

Tatzelwurm

1
00:00:17,810 --> 00:00:14,480
welcome back to monsters talking about

2
00:00:19,700 --> 00:00:17,820
them this is our Oktoberfest edition so

3
00:00:22,939 --> 00:00:19,710
I figured since it's now Oktoberfest in

4
00:00:25,099 --> 00:00:22,949
Bavaria why would I not go with some uh

5
00:00:28,519 --> 00:00:25,109
some German lore and some German

6
00:00:32,299 --> 00:00:28,529
monsters no I'm talking about the tops

7
00:00:34,850 --> 00:00:32,309
of arm in the taught so firm there's no

8
00:00:36,410 --> 00:00:34,860
mod over its it's not paid so form but

9
00:00:38,360 --> 00:00:36,420
the taught so arm it's also called the

10
00:00:40,729 --> 00:00:38,370
Alps dragon is reported to inhabit

11
00:00:42,500 --> 00:00:40,739
several areas in Europe and Germany

12
00:00:44,030 --> 00:00:42,510
Austria Switzerland Italy the

13
00:00:47,569 --> 00:00:44,040

mountainous alpine regions

14

00:00:50,240 --> 00:00:47,579

Alps dragon that's called the tonsil

15

00:00:52,100 --> 00:00:50,250

Vermeil give you the description also

16

00:00:55,490 --> 00:00:52,110

has regional names including the stone

17

00:00:57,770 --> 00:00:55,500

firm the springform the araras

18

00:01:00,470 --> 00:00:57,780

heap rights over my like that means I

19

00:01:03,820 --> 00:01:00,480

think it's a pretzel worm but uh the

20

00:01:08,870 --> 00:01:03,830

barracks doodsens you're making me hungry

21

00:01:13,010 --> 00:01:10,789

it's described as a stubby lizard-like

22

00:01:16,100 --> 00:01:13,020

creature that has two front legs but it

23

00:01:18,620 --> 00:01:16,110

has no hind legs and um is he long like

24

00:01:20,030 --> 00:01:18,630

a slithery like worm serpent body with

25

00:01:21,469 --> 00:01:20,040

scales and has apparently in some

26

00:01:23,990 --> 00:01:21,479

description as the features of it

27

00:01:27,289 --> 00:01:24,000

covered a cat-like face I've also been

28

00:01:42,950 --> 00:01:27,299

noted to make poisonous fumes like Joe

29

00:01:48,170 --> 00:01:42,960

shoes yes but it wears Joe shoes talking

30

00:01:50,630 --> 00:01:48,180

about the the this worm pretzel worm

31

00:01:52,969 --> 00:01:50,640

that's it was not so one who's talking

32

00:01:55,550 --> 00:01:52,979

about like how long is this this legend

33

00:01:58,969 --> 00:01:55,560

legendary monster been around in the in

34

00:02:00,980 --> 00:01:58,979

German German folklore um somebody I

35

00:02:04,370 --> 00:02:00,990

think anything's exist hundreds of years

36

00:02:06,109 --> 00:02:04,380

the first account I could find this is

37

00:02:07,700 --> 00:02:06,119

not in the American monsters book for I

38

00:02:11,780 --> 00:02:07,710

guess obvious reasons because it's a

39

00:02:13,059 --> 00:02:11,790

European monster but of a 1779 sighting

40

00:02:17,709 --> 00:02:13,069

it's very vague and short

41

00:02:22,360 --> 00:02:17,719

a man named Hans Fuchs box it's Fox I

42

00:02:23,800 --> 00:02:22,370

think is means Fox yeah he sighted two

43

00:02:27,059 --> 00:02:23,810

of these creatures which caused him to

44

00:02:29,589 --> 00:02:27,069

suffer heart attack apparently [h__h]

45

00:02:30,819 --> 00:02:29,599

he suffered complications from his heart

46

00:02:32,860 --> 00:02:30,829

attack which also led to his death

47

00:02:34,270 --> 00:02:32,870

before he died he's able to tell his

48

00:02:35,740 --> 00:02:34,280

family of his encounter these creatures

49

00:02:38,349 --> 00:02:35,750

were apparently five to seven feet in

50

00:02:40,420 --> 00:02:38,359

length with a snake-like body a quad

51
00:02:44,679 --> 00:02:40,430
front legs and larger feet line like

52
00:02:47,129 --> 00:02:44,689
that can head sharp cat-like teeth now I

53
00:02:49,809 --> 00:02:47,139
guess a better an account would be from

54
00:02:52,899 --> 00:02:49,819
1828 a peasant supposedly found a corpse

55
00:02:54,970 --> 00:02:52,909
of his tot silver and by the time he'd

56
00:02:56,409 --> 00:02:54,980
managed to wrap ankle at home crows at

57
00:02:57,759 --> 00:02:56,419
an already eaten half of it I don't know

58
00:03:00,369 --> 00:02:57,769
why did trying to fight the crows off of

59
00:03:02,020 --> 00:03:00,379
it but that's neither here nor there but

60
00:03:03,879 --> 00:03:02,030
even with the white anecdotal evidence

61
00:03:05,289 --> 00:03:03,889
like this he talks of Burma probably

62
00:03:07,509 --> 00:03:05,299
built up enough of a following of

63
00:03:09,909 --> 00:03:07,519

believers that it was even considered as

64

00:03:11,080 --> 00:03:09,919

a fact in the 19th century it's

65

00:03:12,909 --> 00:03:11,090

speculated that even if the creature

66

00:03:15,789 --> 00:03:12,919

didn't actually existed the sightings

67

00:03:20,589 --> 00:03:15,799

are so rare apparently it might be now

68

00:03:23,259 --> 00:03:20,599

extinct but there's this Topsail room

69

00:03:25,780 --> 00:03:23,269

can be found into 19th century German

70

00:03:27,550 --> 00:03:25,790

hunting field guides so like so this

71

00:03:28,899 --> 00:03:27,560

thing was like people thought this was

72

00:03:31,449 --> 00:03:28,909

[h__\h] legit I might hang up on Jo

73

00:03:33,729 --> 00:03:31,459

because I think his uh his call drop but

74

00:03:36,339 --> 00:03:33,739

people thought this thing was super

75

00:03:40,089 --> 00:03:36,349

legit right the hunting field guy would

76
00:03:41,729 --> 00:03:40,099
be in there with you know a bear the RAM

77
00:03:44,710 --> 00:03:41,739
or whatever else that uh

78
00:03:45,909 --> 00:03:44,720
they'd be hunting it would be like the

79
00:03:48,369 --> 00:03:45,919
American field guide and there's a

80
00:03:52,110 --> 00:03:48,379
Bigfoot in there correct exactly okay

81
00:03:58,749 --> 00:03:55,659
so first of which was a Bavarian hunting

82
00:04:03,490 --> 00:03:58,759
manual was called the new pocket guide

83
00:04:05,740 --> 00:04:03,500
of the year of 1836 for nature forests

84
00:04:10,080 --> 00:04:05,750
and hunting enthusiasts the manual

85
00:04:13,689 --> 00:04:10,090
contains what a key bernard heuvelmans

86
00:04:16,779 --> 00:04:13,699
describes as a curious picture of a sort

87
00:04:18,699 --> 00:04:16,789
of the scaly like cigar are like body

88
00:04:20,979 --> 00:04:18,709

with formidable teeth and wretched

89

00:04:26,210 --> 00:04:20,989

little stumps for feet it sounds

90

00:04:28,160 --> 00:04:26,220

disgusting it sounds terrible Xia's

91

00:04:29,330 --> 00:04:28,170

you would not have sex with this thing

92

00:04:31,820 --> 00:04:29,340

well I'd be tough

93

00:04:32,780 --> 00:04:31,830

I bet the Japanese would probably shove

94

00:04:34,490 --> 00:04:32,790

it up their cooter and some they're

95

00:04:38,240 --> 00:04:34,500

crazy for ya

96

00:04:42,530 --> 00:04:38,250

hentai porn tentacle porn you've not

97

00:04:47,450 --> 00:04:42,540

seen the eels of some of those Jeff

98

00:04:50,240 --> 00:04:47,460

diamond eel porn eel / - oh the porn rod

99

00:04:54,440 --> 00:04:50,250

like the guts like having sex with the

100

00:04:57,740 --> 00:04:54,450

stomach so how would this compare to the

101
00:04:59,480 --> 00:04:57,750
Katanga snake some little description

102
00:05:01,850 --> 00:04:59,490
that Katanga snake is a snake giant

103
00:05:04,520 --> 00:05:01,860
snake this one this is like a long worm

104
00:05:07,280 --> 00:05:04,530
like creature with legs wear shoes and

105
00:05:09,020 --> 00:05:07,290
has low hat yeah kind of like a

106
00:05:12,560 --> 00:05:09,030
salamander at most but it's still much

107
00:05:13,640 --> 00:05:12,570
larger than a salamander mm-hmm there's

108
00:05:16,100 --> 00:05:13,650
a second manual pair of the

109
00:05:19,310 --> 00:05:16,110
illustrations it appeared in the swiss

110
00:05:23,120 --> 00:05:19,320
almanac called Alpen rosen published in

111
00:05:24,290 --> 00:05:23,130
1841 he took the form in a drawing which

112
00:05:25,790 --> 00:05:24,300
should have long scale and creature with

113
00:05:27,860 --> 00:05:25,800

teeth on your front legs I mean that's a

114

00:05:30,790 --> 00:05:27,870

fairly consistent description that we've

115

00:05:34,550 --> 00:05:30,800

had now there are two legends of the

116

00:05:35,840 --> 00:05:34,560

tonsil firm that I have found I mean

117

00:05:37,370 --> 00:05:35,850

they're short stories the by store

118

00:05:41,000 --> 00:05:37,380

everything by that I mean like three

119

00:05:42,469 --> 00:05:41,010

sentences so the first sorry the first

120

00:05:45,050 --> 00:05:42,479

tale is that if a young girl who was

121

00:05:47,870 --> 00:05:45,060

working - was farm while chopping down

122

00:05:49,880 --> 00:05:47,880

bean poles like it's bean stalks she

123

00:05:52,430 --> 00:05:49,890

accidentally disturbed a burrow of a

124

00:05:55,400 --> 00:05:52,440

tonsil firm the house alarm and this

125

00:05:57,500 --> 00:05:55,410

account was described as being of a gray

126

00:06:00,409 --> 00:05:57,510

color ation and about the size of a

127

00:06:02,690 --> 00:06:00,419

common domesticated cat so this could I

128

00:06:05,150 --> 00:06:02,700

guess it counts very so maybe two feet

129

00:06:07,610 --> 00:06:05,160

long versus you know five seven

130

00:06:09,680 --> 00:06:07,620

I had a fleshy hairless body and

131

00:06:11,870 --> 00:06:09,690

possessing only two front legs I guess

132

00:06:13,580 --> 00:06:11,880

the very common theme here it only had

133

00:06:16,370 --> 00:06:13,590

two front legs and it's quite a long

134

00:06:20,170 --> 00:06:16,380

kind of snake-like body

135

00:06:23,840 --> 00:06:20,180

it's a [h__\h] snake dude it's pretty gay

136

00:06:25,370 --> 00:06:23,850

every time according to the historians

137

00:06:28,250 --> 00:06:25,380

you stomp on it what happened - what'd

138

00:06:30,290 --> 00:06:28,260

she do apparently the worm of the tassel

139

00:06:33,560 --> 00:06:30,300

Verma glared at the girl and she ran

140

00:06:35,330 --> 00:06:33,570

away he cowered but she described as

141

00:06:37,550 --> 00:06:35,340

having very bright eyes and was very

142

00:06:40,900 --> 00:06:37,560

intense to look at them which we've seen

143

00:06:44,000 --> 00:06:40,910

a lot of in all these stories

144

00:06:46,250 --> 00:06:44,010

mesmerizing eyes in another I guess tail

145

00:06:48,830 --> 00:06:46,260

hearest tells of a man and his son out

146

00:06:50,600 --> 00:06:48,840

gathering herbs in the mountains when a

147

00:06:52,310 --> 00:06:50,610

man suddenly hears his son scream and

148

00:06:55,129 --> 00:06:52,320

seem to be paralyzed in fear staring at

149

00:06:57,170 --> 00:06:55,139

a rock a man sprinted to his son only to

150

00:06:59,060 --> 00:06:57,180

see a gruesome monster under the rock

151
00:07:00,710 --> 00:06:59,070
near his son which hits it like a snake

152
00:07:03,560 --> 00:07:00,720
but had the face of a cat with a bright

153
00:07:06,260 --> 00:07:03,570
eyes so I guess we can consistently say

154
00:07:09,620 --> 00:07:06,270
is two stumpy front legs the long tail

155
00:07:12,020 --> 00:07:09,630
now can ice some yes I'm scrappy with

156
00:07:14,900 --> 00:07:12,030
the cat face some were kind of mute on

157
00:07:17,000 --> 00:07:14,910
the butts face them like probably the man

158
00:07:18,830 --> 00:07:17,010
managed to stab the tonsil verb the

159
00:07:20,270 --> 00:07:18,840
sharpened stick easily Pierce units

160
00:07:22,820 --> 00:07:20,280
flesh according to the story it had

161
00:07:24,560 --> 00:07:22,830
green blood the creature sprayed out in

162
00:07:26,570 --> 00:07:24,570
a birth the man's leg making his journey

163
00:07:30,409 --> 00:07:26,580

long journey home very long and painful

164

00:07:32,930 --> 00:07:30,419

due to his limp yeah green skin and the

165

00:07:34,879 --> 00:07:32,940

green blood the green blood to me that's

166

00:07:36,500 --> 00:07:34,889

gonna be a tough one in training the guy

167

00:07:39,159 --> 00:07:36,510

actually was not a [h__h] went over there

168

00:07:41,900 --> 00:07:39,169

and stabbed the abdomen [h__h]

169

00:07:43,659 --> 00:07:41,910

particular son it had blood almost like

170

00:07:47,900 --> 00:07:43,669

that in aliens yeah

171

00:07:50,140 --> 00:07:47,910

interesting so here a few other I guess

172

00:07:52,400 --> 00:07:50,150

quick accounts are one was in July

173

00:07:57,140 --> 00:07:52,410

apparently is it new doesn't July of

174

00:08:01,790 --> 00:07:57,150

it's either 1883 or 1884 a cusp Arnold

175

00:08:04,790 --> 00:08:01,800

saw a tots over in the the Spielberg

176
00:08:08,060 --> 00:08:04,800
Spielberg and Steve Mountain let's name

177
00:08:11,990 --> 00:08:08,070
the mountain near Hawk falls in in tirol

178
00:08:17,450 --> 00:08:12,000
austria so it's in western austria in

179
00:08:18,920 --> 00:08:17,460
tirol heights up in the Alps he washed

180
00:08:20,060 --> 00:08:18,930
it from a mountain but apparently be

181
00:08:21,500 --> 00:08:20,070
sitting at a restaurant eating in

182
00:08:23,900 --> 00:08:21,510
Worcester a mountain restaurant for

183
00:08:25,820 --> 00:08:23,910
about 20 minutes any certain that he

184
00:08:27,710 --> 00:08:25,830
only he was very certain that it only

185
00:08:28,940 --> 00:08:27,720
had two legs I guess he was eating he

186
00:08:31,279 --> 00:08:28,950
was even the Wiener and he was looking

187
00:08:33,740 --> 00:08:31,289
at the at the window looking at a wiener

188
00:08:36,740 --> 00:08:33,750

yeah look at it look at that okay dick

189

00:08:37,250 --> 00:08:36,750

legs I mean - dick dick out there with

190

00:08:39,800 --> 00:08:37,260

legs

191

00:08:43,159 --> 00:08:39,810

life couldn't get much better life is

192

00:08:46,430 --> 00:08:43,169

weird in the 1880s okay apparently

193

00:08:49,070 --> 00:08:46,440

leaped 80s are 9 feet in the air toward

194

00:08:52,500 --> 00:08:49,080

Oh another account toward to witness

195

00:08:55,110 --> 00:08:52,510

near the roars insults Borg Austria

196

00:08:57,810 --> 00:08:55,120

summer of 1921 and Bentley was gray 2 to

197

00:08:59,040 --> 00:08:57,820

3 feet long and had a head like a cat so

198

00:09:02,250 --> 00:08:59,050

these are just quick accounts that they

199

00:09:04,140 --> 00:09:02,260

have and I guess lastly in 1924 a

200

00:09:06,270 --> 00:09:04,150

five-foot-long skeleton allegedly was

201
00:09:08,850 --> 00:09:06,280
found in the Alps by two men who said it

202
00:09:10,950 --> 00:09:08,860
resembled that of lizards so they

203
00:09:12,780 --> 00:09:10,960
actually found a skeleton of one of

204
00:09:15,530 --> 00:09:12,790
these bastards where's the skeleton

205
00:09:18,330 --> 00:09:15,540
today you could find nothing on that

206
00:09:21,390 --> 00:09:18,340
secondly find old illustrations of this

207
00:09:23,130 --> 00:09:21,400
thing but I mean we have some

208
00:09:26,490 --> 00:09:23,140
similarities I guess I could I was able

209
00:09:27,900 --> 00:09:26,500
to draw between our other monsters the

210
00:09:30,960 --> 00:09:27,910
pungent stench reminds me of the

211
00:09:32,610 --> 00:09:30,970
flatwoods monster sure bright eyes

212
00:09:34,350 --> 00:09:32,620
pretty much most of things that we

213
00:09:35,820 --> 00:09:34,360

covered yeah mostly x' monsters we

214

00:09:37,290 --> 00:09:35,830

talked about they stink they don't pay

215

00:09:39,230 --> 00:09:37,300

they don't have a shower and no access

216

00:09:41,970 --> 00:09:39,240

to a gymnasium where they can go bathe

217

00:09:46,920 --> 00:09:41,980

Bigfoot has horrible crotch crotch wreak

218

00:09:54,780 --> 00:09:46,930

yeah and but bedroom eyes there's sexy

219

00:09:56,340 --> 00:09:54,790

eyes I see when you smell that yeah the

220

00:09:57,720 --> 00:09:56,350

reptilian appearance it was like the

221

00:09:59,190 --> 00:09:57,730

chupacabra but not really with those

222

00:10:01,620 --> 00:09:59,200

other things that we saw that had kind

223

00:10:03,180 --> 00:10:01,630

of a reptilian appearance it gets pissed

224

00:10:04,200 --> 00:10:03,190

off at humans like pretty much every

225

00:10:07,290 --> 00:10:04,210

other thing that when you talked about

226

00:10:09,960 --> 00:10:07,300

the claws man bat dog man Chupacabra all

227

00:10:10,980 --> 00:10:09,970

has quad doesn't everything get pissed

228

00:10:13,920 --> 00:10:10,990

off at humans though if you walk through

229

00:10:15,870 --> 00:10:13,930

the woods yeah most things or they get

230

00:10:18,710 --> 00:10:15,880

scared and run if usually if you happen

231

00:10:21,570 --> 00:10:18,720

across an animal pretty pissed at

232

00:10:23,040 --> 00:10:21,580

Everton you never see a smiling bear and

233

00:10:24,600 --> 00:10:23,050

because of maybe only because it's

234

00:10:26,430 --> 00:10:24,610

hungry and it sees you unless it was

235

00:10:29,400 --> 00:10:26,440

winning too poo-ish yeah that's a good

236

00:10:31,650 --> 00:10:29,410

bear yeah that's why the best bear you

237

00:10:34,620 --> 00:10:31,660

could possibly find Yogi Bear is pretty

238

00:10:37,440 --> 00:10:34,630

good to know Yogi Berra check it out of

239

00:10:39,300 --> 00:10:37,450

your picnic basket that's true in the

240

00:10:43,530 --> 00:10:39,310

feline mammal features we got dog man

241

00:10:45,870 --> 00:10:43,540

goat man and man bats I mean I think the

242

00:10:49,770 --> 00:10:45,880

main thing I noticed it did not fly it

243

00:10:51,210 --> 00:10:49,780

was very much like a half assed lizard

244

00:10:56,010 --> 00:10:51,220

serpent the problem is for having a

245

00:10:58,080 --> 00:10:56,020

reptile that high in the land and in the

246

00:11:00,240 --> 00:10:58,090

Alps is it I mean it getting pretty damn

247

00:11:03,600 --> 00:11:00,250

cold in winter but

248

00:11:06,080 --> 00:11:03,610

this can be confused with like a varied

249

00:11:08,760 --> 00:11:06,090

long like a dragon like a long dragon

250

00:11:10,080 --> 00:11:08,770

yeah but not really nearly as large kids

251
00:11:13,530 --> 00:11:10,090
only like that decides the good normal

252
00:11:15,210 --> 00:11:13,540
tend of like long snake but the thing 7

253
00:11:17,790 --> 00:11:15,220
feet was the longest estimate that I saw

254
00:11:18,870 --> 00:11:17,800
so maybe maybe a tiny like the petite

255
00:11:21,330 --> 00:11:18,880
Alpine dragon

256
00:11:22,980 --> 00:11:21,340
I guess its other nickname that I had

257
00:11:27,020 --> 00:11:22,990
for the Alps dragons so even you know

258
00:11:31,170 --> 00:11:27,030
you you see like parades and China of

259
00:11:33,390 --> 00:11:31,180
these long dragons and from a Chinese

260
00:11:36,810 --> 00:11:33,400
myth of these like long dragon like

261
00:11:38,610 --> 00:11:36,820
creatures with shorter arms with arms

262
00:11:41,520 --> 00:11:38,620
and limbs much shorter than the length

263
00:11:44,610 --> 00:11:41,530

of the body itself I mean like what's

264

00:11:48,600 --> 00:11:44,620

his name in Aztec Quetzalcoatl the

265

00:11:52,500 --> 00:11:48,610

similar one yeah I mean migrating

266

00:11:54,690 --> 00:11:52,510

dragons coming from the Far East if

267

00:12:00,210 --> 00:11:54,700

we're going down that road it's that

268

00:12:02,330 --> 00:12:00,220

route of crazy creatures I mean why not

269

00:12:05,250 --> 00:12:02,340

be dragons at this point German dragons

270

00:12:08,190 --> 00:12:05,260

or maybe what they saw in Dragons for

271

00:12:12,420 --> 00:12:08,200

just this whatever this species is just

272

00:12:17,250 --> 00:12:12,430

some kind of terrible salamander some

273

00:12:19,980 --> 00:12:17,260

kind of sick [\h__\h] snake cat cat man

274

00:12:25,970 --> 00:12:19,990

that wears it smells like sweaty shoes

275

00:12:38,449 --> 00:12:31,290

perhaps why not another you got that's

276

00:12:44,280 --> 00:12:41,430

is the tassel firm voting for Clinton or

277

00:12:46,889 --> 00:12:44,290

trunk that is the question I'm voting

278

00:12:55,680 --> 00:12:46,899

for Gary Johnson oh my god those things

279

00:13:00,449 --> 00:12:55,690

are so dumb nor tarrying what is the

280

00:13:01,230 --> 00:13:00,459

toss over hey gravy boat dude what is

281

00:13:07,519 --> 00:13:01,240

Austria

282

00:13:11,819 --> 00:13:09,809

what is all this stuff what is all this
