

# Secret Space Program

*Combat on Mars*

PARENTAL  
**ADVISORY**  
EXPLICIT CONTENT

1  
00:00:00,300 --> 00:00:06,460

[Applause]

2  
00:00:13,380 --> 00:00:09,740

we're going we're going into the secret

3  
00:00:18,620 --> 00:00:13,390

space program land here we go excuse me

4  
00:00:25,380 --> 00:00:18,630

[Music]

5  
00:00:27,540 --> 00:00:25,390

Hey all right I got some clips from a

6  
00:00:29,040 --> 00:00:27,550

person called captain Randy Cramer

7  
00:00:30,990 --> 00:00:29,050

captain Randy claimer claims to have

8  
00:00:35,190 --> 00:00:31,000

been part of the secret space program

9  
00:00:37,860 --> 00:00:35,200

for right around 20 years he claims to

10  
00:00:40,110 --> 00:00:37,870

have been on the Moon and Mars and did a

11  
00:00:41,790 --> 00:00:40,120

bunch of different things now there are

12  
00:00:43,890 --> 00:00:41,800

other secret space program

13  
00:00:45,780 --> 00:00:43,900

whistleblowers most notably Corey Goode

14  
00:00:47,910 --> 00:00:45,790  
Corey Goode was probably one of the more

15  
00:00:49,680 --> 00:00:47,920  
prominent people on the scene he's done

16  
00:00:51,420 --> 00:00:49,690  
various interviews with George Noory and

17  
00:00:55,860 --> 00:00:51,430  
he's all over the guy on network and

18  
00:00:58,229 --> 00:00:55,870  
also he's bodied up with with someone

19  
00:00:59,939 --> 00:00:58,239  
else to get his his story about the

20  
00:01:01,710 --> 00:00:59,949  
secret space program out there I played

21  
00:01:04,979 --> 00:01:01,720  
some clips from Corey Goode on the past

22  
00:01:07,560 --> 00:01:04,989  
I know we talked about the secret space

23  
00:01:10,920 --> 00:01:07,570  
program three episodes ago and the

24  
00:01:14,460 --> 00:01:10,930  
intergalactic space trade and I think

25  
00:01:17,250 --> 00:01:14,470  
there might be something here and I want

26  
00:01:19,080 --> 00:01:17,260  
to remind people of this story of Gary

27  
00:01:22,830 --> 00:01:19,090  
McKinnon before I play any of these

28  
00:01:26,190 --> 00:01:22,840  
clips Gary McKinnon was a UK hacker who

29  
00:01:28,890 --> 00:01:26,200  
was I think 23 at the time broke into

30  
00:01:31,020 --> 00:01:28,900  
some NASA computers just by you know

31  
00:01:33,180 --> 00:01:31,030  
doing some port scanning this checking

32  
00:01:35,250 --> 00:01:33,190  
that they had any sort of security on

33  
00:01:36,510 --> 00:01:35,260  
these computers a lot of a lot of times

34  
00:01:39,540 --> 00:01:36,520  
you can just break into a computer by

35  
00:01:40,920 --> 00:01:39,550  
using admin and password password to get

36  
00:01:43,170 --> 00:01:40,930  
into these computers and give him kenan

37  
00:01:45,480 --> 00:01:43,180  
did this net what he discovered when he

38  
00:01:50,100 --> 00:01:45,490

broke into these NASA computers he saw

39  
00:01:53,430 --> 00:01:50,110  
some unedited photos of what appeared to

40  
00:01:55,260 --> 00:01:53,440  
be UFOs taken by NASA or were the

41  
00:01:57,390 --> 00:01:55,270  
property of NASA at the time and he also

42  
00:02:01,890 --> 00:01:57,400  
saw a spreadsheet of non-terrestrial

43  
00:02:04,410 --> 00:02:01,900  
officers and Gary McKinnon went on

44  
00:02:06,810 --> 00:02:04,420  
record with with this the u.s. tried to

45  
00:02:09,419 --> 00:02:06,820  
get him extradited from the UK to the

46  
00:02:11,070 --> 00:02:09,429  
United States to stand trial thankfully

47  
00:02:14,880 --> 00:02:11,080  
that never happened but he's gone on

48  
00:02:16,559 --> 00:02:14,890  
record many times of what he saw and

49  
00:02:20,190 --> 00:02:16,569  
what he witnessed while he broke in

50  
00:02:23,369 --> 00:02:20,200  
through those NASA computers so I'm

51  
00:02:27,390 --> 00:02:23,379  
willing and I believe this guy and what

52  
00:02:29,100 --> 00:02:27,400  
he saw so if it with a spreadsheet the

53  
00:02:31,170 --> 00:02:29,110  
spreadsheet is true and I believe that

54  
00:02:32,729 --> 00:02:31,180  
is that there's non-terrestrial

55  
00:02:36,089 --> 00:02:32,739  
officers that means that they're I mean

56  
00:02:37,500 --> 00:02:36,099  
they're not on this earth or not you're

57  
00:02:41,009 --> 00:02:37,510  
on terraformer

58  
00:02:43,770 --> 00:02:41,019  
it's a terraformer terra firma para and

59  
00:02:46,410 --> 00:02:43,780  
so I think that there is definitely a

60  
00:02:48,959 --> 00:02:46,420  
secret space program and that's why I

61  
00:02:51,289 --> 00:02:48,969  
ain't dull Jin some of these these

62  
00:02:54,289 --> 00:02:51,299  
stories by these whistleblowers because

63  
00:02:57,059 --> 00:02:54,299

maybe it's not a hundred percent true

64

00:02:59,490 --> 00:02:57,069

but I think there may be enough

65

00:03:01,440 --> 00:02:59,500

information in there that is true that

66

00:03:04,289 --> 00:03:01,450

could it is interesting enough to

67

00:03:05,240 --> 00:03:04,299

indulge in I don't know what you think

68

00:03:09,000 --> 00:03:05,250

about all this Joe

69

00:03:10,770 --> 00:03:09,010

well the secret space program came up

70

00:03:12,240 --> 00:03:10,780

there was a another article about that

71

00:03:14,610 --> 00:03:12,250

satellite that's been up there for like

72

00:03:17,789 --> 00:03:14,620

what six hundred days almost yeah the

73

00:03:19,319 --> 00:03:17,799

days that's going on we don't know

74

00:03:22,050 --> 00:03:19,329

anything about that that's secret enough

75

00:03:24,809 --> 00:03:22,060

we covered that when it happened in 2015

76  
00:03:28,229 --> 00:03:24,819  
that thing that space plane can go be up

77  
00:03:30,030 --> 00:03:28,239  
in orbit for 500 plus days I got clips

78  
00:03:31,379 --> 00:03:30,040  
of that and we played that on the show

79  
00:03:34,979 --> 00:03:31,389  
and maybe I'll play a little later

80  
00:03:36,479 --> 00:03:34,989  
where they were they were I think CBS

81  
00:03:38,399 --> 00:03:36,489  
was all proud they got this interview

82  
00:03:40,259 --> 00:03:38,409  
and the Admiral or a general was all

83  
00:03:43,170 --> 00:03:40,269  
proud that that this seeker space plane

84  
00:03:46,500 --> 00:03:43,180  
that can do God knows what up there well

85  
00:03:48,839 --> 00:03:46,510  
it's a secret space program at least to

86  
00:03:52,020 --> 00:03:48,849  
some extent I mean that we that we know

87  
00:03:53,460 --> 00:03:52,030  
of there's a public version of the space

88  
00:03:55,740 --> 00:03:53,470

program there's the military space

89

00:03:58,649 --> 00:03:55,750

program and then there is the seeker

90

00:04:00,089 --> 00:03:58,659

space program 719 days is the article

91

00:04:03,030 --> 00:04:00,099

I'm seeing from a day ago so that'll be

92

00:04:07,679 --> 00:04:03,040

720 whoa 719 days I thought it was a

93

00:04:11,249 --> 00:04:07,689

little longer nine billion 240 how long

94

00:04:14,399 --> 00:04:11,259

is nine billion 240 days got me who

95

00:04:17,569 --> 00:04:14,409

isn't five years I don't know yeah it's

96

00:04:20,339 --> 00:04:17,579

a little bit so this first clip from

97

00:04:21,779 --> 00:04:20,349

Captain Randy Cramer kind of sets things

98

00:04:23,969 --> 00:04:21,789

up it's about a minute and a half long

99

00:04:26,210 --> 00:04:23,979

and then I might skip around if you have

100

00:04:28,409 --> 00:04:26,220

any questions or comments concerning

101  
00:04:31,290 --> 00:04:28,419  
this person so here we go here is the

102  
00:04:34,230 --> 00:04:31,300  
first clip from Captain Randy Cramer Oh

103  
00:04:36,649 --> 00:04:34,240  
I mean it all goes back to you know

104  
00:04:39,570 --> 00:04:36,659  
early development and early childhood

105  
00:04:41,670 --> 00:04:39,580  
being a construct of a program that was

106  
00:04:44,100 --> 00:04:41,680  
genetically engineered built from the

107  
00:04:45,100 --> 00:04:44,110  
ground up training program started when

108  
00:04:47,290 --> 00:04:45,110  
I was a child what

109  
00:04:49,210 --> 00:04:47,300  
was like four or five years old the

110  
00:04:51,220 --> 00:04:49,220  
training program went until I was 17

111  
00:04:52,990 --> 00:04:51,230  
years old and it's 17 year olds old I

112  
00:04:55,720 --> 00:04:53,000  
was deployed actually into the covert

113  
00:04:58,270 --> 00:04:55,730

military space program sent to Mars for

114

00:05:00,850 --> 00:04:58,280

17 years to be in the MDF via a

115

00:05:03,640 --> 00:05:00,860

transport ship from the moon from Luna

116

00:05:04,900 --> 00:05:03,650

operations command that probably my

117

00:05:07,030 --> 00:05:04,910

guessing was probably four or five

118

00:05:08,590 --> 00:05:07,040

stories high that probably had four or

119

00:05:10,360 --> 00:05:08,600

five thousand personnel on it at the

120

00:05:13,090 --> 00:05:10,370

time what year might that have been that

121

00:05:15,790 --> 00:05:13,100

would have been in 1987 so we were put

122

00:05:17,410 --> 00:05:15,800

onto a transport ship again I'm guessing

123

00:05:19,900 --> 00:05:17,420

about four or five thousand people were

124

00:05:21,670 --> 00:05:19,910

it held you know total and then that

125

00:05:24,130 --> 00:05:21,680

ship took off from Luna operations

126

00:05:26,290 --> 00:05:24,140

command on the moon and then that ship

127

00:05:27,820 --> 00:05:26,300

went through a wormhole to Mars of the

128

00:05:30,430 --> 00:05:27,830

whole trip you know took a few minutes

129

00:05:33,190 --> 00:05:30,440

and then we landed on the tarmac at

130

00:05:35,740 --> 00:05:33,200

Aries premise which was the military

131

00:05:37,990 --> 00:05:35,750

headquarters corporate headquarters of

132

00:05:41,020 --> 00:05:38,000

the Mars colonies and then I was sent to

133

00:05:44,350 --> 00:05:41,030

a forward station far far north when I

134

00:05:46,210 --> 00:05:44,360

sort of referred to as you know Alaska

135

00:05:49,750 --> 00:05:46,220

region as far as I mean if you were to

136

00:05:52,210 --> 00:05:49,760

compare you know longitudes and

137

00:05:54,280 --> 00:05:52,220

latitudes here on planet Earth it was

138

00:05:55,660 --> 00:05:54,290

very very high far north so it was a

139

00:05:57,430 --> 00:05:55,670

very very cold region that we were a

140

00:05:59,800 --> 00:05:57,440

part of in a place called forward

141

00:06:04,600 --> 00:05:59,810

Station zebra and spent the better part

142

00:06:06,670 --> 00:06:04,610

of 17 years in the MDF there that kind

143

00:06:08,290 --> 00:06:06,680

of he said he said a lot there he

144

00:06:11,020 --> 00:06:08,300

crammed in a lot in that minute a half

145

00:06:14,020 --> 00:06:11,030

he stirred our stance force what is MDF

146

00:06:16,120 --> 00:06:14,030

I believe so Mars Mars Defense Force so

147

00:06:19,510 --> 00:06:16,130

he what he claimed in that that clip

148

00:06:22,510 --> 00:06:19,520

right there is from a very early age he

149

00:06:25,300 --> 00:06:22,520

was training and conditioned possibly

150

00:06:28,750 --> 00:06:25,310

even genetically modified to be part of

151

00:06:31,120 --> 00:06:28,760

this secret space program damn it lucky

152

00:06:33,340 --> 00:06:31,130

I yeah well he kind of goes in today he

153

00:06:35,350 --> 00:06:33,350

says that he gets people that come up to

154

00:06:36,970 --> 00:06:35,360

them saying how can I join the this

155

00:06:39,700 --> 00:06:36,980

program how can I be deployed to Mars

156

00:06:43,090 --> 00:06:39,710

and I didn't kick I didn't clip that out

157

00:06:46,240 --> 00:06:43,100

but he does go into people that approach

158

00:06:48,430 --> 00:06:46,250

him claiming saying hey you're a fraud

159

00:06:50,140 --> 00:06:48,440

stop pretending you're part of the Armed

160

00:06:53,530 --> 00:06:50,150

Forces stop pretending that you are a

161

00:06:56,260 --> 00:06:53,540

Marine and he actually addresses that in

162

00:06:57,940 --> 00:06:56,270

this clip right here but I also like to

163

00:06:59,020 --> 00:06:57,950

point out if I'm not telling the truth

164

00:07:00,460 --> 00:06:59,030

and I'm committing an

165

00:07:02,230 --> 00:07:00,470

number of felonies including felony

166

00:07:03,730 --> 00:07:02,240

impersonating an officer and I have

167

00:07:05,230 --> 00:07:03,740

encouraged people who think that I'm not

168

00:07:07,270 --> 00:07:05,240

telling the truth to report me to the

169

00:07:08,950 --> 00:07:07,280

FBI or to the CMC's office in the Marine

170

00:07:10,540 --> 00:07:08,960

Corps I know some people who have had

171

00:07:12,520 --> 00:07:10,550

those conversations and those people are

172

00:07:14,020 --> 00:07:12,530

not interested in talking to me if I was

173

00:07:16,030 --> 00:07:14,030

committing fraud I would get a letter

174

00:07:17,470 --> 00:07:16,040

from the FBI or from the CMC's office

175

00:07:18,820 --> 00:07:17,480

telling me to cease and desist and then

176

00:07:20,830 --> 00:07:18,830

my attorney and I we could get into that

177

00:07:22,570 --> 00:07:20,840

whole conversation but no one sent me

178

00:07:24,550 --> 00:07:22,580

any letters because I'm not committing

179

00:07:27,910 --> 00:07:24,560

fraud there you go

180

00:07:30,400 --> 00:07:27,920

he also addresses taking a lie detector

181

00:07:33,010 --> 00:07:30,410

test which lie detector test can be a

182

00:07:34,210 --> 00:07:33,020

little goofy I don't know if I truly

183

00:07:37,120 --> 00:07:34,220

believe them I don't know if you know

184

00:07:38,590 --> 00:07:37,130

any of that Joe about lie detectors I've

185

00:07:40,780 --> 00:07:38,600

seen a bunch of stuff back and forth

186

00:07:42,520 --> 00:07:40,790

your sociopath apparently you can trick

187

00:07:44,290 --> 00:07:42,530

it or something yeah yeah there's waves

188

00:07:47,020 --> 00:07:44,300

it definitely trick it I would like to

189

00:07:49,750 --> 00:07:47,030

see him take it regardless like the the

190

00:07:51,580 --> 00:07:49,760

people in the event and the fire in the

191

00:07:53,680 --> 00:07:51,590

sky with Travis Walton they all took

192

00:07:56,200 --> 00:07:53,690

lie-detector taks test the police use

193

00:07:57,490 --> 00:07:56,210

that to not necessarily find out if

194

00:07:59,110 --> 00:07:57,500

you're guilty but maybe if you're hiding

195

00:08:01,120 --> 00:07:59,120

something

196

00:08:03,040 --> 00:08:01,130

so it's still used in law enforcement

197

00:08:06,120 --> 00:08:03,050

most likely ia has to take them

198

00:08:12,100 --> 00:08:06,130

regularly I think so yeah just for fun

199

00:08:16,180 --> 00:08:12,110

the the moon according to captain Randy

200

00:08:18,280 --> 00:08:16,190

Cramer is used as a jumping-off point

201

00:08:21,840 --> 00:08:18,290

it's also used for various scientific

202

00:08:25,450 --> 00:08:21,850

experiments he talks about the the moon

203

00:08:29,770 --> 00:08:25,460

quite a bit maybe I'll play this first

204

00:08:32,769 --> 00:08:29,780

segment of the moon and how it how what

205

00:08:34,959 --> 00:08:32,779

we may be we we know the moon landing in

206

00:08:37,390 --> 00:08:34,969

the Apollo missions might not be all

207

00:08:40,060 --> 00:08:37,400

that it was cracked up to be the

208

00:08:43,779 --> 00:08:40,070

military had the first lunar base I

209

00:08:45,519 --> 00:08:43,789

believe built about 1955 who might be

210

00:08:47,910 --> 00:08:45,529

the first American on the moon if it

211

00:08:50,680 --> 00:08:47,920

wasn't Neil Armstrong some nameless

212

00:08:52,570 --> 00:08:50,690

covert military space program astronaut

213

00:08:54,880 --> 00:08:52,580

who will probably never know I mean III

214

00:08:57,130 --> 00:08:54,890

certainly don't know who anybody died of

215

00:08:59,560 --> 00:08:57,140

tragedy on the moon I would say almost

216

00:09:01,090 --> 00:08:59,570

certainly in the early days because even

217

00:09:02,829 --> 00:09:01,100

though they were using advanced

218

00:09:04,390 --> 00:09:02,839

reverse-engineered technology from

219

00:09:06,430 --> 00:09:04,400

extraterrestrial vehicles that we had

220

00:09:08,770 --> 00:09:06,440

recovered in the 40s it's still the

221

00:09:10,300 --> 00:09:08,780

early days so mistakes mistakes were

222

00:09:12,100 --> 00:09:10,310

made and I'm sure people died in the

223

00:09:14,890 --> 00:09:12,110

process yeah Armstrong and Aldrin know

224

00:09:17,500 --> 00:09:14,900

about this program there's some

225

00:09:19,720 --> 00:09:17,510

discussion about that but most people

226

00:09:21,910 --> 00:09:19,730

internally agree that they had some

227

00:09:23,200 --> 00:09:21,920

briefing about that in fact they knew

228

00:09:26,860 --> 00:09:23,210

that when they got there one of their

229

00:09:31,030 --> 00:09:26,870

main missions was to look for and/or

230

00:09:33,550 --> 00:09:31,040

explore artifacts or a very old crashed

231

00:09:35,590 --> 00:09:33,560

vehicle or facilities did they find them

232

00:09:36,790 --> 00:09:35,600

my understanding is they did my

233

00:09:38,620 --> 00:09:36,800

understanding that was part of his job

234

00:09:41,170 --> 00:09:38,630

and they did there you go

235

00:09:45,190 --> 00:09:41,180

accordian been there since the mid

236

00:09:47,829 --> 00:09:45,200

fifties says it's a rest stop it could

237

00:09:50,530 --> 00:09:47,839

be a stop on the moon the best [h\_\_\h]

238

00:09:53,460 --> 00:09:50,540

in space you can stop off and get a you

239

00:09:56,790 --> 00:09:53,470

know a handy from your favorite Martian

240

00:09:59,920 --> 00:09:56,800

giving me a knob you can get a knob on

241

00:10:06,100 --> 00:09:59,930

on the moon they got a red onion up

242

00:10:08,770 --> 00:10:06,110

there heard on Mars duh they have a

243

00:10:11,860 --> 00:10:08,780

white onion Oh white on yes makes more

244

00:10:13,000 --> 00:10:11,870

sense he goes on to say that the the

245

00:10:14,350 --> 00:10:13,010

ships that they have are

246

00:10:17,650 --> 00:10:14,360

large in order to take up construction

247

00:10:21,360 --> 00:10:17,660

materials to actually transport troops

248

00:10:24,520 --> 00:10:21,370

they have some very large vehicles -

249

00:10:25,900 --> 00:10:24,530

yeah I mean you gotta you got to send up

250

00:10:28,620 --> 00:10:25,910

some manufacturing up there to actually

251  
00:10:32,110 --> 00:10:28,630  
construct a base it would make sense

252  
00:10:35,380 --> 00:10:32,120  
it's less base tanks yeah um this is fun

253  
00:10:38,200 --> 00:10:35,390  
I like this plate it's a the second

254  
00:10:40,270 --> 00:10:38,210  
little piece about the about the moon

255  
00:10:43,510 --> 00:10:40,280  
and then we are definitely in a place of

256  
00:10:45,370 --> 00:10:43,520  
eclipses concerning Mars and what he

257  
00:10:46,480 --> 00:10:45,380  
experienced there what I understand

258  
00:10:47,860 --> 00:10:46,490  
they're doing everything there they do

259  
00:10:50,110 --> 00:10:47,870  
training they're doing stuff

260  
00:10:51,100 --> 00:10:50,120  
this is this is about the moon what I

261  
00:10:52,540 --> 00:10:51,110  
understand they're doing everything

262  
00:10:53,920 --> 00:10:52,550  
they're they do training they're they're

263  
00:10:57,130 --> 00:10:53,930

doing science experiments they're

264

00:10:59,620 --> 00:10:57,140

there's a certain amount of civilian

265

00:11:01,210 --> 00:10:59,630

personnel that come to visit to observe

266

00:11:04,300 --> 00:11:01,220

what's going on in the covert military

267

00:11:05,860 --> 00:11:04,310

space program there's financier bankers

268

00:11:08,890 --> 00:11:05,870

who are dealing with the money side of

269

00:11:10,930 --> 00:11:08,900

the program it's it's a massive massive

270

00:11:14,320 --> 00:11:10,940

military facility and the facility is

271

00:11:17,110 --> 00:11:14,330

just huge how do they build it over time

272

00:11:20,250 --> 00:11:17,120

you know keep digging down and down in

273

00:11:22,210 --> 00:11:20,260

building large that must have sent

274

00:11:24,910 --> 00:11:22,220

equipment oh yeah

275

00:11:27,970 --> 00:11:24,920

digging equipment yep so the size of the

276

00:11:30,250 --> 00:11:27,980

crafts to get that stuff there must have

277

00:11:33,100 --> 00:11:30,260

been huge some of them were probably

278

00:11:35,800 --> 00:11:33,110

pretty big some of the early Aurora

279

00:11:37,330 --> 00:11:35,810

saucer craft are you know the size of a

280

00:11:39,640 --> 00:11:37,340

football field I mean they're 100 you

281

00:11:40,900 --> 00:11:39,650

know hundred meters 300 feet wide or so

282

00:11:42,970 --> 00:11:40,910

so they could you know you could put a

283

00:11:45,580 --> 00:11:42,980

whole bunch of a construction equipment

284

00:11:49,360 --> 00:11:45,590

on a vehicle that big there you go you

285

00:11:53,530 --> 00:11:49,370

have one more moon base segment here

286

00:11:55,360 --> 00:11:53,540

you know on the ounce Jonesville we

287

00:11:56,500 --> 00:11:55,370

mentioned this a few weeks ago right

288

00:11:59,650 --> 00:11:56,510

before we got into the intergalactic

289

00:12:01,390 --> 00:11:59,660

slave trade but alex jones had on a

290

00:12:04,030 --> 00:12:01,400

guest that got a treat her too out jones

291

00:12:06,550 --> 00:12:04,040

and the guest said this guess was a

292

00:12:09,970 --> 00:12:06,560

former CIA guy and the guest said there

293

00:12:11,800 --> 00:12:09,980

are slave colonies on Mars I tried to

294

00:12:15,880 --> 00:12:11,810

dig around and find some stuff in

295

00:12:18,010 --> 00:12:15,890

particular about that the slave on Mars

296

00:12:20,400 --> 00:12:18,020

question will be answered here in the

297

00:12:23,920 --> 00:12:20,410

next few eclipses I couldn't find out

298

00:12:26,949 --> 00:12:23,930

exactly what these slaves would be doing

299

00:12:29,939 --> 00:12:26,959

but captain Randy Cramer does address

300

00:12:31,960 --> 00:12:29,949

but this in this last little clip of

301  
00:12:35,109 --> 00:12:31,970  
30-second clip we have here it is about

302  
00:12:37,600 --> 00:12:35,119  
the moon who's gonna wind down his time

303  
00:12:39,069 --> 00:12:37,610  
on the moon I know that they the

304  
00:12:41,619 --> 00:12:39,079  
colonies on Mars have had people

305  
00:12:45,040 --> 00:12:41,629  
actually born on Mars since then who

306  
00:12:46,299 --> 00:12:45,050  
then our earth transplants but if

307  
00:12:48,249 --> 00:12:46,309  
they're born there then they're not

308  
00:12:50,319 --> 00:12:48,259  
earthling they're there they're human

309  
00:12:52,359 --> 00:12:50,329  
Martians yeah they're Martians I wonder

310  
00:12:54,220 --> 00:12:52,369  
if they're considered citizens of this

311  
00:12:55,960 --> 00:12:54,230  
planet they are not considered

312  
00:12:57,879 --> 00:12:55,970  
terrestrial citizens they're considered

313  
00:12:59,350 --> 00:12:57,889

citizens of the Mars colonies and

314

00:13:01,809 --> 00:12:59,360

because of the gravity they can never

315

00:13:02,949 --> 00:13:01,819

come back here oh my apologies that was

316

00:13:04,239 --> 00:13:02,959

a completely separate clip I just

317

00:13:08,079 --> 00:13:04,249

mislabeled that he was talking about

318

00:13:10,480 --> 00:13:08,089

people born on Mars how about that I

319

00:13:12,730 --> 00:13:10,490

guess if you're gonna live on Mars for

320

00:13:14,350 --> 00:13:12,740

17 years you're probably gonna start you

321

00:13:16,749 --> 00:13:14,360

know you're probably gonna get a few nah

322

00:13:20,019 --> 00:13:16,759

birds and do what you got to do to get

323

00:13:24,280 --> 00:13:20,029

your rocks off jerk in the wing yeah

324

00:13:29,799 --> 00:13:24,290

maybe in with someone else so in in this

325

00:13:33,790 --> 00:13:29,809

segment Randy Cramer goes into Martian

326

00:13:36,400 --> 00:13:33,800

and being on Mars and Martians slavery

327

00:13:38,769 --> 00:13:36,410

to a certain degree there are other

328

00:13:40,960 --> 00:13:38,779

worlds that we have you know agreements

329

00:13:42,780 --> 00:13:40,970

and treaties with who think that slavery

330

00:13:45,249 --> 00:13:42,790

is essentially an immoral unethical

331

00:13:46,900 --> 00:13:45,259

activity and that we have treaties and

332

00:13:49,299 --> 00:13:46,910

contract sign that we're not supposed to

333

00:13:50,919 --> 00:13:49,309

engage in acts of slavery so as long as

334

00:13:52,600 --> 00:13:50,929

we're doing things that are quasi

335

00:13:54,189 --> 00:13:52,610

slavery then we have these disagreements

336

00:13:56,079 --> 00:13:54,199

about what we're supposed to do it so

337

00:13:58,629 --> 00:13:56,089

we're disclosing for the first time on

338

00:14:03,309 --> 00:13:58,639

this program that the secret space

339

00:14:05,169 --> 00:14:03,319

program isn't pain its employees a vast

340

00:14:06,819 --> 00:14:05,179

number of them a vast number of them are

341

00:14:08,379 --> 00:14:06,829

being told that they're going to be paid

342

00:14:09,999 --> 00:14:08,389

when it'll be going to be paid later

343

00:14:12,189 --> 00:14:10,009

gonna be told that they're gonna get

344

00:14:13,900 --> 00:14:12,199

rotated back get a nice cushy job you

345

00:14:17,139 --> 00:14:13,910

know with a pension and do that it can

346

00:14:20,410 --> 00:14:17,149

you well I'm in a process with my

347

00:14:24,460 --> 00:14:20,420

congressman's office to get paperwork to

348

00:14:26,859 --> 00:14:24,470

get papers to get documents and what

349

00:14:31,600 --> 00:14:26,869

should at some point end up probably in

350

00:14:35,430 --> 00:14:31,610

a settlement so everybody yeah damages

351

00:14:39,300 --> 00:14:37,499

if they if he winds up getting a

352

00:14:42,090 --> 00:14:39,310

settlement wouldn't that be admission of

353

00:14:43,620 --> 00:14:42,100

his service in the in the Space Marines

354

00:14:47,040 --> 00:14:43,630

I would say so

355

00:14:47,819 --> 00:14:47,050

I would love this guy sounds fast in

356

00:14:50,610 --> 00:14:47,829

here would love to have him on the show

357

00:14:53,220 --> 00:14:50,620

he speaks so confidently I mean he's

358

00:14:56,579 --> 00:14:53,230

either like a hundred percent deranged

359

00:14:59,819 --> 00:14:56,589

and believes it or uh you know is that's

360

00:15:01,620 --> 00:14:59,829

a hard leap to make for me for sure but

361

00:15:04,139 --> 00:15:01,630

I love it I mean there's a I read a book

362

00:15:06,569 --> 00:15:04,149

based on this kind of stuff before the

363

00:15:08,850 --> 00:15:06,579

name of it so this next clip there's a

364

00:15:11,610 --> 00:15:08,860

there is another person so there's no

365

00:15:13,410 --> 00:15:11,620

this Corey Goode there is who claims

366

00:15:15,930 --> 00:15:13,420

being the secret space program

367

00:15:18,449 --> 00:15:15,940

this guy our captain Randy Cramer who

368

00:15:20,670 --> 00:15:18,459

served on Mars this next person that I

369

00:15:23,309 --> 00:15:20,680

have audio clip from claims this guy's

370

00:15:26,370 --> 00:15:23,319

name's Rodriguez he claims to have been

371

00:15:30,180 --> 00:15:26,380

he has memories of being imprisoned or

372

00:15:34,620 --> 00:15:30,190

being on Mars and this is his memory of

373

00:15:36,210 --> 00:15:34,630

being on Mars but I got lost and I saw

374

00:15:40,500 --> 00:15:36,220

two guys in a military uniform but they

375

00:15:42,059 --> 00:15:40,510

were aliens one guy was like I want to

376

00:15:45,629 --> 00:15:42,069

say he looked like a cat but it wasn't

377

00:15:47,879 --> 00:15:45,639

the case he had coarse orange hair he

378

00:15:49,379 --> 00:15:47,889

was shorter and stocky and he had kind

379

00:15:51,689 --> 00:15:49,389

of like he was ugly looking you know

380

00:15:53,309 --> 00:15:51,699

he's ugly I really don't know how to

381

00:15:57,569 --> 00:15:53,319

describe more than that he had hair and

382

00:16:00,050 --> 00:15:57,579

the other guy was smaller and he was

383

00:16:03,240 --> 00:16:00,060

more of a fish yet like a fish eyes and

384

00:16:04,860 --> 00:16:03,250

a snout you know what I mean and they

385

00:16:06,720 --> 00:16:04,870

were together and I walked because they

386

00:16:09,809 --> 00:16:06,730

were in uniform I thought that you know

387

00:16:11,879 --> 00:16:09,819

that they were in the army like I was or

388

00:16:13,050 --> 00:16:11,889

whatever I was in you know the fleet I

389

00:16:14,610 --> 00:16:13,060

thought they were part of the fleet so I

390

00:16:17,970 --> 00:16:14,620

asked them I'm lost can you guys help me

391

00:16:19,439 --> 00:16:17,980

out and they said I had to wear a collar

392

00:16:23,250 --> 00:16:19,449

a slave collar there was a correction

393

00:16:26,069 --> 00:16:23,260

collar and you would get electrified if

394

00:16:27,120 --> 00:16:26,079

you if you were disciplined and they saw

395

00:16:28,500 --> 00:16:27,130

my collar and said what are you doing

396

00:16:30,120 --> 00:16:28,510

talking to us don't even talk to us

397

00:16:32,220 --> 00:16:30,130

how are you even out here you don't have

398

00:16:34,079 --> 00:16:32,230

money and they were you know what are

399

00:16:35,100 --> 00:16:34,089

you doing here they immediately you know

400

00:16:38,340 --> 00:16:35,110

what makes you think we're gonna help

401  
00:16:40,590 --> 00:16:38,350  
you and and it was it was a telepathic

402  
00:16:41,970 --> 00:16:40,600  
communication I said I'm lost can you

403  
00:16:44,759 --> 00:16:41,980  
just tell me how to get back to my

404  
00:16:46,019 --> 00:16:44,769  
hangar to the hangar area and I said how

405  
00:16:47,160 --> 00:16:46,029  
you can't even get to the angry guys

406  
00:16:48,329 --> 00:16:47,170  
like you don't even have money I said I

407  
00:16:50,790 --> 00:16:48,339  
got money and

408  
00:16:52,980 --> 00:16:50,800  
soon as I showed them my money the one

409  
00:16:55,970 --> 00:16:52,990  
punched me and I they basically beat me

410  
00:16:59,579 --> 00:16:55,980  
up and took my money I got mugged

411  
00:17:01,829 --> 00:16:59,589  
damages here you got space mugged

412  
00:17:04,350 --> 00:17:01,839  
yes base mugged he took his shoes and

413  
00:17:06,870 --> 00:17:04,360

his glasses his eyes are going crazy

414

00:17:10,140 --> 00:17:06,880

because he got space hit by it some kind

415

00:17:14,939 --> 00:17:10,150

of space beast or space fish going it's

416

00:17:19,110 --> 00:17:14,949

insane I can't see god damn it so that's

417

00:17:20,760 --> 00:17:19,120

a totally separate person and then Randi

418

00:17:22,980 --> 00:17:20,770

talks about look there it's not just the

419

00:17:27,179 --> 00:17:22,990

the moon that he's been to it's just not

420

00:17:30,330 --> 00:17:27,189

Mars that he's uh operated on he's he's

421

00:17:31,830 --> 00:17:30,340

been to a Space Station out near Jupiter

422

00:17:34,320 --> 00:17:31,840

here we go

423

00:17:36,060 --> 00:17:34,330

one of the probably most interesting

424

00:17:38,669 --> 00:17:36,070

things that I got to do when I was

425

00:17:40,260 --> 00:17:38,679

stationed on the Nautilus was go on to

426

00:17:42,029 --> 00:17:40,270

diplomatic missions and diplomatic

427

00:17:43,590 --> 00:17:42,039

missions to the intergalactic space

428

00:17:46,470 --> 00:17:43,600

station that orbits around Jupiter which

429

00:17:50,430 --> 00:17:46,480

is essentially a diplomatic meeting area

430

00:17:53,460 --> 00:17:50,440

for hundreds of species and us and them

431

00:17:55,830 --> 00:17:53,470

coming have how many did you meet meet

432

00:17:57,480 --> 00:17:55,840

personally I would say several dozen see

433

00:18:00,000 --> 00:17:57,490

hundreds hundreds because the main

434

00:18:01,560 --> 00:18:00,010

meeting room is this large room that's

435

00:18:04,560 --> 00:18:01,570

like several hundred meters wide with

436

00:18:06,899 --> 00:18:04,570

you know Florida ceilings probably 70 or

437

00:18:08,430 --> 00:18:06,909

80 feet high with I want to say glass

438

00:18:09,840 --> 00:18:08,440

but it probably wasn't you know silicon

439

00:18:11,700 --> 00:18:09,850

glass windows that went all the way

440

00:18:14,010 --> 00:18:11,710

around that you had this amazing view of

441

00:18:15,360 --> 00:18:14,020

who they all look different as these

442

00:18:17,760 --> 00:18:15,370

area and different as you can possibly

443

00:18:19,919 --> 00:18:17,770

say I would say the smallest extra tress

444

00:18:21,299 --> 00:18:19,929

was ever saw was probably about 1824

445

00:18:24,000 --> 00:18:21,309

inches high and the largest one was

446

00:18:25,320 --> 00:18:24,010

probably 60 feet tall 60 feet about

447

00:18:29,370 --> 00:18:25,330

seven feet tall yeah

448

00:18:31,320 --> 00:18:29,380

did it look human humanoid in the sense

449

00:18:35,100 --> 00:18:31,330

you know two arms two legs

450

00:18:37,019 --> 00:18:35,110

no bipedal you know you could identify

451

00:18:38,669 --> 00:18:37,029

you could certainly identify it by

452

00:18:40,950 --> 00:18:38,679

looking at it but I wouldn't say that it

453

00:18:42,870 --> 00:18:40,960

just looked like you or I 60 feet tall

454

00:18:45,450 --> 00:18:42,880

it had some other sort of distinguishing

455

00:18:48,029 --> 00:18:45,460

features and would you say the ETS were

456

00:18:49,049 --> 00:18:48,039

all benevolent or not in that particular

457

00:18:50,850 --> 00:18:49,059

location

458

00:18:53,130 --> 00:18:50,860

everyone who's there is there to have a

459

00:18:55,769 --> 00:18:53,140

conversation about trade contracts

460

00:18:57,990 --> 00:18:55,779

negotiations so everyone's on their best

461

00:19:00,159 --> 00:18:58,000

behavior everyone's being nice it's

462

00:19:02,350 --> 00:19:00,169

usually not a bunch of you know

463

00:19:05,860 --> 00:19:02,360

grunts you know arguing about its its

464

00:19:07,509 --> 00:19:05,870

diplomats its officers its people out of

465

00:19:09,460 --> 00:19:07,519

various you know ambassadorial or

466

00:19:11,320 --> 00:19:09,470

diplomatic corps is having conversations

467

00:19:13,600 --> 00:19:11,330

so everyone's pretty cordial there

468

00:19:15,070 --> 00:19:13,610

everyone's pre cordial one of us is in

469

00:19:19,389 --> 00:19:15,080

deep trouble

470

00:19:20,860 --> 00:19:19,399

that's right Arnold and so we've got two

471

00:19:22,330 --> 00:19:20,870

more clips here and then we'll wind this

472

00:19:24,549 --> 00:19:22,340

down probably maybe open up the phone

473

00:19:26,950 --> 00:19:24,559

line so you guys can comment on anything

474

00:19:28,060 --> 00:19:26,960

that's going on and you're in your life

475

00:19:30,970 --> 00:19:28,070

or you want to talk about the secret

476

00:19:35,169 --> 00:19:30,980

space program this uh this next one is

477

00:19:38,169 --> 00:19:35,179

about Martian combat and what the u.s.

478

00:19:40,720 --> 00:19:38,179

Space Marines maybe even just earth

479

00:19:44,980 --> 00:19:40,730

Space Marines had to deal with up there

480

00:19:49,120 --> 00:19:44,990

on Mars we were actually my squad and I

481

00:19:51,159 --> 00:19:49,130

were captured by indigenous Reptoids on

482

00:19:54,399 --> 00:19:51,169

Mars and spent five and a half months

483

00:19:58,180 --> 00:19:54,409

living with them and I were assured yeah

484

00:20:01,029 --> 00:19:58,190

like in they're not all friendly we were

485

00:20:03,190 --> 00:20:01,039

in a constant state of military combat

486

00:20:05,620 --> 00:20:03,200

with two indigenous species and

487

00:20:08,320 --> 00:20:05,630

insectoid species and a Reptoid species

488

00:20:10,659 --> 00:20:08,330

which then got more complicated when the

489

00:20:12,759 --> 00:20:10,669

draconian invasion occurred and then it

490

00:20:16,299 --> 00:20:12,769

was a very complicated sort of war

491

00:20:18,070 --> 00:20:16,309

consulate violent very very violent on a

492

00:20:19,810 --> 00:20:18,080

bear on a regular basis I mean we were

493

00:20:21,490 --> 00:20:19,820

in probably active combat engagements

494

00:20:24,879 --> 00:20:21,500

every three to four did we lose

495

00:20:28,210 --> 00:20:24,889

personnel all the time and did they all

496

00:20:31,299 --> 00:20:28,220

the time what kind of weaponry would we

497

00:20:33,669 --> 00:20:31,309

use our prime for soldiers on the ground

498

00:20:36,100 --> 00:20:33,679

our primary weaponry is a magnetic

499

00:20:39,340 --> 00:20:36,110

propelled Ralph's rifle or a Gauss cows

500

00:20:42,639 --> 00:20:39,350

gun or a rail gun that fires out you

501  
00:20:44,490 --> 00:20:42,649  
know magnetically propelled slugs and if

502  
00:20:47,409 --> 00:20:44,500  
it hits one of these beans what happens

503  
00:20:50,470 --> 00:20:47,419  
depending on who it is or depending on

504  
00:20:52,240 --> 00:20:50,480  
the size of the slug it you know usually

505  
00:20:54,370 --> 00:20:52,250  
penetrates and goes right through and

506  
00:20:56,440 --> 00:20:54,380  
then kill some and doesn't necessarily

507  
00:20:58,389 --> 00:20:56,450  
kill him right away depending on their

508  
00:21:00,940 --> 00:20:58,399  
internal structure the indigenous

509  
00:21:02,950 --> 00:21:00,950  
Reptoids had a double circulatory system

510  
00:21:04,840 --> 00:21:02,960  
they had two hearts with it what I would

511  
00:21:06,970 --> 00:21:04,850  
call an internal organ circulatory

512  
00:21:09,100 --> 00:21:06,980  
system and then a perimeter external

513  
00:21:10,480 --> 00:21:09,110

circulatory system so you could shoot

514

00:21:11,889 --> 00:21:10,490

holes in their arms and legs and they

515

00:21:12,970 --> 00:21:11,899

wouldn't lose in my pressure well they

516

00:21:13,870 --> 00:21:12,980

would lose blood pressure in their

517

00:21:15,789 --> 00:21:13,880

central organs

518

00:21:17,020 --> 00:21:15,799

so you really had to aim for you know

519

00:21:18,840 --> 00:21:17,030

you had to hit a couple vitals in the

520

00:21:21,450 --> 00:21:18,850

central area before they would go down

521

00:21:23,820 --> 00:21:21,460

yes this is all very interesting

522

00:21:27,940 --> 00:21:23,830

what are you describing there is

523

00:21:30,669 --> 00:21:27,950

actually the I think the physiological

524

00:21:32,529 --> 00:21:30,679

structure biology of what Klingons claim

525

00:21:34,659 --> 00:21:32,539

to how Klingons have like two sets of

526

00:21:36,850 --> 00:21:34,669

yeah it's you sets of lungs they have

527

00:21:39,100 --> 00:21:36,860

two hearts they had double up because

528

00:21:42,010 --> 00:21:39,110

they're there they're battle battle

529

00:21:46,110 --> 00:21:42,020

creatures let's be one if Starship

530

00:21:48,310 --> 00:21:46,120

Troopers was documentary ah I don't know

531

00:21:50,649 --> 00:21:48,320

insectoids he said there's insectoids

532

00:21:54,190 --> 00:21:50,659

andrea ladies and Reptoids yeah and

533

00:21:56,830 --> 00:21:54,200

Reptoids on on Mars and like I had on

534

00:21:59,260 --> 00:21:56,840

screen earlier I had pictures of uh what

535

00:22:01,659 --> 00:21:59,270

I like and the link to Randy Cramer's

536

00:22:03,070 --> 00:22:01,669

website is in the description of his

537

00:22:07,419 --> 00:22:03,080

podcast and video you go to earth

538

00:22:10,120 --> 00:22:07,429

citizen insulting or and under the my

539

00:22:11,500 --> 00:22:10,130

story part you can scroll down and he

540

00:22:15,870 --> 00:22:11,510

has some pictures like Mars there and

541

00:22:20,289 --> 00:22:15,880

what some what what really appears to be

542

00:22:22,360 --> 00:22:20,299

like vegetation on Mars and I know we

543

00:22:25,630 --> 00:22:22,370

played this invitation you say

544

00:22:27,580 --> 00:22:25,640

vegetation vegetation like I'll bring

545

00:22:29,230 --> 00:22:27,590

I'll bring up so I misspelled trees but

546

00:22:33,549 --> 00:22:29,240

there we go I'll bring up some images on

547

00:22:35,350 --> 00:22:33,559

screen of what looks to be if they look

548

00:22:38,380 --> 00:22:35,360

to me like it looks like vegetation on

549

00:22:39,340 --> 00:22:38,390

Mars I mean it really looks like they

550

00:22:45,010 --> 00:22:39,350

explained it away

551  
00:22:47,470 --> 00:22:45,020  
as oh these are like divots in the sand

552  
00:22:49,990 --> 00:22:47,480  
these are just like a part of the sand

553  
00:22:51,970 --> 00:22:50,000  
or rocks or rolled down the side of a

554  
00:22:54,130 --> 00:22:51,980  
hill given the illusion that is

555  
00:22:56,260 --> 00:22:54,140  
vegetation but there's some stuffs I'm

556  
00:23:01,330 --> 00:22:56,270  
serious like pictures here that appear

557  
00:23:02,740 --> 00:23:01,340  
to be actual vegetation on Mars so I

558  
00:23:04,539 --> 00:23:02,750  
think something definitely is going on

559  
00:23:07,930 --> 00:23:04,549  
on Mars and they're definitely not

560  
00:23:12,000 --> 00:23:07,940  
getting the full story but let's let's

561  
00:23:15,039 --> 00:23:12,010  
finish up these this last clip with

562  
00:23:17,289 --> 00:23:15,049  
captain Randy Cramer this is about the

563  
00:23:19,419 --> 00:23:17,299

program itself this is called the twenty

564

00:23:21,930 --> 00:23:19,429

and back program that's what he was part

565

00:23:24,310 --> 00:23:21,940

of that was Corey Goode was part of

566

00:23:27,100 --> 00:23:24,320

let's play this last one to wrap this

567

00:23:27,790 --> 00:23:27,110

thing up well they basically figure that

568

00:23:28,960 --> 00:23:27,800

at or do

569

00:23:31,980 --> 00:23:28,970

in order for them to make all their

570

00:23:35,080 --> 00:23:31,990

money back requires a 20-year tour so

571

00:23:37,000 --> 00:23:35,090

20-year tour duty is essentially you a

572

00:23:39,610 --> 00:23:37,010

commitment of 20 years yeah you deploy

573

00:23:42,220 --> 00:23:39,620

someone for a 20-year tour duty and then

574

00:23:46,540 --> 00:23:42,230

you return them and the return process

575

00:23:48,520 --> 00:23:46,550

they do you know what we sort of what is

576

00:23:49,900 --> 00:23:48,530

called age-reversing but it really has

577

00:23:52,840 --> 00:23:49,910

nothing to do with that at all because

578

00:23:55,120 --> 00:23:52,850

the body that you're in is pretty much

579

00:23:57,160 --> 00:23:55,130

so badly damaged that they have to you

580

00:23:58,780 --> 00:23:57,170

know throw it in the trash bin after 20

581

00:24:01,000 --> 00:23:58,790

years yeah so from what I understand

582

00:24:03,910 --> 00:24:01,010

they basically have to hatch you out a

583

00:24:06,880 --> 00:24:03,920

new clone that's the same age that when

584

00:24:08,890 --> 00:24:06,890

you left and transfer your soul and your

585

00:24:10,870 --> 00:24:08,900

consciousness through some complicated

586

00:24:12,700 --> 00:24:10,880

technological and do that too

587

00:24:14,440 --> 00:24:12,710

it's a quantum fluid dynamic from what I

588

00:24:16,210 --> 00:24:14,450

understand that the soul is actually a

589

00:24:18,100 --> 00:24:16,220

quantum fluid dynamic and so in that

590

00:24:20,800 --> 00:24:18,110

sense it can be removed from one vessel

591

00:24:22,780 --> 00:24:20,810

and put into another and idea slee I was

592

00:24:24,250 --> 00:24:22,790

unconscious for the process I can't tell

593

00:24:25,300 --> 00:24:24,260

you how it was done was it done to you

594

00:24:26,740 --> 00:24:25,310

oh absolutely

595

00:24:28,930 --> 00:24:26,750

you're in a different body yeah

596

00:24:31,420 --> 00:24:28,940

absolutely yet your soul and your

597

00:24:34,440 --> 00:24:31,430

personality and everything memory that

598

00:24:38,740 --> 00:24:34,450

has all been transferred absolutely

599

00:24:41,380 --> 00:24:38,750

there you go that that winds that up and

600

00:24:45,700 --> 00:24:41,390

that's all the clips I have of captain

601  
00:24:48,640 --> 00:24:45,710  
Randy Cramer in the chat sherry so happy

602  
00:24:50,590 --> 00:24:48,650  
said wasn't Obama part of the secret

603  
00:24:51,790 --> 00:24:50,600  
space program or didn't somebody claim

604  
00:24:53,440 --> 00:24:51,800  
that he was part of the secret space

605  
00:24:56,320 --> 00:24:53,450  
program yeah I forgot to bring that up

606  
00:24:58,360 --> 00:24:56,330  
but yes there is a headline here said

607  
00:25:01,360 --> 00:24:58,370  
presidential candidate says he time

608  
00:25:04,930 --> 00:25:01,370  
traveled to Mars with Barack Obama in a

609  
00:25:06,910 --> 00:25:04,940  
secret government program given me a

610  
00:25:10,540 --> 00:25:06,920  
knob well we don't know if Obama gave on

611  
00:25:12,790 --> 00:25:10,550  
others but this is Andrew basashi oh is

612  
00:25:15,130 --> 00:25:12,800  
a trial lawyer who ran as an independent

613  
00:25:17,290 --> 00:25:15,140

candidate for US president 2016 he's

614

00:25:20,020 --> 00:25:17,300

also he also claims a government

615

00:25:22,000 --> 00:25:20,030

sponsored time he also claims that he's

616

00:25:24,610 --> 00:25:22,010

a government sponsored time traveler who

617

00:25:29,610 --> 00:25:24,620

visited Mars as part of a secret

618

00:25:31,000 --> 00:25:29,620

conspiracy that involved Barack Obama oh

619

00:25:33,550 --> 00:25:31,010

right

620

00:25:34,930 --> 00:25:33,560

monkeys throwing [h\_\_h] now man that's a

621

00:25:38,140 --> 00:25:34,940

they just throwing everything at the

622

00:25:40,210 --> 00:25:38,150

wall he says yes I'll read his last

623

00:25:41,500 --> 00:25:40,220

quote we'll move on this is by him this

624

00:25:44,830 --> 00:25:41,510

is by

625

00:25:46,810 --> 00:25:44,840

Andrew a former presidential candidate

626

00:25:48,580 --> 00:25:46,820

in trial where I had two different

627

00:25:51,310 --> 00:25:48,590

periods of service in the secret space

628

00:25:54,460 --> 00:25:51,320

program time traveling as a child in the

629

00:25:56,890 --> 00:25:54,470

late 60s in early 70s and going to Mars

630

00:25:59,890 --> 00:25:56,900

as a college student in the first half

631

00:26:04,030 --> 00:25:59,900

of the 80s we landed on Mars in 1964 the

632

00:26:06,789 --> 00:26:04,040

documentary source I I can cite but I

633

00:26:09,730 --> 00:26:06,799

can't proper is a French external

634

00:26:12,220 --> 00:26:09,740

Intelligence Organisation dossier which

635

00:26:15,010 --> 00:26:12,230

I was asked to read in the summer of

636

00:26:17,200 --> 00:26:15,020

1980 which also read by the future

637

00:26:18,940 --> 00:26:17,210

president of the United States President

638

00:26:20,620 --> 00:26:18,950

Barack Obama which referred to a crash

639

00:26:23,830 --> 00:26:20,630

landing by an American team of

640

00:26:26,860 --> 00:26:23,840

astronauts on Mars who perished because

641

00:26:29,799 --> 00:26:26,870

they were not rescued by the Martian

642

00:26:31,870 --> 00:26:29,809

humanoids I got a look into it but I got

643

00:26:35,159 --> 00:26:31,880

to find this French external

644

00:26:37,360 --> 00:26:35,169

intelligence dossier or da seer

645

00:26:39,390 --> 00:26:37,370

concerning this off to look into this

646

00:26:42,430 --> 00:26:39,400

further

647

00:26:43,840 --> 00:26:42,440

why would I don't know somebody's

648

00:26:46,299 --> 00:26:43,850

stories are so incredible Joe I don't

649

00:26:47,620 --> 00:26:46,309

know I'm not sure why this trial lawyer

650

00:26:49,480 --> 00:26:47,630

would want to come up with a story

651

00:26:52,270 --> 00:26:49,490

obviously maybe it's a no attention

652

00:26:55,260 --> 00:26:52,280

[\h\_\_\h] but if you figured that would ruin

653

00:26:58,030 --> 00:26:55,270

your kind of like your your law practice

654

00:27:00,549 --> 00:26:58,040

if you're kind of putting on line there

655

00:27:03,430 --> 00:27:00,559

I want the Mars with Barack Hussein

656

00:27:04,720 --> 00:27:03,440

Obama be President yeah I mean you can't

657

00:27:07,659 --> 00:27:04,730

even even be the head of overstock.com

658

00:27:10,870 --> 00:27:07,669

and say you were involved in some FBI

659

00:27:12,240 --> 00:27:10,880

shenanigans no no you can't Lewis is

660

00:27:18,010 --> 00:27:12,250

frowned upon

661

00:27:20,350 --> 00:27:18,020

are going to open up the phone lines

662

00:27:22,180 --> 00:27:20,360

here and see what you guys want to talk

663

00:27:24,789 --> 00:27:22,190

about how about that we got to hear from

664

00:27:27,490 --> 00:27:24,799

the people if they want to call in good

665

00:27:30,250 --> 00:27:27,500

now they're having fun and not yet now

666

00:27:31,960 --> 00:27:30,260

we're having fun just yet and I will try

667

00:27:35,500 --> 00:27:31,970

to fix the voicemail line for some

668

00:27:37,450 --> 00:27:35,510

reason our voicemail line hasn't been

669

00:27:39,640 --> 00:27:37,460

recording or taking phone calls so you

670

00:27:41,530 --> 00:27:39,650

guys try to call in after hours it's

671

00:27:43,180 --> 00:27:41,540

just going dead I'm not sure why

672

00:27:45,190 --> 00:27:43,190

probably happened during a Skype update

673

00:27:48,010 --> 00:27:45,200

so I will look into that this weekend

674

00:27:50,049 --> 00:27:48,020

and maybe get some more voicemails so I

675

00:27:53,590 --> 00:27:50,059

wouldn't mind plain voicemails we should

676

00:27:54,789 --> 00:27:53,600

do that all the time Joe we did yeah I

677

00:27:57,370 --> 00:27:54,799

don't know

678

00:27:58,750 --> 00:27:57,380

I you know when I've tried to call in

679

00:28:00,580 --> 00:27:58,760

when I've been away from a computer or

680

00:28:03,310 --> 00:28:00,590

whatever I use the six one four nine

681

00:28:05,560 --> 00:28:03,320

eight nine nine 109 or whatever it is

682

00:28:07,779 --> 00:28:05,570

yeah three eight nine one or nine three

683

00:28:10,690 --> 00:28:07,789

eight eight nine one oh yeah I'll call

684

00:28:14,830 --> 00:28:10,700

it I always get a busy signal hmm

685

00:28:16,360 --> 00:28:14,840

I don't know why that is well that's a

686

00:28:19,269 --> 00:28:16,370

Skype I mean that's all we got right now

687

00:28:20,680 --> 00:28:19,279

to take calls but yeah six one four

688

00:28:23,830 --> 00:28:20,690

three eight eight now I know and I'm be

689

00:28:25,690 --> 00:28:23,840

more than happy to take your phone calls

690

00:28:28,659 --> 00:28:25,700

we'll see how it goes though I would

691

00:28:30,909 --> 00:28:28,669

love to go I mean look as a younger

692

00:28:33,310 --> 00:28:30,919

fella I might have gone to Mars for war

693

00:28:35,830 --> 00:28:33,320

and stuff but yeah that doesn't sound so

694

00:28:36,639 --> 00:28:35,840

bad I mean Jesus Christ all we're doing

695

00:28:41,230 --> 00:28:36,649

down here

696

00:28:42,669 --> 00:28:41,240

then the other thing is that they got

697

00:28:44,649 --> 00:28:42,679

this little slave thing going up there

698

00:28:46,299 --> 00:28:44,659

it's just gonna be a mess you know 100

699

00:28:48,970 --> 00:28:46,309

and 200 years down the road with the

700

00:28:50,440 --> 00:28:48,980

16:19 thing going on now here I mean

701  
00:28:54,970 --> 00:28:50,450  
they're just never gonna let that go the

702  
00:28:56,590 --> 00:28:54,980  
[h\_\_\h] the sectoid x' and the Reptoids are

703  
00:28:58,389 --> 00:28:56,600  
gonna hate you know all the other

704  
00:29:00,190 --> 00:28:58,399  
different species once they finally

705  
00:29:03,220 --> 00:29:00,200  
become autonomous it's just gonna be a

706  
00:29:06,549 --> 00:29:03,230  
mess it certainly would be it'd be a

707  
00:29:08,440 --> 00:29:06,559  
diplomatic nightmare you said that there

708  
00:29:10,120 --> 00:29:08,450  
are it's not just the u.s. going up

709  
00:29:12,130 --> 00:29:10,130  
there the Russians have people up there

710  
00:29:14,850 --> 00:29:12,140  
it's a multinational team and there's

711  
00:29:19,090 --> 00:29:14,860  
various tribes of insectoids up there

712  
00:29:21,220 --> 00:29:19,100  
caller you are on the air go ahead

713  
00:29:25,139 --> 00:29:21,230

caller well god jesus chatline this is

714

00:29:28,299 --> 00:29:25,149

Leon hey Leon what's going on dude hey

715

00:29:29,710 --> 00:29:28,309

I'll tell you what for someone like me

716

00:29:32,169 --> 00:29:29,720

who believes in everything

717

00:29:37,299 --> 00:29:32,179

I got a call [h\_\_h] on this stuff okay

718

00:29:39,100 --> 00:29:37,309

I don't know man I mean I believe in I

719

00:29:41,289 --> 00:29:39,110

believe in so many crazy things and I

720

00:29:43,779 --> 00:29:41,299

feel so bad and calling [h\_\_h] on this

721

00:29:46,450 --> 00:29:43,789

because you know there are so many crazy

722

00:29:49,120 --> 00:29:46,460

ridiculous things that I really pretty

723

00:29:51,370 --> 00:29:49,130

much in my heart know or true you know

724

00:29:53,139 --> 00:29:51,380

but I just don't I don't know I mean I

725

00:29:55,810 --> 00:29:53,149

don't think we went to the moon so how

726

00:29:57,159 --> 00:29:55,820

could we be doing all this ya know if

727

00:29:58,419 --> 00:29:57,169

you're not a moon guy if you're not

728

00:30:00,100 --> 00:29:58,429

believing in the Apollo space program

729

00:30:03,370 --> 00:30:00,110

getting us to the moon this might be a

730

00:30:04,690 --> 00:30:03,380

little hard for you to swallow yeah yeah

731

00:30:06,490 --> 00:30:04,700

and the whole you know what I've been

732

00:30:08,290 --> 00:30:06,500

thinking about lately too is you know

733

00:30:10,660 --> 00:30:08,300

all these people talk about

734

00:30:12,610 --> 00:30:10,670

being abducted and stuff no-one's ever

735

00:30:15,760 --> 00:30:12,620

like asked like if they say that they

736

00:30:18,100 --> 00:30:15,770

were on the moon and like there's a have

737

00:30:20,350 --> 00:30:18,110

you ever heard of David Eckhart and if

738

00:30:22,780 --> 00:30:20,360

you heard him talking along strickler

739

00:30:24,730 --> 00:30:22,790

about some of his stuff that I know know

740

00:30:28,780 --> 00:30:24,740

the name but I don't know any of his

741

00:30:30,910 --> 00:30:28,790

stories he was on that factor of fake

742

00:30:34,930 --> 00:30:30,920

they did a whole episode on him back in

743

00:30:36,370 --> 00:30:34,940

you know that early in mid to 205 or 208

744

00:30:39,160 --> 00:30:36,380

or something like that when that show

745

00:30:41,650 --> 00:30:39,170

was on but this guy's got a lot going on

746

00:30:44,560 --> 00:30:41,660

you got to get the people listening out

747

00:30:46,660 --> 00:30:44,570

there and and you miking jokes yeah I

748

00:30:48,580 --> 00:30:46,670

know not Joe as much as you maybe want

749

00:30:54,400 --> 00:30:48,590

to get into this but his name's David

750

00:30:58,000 --> 00:30:54,410

Eckhart e ec k AR T I think it is but he

751  
00:30:59,470 --> 00:30:58,010  
did a something on open minds too one

752  
00:31:02,500 --> 00:30:59,480  
time if you go and look him up on

753  
00:31:04,870 --> 00:31:02,510  
YouTube you he's got photographic stuff

754  
00:31:06,310 --> 00:31:04,880  
in his bedroom stuff but anyway what I'm

755  
00:31:08,080 --> 00:31:06,320  
getting to his people they're abducted

756  
00:31:09,880 --> 00:31:08,090  
they say that they've been on the moon

757  
00:31:11,560 --> 00:31:09,890  
and he said he has to but I wish they'd

758  
00:31:14,049 --> 00:31:11,570  
ask these people what they see the earth

759  
00:31:16,570 --> 00:31:14,059  
to be you know what I mean answer this

760  
00:31:19,270 --> 00:31:16,580  
whole what the earth is no one's ever

761  
00:31:22,480 --> 00:31:19,280  
talked about that with the flat earthers

762  
00:31:24,880 --> 00:31:22,490  
and I'm I'm not a flat earther but I I

763  
00:31:28,570 --> 00:31:24,890

don't think it's round but I don't know

764

00:31:30,970 --> 00:31:28,580

if it's flat like they say but because I

765

00:31:32,260 --> 00:31:30,980

just that's the way I believe but that's

766

00:31:33,760 --> 00:31:32,270

another question but this guy there's

767

00:31:37,360 --> 00:31:33,770

just something about the way he talks

768

00:31:39,760 --> 00:31:37,370

and you know don't you feel bad - Mike I

769

00:31:43,090 --> 00:31:39,770

know you're a big art bell guy oh yeah

770

00:31:46,870 --> 00:31:43,100

uh-huh and I just I just I just can't

771

00:31:50,830 --> 00:31:46,880

swallow what's his name George Norris is

772

00:31:53,020 --> 00:31:50,840

a guy George Lauri oh gosh I I feel

773

00:31:54,669 --> 00:31:53,030

embarrassed listening to him you know

774

00:31:56,830 --> 00:31:54,679

how sometimes you listen to someone and

775

00:32:01,180 --> 00:31:56,840

you feel embarrassed form so you have to

776

00:32:02,710 --> 00:32:01,190

turn down the radio yeah I'm good I was

777

00:32:04,720 --> 00:32:02,720

a big fan of George Noory I don't I

778

00:32:07,299 --> 00:32:04,730

don't dislike him he just lets his

779

00:32:09,460 --> 00:32:07,309

guests say whatever he doesn't really

780

00:32:10,990 --> 00:32:09,470

challenge him too much Wow you hear that

781

00:32:14,320 --> 00:32:11,000

he did answer about weapons and whatnot

782

00:32:17,940 --> 00:32:14,330

EEA asks a few questions it's not only

783

00:32:21,610 --> 00:32:17,950

that it's just that he's just so like um

784

00:32:22,270 --> 00:32:21,620

he seems like an airhead to me you know

785

00:32:24,520 --> 00:32:22,280

what I'm

786

00:32:28,600 --> 00:32:24,530

he's not huh he's not a deep thinker

787

00:32:31,090 --> 00:32:28,610

like art Bell was no and nori doesn't

788

00:32:33,600 --> 00:32:31,100

really get into politics too much he

789

00:32:35,950 --> 00:32:33,610

doesn't he I mean he sees as of late

790

00:32:37,840 --> 00:32:35,960

from what I know of him he's kind of

791

00:32:39,850 --> 00:32:37,850

stayed on the paranormal kind of kick

792

00:32:41,920 --> 00:32:39,860

where as art Bell would definitely dip

793

00:32:44,560 --> 00:32:41,930

his toes into political conspiracies a

794

00:32:48,910 --> 00:32:44,570

little bit more but anyway Joe how are

795

00:32:50,170 --> 00:32:48,920

you hey man I am okay so fine it's good

796

00:32:53,350 --> 00:32:50,180

to hear from you it's always good to

797

00:32:54,610 --> 00:32:53,360

give your voice yeah yeah I I been

798

00:32:57,160 --> 00:32:54,620

watching you guys I really appreciate

799

00:32:59,650 --> 00:32:57,170

you on Saturday afternoons like that's a

800

00:33:03,100 --> 00:32:59,660

big time for me you know even I mean I

801  
00:33:04,930 --> 00:33:03,110  
have a life but not much of one but but

802  
00:33:07,210 --> 00:33:04,940  
I really enjoy you guys being on

803  
00:33:08,860 --> 00:33:07,220  
Saturdays I always look forward to and I

804  
00:33:10,480 --> 00:33:08,870  
always make sure that you I am at home

805  
00:33:12,460 --> 00:33:10,490  
so I'm put it on the big screen and

806  
00:33:14,110 --> 00:33:12,470  
stuff so I see it once you guys are done

807  
00:33:16,030 --> 00:33:14,120  
just thought I'd throw my two cents

808  
00:33:17,500 --> 00:33:16,040  
worth in on that you know but I feel

809  
00:33:19,630 --> 00:33:17,510  
kind of bad believing in all the

810  
00:33:22,000 --> 00:33:19,640  
nonsense I supposedly believe in and

811  
00:33:24,190 --> 00:33:22,010  
then think this is nonsense but I didn't

812  
00:33:27,010 --> 00:33:24,200  
do everyone's got an idea everyone's got

813  
00:33:28,930 --> 00:33:27,020

their own nonsense line yeah yeah yeah

814

00:33:30,580 --> 00:33:28,940

hey you guys take it easy and thanks a

815

00:33:32,320 --> 00:33:30,590

lot for all the content and we'll be

816

00:33:38,500 --> 00:33:32,330

will be talking to you soon take care of

817

00:33:40,090 --> 00:33:38,510

a on every night okay someone tried to

818

00:33:41,260 --> 00:33:40,100

call in during his saw cost you want to

819

00:33:43,540 --> 00:33:41,270

call back in fine we'll leave it up a

820

00:33:46,120 --> 00:33:43,550

little longer call back in yeah he's

821

00:33:47,410 --> 00:33:46,130

he's he's great caller and it's

822

00:33:49,870 --> 00:33:47,420

interesting he's got a very unique

823

00:33:52,390 --> 00:33:49,880

perspective I'm sure but uh I was before

824

00:33:56,560 --> 00:33:52,400

he called I I was gonna ask you

825

00:33:58,360 --> 00:33:56,570

night Ripper if what's your scale of

826

00:34:01,930 --> 00:33:58,370

belief on this like on a one to five

827

00:34:06,060 --> 00:34:01,940

scale um five being I totally buy it I

828

00:34:09,280 --> 00:34:06,070

think that I buy some of it I think that

829

00:34:13,750 --> 00:34:09,290

there there is a possibility that this

830

00:34:18,879 --> 00:34:13,760

guy has been used and that whatever

831

00:34:20,830 --> 00:34:18,889

membrane is partially correct and maybe

832

00:34:22,510 --> 00:34:20,840

not all of it maybe some of it same with

833

00:34:25,080 --> 00:34:22,520

like the Paul bennewitz and the Mirage

834

00:34:28,119 --> 00:34:25,090

man they fed him a lot of crazy

835

00:34:30,399 --> 00:34:28,129

information during that during that

836

00:34:31,720 --> 00:34:30,409

whole Mirage man scenario and I know a

837

00:34:34,119 --> 00:34:31,730

mysterious universe did a whole segment

838

00:34:35,540 --> 00:34:34,129

on it but there's also real things that

839

00:34:37,369 --> 00:34:35,550

were actually happening

840

00:34:38,750 --> 00:34:37,379

and I think with this information if

841

00:34:41,359 --> 00:34:38,760

this is what that is you mix in a little

842

00:34:44,030 --> 00:34:41,369

bit of truth and then some [h\_\_h]

843

00:34:45,770 --> 00:34:44,040

yeah and I don't know exactly what kind

844

00:34:47,149 --> 00:34:45,780

of technology they have to feed people

845

00:34:49,190 --> 00:34:47,159

information through their head but I

846

00:34:50,570 --> 00:34:49,200

think it's there and you can implant

847

00:34:52,879 --> 00:34:50,580

memories in people so I think there

848

00:34:56,089 --> 00:34:52,889

there might be some truth to it I don't

849

00:35:03,349 --> 00:34:56,099

know exactly which part though caller

850

00:35:04,700 --> 00:35:03,359

you're on yeah excuse me all right we

851

00:35:16,060 --> 00:35:04,710

can barely hear you are we on

852

00:35:20,570 --> 00:35:16,070

speakerphone yeah oh yeah hey so I was

853

00:35:22,010 --> 00:35:20,580

just just tuned in and I started hearing

854

00:35:24,020 --> 00:35:22,020

about Mars yeah

855

00:35:25,370 --> 00:35:24,030

have y'all heard about the the people to

856

00:35:27,230 --> 00:35:25,380

say they or maybe all we're talking

857

00:35:29,720 --> 00:35:27,240

about this and forgive me if y'all have

858

00:35:32,180 --> 00:35:29,730

they say they've been to Mars and

859

00:35:34,579 --> 00:35:32,190

there's like giant centipedes up there

860

00:35:38,960 --> 00:35:34,589

and there's a guy that says they he was

861

00:35:40,940 --> 00:35:38,970

put together by med bed well we we just

862

00:35:43,370 --> 00:35:40,950

played some Crips clips from a guy named

863

00:35:46,550 --> 00:35:43,380

captain Randy Cramer who claims to have

864

00:35:48,050 --> 00:35:46,560

been a Space Marine I think that's who

865

00:35:50,150 --> 00:35:48,060

I'm talking about he says there's like

866

00:35:54,320 --> 00:35:50,160

giant centipedes and it it sounds like

867

00:35:57,050 --> 00:35:54,330

that TV show from Fox called Red Planet

868

00:35:58,880 --> 00:35:57,060

yeah I don't know that cause oh he

869

00:36:00,859 --> 00:35:58,890

didn't mention like that he encountered

870

00:36:02,720 --> 00:36:00,869

some insectoid creatures he encountered

871

00:36:06,290 --> 00:36:02,730

some reptilians so yeah we're talking

872

00:36:08,000 --> 00:36:06,300

about that that subject yeah yeah he

873

00:36:09,920 --> 00:36:08,010

said he win the hung out with some of

874

00:36:12,109 --> 00:36:09,930

them like he made friends with them and

875

00:36:13,820 --> 00:36:12,119

was he was taken prisoner by him that's

876

00:36:15,650 --> 00:36:13,830

right we just we played that clip like

877

00:36:16,190 --> 00:36:15,660

about 10 minutes ago like he was

878

00:36:19,280 --> 00:36:16,200

captured

879

00:36:21,560 --> 00:36:19,290

oh and he's been oh yeah that's fine he

880

00:36:24,650 --> 00:36:21,570

spent time with them Joe just asked me

881

00:36:26,570 --> 00:36:24,660

what I believe the likelihood that

882

00:36:29,420 --> 00:36:26,580

this is true and I think their that it's

883

00:36:31,730 --> 00:36:29,430

it's possible that elements of his story

884

00:36:34,720 --> 00:36:31,740

might be true it might not be his story

885

00:36:38,270 --> 00:36:34,730

but not the elements that are true no

886

00:36:41,210 --> 00:36:38,280

it's kind of b-boy it's [h\_\_h] have

887

00:36:44,480 --> 00:36:41,220

you ever heard of me talk about like the

888

00:36:47,150 --> 00:36:44,490

the spaceships that he flies in they can

889

00:36:48,920 --> 00:36:47,160

go so fast and he talks about I mean I

890

00:36:51,650 --> 00:36:48,930

did a deep dive under this

891

00:36:56,330 --> 00:36:51,660

like a year ago whenever got or whenever

892

00:37:01,010 --> 00:36:56,340

because the quarry good and I like I

893

00:37:02,900 --> 00:37:01,020

feel like it uh it damages you have you

894

00:37:07,510 --> 00:37:02,910

know people that like to research stuff

895

00:37:10,460 --> 00:37:07,520

it gives us it not us but it kind of

896

00:37:14,030 --> 00:37:10,470

makes the subject look like it's full of

897

00:37:17,000 --> 00:37:14,040

wacko yeah it certainly can yeah yeah I

898

00:37:18,740 --> 00:37:17,010

told here you well and there's some

899

00:37:22,370 --> 00:37:18,750

stuff that's really cool like there's a

900

00:37:25,100 --> 00:37:22,380

guy Michael Shrek did if y'all know he

901  
00:37:31,040 --> 00:37:25,110  
does all the like deep dives into

902  
00:37:34,490 --> 00:37:31,050  
military aircraft and like I guess like

903  
00:37:36,770 --> 00:37:34,500  
the TBR three and like that stuff's

904  
00:37:39,020 --> 00:37:36,780  
really interesting to me but when

905  
00:37:41,540 --> 00:37:39,030  
someone's this guy comes out and he

906  
00:37:44,330 --> 00:37:41,550  
can't it like you ever eat here pilot

907  
00:37:48,560 --> 00:37:44,340  
like you saw the the flavor interviews

908  
00:37:52,220 --> 00:37:48,570  
with the guy that due to the f-18 with

909  
00:37:54,860 --> 00:37:52,230  
the Nimitz oh sure so you listen to the

910  
00:37:57,170 --> 00:37:54,870  
way that guy talks and then listen to

911  
00:38:00,710 --> 00:37:57,180  
the way this guy that went to Mars to

912  
00:38:02,600 --> 00:38:00,720  
Lux and it's like I don't feel like that

913  
00:38:05,720 --> 00:38:02,610

guy's been trained or anything you know

914

00:38:09,230 --> 00:38:05,730

what I mean it sounds like it doesn't

915

00:38:12,290 --> 00:38:09,240

sound legit yeah you know you got fair

916

00:38:14,690 --> 00:38:12,300

points there obviously that cadence is

917

00:38:16,160 --> 00:38:14,700

not the same as what you'd expect from a

918

00:38:19,160 --> 00:38:16,170

fighter pilot or someone who's been in

919

00:38:20,570 --> 00:38:19,170

the military as long as they've been

920

00:38:21,860 --> 00:38:20,580

I mean well and I'm not sure if the

921

00:38:23,600 --> 00:38:21,870

story happened him I believe that

922

00:38:25,760 --> 00:38:23,610

there's a secret space program I believe

923

00:38:27,080 --> 00:38:25,770

the military had presence in space I

924

00:38:27,620 --> 00:38:27,090

don't know if he was a part of it that's

925

00:38:29,390 --> 00:38:27,630

what I'm saying

926

00:38:31,160 --> 00:38:29,400

elements of the story are probably true

927

00:38:31,720 --> 00:38:31,170

but I don't know what which ones they

928

00:38:35,360 --> 00:38:31,730

are

929

00:38:40,730 --> 00:38:35,370

the cannon guy you know the British guy

930

00:38:41,960 --> 00:38:40,740

that hacked into NASA yeah um like I you

931

00:38:44,660 --> 00:38:41,970

know that's like a super interesting

932

00:38:46,940 --> 00:38:44,670

story I think that's that's cool

933

00:38:48,590 --> 00:38:46,950

and maybe they and I believe everything

934

00:38:50,360 --> 00:38:48,600

that guy says there's no reason why the

935

00:38:52,640 --> 00:38:50,370

US government what it wouldn't have

936

00:38:54,620 --> 00:38:52,650

tried to extradite them the way they did

937

00:38:56,960 --> 00:38:54,630

if he hadn't really done what he did

938

00:39:02,090 --> 00:38:56,970

yeah you know what I man did he found

939

00:39:04,460 --> 00:39:02,100

some indeed God did y'all see uh think

940

00:39:09,560 --> 00:39:04,470

I can't remember anybody's names right

941

00:39:11,510 --> 00:39:09,570

now the black vault y'all know that guy

942

00:39:13,520 --> 00:39:11,520

I don't know him by do you know black

943

00:39:16,160 --> 00:39:13,530

vault black vault does a lot of good

944

00:39:17,870 --> 00:39:16,170

research on youth ology yeah he's all

945

00:39:20,570 --> 00:39:17,880

the free does all the foyers and

946

00:39:23,210 --> 00:39:20,580

everything I can't remember his name

947

00:39:24,080 --> 00:39:23,220

greenwall John Greenwald jr. there's

948

00:39:28,640 --> 00:39:24,090

something there

949

00:39:31,010 --> 00:39:28,650

um and he came out today with emails

950

00:39:35,800 --> 00:39:31,020

from Lou Elizondo

951  
00:39:39,140 --> 00:39:35,810  
oh yeah Larry everything what's name

952  
00:39:41,480 --> 00:39:39,150  
well it was it was about Lou Elizondo

953  
00:39:44,660 --> 00:39:41,490  
trying to get those videos Declassified

954  
00:39:47,900 --> 00:39:44,670  
it was like some people might not know

955  
00:39:52,370 --> 00:39:47,910  
Hulu all's Ando is or the first guy Lou

956  
00:39:55,580 --> 00:39:52,380  
Elizondo is the guy part of the Academy

957  
00:39:59,210 --> 00:39:55,590  
to the stars with Tom DeLonge he was

958  
00:40:04,640 --> 00:39:59,220  
also a former the Department of Defense

959  
00:40:06,080 --> 00:40:04,650  
guy using the the military for he's he

960  
00:40:08,270 --> 00:40:06,090  
was part of the Department of Defense he

961  
00:40:10,910 --> 00:40:08,280  
was also on the History Channel most

962  
00:40:14,300 --> 00:40:10,920  
recent show called unidentified and

963  
00:40:16,430 --> 00:40:14,310

Lewis and the Lou Elizondo was odd from

964

00:40:18,530 --> 00:40:16,440

what I've heard absolutely critical in

965

00:40:20,720 --> 00:40:18,540

releasing that FLIR footage that

966

00:40:23,120 --> 00:40:20,730

everyone knows yeah from the the USS

967

00:40:24,920 --> 00:40:23,130

Nimitz and the Navy pilots that that's

968

00:40:28,970 --> 00:40:24,930

what these emails are about these emails

969

00:40:32,390 --> 00:40:28,980

are from him to a like superior and

970

00:40:35,080 --> 00:40:32,400

they're like hey you know can we can we

971

00:40:38,090 --> 00:40:35,090

bring these down to panel member house

972

00:40:39,830 --> 00:40:38,100

John Greenwald jr. put it but you know

973

00:40:43,700 --> 00:40:39,840

he showed the emails and everything and

974

00:40:44,840 --> 00:40:43,710

it was basically I mean I don't know

975

00:40:49,820 --> 00:40:44,850

people should check it out for

976  
00:40:52,670 --> 00:40:49,830  
themselves but it was very telling to me

977  
00:40:56,690 --> 00:40:52,680  
anyway about what Lou Elizondo was doing

978  
00:41:03,860 --> 00:40:56,700  
because he refers to them as UAVs and

979  
00:41:05,120 --> 00:41:03,870  
not you AP's oh yeah yeah okay but way

980  
00:41:06,830 --> 00:41:05,130  
buddy thank you very much for calling

981  
00:41:11,210 --> 00:41:06,840  
we're going to move on here a little bit

982  
00:41:15,810 --> 00:41:11,220  
I think oh yeah appreciate it

983  
00:41:18,850 --> 00:41:15,820  
oh man take care thank that subject

984  
00:41:21,100 --> 00:41:18,860  
got a people excited yeah I'm on

985  
00:41:22,270 --> 00:41:21,110  
blackboard calm I usually visit here

986  
00:41:23,650 --> 00:41:22,280  
about once a week because the guy does

987  
00:41:24,340 --> 00:41:23,660  
excellent work he's got a good radio

988  
00:41:26,860 --> 00:41:24,350

show too

989

00:41:28,510 --> 00:41:26,870

he's not the it's very straightforward

990

00:41:30,040 --> 00:41:28,520

he just very straightforward research he

991

00:41:32,470 --> 00:41:30,050

doesn't get goofy he doesn't talk about

992

00:41:34,390 --> 00:41:32,480

hot dogs like the way we do oh these are

993

00:41:37,560 --> 00:41:34,400

the best hot dogs are so succulent he

994

00:41:40,300 --> 00:41:37,570

doesn't get in that kind of stuff hmm

995

00:41:43,290 --> 00:41:40,310

considerate we have one more Collier Joe

996

00:41:48,160 --> 00:41:43,300

one more okay

997

00:41:50,500 --> 00:41:48,170

caller you're on the air guys hey it's

998

00:41:53,050 --> 00:41:50,510

bill I just want to call and tell you

999

00:41:57,040 --> 00:41:53,060

about my Mars experience and I went to

1000

00:42:01,300 --> 00:41:57,050

Mars I I think I want to hear this go

1001

00:42:05,130 --> 00:42:01,310

ahead oh yeah you had to go in in a big

1002

00:42:07,870 --> 00:42:05,140

quantum tunnel it was a quantum you know

1003

00:42:11,190 --> 00:42:07,880

wormhole and then you get there a couple

1004

00:42:13,180 --> 00:42:11,200

seconds and then you hang out and you

1005

00:42:15,400 --> 00:42:13,190

know there's people rally you're not

1006

00:42:16,930 --> 00:42:15,410

getting paid but they all kill with it

1007

00:42:19,390 --> 00:42:16,940

cuz you know eventually they're gonna

1008

00:42:21,520 --> 00:42:19,400

get a cushy job on earth you know

1009

00:42:24,430 --> 00:42:21,530

they've never been there and then you

1010

00:42:26,560 --> 00:42:24,440

know you go to speech council and it's

1011

00:42:28,720 --> 00:42:26,570

big enough to hold you know little

1012

00:42:30,550 --> 00:42:28,730

aliens they're like five foot tall or

1013

00:42:33,070 --> 00:42:30,560

you know 60 foot type you know there's

1014

00:42:34,990 --> 00:42:33,080

that big okay and then you know when you

1015

00:42:37,870 --> 00:42:35,000

got to come back you gotta you know get

1016

00:42:39,970 --> 00:42:37,880

your body in a quantum shift to end you

1017

00:42:41,650 --> 00:42:39,980

know enter the new party but you know

1018

00:42:44,920 --> 00:42:41,660

mine was a little tricky because you

1019

00:42:48,190 --> 00:42:44,930

know I had to get a guide named owl to

1020

00:42:51,130 --> 00:42:48,200

help me out quantum leap and he had

1021

00:42:52,510 --> 00:42:51,140

problems with his computers Iggy and but

1022

00:42:55,450 --> 00:42:52,520

eventually it all got worked out and

1023

00:42:59,230 --> 00:42:55,460

they took me back to my fat ass I feel

1024

00:43:02,470 --> 00:42:59,240

like this is a TV show no no no never

1025

00:43:06,040 --> 00:43:02,480

was no was not that it's not a all new

1026

00:43:09,010 --> 00:43:06,050

quantum quantum you know it's the whole

1027

00:43:10,870 --> 00:43:09,020

thing is quantum it's also honor it's

1028

00:43:15,280 --> 00:43:10,880

awesome like you were bouncing and

1029

00:43:16,990 --> 00:43:15,290

leaping we quantum that mean yes they

1030

00:43:19,720 --> 00:43:17,000

wanted to call it that but we called it

1031

00:43:23,650 --> 00:43:19,730

you know quantum dynamism crystal

1032

00:43:25,510 --> 00:43:23,660

methodology yeah I like what Bill's

1033

00:43:27,250 --> 00:43:25,520

getting at here because when I was

1034

00:43:28,690 --> 00:43:27,260

listening to that guy talk over certain

1035

00:43:30,609 --> 00:43:28,700

things where it was like the

1036

00:43:35,140 --> 00:43:30,619

want some fluid or some quantum quantum

1037

00:43:37,260 --> 00:43:35,150

fluid dynamics it was like all right now

1038

00:43:40,530 --> 00:43:37,270

we're done we are so done my god

1039

00:43:43,359 --> 00:43:40,540

Snickers yeah what's that

1040

00:43:45,760 --> 00:43:43,369

it's the quantum fluid yeah it's a whole

1041

00:43:48,609 --> 00:43:45,770

it's a whole quantum thing it says to

1042

00:43:51,190 --> 00:43:48,619

quantum shift a quantum leap you know

1043

00:43:53,079 --> 00:43:51,200

whatever you got it's quantum space for

1044

00:43:55,349 --> 00:43:53,089

two confidential quantico it's kind of

1045

00:43:58,630 --> 00:43:55,359

with that stuff - sure

1046

00:44:00,520 --> 00:43:58,640

hey it's a ride I mean just took you

1047

00:44:02,680 --> 00:44:00,530

guys on a little bit of a ride through

1048

00:44:06,099 --> 00:44:02,690

one man's account of the secret space

1049

00:44:08,380 --> 00:44:06,109

program you know I'm glad you had a

1050

00:44:09,730 --> 00:44:08,390

positive experience in your quantum leap

1051

00:44:12,760 --> 00:44:09,740

program note

1052

00:44:15,640 --> 00:44:12,770

oh well except for when they put me in a

1053

00:44:17,920 --> 00:44:15,650

couple of people's bodies from 1950 yeah

1054

00:44:20,740 --> 00:44:17,930

you know I had to work my way out of it

1055

00:44:22,630 --> 00:44:20,750

somehow by yeah making him fall in love

1056

00:44:26,589 --> 00:44:22,640

or some [h\_\_h] but whatever is the key

1057

00:44:28,420 --> 00:44:26,599

yeah you were you were old it was yeah I

1058

00:44:31,180 --> 00:44:28,430

think it all sounds very familiar I

1059

00:44:33,849 --> 00:44:31,190

think it was didn't you have to set

1060

00:44:37,859 --> 00:44:33,859

right what once went wrong

1061

00:44:40,720 --> 00:44:37,869

yeah yeah pretty much yeah yeah you know

1062

00:44:42,309 --> 00:44:40,730

do ya you know if Jeff cake gets shot

1063

00:44:44,620 --> 00:44:42,319

you got to be The Bodyguard that like

1064

00:44:45,550 --> 00:44:44,630

you know it's to jackieo and says hey

1065

00:44:49,270 --> 00:44:45,560

baby it's cool

1066

00:44:51,579 --> 00:44:49,280

yeah I I do I mean I think I've heard

1067

00:44:55,359 --> 00:44:51,589

your story before and I'm a big fan of

1068

00:44:57,730 --> 00:44:55,369

this story well that's what they do you

1069

00:44:59,680 --> 00:44:57,740

know they take things are real and they

1070

00:45:03,160 --> 00:44:59,690

make them stories on TV that maldo

1071

00:45:04,839 --> 00:45:03,170

truths you not I mean do you ever find

1072

00:45:06,670 --> 00:45:04,849

yourself that's as fast for the images

1073

00:45:09,030 --> 00:45:06,680

and you're facing mirror images that

1074

00:45:13,060 --> 00:45:09,040

were you're on

1075

00:45:14,800 --> 00:45:13,070

everybody was yet his only guide you

1076  
00:45:18,160 --> 00:45:14,810  
sound like you may have had a guy being

1077  
00:45:21,850 --> 00:45:18,170  
foul yeah-yeah-yeah-yeah-yeah named

1078  
00:45:25,030 --> 00:45:21,860  
Ziggy yes well thank you that that Ziggy

1079  
00:45:28,300 --> 00:45:25,040  
he always [h\_\_\h] things up and you know

1080  
00:45:33,580 --> 00:45:28,310  
it was good technology for the time you

1081  
00:45:37,600 --> 00:45:33,590  
know you know we go to space you know in

1082  
00:45:39,010 --> 00:45:37,610  
1955 and we're starting out in space but

1083  
00:45:40,390 --> 00:45:39,020  
there's all these other aliens heard

1084  
00:45:42,070 --> 00:45:40,400  
this like yeah yeah we're gonna be cool

1085  
00:45:42,520 --> 00:45:42,080  
with you guys we're gonna get war with

1086  
00:45:48,280 --> 00:45:42,530  
you

1087  
00:45:50,350 --> 00:45:48,290  
but obviously they've been in space for

1088  
00:45:52,000 --> 00:45:50,360

a long unless and they're not having the

1089

00:45:53,830 --> 00:45:52,010

ability to kick ass because we have the

1090

00:45:56,130 --> 00:45:53,840

quantum leap c'mon we do the quantum

1091

00:46:00,580 --> 00:45:56,140

leaping that is one thing we do have

1092

00:46:01,590 --> 00:46:00,590

well hey thank you Bill or Sam I don't

1093

00:46:08,470 --> 00:46:01,600

know how to call you anymore

1094

00:46:10,990 --> 00:46:08,480

stearate which one was it

1095

00:46:15,790 --> 00:46:11,000

oh yeah was I know a just played that I

1096

00:46:19,300 --> 00:46:15,800

got ants and they got think we played a

1097

00:46:22,030 --> 00:46:19,310

full song all right bill well hey thank

1098

00:46:23,740 --> 00:46:22,040

you very much you love you love it love

1099

00:46:27,090 --> 00:46:23,750

it I wanted for Christmas absolutely

1100

00:46:35,080 --> 00:46:27,100

Christmas all right take care of both

1101  
00:46:36,630 --> 00:46:35,090  
pissed through that boner that was a

1102  
00:46:38,890 --> 00:46:36,640  
good little thing that we did the

1103  
00:46:40,930 --> 00:46:38,900  
getting the slogan like having a

1104  
00:46:43,120 --> 00:46:40,940  
whatever it was wasn't it like a day or

1105  
00:46:45,220 --> 00:46:43,130  
a week or some contests catchphrase

1106  
00:46:47,680 --> 00:46:45,230  
contests yeah I like that that was fun

1107  
00:46:49,390 --> 00:46:47,690  
and oxygen induced thinking yeah I did

1108  
00:46:52,990 --> 00:46:49,400  
notice we're having video glitching

1109  
00:46:55,090 --> 00:46:53,000  
that's true and it was if this looks

1110  
00:46:56,020 --> 00:46:55,100  
like a field of colors for a few seconds

1111  
00:46:57,160 --> 00:46:56,030  
and it goes back to normal

1112  
00:46:59,860 --> 00:46:57,170  
I don't know what's going on and I don't

1113  
00:47:03,210 --> 00:46:59,870

know why it's it's going it's probably

1114

00:47:05,590 --> 00:47:03,220

restream is going on with the the video

1115

00:47:07,090 --> 00:47:05,600

interlacing or something I don't know

1116

00:47:09,580 --> 00:47:07,100

what's going on but the audio sound a

1117

00:47:11,380 --> 00:47:09,590

quantum quantum something quantum is

1118

00:47:15,820 --> 00:47:11,390

going on some kind of quantum fluidity

1119

00:47:20,110 --> 00:47:15,830

is interjecting itself into our stream

1120

00:47:23,220 --> 00:47:20,120

are very fluid stream are very powerful

1121

00:47:25,990 --> 00:47:23,230

a very powerful influence

1122

00:47:29,290 --> 00:47:26,000

if you want to join the stack or disco
