

BF4

SMOKE

1
00:00:17,029 --> 00:00:16,070
hey everyone my name is mike and i'm

2
00:00:20,230 --> 00:00:17,039
here to talk about

3
00:00:20,790 --> 00:00:20,240
smoke in battlefield 4 which uh i

4
00:00:23,750 --> 00:00:20,800
believe is

5
00:00:25,349 --> 00:00:23,760
pretty uh it's underused and it's not

6
00:00:27,509 --> 00:00:25,359
used very often at all

7
00:00:29,189 --> 00:00:27,519
uh right here i feel to get this guy up

8
00:00:31,269 --> 00:00:29,199
there for whatever reason

9
00:00:33,830 --> 00:00:31,279
drop some smoke as i always do to annoy

10
00:00:36,389 --> 00:00:33,840
people and then

11
00:00:37,510 --> 00:00:36,399
i come around the corner up here and

12
00:00:38,549 --> 00:00:37,520
just waste some guys and i should have

13
00:00:41,510 --> 00:00:38,559

died actually

14

00:00:42,150 --> 00:00:41,520

i should die you see what happens but

15

00:00:45,510 --> 00:00:42,160

anyways

16

00:00:47,110 --> 00:00:45,520

the the smoke grenade let's look at

17

00:00:50,069 --> 00:00:47,120

these guys i should have been shot there

18

00:00:50,549 --> 00:00:50,079

easily should have been shot like i i

19

00:00:52,069 --> 00:00:50,559

pumped

20

00:00:54,709 --> 00:00:52,079

five shots into the guy he could have

21

00:00:55,910 --> 00:00:54,719

put a pistol and wasted me but no he was

22

00:00:57,830 --> 00:00:55,920

probably trying to reload his bolt of

23

00:01:01,670 --> 00:00:57,840

action

24

00:01:03,830 --> 00:01:01,680

smoke is very under utilized and

25

00:01:06,230 --> 00:01:03,840

it can be very annoying and fun to use

26

00:01:08,469 --> 00:01:06,240

like i just pop some smoke here

27

00:01:09,670 --> 00:01:08,479

give some cover to some of my uh my

28

00:01:11,109 --> 00:01:09,680

homies

29

00:01:20,390 --> 00:01:11,119

and so they can get out and go do their

30

00:01:26,469 --> 00:01:23,429

so i i was uh i was able to

31

00:01:29,590 --> 00:01:26,479

take care of some business now

32

00:01:31,270 --> 00:01:29,600

what's great about the smoke and

33

00:01:33,109 --> 00:01:31,280

using the support glass is that i can

34

00:01:35,910 --> 00:01:33,119

just replenish my smoke

35

00:01:36,469 --> 00:01:35,920

as much as i really want so i can have

36

00:01:39,910 --> 00:01:36,479

out

37

00:01:41,190 --> 00:01:39,920

at any given time six to seven smoke

38

00:01:44,550 --> 00:01:41,200

grenades

39

00:01:46,230 --> 00:01:44,560
and it just looks like this billowing

40

00:01:47,830 --> 00:01:46,240
cloud of smoke in the middle of the

41

00:01:50,950 --> 00:01:47,840
board or wherever i am

42

00:01:54,630 --> 00:01:50,960
and it just really um oh look

43

00:01:54,950 --> 00:01:54,640
wow i uh got that guy and i got a little

44

00:01:56,950 --> 00:01:54,960
uh

45

00:01:58,310 --> 00:01:56,960
achievement right there damn it you call

46

00:02:01,830 --> 00:01:58,320
me sir god damn it

47

00:02:03,749 --> 00:02:01,840
and uh this

48

00:02:05,109 --> 00:02:03,759
is super annoying i know what i'm doing

49

00:02:05,910 --> 00:02:05,119
right here i'm just kind of camping

50

00:02:10,070 --> 00:02:05,920
popping

51
00:02:13,670 --> 00:02:10,080
smoke uh creating a huge wall that

52
00:02:15,270 --> 00:02:13,680
recon can't really see through and

53
00:02:16,710 --> 00:02:15,280
it really uh prevents people from

54
00:02:17,990 --> 00:02:16,720
spotting i mean you can see through

55
00:02:19,910 --> 00:02:18,000
smoke when you look through it

56
00:02:22,390 --> 00:02:19,920
you can spot somebody and it'll spot

57
00:02:24,869 --> 00:02:22,400
them for like a quick

58
00:02:25,510 --> 00:02:24,879
a quick second and then i'll go away um

59
00:02:27,990 --> 00:02:25,520
and

60
00:02:30,869 --> 00:02:28,000
looks the clouds the smoke right there

61
00:02:34,630 --> 00:02:30,879
gave gave my guys some cover to

62
00:02:35,670 --> 00:02:34,640
uh go heal and revive my my squad mate

63
00:02:38,710 --> 00:02:35,680

so there's a lot of

64

00:02:41,030 --> 00:02:38,720

good uses to the smoke is great for

65

00:02:42,710 --> 00:02:41,040

providing cover to get those uh

66

00:02:43,509 --> 00:02:42,720

domination checkpoints or even in

67

00:02:46,470 --> 00:02:43,519

conquest

68

00:02:47,430 --> 00:02:46,480

i'm playing domination right now and uh

69

00:02:49,509 --> 00:02:47,440

look at this

70

00:02:51,670 --> 00:02:49,519

bam i love shotgun blasts that are so

71

00:02:54,869 --> 00:02:51,680

powerful they go off it's like a

72

00:02:58,550 --> 00:02:54,879

goddamn explosion happening

73

00:03:00,869 --> 00:02:58,560

um oh yeah

74

00:03:02,949 --> 00:03:00,879

and right here you know i know i'm not

75

00:03:05,190 --> 00:03:02,959

the best

76

00:03:06,869 --> 00:03:05,200

battlefield player that's obvious i'm

77

00:03:08,470 --> 00:03:06,879

camping right here and i'm just annoying

78

00:03:10,630 --> 00:03:08,480

people with smoke

79

00:03:12,949 --> 00:03:10,640

but i'm really giving uh i'm literally

80

00:03:15,430 --> 00:03:12,959

using all the tools i have

81

00:03:16,630 --> 00:03:15,440

right now which is smoking a shotgun

82

00:03:18,710 --> 00:03:16,640

where i probably should be using an

83

00:03:22,229 --> 00:03:18,720

assault rifle on this board

84

00:03:25,589 --> 00:03:22,239

but the smoke forces even closer

85

00:03:28,229 --> 00:03:25,599

quarter combat where you can really

86

00:03:29,430 --> 00:03:28,239

use the shotguns and be a little bit

87

00:03:32,710 --> 00:03:29,440

more reckless

88

00:03:33,830 --> 00:03:32,720

and it also allows you to get the

89

00:03:35,270 --> 00:03:33,840

problem some knife kills you wouldn't

90

00:03:37,110 --> 00:03:35,280

otherwise get because it forces people

91

00:03:38,550 --> 00:03:37,120

to travel through the smoke and then

92

00:03:39,110 --> 00:03:38,560

once they get through that like oh [h__h]

93

00:03:41,910 --> 00:03:39,120

there's somebody

94

00:03:43,350 --> 00:03:41,920

on the other side of the smoke i think i

95

00:03:47,830 --> 00:03:43,360

die right here

96

00:03:51,110 --> 00:03:47,840

no i kill somebody yay i killed somebody

97

00:03:51,509 --> 00:03:51,120

and uh i probably will demonstrate right

98

00:03:54,309 --> 00:03:51,519

here

99

00:03:54,949 --> 00:03:54,319

how much smoke i can pop out at once i

100

00:03:58,229 --> 00:03:54,959

think i get

101

00:03:59,670 --> 00:03:58,239

seven or eight out and i think at some

102

00:04:01,110 --> 00:03:59,680

point in time maybe maybe the graphics

103

00:04:04,789 --> 00:04:01,120

they're just saying okay

104

00:04:07,270 --> 00:04:04,799

enough smoke already i spawn in behind

105

00:04:08,309 --> 00:04:07,280

my squad mirror here pop immediately pop

106

00:04:09,509 --> 00:04:08,319

some smoke because that's what you want

107

00:04:13,270 --> 00:04:09,519

to do as soon as you

108

00:04:16,789 --> 00:04:13,280

spawn pop that smoke on a homie and uh

109

00:04:17,990 --> 00:04:16,799

probably put a little confused and uh i

110

00:04:21,189 --> 00:04:18,000

was like you know what

111

00:04:22,950 --> 00:04:21,199

we got uh we got c over there

112

00:04:25,189 --> 00:04:22,960

let's go ahead and see if we can take it

113

00:04:27,510 --> 00:04:25,199

i mean there's no one really around

114

00:04:28,550 --> 00:04:27,520

who's not that we can tell so i decided

115

00:04:31,350 --> 00:04:28,560

to advance we have the

116

00:04:32,070 --> 00:04:31,360

the cover of all the cloudiness all the

117

00:04:34,710 --> 00:04:32,080

overcast

118

00:04:35,350 --> 00:04:34,720

due to my uh beautiful smoke grenades

119

00:04:37,590 --> 00:04:35,360

and uh

120

00:04:38,790 --> 00:04:37,600

i capped this thing and then while i'm

121

00:04:40,790 --> 00:04:38,800

capping

122

00:04:41,990 --> 00:04:40,800

i decided to replenish my smoke grenades

123

00:04:44,710 --> 00:04:42,000

right here pop out

124

00:04:45,430 --> 00:04:44,720

a little ammo pack bam get some more

125

00:04:48,629 --> 00:04:45,440

smoke

126
00:04:49,510 --> 00:04:48,639
now i also believe i'm running with the

127
00:04:54,230 --> 00:04:49,520
upgrade where

128
00:04:56,550 --> 00:04:54,240
i think once you're getting the points

129
00:04:58,070 --> 00:04:56,560
your your fuel upgrade uh goes to

130
00:05:00,150 --> 00:04:58,080
carrying more smoke grenades so i think

131
00:05:02,950 --> 00:05:00,160
i can carry up to two oh damn

132
00:05:03,749 --> 00:05:02,960
spawned in killed the guy who killed my

133
00:05:05,590 --> 00:05:03,759
squad mate

134
00:05:07,430 --> 00:05:05,600
pop a little smoke from my homie sorry

135
00:05:11,270 --> 00:05:07,440
about that

136
00:05:14,710 --> 00:05:11,280
yeah i i i probably should use the

137
00:05:17,029 --> 00:05:14,720
um look where i'm spawning thing

138
00:05:17,749 --> 00:05:17,039

but i don't oh shot that guy in the back

139

00:05:21,029 --> 00:05:17,759

uh

140

00:05:23,590 --> 00:05:21,039

i gotta learn to use that little camera

141

00:05:25,510 --> 00:05:23,600

on the spawn screen to realize where you

142

00:05:28,629 --> 00:05:25,520

spawn in that because i'll spawn in

143

00:05:29,749 --> 00:05:28,639

and immediately die and i i guess i

144

00:05:30,629 --> 00:05:29,759

could blame dice but i'm gonna blame

145

00:05:34,390 --> 00:05:30,639

myself for not being

146

00:05:36,310 --> 00:05:34,400

observant now i think i go on a pretty

147

00:05:37,670 --> 00:05:36,320

good run here and there's some things

148

00:05:40,550 --> 00:05:37,680

that i don't even know

149

00:05:42,070 --> 00:05:40,560

how i pull this off like that guy yeah

150

00:05:43,830 --> 00:05:42,080

he's just i'm minding his own business

151

00:05:47,110 --> 00:05:43,840

i'm sorry i had to kill him but he was

152

00:05:50,550 --> 00:05:47,120

i know i got to do what i got to do

153

00:05:53,430 --> 00:05:50,560

i think i jumped and somehow managed to

154

00:05:55,270 --> 00:05:53,440

nail that guy right there

155

00:05:56,710 --> 00:05:55,280

kill some of his uh his squad mates

156

00:05:59,029 --> 00:05:56,720

right there teammates

157

00:06:00,390 --> 00:05:59,039

and so i don't know what to do so i pop

158

00:06:04,790 --> 00:06:00,400

some smoke

159

00:06:08,790 --> 00:06:07,350

and then i believe uh there's some

160

00:06:10,150 --> 00:06:08,800

issues

161

00:06:14,230 --> 00:06:10,160

of net coding coming up because i

162

00:06:15,670 --> 00:06:14,240

believe in a few seconds here i try to

163

00:06:17,430 --> 00:06:15,680

kill a guy that's laying down i get a

164

00:06:20,950 --> 00:06:17,440

couple good shots on him he gets up

165

00:06:22,390 --> 00:06:20,960

and i can tell that my my cone

166

00:06:24,870 --> 00:06:22,400

my shotgun cone is over where i'm

167

00:06:25,990 --> 00:06:24,880

blasting so like a couple shots right

168

00:06:28,230 --> 00:06:26,000

there bam bam

169

00:06:30,309 --> 00:06:28,240

okay and then what the hell is going on

170

00:06:32,309 --> 00:06:30,319

i'm not hitting anything right there

171

00:06:35,510 --> 00:06:32,319

and then there's uh his buddy over there

172

00:06:37,510 --> 00:06:35,520

came in the back

173

00:06:38,950 --> 00:06:37,520

so i'm gonna uh obviously i went to a

174

00:06:39,749 --> 00:06:38,960

different board and pardoned me i'm not

175

00:06:42,950 --> 00:06:39,759

familiar with the

176

00:06:45,670 --> 00:06:42,960

the names of the boards uh just yet

177

00:06:47,990 --> 00:06:45,680

and over here uh i see gunfire when i

178

00:06:50,550 --> 00:06:48,000

see gunfire i pop smoke

179

00:06:51,589 --> 00:06:50,560

i am very cautious i want to pop that

180

00:06:53,589 --> 00:06:51,599

smoke

181

00:06:56,150 --> 00:06:53,599

and make sure no one can see including

182

00:06:58,309 --> 00:06:56,160

myself and so i can fire blindly

183

00:06:59,510 --> 00:06:58,319

and uh cause i'm not good i'm a sloppy

184

00:07:02,870 --> 00:06:59,520

shooter you know

185

00:07:06,390 --> 00:07:02,880

they call me old uh sloppy shooter mike

186

00:07:07,110 --> 00:07:06,400

and uh blast a few guys my smoke did the

187

00:07:10,950 --> 00:07:07,120

job

188

00:07:14,790 --> 00:07:10,960

and uh i'm able to carry on and move to

189

00:07:15,990 --> 00:07:14,800

the next smoke area um

190

00:07:18,230 --> 00:07:16,000

right here i just put this in here

191

00:07:22,150 --> 00:07:18,240

because it shows me executing two guys

192

00:07:25,510 --> 00:07:22,160

in the back and uh that was fun

193

00:07:25,990 --> 00:07:25,520

up here i pop some smoke a guy will come

194

00:07:28,710 --> 00:07:26,000

in

195

00:07:29,270 --> 00:07:28,720

and uh i should execute this better i

196

00:07:30,790 --> 00:07:29,280

get

197

00:07:32,550 --> 00:07:30,800

pinned down right here pop some smoke

198

00:07:35,589 --> 00:07:32,560

and i could have actually

199

00:07:37,029 --> 00:07:35,599

crawled out of here and and got like if

200

00:07:38,230 --> 00:07:37,039

i didn't get back up and crawled around

201

00:07:41,670 --> 00:07:38,240

i could have got this guy

202

00:07:44,230 --> 00:07:41,680

but i didn't i panicked and i stood up

203

00:07:45,270 --> 00:07:44,240

so pop some smoke hit the ground stay

204

00:07:46,790 --> 00:07:45,280

there for a little bit and you can

205

00:07:49,670 --> 00:07:46,800

maneuver around some objects

206

00:07:51,189 --> 00:07:49,680

and uh get some good kills i'm just

207

00:07:54,550 --> 00:07:51,199

wasting these guys with shotguns

208

00:07:58,710 --> 00:07:54,560

and typically i'm when i'm running uh

209

00:08:02,309 --> 00:07:58,720

this smoke pack right now i'm running um

210

00:08:03,749 --> 00:08:02,319

support with claymore smoke and an 870

211

00:08:06,790 --> 00:08:03,759

shotgun it's just

212

00:08:09,510 --> 00:08:06,800

the 870 is just so powerful it's uh

213

00:08:10,150 --> 00:08:09,520

it's so much fun to use and you can be a

214

00:08:12,309 --> 00:08:10,160

little uh

215

00:08:13,909 --> 00:08:12,319

loose with it too i i'm rarely looking

216

00:08:15,510 --> 00:08:13,919

downsized i don't know

217

00:08:17,110 --> 00:08:15,520

unless i'm shooting slugs i don't know

218

00:08:20,390 --> 00:08:17,120

why i would it

219

00:08:21,990 --> 00:08:20,400

is quick and you can get some really

220

00:08:23,990 --> 00:08:22,000

quick kills with it and level up this

221

00:08:25,830 --> 00:08:24,000

gun i've leveled up this gun

222

00:08:27,430 --> 00:08:25,840

probably faster than uh all the others

223

00:08:30,869 --> 00:08:27,440

because i'm such

224

00:08:33,909 --> 00:08:30,879

a bad uh shooter i'm very inaccurate i i

225

00:08:35,990 --> 00:08:33,919

i'm playing on the xbox 360 and uh i

226

00:08:38,949 --> 00:08:36,000

just don't have that tight control over

227

00:08:39,990 --> 00:08:38,959

uh over the uh the weapons and uh i'll

228

00:08:42,310 --> 00:08:40,000

try to do some recon

229

00:08:43,829 --> 00:08:42,320

a little later but right now the shotgun

230

00:08:44,710 --> 00:08:43,839

i'm just having so much fun doing

231

00:08:47,750 --> 00:08:44,720

domination

232

00:08:48,630 --> 00:08:47,760

uh with shotgun and smoke and i i don't

233

00:08:50,710 --> 00:08:48,640

see anybody else

234

00:08:53,030 --> 00:08:50,720

using smoke i think i'm the only [h__h]

235

00:08:53,750 --> 00:08:53,040

out there uh really annoying people with

236

00:08:58,230 --> 00:08:53,760

it but

237

00:09:02,790 --> 00:08:59,670

that see i helped my brother out right

238

00:09:04,630 --> 00:09:02,800

there see he had to spit off what five

239

00:09:06,829 --> 00:09:04,640

five rounds and i got one little shotgun

240

00:09:11,509 --> 00:09:06,839

blast in there and help him out

241

00:09:14,470 --> 00:09:11,519

um the smoke is so useful for

242

00:09:15,990 --> 00:09:14,480

just putting up a wall and then being

243

00:09:19,350 --> 00:09:16,000

able to advance

244

00:09:22,630 --> 00:09:19,360

on that target um it's

245

00:09:23,110 --> 00:09:22,640

very useful you can really um mitigate

246

00:09:27,030 --> 00:09:23,120

the

247

00:09:28,389 --> 00:09:27,040

you think you're pinned down by being

248

00:09:29,990 --> 00:09:28,399

by a couple snipers you don't even know

249

00:09:31,670 --> 00:09:30,000

where they are pop some smoke on

250

00:09:35,509 --> 00:09:31,680

yourself and that'll give you a chance

251
00:09:35,990 --> 00:09:35,519
to get away um i've already maxed out my

252
00:09:37,670 --> 00:09:36,000
my

253
00:09:39,190 --> 00:09:37,680
grenades and everything else and the

254
00:09:43,509 --> 00:09:39,200
mini's nice and uh

255
00:09:46,710 --> 00:09:43,519
i should do this bam barely got them

256
00:09:48,230 --> 00:09:46,720
and uh i i'd like to see more people

257
00:09:49,990 --> 00:09:48,240
you smoke i'm probably gonna try to see

258
00:09:53,269 --> 00:09:50,000
if i can find a useful

259
00:09:54,790 --> 00:09:53,279
way to use flares in a non-dark setting

260
00:09:57,509 --> 00:09:54,800
like

261
00:09:59,030 --> 00:09:57,519
flares are great and i've been

262
00:10:01,509 --> 00:09:59,040
experimenting around

263
00:10:03,430 --> 00:10:01,519

and hopefully in another video coming up

264

00:10:06,470 --> 00:10:03,440

i'll be able to

265

00:10:08,949 --> 00:10:06,480

find a maybe not even a useful way but a

266

00:10:11,910 --> 00:10:08,959

good annoying way to use flares

267

00:10:12,870 --> 00:10:11,920

uh it does obstruct your vision a little

268

00:10:16,389 --> 00:10:12,880

bit

269

00:10:17,990 --> 00:10:16,399

and it really kind of obscures your

270

00:10:19,190 --> 00:10:18,000

screen so it's kind of tough to focus

271

00:10:21,190 --> 00:10:19,200

in rooms like that so i'm trying to

272

00:10:22,389 --> 00:10:21,200

figure out a good weapon combo to use

273

00:10:26,470 --> 00:10:22,399

flares

274

00:10:28,389 --> 00:10:26,480

and and and probably the

275

00:10:29,509 --> 00:10:28,399

well the support so i can replenish

276

00:10:32,389 --> 00:10:29,519

those flares and really

277

00:10:34,710 --> 00:10:32,399

use them uh in excess and very in an

278

00:10:37,190 --> 00:10:34,720

annoying way i'm sure my teammates

279

00:10:38,870 --> 00:10:37,200

don't like the smoke i mean it's got a

280

00:10:40,790 --> 00:10:38,880

it's a double-edged sword there because

281

00:10:42,150 --> 00:10:40,800

you smoke i i know what's going on i

282

00:10:43,190 --> 00:10:42,160

know who popped it i know pretty much

283

00:10:45,030 --> 00:10:43,200

how long it's gonna last

284

00:10:47,829 --> 00:10:45,040

but my teammates don't know i'm not

285

00:10:49,509 --> 00:10:47,839

talking to him at this point so

286

00:10:51,110 --> 00:10:49,519

maybe i should tell him she's telling me

287

00:10:52,310 --> 00:10:51,120

hey i'm gonna pop some smoke blind

288

00:10:54,710 --> 00:10:52,320

everybody in this room so

289

00:10:56,230 --> 00:10:54,720

just be careful and hopefully i'll be

290

00:11:00,230 --> 00:10:56,240

able to use

291

00:11:03,750 --> 00:11:00,240

um the

292

00:11:05,269 --> 00:11:03,760

infrared coming up so all right well

293

00:11:08,470 --> 00:11:05,279

that is it

294

00:11:12,829 --> 00:11:08,480

thank you very much and stay tuned for
