

NIGHT TALK  
*with*  
MIDNIGHT MIKE

1  
00:00:08,630 --> 00:00:14,170

[Music]

2  
00:00:14,180 --> 00:00:24,630

laughing now yeah I got your evening

3  
00:00:44,889 --> 00:00:33,570

[Music]

4  
00:00:57,950 --> 00:00:46,470

I skipped out

5  
00:01:01,560 --> 00:01:00,860

guys we're just gonna have a great time

6  
00:01:06,220 --> 00:01:01,570

together

7  
00:01:10,420 --> 00:01:06,230

[Music]

8  
00:01:17,420 --> 00:01:10,430

hey everyone welcome back to another

9  
00:01:22,900 --> 00:01:17,430

night talk live that's right

10  
00:01:22,910 --> 00:01:29,500

it's all happening

11  
00:01:40,200 --> 00:01:34,570

and that's right tonight I'll be talking

12  
00:01:52,920 --> 00:01:40,210

about briefly the secret space program

13  
00:02:07,450 --> 00:02:06,190

Thapa research programs yeah all right

14

00:02:10,540 --> 00:02:07,460

maybe I should just talk with that echo

15

00:02:12,820 --> 00:02:10,550

the entire time it might think make

16

00:02:17,050 --> 00:02:12,830

things a little bit more impactful make

17

00:02:24,470 --> 00:02:17,060

things a little bit more dramatic ah yes

18

00:02:31,559 --> 00:02:28,490

I've been watching a lot of gaya TV and

19

00:02:35,910 --> 00:02:31,569

on gaya TV they have a multitude of

20

00:02:38,550 --> 00:02:35,920

different programs ranging from George

21

00:02:40,740 --> 00:02:38,560

Nori's beyond belief to the secret space

22

00:02:43,470 --> 00:02:40,750

program which is the newer series that

23

00:02:45,839 --> 00:02:43,480

I've been just binging on and that's

24

00:02:49,129 --> 00:02:45,849

some clips I've pulled from the first

25

00:02:51,479 --> 00:02:49,139

season of the seeker space program

26

00:02:54,690 --> 00:02:51,489

fascinating stuff starts at the the

27

00:02:58,050 --> 00:02:54,700

history the origins of the secret space

28

00:03:03,300 --> 00:02:58,060

program and in Nazi Germany and even

29

00:03:05,369 --> 00:03:03,310

some some ancient alien stuff that we

30

00:03:07,649 --> 00:03:05,379

all know and love and you might hear

31

00:03:11,490 --> 00:03:07,659

khana barking in the background yeah she

32

00:03:12,330 --> 00:03:11,500

is just barking her head off that that

33

00:03:15,059 --> 00:03:12,340

little Sheba

34

00:03:17,659 --> 00:03:15,069

does not like me and is constantly

35

00:03:21,860 --> 00:03:17,669

warning me about a cat downstairs I

36

00:03:26,309 --> 00:03:21,870

don't know to do but I'm gonna hopefully

37

00:03:30,140 --> 00:03:26,319

plow on with this show regardless of a

38

00:03:33,000 --> 00:03:30,150

dog constantly barking in the background

39

00:03:34,289 --> 00:03:33,010

now you might say hey Mike isn't it

40

00:03:35,460 --> 00:03:34,299

annoying that a dog is constantly

41

00:03:39,210 --> 00:03:35,470

barking in background doesn't drive you

42

00:03:43,410 --> 00:03:39,220

insane and yes it does drive me insane a

43

00:03:46,890 --> 00:03:43,420

little bit just a little bit

44

00:03:48,980 --> 00:03:46,900

that's okay no one's panicking we're

45

00:03:53,280 --> 00:03:48,990

gonna get through this together and

46

00:03:56,930 --> 00:03:53,290

it'll all happen it'll all continuously

47

00:04:00,810 --> 00:03:56,940

happen together and at some point

48

00:04:01,980 --> 00:04:00,820

tonight as well I will yeah I'll

49

00:04:06,340 --> 00:04:01,990

definitely be taking phone calls

50

00:04:08,110 --> 00:04:06,350

absolutely why wouldn't I do that

51  
00:04:11,130 --> 00:04:08,120  
that sounds like a nice thing to do talk

52  
00:04:16,590 --> 00:04:13,920  
alright let's transition over to some

53  
00:04:24,210 --> 00:04:16,600  
secret space program talk come on let's

54  
00:04:26,190 --> 00:04:24,220  
do this the shampoo alright the secret

55  
00:04:27,600 --> 00:04:26,200  
space program it's something that comes

56  
00:04:30,150 --> 00:04:27,610  
up over and over again on the our big

57  
00:04:30,720 --> 00:04:30,160  
mouth podcast and I am just obsessed

58  
00:04:34,680 --> 00:04:30,730  
with it

59  
00:04:36,930 --> 00:04:34,690  
I'm obsessed with UFOs and how much

60  
00:04:39,480 --> 00:04:36,940  
governments really do know about this

61  
00:04:43,010 --> 00:04:39,490  
subject and it all tends to go back to

62  
00:04:44,809 --> 00:04:43,020  
the Nazis I'm drinking some water here

63  
00:04:47,119 --> 00:04:44,819

and so uh the Nazis how do they come

64

00:04:52,570 --> 00:04:47,129

across this stuff what happened what's

65

00:04:58,899 --> 00:04:53,589

a lot of people that were doing research

66

00:05:01,420 --> 00:04:58,909

on anti-gravity and even electricity's

67

00:05:03,429 --> 00:05:01,430

influence on gravitational fields

68

00:05:06,309 --> 00:05:03,439

electromagnetism Tesla was one of those

69

00:05:10,089 --> 00:05:06,319

people Tron

70

00:05:13,499 --> 00:05:10,099

shradha Berger was a German guy a

71

00:05:16,869 --> 00:05:13,509

scientist who was looking into

72

00:05:20,820 --> 00:05:16,879

antigravity in the way nature creates

73

00:05:24,540 --> 00:05:20,830

vortexes or vortices and in nineteen

74

00:05:27,820 --> 00:05:24,550

ninety nineteen thirty-nine Hitler

75

00:05:31,749 --> 00:05:27,830

summoned viktor schauberger to berlin

76

00:05:35,860 --> 00:05:31,759

for a meeting at first hitler greeted

77

00:05:37,869 --> 00:05:35,870

char burger warmly and said to have

78

00:05:39,820 --> 00:05:37,879

called this meeting to discuss rotten

79

00:05:41,170 --> 00:05:39,830

burgers work so you know you know he

80

00:05:43,420 --> 00:05:41,180

showed up the picture showed up there

81

00:05:45,430 --> 00:05:43,430

Hitler gave him a hug high five and say

82

00:05:48,790 --> 00:05:45,440

hey sit down let's talk about some crazy

83

00:05:52,119 --> 00:05:48,800

technology but that meeting lasted for

84

00:05:54,760 --> 00:05:52,129

about eleven hours before Viktor was

85

00:05:56,769 --> 00:05:54,770

allowed to leave now during that 11 hour

86

00:05:59,200 --> 00:05:56,779

meeting who knows exactly what was said

87

00:06:01,600 --> 00:05:59,210

but you can probably assume that Hitler

88

00:06:05,230 --> 00:06:01,610

wanted to know about all this technology

89

00:06:07,269 --> 00:06:05,240

or possible anti-gravity technology that

90

00:06:10,360 --> 00:06:07,279

he was working on and some theories and

91

00:06:11,980 --> 00:06:10,370

how he could apply that to the Nazi war

92

00:06:13,810 --> 00:06:11,990

machine

93

00:06:16,450 --> 00:06:13,820

I have to assume they probably weren't

94

00:06:19,180 --> 00:06:16,460

talking about bratwurst and German

95

00:06:22,870 --> 00:06:19,190

shepherds they probably try to get down

96

00:06:26,320 --> 00:06:22,880

to business right away and in this this

97

00:06:28,870 --> 00:06:26,330

clip I have here from the secret space

98

00:06:30,490 --> 00:06:28,880

program on guy TV all my clips will be

99

00:06:35,770 --> 00:06:30,500

from that program

100

00:06:38,110 --> 00:06:35,780

it addresses a Victor's his work and now

101  
00:06:41,470 --> 00:06:38,120  
applies to these secret space program

102  
00:06:44,350 --> 00:06:41,480  
goo so shall burger was studying the

103  
00:06:47,080 --> 00:06:44,360  
behaviors of salmon as they would glide

104  
00:06:48,760 --> 00:06:47,090  
up through the waterfall and trout as

105  
00:06:50,950 --> 00:06:48,770  
they would stay in one place in the

106  
00:06:52,540 --> 00:06:50,960  
stream and hardly have to do any

107  
00:06:55,270 --> 00:06:52,550  
movement and they wouldn't be moving

108  
00:06:57,190 --> 00:06:55,280  
with the current and what he determined

109  
00:06:59,680 --> 00:06:57,200  
was that there were certain what he

110  
00:07:01,330 --> 00:06:59,690  
called implosion vortexes that were

111  
00:07:03,640 --> 00:07:01,340  
created in the water by the way the

112  
00:07:06,000 --> 00:07:03,650  
water was spinning schauberger then

113  
00:07:08,560 --> 00:07:06,010

created turbines that recreated this

114

00:07:10,810 --> 00:07:08,570

inside a mechanical array that was

115

00:07:13,450 --> 00:07:10,820

egg-shaped and this became an

116

00:07:16,390 --> 00:07:13,460

antigravity engine schauburger was

117

00:07:19,270 --> 00:07:16,400

abducted by the germans kidnapped along

118

00:07:22,000 --> 00:07:19,280

with his family tortured he was then

119

00:07:25,150 --> 00:07:22,010

forced to participate in this honey boo

120

00:07:27,850 --> 00:07:25,160

belle crafts program well i mean i guess

121

00:07:30,790 --> 00:07:27,860

but i said up front that he you know he

122

00:07:32,620 --> 00:07:30,800

had a warm greeting with hitler maybe i

123

00:07:34,540 --> 00:07:32,630

kind of put a little icing on the cake

124

00:07:36,430 --> 00:07:34,550

there turns out he was kidnapped and

125

00:07:38,980 --> 00:07:36,440

enslaved schauburger

126

00:07:42,730 --> 00:07:38,990

they say Shellenberger schauberger is

127

00:07:44,830 --> 00:07:42,740

his name oops viktor schauberger is a

128

00:07:48,010 --> 00:07:44,840

physicist who created a device called a

129

00:07:50,070 --> 00:07:48,020

repulsing which used vortex generation

130

00:07:52,990 --> 00:07:50,080

to actually create lift and

131

00:07:54,070 --> 00:07:53,000

maneuverability of distant objects the

132

00:07:55,600 --> 00:07:54,080

interesting thing about his techniques

133

00:07:58,090 --> 00:07:55,610

is at schauberger actually believed that

134

00:07:59,920 --> 00:07:58,100

we were doing things wrong in physics he

135

00:08:01,930 --> 00:07:59,930

said that birds did not fly they were

136

00:08:04,540 --> 00:08:01,940

flown and fish did not swim they were

137

00:08:07,000 --> 00:08:04,550

swum so all you really had to do is tap

138

00:08:08,800 --> 00:08:07,010

into the forces that existed in the

139

00:08:10,900 --> 00:08:08,810

ether around us and you could actually

140

00:08:14,790 --> 00:08:10,910

generate movement and theoretical

141

00:08:16,529 --> 00:08:14,800

performance like a flying saucer

142

00:08:20,040 --> 00:08:16,539

that sounds all simple on the surface

143

00:08:22,080 --> 00:08:20,050

Wow I guess in hindsight everything is

144

00:08:25,170 --> 00:08:22,090

simple but they've been they were

145

00:08:28,950 --> 00:08:25,180

tapping into this technology long long

146

00:08:31,439 --> 00:08:28,960

time ago even Tesla was experimenting

147

00:08:35,339 --> 00:08:31,449

with this and various others and then I

148

00:08:37,230 --> 00:08:35,349

in this segment even in the show I'm not

149

00:08:40,079 --> 00:08:37,240

going to even go into the airships of

150

00:08:42,060 --> 00:08:40,089

the late 1800s in the early 1900's which

151

00:08:43,050 --> 00:08:42,070

is fast I mean in and of itself I don't

152

00:08:45,329 --> 00:08:43,060

know if you want to consider that part

153

00:08:49,500 --> 00:08:45,339

of the ancient alien stuff or some other

154

00:08:53,280 --> 00:08:49,510

kind of event but at some point down the

155

00:08:57,329 --> 00:08:53,290

road I will include segments about that

156

00:09:01,370 --> 00:08:57,339

because it's just insane that these

157

00:09:05,220 --> 00:09:01,380

people that were witnessing airships and

158

00:09:08,100 --> 00:09:05,230

even having these even experiencing and

159

00:09:11,790 --> 00:09:08,110

witnessing crashing of airships in the

160

00:09:12,990 --> 00:09:11,800

late 1800s it's bizarre and what is Hana

161

00:09:17,400 --> 00:09:13,000

doing I don't know if you guys hear that

162

00:09:20,550 --> 00:09:17,410

barking you hear that it is insane my

163

00:09:21,030 --> 00:09:20,560

god if only I could do something about

164

00:09:24,090 --> 00:09:21,040

it

165

00:09:30,150 --> 00:09:24,100

oh yes

166

00:09:33,749 --> 00:09:30,160

so this good so let's go ahead and

167

00:09:35,819 --> 00:09:33,759

assume that the the Germans they they

168

00:09:40,050 --> 00:09:35,829

they knew something was going on they

169

00:09:43,769 --> 00:09:40,060

they adopted some technology they were

170

00:09:46,530 --> 00:09:43,779

clued into it and they decided to focus

171

00:09:49,259 --> 00:09:46,540

on some I guess more bizarre out-there

172

00:09:53,100 --> 00:09:49,269

technology when it comes to aerodynamics

173

00:09:55,939 --> 00:09:53,110

and propulsion and and even energy than

174

00:09:59,540 --> 00:09:55,949

the u.s. in and in the Brits were and

175

00:10:02,819 --> 00:09:59,550

they focused a lot of attention on this

176

00:10:06,590 --> 00:10:02,829

so much so they enslaved entire families

177

00:10:11,790 --> 00:10:06,600

to do so and this clip Bay goes into

178

00:10:13,769 --> 00:10:11,800

saucer research an area of what is now

179

00:10:15,329 --> 00:10:13,779

Poland called Silesia and it's really

180

00:10:19,350 --> 00:10:15,339

interesting because this is the area

181

00:10:21,900 --> 00:10:19,360

where the original Prussian researchers

182

00:10:23,819 --> 00:10:21,910

were situated back in the 1800s that

183

00:10:26,579 --> 00:10:23,829

sent people to America to do airship

184

00:10:28,290 --> 00:10:26,589

research in my opinion anyway and it was

185

00:10:31,110 --> 00:10:28,300

also the area that Hitler protected to

186

00:10:33,180 --> 00:10:31,120

the very very last moment at the end of

187

00:10:35,100 --> 00:10:33,190

World War two if you look at the pattern

188

00:10:37,259 --> 00:10:35,110

of the Third Army of General Patton they

189

00:10:39,180 --> 00:10:37,269

cross the Rhine and at that moment the

190

00:10:40,590 --> 00:10:39,190

big political prize is Berlin we all

191

00:10:42,629 --> 00:10:40,600

wanted to beat the Russians to Berlin

192

00:10:45,629 --> 00:10:42,639

because to possess Berlin meant that we

193

00:10:48,090 --> 00:10:45,639

possess Germany instead Patton is

194

00:10:49,620 --> 00:10:48,100

diverted directly to Silesia because

195

00:10:51,389 --> 00:10:49,630

that was the area where they had the

196

00:10:53,610 --> 00:10:51,399

Nazi bell other technologies they were

197

00:10:54,930 --> 00:10:53,620

developing super weapons that Hitler

198

00:10:57,090 --> 00:10:54,940

talked about and that had to be

199

00:10:58,680 --> 00:10:57,100

protected at all costs so it must have

200

00:11:00,720 --> 00:10:58,690

really gone Patton that he couldn't go

201

00:11:03,120 --> 00:11:00,730

get the prize which was Berlin and

202

00:11:05,579 --> 00:11:03,130

instead he had to go to Silesia and

203

00:11:08,040 --> 00:11:05,589

capture these German technology

204

00:11:09,780 --> 00:11:08,050

factories the Nazis got very far in

205

00:11:10,829 --> 00:11:09,790

their technological research Hitler kept

206

00:11:12,329 --> 00:11:10,839

telling everybody that there were going

207

00:11:13,980 --> 00:11:12,339

to be super weapons wonder weapons and

208

00:11:16,650 --> 00:11:13,990

we're gonna cut out of there that we're

209

00:11:18,900 --> 00:11:16,660

gonna save Nazi Germany what I didn't

210

00:11:21,929 --> 00:11:18,910

happen at least not as well as well or

211

00:11:25,769 --> 00:11:21,939

as far as we know it may have saved some

212

00:11:27,990 --> 00:11:25,779

segments of the higher-ups but as far as

213

00:11:33,449 --> 00:11:28,000

we know and is what history has told us

214

00:11:35,939 --> 00:11:33,459

the Nazi regime fell and tada the US and

215

00:11:37,750 --> 00:11:35,949

the Allies along with Russia won the war

216

00:11:40,360 --> 00:11:37,760

hurray

217

00:11:42,070 --> 00:11:40,370

but as we speculated over and over again

218

00:11:44,230 --> 00:11:42,080

on the show that we believe that Hitler

219

00:11:45,820 --> 00:11:44,240

escaped documents have come out that

220

00:11:48,340 --> 00:11:45,830

some of the higher-ups of script

221

00:11:52,930 --> 00:11:48,350

Argentina possibly even Antarctica which

222

00:11:57,400 --> 00:11:52,940

we won't even go into on this show but

223

00:11:59,290 --> 00:11:57,410

it is I think within the conspiracy

224

00:12:01,000 --> 00:11:59,300

community and even some people in the

225

00:12:04,120 --> 00:12:01,010

mainstream at this point are really

226

00:12:09,150 --> 00:12:04,130

dancing around the fact that hey yeah

227

00:12:13,210 --> 00:12:09,160

some of this Nazi technology definitely

228

00:12:15,970 --> 00:12:13,220

was in use after the war and higher-ups

229

00:12:20,770 --> 00:12:15,980

in the Nazi regime also escaped as well

230

00:12:22,350 --> 00:12:20,780

I just I'm just taking that as a given

231

00:12:25,259 --> 00:12:22,360

at this point

232

00:12:27,030 --> 00:12:25,269

um I will take some phone calls as I

233

00:12:30,870 --> 00:12:27,040

play these clips it's gone for 38 nine

234

00:12:32,400 --> 00:12:30,880

109 and if you have any favorite and

235

00:12:35,850 --> 00:12:32,410

Nazis stories that you might have and

236

00:12:37,920 --> 00:12:35,860

like to share please call up so where

237

00:12:41,069 --> 00:12:37,930

does that lead us that leads us

238

00:12:42,420 --> 00:12:41,079

obviously Patton wanted to go to Berlin

239

00:12:44,040 --> 00:12:42,430

he was diverted to go captures

240

00:12:45,870 --> 00:12:44,050

technology but I you know if that was

241

00:12:48,030 --> 00:12:45,880

bad like oh great I get to see would be

242

00:12:51,210 --> 00:12:48,040

the Nazis were working on yeah that you

243

00:12:54,240 --> 00:12:51,220

won't get the glory of trouncing over

244

00:12:56,009 --> 00:12:54,250

Berlin and planting the flag but he

245

00:12:58,319 --> 00:12:56,019

would have access and would get to see

246

00:13:02,600 --> 00:12:58,329

the interesting technology they were

247

00:13:05,699 --> 00:13:02,610

working on ranging from jet craft to

248

00:13:07,860 --> 00:13:05,709

even whatever kind of Nazi bell

249

00:13:09,630 --> 00:13:07,870

technology they were working on I would

250

00:13:10,620 --> 00:13:09,640

find that if I were patent that's far

251

00:13:14,009 --> 00:13:10,630

more fascinating

252

00:13:15,150 --> 00:13:14,019

if I was a part of that procurement of

253

00:13:16,769 --> 00:13:15,160

that technology then maybe you could

254

00:13:18,810 --> 00:13:16,779

lead it down the right path and how

255

00:13:23,100 --> 00:13:18,820

about your own army but that guy's swept

256

00:13:26,210 --> 00:13:23,110

away that was all swept up into one of

257

00:13:28,560 --> 00:13:26,220

my favorite projects project paperclip

258

00:13:32,100 --> 00:13:28,570

things we talk about over and over again

259

00:13:34,050 --> 00:13:32,110

and it's a bizarre thing because they do

260

00:13:38,160 --> 00:13:34,060

kind of frame it in these next few clips

261

00:13:40,650 --> 00:13:38,170

about Project Paperclip about taking

262

00:13:41,699 --> 00:13:40,660

some of the Nazi a scientist and

263

00:13:43,439 --> 00:13:41,709

higher-ups and bring them over to

264

00:13:47,430 --> 00:13:43,449

America and giving them cheeseburgers

265

00:13:50,100 --> 00:13:47,440

and houses and making him work for us so

266

00:13:52,740 --> 00:13:50,110

these this next clip is about the

267

00:13:55,650 --> 00:13:52,750

Project Paperclip one of my favorite

268

00:13:58,170 --> 00:13:55,660

projects when Secretary of Defense James

269

00:14:01,019 --> 00:13:58,180

Forrestal visited Germany just after the

270

00:14:02,790 --> 00:14:01,029

war he and others discovered the unusual

271

00:14:05,850 --> 00:14:02,800

technologies that the Germans had been

272

00:14:07,110 --> 00:14:05,860

working on it was at this time that the

273

00:14:09,900 --> 00:14:07,120

upper levels of the United States

274

00:14:14,519 --> 00:14:09,910

military began to contemplate the

275

00:14:16,280 --> 00:14:14,529

unthinkable Project Paperclip to me is

276

00:14:18,669 --> 00:14:16,290

the point

277

00:14:21,889 --> 00:14:18,679

at which we made a deal with the devil

278

00:14:24,379 --> 00:14:21,899

we sacrificed our soul for security

279

00:14:27,799 --> 00:14:24,389

there was no reason we had to take on

280

00:14:30,409 --> 00:14:27,809

the paperclip scientists you know we had

281

00:14:32,539 --> 00:14:30,419

their documentation we interrogate them

282

00:14:35,239 --> 00:14:32,549

we interrogated Verner von braun in

283

00:14:37,419 --> 00:14:35,249

germany dornberger all those guys we had

284

00:14:41,449 --> 00:14:37,429

we had a lot of their documents we found

285

00:14:44,150 --> 00:14:41,459

enormous caches of the records and spare

286

00:14:47,090 --> 00:14:44,160

parts for aircraft and rockets and the

287

00:14:49,340 --> 00:14:47,100

the vetoes all of us we found there was

288

00:14:51,729 --> 00:14:49,350

no need really to bring them all to the

289

00:14:54,499 --> 00:14:51,739

US and make them citizens and and

290

00:14:56,210 --> 00:14:54,509

basically replace the scientists that we

291

00:14:59,389 --> 00:14:56,220

had something was very fishy about that

292

00:15:01,479 --> 00:14:59,399

and to this day I think that that's the

293

00:15:04,939 --> 00:15:01,489

point where we just crossed the line so

294

00:15:08,419 --> 00:15:04,949

yeah right there is that look we had the

295

00:15:10,429 --> 00:15:08,429

documents we had the technology wasn't

296

00:15:12,349 --> 00:15:10,439

really necessary to bring over the use

297

00:15:14,179 --> 00:15:12,359

Nazi scientists yet wonderful front of

298

00:15:17,569 --> 00:15:14,189

our Braun really jump-started our rocket

299

00:15:19,460 --> 00:15:17,579

program and I you could assume that some

300

00:15:20,779 --> 00:15:19,470

of that knowledge lived inside their

301  
00:15:22,789 --> 00:15:20,789  
heads and they knew how to apply the

302  
00:15:25,759 --> 00:15:22,799  
documents in their research much more

303  
00:15:27,199 --> 00:15:25,769  
quickly then if the u.s. scientist just

304  
00:15:28,369 --> 00:15:27,209  
happened to get a textbook on how to

305  
00:15:30,829 --> 00:15:28,379  
build a rocket had to figure out

306  
00:15:32,479 --> 00:15:30,839  
themselves you ever get an extract

307  
00:15:35,269 --> 00:15:32,489  
instructions for Legos and you try to

308  
00:15:37,129 --> 00:15:35,279  
build a Lego set and the instructions

309  
00:15:39,529 --> 00:15:37,139  
don't ever match up because you're

310  
00:15:43,849 --> 00:15:39,539  
missing a couple blocks that's the way

311  
00:15:46,729 --> 00:15:43,859  
it happens in the space program you need

312  
00:15:49,400 --> 00:15:46,739  
someone who builds the Legos to make the

313  
00:15:51,379 --> 00:15:49,410

Lego that's the way it goes instructions

314

00:15:53,179 --> 00:15:51,389

almost never work like when I put

315

00:15:56,869 --> 00:15:53,189

together this desk here for my podcast I

316

00:15:59,379 --> 00:15:56,879

have like five extra screws I think they

317

00:16:01,819 --> 00:15:59,389

got to go somewhere so maybe I need to

318

00:16:03,039 --> 00:16:01,829

bring some Nazi scientists over here to

319

00:16:04,819 --> 00:16:03,049

help me with my desk

320

00:16:07,630 --> 00:16:04,829

where were they when I was building

321

00:16:10,930 --> 00:16:07,640

commands into alpha 1.3

322

00:16:14,140 --> 00:16:10,940

probably Antarctica probably so in this

323

00:16:15,900 --> 00:16:14,150

next clip this is a follow-up to the

324

00:16:18,720 --> 00:16:15,910

Project Paperclip

325

00:16:21,040 --> 00:16:18,730

and yeah here we go

326

00:16:22,900 --> 00:16:21,050

although there was outrage that the

327

00:16:25,150 --> 00:16:22,910

United States was bringing in the

328

00:16:27,970 --> 00:16:25,160

so-called enemy into its most secret

329

00:16:30,940 --> 00:16:27,980

institution no one really tried to stop

330

00:16:33,460 --> 00:16:30,950

Operation Paperclip it was the Germans

331

00:16:36,040 --> 00:16:33,470

research into die Glocke or Bell

332

00:16:39,130 --> 00:16:36,050

technology that made their entrance into

333

00:16:40,930 --> 00:16:39,140

America so important the Americans had

334

00:16:43,240 --> 00:16:40,940

toyed with anti-gravity technology

335

00:16:46,690 --> 00:16:43,250

before through the work of Nikola Tesla

336

00:16:48,760 --> 00:16:46,700

and T Townsend Brown this interest was

337

00:16:51,190 --> 00:16:48,770

realized in the famous Philadelphia

338

00:16:55,060 --> 00:16:51,200

Experiment in which a ship was made to

339

00:16:56,920 --> 00:16:55,070

disappear and reappear miles away but it

340

00:16:59,620 --> 00:16:56,930

was only with the migration of German

341

00:17:01,780 --> 00:16:59,630

scientists after World War two that the

342

00:17:03,390 --> 00:17:01,790

United States got a jump start on these

343

00:17:10,030 --> 00:17:03,400

technologies

344

00:17:12,579 --> 00:17:10,040

since the first study showed that this

345

00:17:14,439 --> 00:17:12,589

was very feasible and I think that it

346

00:17:17,800 --> 00:17:14,449

dates from the los angeles air raid

347

00:17:20,189 --> 00:17:17,810

incident of 1942 where the Army and the

348

00:17:23,890 --> 00:17:20,199

Navy were able to retrieve some craft

349

00:17:26,260 --> 00:17:23,900

that were shot down by the artillery

350

00:17:29,190 --> 00:17:26,270

barrage and when they studied it they

351  
00:17:32,470 --> 00:17:29,200  
actually found that these technologies

352  
00:17:34,480 --> 00:17:32,480  
anti-gravity were feasible but the war

353  
00:17:37,250 --> 00:17:34,490  
effort meant that they that couldn't

354  
00:17:41,340 --> 00:17:37,260  
really investigate it until

355  
00:17:44,630 --> 00:17:41,350  
was completed and in the fifties you had

356  
00:17:47,730 --> 00:17:44,640  
people like T Townsend Brown and others

357  
00:17:51,210 --> 00:17:47,740  
openly talking about gravity control

358  
00:17:54,510 --> 00:17:51,220  
gravity research doing anti-gravity it

359  
00:17:56,120 --> 00:17:54,520  
was a was a topic that was being cost

360  
00:17:59,310 --> 00:17:56,130  
around quite a bit

361  
00:18:01,500 --> 00:17:59,320  
hey fine if I die interesting and we I

362  
00:18:05,340 --> 00:18:01,510  
don't ever bring up the the battle over

363  
00:18:10,410 --> 00:18:05,350

Los Angeles of 1942 which is a very

364

00:18:13,410 --> 00:18:10,420

fascinating event where I believe in AI

365

00:18:16,230 --> 00:18:13,420

Tillery barrage shot at this object in

366

00:18:19,290 --> 00:18:16,240

the sky for four hours

367

00:18:22,950 --> 00:18:19,300

I mean following the attack on Pearl

368

00:18:24,960 --> 00:18:22,960

Harbor there was an object in the sky

369

00:18:32,280 --> 00:18:24,970

over LA so everyone was on [h\_\_\h] edge

370

00:18:34,830 --> 00:18:32,290

and and then it was shot at continuously

371

00:18:37,770 --> 00:18:34,840

and I'll read a little bit of this

372

00:18:41,880 --> 00:18:37,780

article the great air raid began at 2:25

373

00:18:43,920 --> 00:18:41,890

a.m. a clear moonlit night when the US

374

00:18:46,470 --> 00:18:43,930

Army announced the approach of a hostile

375

00:18:48,750 --> 00:18:46,480

aircraft in the city's air raid warning

376

00:18:51,540 --> 00:18:48,760

system went into action for the first

377

00:18:53,970 --> 00:18:51,550

time during the war suddenly the night

378

00:18:58,020 --> 00:18:53,980

was torn by sirens searchlights swept

379

00:19:00,540 --> 00:18:58,030

the sky gun crews at Army Post along the

380

00:19:04,560 --> 00:19:00,550

coastline began pumping ack ack

381

00:19:07,500 --> 00:19:04,570

or I guess anti-aircraft into the air

382

00:19:09,320 --> 00:19:07,510

ack ack into the moonlight

383

00:19:14,029 --> 00:19:09,330

[Music]

384

00:19:16,580 --> 00:19:14,039

the entire episode 1433 rounds would be

385

00:19:21,919 --> 00:19:19,669

okay thousands of volunteer air-raid

386

00:19:23,930 --> 00:19:21,929

warning wardens tumbled out of their

387

00:19:26,480 --> 00:19:23,940

beds and grabbed their boots and helmets

388

00:19:28,039 --> 00:19:26,490

those who had helmets and rushed into

389

00:19:30,649 --> 00:19:28,049

the night tens of thousands of citizens

390

00:19:32,659 --> 00:19:30,659

awake awakened by the screech of sirens

391

00:19:35,690 --> 00:19:32,669

and popping of shells jumped out of the

392

00:19:37,610 --> 00:19:35,700

bed out of their beds and into the night

393

00:19:39,830 --> 00:19:37,620

it was pandemonium although no bombs

394

00:19:41,390 --> 00:19:39,840

were dropped the city did not escape its

395

00:19:43,850 --> 00:19:41,400

baptism of fire without casualties

396

00:19:45,169 --> 00:19:43,860

including five fatalities three

397

00:19:50,029 --> 00:19:45,179

residents were killed in automobile

398

00:19:53,419 --> 00:19:50,039

accidents as the crashes - widely about

399

00:19:56,000 --> 00:19:53,429

the okay so how long did it actually go

400

00:19:59,810 --> 00:19:56,010

on I'm trying to get an actual timeline

401  
00:20:06,340 --> 00:19:59,820  
of when this the air raid actually

402  
00:20:10,840 --> 00:20:08,710  
in any event I'll put up itis up there in

403  
00:20:15,580 --> 00:20:10,850  
the in the show description fascinating

404  
00:20:18,249 --> 00:20:15,590  
stuff I don't know of a fishel story

405  
00:20:21,190 --> 00:20:18,259  
maybe I can miss reading us on the fly

406  
00:20:23,529 --> 00:20:21,200  
of what they how they actually talked

407  
00:20:25,570 --> 00:20:23,539  
this down or explaining this away as

408  
00:20:29,200 --> 00:20:25,580  
like oh it's just swamp gas we were

409  
00:20:32,200 --> 00:20:29,210  
firing at swamp gas for five hours but

410  
00:20:34,720 --> 00:20:32,210  
there there is photographs of something

411  
00:20:37,989 --> 00:20:34,730  
some kind of light in the sky that they

412  
00:20:39,369 --> 00:20:37,999  
were firing at and by all accounts the

413  
00:20:41,859 --> 00:20:39,379

shells were bouncing off bit it was

414

00:20:46,800 --> 00:20:41,869

making me damage I wasn't taking any

415

00:20:48,580 --> 00:20:46,810

damage and it just went away

416

00:20:51,940 --> 00:20:48,590

[Music]

417

00:20:54,789 --> 00:20:51,950

absolutely astounding 1942 right after

418

00:20:57,639 --> 00:20:54,799

Pearl Harbor and it probably was a show

419

00:20:59,320 --> 00:20:57,649

force by some super-secret Nazi

420

00:21:01,600 --> 00:20:59,330

technology so hey we can get you in LA

421

00:21:02,820 --> 00:21:01,610

we can Gyan the East Coast what up now

422

00:21:07,480 --> 00:21:02,830

[h\_\_\h]

423

00:21:10,960 --> 00:21:07,490

so that ends our Project Paperclip ding

424

00:21:13,619 --> 00:21:10,970

oh boy we got a ding dong right there

425

00:21:17,590 --> 00:21:13,629

hey what's going on figure that one out

426

00:21:21,549 --> 00:21:17,600

hey what's going on here

427

00:21:27,359 --> 00:21:21,559

Ngoc UFOs coming to earth yeah not UFOs

428

00:21:39,789 --> 00:21:33,279

what's going on it's just Mike I'm

429

00:21:42,279 --> 00:21:39,799

flying solo tonight yes so you brought

430

00:21:43,409 --> 00:21:42,289

up paperclip mm-hmm and you brought up

431

00:21:46,749 --> 00:21:43,419

George Patton

432

00:21:49,600 --> 00:21:46,759

yeah Patton was a marching through

433

00:21:52,480 --> 00:21:49,610

Germany just making fun of it I didn't

434

00:21:54,039 --> 00:21:52,490

know that he he was I mean you were

435

00:21:57,549 --> 00:21:54,049

talking about how he was diverted

436

00:22:00,999 --> 00:21:57,559

yeah the R&D area there yeah making his

437

00:22:03,700 --> 00:22:01,009

push towards Berlin yeah it was a real

438

00:22:05,980 --> 00:22:03,710

race to get to Berlin before the Soviets

439

00:22:07,570 --> 00:22:05,990

but it's someone according to the clip I

440

00:22:09,940 --> 00:22:07,580

played this they thought it was far more

441

00:22:14,200 --> 00:22:09,950

much more important to get him to the

442

00:22:17,590 --> 00:22:14,210

Nazi research facilities yeah so I mean

443

00:22:21,190 --> 00:22:17,600

I I knew that I didn't I didn't realize

444

00:22:24,789 --> 00:22:21,200

that until years ago like I when I was

445

00:22:26,710 --> 00:22:24,799

in high school like way back I was into

446

00:22:29,019 --> 00:22:26,720

like World War two military history and

447

00:22:31,509 --> 00:22:29,029

I love that I love studying anything

448

00:22:32,889 --> 00:22:31,519

about this guy and I always thought I

449

00:22:35,350 --> 00:22:32,899

was like you know what this guy was such

450

00:22:37,720 --> 00:22:35,360

a hard charging you know [h\_\_h] badass

451

00:22:40,330 --> 00:22:37,730

he was out there ready to go take on the

452

00:22:43,629 --> 00:22:40,340

German army by himself and I was like

453

00:22:46,539 --> 00:22:43,639

why was this guy sent you know away from

454

00:22:48,310 --> 00:22:46,549

the main battle area and not until I

455

00:22:50,529 --> 00:22:48,320

started you know a couple of years later

456

00:22:51,999 --> 00:22:50,539

like maybe like three or four years ago

457

00:22:55,450 --> 00:22:52,009

that I started reading about Project

458

00:22:58,180 --> 00:22:55,460

Paperclip and then I kind of tried kind

459

00:23:01,869 --> 00:22:58,190

of kind of all came together and you

460

00:23:02,730 --> 00:23:01,879

know George Patton he died in a vehicle

461

00:23:05,680 --> 00:23:02,740

accident

462

00:23:08,049 --> 00:23:05,690

yeah I wasn't worth that I know I know

463

00:23:11,440 --> 00:23:08,059

that's dead bad I don't know exactly how

464

00:23:13,480 --> 00:23:11,450

he died yeah it was like right before

465

00:23:16,930 --> 00:23:13,490

the end oh you say at the end of the war

466

00:23:19,960 --> 00:23:16,940

right before that were Germany

467

00:23:22,120 --> 00:23:19,970

surrendered and he died in some kind of

468

00:23:24,070 --> 00:23:22,130

freak vehicle action is what they're

469

00:23:26,590 --> 00:23:24,080

trying to say it was where he was like

470

00:23:28,000 --> 00:23:26,600

t-bone he was in one vehicle and another

471

00:23:30,640 --> 00:23:28,010

vehicle went out of control

472

00:23:33,360 --> 00:23:30,650

he got t-boned and that's and pretty

473

00:23:37,779 --> 00:23:33,370

much he died from the injuries from that

474

00:23:41,950 --> 00:23:37,789

same on December 8th 1945 Patton's chief

475

00:23:46,029 --> 00:23:41,960

of staff Major General hoped Hobart gay

476

00:23:49,659 --> 00:23:46,039

invited him on a pheasant hunting trip

477

00:23:53,799 --> 00:23:49,669

and he died in an accidental vehicle

478

00:23:55,990 --> 00:23:53,809

crash yeah so that's uh I didn't really

479

00:23:59,440 --> 00:23:56,000

think about that until a couple years

480

00:24:01,180 --> 00:23:59,450

ago like wow now that's I started

481

00:24:04,210 --> 00:24:01,190

questioning that official story I'm like

482

00:24:08,409 --> 00:24:04,220

that's pretty pretty important pretty

483

00:24:10,720 --> 00:24:08,419

pretty suspect I would think you might

484

00:24:12,039 --> 00:24:10,730

have been taken out because I think

485

00:24:14,049 --> 00:24:12,049

there's a good rule of thumb here the

486

00:24:16,120 --> 00:24:14,059

more money you have and the more power

487

00:24:20,590 --> 00:24:16,130

you have if you're ever invited to go on

488

00:24:25,200 --> 00:24:20,600

a hunting trip don't go remember when

489

00:24:30,340 --> 00:24:28,060

don't go if you're like a poor redneck

490

00:24:31,810 --> 00:24:30,350

or just some guy middle class go out

491

00:24:34,419 --> 00:24:31,820

hunting all you want with your buddies

492

00:24:49,120 --> 00:24:34,429

though the bursar you get don't go Anka

493

00:24:52,990 --> 00:24:49,130

looked at I can work out I think is

494

00:24:55,029 --> 00:24:53,000

entirely possible because if Patton was

495

00:24:57,310 --> 00:24:55,039

diverted and by the by the clip that I

496

00:24:59,070 --> 00:24:57,320

played there I'm suspecting that he was

497

00:25:02,440 --> 00:24:59,080

he was them it was a very competent

498

00:25:05,200 --> 00:25:02,450

general he was able to get [h\_\_\h] done win

499

00:25:09,820 --> 00:25:05,210

battles and move his army very quickly I

500

00:25:12,760 --> 00:25:09,830

suspect that what if he did capture not

501  
00:25:15,430 --> 00:25:12,770  
only capture Nazi UFO technology but

502  
00:25:16,270 --> 00:25:15,440  
also saw it and examined it and realized

503  
00:25:17,980 --> 00:25:16,280  
how important

504  
00:25:19,300 --> 00:25:17,990  
really was I mean General Patton

505  
00:25:22,270 --> 00:25:19,310  
probably had a lot of influence not only

506  
00:25:25,450 --> 00:25:22,280  
in the Pentagon or pre Pentagon or but

507  
00:25:27,100 --> 00:25:25,460  
also with the politicians they probably

508  
00:25:28,810 --> 00:25:27,110  
respected his opinion and they probably

509  
00:25:30,730 --> 00:25:28,820  
didn't want him muddying up the waters

510  
00:25:32,620 --> 00:25:30,740  
with his opinion of what they should do

511  
00:25:34,360 --> 00:25:32,630  
with that technology so I think it's

512  
00:25:38,050 --> 00:25:34,370  
entirely possible they would they would

513  
00:25:40,540 --> 00:25:38,060

off somebody who knew exactly what they

514

00:25:46,660 --> 00:25:40,550

had and then he can just funnel it away

515

00:25:53,460 --> 00:25:46,670

yeah the first casualty in the secret

516

00:25:59,050 --> 00:25:53,470

space war yeah so it was a patent he was

517

00:26:02,160 --> 00:25:59,060

he was he and his his car collided with

518

00:26:06,070 --> 00:26:02,170

an American army truck at a low speed

519

00:26:08,050 --> 00:26:06,080

the driver gay was only or gay the other

520

00:26:12,730 --> 00:26:08,060

passenger was only slightly injured by

521

00:26:15,010 --> 00:26:12,740

Patton was hit on his head by the glass

522

00:26:16,630 --> 00:26:15,020

partition in the back seat he became

523

00:26:18,490 --> 00:26:16,640

bleeding from the gash in his head and

524

00:26:19,650 --> 00:26:18,500

complained that he was paralyzed and

525

00:26:22,960 --> 00:26:19,660

having trouble breathing

526  
00:26:24,250 --> 00:26:22,970  
taken to the hospital Patton was

527  
00:26:28,600 --> 00:26:24,260  
discovered to have a compression

528  
00:26:32,440 --> 00:26:28,610  
fracture in this location of the one of

529  
00:26:35,590 --> 00:26:32,450  
his vertebrae yeah pretty sure you ready

530  
00:26:41,650 --> 00:26:35,600  
to go all non-medical visitors except

531  
00:26:42,820 --> 00:26:41,660  
Patton's wife yeah yeah no no one wasn't

532  
00:26:45,220 --> 00:26:42,830  
allowed to sit yeah no one's allowed to

533  
00:26:49,060 --> 00:26:45,230  
see him except for medical staff and his

534  
00:26:51,010 --> 00:26:49,070  
wife so all their other people that were

535  
00:26:52,630 --> 00:26:51,020  
like let's say if you had a subordinate

536  
00:26:57,190 --> 00:26:52,640  
now he was very close but they couldn't

537  
00:27:01,090 --> 00:26:57,200  
even see him he did he did say this is a

538  
00:27:03,640 --> 00:27:01,100

hell of a way to dying but yeah I think

539

00:27:15,310 --> 00:27:03,650

there's a interesting theory and well if

540

00:27:18,220 --> 00:27:15,320

we can verify with anything but I like

541

00:27:19,240 --> 00:27:18,230

it let's make it history Thank You Robby

542

00:27:25,010 --> 00:27:19,250

I really appreciate your call you got

543

00:27:25,460 --> 00:27:25,020

anything else for me no CDs goodnight

544

00:27:31,590 --> 00:27:25,470

[Music]

545

00:27:34,960 --> 00:27:31,600

[Applause]

546

00:27:36,700 --> 00:27:34,970

okay thank you for you go yeah why not

547

00:27:43,980 --> 00:27:36,710

General Patton knew too much they took

548

00:27:45,580 --> 00:27:43,990

him out all right yeah we we did the

549

00:27:51,910 --> 00:27:45,590

Project Paperclip

550

00:27:56,140 --> 00:27:51,920

and then we'll go into the some of the

551  
00:27:58,990 --> 00:27:56,150  
weirder stuff about the Nazi UFO stuff I

552  
00:28:01,960 --> 00:27:59,000  
talked about this but before I've talked

553  
00:28:07,000 --> 00:28:01,970  
about the verle society the the

554  
00:28:10,270 --> 00:28:07,010  
channeling that was done and how some of

555  
00:28:14,830 --> 00:28:10,280  
this weirder technology or the knowledge

556  
00:28:17,170 --> 00:28:14,840  
of entered into Nazi society or entered

557  
00:28:23,880 --> 00:28:17,180  
into German society and I have a clip

558  
00:28:32,980 --> 00:28:23,890  
here about this channel is calling me

559  
00:28:36,820 --> 00:28:32,990  
and why I don't know why I don't know

560  
00:28:42,010 --> 00:28:39,100  
hold on a second let me open it back up

561  
00:28:45,250 --> 00:28:42,020  
again if someone's calling in call back

562  
00:28:46,990 --> 00:28:45,260  
in again because I had a different skype

563  
00:28:50,470 --> 00:28:47,000

open I was like three skypes open at

564

00:28:53,050 --> 00:28:50,480

once because skype was automatically

565

00:28:54,430 --> 00:28:53,060

integrated into a hotmail thing and I

566

00:28:55,300 --> 00:28:54,440

got that going on I don't even what's

567

00:28:57,940 --> 00:28:55,310

going on

568

00:29:03,160 --> 00:28:57,950

call her go ahead go figure that one out

569

00:29:06,310 --> 00:29:03,170

oh my god oh my god take a look at that

570

00:29:08,130 --> 00:29:06,320

thing you see that thing oh my god

571

00:29:10,420 --> 00:29:08,140

what's a meme it's what's going on buddy

572

00:29:13,330 --> 00:29:10,430

I'm curious if you ever heard of a

573

00:29:15,280 --> 00:29:13,340

role-playing game called Delta greens no

574

00:29:18,490 --> 00:29:15,290

oh my god no I have not

575

00:29:20,830 --> 00:29:18,500

what is Delta green so Delta green is

576

00:29:22,600 --> 00:29:20,840

basically kala Cthulhu fit to the modern

577

00:29:26,080 --> 00:29:22,610

age it's pretty much x-files the

578

00:29:28,900 --> 00:29:26,090

role-playing game you and your teammates

579

00:29:31,600 --> 00:29:28,910

are part of a secret government

580

00:29:35,740 --> 00:29:31,610

organization called Delta Green is

581

00:29:38,760 --> 00:29:35,750

dispatched to handle all the u.s. types

582

00:29:41,440 --> 00:29:38,770

like aliens and Bigfoot and types

583

00:29:44,590 --> 00:29:41,450

conspiracies are actually true but your

584

00:29:47,530 --> 00:29:44,600

job is to where there's a incident the

585

00:29:49,090 --> 00:29:47,540

world you sorta contain it try not to go

586

00:29:52,630 --> 00:29:49,100

insane from learning about the knowledge

587

00:29:54,250 --> 00:29:52,640

have you played this yes yeah I run a

588

00:29:56,200 --> 00:29:54,260

couple of games so I got the books and

589

00:29:57,910 --> 00:29:56,210

everything but good reason why I bring

590

00:30:00,640 --> 00:29:57,920

it up because you only have a percentile

591

00:30:03,340 --> 00:30:00,650

are like a generic set of dice and it

592

00:30:06,040 --> 00:30:03,350

might be an idea that I could try to run

593

00:30:09,450 --> 00:30:06,050

like you Joe and clown but you threw a

594

00:30:11,530 --> 00:30:09,460

game sometime for like a patreon time I

595

00:30:14,710 --> 00:30:11,540

like the idea of what I've often

596

00:30:16,870 --> 00:30:14,720

considered recording some of my

597

00:30:19,810 --> 00:30:16,880

role-playing games because I have a lot

598

00:30:21,370 --> 00:30:19,820

of fun and it would be it'd be some

599

00:30:22,240 --> 00:30:21,380

month I would be into doing yeah

600

00:30:24,930 --> 00:30:22,250

absolutely

601  
00:30:27,280 --> 00:30:24,940  
I'm not familiar with this is like

602  
00:30:29,080 --> 00:30:27,290  
players yes obviously people want to

603  
00:30:31,060 --> 00:30:29,090  
watch you guys actually try to like play

604  
00:30:33,130 --> 00:30:31,070  
through these conspiracies and see how

605  
00:30:35,140 --> 00:30:33,140  
you handle them and it's very well

606  
00:30:38,410 --> 00:30:35,150  
contain it and like just stuff like that

607  
00:30:40,710 --> 00:30:38,420  
I definitely like the idea and I'm

608  
00:30:43,720 --> 00:30:40,720  
mostly familiar with a the Palladium

609  
00:30:48,430 --> 00:30:43,730  
system like rifts heroes in limited d20

610  
00:30:49,390 --> 00:30:48,440  
and is the second edition D&D is as far

611  
00:30:53,170 --> 00:30:49,400  
as I've gotten

612  
00:30:54,700 --> 00:30:53,180  
but I'd be open this is super simple you

613  
00:30:56,500 --> 00:30:54,710

just basically try to roll under your

614

00:30:59,020 --> 00:30:56,510

skill which is usually a hundred and

615

00:31:01,120 --> 00:30:59,030

it's like an E hundred is all you have

616

00:31:02,860 --> 00:31:01,130

to worry about that's 95 percent of what

617

00:31:04,090 --> 00:31:02,870

you're doing absolutely I think it's a

618

00:31:06,640 --> 00:31:04,100

fun idea

619

00:31:09,190 --> 00:31:06,650

and we could definitely stream it live

620

00:31:10,270 --> 00:31:09,200

and yeah put it on the patreon and I've

621

00:31:13,300 --> 00:31:10,280

been wanting to get back into

622

00:31:15,130 --> 00:31:13,310

role-playing a little bit and maybe do

623

00:31:19,270 --> 00:31:15,140

like once a month or once every few

624

00:31:21,940 --> 00:31:19,280

weeks and work like you know like a

625

00:31:23,530 --> 00:31:21,950

three hour session and like you're done

626

00:31:25,840 --> 00:31:23,540

with it like for that quarter unquote

627

00:31:28,000 --> 00:31:25,850

episode yeah I think that'd be kind of

628

00:31:30,010 --> 00:31:28,010

fun to do definitely send me an email I

629

00:31:33,130 --> 00:31:30,020

got the the website director green up on

630

00:31:34,990 --> 00:31:33,140

the screen I don't know I kinda like the

631

00:31:36,610 --> 00:31:35,000

idea start rule that's all you need it's

632

00:31:39,340 --> 00:31:36,620

free you don't have to buy books or

633

00:31:42,970 --> 00:31:39,350

anything just be willing to play I'll

634

00:31:45,460 --> 00:31:42,980

have to do this yes or you know do the

635

00:31:46,930 --> 00:31:45,470

fishing some time off podcast where we

636

00:31:49,210 --> 00:31:46,940

create your characters that way when we

637

00:31:51,580 --> 00:31:49,220

get to it we just yeah start into it

638

00:31:53,830 --> 00:31:51,590

yeah like I'm her of this bit like of

639

00:31:56,980 --> 00:31:53,840

because most time it's in modern times

640

00:31:58,870 --> 00:31:56,990

so don't worry about trying to it won't

641

00:32:01,210 --> 00:31:58,880

be stretched for a guilt Jodi like kind

642

00:32:06,400 --> 00:32:01,220

of actually play a character I'm gonna

643

00:32:09,190 --> 00:32:06,410

warn you that I very goofy I don't I I

644

00:32:10,540 --> 00:32:09,200

do everything I can I [h\_\_h] [h\_\_h] up like

645

00:32:11,200 --> 00:32:10,550

if someone's like hey there's a Bigfoot

646

00:32:13,120 --> 00:32:11,210

over there

647

00:32:16,270 --> 00:32:13,130

I shoot tires at a car isn't I right

648

00:32:19,270 --> 00:32:16,280

around half the time your characters

649

00:32:21,490 --> 00:32:19,280

either die or go insane okay not

650

00:32:24,250 --> 00:32:21,500

expendable like it promotes that type of

651  
00:32:26,800 --> 00:32:24,260  
play okay good so I'm gonna be horrible

652  
00:32:28,330 --> 00:32:26,810  
but it'll be fun I actually look forward

653  
00:32:30,220 --> 00:32:28,340  
to talking with you about it and

654  
00:32:39,580 --> 00:32:30,230  
organizing something I think we can make

655  
00:32:41,140 --> 00:32:39,590  
it happen we can't argue I figure I'd be

656  
00:32:43,420 --> 00:32:41,150  
something that you could offer your

657  
00:32:46,330 --> 00:32:43,430  
pastry on there because it's uh it

658  
00:32:46,960 --> 00:32:46,340  
starts taking us bill increases yeah

659  
00:32:48,520 --> 00:32:46,970  
that'd be fun

660  
00:32:50,110 --> 00:32:48,530  
I think it would be a definitely fun

661  
00:32:54,770 --> 00:32:50,120  
piece of content hey thanks for calling

662  
00:33:04,750 --> 00:32:59,250  
[Applause]

663  
00:33:08,410 --> 00:33:04,760

yes so back to the secret space program

664

00:33:11,680 --> 00:33:08,420

and the channeling and the virile

665

00:33:14,440 --> 00:33:11,690

Society and were they perhaps got some

666

00:33:15,450 --> 00:33:14,450

of this information concerning alien

667

00:33:18,760 --> 00:33:15,460

technology here we go

668

00:33:20,650 --> 00:33:18,770

experts suggest that maria orsic was not

669

00:33:23,260 --> 00:33:20,660

only a professional Chandler for a

670

00:33:25,660 --> 00:33:23,270

secret society but also part of a

671

00:33:28,570 --> 00:33:25,670

mysterious Germanic culture of mysticism

672

00:33:30,760 --> 00:33:28,580

there's actually this history of an area

673

00:33:32,260 --> 00:33:30,770

of Germany called Prussia which was

674

00:33:35,289 --> 00:33:32,270

actually a nation of its own back in the

675

00:33:37,930 --> 00:33:35,299

1800s where there are a group of you

676

00:33:39,490 --> 00:33:37,940

know industrialists with a lot of money

677

00:33:41,680 --> 00:33:39,500

who are fascinated in all these ancient

678

00:33:44,560 --> 00:33:41,690

mysteries who looked at the ancient

679

00:33:46,630 --> 00:33:44,570

texts through physicists eyes and had

680

00:33:48,930 --> 00:33:46,640

ideas about how to create airships in

681

00:33:51,370 --> 00:33:48,940

spacecraft and how to define gravity

682

00:33:54,640 --> 00:33:51,380

researchers have tied maria orsic

683

00:33:57,159 --> 00:33:54,650

to a secret society called the Vrill this

684

00:34:00,700 --> 00:33:57,169

society performed exercises to awaken

685

00:34:02,830 --> 00:34:00,710

what the ancients referred to as Chi the

686

00:34:05,169 --> 00:34:02,840

legend of Maria suggests that one night

687

00:34:07,390 --> 00:34:05,179

she was channeling for a group of social

688

00:34:09,790 --> 00:34:07,400

elite when an otherworldly being came

689

00:34:10,450 --> 00:34:09,800

through and claimed he was from the star

690

00:34:14,139 --> 00:34:10,460

system

691

00:34:16,030 --> 00:34:14,149

Aldebaran he had a message Maria still

692

00:34:18,609 --> 00:34:16,040

in a trance began writing in a

693

00:34:21,879 --> 00:34:18,619

mysterious language and drawing sketches

694

00:34:23,740 --> 00:34:21,889

for a spacecraft experts were brought in

695

00:34:26,619 --> 00:34:23,750

to decipher the language and the

696

00:34:28,990 --> 00:34:26,629

sketches these experts suggested that

697

00:34:31,030 --> 00:34:29,000

the language was in Sumerian and the

698

00:34:34,240 --> 00:34:31,040

drawings resembled a device and man

699

00:34:37,000 --> 00:34:34,250

named Victor schauberger created during

700

00:34:40,000 --> 00:34:37,010

the early 1920s schauberger had invented

701  
00:34:42,220 --> 00:34:40,010  
something called the repulsing which was

702  
00:34:44,680 --> 00:34:42,230  
a disc shaped object that used various

703  
00:34:48,070 --> 00:34:44,690  
air vortexes that some people call a

704  
00:34:51,460 --> 00:34:48,080  
consider me to be repulsing the laws of

705  
00:34:54,460 --> 00:34:51,470  
physics maria novella drew almost his

706  
00:34:56,950 --> 00:34:54,470  
exact invention but gave instructions on

707  
00:35:00,940 --> 00:34:56,960  
how it would work written in a Sumerian

708  
00:35:03,130 --> 00:35:00,950  
language maria or such made sketches and

709  
00:35:04,850 --> 00:35:03,140  
they were kind of very technical in

710  
00:35:06,440 --> 00:35:04,860  
nature something that a woman of her

711  
00:35:08,960 --> 00:35:06,450  
background would probably not really

712  
00:35:10,880 --> 00:35:08,970  
have a great knowledge of and actually

713  
00:35:12,860 --> 00:35:10,890

from those sketches the real society

714

00:35:16,190 --> 00:35:12,870

actually made different prototype

715

00:35:20,300 --> 00:35:16,200

devices craft one of them was called the

716

00:35:22,610 --> 00:35:20,310

RF z2 that actually flew the Legend

717

00:35:24,890 --> 00:35:22,620

Continues that Maria gave the drawings

718

00:35:27,920 --> 00:35:24,900

and Sumerian tax acquired from her

719

00:35:31,130 --> 00:35:27,930

channeling to Rudolf Hess hoping to

720

00:35:33,410 --> 00:35:31,140

continue the funding but experts suggest

721

00:35:36,100 --> 00:35:33,420

that has used this as an opportunity to

722

00:35:39,110 --> 00:35:36,110

advance his career with the Nazi Party

723

00:35:41,270 --> 00:35:39,120

Rudolf Hess was a deputy to Hitler and

724

00:35:45,170 --> 00:35:41,280

had been one of the mainstays of the

725

00:35:48,140 --> 00:35:45,180

rising Nazi Party by the time the war

726

00:35:50,840 --> 00:35:48,150

started s who by the way was very

727

00:35:52,930 --> 00:35:50,850

steeped in occultism he was in too big

728

00:35:55,550 --> 00:35:52,940

for the spiritualism and everything else

729

00:35:57,890 --> 00:35:55,560

experts suggest that Maria's contact

730

00:36:00,440 --> 00:35:57,900

experience could have United a world in

731

00:36:02,600 --> 00:36:00,450

peace and that was the purpose of the

732

00:36:04,880 --> 00:36:02,610

beings from Aldebaran reaching out to

733

00:36:06,770 --> 00:36:04,890

Maria they had everything that they

734

00:36:08,150 --> 00:36:06,780

needed to actually build flying saucers

735

00:36:10,100 --> 00:36:08,160

they had the reactor that we create the

736

00:36:12,380 --> 00:36:10,110

antigravity effect they had the

737

00:36:14,510 --> 00:36:12,390

repulsing which was also german that

738

00:36:16,070 --> 00:36:14,520

enabled them to actually control where

739

00:36:19,010 --> 00:36:16,080

this thing goes and how it maneuvers and

740

00:36:20,420 --> 00:36:19,020

they had this back in the 1930s and 40s

741

00:36:23,480 --> 00:36:20,430

it's amazing how all these different

742

00:36:25,670 --> 00:36:23,490

areas of research are all German they

743

00:36:27,170 --> 00:36:25,680

put them all together and what you get

744

00:36:28,970 --> 00:36:27,180

when you put them all together is a

745

00:36:33,740 --> 00:36:28,980

flying saucer oh yeah

746

00:36:36,770 --> 00:36:33,750

oh yeah mr. Alan chat says every picture

747

00:36:38,090 --> 00:36:36,780

he is seen of this versus I named her

748

00:36:43,220 --> 00:36:38,100

Maria was ultrix

749

00:36:45,850 --> 00:36:43,230

or was it was her name ostrich is a

750

00:36:48,110 --> 00:36:45,860

looker yeah she's a she's quite a looker

751  
00:36:49,850 --> 00:36:48,120  
although the one picture I have up on

752  
00:36:52,100 --> 00:36:49,860  
the left of her she looks like an old

753  
00:36:55,970 --> 00:36:52,110  
witch but on the right she looks like a

754  
00:36:58,160 --> 00:36:55,980  
movie star of that of that era but if

755  
00:37:00,650 --> 00:36:58,170  
you read more about the Vril society and

756  
00:37:02,570 --> 00:37:00,660  
these channellings that the the

757  
00:37:04,370 --> 00:37:02,580  
creatures they contact it could have

758  
00:37:08,570 --> 00:37:04,380  
been reptilian and they were looking for

759  
00:37:12,410 --> 00:37:08,580  
host bodies in that clip they make it

760  
00:37:14,210 --> 00:37:12,420  
seem a lot more nice ey see that hey we

761  
00:37:15,860 --> 00:37:14,220  
just wanted to talk to some humans and

762  
00:37:18,089 --> 00:37:15,870  
exchange some knowledge and give them

763  
00:37:19,650 --> 00:37:18,099

knowledge of this technology

764

00:37:21,150 --> 00:37:19,660

that they could use so we can

765

00:37:23,269 --> 00:37:21,160

communicate with each other and shake

766

00:37:25,710 --> 00:37:23,279

hands and make hamburgers and hotdogs

767

00:37:28,609 --> 00:37:25,720

they don't make it sound so nefarious in

768

00:37:30,960 --> 00:37:28,619

that clip but everything I've read

769

00:37:34,170 --> 00:37:30,970

surrounding that it wasn't so nicely

770

00:37:37,079 --> 00:37:34,180

nicey it was bad ii Watie sorry for the

771

00:37:39,839 --> 00:37:37,089

baby-talk people I'm trying not to go

772

00:37:45,030 --> 00:37:39,849

insane here there's some dogs barking in

773

00:37:51,120 --> 00:37:47,849

okay so for the final clip I have for

774

00:37:53,790 --> 00:37:51,130

the Nazi space program secret space

775

00:37:55,770 --> 00:37:53,800

program it concerns the Nazi bell which

776

00:38:00,000 --> 00:37:55,780

we talked about over and over again it

777

00:38:04,040 --> 00:38:00,010

is the the foundation I believe of a

778

00:38:08,310 --> 00:38:04,050

prototype of anti-gravity technology

779

00:38:14,000 --> 00:38:08,320

produced by a government funded and

780

00:38:16,859 --> 00:38:14,010

researched and used to build other craft

781

00:38:18,030 --> 00:38:16,869

the craft look I have up on the the

782

00:38:20,910 --> 00:38:18,040

screen like the Honda booth

783

00:38:21,690 --> 00:38:20,920

the Honda boo was a predecessor to the

784

00:38:24,359 --> 00:38:21,700

Nazi bell

785

00:38:27,359 --> 00:38:24,369

I used very similar technology but the

786

00:38:29,090 --> 00:38:27,369

Honda boy had armor on it and it didn't

787

00:38:30,980 --> 00:38:29,100

melt the faces of the people inside

788

00:38:33,359 --> 00:38:30,990

unlike the Nazi bell

789

00:38:35,940 --> 00:38:33,369

so how did the Nazi bell work well in

790

00:38:40,069 --> 00:38:35,950

this clip we're going to figure out kind

791

00:38:43,130 --> 00:38:40,079

of how it may have worked

792

00:38:45,079 --> 00:38:43,140

in 1989 the Berlin Wall fell and

793

00:38:47,479 --> 00:38:45,089

documents began leaking out of the

794

00:38:50,049 --> 00:38:47,489

former communist countries many of these

795

00:38:52,969 --> 00:38:50,059

documents had never been seen before in

796

00:38:55,640 --> 00:38:52,979

1995 a large group of documents were

797

00:38:57,979 --> 00:38:55,650

discovered in Poland which tell a very

798

00:39:00,940 --> 00:38:57,989

interesting story about a fascinating

799

00:39:04,819 --> 00:39:00,950

object called the Bell

800

00:39:07,309 --> 00:39:04,829

the Bell is an interesting story that

801  
00:39:09,319 --> 00:39:07,319  
has come out it's one of those stories

802  
00:39:11,479 --> 00:39:09,329  
incidentally that's come out since the

803  
00:39:13,999 --> 00:39:11,489  
the German Lieder for any government of

804  
00:39:16,489 --> 00:39:14,009  
the German reunification it's a story

805  
00:39:22,940 --> 00:39:16,499  
that in my opinion lies at the very

806  
00:39:25,969 --> 00:39:22,950  
center of the Nazi UFO myth this idea

807  
00:39:28,400 --> 00:39:25,979  
that the Nazis had field propulsion

808  
00:39:30,259 --> 00:39:28,410  
flying saucers and you know they took

809  
00:39:32,089 --> 00:39:30,269  
secret trips to the movement of Mars and

810  
00:39:34,579 --> 00:39:32,099  
what have you the bells of propulsion

811  
00:39:36,319 --> 00:39:34,589  
system it's basically a kind of reactor

812  
00:39:38,509 --> 00:39:36,329  
and that reactor is the power source for

813  
00:39:40,279 --> 00:39:38,519

a thing called a how Naboo this SS

814

00:39:43,729 --> 00:39:40,289

obergruppenfuehrer his name was jakob

815

00:39:48,859 --> 00:39:43,739

sporrenberg and he was tried by a Polish

816

00:39:52,549 --> 00:39:48,869

war crimes court after the war for the

817

00:39:55,370 --> 00:39:52,559

crime of having murdered 60 Germans that

818

00:39:58,339 --> 00:39:55,380

were part of this project whoops in

819

00:40:00,469 --> 00:39:58,349

order to keep it secret and in his

820

00:40:03,380 --> 00:40:00,479

affidavit before the Polish war crimes

821

00:40:05,900 --> 00:40:03,390

court he describes details of this

822

00:40:08,089 --> 00:40:05,910

project called die Glocke of the Bell T

823

00:40:11,989 --> 00:40:08,099

describes a device that's bell-shaped

824

00:40:14,809 --> 00:40:11,999

it's about 12 to 15 feet high if I

825

00:40:16,370 --> 00:40:14,819

remember it's about 12

826

00:40:19,489 --> 00:40:16,380

you know maybe 12 feet wide it's

827

00:40:21,499 --> 00:40:19,499

bell-shaped it's either it's described

828

00:40:25,459 --> 00:40:21,509

in terms that that make you think it's

829

00:40:26,349 --> 00:40:25,469

either a a ceramic cover or a ceramic

830

00:40:29,479 --> 00:40:26,359

metal

831

00:40:32,509 --> 00:40:29,489

it's cryogenically cooled either with

832

00:40:35,569 --> 00:40:32,519

liquid helium or liquid oxygen something

833

00:40:37,519 --> 00:40:35,579

that's going to supercool it and on the

834

00:40:40,699 --> 00:40:37,529

inside of this device there are two

835

00:40:43,939 --> 00:40:40,709

rotating cylinders Boran Berg describes

836

00:40:46,609 --> 00:40:43,949

that they poured into these counter

837

00:40:48,010 --> 00:40:46,619

rotating cylinders a substance called

838

00:40:52,030 --> 00:40:48,020

serum five

839

00:40:56,290 --> 00:40:52,040

five H was described in the affidavit

840

00:40:59,590 --> 00:40:56,300

supposedly as a very heavy dense viscous

841

00:41:03,490 --> 00:40:59,600

gooey middle oh that was a deep maroon

842

00:41:07,060 --> 00:41:03,500

or cherry red color there were enough

843

00:41:10,060 --> 00:41:07,070

details that you could sit down and kind

844

00:41:11,980 --> 00:41:10,070

of reverse engineer the thinking the

845

00:41:16,060 --> 00:41:11,990

physics thinking that the Germans may

846

00:41:17,920 --> 00:41:16,070

have been employing in this device we

847

00:41:20,680 --> 00:41:17,930

also have heard from a variety of

848

00:41:23,320 --> 00:41:20,690

insiders and from the papers and the

849

00:41:25,270 --> 00:41:23,330

data that came out that the Germans also

850

00:41:27,940 --> 00:41:25,280

had developed an interesting system

851  
00:41:31,960 --> 00:41:27,950  
based on the so called red mercury in

852  
00:41:34,780 --> 00:41:31,970  
which the rotation of mercury in a

853  
00:41:37,090 --> 00:41:34,790  
highly charged electrostatic tube leads

854  
00:41:40,900 --> 00:41:37,100  
to an anti gravitational field as well

855  
00:41:42,820 --> 00:41:40,910  
so this serum 525 is put into these

856  
00:41:45,190 --> 00:41:42,830  
counter rotating cylinders and they're

857  
00:41:47,740 --> 00:41:45,200  
spun up you know to high-speed in

858  
00:41:49,360 --> 00:41:47,750  
opposite directions and what this is

859  
00:41:50,800 --> 00:41:49,370  
going to do just explain a bit of the

860  
00:41:55,030 --> 00:41:50,810  
physics for a moment it's going to

861  
00:41:57,610 --> 00:41:55,040  
cohere the rotation of the atoms and

862  
00:42:00,070 --> 00:41:57,620  
molecules of this substance on one plane

863  
00:42:02,080 --> 00:42:00,080

okay so there in other words it's going

864

00:42:04,360 --> 00:42:02,090

to align the axis of rotation of these

865

00:42:07,090 --> 00:42:04,370

things sporrenberg also describes it it

866

00:42:09,070 --> 00:42:07,100

makes a buzzing sound or a hissing sound

867

00:42:11,020 --> 00:42:09,080

so the germans actually nicknamed

868

00:42:13,390 --> 00:42:11,030

apparently this nickname this device

869

00:42:15,550 --> 00:42:13,400

indeed their bee niche dog The Beehive

870

00:42:19,270 --> 00:42:15,560

because it's buzzing it's making these

871

00:42:21,370 --> 00:42:19,280

buzz I actually have a clip of the the

872

00:42:24,490 --> 00:42:21,380

buzzing sound that he's referring to

873

00:42:27,010 --> 00:42:24,500

yeah there it is the it's almost sounds

874

00:42:30,670 --> 00:42:27,020

like Alex Jones a little bit yeah a

875

00:42:34,530 --> 00:42:30,680

little bit there we go that's what I

876  
00:42:37,060 --> 00:42:34,540  
have on the secret space program for

877  
00:42:39,880 --> 00:42:37,070  
this episode when I talk I'm sure I will

878  
00:42:43,000 --> 00:42:39,890  
have more clips as I continue to trudge

879  
00:42:44,800 --> 00:42:43,010  
on and full clips from that program

880  
00:42:47,200 --> 00:42:44,810  
fascinating stuff I absolutely love

881  
00:42:50,470 --> 00:42:47,210  
talking about this stuff it's a piece of

882  
00:42:52,720 --> 00:42:50,480  
history that is not only talked about on

883  
00:42:55,060 --> 00:42:52,730  
mainstream news or even in schools or

884  
00:42:57,040 --> 00:42:55,070  
universities or kindergarten or

885  
00:43:00,100 --> 00:42:57,050  
preschool they're not talking about this

886  
00:43:01,690 --> 00:43:00,110  
stuff that like the way we do 6 1 4 3 D

887  
00:43:03,069 --> 00:43:01,700  
now 109

888  
00:43:06,670 --> 00:43:03,079

I'll be mostly happy to take some phone

889

00:43:10,359 --> 00:43:06,680

calls well I maybe I'll talk about a

890

00:43:14,069 --> 00:43:10,369

little bit about the dark DARPA projects

891

00:43:17,079 --> 00:43:14,079

that that some nice user of reddit

892

00:43:19,870 --> 00:43:17,089

decided to take his time and put

893

00:43:21,549 --> 00:43:19,880

together a little list about the public

894

00:43:24,700 --> 00:43:21,559

projects being funded over there and

895

00:43:26,109 --> 00:43:24,710

researched and I thought it might be fun

896

00:43:28,299 --> 00:43:26,119

to kind of read it up with you guys I'll

897

00:43:31,270 --> 00:43:28,309

read it over a little bit it might not

898

00:43:33,940 --> 00:43:31,280

be fun listen to me read but I'd be fun

899

00:43:37,660 --> 00:43:33,950

to kind of do this way while we wind

900

00:43:39,910 --> 00:43:37,670

down the show and I have it up here on

901  
00:43:42,579 --> 00:43:39,920  
screen I comb through DARPA as public

902  
00:43:45,700 --> 00:43:42,589  
projects so you don't have to and do the

903  
00:43:49,290 --> 00:43:45,710  
same thing or Donald Jones we do public

904  
00:43:53,700 --> 00:43:49,300  
services around here so

905  
00:43:58,040 --> 00:43:53,710  
the first uh Deborah project is

906  
00:44:00,890 --> 00:43:58,050  
100g program the 100 G program is

907  
00:44:03,690 --> 00:44:00,900  
exploring high order modulation and

908  
00:44:06,510 --> 00:44:03,700  
spatial multiplexing techniques to

909  
00:44:09,329 --> 00:44:06,520  
achieve the hundred gigabyte per second

910  
00:44:11,370 --> 00:44:09,339  
capacity at ranges of 200 kilometer

911  
00:44:13,770 --> 00:44:11,380  
air-to-air and 100 kilometer

912  
00:44:17,570 --> 00:44:13,780  
air-to-ground from high-altitude aerial

913  
00:44:19,470 --> 00:44:17,580

platforms super high-speed Wi-Fi

914

00:44:22,470 --> 00:44:19,480

[\h\_\_\h] that's what we're talking

915

00:44:25,339 --> 00:44:22,480

about where's my Google where's my

916

00:44:29,579 --> 00:44:25,349

internet sucker I'm paying for this [\h\_\_\h]

917

00:44:33,380 --> 00:44:29,589

give it to me but you got a that's a lot

918

00:44:36,109 --> 00:44:33,390

of radio waves flying through the air

919

00:44:41,640 --> 00:44:36,119

and I meant it's not healthy for you

920

00:44:48,300 --> 00:44:41,650

daddy spaghetti how you doing buddy I'm

921

00:44:49,890 --> 00:44:48,310

doing pretty good on your mind real and

922

00:44:52,230 --> 00:44:49,900

channeling and all that [\h\_\_\h] that's

923

00:44:54,950 --> 00:44:52,240

always interesting me uh how we got a

924

00:44:57,630 --> 00:44:54,960

lot of Technology through a means of

925

00:44:59,640 --> 00:44:57,640

channeling and the beams on the other

926  
00:45:02,010 --> 00:44:59,650  
side either say they're aliens or demons

927  
00:45:04,620 --> 00:45:02,020  
or angels you can take it back to John

928  
00:45:06,030 --> 00:45:04,630  
Dee you could take it back to a lot of

929  
00:45:09,420 --> 00:45:06,040  
places I would actually wonder how much

930  
00:45:11,250 --> 00:45:09,430  
of human technology has been unearthed

931  
00:45:11,579 --> 00:45:11,260  
through channeling and where it's coming

932  
00:45:15,630 --> 00:45:11,589  
from

933  
00:45:17,310 --> 00:45:15,640  
yeah there when you get into some of the

934  
00:45:19,560 --> 00:45:17,320  
secret space program and even some of

935  
00:45:22,770 --> 00:45:19,570  
the rocket scientists and people on the

936  
00:45:25,200 --> 00:45:22,780  
bleeding edge of science they skew into

937  
00:45:27,900 --> 00:45:25,210  
occult practices sometimes I don't want

938  
00:45:30,960 --> 00:45:27,910

to call like Chandler's or psychics all

939

00:45:33,359 --> 00:45:30,970

occult practices or a call they they're

940

00:45:35,510 --> 00:45:33,369

drawn to you like ritual sacrifice but

941

00:45:41,990 --> 00:45:35,520

there are

942

00:45:44,240 --> 00:45:42,000

documents to show that hey did some of

943

00:45:47,060 --> 00:45:44,250

these guys that are into the to the call

944

00:45:49,670 --> 00:45:47,070

practices they do have crossover into

945

00:45:51,950 --> 00:45:49,680

either NASA's program of rocketry or

946

00:45:55,430 --> 00:45:51,960

German I think it might happen more

947

00:45:56,660 --> 00:45:55,440

often than not there's a there was a guy

948

00:45:59,180 --> 00:45:56,670

I'm trying to bring up his right now a

949

00:46:01,220 --> 00:45:59,190

name right now where he was a leading

950

00:46:06,140 --> 00:46:01,230

researcher in rocket development for for

951  
00:46:08,420 --> 00:46:06,150  
NASA and he was he was given quite a lot

952  
00:46:11,720 --> 00:46:08,430  
of leeway within NASA and in the

953  
00:46:13,760 --> 00:46:11,730  
Pentagon to develop rockets for for it

954  
00:46:16,340 --> 00:46:13,770  
space exploration and for military

955  
00:46:18,320 --> 00:46:16,350  
purposes but he started getting too

956  
00:46:24,980 --> 00:46:18,330  
nicely nicely with the Aleister Crowley

957  
00:46:28,760 --> 00:46:24,990  
crowd and Jack might be yeah Jack part

958  
00:46:31,220 --> 00:46:28,770  
yeah that might be a yeah yeah I got was

959  
00:46:32,200 --> 00:46:31,230  
a total weird but yeah idea what you're

960  
00:46:34,940 --> 00:46:32,210  
talking about he was the one who

961  
00:46:39,890 --> 00:46:34,950  
solidified rocket fuel by adding asphalt

962  
00:46:40,940 --> 00:46:39,900  
to it yeah and that that that guy I'm

963  
00:46:44,060 --> 00:46:40,950

gonna see if I can bring up his name

964

00:46:46,460 --> 00:46:44,070

well why after I talk I'm gonna but once

965

00:46:49,850 --> 00:46:46,470

they've I guess the higher-ups found out

966

00:46:53,090 --> 00:46:49,860

that he was in this or leaning to

967

00:46:55,010 --> 00:46:53,100

somebody's that call practices and said

968

00:46:56,510 --> 00:46:55,020

hey you're out buddy you are out you're

969

00:47:00,410 --> 00:46:56,520

not working for us and then he tried to

970

00:47:03,470 --> 00:47:00,420

go sell his services to the Israelis and

971

00:47:07,150 --> 00:47:03,480

they didn't want that to happen so they

972

00:47:11,150 --> 00:47:07,160

tried to block his his travel and then

973

00:47:12,980 --> 00:47:11,160

mysteriously he died and an explosion in

974

00:47:15,400 --> 00:47:12,990

his garage

975

00:47:18,440 --> 00:47:15,410

[Music]

976  
00:47:19,490 --> 00:47:18,450  
you know the channeling stuff and you

977  
00:47:21,290 --> 00:47:19,500  
say you don't want to call them occult

978  
00:47:23,180 --> 00:47:21,300  
but by definition and there's a cult

979  
00:47:27,520 --> 00:47:23,190  
because it's hidden yes what a call

980  
00:47:35,330 --> 00:47:32,930  
yeah it's just the the term occult has

981  
00:47:37,550 --> 00:47:35,340  
some negative connotation so I and I

982  
00:47:39,350 --> 00:47:37,560  
don't know enough about the definition

983  
00:47:42,440 --> 00:47:39,360  
or what is considered a cult what isn't

984  
00:47:45,080 --> 00:47:42,450  
so I try to dance around I just don't

985  
00:47:47,300 --> 00:47:45,090  
know enough about it well I'll say it in

986  
00:47:48,750 --> 00:47:47,310  
a way not to be negative but like it is

987  
00:47:50,910 --> 00:47:48,760  
kind of a call because it's a

988  
00:47:53,160 --> 00:47:50,920

from what you would accept into general

989

00:47:56,100 --> 00:47:53,170

society and rulers have been using

990

00:47:59,130 --> 00:47:56,110

occult practitioners for years even like

991

00:48:01,020 --> 00:47:59,140

some of the ideas for clocks came from

992

00:48:04,880 --> 00:48:01,030

the occult because it was court

993

00:48:07,410 --> 00:48:04,890

astrologers in China developing a a

994

00:48:10,620 --> 00:48:07,420

timing system based on the phases of the

995

00:48:13,500 --> 00:48:10,630

Moon so that the King can have sex with

996

00:48:16,110 --> 00:48:13,510

his concubines to have children yes so

997

00:48:17,910 --> 00:48:16,120

like it's just weird how channeling is

998

00:48:20,640 --> 00:48:17,920

such a part of our technology and

999

00:48:22,170 --> 00:48:20,650

science has to dance this edge of

1000

00:48:25,050 --> 00:48:22,180

staying away from what they call the

1001

00:48:27,450 --> 00:48:25,060

paranormal to keep itself validated but

1002

00:48:30,030 --> 00:48:27,460

a lot of the proofs in science comes

1003

00:48:32,310 --> 00:48:30,040

from paranormal practices of scenes and

1004

00:48:34,830 --> 00:48:32,320

it's just always been so weird so

1005

00:48:36,870 --> 00:48:34,840

fascinating and just a crazy topic to me

1006

00:48:41,220 --> 00:48:36,880

you are absolutely right the guy's name

1007

00:48:45,300 --> 00:48:41,230

was Jack Parsons and I have up on screen

1008

00:48:48,510 --> 00:48:45,310

right now from just a big article about

1009

00:48:50,250 --> 00:48:48,520

who he is and his links to Aleister

1010

00:48:53,550 --> 00:48:50,260

Crowley and all that kind of stuff but

1011

00:48:55,860 --> 00:48:53,560

to go back to science and the paranormal

1012

00:48:57,690 --> 00:48:55,870

and occultism I believe much like

1013

00:48:59,970 --> 00:48:57,700

everything else there's a couple

1014

00:49:01,800 --> 00:48:59,980

different tiers of knowledge we have the

1015

00:49:03,210 --> 00:49:01,810

general knowledge for everyone that's

1016

00:49:05,400 --> 00:49:03,220

where your everything you learn in

1017

00:49:07,890 --> 00:49:05,410

pre-school high school and university

1018

00:49:09,570 --> 00:49:07,900

yes that's that's the knowledge for

1019

00:49:11,640 --> 00:49:09,580

everyone and then you have a different

1020

00:49:14,040 --> 00:49:11,650

tier of knowledge and they also have

1021

00:49:16,650 --> 00:49:14,050

scientists up there that would act that

1022

00:49:21,390 --> 00:49:16,660

will in are actively investigating this

1023

00:49:23,760 --> 00:49:21,400

paranormal stuff UFOs and in a psychic

1024

00:49:25,860 --> 00:49:23,770

phenomenon well at the same time are the

1025

00:49:30,870 --> 00:49:25,870

common knowledge dismisses it at all as

1026

00:49:33,780 --> 00:49:30,880

as hogwash and the fantasy but at a

1027

00:49:36,540 --> 00:49:33,790

different level obviously they're they

1028

00:49:38,670 --> 00:49:36,550

take it very seriously but they can't

1029

00:49:40,800 --> 00:49:38,680

let us know about that same with UFO

1030

00:49:43,770 --> 00:49:40,810

phenomenon same with same with I would

1031

00:49:46,920 --> 00:49:43,780

say the afterlife paranormal ghosts and

1032

00:49:48,600 --> 00:49:46,930

some of these these portals and missing

1033

00:49:50,490 --> 00:49:48,610

411 they probably know a lot more about

1034

00:49:51,510 --> 00:49:50,500

what's going on missing for 11 and then

1035

00:49:52,980 --> 00:49:51,520

they're ever going to tell us they're

1036

00:49:55,230 --> 00:49:52,990

gonna say it's wolves or bears or people

1037

00:49:59,430 --> 00:49:55,240

just disappear sometimes oh [h\_\_\h] they

1038

00:50:01,809 --> 00:49:59,440

know more they guys they got too big of

1039

00:50:04,839 --> 00:50:01,819

a dog in the fight enough

1040

00:50:07,599 --> 00:50:04,849

small dog howl back here is continually

1041

00:50:11,289 --> 00:50:07,609

barking by the way can you believe the

1042

00:50:12,749 --> 00:50:11,299

what I have a small dog barking behind

1043

00:50:16,120 --> 00:50:12,759

me I don't know if you can hear it

1044

00:50:16,719 --> 00:50:16,130

actually I can't take it up good thank

1045

00:50:19,420 --> 00:50:16,729

God

1046

00:50:20,949 --> 00:50:19,430

oh [h\_\_h] I just thought of something no

1047

00:50:22,689 --> 00:50:20,959

no no this might be this might be a

1048

00:50:24,969 --> 00:50:22,699

little bit off-topic my foretold a bit

1049

00:50:27,400 --> 00:50:24,979

but no for all the anal probing if it's

1050

00:50:32,920 --> 00:50:27,410

not the UFOs the anal probing makes

1051  
00:50:35,049 --> 00:50:32,930  
sense if it's not see UFOs why what do

1052  
00:50:37,090 --> 00:50:35,059  
you mean the anal probing would make

1053  
00:50:40,740 --> 00:50:37,100  
sense

1054  
00:50:44,170 --> 00:50:40,750  
my mrs. German Germans love but stuff oh

1055  
00:50:48,610 --> 00:50:44,180  
yeah they are the masters of ship horn

1056  
00:50:52,060 --> 00:50:48,620  
and piss porn yeah they do yeah they do

1057  
00:50:54,730 --> 00:50:52,070  
it could be just to humiliate people to

1058  
00:50:57,070 --> 00:50:54,740  
make them feel real really degraded and

1059  
00:50:59,590 --> 00:50:57,080  
traumatize them and yes are you like a

1060  
00:51:00,940 --> 00:50:59,600  
part of MKULTRA or some [h\_\_\h] yeah very

1061  
00:51:02,710 --> 00:51:00,950  
well could be who knows what they're

1062  
00:51:05,500 --> 00:51:02,720  
doing and who knows when

1063  
00:51:08,290 --> 00:51:05,510

who knows when in when all these

1064

00:51:11,200 --> 00:51:08,300

abductions occur and what program is it

1065

00:51:13,450 --> 00:51:11,210

is it the the standard UFO or is it a

1066

00:51:15,370 --> 00:51:13,460

military run abduction program and then

1067

00:51:18,760 --> 00:51:15,380

what's faction we're talking about the

1068

00:51:21,370 --> 00:51:18,770

the majestic 12 faction or the the the

1069

00:51:24,700 --> 00:51:21,380

better good fax in the comm 12 run by

1070

00:51:27,850 --> 00:51:24,710

the run by the Navy it goes [h\_\_h] deep

1071

00:51:29,620 --> 00:51:27,860

into this [h\_\_h] yeah I get so crazy you

1072

00:51:32,140 --> 00:51:29,630

get lost in the [h\_\_h] paper where I do

1073

00:51:33,820 --> 00:51:32,150

write to find out what anyways man

1074

00:51:37,450 --> 00:51:33,830

that's about all I have Mike I mean

1075

00:51:39,910 --> 00:51:37,460

interesting topic as always and y'all

1076  
00:51:42,190 --> 00:51:39,920  
doing a Saturday oh yeah we're gonna be

1077  
00:51:43,870 --> 00:51:42,200  
doing a Wednesday show and we'll be

1078  
00:51:45,550 --> 00:51:43,880  
doing a Saturday so yeah absolutely

1079  
00:51:48,340 --> 00:51:45,560  
we're working on stuff for the Wednesday

1080  
00:51:50,500 --> 00:51:48,350  
show I'm sure uh we're gonna be talking

1081  
00:51:54,040 --> 00:51:50,510  
about the Vegas shooting coming up again

1082  
00:51:58,540 --> 00:51:54,050  
I think is it finally finally coming to

1083  
00:52:00,040 --> 00:51:58,550  
light or no no no the stonewalling again

1084  
00:52:02,800 --> 00:52:00,050  
we'll get into it

1085  
00:52:04,390 --> 00:52:02,810  
and the courts are like the courts are

1086  
00:52:07,450 --> 00:52:04,400  
fine it's the Police Department of stone

1087  
00:52:08,530 --> 00:52:07,460  
walls we'll get into that fantastic

1088  
00:52:11,280 --> 00:52:08,540

all right Thank You Danny have a good

1089

00:52:15,130 --> 00:52:11,290

night all right

1090

00:52:15,140 --> 00:52:18,820

Oh

1091

00:52:23,350 --> 00:52:22,000

Teddy's always good caller all right

1092

00:52:25,930 --> 00:52:23,360

I'll leave the phone line open while I

1093

00:52:28,570 --> 00:52:25,940

read some more of these a DARPA programs

1094

00:52:32,380 --> 00:52:28,580

we talked about the the 100g program

1095

00:52:36,580 --> 00:52:32,390

talking about flying well super high

1096

00:52:40,660 --> 00:52:36,590

five Wi-Fi data transmission through the

1097

00:52:43,510 --> 00:52:40,670

air and then number two is uh access the

1098

00:52:47,310 --> 00:52:43,520

ultimate goal for dubbars DARPA Dobber

1099

00:52:50,230 --> 00:52:47,320

DARPA is accelerated computational

1100

00:52:52,690 --> 00:52:50,240

computation for efficient scientific

1101  
00:52:57,340 --> 00:52:52,700  
simulation is to demonstrate new

1102  
00:52:59,170 --> 00:52:57,350  
specialized benchtop technologies that

1103  
00:53:02,200 --> 00:52:59,180  
can solve large problems in complex

1104  
00:53:03,820 --> 00:53:02,210  
physical systems on the our time scale

1105  
00:53:05,050 --> 00:53:03,830  
compared to existing methods that

1106  
00:53:07,240 --> 00:53:05,060  
require full cluster scale

1107  
00:53:09,910 --> 00:53:07,250  
supercomputing resources to that can

1108  
00:53:11,500 --> 00:53:09,920  
take weeks or two months so I'm assuming

1109  
00:53:14,570 --> 00:53:11,510  
they're talking about some sort of

1110  
00:53:16,130 --> 00:53:14,580  
quantum computing right there

1111  
00:53:18,860 --> 00:53:16,140  
because you just throw processors and

1112  
00:53:20,240 --> 00:53:18,870  
rack servers and whole mainframes and

1113  
00:53:22,610 --> 00:53:20,250

rooms and computers that something's

1114

00:53:24,080 --> 00:53:22,620

still gonna take a long time to compete

1115

00:53:29,360 --> 00:53:24,090

that so how are they gonna how are they

1116

00:53:32,750 --> 00:53:29,370

gonna really go around that I would say

1117

00:53:36,590 --> 00:53:32,760

quantum computing number three active

1118

00:53:39,410 --> 00:53:36,600

social engineering defense the active

1119

00:53:41,810 --> 00:53:39,420

social engineering defense the ased

1120

00:53:43,670 --> 00:53:41,820

program aims to develop the core

1121

00:53:47,150 --> 00:53:43,680

technology to enable the capability to

1122

00:53:49,460 --> 00:53:47,160

automatically elicit information from a

1123

00:53:52,340 --> 00:53:49,470

malicious adversary in order to identify

1124

00:53:55,300 --> 00:53:52,350

disrupt and investigate social

1125

00:53:57,860 --> 00:53:55,310

engineering attacks if successful the

1126

00:54:00,380 --> 00:53:57,870

ased technology will do this by

1127

00:54:03,190 --> 00:54:00,390

mediating mediating communications

1128

00:54:05,510 --> 00:54:03,200

between users and potential attackers

1129

00:54:07,670 --> 00:54:05,520

actively detecting attacks and

1130

00:54:10,400 --> 00:54:07,680

coordinating investigations to discover

1131

00:54:12,440 --> 00:54:10,410

the identity of the attacker so there so

1132

00:54:15,140 --> 00:54:12,450

DARPA is trying to develop a technology

1133

00:54:19,490 --> 00:54:15,150

that inserts itself in the middle of a

1134

00:54:21,950 --> 00:54:19,500

communication in the determine if the

1135

00:54:27,050 --> 00:54:21,960

social interaction is malicious or not

1136

00:54:31,460 --> 00:54:27,060

and then responds if that social

1137

00:54:33,590 --> 00:54:31,470

communication is determined to be bad or

1138

00:54:36,650 --> 00:54:33,600

influential in a way then how is it this

1139

00:54:39,710 --> 00:54:36,660

gonna create its own like AI propaganda

1140

00:54:43,310 --> 00:54:39,720

to combat that this let's call what is

1141

00:54:45,080 --> 00:54:43,320

aggression BOTS that's fascinating and

1142

00:54:45,560 --> 00:54:45,090

they probably already have this going on

1143

00:54:48,020 --> 00:54:45,570

already

1144

00:54:50,060 --> 00:54:48,030

like on reddit and other forums we might

1145

00:54:51,770 --> 00:54:50,070

have some DARPA [h\_\_h] BOTS in the

1146

00:54:54,110 --> 00:54:51,780

slack chat I don't know I'm taking a

1147

00:54:57,420 --> 00:54:54,120

look at some of you guys and might be

1148

00:55:00,560 --> 00:54:57,430

happening might be all afternoon

1149

00:55:03,390 --> 00:55:00,570

number four advanced plant technology

1150

00:55:06,120 --> 00:55:03,400

what are these like redwoods with

1151  
00:55:10,080 --> 00:55:06,130  
iPhones when is this a shrub with a

1152  
00:55:12,060 --> 00:55:10,090  
blackberry the advanced plant

1153  
00:55:15,720 --> 00:55:12,070  
technologies program seeks to develop

1154  
00:55:17,880 --> 00:55:15,730  
plant capable plants capable of serving

1155  
00:55:19,980 --> 00:55:17,890  
as next generation persistent

1156  
00:55:22,950 --> 00:55:19,990  
ground-based sensor technologies to

1157  
00:55:24,690 --> 00:55:22,960  
protect deployed troops and in the

1158  
00:55:27,080 --> 00:55:24,700  
homeland by detecting and reporting on

1159  
00:55:30,750 --> 00:55:27,090  
chemical biological radiological nuclear

1160  
00:55:33,780 --> 00:55:30,760  
and explosive threats such biological

1161  
00:55:35,730 --> 00:55:33,790  
sensors would be effectively energy

1162  
00:55:38,550 --> 00:55:35,740  
independent increasing their potential

1163  
00:55:41,220 --> 00:55:38,560

for wide distribution while reducing

1164

00:55:42,860 --> 00:55:41,230

risks associated with deployment and

1165

00:55:45,990 --> 00:55:42,870

maintenance of traditional sensors so

1166

00:55:50,220 --> 00:55:46,000

their tractor trying to use weeds and

1167

00:55:53,880 --> 00:55:50,230

shrubs and bushes to detect threats to

1168

00:55:56,010 --> 00:55:53,890

the environment is this like the in

1169

00:55:57,980 --> 00:55:56,020

night Shyamalan movie where the plants

1170

00:56:00,540 --> 00:55:57,990

come alive and start attacking us

1171

00:56:03,210 --> 00:56:00,550

and then if you if you have plants that

1172

00:56:05,850 --> 00:56:03,220

can detect threats why can't you have my

1173

00:56:08,600 --> 00:56:05,860

my bush or my house plant detecting

1174

00:56:10,430 --> 00:56:08,610

social threats

1175

00:56:11,930 --> 00:56:10,440

how are they get a wire these plants

1176

00:56:14,370 --> 00:56:11,940

together to communicate back to the home

1177

00:56:18,180 --> 00:56:14,380

plant

1178

00:56:20,190 --> 00:56:18,190

goofy stuff

1179

00:56:22,530 --> 00:56:20,200

but you got to imagine that it's

1180

00:56:25,380 --> 00:56:22,540

happening already but they're talking

1181

00:56:27,900 --> 00:56:25,390

about this publicly I'm assuming behind

1182

00:56:31,620 --> 00:56:27,910

the scenes we got plans with shotguns

1183

00:56:34,800 --> 00:56:31,630

and body armor ready to be deployed and

1184

00:56:37,170 --> 00:56:34,810

spying you your house plan I'm starting

1185

00:56:40,110 --> 00:56:37,180

to like Alex Jones my house plan spying

1186

00:56:45,380 --> 00:56:40,120

on me my house plan took my super male

1187

00:56:51,900 --> 00:56:48,540

all right Elvis skip down here

1188

00:56:54,930 --> 00:56:51,910

number seven is nano-scale products the

1189

00:56:57,380 --> 00:56:54,940

a2p program was conceived to deliver

1190

00:57:00,210 --> 00:56:57,390

scalable technologies for assembly of

1191

00:57:01,740 --> 00:57:00,220

nanometer to micron scale components

1192

00:57:03,329 --> 00:57:01,750

which frequently possess unique

1193

00:57:07,349 --> 00:57:03,339

characteristics due to their small size

1194

00:57:10,099 --> 00:57:07,359

in into larger human scaled systems the

1195

00:57:12,300 --> 00:57:10,109

goal of the a2p program is to achieve

1196

00:57:14,940 --> 00:57:12,310

never-before-seen functionality by using

1197

00:57:17,240 --> 00:57:14,950

scalable processes to us to assemble

1198

00:57:20,550 --> 00:57:17,250

full fully three-dimensional to put

1199

00:57:24,140 --> 00:57:20,560

devices that include nanometer to micron

1200

00:57:26,690 --> 00:57:24,150

scale components what is this is like

1201

00:57:29,359 --> 00:57:26,700

transformer stuff

1202

00:57:31,339 --> 00:57:29,369

this is bizarre stuff I don't know how

1203

00:57:35,200 --> 00:57:31,349

much money they're spending on each one

1204

00:57:39,040 --> 00:57:37,210

I can put my car in my pocket I can go

1205

00:57:41,700 --> 00:57:39,050

to work with my car in my pocket I don't

1206

00:57:48,730 --> 00:57:41,710

got to pay for parking that'd be great

1207

00:57:51,160 --> 00:57:48,740

fuckin'-a alright number ten bricks the

1208

00:57:54,570 --> 00:57:51,170

biological robustness in complex

1209

00:57:58,600 --> 00:57:54,580

settings program aims to transform

1210

00:58:02,020 --> 00:57:58,610

engineered micro microbial bio systems

1211

00:58:04,140 --> 00:58:02,030

into reliable cost-effective strategic

1212

00:58:06,700 --> 00:58:04,150

resources for the Department of Defense

1213

00:58:08,950 --> 00:58:06,710

enabling future applications in the area

1214

00:58:11,980 --> 00:58:08,960

of intelligence readiness enforced

1215

00:58:14,050 --> 00:58:11,990

protection examples include the

1216

00:58:16,870 --> 00:58:14,060

identification of you geographical

1217

00:58:18,460 --> 00:58:16,880

province of objects protection of

1218

00:58:21,700 --> 00:58:18,470

critical systems and infrastructure

1219

00:58:22,480 --> 00:58:21,710

against corrosion biofouling what is

1220

00:58:24,250 --> 00:58:22,490

biofouling

1221

00:58:27,760 --> 00:58:24,260

I'm gonna have bio foul much later after

1222

00:58:31,870 --> 00:58:27,770

eat some cheese constantly biofouling at

1223

00:58:34,810 --> 00:58:31,880

work protecting against corrosion bio

1224

00:58:38,140 --> 00:58:34,820

fouling in other damage sensing of

1225

00:58:40,870 --> 00:58:38,150

hazardous compounds and efficient

1226

00:58:44,110 --> 00:58:40,880

on-demand bio production of novel

1227

00:58:46,900 --> 00:58:44,120

coating fuels and drugs that sounds like

1228

00:58:49,150 --> 00:58:46,910

Star Trek stuff except for the bio

1229

00:58:52,890 --> 00:58:49,160

fouling I don't think picard ever bio

1230

00:58:54,769 --> 00:58:52,900

fouled when he was on USS Enterprise

1231

00:59:04,840 --> 00:58:54,779

did you ever do that Picard did you ever

1232

00:59:04,850 --> 00:59:09,030

I thought you did I know that

1233

00:59:15,800 --> 00:59:12,930

and number 12 blue wolf unmanned

1234

00:59:18,390 --> 00:59:15,810

underwater vehicles have inherent

1235

00:59:20,910 --> 00:59:18,400

operational tactical advantages such as

1236

00:59:25,380 --> 00:59:20,920

stealth and surprise so what is blue

1237

00:59:28,320 --> 00:59:25,390

wolf the uuv size weight and dime are

1238

00:59:30,930 --> 00:59:28,330

constraints by the handling launch and

1239

00:59:35,190 --> 00:59:30,940

recovery systems of their host platforms

1240

00:59:36,660 --> 00:59:35,200

however and you what is this blue what

1241

00:59:41,130 --> 00:59:36,670

program seeks to develop and demonstrate

1242

00:59:44,280 --> 00:59:41,140

and integrated uu v capable of operating

1243

00:59:47,010 --> 00:59:44,290

at speed range combinations previously

1244

00:59:49,500 --> 00:59:47,020

unachieved on current representative

1245

00:59:51,840 --> 00:59:49,510

platforms while retraining traditional

1246

00:59:55,410 --> 00:59:51,850

value and weight fractions for payloads

1247

00:59:59,190 --> 00:59:55,420

and electronics oh my god super

1248

01:00:01,380 --> 00:59:59,200

underwater vehicles you Essos what

1249
