

including the data bricks which were taken off\h
the Nimitz and the Princeton and that's what I\h\h

493

00:50:47,520 --> 00:50:53,400

think requires explanation from this article I\h
think it's good frankly that the head of a UFO\h\h

494

00:50:53,400 --> 00:50:57,900

program in the Pentagon is being seen to be\h
having a conversation with an authoritative\h\h

495

00:50:57,900 --> 00:51:03,240

Harvard University scientist who's wanting\h
to discuss this issue but frankly if we're\h\h

496

00:51:03,240 --> 00:51:09,120

going to talk about data we do need to talk\h
about all of the data and not be selective and\h\h

497

00:51:09,120 --> 00:51:14,280

cherry picking and moreover I would have liked\h
to have seen in that article an acknowledgment\h\h

498

00:51:14,280 --> 00:51:19,920

that even conventional physics is beginning to\h
acknowledge that there is a possible explanation\h\h

499

00:51:19,920 --> 00:51:26,580

a hypothesis that's been hypothesized with the\h
alcubia drive which is the notion that one can\h\h

500

00:51:26,580 --> 00:51:34,080

distort Pace space time that with adequate energy\h
you can create a bubble in front of a craft which\h\h

501

00:51:34,080 --> 00:51:40,920

basically allows it to move through space and
time and I appreciate that's only a hypothesis in

502

00:51:40,920 --> 00:51:46,800

um quantum physics but it's one that a lot of
people are talking about and I would have liked

503

00:51:46,800 --> 00:51:55,500

to have seen the paper taking that kind of stuff
into consideration me too um look I have it's a

504

00:51:55,500 --> 00:52:00,420

complex thing as I said uh avilo Dr Loeb has
become the go-to guy the media needs someone

505

00:52:00,420 --> 00:52:05,160

to talk about this hey let's get lobe on the line
he's a Harvard guy and that'll sound really good

506

00:52:06,060 --> 00:52:12,720

um but as you pointed out the man is not a
journalist he is an astronomer uh from Harvard

507

00:52:13,500 --> 00:52:19,020

um and he knows a lot but he he doesn't know about
follow-up questions he doesn't know about putting

508

00:52:19,020 --> 00:52:26,100

holding people's feet to the fire you know I
urge uh again uh Sean Kirkpatrick to broaden his

509

00:52:26,100 --> 00:52:33,480

Horizons a little bit I'd like to see Loeb and his
Galileo project um come up with something I'd like

510

00:52:33,480 --> 00:52:39,060

to see what they're thinking I'm less interested
in in media collaborations but you know what

511

00:52:39,660 --> 00:52:44,220

um we're 50 minutes into this thing I think\h
we should think about wrapping it up and\h\h

512

00:52:44,220 --> 00:52:48,660

one of the things we promised to do and you\h
know thank you for your comments about the\h\h

513

00:52:48,660 --> 00:52:54,180

historical here I I do think that it's important\h
for us to communicate to the people who listen\h\h

514

00:52:54,180 --> 00:53:01,620

to us and people who watch us um that there\h
is a large context to this phenomenon and\h\h

515

00:53:01,620 --> 00:53:08,460

the attempts over the last uh five years to\h
portray it not only in government reports\h\h

516

00:53:08,460 --> 00:53:14,460

but frankly in the the ramifications the media\h
takes from those reports leaves people with the\h\h

517

00:53:14,460 --> 00:53:22,380

impression oh my God this is an acute problem that\h
started in 2004 and as I said uh earlier that's\h\h

518

00:53:22,380 --> 00:53:28,020

not the case you can pick any place in the last\h
eight decades and you'll find hundreds of cases\h\h

519

00:53:28,020 --> 00:53:35,040

if not thousands of cases every single year so\h
just looking back 50 years from uh today into\h\h

520

00:53:35,040 --> 00:53:42,360

1973 uh you know let's face it I just did a very\h
quick little run-through of some of the books I\h\h

521

00:53:42,360 --> 00:53:48,660

have on my shelf and I know you could do the same\h
in your book as one of the good ones but 1973 was\h\h

522

00:53:48,660 --> 00:53:54,060

a year that ushered in a UFO flap they were all\h
over the place they they were even happening in\h\h

523

00:53:54,060 --> 00:54:01,560

the Hudson Valley of New York uh uh 1973 gave\h
us kufos for the first time the center for UFOs\h\h

524

00:54:01,560 --> 00:54:07,500

studies run by Alan heineck and at that time there\h
were three other investigative groups going apro\h\h

525

00:54:07,500 --> 00:54:13,740

mufon and nicap these are four groups looking into\h
UFOs why because because there was something there\h\h

526

00:54:13,740 --> 00:54:18,660

uh and and you couldn't count on the government to\h
do it anymore because they had killed uh Project\h\h

527

00:54:18,660 --> 00:54:26,580

Blue Book in 1969. so people had to do then what\h
we are doing now we're going to step up when the\h\h

528

00:54:26,580 --> 00:54:32,880

government is coming short uh I know also that as\h
I said earlier the juiciest rumor of the year was\h\h

529

00:54:32,880 --> 00:54:38,460

the Nixon Gleason thing but there's also an\h
incredibly high profile abduction case that\h\h

530

00:54:38,460 --> 00:54:46,500

year the the Hicks uh Parker case uh from uh in\h
Pascagoula and that was a terrific one where two\h\h

531

00:54:46,500 --> 00:54:50,880

guys said they'd been abducted hardly the kind of guys to make this up the police put them in

532

00:54:50,880 --> 00:54:54,900

a room together and record them thinking they'll hear them talking about the hoax they're having

533

00:54:54,900 --> 00:55:00,600

and instead they're both talking about what it was like to be on board a craft so and and again

534

00:55:01,140 --> 00:55:07,440

thousands of cases just from that year so I just want to urge people anytime you feel like you're

535

00:55:07,440 --> 00:55:13,380

getting snowed get a good UFO historical book and start plowing through some of these cases and you

536

00:55:13,380 --> 00:55:18,480

will be amazed you'll be amazed by a couple things you'll be amazed that there are so many of these

537

00:55:18,480 --> 00:55:23,700

cases worth talking about and you'll be amazed that many of them sound pretty close to what

538

00:55:23,700 --> 00:55:30,960

we're experiencing now and uh you'll see that this is something that's not brand new uh it's

539

00:55:30,960 --> 00:55:35,880

something that's been going on it is a phenomenon and if it's Chinese drones and it means they're

540

00:55:35,880 --> 00:55:43,920

time traveling Chinese drones I I'm I I guess I guess and by the way I just give you this one

541

00:55:43,920 --> 00:55:50,520

there's also a great case from Australia which
you yourself have covered from 1973 it's one of

542

00:55:50,520 --> 00:55:55,440

the greatest cases I've ever heard once you give
us the short Strokes on that one I've made a lot

543

00:55:55,440 --> 00:56:01,140

of this case it's um my favorite part of mystery
Australia is the North West Cape Harold e Hall

544

00:56:01,140 --> 00:56:10,740

Naval communication station it's 25th of October
1973 and sadly Israel is under attack from various

545

00:56:10,740 --> 00:56:16,860

Arab states and there's a Mideast arab-israeli
war going on and what's happening in the White

546

00:56:16,860 --> 00:56:23,040

House is the Nixon presidency is falling apart
apparently President Nixon's drunk in bed and

547

00:56:23,040 --> 00:56:27,900

Henry Kissinger is up late at night having to
deal with the fact that they're very worried

548

00:56:27,900 --> 00:56:32,880

about the possibility that the Russians are going
to deploy troops into the Middle East and we could

549

00:56:32,880 --> 00:56:39,960

end up with a confrontation between Russia backing
Syria and other nations on one side and America

550

00:56:39,960 --> 00:56:47,280

backing Israel on the other and it could lead to a
nuclear war and so what Kissinger does and this is

551

00:56:47,280 --> 00:56:53,700

recorded in the White House records of the time\h
is he he orders a lifting in the Defcon status\h\h

552

00:56:54,540 --> 00:57:01,140

I think it went from Defcon 4 to Defcon\h
3 which is the highest defense condition\h\h

553

00:57:01,140 --> 00:57:07,860

for peacetime it's literally at the point where\h
troops are being deployed to be in position for\h\h

554

00:57:07,860 --> 00:57:16,020

war it's where aircraft are being deployed for\h
bombing and what happens at the same time is an\h\h

555

00:57:16,020 --> 00:57:21,840

order goes out to nuclear submarines around the\h
world American nuclear submarines with nuclear\h\h

556

00:57:21,840 --> 00:57:28,200

weapons to essentially be aware that the Defcon\h
status is being raised and that order of most\h\h

557

00:57:28,200 --> 00:57:34,500

Australians still to this day don't know this it\h
goes out from this base in Northwestern Australia\h\h

558

00:57:35,040 --> 00:57:40,140

and it goes out from these very very\h
low frequency antennae just sitting on\h\h

559

00:57:40,140 --> 00:57:44,280

the coast near the Indian Ocean and there are\h
these American Subs way way out in the Indian\h\h

560

00:57:44,280 --> 00:57:50,040

Ocean who because of the signal come further\h
to the surface to get the full command orders\h\h

561

00:57:50,760 --> 00:57:58,620

at around about the same time that that order goes
out the deputy commander of the base walks out and

562

00:57:58,620 --> 00:58:05,340

looks up over the base and there's a charcoal
black-colored sphere hovering over the base

563

00:58:06,360 --> 00:58:11,040

and we know this because he made a written
report of it to the Australian Air Force

564

00:58:11,040 --> 00:58:18,780

sightings investigators and so did a fireman on
the base guy called Bill Lynn and he drew it and

565

00:58:18,780 --> 00:58:25,200

described it to his family afterwards and said
that what he saw he thought was alien now that

566

00:58:25,200 --> 00:58:32,580

incident to this day has never been explained
ever and moreover even though the documents

567

00:58:32,580 --> 00:58:38,760

were provided officially to UAP investigators
in the 1980s I think my colleague Bill Chalker

568

00:58:38,760 --> 00:58:44,520

or my other colleague Keith basterfield those
documents that recorded these incidents appear

569

00:58:44,520 --> 00:58:51,060

to have disappeared from Australian archives but
they are real and we know they're real because the

570

00:58:51,060 --> 00:58:54,120

um the people who were involved at least
one of them has described the incident

571

00:58:54,660 --> 00:59:03,420

so yes price to underline the point that you're\n making even half a century ago October 1973 these\n

572

00:59:03,420 --> 00:59:10,380

incidents were occurring they were unexplained\n and might as you say they sure as hell weren't\n

573

00:59:10,380 --> 00:59:17,580

Chinese drones no they weren't listen uh I know\n we're wrapping up so let me just uh go back to one\n

574

00:59:17,580 --> 00:59:24,480

thing last year as we wrapped up in December of\n 2022 I think we did a show where we were talking\n

575

00:59:24,480 --> 00:59:32,940

about whether 2023 would be a Sizzle or a fizzle\n right uh in terms of UAP UFO disclosure and as \n

576

00:59:32,940 --> 00:59:37,500

recall correct me if I'm wrong but I took the\n sizzle it was going to sizzle it was going to\n

577

00:59:37,500 --> 00:59:43,140

be a big year and I believe you took the fizzle\n uh that that it was we were gonna put our toe up\n

578

00:59:43,140 --> 00:59:49,800

there and pull it back oh you still think it's a\n fizzle I still think it's a fizzle because frankly\n

579

00:59:49,800 --> 00:59:54,360

we're not seeing any hard evidence mate I mean\n basically at the moment I still think there's a\n

580

00:59:54,360 --> 00:59:59,940

pushback I still think that what's happening\n is that even though our friends Timber Chet\n

581

00:59:59,940 --> 01:00:06,720

and others are being shown images uh that we're\n not allowed to see we're not getting to see them\n

582
01:00:06,720 --> 01:00:11,700
we're not getting to see the evidence and when\n people like Abby Loeb and Sean Kirkpatrick publish\n

583
01:00:11,700 --> 01:00:17,640
papers they're not publishing the full data that\n we know is in possession of the Pentagon if there\n

584
01:00:17,640 --> 01:00:23,940
is to be a clear and full public Reckoning on this\n issue then all of this data needs to be revealed\n

585
01:00:23,940 --> 01:00:32,580
publicly and discussed if there's nothing to\n hide why why continue to lock it up I mean\n

586
01:00:32,580 --> 01:00:38,160
just today I noticed that um there's been another\n Revelation from Jacques valet's Forbidden Science\n

587
01:00:38,160 --> 01:00:46,320
Diaries volume Five and it turns out that um on\n the 26th of March 2004 Jacques valet recorded that\n

588
01:00:46,320 --> 01:00:55,500
um Eric Davis uh was told by Bush senior\n President Bush senior that what happened\n

589
01:00:56,640 --> 01:01:05,460
um at the uh uh in the Holloman film the um\n uh the claims of the uh is it the Holloman Air\n

590
01:01:05,460 --> 01:01:12,540
Force Base right um we're allegedly an alien\n craft allegedly landed was the real thing\n

591
01:01:13,320 --> 01:01:19,440

and apparently Eric was told there was a secret\h
project and the security was obscene well frankly\h\h

592

01:01:19,440 --> 01:01:26,640

whilst Jacques valet's diary is hearsay evidence\h
what should be happening to get that as evidence\h\h

593

01:01:26,640 --> 01:01:34,080

as data that we can analyze is people need to be\h
called Witnesses need to be called and questioned\h\h

594

01:01:34,080 --> 01:01:39,660

if he hasn't been already Eric Davis needs to\h
be put before a committee in the Congress and\h\h

595

01:01:39,660 --> 01:01:45,660

questioned under oath and so for that matter does\h
anyone who knows anything about the Holloman film\h\h

596

01:01:46,260 --> 01:01:54,240

why why do we piss around with second-hand\h
hearsay all the time that's my point that's\h\h

597

01:01:54,240 --> 01:02:00,360

what needs to be happening so I'll leave you with\h
this thought uh that is all true and eloquently\h\h

598

01:02:00,360 --> 01:02:09,180

stated as usual so I I'm looking for uh the idea\h
that it's possible that we're going to have to use\h\h

599

01:02:09,180 --> 01:02:15,000

some tools that have been used before to pry all\h
this information out maybe it's a time for real\h\h

600

01:02:15,000 --> 01:02:23,880

activism because uh UFO uh Slash UAP openness\h
transparency disclosure has never really caught\h\h

601

01:02:23,880 --> 01:02:28,140

the public on fire maybe for the very reason I was
talking about when I came to my family to watch

602

01:02:28,140 --> 01:02:35,280

our show but a little activism could go a long way
toward demanding some of the things that you're

603

01:02:35,280 --> 01:02:40,380

talking about and now that we're actually speaking
more freely about it maybe that's the time and

604

01:02:40,380 --> 01:02:47,640

maybe maybe as you know as a journalist one good
strong leak could quite a difference make I mean

605

01:02:47,640 --> 01:02:54,240

look at the uh look at the Vietnam papers that
came out in the in the 60s I mean anything could

606

01:02:54,240 --> 01:02:59,700

happen so I'm kind of hopeful I got I'm still
on the sizzle wagon I think something's gonna

607

01:02:59,700 --> 01:03:05,160

happen I don't know what it is it's going to be
surprising and I'm ready to say we're out of here

608

01:03:06,480 --> 01:03:12,660

well hopefully we'll know sometime this year
fizzle or Sizzle I think that's all for need
