1
00:00:14,120 --> 00:00:07,130
let's do the other monsters of the week

2
00:00:17,200 --> 00:00:14,130
here we go well this week I'm going

3
00:00:22,220 --> 00:00:17,210
through American monsters compendium I

4
00:00:24,679 --> 00:00:22,230
have man-bat in bat Squatch man but not

5
00:00:27,290 --> 00:00:24,689
Batman man bad I think they made the

6
00:00:29,630 --> 00:00:27,300
distinction zoom consider mm-hmm bad bad

7
00:00:33,370 --> 00:00:29,640
but a man bad kind of not like a baby

8
00:00:37,209 --> 00:00:33,380
clown but a clown baby oh I get it now

9
00:00:40,490 --> 00:00:37,219
now the first instance here the first uh

10
00:00:44,030 --> 00:00:40,500
case I'll cover is from lacrosse

11
00:00:47,270 --> 00:00:44,040
Wisconsin and I looked it up lacrosse is

12
00:00:48,740 --> 00:00:47,280
about it's across the state from pali

13
00:00:50,000 --> 00:00:48,750

hill where the go bands to sightings

14

00:00:53,779 --> 00:00:50,010

were so there's really no connection

15

00:00:54,979 --> 00:00:53,789

there being facetious know there's

16

00:00:57,200 --> 00:00:54,989

there's not it's all the way across

17

00:01:01,580 --> 00:00:57,210

Wisconsin okay there's no real

18

00:01:04,219 --> 00:01:01,590

connection with the good man okay so the

19

00:01:05,870 --> 00:01:04,229

first case goes off in 2006 a father and

20

00:01:07,550 --> 00:01:05,880

son were driving home from a music

21

00:01:10,789 --> 00:01:07,560

rehearsal that night around nine p.m.

22

00:01:12,710 --> 00:01:10,799

and they just passed a local gun range

23

00:01:14,210 --> 00:01:12,720

which is not too far from where they

24

00:01:15,890 --> 00:01:14,220

live when something large came out of

25

00:01:17,060 --> 00:01:15,900

the woods towards their car they could

26

00:01:20,270 --> 00:01:17,070

see kind like a black shadow coming

27

00:01:23,719 --> 00:01:20,280

across the road and as it was about to

28

00:01:26,240 --> 00:01:23,729

make impact it suddenly took off and

29

00:01:27,679 --> 00:01:26,250

swooped up over their truck and from

30

00:01:29,630 --> 00:01:27,689

what they could see this had head of a

31

00:01:32,420 --> 00:01:29,640

torture that was roughly bat like had

32

00:01:34,789 --> 00:01:32,430

like a rib cage it comes stumpy legs was

33

00:01:37,730 --> 00:01:34,799

very long arms and hands and then the

34

00:01:39,920 --> 00:01:37,740

feet also had claws on them had a canine

35

00:01:44,350 --> 00:01:39,930

like face with fangs and pointed ears

36

00:01:47,389 --> 00:01:44,360

can bet that's not too dissimilar from

37

00:01:50,179 --> 00:01:47,399

description that we've seen and heard of

38

00:01:53,330 --> 00:01:50,189

from the goatman and what people have

39

00:01:54,590 --> 00:01:53,340

seen in missing for 11 cases right but

40

00:01:56,990 --> 00:01:54,600

this didn't I guess the distinctive

41

00:01:59,660 --> 00:01:57,000

thing this is that missing flu oh okay

42

00:02:01,490 --> 00:01:59,670

hey flu okay it didn't jump the car kind

43

00:02:04,280 --> 00:02:01,500

of like to flight and flew over it okay

44

00:02:07,550 --> 00:02:04,290

and as it flew off at made a very loud

45

00:02:09,710 --> 00:02:07,560

screeching sound as it flew off sorry as

46

00:02:11,660 --> 00:02:09,720

yes it flew off made a very large that

47

00:02:13,400 --> 00:02:11,670

barge but very loud sound very high

48

00:02:15,500 --> 00:02:13,410

pitch he made the driver and

49

00:02:17,300 --> 00:02:15,510

son physically ill and they got back to

50

00:02:18,980 --> 00:02:17,310

their house the Sun had puke many times

51
00:02:23,780 --> 00:02:18,990
and the the father was sick all night

52
00:02:25,550 --> 00:02:23,790
long the nausea well the description is

53
00:02:27,470 --> 00:02:25,560
not I'm sorry to interrupt again but

54
00:02:28,790 --> 00:02:27,480
nice fine then we're good I do so we can

55
00:02:32,930 --> 00:02:28,800
ever I guess you're right we can have a

56
00:02:35,180 --> 00:02:32,940
conversation um it kind of it's not

57
00:02:38,210 --> 00:02:35,190
dissimilar from the malt man and

58
00:02:40,790 --> 00:02:38,220
sightings that were taking place and I

59
00:02:43,220 --> 00:02:40,800
think the late 60s and 70s in West

60
00:02:44,930 --> 00:02:43,230
Virginny yeah down there I think right

61
00:02:47,300 --> 00:02:44,940
we're good old Jeff Martin was from

62
00:02:49,910 --> 00:02:47,310
right around words he from some

63
00:02:51,950 --> 00:02:49,920

parkersburg but uh down there in the

64

00:02:56,140 --> 00:02:51,960

holler were tough repins from oh yeah

65

00:02:59,150 --> 00:02:56,150

yeah you don't T Redmond yeah maltman

66

00:03:00,860 --> 00:02:59,160

just a mockman is a name of a cryptid

67

00:03:02,900 --> 00:03:00,870

speculated to exist after several

68

00:03:05,180 --> 00:03:02,910

reports of an unidentified creature seen

69

00:03:10,040 --> 00:03:05,190

in point pleasant area west virginia

70

00:03:11,810 --> 00:03:10,050

from november 1966 to 1967 the first

71

00:03:14,170 --> 00:03:11,820

newspaper report was published in the

72

00:03:19,400 --> 00:03:14,180

point pleasant register dated back in

73

00:03:22,220 --> 00:03:19,410

November of 1966 the man the couple's

74

00:03:25,820 --> 00:03:22,230

see man sighs bird creature something in

75

00:03:28,040 --> 00:03:25,830

the bean subsequently entered original

76

00:03:30,820 --> 00:03:28,050

Vogler so a flying creature of flying

77

00:03:33,020 --> 00:03:30,830

creature the size of a man if not larger

78

00:03:34,910 --> 00:03:33,030

hmm I just look it up in google maps

79

00:03:36,680 --> 00:03:34,920

Point Pleasant actually much more south

80

00:03:39,770 --> 00:03:36,690

parkersburg it's actually in Henderson

81

00:03:41,570 --> 00:03:39,780

Kentucky where our oldest brother used

82

00:03:45,190 --> 00:03:41,580

to live for a year how close is that to

83

00:03:49,220 --> 00:03:45,200

where the Kentucky goblins might live uh

84

00:03:52,370 --> 00:03:49,230

there's more self by Louisville okay

85

00:04:01,970 --> 00:03:52,380

this is a just asking um please continue

86

00:04:03,740 --> 00:04:01,980

with man-bat but man bet yes hmm so but

87

00:04:05,000 --> 00:04:03,750

yeah going upon that um but it is

88

00:04:07,280 --> 00:04:05,010

possible that certain wavelengths of

89
00:04:09,430 --> 00:04:07,290
sound are known to they can make humans

90
00:04:13,160 --> 00:04:09,440
physically else is completely plausible

91
00:04:15,949 --> 00:04:13,170
now others enjoy this this thing let out

92
00:04:18,020 --> 00:04:15,959
a giant shriek a lot a loud sound and

93
00:04:19,490 --> 00:04:18,030
what did that sound how did that

94
00:04:22,700 --> 00:04:19,500
physically impact those two people in

95
00:04:25,460 --> 00:04:22,710
the car no i mean the the both of them

96
00:04:26,900 --> 00:04:25,470
were nauseous in the the sun was puking

97
00:04:29,030 --> 00:04:26,910
a lot and the father was ill

98
00:04:31,520 --> 00:04:29,040
all night they just weren't drinking a

99
00:04:33,200 --> 00:04:31,530
lot they're at band practice and it was

100
00:04:35,750 --> 00:04:33,210
for musical was not band practice oh

101
00:04:38,000 --> 00:04:35,760
okay they weren't liking like a Def

102
00:04:40,880 --> 00:04:38,010
Leppard cover band or anything they

103
00:04:43,460 --> 00:04:40,890
weren't in a yeah thank you uncover

104
00:04:46,250 --> 00:04:43,470
banbury raxiom Steve you know drink a 12

105
00:04:47,960 --> 00:04:46,260
pack up here in blue yeah yeah now that

106
00:04:49,520 --> 00:04:47,970
was not the case so other people in the

107
00:04:52,370 --> 00:04:49,530
community had similar experiences but

108
00:04:54,140 --> 00:04:52,380
this is on French islands is a few miles

109
00:04:59,090 --> 00:04:54,150
south of their location and lacrosse

110
00:05:01,100 --> 00:04:59,100
Wisconsin so in 2005 a guide the book

111
00:05:02,420 --> 00:05:01,110
said his name was Bill I guess is just

112
00:05:04,730 --> 00:05:02,430
an assumed name for the book that want

113
00:05:07,880 --> 00:05:04,740

to come out as a real name he started to

114

00:05:09,590 --> 00:05:07,890

hear something on the roof at night and

115

00:05:13,490 --> 00:05:09,600

there were stories at this time of heads

116

00:05:14,900 --> 00:05:13,500

disappearing in the neighborhood started

117

00:05:17,030 --> 00:05:14,910

the story started circling around his

118

00:05:20,030 --> 00:05:17,040

neighborhood in the local area and he

119

00:05:21,530 --> 00:05:20,040

himself had lost two animals recently in

120

00:05:23,420 --> 00:05:21,540

the book didn't specify whether their

121

00:05:25,700 --> 00:05:23,430

pets are actual livestock or things like

122

00:05:28,910 --> 00:05:25,710

that well if you remember the the go

123

00:05:30,680 --> 00:05:28,920

bands job according to his tax forms was

124

00:05:33,740 --> 00:05:30,690

to terrorize the neighborhood and abduct

125

00:05:36,940 --> 00:05:33,750

small animals correct in decapitate dogs

126

00:05:40,160 --> 00:05:36,950

and pets I'm being facetious when I say

127

00:05:43,130 --> 00:05:40,170

tax forms but it did say that he would

128

00:05:45,620 --> 00:05:43,140

terrorize neighborhoods and kill pets

129

00:05:51,920 --> 00:05:45,630

and kill pets so that's not that

130

00:05:54,260 --> 00:05:51,930

dissimilar right and this guy bill he

131

00:05:57,530 --> 00:05:54,270

his neighbor this all comes back

132

00:05:59,090 --> 00:05:57,540

together but his neighbor had AI guess

133

00:06:00,710 --> 00:05:59,100

exciting you could say he went off

134

00:06:03,110 --> 00:06:00,720

pretty smokin his deck one night and saw

135

00:06:05,540 --> 00:06:03,120

a dark figure it swooped into a tree in

136

00:06:07,159 --> 00:06:05,550

his backyard made a lot of noise and

137

00:06:09,440 --> 00:06:07,169

apparently way deluxe that way down this

138

00:06:11,570 --> 00:06:09,450

branch and made the tree shake a lot any

139

00:06:13,340 --> 00:06:11,580

know a lot more than any nocturnal

140

00:06:16,070 --> 00:06:13,350

animal of correcting or now could ever

141

00:06:18,409 --> 00:06:16,080

do or a possum and he went to go

142

00:06:20,120 --> 00:06:18,419

investigated he saw this shadowy figure

143

00:06:22,070 --> 00:06:20,130

it jumped from the tree onto his garage

144

00:06:24,560 --> 00:06:22,080

and crawled across his garage and flew

145

00:06:26,990 --> 00:06:24,570

off into the darkness he said he did not

146

00:06:29,540 --> 00:06:27,000

get a good look but he said had a pretty

147

00:06:31,670 --> 00:06:29,550

large frame and he gave him a feeling of

148

00:06:34,700 --> 00:06:31,680

it was a very disturbing feeling that he

149

00:06:38,040 --> 00:06:34,710

got from looking at this creature there

150

00:06:41,100 --> 00:06:38,050

are so many different types of these

151
00:06:45,529 --> 00:06:41,110
[h__h] toys cryptids ranging from Bigfoot

152
00:06:48,210 --> 00:06:45,539
to go man 22 man-bat to the Mothman arm

153
00:06:50,550 --> 00:06:48,220
if someone sees something strange they

154
00:06:52,170 --> 00:06:50,560
oh I saw a Bigfoot button in actuality

155
00:06:54,770 --> 00:06:52,180
it could have been something more like

156
00:06:57,420 --> 00:06:54,780
goat man or man-bats I'm gonna flu um

157
00:07:00,540 --> 00:06:57,430
you just attribute the Bigfoot big to

158
00:07:04,710 --> 00:07:00,550
anything kind of hairy large and upright

159
00:07:06,180 --> 00:07:04,720
ah there's there could be according to

160
00:07:09,330 --> 00:07:06,190
these stories these folklore these

161
00:07:12,659 --> 00:07:09,340
legends multiple multiple different

162
00:07:16,170 --> 00:07:12,669
types of cryptids encrypted out there

163
00:07:18,330 --> 00:07:16,180

and they might fly around not other ring

164

00:07:20,129 --> 00:07:18,340

realm of possibility but there certainly

165

00:07:22,890 --> 00:07:20,139

hasn't been any good photographic

166

00:07:24,809 --> 00:07:22,900

evidence this [h__\h] no not that I could

167

00:07:27,149 --> 00:07:24,819

have I note that I could look up online

168

00:07:32,580 --> 00:07:27,159

for at least for the man bat bat Squatch

169

00:07:36,330 --> 00:07:32,590

yeah um everything out the bill no no

170

00:07:39,149 --> 00:07:36,340

I've got plenty more plenty more for the

171

00:07:41,459 --> 00:07:39,159

bats going back to billow just punishing

172

00:07:43,019 --> 00:07:41,469

neighbor see nothing fly off bill he

173

00:07:44,820 --> 00:07:43,029

heard about the shaking tree phenomenon

174

00:07:48,240 --> 00:07:44,830

in his neighborhood he once he was going

175

00:07:49,980 --> 00:07:48,250

to happen I started waiting out at night

176
00:07:52,050 --> 00:07:49,990
to see what was going on motion sensor

177
00:07:53,610 --> 00:07:52,060
lights in people's yards went off for no

178
00:08:00,360 --> 00:07:53,620
apparent reason as he was washing out

179
00:08:01,950 --> 00:08:00,370
his backyard excuse me now um he started

180
00:08:03,480 --> 00:08:01,960
to notice unexplainable lights in the

181
00:08:04,890 --> 00:08:03,490
sky that would shoot off in one

182
00:08:08,610 --> 00:08:04,900
direction or another that were too fast

183
00:08:10,619 --> 00:08:08,620
to be a plane or a helicopter then on

184
00:08:13,200 --> 00:08:10,629
one night he witnessed a creature about

185
00:08:16,730 --> 00:08:13,210
five feet tall slink out from a dime

186
00:08:19,890 --> 00:08:16,740
from a tree on to his children swing set

187
00:08:22,439 --> 00:08:19,900
to move very stealthily and resume in

188
00:08:24,869 --> 00:08:22,449

movement he said is quotes as room I

189

00:08:26,700 --> 00:08:24,879

believe two thousand five or six said he

190

00:08:28,080 --> 00:08:26,710

resembled gone from Lord of the Rings in

191

00:08:30,450 --> 00:08:28,090

the way moved on all fours and how

192

00:08:31,860 --> 00:08:30,460

stealthily had moved it was very dark

193

00:08:33,930 --> 00:08:31,870

and was hard to make out details he

194

00:08:36,000 --> 00:08:33,940

tried to go out for a better look he

195

00:08:37,680 --> 00:08:36,010

said the creature looked right up at him

196

00:08:39,060 --> 00:08:37,690

and then it moved away quickly into the

197

00:08:41,370 --> 00:08:39,070

darkness he said it made him feel very

198

00:08:45,480 --> 00:08:41,380

uneasy as if he was not to supposed to

199

00:08:48,660 --> 00:08:45,490

be witnessing this creature so I'm going

200

00:08:50,520 --> 00:08:48,670

to send you a video this

201
00:08:53,850 --> 00:08:50,530
we talked about this years ago this is

202
00:08:57,900 --> 00:08:53,860
from the Fresno alien Nightcrawler stick

203
00:09:01,980 --> 00:08:57,910
stick figure surveillance video that

204
00:09:05,220 --> 00:09:01,990
circulated and it's pretty clear in this

205
00:09:07,950 --> 00:09:05,230
video that there's something crazy going

206
00:09:09,930 --> 00:09:07,960
on this video I don't know if it's

207
00:09:12,540 --> 00:09:09,940
digital distortion or if there are some

208
00:09:15,090 --> 00:09:12,550
kind of loop over going on with this

209
00:09:19,230 --> 00:09:15,100
that would impact the video quality and

210
00:09:22,170 --> 00:09:19,240
possibly ghost imagery like me but like

211
00:09:23,550 --> 00:09:22,180
if they kept recording over the same

212
00:09:28,050 --> 00:09:23,560
tape over and over again if I produce

213
00:09:31,050 --> 00:09:28,060

that act today yeah but these these

214

00:09:35,880 --> 00:09:31,060

thick creatures are not like so

215

00:09:37,760 --> 00:09:35,890

far-fetched to not be mistaken for what

216

00:09:41,550 --> 00:09:37,770

we're talking about in some of these

217

00:09:46,590 --> 00:09:41,560

cryptozoology stories tall gangly weird

218

00:09:49,140 --> 00:09:46,600

looking creatures um and I can post it I

219

00:09:51,960 --> 00:09:49,150

mean this is a creepy video that I'm

220

00:09:53,970 --> 00:09:51,970

looking at and some people have

221

00:09:56,700 --> 00:09:53,980

attributed this this is an alien or this

222

00:10:02,070 --> 00:09:56,710

could be as a night crawler or night

223

00:10:04,350 --> 00:10:02,080

Walker that on the west coast there's

224

00:10:06,180 --> 00:10:04,360

legends of a night crawler that where if

225

00:10:08,280 --> 00:10:06,190

you look at them you'll die so if they

226

00:10:11,660 --> 00:10:08,290

seem walking around you among you must

227

00:10:14,490 --> 00:10:11,670

avert your eyes these also have been

228

00:10:15,930 --> 00:10:14,500

claimed to be any number of spears or

229

00:10:19,020 --> 00:10:15,940

skin walkers or anything like that but

230

00:10:20,400 --> 00:10:19,030

it's the videos creepy and I bring I'm

231

00:10:23,910 --> 00:10:20,410

bringing this up because it kind of

232

00:10:28,050 --> 00:10:23,920

relates to the overall myth of these

233

00:10:30,750 --> 00:10:28,060

cryptids there's a common theme about

234

00:10:33,930 --> 00:10:30,760

these things there's only minor

235

00:10:38,130 --> 00:10:33,940

variations whether or not they fly or if

236

00:10:40,530 --> 00:10:38,140

they have a malicious intent or not very

237

00:10:42,780 --> 00:10:40,540

kind of few things are different with

238

00:10:44,660 --> 00:10:42,790

the beat with these cryptids we haven't

239

00:10:47,010 --> 00:10:44,670

encountered anything absurdly small

240

00:10:50,760 --> 00:10:47,020

recently we've only talked about things

241

00:10:55,140 --> 00:10:50,770

that are kind of big in gangly let me

242

00:10:58,800 --> 00:10:55,150

talk about a fat Bigfoot I haven't heard

243

00:11:01,870 --> 00:10:58,810

anything described as morbidly obese and

244

00:11:04,120 --> 00:11:01,880

moving slow these are all kind of gang

245

00:11:07,120 --> 00:11:04,130

only things that move fast and even now

246

00:11:10,150 --> 00:11:07,130

fly all right I'm plump I think I seen

247

00:11:11,110 --> 00:11:10,160

this video before above this uh or if

248

00:11:14,650 --> 00:11:11,120

they call it the Walker than

249

00:11:15,880 --> 00:11:14,660

Nightcrawler yeah it's interesting i

250

00:11:17,320 --> 00:11:15,890

think it's an in-stream video i don't

251

00:11:22,080 --> 00:11:17,330

know if it's been disproven there's a

252

00:11:27,460 --> 00:11:22,090

hoax or whatever but uh what's cool the

253

00:11:29,350 --> 00:11:27,470

cypha i used to have a Shona called fact

254

00:11:31,000 --> 00:11:29,360

or faked it was actually pretty good you

255

00:11:33,820 --> 00:11:31,010

recreate the stuff and i believe they

256

00:11:35,080 --> 00:11:33,830

couldn't reliably recreate it but

257

00:11:37,750 --> 00:11:35,090

there's also pretty grainy in the

258

00:11:41,740 --> 00:11:37,760

thought might be an artifact on a taped

259

00:11:49,270 --> 00:11:41,750

over security camera yes which does

260

00:11:51,580 --> 00:11:49,280

happen um weird yeah its weak um let's

261

00:11:53,350 --> 00:11:51,590

go back um that was just wisconsin i

262

00:11:56,260 --> 00:11:53,360

have to come a washington to finish up

263

00:11:59,830 --> 00:11:56,270

with yes is here about the tacoma mrs.

264

00:12:02,890 --> 00:11:59,840

Burke it's good it's pretty good okay

265

00:12:08,970 --> 00:12:02,900

let's uh let's let's move on over let me

266

00:12:11,650 --> 00:12:08,980

move on over to Tacoma here we go BAM

267

00:12:13,420 --> 00:12:11,660

this is really nice and the lights that

268

00:12:14,620 --> 00:12:13,430

I've mentioned the other involves

269

00:12:16,030 --> 00:12:14,630

constant become a little bit more

270

00:12:20,890 --> 00:12:16,040

important least I the connection that I

271

00:12:22,900 --> 00:12:20,900

made okay so so this isn't a coma

272

00:12:27,130 --> 00:12:22,910

Washington this incident took place in

273

00:12:29,710 --> 00:12:27,140

april nineteen ninety-four there was a

274

00:12:31,630 --> 00:12:29,720

19 year old he was driving home in his

275

00:12:34,020 --> 00:12:31,640

truck around 10pm at night and a

276
00:12:37,750 --> 00:12:34,030
mountain back road up in the mountains

277
00:12:40,690 --> 00:12:37,760
gonna be east of tacoma and as he was

278
00:12:44,500 --> 00:12:40,700
driving home his trucks engine suddenly

279
00:12:46,000 --> 00:12:44,510
decided to stall and turn off so after

280
00:12:47,620 --> 00:12:46,010
he was screwing around his engine trying

281
00:12:49,150 --> 00:12:47,630
to get it back on trying to go fit all

282
00:12:51,010 --> 00:12:49,160
the keys and whatnot inside was wrong

283
00:12:53,260 --> 00:12:51,020
with his car he noticed about 30 feet

284
00:12:57,040 --> 00:12:53,270
down the road a large shape emerged from

285
00:12:58,780 --> 00:12:57,050
the darkness he said the creature that

286
00:13:00,610 --> 00:12:58,790
came out this darkness stood there and

287
00:13:01,900 --> 00:13:00,620
they just stared at him like he was just

288
00:13:05,770 --> 00:13:01,910

resting he came out of the darkness

289

00:13:07,420 --> 00:13:05,780

stand there and breasts and he said he

290

00:13:09,310 --> 00:13:07,430

didn't feel threatened by it but felt

291

00:13:10,930 --> 00:13:09,320

like he would but he felt like he was

292

00:13:14,900 --> 00:13:10,940

out of place looking at it kind of felt

293

00:13:16,700 --> 00:13:14,910

like he shouldn't be seeing it said it

294

00:13:19,010 --> 00:13:16,710

tall as a person wolf like head with

295

00:13:21,320 --> 00:13:19,020

teeth but no fangs yellow eyes fur that

296

00:13:22,370 --> 00:13:21,330

appear blue in his headlights but the

297

00:13:25,220 --> 00:13:22,380

often noted that they could have in

298

00:13:29,360 --> 00:13:25,230

store shin because of the his headlights

299

00:13:30,890 --> 00:13:29,370

shining on to it said after a few

300

00:13:32,630 --> 00:13:30,900

minutes of this encounter the creature

301
00:13:34,910 --> 00:13:32,640
looked away and flew off towards Mount

302
00:13:37,910 --> 00:13:34,920
Rainier he knew to the wings where at

303
00:13:40,190 --> 00:13:37,920
least as wide as the road um i guess it

304
00:13:45,620 --> 00:13:40,200
be both lanes okay so let's think about

305
00:13:47,210 --> 00:13:45,630
that the car is about 67 feet wide um so

306
00:13:49,850 --> 00:13:47,220
road this is go ahead and say it's 20

307
00:13:52,850 --> 00:13:49,860
feet yeah 15 and 20 feet wise I'm like

308
00:13:55,100 --> 00:13:52,860
that probably i'm gonna guess maybe 25

309
00:13:57,410 --> 00:13:55,110
feet wide for for a road you've had a

310
00:13:59,510 --> 00:13:57,420
berm this is a back road so maybe yeah

311
00:14:02,330 --> 00:13:59,520
20 feet what about the gutter we were

312
00:14:04,610 --> 00:14:02,340
walking gutter gary just walking the gun

313
00:14:06,440 --> 00:14:04,620

walking together that monster just

314

00:14:09,170 --> 00:14:06,450

walking the gutter struttin that ass all

315

00:14:13,190 --> 00:14:09,180

right Mike yeah we'll give it a 20 25

316

00:14:15,800 --> 00:14:13,200

foot wingspan and I said as it flew off

317

00:14:17,870 --> 00:14:15,810

he said the the ax when the wings

318

00:14:21,740 --> 00:14:17,880

generated were so powerful shook his car

319

00:14:23,810 --> 00:14:21,750

caused us to fly up and as this creature

320

00:14:25,550 --> 00:14:23,820

left he said after about 30 seconds to a

321

00:14:28,070 --> 00:14:25,560

minute and went out of sight his engine

322

00:14:30,650 --> 00:14:28,080

started to work again now that really

323

00:14:32,030 --> 00:14:30,660

ties into pretty much every freaking UFO

324

00:14:35,680 --> 00:14:32,040

encounter I've ever read about in the

325

00:14:38,780 --> 00:14:35,690

car exactly there's been multiple UFO

326

00:14:41,990 --> 00:14:38,790

accounts where it gets close to a car

327

00:14:43,130 --> 00:14:42,000

shuts down and this happened not even

328

00:14:45,380 --> 00:14:43,140

the cars that happened this happened to

329

00:14:46,790 --> 00:14:45,390

missile silos yeah it's staged review

330

00:14:48,560 --> 00:14:46,800

almost put some different def comms

331

00:14:51,710 --> 00:14:48,570

because of it because there's an object

332

00:14:54,350 --> 00:14:51,720

shutting down power so I mean you have

333

00:15:00,920 --> 00:14:54,360

to make that leap in logic there that if

334

00:15:04,400 --> 00:15:00,930

these cryptids can impact electronic

335

00:15:06,770 --> 00:15:04,410

devices and so can these UFOs they have

336

00:15:10,220 --> 00:15:06,780

to be probably linked in some way I

337

00:15:13,390 --> 00:15:10,230

would I could definitely make that leap

338

00:15:15,530 --> 00:15:13,400

for sure could we also make a link or a

339

00:15:18,800 --> 00:15:15,540

hypothesis that some of these creatures

340

00:15:20,980 --> 00:15:18,810

are genetic experiments you know that

341

00:15:26,960 --> 00:15:20,990

they if they are they are real are they

342

00:15:28,350 --> 00:15:26,970

genetic experiments I think it could be

343

00:15:30,540 --> 00:15:28,360

um

344

00:15:32,400 --> 00:15:30,550

I think that that that might be more

345

00:15:35,160 --> 00:15:32,410

likely than them being a process of

346

00:15:38,190 --> 00:15:35,170

evolution even if it could be something

347

00:15:39,750 --> 00:15:38,200

like a genetic experiments with kind of

348

00:15:41,250 --> 00:15:39,760

like I guess with the X file as you

349

00:15:44,240 --> 00:15:41,260

could say a gene splicing with

350

00:15:46,650 --> 00:15:44,250

extraterrestrial and he and earth life

351

00:15:48,150 --> 00:15:46,660

well let's let let's make some

352

00:15:51,060 --> 00:15:48,160

assumptions here let's go ahead and

353

00:15:52,829 --> 00:15:51,070

assume that there are aliens and that

354

00:15:54,740 --> 00:15:52,839

they have been abducting people taking

355

00:15:58,980 --> 00:15:54,750

their DNA what are they doing this DNA

356

00:16:00,840 --> 00:15:58,990

are they using it to preserve and make

357

00:16:04,410 --> 00:16:00,850

themselves better or they trying to

358

00:16:08,910 --> 00:16:04,420

create new creatures with it if you look

359

00:16:12,750 --> 00:16:08,920

at what we do as humans we try to use

360

00:16:15,600 --> 00:16:12,760

our technology to one lengthen lifespan

361

00:16:18,569 --> 00:16:15,610

and we also try to create new [h__h] with

362

00:16:21,480 --> 00:16:18,579

it stuff that that's never been seen

363

00:16:23,790 --> 00:16:21,490

before this is what what we do it's

364

00:16:25,280 --> 00:16:23,800

called innovation so are these creatures

365

00:16:27,690 --> 00:16:25,290

these cryptids some kind of biological

366

00:16:30,060 --> 00:16:27,700

innovation and then that have been

367

00:16:32,519 --> 00:16:30,070

created put down here in some kind of

368

00:16:33,960 --> 00:16:32,529

zoological experiment and you know it's

369

00:16:36,720 --> 00:16:33,970

that the run wild they track them in

370

00:16:38,759 --> 00:16:36,730

some way but you have to have the same

371

00:16:40,170 --> 00:16:38,769

insane ability to shut down electrical

372

00:16:41,759 --> 00:16:40,180

devices they have some kind of

373

00:16:44,639 --> 00:16:41,769

electromagnetic pulse that goes around

374

00:16:47,370 --> 00:16:44,649

them the same way the alien ship and

375

00:16:48,630 --> 00:16:47,380

UFOs do if we're gonna make those leaps

376

00:16:50,819 --> 00:16:48,640

in logic and we're going to assume a

377

00:16:53,400 --> 00:16:50,829

bunch of [h__\h] then why not assume that

378

00:16:56,519 --> 00:16:53,410

these these things yeah these things

379

00:16:57,630 --> 00:16:56,529

that can also shut down cars are not

380

00:16:59,490 --> 00:16:57,640

linked in some way I don't think that's

381

00:17:00,960 --> 00:16:59,500

that Barbara if I'm an elite I'm not

382

00:17:03,780 --> 00:17:00,970

gonna that's not that far relief to make

383

00:17:07,260 --> 00:17:03,790

I've already left it I'm jumping we've

384

00:17:08,640 --> 00:17:07,270

already jumped yeah it's I you want to

385

00:17:10,319 --> 00:17:08,650

fall straight down are slowly to left or

386

00:17:13,730 --> 00:17:10,329

right doesn't matter just trying to

387

00:17:17,840 --> 00:17:13,740

choose so are there any pictures

388

00:17:20,760 --> 00:17:17,850

documentation zor videos of this [h__\h] I

389

00:17:23,069 --> 00:17:20,770

can find none of Batman our man bad or

390

00:17:25,319 --> 00:17:23,079

bad squash yeah don't say bad man else

391

00:17:27,689 --> 00:17:25,329

we're getting a suit yes and it's

392

00:17:31,500 --> 00:17:27,699

man-bat alright specifically says man

393

00:17:35,520 --> 00:17:31,510

bet yeah there's two quick instances i

394

00:17:37,080 --> 00:17:35,530

have here that are also of note also in

395

00:17:38,010 --> 00:17:37,090

the tacoma area there's an their family

396

00:17:39,990 --> 00:17:38,020

their important seeing a bat-like

397

00:17:41,400 --> 00:17:40,000

creature at night they said ahead but

398

00:17:42,150 --> 00:17:41,410

the thing is they said had gray skin

399

00:17:46,110 --> 00:17:42,160

with no

400

00:17:49,920 --> 00:17:46,120

sir noble hair and green skin no gray

401
00:17:54,630 --> 00:17:49,930
skin yeah he did not have greens get

402
00:17:57,210 --> 00:17:54,640
your gray skin yeah I have a your clip

403
00:18:00,840 --> 00:17:57,220
about that because I might yep he has

404
00:18:04,920 --> 00:18:00,850
gray skin and in gray skin greenish skin

405
00:18:07,290 --> 00:18:04,930
I don't call they are just damn a that's

406
00:18:10,770 --> 00:18:07,300
a good one she said either or he didn't

407
00:18:12,360 --> 00:18:10,780
even know did not know it but they also

408
00:18:14,880 --> 00:18:12,370
this family Elsa needed that made a very

409
00:18:19,680 --> 00:18:14,890
loud said an unsettling sound kind of

410
00:18:20,940 --> 00:18:19,690
Ricky had her a monkey howl hmm I'm

411
00:18:27,060 --> 00:18:20,950
sorry I should play by clips I don't

412
00:18:32,940 --> 00:18:27,070
need to say hmm hmm hmm there we go

413
00:18:34,200 --> 00:18:32,950

sorry now they had also gone on during

414

00:18:35,970 --> 00:18:34,210

this time there's also reports of

415

00:18:38,040 --> 00:18:35,980

missing pets and found dead pets found

416

00:18:42,600 --> 00:18:38,050

so it's that kind of cooperates the

417

00:18:44,730 --> 00:18:42,610

missing pets I out of it but the more I

418

00:18:47,670 --> 00:18:44,740

guess curious thing that i found was in

419

00:18:49,350 --> 00:18:47,680

2009 new assistant california the

420

00:18:51,090 --> 00:18:49,360

reports of two men hiking on Mount

421

00:18:52,980 --> 00:18:51,100

Shasta they said they saw a large

422

00:18:54,840 --> 00:18:52,990

creature fly to ravine this is a very

423

00:18:56,490 --> 00:18:54,850

muscular body with a wingspan they said

424

00:18:58,410 --> 00:18:56,500

about 50 feet but they're far our way

425

00:19:00,960 --> 00:18:58,420

and this is the creature ignore them

426

00:19:02,700 --> 00:19:00,970

flew out of sight now look at Mount

427

00:19:05,250 --> 00:19:02,710

Shasta if you look at Mount Rainier

428

00:19:06,920 --> 00:19:05,260

National Park in Washington a lot of

429

00:19:09,780 --> 00:19:06,930

these areas are run people disappeared

430

00:19:11,610 --> 00:19:09,790

especially around Mount Shasta yeah we

431

00:19:13,320 --> 00:19:11,620

talked about Mont amount shots before we

432

00:19:16,830 --> 00:19:13,330

definitely talked about it in relation

433

00:19:18,740 --> 00:19:16,840

to missing 411 um that's another thing

434

00:19:21,180 --> 00:19:18,750

that we probably should do if we get a

435

00:19:23,310 --> 00:19:21,190

database up and going which i think i'm

436

00:19:25,440 --> 00:19:23,320

just going to have to manually input

437

00:19:28,860 --> 00:19:25,450

some of this information and location is

438

00:19:32,070 --> 00:19:28,870

to track the missing 411 stuff versus

439

00:19:34,290 --> 00:19:32,080

these cryptid sightings versus those

440

00:19:36,470 --> 00:19:34,300

sightings a great map would have an

441

00:19:39,120 --> 00:19:36,480

overlay of the missing for one map with

442

00:19:40,980 --> 00:19:39,130

known accounts of cryptid sightings that

443

00:19:43,590 --> 00:19:40,990

are at least somewhat credible not like

444

00:19:46,080 --> 00:19:43,600

oh Jesus Cletus I saw there's a ghost he

445

00:19:48,060 --> 00:19:46,090

drank my beer they ghost this made my

446

00:19:51,480 --> 00:19:48,070

bed I didn't have to make it when I woke

447

00:19:54,570 --> 00:19:51,490

up the ghost make my bed a ghost just

448

00:19:55,919 --> 00:19:54,580

clean my toilet it's fantastic i goes

449

00:19:59,810 --> 00:19:55,929

pulled me over and gave me

450

00:20:02,190 --> 00:19:59,820

you do you I h god I totally [h__h] off

451
00:20:04,379 --> 00:20:02,200
yes something a little bit more credible

452
00:20:05,759 --> 00:20:04,389
than than cleanest but some of the most

453
00:20:07,950 --> 00:20:05,769
of the accounts that you've read a

454
00:20:11,100 --> 00:20:07,960
father and son coming back from Def

455
00:20:12,749 --> 00:20:11,110
Leppard practice of that's a little bit

456
00:20:15,600 --> 00:20:12,759
more credible when you have two people

457
00:20:17,850 --> 00:20:15,610
they're experiencing two hikers that's

458
00:20:20,009 --> 00:20:17,860
that's a little more credible I've

459
00:20:21,810 --> 00:20:20,019
noticed that there's been not a lot of

460
00:20:26,100 --> 00:20:21,820
City sightings not a lot of urban

461
00:20:27,720 --> 00:20:26,110
sightings mostly rural um so the chances

462
00:20:32,960 --> 00:20:27,730
of me walking on Columbus here and

463
00:20:37,320 --> 00:20:35,399

unless you know something I don't is

464

00:20:40,200 --> 00:20:37,330

that the red come on baby more more

465

00:20:43,039 --> 00:20:40,210

rural yes as far as I I've seen new it's

466

00:20:48,119 --> 00:20:43,049

always more than meeting wilderness yes

467

00:20:52,649 --> 00:20:48,129

hmm like that man a man bad I like to go

468

00:20:54,419 --> 00:20:52,659

man huh I don't know there's plenty more

469

00:20:58,230 --> 00:20:54,429

in this book they're all linked together

470

00:20:59,700 --> 00:20:58,240

in some way I'm not discounting these

471

00:21:01,590 --> 00:20:59,710

people I actually believe these people

472

00:21:02,820 --> 00:21:01,600

are saying saying and what they see what

473

00:21:05,159 --> 00:21:02,830

they believe they say and what they

474

00:21:09,210 --> 00:21:05,169

believe what they believe they they see

475

00:21:12,180 --> 00:21:09,220

I'm a discounted as I'm I'm a proponent

476

00:21:15,119 --> 00:21:12,190

of the eyewitness they might not get it

477

00:21:16,710 --> 00:21:15,129

right hundred percent but they probably

478

00:21:20,460 --> 00:21:16,720

see something that's probably pretty

479

00:21:23,940 --> 00:21:20,470

strange yes I think they saw something

480

00:21:25,470 --> 00:21:23,950

I'm just not sure I guess mysterious

481

00:21:27,119 --> 00:21:25,480

universe is good at since in like pop

482

00:21:28,169 --> 00:21:27,129

culture really injects a lot of what you

483

00:21:29,399 --> 00:21:28,179

thought you could have seen some people

484

00:21:31,379 --> 00:21:29,409

think they saw they folks they heard a

485

00:21:33,560 --> 00:21:31,389

bigfooter like that one guy said it move

486

00:21:36,600 --> 00:21:33,570

like gone from Lord of the Rings but

487

00:21:39,690 --> 00:21:36,610

what really was it what what did you see

488

00:21:43,230 --> 00:21:39,700

I but yeah pop culture does influence a

489

00:21:45,359 --> 00:21:43,240

lot of stuff but it also is the mind is

490

00:21:49,889 --> 00:21:45,369

what you're thinking that you will see

491

00:21:54,019 --> 00:21:49,899

is that you do wind up scene um does

492

00:21:57,210 --> 00:21:54,029

your mind manifest the visualization arm

493

00:21:59,879 --> 00:21:57,220

so when you're are the our filter guys

494

00:22:02,669 --> 00:21:59,889

and ghosts interchangeable with UFOs and

495

00:22:05,190 --> 00:22:02,679

demons and genies and jinns and fairies

496

00:22:07,440 --> 00:22:05,200

are they all the same [h__\h] thing and

497

00:22:09,060 --> 00:22:07,450

we just perceived them and project

498

00:22:11,249 --> 00:22:09,070

differently or are they different

499

00:22:14,249 --> 00:22:11,259

entities and different and have

500

00:22:18,749 --> 00:22:14,259

different goals and and different

501

00:22:21,659 --> 00:22:18,759

agendas we don't know obviously we're

502

00:22:28,310 --> 00:22:21,669

asking questions that cannot be [h__h]
