1  
00:00:14,740 --> 00:00:07,190  
these Siberian cauldrons that I

2  
00:00:17,750 --> 00:00:14,750  
submitted if you will let's do this I

3  
00:00:19,640 --> 00:00:17,760  
submitted these stories I saw a few of

4  
00:00:23,179 --> 00:00:19,650  
these pop pop up and around the

5  
00:00:25,340 --> 00:00:23,189  
Internet's and Jeff actually read up on

6  
00:00:28,040 --> 00:00:25,350  
these stories I only had a chance to

7  
00:00:29,839 --> 00:00:28,050  
preview these these Russian Siberian

8  
00:00:31,250 --> 00:00:29,849  
cauldrons I wondered it I was wondering

9  
00:00:36,799 --> 00:00:31,260  
if you could give us a little rundown on

10  
00:00:39,680 --> 00:00:36,809  
this this story clown baby okay

11  
00:00:41,420 --> 00:00:39,690  
I first heard about an aging aliens like

12  
00:00:43,220 --> 00:00:41,430  
four years ago so now I already known

13  
00:00:44,810 --> 00:00:43,230

about them you've known about you known

14

00:00:47,750 --> 00:00:44,820

about these Siberian cauldrons for a

15

00:00:49,130 --> 00:00:47,760

while yeah okay or years or so I'm

16

00:00:52,670 --> 00:00:49,140

actually the clip from ancient aliens

17

00:00:54,619 --> 00:00:52,680

okay give us no review and dig deep so

18

00:00:56,479 --> 00:00:54,629

there's their first document I think in

19

00:00:59,150 --> 00:00:56,489

the 1850s fair Russian explorers out in

20

00:01:01,010 --> 00:00:59,160

Siberia they're these metallic like kind

21

00:01:04,910 --> 00:01:01,020

of like half kind of dome sticking out

22

00:01:06,890 --> 00:01:04,920

of this swampy area that's usually like

23

00:01:09,469 --> 00:01:06,900

frozen like a guess eight months out of

24

00:01:12,649 --> 00:01:09,479

the year and it they have apparently

25

00:01:14,450 --> 00:01:12,659

they would give off hums and different

26  
00:01:16,520 --> 00:01:14,460  
sounds and the people who would go near

27  
00:01:17,300 --> 00:01:16,530  
them would experience signs of radiation

28  
00:01:19,280 --> 00:01:17,310  
sickness

29  
00:01:23,240 --> 00:01:19,290  
I knew the Soviets had went there in

30  
00:01:24,170 --> 00:01:23,250  
between 1937 in like 1952 their camera

31  
00:01:27,859 --> 00:01:24,180  
equipment wouldn't work they have

32  
00:01:29,719 --> 00:01:27,869  
sketches of them and it's C Erised

33  
00:01:32,480 --> 00:01:29,729  
that's uh there's there's native legends

34  
00:01:36,109 --> 00:01:32,490  
of things being shot out of the ground

35  
00:01:37,550 --> 00:01:36,119  
towards the sky cauldrons themselves yes

36  
00:01:40,960 --> 00:01:37,560  
from the area where the cauldrons are

37  
00:01:43,370 --> 00:01:40,970  
and the Tunguska event happened over

38  
00:01:45,499 --> 00:01:43,380

that same area where these cauldrons are

39

00:01:48,010 --> 00:01:45,509

the Tunguska event is where I believe

40

00:01:51,590 --> 00:01:48,020

it's there was this large swath of

41

00:01:54,980 --> 00:01:51,600

destroyed landed forest that happened in

42

00:01:57,160 --> 00:01:54,990

1908 and it's theorized that it was an

43

00:02:01,100 --> 00:01:57,170

air blast from a disintegrated meteorite

44

00:02:02,660 --> 00:02:01,110

yes it had it had this happened over a

45

00:02:04,520 --> 00:02:02,670

major city like New York it would have

46

00:02:05,660 --> 00:02:04,530

destroyed the entire city so something

47

00:02:07,490 --> 00:02:05,670

very powerful it would appear that

48

00:02:09,290 --> 00:02:07,500

something made it cause it to explode in

49

00:02:13,740 --> 00:02:09,300

the air so there's theories that this is

50

00:02:16,860 --> 00:02:13,750

some kind of extraterrestrial defense

51  
00:02:20,490 --> 00:02:16,870  
work for keeps the Siberian cauldrons

52  
00:02:25,410 --> 00:02:20,500  
are a Star Wars system of perhaps ion

53  
00:02:27,180 --> 00:02:25,420  
cannons okay I know them okay and I can

54  
00:02:29,280 --> 00:02:27,190  
play the clip here we pull it up from

55  
00:02:30,960 --> 00:02:29,290  
the History Channel I mean there's there

56  
00:02:33,300 --> 00:02:30,970  
are sketches of these real quick

57  
00:02:36,270 --> 00:02:33,310  
but people were able to like go inside

58  
00:02:39,300 --> 00:02:36,280  
of them I think in the 1930s and 40s or

59  
00:02:41,010 --> 00:02:39,310  
I even late 1800s I'm sticking out of

60  
00:02:42,180 --> 00:02:41,020  
the ground and like a man and a horse

61  
00:02:48,270 --> 00:02:42,190  
could ride into and they're definitely

62  
00:02:50,280 --> 00:02:48,280  
metallic in origin and I can just play

63  
00:02:53,730 --> 00:02:50,290

the video let me grab it real quick yeah

64

00:02:58,290 --> 00:02:53,740

get that clip it's long it's good okay

65

00:03:07,080 --> 00:02:58,300

yeah good should be playing let me know

66

00:03:09,480 --> 00:03:07,090

if it's too loud it's in 1854 for a

67

00:03:10,980 --> 00:03:09,490

natural scientist good Richard calm down

68

00:03:13,680 --> 00:03:10,990

a little bit was appointed by the

69

00:03:16,140 --> 00:03:13,690

Russian and geographical society to lead

70

00:03:21,300 --> 00:03:16,150

a scientific expedition into the dreaded

71

00:03:22,680 --> 00:03:21,310

vilyuy river basin in his journal Mack

72

00:03:25,260 --> 00:03:22,690

wrote of several large and mysterious

73

00:03:27,780 --> 00:03:25,270

metallic objects

74

00:03:31,250 --> 00:03:27,790

that the local hunters referred to as

75

00:03:36,170 --> 00:03:34,080

these pictures illustrate what people

76

00:03:38,820 --> 00:03:36,180

claimed the cauldrons had looked like

77

00:03:41,880 --> 00:03:38,830

the first picture shows a cauldron

78

00:03:45,020 --> 00:03:41,890

upside down with an open entrance where

79

00:03:47,430 --> 00:03:45,030

even a man on his reindeer can enter it

80

00:03:54,930 --> 00:03:47,440

the second one shows another cauldron

81

00:03:57,210 --> 00:03:54,940

with some side supports the existence of

82

00:03:59,640 --> 00:03:57,220

the metal structures is confirmed on

83

00:04:03,480 --> 00:03:59,650

three separate occasions between 1933

84

00:04:06,270 --> 00:04:03,490

and 1947 by Mikhail Koretsky of

85

00:04:10,500 --> 00:04:06,280

Vladivostok who had traveled to the

86

00:04:12,300 --> 00:04:10,510

valley of death to pan for gold he

87

00:04:15,630 --> 00:04:12,310

claimed to have seen seven dome-shaped

88

00:04:18,300 --> 00:04:15,640

cauldrons each measuring twenty to

89

00:04:21,620 --> 00:04:18,310

thirty feet in diameter with odd and

90

00:04:24,870 --> 00:04:21,630

unnatural vegetation growing around them

91

00:04:29,790 --> 00:04:24,880

some of the people later reported loss

92

00:04:32,280 --> 00:04:29,800

of hair strange sickness affecting them

93

00:04:33,740 --> 00:04:32,290

strange condition of the skin that would

94

00:04:36,300 --> 00:04:33,750

never go away

95

00:04:39,510 --> 00:04:36,310

but what could explain such a toxic

96

00:04:43,330 --> 00:04:39,520

reaction and where might the dangerous

97

00:04:46,870 --> 00:04:43,340

cauldrons have come from

98

00:04:50,230 --> 00:04:46,880

in search of answers UFO researcher ivan

99

00:04:52,390 --> 00:04:50,240

mackerle and a team of scientists travel

100

00:04:55,780 --> 00:04:52,400

to the valley of death to try and locate

101  
00:04:57,790 --> 00:04:55,790  
the strange metal objects now since

102  
00:04:59,890 --> 00:04:57,800  
anybody's stable but it's a clear

103  
00:05:03,460 --> 00:04:59,900  
problem I didn't know if it was just a

104  
00:05:05,860 --> 00:05:03,470  
legend or if it was real so I wanted

105  
00:05:08,620 --> 00:05:05,870  
first of all to find this place and

106  
00:05:14,560 --> 00:05:08,630  
investigate it to make up my own opinion

107  
00:05:17,200 --> 00:05:14,570  
not ethical dilemma this identity using

108  
00:05:19,020 --> 00:05:17,210  
a motor assisted parachute to search the

109  
00:05:22,060 --> 00:05:19,030  
expansive Valley the researchers

110  
00:05:26,769 --> 00:05:22,070  
eventually spotted an odd circular

111  
00:05:32,149 --> 00:05:29,989  
when the team explored on foot they

112  
00:05:40,459 --> 00:05:32,159  
found the ground under the strange marsh

113  
00:05:43,249 --> 00:05:40,469

area to be very unusual it sounded

114

00:05:49,189 --> 00:05:43,259

metallic and hollow so we thought that

115

00:05:51,230 --> 00:05:49,199

we found the sunken cauldrons then we

116

00:05:54,529 --> 00:05:51,240

found another place like it when you

117

00:05:58,129 --> 00:05:54,539

achieve and even a third that had higher

118

00:06:00,649 --> 00:05:58,139

magnetic variations all seemed like

119

00:06:08,899 --> 00:06:00,659

evidence of cauldrons sunken into the

120

00:06:11,329 --> 00:06:08,909

earth but before they could explore the

121

00:06:13,939 --> 00:06:11,339

site any further members of the

122

00:06:18,129 --> 00:06:13,949

exploration suddenly began to complain

123

00:06:22,429 --> 00:06:18,139

of strange even bizarre symptoms similar

124

00:06:25,909 --> 00:06:22,439

to those described in local legends as

125

00:06:28,429 --> 00:06:25,919

I'm with myself you know how I felt very

126

00:06:31,999 --> 00:06:28,439

dizzy all of a sudden lost my balance

127

00:06:35,420 --> 00:06:32,009

threw up and had a fever and it didn't

128

00:06:37,399 --> 00:06:35,430

know why just like you did yesterday I

129

00:06:40,429 --> 00:06:37,409

looked down I could not walk I was

130

00:06:43,179 --> 00:06:40,439

losing sight it could not drink or

131

00:06:46,820 --> 00:06:43,189

swallow and the pupils in my eyes were

132

00:06:50,149 --> 00:06:46,830

dilating fast so I thought maybe I got

133

00:06:52,279 --> 00:06:50,159

some poisoning when I came home I had a

134

00:06:54,170 --> 00:06:52,289

thorough checkup and the doctors

135

00:06:59,050 --> 00:06:54,180

couldn't find any reason for my illness

136

00:07:05,960 --> 00:07:02,090

had the Explorers actually found the

137

00:07:13,130 --> 00:07:07,940

and what was the cause of mackerle's

138

00:07:15,100 --> 00:07:13,140

strange and sudden symptoms could it

139

00:07:20,260 --> 00:07:15,110

have been from some sort of radiation

140

00:07:24,470 --> 00:07:23,510

according to local Yakutia legends the

141

00:07:26,870 --> 00:07:24,480

metal cauldrons

142

00:07:28,910 --> 00:07:26,880

were part of a powerful weapon left

143

00:07:32,890 --> 00:07:28,920

behind after a great battle between

144

00:07:36,290 --> 00:07:32,900

extraterrestrial beings

145

00:07:38,510 --> 00:07:36,300

mr. Kaneko two vessels disappear on if

146

00:07:40,610 --> 00:07:38,520

the pursue according to old legends

147

00:07:43,310 --> 00:07:40,620

there was an epic battle between the

148

00:07:50,900 --> 00:07:43,320

forest demons named Jurgen but--or and

149

00:07:56,840 --> 00:07:50,910

tong DeRay during the battle fireballs

150

00:07:59,300 --> 00:07:56,850

were shooting up from Europe there was a

151  
00:08:02,180 --> 00:07:59,310  
horrible sound and all the forest area

152  
00:08:06,589 --> 00:08:02,190  
was destroyed trees were upside down and

153  
00:08:12,689 --> 00:08:09,390  
and when everything cleared out the

154  
00:08:14,820 --> 00:08:12,699  
locals found a vertical structure that

155  
00:08:19,149 --> 00:08:14,830  
stay there for a while until it sunk

156  
00:08:24,339 --> 00:08:21,939  
the valley of death is said to contain

157  
00:08:27,100 --> 00:08:24,349  
strange objects embedded in the

158  
00:08:29,259 --> 00:08:27,110  
permafrost that are activated through

159  
00:08:33,490 --> 00:08:29,269  
the ages to the centuries and basically

160  
00:08:36,459 --> 00:08:33,500  
shoot out fiery objects that intercept

161  
00:08:44,309 --> 00:08:36,469  
incoming objects that are out to harm

162  
00:08:46,420 --> 00:08:44,319  
the planet now that was interesting

163  
00:08:49,749 --> 00:08:46,430

variation yet it's a pretty good

164

00:08:51,900 --> 00:08:49,759

overview we also wanted to bring up for

165

00:08:55,540 --> 00:08:51,910

my friend another article there is a

166

00:08:58,059 --> 00:08:55,550

theory of attorney um protect the planet

167

00:09:00,519 --> 00:08:58,069

there's the Tunguska thing I'd [h\_\_h] of

168

00:09:02,679 --> 00:09:00,529

there's the shelia meteorite in 1984

169

00:09:06,389 --> 00:09:02,689

that broke up an air air then there's

170

00:09:09,850 --> 00:09:06,399

another meteorite in 2002 too called the

171

00:09:12,759 --> 00:09:09,860

Fatimid Atene possibly the Irkutsk a

172

00:09:14,350 --> 00:09:12,769

meteorite they think some of these have

173

00:09:18,100 --> 00:09:14,360

been the actions of it but then there

174

00:09:19,689 --> 00:09:18,110

was a nother video I don't have it up

175

00:09:21,249 --> 00:09:19,699

there was you know there was a member

176

00:09:23,290 --> 00:09:21,259

that with dashcam footage of a meteorite

177

00:09:25,300 --> 00:09:23,300

uh breaking up an air in Russia from

178

00:09:27,129 --> 00:09:25,310

like three years ago two years ago yeah

179

00:09:28,840 --> 00:09:27,139

this video has something you can see

180

00:09:30,160 --> 00:09:28,850

intercept it let me see if I can

181

00:09:30,819 --> 00:09:30,170

cravaack sits on one years and

182

00:09:34,689 --> 00:09:30,829

instapaper

183

00:09:37,059 --> 00:09:34,699

um yeah so I I've been looking into

184

00:09:39,790 --> 00:09:37,069

these cauldrons a little bit and just

185

00:09:43,679 --> 00:09:39,800

firmly like this skeptical side there's

186

00:09:45,999 --> 00:09:43,689

a skeptics forum on this and they say

187

00:09:49,660 --> 00:09:46,009

like right off the bat oh this is a

188

00:09:51,550 --> 00:09:49,670

methane eruptions but methane eruptions

189

00:09:54,610 --> 00:09:51,560

wouldn't explain the radiation like

190

00:09:57,429 --> 00:09:54,620

sicknesses that people get when they go

191

00:09:59,679 --> 00:09:57,439

around these objects in the metal yeah

192

00:10:04,290 --> 00:09:59,689

the pictures do seem to show something

193

00:10:07,379 --> 00:10:04,300

dome ish that part is pretty bizarre

194

00:10:09,730 --> 00:10:07,389

yeah this this is some weird stuff and

195

00:10:11,559 --> 00:10:09,740

I'm surprised it's not brought up more

196

00:10:14,199 --> 00:10:11,569

since you can actually go out and visit

197

00:10:15,970 --> 00:10:14,209

these things and it's from is they're

198

00:10:18,490 --> 00:10:15,980

just really remote yeah they're really

199

00:10:23,759 --> 00:10:18,500

remote and I I in the the chat at post

200

00:10:26,230 --> 00:10:23,769

of a PDF of of some ex Russian official

201  
00:10:28,960 --> 00:10:26,240  
supposedly talking about the cauldrons

202  
00:10:30,309 --> 00:10:28,970  
and them claiming they know who built

203  
00:10:32,370 --> 00:10:30,319  
them and all that kind of stuff it's

204  
00:10:35,370 --> 00:10:32,380  
from a 2003 it's

205  
00:10:36,030 --> 00:10:35,380  
I'm a little paper called Nexus magazine

206  
00:10:39,540 --> 00:10:36,040  
calm

207  
00:10:43,230 --> 00:10:39,550  
I haven't read through it yet so I just

208  
00:10:45,660 --> 00:10:43,240  
can't put any validity into this yet but

209  
00:10:47,040 --> 00:10:45,670  
I'll read through it it's out there yeah

210  
00:10:48,270 --> 00:10:47,050  
I don't check it out for next time deal

211  
00:10:50,460 --> 00:10:48,280  
we can finally do the follow-up or

212  
00:10:51,570 --> 00:10:50,470  
something yeah fine above read through

213  
00:10:53,460 --> 00:10:51,580

it and see if we can do some follow-up

214

00:10:56,460 --> 00:10:53,470

on this I'm sure there's got to be some

215

00:10:58,590 --> 00:10:56,470

other connections to some UFO activity

216

00:11:02,130 --> 00:10:58,600

there's probably some sightings linked

217

00:11:04,650 --> 00:11:02,140

to it in a way I just found to be quite

218

00:11:06,480 --> 00:11:04,660

interesting it's one of those rare kind

219

00:11:08,880 --> 00:11:06,490

of things we actually travel see this

220

00:11:12,030 --> 00:11:08,890

mysterious kind of either naturally

221

00:11:14,340 --> 00:11:12,040

occurring phenomenon or artificially

222

00:11:19,080 --> 00:11:14,350

built phenomena but people are getting

223

00:11:20,820 --> 00:11:19,090

[h\_\_h] sick bro and that's sad but I

224

00:11:22,650 --> 00:11:20,830

you know it also like that I like

225

00:11:26,100 --> 00:11:22,660

hearing about these stories from other

226

00:11:29,430 --> 00:11:26,110

countries that are very different from

227

00:11:36,930 --> 00:11:29,440

what kind of alien and UFO lore we

228

00:11:38,640 --> 00:11:36,940

regularly this is also related that we

229

00:11:40,820 --> 00:11:38,650

talked about the Dyatlov pass incident

230

00:11:42,840 --> 00:11:40,830

when people native said words seemed

231

00:11:45,030 --> 00:11:42,850

bright lights up in the mountain the

232

00:11:46,590 --> 00:11:45,040

that whenever the hikers were allegedly

233

00:11:50,640 --> 00:11:46,600

attacked and they ran off that it wasn't

234

00:11:52,710 --> 00:11:50,650

were killed yes which is kind of

235

00:11:54,600 --> 00:11:52,720

somewhat similar to this are you talking

236

00:11:56,340 --> 00:11:54,610

about the the Russians you have to recap

237

00:11:57,690 --> 00:11:56,350

it a little bit so the Russian

238

00:12:00,210 --> 00:11:57,700

exposition that went out it was more of

239

00:12:02,190 --> 00:12:00,220

a skiing trip that went out into the

240

00:12:04,110 --> 00:12:02,200

Urals and went up to this quote-unquote

241

00:12:05,580 --> 00:12:04,120

death Mountain that's where they made

242

00:12:06,990 --> 00:12:05,590

the pass they had the dead to a stop

243

00:12:09,930 --> 00:12:07,000

there because it was a blizzard and

244

00:12:11,460 --> 00:12:09,940

there never could they never made it

245

00:12:13,110 --> 00:12:11,470

back to where they said they'd be the

246

00:12:14,580 --> 00:12:13,120

town of the camp so they sent out a

247

00:12:17,190 --> 00:12:14,590

search party they found their tents

248

00:12:20,430 --> 00:12:17,200

ripped open from the inside they'd all

249

00:12:22,620 --> 00:12:20,440

fled the campsite most of them some of

250

00:12:24,090 --> 00:12:22,630

them had bare feet some we found dead

251  
00:12:27,120 --> 00:12:24,100  
trying to get a fire started and some of

252  
00:12:29,400 --> 00:12:27,130  
them were found like over in a like 300

253  
00:12:31,020 --> 00:12:29,410  
foot gorge that was about like a half a

254  
00:12:32,940 --> 00:12:31,030  
mile away and some have like tongues

255  
00:12:38,310 --> 00:12:32,950  
ripped out some shoes I think signs of

256  
00:12:40,560 --> 00:12:38,320  
radiation yeah that ready the radiation

257  
00:12:43,200 --> 00:12:40,570  
should that's that's the curious stuff I

258  
00:12:44,560 --> 00:12:43,210  
like that that is a lingering piece of

259  
00:12:48,070 --> 00:12:44,570  
evidence that

260  
00:12:50,110 --> 00:12:48,080  
I find to be very interesting because

261  
00:12:51,910 --> 00:12:50,120  
you know radiation while you can you

262  
00:12:53,560 --> 00:12:51,920  
know you can actually walk into you know

263  
00:12:57,160 --> 00:12:53,570

uranium deposit or something like that

264

00:12:58,350 --> 00:12:57,170

and having your tents ripped open and

265

00:13:01,780 --> 00:12:58,360

all that kind of stuff

266

00:13:04,240 --> 00:13:01,790

it's pretty interesting and questionable

267

00:13:06,790 --> 00:13:04,250

and especially if they just happened to

268

00:13:08,740 --> 00:13:06,800

run into some uranium deposit people

269

00:13:10,030 --> 00:13:08,750

will be getting radiation sickness and

270

00:13:13,210 --> 00:13:10,040

they probably would have started heading

271

00:13:15,220 --> 00:13:13,220

back and not gone into some rage orgy

272

00:13:16,480 --> 00:13:15,230

and started killing each other because

273

00:13:18,790 --> 00:13:16,490

you don't have a lot of energy when

274

00:13:22,420 --> 00:13:18,800

you're being poisoned to do that kind of

275

00:13:24,490 --> 00:13:22,430

[h\_\_h] know for a rage orgy yeah well if

276

00:13:26,050 --> 00:13:24,500

it's their last few moments on earth a

277

00:13:29,010 --> 00:13:26,060

rage orgy might be the only thing you

278

00:13:31,420 --> 00:13:29,020

have that's all I have left in me guys

279

00:13:33,520 --> 00:13:31,430

look at some of the drawings of these

280

00:13:36,310 --> 00:13:33,530

Siberian call cauldrons and they they

281

00:13:40,020 --> 00:13:36,320

look like giant metal radioactive spaced

282

00:13:42,700 --> 00:13:40,030

it's like when people try to draw

283

00:13:46,830 --> 00:13:42,710

Jeffers right there I endure iron canons

284

00:13:50,590 --> 00:13:46,840

from the planet Hoth their titty canons

285

00:13:54,850 --> 00:13:50,600

pity star cannon yeah it's are very keen

286

00:13:59,200 --> 00:13:54,860

it's bizarre bizarre [h\_\_\h] while we're on
