1
00:00:17,019 --> 00:00:07,280
what do you say you ready to go in the

2
00:00:24,710 --> 00:00:22,130
and person the gays situation the gay

3
00:00:26,150 --> 00:00:24,720
situation I don't know if you forgot

4
00:00:29,380 --> 00:00:26,160
about mid-nineties a gay situation

5
00:00:35,780 --> 00:00:29,390
though right back ruby ridge he's a man

6
00:00:38,479 --> 00:00:35,790
I'm a man as myself in 1997 it's kind of

7
00:00:42,200 --> 00:00:38,489
good segue talking about the 90s here on

8
00:00:44,330 --> 00:00:42,210
uh Coco's am all the art Bell was

9
00:00:47,180 --> 00:00:44,340
hosting because it wasn't so old then he

10
00:00:49,459 --> 00:00:47,190
got a fax from some guy named Mel Waters

11
00:00:52,400 --> 00:00:49,469
claiming he had this magnificent kind of

12
00:00:53,810 --> 00:00:52,410
bottomless pit on his property and he

13
00:00:54,860 --> 00:00:53,820

had booked him on the show and here I'm

14

00:00:57,380 --> 00:00:54,870

gonna play the first I don't know about

15

00:01:00,680 --> 00:00:57,390

three four minutes here the call when

16

00:01:02,920 --> 00:01:00,690

Mel waters called in about the front

17

00:01:08,330 --> 00:01:02,930

this is this segment is about Mel's hole

18

00:01:13,410 --> 00:01:08,340

correct yes so here we go I mean you

19

00:01:19,140 --> 00:01:17,100

but now to Eastern Washington I guess

20

00:01:19,620 --> 00:01:19,150

this is Eastern Washington Mel are you

21

00:01:22,680 --> 00:01:19,630

there

22

00:01:24,090 --> 00:01:22,690

yes I am first of all Mel thank you for

23

00:01:24,930 --> 00:01:24,100

answering what are you doing up at this

24

00:01:29,310 --> 00:01:24,940

time of the morning

25

00:01:31,890 --> 00:01:29,320

well after I sent the fax I'm I'm living

26
00:01:33,870 --> 00:01:31,900
in town here now because we had a couple

27
00:01:35,460 --> 00:01:33,880
of our buildings out there cave-in after

28
00:01:35,969 --> 00:01:35,470
the big snows that we got out here last

29
00:01:40,350 --> 00:01:35,979
month

30
00:01:42,390 --> 00:01:40,360
oh yes and so they're good they're there

31
00:01:45,990 --> 00:01:42,400
by goes some of the construction debris

32
00:01:48,719 --> 00:01:46,000
into the holes Oh all right when did you

33
00:01:49,920 --> 00:01:48,729
discover this hole will the hole has

34
00:01:52,620 --> 00:01:49,930
always been there we've been out there

35
00:01:54,240 --> 00:01:52,630
for a couple of years now and you know

36
00:01:56,040 --> 00:01:54,250
the hole has been there since we've been

37
00:01:57,930 --> 00:01:56,050
there it's been there since the previous

38
00:02:02,160 --> 00:01:57,940

owner was there and previous owner there

39

00:02:04,320 --> 00:02:02,170

was quite elderly and I'd say he was

40

00:02:07,139 --> 00:02:04,330

there for a good 30 40 years before we

41

00:02:08,580 --> 00:02:07,149

moved in Wow and then and so there's

42

00:02:13,910 --> 00:02:08,590

been a thing of throwing stuff down this

43

00:02:17,009 --> 00:02:13,920

hall for a long been going on you know

44

00:02:19,140 --> 00:02:17,019

always been there I assume when nobody

45

00:02:20,940 --> 00:02:19,150

knows that I guess all right how do you

46

00:02:26,069 --> 00:02:20,950

pronounce the name of your town mantis -

47

00:02:28,830 --> 00:02:26,079

OH - that's right thank you and actually

48

00:02:31,289 --> 00:02:28,840

I'm in right now I'm in a little town

49

00:02:34,110 --> 00:02:31,299

called Ellensburg so I know Ellensburg

50

00:02:36,960 --> 00:02:34,120

it must know about a rodeo here then oh

51
00:02:38,039 --> 00:02:36,970
sure okay well so yeah we've been there

52
00:02:39,930 --> 00:02:38,049
for several years

53
00:02:42,630 --> 00:02:39,940
no we just stay calm you know we take

54
00:02:44,009 --> 00:02:42,640
all of her trash rubbish there anything

55
00:02:45,479 --> 00:02:44,019
we have that we have to get rid of we

56
00:02:48,150 --> 00:02:45,489
take it throw an old everyone's thrown

57
00:02:49,620 --> 00:02:48,160
their stuff and all the people from

58
00:02:50,039 --> 00:02:49,630
around never throw all the stuff in the

59
00:02:52,140 --> 00:02:50,049
hole

60
00:02:54,930 --> 00:02:52,150
I mean it's has been going on for a long

61
00:02:56,699 --> 00:02:54,940
time so you know I got to thinking one

62
00:02:58,710 --> 00:02:56,709
day how come the hole is not filling up

63
00:03:00,390 --> 00:02:58,720

it must be an awfully deep hole that's a

64

00:03:02,940 --> 00:03:00,400

good thing to consider sure as you throw

65

00:03:06,840 --> 00:03:02,950

stuff in it for decades literally and so

66

00:03:08,340 --> 00:03:06,850

you know I used to be a I would say

67

00:03:11,060 --> 00:03:08,350

pretty close to a professional shark

68

00:03:14,150 --> 00:03:11,070

fishermen so I had a couple of huge

69

00:03:16,830 --> 00:03:14,160

fishing reels went out there and started

70

00:03:19,440 --> 00:03:16,840

letting the line down I figure after one

71

00:03:21,240 --> 00:03:19,450

did you weight the line oh yeah there

72

00:03:22,920 --> 00:03:21,250

there's there's in fact the original

73

00:03:25,410 --> 00:03:22,930

line is still down there I've just been

74

00:03:27,150 --> 00:03:25,420

adding to the line and keeping track of

75

00:03:30,510 --> 00:03:27,160

how much line I have used

76
00:03:32,250 --> 00:03:30,520
so I've not real dit in how much weight

77
00:03:34,110 --> 00:03:32,260
is on it there there's a one pound

78
00:03:36,410 --> 00:03:34,120
weight at the bottom up one pound weight

79
00:03:38,490 --> 00:03:36,420
on it on weight it's a triangular

80
00:03:40,380 --> 00:03:38,500
one-pound weight okay

81
00:03:42,540 --> 00:03:40,390
and so that's at the bottom of it at

82
00:03:44,520 --> 00:03:42,550
first so where's the good now I'm kind

83
00:03:46,470 --> 00:03:44,530
of like a plumb bob exactly exactly in

84
00:03:47,970 --> 00:03:46,480
fact I have a rigged across the center

85
00:03:50,220 --> 00:03:47,980
of it there and it goes you know goes

86
00:03:54,120 --> 00:03:50,230
straight down from the center there and

87
00:03:56,370 --> 00:03:54,130
the line moving that much line you

88
00:03:58,080 --> 00:03:56,380

really can't do a whole lot with it but

89

00:04:00,600 --> 00:03:58,090

it seems to you know there seems to be

90

00:04:02,160 --> 00:04:00,610

it's not resting again and you know

91

00:04:05,220 --> 00:04:02,170

anything at this point here and it

92

00:04:06,570 --> 00:04:05,230

continues to go down freely and so I was

93

00:04:10,320 --> 00:04:06,580

out there earlier I'd let out a little

94

00:04:13,520 --> 00:04:10,330

bit more light and so you everyone out

95

00:04:16,320 --> 00:04:13,530

there tonight after I read this exactly

96

00:04:19,170 --> 00:04:16,330

well you know it's not too bad out here

97

00:04:23,010 --> 00:04:19,180

right now it's something about though 25

98

00:04:29,010 --> 00:04:23,020

degrees right there yeah I mean he just

99

00:04:30,990 --> 00:04:29,020

keeps going but um so I mean that

100

00:04:34,950 --> 00:04:31,000

continued on for I think about he was

101
00:04:36,630 --> 00:04:34,960
unsure for about two hours yeah and so

102
00:04:39,090 --> 00:04:36,640
you get the gist he's in Ellensburg and

103
00:04:40,170 --> 00:04:39,100
Eastern Washington state time they call

104
00:04:42,330 --> 00:04:40,180
parently have lived there about two

105
00:04:43,530 --> 00:04:42,340
years um like he said the pits been

106
00:04:44,700 --> 00:04:43,540
there ever since the previous owners

107
00:04:45,720 --> 00:04:44,710
been there so that's been there for a

108
00:04:48,150 --> 00:04:45,730
long time

109
00:04:50,400 --> 00:04:48,160
currency of local a Mexican kind of like

110
00:04:52,560 --> 00:04:50,410
auto shop guy with dump tires down there

111
00:04:54,600 --> 00:04:52,570
wouldn't fill up so this Hall has a

112
00:04:56,250 --> 00:04:54,610
three and a half foot thick stone

113
00:04:59,010 --> 00:04:56,260

retaining wall around it and would go

114

00:05:02,850 --> 00:04:59,020

about 15 feet down with the lining in

115

00:05:04,050 --> 00:05:02,860

the shaft and apparently it goes as far

116

00:05:05,970 --> 00:05:04,060

as you can see with the light now

117

00:05:08,010 --> 00:05:05,980

there's no echo no echoes produced when

118

00:05:09,780 --> 00:05:08,020

you yell into it so what Mel was

119

00:05:12,780 --> 00:05:09,790

describing there how he was had his a

120

00:05:15,090 --> 00:05:12,790

fishing reel big thing for fishing for

121

00:05:16,500 --> 00:05:15,100

sharks yeah I guess suspended there he

122

00:05:18,540 --> 00:05:16,510

kept putting more and more line down

123

00:05:21,890 --> 00:05:18,550

there now he claimed on here that he had

124

00:05:24,780 --> 00:05:21,900

lowered at least eighty thousand feet of

125

00:05:27,870 --> 00:05:24,790

this shark fishing line down into the

126
00:05:31,890 --> 00:05:27,880
hole which is approximately 15 miles and

127
00:05:35,600 --> 00:05:31,900
give or take so when you start to lower

128
00:05:39,060 --> 00:05:35,610
that much fishing lure or line like that

129
00:05:40,340 --> 00:05:39,070
will can that line support its own

130
00:05:42,350 --> 00:05:40,350
weight the longer

131
00:05:44,780 --> 00:05:42,360
you know what I'm saying that's what

132
00:05:47,270 --> 00:05:44,790
callers had brought up seen a certain

133
00:05:47,690 --> 00:05:47,280
point the line would snap under its own

134
00:05:52,520 --> 00:05:47,700
weight

135
00:05:55,460 --> 00:05:52,530
at the bottom which the caller had

136
00:05:59,240 --> 00:05:55,470
theorized that it had already hit bottom

137
00:06:00,740 --> 00:05:59,250
but there was so far down that there is

138
00:06:02,360 --> 00:06:00,750

so much weight on the line from the line

139

00:06:03,500 --> 00:06:02,370

itself you would think he was still

140

00:06:05,480 --> 00:06:03,510

being taught even though it's just

141

00:06:06,680 --> 00:06:05,490

spooling up at the bottom sure yeah you

142

00:06:08,210 --> 00:06:06,690

would never know the difference because

143

00:06:11,060 --> 00:06:08,220

there's so much weight at the end it

144

00:06:12,710 --> 00:06:11,070

acted like a weight right it was there

145

00:06:13,940 --> 00:06:12,720

so much line out and acted like a weight

146

00:06:16,730 --> 00:06:13,950

itself like he thought the weight was

147

00:06:18,170 --> 00:06:16,740

still on and going down further I mean I

148

00:06:20,390 --> 00:06:18,180

think this is as good a thought as

149

00:06:23,630 --> 00:06:20,400

anyone but at the same time it's that's

150

00:06:25,760 --> 00:06:23,640

still a pretty goddamn deep hole now

151
00:06:28,400 --> 00:06:25,770
what Mel also described but he tried to

152
00:06:30,550 --> 00:06:28,410
trick he said um they used the fishing

153
00:06:33,800 --> 00:06:30,560
where you put a roll of lifesavers on

154
00:06:36,200 --> 00:06:33,810
the bait which kind of acted like as a

155
00:06:37,700 --> 00:06:36,210
bobber or a buoy and after a certain

156
00:06:40,400 --> 00:06:37,710
amount of time you know the water would

157
00:06:45,110 --> 00:06:40,410
dissolve the lifesavers lifesavers the

158
00:06:46,460 --> 00:06:45,120
candy right okay yeah so you know how

159
00:06:49,090 --> 00:06:46,470
their water saw wipe it in your mouth

160
00:06:52,250 --> 00:06:49,100
and you know get dissolved in your dad

161
00:06:53,750 --> 00:06:52,260
puts him on a line and strung it up and

162
00:06:55,640 --> 00:06:53,760
like you know tied it on there and he

163
00:06:57,560 --> 00:06:55,650

lowered it to 1,500 feet and he let it

164

00:06:58,820 --> 00:06:57,570

sit down there for properties and he

165

00:07:00,800 --> 00:06:58,830

said an hour and he had brought it up

166

00:07:02,750 --> 00:07:00,810

and none of the candy had dissolved

167

00:07:06,770 --> 00:07:02,760

meaning that at least at 1500 feet there

168

00:07:09,740 --> 00:07:06,780

is no water interesting I have I have a

169

00:07:14,750 --> 00:07:09,750

clip here if you don't mind sure this is

170

00:07:16,970 --> 00:07:14,760

about how dogs react to mousehole well

171

00:07:19,130 --> 00:07:16,980

you know I mean the normal thing to do

172

00:07:20,600 --> 00:07:19,140

is panic like yell into a ferret you

173

00:07:22,820 --> 00:07:20,610

know to see an echo and I've never heard

174

00:07:25,550 --> 00:07:22,830

an echo come out of that pain no

175

00:07:29,060 --> 00:07:25,560

at all you know that's one of the first

176

00:07:32,210 --> 00:07:29,070

things I noticed about it as usual I

177

00:07:35,150 --> 00:07:32,220

brought the dogs with me they wouldn't

178

00:07:37,310 --> 00:07:35,160

go anywhere near the damn thing and they

179

00:07:41,330 --> 00:07:37,320

went back to the suburban and hung out

180

00:07:42,950 --> 00:07:41,340

over there so it was kind of like I

181

00:07:44,240 --> 00:07:42,960

can't like you know if I try to bring

182

00:07:45,920 --> 00:07:44,250

them there on a leash they'll just dig

183

00:07:48,410 --> 00:07:45,930

their feet and they do not want to go

184

00:07:51,380 --> 00:07:48,420

anywhere near the hole so I found that

185

00:07:53,210 --> 00:07:51,390

to be kind of curious because we've

186

00:07:56,750 --> 00:07:53,220

encountered various and talked about

187

00:07:59,000 --> 00:07:56,760

various how animals dogs react to pair

188

00:08:02,090 --> 00:07:59,010

paranormal kind of situations especially

189

00:08:03,290 --> 00:08:02,100

the missing four-on-one stuff where dogs

190

00:08:05,150 --> 00:08:03,300

just kind of give up they don't have a

191

00:08:06,290 --> 00:08:05,160

scent they feel kind of apathetic about

192

00:08:07,610 --> 00:08:06,300

the whole thing and they're not they

193

00:08:09,920 --> 00:08:07,620

don't participate it and they don't care

194

00:08:11,240 --> 00:08:09,930

about pleasing their masters yeah and

195

00:08:13,130 --> 00:08:11,250

have that one dog I talked about in the

196

00:08:14,360 --> 00:08:13,140

Jersey Devil they seem foreign one thing

197

00:08:15,980 --> 00:08:14,370

we're just kind of late in the yard and

198

00:08:18,740 --> 00:08:15,990

stared at the ground about didn't wanna

199

00:08:21,290 --> 00:08:18,750

go look for the little boy yeah so when

200

00:08:23,630 --> 00:08:21,300

dogs seem to be kind of not into the

201
00:08:24,730 --> 00:08:23,640
whole situation kind of take that as a

202
00:08:28,310 --> 00:08:24,740
bad sign

203
00:08:30,500 --> 00:08:28,320
yes I agree my perspective on it dogs

204
00:08:33,770 --> 00:08:30,510
seem to be pretty happy go-lucky any of

205
00:08:35,480 --> 00:08:33,780
dogs will chase a bear weight them yeah

206
00:08:38,660 --> 00:08:35,490
they'll fight a bear so they're not

207
00:08:40,130 --> 00:08:38,670
they're not scared I mean if they're

208
00:08:41,510 --> 00:08:40,140
really scared I'll run away but if

209
00:08:43,310 --> 00:08:41,520
they're apathetic and not wanting to

210
00:08:46,490 --> 00:08:43,320
please their masters then it's a whole

211
00:08:49,070 --> 00:08:46,500
different situation but please I'm sorry

212
00:08:50,840 --> 00:08:49,080
dude be really pleased that going right

213
00:08:54,920 --> 00:08:50,850

into the dog things oh yeah but you do

214

00:08:55,280 --> 00:08:54,930

it hi I win my notes right along sounds

215

00:09:00,020 --> 00:08:55,290

great

216

00:09:01,760 --> 00:09:00,030

one point for me and so art apparently a

217

00:09:04,610 --> 00:09:01,770

neighbor had disposed of his dead

218

00:09:06,170 --> 00:09:04,620

hunting dog in the hall and he several

219

00:09:07,730 --> 00:09:06,180

days later he claims he saw the exact

220

00:09:10,970 --> 00:09:07,740

same dog with same car running through

221

00:09:14,450 --> 00:09:10,980

the woods as if it was gone hunting Pet

222

00:09:16,190 --> 00:09:14,460

Sematary kind of thing yeah so he threw

223

00:09:18,740 --> 00:09:16,200

his dead dog down the hole and then

224

00:09:21,980 --> 00:09:18,750

reports of that dead dog being seen

225

00:09:27,320 --> 00:09:21,990

later on on up above the hole on land

226

00:09:29,840 --> 00:09:27,330

yes like it was alive again Oh hmm okay

227

00:09:33,190 --> 00:09:29,850

I think that is maybe that does okay

228

00:09:36,110 --> 00:09:33,200

let's buy into this go please continue

229

00:09:38,259 --> 00:09:36,120

okay I'm all-in with the hole

230

00:09:40,549 --> 00:09:38,269

they're I mean they're all in the hole

231

00:09:42,769 --> 00:09:40,559

everybody seated also in the interview

232

00:09:44,299 --> 00:09:42,779

said agree that if he did terminal

233

00:09:45,980 --> 00:09:44,309

illness he would jump down the hall so I

234

00:09:47,480 --> 00:09:45,990

thought that was gonna cool you know

235

00:09:49,460 --> 00:09:47,490

said city instructions in his will to

236

00:09:52,759 --> 00:09:49,470

have his body thrown down into the hole

237

00:09:55,910 --> 00:09:52,769

as well if he had died oh yeah nice and

238

00:09:57,829 --> 00:09:55,920

relevant I guess facts to this the

239

00:09:59,809 --> 00:09:57,839

Marianas Trench in the Pacific Ocean is

240

00:10:03,369 --> 00:09:59,819

about 36 thousand feet deep and that's a

241

00:10:07,280 --> 00:10:03,379

deepest point that we have in the ocean

242

00:10:10,369 --> 00:10:07,290

now the the most we've ever drilled into

243

00:10:13,280 --> 00:10:10,379

the earth was 4200 30 feet it was a coal

244

00:10:15,290 --> 00:10:13,290

of super-deep borehole in russia now

245

00:10:17,090 --> 00:10:15,300

that was just a drill hole like a drill

246

00:10:19,460 --> 00:10:17,100

bit going down like for like drilling

247

00:10:21,850 --> 00:10:19,470

oil kind of like a boring machine not

248

00:10:26,600 --> 00:10:21,860

natural yeah

249

00:10:29,210 --> 00:10:26,610

the the I guess approximate world record

250

00:10:31,429 --> 00:10:29,220

for a mineshaft here is the doubt on of

251
00:10:34,970 --> 00:10:31,439
mine in South Africa it's about 2.4

252
00:10:36,799 --> 00:10:34,980
miles and it's deepest and now but you

253
00:10:38,360 --> 00:10:36,809
get an idea for conditions there you're

254
00:10:40,639 --> 00:10:38,370
drilling down into rock and mining down

255
00:10:42,949 --> 00:10:40,649
that far the air conditioning has air

256
00:10:45,619 --> 00:10:42,959
conditioning to keep the air temperature

257
00:10:47,509 --> 00:10:45,629
in the mine at 82 degrees but if it

258
00:10:50,059 --> 00:10:47,519
wasn't the - we've got 131 degrees

259
00:10:52,189 --> 00:10:50,069
Fahrenheit bone and the surface

260
00:10:54,470 --> 00:10:52,199
temperature of the rock at that depth is

261
00:10:59,509 --> 00:10:54,480
140 degrees Fahrenheit so it gets pretty

262
00:11:02,059 --> 00:10:59,519
hot as well it's hot so there are some

263
00:11:05,269 --> 00:11:02,069

different oddities there now Mel called

264

00:11:12,110 --> 00:11:05,279

back I believe it around the year 2000

265

00:11:14,210 --> 00:11:12,120

or so and so now a little sip of water

266

00:11:15,559 --> 00:11:14,220

but well in this day and age you know if

267

00:11:20,629 --> 00:11:15,569

we can find that hole again we can throw

268

00:11:24,400 --> 00:11:20,639

a drone down there a signal yeah with a

269

00:11:27,079 --> 00:11:24,410

light or something on there infrared yes

270

00:11:30,230 --> 00:11:27,089

all that stuff this is where it gets a

271

00:11:33,100 --> 00:11:30,240

little crazy this is now now it gets

272

00:11:35,720 --> 00:11:33,110

crazy okay eggs yes now it gets crazy

273

00:11:38,629 --> 00:11:35,730

okay so according to Mel the day after

274

00:11:40,220 --> 00:11:38,639

the broadcast that we just heard no

275

00:11:43,429 --> 00:11:40,230

return to his property was blocked by

276

00:11:45,340 --> 00:11:43,439

uniformed individuals they claimed there

277

00:11:48,200 --> 00:11:45,350

had been a plane crash on his property

278

00:11:50,480 --> 00:11:48,210

but Mel said he could not discern

279

00:11:52,100 --> 00:11:50,490

the only secret and there's property for

280

00:11:54,740 --> 00:11:52,110

that reason but he said he didn't see

281

00:11:57,380 --> 00:11:54,750

that any indications of smoke or a crash

282

00:11:59,510 --> 00:11:57,390

or anything like that and he said he

283

00:12:01,639 --> 00:11:59,520

didn't believe them and then warned him

284

00:12:03,829 --> 00:12:01,649

that a drug lab could easily be found in

285

00:12:05,690 --> 00:12:03,839

the property if he didn't turn around

286

00:12:07,540 --> 00:12:05,700

and pretty much [h__h] off immediately

287

00:12:10,519 --> 00:12:07,550

he threatened to go to the press and

288

00:12:13,360 --> 00:12:10,529

this is when these certain individuals

289

00:12:15,130 --> 00:12:13,370

offered hit the Lisa property for 2,200

290

00:12:18,139 --> 00:12:15,140

250,000 dollars a month

291

00:12:22,670 --> 00:12:18,149

two hundred and fifty thousand dollars a

292

00:12:24,530 --> 00:12:22,680

month correct ah just the that the

293

00:12:26,420 --> 00:12:24,540

property with the well on it or is there

294

00:12:28,250 --> 00:12:26,430

acreage around it I would imagine

295

00:12:30,889 --> 00:12:28,260

there's brother property around it but

296

00:12:32,240 --> 00:12:30,899

more specifically he couldn't go back to

297

00:12:36,110 --> 00:12:32,250

his lake house there like everything

298

00:12:38,690 --> 00:12:36,120

that he owned in that site sure so he

299

00:12:41,600 --> 00:12:38,700

accepted this money and he relocated to

300

00:12:46,280 --> 00:12:41,610

Australia ah so you got the [h__h] out of

301
00:12:48,139 --> 00:12:46,290
Dodge and he also received these people

302
00:12:49,880 --> 00:12:48,149
whoever they were they've received their

303
00:12:50,870 --> 00:12:49,890
help to get into Australia with certain

304
00:12:52,100 --> 00:12:50,880
things like he didn't have to get your

305
00:12:55,400 --> 00:12:52,110
customs or anything they really kind of

306
00:12:57,740 --> 00:12:55,410
shoot him right in ha an apparently art

307
00:13:00,260 --> 00:12:57,750
bell allegedly confirmed his relocation

308
00:13:01,970 --> 00:13:00,270
and Mel had contacted them from

309
00:13:05,420 --> 00:13:01,980
Australia via email I'm not sure how

310
00:13:06,769 --> 00:13:05,430
reliable that is but that's my read and

311
00:13:09,290 --> 00:13:06,779
apparently these agents paid him

312
00:13:12,140 --> 00:13:09,300
regularly as they promised to every

313
00:13:15,290 --> 00:13:12,150

month between March of 1997 and December

314

00:13:16,460 --> 00:13:15,300

of 1999 she did he won't get paid for

315

00:13:19,280 --> 00:13:16,470

one year how long they've leased this

316

00:13:23,140 --> 00:13:19,290

property I mean that was a time for him

317

00:13:30,970 --> 00:13:27,260

coming up on like - almost like one in

318

00:13:33,470 --> 00:13:30,980

three-quarter years nice chunk of change

319

00:13:35,990 --> 00:13:33,480

so Mel returned to the u.s. in December

320

00:13:38,840 --> 00:13:36,000

of 99 to visit family in two-parent

321

00:13:43,190 --> 00:13:38,850

crisco's a.m. again okay

322

00:13:45,319 --> 00:13:43,200

we got a clip of that no no beats

323

00:13:47,690 --> 00:13:45,329

because I have to read more okay that's

324

00:13:49,639 --> 00:13:47,700

fine I can get clips for next week

325

00:13:52,250 --> 00:13:49,649

because this is part two to this because

326

00:13:54,230 --> 00:13:52,260

that would be reading forever here but

327

00:13:55,639 --> 00:13:54,240

so but he came out to the US he was

328

00:13:57,470 --> 00:13:55,649

served by the government with legal

329

00:14:00,019 --> 00:13:57,480

papers implicating him in violations of

330

00:14:01,020 --> 00:14:00,029

building codes and property and at that

331

00:14:04,530 --> 00:14:01,030

point confiscated

332

00:14:06,120 --> 00:14:04,540

permanently now after he would helped

333

00:14:07,740 --> 00:14:06,130

his nephew move during this time Mel

334

00:14:09,350 --> 00:14:07,750

gotten the bus gonna cook to come to

335

00:14:11,460 --> 00:14:09,360

Washington he was heading for Olympia

336

00:14:13,500 --> 00:14:11,470

apparently on this bus ride there was an

337

00:14:15,900 --> 00:14:13,510

altercation bus pulled over called the

338

00:14:17,250 --> 00:14:15,910

police in Mel as a witness's asked to

339

00:14:19,320 --> 00:14:17,260

give a statement to the police

340

00:14:20,850 --> 00:14:19,330

Mel said no and he had no time to get

341

00:14:24,450 --> 00:14:20,860

back to get to get back to Olympia

342

00:14:27,030 --> 00:14:24,460

didn't have any time I think what was

343

00:14:29,390 --> 00:14:27,040

that sorry yeah

344

00:14:31,950 --> 00:14:29,400

Jose Jose is [h__h] around over there

345

00:14:34,620 --> 00:14:31,960

he's asking me to check on something I

346

00:14:36,510 --> 00:14:34,630

was looking at it anyway

347

00:14:38,310 --> 00:14:36,520

the police said they could give him a

348

00:14:40,920 --> 00:14:38,320

ride in their van so there's a mistake

349

00:14:42,330 --> 00:14:40,930

ball number one at least and that was

350

00:14:43,350 --> 00:14:42,340

the last thing we're melting remembering

351
00:14:46,500 --> 00:14:43,360
on that trip after he got into the

352
00:14:48,450 --> 00:14:46,510
police van twelve days later Mel woke up

353
00:14:50,700 --> 00:14:48,460
apparently in an alley in San Francisco

354
00:14:52,320 --> 00:14:50,710
he'd been badly beaten some teeth were

355
00:14:56,640 --> 00:14:52,330
missing he'd evidence of being hooked up

356
00:14:57,810 --> 00:14:56,650
to an IV and a CT team came to find out

357
00:15:01,740 --> 00:14:57,820
that when he checked his bank account

358
00:15:04,080 --> 00:15:01,750
all his money had been gone most nephew

359
00:15:06,240 --> 00:15:04,090
from San Francisco well but from that

360
00:15:08,670 --> 00:15:06,250
when Mel was in finding Francisco Mel's

361
00:15:11,250 --> 00:15:08,680
nephew bought him a bus ticket back to

362
00:15:13,050 --> 00:15:11,260
Washington State apparently after this

363
00:15:14,700 --> 00:15:13,060

his former wife had vanished and you

364

00:15:16,500 --> 00:15:14,710

could not be tracked down and on the

365

00:15:19,140 --> 00:15:16,510

show Mel pointed out that the land had

366

00:15:21,510 --> 00:15:19,150

been explicitly removed from an online

367

00:15:22,710 --> 00:15:21,520

Terror server images kind of like Google

368

00:15:27,810 --> 00:15:22,720

Maps Maps

369

00:15:32,730 --> 00:15:27,820

yeah so Mel came back to United States

370

00:15:35,670 --> 00:15:32,740

from Australia was asked to describe an

371

00:15:39,750 --> 00:15:35,680

altercation in the bus got put into a

372

00:15:41,700 --> 00:15:39,760

police van may have been may have gotten

373

00:15:44,130 --> 00:15:41,710

drunk drops from LSD doesn't remember

374

00:15:47,430 --> 00:15:44,140

for 12 days and then woke up in San

375

00:15:48,030 --> 00:15:47,440

Francisco right yeah something happened

376
00:15:50,520 --> 00:15:48,040
to him

377
00:15:53,190 --> 00:15:50,530
well that's well days but he did have

378
00:15:54,510 --> 00:15:53,200
the wherewithal the call in to Cuzco

379
00:15:56,310 --> 00:15:54,520
Sammy and let everyone know what

380
00:15:58,920 --> 00:15:56,320
happened to him okay I wasn't recapping

381
00:16:01,230 --> 00:15:58,930
for everybody so make sure I get it that

382
00:16:02,520 --> 00:16:01,240
day of from when I get to like his in

383
00:16:04,080 --> 00:16:02,530
the second part it kind of sounds like

384
00:16:05,490 --> 00:16:04,090
he describes what happens and then he's

385
00:16:11,130 --> 00:16:05,500
like you know I called it and then this

386
00:16:13,590 --> 00:16:11,140
happened okay so is the terrorist ever

387
00:16:14,790 --> 00:16:13,600
images what was edited out in art said

388
00:16:16,920 --> 00:16:14,800

of the TV crew a TV

389

00:16:18,210 --> 00:16:16,930

once investigated Mel's former land and

390

00:16:22,530 --> 00:16:18,220

they found evidence of a military

391

00:16:24,210 --> 00:16:22,540

presence there Mel had heard some locals

392

00:16:26,480 --> 00:16:24,220

say that they had seen occasional black

393

00:16:29,400 --> 00:16:26,490

a black bean like a lightless black

394

00:16:31,290 --> 00:16:29,410

column coming up into the sky from the

395

00:16:33,329 --> 00:16:31,300

hole which is kind of odd something that

396

00:16:35,639 --> 00:16:33,339

would look kind of like a dead you know

397

00:16:38,160 --> 00:16:35,649

beam of his blackness yeah it's like a

398

00:16:40,050 --> 00:16:38,170

black hole but a beam shooting up from

399

00:16:42,509 --> 00:16:40,060

the hole apparently he had one trucker

400

00:16:43,590 --> 00:16:42,519

friend of his Mel said he delivered

401

00:16:45,449 --> 00:16:43,600

large quantities of fiber-optic

402

00:16:49,100 --> 00:16:45,459

equipment to a group of Israelis in a

403

00:16:51,300 --> 00:16:49,110

warehouse in Ellensburg Washington and

404

00:16:53,069 --> 00:16:51,310

another trucker friend said he had

405

00:16:54,960 --> 00:16:53,079

delivered scientific instruments to the

406

00:16:57,449 --> 00:16:54,970

same warehouse from Lawrence Livermore

407

00:16:58,769 --> 00:16:57,459

National Laboratories that same National

408

00:17:01,560 --> 00:16:58,779

Laboratories we talked about the

409

00:17:03,449 --> 00:17:01,570

invisible Bigfoot from well I want to

410

00:17:05,490 --> 00:17:03,459

find out where this Mel's hole

411

00:17:07,740 --> 00:17:05,500

supposedly is in relation to Michigan

412

00:17:10,679 --> 00:17:07,750

foreign one stuff and in relation to the

413

00:17:13,169 --> 00:17:10,689

supposed alien underground bases I I

414

00:17:14,850 --> 00:17:13,179

found a speculative place on Google Maps

415

00:17:17,490 --> 00:17:14,860

I can try and pull it up here I found it

416

00:17:19,860 --> 00:17:17,500

on the Internet we Steve I'm looking at

417

00:17:22,110 --> 00:17:19,870

2012 article it says man a stash ridge

418

00:17:26,280 --> 00:17:22,120

did you come across that at all death

419

00:17:29,730 --> 00:17:26,290

apparently were it was okay the closest

420

00:17:33,270 --> 00:17:29,740

town they're also saying they have no

421

00:17:37,650 --> 00:17:33,280

record of this guy even ever existing

422

00:17:40,440 --> 00:17:37,660

crack there so I'm assuming it's a

423

00:17:43,290 --> 00:17:40,450

pseudonym or he's been wiped from the

424

00:17:45,570 --> 00:17:43,300

record who knows yeah well I mean I mean

425

00:17:47,640 --> 00:17:45,580

because after his his last call into

426

00:17:51,000 --> 00:17:47,650

coast-to-coast he was only even heard of

427

00:17:52,740 --> 00:17:51,010

from again but um I guess he's preview

428

00:17:54,990 --> 00:17:52,750

for next week essentially Melges

429

00:17:56,130 --> 00:17:55,000

contacted by a group of Native Americans

430

00:17:58,310 --> 00:17:56,140

that heard him on coast to coast am

431

00:18:01,250 --> 00:17:58,320

apparently Mel was big into I guess

432

00:18:03,840 --> 00:18:01,260

herbal medicine stuff news shamanism

433

00:18:05,430 --> 00:18:03,850

shamanism NASA they contacted him and he

434

00:18:08,730 --> 00:18:05,440

went to Nevada where they took him to a

435

00:18:10,440 --> 00:18:08,740

local group of box that immigrated from

436

00:18:12,270 --> 00:18:10,450

Europe but a hundred years ago who

437

00:18:13,890 --> 00:18:12,280

claimed they had this second hole and

438

00:18:16,409 --> 00:18:13,900

the second hole a lot of paranormal [h__h]

439

00:18:17,760 --> 00:18:16,419

goes down okay we can get in next week

440

00:18:19,810 --> 00:18:17,770

so far so good

441

00:18:26,830 --> 00:18:19,820

Wow okay

442

00:18:30,489 --> 00:18:26,840

I like these stories recapping some of

443

00:18:32,950 --> 00:18:30,499

these events classic time of art bell

444

00:18:35,320 --> 00:18:32,960

stories that maybe people don't know

445

00:18:37,239 --> 00:18:35,330

about I didn't know about it so you

446

00:18:38,289 --> 00:18:37,249

mentioned it a few weeks ago now they've

447

00:18:39,820 --> 00:18:38,299

been washed away with time so we're just

448

00:18:42,489 --> 00:18:39,830

kind of doing a brief overview a lot of

449

00:18:43,810 --> 00:18:42,499

these interviews are on YouTube and

450

00:18:46,330 --> 00:18:43,820

we're just kind of doing a recap and

451
00:18:47,499 --> 00:18:46,340
overall kind of synopsis of what goes on

452
00:18:49,749 --> 00:18:47,509
there's a lot more information out there

453
00:18:54,159 --> 00:18:49,759
and this also goes into Hollow Earth

454
00:18:56,080 --> 00:18:54,169
theory this goes into relation to you

455
00:18:59,109 --> 00:18:56,090
know Hitler exploring the Antarctic for

456
00:19:03,489 --> 00:18:59,119
a hole into Hollow Earth all this crazy

457
00:19:07,060 --> 00:19:03,499
[h__h] more people more people lizard

458
00:19:08,950 --> 00:19:07,070
people ground people yeah white people

459
00:19:11,409 --> 00:19:08,960
like it's one the point to think about

460
00:19:13,089 --> 00:19:11,419
the the terraform or terraform or

461
00:19:14,320 --> 00:19:13,099
whatever server the people when they're

462
00:19:16,690 --> 00:19:14,330
listening to this show they looked up

463
00:19:18,489 --> 00:19:16,700

and they apparently was cooperating

464

00:19:19,930 --> 00:19:18,499

about radio callin people that they also

465

00:19:21,969 --> 00:19:19,940

could not find it on there and I guess

466

00:19:24,129 --> 00:19:21,979

art Bell is producer looking up they

467

00:19:25,889 --> 00:19:24,139

also found that there's a missing here I

468

00:19:28,979 --> 00:19:25,899

can send it to you this is allegedly

469

00:19:32,649 --> 00:19:28,989

image of what would happen to the I

470

00:19:37,570 --> 00:19:32,659

guess what they saw looks like it was

471

00:19:39,430 --> 00:19:37,580

just cut out you see here anybody could

472

00:19:40,960 --> 00:19:39,440

put that image together yeah it's not

473

00:19:48,759 --> 00:19:40,970

hard to do I could have just made that

474

00:19:51,249 --> 00:19:48,769

in pain yes interesting [h__h] I love this

475

00:19:53,619 --> 00:19:51,259

idea though what a great story that's

476

00:19:55,359 --> 00:19:53,629

awesome

477

00:19:56,859 --> 00:19:55,369

I need to refill my drink you want to
