

USS FITZGERALD

SOMETHING DOESN'T ADD UP

**PARENTAL
ADVISORY
EXPLICITCONTENT**

1
00:00:00,320 --> 00:00:05,920
[Applause]

2
00:00:14,110 --> 00:00:10,280
that's a very sad headline yeah well

3
00:00:23,840 --> 00:00:14,120
maybe I'll forget about it

4
00:00:26,570 --> 00:00:23,850
why is someone calling us someone's

5
00:00:30,710 --> 00:00:26,580
calling it I guess I guess you're on the

6
00:00:34,970 --> 00:00:30,720
show go ahead you piece of [h__h] hey guys

7
00:00:41,150 --> 00:00:34,980
it's The Stand anchors Wow hey how about

8
00:00:45,110 --> 00:00:41,160
that jeez hey you're calling in from

9
00:00:47,930 --> 00:00:45,120
Anchorage Alaska that is correct

10
00:00:50,389 --> 00:00:47,940
yeah I called you guys in on your live

11
00:00:51,680 --> 00:00:50,399
show here a couple weeks ago and been

12
00:00:55,040 --> 00:00:51,690
trying to get caught up on your podcast

13
00:00:57,470 --> 00:00:55,050

I've been listening to the last oh I

14

00:01:00,470 --> 00:00:57,480

think year and a half almost two years

15

00:01:02,750 --> 00:01:00,480

and I use those podcasts actually when I

16

00:01:04,219 --> 00:01:02,760

was driving up last time I called you

17

00:01:06,410 --> 00:01:04,229

guys I was in Boise and I was driving up

18

00:01:08,539 --> 00:01:06,420

from Seattle up the AL can I Drive 24

19

00:01:12,530 --> 00:01:08,549

hour miles to get back home and spent

20

00:01:14,179 --> 00:01:12,540

about the thirty-six you know what was

21

00:01:17,090 --> 00:01:14,189

it you know almost 40 hours of driving

22

00:01:18,590 --> 00:01:17,100

and I'd say good 30 to 35 that was

23

00:01:21,440 --> 00:01:18,600

listening as a podcast on the drive up

24

00:01:24,910 --> 00:01:21,450

we're starting here guy yeah sorry about

25

00:01:31,100 --> 00:01:27,440

I had to take a little break let's just

26

00:01:34,850 --> 00:01:31,110

say after yeah yeah you actually email

27

00:01:37,969 --> 00:01:34,860

me about the the USS Eldridge I believe

28

00:01:39,980 --> 00:01:37,979

or something oh no that's it's Carol

29

00:01:42,440 --> 00:01:39,990

yes Carol it's Carol I'm not sure if

30

00:01:44,149 --> 00:01:42,450

around time - yeah - two - right now I'm

31

00:01:45,590 --> 00:01:44,159

depends how long you want to talk about

32

00:01:47,960 --> 00:01:45,600

it because we're actually like 10

33

00:01:51,200 --> 00:01:47,970

minutes from winding up the show well

34

00:01:52,280 --> 00:01:51,210

I'll give you the stage give me a three

35

00:01:56,209 --> 00:01:52,290

minutes okay great

36

00:01:57,200 --> 00:01:56,219

love it okay okay so you guys are once

37

00:02:00,469 --> 00:01:57,210

you guys have talked about it recently

38

00:02:03,980 --> 00:02:00,479

but the u.s. s Navy destroyer USS

39

00:02:06,830 --> 00:02:03,990

Fitzgerald getting rammed getting hit by

40

00:02:08,119 --> 00:02:06,840

the ACX crystal they're off the southern

41

00:02:09,740 --> 00:02:08,129

shore Japan you guys are aware that all

42

00:02:12,500 --> 00:02:09,750

right we are aware I don't think we

43

00:02:13,790 --> 00:02:12,510

talked about it though I know you're

44

00:02:15,800 --> 00:02:13,800

talking okay but yeah

45

00:02:17,960 --> 00:02:15,810

anybody doesn't know because Fitzgerald

46

00:02:23,240 --> 00:02:17,970

there's a collision and it was kind of

47

00:02:27,200 --> 00:02:23,250

unusual exactly so but listening to a

48

00:02:29,900 --> 00:02:27,210

local radio show and this is a few days

49

00:02:34,010 --> 00:02:29,910

after the event happened you know it

50

00:02:35,240 --> 00:02:34,020

happened to be on Father's Day and guy

51
00:02:37,490 --> 00:02:35,250
called it was one of the local radio

52
00:02:39,350 --> 00:02:37,500
shows here in Anchorage just a fairly

53
00:02:44,480 --> 00:02:39,360
conservative you know talk radio show

54
00:02:46,790 --> 00:02:44,490
and the guy goes hey I've got a theory

55
00:02:50,060 --> 00:02:46,800
on this I was talking to a buddy of mine

56
00:02:52,580 --> 00:02:50,070
and the guy's friend works for the

57
00:02:55,100 --> 00:02:52,590
Department of Energy supposedly and he

58
00:02:59,270 --> 00:02:55,110
says his theory was that this container

59
00:03:02,570 --> 00:02:59,280
ship was carrying containers special

60
00:03:04,460 --> 00:03:02,580
containers of water from Fukushima that

61
00:03:06,850 --> 00:03:04,470
the Japanese government was planning to

62
00:03:08,660 --> 00:03:06,860
dump into the middle of the ocean and

63
00:03:10,370 --> 00:03:08,670

supposedly you know the apartment

64

00:03:13,220 --> 00:03:10,380

manager got whiff of this alerted the

65

00:03:16,850 --> 00:03:13,230

White House and then the destroyer was

66

00:03:19,520 --> 00:03:16,860

dispatched to stop the ship and prevent

67

00:03:22,449 --> 00:03:19,530

the open ocean to go drop that water in

68

00:03:25,760 --> 00:03:22,459

you know the Fukushima radiated water

69

00:03:29,090 --> 00:03:25,770

hmm whistling why they didn't break

70

00:03:31,100 --> 00:03:29,100

their course so yeah the official story

71

00:03:33,590 --> 00:03:31,110

usually the US Navy destroyer that

72

00:03:35,900 --> 00:03:33,600

slammed into a cargo ship in Japanese

73

00:03:37,729 --> 00:03:35,910

water in mid-june killing seven crew

74

00:03:39,500 --> 00:03:37,739

members failed to react to warning

75

00:03:41,930 --> 00:03:39,510

signals in the moments leading up to the

76

00:03:45,229 --> 00:03:41,940

crash the Philippine the Philippine flag

77

00:03:47,720 --> 00:03:45,239

ship captain said on Monday so a cargo

78

00:03:49,130 --> 00:03:47,730

ship was supposedly carrying radiated

79

00:03:52,360 --> 00:03:49,140

water out into the middle of nowhere

80

00:03:54,949 --> 00:03:52,370

that's a [h__h] dangerous job to take

81

00:03:57,949 --> 00:03:54,959

yeah there's a few other theories behind

82

00:04:02,180 --> 00:03:57,959

it but if a Japanese flag ship that was

83

00:04:05,330 --> 00:04:02,190

manned by a Filipino crew so the

84

00:04:07,250 --> 00:04:05,340

Japanese owner the ship was asked I saw

85

00:04:08,600 --> 00:04:07,260

him on the articles about what was your

86

00:04:09,880 --> 00:04:08,610

destination was your cargo and he

87

00:04:13,490 --> 00:04:09,890

refused to say what it was

88

00:04:15,229 --> 00:04:13,500

Wow yeah it's not same even it's not

89

00:04:16,640 --> 00:04:15,239

saying this Fox News article what it is

90

00:04:18,800 --> 00:04:16,650

but in the Fox News article is saying

91

00:04:21,380 --> 00:04:18,810

it's a Philippine flag ship but you're

92

00:04:24,110 --> 00:04:21,390

saying it's the Japanese no no it no

93

00:04:26,029 --> 00:04:24,120

Japanese flag ship but run by a Filipino

94

00:04:26,520 --> 00:04:26,039

crew okay well then this fox news

95

00:04:32,340 --> 00:04:26,530

article

96

00:04:35,490 --> 00:04:32,350

wrong and hmm maritime law is a little

97

00:04:38,640 --> 00:04:35,500

very different than actual fall right

98

00:04:42,030 --> 00:04:38,650

yes and you guys go on YouTube look up a

99

00:04:45,780 --> 00:04:42,040

user the name is Florida McGee mhm you

100

00:04:47,700 --> 00:04:45,790

you is and he has several other he's a

101
00:04:50,280 --> 00:04:47,710
different theory on and he thinks that

102
00:04:52,320 --> 00:04:50,290
the container ship was coming up along

103
00:04:54,750 --> 00:04:52,330
the side of the destroyer more or less

104
00:04:58,350 --> 00:04:54,760
fired an EMP weapon at the destroyer

105
00:05:01,080 --> 00:04:58,360
disabling it came around in 180 degree

106
00:05:03,330 --> 00:05:01,090
turn came back did another turn and then

107
00:05:06,390 --> 00:05:03,340
broad-sided the ship trying to ram it to

108
00:05:08,250 --> 00:05:06,400
sink it because the container ship hit

109
00:05:10,110 --> 00:05:08,260
the destroyer a broadside right near the

110
00:05:13,770 --> 00:05:10,120
communication side you know damaging the

111
00:05:15,990 --> 00:05:13,780
ship and supposedly the the mainstream

112
00:05:18,540 --> 00:05:16,000
story that the container ship is the one

113
00:05:20,340 --> 00:05:18,550

that notified the Japanese Coast Guard -

114

00:05:23,460 --> 00:05:20,350

that they'd had a collision and the Navy

115

00:05:26,190 --> 00:05:23,470

never made any you know distress calls

116

00:05:29,790 --> 00:05:26,200

are notified anybody which if if that is

117

00:05:32,130 --> 00:05:29,800

true our US Navy if I destroy our tenth

118

00:05:34,920 --> 00:05:32,140

of 700 foot container ship coming at it

119

00:05:36,330 --> 00:05:34,930

then what good is our Navy mayor playing

120

00:05:38,420 --> 00:05:36,340

chicken they were playing chicken with

121

00:05:40,770 --> 00:05:38,430

this thing there's no doubt about daggit

122

00:05:42,180 --> 00:05:40,780

they're playing chicken with this cargo

123

00:05:43,590 --> 00:05:42,190

ship and they didn't want this cargo

124

00:05:45,750 --> 00:05:43,600

ship to go wherever it was supposed to

125

00:05:47,190 --> 00:05:45,760

go and so they took it that's what I'm

126

00:05:49,590 --> 00:05:47,200

getting is it almost feels like they

127

00:05:51,719 --> 00:05:49,600

were in the way on purpose and they they

128

00:05:55,830 --> 00:05:51,729

just it wasn't that they didn't see it

129

00:05:58,980 --> 00:05:55,840

it's that they were saying no he didn't

130

00:06:01,200 --> 00:05:58,990

yeah yeah hey George Webb has been

131

00:06:03,900 --> 00:06:01,210

reporting this stuff he got the FBI all

132

00:06:05,580 --> 00:06:03,910

on hot on his case or I don't remember

133

00:06:07,469 --> 00:06:05,590

who it was but he got picked up because

134

00:06:09,779 --> 00:06:07,479

he said that they're trying to bring

135

00:06:11,520 --> 00:06:09,789

these container ships of stuff into the

136

00:06:13,529 --> 00:06:11,530

country and he's saying like dirty bombs

137

00:06:15,270 --> 00:06:13,539

and all this stuff it's interesting that

138

00:06:17,130 --> 00:06:15,280

the that you would bring this theory up

139

00:06:18,810 --> 00:06:17,140

well there's actually another theory

140

00:06:21,390 --> 00:06:18,820

yeah there's actually another theory

141

00:06:24,090 --> 00:06:21,400

that the the Philip II or the captain of

142

00:06:26,370 --> 00:06:24,100

the the Japanese ship he was a little

143

00:06:27,930 --> 00:06:26,380

upset a little upset about a bad sexual

144

00:06:30,860 --> 00:06:27,940

episode ahead laugh yeah and that's why

145

00:06:34,589 --> 00:06:30,870

he that's why he rammed the ship back

146

00:06:38,490 --> 00:06:34,599

didn't get to ram that person yeah bad

147

00:06:39,750 --> 00:06:38,500

sexual episode ramming something he sunk

148

00:06:43,110 --> 00:06:39,760

into him

149

00:06:45,659 --> 00:06:43,120

yeah did well if you something's going

150

00:06:48,779 --> 00:06:45,669

on here protocol yeah well the Navy

151
00:06:50,610 --> 00:06:48,789
protocol is supposedly other other

152
00:06:52,680 --> 00:06:50,620
people have been on destroyers that that

153
00:06:54,960 --> 00:06:52,690
if the captain was asleep at the time of

154
00:06:57,570 --> 00:06:54,970
the official story from them and if if a

155
00:06:59,159 --> 00:06:57,580
ship comes within 4,000 yards of the

156
00:07:01,080 --> 00:06:59,169
destroyer the captain's supposed to be

157
00:07:03,149 --> 00:07:01,090
alerted immediately brought to the

158
00:07:05,719 --> 00:07:03,159
bridge to make sure that nothing happens

159
00:07:08,270 --> 00:07:05,729
like this and you have multiple people

160
00:07:11,279 --> 00:07:08,280
outside the ship and inside the ship

161
00:07:13,050 --> 00:07:11,289
scanning the location radar and visual

162
00:07:15,300 --> 00:07:13,060
looking for ship and the weather was

163
00:07:18,060 --> 00:07:15,310

ideal weather this disease are not

164

00:07:21,390 --> 00:07:18,070

choppy there's absolutely no excuse for

165

00:07:23,339 --> 00:07:21,400

this mainstream story of it getting just

166

00:07:25,950 --> 00:07:23,349

accidentally ran by the container ships

167

00:07:28,020 --> 00:07:25,960

to happen to our Navy and if I was if I

168

00:07:30,600 --> 00:07:28,030

was a Russian Navy this Chinese Navy or

169

00:07:32,250 --> 00:07:30,610

anybody else I would laugh in our face

170

00:07:33,690 --> 00:07:32,260

that if this is what you guys are going

171

00:07:35,610 --> 00:07:33,700

to say is what you're going to do the

172

00:07:37,950 --> 00:07:35,620

new Navy is impotent in the bio in North

173

00:07:40,560 --> 00:07:37,960

Korea I would I would utilize that as

174

00:07:42,450 --> 00:07:40,570

propaganda to say sir US Navy can't do

175

00:07:44,219 --> 00:07:42,460

anything right yeah even even the guy

176
00:07:44,909 --> 00:07:44,229
swabbing the poop deck couldn't see this

177
00:07:47,969 --> 00:07:44,919
thing coming

178
00:07:48,659 --> 00:07:47,979
and you're you're seaman first classes

179
00:07:51,240 --> 00:07:48,669
are [h__\h]

180
00:07:53,850 --> 00:07:51,250
but weebly no that's not what happened

181
00:07:57,420 --> 00:07:53,860
it was an incompetent Navy they took it

182
00:07:59,610 --> 00:07:57,430
they actually forced this issue and they

183
00:08:01,469 --> 00:07:59,620
took it on the chin to bring to draw

184
00:08:05,040 --> 00:08:01,479
attention to this matter if it was so

185
00:08:09,300 --> 00:08:05,050
critical why not fire on this thing why

186
00:08:10,800 --> 00:08:09,310
would they like it well the guy that he

187
00:08:12,390 --> 00:08:10,810
called in to the radio show they'll talk

188
00:08:14,940 --> 00:08:12,400

about the department is a friend solid

189

00:08:16,290 --> 00:08:14,950

without question he said that the Navy

190

00:08:19,200 --> 00:08:16,300

actually did she

191

00:08:22,740 --> 00:08:19,210

they did fire on the container ship was

192

00:08:24,630 --> 00:08:22,750

what was part of his theory hmm this is

193

00:08:27,120 --> 00:08:24,640

very particular theories all over the

194

00:08:29,399 --> 00:08:27,130

place here yeah you know what we didn't

195

00:08:31,110 --> 00:08:29,409

cover this is something we got to stick

196

00:08:33,719 --> 00:08:31,120

with and I kind of like that theory that

197

00:08:36,360 --> 00:08:33,729

they're trying to bring in this dirty

198

00:08:39,959 --> 00:08:36,370

water to this dirty irradiated material

199

00:08:41,399 --> 00:08:39,969

into the country for [h__h] terrorism

200

00:08:43,319 --> 00:08:41,409

that's the only explanation at this

201
00:08:46,590 --> 00:08:43,329
point so the

202
00:08:48,210 --> 00:08:46,600
Philippines and the Japanese are

203
00:08:49,379 --> 00:08:48,220
smuggling this [h__\h] out they're not

204
00:08:50,759 --> 00:08:49,389
going to just dump it into the ocean

205
00:08:52,859 --> 00:08:50,769
because it's already going into the

206
00:08:54,299 --> 00:08:52,869
ocean right now so they want to sell

207
00:08:55,829 --> 00:08:54,309
this to somebody or they already

208
00:09:00,329 --> 00:08:55,839
contracted to being sold to somebody at

209
00:09:02,729 --> 00:09:00,339
this point yeah for people to get more

210
00:09:05,549 --> 00:09:02,739
info on it go to the Florida Mac DMHC

211
00:09:07,379 --> 00:09:05,559
you is YouTube the guy kind of goes into

212
00:09:09,809 --> 00:09:07,389
looking jumping outs on multiple videos

213
00:09:12,299 --> 00:09:09,819

but you can see that the tracking of the

214

00:09:17,100 --> 00:09:12,309

container ship and its path does not

215

00:09:17,609 --> 00:09:17,110

make any sense whatsoever hmm this is a

216

00:09:20,549 --> 00:09:17,619

good story

217

00:09:21,449 --> 00:09:20,559

can you send links in an email to us do

218

00:09:23,729 --> 00:09:21,459

you do you mind

219

00:09:25,410 --> 00:09:23,739

like I'm really fascinated by what

220

00:09:27,229 --> 00:09:25,420

you're talking about here is there a way

221

00:09:30,869 --> 00:09:27,239

that you have two computers in Alaska

222

00:09:33,350 --> 00:09:30,879

yeah yeah no I'll send you another email

223

00:09:34,710 --> 00:09:33,360

there Mike and I'll send that on to be a

224

00:09:36,809 --> 00:09:34,720

gmail account

225

00:09:38,759 --> 00:09:36,819

awesome yeah I'd be great thank you and

226

00:09:41,519 --> 00:09:38,769

I found the youth I found the YouTube

227

00:09:42,989 --> 00:09:41,529

channel I put in care shop yeah we're

228

00:09:44,939 --> 00:09:42,999

gonna where we're gonna look at this

229

00:09:46,739 --> 00:09:44,949

piece again all right old Scout I'll

230

00:09:49,409 --> 00:09:46,749

tell you from the article that says well

231

00:09:51,809 --> 00:09:49,419

that government what the website they're

232

00:09:53,579 --> 00:09:51,819

from but there's other things because a

233

00:09:55,590 --> 00:09:53,589

lot of this reporting at the time of the

234

00:09:57,179 --> 00:09:55,600

ships colliding doesn't make sense so

235

00:10:00,989 --> 00:09:57,189

there's there's all kinds of conspiracy

236

00:10:02,720 --> 00:10:00,999

lady not Wow yeah message I'm going to

237

00:10:05,489 --> 00:10:02,730

go down the rabbit hole this one yeah

238

00:10:07,199 --> 00:10:05,499

I'm good yeah these guys I mean there's

239

00:10:09,449 --> 00:10:07,209

there's nowhere to go but down the

240

00:10:11,669 --> 00:10:09,459

rabbit hole in it the mainstream story

241

00:10:13,530 --> 00:10:11,679

doesn't hold any water and nobody's

242

00:10:16,439 --> 00:10:13,540

talking about this other than I know

243

00:10:19,139 --> 00:10:16,449

Michael Sodom is supposedly talked about

244

00:10:21,150 --> 00:10:19,149

it on his show but I don't know he just

245

00:10:23,309 --> 00:10:21,160

said there's no way that a Navy

246

00:10:25,289 --> 00:10:23,319

destroyer could do that without you know

247

00:10:27,720 --> 00:10:25,299

being infiltrated or doing it on purpose

248

00:10:30,569 --> 00:10:27,730

exactly does because the container ship

249

00:10:33,629 --> 00:10:30,579

hit the destroyer broadside on the

250

00:10:36,059 --> 00:10:33,639

starboard side straight into it so it

251
00:10:37,979 --> 00:10:36,069
wasn't you know the Navy didn't run into

252
00:10:40,069 --> 00:10:37,989
the container ship a container ship ran

253
00:10:43,650 --> 00:10:40,079
into the destroyed but I heard the Navy

254
00:10:46,350 --> 00:10:43,660
departed from the blockaded yeah the

255
00:10:49,949 --> 00:10:46,360
destroyer was anchored waiting for it or

256
00:10:51,749 --> 00:10:49,959
something I don't know okay

257
00:10:53,909 --> 00:10:51,759
none of the none of this none of the

258
00:10:55,769 --> 00:10:53,919
theories I've seen mention anything

259
00:10:56,890 --> 00:10:55,779
about the maneuvers of the destroyer

260
00:10:59,170 --> 00:10:56,900
beforehand

261
00:11:01,930 --> 00:10:59,180
other than the guys stay in the EMP

262
00:11:04,390 --> 00:11:01,940
attack is just that the cargo-ship came

263
00:11:06,820 --> 00:11:04,400

alongside the Navy and I don't destroyer

264

00:11:09,400 --> 00:11:06,830

I don't know what if even if the

265

00:11:11,710 --> 00:11:09,410

dispersed even moving but supposedly you

266

00:11:13,930 --> 00:11:11,720

know that EMP attack disabled all their

267

00:11:16,000 --> 00:11:13,940

electronics and their ability to move

268

00:11:18,250 --> 00:11:16,010

and communicate and then they just you

269

00:11:19,720 --> 00:11:18,260

know you see the track and it is

270

00:11:22,990 --> 00:11:19,730

container ship seven or eight feet long

271

00:11:24,910 --> 00:11:23,000

and make the full 180 degree turn that

272

00:11:27,670 --> 00:11:24,920

you know that it just doesn't make any

273

00:11:30,610 --> 00:11:27,680

sense but there's the goals the one guys

274

00:11:33,670 --> 00:11:30,620

theory is that that they did the EMP

275

00:11:35,500 --> 00:11:33,680

pulse went past the ship about 20

276

00:11:37,420 --> 00:11:35,510

minutes later they turn around they

277

00:11:39,460 --> 00:11:37,430

figure okay let's go for the kill shot

278

00:11:41,710 --> 00:11:39,470

and they come back and then they they

279

00:11:43,000 --> 00:11:41,720

kind of reposition themselves because of

280

00:11:44,829 --> 00:11:43,010

the way that you're supposed to pass

281

00:11:47,050 --> 00:11:44,839

each other on the sea it's supposed to

282

00:11:48,910 --> 00:11:47,060

be I think port to port or whatever it

283

00:11:50,140 --> 00:11:48,920

is so it wouldn't be expensive to hit

284

00:11:52,180 --> 00:11:50,150

them from the one side so they kind of

285

00:11:55,480 --> 00:11:52,190

had to rejigger the boat to come from

286

00:11:59,560 --> 00:11:55,490

the proper side and then hit it Wow hmm

287

00:12:01,120 --> 00:11:59,570

Wow there's my vision oh and and the

288

00:12:03,460 --> 00:12:01,130

other thing that floor tamaki guy he

289

00:12:05,769 --> 00:12:03,470

does mention that the Fitzgerald was

290

00:12:08,560 --> 00:12:05,779

anchored back at the confetti area this

291

00:12:10,690 --> 00:12:08,570

year in the Philippines and the

292

00:12:12,940 --> 00:12:10,700

Philippine crew came on and I don't know

293

00:12:15,220 --> 00:12:12,950

they did something so he was trying to

294

00:12:17,440 --> 00:12:15,230

tie the there's their stop in the

295

00:12:19,660 --> 00:12:17,450

Philippines back in February to somehow

296

00:12:22,329 --> 00:12:19,670

do this Filipino crew on his Japanese

297

00:12:24,400 --> 00:12:22,339

ship in some sort of way that terrorists

298

00:12:26,500 --> 00:12:24,410

you know because we got we have Isis

299

00:12:28,900 --> 00:12:26,510

terrorists now you know invading the

300

00:12:31,510 --> 00:12:28,910

Philippines yeah could be somewhat

301

00:12:34,000 --> 00:12:31,520

related to that Wow

302

00:12:36,699 --> 00:12:34,010

thank you for bringing the story up very

303

00:12:40,480 --> 00:12:36,709

interesting stuff we definitely do that

304

00:12:46,690 --> 00:12:40,490

some more real all right later guys bye

305

00:12:52,000 --> 00:12:46,700

dank dignity the Alaska that was amazing

306

00:12:53,350 --> 00:12:52,010

shablagoo well I can call oh wow we

307

00:12:57,490 --> 00:12:53,360

don't get you don't get a lot of calls

308

00:12:59,350 --> 00:12:57,500

during our show on the three-day

309

00:13:01,030 --> 00:12:59,360

Thursday during the show yeah because we

310

00:13:03,100 --> 00:13:01,040

don't necessarily encourage it we don't

311

00:13:05,530 --> 00:13:03,110

broadcast or whatever but we did get

312

00:13:07,000 --> 00:13:05,540

some warning that this is was going to

313

00:13:09,579 --> 00:13:07,010

happen I had no idea what it was about

314

00:13:10,330 --> 00:13:09,589

that was absolutely phenomenal could be

315

00:13:12,970 --> 00:13:10,340

a good

316

00:13:14,980 --> 00:13:12,980

segment for the Saturday show to look at

317

00:13:17,260 --> 00:13:14,990

the maps look at what was happening and

318

00:13:20,140 --> 00:13:17,270

do some research between now and then

319

00:13:23,860 --> 00:13:20,150

this definitely deserves a follow-up and

320

00:13:26,440 --> 00:13:23,870

I think the deserter spies going for

321

00:13:28,710 --> 00:13:26,450

from Kenya to the South Sudanese our

322

00:13:33,940 --> 00:13:28,720

South Sudan deserves a follow-up as well

323

00:13:35,680 --> 00:13:33,950

um very interesting stuff and I got to

324

00:13:38,200 --> 00:13:35,690

play us out right now guys I'm sorry but

325

00:13:41,110 --> 00:13:38,210

yeah man he said time how the [h__h] you

326

00:13:42,220 --> 00:13:41,120

just top that that was a good bunch of

327

00:13:46,329 --> 00:13:42,230

information right there

328

00:13:49,750 --> 00:13:46,339

I was the frosting on the cake no yeah I

329

00:13:54,400 --> 00:13:49,760

get ready for one of those classy New

330

00:13:56,309 --> 00:13:54,410

York style takes [\h__\h] now my thing is

331

00:13:57,929 --> 00:13:56,319

that fire up

332

00:13:59,909 --> 00:13:57,939

did you ever take a dump made you feel

333

00:14:01,199 --> 00:13:59,919

like you just slept for 12 hours yeah

334

00:14:03,359 --> 00:14:01,209

all the time

335

00:14:06,019 --> 00:14:03,369

yeah but I'll make a cappuccino
