

podcast clips from

O B D M

1
00:00:05,030 --> 00:00:03,190
even stranger [\h__\h] right here so

2
00:00:06,789 --> 00:00:05,040
i'm gonna play this little clip i mean

3
00:00:08,310 --> 00:00:06,799
literal re-education camps black

4
00:00:10,390 --> 00:00:08,320
uniforms and they're just bringing down

5
00:00:12,390 --> 00:00:10,400
the shields bring them together bring

6
00:00:24,950 --> 00:00:12,400
all the shields ah satan is just saying

7
00:00:28,710 --> 00:00:27,029
uh that was a little alex jones for you

8
00:00:31,910 --> 00:00:28,720
jeff i brought that to the show i love

9
00:00:34,470 --> 00:00:31,920
it um so here's the headline here darpa

10
00:00:37,270 --> 00:00:34,480
wants portable brain recorders in every

11
00:00:40,150 --> 00:00:37,280
classroom in america

12
00:00:41,590 --> 00:00:40,160
uh when darpa issued a solicitation they

13
00:00:45,350 --> 00:00:41,600

are looking for researchers who can

14

00:00:50,470 --> 00:00:48,150

the solicitation calls for researchers

15

00:00:52,470 --> 00:00:50,480

respond with their ideas and darpa

16

00:00:55,510 --> 00:00:52,480

awards funding to the most promising

17

00:00:57,430 --> 00:00:55,520

proposals a few creepy solicitations are

18

00:01:00,310 --> 00:00:57,440

now being released which call for

19

00:01:01,830 --> 00:01:00,320

portable brain recording devices in

20

00:01:04,630 --> 00:01:01,840

other applications the thing is that

21

00:01:06,789 --> 00:01:04,640

this technology is already affordable

22

00:01:07,990 --> 00:01:06,799

if you like that kind of thing but darbo

23

00:01:09,830 --> 00:01:08,000

wants it to be

24

00:01:12,230 --> 00:01:09,840

real easy to get so it's got to be

25

00:01:13,910 --> 00:01:12,240

around 30 dollars so if it's thirty

26

00:01:15,990 --> 00:01:13,920

dollars they mean they want it all

27

00:01:16,710 --> 00:01:16,000

across america

28

00:01:18,950 --> 00:01:16,720

uh

29

00:01:20,870 --> 00:01:18,960

okay so why would darpa do it that way

30

00:01:22,789 --> 00:01:20,880

they if darpa were no if darpa were

31

00:01:25,590 --> 00:01:22,799

smart here's how they would do it

32

00:01:28,070 --> 00:01:25,600

they would take this technology to apple

33

00:01:29,990 --> 00:01:28,080

put a little mp3 player in there

34

00:01:31,910 --> 00:01:30,000

it does its little brain reading thing

35

00:01:33,429 --> 00:01:31,920

while you're listening to your tunes and

36

00:01:35,990 --> 00:01:33,439

now all of a sudden everybody wants one

37

00:01:38,550 --> 00:01:36,000

because apple's selling it you know yeah

38

00:01:39,910 --> 00:01:38,560

like google glass yeah

39

00:01:42,069 --> 00:01:39,920

yeah you could tell them it does some

40

00:01:43,749 --> 00:01:42,079

kind of fantastic other thing but at

41

00:01:45,590 --> 00:01:43,759

meantime it's reading your brain waves

42

00:01:47,510 --> 00:01:45,600

and it'll tell when you're hungry and

43

00:01:49,670 --> 00:01:47,520

it'll direct you towards a restaurant

44

00:01:52,230 --> 00:01:49,680

yeah maybe it has some sort of a

45

00:01:54,149 --> 00:01:52,240

an ability to sort of zap you

46

00:01:57,030 --> 00:01:54,159

you know here here's the here's their

47

00:01:59,190 --> 00:01:57,040

reasoning uh they want the 30 mark they

48

00:02:01,030 --> 00:01:59,200

need someone who can make it smaller and

49

00:02:02,550 --> 00:02:01,040

cheaper because according to the

50

00:02:05,910 --> 00:02:02,560

solicitations

51
00:02:07,990 --> 00:02:05,920
uh they want to promote use by a wide

52
00:02:10,869 --> 00:02:08,000
audience including children and this is

53
00:02:14,229 --> 00:02:10,879
what darpa has actually said on record

54
00:02:16,630 --> 00:02:14,239
having eegs in the classroom in america

55
00:02:19,430 --> 00:02:16,640
says darpa would allow teachers to

56
00:02:21,430 --> 00:02:19,440
devise lesson plans using this device to

57
00:02:25,110 --> 00:02:21,440
help current children learn about

58
00:02:28,070 --> 00:02:25,120
biology of the brain and sensory systems

59
00:02:29,750 --> 00:02:28,080
by using brain-to-computer interfaces

60
00:02:32,309 --> 00:02:29,760
students could record their own brain

61
00:02:33,830 --> 00:02:32,319
activity and download the data to their

62
00:02:35,910 --> 00:02:33,840
ipad

63
00:02:38,070 --> 00:02:35,920

wait i really don't think that the

64

00:02:40,309 --> 00:02:38,080

sorry go ahead jeff you mean to tell me

65

00:02:43,990 --> 00:02:40,319

the defense advanced research projects

66

00:02:47,270 --> 00:02:44,000

agency cares about children's education

67

00:02:49,990 --> 00:02:47,280

[h__\h] this is not for children

68

00:02:51,750 --> 00:02:50,000

well i'm i'm only like i just don't see

69

00:02:53,990 --> 00:02:51,760

that they see the value in this i feel

70

00:02:56,390 --> 00:02:54,000

like darpa is usually pretty good about

71

00:02:58,150 --> 00:02:56,400

these things they don't really do this

72

00:02:59,509 --> 00:02:58,160

stuff for no reason so i think there's

73

00:03:01,589 --> 00:02:59,519

something hidden here so if there's

74

00:03:03,350 --> 00:03:01,599

something this technology is there i'm

75

00:03:05,509 --> 00:03:03,360

thinking what they really want to do is

76

00:03:07,750 --> 00:03:05,519

get reality television out of this could

77

00:03:10,229 --> 00:03:07,760

you imagine having live feeds of the

78

00:03:11,910 --> 00:03:10,239

brains of all these children all in a

79

00:03:13,589 --> 00:03:11,920

room like you could do something really

80

00:03:16,630 --> 00:03:13,599

great i mean can you do this good does

81

00:03:18,070 --> 00:03:16,640

will it display graphically i see like

82

00:03:19,750 --> 00:03:18,080

what they're what's in their head or

83

00:03:21,910 --> 00:03:19,760

something or or what's going on here

84

00:03:23,830 --> 00:03:21,920

because i think it could just be a huge

85

00:03:25,509 --> 00:03:23,840

uh boon for the entertainment industry

86

00:03:28,309 --> 00:03:25,519

it could be that uh it could be a huge

87

00:03:30,229 --> 00:03:28,319

boon to to measure reactions real-time

88

00:03:32,390 --> 00:03:30,239

reactions in people's brains

89

00:03:35,430 --> 00:03:32,400

for what they view in front of them and

90

00:03:38,470 --> 00:03:35,440

also it is another data mining tool for

91

00:03:40,470 --> 00:03:38,480

the nsa yeah um

92

00:03:43,030 --> 00:03:40,480

so they they can probably correlate

93

00:03:44,830 --> 00:03:43,040

brain data with what they're seeing and

94

00:03:49,430 --> 00:03:44,840

probably come up with some kind of

95

00:03:51,110 --> 00:03:49,440

algorithm two source on this one again

96

00:03:54,630 --> 00:03:51,120

this isn't a green walled piece is it

97

00:03:55,589 --> 00:03:54,640

yeah this is uh from blacklistednews.com

98

00:03:57,750 --> 00:03:55,599

but

99

00:03:59,990 --> 00:03:57,760

oh blacklistednews.com

100

00:04:02,229 --> 00:04:00,000

here that's it's not but the link the

101

00:04:03,509 --> 00:04:02,239

actual article comes from

102

00:04:05,750 --> 00:04:03,519

uh

103

00:04:09,509 --> 00:04:05,760

darpa itself and here's the headline you

104

00:04:11,190 --> 00:04:09,519

can go to ac no this is real yeah here

105

00:04:13,350 --> 00:04:11,200

you want the actual address here this is

106

00:04:15,670 --> 00:04:13,360

a doc i see it i see it i'm on it now

107

00:04:17,189 --> 00:04:15,680

this is the dot and mill address

108

00:04:19,349 --> 00:04:17,199

okay

109

00:04:22,469 --> 00:04:19,359

you're not even kidding me no so i'm in

110

00:04:24,710 --> 00:04:22,479

a military address so

111

00:04:27,110 --> 00:04:24,720

all right so clearly

112

00:04:29,430 --> 00:04:27,120

they they are not seeing the value in

113

00:04:32,390 --> 00:04:29,440

this device now yeah there's so much

114

00:04:34,310 --> 00:04:32,400

more you can be doing with this thing

115

00:04:35,590 --> 00:04:34,320

isn't there a reward for this if they

116

00:04:37,189 --> 00:04:35,600

could think of something

117

00:04:38,469 --> 00:04:37,199

why maybe they want to put it out cheap

118

00:04:40,469 --> 00:04:38,479

so it can be

119

00:04:42,070 --> 00:04:40,479

kind of uh taken apart and used by the

120

00:04:43,270 --> 00:04:42,080

entertainment industry in some way

121

00:04:45,749 --> 00:04:43,280

that's why they want to get out there

122

00:04:46,950 --> 00:04:45,759

like darpa doesn't do bad things

123

00:04:49,510 --> 00:04:46,960

like they put out a lot of good

124

00:04:51,830 --> 00:04:49,520

technologies how it's used could be bad

125

00:04:53,749 --> 00:04:51,840

this one doesn't sound good

126

00:04:55,430 --> 00:04:53,759

i don't know it could definitely go all

127

00:04:57,510 --> 00:04:55,440

directions because it would be really

128

00:04:59,350 --> 00:04:57,520

great like so being in the creative

129

00:05:00,950 --> 00:04:59,360

industry if i could get photoshop to do

130

00:05:02,629 --> 00:05:00,960

what the hell i want it to do when i

131

00:05:04,310 --> 00:05:02,639

wanted to do it when it won't do it when

132

00:05:06,070 --> 00:05:04,320

i'm doing what i'm supposed to be doing

133

00:05:07,510 --> 00:05:06,080

i could have my brain just say it and

134

00:05:08,710 --> 00:05:07,520

then maybe it'll work better i don't

135

00:05:10,870 --> 00:05:08,720

know

136

00:05:13,350 --> 00:05:10,880

i'm not against like the evolution of

137

00:05:15,830 --> 00:05:13,360

man being some sort of man machine

138

00:05:17,909 --> 00:05:15,840

interface like like i'm about like i

139

00:05:19,590 --> 00:05:17,919

grew up on sci-fi i grew up on dreaming

140

00:05:21,830 --> 00:05:19,600

of traveling to the stars i grew up

141

00:05:24,390 --> 00:05:21,840

watching star trek i grew up with all

142

00:05:25,510 --> 00:05:24,400

this like having bionics and robotics

143

00:05:27,270 --> 00:05:25,520

and from

144

00:05:29,029 --> 00:05:27,280

for me to have the option to interface

145

00:05:30,870 --> 00:05:29,039

with the computer using my brain is not

146

00:05:32,870 --> 00:05:30,880

that far-fetched for me and it is kind

147

00:05:33,749 --> 00:05:32,880

of appealing in some way

148

00:05:35,909 --> 00:05:33,759

yeah

149

00:05:38,390 --> 00:05:35,919

like i i want to put introduce some sort

150

00:05:41,029 --> 00:05:38,400

of a hydraulic device into my my

151
00:05:43,430 --> 00:05:41,039
my crotch area and i think that would be

152
00:05:45,270 --> 00:05:43,440
really handy for people yes

153
00:05:47,830 --> 00:05:45,280
hydraulics aren't good you cut the line

154
00:05:49,590 --> 00:05:47,840
it's useless no it's not

155
00:05:51,350 --> 00:05:49,600
maybe work on this i don't know maybe

156
00:05:53,350 --> 00:05:51,360
you know i could everybody's into this

157
00:05:55,189 --> 00:05:53,360
green [h__h] so maybe i'll put some solar

158
00:05:57,430 --> 00:05:55,199
panels on my back and just have some

159
00:05:59,749 --> 00:05:57,440
sort of an electronic a tree trunk or

160
00:06:02,070 --> 00:05:59,759
something yeah like just a just a sex

161
00:06:04,309 --> 00:06:02,080
machine downtown you know

162
00:06:06,469 --> 00:06:04,319
yeah see i'll i'll post that link out

163
00:06:08,790 --> 00:06:06,479

there and uh people can read it actually

164

00:06:11,189 --> 00:06:08,800

i will go ahead and just put that to

165

00:06:13,189 --> 00:06:11,199

twitter right now i'm amazed that that's

166

00:06:14,629 --> 00:06:13,199

actually a thing like i thought you were

167

00:06:16,469 --> 00:06:14,639

screwing with me i thought you had gone

168

00:06:17,270 --> 00:06:16,479

to one of your websites with the with

169

00:06:21,670 --> 00:06:17,280

the

170

00:06:23,990 --> 00:06:21,680

wacky stories yeah i do that before it's

171

00:06:26,390 --> 00:06:24,000

news and there's no source

172

00:06:27,909 --> 00:06:26,400

yeah and it's some some bull crap story

173

00:06:28,790 --> 00:06:27,919

where it's like everything is made up

174

00:06:31,590 --> 00:06:28,800

and it's

175

00:06:33,590 --> 00:06:31,600

it's just inexcusable as news but this

176

00:06:35,909 --> 00:06:33,600

is actually like looking at it this is

177

00:06:37,590 --> 00:06:35,919

for real i mean if you go to the dot mil

178

00:06:39,350 --> 00:06:37,600

website they really put a lot of thought

179

00:06:40,950 --> 00:06:39,360

into this like this

180

00:06:42,790 --> 00:06:40,960

there's so then it goes to show you like

181

00:06:44,390 --> 00:06:42,800

a week we could we grew up in this world

182

00:06:46,309 --> 00:06:44,400

where we didn't think that you know we

183

00:06:48,469 --> 00:06:46,319

thought we lived in america where we

184

00:06:50,390 --> 00:06:48,479

were all free to be who we wanted to be

185

00:06:52,469 --> 00:06:50,400

and everything was great and hunky dory

186

00:06:54,309 --> 00:06:52,479

you know and we thought technology would

187

00:06:56,469 --> 00:06:54,319

merge with us as a species and it would

188

00:06:58,150 --> 00:06:56,479

be great because we'd all explore space

189

00:07:00,469 --> 00:06:58,160

and all this other crap but here's we're

190

00:07:02,550 --> 00:07:00,479

down on the the planet spending as much

191

00:07:04,790 --> 00:07:02,560

money as it would take to build probably

192

00:07:06,629 --> 00:07:04,800

thousands of spaceships to explore space

193

00:07:08,870 --> 00:07:06,639

yes and instead of having star trek

194

00:07:12,070 --> 00:07:08,880

right now we've got you know blade

195

00:07:13,110 --> 00:07:12,080

runner you know it's like you're exactly

196

00:07:14,790 --> 00:07:13,120

right

197

00:07:16,469 --> 00:07:14,800

yeah instead of star trek where we

198

00:07:17,990 --> 00:07:16,479

should be headed it's it's a blade

199

00:07:19,270 --> 00:07:18,000

runner but what a lot of people don't

200

00:07:21,189 --> 00:07:19,280

know about star trek in the history they

201
00:07:21,990 --> 00:07:21,199
don't talk about in star trek there was

202
00:07:26,070 --> 00:07:22,000
like

203
00:07:28,309 --> 00:07:26,080
100 or 150 years of total barbaric war

204
00:07:30,070 --> 00:07:28,319
before they came to the point where they

205
00:07:32,070 --> 00:07:30,080
kind of agreed to settle down and let's

206
00:07:33,830 --> 00:07:32,080
travel the stars

207
00:07:35,830 --> 00:07:33,840
that's that's what's going on now okay

208
00:07:38,629 --> 00:07:35,840
yeah we got the bad part of star trek we

209
00:07:40,950 --> 00:07:38,639
have at least another 120 more years in

210
00:07:43,589 --> 00:07:40,960
star trek terms of horrible wars before

211
00:07:44,710 --> 00:07:43,599
we get a chance i just got it yeah if we

212
00:07:47,990 --> 00:07:44,720
have

213
00:07:50,790 --> 00:07:48,000

if if scientology can be you know

214

00:07:51,909 --> 00:07:50,800

founded and exists continuously as a

215

00:07:54,230 --> 00:07:51,919

religion

216

00:07:57,029 --> 00:07:54,240

uh in the 20th century can we just go

217

00:07:59,749 --> 00:07:57,039

ahead and start the first big religion

218

00:08:01,749 --> 00:07:59,759

of the 21st century and base it off of

219

00:08:03,909 --> 00:08:01,759

gene roddenberry

220

00:08:05,749 --> 00:08:03,919

i like the idea but it might be already

221

00:08:08,230 --> 00:08:05,759

taken um

222

00:08:10,710 --> 00:08:08,240

man that's probably true you can worship

223

00:08:12,230 --> 00:08:10,720

springfield pervert yeah i i will

224

00:08:16,869 --> 00:08:12,240

yeah actually i actually have some of

225

00:08:21,430 --> 00:08:18,790

i want you to

226

00:08:23,510 --> 00:08:21,440

really worship my god

227

00:08:25,510 --> 00:08:23,520

you better worship it

228

00:08:27,990 --> 00:08:25,520

no it wouldn't be him it would be his

229

00:08:29,110 --> 00:08:28,000

penis it would be the founder of the

230

00:08:31,110 --> 00:08:29,120

religion

231

00:08:33,430 --> 00:08:31,120

it was the prophet the springfield

232

00:08:36,149 --> 00:08:33,440

perverse religion is founded around his

233

00:08:38,709 --> 00:08:36,159

penis which we all worship jj in the uh

234

00:08:40,469 --> 00:08:38,719

the chat had a comment on the the brain

235

00:08:42,790 --> 00:08:40,479

reader we're going to call that the mind

236

00:08:43,990 --> 00:08:42,800

reader uh couple that with the internet

237

00:08:46,870 --> 00:08:44,000

monitoring

238

00:08:48,389 --> 00:08:46,880

and not only are we showing

239

00:08:50,790 --> 00:08:48,399

what we are looking at on the internet

240

00:08:51,590 --> 00:08:50,800

but we're also showing how we react to

241

00:08:52,630 --> 00:08:51,600

it

242

00:08:53,590 --> 00:08:52,640

and

243

00:08:56,630 --> 00:08:53,600

that's a

244

00:08:58,230 --> 00:08:56,640

what we think yeah it's just and it's

245

00:09:00,949 --> 00:08:58,240

gonna be coupled they're gonna use it

246

00:09:02,790 --> 00:09:00,959

for i can see facebook using this for

247

00:09:05,269 --> 00:09:02,800

what ads are working or what ads are not

248

00:09:06,949 --> 00:09:05,279

targeting ads this is this is gonna be

249

00:09:09,110 --> 00:09:06,959

used for marketing

250

00:09:11,670 --> 00:09:09,120

in some way this uh this is actually

251
00:09:14,389 --> 00:09:11,680
already in the work it's uh google paper

252
00:09:16,389 --> 00:09:14,399
gays has uh made headlines recently have

253
00:09:17,910 --> 00:09:16,399
you heard about that uh

254
00:09:29,430 --> 00:09:17,920
paper gays

255
00:09:34,470 --> 00:09:32,230
that sounds good

256
00:09:36,630 --> 00:09:34,480
nowhere you can get dudes free all the

257
00:09:38,790 --> 00:09:36,640
time yeah yeah these are free come on

258
00:09:41,110 --> 00:09:38,800
jeff

259
00:09:43,430 --> 00:09:41,120
uh have you heard about that so um

260
00:09:45,509 --> 00:09:43,440
google may currently have no plans to

261
00:09:48,389 --> 00:09:45,519
insert advertising into its nascent

262
00:09:50,389 --> 00:09:48,399
glass product but the patent the company

263
00:09:52,550 --> 00:09:50,399

was recently granted for paper gaze

264

00:09:54,870 --> 00:09:52,560

technology hints in an ad platform that

265

00:09:56,550 --> 00:09:54,880

elevates pay-per-engagement to a whole

266

00:09:57,509 --> 00:09:56,560

new level

267

00:09:59,350 --> 00:09:57,519

wow

268

00:10:00,949 --> 00:09:59,360

while google has played down the notion

269

00:10:02,870 --> 00:10:00,959

of rolling out anything soon it will

270

00:10:04,630 --> 00:10:02,880

take years until glass builds up enough

271

00:10:06,470 --> 00:10:04,640

users to make it worthwhile marketers

272

00:10:08,710 --> 00:10:06,480

can't stop buzzing about the possibility

273

00:10:11,030 --> 00:10:08,720

of playing ads in the physical world

274

00:10:13,590 --> 00:10:11,040

based on user engagement and reactions

275

00:10:15,829 --> 00:10:13,600

the patent even details how a device

276

00:10:17,670 --> 00:10:15,839

like google glass could infer a user's

277

00:10:19,990 --> 00:10:17,680

emotional response to an ad whether they

278

00:10:22,389 --> 00:10:20,000

were happy sad or indifferent

279

00:10:24,470 --> 00:10:22,399

and adjust pricing accordingly well it

280

00:10:25,670 --> 00:10:24,480

sounds like it sounds like darpa and

281

00:10:27,430 --> 00:10:25,680

google need to get together if they

282

00:10:28,630 --> 00:10:27,440

haven't been together already

283

00:10:32,230 --> 00:10:28,640

yeah i think we just made a love

284

00:10:34,150 --> 00:10:32,240

connection there yeah get together

285

00:10:35,910 --> 00:10:34,160

yeah i mean so everything you guys are

286

00:10:37,910 --> 00:10:35,920

just talking about is exactly what's

287

00:10:39,829 --> 00:10:37,920

happening now that's insane to me it's

288

00:10:41,990 --> 00:10:39,839

what they want to happen they just want

289

00:10:43,110 --> 00:10:42,000

they want full access to your brain

290

00:10:45,590 --> 00:10:43,120

that's what they want they want full

291

00:10:47,430 --> 00:10:45,600

access to who you are where you are and

292

00:10:48,230 --> 00:10:47,440

what you will do

293

00:10:50,069 --> 00:10:48,240

yeah

294

00:10:52,710 --> 00:10:50,079

no you'll be walking by a liquor store

295

00:10:53,990 --> 00:10:52,720

with your google glasses on and it'll

296

00:10:56,389 --> 00:10:54,000

say uh

297

00:10:58,150 --> 00:10:56,399

looking for a getaway jump in for a

298

00:11:01,430 --> 00:10:58,160

night train and you'll have to go in and

299

00:11:02,949 --> 00:11:01,440

buy night train oh night train

300

00:11:05,990 --> 00:11:02,959

i love night trains

301

00:11:07,509 --> 00:11:06,000

malt liquor of choice hurricane

302

00:11:10,949 --> 00:11:07,519

yeah

303

00:11:13,190 --> 00:11:10,959

oh my god uh it's all happening

304

00:11:15,910 --> 00:11:13,200

uh let's transition and get into some

305

00:11:17,910 --> 00:11:15,920

other stuff actually joe you sent in
