

1
00:00:05,210 --> 00:00:07,920

[Music]

2
00:00:07,920 --> 00:00:13,340

thank you

3
00:00:13,340 --> 00:00:19,260

hello and welcome back to this latest edition
of need to know I'm Ross Coulter and I've

4
00:00:19,260 --> 00:00:24,760

been gallivanting around Australia for my
day job for channel 7 TV Australia and earning

5
00:00:24,760 --> 00:00:30,510

a decent crust telling stories on the road
and my good friend and colleague Bryce is

6
00:00:30,510 --> 00:00:36,460

able Bryce I hear you're going on strike in
Hollywood is that right it's not a sure thing

7
00:00:36,460 --> 00:00:41,200

you're talking about the writer's Guild of
America or the WJ of which I've been a member

8
00:00:41,200 --> 00:00:45,730

for almost I think 30 years now was even on
the board of directors back in the past but

9
00:00:45,730 --> 00:00:53,960

yeah we negotiate with the the producers in
town for a new pattern of uh payments and

10
00:00:53,960 --> 00:00:58,460

every time there's a discussion like this
the new technology always comes up I remember

11
00:00:58,460 --> 00:01:02,640

the first writer skilled thing I was involved
in they were discussing what to do about VHS

12
00:01:02,640 --> 00:01:07,909
Dave so you can see that you know things have
gone on now today we're talking about streaming

13
00:01:07,909 --> 00:01:12,750
and artificial intelligence and things like
that so it is always a Brave New World and

14
00:01:12,750 --> 00:01:18,190
yet I would still go back to the bottom line
Ross which is uh you're never going to get

15
00:01:18,190 --> 00:01:23,870
a writer who can write with the same emotion
and compelling power as a real-life human

16
00:01:23,870 --> 00:01:28,570
being at least I hope so and I I think that's
where we stand right now but anyway yeah it

17
00:01:28,570 --> 00:01:32,640
doesn't happen until May 1st when the contract
runs out and we don't know if there'll be

18
00:01:32,640 --> 00:01:37,970
a strike but it's possible it's possible I'm
hoping I'm hoping chat GPT doesn't put us

19
00:01:37,970 --> 00:01:42,479
out of a job soon but I'll tell you I had
a funny incident while I was traveling I wanted

20
00:01:42,479 --> 00:01:47,409
to tell you about because picture this I'm
I'm in an airport in the middle of um the

21
00:01:47,409 --> 00:01:54,070

Gold Coast in Queensland which is a bit like
Las Vegas it's a very glitzy um tropical part

22

00:01:54,070 --> 00:02:00,810

of Australia and my crew and I as usual the
planes late there's two hour delay and I go

23

00:02:00,810 --> 00:02:06,200

and buy some drinks at the bar and as you
know I've written books on Outlaw motorcycle

24

00:02:06,200 --> 00:02:11,300

gangs and I have to be careful because there's
a boss of an outlaw motorcycle gang who once

25

00:02:11,300 --> 00:02:17,300

threatened to to chainsaw my head off he was
slightly angry with me and I turn around and

26

00:02:17,300 --> 00:02:20,760

literally I've got these drinks like this
and I turn around at the bar and I look up

27

00:02:20,760 --> 00:02:26,690

and this is absolutely gigantic guy in my
personal space looking straight at me and

28

00:02:26,690 --> 00:02:31,300

I'm thinking I'm about to get attacked I'm
I'm listening for the were of the Husqvarna

29

00:02:31,300 --> 00:02:38,170

and the smell of two-stroke anyway this guy
puts out his meaty hand and he says you're

30

00:02:38,170 --> 00:02:43,290

Ross calls I had you and I went yeah yeah
yeah I am and he went love need to know absolutely

31

00:02:43,290 --> 00:02:49,860

loved me to know keep it up mate keep it up
and uh boy that's a happy ending that could

32
00:02:49,860 --> 00:02:55,260
have gone into a very bad bad and by the way
Ross I just have to say this puts you in very

33
00:02:55,260 --> 00:03:01,500
elite company because the only other journalist
I'm aware of who you know did an early uh

34
00:03:01,500 --> 00:03:06,650
look into Outlaw motorcycle gangs and lived
to tell if it was Hunter Thompson so that

35
00:03:06,650 --> 00:03:11,950
puts you in good I love I love Fear and Loathing
in Las Vegas in fact Hunter's book was one

36
00:03:11,950 --> 00:03:17,120
of my early favorites now let's do some work
Bryce because this is an amazing week we've

37
00:03:17,120 --> 00:03:25,049
got an auspicious uh event happening in four
or five days which is yet another UAP hearing

38
00:03:25,049 --> 00:03:32,409
before the Congress the armed services Committee
of the Senate uh a subcommittee called the

39
00:03:32,409 --> 00:03:38,799
emerging threats subcommittee of the Senate
armed services committee on Wednesday the

40
00:03:38,799 --> 00:03:47,060
19th of April at 10 30 we'll call a witness
Dr Sean Kirkpatrick the director of Arrow

41
00:03:47,060 --> 00:03:54,761

the all domain anomaly resolution office which is the pentagon's UAP office and this is an

42

00:03:54,761 --> 00:04:02,879

opportunity for uh Mr Kirkpatrick for the first time to be questioned in public about

43

00:04:02,879 --> 00:04:09,739

what he's found out in his tenure as the boss of Arrow are you expecting much Bryce because

44

00:04:09,739 --> 00:04:17,680

frankly I'm not well it depends you have to just sort of Define your expectations uh the

45

00:04:17,680 --> 00:04:21,919

one thing I will say about this uh you know this hearing that we're having and by the

46

00:04:21,919 --> 00:04:27,610

way this show folks is our sort of our pre-hearing show and we'll be doing one immediately after

47

00:04:27,610 --> 00:04:33,270

the hearing if there's any big news made but what the one thing I do take some hope in

48

00:04:33,270 --> 00:04:39,729

is that this committee chair is Senator Kirsten gillibrand of New York and she in my view

49

00:04:39,729 --> 00:04:47,780

is a UAP boss I mean when I see this woman talk about uh the subject and how she holds

50

00:04:47,780 --> 00:04:54,770

people's feet to the fire and the question she raises I'm a big fan and so even if Sean

51

00:04:54,770 --> 00:04:59,930

Kirkpatrick has been dispatched there to basically say nothing to see here which I don't think

52

00:04:59,930 --> 00:05:04,860

exactly is what he's going to do but even if he's not there to make big news it doesn't

53

00:05:04,860 --> 00:05:08,820

mean that the questions won't be interesting he can refuse to answer them or he can he

54

00:05:08,820 --> 00:05:14,060

can say I can only talk about that in closed session or whatever but I expect the committee

55

00:05:14,060 --> 00:05:19,680

chair to set a tone of we need to get some accountability here so in that regard I am

56

00:05:19,680 --> 00:05:26,360

looking for some news to be made in in that specificity and by the way because it always

57

00:05:26,360 --> 00:05:31,080

comes up and I feel like I'm doing my duty here no one ever seems to know how to what

58

00:05:31,080 --> 00:05:39,710

her real name is it's Kirsten k-i-r-s-t-n gillibrand g-i-l-l-i-b-r-a-n-d and if you

59

00:05:39,710 --> 00:05:45,010

want to follow her on Twitter because she is the chair of this coming up it's at sen

60

00:05:45,010 --> 00:05:51,410

for Senator at sen gillibrand and um I think she's worth following anyway so I'm hopeful

61

00:05:51,410 --> 00:05:57,440

that she'll make a little noise well as you
and I both know she held the blowtorch against

62
00:05:57,440 --> 00:06:02,380
a senior official who clearly hadn't been
properly briefed when he first appeared before

63
00:06:02,380 --> 00:06:06,810
her committee about a year ago and she has
already intimated that she's not going to

64
00:06:06,810 --> 00:06:10,910
be frightened of asking questions there's
a great quotation from her doing the rounds

65
00:06:10,910 --> 00:06:15,310
at the moment where she was asked about crash
retrievals and whether she'd have the cajonas

66
00:06:15,310 --> 00:06:21,400
to ask about Crash materials crash materials
and she said we should never be afraid of

67
00:06:21,400 --> 00:06:27,250
what we don't know I know nothing about Crash
materials I don't even know if they exist

68
00:06:27,250 --> 00:06:32,319
if there are any of course they should be
studied if we don't know what it is then it

69
00:06:32,319 --> 00:06:41,680
is not an appropriate moment to say well then
let's not look at it I mean could there be

70
00:06:41,680 --> 00:06:47,350
anything more basic and sensible than what
you just said all right if there's a lot of

71
00:06:47,350 --> 00:06:51,970

stuff out there you don't know what it is
and you probably have and you represent the

72
00:06:51,970 --> 00:06:57,980
people of the country then you probably ought
to look into it to say oh gosh here's something

73
00:06:57,980 --> 00:07:04,190
that's a complete mystery to us let's not
talk about it has been tried uh for the last

74
00:07:04,190 --> 00:07:09,460
75 years off and on here in the United States
anyway and I think it's time to end that and

75
00:07:09,460 --> 00:07:14,930
I believe that there seems to be a growing
consensus among at least people on the intelligence

76
00:07:14,930 --> 00:07:20,069
and armed services committees that enough
is enough and it's time to start asking the

77
00:07:20,069 --> 00:07:24,961
people uh who who know more to share their
work a little bit more and and I know that

78
00:07:24,961 --> 00:07:30,100
Ross you you yourself have got some sources
who have been telling you that um that's exactly

79
00:07:30,100 --> 00:07:36,820
what's going on look I look I'm very cautiously
optimistic but I'm not optimistic that we're

80
00:07:36,820 --> 00:07:42,030
going to see a breakthrough in this particular
hearing because I'm told that Mr Kirkpatrick

81
00:07:42,030 --> 00:07:47,310

in particular is a person who's reluctant
to make public admissions about what I frankly

82

00:07:47,310 --> 00:07:53,599

know he has been briefed on I am told that
Sean Kirkpatrick has been briefed on Crash

83

00:07:53,599 --> 00:08:00,850

retrievals and on reverse engineering programs
happening inside the US I'm an absolutely

84

00:08:00,850 --> 00:08:06,180

no doubt about that I've heard it from multiple
sources so whether Mr Kirkpatrick chooses

85

00:08:06,180 --> 00:08:12,280

to speak publicly about this is going to be
his um his prerogative of course and I suspect

86

00:08:12,280 --> 00:08:17,630

what we're going to hear a lot of is I can't
discuss that in this forum oh I got a question

87

00:08:17,630 --> 00:08:24,259

I need to go away and I have a question for
you about about what he can and cannot say

88

00:08:24,259 --> 00:08:30,220

um I just found out and I think that you can
confirm he's not even going to be under oath

89

00:08:30,220 --> 00:08:36,640

when he testifies that's right and yeah and
what happens right but we'll we'll Ron Moultrie

90

00:08:36,640 --> 00:08:42,289

and Scott Bray weren't under oath last year
so but why what's the rationale for for not

91

00:08:42,289 --> 00:08:47,339

putting people under oath to I think it's
a courtesy thing from the Congress that that

92

00:08:47,339 --> 00:08:51,390
essentially you're indicating to the witness
that they that you trust them because it's

93

00:08:51,390 --> 00:08:57,170
still a breach of congressional rules it would
still be a contempt of the Congress to lie

94

00:08:57,170 --> 00:09:03,230
to the Congress even if you're not under oath
but the crime of perjury under oath is a completely

95

00:09:03,230 --> 00:09:08,810
separate crime from misleading the Congress
by giving false information to Congress but

96

00:09:08,810 --> 00:09:13,519
I think that with friendly or Pursuit what
are perceived as friendly government Witnesses

97

00:09:13,519 --> 00:09:18,510
government bureaucrats the tradition generally
has been not to put them under oath there

98

00:09:18,510 --> 00:09:23,690
was a lot of theatrical putting under oath
during the church commission investigations

99

00:09:23,690 --> 00:09:29,640
into the CIA in the 1970s but more often than
not unless they're expecting that a witness

100

00:09:29,640 --> 00:09:34,730
is going to be truculent and intransigent
they generally give them the benefit of the

101

00:09:34,730 --> 00:09:41,291

diet and don't make them swear well okay um
that sounds reasonable except that if you

102

00:09:41,291 --> 00:09:47,610

look at the history of the last 75 years I
think giving anybody testifying from the U.S

103

00:09:47,610 --> 00:09:53,890

government about the status of UAP or UFO
reality uh I don't think they deserve the

104

00:09:53,890 --> 00:09:59,279

benefit of the doubt I think that they should
absolutely be under oath and and if if we

105

00:09:59,279 --> 00:10:04,370

ever get any of these uh committee chairs
um on our show to talk about it that would

106

00:10:04,370 --> 00:10:13,080

be my first question and in fact I I I personally
I I I just I just laugh at the whole idea

107

00:10:13,080 --> 00:10:17,019

that the US government is going to bring up
officials who are going to allow themselves

108

00:10:17,019 --> 00:10:22,090

to be questioned and suddenly reveal the truth
of what we all know is going on in behind

109

00:10:22,090 --> 00:10:26,610

the scenes I just don't think it's going to
come that easily I I think we're just going

110

00:10:26,610 --> 00:10:32,690

to have to wait for um truth tellers not whistleblowers
but truth tellers to come from within the

111

00:10:32,690 --> 00:10:38,430

establishment to reveal more and I know that some of those people have come forward I know

112

00:10:38,430 --> 00:10:43,149

that they've given evidence particularly to the Senate armed services committee there

113

00:10:43,149 --> 00:10:48,780

have been secret hearings of the sasc and the ssci and the various respective house

114

00:10:48,780 --> 00:10:54,959

committees for both committees where Witnesses have given evidence and I know for a fact

115

00:10:54,959 --> 00:10:59,760

claims have been made that there is a crash retrieval program that the United States is

116

00:10:59,760 --> 00:11:06,320

in possession of non-human technology now whether these claims are true of course there's

117

00:11:06,320 --> 00:11:11,500

another issue entirely but we do know that the Committees have been given that evidence

118

00:11:11,500 --> 00:11:15,631

the big question now is whether we're going to go through the silly theatrics for the

119

00:11:15,631 --> 00:11:22,350

next 30 years as the people like Dr Kirkpatrick duck innovate and weave and try and avoid

120

00:11:22,350 --> 00:11:27,200

answering the question I I don't see that happening and by the way I think we've just

121

00:11:27,200 --> 00:11:32,500

we've had enough acronyms around here we've got arrow and we had aimsog and and of course

122

00:11:32,500 --> 00:11:39,000

we went from UFO to UAP well we have a new one which is nhi which is being used more

123

00:11:39,000 --> 00:11:43,790

and more and uh for those of you just joining the conversation that would stand for non-human

124

00:11:43,790 --> 00:11:51,120

intelligence and Ross is quite correct there are people who as we understand it have testified

125

00:11:51,120 --> 00:11:57,399

behind closed doors uh to various committees who claim there is non-human intelligence

126

00:11:57,399 --> 00:12:04,060

uh responsible for some of these uh crash retrievals that have gone on so there is a

127

00:12:04,060 --> 00:12:09,490

lot laying under the surface there and it and it it's it's interesting to look at how

128

00:12:09,490 --> 00:12:13,800

that's going to lay out now the one thing I would say I agree with you Sean Kirkpatrick

129

00:12:13,800 --> 00:12:18,029

or anyone else Moultrie and Bray when they came out weren't likely to come out and say

130

00:12:18,029 --> 00:12:23,490

okay let me tell you what the crown jewels of the U.S government's secret program about

131

00:12:23,490 --> 00:12:28,640

UFOs is that's not going to happen but but
what is happening I believe is the beginning

132

00:12:28,640 --> 00:12:34,880

of a process and the process is uh to bring
in Sean Kirkpatrick who is the new leader

133

00:12:34,880 --> 00:12:41,880

of a new organization dedicated to studying
UAP and I think he lays down the predicate

134

00:12:41,880 --> 00:12:47,870

he basically defines the field he allows people
to do a little fencing in public and and talk

135

00:12:47,870 --> 00:12:53,540

about it well there will be other Witnesses
he's just the first guy out of the box because

136

00:12:53,540 --> 00:12:57,850

he gets that honor by running the program
but what happens when we start calling in

137

00:12:57,850 --> 00:13:03,000

some of those whistleblowers do they only
testify behind closed doors or do you think

138

00:13:03,000 --> 00:13:07,790

we'll see some of those whistleblowers who
have since said some of those fantastic things

139

00:13:07,790 --> 00:13:12,690

um in in classified hearings do you think
we're going to see some of those people saying

140

00:13:12,690 --> 00:13:17,579

some of the same things in public hearings
or is that just too much to hope for we're

141

00:13:17,579 --> 00:13:22,570

certainly not going to see it in this hearing coming this Wednesday on April the 19th what

142

00:13:22,570 --> 00:13:28,779

I do think is there is going to probably be a hearing before one of the house committees

143

00:13:28,779 --> 00:13:33,630

probably the oversight committee or maybe the house um Services committee that's still

144

00:13:33,630 --> 00:13:39,760

being negotiated that I would be looking at a date around the 13th of June that's what

145

00:13:39,760 --> 00:13:44,269

I'm told I'm told it's going to take a few weeks to put this together but the date that's

146

00:13:44,269 --> 00:13:51,580

been put into my head by certain sources is the 13th of June um I just think maybe what

147

00:13:51,580 --> 00:13:56,310

we should do Bryce before we get into the nitty-gritty of what we think the question

148

00:13:56,310 --> 00:14:01,680

should be that are being asked and to give our audience some of the history of the investigations

149

00:14:01,680 --> 00:14:06,350

by Congress into the UAP issue I just think we should maybe also bring the audience's

150

00:14:06,350 --> 00:14:10,339

attention to some of the more important news that's emerged in the last year absolutely

151

00:14:10,339 --> 00:14:16,900

as you know one of the things we try and do
in the news is flag what we think are some

152

00:14:16,900 --> 00:14:22,040

of the key issues that are as I would say
in Australia bobbing up in the custard and

153

00:14:22,040 --> 00:14:26,940

there's a story that's come up that I think
has kind of missed a lot of people's attention

154

00:14:26,940 --> 00:14:33,190

and I think it's important and it sounds crazy
it's extraordinary claims made by a guy who

155

00:14:33,190 --> 00:14:39,620

calls himself Scott Andrews I know Andrews
is not his real name he's a former U.S Senior

156

00:14:39,620 --> 00:14:45,089

U.S soldier decorated intelligence officer
who conducted Global counter-terrorism operations

157

00:14:45,089 --> 00:14:50,579

over 36 years in the military shortly after
coming back from an overseas Mission he began

158

00:14:50,579 --> 00:14:56,930

to suffer from rare life-threatening ailments
rather than succumbing he he instead began

159

00:14:56,930 --> 00:15:04,400

to experience special inexplicable abilities
we're told such as remote viewing and his

160

00:15:04,400 --> 00:15:10,759

body began to heal now this is not me making
these wacky claims these are claims that that

161

00:15:10,759 --> 00:15:16,259

are actually backed by people like Lou Elizondo
but also by sources that I've been speaking

162

00:15:16,259 --> 00:15:22,600

to inside uh sections of the US government
and intelligence Community who tell me that

163

00:15:22,600 --> 00:15:28,880

this is a real story and apparently Andrews
is claiming that he came across a file compiled

164

00:15:28,880 --> 00:15:35,880

for him by his late father it contained records
from a past he didn't remember documents indicating

165

00:15:35,880 --> 00:15:42,320

he'd been removed from school every week every
school from school for weeks every year from

166

00:15:42,320 --> 00:15:47,860

the first through to 12th grade he'd received
believe it or not an honorable discharge from

167

00:15:47,860 --> 00:15:54,050

the U.S Air Force presumably as a child and
he'd worked in space intelligence Communications

168

00:15:54,050 --> 00:16:00,810

as a minor and yet he has no memory of having
served in the U.S Air Force I mean this is

169

00:16:00,810 --> 00:16:06,330

wacky stuff Bryce what's up with that now
I I have to tell you uh over the years as

170

00:16:06,330 --> 00:16:11,110

someone who's uh produced some UFO stuff and
and been writing about it here in Hollywood

171

00:16:11,110 --> 00:16:15,160

I've had various people over the years come to me and and tell me stories like that and

172

00:16:15,160 --> 00:16:19,050

go man this is the real deal and you got to listen to me and then they tell me something

173

00:16:19,050 --> 00:16:23,850

like that and I'd say yeah I I don't know I don't think we can give that the Ring Of

174

00:16:23,850 --> 00:16:29,410

Truth and yet what you just said which sounds so insane this is what Lou Elizondo tweeted

175

00:16:29,410 --> 00:16:35,340

about it he said quote I'm aware of all the facts regarding this true story and to call

176

00:16:35,340 --> 00:16:42,290

it a bombshell story would be an understatement buckle up I mean my God and I've spoken to

177

00:16:42,290 --> 00:16:48,269

other people who know the um person calling himself Scott Andrews and they vouch for him

178

00:16:48,269 --> 00:16:54,330

and they say that his story has huge credibility in their View and it's just interesting to

179

00:16:54,330 --> 00:17:00,940

me because if you remember I don't know whether you're a fan of the Tom DeLonge fiction Thrillers

180

00:17:00,940 --> 00:17:06,530

that Tom Delaware wrote called secret machines and it's really interesting because in one

181

00:17:06,530 --> 00:17:15,010

of those books he talks uh there's a character
who's a military pilot who became an astronaut

182

00:17:15,010 --> 00:17:22,880

who ends up flying in the Thriller the um
alien craft from Groom Lake and it turns out

183

00:17:22,880 --> 00:17:28,280

there's there's hints in the book that he
and another friend who's also a pilot were

184

00:17:28,280 --> 00:17:33,630

as children recognized as gifted in some way
and that they were taken away and called away

185

00:17:33,630 --> 00:17:39,970

into some program run by the U.S Air Force
and yet again Tom DeLong God bless him he

186

00:17:39,970 --> 00:17:45,510

seems to be on the on the right track now
I'm not saying that this alleged Scott Andrews

187

00:17:45,510 --> 00:17:53,410

guy's story is true but interesting influential
people are telling me including Elizondo that

188

00:17:53,410 --> 00:17:58,150

that we should take this a lot more seriously
than it has been done to date so I just wanted

189

00:17:58,150 --> 00:18:04,180

to draw people's attentions to that story
because it really does sound like an episode

190

00:18:04,180 --> 00:18:10,240

of stranger things it totally does experiment
it's such an interesting story though Ross

191

00:18:10,240 --> 00:18:15,659

I just want to make sure we doubly uh underline
this what's the source of the story currently

192

00:18:15,659 --> 00:18:21,980

that is it's a book that's been written by
this guy who calls himself Scott Andrews um

193

00:18:21,980 --> 00:18:26,559

Simon and Schuster are the Publishers it's
not entirely clear to me whether the book's

194

00:18:26,559 --> 00:18:31,549

been written yet or whether the puff that
was released by Simon and Schuster the publisher

195

00:18:31,549 --> 00:18:38,039

is essentially previewing the fact that they've
signed up to this guy but I'm told he's one

196

00:18:38,039 --> 00:18:44,720

of several people from the intelligence Community
who are coming forward and this is where it's

197

00:18:44,720 --> 00:18:49,919

all getting very interesting because I do
know for a fact because I've spoken to some

198

00:18:49,919 --> 00:18:55,130

of them there are people who are coming forward
from inside the intelligence Community inside

199

00:18:55,130 --> 00:19:01,330

the military who are saying that they have
knowledge of an experience of programs related

200

00:19:01,330 --> 00:19:07,720

to uaps and some of these people have given
evidence to congressional committees Senate

201

00:19:07,720 --> 00:19:12,340

committees has committees it's getting very
very interesting because we've got this kind

202

00:19:12,340 --> 00:19:17,410

of theatrical play even in the UAP hearing
that's happening next week there's going to

203

00:19:17,410 --> 00:19:26,510

be a a confidential session as well as the
public session now frankly I don't think there's

204

00:19:26,510 --> 00:19:33,000

any good reason if there is an nfi and non-human
intelligence I appreciate that we might need

205

00:19:33,000 --> 00:19:38,929

to keep technology sources means methods things
like that that are genuinely a matter of National

206

00:19:38,929 --> 00:19:45,059

Security confidential we don't want the Russians
or the Chinese to have access to technology

207

00:19:45,059 --> 00:19:50,780

that a great country like the US can have
access to first I'd rather a genuinely Democratic

208

00:19:50,780 --> 00:19:55,750

country than an authoritarian dictatorship
has control and access of this technology

209

00:19:55,750 --> 00:20:03,539

but why can't we know at least a tacit admission
by a Sean Kirkpatrick or someone else that

210

00:20:03,539 --> 00:20:09,520

yes there is indeed a non-human intelligence
if that of course is the case well the first

211

00:20:09,520 --> 00:20:14,880

thing I'd want to say to Sean Kirkpatrick
if I was uh Senator Gillibrand is I just say

212

00:20:14,880 --> 00:20:21,039

look this is a public hearing um Sean and
what we'd like you to explain to us is what

213

00:20:21,039 --> 00:20:26,870

criteria you'll be using as we ask you questions
as to whether you will answer them or whether

214

00:20:26,870 --> 00:20:32,990

you will refer them to the classified hearing
so that our our audience and and the the people

215

00:20:32,990 --> 00:20:40,789

can actually evaluate your answers because
um if if all he I mean I guess it illustrates

216

00:20:40,789 --> 00:20:45,360

the thing that you and I have said many times
on this program nobody's gonna come out and

217

00:20:45,360 --> 00:20:52,530

say Here's a couple of terabytes of UFO videos
and UFO photos and classified documents have

218

00:20:52,530 --> 00:20:57,159

added that's not going to happen so again
I don't want to look like I'm getting giddy

219

00:20:57,159 --> 00:21:00,710

because the government is having hearings
because they've talked about and actually

220

00:21:00,710 --> 00:21:06,740

done this in the past um I'm simply saying
it's part of the scenario that's out there

221

00:21:06,740 --> 00:21:12,630

so anything that Sean Kirkpatrick says that leads us into a further investigation of what

222

00:21:12,630 --> 00:21:18,150

the reality of this issue is I'm in favor of that and I do think it's kind of interesting

223

00:21:18,150 --> 00:21:21,940

with the kind of people that are talking to you and and frankly to me as well over the

224

00:21:21,940 --> 00:21:30,320

years there seems to be this whole other story that should be confirmed if there's an nhi

225

00:21:30,320 --> 00:21:36,779

non-human intelligence interacting with humanity and has been doing so for years it would be

226

00:21:36,779 --> 00:21:41,610

appropriate to at least admit that now and not continue to say that people who believe

227

00:21:41,610 --> 00:21:49,140

that are cuckoo so that part I would like to be public now the detail part um you know

228

00:21:49,140 --> 00:21:54,400

we're going to have to work out those details but again how is it that we've had those three

229

00:21:54,400 --> 00:21:59,910

little clips from the Navy videos over the years but nothing more how is it that we never

230

00:21:59,910 --> 00:22:05,880

heard about or saw the videos from those balloons so-called balloons that were shot down in

231

00:22:05,880 --> 00:22:11,909

February what's going on here what do we have to do to get our own government to share and

232

00:22:11,909 --> 00:22:18,059

confirm this reality if in fact it is a reality what's going to be that process and there

233

00:22:18,059 --> 00:22:24,900

has been Bryce intimations from people in the know such as Professor Gary Nolan Gary

234

00:22:24,900 --> 00:22:31,090

Nolan did an interview with um the good travel show with Matt Ford this week and asked how

235

00:22:31,090 --> 00:22:37,021

he would categorize the extraordinary stories that he says he knows have been shared under

236

00:22:37,021 --> 00:22:44,630

whistleblower protection with both arrow and the Congress Dr Nolan replied crash retrieval

237

00:22:44,630 --> 00:22:53,300

and contact I'll say that again crash retrieval and contact that's contact presumably with

238

00:22:53,300 --> 00:22:59,510

ETS and nhi this is somebody who I know I've spoken to Gary about this privately who I

239

00:22:59,510 --> 00:23:06,890

know has spoken to Witnesses who've come from inside with knowledge of the program and Gary

240

00:23:06,890 --> 00:23:11,220

has actually said that his perception of what's coming up for this next hearing is actually

241

00:23:11,220 --> 00:23:17,340

quite positive he says lawmakers are much more informed what has changed is that they

242

00:23:17,340 --> 00:23:23,270

literally saw the body language of the dod officials the generals sitting in front of

243

00:23:23,270 --> 00:23:31,660

them stonewalling they got mad and Gary is quoted as saying there's nothing that drives

244

00:23:31,660 --> 00:23:39,919

human nature more than being told no when you know the answer should be yes the politicians

245

00:23:39,919 --> 00:23:45,870

know they say he says that they were lied to and they've had enough of it and they're

246

00:23:45,870 --> 00:23:51,840

basically starting to put the squeeze on it's pretty clear he says the tables have turned

247

00:23:51,840 --> 00:23:58,260

so that's an optimistic turn from Professor Gary Nolan well he's spoken optimistically

248

00:23:58,260 --> 00:24:03,150

over the years since he's sort of come out if you will so I expect him to continue to

249

00:24:03,150 --> 00:24:09,270

talk like that but there's more and more people that are talking that way now so in fact uh

250

00:24:09,270 --> 00:24:14,299

it's it seems like we're rapidly getting to the place where this just can't hold because

251

00:24:14,299 --> 00:24:19,620

there are a number of people in the Congress
now uh Timber Chet by the way seems to be

252

00:24:19,620 --> 00:24:26,950

angling for the the congressman of the Year
award for UAP because uh this guy is as outspoken

253

00:24:26,950 --> 00:24:33,360

as anybody and he's agitating uh and and outright
saying it and he's a representative and of

254

00:24:33,360 --> 00:24:37,640

course gillibrand as we discussed you know
the interesting thing Ross there is so much

255

00:24:37,640 --> 00:24:42,600

breaking news there's always it we go away
for a couple of weeks and we come back and

256

00:24:42,600 --> 00:24:48,279

there's always something you know to to be
talking about about this and so just so everybody

257

00:24:48,279 --> 00:24:54,520

understands what we're saying um we're recording
this uh half a week or more from when that

258

00:24:54,520 --> 00:25:00,779

hearing is going to be happening before the
Senate subcommittee then as Ross pointed out

259

00:25:00,779 --> 00:25:06,549

in June maybe even the 13th we'll see how
accurate your source is on that June 13th

260

00:25:06,549 --> 00:25:10,220

would be another Committee hearing but that
would be a house hearing as I understand it

261

00:25:10,220 --> 00:25:16,730

is that correct that uh yes it would be yeah
yeah definitely a house hearing yeah and and

262

00:25:16,730 --> 00:25:23,039

and obviously a lot of people have been energized
by this issue and it is kind of ironic that

263

00:25:23,039 --> 00:25:27,850

this thing is gaining its momentum and people
are talking about non-human intelligence and

264

00:25:27,850 --> 00:25:33,620

crash retrievals and wreckage and reverse
engineering the stuff that used to be Fringe

265

00:25:33,620 --> 00:25:39,159

that was the French stuff of ufology and now
some pretty non-fringy people are talking

266

00:25:39,159 --> 00:25:44,059

about it and guess what the calendar tells
it we're going to be dealing with that at

267

00:25:44,059 --> 00:25:50,070

the same time we're dealing with the 2024
election that's already shaping up to be unprecedented

268

00:25:50,070 --> 00:25:55,090

in how it's laying out so God knows what's
going to happen it's it's these are interesting

269

00:25:55,090 --> 00:25:59,820

times we are living in the other thing I wanted
to flag before we get into the nitty-gritty

270

00:25:59,820 --> 00:26:06,340

of what might or should be being discussed
at this hearing next week is Dr Travis Taylor

271

00:26:06,340 --> 00:26:12,320

has made some quite astonishing preview comments about what's coming up on the um next season

272

00:26:12,320 --> 00:26:16,980

the fourth season of the Skinwalker Ranch series now a lot of I know a lot of people

273

00:26:16,980 --> 00:26:23,700

there's a real tendency I think in the UFO UAP social media commentary just to pour [h__h]

274

00:26:23,700 --> 00:26:28,679

up the whole skin walker Ranch story and to dismiss it as absolute nonsense and I think

275

00:26:28,679 --> 00:26:34,650

people are doing themselves a disservice by being so dismissive Dr Taylor is in fact quite

276

00:26:34,650 --> 00:26:41,860

a reputable scientist and he has claimed that um there has been gamma rays detected on skin

277

00:26:41,860 --> 00:26:48,020

walker Ranch that he believes have come from some kind of matter antimatter Annihilation

278

00:26:48,020 --> 00:26:53,429

he he claimed in a recent interview that the phenomena at skin walk around she's using

279

00:26:53,429 --> 00:27:01,570

non-human technology to create dangerous spikes in gamma rays quote I think it's some sort

280

00:27:01,570 --> 00:27:07,190

of phenomena that's using quantum physics that is running the universe now this is a

281

00:27:07,190 --> 00:27:13,799

guy who's working as we both know with Jay
Stratton at a place called Radiance Technologies

282

00:27:13,799 --> 00:27:19,481

uh in uh or near Huntsville Alabama Two Gentlemen
who've been part of a company for quite a

283

00:27:19,481 --> 00:27:26,360

while now um that has billions of dollars
from taxpayers to investigate what sounds

284

00:27:26,360 --> 00:27:33,031

like metamaterials interesting perhaps non-human
technology I just want to reflect to people

285

00:27:33,031 --> 00:27:39,340

that we shouldn't be quite so dismissive and
there is a tendency I think um the the the

286

00:27:39,340 --> 00:27:44,570

commentators do themselves as disservice by
basically sweeping aside everything that's

287

00:27:44,570 --> 00:27:49,520

said about Skinwalker Ranch I'm being told
we should take skin walker Ranch a lot more

288

00:27:49,520 --> 00:27:55,860

seriously and I I have to say that I do take
it seriously I don't dismiss Skinwalker and

289

00:27:55,860 --> 00:28:00,960

and it's uh anomalous activity for a moment
I think the source of a lot of the pushback

290

00:28:00,960 --> 00:28:07,010

on Skinwalker has frankly just been the television
series because the series itself while attempting

291

00:28:07,010 --> 00:28:13,019

big things has used a lot of the tropes of
of a non-fiction television series the sort

292

00:28:13,019 --> 00:28:19,781

of um hyped music and the sort of the teases
and all that and so it's easy to to put it

293

00:28:19,781 --> 00:28:25,160

down uh but Underneath It All there seems
to be a reality there of some kind by the

294

00:28:25,160 --> 00:28:29,809

way I just uh I realized I was mentioning
Timber Chad a few minutes ago just so everyone

295

00:28:29,809 --> 00:28:37,360

knows he's a republican he's a congressman
I believe he's from Tennessee um and uh he's

296

00:28:37,360 --> 00:28:42,620

currently the most outspoken member of Congress
I would say on the topic although several

297

00:28:42,620 --> 00:28:48,769

others are are edging in that same area the
other bit of news that I think we should also

298

00:28:48,769 --> 00:28:56,710

flag is um Dr Colin Kelleher who as we both
know has worked with the orsap bass and nids

299

00:28:56,710 --> 00:29:02,289

programs um he's got quite an extensive knowledge
as well of the whole skin walker Ranch story

300

00:29:02,289 --> 00:29:07,240

he did an interview with Jeremy Corbell and
George Knapp on their weaponized podcast recently

301

00:29:07,240 --> 00:29:14,690

and Jeremy asked him does our government have
downed UFOs from Unknown Origin that they've

302

00:29:14,690 --> 00:29:20,070

been trying and are trying to reverse engineer
and exploit those Technologies understand

303

00:29:20,070 --> 00:29:26,179

the physics understand that technology do
we have that to work with and Colma Keller

304

00:29:26,179 --> 00:29:35,480

his answer was quite definitive he said I
can't talk about that but the answer is yes

305

00:29:35,480 --> 00:29:43,110

obviously Kelleher has gone to the lou Elizondo
School of how to answer a UAP question uh

306

00:29:43,110 --> 00:29:50,440

because Elizondo does that all the time himself
where he lets you know what he thinks but

307

00:29:50,440 --> 00:29:55,940

he's either protecting his his NDA or some
other thing and Keller seems to be doing that

308

00:29:55,940 --> 00:30:00,820

you know before we get into asking the questions
that we think they should ask at these hearings

309

00:30:00,820 --> 00:30:05,020

could we just do a little bit of History here
to sort of set up where we're coming from

310

00:30:05,020 --> 00:30:09,950

as I look at uh Congressional hearings on
UFOs there have been many attempts over the

311

00:30:09,950 --> 00:30:14,720

years but there's been two particular years
that I want to focus on and that we can talk

312

00:30:14,720 --> 00:30:22,840

about uh one was 1958 and the other was 1966.
and for those of you who have access to it

313

00:30:22,840 --> 00:30:29,289

I love this book here UFOs and government
a historical inquiry because it is jam-packed

314

00:30:29,289 --> 00:30:33,480

with great stuff and when I see people like
Moultrie and Bray say no I've never heard

315

00:30:33,480 --> 00:30:37,880

of that never didn't understand any of that
I feel like you know what gentlemen go to

316

00:30:37,880 --> 00:30:43,890

your rooms and read this book and then come
back and talk to us but in any case in 1958

317

00:30:43,890 --> 00:30:50,039

what was really unusual is that the house
select committee on astronautics astronautics

318

00:30:50,039 --> 00:30:56,809

and space exploration was chaired by John
McCormick who went on to become the speaker

319

00:30:56,809 --> 00:31:03,289

of the house and a very powerful person and
back in 58 they were going to have the subcommittee

320

00:31:03,289 --> 00:31:09,870

on atmospheric phenomena chaired by a William
natcher of Kentucky and they were going to

321

00:31:09,870 --> 00:31:15,130

have hearings on UFOs because McCormick really believed in UFOs he thought they were a real

322

00:31:15,130 --> 00:31:20,690

deal and needed to be looked into and you know we've talked about how fast these hearing

323

00:31:20,690 --> 00:31:26,260

things that we're experiencing right now have sort of Hit the calendar back then they informed

324

00:31:26,260 --> 00:31:30,760

the secretary of the Air Force they were going to hold hearings on the subject of UFOs with

325

00:31:30,760 --> 00:31:35,539

just two or three days of lead time imagine that and then the subcommittee said it would

326

00:31:35,539 --> 00:31:40,470

begin on August 7th and the Air Force was expected to be there on August 8th and this

327

00:31:40,470 --> 00:31:45,639

is 1958 so I guess their idea was if we catch them by surprise they won't have time to get

328

00:31:45,639 --> 00:31:53,130

a big story together and in any case they had various uh attempts to have those meetings

329

00:31:53,130 --> 00:31:57,480

and in fact they did have one with the Air Force where the Air Force came in and basically

330

00:31:57,480 --> 00:32:02,390

told them well we're looking into it nothing to see here so far etc etc and then and this

331

00:32:02,390 --> 00:32:10,010

part is interesting McCormick and his gang
said that they were going to now bring in

332

00:32:10,010 --> 00:32:14,090

more witnesses they were from outside the
government they were going to have people

333

00:32:14,090 --> 00:32:21,480

come in like uh Donald Kehoe was who was retired
but was that major in the the Air Force rupult

334

00:32:21,480 --> 00:32:26,820

Edward ruppelt who wrote uh the report on
unidentified flying objects and they're going

335

00:32:26,820 --> 00:32:31,440

to have these guys come in and testify without
the Air Force being present well guess what

336

00:32:31,440 --> 00:32:35,870

happened that potential nightmare for the
Air Force never happened why it just went

337

00:32:35,870 --> 00:32:42,309

away no one's exactly sure why it went away
but I love this quote from the book it says

338

00:32:42,309 --> 00:32:47,810

here was an appropriate Congressional committee
with powerful Personnel impervious to intimidation

339

00:32:47,810 --> 00:32:53,000

initiating a hearings agenda with nearly known
noticed through the air force informing the

340

00:32:53,000 --> 00:32:58,320

air force that a whole week of Civilian hearings
was in the wings yet before the last Echoes

341

00:32:58,320 --> 00:33:04,150

had died in the committee room that whole idea was obliterated by higher forces and

342

00:33:04,150 --> 00:33:10,880

the Congressional investigation was neutralized so this stuff's been going on by my calendar

343

00:33:10,880 --> 00:33:16,810

quite a long time I agree and in fact frankly our the history as you pointed out shows a

344

00:33:16,810 --> 00:33:22,769

persistent pattern of the U.S Air Force basically trying to control the UAP narrative goes right

345

00:33:22,769 --> 00:33:29,130

back to 1948 when project sign was kicked off and you know you had project sign project

346

00:33:29,130 --> 00:33:34,060

Grudge Project Blue Book all of them were fundamentally at their heart attempts by the

347

00:33:34,060 --> 00:33:39,320

U.S Air Force and other agencies to try to control the narrative to constrain what the

348

00:33:39,320 --> 00:33:45,670

public was being told about uaps to ridicule I mean the thing that I find is that there

349

00:33:45,670 --> 00:33:52,100

was a deliberate policy a deliberate policy to try and dismiss these reports as mass hysteria

350

00:33:52,100 --> 00:33:59,140

hallucinations hoax or misinterpretation of known objects and and yet all the while while

351

00:33:59,140 --> 00:34:03,980

they were dismissing them and poo-pooing them
in the public arena there was actually continued

352

00:34:03,980 --> 00:34:09,919

Military Intelligence control over the investigation
of all sightings and and frankly they were

353

00:34:09,919 --> 00:34:15,760

actively considering the reality of this is
perhaps extraterrestrial phenomena so the

354

00:34:15,760 --> 00:34:20,129

thing that really worries me is that we're
just going to see a continuation of this kind

355

00:34:20,129 --> 00:34:26,310

of historical knobbling that what we're going
to see is essentially another shutdown particularly

356

00:34:26,310 --> 00:34:32,290

by the U.S Air Force and history as you rightly
show my friend has not looked good for us

357

00:34:32,290 --> 00:34:38,149

because year after year every time there's
been a really good effort by the Congress

358

00:34:38,149 --> 00:34:43,300

to really get to the truth of this matter
it's been snowed well the most recent one

359

00:34:43,300 --> 00:34:51,030

I think was 1966 is that right Gerald rewards
the only thing I would say about getting having

360

00:34:51,030 --> 00:34:56,530

history be the the template for what might
happen now is that it was a different time

361

00:34:56,530 --> 00:35:02,530

uh in 1958 and and 66 which we'll talk about
you know was it just a different time you

362

00:35:02,530 --> 00:35:07,660

didn't have the internet you didn't have a
cable Universe of 500 channels you didn't

363

00:35:07,660 --> 00:35:11,369

have streaming you didn't have any of this
way that we talked to ourselves right now

364

00:35:11,369 --> 00:35:16,859

uh I remember when I first met Stanton Friedman
who became a friend of mine and I optioned

365

00:35:16,859 --> 00:35:21,720

one of his books about Roswell so I got to
know him very well but when I first met Stanton

366

00:35:21,720 --> 00:35:29,410

and this this will just sum it all up is he
always carried almost a suitcase full of Xerox

367

00:35:29,410 --> 00:35:33,869

copies of various things right so when he
wanted to make a point to me he literally

368

00:35:33,869 --> 00:35:39,270

had to go and get a stack of of papers that
he gave me I mean it was it was almost a foot

369

00:35:39,270 --> 00:35:43,119

tall stack of copied papers and he said when
you're done with those I'd like those back

370

00:35:43,119 --> 00:35:46,160

because I want to give them to somebody else
well today you wouldn't do that right you

371

00:35:46,160 --> 00:35:51,460

just you put it up on the internet or you
you tweet it or you otherwise share it so

372

00:35:51,460 --> 00:35:56,730

it's not going to be quite as easy as it was
before to put things back in the box but you

373

00:35:56,730 --> 00:36:03,110

know the idea that people have been talking
about these things uh in in open Forum has

374

00:36:03,110 --> 00:36:06,881

been going on a long time and the one quote
that I I feel like that you couldn't do a

375

00:36:06,881 --> 00:36:12,069

show like this without reading it even though
we've read it before is two years after that

376

00:36:12,069 --> 00:36:20,460

1958 attempt Admiral Roscoe hillenkotter who
was the first person to run the Central Intelligence

377

00:36:20,460 --> 00:36:27,359

Agency in the United States was then retired
and he actually wrote a letter that was quoted

378

00:36:27,359 --> 00:36:33,780

in the New York Times and this is a quote
from the first director of the CIA in 1960

379

00:36:33,780 --> 00:36:39,470

as John Kennedy is running for the presidency
but before he gets elected and he says behind

380

00:36:39,470 --> 00:36:45,050

the scenes high-ranking Air Force officials
are soberly concerned about UFOs but through

381

00:36:45,050 --> 00:36:51,010

official secrecy and ridicule many citizens
are led to believe that unknown flying objects

382

00:36:51,010 --> 00:36:56,620

are nonsense hundreds of authentic reports
by veteran pilots and other technically trained

383

00:36:56,620 --> 00:37:03,180

observers have been ridiculed or explained
away as mistakes delusions or hoaxes the Air

384

00:37:03,180 --> 00:37:07,839

Force has assumed the right to decide what
the American people should or should not know

385

00:37:07,839 --> 00:37:15,260

and here's his conclusion it is time for the
truth to be brought out in open Congressional

386

00:37:15,260 --> 00:37:22,010

hearings well hillenkotter was right in 1960
and if he was around today he'd say we were

387

00:37:22,010 --> 00:37:27,210

right to be pursuing it again so yeah we are
in that in that time period now you brought

388

00:37:27,210 --> 00:37:32,300

up 66 I'll let you run with that because that's
a good one too no well I mean I think the

389

00:37:32,300 --> 00:37:37,440

thing the big lesson from 66 is that you had
Gerald Ford um the the man who went on to

390

00:37:37,440 --> 00:37:43,599

become president basically pushing very very
hard and saying that he held the firm belief

391

00:37:43,599 --> 00:37:48,630

that the American public deserves a better explanation than that thus far given by the

392

00:37:48,630 --> 00:37:53,780

U.S Air Force and he strongly recommended that there be a committee investigation of

393

00:37:53,780 --> 00:37:59,609

the UFO phenomena and and back in March 66 Gerald Ford at the time was the House minority

394

00:37:59,609 --> 00:38:05,050

leader who later to become president and um he was concerned because he was getting letters

395

00:38:05,050 --> 00:38:10,730

from the American public telling him they were very interested in the UFO issue even

396

00:38:10,730 --> 00:38:18,670

more in a way Ross it was even more than letters he was the congressman of the district where

397

00:38:18,670 --> 00:38:25,620

Jay Alan heineck went in 1966 out after all these sightings in Michigan and heineck famously

398

00:38:25,620 --> 00:38:29,880

tried to speculate about what could possibly be the thing these people were seeing and

399

00:38:29,880 --> 00:38:36,359

that's where he uttered the unfortunate two-word swamp gas which became Infamous in ufology

400

00:38:36,359 --> 00:38:41,060

and and damn near drove heinek crazy because that wasn't exactly what he meant and certainly

401

00:38:41,060 --> 00:38:47,480

in the years to follow he knew differently
but Ford took the brunt of this from the people

402

00:38:47,480 --> 00:38:53,010

that were in his constituency and I think
he realized that a lot of them were serious

403

00:38:53,010 --> 00:38:59,290

people and he actually wrote a series of letters
three different letters uh as he began to

404

00:38:59,290 --> 00:39:04,520

agitate for hearings and again I guess I'm
on a run of reading quotes but this is from

405

00:39:04,520 --> 00:39:09,650

Ford's first letter are we to assume that
everyone who says that he has seen UFOs is

406

00:39:09,650 --> 00:39:15,430

an unreliable witness I think we owe it to
the people to establish credibility regarding

407

00:39:15,430 --> 00:39:20,839

UFOs and to produce the greatest possible
Enlightenment on this subject because I think

408

00:39:20,839 --> 00:39:25,589

there may be substance to some of these reports
and because I believe the American people

409

00:39:25,589 --> 00:39:29,911

are entitled to a more thorough explanation
than has been given them by the Air Force

410

00:39:29,911 --> 00:39:35,830

to date I am proposing that either the science
and astronautics Committee of the armed services

411

00:39:35,830 --> 00:39:41,060

Committee of the house schedule hearings on the subject of UFOs and invite testimony from

412

00:39:41,060 --> 00:39:45,770

both the executive branch of the government and some of the persons who claim to have

413

00:39:45,770 --> 00:39:53,910

seen UFOs so again here is a guy who not only became president but it for people who follow

414

00:39:53,910 --> 00:39:59,430

these things Ford was on the Warren Commission that looked into the JFK assassination so

415

00:39:59,430 --> 00:40:07,390

this guy was deeply involved in classified stuff and he knew that UFOs were real so what

416

00:40:07,390 --> 00:40:12,250

happened in 1966 was that the house armed services committee which of course is the

417

00:40:12,250 --> 00:40:16,390

house version of the same committee that's holding the hearings this week in the Senate

418

00:40:16,390 --> 00:40:23,359

it did eventually hold brief hearings on UFOs in 1966 but unfortunately it produced yet

419

00:40:23,359 --> 00:40:30,330

another U.S Air Force whitewash the secretary I think of the U.S Air Force Harold bran assured

420

00:40:30,330 --> 00:40:35,460

the committee that most sightings were easily explained and that there was no evidence that

421

00:40:35,460 --> 00:40:40,609

strangers from outer space had been visiting Earth and he did reassure the committee members

422

00:40:40,609 --> 00:40:46,650

however that the Air Force would keep an open mind and continue to investigate all UFO reports

423

00:40:46,650 --> 00:40:54,510

so it was a complete Snow Job now the historical way to look at this is you did have attempts

424

00:40:54,510 --> 00:40:59,670

uh even during the early 50s people were trying to have some kind of hearings but they they

425

00:40:59,670 --> 00:41:05,520

took form in 58 where the uh soon to be Speaker of the House John McCormick really went after

426

00:41:05,520 --> 00:41:12,290

it and then for reasons we do not understand gave it all up then we had 66 where Ford a

427

00:41:12,290 --> 00:41:17,780

very important person in United States government pushed for it couldn't quite get that done

428

00:41:17,780 --> 00:41:26,660

either in 68 they had some um people gave uh written testimony uh but that was it um

429

00:41:26,660 --> 00:41:31,960

we didn't really have those big UFO hearings that's why we all got excited uh in on May

430

00:41:31,960 --> 00:41:38,720

17th of 2022 when uh the house had a hearing on UFOs it didn't turn out to be much Ross

431

00:41:38,720 --> 00:41:42,400

and I have sort of taken that apart we're not big fans of Moultrie and Bray and how

432

00:41:42,400 --> 00:41:47,680

they Embrace their obligations to be responsive to the American people but now we have another

433

00:41:47,680 --> 00:41:53,240

shot at it and that's what's happening now now the reason why history matters is because

434

00:41:53,240 --> 00:41:59,470

what happened as a result of the U.S Air Force's outrageous cover-up in 1966 was there was

435

00:41:59,470 --> 00:42:04,650

a huge public pushback um that this is when James McDonald the atmospheric physicist from

436

00:42:04,650 --> 00:42:11,010

the University of Arizona's came forward he flatly publicly claimed that the the CIA was

437

00:42:11,010 --> 00:42:15,550

behind the Air Force secrecy policies and the cover-up and he was pushing for the release

438

00:42:15,550 --> 00:42:20,880

of the full Robertson panel report which was essentially another cover-up earlier and so

439

00:42:20,880 --> 00:42:27,540

bowing to public pressure in August 1966 the Air Force announced what what became the Condon

440

00:42:27,540 --> 00:42:34,480

inquiry and and this is why history matters because we can't let Congress allow this to

441

00:42:34,480 --> 00:42:39,830

happen again because what was done last time
what was done over half a century ago in August

442

00:42:39,830 --> 00:42:46,440
of 1966 was the Condon inquiry was called
and we now know that that was a complete snow

443

00:42:46,440 --> 00:42:51,990
job where it would Condon the physicist at
Colorado and a former director of a major

444

00:42:51,990 --> 00:42:58,260
government Department was essentially appointed
and pre-briefed that essentially you know

445

00:42:58,260 --> 00:43:04,570
he he was to to come up with a foregone conclusion
a blatant whitewash on behalf of the U.S Air

446

00:43:04,570 --> 00:43:11,760
Force and the CIA and the report of the content
inquiry in April 1969 was the attempt to put

447

00:43:11,760 --> 00:43:19,490
the whole issue back in the bottle and it
has largely defined the policy and the attitudes

448

00:43:19,490 --> 00:43:26,470
to permeate our culture right up to the present
day attitudes of ridicule and belittling of

449

00:43:26,470 --> 00:43:32,530
the UAP UFO subjects and essentially it's
been a very very clever disinformation program

450

00:43:32,530 --> 00:43:38,290
so if I'm successful much as an inkling if
we see so much as an inkling from the Congress

451

00:43:38,290 --> 00:43:42,570

that they're going to Buck pass this and flick it off to the Air Force or the CIA and ask

452

00:43:42,570 --> 00:43:48,050

them to come up with an inquiry we shouldn't allow it to happen the only thing that is

453

00:43:48,050 --> 00:43:54,330

the alternative to these committees holding these hearings is a full open Church committee

454

00:43:54,330 --> 00:44:01,890

style investigation where the Congress uses the full powers that it has in public hearing

455

00:44:01,890 --> 00:44:06,829

deposing people under oath and compelling them to give truthful testimony using full

456

00:44:06,829 --> 00:44:12,380

powers of subpoena we can't allow this issue to be put back in a box again for another

457

00:44:12,380 --> 00:44:19,030

half a Century Two thoughts the Condon uh I mean the the investigation you're referring

458

00:44:19,030 --> 00:44:24,829

to was ultimately very successfully it put its report out in 60 April I think you said

459

00:44:24,829 --> 00:44:29,930

of 69 and by December of 69 the Air Force had said well we looked into it we even had

460

00:44:29,930 --> 00:44:34,480

this uh investigation done for us since there's nothing going on with this we're going to

461

00:44:34,480 --> 00:44:43,670

kill Project Blue Book and they did and so
from 69 on uh until well whatever uh the official

462

00:44:43,670 --> 00:44:51,230

investigation into UFOs uh was not happening
so uh they they did succeed and now we are

463

00:44:51,230 --> 00:44:57,869

at the precipice of seeing this happen again
and I take your point uh the various times

464

00:44:57,869 --> 00:45:04,040

where the the genie has been put back in the
bottle is when the Air Force was envisioned

465

00:45:04,040 --> 00:45:08,839

as the honest broker to look into this so
that's like um I don't know that's asking

466

00:45:08,839 --> 00:45:13,839

like someone who's under indictment to conduct
their own investigation uh yeah obviously

467

00:45:13,839 --> 00:45:18,460

others need to do that the one thing I was
going to say Ross that I don't know how it's

468

00:45:18,460 --> 00:45:24,680

going to work out maybe you've heard different
than myself but I what was great about the

469

00:45:24,680 --> 00:45:29,840

Senate attempting to look into Watergate back
in 1973 when they had those riveting Summer

470

00:45:29,840 --> 00:45:36,290

Long hearings is it was the Senate Watergate
committee it was the One-Stop shop it's where

471

00:45:36,290 --> 00:45:42,000

they were taking a look at this thing same
with the church committee that you uh mentioned

472

00:45:42,000 --> 00:45:46,760

that was where that was going down I don't
know why we're having different committees

473

00:45:46,760 --> 00:45:53,480

right I wish Congress could figure out how
to focus the Firepower on a singular entity

474

00:45:53,480 --> 00:45:58,180

so that they could start bringing people in
and focus on that one thing because if we

475

00:45:58,180 --> 00:46:03,640

are moving forward incrementally on different
committees I fear that's not the most uh positive

476

00:46:03,640 --> 00:46:09,740

way to do it well he is hoping that 2023 is
a case of Third Time Lucky Bryce because as

477

00:46:09,740 --> 00:46:14,569

you and I have just pointed out those who
forget their history are condemned to repeat

478

00:46:14,569 --> 00:46:21,369

it so let's now move to what we think the
Congress the uh armed services Committee of

479

00:46:21,369 --> 00:46:28,600

the Senate's emerging threats committee this
week coming should be asking and I I think

480

00:46:28,600 --> 00:46:33,730

here's an opportunity for Kirsten gillibrand
Senator Kirsten gillibrand to really make

481

00:46:33,730 --> 00:46:41,690

her name this could be a presidential defining moment for this extremely gutsy and powerful

482

00:46:41,690 --> 00:46:48,480

woman she's the chair of this emergency emerging threats committee um okay Sean Kirkpatrick's

483

00:46:48,480 --> 00:46:53,569

not going to be under oath but he does know that he can still be held to a cut for misleading

484

00:46:53,569 --> 00:47:02,130

the Congress so what if Senator gillibrand was to lean across the table and basically

485

00:47:02,130 --> 00:47:10,900

demand to know definitively this question is directed not just at Arrow or nor to the

486

00:47:10,900 --> 00:47:16,359

very limited field of knowledge held within Arrow that's the pentagon's UAP office it

487

00:47:16,359 --> 00:47:22,220

is directed at the entire body of knowledge held within the Pentagon and the intelligence

488

00:47:22,220 --> 00:47:26,880

community and presumably Dr Kirkpatrick you have informed yourself on this before you

489

00:47:26,880 --> 00:47:36,040

came before this committee my question sir is are you aware of any data of any kind which

490

00:47:36,040 --> 00:47:44,210

suggests that there is a non-human intelligence that has been and or is being detected on

491

00:47:44,210 --> 00:47:52,410

this planet okay now if I'm if I'm uh the
witness here Sean Kirkpatrick I'm going to

492

00:47:52,410 --> 00:47:59,470

say uh well thank you very much senator gillibrand
for that comprehensive and kind question I

493

00:47:59,470 --> 00:48:07,280

take it to heart I think it's very important
get on with it and then I and then at the

494

00:48:07,280 --> 00:48:13,619

end Sean says and um I'll have to I'm waiting
come on come on and I want some answers into

495

00:48:13,619 --> 00:48:18,740

the classified hearing is what he's going
to say listen you know what's funny it folks

496

00:48:18,740 --> 00:48:26,870

is um Ross and I have a four pages three pages
with like 38 possible questions these people

497

00:48:26,870 --> 00:48:32,020

could ask and maybe we'll even post that uh
up on our site but uh there's no shortage

498

00:48:32,020 --> 00:48:36,480

of questions although Ross I got to tell you
the first thing I'd want to do is I'd want

499

00:48:36,480 --> 00:48:45,690

to say uh Mr Kirkpatrick um you are not currently
sworn um as as is sometimes the case here

500

00:48:45,690 --> 00:48:51,369

in these hearings do you have any objection
to being sworn now

501

00:48:51,369 --> 00:48:57,131

yeah yeah I would just I would have him I'd like to see what he would say and I'd like

502

00:48:57,131 --> 00:49:01,839

to remind you Dr Kirkpatrick that you are under oath and that any attempts to mislead

503

00:49:01,839 --> 00:49:05,849

this committee is an act of perjury and it will be punished extremely severely by that

504

00:49:05,849 --> 00:49:11,480

if he takes the oath I hope he takes it um you know the the the there are a couple of

505

00:49:11,480 --> 00:49:18,150

lines of um of asking questions here that these senators are well versed although I've

506

00:49:18,150 --> 00:49:24,490

rarely heard someone as bold and as gutsy as gillibrand on this topic so um but you

507

00:49:24,490 --> 00:49:29,930

know I think uh some of the things that she should do is take him down the road of this

508

00:49:29,930 --> 00:49:35,770

crash wreckage uh and retrieval and reverse engineering and whether it's in the purview

509

00:49:35,770 --> 00:49:42,450

of the government or whether it's been offshore to private Enterprise Etc and even if he's

510

00:49:42,450 --> 00:49:48,900

refusing to answer it I would still ask him these questions because for example um I I

511

00:49:48,900 --> 00:49:54,760

can't remember I I on one of these things
that Trump was just um uh deposed on I think

512

00:49:54,760 --> 00:49:59,760

he took the fifth like you know 400 times
or something and please don't send me a bunch

513

00:49:59,760 --> 00:50:03,520

of email about that folks I'm just citing
it because I heard it on the news the other

514

00:50:03,520 --> 00:50:08,819

day but there's a power in asking the question
even if the person isn't going to answer it

515

00:50:08,819 --> 00:50:14,650

so what I would say to Sean Kirkpatrick is
I'd go through these 38 questions we've got

516

00:50:14,650 --> 00:50:18,460

and then all of the others and make him refuse
to answer them if that's going to be the case

517

00:50:18,460 --> 00:50:22,520

because I would at least get people saying
well if the guy isn't answering it there must

518

00:50:22,520 --> 00:50:28,410

be something to that and I'd like to see us
get into that so that's my take not I don't

519

00:50:28,410 --> 00:50:32,059

know a lot about the other committee members
on the emerging threats committee but one

520

00:50:32,059 --> 00:50:36,970

of them is actually a former astronaut former
U.S Air Force astronaut Mark Kelly a senator

521

00:50:36,970 --> 00:50:45,569

for Arizona and he's clearly very much a hard skeptic on uaps he recently dismissed a reporters

522

00:50:45,569 --> 00:50:52,480

very serious question on the UFO issue by saying quote on the alien subject I can confirm

523

00:50:52,480 --> 00:50:57,990

they are really small they have sharp teeth and they live under your bed that's the kind

524

00:50:57,990 --> 00:51:03,579

of [h__\h] nonsense I often get from politicians when they're asked hard questions on this

525

00:51:03,579 --> 00:51:09,900

issue and let's be very clear about this if Senator gillibrand is not seen and if the

526

00:51:09,900 --> 00:51:15,339

other members of the committee are seen to be flippant or dismissive and ignoring the

527

00:51:15,339 --> 00:51:22,359

issues that are being asked is serious intent behind these questions we now have multiple

528

00:51:22,359 --> 00:51:29,030

very senior former officials of the U.S government on the record suggesting that the US government

529

00:51:29,030 --> 00:51:34,589

is in possession of information suggesting that there is a non-human intelligence engaging

530

00:51:34,589 --> 00:51:42,309

with this planet and that it is in possession of nhi Technology non-human intelligence technology

531

00:51:42,309 --> 00:51:46,660

it's time for that question to be asked and
if we just have another one of these delicate

532

00:51:46,660 --> 00:51:52,180

dances with sycophantic questions are asked
of public officials frankly the public should

533

00:51:52,180 --> 00:51:56,859

start stoning the blooming Congress on I'm
not saying that literally I mean I'm just

534

00:51:56,859 --> 00:52:03,809

appalled that we have that extraordinary situation
where time and time again we have these public

535

00:52:03,809 --> 00:52:10,619

officials that are allowed to come in and
be dismissive and Mock and ridicule and stigmatize

536

00:52:10,619 --> 00:52:16,880

the issue you just you have to hold their
feet to the fire and the public should be

537

00:52:16,880 --> 00:52:25,130

and will be deservedly very very angry if
evasive questions evasive answers are given

538

00:52:25,130 --> 00:52:31,589

to incredibly direct questions let's go back
to Mark Kelly for a second he's the senator

539

00:52:31,589 --> 00:52:37,049

just re-elected in Arizona and there's a lot
to like about Mark Kelly I mean he's a astronaut

540

00:52:37,049 --> 00:52:42,339

and a fairly straight up stand-up guy most
of the time but you know Senator Kelly let

541

00:52:42,339 --> 00:52:47,640

me just speak to you for a moment this is wrong the way you answer that question is

542

00:52:47,640 --> 00:52:54,319

just plain wrong you're dismissing people who have had authentic experiences you're

543

00:52:54,319 --> 00:53:00,250

dismissing radar people you're dismissing Pilots you're dismissing government officials

544

00:53:00,250 --> 00:53:06,380

you're dismissing police officers and and thousands if not tens and hundreds of thousands

545

00:53:06,380 --> 00:53:12,549

of of witnesses and you're turning it all into a joke and you know that that's the inappropriate

546

00:53:12,549 --> 00:53:17,359

policy and the reason you know it is you're from uh Arizona and the last time somebody

547

00:53:17,359 --> 00:53:23,260

did that in Arizona was back after the Phoenix Lights where Governor Fife Simington after

548

00:53:23,260 --> 00:53:29,400

so many of his constituents saw the Phoenix Lights object with their own eyes he instead

549

00:53:29,400 --> 00:53:35,480

brought an alien costume staffer out in front of the press conference and he's regretted

550

00:53:35,480 --> 00:53:41,799

that the rest of his life and has recanted that in in future years so Senator Kelly I'm

551

00:53:41,799 --> 00:53:48,470

asking you to go into that hearing behave
as an appropriate public official and understand

552

00:53:48,470 --> 00:53:53,440

that your own government is already firmed
that there are things out there that we cannot

553

00:53:53,440 --> 00:53:59,030

confirm where they come from and try to have
a more open and inquisitive mind because that's

554

00:53:59,030 --> 00:54:04,900

what we expect from you as a public official
now we know that gillibrand has already been

555

00:54:04,900 --> 00:54:09,790

very critical about the fact that Arrow hasn't
received sufficient funding the pentagon's

556

00:54:09,790 --> 00:54:15,090

UAP investigation office had not received
sufficient funding or Staffing to allow it

557

00:54:15,090 --> 00:54:19,540

to do the job that it had been assigned and
I mean for example one of the things that

558

00:54:19,540 --> 00:54:27,420

it was asked to do by legislation by the Congress
was a historical review of UAP knowledge since

559

00:54:27,420 --> 00:54:32,770

World War II that was requested by legislation
by Statute by an act of the Congress last

560

00:54:32,770 --> 00:54:38,380

year and so one of the things that I really
want to see is a holding to account by gillibrand

561

00:54:38,380 --> 00:54:44,000

I want to see her and the other Senators demanding to know whether this work has been done and

562

00:54:44,000 --> 00:54:50,490

if not why not and and I also think that the defense department more broadly needs to be

563

00:54:50,490 --> 00:54:56,069

asked why when Congress made its position very very clear in legislation that it wanted

564

00:54:56,069 --> 00:55:03,660

the UAP issue investigated thoroughly by the Pentagon why was Arrow this office left chronically

565

00:55:03,660 --> 00:55:12,290

undefunded understaffed to fulfill its stated purpose it was designed to die on the vine

566

00:55:12,290 --> 00:55:17,160

and more importantly Kirkpatrick has been dismissed by some critics as somebody who's

567

00:55:17,160 --> 00:55:23,099

a bit of a liquid for the people who want to continue the cover-up this is an opportunity

568

00:55:23,099 --> 00:55:32,539

for Kirkpatrick to make his name it would only take one truthful answer to one question

569

00:55:32,539 --> 00:55:40,910

to break the truth embargo yeah sure I pray for it I pray for it um you know you mentioned

570

00:55:40,910 --> 00:55:45,369

the history report they're supposed to write and he may say well we need more time and

571

00:55:45,369 --> 00:55:49,690

you know it's very hard to get access to these things so again I'm just going to help him

572

00:55:49,690 --> 00:55:54,390

out UFOs in the government a historical inquiry take a look at that or how about this one

573

00:55:54,390 --> 00:56:00,630

shoot them down the Flying Saucer air wars of 90 1952 by Frank fascino this is all government

574

00:56:00,630 --> 00:56:05,339

stuff and here's another great book by Richard Dolan UFOs in the National Security State

575

00:56:05,339 --> 00:56:12,280

if you don't know the history of UFOs and the U.S government and the U.S military sir

576

00:56:12,280 --> 00:56:17,749

I say you do a little reading time so anyway that's my soapbox for the day but that's what

577

00:56:17,749 --> 00:56:21,750

I think they should be doing

578

00:56:21,750 --> 00:56:27,671

can I just drop a big hint before we start the rep let's just roll back a bit let's go

579

00:56:27,671 --> 00:56:34,850

back to February let's talk about what happened over Dead Horse Alaska in February yeah now

580

00:56:34,850 --> 00:56:40,810

we know that three objects were allegedly shot down we know that they were engaged with

581

00:56:40,810 --> 00:56:48,299

Sidewinder missiles by fighter jets from the

U.S Air Force now what's so interesting is

582

00:56:48,299 --> 00:56:54,420

what I'm hearing about dead horse and this is I think perhaps where questions could be

583

00:56:54,420 --> 00:57:00,049

pertinently directed because although the particular Senator that I'm thinking of is

584

00:57:00,049 --> 00:57:07,230

a member of the Senate armed services committee they're not a member of the emerging threats

585

00:57:07,230 --> 00:57:12,901

committee so let's just flag to the emerging threats committee that we know that there

586

00:57:12,901 --> 00:57:18,680

is a senator on the Senate armed services committee who has been approached by a member

587

00:57:18,680 --> 00:57:26,200

of the Air Force asking the committee to ask more pointed questions about what happened

588

00:57:26,200 --> 00:57:31,680

over Dead Horse Alaska and I'm just going to read out a few questions that I think should

589

00:57:31,680 --> 00:57:39,109

be asked why have no Congressional Representatives being given the opportunity to cite the purported

590

00:57:39,109 --> 00:57:46,710

shootdown videos shot by fighter jets in February during the multiple incursions over U.S airspace

591

00:57:46,710 --> 00:57:52,030

and as we understand its senators and representatives

have been refused the opportunity to even

592

00:57:52,030 --> 00:58:00,890

view this Vision even in a secure skiff why
the secrecy does the witness does Dr Kirkpatrick

593

00:58:00,890 --> 00:58:05,990

have any knowledge about the specific shoot
down incident over or near Dead Horse Alaska

594

00:58:05,990 --> 00:58:14,660

in February what exactly did the pilot report
seeing when he engaged the object with a missile

595

00:58:14,660 --> 00:58:22,020

was the object seen to actually crash or descend
as a result of that missile being fired why

596

00:58:22,020 --> 00:58:27,329

is vision of that particular instant still
being kept classified as well as the Pilot's

597

00:58:27,329 --> 00:58:34,300

after Action Report even to confidential hearings
of the relevant congressional committees is

598

00:58:34,300 --> 00:58:40,980

the witness prepared to deny the reports that
I'm hearing that the object when hit by the

599

00:58:40,980 --> 00:58:50,760

explosion of the Jets Sidewinder missile actually
stayed in the air despite that direct explosion

600

00:58:50,760 --> 00:58:57,170

something was seen by the pilot to fall from
the object that he engaged but I'm told the

601

00:58:57,170 --> 00:59:06,010

main object was not in fact shot done by the

missile does the witness does Dr Sean Kirkpatrick

602

00:59:06,010 --> 00:59:13,680

deny categorically that this is the case correctly
if Dr Kirkpatrick is to say to the committee

603

00:59:13,680 --> 00:59:17,370

that he doesn't know about this incident that
he hasn't briefed himself about this incident

604

00:59:17,370 --> 00:59:22,440

and he should be sacked immediately the committee
should be asking for his resignation if he

605

00:59:22,440 --> 00:59:28,099

doesn't come into the Committee hearing properly
briefed about the the three shoot down incidents

606

00:59:28,099 --> 00:59:37,170

over U.S in February then he shouldn't be
doing the job I agree 100 thousand percent

607

00:59:37,170 --> 00:59:41,829

let's let's hope that happens and by the way
Ross I know you're a lawyer by training and

608

00:59:41,829 --> 00:59:46,460

they always tell lawyers listen you know when
you're doing cross-examination examination

609

00:59:46,460 --> 00:59:51,180

of a witness don't ask a question you don't
know the answer to so I'm just going to ask

610

00:59:51,180 --> 00:59:56,369

you do you think you know the answer to those
questions or is this one of those truly uh

611

00:59:56,369 --> 01:00:02,299

mysterious moments where we need the government

to come clean and the they might not I am

612

01:00:02,299 --> 01:00:08,510

told that the dead horse incident is not as
it has been represented by both the president

613

01:00:08,510 --> 01:00:16,039

and his staff I'm told it wasn't a shoot done
in the full sense of the word I'll leave it

614

01:00:16,039 --> 01:00:24,400

at that wow well folks interesting times ahead
I mean Ross this is why I enjoy working with

615

01:00:24,400 --> 01:00:29,280

you because I mean people I don't know why
but people are compelled to tell you the truth

616

01:00:29,280 --> 01:00:38,329

and I like that and um and and obviously we
have hopeful expectations for this this meeting

617

01:00:38,329 --> 01:00:43,339

of the minds that's going to happen on the
19th and let's hope for the best now before

618

01:00:43,339 --> 01:00:48,720

we go let's just briefly mention there's a
new Whitley striper book out called them which

619

01:00:48,720 --> 01:00:51,891

I think you're interested in maybe getting
Whitley on at some stage well I just wanted

620

01:00:51,891 --> 01:00:55,799

to give a couple of quick shout outs for some
of the things that are out in the cultural

621

01:00:55,799 --> 01:01:00,730

UFO Zeitgeist right now one of them is that

Whitley Strieber has a new book called them

622

01:01:00,730 --> 01:01:06,500

with a period at the end um and I think it's his most interesting book in in years now

623

01:01:06,500 --> 01:01:11,290

I've read all his books he's written about seven or eight on this topic I believe but

624

01:01:11,290 --> 01:01:16,310

this is the one where he's finally getting a little more uh clear about what he actually

625

01:01:16,310 --> 01:01:22,690

thinks might be going on and it seems to me that after flirting around with the uh more

626

01:01:22,690 --> 01:01:27,660

the more paranormal parts of it he seems to be saying he thinks you got to give a a pretty

627

01:01:27,660 --> 01:01:33,030

strong possibility to the Extraterrestrial angle so that's interesting there's also a

628

01:01:33,030 --> 01:01:38,400

new documentary that's out by uh filmmaker Ron James called accidental truth I just got

629

01:01:38,400 --> 01:01:43,730

a copy of it today to start running and from what I've seen so far if you're one of those

630

01:01:43,730 --> 01:01:49,000

people who would like to sort of brush up and make sure you understand how we got here

631

01:01:49,000 --> 01:01:54,559

from there this does have some of the usual

suspects in it that's fine but they tell the

632

01:01:54,559 --> 01:02:02,470

story about where we are right now in 2023
and and frankly focus more from 2017 on so

633

01:02:02,470 --> 01:02:07,369

in that regard it's a really good way to look
at it and then my final shout out is of course

634

01:02:07,369 --> 01:02:14,020

Ross I want everyone to understand our URL
is need to know dot today not.com but dot

635

01:02:14,020 --> 01:02:23,010

today and with that I'm done foreign we'll
see you after the forthcoming Senate armed

636

01:02:23,010 --> 01:02:30,950

services what's the word what's this what's
the ET committee called emerging threats committee

637

01:02:30,950 --> 01:02:36,869

coming up right about a week well listen please
by that time hopefully by that time Senator

638

01:02:36,869 --> 01:02:42,089

Kirsten gillibrand and other members of the
committee will have applied a blowtorch in

639

01:02:42,089 --> 01:02:49,390

the right places sometimes I always end with
the this phrase and it may seem inappropriate

640

01:02:49,390 --> 01:02:54,490

sometimes but it's appropriate today which
is we can handle the truth People Get Ready

641

01:02:54,490 --> 01:03:02,880

[Music] I'm ready to be told time for secrets

[Music]

642

01:03:02,880 --> 01:03:03,880

together

643

01:03:03,880 --> 01:03:14,619

[Music] [Applause] [Music] [Applause] [Music]

we must wait unturned you say too much

644

01:03:25,510 --> 01:03:15,619

[Music]

645

01:03:25,510 --> 01:03:26,510

[Applause]

646

01:03:26,510 --> 01:03:33,060

[Music] you said it will blow my mind

647

01:03:33,060 --> 01:03:46,470

[Music] you say ing things will fall apart
no more fears [Music] time for secrets to

648

01:03:46,470 --> 01:03:53,180

unfold sometimes [Music] I need to know [Applause]

649

01:03:53,180 --> 01:03:54,180

[Music]

650

01:04:51,289 --> 01:03:55,180

[Applause]

651

01:04:51,289 --> 01:05:34,430

[Music] we say we need to know [Music]

652

01:05:34,430 --> 01:05:56,000

in other news news

653

01:05:56,000 --> 01:06:55,309

tonight that this was no swine saucer Sports
is next week

654

01:06:55,309 --> 01:07:00,700

[Applause]
