2021 05 17 OBDM VIDEOS <https://youtu.be/iUraXs7mtZw> Humanoid Encounters The Divers

During my readings about alien and #humanoid encounters, I noticed groupings.
Humans would see:
1. Dwarf like humanoids
2. a set up 3 humanoids
or
3. humanoids in skin-tight "diving" suits

[Transcript Link](#)

Oftentimes these aliens in diving suits are described as being silver or shiny.
Sometimes they appear #underwater and sometimes on land.

2021 05 11 OBDM VIDEOS <https://youtu.be/LrUraEfnEUc> Humanoid Encounters They Come in Threes

Throughout my reading, I have noticed that humanoid / alien encounters often happen when a human encounters three humanoids. Dwarves, elves, grey aliens, they care coming in threes.

[Transcript Link](#)

I believe when you see a set of 3 humanoids, they are on a mission beyond communication with a human. It's probably for research.

As the era changes so do the perceptions of those events and the descriptions of the creatures but they all could be from a single source. There are common elements. Here at OBDM, we try to document some of these strange stories with common elements. This segment focuses on people who encounter #Humanoid #Dwarves This is from Episode: OBDM866 Example: Location: Souza, Paraiba, Brazil. Date: 1950. Time: Unknown. Silvia Medeiros saw on her farm near the city, a large disc-shaped object that landed in a field. A hatch opened and three small creatures resembling dwarfs emerged. For 15 minutes they walked and looked around, seemingly looking for something. The small men finally collected some rocks and went back inside the craft, which promptly took off at high speed. 				After doing a podcast episode Spanky told me he wanted to record a song. He said he had an acoustic song called "Dumpster Baby". He acknowledged that "Family Guy" did some dumpster baby bit but really like this song, so we recorded it. I asked him to add electric guitar because I knew I wanted to make it more crazy than just an acoustic guitar song. I think he was pleased with how it came out. I love it.

 Thank you Tom!!!
 The Nora Quoirin missing person case is very interesting and disturbing. How can a 15 year old teenager die of hunger and stress in the course of 10 days? Not a lot makes sense about this event. While this is tagged as #Missing411, that's ultimately not for me to determine, that for David Paulides to decide (if he's even aware of this case). [Transcript Link](#)
 Some say she was lured away from the resort by a Genie. Some say she just wanted to see a waterfall so urgently, that she left her room in the middle of the night without her shoes.
 There are various accounts from Malaysia concerning people who just vanish. There are various reports of #cryptids and other supernatural forces in Malaysia as well. We here at OBDM try to look at all angles. A Jinn, a Bigfoot or a random kidnapper are all considered.

Captain Randy Cramer claims to have been in the Space Marines for around 20 years. People coming forward is not a new thing, Corey Goode has talked about his experiences within the Secret Space Program many many times recently. Obvious, all this information should be taken with a grain of salt but we can't forget get what the UK "Hacker" Gary McKinnon found when looking through NASA computers. He found mentions of "non-terrestrial officers" as well as UFO photos. Captain Cramer's story is interesting and he tells it well. I want to believe, I really do, but I'm only half way in the pool. I need more evidence. I need to see the weapons he claims to have used on Mars. I need to see if Captain Cramer ever gets paid for his service.

I believe there is a Secret Space Program. After World War 2, all those Nazi #UFOs didn't just up and disappear, they were probably repurposed for the interests of the good old USA.

We love this stories and I hope to talk to Captain Randy Cramer one day.

I want to believe.

2019 08 06 OBDM VIDEOS https://youtu.be/8z_dy1fHY5A Area 51 and UFO Disclosure [Transcript Link](#)

Since the 2017 New York Times article about Navy pilots chasing UFOs, the drip of new UFO news has turned into a stream. As an avid following and reader of everything UFO related, I find all the news fascinating and exciting but I am cautious. I'm wary because I think if the mainstream media is pushing a story, they have an angle and it's typically not honesty. When it comes to stories on the military, they generally read press releases from the Pentagon.

While the excitement around the Navy's acknowledgement of UAPs(the new name for UFOS) is a welcome change, it's important to be skeptical, mainstream narrative are often co-opted. The event "Storm Area 51" has become of Meme and a rallying cry to storm other places such as Loch Ness and the Epstein Island. Weather on accident or on purpose we are being conditioned. We are being conditioned to accept #UFOs as something that can be tracked by the military and something they view as a possible threat. We are being conditioned to think it's ok to "storm" places.

I think it's important to keep and eye on all this information and to keep talking about it, but I'm mindful of the keepers and messengers of the info. Businesses and Government always have something up their sleeve.

This has been a fun series to edit, produce, record, etc.

If you enjoy this videos, laughed and have followed the entire series, I recommend listen to our podCast. It's filled with UFOS, conspiracies, Strange news and enough more comedy.

Thanks for watching.
