

EARTHQUAKES in YELOWSTONE

Whole lot of shaking going on

OBDM

ourbigdumbmouth.com

1
00:00:11,509 --> 00:00:08,049
I got the blood red sky in El Salvador

2
00:00:12,200 --> 00:00:11,519
okay dude what red sky in El Salvador

3
00:00:14,509 --> 00:00:12,210
please

4
00:00:16,340 --> 00:00:14,519
and then only there's fears of an

5
00:00:18,640 --> 00:00:16,350
apocalypse after a huge fireball turns

6
00:00:21,380 --> 00:00:18,650
the sky blood-red and Al Salvador

7
00:00:22,849 --> 00:00:21,390
mystery surrounds why the night sky Baba

8
00:00:24,980 --> 00:00:22,859
Salvador was transformed to a bright red

9
00:00:27,170 --> 00:00:24,990
blankets earlier this week I think this

10
00:00:29,240 --> 00:00:27,180
happened on Tuesday and witnessed across

11
00:00:30,950 --> 00:00:29,250
town the and I see pictures here that

12
00:00:32,749 --> 00:00:30,960
she looks like this guy is a red or

13
00:00:36,979 --> 00:00:32,759

orange in the dead of night kind of

14

00:00:40,369 --> 00:00:36,989

glowing and this comes after major

15

00:00:43,400 --> 00:00:40,379

earthquakes that we had in Ecuador where

16

00:00:45,920 --> 00:00:43,410

I believe over 200 people died and it

17

00:00:47,450 --> 00:00:45,930

was a 7.2 earthquake if that means

18

00:00:49,340 --> 00:00:47,460

anything to anyone and we had a major

19

00:00:51,139 --> 00:00:49,350

earthquake buff 7 in Japan southern

20

00:00:53,510 --> 00:00:51,149

Japan where a number of people died as

21

00:00:54,860 --> 00:00:53,520

well which is the blood red sky and the

22

00:00:58,010 --> 00:00:54,870

number of deaths and the tectonic

23

00:01:00,260 --> 00:00:58,020

movement the area kind of gives credence

24

00:01:02,720 --> 00:01:00,270

to theory the blood sacrifice of lady a4

25

00:01:06,230 --> 00:01:02,730

which happens between 419 and the first

26
00:01:08,030 --> 00:01:06,240
of May and then I guess I'm coming up to

27
00:01:09,830 --> 00:01:08,040
a time of I guess were allegedly

28
00:01:11,270 --> 00:01:09,840
according to evil forces aligned with

29
00:01:13,100 --> 00:01:11,280
Satan and required to make a blood

30
00:01:14,780 --> 00:01:13,110
sacrifice to the Beast what you see it

31
00:01:17,749 --> 00:01:14,790
like a Bohemian Grove and things like

32
00:01:20,510 --> 00:01:17,759
that in with the tectonic activity in

33
00:01:21,590 --> 00:01:20,520
the area you can see on a telecast they

34
00:01:23,270 --> 00:01:21,600
just a weather website within

35
00:01:25,760 --> 00:01:23,280
earthquakes there's been a number of

36
00:01:28,219 --> 00:01:25,770
activity earthquakes around the

37
00:01:30,469 --> 00:01:28,229
Yellowstone area in California and also

38
00:01:32,480 --> 00:01:30,479

many more in southern Japan as well

39

00:01:35,240 --> 00:01:32,490

which people think that this might be a

40

00:01:37,010 --> 00:01:35,250

natural shifting of a plate where we

41

00:01:39,200 --> 00:01:37,020

might be going closer to a supervolcano

42

00:01:41,800 --> 00:01:39,210

eruption or another major earthquake

43

00:01:44,330 --> 00:01:41,810

that led to that a tsunami that took out

44

00:01:48,160 --> 00:01:44,340

Fukushima and Sendai in Japan what five

45

00:01:53,870 --> 00:01:48,170

years ago yeah so there's been a lot of

46

00:01:56,209 --> 00:01:53,880

rumors about tremors at the Yellowstone

47

00:01:58,069 --> 00:01:56,219

Caldera which if it blows up the United

48

00:02:00,499 --> 00:01:58,079

States goes by buying probably the world

49

00:02:02,959 --> 00:02:00,509

so we're good we're good actually Marnie

50

00:02:06,859 --> 00:02:02,969

you and Joe were fine the ash bed should

51
00:02:10,160 --> 00:02:06,869
be pretty much northern Wyoming to like

52
00:02:11,180 --> 00:02:10,170
Indiana oh so we won't get the ash but

53
00:02:12,470 --> 00:02:11,190
it'll be like the road and all the

54
00:02:13,610 --> 00:02:12,480
people are gonna die or leave and come

55
00:02:16,820 --> 00:02:13,620
our way so we have to shoot

56
00:02:18,860 --> 00:02:16,830
okay good it's exciting won't be killed

57
00:02:20,869 --> 00:02:18,870
by the ash in the fallout okay we'll

58
00:02:22,339 --> 00:02:20,879
just be killed slowly will you be eaten

59
00:02:23,270 --> 00:02:22,349
alive of the refugees coming our way

60
00:02:26,420 --> 00:02:23,280
okay good

61
00:02:29,030 --> 00:02:26,430
there you go I have a headline here that

62
00:02:32,000 --> 00:02:29,040
says a UFO crash at Yellowstone sparked

63
00:02:35,479 --> 00:02:32,010

rumor of imminent false flag event

64

00:02:39,650 --> 00:02:35,489

secret plans underway to induce eruption

65

00:02:41,809 --> 00:02:39,660

of supervolcano so there this is a wide

66

00:02:44,750 --> 00:02:41,819

crazy conspiracy theory saying that

67

00:02:46,490 --> 00:02:44,760

they're gonna try to induce interruption

68

00:02:50,240 --> 00:02:46,500

I'll put this in the chat because they

69

00:02:54,500 --> 00:02:50,250

actually have a a footage here of a

70

00:02:58,100 --> 00:02:54,510

reported oh I would love this stuff of a

71

00:03:03,050 --> 00:02:58,110

reported fire finally got him we finally

72

00:03:05,420 --> 00:03:03,060

got these [h__h] there we go I'll read

73

00:03:08,330 --> 00:03:05,430

on this article this is this this jerk

74

00:03:09,890 --> 00:03:08,340

directly relates to Yellowstone a video

75

00:03:11,600 --> 00:03:09,900

purportedly showing a massive UFO

76

00:03:14,479 --> 00:03:11,610

crashing near the supervolcano has

77

00:03:17,569 --> 00:03:14,489

sparked rumors of a sinister experiment

78

00:03:19,400 --> 00:03:17,579

at Yellowstone linked to an alleged plan

79

00:03:22,220 --> 00:03:19,410

to stage a false flag operation that

80

00:03:25,550 --> 00:03:22,230

involves inducing artificially a an

81

00:03:28,099 --> 00:03:25,560

artificial massive eruption of the

82

00:03:29,809 --> 00:03:28,109

Yellowstone supervolcano the footage

83

00:03:34,849 --> 00:03:29,819

above captured by an amateur

84

00:03:38,780 --> 00:03:34,859

videographer called Shawn she shows a

85

00:03:41,569 --> 00:03:38,790

large object a burning up in the sky and

86

00:03:44,390 --> 00:03:41,579

then crashing at the spot in Yellowstone

87

00:03:46,990 --> 00:03:44,400

National Park reportedly close to the

88

00:03:50,030 --> 00:03:47,000

supervolcano the morning of April 18

89

00:03:52,940 --> 00:03:50,040

2016 I mean take a look it's bad it's

90

00:03:57,570 --> 00:03:52,950

bad boy I don't see it crashing that

91

00:04:05,340 --> 00:04:00,000

you don't need you don't need this music

92

00:04:07,950 --> 00:04:05,350

guys there's no point music to any of

93

00:04:11,760 --> 00:04:07,960

your videos it does nothing I'm looking

94

00:04:13,530 --> 00:04:11,770

at this and you can't tell if it goes it

95

00:04:14,940 --> 00:04:13,540

disappears beyond the horizon or it

96

00:04:16,380 --> 00:04:14,950

crashes into the ground the trees

97

00:04:17,490 --> 00:04:16,390

obstruct the view it looks like it's

98

00:04:19,740 --> 00:04:17,500

going into the ground but that can be

99

00:04:20,789 --> 00:04:19,750

very easily going to the horizon so

100

00:04:24,840 --> 00:04:20,799

what's this guy saying about Yellowstone

101
00:04:28,080 --> 00:04:24,850
here this guy's seen something there's a

102
00:04:30,960 --> 00:04:28,090
massive UFO evidently is Christ in

103
00:04:34,140 --> 00:04:30,970
Yellowstone cream you'll witness and

104
00:04:38,460 --> 00:04:34,150
there's photos here this was on April 18

105
00:04:41,430 --> 00:04:38,470
test May 2016 a shuttle as his breaking

106
00:04:44,820 --> 00:04:41,440
news my friend Sean from Yellowstone saw

107
00:04:47,520 --> 00:04:44,830
this huge unidentified crash object

108
00:04:59,700 --> 00:04:47,530
early this morning and I'm not too far

109
00:05:04,920 --> 00:04:59,710
from the supervolcano oh my god figure

110
00:05:06,720 --> 00:05:04,930
that one out he's he's the guy I get my

111
00:05:08,610 --> 00:05:06,730
news from he's doing all the remote

112
00:05:11,820 --> 00:05:08,620
viewing and then he tells it to me oh

113
00:05:15,810 --> 00:05:11,830

good do you remember leave this in the

114

00:05:17,520 --> 00:05:15,820

volcano UFO stories a while ago yeah

115

00:05:20,000 --> 00:05:17,530

there's always been reports of uninvited

116

00:05:23,370 --> 00:05:20,010

Mexico and then this came up again

117

00:05:24,780 --> 00:05:23,380

actually we show the videos look they're

118

00:05:27,510 --> 00:05:24,790

self aligning now this volcano in Mexico

119

00:05:30,480 --> 00:05:27,520

it's a I think it's I had the name here

120

00:05:33,120 --> 00:05:30,490

it's Popocatepetl something like that

121

00:05:34,650 --> 00:05:33,130

that erupted that volcano erupted after

122

00:05:38,180 --> 00:05:34,660

this major seismic activity this past

123

00:05:42,810 --> 00:05:38,190

week so it sounds like the Ring of Fire

124

00:05:45,360 --> 00:05:42,820

right is is is popping off everywhere

125

00:05:45,690 --> 00:05:45,370

except the western part of the United

126
00:05:48,690 --> 00:05:45,700
States

127
00:05:52,740 --> 00:05:48,700
yeah and that volcano in a Mexican

128
00:05:54,240 --> 00:05:52,750
national park hmm well you probably make

129
00:05:55,860 --> 00:05:54,250
it a national park anyways yeah aren't

130
00:05:57,840 --> 00:05:55,870
most volcanoes and national parks I

131
00:05:59,000 --> 00:05:57,850
think you don't exactly want to build up

132
00:06:02,460 --> 00:05:59,010
yeah

133
00:06:04,219 --> 00:06:02,470
good real estate opportunity for

134
00:06:06,990 --> 00:06:04,229
volcanoes

135
00:06:09,719 --> 00:06:07,000
you know what we always bitching about

136
00:06:11,250 --> 00:06:09,729
landfills is there any reason why we

137
00:06:13,410 --> 00:06:11,260
can't you know like we're gonna

138
00:06:15,990 --> 00:06:13,420

there's too much trash can we just throw

139

00:06:19,920 --> 00:06:16,000

a bunch of trash in a volcano yeah why

140

00:06:22,530 --> 00:06:19,930

not I think you just saw the major

141

00:06:26,340 --> 00:06:22,540

problem yeah I don't get paid enough for

142

00:06:27,720 --> 00:06:26,350

this [h__h] what's the downside of

143

00:06:31,320 --> 00:06:27,730

throwing everything we have into a

144

00:06:33,600 --> 00:06:31,330

volcano right it's gonna melt it yeah I

145

00:06:36,090 --> 00:06:33,610

think if this Large Hadron Collider

146

00:06:39,120 --> 00:06:36,100

opens up like a wormhole the hard-on

147

00:06:43,890 --> 00:06:39,130

Collider yes Lord a Harlan that's what

148

00:06:48,510 --> 00:06:43,900

Eric and I do on Friday night nice it's

149

00:06:50,790 --> 00:06:48,520

a science that's gonna hurt I don't know

150

00:06:52,770 --> 00:06:50,800

maybe geologists what's the downside of

151

00:06:56,670 --> 00:06:52,780

shoving all of America's trash into a

152

00:06:58,530 --> 00:06:56,680

volcano shipping it to Hawaii it's very

153

00:07:03,060 --> 00:06:58,540

idiotic recei thing to do but I don't

154

00:07:04,980 --> 00:07:03,070

see any holes in it so let's start a

155

00:07:07,340 --> 00:07:04,990

petition we're gonna find Mel's hole and

156

00:07:10,320 --> 00:07:07,350

destroy everything we have down there

157

00:07:12,770 --> 00:07:10,330

maybe goes into a volcano who knows who

158

00:07:15,630 --> 00:07:12,780

knows [h__\h] it

159

00:07:18,180 --> 00:07:15,640

you got anything else on the volcanoes

160

00:07:19,830 --> 00:07:18,190

Jeff uh no I mean that's really it for

161

00:07:21,240 --> 00:07:19,840

now I mean it connects to the April

162

00:07:23,370 --> 00:07:21,250

blood sacrifice tons of tectonic

163

00:07:27,060 --> 00:07:23,380

activity people dying volcano erupting

164

00:07:30,180 --> 00:07:27,070

in Mexico national parks wins the blood

165

00:07:31,100 --> 00:07:30,190

sacrifice start um well last week goes

166

00:07:34,290 --> 00:07:31,110

to me first

167

00:07:35,880 --> 00:07:34,300

should I get my knife ready do I do I do

168

00:07:38,280 --> 00:07:35,890

the blood sacrifice how does that work

169

00:07:41,730 --> 00:07:38,290

oh no the global leak should be doing

170

00:07:43,980 --> 00:07:41,740

that for us okay all right sounds fair

171

00:07:45,300 --> 00:07:43,990

looks at the earthquake Godhead might

172

00:07:46,350 --> 00:07:45,310

have taken care of that for us okay well

173

00:07:48,150 --> 00:07:46,360

that's work I have to do

174

00:07:50,220 --> 00:07:48,160

I'm already I'm already doing too many

175

00:07:52,440 --> 00:07:50,230

things too much going I don't think I

176

00:07:55,590 --> 00:07:52,450

can schedule a blood sacrifice is my my

177

00:07:58,500 --> 00:07:55,600

daily routine at this point no all right
