

SUB TROUBLES

1
00:00:00,270 --> 00:00:07,269
[Applause]

2
00:00:14,870 --> 00:00:11,030
and this one is titled us nuclear sub

3
00:00:17,430 --> 00:00:14,880
collides with mystery object

4
00:00:19,750 --> 00:00:17,440
oh yes uh the u.s nuclear attack

5
00:00:23,189 --> 00:00:19,760
submarine has suffered damage after

6
00:00:25,349 --> 00:00:23,199
striking an unknown object in the south

7
00:00:26,550 --> 00:00:25,359
china sea

8
00:00:31,509 --> 00:00:26,560
uh

9
00:00:33,430 --> 00:00:31,519
this has been making the rounds and i

10
00:00:34,630 --> 00:00:33,440
will play this new story right now here

11
00:00:36,069 --> 00:00:34,640
we go

12
00:00:37,830 --> 00:00:36,079
we're learning that one of the navy's

13
00:00:39,590 --> 00:00:37,840

nuclear-powered submarines hit an

14

00:00:41,830 --> 00:00:39,600

underwater object in the south china sea

15

00:00:43,590 --> 00:00:41,840

last saturday 11 sailors on board were

16

00:00:46,150 --> 00:00:43,600

injured and the navy says the sub is

17

00:00:49,190 --> 00:00:46,160

fully operational raymie nolcentio is

18

00:00:51,029 --> 00:00:49,200

with us in hong kong raymie good morning

19

00:00:52,549 --> 00:00:51,039

nate good morning that's right u.s

20

00:00:54,630 --> 00:00:52,559

military officials are saying that they

21

00:00:56,630 --> 00:00:54,640

waited five days before going public

22

00:00:59,110 --> 00:00:56,640

with this news in order to maintain

23

00:01:01,510 --> 00:00:59,120

operational security now the sub in

24

00:01:03,910 --> 00:01:01,520

question is the uss connecticut it's

25

00:01:06,149 --> 00:01:03,920

classified as a seawolf class fast

26
00:01:08,310 --> 00:01:06,159
attack submarine and in a statement the

27
00:01:09,910 --> 00:01:08,320
u.s pacific fleet says it's in safe and

28
00:01:12,789 --> 00:01:09,920
stable condition that its nuclear

29
00:01:14,870 --> 00:01:12,799
propulsion plan was not impacted and no

30
00:01:16,630 --> 00:01:14,880
one sustained life-threatening injuries

31
00:01:18,149 --> 00:01:16,640
now this incident though of course is

32
00:01:20,070 --> 00:01:18,159
happening at a time of high tensions

33
00:01:21,910 --> 00:01:20,080
between beijing and washington just

34
00:01:24,070 --> 00:01:21,920
weeks after the us and the uk signed a

35
00:01:26,310 --> 00:01:24,080
deal to supply nuclear-powered subs to

36
00:01:28,149 --> 00:01:26,320
australia and really just days after

37
00:01:29,990 --> 00:01:28,159
china sent a record number of military

38
00:01:32,870 --> 00:01:30,000

aircraft near taiwan

39

00:01:34,789 --> 00:01:32,880

china today expressed grave concerns

40

00:01:37,030 --> 00:01:34,799

urging the u.s to give details about the

41

00:01:39,190 --> 00:01:37,040

sub's mission and questioning whether it

42

00:01:41,670 --> 00:01:39,200

may have caused a nuclear leak under the

43

00:01:43,350 --> 00:01:41,680

sea as for the uss connecticut it was

44

00:01:45,670 --> 00:01:43,360

last reported to be making its way to

45

00:01:47,429 --> 00:01:45,680

the u.s territory of guam u.s military

46

00:01:49,270 --> 00:01:47,439

officials say that it did not hit

47

00:01:50,950 --> 00:01:49,280

another submarine but it might have hit

48

00:01:53,030 --> 00:01:50,960

some kind of container or some kind of

49

00:01:57,429 --> 00:01:53,040

submerged vessel the u.s of course says

50

00:02:01,830 --> 00:01:59,749

raymie in hosencio for us in hong kong

51

00:02:03,990 --> 00:02:01,840

raymie thank you very much

52

00:02:06,230 --> 00:02:04,000

my guy needs a uh a windscreen on his

53

00:02:07,590 --> 00:02:06,240

microphone it was very windy it sounded

54

00:02:10,630 --> 00:02:07,600

like he was out in the middle of a

55

00:02:13,030 --> 00:02:10,640

windstorm or under the sea

56

00:02:14,790 --> 00:02:13,040

it uh very concerning too very

57

00:02:17,350 --> 00:02:14,800

concerning

58

00:02:19,270 --> 00:02:17,360

but this has been going around and

59

00:02:21,430 --> 00:02:19,280

people have been saying oh this is an

60

00:02:24,869 --> 00:02:21,440

underwater

61

00:02:30,150 --> 00:02:24,879

object like a ufo under water

62

00:02:35,350 --> 00:02:33,190

you know i i would like to believe that

63

00:02:38,470 --> 00:02:35,360

because that's much more sensational

64

00:02:40,949 --> 00:02:38,480

that a us military submarine

65

00:02:43,350 --> 00:02:40,959

accidentally ran into

66

00:02:45,270 --> 00:02:43,360

an underwater ufo an underwater alien

67

00:02:46,790 --> 00:02:45,280

vehicle but uh

68

00:02:49,990 --> 00:02:46,800

you know we just don't know at this

69

00:02:53,589 --> 00:02:52,470

be fair there was one what about

70

00:02:56,390 --> 00:02:53,599

i'm trying i'm looking for right now

71

00:02:57,509 --> 00:02:56,400

turn about 15 years ago um

72

00:02:58,790 --> 00:02:57,519

same sort of thing but they just plowed

73

00:03:02,630 --> 00:02:58,800

into an undersea mount they're just like

74

00:03:05,110 --> 00:03:02,640

oh look a mountain kablammo it's like um

75

00:03:07,270 --> 00:03:05,120

good job guys well if we all remember

76
00:03:10,630 --> 00:03:07,280
from the james cameron movie uh the

77
00:03:13,030 --> 00:03:10,640
abyss uh there was a submarine accident

78
00:03:15,830 --> 00:03:13,040
at the beginning of the movie where uh a

79
00:03:19,589 --> 00:03:15,840
an underwater ufo and underwater uh

80
00:03:22,550 --> 00:03:19,599
submersible object came too close to the

81
00:03:24,550 --> 00:03:22,560
uh submarine it caused like a wake

82
00:03:27,190 --> 00:03:24,560
effect and dragged i believe it dragged

83
00:03:28,710 --> 00:03:27,200
like the submarine like into the side of

84
00:03:30,710 --> 00:03:28,720
like an underwater mountain and it

85
00:03:32,070 --> 00:03:30,720
caused massive damage it was a canyon it

86
00:03:35,110 --> 00:03:32,080
was turbulence in the canyon caused it

87
00:03:39,110 --> 00:03:35,120
down yeah yeah and and that uh caused

88
00:03:41,589 --> 00:03:39,120

the the united states uh submarine to be

89

00:03:44,229 --> 00:03:41,599

uh stranded i think it's uh

90

00:03:46,309 --> 00:03:44,239

decompressed or compressed um it

91

00:03:47,670 --> 00:03:46,319

compresses

92

00:03:50,390 --> 00:03:47,680

you know it does both those things and

93

00:03:52,309 --> 00:03:50,400

then those uh those missiles were at the

94

00:03:54,869 --> 00:03:52,319

bottom of a trench and the whole movie

95

00:03:56,949 --> 00:03:54,879

progressed from there uh

96

00:03:59,190 --> 00:03:56,959

i think you can look this up gretchen

97

00:04:01,830 --> 00:03:59,200

was maybe about 10 years ago

98

00:04:03,030 --> 00:04:01,840

that the russians had a submarine was it

99

00:04:05,030 --> 00:04:03,040

the kursk

100

00:04:06,550 --> 00:04:05,040

uh the russians had a submarine and all

101
00:04:07,350 --> 00:04:06,560
hands were lost

102
00:04:08,710 --> 00:04:07,360
yeah

103
00:04:10,149 --> 00:04:08,720
well and part of that was due to pride

104
00:04:11,670 --> 00:04:10,159
because it was like only like 300 feet

105
00:04:13,190 --> 00:04:11,680
of water but they didn't want

106
00:04:14,630 --> 00:04:13,200
other

107
00:04:17,590 --> 00:04:14,640
maritime agencies even like i believe it

108
00:04:19,670 --> 00:04:17,600
was the danish um even offered they're

109
00:04:20,949 --> 00:04:19,680
like we're right here we have subs that

110
00:04:22,469 --> 00:04:20,959
can go over and get your guys off that

111
00:04:23,590 --> 00:04:22,479
and they're like no we got it and then

112
00:04:27,030 --> 00:04:23,600
everyone died

113
00:04:29,670 --> 00:04:27,040

so well according to this um 21 years

114

00:04:32,870 --> 00:04:29,680

ago uh according to this headline here

115

00:04:35,909 --> 00:04:32,880

russian submarine battles alien

116

00:04:38,950 --> 00:04:35,919

deep under the oceans i like that and uh

117

00:04:40,950 --> 00:04:38,960

in a book a russians uh uso secrets

118

00:04:43,270 --> 00:04:40,960

co-author british ufo investigator

119

00:04:45,350 --> 00:04:43,280

philip mantle has collected stories

120

00:04:47,510 --> 00:04:45,360

about russian soviet navy encounters

121

00:04:49,189 --> 00:04:47,520

with ufos and usos

122

00:04:51,430 --> 00:04:49,199

dating back to

123

00:04:53,590 --> 00:04:51,440

world war ii based on unclassified

124

00:04:56,070 --> 00:04:53,600

russian documents and accounts from

125

00:04:57,670 --> 00:04:56,080

military veterans former uh nuclear

126
00:05:00,310 --> 00:04:57,680
submarine commander i'm not going to

127
00:05:03,029 --> 00:05:00,320
pronounce this russian name related an

128
00:05:04,710 --> 00:05:03,039
incident that occurred in 2009

129
00:05:06,390 --> 00:05:04,720
within the bermuda triangle the

130
00:05:09,909 --> 00:05:06,400
submarine's instruments repeatedly

131
00:05:11,670 --> 00:05:09,919
detected movement of material objects at

132
00:05:12,749 --> 00:05:11,680
unimaginable speeds

133
00:05:16,150 --> 00:05:12,759
around

134
00:05:18,230 --> 00:05:16,160
230 knots under the sea

135
00:05:20,870 --> 00:05:18,240
the the beans that created those

136
00:05:23,990 --> 00:05:20,880
material objects significantly exceeded

137
00:05:25,430 --> 00:05:24,000
us in development remark the captain of

138
00:05:27,430 --> 00:05:25,440

that vessel

139

00:05:28,710 --> 00:05:27,440

which is kind of interesting uh bermuda

140

00:05:30,550 --> 00:05:28,720

triangle

141

00:05:33,510 --> 00:05:30,560

you have a reference there by the the

142

00:05:36,790 --> 00:05:33,520

russian navy um there have been long

143

00:05:40,469 --> 00:05:36,800

been rumors of an alien base

144

00:05:42,469 --> 00:05:40,479

in the bermuda triangle area that

145

00:05:44,790 --> 00:05:42,479

they use it as a portal or as a

146

00:05:46,710 --> 00:05:44,800

underground alien base because there's a

147

00:05:47,909 --> 00:05:46,720

lot of electromagnetic energy that goes

148

00:05:50,790 --> 00:05:47,919

around

149

00:05:52,790 --> 00:05:50,800

it happens in that area and

150

00:05:55,590 --> 00:05:52,800

correct me if i'm wrong i'm i want to

151

00:05:56,950 --> 00:05:55,600

know if i remembered this correctly

152

00:05:57,670 --> 00:05:56,960

that maybe

153

00:06:00,390 --> 00:05:57,680

in

154

00:06:03,350 --> 00:06:00,400

wikileaks that came out

155

00:06:04,550 --> 00:06:03,360

um that during uh wikileaks you can

156

00:06:06,629 --> 00:06:04,560

search through those wikileaks of

157

00:06:09,350 --> 00:06:06,639

hillary clinton's emails the dnc email

158

00:06:11,510 --> 00:06:09,360

hack if you search for ufo i believe

159

00:06:14,070 --> 00:06:11,520

there's a reference to

160

00:06:16,150 --> 00:06:14,080

uh ufos and their bermuda triangle

161

00:06:17,909 --> 00:06:16,160

within those wikileaks but i'm just

162

00:06:19,510 --> 00:06:17,919

pulling that out of my head i don't know

163

00:06:21,029 --> 00:06:19,520

if that's correct

164

00:06:22,230 --> 00:06:21,039

uh yeah i don't remember that i do want

165

00:06:25,430 --> 00:06:22,240

to point out though that the bermuda

166

00:06:27,350 --> 00:06:25,440

triangle does encompass the very deep um

167

00:06:28,230 --> 00:06:27,360

trench where the abyss was set so there

168

00:06:30,790 --> 00:06:28,240

you go

169

00:06:31,590 --> 00:06:30,800

so in another encounter a russian

170

00:06:33,830 --> 00:06:31,600

uh

171

00:06:35,110 --> 00:06:33,840

submarine crew watched a cigar-shaped

172

00:06:38,550 --> 00:06:35,120

ufo

173

00:06:41,590 --> 00:06:38,560

shot three beams of light down into the

174

00:06:43,670 --> 00:06:41,600

atlantic ocean the ufo was about 250

175

00:06:46,870 --> 00:06:43,680

meters long and slowly descended into

176
00:06:49,110 --> 00:06:46,880
the ocean making a strange hissing sound

177
00:06:51,189 --> 00:06:49,120
about half a mile from the submarine the

178
00:06:52,309 --> 00:06:51,199
object could not be tracked on radar

179
00:06:53,749 --> 00:06:52,319
however

180
00:06:57,589 --> 00:06:53,759
so these are just different little

181
00:06:59,350 --> 00:06:57,599
accounts of from russian encounters now

182
00:07:01,350 --> 00:06:59,360
it's not to say that has anything to do

183
00:07:03,670 --> 00:07:01,360
with this most recent one i just wanted

184
00:07:05,270 --> 00:07:03,680
to throw that out there i mean with all

185
00:07:07,110 --> 00:07:05,280
the things happening

186
00:07:10,469 --> 00:07:07,120
uh in the south china sea concerning

187
00:07:12,390 --> 00:07:10,479
taiwan the us and china uh it could be

188
00:07:14,870 --> 00:07:12,400

any number of vehicles that that

189

00:07:17,270 --> 00:07:14,880

collided with our submarine down there

190

00:07:18,950 --> 00:07:17,280

and it not necessarily ufos well it

191

00:07:19,990 --> 00:07:18,960

could also be something as which is

192

00:07:23,270 --> 00:07:20,000

strange that they haven't come out and

193

00:07:25,270 --> 00:07:23,280

said it yet but something as benign as a

194

00:07:26,629 --> 00:07:25,280

cargo container which gets pitched off

195

00:07:28,870 --> 00:07:26,639

the side of a ship which happens all the

196

00:07:30,469 --> 00:07:28,880

freaking time and those things are big

197

00:07:32,070 --> 00:07:30,479

and when they start to sink they'll

198

00:07:33,589 --> 00:07:32,080

because of neutral buoyancy they'll go

199

00:07:35,110 --> 00:07:33,599

down you know fifty hundred feet

200

00:07:36,870 --> 00:07:35,120

whatever and they'll kind of sit at that

201
00:07:37,990 --> 00:07:36,880
level in the uh in the ocean and you can

202
00:07:39,830 --> 00:07:38,000
just plow right into it though you would

203
00:07:41,189 --> 00:07:39,840
think someone would pick that up but

204
00:07:42,629 --> 00:07:41,199
again with with especially with

205
00:07:45,749 --> 00:07:42,639
ballistic missile submarines their job

206
00:07:48,390 --> 00:07:45,759
is to uh identify things passively and

207
00:07:50,070 --> 00:07:48,400
be holes in the ocean not um

208
00:07:51,430 --> 00:07:50,080
drive around blast in their sun or like

209
00:07:53,270 --> 00:07:51,440
attack subs

210
00:07:55,749 --> 00:07:53,280
one of the things i could not find on

211
00:07:58,469 --> 00:07:55,759
this most recent collision is at what

212
00:08:00,070 --> 00:07:58,479
depth did this occur don't worry about

213
00:08:02,469 --> 00:08:00,080

it that's what that i i would like to

214

00:08:04,629 --> 00:08:02,479

know and what depth did this occur

215

00:08:07,430 --> 00:08:04,639

was it uh in shallow waters was it

216

00:08:09,189 --> 00:08:07,440

towards the surface uh is this some sort

217

00:08:11,670 --> 00:08:09,199

they ran into maybe some sort of a

218

00:08:13,909 --> 00:08:11,680

scientific buoy um

219

00:08:16,629 --> 00:08:13,919

and they just didn't know it like so i

220

00:08:18,150 --> 00:08:16,639

think we should know the depth at this

221

00:08:20,070 --> 00:08:18,160

point well it could be classified though

222

00:08:22,230 --> 00:08:20,080

because they don't they don't openly uh

223

00:08:24,070 --> 00:08:22,240

disclose uh actual operating depths of

224

00:08:25,350 --> 00:08:24,080

submarines um

225

00:08:26,550 --> 00:08:25,360

i'm sure more will come out in the

226

00:08:28,550 --> 00:08:26,560

coming weeks

227

00:08:30,790 --> 00:08:28,560

um it's odd that they will identify only

228

00:08:31,589 --> 00:08:30,800

as an unknown object at this point which

229

00:08:32,709 --> 00:08:31,599

means they're probably still in their

230

00:08:34,230 --> 00:08:32,719

investigations they want to come out and

231

00:08:35,509 --> 00:08:34,240

say um

232

00:08:36,870 --> 00:08:35,519

but uh i don't know of course we did

233

00:08:37,589 --> 00:08:36,880

have those stories several years ago of

234

00:08:40,310 --> 00:08:37,599

the

235

00:08:41,029 --> 00:08:40,320

navy plowing into a bunch of cargo ships

236

00:08:43,350 --> 00:08:41,039

so

237

00:08:45,430 --> 00:08:43,360

maybe the cargo ships are now um using

238

00:08:47,269 --> 00:08:45,440

uh cargo containers as depth charges for

239

00:08:49,910 --> 00:08:47,279

um for submarines

240

00:08:52,870 --> 00:08:49,920

uh yeah that is true the pacific fleet

241

00:08:54,870 --> 00:08:52,880

for the past i would say 10 years has

242

00:08:56,949 --> 00:08:54,880

been in a

243

00:08:59,670 --> 00:08:56,959

a bit of a bind when it comes to

244

00:09:01,670 --> 00:08:59,680

leadership and the ability to navigate

245

00:09:03,509 --> 00:09:01,680

the seas without crashing into things

246

00:09:06,150 --> 00:09:03,519

you know we had the with the uss

247

00:09:08,389 --> 00:09:06,160

fitzgerald they had some issues and

248

00:09:10,710 --> 00:09:08,399

before that there was another crash just

249

00:09:13,030 --> 00:09:10,720

a lot of strange collisions in the

250

00:09:15,030 --> 00:09:13,040

pacific i don't know how rare it is but

251
00:09:16,949 --> 00:09:15,040
uh when they do happen people do notice

252
00:09:18,710 --> 00:09:16,959
huh so i'm reading through the official

253
00:09:21,750 --> 00:09:18,720
report here on the

254
00:09:24,630 --> 00:09:21,760
well what's been released anyway um

255
00:09:26,310 --> 00:09:24,640
on on the the incident most recently and

256
00:09:27,990 --> 00:09:26,320
they're they're being coy about a couple

257
00:09:29,750 --> 00:09:28,000
things first of all the actual location

258
00:09:31,350 --> 00:09:29,760
like you said the depth and of course

259
00:09:32,790 --> 00:09:31,360
they delayed it several days my guess is

260
00:09:34,389 --> 00:09:32,800
that's operational security that allows

261
00:09:37,990 --> 00:09:34,399
them to get the submarine

262
00:09:40,310 --> 00:09:38,000
back to a um uh uh

263
00:09:41,829 --> 00:09:40,320

a safe port for for repairs whatever but

264

00:09:43,829 --> 00:09:41,839

also allows them to not you know by

265

00:09:45,190 --> 00:09:43,839

saying it was five or six days ago

266

00:09:46,230 --> 00:09:45,200

that could be anywhere in a massive

267

00:09:49,110 --> 00:09:46,240

radius

268

00:09:51,670 --> 00:09:49,120

um so that doesn't doesn't identify them

269

00:09:52,870 --> 00:09:51,680

directly where they were operating so

270

00:09:54,710 --> 00:09:52,880

yeah

271

00:09:57,509 --> 00:09:54,720

no i think everyone's kind of curious is

272

00:09:58,790 --> 00:09:57,519

like well was this a um

273

00:10:00,230 --> 00:09:58,800

a collision with like a chinese

274

00:10:02,310 --> 00:10:00,240

submarine or something which i believe

275

00:10:03,829 --> 00:10:02,320

are all diesel electrics um but you know

276

00:10:04,790 --> 00:10:03,839

it's possible so it's it's hard to say

277

00:10:06,790 --> 00:10:04,800

now if the chinese come out and say

278

00:10:08,310 --> 00:10:06,800

they're missing a sub two um

279

00:10:10,150 --> 00:10:08,320

then you know i don't know then we got

280

00:10:13,350 --> 00:10:10,160

hunter red october on our hands that was

281

00:10:15,590 --> 00:10:13,360

my thought because in the back in 2001

282

00:10:18,470 --> 00:10:15,600

when the united states was doing some

283

00:10:20,230 --> 00:10:18,480

reconnaissance flights near china

284

00:10:22,790 --> 00:10:20,240

we there was that hot dogging incident

285

00:10:24,150 --> 00:10:22,800

where a hot dog chinese fighter pilot

286

00:10:25,750 --> 00:10:24,160

came up right in front of our

287

00:10:27,269 --> 00:10:25,760

reconnaissance plane the u.s

288

00:10:28,310 --> 00:10:27,279

reconnaissance plane

289

00:10:30,069 --> 00:10:28,320

and

290

00:10:32,790 --> 00:10:30,079

there was a collision forcing the u.s

291

00:10:35,350 --> 00:10:32,800

reconnaissance plane down so could this

292

00:10:38,630 --> 00:10:35,360

be another uh hot dogging incident we

293

00:10:41,350 --> 00:10:38,640

had a we had a showboating chinese uh

294

00:10:43,990 --> 00:10:41,360

sub captain trying to get too close to

295

00:10:45,430 --> 00:10:44,000

the american sub and they collided

296

00:10:46,389 --> 00:10:45,440

i mean there is precedent for this kind

297

00:10:47,750 --> 00:10:46,399

of show

298

00:10:49,110 --> 00:10:47,760

showmanship

299

00:10:51,590 --> 00:10:49,120

i think it's showboating as much as just

300

00:10:53,430 --> 00:10:51,600

generally but yeah it is showman they

301
00:10:56,710 --> 00:10:53,440
wanted to like that they want to happen

302
00:10:58,630 --> 00:10:56,720
in 2001 that chinese pilot was trying to

303
00:11:01,110 --> 00:10:58,640
show no i'm talking about for submarines

304
00:11:03,190 --> 00:11:01,120
submarines okay well maybe so submarines

305
00:11:04,630 --> 00:11:03,200
have a better uh opportunity to be true

306
00:11:07,110 --> 00:11:04,640
show boating because submarines are

307
00:11:08,949 --> 00:11:07,120
boats not ships so according to boating

308
00:11:10,150 --> 00:11:08,959
okay there you go

309
00:11:11,509 --> 00:11:10,160
all right

310
00:11:13,430 --> 00:11:11,519
um i did put up an image here this was

311
00:11:14,630 --> 00:11:13,440
one that smacked into a mountain because

312
00:11:16,630 --> 00:11:14,640
the mountain jumped out of came out of

313
00:11:18,150 --> 00:11:16,640

nowhere they didn't expect it you know

314

00:11:19,509 --> 00:11:18,160

that mountain wasn't there a minute ago

315

00:11:24,470 --> 00:11:19,519

uh

316

00:11:26,150 --> 00:11:24,480

catastrophic damage to that submarine

317

00:11:27,829 --> 00:11:26,160

well yeah they'll all be billions of

318

00:11:28,870 --> 00:11:27,839

dollars to fix all that but there was

319

00:11:30,630 --> 00:11:28,880

one there's another one i'm trying to

320

00:11:31,670 --> 00:11:30,640

find from 99 or 2 000 that had another

321

00:11:32,790 --> 00:11:31,680

collision i'm trying to find a photo of

322

00:11:34,230 --> 00:11:32,800

that because it was a similar one out of

323

00:11:35,269 --> 00:11:34,240

the dry dock like this where it had an

324

00:11:37,910 --> 00:11:35,279

interesting photo and you can see the

325

00:11:41,030 --> 00:11:37,920

damage yeah i haven't found it well

326

00:11:42,949 --> 00:11:41,040

we're on the subject of china and taiwan

327

00:11:43,990 --> 00:11:42,959

and the u.s i'll just bring this up

328

00:11:45,750 --> 00:11:44,000

right here

329

00:11:47,030 --> 00:11:45,760

um i'll bring bring this on the screen i

330

00:11:49,829 --> 00:11:47,040

can dwell on this too long but the

331

00:11:53,110 --> 00:11:49,839

headline here from al jazeera

332

00:11:54,949 --> 00:11:53,120

do the u.s and china have a taiwan

333

00:11:56,790 --> 00:11:54,959

agreement

334

00:11:59,030 --> 00:11:56,800

u.s president joe biden

335

00:12:00,230 --> 00:11:59,040

claim of taiwan agreement sparks

336

00:12:02,790 --> 00:12:00,240

confusion

337

00:12:05,590 --> 00:12:02,800

as beijing rank ramps up military

338

00:12:08,629 --> 00:12:05,600

pressure on taiwan

339

00:12:09,509 --> 00:12:08,639

and so from taipei taiwan

340

00:12:11,430 --> 00:12:09,519

uh

341

00:12:14,069 --> 00:12:11,440

the question was raised on tuesday when

342

00:12:16,949 --> 00:12:14,079

u.s president joe biden told reporters

343

00:12:20,629 --> 00:12:16,959

that he and his chinese counterpart

344

00:12:23,430 --> 00:12:20,639

xi jinping had agreed to abide by the

345

00:12:25,910 --> 00:12:23,440

taiwan taiwan agreement

346

00:12:27,030 --> 00:12:25,920

leaving many around the world scratching

347

00:12:29,590 --> 00:12:27,040

their heads

348

00:12:31,030 --> 00:12:29,600

uh biden made the remark at the uh at

349

00:12:32,949 --> 00:12:31,040

the white house in response to a

350

00:12:36,310 --> 00:12:32,959

reporter's question about the rising

351
00:12:38,710 --> 00:12:36,320
tensions be uh between china and taiwan

352
00:12:42,629 --> 00:12:38,720
in the taiwan strait with beijing

353
00:12:45,750 --> 00:12:42,639
sending more than 149

354
00:12:48,710 --> 00:12:45,760
military planes towards taiwan over four

355
00:12:51,350 --> 00:12:48,720
consecutive days amid celebrations of

356
00:12:54,870 --> 00:12:51,360
the founding of the people's republic of

357
00:12:56,470 --> 00:12:54,880
china on monday alone it sent a record

358
00:12:59,190 --> 00:12:56,480
56

359
00:13:01,190 --> 00:12:59,200
fighter jets into taiwan's air defense

360
00:13:03,750 --> 00:13:01,200
identification zone forcing the

361
00:13:05,829 --> 00:13:03,760
taiwanese air force to scramble its jets

362
00:13:08,949 --> 00:13:05,839
in response

363
00:13:11,430 --> 00:13:08,959

so it goes on to say that uh quote i've

364

00:13:13,030 --> 00:13:11,440

spoken with ji about taiwan biden told

365

00:13:14,310 --> 00:13:13,040

reporters when asked about china's

366

00:13:15,670 --> 00:13:14,320

provocation

367

00:13:17,750 --> 00:13:15,680

uh

368

00:13:19,350 --> 00:13:17,760

and quote we

369

00:13:22,550 --> 00:13:19,360

agree we

370

00:13:25,590 --> 00:13:22,560

will abide by the taiwan agreement

371

00:13:27,750 --> 00:13:25,600

that's where we are we made it clear

372

00:13:30,389 --> 00:13:27,760

that i don't think he should be doing

373

00:13:31,990 --> 00:13:30,399

anything other than abiding by the

374

00:13:34,069 --> 00:13:32,000

agreement

375

00:13:35,350 --> 00:13:34,079

that's what is that what does that mean

376

00:13:37,190 --> 00:13:35,360

what it

377

00:13:39,430 --> 00:13:37,200

well the the the skeptical or the

378

00:13:41,110 --> 00:13:39,440

skeptical the conspiratorial the uh

379

00:13:42,470 --> 00:13:41,120

cynical uh

380

00:13:43,990 --> 00:13:42,480

part of us would say that while he's

381

00:13:45,269 --> 00:13:44,000

just doing what he's been told to do by

382

00:13:46,389 --> 00:13:45,279

by beijing because they're pushing him

383

00:13:47,189 --> 00:13:46,399

around

384

00:13:50,790 --> 00:13:47,199

so

385

00:13:54,069 --> 00:13:50,800

of new diplomatic

386

00:13:56,629 --> 00:13:54,079

uh policy um is he just doing what they

387

00:13:57,829 --> 00:13:56,639

want to you know to to avoid some sort

388

00:13:59,189 --> 00:13:57,839

of confrontation because i mean

389

00:14:01,750 --> 00:13:59,199

guaranteed biden would roll over

390

00:14:04,069 --> 00:14:01,760

immediately in that sort of scenario so

391

00:14:05,910 --> 00:14:04,079

um so i'll read the last two paragraphs

392

00:14:07,750 --> 00:14:05,920

right here quote i think uh that's

393

00:14:10,150 --> 00:14:07,760

biden's taiwan agreement is another

394

00:14:12,150 --> 00:14:10,160

evidence that taiwan is just a chess

395

00:14:14,389 --> 00:14:12,160

piece on the chessboard indicating that

396

00:14:16,389 --> 00:14:14,399

taiwan has no say in its own future

397

00:14:17,670 --> 00:14:16,399

since the agreement is merely made

398

00:14:20,870 --> 00:14:17,680

between

399

00:14:23,350 --> 00:14:20,880

xi jinping and joe biden

400

00:14:25,430 --> 00:14:23,360

moreover biden mentioned that his talk

401
00:14:28,389 --> 00:14:25,440
with xi happened last month but

402
00:14:31,030 --> 00:14:28,399
taiwanese people all witnessed the sharp

403
00:14:31,990 --> 00:14:31,040
increase of incursions this week so it

404
00:14:32,949 --> 00:14:32,000
seems

405
00:14:34,870 --> 00:14:32,959
that

406
00:14:37,829 --> 00:14:34,880
the talk has no

407
00:14:41,030 --> 00:14:37,839
if not negative impact on the stability

408
00:14:42,870 --> 00:14:41,040
of the taiwan strait so i think

409
00:14:45,829 --> 00:14:42,880
you know aren't people speculating that

410
00:14:48,150 --> 00:14:45,839
if china decides to just roll into

411
00:14:49,670 --> 00:14:48,160
taiwan that the united states at this

412
00:14:51,829 --> 00:14:49,680
point is just going to step back and not

413
00:14:53,110 --> 00:14:51,839

get involved i would say based on what

414

00:14:54,790 --> 00:14:53,120

we've seen in the last few months yes we

415

00:14:56,629 --> 00:14:54,800

would we would roll over and let that

416

00:14:58,069 --> 00:14:56,639

happen however taiwan is one of those

417

00:14:59,990 --> 00:14:58,079

countries the other one is israel who

418

00:15:02,150 --> 00:15:00,000

are not official nuclear powers but are

419

00:15:03,750 --> 00:15:02,160

kind of wink-wink nudge-nudge known to

420

00:15:05,990 --> 00:15:03,760

have nuclear weapons

421

00:15:08,550 --> 00:15:06,000

so if china rolls in there by in the way

422

00:15:10,949 --> 00:15:08,560

they would do it they would use um

423

00:15:12,470 --> 00:15:10,959

commercial airliners and

424

00:15:13,670 --> 00:15:12,480

commercial ferries coming across the the

425

00:15:14,629 --> 00:15:13,680

strait of formosa and they would come

426

00:15:16,470 --> 00:15:14,639

across and they would just start

427

00:15:17,750 --> 00:15:16,480

deploying and rolling out light utility

428

00:15:19,509 --> 00:15:17,760

vehicles and troops and if they started

429

00:15:20,949 --> 00:15:19,519

doing that that goes nuclear really

430

00:15:24,069 --> 00:15:20,959

quick i think

431

00:15:26,310 --> 00:15:24,079

which is not good for anybody no

432

00:15:27,829 --> 00:15:26,320

it's very interesting very concerning

433

00:15:29,189 --> 00:15:27,839

especially with all those ufos in the

434

00:15:31,269 --> 00:15:29,199

waters over there you know you gotta

435

00:15:33,030 --> 00:15:31,279

watch out you're just you jump in the

436

00:15:36,470 --> 00:15:33,040

water over there you're gonna

437

00:15:39,430 --> 00:15:36,480

find an alien apparently the goblin yeah

438

00:15:41,509 --> 00:15:39,440

water goblins water goblins

439

00:15:42,949 --> 00:15:41,519

yeah very concerning stuff but we are

440

00:15:43,230 --> 00:15:42,959

going to move on because that's what we

441

00:15:49,110 --> 00:15:43,240

do

442

00:15:56,310 --> 00:15:52,230

give us an email at our bitter mouth

443

00:15:58,470 --> 00:15:56,320

gmail.com check out obdmport.com

444

00:15:58,940 --> 00:15:58,480

for all the social media and donation

445

00:16:02,790 --> 00:15:58,950

links
