

ST. GERMAIN
THE TIME TRAVELING
VAMPIRE

1
00:00:05,749 --> 00:00:02,659
a story that has been around for quite a

2
00:00:10,700 --> 00:00:05,759
while this is a story about a person

3
00:00:12,320 --> 00:00:10,710
called the count of st. Germain a fairly

4
00:00:15,230 --> 00:00:12,330
interesting character there's a lot of

5
00:00:18,590 --> 00:00:15,240
claims about this person first of which

6
00:00:20,510 --> 00:00:18,600
is that this person was time-traveling

7
00:00:22,759 --> 00:00:20,520
vampire this is a time-traveling vampire

8
00:00:24,259 --> 00:00:22,769
story that's correct Joe though the

9
00:00:27,769 --> 00:00:24,269
first flame about the count of st.

10
00:00:29,990 --> 00:00:27,779
Germain is that he was the son of the

11
00:00:31,999 --> 00:00:30,000
Prince of Transylvania

12
00:00:37,100 --> 00:00:32,009
oh that's over there in Europe

13
00:00:41,110 --> 00:00:37,110

Transylvania but in the in the 1740s he

14

00:00:43,670 --> 00:00:41,120

hung out with Harold woful Harold

15

00:00:47,500 --> 00:00:43,680

Walpole the son of a British prime

16

00:00:51,950 --> 00:00:47,510

minister at the time and this guy

17

00:00:55,689 --> 00:00:51,960

reported that the count was not only

18

00:00:58,369 --> 00:00:55,699

extremely talented at playing violin and

19

00:01:01,490 --> 00:00:58,379

music composition but he was insanely

20

00:01:05,690 --> 00:01:01,500

mad and odd at the same time

21

00:01:07,640 --> 00:01:05,700

uh the count was so out there in crazy

22

00:01:11,600 --> 00:01:07,650

in his personality that he was arrested

23

00:01:13,910 --> 00:01:11,610

for spying but he was released pretty

24

00:01:16,400 --> 00:01:13,920

soon after by the king if it was

25

00:01:19,160 --> 00:01:16,410

verified he wasn't spied he then left

26

00:01:23,690 --> 00:01:19,170

for mainly in Europe after that so this

27

00:01:26,090 --> 00:01:23,700

guy was hopscotching and and in across

28

00:01:28,400 --> 00:01:26,100

Europe with a bundle that her he said

29

00:01:30,469 --> 00:01:28,410

before Jets were even Jets yeah that's

30

00:01:31,700 --> 00:01:30,479

right so you would say after after

31

00:01:35,570 --> 00:01:31,710

hanging out in England he went to

32

00:01:39,320 --> 00:01:35,580

mainland Europe and years later he was

33

00:01:42,320 --> 00:01:39,330

found in Paris hanging out with Louis

34

00:01:45,730 --> 00:01:42,330

the 15th and was said to have gone on a

35

00:01:49,070 --> 00:01:45,740

lot of different secret missions or

36

00:01:51,200 --> 00:01:49,080

Louis 15 they didn't really go it's not

37

00:01:55,070 --> 00:01:51,210

really any description of what those

38

00:01:57,170 --> 00:01:55,080

secret missions were but he was tasked

39

00:01:59,529 --> 00:01:57,180

with doing some interesting things and

40

00:02:03,380 --> 00:01:59,539

in the laboratory one of which was

41

00:02:05,840 --> 00:02:03,390

dyeing fabrics so this guy was not only

42

00:02:10,070 --> 00:02:05,850

a a well well-versed in music

43

00:02:11,750 --> 00:02:10,080

composition but he is a chemist or at

44

00:02:14,570 --> 00:02:11,760

the time it probably be kind of

45

00:02:17,720 --> 00:02:14,580

classified as an alchemist because it

46

00:02:20,900 --> 00:02:17,730

was also rumored that this guy would

47

00:02:23,420 --> 00:02:20,910

just hand out diamonds to people that he

48

00:02:26,620 --> 00:02:23,430

liked be walking down the street you are

49

00:02:29,350 --> 00:02:26,630

pretty friendly with the count of the

50

00:02:31,670 --> 00:02:29,360

saint-germain boom you get a diamond

51
00:02:33,590 --> 00:02:31,680
come hang out with a count at the party

52
00:02:35,120 --> 00:02:33,600
boom you get a diamond and it was

53
00:02:37,130 --> 00:02:35,130
alleged that this guy was just creating

54
00:02:40,230 --> 00:02:37,140
diamonds through his alchemy and just

55
00:02:42,840 --> 00:02:40,240
turning regular rocks into diamonds

56
00:02:47,040 --> 00:02:42,850
and there are rumors floating around

57
00:02:51,060 --> 00:02:47,050
that this guy was hundreds or thousands

58
00:02:57,540 --> 00:02:51,070
of years old and that he was present at

59
00:02:59,780 --> 00:02:57,550
the Council of Nicaea in 325 AD now if

60
00:03:04,590 --> 00:02:59,790
you know that the Council of Nikias it

61
00:03:07,740 --> 00:03:04,600
was the council that was was convened

62
00:03:11,210 --> 00:03:07,750
and assembled all the Christendom and

63
00:03:15,090 --> 00:03:11,220

resulted in a uniform Christian doctrine

64

00:03:16,760 --> 00:03:15,100

all the the Nicene Nicene Creed

65

00:03:21,740 --> 00:03:16,770

so this there's rumors that this guy was

66

00:03:23,880 --> 00:03:21,750

there in 325 AD at the council and then

67

00:03:26,699 --> 00:03:23,890

next thing you know he's appearing in

68

00:03:30,060 --> 00:03:26,709

the the 1400 is hanging out with kings

69

00:03:31,500 --> 00:03:30,070

and queens so after Paris he wound up

70

00:03:33,560 --> 00:03:31,510

going to Russia for a little bit hanging

71

00:03:37,380 --> 00:03:33,570

out with Catholic grades I guess and

72

00:03:40,750 --> 00:03:37,390

then then in German after Germany yeah

73

00:03:45,369 --> 00:03:40,760

or in Germany he continued his lab work

74

00:03:46,270 --> 00:03:45,379

uh then supposedly in 1784 the count

75

00:03:48,640 --> 00:03:46,280

passed away

76

00:03:51,819 --> 00:03:48,650

however there were sightings of the

77

00:03:54,190 --> 00:03:51,829

count throughout Europe in the 1800s so

78

00:03:57,280 --> 00:03:54,200

this guy was kind of like Elvis you know

79

00:03:58,240 --> 00:03:57,290

he's dead in the late 1700s next thing

80

00:04:01,059 --> 00:03:58,250

you know they're sightings of them

81

00:04:02,619 --> 00:04:01,069

everywhere I don't know Richard you know

82

00:04:05,380 --> 00:04:02,629

there are still sightings of Elvis I

83

00:04:07,960 --> 00:04:05,390

don't think that there are I think they

84

00:04:10,479 --> 00:04:07,970

be the sightings of Elvis Cray is kind

85

00:04:11,830 --> 00:04:10,489

of guy vocalist works the he works the

86

00:04:13,809 --> 00:04:11,840

produce counter at my local grocery

87

00:04:15,699 --> 00:04:13,819

store ah cool well I'm glad we finally

88

00:04:17,650 --> 00:04:15,709

found work it doesn't have the same hair

89

00:04:19,390 --> 00:04:17,660

he doesn't look the same he doesn't

90

00:04:22,180 --> 00:04:19,400

dress in the rhinestones in the jumpsuit

91

00:04:24,219 --> 00:04:22,190

doesn't look like him at all he's also a

92

00:04:26,860 --> 00:04:24,229

black woman but I'm guarantee you that

93

00:04:30,820 --> 00:04:26,870

is Elvis yeah well there are sightings

94

00:04:33,340 --> 00:04:30,830

of the the count of st. Germain as many

95

00:04:38,500 --> 00:04:33,350

and numerous as Elvis in modern day so

96

00:04:41,469 --> 00:04:38,510

after after his supposed death in 1784

97

00:04:45,850 --> 00:04:41,479

the next sightings took place in New

98

00:04:48,490 --> 00:04:45,860

Orleans in the early 1900s and in New

99

00:04:51,700 --> 00:04:48,500

Orleans he was known as Jacques st.

100

00:04:54,790 --> 00:04:51,710

Germaine he worked his way into high

101
00:04:57,279 --> 00:04:54,800
society and hosted lavish parties he'd

102
00:04:58,779 --> 00:04:57,289
speak of historical events in great

103
00:05:00,730 --> 00:04:58,789
detail at these parties like he had just

104
00:05:05,890 --> 00:05:00,740
recount recount all these amazing

105
00:05:08,200 --> 00:05:05,900
details of places and events that he

106
00:05:11,379 --> 00:05:08,210
attended throughout the entire history

107
00:05:13,990 --> 00:05:11,389
of you know modern day I guess ranging

108
00:05:18,279 --> 00:05:14,000
from year 300 up until the nineteen

109
00:05:20,589 --> 00:05:18,289
hundreds at these at these parties that

110
00:05:23,020 --> 00:05:20,599
he threw he would never eat or drink

111
00:05:26,140 --> 00:05:23,030
even though he was offered you know

112
00:05:28,990 --> 00:05:26,150
bottles of wine or food possibly even

113
00:05:30,550 --> 00:05:29,000

crumpets he denied them all and one of

114

00:05:34,149 --> 00:05:30,560

these parties though the cops were

115

00:05:36,640 --> 00:05:34,159

called because a woman fell from his

116

00:05:39,820 --> 00:05:36,650

belkin balcony it was determined later

117

00:05:42,959 --> 00:05:39,830

though that the woman jumped in terror

118

00:05:48,029 --> 00:05:42,969

she did survive the fall

119

00:05:50,909 --> 00:05:48,039

and during the interview process she

120

00:05:54,629 --> 00:05:50,919

claimed that she had jumped from the

121

00:05:57,809 --> 00:05:54,639

balcony to escape saint-germain she also

122

00:06:02,900 --> 00:05:57,819

said that he had bitten her on her neck

123

00:06:02,900 --> 00:06:02,910

during the attack so

124

00:06:07,610 --> 00:06:05,360

cops were like okay you claim that the

125

00:06:09,230 --> 00:06:07,620

this guy Jacques Germain this guy who's

126

00:06:10,190 --> 00:06:09,240

thrown all these highfalutin parties

127

00:06:11,780 --> 00:06:10,200

tried to bite you

128

00:06:13,640 --> 00:06:11,790

we'll go talk to him so the cops talked

129

00:06:15,440 --> 00:06:13,650

to him and they said why don't you just

130

00:06:17,840 --> 00:06:15,450

come on down to the station tomorrow and

131

00:06:20,540 --> 00:06:17,850

we'll sort this whole entire thing out

132

00:06:23,150 --> 00:06:20,550

so the next day the cops were sitting

133

00:06:25,370 --> 00:06:23,160

around waiting for the Jacques st.

134

00:06:25,870 --> 00:06:25,380

Germaine to show up he didn't show up at

135

00:06:28,550 --> 00:06:25,880

all

136

00:06:32,690 --> 00:06:28,560

so the cops took it upon themselves to

137

00:06:36,220 --> 00:06:32,700

go back to the counts house and there

138

00:06:39,350 --> 00:06:36,230

they didn't find him he had disappeared

139

00:06:40,700 --> 00:06:39,360

a lot of his belongings were still there

140

00:06:45,260 --> 00:06:40,710

but he was nowhere to be found

141

00:06:48,160 --> 00:06:45,270

they did find several open bottles of

142

00:06:50,870 --> 00:06:48,170

wine but the wine bottles were full but

143

00:06:53,480 --> 00:06:50,880

when they tested the wine bottles they

144

00:06:57,010 --> 00:06:53,490

poured it out all the wine bottles were

145

00:06:59,860 --> 00:06:57,020

full of blood

146

00:07:02,670 --> 00:06:59,870

leading some people to conclude that

147

00:07:06,100 --> 00:07:02,680

this guy the count of st. Germain is

148

00:07:09,999 --> 00:07:06,110

either a time-traveling vampire just a

149

00:07:12,790 --> 00:07:10,009

long living vampire or this person is

150

00:07:14,469 --> 00:07:12,800

from a long line of just amazing

151

00:07:15,909 --> 00:07:14,479

storytellers in this key path this story

152

00:07:19,450 --> 00:07:15,919

on from one generation to the next to

153

00:07:21,909 --> 00:07:19,460

kind of perpetuate this kind of myth the

154

00:07:27,490 --> 00:07:21,919

last sighting of this guy there was a

155

00:07:30,430 --> 00:07:27,500

guy in France in 1972 that claimed to be

156

00:07:35,080 --> 00:07:30,440

the count of st. Germain this guy's name

157

00:07:36,850 --> 00:07:35,090

was Richard Chan free this guy was a

158

00:07:41,980 --> 00:07:36,860

handsome good-looking guy he dated a

159

00:07:46,689 --> 00:07:41,990

very notable singer at the time but he

160

00:07:49,330 --> 00:07:46,699

later committed suicide by a carbon

161

00:07:54,430 --> 00:07:49,340

monoxide from from a closed garage door

162

00:07:56,800 --> 00:07:54,440

though he didn't he tried this guy in on

163

00:07:59,110 --> 00:07:56,810

French TV tried to prove prove that he

164

00:08:01,570 --> 00:07:59,120

was the the authentic the original count

165

00:08:04,120 --> 00:08:01,580

of st. Germain by doing some alchemy by

166

00:08:07,270 --> 00:08:04,130

turning something into gold led into

167

00:08:09,219 --> 00:08:07,280

gold but he failed to do that though it

168

00:08:11,950 --> 00:08:09,229

didn't work he died from carbon monoxide

169

00:08:14,170 --> 00:08:11,960

poisoning his garage I know what's the

170

00:08:15,490 --> 00:08:14,180

bad kind of gas that you comes out of

171

00:08:17,800 --> 00:08:15,500

the exhaust from monoxide yeah I just

172

00:08:19,420 --> 00:08:17,810

was was he not familiar with the rope

173

00:08:21,279 --> 00:08:19,430

you can pull down to open garage doors I

174

00:08:25,510 --> 00:08:21,289

don't think he that was before the road

175

00:08:27,040 --> 00:08:25,520

cratchit that was free rope well we'll

176
00:08:29,920 --> 00:08:27,050
send someone over there from the racing

177
00:08:32,459 --> 00:08:29,930
team to put a rope on that door yes that

178
00:08:35,050 --> 00:08:32,469
was the the brief rundown of the

179
00:08:36,130 --> 00:08:35,060
so-called time-traveling vampire to

180
00:08:39,190 --> 00:08:36,140
count Oh st. Germain

181
00:08:42,399 --> 00:08:39,200
there was I'll put a put a link in

182
00:08:43,899 --> 00:08:42,409
description there's a YouTube video from

183
00:08:45,550 --> 00:08:43,909
in search of I don't know if you guys

184
00:08:48,550 --> 00:08:45,560
remember that show hosted by Leonard

185
00:08:51,519 --> 00:08:48,560
Nimoy back in the 70s in search of did a

186
00:08:54,400 --> 00:08:51,529
whole big long our episode on the count

187
00:08:56,260 --> 00:08:54,410
of st. Germain and I think that I think

188
00:08:58,360 --> 00:08:56,270

there's some records of this guy a lot

189

00:09:00,940 --> 00:08:58,370

of is this kind of like myths and fairy

190

00:09:03,100 --> 00:09:00,950

tales urban legends and I think it just

191

00:09:05,319 --> 00:09:03,110

kind of gets all woven together to

192

00:09:07,630 --> 00:09:05,329

create this fantastical story of a

193

00:09:09,150 --> 00:09:07,640

time-traveling vampire like Spartacus

194

00:09:10,950 --> 00:09:09,160

question on it was if

195

00:09:12,840 --> 00:09:10,960

if he was rumored to be seen at

196

00:09:16,350 --> 00:09:12,850

different events in year 300 the Year

197

00:09:20,070 --> 00:09:16,360

1700 1950s who was the eyewitness who

198

00:09:26,190 --> 00:09:20,080

was spotting him at multiple events

199

00:09:27,810 --> 00:09:26,200

across 1,600 1,600 years who's that guy

200

00:09:29,940 --> 00:09:27,820

and why is he using for so much that's

201

00:09:32,100 --> 00:09:29,950

the actual time-traveling vampire that's
