

MISSING 411

Toddler missing for 3 days found
alive on 50-foot cliffside
near strip mine

1
00:00:00,290 --> 00:00:05,559
[Applause]

2
00:00:14,390 --> 00:00:11,540
and I do have this from the newsfeed in

3
00:00:16,010 --> 00:00:14,400
the in the slack channel thank you for

4
00:00:16,640 --> 00:00:16,020
whoever submitted I think it was maybe

5
00:00:21,650 --> 00:00:16,650
Manny

6
00:00:24,109 --> 00:00:21,660
sent this in and this is a Kentucky

7
00:00:28,400 --> 00:00:24,119
toddler missing since Sunday found alive

8
00:00:30,099 --> 00:00:28,410
and remarkably good condition so I'm

9
00:00:32,930 --> 00:00:30,109
gonna break this is kind of a missing

10
00:00:35,000 --> 00:00:32,940
411 asked story and I thought I had

11
00:00:36,350 --> 00:00:35,010
covered this but it turns out this was a

12
00:00:38,270 --> 00:00:36,360
different story

13
00:00:39,229 --> 00:00:38,280

it just had very similar kind of things

14

00:00:42,770 --> 00:00:39,239

like a few months ago we talked about

15

00:00:46,100 --> 00:00:42,780

this kid who went missing and said that

16

00:00:48,260 --> 00:00:46,110

a bear helped him survive that a bear

17

00:00:51,110 --> 00:00:48,270

took him and kept him safe for a few

18

00:00:53,900 --> 00:00:51,120

days this that's what we read before

19

00:00:56,510 --> 00:00:53,910

this is a different kid and so I'll play

20

00:00:58,130 --> 00:00:56,520

this news story and we'll see if there's

21

00:00:59,959 --> 00:00:58,140

any similarities between this maybe

22

00:01:01,430 --> 00:00:59,969

maybe a bear helpless Kentucky where a

23

00:01:03,349 --> 00:01:01,440

toddler went missing Sunday night was

24

00:01:04,160 --> 00:01:03,359

found alive a little dehydrated but in

25

00:01:06,230 --> 00:01:04,170

good condition

26

00:01:07,520 --> 00:01:06,240

ABC's TJ Holmes is on the scene in

27

00:01:10,700 --> 00:01:07,530

Kentucky with the story good morning TJ

28

00:01:12,440 --> 00:01:10,710

J good morning to you George search

29

00:01:15,260 --> 00:01:12,450

teams that were out yesterday said they

30

00:01:17,179 --> 00:01:15,270

had switched their mindset from a rescue

31

00:01:19,160 --> 00:01:17,189

mission to a recovery mission they

32

00:01:21,649 --> 00:01:19,170

simply didn't think or have high hope

33

00:01:23,390 --> 00:01:21,659

that a 22 month old could survive 40

34

00:01:25,280 --> 00:01:23,400

degree nights the tough and dangerous

35

00:01:27,770 --> 00:01:25,290

terrain the conditions for all those

36

00:01:30,950 --> 00:01:27,780

days but just they were out thinking

37

00:01:32,899 --> 00:01:30,960

that maybe they might recover a body two

38

00:01:34,700 --> 00:01:32,909

rescuers say they looked up saw a little

39

00:01:36,920 --> 00:01:34,710

blonde head sticking out and blue eyes

40

00:01:39,830 --> 00:01:36,930

looking right back at them little

41

00:01:42,410 --> 00:01:39,840

Kenneth was ready to come home praise

42

00:01:44,450 --> 00:01:42,420

the Lord he brought him this morning 22

43

00:01:47,149 --> 00:01:44,460

month old Kenneth Howard is safe after

44

00:01:49,280 --> 00:01:47,159

an excruciating four days of searching

45

00:01:51,350 --> 00:01:49,290

on horseback with dogs

46

00:01:53,180 --> 00:01:51,360

drones choppers

47

00:01:56,600 --> 00:01:53,190

all combing the terrain near his

48

00:01:58,910 --> 00:01:56,610

family's home in Eastern Kentucky where

49

00:02:04,150 --> 00:01:58,920

little Kenneth wandered off on Mother's

50

00:02:09,260 --> 00:02:06,410

Wednesday afternoon rescue crews were

51
00:02:10,370 --> 00:02:09,270
able to finally locate Kenneth calm and

52
00:02:12,800 --> 00:02:10,380
seemingly unafraid

53
00:02:15,290 --> 00:02:12,810
there he is draped in blankets by rescue

54
00:02:17,420 --> 00:02:15,300
workers after being found 1,700 feet

55
00:02:19,550 --> 00:02:17,430
from his home he had somehow made it to

56
00:02:22,760 --> 00:02:19,560
a 50-foot high cliff and endured

57
00:02:25,280 --> 00:02:22,770
overnight temperatures in the 40s when

58
00:02:27,740 --> 00:02:25,290
rescuers reached him he was cold wet and

59
00:02:29,570 --> 00:02:27,750
dehydrated but other than that in pretty

60
00:02:31,370 --> 00:02:29,580
good shape I'm gonna pause right there

61
00:02:34,460 --> 00:02:31,380
might play the rest of this so they

62
00:02:37,850 --> 00:02:34,470
found was 1,700 feet away 50 feet up in

63
00:02:47,060 --> 00:02:37,860

a 22 month old did this [h__h]

64

00:02:49,760 --> 00:02:47,070

bad ass rescuers say it was Kenneth's

65

00:02:53,030 --> 00:02:49,770

cries that led them his way amidst a

66

00:02:56,060 --> 00:02:53,040

dense forest we had a team effort in the

67

00:02:58,310 --> 00:02:56,070

last four days and we really did not

68

00:03:00,410 --> 00:02:58,320

give up although today was looking like

69

00:03:02,570 --> 00:03:00,420

we get exhausted all of our areas

70

00:03:05,660 --> 00:03:02,580

fortunately one of the teams who has an

71

00:03:07,850 --> 00:03:05,670

expert tracker with them heard a cry and

72

00:03:10,930 --> 00:03:07,860

with further investigation they found

73

00:03:13,310 --> 00:03:10,940

the 22 month old child

74

00:03:15,770 --> 00:03:13,320

well investigators tell me it was only a

75

00:03:17,690 --> 00:03:15,780

matter of eight minutes that Kenneth's

76

00:03:19,220 --> 00:03:17,700

dad kind of lost track of him and that

77

00:03:21,350 --> 00:03:19,230

gave him enough time to get a heads

78

00:03:23,330 --> 00:03:21,360

start and get out there in the

79

00:03:25,250 --> 00:03:23,340

wilderness again he's in really good

80

00:03:26,720 --> 00:03:25,260

condition physical condition but of

81

00:03:28,100 --> 00:03:26,730

course he's only 22 months old so he

82

00:03:30,440 --> 00:03:28,110

doesn't talk a whole lot but George

83

00:03:32,000 --> 00:03:30,450

clearly he's got a story to tell yeah

84

00:03:33,320 --> 00:03:32,010

and apparently can run as well okay TJ

85

00:03:34,670 --> 00:03:33,330

thanks very much let's bring in chief

86

00:03:35,660 --> 00:03:34,680

Michael Brown of the Preston Burke fire

87

00:03:37,850 --> 00:03:35,670

department got some of your other

88

00:03:40,460 --> 00:03:37,860

rescuers there as well congratulations

89

00:03:45,979 --> 00:03:40,470

chief take us to that moment when you

90

00:03:48,259 --> 00:03:45,989

heard that first cry well we were doing

91

00:03:49,789 --> 00:03:48,269

a grid search and had gone down in a

92

00:03:52,520 --> 00:03:49,799

valley that had some pretty rough

93

00:03:54,949 --> 00:03:52,530

terrain and low visibility because of

94

00:03:57,530 --> 00:03:54,959

the foliage that was there and when we

95

00:03:59,900 --> 00:03:57,540

got down there we were doing a par check

96

00:04:00,590 --> 00:03:59,910

so we were checking on each person on

97

00:04:02,810 --> 00:04:00,600

the team

98

00:04:05,210 --> 00:04:02,820

make sure everybody was okay and it was

99

00:04:07,400 --> 00:04:05,220

at that point that firefighter Michael

100

00:04:10,160 --> 00:04:07,410

Hussey had had spoke up and said that he

101
00:04:14,330 --> 00:04:10,170
had heard what he thought was a child's

102
00:04:17,990 --> 00:04:14,340
Christ so at that point we we all got

103
00:04:21,650 --> 00:04:18,000
quiet and started calling the child's

104
00:04:26,630 --> 00:04:21,660
name and different times sporadically he

105
00:04:30,320 --> 00:04:26,640
would he would give us a cry and we had

106
00:04:33,230 --> 00:04:30,330
to try to pinpoint his location and we

107
00:04:35,720 --> 00:04:33,240
got three or four cries from him and two

108
00:04:38,630 --> 00:04:35,730
of the guys made their way back up the

109
00:04:40,120 --> 00:04:38,640
hill and they were he was sitting there

110
00:04:42,350 --> 00:04:40,130
on the top and a little flat there

111
00:04:48,310 --> 00:04:42,360
sitting there on the top and in pretty

112
00:04:51,920 --> 00:04:48,320
good condition absolutely yes he was

113
00:04:53,270 --> 00:04:51,930

surprisingly a couple of us felt he was

114

00:04:54,980 --> 00:04:53,280

in better condition than what we were

115

00:04:57,620 --> 00:04:54,990

after we made it back up the hill up the

116

00:04:59,180 --> 00:04:57,630

hill and he was an airlift of hospital

117

00:05:01,130 --> 00:04:59,190

Hill I'm a pause right there so students

118

00:05:04,450 --> 00:05:01,140

I've been going through the article

119

00:05:06,620 --> 00:05:04,460

trying to see if the the searchers had

120

00:05:08,510 --> 00:05:06,630

already went through this area I mean

121

00:05:09,890 --> 00:05:08,520

it's 1,700 feet from the house from the

122

00:05:13,190 --> 00:05:09,900

house you'd imagine that within the

123

00:05:16,370 --> 00:05:13,200

first of 24 hours they probably may

124

00:05:19,970 --> 00:05:16,380

cover that depending on terrain and is

125

00:05:22,910 --> 00:05:19,980

there's no it's not mentioned in the

126

00:05:25,760 --> 00:05:22,920

article what what is kind of curious is

127

00:05:28,640 --> 00:05:25,770

that this happened in Eastern Kentucky

128

00:05:30,950 --> 00:05:28,650

and there's been a lot of paranormal

129

00:05:33,590 --> 00:05:30,960

stories from Eastern Kentucky now it's

130

00:05:35,150 --> 00:05:33,600

not bored and right up against West

131

00:05:37,220 --> 00:05:35,160

Virginia but it's it's right there is

132

00:05:40,430 --> 00:05:37,230

Eastern Kentucky there have been a lot

133

00:05:42,080 --> 00:05:40,440

of accounts from concerning UFOs cryptid

134

00:05:44,110 --> 00:05:42,090

sightings out there Kentucky Kentucky

135

00:05:46,820 --> 00:05:44,120

goblins you can calm whatever you want

136

00:05:48,760 --> 00:05:46,830

but a lot of stories coming from Eastern

137

00:05:54,480 --> 00:05:48,770

Kentucky

138

00:05:57,420 --> 00:05:54,490

and this is just I want to know like

139

00:05:59,910 --> 00:05:57,430

how what the mindset of the search and

140

00:06:01,410 --> 00:05:59,920

rescue team was when they finally heard

141

00:06:02,940 --> 00:06:01,420

this case like we know they probably we

142

00:06:05,220 --> 00:06:02,950

searched this area before they probably

143

00:06:08,040 --> 00:06:05,230

did and they didn't hear these cries

144

00:06:09,830 --> 00:06:08,050

beforehand 1,700 feet is not that far

145

00:06:11,000 --> 00:06:09,840

Joe

146

00:06:13,129 --> 00:06:11,010

not that far they probably had a

147

00:06:16,040 --> 00:06:13,139

canvassed area they probably heard the

148

00:06:18,860 --> 00:06:16,050

screams within that time period yeah

149

00:06:22,420 --> 00:06:18,870

1700 feet now I mean that's how much

150

00:06:28,390 --> 00:06:22,430

square footage some houses have

151
00:06:28,960 --> 00:06:28,400
right 1,700 feet about yeah 1,700 that's

152
00:06:33,520 --> 00:06:28,970
a lot

153
00:06:34,950 --> 00:06:33,530
wait 700 700 1,700 feet is just under

154
00:06:39,790 --> 00:06:34,960
half a mile

155
00:06:41,490 --> 00:06:39,800
okay 1,700 can you say it that way 1,700

156
00:06:45,300 --> 00:06:41,500
feet

157
00:06:49,470 --> 00:06:45,310
I'm confused we're all confused now yes

158
00:06:56,120 --> 00:06:49,480
but he went missing on Sunday he was

159
00:06:58,190 --> 00:06:56,130
found on on Wednesday so it's like 1,700

160
00:07:01,830 --> 00:06:58,200
1,700 what we're talking about

161
00:07:09,060 --> 00:07:01,840
Jesus God through me my brain is a

162
00:07:10,350 --> 00:07:09,070
rattled to maybe four maybe four maybe

163
00:07:12,250 --> 00:07:10,360

four feet from the houses where they

164

00:07:15,430 --> 00:07:12,260

found him

165

00:07:17,290 --> 00:07:15,440

but 1700 I would imagine you get a few

166

00:07:18,820 --> 00:07:17,300

hundred feet out and you have the

167

00:07:20,380 --> 00:07:18,830

search-and-rescue team that they're

168

00:07:22,750 --> 00:07:20,390

gonna run they're gonna hear the kid

169

00:07:23,860 --> 00:07:22,760

especially if it's that cold 22 months

170

00:07:26,110 --> 00:07:23,870

old I can't believe using what wasn't

171

00:07:28,690 --> 00:07:26,120

crying non-stop you got the terrible

172

00:07:31,450 --> 00:07:28,700

twos kids are constantly crying at age

173

00:07:34,150 --> 00:07:31,460

two huh that's right it's not adding up

174

00:07:37,330 --> 00:07:34,160

this is this is like another missing I'm

175

00:07:38,620 --> 00:07:37,340

gonna say missing 411 type of account it

176

00:07:42,570 --> 00:07:38,630

just doesn't make sense

177

00:07:46,920 --> 00:07:42,580

thank God the kid got found alive

178

00:07:48,360 --> 00:07:46,930

mylord yeah it's a wild one and I have

179

00:07:50,610 --> 00:07:48,370

to play this just because it's David

180

00:07:52,590 --> 00:07:50,620

Politis oh I hit the glory hole right

181

00:07:54,510 --> 00:07:52,600

here yeah well you don't want to talk

182

00:07:57,440 --> 00:07:54,520

about glory holes and point to Michael

183

00:08:01,160 --> 00:07:57,450

it's not that's not a fruit

184
