

WIMPECRAFT

CONSPIRACY LAND

1
00:00:11,480 --> 00:00:07,550
and welcome to another episode of

2
00:00:17,720 --> 00:00:11,490
minecraft today we will be exploring

3
00:00:20,570 --> 00:00:17,730
skull mountain let us walk shall we yes

4
00:00:24,529 --> 00:00:20,580
through skull mountain and give people a

5
00:00:31,339 --> 00:00:24,539
little tour right now of what could be

6
00:00:33,920 --> 00:00:31,349
in store for them now um this is a giant

7
00:00:38,350 --> 00:00:33,930
mountain we've blasted far below the

8
00:00:41,330 --> 00:00:38,360
surface oh yes this is huge it's giant

9
00:00:44,840 --> 00:00:41,340
this is giant woody woody got a shovel

10
00:00:47,150 --> 00:00:44,850
I'll platinum shovel yeah nice diamond

11
00:00:50,180 --> 00:00:47,160
shovel all right let's go down even

12
00:00:57,950 --> 00:00:50,190
further now this is kind of roughed out

13
00:00:59,930 --> 00:00:57,960

everything right now is quartz block now

14

00:01:04,399 --> 00:00:59,940

if you go down here which I don't

15

00:01:08,149 --> 00:01:04,409

recommend that is the hallway of ancient

16

00:01:10,000 --> 00:01:08,159

secrets which we will not go down we

17

00:01:12,260 --> 00:01:10,010

don't know it's done there's dark it's

18

00:01:17,270 --> 00:01:12,270

it's not going to be a good experience

19

00:01:18,289 --> 00:01:17,280

for any traveler so we don't want player

20

00:01:20,630 --> 00:01:18,299

if you want to go down there has a

21

00:01:24,080 --> 00:01:20,640

player that's fine we will invite you

22

00:01:26,450 --> 00:01:24,090

finally me but right here this is where

23

00:01:30,080 --> 00:01:26,460

the game in level begins in skull

24

00:01:31,490 --> 00:01:30,090

mountain now we lit it reminds me of

25

00:01:34,249 --> 00:01:31,500

what it wasn't Lu last night this

26
00:01:36,560 --> 00:01:34,259
reminds me of portal okay she drop into

27
00:01:40,310 --> 00:01:36,570
the level it's almost exactly like

28
00:01:45,649 --> 00:01:40,320
portal I can see that yeah it's very

29
00:01:48,080 --> 00:01:45,659
portal s yeah and so as a player when

30
00:01:49,880 --> 00:01:48,090
you enter this chamber there are very

31
00:01:52,370 --> 00:01:49,890
few options there's a treasure chest up

32
00:01:54,410 --> 00:01:52,380
there you're going to drop down and

33
00:01:56,480 --> 00:01:54,420
there's a lava flow you jump anywhere

34
00:01:57,770 --> 00:01:56,490
the jump from here a futile you have to

35
00:02:02,090 --> 00:01:57,780
drop down it's going to be very

36
00:02:04,639 --> 00:02:02,100
difficult for you as a player and your

37
00:02:07,969 --> 00:02:04,649
best bet is to run as fast as you can

38
00:02:12,260 --> 00:02:07,979

towards where ooh I could I'm looking at

39

00:02:13,520 --> 00:02:12,270

you right now and maybe life you're

40

00:02:19,520 --> 00:02:13,530

gonna have to run faster to the

41

00:02:22,910 --> 00:02:19,530

what clown baby just yes dizzy and there

42

00:02:26,140 --> 00:02:22,920

there you go they go okay yeah so what

43

00:02:29,270 --> 00:02:26,150

we might do is recruit players that have

44

00:02:32,390 --> 00:02:29,280

the skill and the knowledge of Minecraft

45

00:02:33,949 --> 00:02:32,400

and perhaps maybe four players will run

46

00:02:35,600 --> 00:02:33,959

through this maze and the winner will

47

00:02:39,650 --> 00:02:35,610

get a fifty dollar gift card to gamestop

48

00:02:42,080 --> 00:02:39,660

who knows we might do that it but this

49

00:02:44,090 --> 00:02:42,090

is stage one so this is just the first

50

00:02:47,120 --> 00:02:44,100

stage if you come down even a little

51
00:02:50,210 --> 00:02:47,130
further and you can see everything is

52
00:02:53,030 --> 00:02:50,220
tiled off everything is white white is

53
00:02:56,000 --> 00:02:53,040
right that's what we say around here you

54
00:02:59,240 --> 00:02:56,010
know and I mean that's not a good slogan

55
00:03:01,850 --> 00:02:59,250
he is but you come down even further

56
00:03:06,020 --> 00:03:01,860
there are going to be possibly other

57
00:03:10,309 --> 00:03:06,030
booby traps treasure chests and i will

58
00:03:13,490 --> 00:03:10,319
probably build a little house out front

59
00:03:15,680 --> 00:03:13,500
that will give people the fault tools to

60
00:03:18,110 --> 00:03:15,690
use upon entering skull mountain yeah

61
00:03:21,620 --> 00:03:18,120
give it give everyone at least a sword

62
00:03:24,979 --> 00:03:21,630
yeah you shield yeah some like some ham

63
00:03:26,810 --> 00:03:24,989

for health recovery exactly because this

64

00:03:29,180 --> 00:03:26,820

there are a lot of nooks and crannies

65

00:03:33,020 --> 00:03:29,190

and a lot of dark spots within skull

66

00:03:36,920 --> 00:03:33,030

mountain so you will encounter ghouls

67

00:03:39,970 --> 00:03:36,930

zombies spiders right there will be

68

00:03:43,940 --> 00:03:39,980

monsters that's for sure oh absolutely

69

00:03:48,140 --> 00:03:43,950

so trying to navigate it without any

70

00:03:50,900 --> 00:03:48,150

weapons is not a good idea so let's

71

00:03:53,120 --> 00:03:50,910

let's go down a little further um I put

72

00:03:55,069 --> 00:03:53,130

it did you see this water feature I put

73

00:03:57,170 --> 00:03:55,079

in over here clown baby let's see this

74

00:04:01,640 --> 00:03:57,180

fountain yeah this is new it's amazing

75

00:04:03,140 --> 00:04:01,650

it's nice nice water feature yes it seem

76

00:04:07,130 --> 00:04:03,150

like we're civilized in our dungeon

77

00:04:08,479 --> 00:04:07,140

making oh yeah oh yes ok this is the ok

78

00:04:11,559 --> 00:04:08,489

I remember this from last night this is

79

00:04:19,719 --> 00:04:17,920

this is the water trap room I reminds me

80

00:04:21,969 --> 00:04:19,729

of Zelda honestly reminds you all

81

00:04:23,740 --> 00:04:21,979

currying of time the water temple yeah

82

00:04:27,460 --> 00:04:23,750

okay that's a good that's a good analogy

83

00:04:31,900 --> 00:04:27,470

and as you can see there are a lot of

84

00:04:35,230 --> 00:04:31,910

traps there are a lot of boxes some of

85

00:04:37,300 --> 00:04:35,240

which will hold items but the player

86

00:04:41,710 --> 00:04:37,310

will start off over this fence in down

87

00:04:45,070 --> 00:04:41,720

his level oh absolutely some of these

88

00:04:48,820 --> 00:04:45,080

are these dispensaries will hold items

89

00:04:53,770 --> 00:04:48,830

that you could use and some of them may

90

00:04:55,839 --> 00:04:53,780

be booby-trapped so it is really going

91

00:05:00,909 --> 00:04:55,849

to be a little bit of a puzzle for you

92

00:05:04,060 --> 00:05:00,919

to navigate as a player and and also

93

00:05:06,189 --> 00:05:04,070

this is going to be a time challenge as

94

00:05:09,070 --> 00:05:06,199

well we're going to time people when

95

00:05:10,270 --> 00:05:09,080

they come through and so you can you can

96

00:05:14,290 --> 00:05:10,280

take all the time in the world to

97

00:05:16,890 --> 00:05:14,300

explore hat things apart but the most

98

00:05:20,439 --> 00:05:16,900

important thing is the urgency of

99

00:05:22,899 --> 00:05:20,449

exploration and if you can make it up

100

00:05:26,830 --> 00:05:22,909

here then you're gonna walk into the

101
00:05:29,680 --> 00:05:26,840
chamber of fire oh wow you just

102
00:05:32,560 --> 00:05:29,690
definitely work here Wow yeah I did some

103
00:05:35,770 --> 00:05:32,570
work here so you're gonna have to walk

104
00:05:39,850 --> 00:05:35,780
you're gonna have to watch out for a lot

105
00:05:41,890 --> 00:05:39,860
of danger and you're going to choose if

106
00:05:43,629 --> 00:05:41,900
you just want to get the out of

107
00:05:46,240 --> 00:05:43,639
here or if you think it might be worth

108
00:05:48,640 --> 00:05:46,250
your time to possibly go for some

109
00:05:51,189 --> 00:05:48,650
treasure or explore the room because

110
00:05:53,110 --> 00:05:51,199
there are some time down 1st reserch s

111
00:05:55,689 --> 00:05:53,120
all right there are going to be some

112
00:06:01,620 --> 00:05:55,699
hidden secrets in this room no no doubt

113
00:06:04,029 --> 00:06:01,630

and it's very easy for a player to die

114

00:06:06,339 --> 00:06:04,039

if you don't know what you're doing if

115

00:06:13,779 --> 00:06:06,349

you're not careful you can die very

116

00:06:16,209 --> 00:06:13,789

easily in here yeah this is the the DM

117

00:06:18,040 --> 00:06:16,219

that gets your your friends to quit

118

00:06:19,959 --> 00:06:18,050

playing Dungeons and Dragons exactly

119

00:06:22,060 --> 00:06:19,969

this is this is the room it's the first

120

00:06:23,649 --> 00:06:22,070

room he just made where it's like half

121

00:06:24,239 --> 00:06:23,659

the party dies because you couldn't make

122

00:06:26,309 --> 00:06:24,249

the jump

123

00:06:28,349 --> 00:06:26,319

the strength and you get to this room

124

00:06:30,719 --> 00:06:28,359

it's just like I'm gonna go for the

125

00:06:33,269 --> 00:06:30,729

vorpal blade hey doll you're dead the

126
00:06:34,919 --> 00:06:33,279
campaign's over why am I here why am I

127
00:06:37,589 --> 00:06:34,929
here not mean this is no secret you can

128
00:06:39,389 --> 00:06:37,599
jump down onto this piston hit it and

129
00:06:42,749 --> 00:06:39,399
it'll rise you up if you want to jump

130
00:06:47,149 --> 00:06:42,759
over but don't jump too far because you

131
00:06:50,699 --> 00:06:47,159
can easily jump over this walking path

132
00:06:52,109 --> 00:06:50,709
the most important part is also by the

133
00:06:54,029 --> 00:06:52,119
way how was your dinner where'd you guys

134
00:06:57,059 --> 00:06:54,039
go out to how we just went over to a

135
00:07:01,019 --> 00:06:57,069
friend's house and we had some baked

136
00:07:04,169 --> 00:07:01,029
ziti we had some some wine we had some

137
00:07:07,339 --> 00:07:04,179
brownies we had some beers it was nice

138
00:07:10,319 --> 00:07:07,349

it was very nice it's a friend's house

139

00:07:13,409 --> 00:07:10,329

yes they had a bar downstairs in the

140

00:07:14,879 --> 00:07:13,419

basement and it was nice to be in a

141

00:07:17,100 --> 00:07:14,889

basement that was finished and they had

142

00:07:18,719 --> 00:07:17,110

actual an actual bar there that we could

143

00:07:22,499 --> 00:07:18,729

just hang around and play cards go see

144

00:07:26,879 --> 00:07:22,509

humanity and consuming is awesome it was

145

00:07:28,829 --> 00:07:26,889

fun it was fun to do a good time all

146

00:07:32,399 --> 00:07:28,839

right let us walk on because this is not

147

00:07:35,609 --> 00:07:32,409

even dunya the traps are not set if you

148

00:07:37,829 --> 00:07:35,619

think as a player you can navigate this

149

00:07:39,179 --> 00:07:37,839

room just by walking through you've got

150

00:07:42,509 --> 00:07:39,189

another thing coming if you think you're

151
00:07:48,509 --> 00:07:42,519
going to come out unscathed so please

152
00:07:51,809 --> 00:07:48,519
walk up here alright then you're

153
00:07:56,999 --> 00:07:51,819
bringing into the chamber uh this is

154
00:07:59,459 --> 00:07:57,009
called the cavern of hope and it looks

155
00:08:02,939 --> 00:07:59,469
very very inviting everything's all

156
00:08:05,969 --> 00:08:02,949
white there is a corridor we don't know

157
00:08:09,179 --> 00:08:05,979
it's back there your stop chopping

158
00:08:10,949 --> 00:08:09,189
on my bricks you're missed you're

159
00:08:15,319 --> 00:08:10,959
getting caleb at your devastating my

160
00:08:21,149 --> 00:08:15,329
environment this is the cavern of hope

161
00:08:24,959 --> 00:08:21,159
this is very soothing serene this may be

162
00:08:27,619 --> 00:08:24,969
a place for you to have a reprieve and

163
00:08:32,040 --> 00:08:27,629

what are you what are you chopping at

164

00:08:35,120 --> 00:08:32,050

this best leave the battle over leave

165

00:08:41,180 --> 00:08:39,050

all right fine the capital is this is

166

00:08:43,100 --> 00:08:41,190

nice retreat yeah the cat the Hall of

167

00:08:45,470 --> 00:08:43,110

hope the Hall of hope the cavern of

168

00:08:47,300 --> 00:08:45,480

serenity and you're completely ruining

169

00:08:51,290 --> 00:08:47,310

it by trying to chase this goddamn bad

170

00:08:56,390 --> 00:08:51,300

around yeah well so beautiful I like the

171

00:08:59,950 --> 00:08:56,400

bed all right please what's upstairs

172

00:09:04,700 --> 00:08:59,960

here upstairs let us go now be careful

173

00:09:08,810 --> 00:09:04,710

it is a very deep pass oh I see the trap

174

00:09:12,200 --> 00:09:08,820

ok be careful could go up into the blue

175

00:09:15,310 --> 00:09:12,210

like this goes into the catacombs so we

176

00:09:19,820 --> 00:09:15,320

do have room for more catacomb building

177

00:09:22,310 --> 00:09:19,830

I was I'm still trying to hash this out

178

00:09:26,450 --> 00:09:22,320

a little bit but there is room to go up

179

00:09:30,860 --> 00:09:26,460

and behind the the room of hope the

180

00:09:35,480 --> 00:09:30,870

cavern of the seat and I have built out

181

00:09:39,470 --> 00:09:35,490

a lot of the UH the cabin ever we found

182

00:09:41,810 --> 00:09:39,480

is ridiculous because this just it goes

183

00:09:46,370 --> 00:09:41,820

indefinitely around a perimeter it makes

184

00:09:48,860 --> 00:09:46,380

a great area so yeah we can make

185

00:09:50,930 --> 00:09:48,870

whatever we want out of this no yeah

186

00:09:57,800 --> 00:09:50,940

it'sit's there's a lot of room to to

187

00:10:00,020 --> 00:09:57,810

work absolutely now if you come back

188

00:10:01,910 --> 00:10:00,030

this way clown baby if you walk forward

189

00:10:05,500 --> 00:10:01,920

towards the traps you'll see you've got

190

00:10:08,030 --> 00:10:05,510

two choices the left or the right and

191

00:10:10,040 --> 00:10:08,040

this is where the lair makes the choice

192

00:10:12,560 --> 00:10:10,050

of which direction they want to go only

193

00:10:16,070 --> 00:10:12,570

one is going to lead to the quickest way

194

00:10:17,450 --> 00:10:16,080

out you know what they should do you

195

00:10:20,090 --> 00:10:17,460

shouldn't let them fall down like that

196

00:10:22,700 --> 00:10:20,100

we don't build this like a wall well

197

00:10:24,200 --> 00:10:22,710

like so I kind of want them to fall down

198

00:10:26,540 --> 00:10:24,210

because i'm actually gonna put more fire

199

00:10:28,730 --> 00:10:26,550

down there possibly or spikes there's

200

00:10:32,600 --> 00:10:28,740

some way for them to possibly twist an

201
00:10:34,040 --> 00:10:32,610
ankle there are more seekers to behold

202
00:10:35,990 --> 00:10:34,050
down there if they happen to fall break

203
00:10:37,610 --> 00:10:36,000
an ankle and survive god bless them

204
00:10:41,060 --> 00:10:37,620
there might be some secrets down there

205
00:10:43,700 --> 00:10:41,070
that might help them survive I'm

206
00:10:45,829 --> 00:10:43,710
thinking that's it I'm thinking so fully

207
00:10:48,170 --> 00:10:45,839
I could go down here and I take a right

208
00:10:48,530 --> 00:10:48,180
you could and then I'm all of a sudden

209
00:10:52,070 --> 00:10:48,540
Monday

210
00:10:53,930 --> 00:10:52,080
path yeah i see i have a path up here we

211
00:10:56,960 --> 00:10:53,940
want to go like but there's a cave

212
00:11:00,940 --> 00:10:56,970
system down here yeah i haven't worked

213
00:11:03,760 --> 00:11:00,950

that out I have actually I'm planning on

214

00:11:07,220 --> 00:11:03,770

looks like it might lead to nothing

215

00:11:09,740 --> 00:11:07,230

exactly actually yeah it does it goes

216

00:11:14,540 --> 00:11:09,750

kind of deep and it's done deep in

217

00:11:16,430 --> 00:11:14,550

nothing yeah it's just a it's just a it

218

00:11:19,460 --> 00:11:16,440

goes down like 50 more feet and that's

219

00:11:23,090 --> 00:11:19,470

it okay that's why I can plan for

220

00:11:25,390 --> 00:11:23,100

anybody to go down there now what I plan

221

00:11:30,410 --> 00:11:25,400

for if you come back out here to the

222

00:11:34,040 --> 00:11:30,420

decision path I plan for people to take

223

00:11:36,470 --> 00:11:34,050

a left or right and it's marked off with

224

00:11:40,130 --> 00:11:36,480

be the courts so if we take the the

225

00:11:45,980 --> 00:11:40,140

courts route up here you will find that

226

00:11:49,040 --> 00:11:45,990

the path is fairly clearly marked and we

227

00:11:51,500 --> 00:11:49,050

will be traveling in a particular

228

00:11:54,290 --> 00:11:51,510

direction that we don't really know I

229

00:11:59,840 --> 00:11:54,300

don't know where we end up here we exact

230

00:12:02,260 --> 00:11:59,850

set of the proud this could be the

231

00:12:04,790 --> 00:12:02,270

quickest way we don't really know but

232

00:12:11,050 --> 00:12:04,800

you could bust an ankle falling off that

233

00:12:15,620 --> 00:12:11,060

I tell you what okay remember that was

234

00:12:19,310 --> 00:12:15,630

too serious Arkansas where'd you go I

235

00:12:23,750 --> 00:12:19,320

see you and back yeah i was just looking

236

00:12:28,010 --> 00:12:23,760

the other stuff and follow me follow the

237

00:12:30,230 --> 00:12:28,020

the courts you know all did you look up

238

00:12:35,780 --> 00:12:30,240

here stop very well indeed were yeah

239

00:12:38,810 --> 00:12:35,790

there's a right up here nice side tunnel

240

00:12:41,750 --> 00:12:38,820

i did not even look over here now

241

00:12:43,970 --> 00:12:41,760

there's to look at this there's one

242

00:12:47,630 --> 00:12:43,980

because all the way down there and then

243

00:12:50,450 --> 00:12:47,640

we go to the right I didn't you know I

244

00:12:54,560 --> 00:12:50,460

got mine crashed nuts I were

245

00:12:56,330 --> 00:12:54,570

crazy tunnels I did not even choose him

246

00:12:58,820 --> 00:12:56,340

to come down here I did not even know

247

00:13:01,079 --> 00:12:58,830

let's just all throw a block or two down

248

00:13:03,480 --> 00:13:01,089

yeah well come back

249

00:13:05,400 --> 00:13:03,490

this is to hear this is pretty

250

00:13:08,129 --> 00:13:05,410

interesting I did not even come down

251
00:13:10,139 --> 00:13:08,139
here I didn't explore this way did I

252
00:13:12,780 --> 00:13:10,149
mean this wasn't my initial intention

253
00:13:16,290 --> 00:13:12,790
when when creating this love is crazy

254
00:13:19,259 --> 00:13:16,300
that these things exist all right gonna

255
00:13:20,850 --> 00:13:19,269
kill her there I think we're okay yeah

256
00:13:23,730 --> 00:13:20,860
I'm lightning okay I'm glad you found

257
00:13:25,290 --> 00:13:23,740
that that might change everything there

258
00:13:29,939 --> 00:13:25,300
might be some treasure down there there

259
00:13:31,920 --> 00:13:29,949
might be Google's D&D you could win the

260
00:13:35,610 --> 00:13:31,930
game and I don't even know it well

261
00:13:37,139 --> 00:13:35,620
exactly all right got that we put okay

262
00:13:39,210 --> 00:13:37,149
we're going down here yeah I mean

263
00:13:41,850 --> 00:13:39,220

ideally I mean initially this is what I

264

00:13:45,389 --> 00:13:41,860

wanted but that might change now that

265

00:13:48,540 --> 00:13:45,399

you found I found in the path that right

266

00:13:50,850 --> 00:13:48,550

no idea how deep that goes I want to

267

00:13:52,639 --> 00:13:50,860

examine that later because that wasn't

268

00:14:00,150 --> 00:13:52,649

my intention but I kind of liked that

269

00:14:03,019 --> 00:14:00,160

that isn't the fork this goes pretty wow

270

00:14:07,799 --> 00:14:03,029

it's like a Skyrim dungeon this is a

271

00:14:15,299 --> 00:14:07,809

Skyrim like dungeon yeah and so this

272

00:14:21,720 --> 00:14:15,309

kind of comes to possibly an end of the

273

00:14:23,369 --> 00:14:21,730

level but how do you get here and what

274

00:14:25,199 --> 00:14:23,379

is the quickest route here and there's

275

00:14:26,249 --> 00:14:25,209

going to be multiple obstacles in the

276

00:14:30,449 --> 00:14:26,259

way because you're gonna have to find

277

00:14:32,460 --> 00:14:30,459

out a way to travel liked it this is the

278

00:14:34,889 --> 00:14:32,470

blast site yeah exactly this is the

279

00:14:37,169 --> 00:14:34,899

blast site and you have to travel up the

280

00:14:39,600 --> 00:14:37,179

waterfall where we this is where I

281

00:14:44,400 --> 00:14:39,610

dynamite down for the world yes that's

282

00:14:47,309 --> 00:14:44,410

growl all roads lead to room yeah so if

283

00:14:54,329 --> 00:14:47,319

you look up we're going to figure out a

284

00:14:56,819 --> 00:14:54,339

way to get up here as a player and I've

285

00:15:01,379 --> 00:14:56,829

been there a really narrow staircase I

286

00:15:03,360 --> 00:15:01,389

don't know well as a player when you

287

00:15:05,850 --> 00:15:03,370

enter this level they're gonna have to

288

00:15:08,400 --> 00:15:05,860

navigate the terrain and we will leave

289

00:15:14,700 --> 00:15:08,410

clues on how to do it and if they can do

290

00:15:16,620 --> 00:15:14,710

it there will be a price monetary um in

291

00:15:18,960 --> 00:15:16,630

minecraft and possibly the real world I

292

00:15:20,220 --> 00:15:18,970

want people to play this level I want to

293

00:15:22,620 --> 00:15:20,230

see how long it takes for him to get

294

00:15:25,410 --> 00:15:22,630

through it what their opinion is and

295

00:15:27,740 --> 00:15:25,420

look we're into player testing here I'm

296

00:15:31,710 --> 00:15:27,750

very serious about this being something

297

00:15:33,960 --> 00:15:31,720

yeah I look you're running main idea

298

00:15:36,750 --> 00:15:33,970

that have any kind of obstacle course

299

00:15:39,540 --> 00:15:36,760

not really but more deadly than obstacle

300

00:15:41,570 --> 00:15:39,550

well here's the thing when we do this

301

00:15:45,330 --> 00:15:41,580

I'm not sure where you are clown baby

302

00:15:47,400 --> 00:15:45,340

where are you I'm just right over the

303

00:15:52,050 --> 00:15:47,410

entrance who are blasted out mine

304

00:15:53,340 --> 00:15:52,060

entrance the big hole we made I want the

305

00:15:56,100 --> 00:15:53,350

entrance of that with the water pouring

306

00:16:00,300 --> 00:15:56,110

down oh you're up top Europe at the

307

00:16:02,700 --> 00:16:00,310

waterfall yeah okay so here here's the

308

00:16:07,970 --> 00:16:02,710

deal I mean this is how we have the

309

00:16:12,420 --> 00:16:07,980

structure this competition game is that

310

00:16:14,310 --> 00:16:12,430

us obd and me and clown baby are going

311

00:16:18,570 --> 00:16:14,320

to be running this game in survival mode

312

00:16:21,930 --> 00:16:18,580

and the people who we bring into this

313

00:16:23,910 --> 00:16:21,940

game are most likely going to be playing

314

00:16:25,770 --> 00:16:23,920

against us we are going to be the

315

00:16:27,570 --> 00:16:25,780

gladiators and they're going to have to

316

00:16:30,120 --> 00:16:27,580

battle their way through skull mountain

317

00:16:32,900 --> 00:16:30,130

as you can see the side of it over there

318

00:16:37,140 --> 00:16:32,910

and they're gonna have to combat us and

319

00:16:40,680 --> 00:16:37,150

the mazed like environment with traps

320

00:16:43,380 --> 00:16:40,690

and if they can come out on top and the

321

00:16:47,400 --> 00:16:43,390

first one who can do that will win a

322

00:16:50,040 --> 00:16:47,410

prize that's that's that now if you want

323

00:16:52,380 --> 00:16:50,050

to be involved yeah I like that but we

324

00:16:56,280 --> 00:16:52,390

have to have like a ground rules like no

325

00:16:58,680 --> 00:16:56,290

dynamite no have to have only your

326

00:17:00,690 --> 00:16:58,690

weapons and armor well that's why more

327

00:17:04,800 --> 00:17:00,700

like that that's why we're gonna build a

328

00:17:06,570 --> 00:17:04,810

housing facility right in front of skull

329

00:17:09,030 --> 00:17:06,580

mountain everyone has their own chest

330

00:17:11,790 --> 00:17:09,040

they'll bring their own weapons and then

331

00:17:14,670 --> 00:17:11,800

they're going to go through this it's

332

00:17:17,699 --> 00:17:14,680

gonna be us to clown baby and obedient

333

00:17:20,780 --> 00:17:17,709

midnight Mike against possibly four to

334

00:17:25,430 --> 00:17:20,790

six other players coming through

335

00:17:27,350 --> 00:17:25,440

this skull mountain that me like this

336

00:17:28,460 --> 00:17:27,360

that's that I mean I think that's a

337

00:17:30,530 --> 00:17:28,470

great idea they're gonna have to battle

338

00:17:33,770 --> 00:17:30,540

us turn up the battle the traps they're

339

00:17:35,330 --> 00:17:33,780

going to navigate the terrain make sure

340

00:17:37,930 --> 00:17:35,340

they don't fall off ledges and the first

341

00:17:41,240 --> 00:17:37,940

one who can get done and prove it to us

342

00:17:43,850 --> 00:17:41,250

but that they got here the they will win

343

00:17:47,510 --> 00:17:43,860

a great prize there'll be a great chest

344

00:17:49,190 --> 00:17:47,520

out here that they can use and build

345

00:17:52,040 --> 00:17:49,200

with us in the future and that they also

346

00:17:54,800 --> 00:17:52,050

might win a gift card to to a gamestop

347

00:17:57,380 --> 00:17:54,810

or something like that yeah I think

348

00:18:00,230 --> 00:17:57,390

we've got done a long way to get on the

349

00:18:02,420 --> 00:18:00,240

course no we do about three Rick for

350

00:18:05,090 --> 00:18:02,430

about three or four rooms done of like

351
00:18:08,620 --> 00:18:05,100
27 know that that's true and there are

352
00:18:10,790 --> 00:18:08,630
going to be some quicker routes and

353
00:18:11,990 --> 00:18:10,800
there's going to be a lot of decision

354
00:18:13,880 --> 00:18:12,000
points that they're going to make is

355
00:18:17,060 --> 00:18:13,890
going to be is it going to be faster for

356
00:18:18,820 --> 00:18:17,070
them to chop through some stuff is it

357
00:18:24,760 --> 00:18:18,830
going to be easier for them to just

358
00:18:28,610 --> 00:18:24,770
battle skeletons and go into combat or

359
00:18:33,770 --> 00:18:28,620
try to mine something and find a quicker

360
00:18:36,130 --> 00:18:33,780
way out by using skills and their smarts

361
