

# WINECRAFT

CONSPIRACY LAND

1  
00:00:12,549 --> 00:00:09,110  
let us travel to pigskull mountain

2  
00:00:13,990 --> 00:00:12,559  
and dynamite a nice

3  
00:00:15,350 --> 00:00:14,000  
throat

4  
00:00:18,310 --> 00:00:15,360  
cavern

5  
00:00:21,189 --> 00:00:18,320  
so people may find what's deep inside

6  
00:00:23,990 --> 00:00:21,199  
the belly of the beast

7  
00:00:26,470 --> 00:00:24,000  
now don't do too much jeff i'm serious i

8  
00:00:28,390 --> 00:00:26,480  
mean you see everything i've built so

9  
00:00:30,470 --> 00:00:28,400  
yeah we can go um

10  
00:00:32,310 --> 00:00:30,480  
we need strategic

11  
00:00:33,990 --> 00:00:32,320  
dynamiting here like

12  
00:00:36,310 --> 00:00:34,000  
anybody who hasn't seen this look at

13  
00:00:38,950 --> 00:00:36,320

this this is pig skull mountain aka

14

00:00:40,229 --> 00:00:38,960

skull mountain aka belly the beast

15

00:00:42,549 --> 00:00:40,239

um

16

00:00:45,830 --> 00:00:42,559

and we're trying to

17

00:00:47,190 --> 00:00:45,840

dynamite out a throat into a stomach of

18

00:00:48,950 --> 00:00:47,200

lava

19

00:00:51,029 --> 00:00:48,960

and uh

20

00:00:53,670 --> 00:00:51,039

hopefully clown baby understands the

21

00:00:55,189 --> 00:00:53,680

power of uh this dynamite at this point

22

00:00:56,470 --> 00:00:55,199

would you consider yourself a novice an

23

00:01:00,229 --> 00:00:56,480

expert what do you what do you consume

24

00:01:02,150 --> 00:01:00,239

yourself um intermediate

25

00:01:03,590 --> 00:01:02,160

you're a novice right now

26  
00:01:05,429 --> 00:01:03,600  
you don't understand a goddamn thing

27  
00:01:07,190 --> 00:01:05,439  
about pyrotechnics

28  
00:01:09,830 --> 00:01:07,200  
or explosives

29  
00:01:11,350 --> 00:01:09,840  
i drill a shaft

30  
00:01:13,830 --> 00:01:11,360  
that's how they dynamited for railroad

31  
00:01:15,510 --> 00:01:13,840  
tunnels so the most effective way

32  
00:01:17,270 --> 00:01:15,520  
between dynamite in the open doesn't do

33  
00:01:18,870 --> 00:01:17,280  
that much i'm tired of your fancy book

34  
00:01:24,469 --> 00:01:18,880  
learning

35  
00:01:27,670 --> 00:01:25,429  
all right

36  
00:01:31,270 --> 00:01:27,680  
how many wait how many uh dynamites are

37  
00:01:36,069 --> 00:01:34,630  
probably like 12 oh jesus

38  
00:01:37,590 --> 00:01:36,079

it's well contained it's all in that

39

00:01:39,910 --> 00:01:37,600

shaft okay

40

00:01:42,630 --> 00:01:39,920

it's far away from anything you did okay

41

00:01:44,310 --> 00:01:42,640

all right okay okay

42

00:01:45,749 --> 00:01:44,320

we'll see

43

00:01:51,270 --> 00:01:45,759

i trust you

44

00:01:55,830 --> 00:01:53,590

all right hey whoa let's check that out

45

00:01:57,590 --> 00:01:55,840

hey not bad good tunnel now i think we

46

00:01:58,550 --> 00:01:57,600

need to go um

47

00:02:00,069 --> 00:01:58,560

down

48

00:02:02,469 --> 00:02:00,079

and forward you know what i'm saying so

49

00:02:04,230 --> 00:02:02,479

we need to be angled

50

00:02:06,310 --> 00:02:04,240

so this is like a nice throw now we need

51  
00:02:08,550 --> 00:02:06,320  
to go back

52  
00:02:10,469 --> 00:02:08,560  
straight ahead not so much down go

53  
00:02:12,390 --> 00:02:10,479  
straight ahead and then we'll go down

54  
00:02:14,949 --> 00:02:12,400  
again

55  
00:02:16,470 --> 00:02:14,959  
so kind of uh

56  
00:02:18,150 --> 00:02:16,480  
going this way where i'm going now i

57  
00:02:23,510 --> 00:02:18,160  
would say you see me i would yeah i

58  
00:02:27,190 --> 00:02:25,430  
oh okay

59  
00:02:28,790 --> 00:02:27,200  
yeah we're pretty far down right now

60  
00:02:31,589 --> 00:02:28,800  
yeah we are i mean i can help you put

61  
00:02:33,430 --> 00:02:31,599  
down some tnt i know i know my tnt

62  
00:02:35,030 --> 00:02:33,440  
you gotta take a shaft first for blow it

63  
00:02:36,550 --> 00:02:35,040

out oh fine

64

00:02:40,790 --> 00:02:36,560

if you just want it to be a tunnel we

65

00:02:48,229 --> 00:02:43,750

no i mean come on

66

00:02:48,239 --> 00:02:53,750

i can't see anything

67

00:02:57,030 --> 00:02:55,190

okay

68

00:03:03,270 --> 00:02:57,040

i think this looks good this looks like

69

00:03:10,470 --> 00:03:06,470

okay

70

00:03:14,790 --> 00:03:13,270

that's pretty good

71

00:03:25,830 --> 00:03:14,800

okay

72

00:03:25,840 --> 00:03:28,869

lava

73

00:03:33,910 --> 00:03:32,309

now we go down even further

74

00:03:36,949 --> 00:03:33,920

well let me uh deal with this lava

75

00:03:42,149 --> 00:03:39,830

it is a minor inconvenience

76

00:03:47,589 --> 00:03:42,159

maybe i could help you out by

77

00:03:58,309 --> 00:03:49,190

i'm not against the lava i kind of like

78

00:04:02,390 --> 00:04:00,630

all right i think we're good

79

00:04:03,750 --> 00:04:02,400

let me just leave the lava there in this

80

00:04:06,789 --> 00:04:03,760

one little wall

81

00:04:07,750 --> 00:04:06,799

yes oh wow look at this

82

00:04:10,149 --> 00:04:07,760

down

83

00:04:13,670 --> 00:04:10,159

deep cavern wow

84

00:04:16,229 --> 00:04:13,680

wow okay so this is like almost like a

85

00:04:18,310 --> 00:04:16,239

pre-built belly of the beast for us

86

00:04:19,749 --> 00:04:18,320

let's go let's go see if how far we can

87

00:04:21,270 --> 00:04:19,759

go down we can just i can just carve

88

00:04:23,430 --> 00:04:21,280

this out

89

00:04:29,590 --> 00:04:23,440

i kind of like the the natural

90

00:04:34,310 --> 00:04:30,950

i'm gonna use a glowstone i like

91

00:04:41,350 --> 00:04:35,909

got a loser down here

92

00:04:41,360 --> 00:04:45,270

stupid loser

93

00:04:55,270 --> 00:04:48,550

how did you get stuck in a cave

94

00:04:55,280 --> 00:04:58,790

there's a lot i can do with this

95

00:05:02,070 --> 00:05:00,390

although we might have to block off this

96

00:05:04,310 --> 00:05:02,080

water

97

00:05:06,790 --> 00:05:04,320

but it's not to chamber

98

00:05:08,310 --> 00:05:06,800

hey this is kind of i i really do like

99

00:05:11,590 --> 00:05:08,320

this this is uh

100

00:05:13,749 --> 00:05:11,600

it comes to a natural chamber

101

00:05:16,310 --> 00:05:13,759

i can definitely do a lot with this it

102

00:05:17,510 --> 00:05:16,320

keeps going check this out next to us oh

103

00:05:22,830 --> 00:05:17,520

wow

104

00:05:22,840 --> 00:05:30,550

whoa perfect

105

00:05:36,550 --> 00:05:33,430

mushrooms i found the business place got

106

00:05:40,790 --> 00:05:36,560

some mushrooms oh

107

00:05:53,749 --> 00:05:48,550

very interesting

108

00:05:58,390 --> 00:05:56,070

yeah i like your spirit of digging let's

109

00:06:00,150 --> 00:05:58,400

let's continue to dig this way

110

00:06:02,230 --> 00:06:00,160

we have no really idea of where we're

111

00:06:04,070 --> 00:06:02,240

going do we

112

00:06:04,950 --> 00:06:04,080

no okay

113

00:06:12,629 --> 00:06:04,960

so

114

00:06:16,150 --> 00:06:14,950

oh it just uh leads into another chamber

115

00:06:19,749 --> 00:06:16,160

probably a chamber where we just came

116

00:06:21,189 --> 00:06:19,759

from oh yeah it is okay it's fine this

117

00:06:22,710 --> 00:06:21,199

mark it off

118

00:06:24,870 --> 00:06:22,720

i think so

119

00:06:27,110 --> 00:06:24,880

let me just make sure

120

00:06:30,629 --> 00:06:27,120

yeah this is just legion put up this

121

00:06:33,510 --> 00:06:30,639

leads into the the giant chamber

122

00:06:36,790 --> 00:06:33,520

that i'm going to carve this out

123

00:06:38,230 --> 00:06:36,800

and do some real work in here

124

00:06:40,150 --> 00:06:38,240

although i gotta i think i'm gonna have

125

00:06:47,110 --> 00:06:40,160

to cut out this uh this water flow at

126  
00:06:52,790 --> 00:06:49,110  
that's not bad it's actually a really

127  
00:06:56,629 --> 00:06:55,110  
i need a

128  
00:06:58,790 --> 00:06:56,639  
bridge because there's more of a there's

129  
00:07:00,830 --> 00:06:58,800  
more of a cave network over here

130  
00:07:02,710 --> 00:07:00,840  
man like it's

131  
00:07:07,110 --> 00:07:02,720  
huge

132  
00:07:07,120 --> 00:07:11,189  
go up or down

133  
00:07:14,950 --> 00:07:13,270  
let's explore this and then just drill

134  
00:07:18,070 --> 00:07:14,960  
upwards

135  
00:07:19,990 --> 00:07:18,080  
through the

136  
00:07:22,629 --> 00:07:20,000  
you know what who cares we just drilled

137  
00:07:24,469 --> 00:07:22,639  
up where we're at yeah i i i don't know

138  
00:07:27,029 --> 00:07:24,479

if we're still underneath the skull

139

00:07:28,830 --> 00:07:27,039

technically i have no idea we are

140

00:07:31,749 --> 00:07:28,840

i i don't know

141

00:07:33,749 --> 00:07:31,759

yeah we'll just explore then drill up i

142

00:07:35,589 --> 00:07:33,759

mean normally what we do i'm just kind

143

00:07:37,029 --> 00:07:35,599

of marking off

144

00:07:42,150 --> 00:07:37,039

um

145

00:07:42,160 --> 00:07:49,510

well this keeps going down hmm

146

00:07:56,550 --> 00:07:50,550

yes

147

00:08:00,550 --> 00:07:58,710

wow okay

148

00:08:03,830 --> 00:08:00,560

is that uh

149

00:08:09,029 --> 00:08:03,840

at least the outside world or

150

00:08:14,790 --> 00:08:12,309

so it's a natural

151

00:08:18,150 --> 00:08:14,800

no this is the giant pit i blew out it

152

00:08:21,270 --> 00:08:18,160

leads into there is it really

153

00:08:23,110 --> 00:08:21,280

yeah it is yeah this is we're down

154

00:08:25,589 --> 00:08:23,120

at the bedrock

155

00:08:26,629 --> 00:08:25,599

yeah because yeah this is bedrock well

156

00:08:28,070 --> 00:08:26,639

this is

157

00:08:30,150 --> 00:08:28,080

watch this

158

00:08:34,790 --> 00:08:30,160

this [h\_\_h] won't go anywhere yeah

159

00:08:38,070 --> 00:08:36,709

we've done as much as we can do did it

160

00:08:42,070 --> 00:08:38,080

blow up

161

00:08:44,310 --> 00:08:42,080

no cnt did but bedrock did not

162

00:08:47,509 --> 00:08:44,320

so jeff cleared this out

163

00:08:47,519 --> 00:08:50,710

aka clown baby

164

00:08:55,190 --> 00:08:53,430

where did that come from uh we went out

165

00:08:56,150 --> 00:08:55,200

this way i marked it up with torches i

166

00:08:57,829 --> 00:08:56,160

think

167

00:09:00,310 --> 00:08:57,839

no i didn't

168

00:09:02,630 --> 00:09:00,320

fall follow the waterfall torch up here

169

00:09:08,070 --> 00:09:02,640

no don't follow the waterfall i just go

170

00:09:12,070 --> 00:09:09,829

that connects this that connects all the

171

00:09:13,670 --> 00:09:12,080

way over yeah so

172

00:09:15,269 --> 00:09:13,680

you look at our

173

00:09:17,590 --> 00:09:15,279

small mountain left side so there's

174

00:09:19,750 --> 00:09:17,600

skull mountain right there pig aka pig

175

00:09:22,389 --> 00:09:19,760

skull mountain aka belly the beast

176

00:09:27,269 --> 00:09:22,399

and that led out right over here so we

177

00:09:29,990 --> 00:09:28,550

so that's

178

00:09:32,310 --> 00:09:30,000

that's awesome
