

1  
00:00:07,920 --> 00:00:04,110  
hey everyone

2  
00:00:10,920 --> 00:00:07,930  
the normal obedient shows will start up

3  
00:00:16,310 --> 00:00:13,770  
still getting this studio set up so

4  
00:00:20,660 --> 00:00:16,320  
waiting for all my computer's

5  
00:00:23,750 --> 00:00:20,670  
microphones compressors rack equipment

6  
00:00:25,940 --> 00:00:23,760  
the Internet's here that's good

7  
00:00:27,939 --> 00:00:25,950  
spotty every now and again but I think

8  
00:00:30,460 --> 00:00:27,949  
it over

9  
00:00:32,979 --> 00:00:30,470  
on my John Deere tracker taking up the

10  
00:00:35,100 --> 00:00:32,989  
track because

11  
00:00:39,400 --> 00:00:35,110  
the driveway

12  
00:00:45,979 --> 00:00:42,190  
I will be doing the union of the

13  
00:00:50,319 --> 00:00:45,989

unwanted show on Monday

14

00:00:54,050 --> 00:00:50,329

I think we'll have a regular obdam show

15

00:00:59,000 --> 00:00:56,030

I think joel is getting ready to become

16

00:01:03,810 --> 00:01:01,680

Mike will have

17

00:01:06,090 --> 00:01:03,820

have regular shows I got some stuff

18

00:01:10,010 --> 00:01:06,100

about the

19

00:01:12,620 --> 00:01:10,020

thrown mysteries from Colorado

20

00:01:15,190 --> 00:01:12,630

we knew

21

00:01:18,500 --> 00:01:15,200

China reacts

22

00:01:20,990 --> 00:01:18,510

and the missing four lifts

23

00:01:22,970 --> 00:01:21,000

it's all happening

24

00:01:25,070 --> 00:01:22,980

and it's trying to get it up as quickly

25

00:01:27,560 --> 00:01:25,080

as possible I try to get back into the

26

00:01:28,830 --> 00:01:27,570

news because I've taken quite a bit of

27

00:01:30,700 --> 00:01:28,840

time off from

28

00:01:33,430 --> 00:01:30,710

don't eat introduce

29

00:01:36,340 --> 00:01:33,440

and it's been good I recommend it for

30

00:01:36,350 --> 00:01:44,070

Nolan's inter news everything up
