20

00:01:57,660 --> 00:01:53,770

22

00:02:12,240 --> 00:02:05,370

let's inspire my troops that work that

23

00:02:14,130 --> 00:02:12,250

do anything I just do some damage

24

00:02:24,820 --> 00:02:14,140

there

25

00:02:29,899 --> 00:02:27,140

26

00:02:32,449 --> 00:02:29,909

27

00:02:35,830 --> 00:02:32,459

28

00:02:54,289 --> 00:02:52,640

29

00:02:56,990 --> 00:02:54,299

click the turn in ok I'll turn something

30

00:03:01,520 --> 00:02:57,000

in I guess I'm healing lets you have to

31

00:03:04,160 --> 00:03:01,530

count so on so those tanks that should

32

00:03:07,490 --> 00:03:04,170

before air are actually amount not like

33

00:03:09,470 --> 00:03:07,500

some kind of tower so I'm going to go up

34

00:03:20,250 --> 00:03:09,480

here towards the main battle and

35

00:03:36,800 --> 00:03:26,770

all day long pull back all back oh no

36

00:03:50,740 --> 00:03:44,699

okay move up oh got a little shot

37

00:03:55,580 --> 00:03:53,210

40

00:04:11,170 --> 00:04:08,570

Jones is appalled I know death is

41

00:04:16,430 --> 00:04:11,180

closing upon me I'm dying I feel it

42

00:04:19,430 --> 00:04:16,440

trust me i know i know this guy's

43

00:04:20,840 --> 00:04:19,440

leveling off like a mother choose talent

44

00:04:26,420 --> 00:04:20,850

I don't know how to choose town lets a

45

00:04:32,890 --> 00:04:26,430

focus of talent it's all good let's do

46

00:04:44,060 --> 00:04:39,020

my lord this is not good it got a good

47

00:04:48,170 --> 00:04:44,070

shot on good shot let's fall back fall

48

00:04:52,500 --> 00:04:48,180

back shine do some damage to me Raiders

49

00:05:01,960 --> 00:04:57,550

I'm hurt bad I gotta move back and oh my

50

00:05:04,420 --> 00:05:01,970

God look at this down there we Shh we

51
00:05:06,730 --> 00:05:04,430
need some help down there and it appears

52
00:05:08,440 --> 00:05:06,740
we do so I'm gonna move down there but I

53
00:05:15,550 --> 00:05:08,450
can't move my I can't leave my post up

54
00:05:16,630 --> 00:05:15,560
here I can't leave my friend just a

55
00:05:24,390 --> 00:05:16,640
fountain I'm not sure where the fountain

56
00:05:27,520 --> 00:05:24,400
is yes this is a found be some minions

57
00:05:32,500 --> 00:05:27,530
let's move up to the door whatever is

58
00:05:37,140 --> 00:05:32,510
clever move up to the door healing right

59
00:05:48,410 --> 00:05:44,260
there we go there we go

60
00:05:48,420 --> 00:05:54,040
let's move back move back

61
00:06:02,839 --> 00:05:56,600
I'm trying to choose down I my talented

62
00:06:21,820 --> 00:06:02,849
though one in the chamber you gotta move

63
00:06:28,380 --> 00:06:23,250

Oh

64

00:06:28,390 --> 00:06:43,610

to me move back

65

00:06:43,620 --> 00:06:48,310

Oh

66

00:07:01,020 --> 00:06:52,640

move back this evening is healing going

67

00:07:10,160 --> 00:07:03,590

I don't want to mount

68

00:07:19,390 --> 00:07:10,170

let's be do oh my god this isn't

69

00:07:25,170 --> 00:07:21,570

Lord

70

00:07:29,249 --> 00:07:25,180

ok count let's see what happens here so

71

00:07:34,230 --> 00:07:29,259

I gotta go I try to help him over here

72

00:07:36,360 --> 00:07:34,240

I'm gonna try I don't know this workout

73

00:07:47,790 --> 00:07:36,370

this is not very good I just know for a

74

00:07:47,800 --> 00:07:59,870

Raiders roll

75

00:07:59,880 --> 00:08:03,610

nice

76
00:08:12,310 --> 00:08:06,980
we move off we can do some damage at

77
00:08:16,220 --> 00:08:12,320
this point we got some guys behind us

78
00:08:21,080 --> 00:08:16,230
this was sweet damage there did some

79
00:08:34,199 --> 00:08:21,090
sweet damage he's hurt nope oh no run

80
00:08:42,680 --> 00:08:38,249
magus me I gotta get some now I guess

81
00:08:42,690 --> 00:08:50,509
Shh

82
00:09:03,150 --> 00:08:53,880
I don't want to choose a talent too busy

83
00:09:03,160 --> 00:09:05,780
here

84
00:09:13,280 --> 00:09:09,760
I shouldn't waste that damn it I

85
00:09:16,120 --> 00:09:13,290
fired my IQ button whatever that means

86
00:09:20,570 --> 00:09:16,130
it's like a directed force bolt and I

87
00:09:25,820 --> 00:09:20,580
totally biffed out didn't do well so now

88
00:09:27,650 --> 00:09:25,830

it's time for most time to do some

89

00:09:29,480 --> 00:09:27,660

damage we've actually penetrated but we

90

00:09:33,190 --> 00:09:29,490

have a lot of things going on down here

91

00:09:35,960 --> 00:09:33,200

particularly this insanity is going on

92

00:09:40,160 --> 00:09:35,970

so I might have to go down there and see

93

00:09:42,470 --> 00:09:40,170

if I can attack from behind yeah good

94

00:09:48,890 --> 00:09:42,480

yeah I'm gonna I'm gonna go down there

95

00:10:03,360 --> 00:09:48,900

and see if I can help turn to something

96

00:10:12,430 --> 00:10:05,920

yeah i'm making some poor battle

97

00:10:22,660 --> 00:10:12,440

decisions very poor battle decision but

98

00:10:37,769 --> 00:10:28,270

damn do you see that my space

99

00:10:48,290 --> 00:10:41,879

ah the respawn times taking quite a long

100

00:10:51,509 --> 00:10:48,300

time that's for sure we're suffering

101
00:10:52,920 --> 00:10:51,519
devastating losses in the south we did

102
00:10:55,350 --> 00:10:52,930
make some headway up to towards the

103
00:10:58,079 --> 00:10:55,360
north but as you can tell after i left

104
00:11:03,749 --> 00:10:58,089
that front completely collapsed I need a

105
00:11:05,340 --> 00:11:03,759
bad decision I probably Raiders i'm

106
00:11:07,650 --> 00:11:05,350
assuming i made some of our players matt

107
00:11:09,809 --> 00:11:07,660
by leaving the front to go help somebody

108
00:11:11,129 --> 00:11:09,819
out i turn something in along the line

109
00:11:15,420 --> 00:11:11,139
but I don't know what I exactly what I

110
00:11:27,389 --> 00:11:15,430
did yeah I'd seen cursing at me they're

111
00:11:43,070 --> 00:11:37,059
let's get up there come on in short this

112
00:11:43,080 --> 00:11:49,690
what the happened there I

113
00:12:04,460 --> 00:11:57,830

didn't see ok I did not see anything to

114

00:12:08,180 --> 00:12:04,470

happen right there my bad i think i'm

115

00:12:11,660 --> 00:12:08,190

totally incompetent this game but so far

116

00:12:17,620 --> 00:12:15,290

so far ever I really do like it

117

00:12:20,000 --> 00:12:17,630

but I think I'm causing my team some

118

00:12:21,620 --> 00:12:20,010

some points let's following this guy's

119

00:12:33,639 --> 00:12:21,630

hey be anywhere they're gone oh my lord

120

00:12:33,649 --> 00:12:37,960

No

121

00:12:37,970 --> 00:12:44,350

oh what the was that

122

00:12:51,060 --> 00:12:46,210

I got to figure out how to play this

123

00:12:59,600 --> 00:12:51,070

game because i just got my ass kicked

124

00:13:09,840 --> 00:13:04,530

our line completely collapsed panic

125

00:13:12,329 --> 00:13:09,850

ensued chaos nervousness panic fire bad

126

00:13:16,139 --> 00:13:12,339

decisions everything that could go wrong

127

00:13:20,820 --> 00:13:16,149

just went along with that and here we

128

00:13:34,190 --> 00:13:23,100

bad things are happening 24-7 all the

129

00:13:40,620 --> 00:13:36,870

they can hold down a and click with your

130

00:13:42,030 --> 00:13:40,630

left button that'll point you to the

131

00:13:43,170 --> 00:13:42,040

place where you would like to attack

132

00:13:44,820 --> 00:13:43,180

you'll stand there like that s your

133

00:13:48,270 --> 00:13:44,830

attack point so i just wanted to an

134

00:13:49,740 --> 00:13:48,280

attack point i wanna stand there and let

135

00:13:51,810 --> 00:13:49,750

me make need to go up a little bit ahead

136

00:13:53,640 --> 00:13:51,820

of me and I'll just hang back and cat

137

00:14:07,190 --> 00:13:53,650

now it sounds like I know what I'm doing

138

00:14:13,660 --> 00:14:10,780

I don't know what's going on

139

00:14:27,900 --> 00:14:13,670

like I'm assuming this guy is on my team

140

00:14:27,910 --> 00:14:35,340

I think I did that

141

00:14:41,610 --> 00:14:37,450

just got good or bad like I don't know

142

00:14:41,620 --> 00:14:46,940

let's fall back

143

00:14:58,450 --> 00:14:55,250

damn all right let's let's try get back

144

00:15:07,300 --> 00:14:58,460

in the fight let's make

145

00:15:15,880 --> 00:15:12,040

I would probably say things are couldn't

146

00:15:17,380 --> 00:15:15,890

be worse we're just kind of Harley in

147

00:15:22,759 --> 00:15:17,390

here is what we're doing we're just kind

148

00:15:30,069 --> 00:15:22,769

of hanging out here so

149

00:15:35,960 --> 00:15:32,689

can our leaders call out commands that's

150

00:15:42,769 --> 00:15:35,970

what I'm wondering yes less you can go

151
00:15:47,879 --> 00:15:42,779
there oh my lord what is this thing this

152
00:15:56,830 --> 00:15:52,189
warns of danger oh danger warnings

153
00:15:56,840 --> 00:16:02,530
he

154
00:16:13,280 --> 00:16:06,610
nice I think it did let's go back up

155
00:16:19,579 --> 00:16:16,550
this major damage their trust inspire

156
00:16:22,850 --> 00:16:19,589
some troops nope oh I'm doing no damage

157
00:16:28,160 --> 00:16:22,860
at all oh my god look a giant spider

158
00:16:39,009 --> 00:16:30,920
this is our spider person I can't tell

159
00:16:46,610 --> 00:16:45,379
let's move up here we go I can use this

160
00:16:53,780 --> 00:16:46,620
I'm not sure what this thing does

161
00:16:59,629 --> 00:16:53,790
advanced optics are so it does makes a

162
00:17:04,450 --> 00:16:59,639
strafing run dealing ok I can do Raiders

163
00:17:11,590 --> 00:17:07,060

I want to do a straight and run along

164

00:17:25,220 --> 00:17:11,600

one of these lines closer to one of

165

00:17:39,029 --> 00:17:32,970

yeah there we go got him I think I'm

166

00:17:43,950 --> 00:17:39,039

getting the hang of it but I'm dying oh

167

00:17:48,149 --> 00:17:43,960

god I said I think I'm getting the hang

168

00:17:51,330 --> 00:17:48,159

of it right as I perished and you can

169

00:17:56,759 --> 00:17:51,340

see in the in the southern part of this

170

00:18:02,700 --> 00:17:56,769

board they are flooding in let us travel

171

00:18:11,850 --> 00:18:02,710

south and pray we don't die which we

172

00:18:11,860 --> 00:18:16,780

they

173

00:18:29,150 --> 00:18:26,150

you can count on me guess not let this

174

00:18:33,690 --> 00:18:29,160

guy will do a straight from rough I have

175

00:18:33,700 --> 00:18:38,049

it's fallback

176

00:18:38,059 --> 00:18:53,940

damn

177

00:19:10,049 --> 00:19:07,470

man you tried to fall back and they

178

00:19:12,480 --> 00:19:10,059

got me anyways I just can't go

179

00:19:18,269 --> 00:19:12,490

toe-to-toe with them this guy cannot go

180

00:19:21,720 --> 00:19:18,279

toe-to-toe with them so they're coming

181

00:19:28,889 --> 00:19:21,730

to the south we got this guy over here

182

00:19:39,289 --> 00:19:28,899

hanging out what is this some kind of

183

00:19:39,299 --> 00:19:52,350

I have to do a straight and run I will

184

00:20:00,279 --> 00:19:59,110

this should be good okay I think we

185

00:20:01,450 --> 00:20:00,289

gotta go back up here and kill this

186

00:20:06,419 --> 00:20:01,460

thing I think that's what they're trying

187

00:20:06,429 --> 00:20:13,659

there's some kind of chamber of mystery

188

00:20:13,669 --> 00:20:24,130

yeah the current into the north

189

00:20:24,140 --> 00:20:32,210

let's go and do this

190

00:20:32,220 --> 00:20:41,280

there we go doing some damage

191

00:20:41,290 --> 00:20:45,050

what's that

192

00:20:52,350 --> 00:20:50,100

yeah I know we see we see John to do

193

00:20:57,980 --> 00:20:52,360

some major damage trying to do some

194

00:20:57,990 --> 00:21:03,110

trying to do some big-time damage

195

00:21:03,120 --> 00:21:06,860

no go back over here

196

00:21:17,299 --> 00:21:14,780

ok George I predict that core full

197

00:21:22,100 --> 00:21:17,309

daylight when you get up there and get

198

00:21:30,980 --> 00:21:22,110

in the fight sounds like a plan yeah

199

00:21:38,960 --> 00:21:34,400

let's get up there which we held off

200

00:21:48,659 --> 00:21:41,240

stop moving that way but this way I

201
00:21:48,669 --> 00:22:04,140
get up there in the fight come on

202
00:22:18,020 --> 00:22:12,510
wow that guy messed me up and so

203
00:22:26,400 --> 00:22:23,250
but we have an enemy coming in from the

204
00:22:32,370 --> 00:22:26,410
north just never can use blood let's see

205
00:22:35,060 --> 00:22:32,380
if we can get this camp right here I'm

206
00:22:36,590 --> 00:22:35,070
going for that camp

207
00:22:39,620 --> 00:22:36,600
now looks like we're gonna meet somebody

208
00:22:43,980 --> 00:22:39,630
uh right in middle there who certainly

209
00:22:43,990 --> 00:22:51,150
we're gonna defeat him

210
00:23:08,440 --> 00:23:06,390
damn I really screwed up there I

211
00:23:11,410 --> 00:23:08,450
woulda had some more people on my side

212
00:23:12,940 --> 00:23:11,420
we probably got killed those people and

213
00:23:14,230 --> 00:23:12,950

see what's going out the core this

214

00:23:19,230 --> 00:23:14,240

things about over that are already at

215

00:23:19,240 --> 00:23:26,730

this is not go my lord

216

00:23:26,740 --> 00:23:38,860

this is cowboy

217

00:23:45,650 --> 00:23:41,870

there it is my first game of uh I think
