1
00:00:18,109 --> 00:00:14,440
is doing mousehole part two CREP

2
00:00:21,320 --> 00:00:18,119
Mel's hole part 2 when I hate to go how

3
00:00:25,040 --> 00:00:21,330
deep do we go alright how deep is your

4
00:00:27,529 --> 00:00:25,050
love now as we can remember I guess from

5
00:00:29,570 --> 00:00:27,539
quick recap from last week Mel Watters

6
00:00:32,600 --> 00:00:29,580
was a guest at coast-to-coast am back I

7
00:00:34,580 --> 00:00:32,610
think in 97 he'd called in he had this

8
00:00:36,260 --> 00:00:34,590
large hole in his property that you know

9
00:00:39,470 --> 00:00:36,270
apparently was a bottomless pit of sorts

10
00:00:41,900 --> 00:00:39,480
and one thing led to another after his

11
00:00:45,020 --> 00:00:41,910
broadcast was there he got visited by

12
00:00:47,240 --> 00:00:45,030
the government they eventually wound up

13
00:00:49,720 --> 00:00:47,250

waking up in San Francisco after he'd

14

00:00:53,450 --> 00:00:49,730

been knocked out right in a police van I

15

00:00:55,369 --> 00:00:53,460

speculated that he was on acid could be

16

00:00:56,569 --> 00:00:55,379

yeah they also look at keys he believed

17

00:00:59,720 --> 00:00:56,579

he said it looked like he'd been hooked

18

00:01:02,150 --> 00:00:59,730

up to an IV he was giving a direct IV of

19

00:01:04,399 --> 00:01:02,160

GHB okay good

20

00:01:08,510 --> 00:01:04,409

yeah it's back in the really get good at

21

00:01:15,340 --> 00:01:08,520

it yeah he's tripping balls man that

22

00:01:17,719 --> 00:01:15,350

aerosol delivery now I'm here for

23

00:01:19,340 --> 00:01:17,729

actually I have a clip but I guess we

24

00:01:20,690 --> 00:01:19,350

don't you know screw up you don't mean

25

00:01:23,120 --> 00:01:20,700

we don't need to hear it I'll just give

26

00:01:26,240 --> 00:01:23,130

us the rundown just a clip of him

27

00:01:28,039 --> 00:01:26,250

talking in our Bell anyways so kind of

28

00:01:29,899 --> 00:01:28,049

other oddities at left other put in this

29

00:01:32,109 --> 00:01:29,909

segment vermelha hobby making belt

30

00:01:34,399 --> 00:01:32,119

buckles he sold it in local markets and

31

00:01:36,109 --> 00:01:34,409

he was missing this homemade belt buckle

32

00:01:38,899 --> 00:01:36,119

he'd worn when he woke in San Francisco

33

00:01:41,179 --> 00:01:38,909

now on his property when he had it he

34

00:01:42,740 --> 00:01:41,189

had found these Chinese traditional New

35

00:01:45,560 --> 00:01:42,750

Year's envelopes they're called like

36

00:01:47,960 --> 00:01:45,570

lucky money envelopes and you know that

37

00:01:49,940 --> 00:01:47,970

would be out at Chinese New Year and he

38

00:01:52,039 --> 00:01:49,950

found these comedian the one he found

39

00:01:54,410 --> 00:01:52,049

his property contained American dimes it

40

00:01:56,090 --> 00:01:54,420

was a near the location of the hole and

41

00:01:58,999 --> 00:01:56,100

he apparently used these dimes of his

42

00:02:00,350 --> 00:01:59,009

homemade belt buckles now Mel was able

43

00:02:02,330 --> 00:02:00,360

to track down one of the owners these

44

00:02:04,910 --> 00:02:02,340

belt buckles he had sold to back in

45

00:02:06,980 --> 00:02:04,920

Ellensburg Washington and heavenly owner

46

00:02:09,050 --> 00:02:06,990

had noticed that the diamond was

47

00:02:11,540 --> 00:02:09,060

mentioned in 1943 even though there were

48

00:02:12,860 --> 00:02:11,550

no dimes in 1943 with the bruza belts

49

00:02:15,979 --> 00:02:12,870

face on him because

50

00:02:17,869 --> 00:02:15,989

the air was still alive so this is

51
00:02:18,979 --> 00:02:17,879
apparently in 1943 min to dine with FDR

52
00:02:21,380 --> 00:02:18,989
s face on it hmm

53
00:02:22,789 --> 00:02:21,390
and apparently every American coin is

54
00:02:24,860 --> 00:02:22,799
marked with a letter on it they indicate

55
00:02:26,570 --> 00:02:24,870
in which city it was minted these dimes

56
00:02:33,140 --> 00:02:26,580
were marked with the letter B in which

57
00:02:37,910 --> 00:02:33,150
no city is ever minted a diamond yeah

58
00:02:41,479 --> 00:02:37,920
what is it like C D the San Francisco

59
00:02:43,190 --> 00:02:41,489
they were minted in New York yes they

60
00:02:45,220 --> 00:02:43,200
looking currency but it's all there the

61
00:02:48,710 --> 00:02:45,230
city of mints a Denver is a mint I think

62
00:02:51,890 --> 00:02:48,720
mm-hmm now the owner of the Bell Buckle

63
00:02:53,990 --> 00:02:51,900

stated that he had brought the coin to

64

00:02:56,690 --> 00:02:54,000

the to a coin dealer who could not

65

00:02:58,759 --> 00:02:56,700

explain what a wide existed but he

66

00:03:00,259 --> 00:02:58,769

offered to buy the dime for a very large

67

00:03:02,240 --> 00:03:00,269

sum of money thinking it was some kind

68

00:03:05,509 --> 00:03:02,250

of rare misprint or something like that

69

00:03:07,069 --> 00:03:05,519

the man decided to think about the offer

70

00:03:08,809 --> 00:03:07,079

for a while but a few days later the

71

00:03:13,250 --> 00:03:08,819

Treasury Department came confiscated the

72

00:03:15,530 --> 00:03:13,260

coin from it what they don't like get a

73

00:03:16,930 --> 00:03:15,540

Treasury Department does not like weird

74

00:03:19,550 --> 00:03:16,940

money out there that's for sure

75

00:03:21,349 --> 00:03:19,560

especially something that has false mint

76

00:03:23,180 --> 00:03:21,359

marks on it like that yeah I could have

77

00:03:24,080 --> 00:03:23,190

thought it was counterfeit but oh yeah

78

00:03:26,780 --> 00:03:24,090

they probably did think it was

79

00:03:29,180 --> 00:03:26,790

counterfeit I guess related to the hole

80

00:03:31,250 --> 00:03:29,190

now at that point the show Mel begins to

81

00:03:35,330 --> 00:03:31,260

explain that art even contacted by

82

00:03:36,680 --> 00:03:35,340

Native American tribe in Nevada now this

83

00:03:39,199 --> 00:03:36,690

group of Native Americans had heard

84

00:03:40,759 --> 00:03:39,209

melon coast-to-coast am now when I'm

85

00:03:43,309 --> 00:03:40,769

referring to his eyes the second

86

00:03:44,750 --> 00:03:43,319

interview because the this part was part

87

00:03:46,610 --> 00:03:44,760

of the second interview I'm talking

88

00:03:48,860 --> 00:03:46,620

about now this is some years later I

89

00:03:51,319 --> 00:03:48,870

think four or five years later and he

90

00:03:52,430 --> 00:03:51,329

was back on and these Native American

91

00:03:53,900 --> 00:03:52,440

had heard him on the coast to coast his

92

00:03:55,339 --> 00:03:53,910

original interview back in 97 they

93

00:03:56,960 --> 00:03:55,349

invited us in Nevada to discuss their

94

00:04:00,289 --> 00:03:56,970

mutual interest in wild plants and

95

00:04:01,879 --> 00:04:00,299

herbal remedies now Mel when he was

96

00:04:03,619 --> 00:04:01,889

there visiting them in Nevada asked them

97

00:04:05,990 --> 00:04:03,629

about a variety of plants which grew

98

00:04:09,110 --> 00:04:06,000

native the whole on his former property

99

00:04:11,599 --> 00:04:09,120

and probably there was an area where the

100

00:04:13,580 --> 00:04:11,609

Native Americans lived it which was

101
00:04:17,210 --> 00:04:13,590
inhabited by a group of boss settlers

102
00:04:18,409 --> 00:04:17,220
and Bosque's for 13 Ft minority from

103
00:04:19,909 --> 00:04:18,419
Reverend Spain but they had apparently

104
00:04:21,979 --> 00:04:19,919
have inherited this area by the Native

105
00:04:24,240 --> 00:04:21,989
American tribes since 1800s where

106
00:04:27,060 --> 00:04:24,250
apparently similar plans could be found

107
00:04:29,340 --> 00:04:27,070
now apparently this boss village

108
00:04:32,670 --> 00:04:29,350
surrounded another hole I think it's a

109
00:04:35,070 --> 00:04:32,680
Basque Basque its the region name and

110
00:04:39,500 --> 00:04:35,080
it's a part of Spain that they are still

111
00:04:45,660 --> 00:04:39,510
today trying to secede from the country

112
00:04:48,240 --> 00:04:45,670
but anyways uh the whole correct however

113
00:04:51,330 --> 00:04:48,250

far away is this other hole it's in

114

00:04:53,720 --> 00:04:51,340

Nevada okay so it is I think more holes

115

00:04:56,910 --> 00:04:53,730

equal more opportunity that's right

116

00:04:58,620 --> 00:04:56,920

there's at least two down near this area

117

00:05:00,600 --> 00:04:58,630

where these holes are at or insert we

118

00:05:00,990 --> 00:05:00,610

can do two in the pink and one in the

119

00:05:05,070 --> 00:05:01,000

stink

120

00:05:07,380 --> 00:05:05,080

yeah right we've already got the fishing

121

00:05:08,460 --> 00:05:07,390

line all the way extended into the pink

122

00:05:10,640 --> 00:05:08,470

oh yeah

123

00:05:13,470 --> 00:05:10,650

dropping it in a thousand feet it's

124

00:05:15,390 --> 00:05:13,480

definitely eight inches

125

00:05:18,450 --> 00:05:15,400

far down as it's gone we haven't heard

126

00:05:19,980 --> 00:05:18,460

it hit him all right so Mel is now he's

127

00:05:23,159 --> 00:05:19,990

near the stink

128

00:05:25,230 --> 00:05:23,169

what will he put in it well this hole

129

00:05:32,370 --> 00:05:25,240

had a metal rim there was two feet wide

130

00:05:34,500 --> 00:05:32,380

tall yeah it had kind of a rail going on

131

00:05:36,570 --> 00:05:34,510

either side into the pit kind of like

132

00:05:38,550 --> 00:05:36,580

something you'd slide trashcan like a

133

00:05:41,790 --> 00:05:38,560

try okay so they were pretty advanced

134

00:05:44,820 --> 00:05:41,800

and deploying things into the pit this

135

00:05:46,980 --> 00:05:44,830

structure was there though it's kind of

136

00:05:50,219 --> 00:05:46,990

like the original hole has like what

137

00:05:54,180 --> 00:05:50,229

nine foot down of like walk set into the

138

00:05:56,280 --> 00:05:54,190

land it kind of well like yeah yeah with

139

00:05:59,640 --> 00:05:56,290

a like a slow retaining wall okay a

140

00:06:01,409 --> 00:05:59,650

short retaining wall correct and this

141

00:06:03,690 --> 00:06:01,419

also had net was nine feet diameter like

142

00:06:04,860 --> 00:06:03,700

the one in Mel's property but we were

143

00:06:06,480 --> 00:06:04,870

think about this was the metal rim

144

00:06:09,300 --> 00:06:06,490

disappears from view and observed at

145

00:06:10,800 --> 00:06:09,310

over an unspecified distance so as you

146

00:06:15,300 --> 00:06:10,810

backed off in the middle of rim it would

147

00:06:18,810 --> 00:06:15,310

disappear hey what was it shiny it was

148

00:06:21,630 --> 00:06:18,820

like chromed and that's why I know it

149

00:06:23,480 --> 00:06:21,640

was they just of the type of metal

150

00:06:25,920 --> 00:06:23,490

wasn't specified and said it would just

151
00:06:27,780 --> 00:06:25,930
leave sight after a certain distance of

152
00:06:29,340 --> 00:06:27,790
not be there backing away from it so

153
00:06:33,600 --> 00:06:29,350
there's a lot of holes in this story

154
00:06:35,969 --> 00:06:33,610
besides the two holes there's the one in

155
00:06:37,080 --> 00:06:35,979
the boss village or baths or however you

156
00:06:40,530 --> 00:06:37,090
want to call them and there's

157
00:06:43,560 --> 00:06:40,540
Mills property as far as we know okay go

158
00:06:45,030 --> 00:06:43,570
on and like this like the one of Mel's

159
00:06:47,670 --> 00:06:45,040
property the hole counts a canceled out

160
00:06:50,340 --> 00:06:47,680
sound above it and within the area and

161
00:06:52,350 --> 00:06:50,350
the top of the metal rim yeah also

162
00:06:56,040 --> 00:06:52,360
another resemblances the animals would

163
00:06:58,770 --> 00:06:56,050

go nowhere near this hole as well now

164

00:07:01,350 --> 00:06:58,780

have a sorry no go ahead

165

00:07:02,820 --> 00:07:01,360

so apparently a black bean was also

166

00:07:05,820 --> 00:07:02,830

cited leaving this all kind of a black

167

00:07:09,570 --> 00:07:05,830

bean of darkness from the one on the

168

00:07:11,219 --> 00:07:09,580

boss village around the time that when a

169

00:07:13,409 --> 00:07:11,229

witness coming from the fellows property

170

00:07:15,240 --> 00:07:13,419

when he think I guess had been evicted

171

00:07:16,830 --> 00:07:15,250

of I guess you could say that so around

172

00:07:18,600 --> 00:07:16,840

the similar type of bone same time from

173

00:07:22,409 --> 00:07:18,610

these black bean from seeing the leaving

174

00:07:24,150 --> 00:07:22,419

these holes more black beams more holes

175

00:07:27,170 --> 00:07:24,160

more everything if this looks like a

176

00:07:32,190 --> 00:07:27,180

parallel hole a second Millis hole

177

00:07:33,810 --> 00:07:32,200

that's always right kind of now this has

178

00:07:38,490 --> 00:07:33,820

been mailed the villagers decided to

179

00:07:40,529 --> 00:07:38,500

experiment on this all the first time

180

00:07:42,629 --> 00:07:40,539

they okay the first time they do is they

181

00:07:46,409 --> 00:07:42,639

get a bucket of ice just regular freezer

182

00:07:47,790 --> 00:07:46,419

ice oh and they lowered it down a fire

183

00:07:51,060 --> 00:07:47,800

far as I could would say estimated to be

184

00:07:53,250 --> 00:07:51,070

1500 feet down below the surface into

185

00:07:55,170 --> 00:07:53,260

the hole and they kept another buck

186

00:07:56,490 --> 00:07:55,180

bucket of ice proxy the same amount on

187

00:07:59,310 --> 00:07:56,500

the surface with them as kind of a

188

00:08:01,020 --> 00:07:59,320

control to see what happened to you to

189

00:08:02,310 --> 00:08:01,030

regularize looked out in the air and

190

00:08:04,770 --> 00:08:02,320

they waited for the control iced of

191

00:08:07,020 --> 00:08:04,780

mount about half way and they brought

192

00:08:09,360 --> 00:08:07,030

the ice that was sunk into the hole back

193

00:08:11,490 --> 00:08:09,370

up and these ice had not melted at all

194

00:08:15,540 --> 00:08:11,500

well isn't the other hole mouse hole

195

00:08:18,210 --> 00:08:15,550

isn't that one really hot really hot

196

00:08:20,219 --> 00:08:18,220

I thought Mel's hole was was extremely

197

00:08:22,680 --> 00:08:20,229

hot and holes are hot

198

00:08:24,089 --> 00:08:22,690

well maybe am I wrong about that I

199

00:08:26,969 --> 00:08:24,099

thought they when they put down like a

200

00:08:31,200 --> 00:08:26,979

dead animal ate it cooked no I think

201
00:08:33,600 --> 00:08:31,210
you're thinking about this one yeah okay

202
00:08:36,209 --> 00:08:33,610
so tell us whether the alternative hole

203
00:08:39,209 --> 00:08:36,219
the ice down the ice does not melt the

204
00:08:41,790 --> 00:08:39,219
surface ice is melting and the surface

205
00:08:44,460 --> 00:08:41,800
ice is melting the the ice they brought

206
00:08:45,840 --> 00:08:44,470
back up was this is lukewarm but it

207
00:08:46,949 --> 00:08:45,850
continued to remain solid even when

208
00:08:49,080 --> 00:08:46,959
sitting in their hands when you know

209
00:08:51,180 --> 00:08:49,090
most isolated start to Mel

210
00:08:52,920 --> 00:08:51,190
and they tried to melt ice by cooking it

211
00:08:55,080 --> 00:08:52,930
over an open fire fire but rather than

212
00:08:57,240 --> 00:08:55,090
melting the ice caught fire the ice the

213
00:08:58,980 --> 00:08:57,250

ice actually lit on fire wasn't like a

214

00:09:00,780 --> 00:08:58,990

super bright flame like gasoline was

215

00:09:02,280 --> 00:09:00,790

more like a doll kind of flame you'd see

216

00:09:06,600 --> 00:09:02,290

when you light a grill like that bluish

217

00:09:08,310 --> 00:09:06,610

kind of little cap of yellow now Mel

218

00:09:10,769 --> 00:09:08,320

says the bucket of ice continued to burn

219

00:09:11,850 --> 00:09:10,779

for months and he presumed that was

220

00:09:14,250 --> 00:09:11,860

still burning at the moment when he's

221

00:09:16,740 --> 00:09:14,260

telling this the story on air a bucket

222

00:09:20,820 --> 00:09:16,750

of ice burning for months

223

00:09:22,980 --> 00:09:20,830

so this hole makes free energy it's a

224

00:09:27,060 --> 00:09:22,990

free energy machine let's put some coal

225

00:09:28,440 --> 00:09:27,070

down it yes so one of the villagers took

226

00:09:30,990 --> 00:09:28,450

some of the brain ice home to put into a

227

00:09:32,670 --> 00:09:31,000

stove and apparently as he was able to

228

00:09:34,590 --> 00:09:32,680

use this I used to heat his cabin keep

229

00:09:36,690 --> 00:09:34,600

him warm during the winter and so they

230

00:09:38,880 --> 00:09:36,700

repeated this bucket experiment with ice

231

00:09:40,110 --> 00:09:38,890

and they said about they got these they

232

00:09:42,570 --> 00:09:40,120

were able to duplicate the results about

233

00:09:46,110 --> 00:09:42,580

a third of the time by getting the ice

234

00:09:48,630 --> 00:09:46,120

to not melt in would catch fire bad

235

00:09:49,560 --> 00:09:48,640

third of time that's not bad okay you

236

00:09:52,470 --> 00:09:49,570

may be able to make some money off that

237

00:09:53,790 --> 00:09:52,480

that's a profit maker yeah they should

238

00:09:56,550 --> 00:09:53,800

have sent like I said they should have

239

00:10:00,030 --> 00:09:56,560

sent some coal down there see what

240

00:10:02,100 --> 00:10:00,040

happens if that coal burning but uh so

241

00:10:04,560 --> 00:10:02,110

one so one of the boss wanted to be

242

00:10:10,950 --> 00:10:04,570

lowered into the hole and one of the

243

00:10:15,350 --> 00:10:10,960

people yeah one of the people okay I'm

244

00:10:17,280 --> 00:10:15,360

ready put me in the hole put me in coach

245

00:10:19,380 --> 00:10:17,290

but they talked him out of it because

246

00:10:21,329 --> 00:10:19,390

they said what happened to the ice would

247

00:10:24,450 --> 00:10:21,339

kind of mutated essentially they made

248

00:10:27,150 --> 00:10:24,460

magic ice so they bring you back up we

249

00:10:31,110 --> 00:10:27,160

might have to set you on fire to see if

250

00:10:33,870 --> 00:10:31,120

you catch my said they learn cheap into

251

00:10:35,220 --> 00:10:33,880

the pit oh now this she put up such a

252

00:10:36,810 --> 00:10:35,230

damn fight and they're bringing closer

253

00:10:39,329 --> 00:10:36,820

to the Hall they had beat it over the

254

00:10:40,079 --> 00:10:39,339

head to get into secured wood crate damn

255

00:10:42,630 --> 00:10:40,089

straight

256

00:10:44,699 --> 00:10:42,640

so when they placed it crate so that she

257

00:10:46,140 --> 00:10:44,709

did someone come to and started freaking

258

00:10:48,630 --> 00:10:46,150

out but whenever they place the sheep

259

00:10:50,220 --> 00:10:48,640

and the crate over the hall you couldn't

260

00:10:51,990 --> 00:10:50,230

hear it anymore you can see it's shaking

261

00:10:54,420 --> 00:10:52,000

this you know presumably be making noise

262

00:10:56,250 --> 00:10:54,430

and freaking out still but no sound

263

00:10:57,720 --> 00:10:56,260

could be detected so they repeated the

264

00:10:59,280 --> 00:10:57,730

same thing with the ice they lower down

265

00:11:00,359 --> 00:10:59,290

1500 feet let it sit there for 30

266

00:11:03,119 --> 00:11:00,369

minutes

267

00:11:07,210 --> 00:11:03,129

okay what's going on who's applauding

268

00:11:09,160 --> 00:11:07,220

Iowa's very good news is the Sheep is

269

00:11:15,040 --> 00:11:09,170

now gonna be dead and I hate them

270

00:11:15,609 --> 00:11:15,050

okay Joe so they brought the box to the

271

00:11:18,579 --> 00:11:15,619

surface again

272

00:11:20,350 --> 00:11:18,589

well like hey get the get the onions

273

00:11:22,869 --> 00:11:20,360

ready and the pitas man we're gonna have

274

00:11:25,720 --> 00:11:22,879

some heroes yeah exactly

275

00:11:30,999 --> 00:11:25,730

but yeah so they found the Sheep dead

276

00:11:35,350 --> 00:11:31,009

inside was it cut off it was ice no just

277

00:11:36,939 --> 00:11:35,360

a sheep oh I could do that yeah we can

278

00:11:38,739 --> 00:11:36,949

kill a sheep that's no problem he could

279

00:11:40,900 --> 00:11:38,749

throw a sheep den honk yeah

280

00:11:43,689 --> 00:11:40,910

so one of the guys is a butcher there

281

00:11:46,379 --> 00:11:43,699

when the boss the locals hmm oh yeah

282

00:11:49,509 --> 00:11:46,389

they're known for that actually and they

283

00:11:51,160 --> 00:11:49,519

so they did he essentially volunteer to

284

00:11:52,629 --> 00:11:51,170

dissect / butcher it

285

00:11:55,329 --> 00:11:52,639

so the inside of the sheave appeared to

286

00:11:57,369 --> 00:11:55,339

be had been cooked the inside was cooked

287

00:11:58,829 --> 00:11:57,379

okay if he was like let's get the pita

288

00:12:02,049 --> 00:11:58,839

bread daddy

289

00:12:03,220 --> 00:12:02,059

well this is work I guess weirder if you

290

00:12:05,319 --> 00:12:03,230

can believe it yeah so they notice

291

00:12:06,549 --> 00:12:05,329

there's a strange drought gel in the

292

00:12:07,960 --> 00:12:06,559

flesh and there's a lot of its

293

00:12:11,559 --> 00:12:07,970

surrounding like a large tumor like

294

00:12:13,359 --> 00:12:11,569

growth inside of the Sheep so they

295

00:12:15,160 --> 00:12:13,369

removed this tumor which appeared to be

296

00:12:19,449 --> 00:12:15,170

moving and kind of like a pulsing like

297

00:12:21,879 --> 00:12:19,459

it's like she kind of sack okay so they

298

00:12:23,919 --> 00:12:21,889

cut this tumor open and a creature

299

00:12:25,569 --> 00:12:23,929

emerged from it that apparently looked

300

00:12:36,879 --> 00:12:25,579

like an 18 inch to long cross between a

301
00:12:41,169 --> 00:12:36,889
fetus and a seal it was the Sheep was an

302
00:12:43,329 --> 00:12:41,179
incubator for another life-form so it

303
00:12:46,480 --> 00:12:43,339
would appear yes is learning to hold a

304
00:12:49,359 --> 00:12:46,490
face sucker got it yeah mmm laid some

305
00:12:51,369 --> 00:12:49,369
eggs down inside of it and so this thing

306
00:12:53,859 --> 00:12:51,379
like had apparently said head flip like

307
00:12:55,449 --> 00:12:53,869
human like eyes and stared up at Mel on

308
00:12:56,319 --> 00:12:55,459
the breast of the group where they were

309
00:12:59,259 --> 00:12:56,329
just kind of stared at each other for

310
00:13:00,819 --> 00:12:59,269
some time kind of awestruck one of the

311
00:13:03,220 --> 00:13:00,829
people suggested they kill it but they

312
00:13:05,559 --> 00:13:03,230
didn't eventually the thing just kind of

313
00:13:11,559 --> 00:13:05,569

waddle off and just jump back down into

314

00:13:14,080 --> 00:13:11,569

the hole well did we discuss us about

315

00:13:16,210 --> 00:13:14,090

the goat fetus

316

00:13:17,620 --> 00:13:16,220

didn't we didn't you did you guys talk

317

00:13:20,560 --> 00:13:17,630

about the goat fetus a little while ago

318

00:13:24,580 --> 00:13:20,570

that was there like it it's a human goat

319

00:13:27,280 --> 00:13:24,590

man thing and the thing is is like

320

00:13:29,560 --> 00:13:27,290

almost all mammals look very similar

321

00:13:32,350 --> 00:13:29,570

when they're faint like not fully

322

00:13:34,600 --> 00:13:32,360

developed when the the goat fetus thing

323

00:13:37,060 --> 00:13:34,610

came up before it was weird I think

324

00:13:38,680 --> 00:13:37,070

there was a story where a man had sex of

325

00:13:40,510 --> 00:13:38,690

the goat and the goat had like a human

326

00:13:42,370 --> 00:13:40,520

face and then we were discussing whether

327

00:13:46,980 --> 00:13:42,380

or not we would want to have sex with it

328

00:13:55,360 --> 00:13:46,990

oh yeah yeah possibly I was on the side

329

00:13:57,520 --> 00:13:55,370

yeah I think it was basically are they

330

00:13:59,440 --> 00:13:57,530

more attracted to goats that look like

331

00:14:01,540 --> 00:13:59,450

humans or do they want to have sex with

332

00:14:03,730 --> 00:14:01,550

like regular goats yeah do you want to

333

00:14:07,930 --> 00:14:03,740

have sex with a goat with a human head

334

00:14:10,420 --> 00:14:07,940

or a human body with a goat head what

335

00:14:17,200 --> 00:14:10,430

about an 18-inch creature that waddles

336

00:14:18,820 --> 00:14:17,210

and has human eyes yes so apparently the

337

00:14:21,220 --> 00:14:18,830

only witness were deeply moved by this

338

00:14:23,890 --> 00:14:21,230

experience and emotionally drained and

339

00:14:25,240 --> 00:14:23,900

they ultimately decided to dump the

340

00:14:29,260 --> 00:14:25,250

remains of the sheet back into the hall

341

00:14:32,620 --> 00:14:29,270

good about the boss killer before they

342

00:14:33,940 --> 00:14:32,630

all went off to bed I gave the object to

343

00:14:35,530 --> 00:14:33,950

Mel put it in his hand and told him to

344

00:14:37,450 --> 00:14:35,540

put it away and not look at it right

345

00:14:41,620 --> 00:14:37,460

away there any reports of people taking

346

00:14:43,840 --> 00:14:41,630

a [h__h] and all no but I'm imagining that

347

00:14:45,820 --> 00:14:43,850

what I would do you drinking go out the

348

00:14:49,240 --> 00:14:45,830

hate to get in the hole do so yourself

349

00:15:01,300 --> 00:14:49,250

off the rope I got you dude repelled

350

00:15:09,790 --> 00:15:01,310

down there and take a [h__h] dimension

351

00:15:12,220 --> 00:15:09,800

civilization comes out in the sky of

352

00:15:14,530 --> 00:15:12,230

some other alternate earth and [h__h] just

353

00:15:16,540 --> 00:15:14,540

constantly raiding down you know on

354

00:15:19,020 --> 00:15:16,550

Mel's original hole there just like

355

00:15:27,480 --> 00:15:19,030

almost [h__h] these government we are

356

00:15:31,020 --> 00:15:27,490

it's coming they'll eventually looked at

357

00:15:33,270 --> 00:15:31,030

but I he gave the boss gave him it

358

00:15:35,430 --> 00:15:33,280

turned out to be a naive another Chinese

359

00:15:39,840 --> 00:15:35,440

lucky money envelope with another 1943

360

00:15:44,010 --> 00:15:39,850

Roosevelt dime in it Wow so these people

361

00:15:45,600 --> 00:15:44,020

got some [h__h] cash well okay I guess

362

00:15:48,330 --> 00:15:45,610

the kind of theory there is that this

363

00:15:51,870 --> 00:15:48,340

might be a these halls might be links to

364

00:15:54,240 --> 00:15:51,880

alternate universes or two parallel

365

00:15:56,820 --> 00:15:54,250

timelines I like that a lot because that

366

00:15:58,800 --> 00:15:56,830

goes to kind of like what philip k dick

367

00:16:03,480 --> 00:15:58,810

writes about in the man in the high

368

00:16:05,820 --> 00:16:03,490

castle yes somewhere to that yeah if

369

00:16:07,950 --> 00:16:05,830

anybody doesn't know it's a great book

370

00:16:11,430 --> 00:16:07,960

and also amazon has a series under where

371

00:16:12,870 --> 00:16:11,440

the the Nazis end and the Japanese won

372

00:16:14,130 --> 00:16:12,880

the Second World War and there's an

373

00:16:17,220 --> 00:16:14,140

alternate timeline where Hitler is

374

00:16:19,080 --> 00:16:17,230

really trying to get information on this

375

00:16:21,990 --> 00:16:19,090

alternate timeline very interesting so

376

00:16:24,540 --> 00:16:22,000

yes please continue on with null now

377

00:16:26,190 --> 00:16:24,550

here's some stuff that it's somewhat

378

00:16:28,140 --> 00:16:26,200

entries Dean but I think Mel just

379

00:16:29,540 --> 00:16:28,150

straight up made it up if I mean all

380

00:16:31,980 --> 00:16:29,550

this could be [h__h] which you know

381

00:16:33,540 --> 00:16:31,990

but Mel claims in late August prior to

382

00:16:35,280 --> 00:16:33,550

going to Nevada he'd been diagnosed with

383

00:16:38,130 --> 00:16:35,290

a lethal form of Asafa chol cancel or

384

00:16:39,660 --> 00:16:38,140

esophageal cancer okay so you gave him

385

00:16:41,340 --> 00:16:39,670

six months to live but after returning

386

00:16:44,130 --> 00:16:41,350

from home from Nevada the cancer was

387

00:16:45,930 --> 00:16:44,140

gone and he was complete you know cured

388

00:16:47,370 --> 00:16:45,940

remission and Mel believes is a creature

389

00:16:53,490 --> 00:16:47,380

they had unleashed from the Sheep had

390

00:16:55,740 --> 00:16:53,500

healed him uh-huh that's right now this

391

00:16:58,500 --> 00:16:55,750

is the final update from 2002 which is

392

00:17:00,480 --> 00:16:58,510

not as long as the rest of it okay so

393

00:17:02,070 --> 00:17:00,490

the the dime given to Mel by the boss

394

00:17:03,930 --> 00:17:02,080

Clause does not show up apparently in

395

00:17:06,180 --> 00:17:03,940

photographs or in digital scanners wait

396

00:17:09,390 --> 00:17:06,190

the dime the actual physical dime does

397

00:17:11,730 --> 00:17:09,400

not show up on photographs or on any

398

00:17:13,710 --> 00:17:11,740

kind of scanner okay it's like a vampire

399

00:17:16,920 --> 00:17:13,720

in the mirror sure okay it's kind of

400

00:17:19,230 --> 00:17:16,930

like the the hole is right after you

401
00:17:22,140 --> 00:17:19,240
walk a few feet away from it you can no

402
00:17:24,030 --> 00:17:22,150
longer see the rim right that says this

403
00:17:25,680 --> 00:17:24,040
it also disappears from view from the

404
00:17:28,590 --> 00:17:25,690
observer moves look about 15 feet away

405
00:17:30,570 --> 00:17:28,600
from it it's kind of made of that rim

406
00:17:31,540 --> 00:17:30,580
middle or something like it or maybe

407
00:17:34,180 --> 00:17:31,550
that metal it's

408
00:17:36,660 --> 00:17:34,190
another dimension and the dimes from

409
00:17:40,060 --> 00:17:36,670
another dimension and you can't have

410
00:17:42,340 --> 00:17:40,070
dimensional scans can fax to the other

411
00:17:44,140 --> 00:17:42,350
dimension what about like a [h__\h] ring

412
00:17:48,040 --> 00:17:44,150
made out of this metal can you have

413
00:17:50,440 --> 00:17:48,050

interdimensional like oral yeah made it

414

00:17:51,820 --> 00:17:50,450

out of the on baby why don't we go to

415

00:17:54,370 --> 00:17:51,830

the hole and put [h__h] in them

416

00:17:55,690 --> 00:17:54,380

definitely no it also happen if you

417

00:17:58,150 --> 00:17:55,700

should got done shooting down the hall I

418

00:18:00,130 --> 00:17:58,160

like that we lay out we want to poop in

419

00:18:01,690 --> 00:18:00,140

the hole and put our penises in the hole

420

00:18:11,980 --> 00:18:01,700

and then just see what happens we

421

00:18:13,420 --> 00:18:11,990

finished been there you know in the

422

00:18:15,760 --> 00:18:13,430

alternate dimension do you think Prince

423

00:18:26,400 --> 00:18:15,770

Chris Hanson is actually the predator

424

00:18:37,290 --> 00:18:29,050

take a sheep and put it down Mel's hole

425

00:18:40,240 --> 00:18:37,300

so I gotta help you business to run yeah

426

00:18:41,530 --> 00:18:40,250

so he's trying to hops online and tries

427

00:18:49,540 --> 00:18:41,540

to get people to come to Mel's hole to

428

00:18:51,340 --> 00:18:49,550

shove their dick in there hello how are

429

00:18:55,720 --> 00:18:51,350

you doing can I teach and please you're

430

00:18:57,400 --> 00:18:55,730

blank with my tongue all right thank you

431

00:18:59,680 --> 00:18:57,410

I've never been to this hole before it

432

00:19:01,830 --> 00:18:59,690

is one of my favorites now that I know

433

00:19:06,490 --> 00:19:01,840

there's two I think I need to try both

434

00:19:08,860 --> 00:19:06,500

apparently uh earth has one of few glory

435

00:19:12,160 --> 00:19:08,870

holes in the solar system and that's

436

00:19:17,440 --> 00:19:12,170

what male soul is galactic glory oh oh

437

00:19:23,010 --> 00:19:17,450

yeah interdimensional or you'd

438

00:19:28,630 --> 00:19:25,930

I'm sorry Jeff go ahead the final update

439

00:19:30,610 --> 00:19:28,640
from Mel apparently after Mel had left

440

00:19:32,830 --> 00:19:30,620
and reported back

441

00:19:34,420 --> 00:19:32,840
coast to coast there apparently the

442

00:19:36,640 --> 00:19:34,430
helicopters been flying over the bass

443

00:19:38,590 --> 00:19:36,650
village since Mel reported the second

444

00:19:41,200 --> 00:19:38,600
hole and the burning I skinned the one

445

00:19:42,880 --> 00:19:41,210
man's house it took his cab he took

446

00:19:44,020 --> 00:19:42,890
those cavities as fuel it ended up

447

00:19:45,280 --> 00:19:44,030
sucking the moisture out of the

448

00:19:47,590 --> 00:19:45,290
surrounding air keeping him

449

00:19:49,600 --> 00:19:47,600
thirsty and his skin dry and this

450

00:19:51,190 --> 00:19:49,610
happened to the point where his cabin

451
00:19:53,710 --> 00:19:51,200
descending right into a pile of wood

452
00:19:57,340 --> 00:19:53,720
dust the Stanton stove begun to sink

453
00:19:58,540 --> 00:19:57,350
into the ground now here's where this

454
00:20:00,550 --> 00:19:58,550
kind of gets is kind of like oh by the

455
00:20:02,440 --> 00:20:00,560
way this happened Mel said he contacted

456
00:20:04,180 --> 00:20:02,450
one of the government agents who have

457
00:20:05,590 --> 00:20:04,190
been involved the first Hall about the

458
00:20:06,730 --> 00:20:05,600
cabin and the stove and then the

459
00:20:08,950 --> 00:20:06,740
government apparently had sent

460
00:20:11,320 --> 00:20:08,960
heavy-duty construction equipment to the

461
00:20:13,330 --> 00:20:11,330
site and took multiple large cranes to

462
00:20:14,770 --> 00:20:13,340
lift the stove out of the ground and one

463
00:20:17,530 --> 00:20:14,780

of the largest trucks on earth had to

464

00:20:19,120 --> 00:20:17,540

haul it away and so apparently the

465

00:20:21,340 --> 00:20:19,130

seal-like creature has returned to the

466

00:20:22,720 --> 00:20:21,350

village occasionally and they found a

467

00:20:25,750 --> 00:20:22,730

way to the creature could speak with

468

00:20:27,460 --> 00:20:25,760

them through radio devices the voice

469

00:20:29,290 --> 00:20:27,470

coming through the radio it could not be

470

00:20:34,120 --> 00:20:29,300

recorded and when they tried all showed

471

00:20:36,130 --> 00:20:34,130

up was a series of just radio tones see

472

00:20:38,740 --> 00:20:36,140

like creatures just talking through an

473

00:20:40,150 --> 00:20:38,750

iPod and they can't record it correct

474

00:20:42,010 --> 00:20:40,160

and the pairing of the creature warned

475

00:20:44,470 --> 00:20:42,020

that the very nice is a very dangerous

476

00:20:46,810 --> 00:20:44,480

when improperly used in that it could

477

00:20:49,620 --> 00:20:46,820

probably in would destroy the world burn

478

00:20:51,880 --> 00:20:49,630

the burning ice is some kind of like

479

00:20:54,910 --> 00:20:51,890

infinite fuel source or something that

480

00:20:59,170 --> 00:20:54,920

could mostly like a sounds like dark

481

00:21:02,590 --> 00:20:59,180

energy or dark matter like energy

482

00:21:05,410 --> 00:21:02,600

machine kind of thing it's kinda like in

483

00:21:07,660 --> 00:21:05,420

Futurama when the the aliens poop is the

484

00:21:10,230 --> 00:21:07,670

power source of the spaceship yeah it's

485

00:21:14,830 --> 00:21:10,240

super concentrated like dark matter okay

486

00:21:16,240 --> 00:21:14,840

so it's like super heavy very dense so

487

00:21:18,370 --> 00:21:16,250

the last thing the seal said with their

488

00:21:19,930 --> 00:21:18,380

beans living on other worlds who plan to

489

00:21:21,640 --> 00:21:19,940

move to earth the humans were to destroy

490

00:21:23,800 --> 00:21:21,650

ourselves through nuclear war and that

491

00:21:26,740 --> 00:21:23,810

they would also most likely misuse this

492

00:21:28,450 --> 00:21:26,750

dark ice energy as well on the world it

493

00:21:33,310 --> 00:21:28,460

will be nice I think you will love it

494

00:21:36,570 --> 00:21:33,320

yes and and then Mel has not been heard

495

00:21:40,810 --> 00:21:36,580

from since that final interview Wow

496

00:21:50,110 --> 00:21:40,820

well that is the conclusion to our Mel's

497

00:21:54,250 --> 00:21:51,580

we're sending help immediately mrs.

498

00:21:56,650 --> 00:21:54,260

Fletcher I'll bring back a monster the

499

00:21:59,650 --> 00:21:56,660

week next show yeah I like this nose

500

00:22:03,400 --> 00:21:59,660

whole thing but it's so out there I mean

501
00:22:07,630 --> 00:22:03,410
it isn't supposedly in theory a tangible

502
00:22:09,700 --> 00:22:07,640
thing you can go visit but I there's

503
00:22:11,740 --> 00:22:09,710
been nothing I could find online there's

504
00:22:12,430 --> 00:22:11,750
no pictures there's been no video

505
00:22:15,960 --> 00:22:12,440
evidence

506
00:22:18,550 --> 00:22:15,970
Google Earth thing that I found yeah but

507
00:22:20,260 --> 00:22:18,560
Google or anything black it out and then

508
00:22:22,090 --> 00:22:20,270
clean that's it oh no this isn't

509
00:22:22,960 --> 00:22:22,100
actually like a whole like out in the

510
00:22:26,100 --> 00:22:22,970
area where he lived

511
00:22:29,080 --> 00:22:26,110
oh you can see it on Google Earth okay

512
00:22:30,400 --> 00:22:29,090
it's in the same mountain range which I

513
00:22:32,410 --> 00:22:30,410

guess hypothetically could have been the

514

00:22:35,560 --> 00:22:32,420

hall who knows he could have just had a

515

00:22:37,420 --> 00:22:35,570

[\h__\h] old well and he decided to you

516

00:22:38,980 --> 00:22:37,430

know take a bunch of drugs cuz he had

517

00:22:40,750 --> 00:22:38,990

cancer insides gonna [\h__\h] heart

518

00:22:44,590 --> 00:22:40,760

belts I'm gonna [\h__\h] in the well and go

519

00:22:47,980 --> 00:22:44,600

call radio station well and it see it

520

00:22:50,050 --> 00:22:47,990

does strike of a tall tale that just got

521

00:22:52,300 --> 00:22:50,060

out of hand like oh yeah we found

522

00:22:55,780 --> 00:22:52,310

another one you know there was a single

523

00:22:57,430 --> 00:22:55,790

creature my cancer and it could talk to

524

00:23:01,300 --> 00:22:57,440

you and there's burning eyes there's

525

00:23:03,970 --> 00:23:01,310

magic guys it's like a ghost story that

526

00:23:07,120 --> 00:23:03,980

we could make magic ice but only one out

527

00:23:08,680 --> 00:23:07,130

of three times I like like the first

528

00:23:12,460 --> 00:23:08,690

part of the story seems like you know

529

00:23:14,860 --> 00:23:12,470

something much more plausible than the

530

00:23:17,110 --> 00:23:14,870

second half it generates but the

531

00:23:18,790 --> 00:23:17,120

connection between the Chinese New

532

00:23:20,050 --> 00:23:18,800

Year's lucky money envelopes and the

533

00:23:22,480 --> 00:23:20,060

Roosevelt dimes kind of gives you at

534

00:23:25,690 --> 00:23:22,490

least a bridge of perhaps a parallel

535

00:23:27,310 --> 00:23:25,700

timeline yeah there's no physical proof

536

00:23:32,920 --> 00:23:27,320

because the dimes can't be photographed

537

00:23:34,480 --> 00:23:32,930

or it's a little the the second half of

538

00:23:36,790 --> 00:23:34,490

this story became like Lethal Weapon 3

539

00:23:39,480 --> 00:23:36,800

and 4 where it wasn't really necessary

540

00:23:42,700 --> 00:23:39,490

and it just kind of spun out of control

541

00:23:44,740 --> 00:23:42,710

yeah I mean Lethal Weapon 3 was an ad

542

00:23:47,020 --> 00:23:44,750

bad it was for we're really went off the

543

00:23:51,190 --> 00:23:47,030

rails okay fine we all have heard six

544

00:23:58,190 --> 00:23:51,200

also very good okay I think it's my time
