

A man with a beard and glasses, wearing a dark suit, white shirt, and patterned tie, is speaking at a podium. A microphone is positioned in front of him. The background is dark and out of focus, showing what appears to be a conference room setting with other people seated at tables.

Need

To Know

1
00:00:00,329 --> 00:00:08,149
foreign

2
00:00:08,149 --> 00:00:15,179
This is NEED TO KNOW, real talk about the
reality of unidentified aerial phenomenon.

3
00:00:15,179 --> 00:00:22,000
From Australia Ross Coulthart, from the U.S
Bryce Zabel.

4
00:00:22,000 --> 00:00:28,010
Hey, everybody. A lot keeps happening between
our shows here at Need to Know which either

5
00:00:28,010 --> 00:00:32,660
proves that UAP news is being made faster
than ever or that we need to do shows more

6
00:00:32,660 --> 00:00:37,660
often. The last time we were here was a few
days before the recent Senate UAP hearing.

7
00:00:37,660 --> 00:00:42,379
We debated doing a show the day of the hearing
full of hot takes and maybe a celebrity guest

8
00:00:42,379 --> 00:00:47,469
like we did with Lue Elizondo a year ago last
May on the day of the first house hearing.

9
00:00:47,469 --> 00:00:52,100
This time though Ross and I decided we would
take a few days to think about what we saw

10
00:00:52,100 --> 00:00:57,539
and heard in that hearing instead of a hot
take give you, I don't know, maybe a warm

11

00:00:57,539 --> 00:01:02,789

analysis. Both of us have been busy in that time though. Ross has been on assignment for

12

00:01:02,789 --> 00:01:07,680

Channel 7 Australia and I've been working on a couple of writing projects because it's

13

00:01:07,680 --> 00:01:11,970

increasingly likely that as a member of the Writer's Guild of America I'll be on strike

14

00:01:11,970 --> 00:01:17,980

on May 2nd and the strike means pencils down and hitting the picket lines instead of pounding

15

00:01:17,980 --> 00:01:23,369

the keyboards in this show we'll be talking about that UAP hearing but we'll also touch

16

00:01:23,369 --> 00:01:28,250

on those rumors about what stories whistleblowers have already told Congress plus that leak

17

00:01:28,250 --> 00:01:34,659

of documents on the Discord platform also the high level classified intelligence briefing

18

00:01:34,659 --> 00:01:38,990

that just took place at Wright-Patterson Air Force Base and of course we'll want to give

19

00:01:38,990 --> 00:01:45,020

a bit of analysis to the firings of Tucker Carlson from Fox and Don Lemon from CNN because

20

00:01:45,020 --> 00:01:52,240

both of them have expressed on-air opinions about the issue of UAP UFO reality so there's

21

00:01:52,240 --> 00:01:57,590

a lot to get to let me bring in my cohort
direct from the road in Australia Ross goldthart

22

00:01:57,590 --> 00:02:03,290

hey Roscoe maybe you can tell us what you've
been working on g'day Bryce how are you mate

23

00:02:03,290 --> 00:02:09,950

what's that Chinese curse may you live in
interesting times my goodness me mate what

24

00:02:09,950 --> 00:02:16,110

I I there's so much going on I'm so excited
I've just read Josh Boswell's Daily Mail story

25

00:02:16,110 --> 00:02:20,640

where he's revealed what I've known for a
long time that quite a few people have come

26

00:02:20,640 --> 00:02:29,099

forward to the Congress as well also to the
aaro the all domain anomaly resolution office

27

00:02:29,099 --> 00:02:37,410

with direct first-person information about
what we call the program and uh yes I've been

28

00:02:37,410 --> 00:02:43,300

speaking to some of those people myself and
I am in absolutely no doubt absolutely no

29

00:02:43,300 --> 00:02:50,110

doubt that these Witnesses are making these
claims that they are real people with defense

30

00:02:50,110 --> 00:02:55,641

intelligence credentials and they want to
talk they want the public to know what they

31

00:02:55,641 --> 00:03:02,050

know and uh by golly I do think we are starting
to get some momentum here my friend things

32

00:03:02,050 --> 00:03:08,519

are getting very very interesting well it
you know it certainly was a moment of cognitive

33

00:03:08,519 --> 00:03:14,890

dissonance if you will watching Sean Kirkpatrick
the new head of Arrow testify because he started

34

00:03:14,890 --> 00:03:19,690

I mean first of all the man looked like he
was in a bad mood I don't know if that's his

35

00:03:19,690 --> 00:03:24,159

normal nature he looked like I missed it Cranky
Pants didn't he honestly I I don't think he

36

00:03:24,159 --> 00:03:29,989

wanted to be there I I just kept this he had
that look like he was the Surly boy at the

37

00:03:29,989 --> 00:03:35,770

back of the class who who frankly didn't like
having the teacher demanding to know whether

38

00:03:35,770 --> 00:03:41,689

he'd done his homework and uh he just looked
pissed you know I don't know the man um but

39

00:03:41,689 --> 00:03:46,680

I will say I didn't like the man I saw at
the hearing I just felt like he could have

40

00:03:46,680 --> 00:03:52,480

tried a little harder to sound a little less
pissed off and a little more uh open and and

41

00:03:52,480 --> 00:03:58,490

it really did when I say cognitive dissonance
he kept acting like okay nothing to see here

42

00:03:58,490 --> 00:04:05,480

so far we got nothing really impressive to
talk to you folks about yet which is okay

43

00:04:05,480 --> 00:04:10,769

I guess that's one way to look at it but you
and I both know and so so does that article

44

00:04:10,769 --> 00:04:15,909

in the daily mail from Josh Boswell we know
from personal experience that he's had people

45

00:04:15,909 --> 00:04:20,769

come in and tell him some pretty hair-raising
stories now maybe he has to try to validate

46

00:04:20,769 --> 00:04:25,009

some of those stories but I don't think that's
any reason he had to behave the way he did

47

00:04:25,009 --> 00:04:29,620

yeah I think this is the key issue Bryce the
key issue now is what's going to happen next

48

00:04:29,620 --> 00:04:35,970

are the public going to be told what frankly
I know I know the Congress knows I know senior

49

00:04:35,970 --> 00:04:43,940

congressmen and Senators have been briefed
in very extreme detail right down to program

50

00:04:43,940 --> 00:04:53,060

names code names key officials locations of
storage of material I know this information

51

00:04:53,060 --> 00:05:00,590

has and is being given to Congress by loyal patriotic Americans who've decided it's time

52

00:05:00,590 --> 00:05:06,740

this story be told and what the males revealed this morning that there are six whistleblowers

53

00:05:06,740 --> 00:05:14,530

who've claimed that they worked on Military UFO programs retrieving and analyzing crash

54

00:05:14,530 --> 00:05:22,760

material from non-human technology I'm told that's true no I don't I haven't seen these

55

00:05:22,760 --> 00:05:29,030

craft I haven't seen these objects that I'm told these whistleblowers are coming forward

56

00:05:29,030 --> 00:05:34,990

they're testifying under oath the people who are prepared to put their their lives on the

57

00:05:34,990 --> 00:05:40,330

line by basically coming forward to Congress and lawyer Danny Sheehan said he's in contact

58

00:05:40,330 --> 00:05:44,889

with them that he's assisting them in representing them before the Congress they're claiming

59

00:05:44,889 --> 00:05:50,220

they've worked on Roswell style UFO crash retrieval and reverse engineering programs

60

00:05:50,220 --> 00:05:57,220

and I know I know because I've spoken to people on the inside there are people who have come

61

00:05:57,220 --> 00:06:02,490

forward to Congress who have testified with this information they've given very specific

62

00:06:02,490 --> 00:06:08,919

detail now the big question is whether the United States government the United States

63

00:06:08,919 --> 00:06:15,060

military decides to do The Honorable thing and finally fess up about what they know we

64

00:06:15,060 --> 00:06:23,870

are I think my friend did a very important moment in history this is a very key time

65

00:06:23,870 --> 00:06:30,410

it's uh what we call an inflection point uh you know clearly uh something is going on

66

00:06:30,410 --> 00:06:35,740

uh our friend uh George Knapp uh from the weaponized podcast this week said he used

67

00:06:35,740 --> 00:06:41,840

the number 24 different whistleblowers who have met with uh Sean Kirkpatrick so whether

68

00:06:41,840 --> 00:06:47,099

it's six or 24 this is a lot of information that this man uh is being given and sitting

69

00:06:47,099 --> 00:06:52,560

on and I I did think his statement I don't have it in front of me but where he said basically

70

00:06:52,560 --> 00:06:56,810

we've seen nothing that would indicate this is extraterrestrial which was kind of a way

71

00:06:56,810 --> 00:07:02,740

to Tamp down expectations um it doesn't seem like a legitimate thing to be saying if he's

72

00:07:02,740 --> 00:07:07,560

actually been receiving people that say I can tell you what the name of the program

73

00:07:07,560 --> 00:07:12,340

was I can tell you where it was run I can tell you what's in it I can tell you who worked

74

00:07:12,340 --> 00:07:17,310

on it I mean those are things that that can be looked into so if there are hearings in

75

00:07:17,310 --> 00:07:22,590

the future and and as you and I have reported in our last podcast we think they may be even

76

00:07:22,590 --> 00:07:28,020

scheduled for June 13th they should be a little more explosive Affair than Sean Kirkpatrick

77

00:07:28,020 --> 00:07:33,190

and if I may I just want to talk about the Optics of that hearing for a moment you know

78

00:07:33,190 --> 00:07:38,930

maybe I've seen Godfather too too many times but I had this image of Michael Corleone and

79

00:07:38,930 --> 00:07:46,240

Godfather II testifying to this senate committee with the brown beautiful wood paneled walls

80

00:07:46,240 --> 00:07:52,379

and with a you know large section for an audience and instead what we got was a couple of tables

81

00:07:52,379 --> 00:07:56,220

that looked like they've been put together
and frankly you know as someone who's you

82

00:07:56,220 --> 00:08:00,500

know run television shows that's what you
do for a production meeting you take a bunch

83

00:08:00,500 --> 00:08:03,960

of tables push them together people get around
the table and talk about what they're going

84

00:08:03,960 --> 00:08:09,800

to shoot for the the week well the truth is
that those tables not only looked cheap and

85

00:08:09,800 --> 00:08:14,849

and low rent but there was nobody at them
the best of my knowledge three people showed

86

00:08:14,849 --> 00:08:20,470

up for that that hearing and the rest were
missing why is that well the key issue frankly

87

00:08:20,470 --> 00:08:25,530

my friend is that if the public if the American
public don't tell the Congress and don't tell

88

00:08:25,530 --> 00:08:30,240

their senators and representatives that they
want this information to be brought out it

89

00:08:30,240 --> 00:08:35,801

won't be the Congress will sit on it and the
defense department and the intelligence Community

90

00:08:35,801 --> 00:08:40,070

will win the day that's simply what we are
at at the moment you might say it's an inflection

91

00:08:40,070 --> 00:08:45,270

point but the simple fact is in the testimony
that was put forward by Sean Kirkpatrick he

92

00:08:45,270 --> 00:08:54,410

testified quote Ro has found no credible evidence
thus far of extraterrestrial activity off-world

93

00:08:54,410 --> 00:09:01,190

technology or objects that defy the known
laws of physics in the event sufficient scientific

94

00:09:01,190 --> 00:09:07,430

data were ever obtained that a UAP encountered
can only be explained by extraterrestrial

95

00:09:07,430 --> 00:09:13,029

origin we are committed to working with our
interagency partners at Nasa to appropriately

96

00:09:13,029 --> 00:09:20,310

inform U.S government leadership of its findings
now the simple fact is that Sean Kirkpatrick

97

00:09:20,310 --> 00:09:25,620

knows stuff behind the scenes from Witnesses
who've come forward and one of those Witnesses

98

00:09:25,620 --> 00:09:31,829

is quoted in Josh Boswell's story Hal putoff
Hal putoff has testified that he has told

99

00:09:31,829 --> 00:09:38,540

Sean Kirkpatrick of what he knows about Crash
retrievals programs so the simple fact is

100

00:09:38,540 --> 00:09:45,500

is Kirkpatrick playing a neat game is he playing
a neat game where basically he doesn't accept

101

00:09:45,500 --> 00:09:52,000

witness evidence as credible and this is the perennial argument that occurs in this debate

102

00:09:52,000 --> 00:09:57,170

if somebody says they've seen something are they a witness are they credible well yes

103

00:09:57,170 --> 00:10:03,029

they are in law they are so Mr Kirkpatrick had better be very careful because he's now

104

00:10:03,029 --> 00:10:08,180

testifying before the Congress and he has to be very sure that he doesn't mislead the

105

00:10:08,180 --> 00:10:14,470

Congress and I appreciate he's a scientist and as a scientist he may want to say in order

106

00:10:14,470 --> 00:10:20,430

for something to be credible he needs to see it and verify it and scientifically analyze

107

00:10:20,430 --> 00:10:26,870

it and confirm it all being said and well that's that's true but we're now in a case

108

00:10:26,870 --> 00:10:31,870

where he's testifying before the Congress admittedly not under oath but it is still

109

00:10:31,870 --> 00:10:37,310

an offense to lie or mislead the Congress and I think he and other people's needs to

110

00:10:37,310 --> 00:10:44,680

start being very very careful because frankly I know what he knows and a lot of people know

111

00:10:44,680 --> 00:10:50,209

what he knows we're at a very interesting point now here where public officials are

112

00:10:50,209 --> 00:10:56,061

testifying about things and I think to use a a lovely quotation that I recall from a

113

00:10:56,061 --> 00:11:01,709

British cabinet secretary way back in my early career when he was caught out fibbing about

114

00:11:01,709 --> 00:11:07,910

the um spycatcher MI6 witness that was trying to publish a book in Australia he was caught

115

00:11:07,910 --> 00:11:13,899

out being economical with the truth I think people people need to be very very careful

116

00:11:13,899 --> 00:11:21,350

that they're not being economical with the truth because witness evidence is evidence

117

00:11:21,350 --> 00:11:26,260

it's it certainly is and and frankly in journalism uh which is what we're practicing it's certainly

118

00:11:26,260 --> 00:11:31,430

evidence you know Sean's a quote uh that said we have no evidence that it's extraterrestrial

119

00:11:31,430 --> 00:11:35,720

would have gone down a little better if he didn't say it was such a sneer and with such

120

00:11:35,720 --> 00:11:41,510

uh you know obvious uh wishing he could get out of that room I do think you're right though

121

00:11:41,510 --> 00:11:47,290

there is a lot of cherry picking of how to exactly say things and it forces uh when uh

122

00:11:47,290 --> 00:11:52,680

news coverage to sort of have to uh you know try to read between the lines so for example

123

00:11:52,680 --> 00:11:56,769

uh when he says there's no evidence that it's extraterrestrial well a lot of us aren't saying

124

00:11:56,769 --> 00:12:02,050

it's extraterrestrial we we don't know we we do know it's probably not U.S technology

125

00:12:02,050 --> 00:12:07,810

or Chinese or Russian technology so it's from somebody that's anomalous uh and that may

126

00:12:07,810 --> 00:12:13,180

or may not be E.T so that the choice of saying extraterrestrial uh may have been a Dodge

127

00:12:13,180 --> 00:12:18,630

also I keep noticing people you said it and I believe in the in the Daily Mail article

128

00:12:18,630 --> 00:12:26,550

uh that you quoted from Roswell well style well okay that doesn't actually say it but

129

00:12:26,550 --> 00:12:31,480

you can't have Roswell style crash wreckage and reverse engineering unless that's what

130

00:12:31,480 --> 00:12:37,360

Roswell was about I think at the same time we are getting closer and closer to uh some

131

00:12:37,360 --> 00:12:42,160

kind of understanding that Roswell itself was an anomalous event so I think there's

132

00:12:42,160 --> 00:12:49,060

some big things playing out there right now that um that the people well it's interesting

133

00:12:49,060 --> 00:12:55,500

because clearly you could watch the hearing and get all upset and say okay nothing's ever

134

00:12:55,500 --> 00:13:01,139

going to happen this is this is just more obfuscation and it's never it's never going

135

00:13:01,139 --> 00:13:06,880

to come out but on the other hand I think as you said there are things behind the scenes

136

00:13:06,880 --> 00:13:13,529

that we know he's aware of and the Senators who were grilling them probably also are aware

137

00:13:13,529 --> 00:13:18,120

of that because they've also met with some of these so-called whistleblowers so at a

138

00:13:18,120 --> 00:13:23,980

certain point that Center cannot hold now where it breaks I don't know and neither does

139

00:13:23,980 --> 00:13:31,420

anybody at this point but it sure looks like it's getting closer yeah okay yeah maybe it

140

00:13:31,420 --> 00:13:36,050

is getting closer I mean I I don't want to sound like I'm bagging Kirkpatrick all the

141

00:13:36,050 --> 00:13:42,110

way through here because he is a scientist
and as a scientist as a pure scientist he

142

00:13:42,110 --> 00:13:47,220

is under that obligation to ensure that he
can verify something and frankly even if he

143

00:13:47,220 --> 00:13:52,100

has walked into a hangar and looked at an
object and said Gee that looks pretty anomalous

144

00:13:52,100 --> 00:13:58,350

but let's get it tested maybe he's at that
stage I don't know but the lawyer in me is

145

00:13:58,350 --> 00:14:03,970

basically of the view that if you have multiple
people asserting that they're aware of a code

146

00:14:03,970 --> 00:14:08,980

name program that has been concealed from
the public and from a large chunk of congressional

147

00:14:08,980 --> 00:14:13,670

oversight for decades this is the program
this is the location where the technology

148

00:14:13,670 --> 00:14:18,959

is kept you don't muck around you get in there
and you get in there fast and you start looking

149

00:14:18,959 --> 00:14:23,490

before they can start hiding it and I really
do think we're actually at that stage right

150

00:14:23,490 --> 00:14:28,130

now one of the things that's very interesting
and a positive from what Kirkpatrick has talked

151

00:14:28,130 --> 00:14:36,370

about is he does even though he does play
Dan the E.T possibility he does say that um

152

00:14:36,370 --> 00:14:43,450

uh there are a few potentially anomalous cases
in all domains in the cases they're looking

153

00:14:43,450 --> 00:14:49,870

at and he does say that arrow is reviewing
these cases with the highest level of objectivity

154

00:14:49,870 --> 00:14:54,399

which is what he should be doing I mean frankly
if somebody's going to be investigating this

155

00:14:54,399 --> 00:14:59,980

then you really do want them to be doing it
with full academic rigor but it's when he

156

00:14:59,980 --> 00:15:05,060

says that the current analysis of such cases
provides no credible evidence that's fair

157

00:15:05,060 --> 00:15:10,540

thus far of extraterrestrial activity of world
technology or objects that if I defy the known

158

00:15:10,540 --> 00:15:16,339

laws of physics that's where it starts straining
credibility for me because we already have

159

00:15:16,339 --> 00:15:22,209

on the record from Arrow itself documents
where they've acknowledged there are objects

160

00:15:22,209 --> 00:15:27,769

that defy the known laws of physics objects
that are basically incapable of explanation

161

00:15:27,769 --> 00:15:34,319
with prosaic explanations and I'm talking
here of course about the 2004 USS Nimitz incident

162
00:15:34,319 --> 00:15:42,540
and the 2014-2015 USS Theodore Roosevelt sightings
off the east coast of the USA it's quite clear

163
00:15:42,540 --> 00:15:49,149
from what we're hearing from people like Christopher
Mellon and other insiders that there is a

164
00:15:49,149 --> 00:15:55,519
high degree of likelihood that there are objects
that cannot be prosaically explained and this

165
00:15:55,519 --> 00:16:01,560
is the problem is that there are on the surface
clear contradictions between what Mr Kirkpatrick

166
00:16:01,560 --> 00:16:06,960
is telling Congress admittedly not under oath
but Billy please remember this man is going

167
00:16:06,960 --> 00:16:12,319
to have to be held to a [h__\h] for what
he says in future years if things come out

168
00:16:12,319 --> 00:16:18,820
so the simple fact is yes okay that they haven't
concluded yet that these are simply mundane

169
00:16:18,820 --> 00:16:23,700
objects that might be black projects but have
they actually gone in and kicked the tires

170
00:16:23,700 --> 00:16:30,140
and that that was my problem with this whole
hearing uh Bryce that that people like former

171

00:16:30,140 --> 00:16:34,750

astronauts Scott Kelly didn't even bother
to show up you've got Christian yellow band

172

00:16:34,750 --> 00:16:41,350

she's got the guts and the gumption to basically
call a hearing a public hearing but frankly

173

00:16:41,350 --> 00:16:46,370

I I think this is what we call a turd tied
up in a bow this is a this is a this is an

174

00:16:46,370 --> 00:16:52,720

exhibition put on for the public to try and
represent that they're doing adequate scrutiny

175

00:16:52,720 --> 00:16:59,600

and interrogation of somebody who's ostensibly
responsible for holding holding the defense

176

00:16:59,600 --> 00:17:04,540

Department to account what I do know is there's
a whole game being played behind the scenes

177

00:17:04,540 --> 00:17:11,569

right now and I don't think that Sean Kirkpatrick
is doing himself any honorable service by

178

00:17:11,569 --> 00:17:16,819

behaving the way he's behaving because I frankly
know he's Irrelevant in the scheme of things

179

00:17:16,819 --> 00:17:22,339

if that's the position that he takes he's
going to be overtaken by events Congress is

180

00:17:22,339 --> 00:17:29,760

impatient to get to the truth of this nobody
I hasten to add once sensitive technology

181

00:17:29,760 --> 00:17:34,840

that might have been developed from these materials to be revealed and neither should

182

00:17:34,840 --> 00:17:39,440

we you know the National Security interests should be imperative that essentially if there

183

00:17:39,440 --> 00:17:44,910

is a technology a propulsion system an energy system that can be derived from whatever this

184

00:17:44,910 --> 00:17:50,660

technology is then yes let's protect that but there is absolutely no reason at all now

185

00:17:50,660 --> 00:17:57,799

why the simple fact if it's true of a non-human intelligence that's behind this technology

186

00:17:57,799 --> 00:18:04,960

cannot be revealed and that's where we're at today how about a little confirmation look

187

00:18:04,960 --> 00:18:12,580

uh I I I I have to believe that um um our our man who testified is not going to be on

188

00:18:12,580 --> 00:18:18,020

the job at Arrow all that much longer and he may in fact be sacrificed at some point

189

00:18:18,020 --> 00:18:24,040

for some strategic reason but I found myself watching the uh the testimony and thinking

190

00:18:24,040 --> 00:18:28,840

to myself uh you know it doesn't have to be the government I mean we're talking about

191

00:18:28,840 --> 00:18:32,790

it right now because they're holding hearings
and because this is the first time in a long

192

00:18:32,790 --> 00:18:37,409

time when the government is actually copped
to something anomalous being out there so

193

00:18:37,409 --> 00:18:43,090

it is interesting that the government's uh
you know taking steps but I think I I would

194

00:18:43,090 --> 00:18:49,440

just like to underline that neither Ross nor
myself are waiting with baited breath for

195

00:18:49,440 --> 00:18:54,020

every morsel that the government tosses out
in my own view I think that the people are

196

00:18:54,020 --> 00:19:00,770

probably going to have to take this on for
themselves and by our own energetic attempts

197

00:19:00,770 --> 00:19:06,570

to resolve this mystery uh the government
will have to go along with that um the other

198

00:19:06,570 --> 00:19:11,360

thing is and Ross you brought this up you
said it's not like they walked into a hangar

199

00:19:11,360 --> 00:19:16,880

and had seen an object which made me think
about another piece of news from uh this week

200

00:19:16,880 --> 00:19:22,880

after the hearing uh to the best of my knowledge
a number of classified intelligence uh people

201

00:19:22,880 --> 00:19:29,380

including uh April Haynes of the uh Office
of the Director of National Intelligence all

202

00:19:29,380 --> 00:19:36,570

trekked to where Wright-Patterson Air Force
Base for a very high level classified briefing

203

00:19:36,570 --> 00:19:44,150

and okay probably has nothing to do with this
but let's all remember why Wright Patterson

204

00:19:44,150 --> 00:19:49,640

is important it was the home of Project Blue
Book all right that's where all those blue

205

00:19:49,640 --> 00:19:55,169

book files uh were maintained it's where the
investigation was located and according to

206

00:19:55,169 --> 00:20:01,280

some very good research done by the likes
of Don Schmidt and others uh Wright Patterson

207

00:20:01,280 --> 00:20:07,160

is where the Roswell wreckage was actually
flown so the idea that somebody could be going

208

00:20:07,160 --> 00:20:11,330

to a hangar and seeing an object uh well if
you're going to go anywhere right Patterson

209

00:20:11,330 --> 00:20:16,360

would be a place I just wonder what what is
your take well you know what I'm going to

210

00:20:16,360 --> 00:20:21,500

tee that up but this one other thing I wanted
to say the about that hearing they showed

211

00:20:21,500 --> 00:20:27,750

a flying ball basically a flying metal ball
and I know that uh many people who have been

212

00:20:27,750 --> 00:20:32,230

watching us know that you've investigated
uh that with some that have actually been

213

00:20:32,230 --> 00:20:37,350

found here on Earth what was your take when
you saw that and uh I guess and then roll

214

00:20:37,350 --> 00:20:42,610

back into the right path thing because I find
that very intriguing as well okay I know a

215

00:20:42,610 --> 00:20:48,220

lot more than I can reveal right now but basically
yes the Spheres are important and uh some

216

00:20:48,220 --> 00:20:54,020

good work is being done right now and um I
think that the relevance and the significance

217

00:20:54,020 --> 00:20:58,490

of those objects will become apparent I've
been contacted by the way from all over the

218

00:20:58,490 --> 00:21:03,710

world I've had people contact me saying they've
seen these fears there's a guy emailed me

219

00:21:03,710 --> 00:21:08,130

this morning saying literally he was just
standing looking up and it was only a few

220

00:21:08,130 --> 00:21:13,350

feet away from him and it was the solid steel
sphere just floating in the air now I I didn't

221

00:21:13,350 --> 00:21:17,320

see this I don't know for sure but the simple fact is that there is an enormous number of

222

00:21:17,320 --> 00:21:21,650

people saying they've seen this stuff and I love it I've just got to love Mick West

223

00:21:21,650 --> 00:21:29,201

for his attempts to try and um uh find the earliest quickest mundane prosaic explanation

224

00:21:29,201 --> 00:21:34,279

that he can and I noticed that he was suggesting it was probably a balloon or a party balloon

225

00:21:34,279 --> 00:21:39,919

that was photographed do you really seriously think that the Pentagon would release to the

226

00:21:39,919 --> 00:21:47,080

Senate and suggest that this is quite possibly anomalous an image of an object without first

227

00:21:47,080 --> 00:21:51,460

checking the possibility that it's a balloon I mean we really are point where frankly those

228

00:21:51,460 --> 00:21:57,090

kind of silly explanations need to be start being actively discounted I'm told that there's

229

00:21:57,090 --> 00:22:02,730

been very rigorous analysis done that these objects are being seen all over the world

230

00:22:02,730 --> 00:22:05,929

and if you look online I mean there's a hell of a lot of people have contacted me with

231

00:22:05,929 --> 00:22:11,320

information that basically shows that they've seen these fears they've filmed them you know

232

00:22:11,320 --> 00:22:16,809

they've videoed them photographed them there's an abundance of information that is being

233

00:22:16,809 --> 00:22:22,770

slowly collated that that suggests there really is something to that now listen just let's

234

00:22:22,770 --> 00:22:27,420

just deal with the right Patterson visit for a moment I agree with you I don't think it

235

00:22:27,420 --> 00:22:33,310

was exclusively or anything to do with UFOs I know that um people who went there Representatives

236

00:22:33,310 --> 00:22:39,710

who went there did go forewarned and forearmed with curly questions on uaps and one or two

237

00:22:39,710 --> 00:22:44,080

questions might have been asked about what they've got in their basement but the key

238

00:22:44,080 --> 00:22:48,539

thing the thing I think is very important is that the consequence of that meeting was

239

00:22:48,539 --> 00:22:54,799

essentially an attempt I suspect uh by the intelligence Community to provide good Optics

240

00:22:54,799 --> 00:23:01,880

to the uh Congress about what they're doing to respond to the appalling leak of information

241

00:23:01,880 --> 00:23:09,900

by that guy texiera Jack texiera the 21 year old guy who from the National Guard who frankly

242

00:23:09,900 --> 00:23:15,750

in an act of utter Insanity leaked highly sensitive top secret SCI documents into a

243

00:23:15,750 --> 00:23:22,070

Discord group I think just as a pissing competition to show his mates that he was for real um

244

00:23:22,070 --> 00:23:28,700

unbelievable what that says about the state the current state of the U.S protection of

245

00:23:28,700 --> 00:23:34,710

its highly classified secrets and um I think what the main meeting of Wright-Patterson

246

00:23:34,710 --> 00:23:41,770

was about was to try and provide good Optics to the senior representatives of Senate committees

247

00:23:41,770 --> 00:23:45,659

that basically they're doing the right thing that they're responding to that and making

248

00:23:45,659 --> 00:23:52,200

sure that they are going to all the efforts that they can do to properly classify material

249

00:23:52,200 --> 00:23:58,160

because that case honestly it's a debacle the full story that's behind the leaking of

250

00:23:58,160 --> 00:24:06,230

those documents is only slowly now beginning to emerge it's a shocker and what it says

251

00:24:06,230 --> 00:24:13,030

about the Integrity of the protection of Secrets
inside the US government is just breathtaking

252

00:24:13,030 --> 00:24:17,140

and it does have relevance and I'm sure you're
wanting to talk about this my friend it does

253

00:24:17,140 --> 00:24:23,720

does have relevance on the issue of uaps too
yeah you know I I still as as we talk here

254

00:24:23,720 --> 00:24:29,750

though I keep I just wrote down think about
it since we were on like 11 days ago we you

255

00:24:29,750 --> 00:24:35,510

know the the Discord leak the uh China balloon
aftermath the hearing that took place the

256

00:24:35,510 --> 00:24:40,620

Wright-Patterson briefing I mean wow uh things
are going on there's no question about it

257

00:24:40,620 --> 00:24:46,380

um I just wanted to uh bounce back to the
ball for a second if you will the the metal

258

00:24:46,380 --> 00:24:53,159

balls because uh years ago um I had someone
who told me a story I'm just going to give

259

00:24:53,159 --> 00:24:57,559

you this anecdotal story because it's the
kind of stuff that's out there everywhere

260

00:24:57,559 --> 00:25:03,340

uh he was uh I believe 17 years old and he
was in his backyard with the friend in the

261

00:25:03,340 --> 00:25:09,500

1960s and they were having a beer one beer
hot summer day one beer and as they were sitting

262

00:25:09,500 --> 00:25:17,990

on the back porch a sphere that he described
as being you know about yay um started flying

263

00:25:17,990 --> 00:25:22,890

around in front of them you know just flying
around the backyard flying around and they

264

00:25:22,890 --> 00:25:27,730

watched it and then being the high school
kids that they were they ran to the shed and

265

00:25:27,730 --> 00:25:33,520

got um a net a fishing net and tried to capture
this thing with a fishing net you know and

266

00:25:33,520 --> 00:25:39,080

these guys didn't make this up because as
they described it to me for years afterwards

267

00:25:39,080 --> 00:25:43,830

one of them would always call the other uh
after a couple of years and say um by the

268

00:25:43,830 --> 00:25:48,610

way uh you know that thing that happened did
that really happen and the other would say

269

00:25:48,610 --> 00:25:52,580

yeah yeah that really happened and then they
talk about how their families were so we've

270

00:25:52,580 --> 00:25:57,429

learned to live with a high degree of craziness
out there and it's all kind of coming home

271

00:25:57,429 --> 00:26:02,760

to roost um can I make a point here that I'm aware of just so you know I mean as you know

272

00:26:02,760 --> 00:26:08,621

we did that sphere story last year and it is still under investigation um but I can

273

00:26:08,621 --> 00:26:14,850

tell you I have had hundreds of people from all over the world contact me with photographs

274

00:26:14,850 --> 00:26:23,370

videos uh accounts of seeing identical objects and um at what point do you basically go all

275

00:26:23,370 --> 00:26:28,200

of these crazy people are crazy um all of them are basically saying that these were

276

00:26:28,200 --> 00:26:32,850

solid intelligently controlled objects that weren't balloons they were close enough for

277

00:26:32,850 --> 00:26:37,820

them to see that they were solid metallic objects and people are seeing these from all

278

00:26:37,820 --> 00:26:41,630

over the world one of the guys who contacted me was in Africa in a very remote part of

279

00:26:41,630 --> 00:26:48,880

Africa uh this is real I don't know what it is but it's real and and it boils down I mean

280

00:26:48,880 --> 00:26:53,669

this is the This Is The Perennial issue I mean ultimately the way in which people have

281

00:26:53,669 --> 00:26:58,930

liked this have been able to be marginalized
and stigmatized for years is that before the

282

00:26:58,930 --> 00:27:05,149

internet it was very very easy to isolate
and stigmatize and ridicule one person who

283

00:27:05,149 --> 00:27:08,799

came forward with the sighting and that's
what's been done that's what's been done for

284

00:27:08,799 --> 00:27:14,730

most of the last 70 years but let's have a
look here Bryce of what's happening the lesson

285

00:27:14,730 --> 00:27:21,100

of what's happening right now is that mainstream
media has unwittingly colluded in that kind

286

00:27:21,100 --> 00:27:25,350

of ridicule stigma in taboo and frankly I
admitted I've been part of it and my history

287

00:27:25,350 --> 00:27:30,890

as a journalist in mainstream media but what's
happening now is there is a tyranny of the

288

00:27:30,890 --> 00:27:35,380

commons people are coming forward they're
able to post stuff on YouTube they're able

289

00:27:35,380 --> 00:27:40,490

to post stuff God forbid on Discord such as
top secret SCI documents you know and and

290

00:27:40,490 --> 00:27:45,929

this stuff can be posted and democratized
people can access it and make their own judgments

291

00:27:45,929 --> 00:27:52,590

and the ability of the powers that be and
and I do they have used influence to try and

292

00:27:52,590 --> 00:27:57,850

constrain and they still are to try and constrain
what the mainstream media reports the the

293

00:27:57,850 --> 00:28:03,529

ability of the powers that be Now to control
that narrative to basically stop people from

294

00:28:03,529 --> 00:28:11,429

knowing uh and analyzing and collating information
that's going and it's going very very quickly

295

00:28:11,429 --> 00:28:15,870

and and the interesting thing here is that
the mainstream media is making itself largely

296

00:28:15,870 --> 00:28:21,520

Irrelevant in the way it's failing to cover
this issue it's got its head in the sand it's

297

00:28:21,520 --> 00:28:26,730

still locked into that stigma it's allowing
its National Security reporters to be excessively

298

00:28:26,730 --> 00:28:31,870

influenced by the Pentagon on the intelligence
community and while that's happening you've

299

00:28:31,870 --> 00:28:38,159

got this slow rise of awareness on social
media and other platforms where people are

300

00:28:38,159 --> 00:28:44,470

going you know what there's too much of this
there's so many witnesses saying the same

301

00:28:44,470 --> 00:28:50,890

thing that's what's different now there is momentum because of this wonderful technology

302

00:28:50,890 --> 00:28:57,000

the internet and and of course I was also a little shocked that Sean Kirkpatrick chose

303

00:28:57,000 --> 00:29:01,549

as one of his two clips to show a metal sphere or at least what looked like a metal sphere

304

00:29:01,549 --> 00:29:08,850

but you know uh thinking back to the empty table that had a few Senators mostly gillibrand

305

00:29:08,850 --> 00:29:13,320

at one end and Sean Kirkpatrick at the other end saying where are all these people why

306

00:29:13,320 --> 00:29:18,149

aren't they there well probably because of stigma probably because they didn't want to

307

00:29:18,149 --> 00:29:24,970

be associated with a committee looking into the UFO issue uh because politically maybe

308

00:29:24,970 --> 00:29:31,100

they don't know how it's going to play yet um and and by the way just a quick correction

309

00:29:31,100 --> 00:29:35,250

the senator who didn't show up as Senator Mark Kelly I believe I'm sorry Mark Kelly

310

00:29:35,250 --> 00:29:40,140

my apologies yeah it's yeah twin brother Scott it's easy to get confused you got two twins

311

00:29:40,140 --> 00:29:47,580

astronauts um but then the other thing uh
to go along with your media analysis is uh

312

00:29:47,580 --> 00:29:53,059

what did the media almost in lockstep do they
took the one paragraph graph that you already

313

00:29:53,059 --> 00:29:59,130

read from Sean Kirkpatrick which said basically
we don't have any evidence they're extraterrestrial

314

00:29:59,130 --> 00:30:05,210

so the media basically just took that that
was their story uh nothing to see here they're

315

00:30:05,210 --> 00:30:10,570

not extraterrestrial uh we're done move on
they didn't have a report they didn't have

316

00:30:10,570 --> 00:30:16,200

reporters who actually knew enough about the
topic to dig in and dimensionalize why he

317

00:30:16,200 --> 00:30:20,470

might say that or what else he knows that
he's not saying or any of the things that

318

00:30:20,470 --> 00:30:27,299

we've been talking about here so uh the media
just proved once again that it's still stigmatized

319

00:30:27,299 --> 00:30:34,419

on this uh this topic so we we are living
in a time where we seem to be doing the one

320

00:30:34,419 --> 00:30:39,320

step forward and a couple of steps back and
then a couple more it's it's give and take

321

00:30:39,320 --> 00:30:44,080

we're not quite there yet so one of the things
I I said at the beginning is that you and

322

00:30:44,080 --> 00:30:49,270

I rather than do the hot takes I wanted to
think about it a little bit so I know that

323

00:30:49,270 --> 00:30:54,710

you have been on the road and you've probably
had some time in those lonely hotel rooms

324

00:30:54,710 --> 00:31:01,169

to think about the big picture issues such
as what what is going on here I found myself

325

00:31:01,169 --> 00:31:07,059

listening to that hearing and you know other
than the fact that I didn't like Sean Kirkpatrick

326

00:31:07,059 --> 00:31:13,169

I got irked that the meeting was so empty
of senators who I think should be there particularly

327

00:31:13,169 --> 00:31:19,300

you know forget the UAP UFO idea what what
about the shoot Downs of these so-called Chinese

328

00:31:19,300 --> 00:31:24,870

uh balloons and so forth what and what about
the leaks and all that why wouldn't that attract

329

00:31:24,870 --> 00:31:31,680

a full group and I just ended up getting frustrated
all over again saying I feel like we're all

330

00:31:31,680 --> 00:31:37,010

in this alone and we have to all come together
as Citizens to solve the problem because the

331

00:31:37,010 --> 00:31:42,779

government isn't quite sure how to do this
yet that was my take what was yours okay well

332

00:31:42,779 --> 00:31:46,530

what I do know is that there was a private
hearing that was held in addition to this

333

00:31:46,530 --> 00:31:52,740

public hearing and former astronaut Kelly
did attend that private hearing and and so

334

00:31:52,740 --> 00:31:57,710

did other members and so there's a dog and
pony show going here mate where you've got

335

00:31:57,710 --> 00:32:04,419

the public being fed that simple line from
uh Mr Kirkpatrick where he basically asserts

336

00:32:04,419 --> 00:32:10,179

that there is no credible evidence of anything
anomalous and yet behind the scenes I know

337

00:32:10,179 --> 00:32:16,409

for a fact they're being told entirely different
stuff inside the private hearings and and

338

00:32:16,409 --> 00:32:25,390

so is also the Congress uh in separate hearings
uh so yes uh Kirkpatrick may be holding a

339

00:32:25,390 --> 00:32:32,610

line publicly for a certain reason and he
may be using the um the constraint that as

340

00:32:32,610 --> 00:32:38,790

a scientist he needs very very solid evidence
to reach a highly reasoned conclusion but

341

00:32:38,790 --> 00:32:42,549

to me I mean one of the key issues and one of the reasons for that public hearing was

342

00:32:42,549 --> 00:32:46,711

to essentially do a dog and pony show to basically show the public that Senator Gillibrand is

343

00:32:46,711 --> 00:32:51,760

still holding his feet to the fire but the simple fact is my friend that as Gillibrand

344

00:32:51,760 --> 00:32:59,360

in her opening comments observed the budget only requested um enough funding to defray

345

00:32:59,360 --> 00:33:05,450

the operating expenses of Arrow it included almost no funds to sustain The crucial research

346

00:33:05,450 --> 00:33:11,519

and development necessary to support a serious investigation and as she rightly observed

347

00:33:11,519 --> 00:33:16,260

it took a letter from secretary Austin to secretary Austin that's the secretary of the

348

00:33:16,260 --> 00:33:22,360

Department of Defense from Senator Rubio that's the Republican senator Marco Rubio and me

349

00:33:22,360 --> 00:33:29,690

and 14 other Senators to get the office temporary relief for the current fiscal year so the

350

00:33:29,690 --> 00:33:37,679

real issue my friend is yes maybe Dr Kirkpatrick's got a point maybe the reason why he hasn't

351

00:33:37,679 --> 00:33:42,710

yet done the kind of scientific investigations
that he needs to be able to do is because

352

00:33:42,710 --> 00:33:48,500

he's not being given the resources to properly
evaluate it and and maybe the simple fact

353

00:33:48,500 --> 00:33:54,580

is that he's basically being gacked that he's
he's not being given the the things the tools

354

00:33:54,580 --> 00:34:00,880

that he needs to ask the right questions maybe
that's what's behind his frustration and maybe

355

00:34:00,880 --> 00:34:05,600

that's what he was conveying to the committee
members in the private hearing and also look

356

00:34:05,600 --> 00:34:12,169

frankly I do think we do need to acknowledge
here Bryce that if and I say if if we truly

357

00:34:12,169 --> 00:34:18,810

are on the verge of momentous Revelations
about a non-human intelligence if that really

358

00:34:18,810 --> 00:34:24,110

is the case there are big decisions that need
to be made because if the United States has

359

00:34:24,110 --> 00:34:30,720

recovered non-human technology and I'm told
that committees in the Congress have been

360

00:34:30,720 --> 00:34:37,849

told exactly that by multiple Witnesses if
that's true then the decision needs to be

361

00:34:37,849 --> 00:34:44,410

made about what the American public could
and would and should be told about that and

362

00:34:44,410 --> 00:34:49,500

it's it's not an easy one I mean I I'm not
somebody as a journalist I've learned to respect

363

00:34:49,500 --> 00:34:54,540

the importance of black World projects I've
learned to respect the importance of making

364

00:34:54,540 --> 00:34:59,740

sure that our military and our intelligence
Services can do things unimpeded you know

365

00:34:59,740 --> 00:35:04,869

it's it's it's very easy for media to to say
this should all be outed it should all be

366

00:35:04,869 --> 00:35:10,940

revealed but there are good reasons let's
let's acknowledge you know we're looking at

367

00:35:10,940 --> 00:35:15,760

the fact that there's a imminent war with
China but everybody seems to be talking about

368

00:35:15,760 --> 00:35:22,570

not if but when does the every possible likelihood
that if the ukrainians basically invade Crimea

369

00:35:22,570 --> 00:35:29,010

that a tactical nuclear weapon might be used
by Putin in in Crimea God forbid and what

370

00:35:29,010 --> 00:35:35,230

happens if the Iranians do manage to get enough
weapons grade to plutonium to be able to build

371

00:35:35,230 --> 00:35:39,540

a bomb before the end of this year do you really think that the American government

372

00:35:39,540 --> 00:35:45,010

and the Israelis are going to allow that to go unchecked I don't and so we're at a very

373

00:35:45,010 --> 00:35:51,841

very dangerous time right now and I can understand why a very top Committee in the U.S Congress

374

00:35:51,841 --> 00:35:59,710

is weighing up what the public could and should be told I I'm with you on all that but I would

375

00:35:59,710 --> 00:36:04,550

say this when you said it's not an easy decision as to figure out what to tell them when to

376

00:36:04,550 --> 00:36:11,109

tell them how much to tell them and you know the all the forms disclosure and or confirmation

377

00:36:11,109 --> 00:36:16,990

could take remember they've had 75 years to wrap their heads around this so I would hope

378

00:36:16,990 --> 00:36:21,760

that the this isn't the first time somebody sat or if there's a non-human intelligence

379

00:36:21,760 --> 00:36:27,290

out there interacting with us this isn't the first time in 2023 that somebody's ever said

380

00:36:27,290 --> 00:36:32,349

gee I wonder how we're going to talk about this I mean clearly they've had a lot of time

381

00:36:32,349 --> 00:36:38,340

to do that I also take your point uh Sean Kirkpatrick is in a hot seat he's in a difficult

382

00:36:38,340 --> 00:36:44,470

place he is a scientist I do give him all that he he wants to attack the issue is a

383

00:36:44,470 --> 00:36:48,670

scientific one but it's also remember when you're in charge of something like Arrow you're

384

00:36:48,670 --> 00:36:53,560

also a politician you have to figure out the politics of how to do your job and I think

385

00:36:53,560 --> 00:36:59,089

maybe he's going to need a little bit of help figuring that about I do also know and want

386

00:36:59,089 --> 00:37:05,630

to indicate that my frustrations notwithstanding there are other people uh who who have taken

387

00:37:05,630 --> 00:37:11,150

the position that they thought the hearings uh the hearing if you will uh poorly attended

388

00:37:11,150 --> 00:37:16,599

as it was uh still had some positives and those are our friends like Micah Hanks and

389

00:37:16,599 --> 00:37:21,910

Jeremy Corbell who both ended up watching it saying I can't dismiss all this at least

390

00:37:21,910 --> 00:37:25,940

this is what we want the government to do we want the government to take a look at this

391

00:37:25,940 --> 00:37:31,599

scientifically and try to figure out what
what's going on so I I I think that is um

392

00:37:31,599 --> 00:37:36,510

that's that's relevant and that that's important
I I just can't get over though what you just

393

00:37:36,510 --> 00:37:41,280

told us though Senator Mark Kelly who I went
off on in our last episode and I feel like

394

00:37:41,280 --> 00:37:49,490

I'm about to do it again come on Senator Kelly
how hypocritical is it to go to the the classified

395

00:37:49,490 --> 00:37:55,810

hearing hear all the good stuff but not put
your own reputation or your own interaction

396

00:37:55,810 --> 00:37:59,780

with the city citizens that you represent
on the line and go to the public hearing and

397

00:37:59,780 --> 00:38:06,230

be a part of that and for all the other Senators
who were just empty chairs my blood boils

398

00:38:06,230 --> 00:38:12,440

when I see that empty room well maybe this
is the key issue Bryce maybe they don't think

399

00:38:12,440 --> 00:38:17,280

the public has the right to know what they
do know and I I think there were some very

400

00:38:17,280 --> 00:38:22,850

telling moments in gillibrand's opening comments
that I want to point people to she actually

401

00:38:22,850 --> 00:38:28,810

flagged that she intended to probe the multiple objects that were shot down over North America

402

00:38:28,810 --> 00:38:35,870

and she observed quote it seemed that the Pentagon leadership did not turn to the aaro

403

00:38:35,870 --> 00:38:41,420

office to play a leading role in advising the combatant commander we need to know whether

404

00:38:41,420 --> 00:38:46,730

this will continue we need to know whether the leadership in DOD will bring Arrow into

405

00:38:46,730 --> 00:38:53,040

the decision-making process in a visible way and we need to know what role Arrow will play

406

00:38:53,040 --> 00:38:58,500

in interagency coordination after the National Security Council working group do spans because

407

00:38:58,500 --> 00:39:04,079

don't forget that what happened after the shootdowns and oh God how quickly people forget

408

00:39:04,079 --> 00:39:08,530

the U.S government the president announced that he was creating an interagency working

409

00:39:08,530 --> 00:39:13,460

group out of the White House through the National Security Council that would be independently

410

00:39:13,460 --> 00:39:18,140

from Arrow investigating the circumstances of the shootdowns and what these objects were

411

00:39:18,140 --> 00:39:23,900

and don't forget my friend we still do not know the government despite its promises has

412

00:39:23,900 --> 00:39:30,720

not revealed what these objects were in detail they've refused to reveal the videos and there's

413

00:39:30,720 --> 00:39:35,800

been no explanation as to why they've refused to reveal those videos as I flagged in an

414

00:39:35,800 --> 00:39:43,630

earlier podcast there is something very very strange about the Alaska shoot done image

415

00:39:43,630 --> 00:39:49,500

and I'm told that we should be pushing very very hard on that there is a question mark

416

00:39:49,500 --> 00:39:56,200

in my mind as to whether one of those shutdowns the Alaska shoot down was anomalous and you

417

00:39:56,200 --> 00:40:00,609

might notice that even though gillibrand flagged in her opening remarks that she was going

418

00:40:00,609 --> 00:40:05,650

to be asking questions about that we didn't even get answers to that now that's the problem

419

00:40:05,650 --> 00:40:12,260

is the public allows these things to be flagged in a public hearing by the senator presiding

420

00:40:12,260 --> 00:40:17,630

and frankly the media should have been there to hold that this was a great opportunity

421

00:40:17,630 --> 00:40:21,970

to actually get a final answer on what the hell those objects were that were shot down

422

00:40:21,970 --> 00:40:27,570

over the U.S and it's the lack of inquisitiveness by the mainstream media that nominally have

423

00:40:27,570 --> 00:40:32,710

Carriage of coverage of this issue that I think is the real problem because they completely

424

00:40:32,710 --> 00:40:38,450

failed the other issue that gillibrand also flagged was that the filters on radar systems

425

00:40:38,450 --> 00:40:46,210

were adjusted to essentially lower the sensitivity for detection and tracking of objects um and

426

00:40:46,210 --> 00:40:52,080

and so that that's the first time that that happened and so the reason why we missed these

427

00:40:52,080 --> 00:40:56,720

objects in those February shootdowns the reason why they were able to move across the Continental

428

00:40:56,720 --> 00:41:03,099

USA was because NORAD the U.S Air Force had turned the sensitivity to a level where it

429

00:41:03,099 --> 00:41:11,170

wouldn't detect them now we still don't have answers as to why the agency most entrusted

430

00:41:11,170 --> 00:41:16,700

with the defense of the United States had turned the sensitivity of its sensor systems

431

00:41:16,700 --> 00:41:23,300

to the point where they wouldn't pick up dangerous objects National Security flight safety threatening

432

00:41:23,300 --> 00:41:28,620

objects moving across the United States and my big disappointment out of gillibrand's

433

00:41:28,620 --> 00:41:36,089

Committee hearing was that in the public hearing we didn't get answers even now to those questions

434

00:41:36,089 --> 00:41:43,000

it's now April it's months on from those February shutdowns and we still don't have answers

435

00:41:43,000 --> 00:41:48,589

we still don't have the videos and we still don't know why the U.S Air Force and the NORAD

436

00:41:48,589 --> 00:41:54,240

adjusted the sensitivity to stop themselves from detecting things that are as everybody

437

00:41:54,240 --> 00:41:59,619

now knows a threat to the National Security and flight safety of the United States that's

438

00:41:59,619 --> 00:42:04,630

the same question it's a big question and it's so irritating I mean I just have to remind

439

00:42:04,630 --> 00:42:11,710

us all again it was last month when a Russian jet poured a bunch of fuel on one of our drones

440

00:42:11,710 --> 00:42:17,850

and we released the video of that within two days maybe even a day so here we are several

441

00:42:17,850 --> 00:42:22,930

months past what were spoke what's being sold
to us as the shutdowns of weather balloons

442

00:42:22,930 --> 00:42:27,910

and we can't see that video uh we know it
exists but we can't see it I don't get it

443

00:42:27,910 --> 00:42:33,190

that's why the public uh is probably going
to be mad the public isn't likely to get mad

444

00:42:33,190 --> 00:42:37,900

when they're told the truth about something
they may be scared they may have other feelings

445

00:42:37,900 --> 00:42:43,820

but not have to be mad what what gets people
mad is uh not being told things that are important

446

00:42:43,820 --> 00:42:48,710

to them as they make the decisions about their
lives so you know if the government really

447

00:42:48,710 --> 00:42:54,630

didn't know what was going on at all and had
no theories and this was a brand new thing

448

00:42:54,630 --> 00:42:59,410

then I guess we could all cut a lot of slack
as we began to investigate this but that isn't

449

00:42:59,410 --> 00:43:03,839

the case we all know this we've gone over
it many times on this show about how the history

450

00:43:03,839 --> 00:43:09,460

of this goes back with tens of thousands of
good sightings with all the you know with

451

00:43:09,460 --> 00:43:14,670

all the good witnesses that you can imagine
from uh Pilots to police officers and it's

452

00:43:14,670 --> 00:43:20,130

just it's it's getting old and people are
ready to to learn a little bit more about

453

00:43:20,130 --> 00:43:27,270

that so um we you know people like you and
I we could say this over and over but at some

454

00:43:27,270 --> 00:43:35,180

point we need to take this action together
we need you know I'm not an activist about

455

00:43:35,180 --> 00:43:41,890

ET I'm not advocating that this is ET I'm
just advocating for transparency I'm advocating

456

00:43:41,890 --> 00:43:47,349

for truth I'm advocating for confirmation
if there's a big dirty little secret that

457

00:43:47,349 --> 00:43:51,920

there's a non-human intelligence I'd like
to know and if the government and the people

458

00:43:51,920 --> 00:43:56,660

who have studied it are able to say after
75 years we don't know any more than that

459

00:43:56,660 --> 00:44:00,950

we can't figure it out we've tried to reverse
engineer this stuff we're not having any luck

460

00:44:00,950 --> 00:44:05,790

with it if that's what they want to tell us
let's start there but at least confirm it

461

00:44:05,790 --> 00:44:12,599

so uh yeah uh it's I sound like a broken record
on this show sometimes because all of these

462

00:44:12,599 --> 00:44:18,340

um issues that we have to deal with kind of
go back to the beginning our Representatives

463

00:44:18,340 --> 00:44:23,500

historically and it isn't just in the United
States and it's in your own country in Australia

464

00:44:23,500 --> 00:44:28,369

and it's in countries throughout the world
uh countries have no governments have not

465

00:44:28,369 --> 00:44:35,200

been forthcoming on this issue and it's probably
time to to to to start talking about it in

466

00:44:35,200 --> 00:44:40,910

a more open way and you know I know our time
is wrapping up can we can do we dare do a

467

00:44:40,910 --> 00:44:47,401

little cultural dissection can we talk about
Tucker Carlson and Don Lemon can I just make

468

00:44:47,401 --> 00:44:53,140

one point first before you go to that one
of the great lessons from American history

469

00:44:53,140 --> 00:45:01,349

is that Secrets have a way of wriggling out
into the open Daniel Ellsberg leaked the Pentagon

470

00:45:01,349 --> 00:45:08,470

papers that revealed just what the US defense
department knew about the catastrophe of Vietnam

471

00:45:08,470 --> 00:45:14,440

it was eventually leaked that the CIA and other agencies had had grave misgivings all

472

00:45:14,440 --> 00:45:21,540

along that there were no weapons of mass destruction in Iraq the truth has a way of coming to the

473

00:45:21,540 --> 00:45:28,190

surface and if there's a lesson from the debacle of the Jack texiera case where essentially

474

00:45:28,190 --> 00:45:35,510

a young man a 21 year old man can grain gain access to highly classified top secret SCI

475

00:45:35,510 --> 00:45:41,190

documents it's that even the most sensitive documents in the US government can and will

476

00:45:41,190 --> 00:45:47,809

leak eventually and one of the best ways of controlling those kind of leaks and stopping

477

00:45:47,809 --> 00:45:54,099

them is to give the public the reassurance that you're being open and transparent and

478

00:45:54,099 --> 00:45:58,920

accountable I mean I don't understand the motivations of a young man who leaks things

479

00:45:58,920 --> 00:46:05,849

like that but what I do understand is a public that is inflamed and angry that they're being

480

00:46:05,849 --> 00:46:12,570

misled and probably being lied to on the issue of uaps the government has an Integrity issue

481

00:46:12,570 --> 00:46:18,150

here it has an honorable moment in history
where it can make a decision to be frank and

482

00:46:18,150 --> 00:46:23,650

candid with the American public about what
it knows we're not going to cop another Condon

483

00:46:23,650 --> 00:46:29,830

inquiry where essentially scientists are used
to dress up a lame explanation and to fob

484

00:46:29,830 --> 00:46:35,180

is off that's not going to happen and so I
really do think we're at a crucial moment

485

00:46:35,180 --> 00:46:40,970

in history here where either they want this
to catastrophically leak into the public domain

486

00:46:40,970 --> 00:46:46,359

in a way that they can't control or maybe
they should take a lead in government and

487

00:46:46,359 --> 00:46:51,440

defense maybe they should be talking to Media
advisors and crisis managers and thinking

488

00:46:51,440 --> 00:46:56,540

about the best way of disseminating this message
because we're good people Bryce and I don't

489

00:46:56,540 --> 00:47:01,609

want to see National Security Secrets leaked
we don't want to see good people's reputations

490

00:47:01,609 --> 00:47:06,980

trashed For No Good Reason what we do want
to see is truth being told to the American

491

00:47:06,980 --> 00:47:13,900

public and to the rest of the world do you think there is a possibility that the way

492

00:47:13,900 --> 00:47:20,510

this thing goes down eventually is by some kind of leak of a incontrovertible document

493

00:47:20,510 --> 00:47:28,050

that confirms the otherness of this phenomena what I am saying is there's an opportunity

494

00:47:28,050 --> 00:47:34,109

here for responsible political leadership executive leadership to control the narrative

495

00:47:34,109 --> 00:47:42,140

in a responsible way right but to patronize and to try to bully and intimidate and and

496

00:47:42,140 --> 00:47:47,589

use ridicule and stigma to stop people from publishing a story it's no longer going to

497

00:47:47,589 --> 00:47:53,710

hold this story is going to break whether they like it or not and they can be responsible

498

00:47:53,710 --> 00:47:59,730

or they can be irresponsible and the big lesson with the people in intelligence and defense

499

00:47:59,730 --> 00:48:04,800

is that when they try and cover their own asses when they try and protect themselves

500

00:48:04,800 --> 00:48:11,319

and protect their reputations the story still gets out so here's the honorable moment for

501

00:48:11,319 --> 00:48:17,240

you in history you people you Gatekeepers
that's what I think you know I wrote a book

502

00:48:17,240 --> 00:48:23,780

about it A.D after disclosure and Rich Dolan
and I who was my co-author on that we spent

503

00:48:23,780 --> 00:48:28,040

weeks discussing well how is the right way
to do this what's going to trigger it and

504

00:48:28,040 --> 00:48:31,600

it's very interesting at the without boring
everybody with all that and we can do that

505

00:48:31,600 --> 00:48:38,500

later but we did come to the the this feeling
that talking about UFOs to the public was

506

00:48:38,500 --> 00:48:44,760

impossible and yet it was inevitable you know
it's it's that super contradiction and I think

507

00:48:44,760 --> 00:48:48,430

that's still true I think there are people
probably within the Department of Defense

508

00:48:48,430 --> 00:48:55,200

who are saying you can't possibly talk the
truth about this thing it just can't be controlled

509

00:48:55,200 --> 00:49:01,180

and it will unleash things but I think uh
more and more people on the inside are indeed

510

00:49:01,180 --> 00:49:06,720

coming to the conclusion that there's no way
to keep this bottled up so the question is

511

00:49:06,720 --> 00:49:12,089

how are we going to transition to the world
where we accept uh whatever the truth may

512

00:49:12,089 --> 00:49:19,190

turn out to be so yeah uh we are there and
just just to address quickly Tucker Tucker

513

00:49:19,190 --> 00:49:23,339

Carlson's passing the one thing about Tucker
Carlson whatever you thought of him he had

514

00:49:23,339 --> 00:49:27,030

an ordered an audience of three and a half
million or such like right it was the second

515

00:49:27,030 --> 00:49:33,109

second most watched program in the United
States what he said mattered and one of the

516

00:49:33,109 --> 00:49:38,150

issues that he focused on was uaps he gave
a lot of coverage and a lot of credibility

517

00:49:38,150 --> 00:49:44,369

to people coming on his program talking about
the issue of uaps and you know what his audience

518

00:49:44,369 --> 00:49:50,329

loved it they wanted it and they told him
they wanted more and full credit to him for

519

00:49:50,329 --> 00:49:55,960

doing that because as a journalist he had
the courage to go against the grain and yeah

520

00:49:55,960 --> 00:49:59,869

there was an article in Politico this week
saying that people in the Pentagon were celebrating

521

00:49:59,869 --> 00:50:05,080

the fact that that Tucker Carlson had gone
and well they may have done well-making they

522

00:50:05,080 --> 00:50:10,890

may have done this adjusted correct just to
clarify for everyone Tucker Carlson isn't

523

00:50:10,890 --> 00:50:17,700

dead I mean he's fired he's going to pop up
on Facebook it sounds like we're doing his

524

00:50:17,700 --> 00:50:22,980

obituary the truth is Tucker Carlson's going
to show up someplace else soon and he's probably

525

00:50:22,980 --> 00:50:29,190

going to keep talking about this and and he
was a mixed bag uh and and for for many reasons

526

00:50:29,190 --> 00:50:34,119

on the UFO topic not the least of which is
he was accused by others of saying well he's

527

00:50:34,119 --> 00:50:39,510

willing to float all these conspiracy theories
so then it it kind of marginalized the UFO

528

00:50:39,510 --> 00:50:45,390

thing into the conspiracy ghetto if you will
but um nonetheless he was willing to talk

529

00:50:45,390 --> 00:50:52,339

about it openly and I think that's to be commended
and in contrast Don Lemon who was just fired

530

00:50:52,339 --> 00:51:01,220

from CNN uh at the same exact time as Carlson
was being fired from Fox I saw uh Don Lemon

531

00:51:01,220 --> 00:51:07,610

and do the handoff to Chris Cuomo on their
respective shows on CNN uh back when Cuomo

532

00:51:07,610 --> 00:51:13,849

was still on about a year ago I guess and
there was some UAP news that was out there

533

00:51:13,849 --> 00:51:19,430

and they sort of used that as their hand off
the sort of the anchor okay what do you got

534

00:51:19,430 --> 00:51:25,790

what are you what are you talking about and
they both both uh Don Lemon and Chris Cuomo

535

00:51:25,790 --> 00:51:32,190

had Smiles on their faces and were acting
like oh boy this is uh this is something I

536

00:51:32,190 --> 00:51:38,670

don't want to get into it's a little too crazy
for me so I'll I'll take Carlson's admitting

537

00:51:38,670 --> 00:51:44,260

that there's a mystery and that we should
give it some reasonable talk over Don lemon's

538

00:51:44,260 --> 00:51:51,309

uh snickering about it uh so you know let's
let's hope um that out of this kind of news

539

00:51:51,309 --> 00:51:57,319

more journalists are prepared to to treat
this in a responsible way uh nobody is saying

540

00:51:57,319 --> 00:52:01,400

that we have the answers I'm not even saying
that I think the government has the answers

541

00:52:01,400 --> 00:52:05,540

I do think they probably have more answers than I have because they've been at it a lot

542

00:52:05,540 --> 00:52:11,119

longer they've been they've been researching this since before I was born and and in fact

543

00:52:11,119 --> 00:52:17,140

there's reports written by the U.S government again since before I was born where they actually

544

00:52:17,140 --> 00:52:22,950

say they think it's extraterrestrial so if it's not I'd like to hear why they now think

545

00:52:22,950 --> 00:52:29,040

after the 75 years of of looking into it they don't think that anymore so all I can say

546

00:52:29,040 --> 00:52:33,849

uh Ross is the only good news for you and me is it means we got many many more shows

547

00:52:33,849 --> 00:52:41,010

to come and on that note I think it's time to wrap my friend let's say goodbye and we'll

548

00:52:41,010 --> 00:52:48,170

see you all on the next need to know thanks a lot good to talk to you [Music] I'm ready

549

00:52:48,170 --> 00:52:59,310

to be told time for secrets [Music]

550

00:52:59,310 --> 00:53:02,390

[Music]

551

00:53:02,390 --> 00:53:05,480

please

552

00:53:05,480 --> 00:53:17,810

[Music] [Applause] [Music] [Applause]

553

00:54:20,610 --> 00:53:20,890

[Music]

554

00:54:20,610 --> 00:54:23,970

[Applause]

555

00:54:23,970 --> 00:54:50,910

[Music] you said it will blow my mind

556

00:54:50,910 --> 00:55:27,960

you say all apart no more fear that's from
my eyes

557

00:55:44,800 --> 00:55:31,330

[Music]

558

00:55:44,800 --> 00:55:48,170

together

559

00:56:28,580 --> 00:55:51,530

[Applause]

560

00:56:28,580 --> 00:56:39,380

in other news

561

00:56:39,380 --> 00:56:44,750

tonight

562

00:56:44,750 --> 00:57:06,230

oh my gosh dude
