

# Missing 411

WHO IS HUNTING WHO

1  
00:00:10,700 --> 00:00:07,909  
in this hot gas clip we talked about a

2  
00:00:13,400 --> 00:00:10,710  
case from the newest missing for one one

3  
00:00:16,700 --> 00:00:13,410  
book hunters if you don't like cursing

4  
00:00:18,920 --> 00:00:16,710  
and explicit content then this segment

5  
00:00:20,689 --> 00:00:18,930  
is not for you we curse a lot and go

6  
00:00:23,420 --> 00:00:20,699  
into some pretty graphic detail about

7  
00:00:27,050 --> 00:00:23,430  
what could be going on with the missing

8  
00:00:29,060 --> 00:00:27,060  
for one one phenomenon also we've been

9  
00:00:32,240 --> 00:00:29,070  
drinking a little bit too little tipsy

10  
00:00:34,580 --> 00:00:32,250  
or full podcast episodes check out the

11  
00:00:37,220 --> 00:00:34,590  
description below and with all that

12  
00:00:39,709 --> 00:00:37,230  
being said here is the missing four one

13  
00:00:42,020 --> 00:00:39,719

one segment thanks for listening I'll

14

00:00:44,360 --> 00:00:42,030

talk to you later so I got the newest

15

00:00:47,510 --> 00:00:44,370

missing four in one book did you get it

16

00:00:49,160 --> 00:00:47,520

Mike not yet no this is ridiculous I

17

00:00:50,299 --> 00:00:49,170

send it to you you actually sent me a

18

00:00:53,299 --> 00:00:50,309

book I haven't got it yet

19

00:00:55,510 --> 00:00:53,309

I got mine you're not that far away no

20

00:00:59,720 --> 00:00:55,520

you're you're an apartment e correct

21

00:01:02,840 --> 00:00:59,730

that's correct yeah that's ridiculous

22

00:01:05,870 --> 00:01:02,850

she came with a u.s. mail umm did not

23

00:01:08,289 --> 00:01:05,880

get it yet no um all fair I'll give my

24

00:01:10,789 --> 00:01:08,299

exact address but I'm sure you have it

25

00:01:12,560 --> 00:01:10,799

yeah text it to me just so I can be US

26

00:01:13,969 --> 00:01:12,570

not ok it's not hard to figure out know

27

00:01:14,899 --> 00:01:13,979

someone around here got it and like with

28

00:01:16,850 --> 00:01:14,909

it what is this

29

00:01:18,080 --> 00:01:16,860

someone probably one of my neighbors got

30

00:01:21,859 --> 00:01:18,090

this and like what is all this stuff

31

00:01:23,330 --> 00:01:21,869

what is all this stuff people are

32

00:01:25,670 --> 00:01:23,340

disappearing and this this is the

33

00:01:27,350 --> 00:01:25,680

missing forward one about hunters right

34

00:01:29,569 --> 00:01:27,360

correct this one's about hunters that

35

00:01:31,819 --> 00:01:29,579

just came out I believe month or two it

36

00:01:34,130 --> 00:01:31,829

might even been this month we have some

37

00:01:35,510 --> 00:01:34,140

YouTube segments on this and it's very

38

00:01:38,840 --> 00:01:35,520

spirited discussion a lot of people

39

00:01:39,740 --> 00:01:38,850

wanted us to die and calling it calling

40

00:01:42,889 --> 00:01:39,750

shitbags

41

00:01:45,740 --> 00:01:42,899

but what we cover in there are real

42

00:01:47,510 --> 00:01:45,750

missing for one one cases we joke around

43

00:01:49,370 --> 00:01:47,520

have a good time with it but it's real

44

00:01:53,859 --> 00:01:49,380

people are really going missing people

45

00:01:58,550 --> 00:01:56,630

yeah there's really no concrete

46

00:02:00,170 --> 00:01:58,560

explanation I mean sometimes you can

47

00:02:03,350 --> 00:02:00,180

chalk it up just people just getting

48

00:02:05,389 --> 00:02:03,360

lost and dying of exposure but I mean

49

00:02:06,620 --> 00:02:05,399

not a lot of these I'm about 30 pages in

50

00:02:08,240 --> 00:02:06,630

if I only had this for about a day

51  
00:02:11,150 --> 00:02:08,250  
probably get it right a little bit more

52  
00:02:12,980 --> 00:02:11,160  
but I mean the first two

53  
00:02:15,020 --> 00:02:12,990  
cases that I read will tube-like there

54  
00:02:16,760 --> 00:02:15,030  
was a law in Arizona there was a family

55  
00:02:18,680 --> 00:02:16,770  
out mermaid father was going to go

56  
00:02:20,090 --> 00:02:18,690  
hunting they made a camp this little

57  
00:02:23,660 --> 00:02:20,100  
five year old kid that was described as

58  
00:02:26,780 --> 00:02:23,670  
frail goes missing and so they searched

59  
00:02:28,310 --> 00:02:26,790  
for him for weeks and weeks and you know

60  
00:02:32,510 --> 00:02:28,320  
they have hair support and all that kind

61  
00:02:35,120 --> 00:02:32,520  
of fun stuff in this is 1970s and they

62  
00:02:38,240 --> 00:02:35,130  
eventually find this kid about I've been

63  
00:02:40,640 --> 00:02:38,250

3 like 3,000 feet up off the trail on

64

00:02:42,590 --> 00:02:40,650

this hike this wilderness area whereas

65

00:02:44,900 --> 00:02:42,600

between they camped in a valley but this

66

00:02:47,420 --> 00:02:44,910

kid was up on a mountain like 3,000 feet

67

00:02:49,370 --> 00:02:47,430

didn't have any shoes lost his coat

68

00:02:52,550 --> 00:02:49,380

didn't have his coat on him it was like

69

00:02:55,010 --> 00:02:52,560

30 degrees at night there and no one has

70

00:02:58,250 --> 00:02:55,020

any explanation for because all I guess

71

00:03:00,290 --> 00:02:58,260

rescue methods or or just lost kids

72

00:03:02,990 --> 00:03:00,300

psychology important little kids walk

73

00:03:06,020 --> 00:03:03,000

downhill yeah because that's the easiest

74

00:03:07,670 --> 00:03:06,030

route taken correct and apparently for

75

00:03:09,560 --> 00:03:07,680

being and not adventurous it was parents

76

00:03:11,060 --> 00:03:09,570

at frail kid I believe he has found

77

00:03:14,000 --> 00:03:11,070

several miles away from their campsite

78

00:03:16,460 --> 00:03:14,010

or anybody new to the missing four one

79

00:03:18,650 --> 00:03:16,470

one phenomenon we which is what we've

80

00:03:20,330 --> 00:03:18,660

talked about for quite a number shows

81

00:03:23,600 --> 00:03:20,340

and over probably probably past two

82

00:03:26,030 --> 00:03:23,610

years is that people go missing in the

83

00:03:27,050 --> 00:03:26,040

woodland areas the big national parks

84

00:03:30,440 --> 00:03:27,060

are just out in the middle of nowhere

85

00:03:32,750 --> 00:03:30,450

and sometimes it's explicitly explicable

86

00:03:34,699 --> 00:03:32,760

and but when sometimes when these bodies

87

00:03:36,860 --> 00:03:34,709

are found they're found with no shoes on

88

00:03:41,090 --> 00:03:36,870

that is a telltale sign naked from the

89  
00:03:45,140 --> 00:03:41,100  
waist down or weird [h\_\_h] so this kid was

90  
00:03:47,330 --> 00:03:45,150  
frail and the father and the family just

91  
00:03:49,760 --> 00:03:47,340  
decide I'm taking on the wilderness how

92  
00:03:51,430 --> 00:03:49,770  
did they go like how this kid get away

93  
00:03:54,800 --> 00:03:51,440  
from their sight how to get out of a

94  
00:03:57,229 --> 00:03:54,810  
lay-by in the in the canyon area where

95  
00:04:00,380 --> 00:03:57,239  
they set up camp by the dry creek bed or

96  
00:04:01,820 --> 00:04:00,390  
something but on the case I've wanted to

97  
00:04:03,949 --> 00:04:01,830  
read oh there's one example I guess he

98  
00:04:05,479 --> 00:04:03,959  
made a book about hunters because I'm

99  
00:04:07,010 --> 00:04:05,489  
like you know most people go out hiking

100  
00:04:08,479 --> 00:04:07,020  
you know the hunters has a lot of

101  
00:04:11,210 --> 00:04:08,489  
experience out in the wilderness a lot

102  
00:04:14,270 --> 00:04:11,220  
experience alone got guns dude if guns

103  
00:04:18,159 --> 00:04:14,280  
are tracking stuff they have some

104  
00:04:20,690 --> 00:04:18,169  
survival knowledge under their belt I

105  
00:04:22,820 --> 00:04:20,700  
guess even more means igni I hit a gun

106  
00:04:24,650 --> 00:04:22,830  
you were lost you wanted people to try

107  
00:04:24,800 --> 00:04:24,660  
to find you maybe crack off around after

108  
00:04:28,879 --> 00:04:24,810  
you

109  
00:04:31,610 --> 00:04:28,889  
crack off a few rounds and make it seem

110  
00:04:33,980 --> 00:04:31,620  
like panic fire if you if your I'm

111  
00:04:35,810 --> 00:04:33,990  
assuming if you're a hunter you take out

112  
00:04:37,430 --> 00:04:35,820  
multiple rounds with you you have a

113  
00:04:40,100 --> 00:04:37,440

couple clips of ammunition or magazines

114

00:04:41,750 --> 00:04:40,110

and you can probably take you probably

115

00:04:44,300 --> 00:04:41,760

have at least 20 rounds of ammunition

116

00:04:46,790 --> 00:04:44,310

with you crack off five in a row

117

00:04:50,210 --> 00:04:46,800

people are going to take notice or think

118

00:04:51,620 --> 00:04:50,220

you're really really bad shot yes are

119

00:04:54,220 --> 00:04:51,630

you shooting it there's a ton of deer

120

00:04:58,070 --> 00:04:54,230

charging you yeah

121

00:04:59,780 --> 00:04:58,080

entire family of Risley bears to come

122

00:05:03,890 --> 00:04:59,790

down I took it down a family

123

00:05:06,020 --> 00:05:03,900

Tigers bear one shot not good but yeah

124

00:05:08,600 --> 00:05:06,030

so I mean I haven't got his overarching

125

00:05:11,510 --> 00:05:08,610

theme yet but I mean I got the only

126  
00:05:15,080 --> 00:05:11,520  
likes 270 more pages to cover maybe I'll

127  
00:05:17,540 --> 00:05:15,090  
get to get to that but there was a good

128  
00:05:20,420 --> 00:05:17,550  
case that I read is from this guy this

129  
00:05:21,980 --> 00:05:20,430  
isn't actual at Mount San Bernardino in

130  
00:05:25,969 --> 00:05:21,990  
California named the guys name is

131  
00:05:29,870 --> 00:05:25,979  
Ellison flowers looks like this occurred

132  
00:05:31,850 --> 00:05:29,880  
in September 23rd 1958 this is shouldn't

133  
00:05:35,810 --> 00:05:31,860  
take too long to read but it's a goodie

134  
00:05:38,230 --> 00:05:35,820  
okay I can skip the first two paragraphs

135  
00:05:40,909 --> 00:05:38,240  
he's talking about his other books so

136  
00:05:42,980 --> 00:05:40,919  
let's talk about similar cases so he

137  
00:05:45,040 --> 00:05:42,990  
said the story goes here 26 year old

138  
00:05:47,510 --> 00:05:45,050

hunter that owned a gas station on

139

00:05:49,820 --> 00:05:47,520

Waterman Avenue in Highland California

140

00:05:51,290 --> 00:05:49,830

he called his wife on September 23rd

141

00:05:54,469 --> 00:05:51,300

from the gas station say that he was

142

00:05:56,540 --> 00:05:54,479

driving up to the area of Jenks Lake and

143

00:05:58,850 --> 00:05:56,550

at that time it was part of the san

144

00:06:00,920 --> 00:05:58,860

gregorio wilderness really now it's part

145

00:06:03,650 --> 00:06:00,930

of San Bernardino Mountain State Park or

146

00:06:06,200 --> 00:06:03,660

something it wasn't a state parks you

147

00:06:09,379 --> 00:06:06,210

well either way that's where he was that

148

00:06:11,180 --> 00:06:09,389

you stated that he'd leave in the early

149

00:06:12,020 --> 00:06:11,190

afternoon to be back in time to close

150

00:06:13,730 --> 00:06:12,030

the gas station

151  
00:06:16,400 --> 00:06:13,740  
Ellison flowers a very experienced

152  
00:06:20,090 --> 00:06:16,410  
outdoorsman and had social skills to run

153  
00:06:22,550 --> 00:06:20,100  
a profitable service station the drive

154  
00:06:24,800 --> 00:06:22,560  
for Ellison wasn't extremely lengthy but

155  
00:06:27,170 --> 00:06:24,810  
it was on a winding dirt road up the

156  
00:06:30,860 --> 00:06:27,180  
side of a mountain as of 11 o'clock

157  
00:06:32,300 --> 00:06:30,870  
closing time stood methane's 11 p.m. was

158  
00:06:35,260 --> 00:06:32,310  
looming the attendant called his wife

159  
00:06:37,760 --> 00:06:35,270  
Dolores and asked where Ellison was

160  
00:06:37,999 --> 00:06:37,770  
Dolores was surprised that he wasn't

161  
00:06:40,339 --> 00:06:38,009  
there

162  
00:06:42,379 --> 00:06:40,349  
because he's extremely liable reliable

163  
00:06:43,760 --> 00:06:42,389

person she went to the station and close

164

00:06:47,389 --> 00:06:43,770

the business herself and went home

165

00:06:49,040 --> 00:06:47,399

hoping to find her husband there he told

166

00:06:52,189 --> 00:06:49,050

her he'd be back at the station no later

167

00:06:53,480 --> 00:06:52,199

than 10:30 so this is beyond then Nelson

168

00:06:57,469 --> 00:06:53,490

didn't arrive home following morning she

169

00:07:00,109 --> 00:06:57,479

his wife called the police make sense

170

00:07:02,029 --> 00:07:00,119

yeah I mean person who comes home after

171

00:07:04,760 --> 00:07:02,039

closing a business every night

172

00:07:06,139 --> 00:07:04,770

you'd be pretty concerned and he said

173

00:07:08,540 --> 00:07:06,149

he'd be back that night but half hour

174

00:07:10,249 --> 00:07:08,550

before closed does it go into if this

175

00:07:11,809 --> 00:07:10,259

guy's a big Boozer do you like to go out

176

00:07:14,420 --> 00:07:11,819

and get hammered at the bar and do some

177

00:07:16,510 --> 00:07:14,430

karaoke or any talk that no that wasn't

178

00:07:18,950 --> 00:07:16,520

mentioned in here okay

179

00:07:22,670 --> 00:07:18,960

nothing to buy genital size either good

180

00:07:24,260 --> 00:07:22,680

guy wondering I am but okay so this the

181

00:07:26,179 --> 00:07:24,270

sheriff sent up a unit onto the mountain

182

00:07:28,339 --> 00:07:26,189

to find Ellison's sedan when I drove a

183

00:07:32,059 --> 00:07:28,349

sedan down the mountain so Ford or

184

00:07:34,600 --> 00:07:32,069

whatever and they knocked this sorry now

185

00:07:36,709 --> 00:07:34,610

on October 2nd and 9th in same year 1958

186

00:07:39,290 --> 00:07:36,719

in from an article in the San Bernardino

187

00:07:40,969 --> 00:07:39,300

County Sun had this information on the

188

00:07:42,409 --> 00:07:40,979

weather apparently the first day he was

189

00:07:43,969 --> 00:07:42,419

reported missing bad weather hampered

190

00:07:46,459 --> 00:07:43,979

the search for him but the second day

191

00:07:48,139 --> 00:07:46,469

was a full-scale search is launched so

192

00:07:49,909 --> 00:07:48,149

we have that classic kind of the first

193

00:07:52,040 --> 00:07:49,919

data search starts weather goes this

194

00:07:54,709 --> 00:07:52,050

[h\_\_h] yeah and that is another one of

195

00:07:57,709 --> 00:07:54,719

these hallmark missing for one one cases

196

00:07:59,119 --> 00:07:57,719

is that you're absolutely right weather

197

00:08:01,999 --> 00:07:59,129

goes to [h\_\_h]

198

00:08:05,449 --> 00:08:02,009

it's almost clockwork at a certain point

199

00:08:07,730 --> 00:08:05,459

where a person goes missing in in order

200

00:08:09,860 --> 00:08:07,740

let's just go ahead and hype I thought

201  
00:08:12,889 --> 00:08:09,870  
that would say there is some omniscient

202  
00:08:14,509 --> 00:08:12,899  
being and say okay we want to cover any

203  
00:08:16,610 --> 00:08:14,519  
traces that we took this person let's

204  
00:08:19,129 --> 00:08:16,620  
create some bad weather for people to

205  
00:08:21,949 --> 00:08:19,139  
make it really dumb tough for them to

206  
00:08:23,629 --> 00:08:21,959  
discover a dead body that's what it

207  
00:08:25,189 --> 00:08:23,639  
seems like as Edison point I was like

208  
00:08:31,399 --> 00:08:25,199  
you're covering their tracks

209  
00:08:32,930 --> 00:08:31,409  
yeah on purpose so yeah we launched them

210  
00:08:35,409 --> 00:08:32,940  
second day weather career they lost

211  
00:08:37,219 --> 00:08:35,419  
launched their full-scale search

212  
00:08:38,509 --> 00:08:37,229  
apparently some of the train out there

213  
00:08:40,459 --> 00:08:38,519

some of the most rugged in Southern

214

00:08:42,860 --> 00:08:40,469

California at the peak of the surge

215

00:08:44,449 --> 00:08:42,870

there's more than 150 volunteers and

216

00:08:45,949 --> 00:08:44,459

professionals were scouring the region

217

00:08:48,439 --> 00:08:45,959

above Jenks Lake where he was supposed

218

00:08:49,670 --> 00:08:48,449

to be looking for him deputies found his

219

00:08:52,280 --> 00:08:49,680

vehicle on

220

00:08:54,079 --> 00:08:52,290

out he'll hoop yeah yeah poop out like

221

00:08:56,299 --> 00:08:54,089

I'm all pooped out but its poop out

222

00:08:59,119 --> 00:08:56,309

he'll he initially centered their

223

00:09:00,730 --> 00:08:59,129

efforts around there um the you could

224

00:09:06,710 --> 00:09:00,740

Yucaipa

225

00:09:08,660 --> 00:09:06,720

that's a town youkai up a substation for

226

00:09:10,730 --> 00:09:08,670

the sheriff I was heading the effort to

227

00:09:14,749 --> 00:09:10,740

locate the hunter and had allocated over

228

00:09:16,460 --> 00:09:14,759

20 deputies another 150 volunteers the

229

00:09:18,889 --> 00:09:16,470

articles of the time stated that the

230

00:09:21,319 --> 00:09:18,899

that rain sleet in fall camp researchers

231

00:09:24,769 --> 00:09:21,329

off and on during the search hunt

232

00:09:26,419 --> 00:09:24,779

desertion parties Delores told deputies

233

00:09:28,900 --> 00:09:26,429

it also was extremely familiar with the

234

00:09:31,220 --> 00:09:28,910

area and as he hunted it for many years

235

00:09:33,259 --> 00:09:31,230

formal searches for Ellison went on for

236

00:09:35,720 --> 00:09:33,269

over a month the effort included 50

237

00:09:37,809 --> 00:09:35,730

Marines from the nearby Niba Marine base

238

00:09:40,730 --> 00:09:37,819

sheriff's search and rescue bloodhounds

239

00:09:44,210 --> 00:09:40,740

the Sierra Madre rescue group and the

240

00:09:46,369 --> 00:09:44,220

u.s. Forest Service aircraft and they

241

00:09:48,889 --> 00:09:46,379

could not come up with anything so after

242

00:09:50,989 --> 00:09:48,899

almost two years had passed two hunting

243

00:09:52,280 --> 00:09:50,999

seasons and nothing had been found and

244

00:09:52,819 --> 00:09:52,290

then something there's a break in the

245

00:09:56,749 --> 00:09:52,829

case

246

00:09:58,100 --> 00:09:56,759

and on started October 18th article 1960

247

00:10:00,230 --> 00:09:58,110

from the San Bernardino County Sun

248

00:10:03,679 --> 00:10:00,240

described what a hunter found apparently

249

00:10:06,019 --> 00:10:03,689

third on Thursday James a Rasmussen

250

00:10:08,150 --> 00:10:06,029

Vegas of Panama the hunter was found who

251  
00:10:09,679 --> 00:10:08,160  
found him was hunting the same area and

252  
00:10:11,480 --> 00:10:09,689  
spotted a skeleton while making a wide

253  
00:10:13,639 --> 00:10:11,490  
sweep through his binoculars Rasmussen

254  
00:10:15,889 --> 00:10:13,649  
saw human remains in clothing about a

255  
00:10:20,019 --> 00:10:15,899  
hundred and fifty yards below a gigantic

256  
00:10:22,999 --> 00:10:20,029  
rock described by George Chen inton as

257  
00:10:25,879 --> 00:10:23,009  
described by George Genting must be the

258  
00:10:27,439 --> 00:10:25,889  
writer of the story as about two stories

259  
00:10:29,660 --> 00:10:27,449  
high about a two-story high rock his

260  
00:10:31,460 --> 00:10:29,670  
body was beneath I just believe the

261  
00:10:34,160 --> 00:10:31,470  
victim fell from this rock sometime

262  
00:10:36,110 --> 00:10:34,170  
after his disappearance deputies

263  
00:10:37,879 --> 00:10:36,120

confirmed it was Ellis Ellison they

264

00:10:40,429 --> 00:10:37,889

found his wallet rifle and his US Army

265

00:10:41,960 --> 00:10:40,439

registration card the rescuer stated

266

00:10:43,309 --> 00:10:41,970

that it took them three hours to just

267

00:10:46,280 --> 00:10:43,319

reach the body from where Ellison in a

268

00:10:49,549 --> 00:10:46,290

practice vehicle one article summarizes

269

00:10:51,559 --> 00:10:49,559

or surmises that he must be sorry must

270

00:10:54,109 --> 00:10:51,569

have been confronted with a sudden

271

00:10:56,660 --> 00:10:54,119

snowstorm same articles I quoted above

272

00:10:58,730 --> 00:10:56,670

so some San Bernardino County Sun and

273

00:11:00,290 --> 00:10:58,740

the theory from a law enforcement that

274

00:11:03,380 --> 00:11:00,300

he died of exposure

275

00:11:07,370 --> 00:11:03,390

of course the likely story again another

276

00:11:08,990 --> 00:11:07,380

this is another kind of throw away they

277

00:11:13,310 --> 00:11:09,000

always claim these people died of

278

00:11:15,230 --> 00:11:13,320

exposure right yeah then it's exposure

279

00:11:17,300 --> 00:11:15,240

back yes that's the most common ones

280

00:11:18,740 --> 00:11:17,310

they find except for um there's some get

281

00:11:20,360 --> 00:11:18,750

red in the western US murder

282

00:11:22,760 --> 00:11:20,370

investigation was launched about one of

283

00:11:24,320 --> 00:11:22,770

them on my crater lake but here are

284

00:11:26,360 --> 00:11:24,330

places thoughts on it which are pretty

285

00:11:27,980 --> 00:11:26,370

interesting so he said let's think clear

286

00:11:30,110 --> 00:11:27,990

carefully about the evidence we were

287

00:11:31,610 --> 00:11:30,120

given a three week search by almost two

288

00:11:33,710 --> 00:11:31,620

hundred Marines deputies aircraft and

289

00:11:35,630 --> 00:11:33,720

volunteers turns up nothing bloodhounds

290

00:11:36,500 --> 00:11:35,640

find nothing a common commonality in

291

00:11:39,260 --> 00:11:36,510

almost every story

292

00:11:40,910 --> 00:11:39,270

he's chronicled Elson is later found at

293

00:11:42,830 --> 00:11:40,920

the bottom of a two-story high rock from

294

00:11:46,760 --> 00:11:42,840

which people believe he fell if they

295

00:11:47,840 --> 00:11:46,770

believed he died from exposure he said

296

00:11:49,700 --> 00:11:47,850

he wants to know where any broken bones

297

00:11:51,290 --> 00:11:49,710

identified when a body is next to a

298

00:11:54,110 --> 00:11:51,300

solid granite wall the odors and sent

299

00:11:55,400 --> 00:11:54,120

the body are fairly concentrated from

300

00:11:56,180 --> 00:11:55,410

the wall yet the bloodhounds were able

301  
00:11:58,760 --> 00:11:56,190  
to get nothing

302  
00:12:01,010 --> 00:11:58,770  
how could 102 years after the event see

303  
00:12:03,230 --> 00:12:01,020  
a body for 150 yards away yet a plethora

304  
00:12:05,780 --> 00:12:03,240  
of searchers aircraft canines missed it

305  
00:12:07,310 --> 00:12:05,790  
this exact snare has been uh he said a

306  
00:12:09,320 --> 00:12:07,320  
replicated time and time again in many

307  
00:12:12,440 --> 00:12:09,330  
of his books allison was found the exact

308  
00:12:14,390 --> 00:12:12,450  
same search area what she was lost the

309  
00:12:16,310 --> 00:12:14,400  
one important fact among the evidence is

310  
00:12:18,620 --> 00:12:16,320  
in this event is the location of the

311  
00:12:21,200 --> 00:12:18,630  
body allison was a three-hour hike from

312  
00:12:23,840 --> 00:12:21,210  
his car he promised me back at the

313  
00:12:25,340 --> 00:12:23,850

station no later than 10:30 p.m. he left

314

00:12:27,920 --> 00:12:25,350

the station early afternoon it made the

315

00:12:30,650 --> 00:12:27,930

90 to 120 minute drive an hour and a

316

00:12:32,390 --> 00:12:30,660

half to two hour drive to the site and

317

00:12:33,830 --> 00:12:32,400

then he did the hike if he arrived the

318

00:12:36,200 --> 00:12:33,840

site at 2:00 p.m.

319

00:12:38,570 --> 00:12:36,210

hike three hours it was dark by then

320

00:12:40,780 --> 00:12:38,580

we're getting dark by then there's no

321

00:12:42,950 --> 00:12:40,790

way he would he was hiking in the dark

322

00:12:44,810 --> 00:12:42,960

he was an experienced hunter who knew

323

00:12:46,870 --> 00:12:44,820

the area well and knew the distances

324

00:12:49,490 --> 00:12:46,880

even if he'd got into the area at noon

325

00:12:50,960 --> 00:12:49,500

he had to find a deer she didn't shoot

326

00:12:53,540 --> 00:12:50,970

the deer and gut it and then he had to

327

00:12:55,850 --> 00:12:53,550

haul it back out of back to his car to

328

00:12:57,890 --> 00:12:55,860

get home and to be able to get home by

329

00:12:59,450 --> 00:12:57,900

10:30 do all that to get home by 10:30

330

00:13:01,040 --> 00:12:59,460

which apparently isn't money like he

331

00:13:02,720 --> 00:13:01,050

said it's a monumental task for the time

332

00:13:05,290 --> 00:13:02,730

that was allotted to him see pretty

333

00:13:07,850 --> 00:13:05,300

people got it people have done it before

334

00:13:09,560 --> 00:13:07,860

yes if he gets here at two hikes three

335

00:13:11,240 --> 00:13:09,570

hours it's five you pretty much have to

336

00:13:13,220 --> 00:13:11,250

shoot and kill a deer there and gun to

337

00:13:13,879 --> 00:13:13,230

those could take you okay I find it here

338

00:13:15,109 --> 00:13:13,889

let's just assume

339

00:13:18,229 --> 00:13:15,119

takes an hour to find it shoot another

340

00:13:19,609 --> 00:13:18,239

two hours you're here at 7:00 I mean he

341

00:13:21,079 --> 00:13:19,619

would be have to be the most luckiest

342

00:13:22,759 --> 00:13:21,089

day hunting never really get done

343

00:13:25,359 --> 00:13:22,769

fair enough going going out like three

344

00:13:28,309 --> 00:13:25,369

hours that way from his car fair enough

345

00:13:30,289 --> 00:13:28,319

so he said mean questions that should be

346

00:13:32,119 --> 00:13:30,299

I guess asked for this case why was it

347

00:13:34,129 --> 00:13:32,129

Ellison's body found by aircraft ground

348

00:13:36,139 --> 00:13:34,139

search crews and bloodhounds Allison

349

00:13:37,429 --> 00:13:36,149

knew his hunting area very well would he

350

00:13:38,749 --> 00:13:37,439

have fallen off the biggest rock in the

351

00:13:42,169 --> 00:13:38,759

area I thought it was a pretty good

352

00:13:44,419 --> 00:13:42,179

point too mmm if Allison fell two

353

00:13:46,009 --> 00:13:44,429

stories why didn't the fall kill him one

354

00:13:49,009 --> 00:13:46,019

article stated that Allison's rifle was

355

00:13:51,499 --> 00:13:49,019

found and one round was fired it was

356

00:13:53,929 --> 00:13:51,509

made it looked like he died that way or

357

00:13:55,819 --> 00:13:53,939

that yeah why wouldn't he have fired

358

00:13:57,739 --> 00:13:55,829

multiple rounds to alert sergers like we

359

00:13:59,599 --> 00:13:57,749

were talking about earlier bloodhounds

360

00:14:00,979 --> 00:13:59,609

he says don't care about politics or who

361

00:14:03,079 --> 00:14:00,989

they are searching for they love to do

362

00:14:03,769 --> 00:14:03,089

work why didn't they key in on the scent

363

00:14:06,889 --> 00:14:03,779

in the area

364

00:14:09,919 --> 00:14:06,899

so I have to take this conversation in a

365

00:14:13,369 --> 00:14:09,929

direction that if you're listening to

366

00:14:15,470 --> 00:14:13,379

this and you are a fan of missing for

367

00:14:17,150 --> 00:14:15,480

one one and this stuff I have to take

368

00:14:21,049 --> 00:14:17,160

this conversation in your direction is

369

00:14:26,659 --> 00:14:21,059

going to be very disturbing and explicit

370

00:14:29,059 --> 00:14:26,669

no sweet yeah so Jo um you don't believe

371

00:14:31,850 --> 00:14:29,069

in any of the ghosts Bigfoot paranormal

372

00:14:34,340 --> 00:14:31,860

stuff you've seen out of the co-hosts

373

00:14:38,049 --> 00:14:34,350

here myself Mike and clown baby Jo you

374

00:14:41,239 --> 00:14:38,059

seem to be the most skeptical of the

375

00:14:43,639 --> 00:14:41,249

paranormal people on this podcast yes

376

00:14:44,929 --> 00:14:43,649

the UFO thing the Bigfoot thing the

377

00:14:47,679 --> 00:14:44,939

ghost thing got it

378

00:14:51,109 --> 00:14:47,689

what are what would you say are the most

379

00:14:54,470 --> 00:14:51,119

driving biological factors for a

380

00:14:56,229 --> 00:14:54,480

sentient being ah let's just go ahead

381

00:15:02,479 --> 00:14:56,239

and say they have human intelligence

382

00:15:04,429 --> 00:15:02,489

what do people like to do hmm eat need

383

00:15:07,129 --> 00:15:04,439

shelter that okay I'm gonna give you a

384

00:15:08,689 --> 00:15:07,139

ring for that people like people love to

385

00:15:10,849 --> 00:15:08,699

eat and they will they want shelter

386

00:15:13,729 --> 00:15:10,859

let's go ahead and stick with eat you

387

00:15:15,949 --> 00:15:13,739

love the drinking needing water in with

388

00:15:18,619 --> 00:15:15,959

eating okay now putting water in their

389

00:15:20,869 --> 00:15:18,629

bodies okay food is good foods a good

390

00:15:22,579 --> 00:15:20,879

thing yeah right gonna eat what you want

391

00:15:25,850 --> 00:15:22,589

you are your bellies full what do you

392

00:15:27,350 --> 00:15:25,860

like to do uh have fun well how do

393

00:15:29,780 --> 00:15:27,360

people have fun

394

00:15:32,300 --> 00:15:29,790

masturbate yeah people like the [h\_\_h]

395

00:15:35,870 --> 00:15:32,310

things yeah they they want to do that

396

00:15:38,170 --> 00:15:35,880

yeah do the nasty and then if you're

397

00:15:41,690 --> 00:15:38,180

sadistic enough and you're done

398

00:15:44,269 --> 00:15:41,700

what do people like to do that it's just

399

00:15:47,440 --> 00:15:44,279

they kill or they could have you know

400

00:15:50,060 --> 00:15:47,450

they could [h\_\_h] him to death

401  
00:15:52,550 --> 00:15:50,070  
so the conversation I might take to say

402  
00:15:56,389 --> 00:15:52,560  
that's how you guys covered it a couple

403  
00:15:58,550 --> 00:15:56,399  
shows ago he was [h\_\_\h] to death and

404  
00:16:02,360 --> 00:15:58,560  
then a pillow thrown so I would parallel

405  
00:16:05,630 --> 00:16:02,370  
this with a recent HBO series called

406  
00:16:07,900 --> 00:16:05,640  
West world okay I don't know if you've

407  
00:16:10,490 --> 00:16:07,910  
seen this yet Joe I love the show so

408  
00:16:14,240 --> 00:16:10,500  
talked about it two weeks ago in West

409  
00:16:15,949 --> 00:16:14,250  
world it is a fictional kind of virtual

410  
00:16:18,850 --> 00:16:15,959  
reality kind of numbers route it's a

411  
00:16:22,699 --> 00:16:18,860  
real physical place that is occupied by

412  
00:16:25,519 --> 00:16:22,709  
almost semi sentient robots where humans

413  
00:16:27,650 --> 00:16:25,529

can come in welcome kill them do their

414

00:16:29,480 --> 00:16:27,660

adventures get all their throws out and

415

00:16:32,960 --> 00:16:29,490

they can leave without no consequence

416

00:16:35,300 --> 00:16:32,970

but these sentient robots are learning

417

00:16:39,949 --> 00:16:35,310

and remembering every time an action is

418

00:16:42,139 --> 00:16:39,959

taking upon them and it kind of reminds

419

00:16:46,610 --> 00:16:42,149

me of this missing four-on-one stuff

420

00:16:50,120 --> 00:16:46,620

where we the humans are to be used and

421

00:16:52,040 --> 00:16:50,130

abused by a higher powers will for

422

00:16:54,560 --> 00:16:52,050

whatever we want we can be [h\_\_h] to

423

00:16:57,920 --> 00:16:54,570

death we can be food and then killed and

424

00:16:59,540 --> 00:16:57,930

thrown in the snow and they can cover up

425

00:17:03,530 --> 00:16:59,550

their tracks as much as they want and

426

00:17:06,740 --> 00:17:03,540

that's that it seems like it seems like

427

00:17:09,110 --> 00:17:06,750

us we are living it we are in the West

428

00:17:11,270 --> 00:17:09,120

world and there's someone else [h\_\_h]

429

00:17:15,020 --> 00:17:11,280

with us as they please

430

00:17:16,970 --> 00:17:15,030

a lot of it and a Bigfoot rape attack

431

00:17:18,949 --> 00:17:16,980

now I might talk about Bigfoot rape

432

00:17:21,350 --> 00:17:18,959

attack as I talk about some episodes ago

433

00:17:23,319 --> 00:17:21,360

there are various other permittee

434

00:17:26,030 --> 00:17:23,329

extraterrestrial who knows maybe

435

00:17:28,150 --> 00:17:26,040

tricksters it doesn't [h\_\_h] matter

436

00:17:33,190 --> 00:17:28,160

it's as ridiculous

437

00:17:45,560 --> 00:17:35,810

miss him in the Bigfoot yeah.he

438

00:17:48,590 --> 00:17:45,570

community I think I actually think this

439

00:17:50,570 --> 00:17:48,600

missing foreign one stuff is more akin

440

00:17:53,450 --> 00:17:50,580

to us being in a West world like

441

00:17:55,400 --> 00:17:53,460

scenario than not at this point

442

00:17:57,950 --> 00:17:55,410

especially when you have confirmed

443

00:18:01,430 --> 00:17:57,960

reports with some of these missing for

444

00:18:04,850 --> 00:18:01,440

one people with their pants down which

445

00:18:06,590 --> 00:18:04,860

is a that's a sexual violation it when

446

00:18:09,050 --> 00:18:06,600

you're just missing clothes missing

447

00:18:10,730 --> 00:18:09,060

clothes in shoes off once you take your

448

00:18:16,130 --> 00:18:10,740

shoes off is very easy to the pants off

449

00:18:19,070 --> 00:18:16,140

trust me I know and it seems like there

450

00:18:22,040 --> 00:18:19,080

is an unspoken sexuality or sexual

451  
00:18:24,110 --> 00:18:22,050  
component to this missing 4:01 stuff and

452  
00:18:25,820 --> 00:18:24,120  
it seems as though we are the livestock

453  
00:18:28,480 --> 00:18:25,830  
when you go out into the woods where

454  
00:18:31,130 --> 00:18:28,490  
anything can happen [\h\_\_\h] does happen and

455  
00:18:35,990 --> 00:18:31,140  
I'm starting to view it like that that

456  
00:18:39,020 --> 00:18:36,000  
we are the feeding in the [\h\_\_\h] round for

457  
00:18:42,890 --> 00:18:39,030  
some higher power and we have no control

458  
00:18:44,630 --> 00:18:42,900  
over whatsoever and it has that that has

459  
00:18:46,190 --> 00:18:44,640  
to be lockdown at any and all cost

460  
00:18:47,600 --> 00:18:46,200  
because as soon as you release that as

461  
00:18:50,270 --> 00:18:47,610  
soon as Gummer comes out the FBI knows

462  
00:18:51,290 --> 00:18:50,280  
about this the Green Berets damn sure

463  
00:18:54,020 --> 00:18:51,300

know about this

464

00:18:55,610 --> 00:18:54,030

the government knows about this as soon

465

00:18:57,920 --> 00:18:55,620

as they release this information say by

466

00:19:01,210 --> 00:18:57,930

the way if you go to the woods you might

467

00:19:03,860 --> 00:19:01,220

get [h\_\_\h] to death they can't say that

468

00:19:05,510 --> 00:19:03,870

that would be a big off to going to

469

00:19:08,150 --> 00:19:05,520

state parks that would be a big turn

470

00:19:11,330 --> 00:19:08,160

down in people going to state parks and

471

00:19:12,740 --> 00:19:11,340

especially if it's expected that there's

472

00:19:14,750 --> 00:19:12,750

a certain amount of people have to go

473

00:19:20,200 --> 00:19:14,760

into those state parks in order to keep

474

00:19:23,390 --> 00:19:20,210

the people fed um you can't do that oh

475

00:19:25,880 --> 00:19:23,400

let's let's let's let's examine this and

476  
00:19:27,410 --> 00:19:25,890  
maybe go back a little bit to the

477  
00:19:29,930 --> 00:19:27,420  
WikiLeaks we talked about there's a wiki

478  
00:19:31,480 --> 00:19:29,940  
leak that a clown baby shared I think he

479  
00:19:34,490 --> 00:19:31,490  
shared it in the public chat where

480  
00:19:36,590 --> 00:19:34,500  
Podesta is talking about or there's

481  
00:19:38,750 --> 00:19:36,600  
somebody's emailing Podesta about the

482  
00:19:42,200 --> 00:19:38,760  
deals that have been made with the

483  
00:19:43,460 --> 00:19:42,210  
aliens and this guy from Canada he wants

484  
00:19:44,630 --> 00:19:43,470  
in on it he wants to know what those

485  
00:19:46,160 --> 00:19:44,640  
deals are it does

486  
00:19:47,570 --> 00:19:46,170  
want to get screwed again because

487  
00:19:50,660 --> 00:19:47,580  
Canada's got a better space probe

488  
00:19:53,210 --> 00:19:50,670

program at this point and so does this

489

00:19:56,960 --> 00:19:53,220

at all tie together like our is it an

490

00:20:00,860 --> 00:19:56,970

alien or a like a it's a it's an

491

00:20:02,930 --> 00:20:00,870

offworld power that's using us as an

492

00:20:06,110 --> 00:20:02,940

amusement park I hate to bring it

493

00:20:09,590 --> 00:20:06,120

back.this and either myself saying this

494

00:20:11,060 --> 00:20:09,600

so I delve into these topics like that

495

00:20:13,460 --> 00:20:11,070

last episode I talked about the seeker

496

00:20:15,890 --> 00:20:13,470

space program in one of the most

497

00:20:22,190 --> 00:20:15,900

profitable industries is the Galactic

498

00:20:26,060 --> 00:20:22,200

slave space trade Atlanta is the biggest

499

00:20:27,800 --> 00:20:26,070

Airport hub for sex slaves and humans

500

00:20:30,710 --> 00:20:27,810

and trafficking we just think about what

501  
00:20:32,360 --> 00:20:30,720  
happens at really the Denver Airport the

502  
00:20:34,550 --> 00:20:32,370  
Denver Airport with all the Illuminati

503  
00:20:37,340 --> 00:20:34,560  
symbols going out there I've been there

504  
00:20:39,380 --> 00:20:37,350  
I'm so high um I was like twelve so I

505  
00:20:42,770 --> 00:20:39,390  
didn't really you know if you go down

506  
00:20:46,070 --> 00:20:42,780  
that route and I'm completely willing to

507  
00:20:54,020 --> 00:20:46,080  
do so because no one else is it seems as

508  
00:20:57,110 --> 00:20:54,030  
though that we are we are cattle for

509  
00:21:00,080 --> 00:20:57,120  
somebody else because there's no cuz

510  
00:21:01,580 --> 00:21:00,090  
what has do you tell me no hunters been

511  
00:21:03,850 --> 00:21:01,590  
able to take down a Bigfoot in all these

512  
00:21:06,260 --> 00:21:03,860  
[h\_\_\h] years with with a 12-gauge

513  
00:21:08,480 --> 00:21:06,270

especially when you have Sega's out

514

00:21:10,040 --> 00:21:08,490

there they can do multiple shots don't

515

00:21:11,450 --> 00:21:10,050

[h\_\_h] buy it they would've been taken

516

00:21:13,460 --> 00:21:11,460

down one of them would have been taken

517

00:21:16,520 --> 00:21:13,470

down by now you would least have one

518

00:21:18,650 --> 00:21:16,530

Bigfoot body next to a very injured and

519

00:21:20,930 --> 00:21:18,660

dying person who managed to shoot this

520

00:21:23,840 --> 00:21:20,940

creature has not happened we're talking

521

00:21:26,990 --> 00:21:23,850

about some pretty high-tech technology

522

00:21:28,640 --> 00:21:27,000

being able to manipulate [h\_\_h] these

523

00:21:30,980 --> 00:21:28,650

people to death and then make it look

524

00:21:32,120 --> 00:21:30,990

like they died by natural causes and

525

00:21:34,640 --> 00:21:32,130

then being able to manipulate the

526

00:21:37,100 --> 00:21:34,650

weather so these bodies are covered and

527

00:21:39,230 --> 00:21:37,110

very hard to retrieve so maybe did you

528

00:21:42,170 --> 00:21:39,240

see any cattle mutilation I haven't even

529

00:21:43,280 --> 00:21:42,180

touched on that at all yeah I think I

530

00:21:44,300 --> 00:21:43,290

thought you thought I heard you mention

531

00:21:45,530 --> 00:21:44,310

it but not but it kind of makes sense

532

00:21:47,630 --> 00:21:45,540

with the cattle mutilation where they

533

00:21:49,700 --> 00:21:47,640

just do whatever they want the cows and

534

00:21:51,410 --> 00:21:49,710

just dump them back in the ranch yeah I

535

00:21:53,420 --> 00:21:51,420

mean if they're aliens and they're not

536

00:21:55,100 --> 00:21:53,430

even human and they just like [h\_\_\h]

537

00:21:57,320 --> 00:21:55,110

things like what if their planetary

538

00:22:01,730 --> 00:21:57,330

species that just [h\_\_\h] things to death

539

00:22:04,580 --> 00:22:01,740

see they let say independence day 3 I'm

540

00:22:06,140 --> 00:22:04,590

not even that is so plausible because

541

00:22:08,000 --> 00:22:06,150

I've read I've read so many horrific

542

00:22:11,210 --> 00:22:08,010

stories of what humans have done to

543

00:22:13,550 --> 00:22:11,220

other humans of you you've read stories

544

00:22:15,920 --> 00:22:13,560

like that where they leave a kid locked

545

00:22:18,500 --> 00:22:15,930

up at a closet for years and they [h\_\_\h]

546

00:22:23,140 --> 00:22:18,510

it in a torture of this kid and they're

547

00:22:27,050 --> 00:22:23,150

evil evil people two small children

548

00:22:29,300 --> 00:22:27,060

humans do this consider what it a higher

549

00:22:32,330 --> 00:22:29,310

intelligence with more technology it

550

00:22:37,010 --> 00:22:32,340

would be willing to do to us stupid

551  
00:22:39,650 --> 00:22:37,020  
[h\_\_h] apes yeah Rick house yeah they

552  
00:22:41,390 --> 00:22:39,660  
could totally go for some [h\_\_h]

553  
00:22:43,400 --> 00:22:41,400  
playground for them where they can just

554  
00:22:50,300 --> 00:22:43,410  
[h\_\_h] us to death and leave us to die so

555  
00:22:52,190 --> 00:22:50,310  
[h\_\_h] be it out in the woods sounds

556  
00:22:56,090 --> 00:22:52,200  
pretty hot so I'm sorry to be so graphic

557  
00:22:58,430 --> 00:22:56,100  
about it but that is I think that's just

558  
00:23:02,290 --> 00:22:58,440  
of it I think that I think that's what's

559  
00:23:04,910 --> 00:23:02,300  
going on here case closed everybody um

560  
00:23:06,740 --> 00:23:04,920  
on one it's I don't think it's Bigfoot

561  
00:23:08,680 --> 00:23:06,750  
doing this because like I said I think a

562  
00:23:13,340 --> 00:23:08,690  
bit a Bigfoot Ward a big shot by now

563  
00:23:14,960 --> 00:23:13,350

yeah it's definitely foreign powers

564

00:23:16,400 --> 00:23:14,970

especially with his hunter book I

565

00:23:17,750 --> 00:23:16,410

haven't received the yet but I'm

566

00:23:19,400 --> 00:23:17,760

assuming clown baby but you probably

567

00:23:21,470 --> 00:23:19,410

perused and we probably would have heard

568

00:23:25,640 --> 00:23:21,480

about on some of the sites we visit that

569

00:23:28,340 --> 00:23:25,650

Bigfoot was felled by Hunter and this

570

00:23:30,680 --> 00:23:28,350

hunter found him or was found near this

571

00:23:35,810 --> 00:23:30,690

dead Bigfoot body I haven't read the

572

00:23:37,160 --> 00:23:35,820

story no um I mean there's some big

573

00:23:39,170 --> 00:23:37,170

thing there's that one hoax I think

574

00:23:40,580 --> 00:23:39,180

maybe was in Georgia the guy had Bigfoot

575

00:23:42,920 --> 00:23:40,590

body in the freezer night turned out

576

00:23:44,630 --> 00:23:42,930

just to be like roadkill of like some

577

00:23:47,090 --> 00:23:44,640

possums and raccoons that he flipped

578

00:23:49,220 --> 00:23:47,100

frozen dies so what are we here what are

579

00:23:51,740 --> 00:23:49,230

we here on the missing four one one tape

580

00:23:54,770 --> 00:23:51,750

we heard a guy screaming yeah and being

581

00:23:57,380 --> 00:23:54,780

taken away and then six days later dead

582

00:23:59,540 --> 00:23:57,390

with a high amount of GHB his system

583

00:24:03,980 --> 00:23:59,550

floating uh I think a ponder floating in

584

00:24:06,710 --> 00:24:03,990

a river and the guy in during his GHB

585

00:24:08,360 --> 00:24:06,720

experience and completely paralyzed they

586

00:24:11,110 --> 00:24:08,370

can do anything they want with them and

587

00:24:13,430 --> 00:24:11,120

just leave them to die

588

00:24:15,680 --> 00:24:13,440

that's it I think there were some kind

589

00:24:17,840 --> 00:24:15,690

of deals truck and this is the price

590

00:24:20,120 --> 00:24:17,850

we're paying the price right now I think

591

00:24:21,980 --> 00:24:20,130

it's the bills Bill Cosby and Bill

592

00:24:25,159 --> 00:24:21,990

Clinton it's the BCS they're running

593

00:24:27,049 --> 00:24:25,169

around I don't know for Taoiseach if

594

00:24:28,760 --> 00:24:27,059

Barack Obama's teleporting with this

595

00:24:29,000 --> 00:24:28,770

presidential candidate we're talking

596

00:24:31,010 --> 00:24:29,010

about

597

00:24:33,080 --> 00:24:31,020

he's on Mars and all this other stuff

598

00:24:35,510 --> 00:24:33,090

then why in the hell wouldn't Bill

599

00:24:37,640 --> 00:24:35,520

Clinton and Bill Cosby team up to just

600

00:24:39,560 --> 00:24:37,650

[h\_\_\h] things to death all over the world

601  
00:24:41,840 --> 00:24:39,570  
they might not have the power as I

602  
00:24:43,730 --> 00:24:41,850  
talked about with the Mars colony

603  
00:24:45,620 --> 00:24:43,740  
is that they're probably working for

604  
00:24:48,289 --> 00:24:45,630  
somebody else and they have a very tight

605  
00:24:50,480 --> 00:24:48,299  
grip on what people do up there in Mars

606  
00:24:52,760 --> 00:24:50,490  
Mars colony they're miners up there and

607  
00:24:57,049 --> 00:24:52,770  
we're humans and yet we're part of an

608  
00:24:58,940 --> 00:24:57,059  
intergalactic consortium but there are

609  
00:25:01,610 --> 00:24:58,950  
more powerful beings out there according

610  
00:25:03,799 --> 00:25:01,620  
to the secret space program book that I

611  
00:25:06,440 --> 00:25:03,809  
write so we're gonna go down a trout

612  
00:25:08,270 --> 00:25:06,450  
which I'm completely willing to you got

613  
00:25:10,310 --> 00:25:08,280

it you have to do it with it with these

614

00:25:12,220 --> 00:25:10,320

missing four we've read so many cases

615

00:25:14,810 --> 00:25:12,230

like this it's getting is getting

616

00:25:18,440 --> 00:25:14,820

frustrating at this point and I can only

617

00:25:20,450 --> 00:25:18,450

imagine how David playas feels as the

618

00:25:22,039 --> 00:25:20,460

skeptic I I will say that the missing

619

00:25:23,330 --> 00:25:22,049

four oh and one stop especially when we

620

00:25:27,340 --> 00:25:23,340

played the call and everything else like

621

00:25:29,659 --> 00:25:27,350

that stuff is so fascinating to me

622

00:25:32,330 --> 00:25:29,669

there's so many coincidences that you

623

00:25:34,250 --> 00:25:32,340

have to at certain point go just there's

624

00:25:37,070 --> 00:25:34,260

something up here it's getting

625

00:25:38,590 --> 00:25:37,080

frustrating at this point and I can only

626

00:25:41,090 --> 00:25:38,600

imagine how he feels

627

00:25:42,560 --> 00:25:41,100

where is he why isn't he on the show yet

628

00:25:47,690 --> 00:25:42,570

you won't do this we talked about porn

629

00:25:49,610 --> 00:25:47,700

too much oh you reach out to them at all

630

00:25:51,260 --> 00:25:49,620

no we probably should hit some headlines

631

00:25:53,409 --> 00:25:51,270

here before we get out of here let's do

632

00:26:00,790 --> 00:25:53,419

it
