

POKÉMON GO CONSPIRACY

1
00:00:10,910 --> 00:00:07,430
hey everyone this is a clip from our

2
00:00:12,770 --> 00:00:10,920
most recent podcast I'm a little bit

3
00:00:15,860 --> 00:00:12,780
inebriated by the time we get to the

4
00:00:18,170 --> 00:00:15,870
pokey mon conspiracy because i'm saying

5
00:00:20,599 --> 00:00:18,180
the word pokeyman like it's a superhero

6
00:00:23,000 --> 00:00:20,609
Pokemon it might be a little funny in

7
00:00:26,029 --> 00:00:23,010
drunken but I think the information that

8
00:00:27,980 --> 00:00:26,039
Joe presents is interesting if you want

9
00:00:31,339 --> 00:00:27,990
full podcast episodes go to our victim

10
00:00:33,500 --> 00:00:31,349
mail com or subscribe on iTunes or find

11
00:00:35,360 --> 00:00:33,510
us on stitcher thank you and talk to you

12
00:00:37,220 --> 00:00:35,370
later all right let's do a little

13
00:00:40,880 --> 00:00:37,230

pokeyman conspiracy how about that Joe

14

00:00:44,090 --> 00:00:40,890

yeah have you played it no I downloaded

15

00:00:46,250 --> 00:00:44,100

it and instantly deleted it yeah you

16

00:00:47,569 --> 00:00:46,260

didn't even try it I've got three poke

17

00:00:49,130 --> 00:00:47,579

you know why cuz the glitched

18

00:00:51,020 --> 00:00:49,140

out of me because the servers

19

00:00:53,299 --> 00:00:51,030

were apparently that's the

20

00:00:55,459 --> 00:00:53,309

thing people were saying that and i

21

00:00:56,990 --> 00:00:55,469

glitched on me my first Pokemon I saw

22

00:00:59,779 --> 00:00:57,000

somebody else have the same issue today

23

00:01:02,209 --> 00:00:59,789

like you catch your first Pokemon and

24

00:01:04,670 --> 00:01:02,219

the game locks up on an iphone happens

25

00:01:07,429 --> 00:01:04,680

they haven't ate totally unprepared

26
00:01:09,109 --> 00:01:07,439
server wise for how popular was this was

27
00:01:11,810 --> 00:01:09,119
going to be and there is a pokeyman

28
00:01:13,399 --> 00:01:11,820
conspiracy going on there's a couple

29
00:01:16,160 --> 00:01:13,409
different things going on that there are

30
00:01:18,020 --> 00:01:16,170
people using this augmented reality game

31
00:01:20,149 --> 00:01:18,030
where you use your camera and you spot

32
00:01:22,060 --> 00:01:20,159
the pokeyman by looking at your camera

33
00:01:24,980 --> 00:01:22,070
or pokeyman or creature pogi creature

34
00:01:26,810 --> 00:01:24,990
you capture it and you can train that

35
00:01:28,840 --> 00:01:26,820
creature in a certain gym designated in

36
00:01:30,920 --> 00:01:28,850
GPS coordinates you go to that place and

37
00:01:32,060 --> 00:01:30,930
your constant looking at your phony

38
00:01:33,590 --> 00:01:32,070

entire time so you're not paying

39

00:01:35,060 --> 00:01:33,600

attention at your surroundings around

40

00:01:37,429 --> 00:01:35,070

you granted it's getting you off the

41

00:01:39,499 --> 00:01:37,439

couch you have a house they view as a

42

00:01:42,140 --> 00:01:39,509

positive as an interactive environmental

43

00:01:43,850 --> 00:01:42,150

game that's great and all but this

44

00:01:46,580 --> 00:01:43,860

pokeyman game initially when you

45

00:01:49,190 --> 00:01:46,590

downloaded it it wanted full access to

46

00:01:50,810 --> 00:01:49,200

your google account in order to do that

47

00:01:53,889 --> 00:01:50,820

your email is your messages your

48

00:01:58,010 --> 00:01:53,899

everything they have since changed that

49

00:02:00,319 --> 00:01:58,020

but i asked some IT guys who are playing

50

00:02:02,840 --> 00:02:00,329

the game does that mean they don't have

51
00:02:04,370 --> 00:02:02,850
access to the pictures in the gps and

52
00:02:06,980 --> 00:02:04,380
everything you're doing it seems this is

53
00:02:09,380 --> 00:02:06,990
a great opportunity to create a great

54
00:02:12,470 --> 00:02:09,390
database of pictures who's using what

55
00:02:15,050 --> 00:02:12,480
where they are and also who

56
00:02:16,729 --> 00:02:15,060
other other people in your contacts who

57
00:02:18,530 --> 00:02:16,739
else are under contacts we're also

58
00:02:20,270 --> 00:02:18,540
playing poking and go how you're

59
00:02:23,210 --> 00:02:20,280
interacting where you go back to this is

60
00:02:25,610 --> 00:02:23,220
like an ultimate kind of thing this is

61
00:02:28,339 --> 00:02:25,620
also a great thing if you just want to

62
00:02:29,750 --> 00:02:28,349
put a pokeyman gym in a mosque have

63
00:02:32,979 --> 00:02:29,760

people's wander in there and train your

64
00:02:38,270 --> 00:02:32,989
pokeyman in a mosque where FBI can't go

65
00:02:41,839 --> 00:02:38,280
yes it's like a perfect spy device well

66
00:02:44,650 --> 00:02:41,849
and I love the idea that one of the

67
00:02:47,479 --> 00:02:44,660
theories I heard was that google earth

68
00:02:49,369 --> 00:02:47,489
or google google street view rather they

69
00:02:51,530 --> 00:02:49,379
sent cars around and they paid for these

70
00:02:55,069 --> 00:02:51,540
cars and they had cameras on them and

71
00:02:57,050 --> 00:02:55,079
now you can kind of be on any street all

72
00:02:58,910 --> 00:02:57,060
over the world and see what the

73
00:03:01,460 --> 00:02:58,920
neighborhood looks like and sort of this

74
00:03:02,900 --> 00:03:01,470
virtual reality space you know drag your

75
00:03:05,270 --> 00:03:02,910
mouse around you feel like you're sort

76

00:03:10,430 --> 00:03:05,280

of on that street and they were saying

77

00:03:13,789 --> 00:03:10,440

well if you can make it to where you can

78

00:03:17,390 --> 00:03:13,799

go into private spaces and people will

79

00:03:22,039 --> 00:03:17,400

willingly hand over that same 3d

80

00:03:23,930 --> 00:03:22,049

scanning technology where you're sort of

81

00:03:25,599 --> 00:03:23,940

looking around to look at the pokemons

82

00:03:27,559 --> 00:03:25,609

look for the gyms look for the

83

00:03:30,680 --> 00:03:27,569

resupplies and all these other things

84

00:03:33,050 --> 00:03:30,690

then now all of a sudden you don't have

85

00:03:35,300 --> 00:03:33,060

to pay for the gear to scan the streets

86

00:03:38,300 --> 00:03:35,310

and all these neighborhoods you actually

87

00:03:40,580 --> 00:03:38,310

have willing dupes who will load this on

88

00:03:42,620 --> 00:03:40,590

their phone walk into these mosques walk

89

00:03:45,349 --> 00:03:42,630

into churches walk into schools walk

90

00:03:46,909 --> 00:03:45,359

into the private you know offices of

91

00:03:48,770 --> 00:03:46,919

whatever company you work out and

92

00:03:51,099 --> 00:03:48,780

they're just curious oh my god are there

93

00:03:54,500 --> 00:03:51,109

pokemon around and now all of a sudden

94

00:03:56,210 --> 00:03:54,510

this in queue tell funded company knee

95

00:04:00,319 --> 00:03:56,220

antic what do you mean by inc you tell

96

00:04:04,670 --> 00:04:00,329

funded inc you tell is the venture

97

00:04:09,740 --> 00:04:04,680

capital arm of the CIA and so in cute

98

00:04:13,189 --> 00:04:09,750

elf in an antic and keyhole who is a

99

00:04:16,219 --> 00:04:13,199

mapping platform with google has bought

100

00:04:21,490 --> 00:04:16,229

are all kind of in bed together and so

101
00:04:26,770 --> 00:04:21,500
there's a reasonable suspicion to

102
00:04:29,480 --> 00:04:26,780
suggest that maybe antic is already got

103
00:04:32,119 --> 00:04:29,490
potentially going down on paper Google

104
00:04:35,390 --> 00:04:32,129
knows it this is a great idea because

105
00:04:39,170 --> 00:04:35,400
now Google can create google street view

106
00:04:41,779 --> 00:04:39,180
but inside your home inside your place

107
00:04:43,909 --> 00:04:41,789
of work inside your church inside your

108
00:04:45,409 --> 00:04:43,919
school inside wherever so now it's like

109
00:04:46,700 --> 00:04:45,419
they have this roof and whether they

110
00:04:49,790 --> 00:04:46,710
share it with the public or not who

111
00:04:52,100 --> 00:04:49,800
knows but with the way that you can do

112
00:04:53,300 --> 00:04:52,110
like these panorama photos you know it's

113
00:04:56,570 --> 00:04:53,310

like you kind of piece things together

114

00:04:58,939 --> 00:04:56,580

I'm sure in the back end of this they

115

00:05:00,320 --> 00:04:58,949

can receive this data and sort of piece

116

00:05:02,570 --> 00:05:00,330

this stuff together i mean the

117

00:05:04,460 --> 00:05:02,580

technology is sophisticated enough at

118

00:05:07,159 --> 00:05:04,470

this point that we can map the interior

119

00:05:09,860 --> 00:05:07,169

of whatever building we want depending

120

00:05:11,480 --> 00:05:09,870

this up front is a great fun game to get

121

00:05:13,189 --> 00:05:11,490

people out off the couch and go do

122

00:05:15,170 --> 00:05:13,199

something people love pokemon in

123

00:05:17,390 --> 00:05:15,180

nintendo who owns one third of the

124

00:05:20,480 --> 00:05:17,400

pokemon company this definitely has

125

00:05:22,909 --> 00:05:20,490

increased or bottom line and you know it

126

00:05:26,240 --> 00:05:22,919

on the surface is just a really cool

127

00:05:29,360 --> 00:05:26,250

game in a cool piece technology and but

128

00:05:31,610 --> 00:05:29,370

there with any sort of data collection

129

00:05:34,760 --> 00:05:31,620

it could be something nefarious used

130

00:05:38,059 --> 00:05:34,770

with it so i mean take a look at the the

131

00:05:39,920 --> 00:05:38,069

terms and services that i have a part

132

00:05:43,219 --> 00:05:39,930

eat here of the information disclosed

133

00:05:45,260 --> 00:05:43,229

for our protection and the protection of

134

00:05:46,969 --> 00:05:45,270

others it says we cooperate with the

135

00:05:50,059 --> 00:05:46,979

government and law enforcement officials

136

00:05:53,540 --> 00:05:50,069

or private parties to enforce and comply

137

00:05:56,839 --> 00:05:53,550

with the law so they cooperate with

138

00:05:59,300 --> 00:05:56,849

private parties as well okay yeah we may

139

00:06:03,260 --> 00:05:59,310

disclose any information about you or

140

00:06:06,589 --> 00:06:03,270

your authorized child that is in

141

00:06:10,010 --> 00:06:06,599

possession of our control or that is in

142

00:06:13,850 --> 00:06:10,020

possession or control to government or

143

00:06:16,390 --> 00:06:13,860

law enforcement officials to or private

144

00:06:19,550 --> 00:06:16,400

parties as we in our sole discretion

145

00:06:22,339 --> 00:06:19,560

believe necessary or appropriate and

146

00:06:24,110 --> 00:06:22,349

then guide a to the responsible claimed

147

00:06:25,490 --> 00:06:24,120

legal process it goes through all this

148

00:06:27,110 --> 00:06:25,500

that they're basically saying we're

149

00:06:30,230 --> 00:06:27,120

going to share this with everybody in

150

00:06:32,870 --> 00:06:30,240

anybody we can yeah whenever it's

151

00:06:34,519 --> 00:06:32,880

relevant i like the idea that like some

152

00:06:37,969 --> 00:06:34,529

kid could be walking around the house or

153

00:06:40,390 --> 00:06:37,979

the neighborhood and pick up like his

154

00:06:42,790 --> 00:06:40,400

neighbors or his mother and father

155

00:06:45,010 --> 00:06:42,800

by the campfire smoke weed or some crazy

156

00:06:46,629 --> 00:06:45,020

I mean I that's honestly what I

157

00:06:48,189 --> 00:06:46,639

think this is ultimately about it's like

158

00:06:50,230 --> 00:06:48,199

the same as the NSA it's like let's just

159

00:06:52,779 --> 00:06:50,240

collect everything and then that way if

160

00:06:56,499 --> 00:06:52,789

we ever need it to get somebody some

161

00:07:00,120 --> 00:06:56,509

dissident we got it so it goes on in

162

00:07:02,710 --> 00:07:00,130

this legal disclaimer and the Part B of

163

00:07:05,680 --> 00:07:02,720

subsection e says to protect our

164

00:07:09,189 --> 00:07:05,690

property rights and safety and the

165

00:07:12,730 --> 00:07:09,199

property rights in safety of third party

166

00:07:15,969 --> 00:07:12,740

or the public in general and copyright

167

00:07:19,810 --> 00:07:15,979

to identify and stop any activity that

168

00:07:23,710 --> 00:07:19,820

we consider illegal unethical or legally

169

00:07:28,060 --> 00:07:23,720

action ille activity all through the

170

00:07:30,719 --> 00:07:28,070

pokeyman app so if you happen to be at a

171

00:07:33,400 --> 00:07:30,729

park and you have shin happen to capture

172

00:07:35,320 --> 00:07:33,410

Pokemon it's one in the background

173

00:07:41,290 --> 00:07:35,330

smoking weed well that's legal legal

174

00:07:42,820 --> 00:07:41,300

legal legally actionable activity do you

175

00:07:46,330 --> 00:07:42,830

have spaghetti in your mouth now i'm

176

00:07:53,529 --> 00:07:46,340

drinking again ya know i've been

177

00:07:58,439 --> 00:07:53,539

drinking again Joe oh my god hey

178

00:08:01,779 --> 00:07:58,449

headlines or something yeah oh my god

179

00:08:05,430 --> 00:08:01,789

sorry I've been drinking on this this

180

00:08:07,750 --> 00:08:05,440

pokeyman conspiracy thing but uh but it

181

00:08:09,399 --> 00:08:07,760

reminded me of the of the Star Trek

182

00:08:12,310 --> 00:08:09,409

episode of the game where Riker went

183

00:08:14,350 --> 00:08:12,320

down to rise' brought back this game

184

00:08:17,170 --> 00:08:14,360

where he's that you gotta try it you got

185

00:08:19,330 --> 00:08:17,180

to try it and it sooner as soon as

186

00:08:22,300 --> 00:08:19,340

someone tried this game they got

187

00:08:24,670 --> 00:08:22,310

addicted and they got sucked into this

188

00:08:27,550 --> 00:08:24,680

brainwashing thing and they no longer

189

00:08:29,350 --> 00:08:27,560

cared about their morals or ethics in

190

00:08:31,659 --> 00:08:29,360

their duty to the Federation there well

191

00:08:32,769 --> 00:08:31,669

as a person yeah they didn't all you all

192

00:08:34,420 --> 00:08:32,779

they want to do this play this game

193

00:08:38,740 --> 00:08:34,430

that's what i'm seeing this poking mingo

194

00:08:41,829 --> 00:08:38,750

it directly relates to start by yeah was

195

00:08:43,980 --> 00:08:41,839

that they say by dayton and because he

196

00:08:46,449 --> 00:08:43,990

couldn't believe i wrote him exactly and

197

00:08:48,699 --> 00:08:46,459

yes everyone can only be saved by me cuz

198

00:08:50,530 --> 00:08:48,709

i'm so drunk i came a piece of my i

199

00:08:52,870 --> 00:08:50,540

can't be undermined by this bookie mango

200

00:08:53,850 --> 00:08:52,880

game i'm too drunk to play too drunk

201
00:08:59,240 --> 00:08:53,860
operating

202
00:09:01,380 --> 00:08:59,250
wait I want like a pokemons go

203
00:09:03,000 --> 00:09:01,390
alternative app that uses the same

204
00:09:04,980 --> 00:09:03,010
platform or I don't know if it's even

205
00:09:09,240 --> 00:09:04,990
possible to do that or maybe I can like

206
00:09:11,430 --> 00:09:09,250
biofilters here's what's up so we do the

207
00:09:14,519 --> 00:09:11,440
app for social justice warriors peoples

208
00:09:16,139 --> 00:09:14,529
of the green haired obese women I want

209
00:09:18,660 --> 00:09:16,149
to integrate this with tender say let's

210
00:09:21,680 --> 00:09:18,670
go around the four girls in ultra and

211
00:09:24,420 --> 00:09:21,690
then train them in a gym you're fine

212
00:09:27,569 --> 00:09:24,430
train them to take power coming yes I

213
00:09:29,880 --> 00:09:27,579

want to like when I find a new pokemon i

214

00:09:31,139 --> 00:09:29,890

just want to blow brains out so that no

215

00:09:33,900 --> 00:09:31,149

one else can find it and they all

216

00:09:36,780 --> 00:09:33,910

stopped using it apparently people are

217

00:09:39,750 --> 00:09:36,790

like crashing cars and getting hit by

218

00:09:42,180 --> 00:09:39,760

cars and all kinds of crazy shit's

219

00:09:43,530 --> 00:09:42,190

happening because people are so glued to

220

00:09:47,040 --> 00:09:43,540

their phones while they chase these

221

00:09:49,639 --> 00:09:47,050

pokemon down they're not taking care of

222

00:09:51,930 --> 00:09:49,649

their own safety and well-being yeah

223

00:09:56,670 --> 00:09:51,940

there's your drunken spiracy their

224

00:09:57,990 --> 00:09:56,680

people yeah it's not me but I mean the

225

00:10:00,990 --> 00:09:58,000

people who do for I mean there there is

226

00:10:03,449 --> 00:10:01,000

a CIA connection you're right Joe yes

227

00:10:05,850 --> 00:10:03,459

meaning to tell and people connected

228

00:10:11,790 --> 00:10:05,860

with them are are all over keyhole and

229

00:10:14,220 --> 00:10:11,800

no yes kept all that neon tech or

230

00:10:16,439 --> 00:10:14,230

whatever the its name is uh so yeah

231

00:10:21,210 --> 00:10:16,449

I mean like which is actually pronounced

232

00:10:24,360 --> 00:10:21,220

yeah that sounds right and and and of

233

00:10:27,930 --> 00:10:24,370

course Google was funded by in-q-tel

234

00:10:30,090 --> 00:10:27,940

money so and I mean this it makes you

235

00:10:33,870 --> 00:10:30,100

wonder like why is the CIA have a

236

00:10:36,000 --> 00:10:33,880

venture capital arm at all and why do
