

Missing 411

The Holographic Universe +
Virtual Machine +
Meme Magic

**PARENTAL
ADVISORY
EXPLICITCONTENT**

1
00:00:00,320 --> 00:00:05,380
[Applause]

2
00:00:10,430 --> 00:00:07,670
everyone in this audio segment we're

3
00:00:13,400 --> 00:00:10,440
talking about missing 411 a holographic

4
00:00:15,829 --> 00:00:13,410
universe and meme magic and coincidence

5
00:00:17,450 --> 00:00:15,839
there's a lot of material here there are

6
00:00:19,010 --> 00:00:17,460
things I missed check the video

7
00:00:21,859 --> 00:00:19,020
description for links to additional

8
00:00:24,080 --> 00:00:21,869
content and here's a warning if you

9
00:00:26,359 --> 00:00:24,090
don't like cursing or other people's

10
00:00:28,580 --> 00:00:26,369
opinions thoughts and theories please

11
00:00:31,640 --> 00:00:28,590
don't listen just go ahead and stop

12
00:00:36,700 --> 00:00:31,650
listening right now thanks for listening

13
00:00:48,070 --> 00:00:42,850

I'm a mechanic get off my phone get off

14

00:00:52,380 --> 00:00:48,080

my phone you little pinhead I have some

15

00:00:54,930 --> 00:00:52,390

missing or 1/1 topics to talk about

16

00:00:59,280 --> 00:00:54,940

wrapped around the nature of reality

17

00:01:02,229 --> 00:00:59,290

mean magic coincidences and

18

00:01:03,790 --> 00:01:02,239

synchronicity these are some big topics

19

00:01:05,260 --> 00:01:03,800

here and for hello

20

00:01:07,000 --> 00:01:05,270

I want to lay something I want to say

21

00:01:12,580 --> 00:01:07,010

something to the YouTube listeners right

22

00:01:15,100 --> 00:01:12,590

now if you are offended by explicit

23

00:01:18,070 --> 00:01:15,110

content if you're offended by curse

24

00:01:20,859 --> 00:01:18,080

words and people talking and expressing

25

00:01:23,680 --> 00:01:20,869

their opinions who may differ from yours

26
00:01:25,990 --> 00:01:23,690
don't listen right now and in fact go

27
00:01:27,430 --> 00:01:26,000
[h__h] your [h__h] face right now okay

28
00:01:29,800 --> 00:01:27,440
okay

29
00:01:33,190 --> 00:01:29,810
go jump off a bridge you got that you

30
00:01:37,330 --> 00:01:33,200
goddamn son of a [h__h] yeah exactly yeah

31
00:01:39,040 --> 00:01:37,340
alkene yeah stop pushing your [h__h] look

32
00:01:40,450 --> 00:01:39,050
I like the Lea the YouTube comments I

33
00:01:42,760 --> 00:01:40,460
like the YouTube listeners but everyone

34
00:01:45,760 --> 00:01:42,770
is very opinionated when it comes to

35
00:01:48,880 --> 00:01:45,770
missing four one one and they all think

36
00:01:51,700 --> 00:01:48,890
they're [h__h] right and before you get

37
00:01:53,500 --> 00:01:51,710
into that I put a side mean Mike we're

38
00:01:55,210 --> 00:01:53,510

going to move on in Pittsburgh in

39

00:01:56,380 --> 00:01:55,220

November and dated Politis is going to

40

00:01:58,270 --> 00:01:56,390

be that we're finally going to see it

41

00:01:59,830 --> 00:01:58,280

hear him speak we will I will be meeting

42

00:02:01,570 --> 00:01:59,840

him in person we actually upgraded our

43

00:02:02,859 --> 00:02:01,580

ticket day due to lunch in a cocktail

44

00:02:04,179 --> 00:02:02,869

hour

45

00:02:07,990 --> 00:02:04,189

so hopefully I'll be able to able to

46

00:02:10,150 --> 00:02:08,000

have a few drinks with David and I'll be

47

00:02:12,729 --> 00:02:10,160

playing talk to them in person and I

48

00:02:16,360 --> 00:02:12,739

have some some questions that I would

49

00:02:20,020 --> 00:02:16,370

specifically would like to ask David

50

00:02:21,340 --> 00:02:20,030

like you know talking one-on-one with

51
00:02:23,710 --> 00:02:21,350
him he has to have a theory especially

52
00:02:25,150 --> 00:02:23,720
if he has a few drinks in him he has two

53
00:02:26,680 --> 00:02:25,160
fun dinner bringing him wasted we're

54
00:02:28,000 --> 00:02:26,690
gonna buy me a girl I'm gonna [ʌ__ʌ] a

55
00:02:30,910 --> 00:02:28,010
roofie imma take him back to my hotel

56
00:02:32,259 --> 00:02:30,920
room yeah exactly like in Tara I'm gonna

57
00:02:34,000 --> 00:02:32,269
take him to the [ʌ__ʌ] shower if you

58
00:02:35,740 --> 00:02:34,010
basically be in the sugar Brittany would

59
00:02:39,910 --> 00:02:35,750
come and then woman you for yeah

60
00:02:43,300 --> 00:02:39,920
oh she either sodium pentathol I hit you

61
00:02:46,390 --> 00:02:43,310
at that falafel thing yeah I am I'm

62
00:02:48,370 --> 00:02:46,400
excited to go there and hang out with

63
00:02:49,420 --> 00:02:48,380

David it says just listen to them

64

00:02:51,280 --> 00:02:49,430
talking

65

00:02:52,839 --> 00:02:51,290
with them you know I hopefully clown

66

00:02:55,179 --> 00:02:52,849
baby and I will dress up I want to wear

67

00:02:56,559 --> 00:02:55,189
jackets we're going to have press badges

68

00:02:59,020 --> 00:02:56,569
we're going to be make this official

69

00:03:02,890 --> 00:02:59,030
we're gonna somewhat hold our liquor

70

00:03:04,690 --> 00:03:02,900
we'll see what happens though uh well I

71

00:03:06,759 --> 00:03:04,700
mean the [h__h] the events kick off at

72

00:03:08,289 --> 00:03:06,769
like 9:00 a.m. so I mean I will be

73

00:03:09,699 --> 00:03:08,299
tanked by then we're in pregame we're

74

00:03:12,759 --> 00:03:09,709
gonna go start wearing tail get out in

75

00:03:14,649 --> 00:03:12,769
the parking lot that's fine I got an

76

00:03:16,179 --> 00:03:14,659

aesthetic like convention like space

77

00:03:17,649 --> 00:03:16,189

that's like a mile away from her hotel

78

00:03:20,440 --> 00:03:17,659

hopefully they'll have shuttles so we

79

00:03:22,599 --> 00:03:20,450

don't have to drive there okay well uh

80

00:03:23,759 --> 00:03:22,609

you know it's all games that we can do

81

00:03:27,250 --> 00:03:23,769

Bert or something like that

82

00:03:29,229 --> 00:03:27,260

to Greensburg so maybe we can yeah a

83

00:03:30,369 --> 00:03:29,239

mile is not that far to walk well let's

84

00:03:32,979 --> 00:03:30,379

sign up for uber and I'll Drive

85

00:03:36,819 --> 00:03:32,989

ourselves there how about that like I'll

86

00:03:40,569 --> 00:03:36,829

be our Hoover driver all right so this

87

00:03:44,309 --> 00:03:40,579

yeah this is the segment is about

88

00:03:46,390 --> 00:03:44,319

missing 401 the nature reality and

89

00:03:49,470 --> 00:03:46,400

synchronicity in coincidence

90

00:03:51,789 --> 00:03:49,480

now I was sent an email by listener and

91

00:03:54,759 --> 00:03:51,799

it was linked to a reddit post with a

92

00:03:57,369 --> 00:03:54,769

very interesting theory about missing

93

00:04:00,159 --> 00:03:57,379

for 1-1 now I'm going to expand on this

94

00:04:03,189 --> 00:04:00,169

person's theory as I as I read it down

95

00:04:04,539 --> 00:04:03,199

and I made a little little page for SL

96

00:04:07,030 --> 00:04:04,549

so I don't forget anything as some

97

00:04:09,030 --> 00:04:07,040

bullet points this person who wrote this

98

00:04:11,259 --> 00:04:09,040

theory works in computer programming and

99

00:04:13,809 --> 00:04:11,269

he has pretty sound reasoning behind

100

00:04:17,550 --> 00:04:13,819

some of his thoughts here he says that

101
00:04:19,719 --> 00:04:17,560
this universe is a virtual machine and

102
00:04:22,089 --> 00:04:19,729
this kind of goes on the premise that we

103
00:04:24,249 --> 00:04:22,099
live in a holographic universe that's a

104
00:04:26,200 --> 00:04:24,259
common theory that you see all around

105
00:04:28,930 --> 00:04:26,210
Elon Musk is like all we do we live in a

106
00:04:31,570 --> 00:04:28,940
holographic universe if that's been kind

107
00:04:32,980 --> 00:04:31,580
of thrown around quite consistently for

108
00:04:34,960 --> 00:04:32,990
the past five years you can see almost a

109
00:04:37,960 --> 00:04:34,970
hat new headline on that on that topic

110
00:04:42,149 --> 00:04:37,970
every week or month so this guy is kind

111
00:04:45,670 --> 00:04:42,159
of expanding upon what is missing for 11

112
00:04:52,379 --> 00:04:45,680
if we live in a holographic universe or

113
00:04:55,360 --> 00:04:52,389

a virtual machine or universe any he

114

00:04:58,029 --> 00:04:55,370

approaches us as like if you were in a

115

00:04:59,529 --> 00:04:58,039

video game have you ever gone if you're

116

00:05:01,600 --> 00:04:59,539

play Grand Theft Auto like Grand Theft

117

00:05:02,810 --> 00:05:01,610

Auto 3 or 4 and you drive so fast that

118

00:05:05,600 --> 00:05:02,820

the city is not done

119

00:05:07,730 --> 00:05:05,610

during yet yes I remember that yeah yeah

120

00:05:09,470 --> 00:05:07,740

so it happened because the computer

121

00:05:12,050 --> 00:05:09,480

hasn't caught up to render so it has to

122

00:05:13,430 --> 00:05:12,060

basically make a decision what to render

123

00:05:16,280 --> 00:05:13,440

what not there what would not surrender

124

00:05:17,950 --> 00:05:16,290

so this guy goes on the egos an

125

00:05:20,840 --> 00:05:17,960

apprentice think about that rendering

126

00:05:23,840 --> 00:05:20,850

massive blocks of atoms meaning like

127

00:05:26,060 --> 00:05:23,850

massive blocks of granite massive areas

128

00:05:29,960 --> 00:05:26,070

of water it's a very expensive operation

129

00:05:33,980 --> 00:05:29,970

for a computer to do and in in terms of

130

00:05:35,390 --> 00:05:33,990

say of computer cycles it has to make a

131

00:05:38,660 --> 00:05:35,400

decision so it's worth it

132

00:05:41,320 --> 00:05:38,670

is it worth rendering the beauty of the

133

00:05:44,390 --> 00:05:41,330

environment the woods the wire the rocks

134

00:05:47,930 --> 00:05:44,400

like when you're looking at Yosemite

135

00:05:50,000 --> 00:05:47,940

National Park when just your eyes are

136

00:05:52,040 --> 00:05:50,010

looking at it if the universe really

137

00:05:54,440 --> 00:05:52,050

going to use all that extra computing

138

00:05:56,990 --> 00:05:54,450

power just for your [\h__\h] eyes or is

139

00:05:59,840 --> 00:05:57,000

it going to say no well it's much

140

00:06:01,940 --> 00:05:59,850

cheaper to render you in a different

141

00:06:03,830 --> 00:06:01,950

place than all the lakes rivers and

142

00:06:08,990 --> 00:06:03,840

mountains and Granite's everything that

143

00:06:11,540 --> 00:06:09,000

has real dense atoms to them so when

144

00:06:13,520 --> 00:06:11,550

somebody usually goes missing from

145

00:06:16,370 --> 00:06:13,530

everything we read about missing for one

146

00:06:18,800 --> 00:06:16,380

it's usually near boulders or rocks or

147

00:06:21,230 --> 00:06:18,810

granite really densely packed atoms or

148

00:06:24,140 --> 00:06:21,240

water or these bodies are found near

149

00:06:27,740 --> 00:06:24,150

water that's a common theme correct me

150

00:06:30,170 --> 00:06:27,750

if I'm wrong in that clown baby but

151
00:06:32,870 --> 00:06:30,180
sorry but I was muted but I'm you know

152
00:06:36,410 --> 00:06:32,880
that that's pretty much correct yeah you

153
00:06:39,890 --> 00:06:36,420
can lots of other similarities this guy

154
00:06:42,910 --> 00:06:39,900
goes on the state that quantum theory

155
00:06:46,700 --> 00:06:42,920
and electrons under observation

156
00:06:48,830 --> 00:06:46,710
electrons are forced to act and behave

157
00:06:51,650 --> 00:06:48,840
like particles when they're observed and

158
00:06:54,230 --> 00:06:51,660
not like waves so when we URI we go out

159
00:06:56,830 --> 00:06:54,240
to the park or national park we're

160
00:07:01,010 --> 00:06:56,840
forcing those electron electrons to act

161
00:07:03,130 --> 00:07:01,020
like particles and not waves when we

162
00:07:07,670 --> 00:07:03,140
take a look at all the beauty and

163
00:07:09,020 --> 00:07:07,680

majesty of the National Parks and I I

164

00:07:12,320 --> 00:07:09,030

don't know if you're following this just

165

00:07:14,470 --> 00:07:12,330

yet joke but I'm going to try to dumb it

166

00:07:16,460 --> 00:07:14,480

down even further I'm not sure people

167

00:07:18,830 --> 00:07:16,470

understand this so

168

00:07:21,920 --> 00:07:18,840

I think now here the video game is

169

00:07:24,290 --> 00:07:21,930

pretty pretty good here okay

170

00:07:25,760 --> 00:07:24,300

in the overall theory it's a to the last

171

00:07:29,540 --> 00:07:25,770

part again so here let me see if I can

172

00:07:31,010 --> 00:07:29,550

follow your new bar if if the world is

173

00:07:33,170 --> 00:07:31,020

sort of the computer simulation in a

174

00:07:36,980 --> 00:07:33,180

hologram we see this stuff kind of

175

00:07:40,520 --> 00:07:36,990

happen in Grand Theft Auto 4 1-1 cases

176

00:07:42,310 --> 00:07:40,530

off our missing near the water we find

177

00:07:44,810 --> 00:07:42,320

them usually missing near the water and

178

00:07:48,140 --> 00:07:44,820

I think you're about to move on to your

179

00:07:50,720 --> 00:07:48,150

next point so in might the universe

180

00:07:54,890 --> 00:07:50,730

might make a decision that it's easier

181

00:07:59,480 --> 00:07:54,900

to remove the viewer than it is to

182

00:08:01,070 --> 00:07:59,490

render those objects got that sets

183

00:08:06,920 --> 00:08:01,080

unless that's a [h__\h] day wrecker

184

00:08:09,530 --> 00:08:06,930

right there so the universe is trying to

185

00:08:12,050 --> 00:08:09,540

optimize expensive operations by moving

186

00:08:14,570 --> 00:08:12,060

its observer into a place where it won't

187

00:08:16,640 --> 00:08:14,580

be so expensive to render the beauty

188

00:08:20,450 --> 00:08:16,650

like maybe a cave where everything is

189

00:08:22,250 --> 00:08:20,460

kind of you know close together and you

190

00:08:23,720 --> 00:08:22,260

just have to render the cave walls don't

191

00:08:26,240 --> 00:08:23,730

have to worry about the outside world at

192

00:08:28,090 --> 00:08:26,250

all so essentially the universe is

193

00:08:30,470 --> 00:08:28,100

brooding these hikers from the server

194

00:08:33,020 --> 00:08:30,480

possibly or moving them to another part

195

00:08:35,390 --> 00:08:33,030

of the server that is a that isn't as

196

00:08:37,700 --> 00:08:35,400

expensive to render oh I think this

197

00:08:39,200 --> 00:08:37,710

happens in like national parks and state

198

00:08:41,180 --> 00:08:39,210

parks and or people in the wilderness

199

00:08:42,380 --> 00:08:41,190

around the cities we've read about the

200

00:08:45,110 --> 00:08:42,390

people beautiful probably have rivers

201
00:08:46,310 --> 00:08:45,120
like in Pittsburgh in Columbus but why

202
00:08:48,200 --> 00:08:46,320
wouldn't just happen to like you know

203
00:08:49,820 --> 00:08:48,210
test pilots and fighter jets and stuff

204
00:08:52,250 --> 00:08:49,830
this is really fat there's a lot of

205
00:08:54,170 --> 00:08:52,260
energy or like the Space Shuttle those

206
00:08:56,510 --> 00:08:54,180
you know because well they blew up a

207
00:08:59,600 --> 00:08:56,520
couple times but he's in the air but you

208
00:09:02,810 --> 00:08:59,610
know more big-ticket items like airplane

209
00:09:06,890 --> 00:09:02,820
yeah maybe it would seem like it's very

210
00:09:08,270 --> 00:09:06,900
expensive to render the entire globe but

211
00:09:11,329 --> 00:09:08,280
if you're if you're up that high it's

212
00:09:13,400 --> 00:09:11,339
only rendering smaller kind of things

213
00:09:17,240 --> 00:09:13,410

it's rendering if you think about it a

214

00:09:19,850 --> 00:09:17,250

sphere with color not loud and some

215

00:09:21,800 --> 00:09:19,860

clouds not necessarily like Yosemite if

216

00:09:24,410 --> 00:09:21,810

you look at you're closer to the action

217

00:09:26,180 --> 00:09:24,420

and so it might not it might have much

218

00:09:27,680 --> 00:09:26,190

more difficult time rendering individual

219

00:09:28,560 --> 00:09:27,690

trees the water is the granite because

220

00:09:30,720 --> 00:09:28,570

those are all in

221

00:09:32,730 --> 00:09:30,730

electrons that is trying to calculate in

222

00:09:34,890 --> 00:09:32,740

some way this is the theory good

223

00:09:36,030 --> 00:09:34,900

question though and I don't know I don't

224

00:09:38,040 --> 00:09:36,040

know if I have a real answer for that

225

00:09:39,600 --> 00:09:38,050

other than those are some basic shapes

226

00:09:40,830 --> 00:09:39,610

that might be easier to render you can

227

00:09:42,660 --> 00:09:40,840

get away with just doing like a matte

228

00:09:44,690 --> 00:09:42,670

painting or something like that I don't

229

00:09:48,450 --> 00:09:44,700

write it it's like an impressionist I

230

00:09:50,460 --> 00:09:48,460

like the theory for one reason right off

231

00:09:53,430 --> 00:09:50,470

the bat because then it's like it

232

00:09:54,150 --> 00:09:53,440

doesn't matter if the earth is flat or

233

00:09:57,080 --> 00:09:54,160

not

234

00:10:01,560 --> 00:09:57,090

[h__h] you and stop talking about flatter

235

00:10:04,410 --> 00:10:01,570

I'll give you ding for that as anyone

236

00:10:06,870 --> 00:10:04,420

else think of this stuff yet crop up

237

00:10:09,120 --> 00:10:06,880

again oh yeah yeah it's stupid I'm just

238

00:10:11,730 --> 00:10:09,130

going to say it's [\h__\h] stupid anyway

239

00:10:15,450 --> 00:10:11,740

I'd love to be proven wrong on that but

240

00:10:19,290 --> 00:10:15,460

in my opinion stupid very stupid this

241

00:10:21,480 --> 00:10:19,300

also this this virtual of simulation

242

00:10:23,520 --> 00:10:21,490

also explain this this basically lack of

243

00:10:25,230 --> 00:10:23,530

resources for the the computer to render

244

00:10:27,150 --> 00:10:25,240

stuff also explains why people hearing

245

00:10:30,930 --> 00:10:27,160

nothing in these areas and why it's very

246

00:10:33,240 --> 00:10:30,940

quiet when no bird no no one hears birds

247

00:10:35,400 --> 00:10:33,250

or when it's very quiet it seems like

248

00:10:38,550 --> 00:10:35,410

the universe is ready to optimize or

249

00:10:40,470 --> 00:10:38,560

preparing the area for optimization and

250

00:10:43,380 --> 00:10:40,480

we've heard about that even in the

251

00:10:45,390 --> 00:10:43,390

invisible hunter stuff or when things

252

00:10:47,910 --> 00:10:45,400

get a little eerie out there in the

253

00:10:49,380 --> 00:10:47,920

woods things look quiet we've heard that

254

00:10:51,030 --> 00:10:49,390

so this guy is trying to explain away

255

00:10:53,640 --> 00:10:51,040

like it might go quiet because the

256

00:10:55,260 --> 00:10:53,650

superior is not choosing to render those

257

00:10:57,240 --> 00:10:55,270

noises and birds and all that kind of

258

00:10:59,190 --> 00:10:57,250

stuff is getting ready to optimize that

259

00:11:01,500 --> 00:10:59,200

area ah

260

00:11:05,460 --> 00:11:01,510

it also explains the bad weather

261

00:11:07,860 --> 00:11:05,470

afterwards think about a virtual virtual

262

00:11:09,900 --> 00:11:07,870

machine a virtual machines spend a lot

263

00:11:13,890 --> 00:11:09,910

of resources rendering landscapes so

264

00:11:16,320 --> 00:11:13,900

only so it's only to be observed if it's

265

00:11:18,330 --> 00:11:16,330

been optimized now the the search starts

266

00:11:20,370 --> 00:11:18,340

more rendering will be required people

267

00:11:23,100 --> 00:11:20,380

will start looking at in in those places

268

00:11:25,530 --> 00:11:23,110

and resources are wasted already so

269

00:11:27,150 --> 00:11:25,540

throw in some bad weather maybe even

270

00:11:29,250 --> 00:11:27,160

cover up the landscape with some clouds

271

00:11:30,480 --> 00:11:29,260

so it's not not the render everything

272

00:11:33,240 --> 00:11:30,490

you said to render some clouds and some

273

00:11:34,500 --> 00:11:33,250

rain but you think producing rain would

274

00:11:36,180 --> 00:11:34,510

be an expensive operation for the

275

00:11:37,710 --> 00:11:36,190

computer but I don't know this is his

276

00:11:40,600 --> 00:11:37,720

justification for the bad weather and

277

00:11:43,929 --> 00:11:40,610

the computer simulated universe

278

00:11:47,039 --> 00:11:43,939

it also explains why people who go

279

00:11:49,150 --> 00:11:47,049

missing and some of them are never found

280

00:11:52,720 --> 00:11:49,160

they may have just been moved into a

281

00:11:54,910 --> 00:11:52,730

cave or another area that is very hard

282

00:11:57,239 --> 00:11:54,920

to access some are lucky and are just

283

00:12:00,609 --> 00:11:57,249

moved to where just move where they

284

00:12:02,079 --> 00:12:00,619

where the remains can be found some of

285

00:12:03,900 --> 00:12:02,089

them are not so lucky and they got moved

286

00:12:07,359 --> 00:12:03,910

into caves or into spaces between

287

00:12:10,269 --> 00:12:07,369

between rocks where they won't ever find

288

00:12:12,669 --> 00:12:10,279

their way out yes easy the renders

289

00:12:15,280 --> 00:12:12,679

pitch-black and to feel I will just put

290

00:12:19,059 --> 00:12:15,290

your hair some people found underneath

291

00:12:21,100 --> 00:12:19,069

trees true some piece of people's bodies

292

00:12:22,889 --> 00:12:21,110

are found underneath trees so the key

293

00:12:25,569 --> 00:12:22,899

here has to make a quick decisions ah

294

00:12:29,799 --> 00:12:25,579

300 tree throw another score is only

295

00:12:31,419 --> 00:12:29,809

really bright is like two colors yeah um

296

00:12:33,220 --> 00:12:31,429

he does I would say I don't know about

297

00:12:35,319 --> 00:12:33,230

this one I don't know if I grew at this

298

00:12:37,059 --> 00:12:35,329

but it he said that this theory also

299

00:12:39,699 --> 00:12:37,069

explains why people almost never

300

00:12:41,889 --> 00:12:39,709

disappear when they're not alone it

301
00:12:43,769 --> 00:12:41,899
seems like two pairs of eyes is enough

302
00:12:46,150 --> 00:12:43,779
for the universe to render the beauty or

303
00:12:48,309 --> 00:12:46,160
for some reason the universe can't

304
00:12:51,970 --> 00:12:48,319
optimize this specific place because

305
00:12:54,280 --> 00:12:51,980
observation of the optimization moment

306
00:12:57,159 --> 00:12:54,290
is very expensive by itself so it's very

307
00:12:58,900 --> 00:12:57,169
expensive to optimize for one person but

308
00:13:00,400 --> 00:12:58,910
if there's like two people the computer

309
00:13:02,049 --> 00:13:00,410
might go and what the [h__\h] two people

310
00:13:03,340 --> 00:13:02,059
there I'm basically rendering it for

311
00:13:05,139 --> 00:13:03,350
Warren a month we'll do it for both so

312
00:13:06,519 --> 00:13:05,149
it makes a decision that explains why I

313
00:13:08,229 --> 00:13:06,529

didn't go missing in California doesn't

314

00:13:09,729 --> 00:13:08,239

mean my buddy I just rip up myself I'd

315

00:13:12,759 --> 00:13:09,739

be you know not be often Bigfoot [h__h]

316

00:13:15,659 --> 00:13:12,769

land but there but there are reports of

317

00:13:17,769 --> 00:13:15,669

people who are in a group and like a

318

00:13:21,280 --> 00:13:17,779

five-year-old will just go wandering off

319

00:13:24,850 --> 00:13:21,290

a little bit and now five year old will

320

00:13:26,019 --> 00:13:24,860

disappear like so I don't know I don't

321

00:13:30,059 --> 00:13:26,029

know what he means by a group or I'll

322

00:13:31,960 --> 00:13:30,069

close proximity you have to be to really

323

00:13:33,249 --> 00:13:31,970

what the justification is for the

324

00:13:35,169 --> 00:13:33,259

computer to really make this decision

325

00:13:37,269 --> 00:13:35,179

obviously it's the serial I don't know

326

00:13:38,859 --> 00:13:37,279

do the things that we don't see like in

327

00:13:40,600 --> 00:13:38,869

the woods they just not exist like why

328

00:13:45,280 --> 00:13:40,610

would it render anything for like a

329

00:13:47,409 --> 00:13:45,290

squirrel I guess this is where human

330

00:13:49,659 --> 00:13:47,419

consciousness comes in as opposed well

331

00:13:51,549 --> 00:13:49,669

yeah because it's like the tree thing at

332

00:13:53,079 --> 00:13:51,559

the tree falls in the woods is there you

333

00:13:53,750 --> 00:13:53,089

know does it make a sound there's nobody

334

00:13:55,750 --> 00:13:53,760

here to

335

00:13:58,400 --> 00:13:55,760

bear to hear it does it make a sound if

336

00:14:02,170 --> 00:13:58,410

there's not even a forest rendered

337

00:14:06,290 --> 00:14:02,180

there's no one to see the squirrel yes

338

00:14:09,980 --> 00:14:06,300

according to this theory but I mean is

339

00:14:13,400 --> 00:14:09,990

you do you've had dogs do you find him

340

00:14:16,130 --> 00:14:13,410

to be conscious beans absolutely I feel

341

00:14:18,950 --> 00:14:16,140

like they emotes and understand more

342

00:14:22,970 --> 00:14:18,960

than most people give them credit for I

343

00:14:27,290 --> 00:14:22,980

agree so I'm not sure when the this

344

00:14:30,650 --> 00:14:27,300

virtual machine decides to render things

345

00:14:33,380 --> 00:14:30,660

for nonhumans I this is you know I like

346

00:14:35,150 --> 00:14:33,390

the theory so far I like this theory but

347

00:14:36,650 --> 00:14:35,160

I don't know when the computer decides

348

00:14:38,780 --> 00:14:36,660

to render something for me and not a dog

349

00:14:41,420 --> 00:14:38,790

but the dogs vision is not the same as

350

00:14:44,180 --> 00:14:41,430

ours so it renders differently so it

351
00:14:46,130 --> 00:14:44,190
might be less expensive operations so

352
00:14:48,380 --> 00:14:46,140
and you can hold up the theory to by

353
00:14:50,240 --> 00:14:48,390
saying well it's the consciousness it's

354
00:14:53,120 --> 00:14:50,250
the empathy it's the understanding and

355
00:14:57,520 --> 00:14:53,130
the intellect of a human being that is

356
00:15:01,370 --> 00:14:57,530
being pumped into this whatever the

357
00:15:03,110 --> 00:15:01,380
simulation and so if it's a dog that you

358
00:15:04,760 --> 00:15:03,120
know when you go to work who the hell

359
00:15:07,730 --> 00:15:04,770
know bogie might not even be there he

360
00:15:11,960 --> 00:15:07,740
may cease to exist it's it's the classic

361
00:15:15,890 --> 00:15:11,970
quantum conundrum you know if you put a

362
00:15:18,500 --> 00:15:15,900
cat in a box and you gas it with poison

363
00:15:21,980 --> 00:15:18,510

gas not good not like laughing gas not

364

00:15:24,050 --> 00:15:21,990

something funny but is the cat dead you

365

00:15:26,060 --> 00:15:24,060

will only know the cat is in a neutral

366

00:15:27,710 --> 00:15:26,070

state of officers like until you observe

367

00:15:30,200 --> 00:15:27,720

the dead cat is not dead it's in some

368

00:15:32,750 --> 00:15:30,210

kind of limbo state but don't try this

369

00:15:36,200 --> 00:15:32,760

as an experiment like put a GoPro in a

370

00:15:40,580 --> 00:15:36,210

box and just kick the Box down a hill

371

00:15:44,240 --> 00:15:40,590

and set it on fire after we gas it burn

372

00:15:45,650 --> 00:15:44,250

again GoPro well I mean just will that

373

00:15:47,840 --> 00:15:45,660

will livestream it but there's going to

374

00:15:50,810 --> 00:15:47,850

be like a kit you know litter of kittens

375

00:15:52,850 --> 00:15:50,820

in there and we can just see what

376

00:15:54,350 --> 00:15:52,860

happens I'm sure YouTube will arnett

377

00:15:56,510 --> 00:15:54,360

streaming on the channel I'm sure you

378

00:15:59,200 --> 00:15:56,520

people love because YouTube loves cats

379

00:16:03,980 --> 00:15:59,210

and I'm sure they love cats on fire to

380

00:16:05,720 --> 00:16:03,990

love kitten videos the winner this is

381

00:16:06,889 --> 00:16:05,730

our this is our viral video right here

382

00:16:09,309 --> 00:16:06,899

exactly

383

00:16:11,540 --> 00:16:09,319

he's super popular Schrodinger

384

00:16:14,359 --> 00:16:11,550

Schrodinger's cat or Schrodinger's cat

385

00:16:16,460 --> 00:16:14,369

is if the Avengers keffiyeh the Quantum

386

00:16:19,460 --> 00:16:16,470

Conundrum there the thought experiment

387

00:16:23,410 --> 00:16:19,470

sometimes describes as a paradox devised

388

00:16:28,040 --> 00:16:23,420

by the Austrian physicist in 1935 so

389

00:16:31,749 --> 00:16:28,050

yeah so to continue on with this theory

390

00:16:35,600 --> 00:16:31,759

of the missing 4:01 some people may have

391

00:16:37,040 --> 00:16:35,610

disappear due to rendering optimization

392

00:16:38,150 --> 00:16:37,050

the computer saying basically go [\h__\h]

393

00:16:39,679 --> 00:16:38,160

yourself I'm not going to render this

394

00:16:41,389 --> 00:16:39,689

tree it's too expensive for you I'm

395

00:16:45,410 --> 00:16:41,399

going to throw you in a bush and you're

396

00:16:49,160 --> 00:16:45,420

going to die your volcano food now [\h__\h]

397

00:16:51,319 --> 00:16:49,170

a great tree yeah you know it ties in

398

00:16:53,739 --> 00:16:51,329

the holographic universe missing foreign

399

00:16:56,569 --> 00:16:53,749

one why people some may go missing and

400

00:17:02,350 --> 00:16:56,579

this kind of moves me on to another

401
00:17:07,579 --> 00:17:02,360
topic here which is mean magic and

402
00:17:09,860 --> 00:17:07,589
programming reality now Jeff plum baby

403
00:17:11,269 --> 00:17:09,870
you can attest to this that during the

404
00:17:16,269 --> 00:17:11,279
election something very interesting

405
00:17:19,970 --> 00:17:16,279
happened with Trump and Pepe the Frog

406
00:17:22,220 --> 00:17:19,980
yes that was the the Pepe meme magic

407
00:17:23,630 --> 00:17:22,230
they have a lot of people discern of it

408
00:17:26,090 --> 00:17:23,640
and a lot of the people who are getting

409
00:17:27,850 --> 00:17:26,100
big names and the whatever all right or

410
00:17:30,740 --> 00:17:27,860
whatever they're calling them these days

411
00:17:34,539 --> 00:17:30,750
we're pointing to me magic in this made

412
00:17:37,190 --> 00:17:34,549
Pepe the Frog into a Nazi mm-hmm well

413
00:17:40,039 --> 00:17:37,200

and we do live in a holographic universe

414

00:17:41,690 --> 00:17:40,049

there is a virtual machine essentially

415

00:17:44,630 --> 00:17:41,700

what can it be programmed why can't it

416

00:17:45,560 --> 00:17:44,640

be access to programming so the meme

417

00:17:48,080 --> 00:17:45,570

magic here we go

418

00:17:49,880 --> 00:17:48,090

maybe the Frog is in fact a modern-day

419

00:17:52,610 --> 00:17:49,890

avatar of an ancient Egyptian deity

420

00:17:57,710 --> 00:17:52,620

accidentally resurrected by an online

421

00:17:59,180 --> 00:17:57,720

image board culture 4chan all you really

422

00:18:00,649 --> 00:17:59,190

need to know about this is that sometime

423

00:18:03,169 --> 00:18:00,659

around right around 2010 a sad-looking

424

00:18:05,630 --> 00:18:03,179

cartoon frog began to trend amongst

425

00:18:07,430 --> 00:18:05,640

posters on 4chan and similar underground

426

00:18:08,990 --> 00:18:07,440

message boards Pepe the Frog we'd use

427

00:18:11,210 --> 00:18:09,000

the image everyone knows as goddamn frog

428

00:18:13,310 --> 00:18:11,220

now and the Trump campaign kind of

429

00:18:15,710 --> 00:18:13,320

adopted it since the election and during

430

00:18:17,899 --> 00:18:15,720

the campaign since the poster can't

431

00:18:20,390 --> 00:18:17,909

really know they're posting number on

432

00:18:23,770 --> 00:18:20,400

4chan so we post up so when you post

433

00:18:26,180 --> 00:18:23,780

on 4chan it assigns you a number and

434

00:18:27,620 --> 00:18:26,190

since people people can't really find

435

00:18:31,040 --> 00:18:27,630

out their post number till after they

436

00:18:33,110 --> 00:18:31,050

submitted a post is common for people to

437

00:18:35,840 --> 00:18:33,120

bet on the contents of their message and

438

00:18:38,540 --> 00:18:35,850

the occurrence and the repeating digits

439

00:18:42,320 --> 00:18:38,550

so there there are digits at the post

440

00:18:44,450 --> 00:18:42,330

and they some people like oh I bet the

441

00:18:46,970 --> 00:18:44,460

last two digits will be seven seven or

442

00:18:48,740 --> 00:18:46,980

35 or something like that and people

443

00:18:50,810 --> 00:18:48,750

will take bets or like say I'm at this

444

00:18:53,120 --> 00:18:50,820

post this post will be 32 and you know

445

00:18:54,770 --> 00:18:53,130

if you guess right then you know you

446

00:18:58,550 --> 00:18:54,780

I guess you get a [\h__\h] thumbs up or

447

00:19:00,590 --> 00:18:58,560

or ding like this and people actively

448

00:19:04,370 --> 00:19:00,600

mean it's kind of like yeah it's a good

449

00:19:06,110 --> 00:19:04,380

luck kind of thing now this is all

450

00:19:08,270 --> 00:19:06,120

coming to fruition doors they're

451

00:19:13,070 --> 00:19:08,280

spreading this this this Trump thing

452

00:19:19,930 --> 00:19:13,080

around they tie in Trump to this Pepe

453

00:19:23,780 --> 00:19:19,940

the Frog and sure enough when this Pepe

454

00:19:28,190 --> 00:19:23,790

really became pronounced it looked like

455

00:19:35,030 --> 00:19:28,200

it had the number 777-7777

456

00:19:36,940 --> 00:19:35,040

and this Trump mean when applied to the

457

00:19:40,310 --> 00:19:36,950

Frog when they merged when they merged

458

00:19:43,160 --> 00:19:40,320

it was called Keck and that was this

459

00:19:45,020 --> 00:19:43,170

kind of a quick term forget which again

460

00:19:47,450 --> 00:19:45,030

is like I guess it's kind of like a bet

461

00:19:51,440 --> 00:19:47,460

on these these random numbers that are

462

00:19:53,270 --> 00:19:51,450

no no no no Keck is Texan Asian he got a

463

00:19:55,160 --> 00:19:53,280

cast as far as I know yeah you were good

464

00:19:56,900 --> 00:19:55,170

you were you were taking a dump when he

465

00:19:59,030 --> 00:19:56,910

was going through that that's why just

466

00:20:01,490 --> 00:19:59,040

FYI for the listener I did not interrupt

467

00:20:03,320 --> 00:20:01,500

Jeff when Mike kind of called on him I

468

00:20:05,030 --> 00:20:03,330

actually just jumped in so that there

469

00:20:07,810 --> 00:20:05,040

would be a smooth mic isn't paying

470

00:20:10,640 --> 00:20:07,820

attention to the slack so I'm not okay

471

00:20:12,620 --> 00:20:10,650

fine he was out it was out doing

472

00:20:13,250 --> 00:20:12,630

something I think if you'd put me to

473

00:20:15,950 --> 00:20:13,260

hearing he's right

474

00:20:19,100 --> 00:20:15,960

yeah I'll mail it clipping hands yeah so

475

00:20:20,870 --> 00:20:19,110

here is so Keck is used expression of

476

00:20:23,180 --> 00:20:20,880

the light particularly in response to

477

00:20:25,730 --> 00:20:23,190

Trump's trolling of the establishment as

478

00:20:27,820 --> 00:20:25,740

well as reaction to the unlikely gets in

479

00:20:30,380 --> 00:20:27,830

general the unlikely get is when you um

480

00:20:33,050 --> 00:20:30,390

you guess your number on your on your

481

00:20:34,240 --> 00:20:33,060

post and 4chan and actually know the

482

00:20:36,280 --> 00:20:34,250

true origin

483

00:20:38,110 --> 00:20:36,290

I understand it Jeff I understand that

484

00:20:41,770 --> 00:20:38,120

no no no no no not the Egyptian god of

485

00:20:43,960 --> 00:20:41,780

chaos it's actually in World of Warcraft

486

00:20:45,730 --> 00:20:43,970

whenever a horde player would type lol

487

00:20:48,580 --> 00:20:45,740

out allies player it would translate his

488

00:20:51,430 --> 00:20:48,590

CAC that's congressional okay I did not

489

00:20:53,020 --> 00:20:51,440

know that for them but kack kack G also

490

00:20:54,520 --> 00:20:53,030

happened to be the Egyptian chaos but

491

00:20:57,880 --> 00:20:54,530

neither here nor there sorry go ahead

492

00:21:02,620 --> 00:20:57,890

that's fine um so they applied the the

493

00:21:05,110 --> 00:21:02,630

term CAC as a form of delight to through

494

00:21:10,210 --> 00:21:05,120

this image mean with Trump and pet baits

495

00:21:14,620 --> 00:21:10,220

and sure enough this this mean was born

496

00:21:23,320 --> 00:21:14,630

but Keck or it's also spelled as see UK

497

00:21:25,720 --> 00:21:23,330

or kek is the affinity affinity ssin of

498

00:21:31,660 --> 00:21:25,730

a primordial concept of darkness and

499

00:21:33,490 --> 00:21:31,670

ancient Egyptian religion it is the call

500

00:21:37,630 --> 00:21:33,500

of the darkest before the light and

501
00:21:40,900 --> 00:21:37,640
that's why people were referring to the

502
00:21:43,800 --> 00:21:40,910
Trump the bringer of the light and like

503
00:21:47,350 --> 00:21:43,810
all like all for dualistic concepts in

504
00:21:49,720 --> 00:21:47,360
the this is it gets really deep into

505
00:21:52,450 --> 00:21:49,730
suffice us right but there's also a lot

506
00:21:53,800 --> 00:21:52,460
of references built into the see they

507
00:21:55,630 --> 00:21:53,810
also call him to God emperors a

508
00:21:58,030 --> 00:21:55,640
reference to Warhammer 40000 named God

509
00:22:00,610 --> 00:21:58,040
Emperor mankind for the Imperium he was

510
00:22:05,880 --> 00:22:00,620
also a light bringer yeah so there's a

511
00:22:12,370 --> 00:22:05,890
laced a lot so the mean magic is is that

512
00:22:15,610 --> 00:22:12,380
they have somehow used like ancient

513
00:22:18,460 --> 00:22:15,620

Egyptian imagery and wording combined

514

00:22:22,210 --> 00:22:18,470

with modern-day image word culture to

515

00:22:24,340 --> 00:22:22,220

spread the observation of this meme to

516

00:22:27,730 --> 00:22:24,350

bring it into existence and as some form

517

00:22:31,600 --> 00:22:27,740

of magic or as some way to program the

518

00:22:34,030 --> 00:22:31,610

virtual machine me magic there and they

519

00:22:37,150 --> 00:22:34,040

tapped into something accidentally

520

00:22:40,240 --> 00:22:37,160

probably accidentally probably in order

521

00:22:42,700 --> 00:22:40,250

to bring about this change if you

522

00:22:44,350 --> 00:22:42,710

believe in the magic and the virtual

523

00:22:46,150 --> 00:22:44,360

machine and being able to program in

524

00:22:48,820 --> 00:22:46,160

some way but we see this all the

525

00:22:50,920 --> 00:22:48,830

I'm in predictive programming you see

526

00:22:53,200 --> 00:22:50,930

this everywhere and it's been rumoured

527

00:22:55,600 --> 00:22:53,210

that the ruling elite use predictive

528

00:22:58,060 --> 00:22:55,610

programming by placing 911s everywhere

529

00:23:01,000 --> 00:22:58,070

or the old scene I as a buy in as a

530

00:23:05,470 --> 00:23:01,010

gradual building to what will eventually

531

00:23:08,650 --> 00:23:05,480

be reality they place future events in

532

00:23:12,100 --> 00:23:08,660

media whether it be print book or movies

533

00:23:14,320 --> 00:23:12,110

to get our unconscious acceptance of it

534

00:23:16,600 --> 00:23:14,330

the 4chan people did it in a different

535

00:23:18,940 --> 00:23:16,610

way by using modern-day social media in

536

00:23:21,700 --> 00:23:18,950

a very in artistic way but that had the

537

00:23:25,180 --> 00:23:21,710

same result nonetheless and they

538

00:23:27,700 --> 00:23:25,190

channeled ancient gods much the same way

539

00:23:29,710 --> 00:23:27,710

that they're really really really elite

540

00:23:31,900 --> 00:23:29,720

use the all-seeing eye and use some this

541

00:23:34,270 --> 00:23:31,910

weird imagery that comes from ancient

542

00:23:36,100 --> 00:23:34,280

cultures and religion but they use the

543

00:23:38,020 --> 00:23:36,110

exact same way but the fortunate people

544

00:23:41,950 --> 00:23:38,030

just did it as a joke and they

545

00:23:45,160 --> 00:23:41,960

accidentally got it right are you with

546

00:23:47,830 --> 00:23:45,170

me so far c'mon babe yeah I mean we

547

00:23:49,930 --> 00:23:47,840

called Trump the chaos Kenji you voted

548

00:23:51,370 --> 00:23:49,940

for because I believe he said we were

549

00:23:52,480 --> 00:23:51,380

going to vote for because of that I

550

00:23:54,040 --> 00:23:52,490

don't know this is must have been that

551
00:23:56,560 --> 00:23:54,050
may be in the primaries a year ago or so

552
00:23:59,710 --> 00:23:56,570
so I mean I guess we got what we wish

553
00:24:01,590 --> 00:23:59,720
for so you can think of these memes and

554
00:24:05,400 --> 00:24:01,600
like when you make a really good mean

555
00:24:07,840 --> 00:24:05,410
and it happens to wrap around reality

556
00:24:10,360 --> 00:24:07,850
what they did with Trump is that they

557
00:24:12,610 --> 00:24:10,370
they wrapped Trump's reality in this god

558
00:24:13,930 --> 00:24:12,620
Emperor this bringer delight the detect

559
00:24:16,450 --> 00:24:13,940
the Frog all that kind of stuff they

560
00:24:19,750 --> 00:24:16,460
wrapped them so in actual programming

561
00:24:22,030 --> 00:24:19,760
terms this is extending the class so we

562
00:24:25,600 --> 00:24:22,040
believe that we're in a virtual machine

563
00:24:28,050 --> 00:24:25,610

in Python programming you can actually

564

00:24:31,510 --> 00:24:28,060

directly access the programming itself

565

00:24:33,930 --> 00:24:31,520

through magic methods that allows you to

566

00:24:36,310 --> 00:24:33,940

overwrite the core functionality of

567

00:24:38,500 --> 00:24:36,320

what's going on so you can think of

568

00:24:42,400 --> 00:24:38,510

Trump as a computer program they wrapped

569

00:24:44,320 --> 00:24:42,410

from in that mean in Altered the core

570

00:24:45,790 --> 00:24:44,330

functionality of how people perceive

571

00:24:47,050 --> 00:24:45,800

them and how the virtual machine

572

00:24:49,060 --> 00:24:47,060

perceive them as well too

573

00:24:50,740 --> 00:24:49,070

you can do this a bunch of different

574

00:24:54,670 --> 00:24:50,750

ways in programming somehow leave this

575

00:24:56,680 --> 00:24:54,680

mean magic directly accesses the core

576
00:24:58,960 --> 00:24:56,690
functionality and programming of the

577
00:25:01,680 --> 00:24:58,970
virtual machine we live in

578
00:25:04,299 --> 00:25:01,690
this could also really kind of explain

579
00:25:07,510 --> 00:25:04,309
synchronicity in coincidences we see

580
00:25:10,450 --> 00:25:07,520
coincidences all the time and think we

581
00:25:12,130 --> 00:25:10,460
just saw that is that I bring us up on

582
00:25:15,250 --> 00:25:12,140
the show all the times like this doesn't

583
00:25:17,850 --> 00:25:15,260
this this happens too much like we see

584
00:25:22,090 --> 00:25:17,860
names being used over and over again and

585
00:25:24,570 --> 00:25:22,100
events that seem so spread apart by time

586
00:25:27,070 --> 00:25:24,580
have the same name like Kennedy's

587
00:25:30,610 --> 00:25:27,080
Kennedy's assassin with Lee Harvey

588
00:25:33,940 --> 00:25:30,620

Oswald and but meanwhile Incans assassin

589

00:25:36,520 --> 00:25:33,950

had Lincoln had a secretary called uh

590

00:25:39,070 --> 00:25:36,530

what was that Kennedy all these weird

591

00:25:41,200 --> 00:25:39,080

rhydings of names and history throughout

592

00:25:42,610 --> 00:25:41,210

throughout the ages it almost seems like

593

00:25:44,860 --> 00:25:42,620

the computer has run out of memory and

594

00:25:46,090 --> 00:25:44,870

just reuses a bunch of [h__\h] because it

595

00:25:48,130 --> 00:25:46,100

doesn't want to spend the processing

596

00:25:52,659 --> 00:25:48,140

power so create just creates these

597

00:25:55,210 --> 00:25:52,669

coincidences or synchronicities lending

598

00:25:58,539 --> 00:25:55,220

to the theory that we live in a virtual

599

00:26:00,610 --> 00:25:58,549

machine one with not enough processing

600

00:26:02,649 --> 00:26:00,620

power to deal with the observation of

601
00:26:05,289 --> 00:26:02,659
the natural environment that could be

602
00:26:08,860 --> 00:26:05,299
directly accessed through me magic and

603
00:26:10,510 --> 00:26:08,870
has to create coincidences and reusing

604
00:26:13,210 --> 00:26:10,520
the same old [h__h] over and over

605
00:26:14,830 --> 00:26:13,220
again because it just doesn't have the

606
00:26:19,210 --> 00:26:14,840
RAM it doesn't have the hard drive state

607
00:26:23,200 --> 00:26:19,220
space to come up with new [h__h] I don't

608
00:26:25,930 --> 00:26:23,210
like it so I like you're saying tech

609
00:26:27,640 --> 00:26:25,940
tech and these memes were forced so much

610
00:26:29,110 --> 00:26:27,650
within this machine in this global

611
00:26:32,710 --> 00:26:29,120
consciousness that it was forced to

612
00:26:36,549 --> 00:26:32,720
create something to do to satisfy these

613
00:26:39,640 --> 00:26:36,559

dots or something like that the mean

614

00:26:42,070 --> 00:26:39,650

magic if you're a like this is a theory

615

00:26:43,690 --> 00:26:42,080

here and I don't know how I buy into it

616

00:26:45,779 --> 00:26:43,700

I don't know if I buy into you this is

617

00:26:49,720 --> 00:26:45,789

just a thought process I have that means

618

00:26:51,279 --> 00:26:49,730

rap true like rap real people if it's

619

00:26:54,399 --> 00:26:51,289

about somebody you can wrap something

620

00:26:56,620 --> 00:26:54,409

around somebody and that directly alters

621

00:26:59,620 --> 00:26:56,630

the programming and how the virtual

622

00:27:02,409 --> 00:26:59,630

machine interacts with that person and

623

00:27:03,610 --> 00:27:02,419

how other people perceive it it is magic

624

00:27:05,409 --> 00:27:03,620

in that way much the same way that

625

00:27:08,830 --> 00:27:05,419

predicted programming uses and/or

626

00:27:11,490 --> 00:27:08,840

numerology is use astrology is used to

627

00:27:14,460 --> 00:27:11,500

predict some certain things as

628

00:27:15,860 --> 00:27:14,470

does mean magic specifically the one

629

00:27:18,870 --> 00:27:15,870

that applies to Trump here the Keck one

630

00:27:20,700 --> 00:27:18,880

it made an unlikely scenario likely

631

00:27:22,770 --> 00:27:20,710

because it directly accessed the

632

00:27:33,690 --> 00:27:22,780

programming of the virtual machine to

633

00:27:36,540 --> 00:27:33,700

make it happen um and absolutely it's

634

00:27:39,660 --> 00:27:36,550

pretty pretty complex but I like it it

635

00:27:43,170 --> 00:27:39,670

went that only the missing foreign one

636

00:27:45,420 --> 00:27:43,180

stuff was from the guy on I'll post up

637

00:27:49,350 --> 00:27:45,430

the link in the notes on the on the

638

00:27:52,350 --> 00:27:49,360

YouTube site I applied it to directly

639

00:27:54,950 --> 00:27:52,360

accessing the core language of the

640

00:27:58,020 --> 00:27:54,960

virtual machine by using me magic and

641

00:28:00,090 --> 00:27:58,030

tying that into synchronous being

642

00:28:02,610 --> 00:28:00,100

poisonous is by the computer is running

643

00:28:05,880 --> 00:28:02,620

out of processing power to pick up new

644

00:28:07,950 --> 00:28:05,890

names what is it if we live in a

645

00:28:09,300 --> 00:28:07,960

holograph is it so joseph is hard for

646

00:28:11,430 --> 00:28:09,310

you to accept that we live in a

647

00:28:15,270 --> 00:28:11,440

holographic universe that we can access

648

00:28:18,390 --> 00:28:15,280

the programming of a universe yeah it's

649

00:28:22,250 --> 00:28:18,400

it's I I like to entertain the theory of

650

00:28:24,210 --> 00:28:22,260

the either the holographic universe or

651

00:28:26,340 --> 00:28:24,220

simulation you know it's all the stuff

652

00:28:28,760 --> 00:28:26,350

that they've been talking about I I

653

00:28:32,340 --> 00:28:28,770

think that even if that's true

654

00:28:34,230 --> 00:28:32,350

ultimately it's you know it's all in

655

00:28:37,860 --> 00:28:34,240

your head right consciousness is all you

656

00:28:39,810 --> 00:28:37,870

have so you like I will still want even

657

00:28:40,890 --> 00:28:39,820

if I'm in a holographic universe I'll

658

00:28:43,020 --> 00:28:40,900

still want to do what's right

659

00:28:45,240 --> 00:28:43,030

I'd love to be able to do like neo type

660

00:28:48,030 --> 00:28:45,250

stuff and fly around and you know pick

661

00:28:53,820 --> 00:28:48,040

up groceries instead of driving difficu

662

00:28:55,860 --> 00:28:53,830

but uh I don't know and said these are

663

00:28:58,410 --> 00:28:55,870

the things like the big questions right

664

00:29:01,770 --> 00:28:58,420

I think these are the huge questions of

665

00:29:03,630 --> 00:29:01,780

what is the nature of reality and we

666

00:29:06,090 --> 00:29:03,640

can't accurately describe the nature of

667

00:29:07,440 --> 00:29:06,100

what reality really is how we can

668

00:29:11,790 --> 00:29:07,450

explain how people are going missing in

669

00:29:13,860 --> 00:29:11,800

the woods uh you know I am and they just

670

00:29:16,350 --> 00:29:13,870

seem to vanish in thin into thin air

671

00:29:19,160 --> 00:29:16,360

sometimes you know and then you read all

672

00:29:20,940 --> 00:29:19,170

the articles about physicists and in

673

00:29:23,250 --> 00:29:20,950

scientists like yeah we live in a

674

00:29:24,400 --> 00:29:23,260

holographic universe it's it's really

675

00:29:25,750 --> 00:29:24,410

they're coming to

676

00:29:28,950 --> 00:29:25,760

some kind of conclusion here they've

677

00:29:31,990 --> 00:29:28,960

actually believed this to be real and

678

00:29:35,290 --> 00:29:32,000

what happens has any other civilization

679

00:29:36,970 --> 00:29:35,300

out there managed to create like a

680

00:29:39,670 --> 00:29:36,980

simulated universe on their own that's

681

00:29:41,230 --> 00:29:39,680

just as accurate as ours I mean we have

682

00:29:44,710 --> 00:29:41,240

some pretty goddamn good video games Joe

683

00:29:47,110 --> 00:29:44,720

but it's not the universe no and I you

684

00:29:50,500 --> 00:29:47,120

know that I'd say probably where I fall

685

00:29:51,820 --> 00:29:50,510

all on all this holographic universe and

686

00:29:53,260 --> 00:29:51,830

oh the scientists are saying well you

687

00:29:54,550 --> 00:29:53,270

know the scientists are saying we're you

688

00:29:57,070 --> 00:29:54,560

know New York would have been underwater

689

00:29:59,380 --> 00:29:57,080

by now you know 10 15 years ago and they

690

00:30:01,630 --> 00:29:59,390

we're saying all the stuff scientists

691

00:30:03,220 --> 00:30:01,640

were saying back then and so you when

692

00:30:05,770 --> 00:30:03,230

you when you look into the New Age

693

00:30:07,900 --> 00:30:05,780

movement and sort of the CIA's

694

00:30:10,540 --> 00:30:07,910

involvement Laurel Canyon and all that

695

00:30:12,310 --> 00:30:10,550

stuff all ties together the New Age

696

00:30:14,110 --> 00:30:12,320

movement is sort of this way to kind of

697

00:30:18,060 --> 00:30:14,120

divert people's attention from the

698

00:30:20,200 --> 00:30:18,070

atrocities of government so having a

699

00:30:22,450 --> 00:30:20,210

holographic universe where none of this

700

00:30:24,520 --> 00:30:22,460

[h__h] matters is really good if you want

701
00:30:26,830 --> 00:30:24,530
to rob and steal and kill people all

702
00:30:28,900 --> 00:30:26,840
over the world and I almost feel like

703
00:30:31,720 --> 00:30:28,910
this is sort of a second wave New Age

704
00:30:34,780 --> 00:30:31,730
movement this whole holograph universe

705
00:30:37,330 --> 00:30:34,790
Flattr craziness you know it is it does

706
00:30:39,760 --> 00:30:37,340
kind of get metaphysical uh and yeah I

707
00:30:41,710 --> 00:30:39,770
wholly admit that I don't just because

708
00:30:43,180 --> 00:30:41,720
I'm talking about this stuff I don't

709
00:30:45,040 --> 00:30:43,190
know what's way I come down I'm just

710
00:30:48,430 --> 00:30:45,050
trying to leap from one thing to another

711
00:30:51,130 --> 00:30:48,440
and come up with some kind of theory

712
00:30:53,260 --> 00:30:51,140
here whether it's true I don't know I'm

713
00:30:55,830 --> 00:30:53,270

just writing notes and it might be a

714

00:30:58,180 --> 00:30:55,840

dead end and I know it sounds completely

715

00:31:00,340 --> 00:30:58,190

lunacy it's complete lunacy that I'm

716

00:31:02,380 --> 00:31:00,350

talking about using mean magic to

717

00:31:04,720 --> 00:31:02,390

directly access the core programming of

718

00:31:06,340 --> 00:31:04,730

the virtual machine we live in but I

719

00:31:09,970 --> 00:31:06,350

also know when it comes to coincidences

720

00:31:12,880 --> 00:31:09,980

in synchronicity that I reuse enough

721

00:31:15,850 --> 00:31:12,890

shitty code that using other programs

722

00:31:18,670 --> 00:31:15,860

what I can see if there's some lazy like

723

00:31:20,590 --> 00:31:18,680

intelligence out there this reusing code

724

00:31:22,240 --> 00:31:20,600

that's a coincidence right there you

725

00:31:23,530 --> 00:31:22,250

know there's like I don't want to

726

00:31:25,090 --> 00:31:23,540

program a whole new [h__h]

727

00:31:28,240 --> 00:31:25,100

assassination this use these same names

728

00:31:30,370 --> 00:31:28,250

and make it an you know yeah I could I

729

00:31:32,020 --> 00:31:30,380

can see that because either they're lazy

730

00:31:34,630 --> 00:31:32,030

programmers they want to save on memory

731

00:31:37,130 --> 00:31:34,640

and processing power at some point I can

732

00:31:39,470 --> 00:31:37,140

get that there are light out

733

00:31:40,730 --> 00:31:39,480

go further into coincidences at some

734

00:31:43,760 --> 00:31:40,740

point in time but there's a lot out

735

00:31:47,060 --> 00:31:43,770

there we talked about that when it came

736

00:31:50,090 --> 00:31:47,070

to that a boliya scary in that that

737

00:31:54,560 --> 00:31:50,100

weird far out theory of that was it her

738

00:31:57,950 --> 00:31:54,570

name elisa something the bola eliza lamb

739

00:32:00,710 --> 00:31:57,960

eliza lamb and a bowl i and how the

740

00:32:05,450 --> 00:32:00,720

intermingling of her with some a bowl i

741

00:32:07,010 --> 00:32:05,460

vaccine in in africa was this some weird

742

00:32:10,940 --> 00:32:07,020

coincidences were happening with her

743

00:32:14,720 --> 00:32:10,950

disappearance her name and vaccinations

744

00:32:15,680 --> 00:32:14,730

in a bowl i in africa and there was

745

00:32:17,240 --> 00:32:15,690

there's a lot of weird little

746

00:32:19,250 --> 00:32:17,250

correlations that were going i was like

747

00:32:21,710 --> 00:32:19,260

this doesn't seem like it says i have a

748

00:32:23,720 --> 00:32:21,720

blue and it really feels like the the

749

00:32:27,500 --> 00:32:23,730

computer ran out of processing power to

750

00:32:30,560 --> 00:32:27,510

think of your names and things look I

751
00:32:32,810 --> 00:32:30,570
know it sounds insane well it's that and

752
00:32:34,820 --> 00:32:32,820
it's I think people who have iPhones and

753
00:32:37,250 --> 00:32:34,830
maybe this happens on androids I've used

754
00:32:41,390 --> 00:32:37,260
an Android briefly but on the iPhone

755
00:32:46,360 --> 00:32:41,400
music app when you're enough 'l you

756
00:32:49,510 --> 00:32:46,370
shuffle through you know 15,000 songs

757
00:32:53,690 --> 00:32:49,520
somehow advantage to play the same song

758
00:32:55,310 --> 00:32:53,700
like twice in an hour and it's like i

759
00:32:57,650 --> 00:32:55,320
don't know how random that really is l

760
00:32:59,480 --> 00:32:57,660
mean you just pick the same too or if

761
00:33:01,460 --> 00:32:59,490
it's like it just plays the same artist

762
00:33:04,070 --> 00:33:01,470
four times in a row you're like this

763
00:33:06,050 --> 00:33:04,080

really random slab happening here it got

764

00:33:08,990 --> 00:33:06,060

cached it's easier to access that cache

765

00:33:10,460 --> 00:33:09,000

and look for something else so yeah so

766

00:33:12,110 --> 00:33:10,470

what do you think about i/o so what do

767

00:33:15,110 --> 00:33:12,120

you think about predictive programming

768

00:33:18,920 --> 00:33:15,120

in in in the menu it's funny I actually

769

00:33:20,660 --> 00:33:18,930

have had a clip for that last week I do

770

00:33:23,240 --> 00:33:20,670

believe predictive programming is a

771

00:33:25,100 --> 00:33:23,250

thing I do I mean I when you look at CSI

772

00:33:27,530 --> 00:33:25,110

and all these shows about the government

773

00:33:30,410 --> 00:33:27,540

and 24 and all this stuff it's almost

774

00:33:32,570 --> 00:33:30,420

like 24 primed everybody in the 90s to

775

00:33:35,000 --> 00:33:32,580

think oh yeah we gotta like torture

776

00:33:38,210 --> 00:33:35,010

terrorists like crazy man because they

777

00:33:39,560 --> 00:33:38,220

there's like totally terrorist II you

778

00:33:41,810 --> 00:33:39,570

never know what they're gonna do so you

779

00:33:44,480 --> 00:33:41,820

just like put them down on a table and

780

00:33:46,730 --> 00:33:44,490

you like pull their teeth out you know

781

00:33:49,040 --> 00:33:46,740

this is for America and it's awesome and

782

00:33:50,880 --> 00:33:49,050

then 9/11 happens and all of a sudden

783

00:33:53,700 --> 00:33:50,890

and then the torture reports

784

00:33:56,520 --> 00:33:53,710

come out officially until long after but

785

00:33:58,920 --> 00:33:56,530

everyone's like yeah but you know so it

786

00:34:01,680 --> 00:33:58,930

was Kiefer Sutherland so I have a

787

00:34:04,310 --> 00:34:01,690

conflicting reports on this but I've

788

00:34:07,410 --> 00:34:04,320

read a couple stories on before 9/11 of

789

00:34:09,180 --> 00:34:07,420

the random event generators at Princeton

790

00:34:13,970 --> 00:34:09,190

University predicted a cataclysmic event

791

00:34:16,800 --> 00:34:13,980

was about to unfold and there's a l

792

00:34:18,450 --> 00:34:16,810

heard this uncus goes in with a George

793

00:34:20,610 --> 00:34:18,460

Noory and arpel talking about these

794

00:34:22,050 --> 00:34:20,620

random number generators that seem to

795

00:34:23,669 --> 00:34:22,060

you know they be spit out numbers but

796

00:34:27,389 --> 00:34:23,679

break before the event there was a spike

797

00:34:29,610 --> 00:34:27,399

in the non-randomness if you will of

798

00:34:32,460 --> 00:34:29,620

these numbers and that was some kind of

799

00:34:35,510 --> 00:34:32,470

a worldwide indicator like maybe there

800

00:34:38,970 --> 00:34:35,520

was some collective unconscious that was

801
00:34:40,590 --> 00:34:38,980
about to perceive an event and I have a

802
00:34:43,139 --> 00:34:40,600
couple different links to that one that

803
00:34:45,210 --> 00:34:43,149
dispels that hey these never-never

804
00:34:46,740 --> 00:34:45,220
generators is a bunch of static and the

805
00:34:47,760 --> 00:34:46,750
numbers no big deal then another article

806
00:34:49,669 --> 00:34:47,770
said yeah there's actually something

807
00:34:52,919 --> 00:34:49,679
there you interpreted it like this that

808
00:34:56,790 --> 00:34:52,929
right before 9/11 that there were some

809
00:35:00,020 --> 00:34:56,800
kind of uniformity in these random lower

810
00:35:04,410 --> 00:35:00,030
less random numbers in some kind of

811
00:35:06,590 --> 00:35:04,420
collective unconscious that was that was

812
00:35:09,360 --> 00:35:06,600
actually being recorded at the time and

813
00:35:12,600 --> 00:35:09,370

people have explained it away I don't

814

00:35:14,990 --> 00:35:12,610

know I'm I'm kind of into this we're in

815

00:35:17,310 --> 00:35:15,000

a virtual reality kind of thing I don't

816

00:35:18,510 --> 00:35:17,320

know it's hard it's hard to wrap your

817

00:35:19,590 --> 00:35:18,520

head around that because it makes your

818

00:35:23,220 --> 00:35:19,600

life seems so meaningless

819

00:35:25,380 --> 00:35:23,230

and so expendable I get what you're

820

00:35:27,690 --> 00:35:25,390

saying Joe like it's some kind of new as

821

00:35:31,080 --> 00:35:27,700

a stoic kind of thing to devalue human

822

00:35:32,760 --> 00:35:31,090

life and just to get you to keep looking

823

00:35:34,890 --> 00:35:32,770

at your phone and liking things on

824

00:35:36,420 --> 00:35:34,900

Facebook and well yeah it's easy to

825

00:35:37,710 --> 00:35:36,430

render there it keeps you inside you

826

00:35:38,990 --> 00:35:37,720

don't go outside and the computer

827

00:35:45,000 --> 00:35:39,000

doesn't have to render the world for you

828

00:35:46,020 --> 00:35:45,010

brilliant brilliant so if you're saying

829

00:35:48,510 --> 00:35:46,030

you're you saying

830

00:35:49,710 --> 00:35:48,520

command center of one like I am the

831

00:35:51,060 --> 00:35:49,720

computer doesn't have to render too much

832

00:35:53,550 --> 00:35:51,070

does this guy have to write your voice

833

00:35:55,680 --> 00:35:53,560

fine yeah fine I can stay in this room

834

00:35:57,870 --> 00:35:55,690

for eternity I hear you can keep

835

00:36:03,570 --> 00:35:57,880

rendering Peter render me some vodka

836

00:36:04,460 --> 00:36:03,580

right now Oh computer computer what do

837

00:36:07,130 --> 00:36:04,470

you think so

838

00:36:11,839 --> 00:36:07,140

let's do a little recap here before we

839

00:36:13,700 --> 00:36:11,849

move on the missing four one one virtual

840

00:36:16,070 --> 00:36:13,710

machine and the reason why people are

841

00:36:19,750 --> 00:36:16,080

disappearing Joe what is your opinion on

842

00:36:22,370 --> 00:36:19,760

that theory for missing for one one I

843

00:36:23,900 --> 00:36:22,380

think it's a fun theory I really do and

844

00:36:25,370 --> 00:36:23,910

of course I don't believe it because I'm

845

00:36:29,180 --> 00:36:25,380

not it sucks

846

00:36:31,250 --> 00:36:29,190

yeah no I think it's a fun thing I love

847

00:36:33,109 --> 00:36:31,260

that the comparison to the game was good

848

00:36:35,570 --> 00:36:33,119

but yeah I'm not I'm not buying it it's

849

00:36:38,030 --> 00:36:35,580

a good way to like was that movie where

850

00:36:39,650 --> 00:36:38,040

they like the math guy was a beautiful

851
00:36:41,810 --> 00:36:39,660
mind or whatever like you're seeing all

852
00:36:44,330 --> 00:36:41,820
these so this is you at night you're

853
00:36:46,490 --> 00:36:44,340
stoned or drunk or something and all

854
00:36:49,510 --> 00:36:46,500
these things start to lock in place I'm

855
00:36:51,770 --> 00:36:49,520
going we write for the show

856
00:36:54,020 --> 00:36:51,780
Columbia might here we know you're not

857
00:36:56,660 --> 00:36:54,030
sober you know I'm doing one right now

858
00:36:59,060 --> 00:36:56,670
come on baby what is your opinion on the

859
00:37:01,580 --> 00:36:59,070
missing four one one holographic virtual

860
00:37:08,300 --> 00:37:01,590
machine theory well I think it's

861
00:37:09,829 --> 00:37:08,310
plausible to a small extent um it's you

862
00:37:11,510 --> 00:37:09,839
know it makes sense but I don't think

863
00:37:13,010 --> 00:37:11,520

that's what's going on and we need to

864

00:37:14,450 --> 00:37:13,020

bring it up to David Politis and when we

865

00:37:16,970 --> 00:37:14,460

meet in person I'm gonna talk to him

866

00:37:18,530 --> 00:37:16,980

about me magic as well too I don't think

867

00:37:18,770 --> 00:37:18,540

he's gonna he's probably not gonna like

868

00:37:20,720 --> 00:37:18,780

that

869

00:37:22,520 --> 00:37:20,730

ah yeah you guys I'm gonna go up to him

870

00:37:24,320 --> 00:37:22,530

slap on the back lose a what's up Pepe

871

00:37:26,329 --> 00:37:24,330

and I'm talking about ain't Pepe

872

00:37:27,790 --> 00:37:26,339

guessing that Pepe we're gonna run to

873

00:37:29,000 --> 00:37:27,800

the shower

874

00:37:33,920 --> 00:37:29,010

[Music]

875

00:37:37,160 --> 00:37:33,930

mind if I massage your boob Wow start to

876

00:37:39,290 --> 00:37:37,170

be sorry bring it bring it on and bring

877

00:37:42,079 --> 00:37:39,300

some audio device or something that you

878

00:37:43,609 --> 00:37:42,089

can get off if you get a brief interview

879

00:37:45,920 --> 00:37:43,619

get an interview get like a serious

880

00:37:48,980 --> 00:37:45,930

interview I will look like it a try

881

00:37:51,640 --> 00:37:48,990

secretly recorded I will I'll bring my

882

00:37:53,720 --> 00:37:51,650

audio devices I will take it serious and

883

00:37:55,430 --> 00:37:53,730

for the first five minutes and then I'm

884

00:37:57,440 --> 00:37:55,440

going to ask them insane questions about

885

00:37:59,480 --> 00:37:57,450

having sex with yeah what yeah we're

886

00:38:01,150 --> 00:37:59,490

going to pull a James O'Keefe and it

887

00:38:04,160 --> 00:38:01,160

could be ridiculous

888

00:38:05,990 --> 00:38:04,170

look this is what I got this is the the

889

00:38:08,810 --> 00:38:06,000

segment I brought to the show it's a bit

890

00:38:11,270 --> 00:38:08,820

stranger it's not hardcore news this is

891

00:38:13,910 --> 00:38:11,280

this hypotheses we're just kind of

892

00:38:16,970 --> 00:38:13,920

talking about the nature of the universe

893

00:38:17,599 --> 00:38:16,980

me magic coincidences and missing

894

00:38:19,849 --> 00:38:17,609

four-on-one

895

00:38:30,370 --> 00:38:19,859

and uh that's all I got guys we're gonna
