

**IN THE
YEAR 2000**

**BY
JOHN KEEL**

1
00:00:00,270 --> 00:00:06,950
[Applause]

2
00:00:10,870 --> 00:00:09,190
well we'll bring up some uh

3
00:00:12,950 --> 00:00:10,880
weirder stuff here i wanted to bring

4
00:00:15,030 --> 00:00:12,960
this up this is uh

5
00:00:17,590 --> 00:00:15,040
a little something by john keel we

6
00:00:19,990 --> 00:00:17,600
talked about uh john keel a few episodes

7
00:00:22,790 --> 00:00:20,000
ago when it comes to the android

8
00:00:24,630 --> 00:00:22,800
invasion john keel notable uh ufologist

9
00:00:26,870 --> 00:00:24,640
a paranormal investigator wrote uh

10
00:00:30,230 --> 00:00:26,880
mothman prophecies uh various other

11
00:00:32,549 --> 00:00:30,240
books and we went over like a and

12
00:00:34,069 --> 00:00:32,559
i guess a a journal entry and just some

13
00:00:36,389 --> 00:00:34,079

thoughts about how

14

00:00:39,430 --> 00:00:36,399

he envisioned uh

15

00:00:42,310 --> 00:00:39,440

an android or some sort of

16

00:00:44,470 --> 00:00:42,320

clone takeover would be and how he was

17

00:00:48,229 --> 00:00:44,480

trying to basically piece all the

18

00:00:50,709 --> 00:00:48,239

the elements together of uh the mass ufo

19

00:00:52,630 --> 00:00:50,719

sightings humanoid visitations and

20

00:00:55,750 --> 00:00:52,640

hyper-intelligent entities and how they

21

00:00:58,229 --> 00:00:55,760

operate on this earth well um

22

00:01:00,869 --> 00:00:58,239

he's got another entry here and this can

23

00:01:03,270 --> 00:01:00,879

be found at johnkeel.com

24

00:01:05,990 --> 00:01:03,280

and this is his predictions

25

00:01:07,030 --> 00:01:06,000

for the year 2000

26

00:01:08,789 --> 00:01:07,040

and so

27

00:01:10,830 --> 00:01:08,799

like the clinton bit

28

00:01:14,070 --> 00:01:10,840

kind of like that

29

00:01:15,910 --> 00:01:14,080

um but he wrote this back in the

30

00:01:17,670 --> 00:01:15,920

mid 60s so he was kind of like in

31

00:01:19,590 --> 00:01:17,680

between books

32

00:01:22,070 --> 00:01:19,600

and he was just writing down some

33

00:01:23,830 --> 00:01:22,080

thoughts that uh he thought

34

00:01:25,350 --> 00:01:23,840

were going to be

35

00:01:27,429 --> 00:01:25,360

prevalent some ideas they thought were

36

00:01:30,149 --> 00:01:27,439

going to be prevalent the mindset of the

37

00:01:31,510 --> 00:01:30,159

world in the year 2000 okay and i i was

38

00:01:34,789 --> 00:01:31,520

read through this and some of those like

39

00:01:35,910 --> 00:01:34,799

has kind of spot on

40

00:01:37,590 --> 00:01:35,920

um

41

00:01:39,190 --> 00:01:37,600

and so it might lend some credence to

42

00:01:41,910 --> 00:01:39,200

his other thoughts about what is going

43

00:01:43,670 --> 00:01:41,920

on in this realm that we live in

44

00:01:44,710 --> 00:01:43,680

and so this title the year 2000 the

45

00:01:50,230 --> 00:01:44,720

problem

46

00:01:52,230 --> 00:01:50,240

will not be survival our rapidly

47

00:01:55,109 --> 00:01:52,240

advancing technology in the development

48

00:01:57,270 --> 00:01:55,119

of welfare states around the world will

49

00:01:59,190 --> 00:01:57,280

make survival a certainty the problem

50

00:02:01,030 --> 00:01:59,200

will be finding a reason to make

51
00:02:02,709 --> 00:02:01,040
survival worthwhile

52
00:02:04,950 --> 00:02:02,719
if present trends in science and

53
00:02:07,109 --> 00:02:04,960
government continue the average man will

54
00:02:09,669 --> 00:02:07,119
be little more than a vegetable he will

55
00:02:12,550 --> 00:02:09,679
be fed enclosed by the government there

56
00:02:14,630 --> 00:02:12,560
will be little or no work for him to do

57
00:02:16,869 --> 00:02:14,640
he will have a small cubicle living

58
00:02:18,869 --> 00:02:16,879
space will not be uh

59
00:02:21,110 --> 00:02:18,879
living space will be at a premium

60
00:02:22,710 --> 00:02:21,120
uh stringent laws will make it difficult

61
00:02:25,030 --> 00:02:22,720
if not impossible for him to have

62
00:02:27,190 --> 00:02:25,040
children because he will be

63
00:02:29,430 --> 00:02:27,200

because he will have to depend upon

64

00:02:32,070 --> 00:02:29,440

small checks from the government he will

65

00:02:34,710 --> 00:02:32,080

not be able to afford more than the

66

00:02:37,030 --> 00:02:34,720

minimal comforts of life yet he will be

67

00:02:40,150 --> 00:02:37,040

better educated than any of his answer

68

00:02:41,990 --> 00:02:40,160

ancestors and he will have a life span

69

00:02:44,550 --> 00:02:42,000

of around a hundred to a hundred and

70

00:02:46,710 --> 00:02:44,560

fifty years ooh so he's kind of off

71

00:02:49,110 --> 00:02:46,720

right there but he and you know on the

72

00:02:51,190 --> 00:02:49,120

lifespan thing when it comes to finding

73

00:02:54,150 --> 00:02:51,200

purpose and

74

00:02:57,110 --> 00:02:54,160

how our lifestyles are getting smaller

75

00:02:58,710 --> 00:02:57,120

and smaller and yet we're over educated

76

00:03:01,350 --> 00:02:58,720

he's going i i think he's kind of

77

00:03:05,030 --> 00:03:01,360

thinking along the same lines

78

00:03:07,030 --> 00:03:05,040

as not not exactly but similar lines is

79

00:03:11,589 --> 00:03:07,040

what the unbomber was was talking about

80

00:03:14,550 --> 00:03:12,710

yeah i think there was a lot of that

81

00:03:16,229 --> 00:03:14,560

around that time too of of increasing

82

00:03:17,509 --> 00:03:16,239

use and reliance upon technology and

83

00:03:20,309 --> 00:03:17,519

granted this was in the so he was

84

00:03:21,750 --> 00:03:20,319

writing those in the late 60s right so

85

00:03:23,030 --> 00:03:21,760

this was um

86

00:03:25,030 --> 00:03:23,040

uh

87

00:03:26,789 --> 00:03:25,040

there's a lot of fears at that point

88

00:03:28,149 --> 00:03:26,799

that people would be kind of glued to

89

00:03:28,949 --> 00:03:28,159

their televisions

90

00:03:30,550 --> 00:03:28,959

um

91

00:03:31,990 --> 00:03:30,560

and they would get all their information

92

00:03:33,670 --> 00:03:32,000

there and they wouldn't be out and about

93

00:03:34,470 --> 00:03:33,680

doing anything and they wouldn't develop

94

00:03:35,430 --> 00:03:34,480

any

95

00:03:37,990 --> 00:03:35,440

uh

96

00:03:39,990 --> 00:03:38,000

useful skills and all their income would

97

00:03:42,470 --> 00:03:40,000

come from the government so

98

00:03:44,630 --> 00:03:42,480

he's he's in broad strokes he's not far

99

00:03:45,830 --> 00:03:44,640

off yeah 150 years old thing which only

100

00:03:48,149 --> 00:03:45,840

is for people in congress who are

101

00:03:50,149 --> 00:03:48,159

drinking uh children's blood and

102

00:03:51,110 --> 00:03:50,159

adrenochrome well we're getting there

103

00:03:52,470 --> 00:03:51,120

yeah

104

00:03:54,309 --> 00:03:52,480

right around the corner

105

00:03:57,350 --> 00:03:54,319

uh he goes on to say a war will be a

106

00:03:58,149 --> 00:03:57,360

thing of the past but the crime right

107

00:04:02,149 --> 00:03:58,159

yeah

108

00:04:03,190 --> 00:04:02,159

this but he said where will be a thing

109

00:04:05,830 --> 00:04:03,200

of the past

110

00:04:08,229 --> 00:04:05,840

but the crime rate will have reached

111

00:04:09,670 --> 00:04:08,239

fantastic proportions billions of

112

00:04:11,270 --> 00:04:09,680

unemployed

113

00:04:13,350 --> 00:04:11,280

a fantastic proportions that's what he

114

00:04:15,270 --> 00:04:13,360

says billions of unemployed people will

115

00:04:16,150 --> 00:04:15,280

prey on one another the crime rate in

116

00:04:17,830 --> 00:04:16,160

the u s

117

00:04:20,229 --> 00:04:17,840

has gone forty percent in the past five

118

00:04:22,790 --> 00:04:20,239

years and many or urban area uh urban

119

00:04:24,950 --> 00:04:22,800

areas people will have to put on gas

120

00:04:27,830 --> 00:04:24,960

masks before they can leave

121

00:04:29,909 --> 00:04:27,840

their door or leave their dwellings the

122

00:04:31,909 --> 00:04:29,919

problem of air pollution in major cities

123

00:04:33,270 --> 00:04:31,919

is already reaching monumental

124

00:04:35,670 --> 00:04:33,280

proportions so

125

00:04:37,189 --> 00:04:35,680

everyone does kind of like

126

00:04:38,950 --> 00:04:37,199

there was a time

127

00:04:40,830 --> 00:04:38,960

very recently where we all had to put on

128

00:04:43,670 --> 00:04:40,840

mass before we went outside

129

00:04:45,990 --> 00:04:43,680

uh some of us did i would say a good

130

00:04:47,990 --> 00:04:46,000

chunk of people did put on mass to leave

131

00:04:49,030 --> 00:04:48,000

the door he's attributing that to uh

132

00:04:51,430 --> 00:04:49,040

pollution

133

00:04:52,950 --> 00:04:51,440

but they found another excuse to to do

134

00:04:54,629 --> 00:04:52,960

that well also keep in mind again in the

135

00:04:56,390 --> 00:04:54,639

mid 60s as they were industrializing a

136

00:04:57,270 --> 00:04:56,400

lot of third world countries who don't

137

00:04:59,909 --> 00:04:57,280

have

138

00:05:02,310 --> 00:04:59,919

you know uh environmental um

139

00:05:03,670 --> 00:05:02,320

restrictions and regulations um they're

140

00:05:04,950 --> 00:05:03,680

just burning whatever they need to burn

141

00:05:06,390 --> 00:05:04,960

to get factories going because that's

142

00:05:08,070 --> 00:05:06,400

how you know cheap labor and that's

143

00:05:09,670 --> 00:05:08,080

a brilliant industry and so a lot of

144

00:05:12,150 --> 00:05:09,680

those cities and we saw even remember in

145

00:05:14,150 --> 00:05:12,160

china it was beijing during the

146

00:05:15,510 --> 00:05:14,160

2008 olympics remember that they shut

147

00:05:16,550 --> 00:05:15,520

down all their factories you could see

148

00:05:17,430 --> 00:05:16,560

the sky

149

00:05:18,790 --> 00:05:17,440

yeah

150

00:05:20,550 --> 00:05:18,800

and then you know then go back you know

151
00:05:22,230 --> 00:05:20,560
in the early 80s in blade runner all the

152
00:05:23,670 --> 00:05:22,240
people coming out of their houses uh

153
00:05:25,110 --> 00:05:23,680
wearing masks and things because of the

154
00:05:26,310 --> 00:05:25,120
pollution and

155
00:05:27,990 --> 00:05:26,320
um

156
00:05:29,350 --> 00:05:28,000
so that's not far off there were there

157
00:05:30,550 --> 00:05:29,360
were areas of the country know mexico

158
00:05:32,790 --> 00:05:30,560
city was another big one because it's

159
00:05:34,310 --> 00:05:32,800
kind of built in a natural bowl that has

160
00:05:36,230 --> 00:05:34,320
really bad pollution the point they even

161
00:05:37,909 --> 00:05:36,240
said if i recall in

162
00:05:39,270 --> 00:05:37,919
oh it was in the 80s i believe in los

163
00:05:41,590 --> 00:05:39,280

angeles he said if you were born and

164

00:05:44,070 --> 00:05:41,600

raised in los angeles and lived through

165

00:05:45,350 --> 00:05:44,080

all that smog you were you had the your

166

00:05:46,950 --> 00:05:45,360

lungs had the same effect as somebody

167

00:05:49,029 --> 00:05:46,960

who smoked a pack of cigarettes a day

168

00:05:50,950 --> 00:05:49,039

just because your amount of stuff in the

169

00:05:53,430 --> 00:05:50,960

air now it's not to say you had to wear

170

00:05:55,590 --> 00:05:53,440

a gas mask to go outside but a lot of

171

00:05:56,950 --> 00:05:55,600

people did choose to wear a particulate

172

00:05:57,830 --> 00:05:56,960

mask

173

00:06:01,990 --> 00:05:57,840

to

174

00:06:04,150 --> 00:06:02,000

he's not wrong in that sense where you

175

00:06:05,830 --> 00:06:04,160

can extrapolate what you're seeing in

176
00:06:07,510 --> 00:06:05,840
rapidly industrializing third world

177
00:06:09,590 --> 00:06:07,520
countries to the first world and say if

178
00:06:11,029 --> 00:06:09,600
if things continue unchecked this is

179
00:06:12,309 --> 00:06:11,039
what's gonna happen and then there's

180
00:06:13,590 --> 00:06:12,319
there was i mean crazier stuff even

181
00:06:16,309 --> 00:06:13,600
before that could read about the london

182
00:06:18,230 --> 00:06:16,319
fog or some of the really bad smoke and

183
00:06:19,749 --> 00:06:18,240
stuff in areas like pittsburgh where

184
00:06:20,790 --> 00:06:19,759
they found out that the buildings were

185
00:06:21,909 --> 00:06:20,800
actually different colors once they

186
00:06:24,550 --> 00:06:21,919
started washing them off because of all

187
00:06:27,029 --> 00:06:24,560
the soot and crap so yeah it happens

188
00:06:28,629 --> 00:06:27,039

uh i was reached through a few more of

189

00:06:31,270 --> 00:06:28,639

these i'll try to bullet point these

190

00:06:33,430 --> 00:06:31,280

that as uh john keel has written these

191

00:06:35,990 --> 00:06:33,440

so um so he goes on to say that

192

00:06:38,390 --> 00:06:36,000

throughout the world water will be

193

00:06:40,950 --> 00:06:38,400

rationed in food will

194

00:06:42,950 --> 00:06:40,960

increase in price so much so that it's

195

00:06:45,350 --> 00:06:42,960

going to be tough to feed people and we

196

00:06:46,950 --> 00:06:45,360

just read that uh fertilizer story so

197

00:06:49,270 --> 00:06:46,960

he's probably not far off

198

00:06:51,430 --> 00:06:49,280

another one here is organized religion

199

00:06:53,589 --> 00:06:51,440

it will be dying religion thrives

200

00:06:55,510 --> 00:06:53,599

amongst the poor the uneducated and the

201
00:06:58,469 --> 00:06:55,520
hopeless by far the tier in the year

202
00:07:00,390 --> 00:06:58,479
2000 these factors uh which cause so

203
00:07:02,710 --> 00:07:00,400
many to turn to religion for hope will

204
00:07:04,309 --> 00:07:02,720
no longer exist any we can see that i

205
00:07:07,350 --> 00:07:04,319
think organized religion at least in the

206
00:07:09,510 --> 00:07:07,360
united states is on the decline

207
00:07:11,029 --> 00:07:09,520
uh yeah it has been for several decades

208
00:07:13,029 --> 00:07:11,039
i think dramatically since about the

209
00:07:14,870 --> 00:07:13,039
about 2000 or so but it's taken a major

210
00:07:16,469 --> 00:07:14,880
hit in the last two years when remember

211
00:07:17,990 --> 00:07:16,479
even went up to the supreme court sort

212
00:07:20,309 --> 00:07:18,000
of where they had the supreme court

213
00:07:21,589 --> 00:07:20,319

justice ruling on it that it was okay to

214

00:07:23,189 --> 00:07:21,599

violate people's fundamental first

215

00:07:25,189 --> 00:07:23,199

amendment rights to gather for religious

216

00:07:26,870 --> 00:07:25,199

reasons because of covid so as long as

217

00:07:28,710 --> 00:07:26,880

people are scared of that they can shut

218

00:07:29,990 --> 00:07:28,720

down churches and i think honestly

219

00:07:31,110 --> 00:07:30,000

people aren't going to be going back to

220

00:07:32,550 --> 00:07:31,120

those so you have all these churches

221

00:07:34,950 --> 00:07:32,560

that used to get what i don't know 150

222

00:07:36,870 --> 00:07:34,960

200 people every sunday yeah i don't

223

00:07:38,550 --> 00:07:36,880

think even when they're you know

224

00:07:39,990 --> 00:07:38,560

allowed to do that allowed to have

225

00:07:41,350 --> 00:07:40,000

in-person services again that that

226

00:07:42,870 --> 00:07:41,360

number is not coming back so in that

227

00:07:45,270 --> 00:07:42,880

sense he's correct but it was not

228

00:07:47,189 --> 00:07:45,280

because of the what how did he phrase it

229

00:07:49,270 --> 00:07:47,199

religion is a uh

230

00:07:50,629 --> 00:07:49,280

for the uneducated and the poor and the

231

00:07:52,790 --> 00:07:50,639

poor yeah religion is the opiate of the

232

00:07:54,869 --> 00:07:52,800

masses sort of thing but it's it's what

233

00:07:57,110 --> 00:07:54,879

we're actually seeing is a i think a

234

00:07:58,309 --> 00:07:57,120

deliberate attack on organized religion

235

00:08:00,150 --> 00:07:58,319

because that's community building and

236

00:08:01,749 --> 00:08:00,160

they don't want that they want the they

237

00:08:03,510 --> 00:08:01,759

the government want that information

238

00:08:04,950 --> 00:08:03,520

coming from the government only not from

239

00:08:06,390 --> 00:08:04,960

anybody else so

240

00:08:08,230 --> 00:08:06,400

so he does

241

00:08:09,749 --> 00:08:08,240

there's some things that obviously are

242

00:08:12,150 --> 00:08:09,759

not true in here when he talks about

243

00:08:14,150 --> 00:08:12,160

medicine but on one of these uh topics

244

00:08:17,830 --> 00:08:14,160

she says death will be

245

00:08:20,869 --> 00:08:17,840

very rare and in certain instances can

246

00:08:23,270 --> 00:08:20,879

be reversed well i think they're like

247

00:08:25,029 --> 00:08:23,280

the the ruling elite are actively trying

248

00:08:27,110 --> 00:08:25,039

to get their consciousness implanted

249

00:08:28,710 --> 00:08:27,120

into some kind of machine or they'd love

250

00:08:30,150 --> 00:08:28,720

to have some sort of clone body that

251
00:08:31,110 --> 00:08:30,160
they can get their consciousness into so

252
00:08:33,029 --> 00:08:31,120
they're working on it if they have this

253
00:08:34,870 --> 00:08:33,039
technology we don't know about it so

254
00:08:36,550 --> 00:08:34,880
what's the um uh the term for that where

255
00:08:38,550 --> 00:08:36,560
you get removed from your body um

256
00:08:39,990 --> 00:08:38,560
transhumanism transhumanism there's a

257
00:08:41,430 --> 00:08:40,000
there's a movie with johnny depp about

258
00:08:44,550 --> 00:08:41,440
that

259
00:08:46,230 --> 00:08:44,560
really a new one um i mean no i think

260
00:08:47,750 --> 00:08:46,240
the movie came out like 2008 yeah yeah

261
00:08:49,829 --> 00:08:47,760
yeah the one he made about 10 years ago

262
00:08:52,710 --> 00:08:49,839
yeah i forgot about where yeah his

263
00:08:55,110 --> 00:08:52,720

consciousness was was put into a super

264

00:08:56,710 --> 00:08:55,120

computer in this facility that he owned

265

00:08:58,550 --> 00:08:56,720

i don't remember much about the movie

266

00:09:00,310 --> 00:08:58,560

interesting concept i don't

267

00:09:01,269 --> 00:09:00,320

really remember the bull and he became

268

00:09:03,110 --> 00:09:01,279

like uh

269

00:09:04,470 --> 00:09:03,120

put himself in the body of ed 209 i

270

00:09:06,230 --> 00:09:04,480

don't know i may be making this up that

271

00:09:08,230 --> 00:09:06,240

would be a better movie that's a movie

272

00:09:10,790 --> 00:09:08,240

that i would watch but no i don't think

273

00:09:12,790 --> 00:09:10,800

so there's on a murderous rampage

274

00:09:15,350 --> 00:09:12,800

you gonna say uh geographical changes

275

00:09:19,110 --> 00:09:15,360

most of europe and united states will

276

00:09:20,150 --> 00:09:19,120

uh will be gigantic sprawling cities 100

277

00:09:24,310 --> 00:09:20,160

year old

278

00:09:26,630 --> 00:09:24,320

uh 100 years ago the bulk of the world's

279

00:09:28,870 --> 00:09:26,640

population lived in small small farms in

280

00:09:29,750 --> 00:09:28,880

2080 the majority of people will live in

281

00:09:31,509 --> 00:09:29,760

cities

282

00:09:33,269 --> 00:09:31,519

uh zested areas in africa and the middle

283

00:09:35,350 --> 00:09:33,279

east will be around that's correct

284

00:09:37,430 --> 00:09:35,360

already now yeah i think that's

285

00:09:39,509 --> 00:09:37,440

that was true in the 80s right yeah well

286

00:09:41,750 --> 00:09:39,519

the that that started post-world war ii

287

00:09:44,630 --> 00:09:41,760

in the 1950s as people moved

288

00:09:46,470 --> 00:09:44,640

on mass from rural areas to cities and i

289

00:09:47,350 --> 00:09:46,480

think that's only uh accelerated to the

290

00:09:49,030 --> 00:09:47,360

point where

291

00:09:50,949 --> 00:09:49,040

i don't know some huge population a huge

292

00:09:52,470 --> 00:09:50,959

percent of the population lives in an

293

00:09:53,750 --> 00:09:52,480

urbanized area now keep in mind they

294

00:09:56,230 --> 00:09:53,760

would consider where you live in

295

00:09:58,070 --> 00:09:56,240

urbanized area because you have city

296

00:09:59,750 --> 00:09:58,080

utilities and things like that so he

297

00:10:03,030 --> 00:09:59,760

moves on to politics he says by the year

298

00:10:05,269 --> 00:10:03,040

2000 john keel said a world government

299

00:10:06,790 --> 00:10:05,279

will be in the making in order to cope

300

00:10:08,710 --> 00:10:06,800

with the tremendous problems of the

301
00:10:11,110 --> 00:10:08,720
future a worldwide political

302
00:10:13,269 --> 00:10:11,120
organization will be very necessary the

303
00:10:16,230 --> 00:10:13,279
nations of the world will have complex

304
00:10:17,030 --> 00:10:16,240
ties the survival of the human race will

305
00:10:19,110 --> 00:10:17,040
take

306
00:10:21,590 --> 00:10:19,120
uh precedence over ideological

307
00:10:23,590 --> 00:10:21,600
differences of nation red china will be

308
00:10:26,069 --> 00:10:23,600
recognized and will be the dominant

309
00:10:27,590 --> 00:10:26,079
power in world politics oh that's right

310
00:10:30,069 --> 00:10:27,600
so this was written prior to nixon's

311
00:10:32,630 --> 00:10:30,079
visit to china interesting so he is dead

312
00:10:35,190 --> 00:10:32,640
spot on that he's right on right there i

313
00:10:36,790 --> 00:10:35,200

goes on say uh there will be almost no

314

00:10:39,590 --> 00:10:36,800

difference in the characteristics of

315

00:10:40,630 --> 00:10:39,600

various nations our architecture will be

316

00:10:43,190 --> 00:10:40,640

the same

317

00:10:46,150 --> 00:10:43,200

the world over people will dress the

318

00:10:48,710 --> 00:10:46,160

same everywhere they will be forced to

319

00:10:50,710 --> 00:10:48,720

eat basically the same foods much uh

320

00:10:53,190 --> 00:10:50,720

much of the charm of those uh farewell

321

00:10:55,269 --> 00:10:53,200

places will be gone

322

00:10:56,870 --> 00:10:55,279

fairway places i'm sorry

323

00:10:59,110 --> 00:10:56,880

uh far away places

324

00:11:01,990 --> 00:10:59,120

so i i think that's what they want

325

00:11:03,190 --> 00:11:02,000

i think they they want this one world

326

00:11:03,910 --> 00:11:03,200

order

327

00:11:05,990 --> 00:11:03,920

and

328

00:11:06,870 --> 00:11:06,000

they want it to be run the way china is

329

00:11:07,590 --> 00:11:06,880

run

330

00:11:08,949 --> 00:11:07,600

well

331

00:11:10,389 --> 00:11:08,959

you've said it several times in the past

332

00:11:11,829 --> 00:11:10,399

that you want that star trek future so

333

00:11:14,069 --> 00:11:11,839

you're going to get it but not not the

334

00:11:15,990 --> 00:11:14,079

way you want no it's going to be a

335

00:11:17,990 --> 00:11:16,000

twisted dark

336

00:11:20,069 --> 00:11:18,000

star trek future it's going to be a jj

337

00:11:22,389 --> 00:11:20,079

abrams star trek future not the ray

338

00:11:23,990 --> 00:11:22,399

bradbury star trek real dark with lens

339

00:11:25,829 --> 00:11:24,000

flares everywhere so

340

00:11:27,590 --> 00:11:25,839

you have to wear color-coded jumpsuits

341

00:11:29,269 --> 00:11:27,600

depending on your job

342

00:11:31,829 --> 00:11:29,279

yes this is all very interesting go to

343

00:11:34,550 --> 00:11:31,839

your replicator to get your your daily

344

00:11:36,310 --> 00:11:34,560

uh portion of paste to eat well i don't

345

00:11:37,590 --> 00:11:36,320

get so in that one he talked about the

346

00:11:38,949 --> 00:11:37,600

you know world government everyone's

347

00:11:41,750 --> 00:11:38,959

kind of wearing the same thing but in

348

00:11:43,590 --> 00:11:41,760

this next one it goes into fashion and

349

00:11:45,030 --> 00:11:43,600

what he thinks fashion will be he says

350

00:11:47,590 --> 00:11:45,040

come on silver jumpsuit silver jumpsuit

351

00:11:50,870 --> 00:11:47,600

silver jumpsuit the change in

352

00:11:52,949 --> 00:11:50,880

sexual mores will bring about radical

353

00:11:55,829 --> 00:11:52,959

changes in fashion synthetic fabrics

354

00:11:58,310 --> 00:11:55,839

will be used generally fabrics such as

355

00:12:00,230 --> 00:11:58,320

wool and silk will be rare and very

356

00:12:02,629 --> 00:12:00,240

expensive clothing will be designed for

357

00:12:03,590 --> 00:12:02,639

comfort women will

358

00:12:05,990 --> 00:12:03,600

be

359

00:12:08,150 --> 00:12:06,000

scantily dressed and men will

360

00:12:11,269 --> 00:12:08,160

dispense with such things as collars

361

00:12:13,670 --> 00:12:11,279

ties vests long trousers etc personal

362

00:12:15,350 --> 00:12:13,680

beauty pants get rid of those pants

363

00:12:16,870 --> 00:12:15,360

pants are constricting we're just going

364

00:12:19,670 --> 00:12:16,880

to get rid of that stuff i don't know

365

00:12:21,269 --> 00:12:19,680

but uh this is what he said so maybe not

366

00:12:24,710 --> 00:12:21,279

that far or just no pants we could just

367

00:12:26,710 --> 00:12:24,720

be naked all day

368

00:12:29,030 --> 00:12:26,720

because then to say personal beauty will

369

00:12:29,750 --> 00:12:29,040

be heavily emphasized most people will

370

00:12:31,990 --> 00:12:29,760

be

371

00:12:34,310 --> 00:12:32,000

young looking thin and very healthy

372

00:12:37,110 --> 00:12:34,320

their clothes will accent their

373

00:12:39,829 --> 00:12:37,120

sexuality um

374

00:12:41,990 --> 00:12:39,839

he hasn't seen america he's like

375

00:12:44,150 --> 00:12:42,000

he's idealizing it isn't

376

00:12:46,470 --> 00:12:44,160

the majority of america

377

00:12:47,829 --> 00:12:46,480

like obese okay

378

00:12:50,069 --> 00:12:47,839

oh so i need i need to find a picture of

379

00:12:52,790 --> 00:12:50,079

a fat kind of jumpsuit right yeah

380

00:12:55,910 --> 00:12:52,800

you gotta can you find a fat guy in a

381

00:12:57,670 --> 00:12:55,920

silver jumpsuit please that's the future

382

00:12:59,670 --> 00:12:57,680

it's kinda like wally

383

00:13:02,310 --> 00:12:59,680

he goes on to say space travel will not

384

00:13:04,790 --> 00:13:02,320

be commonplace in the year 2000 but it

385

00:13:07,350 --> 00:13:04,800

will be a reality we will have explored

386

00:13:09,750 --> 00:13:07,360

the majority of the planets in our solar

387

00:13:12,150 --> 00:13:09,760

system and bases will have been

388

00:13:14,389 --> 00:13:12,160

established on those capable of

389

00:13:17,350 --> 00:13:14,399

supporting life the space program will

390

00:13:19,910 --> 00:13:17,360

be a major economic asset replacing war

391

00:13:22,710 --> 00:13:19,920

industries of earlier times people of

392

00:13:26,230 --> 00:13:22,720

the world will be employed in these

393

00:13:28,550 --> 00:13:26,240

programs by 2050 80 groups of colonists

394

00:13:31,590 --> 00:13:28,560

will be sent to other planets but this

395

00:13:32,829 --> 00:13:31,600

is not so this is not will not solve the

396

00:13:35,910 --> 00:13:32,839

population

397

00:13:37,670 --> 00:13:35,920

problem so okay we haven't gotten that

398

00:13:39,509 --> 00:13:37,680

for of course he was he was writing this

399

00:13:41,110 --> 00:13:39,519

right at like the the height of the

400

00:13:42,069 --> 00:13:41,120

space race

401
00:13:45,430 --> 00:13:42,079
yeah

402
00:13:47,509 --> 00:13:45,440
be on the moon by the end of the decade

403
00:13:48,470 --> 00:13:47,519
we're going to be on mars the end of the

404
00:13:50,069 --> 00:13:48,480
70s

405
00:13:52,470 --> 00:13:50,079
uh we're gonna have established colonies

406
00:13:53,590 --> 00:13:52,480
in the 90s so that's what makes sense

407
00:13:56,710 --> 00:13:53,600
but instead they're like we got to the

408
00:13:58,710 --> 00:13:56,720
moon and we're done

409
00:14:00,389 --> 00:13:58,720
uh just a quick uh transportation

410
00:14:02,790 --> 00:14:00,399
automobiles will still be the chief

411
00:14:05,670 --> 00:14:02,800
means of transportation

412
00:14:08,550 --> 00:14:05,680
um he says that there will be airlines

413
00:14:09,910 --> 00:14:08,560

that can carry up to 300 passengers

414

00:14:12,230 --> 00:14:09,920

um

415

00:14:14,829 --> 00:14:12,240

he says a trip to europe will cost as

416

00:14:16,389 --> 00:14:14,839

little as 25

417

00:14:20,389 --> 00:14:16,399

one-way

418

00:14:24,389 --> 00:14:22,150

uh then he goes on to arts and

419

00:14:26,710 --> 00:14:24,399

entertainment since the uh

420

00:14:29,590 --> 00:14:26,720

i kind of interested about this so since

421

00:14:31,590 --> 00:14:29,600

the common man will have a great deal of

422

00:14:33,189 --> 00:14:31,600

leisure and entertainment

423

00:14:34,949 --> 00:14:33,199

uh

424

00:14:37,910 --> 00:14:34,959

since the con man will have a great deal

425

00:14:40,230 --> 00:14:37,920

of leisure and entertainment will be the

426
00:14:43,590 --> 00:14:40,240
major industry the motion picture will

427
00:14:46,150 --> 00:14:43,600
be almost obsolete and television will

428
00:14:48,150 --> 00:14:46,160
be the most important media in countries

429
00:14:49,910 --> 00:14:48,160
tv will be directly subsidized by the

430
00:14:51,030 --> 00:14:49,920
government and there will be a heavy

431
00:14:53,750 --> 00:14:51,040
accent

432
00:14:55,990 --> 00:14:53,760
on educational programs the average man

433
00:14:57,750 --> 00:14:56,000
will have a good education and will

434
00:15:01,269 --> 00:14:57,760
therefore demand high quality

435
00:15:04,470 --> 00:15:01,279
entertainment gigantic color tv screens

436
00:15:06,230 --> 00:15:04,480
wafer thin will be found on walls of

437
00:15:08,790 --> 00:15:06,240
most homes

438
00:15:10,389 --> 00:15:08,800

well that was predicted in uh 2001 so

439

00:15:12,790 --> 00:15:10,399

yeah they got i mean a lot of people

440

00:15:15,509 --> 00:15:12,800

were thinking that way um well star trek

441

00:15:17,030 --> 00:15:15,519

turn on the view screen giant tv yeah

442

00:15:18,550 --> 00:15:17,040

that is driving around the galaxy

443

00:15:19,750 --> 00:15:18,560

watching television

444

00:15:23,509 --> 00:15:19,760

so back in

445

00:15:25,269 --> 00:15:23,519

in 1965 you said this newspapers will be

446

00:15:28,150 --> 00:15:25,279

few in number

447

00:15:30,310 --> 00:15:28,160

most major cities will have only one or

448

00:15:32,150 --> 00:15:30,320

two dailies general magazine such as

449

00:15:34,870 --> 00:15:32,160

life in the saturday evening post will

450

00:15:37,670 --> 00:15:34,880

have disappeared there will have however

451
00:15:39,509 --> 00:15:37,680
be many specialized magazines centering

452
00:15:41,509 --> 00:15:39,519
around hobbies and recreational

453
00:15:43,670 --> 00:15:41,519
activities books of all kind will be

454
00:15:44,629 --> 00:15:43,680
published in larger numbers

455
00:15:46,949 --> 00:15:44,639
uh

456
00:15:49,910 --> 00:15:46,959
than ever before it's pretty well dead

457
00:15:51,110 --> 00:15:49,920
on most of that there yeah yeah

458
00:15:52,550 --> 00:15:51,120
if you recall growing up i mean i

459
00:15:54,389 --> 00:15:52,560
remember growing up in pittsburgh there

460
00:15:55,910 --> 00:15:54,399
was a uh it was pittsburgh post gazette

461
00:15:57,509 --> 00:15:55,920
and the pittsburgh

462
00:15:59,110 --> 00:15:57,519
uh what was the other one there was

463
00:16:00,310 --> 00:15:59,120

another one there was two papers one

464

00:16:01,990 --> 00:16:00,320

print one published in the morning and

465

00:16:03,910 --> 00:16:02,000

one published in the evening

466

00:16:05,269 --> 00:16:03,920

and you would get two papers a day you'd

467

00:16:06,230 --> 00:16:05,279

get papers you know first thing in the

468

00:16:07,749 --> 00:16:06,240

morning you go get your breakfast

469

00:16:09,509 --> 00:16:07,759

there's your newspaper but then one

470

00:16:11,189 --> 00:16:09,519

would show up for dinner too which had

471

00:16:13,749 --> 00:16:11,199

today's news in it so

472

00:16:15,670 --> 00:16:13,759

those all consolidated but um

473

00:16:17,749 --> 00:16:15,680

uh

474

00:16:19,509 --> 00:16:17,759

that that's that's not uncommon that you

475

00:16:21,030 --> 00:16:19,519

used to have multiple newspapers in in

476

00:16:23,509 --> 00:16:21,040

most major cities and so most are down

477

00:16:25,350 --> 00:16:23,519

to one and most of those are now simply

478

00:16:27,189 --> 00:16:25,360

pulling the same national feeds as

479

00:16:29,110 --> 00:16:27,199

everybody else and put their own little

480

00:16:30,069 --> 00:16:29,120

spin on it from the uh the people who

481

00:16:33,110 --> 00:16:30,079

work in their newsroom which are

482

00:16:34,870 --> 00:16:33,120

increasingly shrinking so yeah so in in

483

00:16:36,870 --> 00:16:34,880

like his summary right here we'll move

484

00:16:39,269 --> 00:16:36,880

on is that he said

485

00:16:41,829 --> 00:16:39,279

trends indicate that the 21st century

486

00:16:44,629 --> 00:16:41,839

will mark a turning point the beginning

487

00:16:47,430 --> 00:16:44,639

of the gradual decline of the human race

488

00:16:49,829 --> 00:16:47,440

as the purpose for living diminishes so

489

00:16:53,350 --> 00:16:49,839

does the will to live eventually the

490

00:16:54,230 --> 00:16:53,360

population will thin out and the race

491

00:16:55,509 --> 00:16:54,240

will

492

00:16:57,829 --> 00:16:55,519

wither

493

00:16:59,990 --> 00:16:57,839

uh that's good news no it's not we want

494

00:17:01,829 --> 00:17:00,000

to survive as a race he got a lot of

495

00:17:02,870 --> 00:17:01,839

this right but wait he said we're going

496

00:17:04,549 --> 00:17:02,880

to wither and die but also we're going

497

00:17:06,470 --> 00:17:04,559

to live to be 150.

498

00:17:09,429 --> 00:17:06,480

yeah he did he said we're going to be

499

00:17:10,949 --> 00:17:09,439

upwards of 150 because of advances in

500

00:17:12,870 --> 00:17:10,959

medicine

501
00:17:15,510 --> 00:17:12,880
here's the thing is that

502
00:17:17,189 --> 00:17:15,520
a lot of these advances in technology

503
00:17:18,470 --> 00:17:17,199
they very well could just be happening

504
00:17:20,789 --> 00:17:18,480
behind the scenes and they're not going

505
00:17:22,390 --> 00:17:20,799
to roll this stuff out to the general

506
00:17:24,630 --> 00:17:22,400
public if ever

507
00:17:26,390 --> 00:17:24,640
you know they it's too good they want

508
00:17:28,069 --> 00:17:26,400
they want this behind the scenes that's

509
00:17:29,350 --> 00:17:28,079
why like our technology like i was

510
00:17:32,310 --> 00:17:29,360
thinking about this

511
00:17:33,990 --> 00:17:32,320
just like last night it's really not

512
00:17:36,070 --> 00:17:34,000
that different

513
00:17:38,150 --> 00:17:36,080

besides like the internet and forms of

514

00:17:39,750 --> 00:17:38,160

communication it's really not that

515

00:17:42,070 --> 00:17:39,760

different than what we were driving like

516

00:17:44,470 --> 00:17:42,080

dealing with back in the the 90s like

517

00:17:46,390 --> 00:17:44,480

you go 20 years ago it's

518

00:17:49,590 --> 00:17:46,400

kind of the same houses but they have

519

00:17:51,510 --> 00:17:49,600

some smart features here maybe some

520

00:17:52,950 --> 00:17:51,520

little better building technology we

521

00:17:55,110 --> 00:17:52,960

have some more a little bit better

522

00:17:57,909 --> 00:17:55,120

medical technology the internet's

523

00:18:00,950 --> 00:17:57,919

amazing and the the way we consume media

524

00:18:03,110 --> 00:18:00,960

is amazing but it's really not a drastic

525

00:18:04,950 --> 00:18:03,120

change

526

00:18:09,110 --> 00:18:04,960

we're still driving around cars that are

527

00:18:11,190 --> 00:18:09,120

fueled by uh gasoline

528

00:18:13,990 --> 00:18:11,200

little tiny explosions pound for pound

529

00:18:15,750 --> 00:18:14,000

there's still no greater way to store um

530

00:18:17,430 --> 00:18:15,760

energy than in

531

00:18:19,270 --> 00:18:17,440

petroleum so i don't care what anything

532

00:18:20,630 --> 00:18:19,280

is electricity yeah now that we know i

533

00:18:23,190 --> 00:18:20,640

mean there's been some advent but

534

00:18:25,669 --> 00:18:23,200

there's been no dramatic leaps

535

00:18:26,830 --> 00:18:25,679

you know no astounding

536

00:18:30,150 --> 00:18:26,840

leaps that

537

00:18:31,270 --> 00:18:30,160

is visual like i guess evident to us

538

00:18:33,190 --> 00:18:31,280

or maybe since we've lived through it

539

00:18:35,350 --> 00:18:33,200

maybe since i lived through it it just

540

00:18:37,350 --> 00:18:35,360

seems like kind of like whatever it's

541

00:18:38,950 --> 00:18:37,360

gradual um i mean

542

00:18:41,110 --> 00:18:38,960

cars when i was growing up you'd get a

543

00:18:42,549 --> 00:18:41,120

car it had a big v8 we had a plymouth uh

544

00:18:44,470 --> 00:18:42,559

plymouth uh

545

00:18:46,630 --> 00:18:44,480

not valiant what is it the uh i'll think

546

00:18:48,710 --> 00:18:46,640

of a minute plymouth laser it was not a

547

00:18:49,909 --> 00:18:48,720

plymouth laser had a big v8 and got

548

00:18:51,510 --> 00:18:49,919

probably

549

00:18:54,150 --> 00:18:51,520

you know eight or ten miles of the

550

00:18:56,310 --> 00:18:54,160

gallon and now your average car um is

551
00:18:58,950 --> 00:18:56,320
not only far safer but look at an older

552
00:18:59,830 --> 00:18:58,960
car to compare today is far larger yeah

553
00:19:01,669 --> 00:18:59,840
um

554
00:19:04,470 --> 00:19:01,679
way more comfortable drive way more

555
00:19:05,510 --> 00:19:04,480
reliable even if it's built by chevy um

556
00:19:08,789 --> 00:19:05,520
and

557
00:19:10,549 --> 00:19:08,799
uh gets something like 35 40 45 50 miles

558
00:19:12,390 --> 00:19:10,559
a gallon depending on the model so you

559
00:19:15,270 --> 00:19:12,400
know that's cars have improved

560
00:19:17,669 --> 00:19:15,280
dramatically but yes like you said you

561
00:19:20,470 --> 00:19:17,679
lived through it you've always had them

562
00:19:22,870 --> 00:19:20,480
so the improvements have been so gradual

563
00:19:24,870 --> 00:19:22,880

uh that it's it's not a dramatic holy

564

00:19:26,470 --> 00:19:24,880

crap look at this new thing it's

565

00:19:28,789 --> 00:19:26,480

fundamentally the same and you're right

566

00:19:31,029 --> 00:19:28,799

a car is a car as a car so

567

00:19:33,350 --> 00:19:31,039

it's uh just you know just regular it's

568

00:19:35,430 --> 00:19:33,360

it's it's little changes like that

569

00:19:37,590 --> 00:19:35,440

i guess that some the most significant

570

00:19:39,990 --> 00:19:37,600

things would have been

571

00:19:42,549 --> 00:19:40,000

uh the improvement of like computer

572

00:19:45,270 --> 00:19:42,559

graphics and the ability like cgi and

573

00:19:47,190 --> 00:19:45,280

like that that computer processing power

574

00:19:49,590 --> 00:19:47,200

like that that that's amazing that kind

575

00:19:50,390 --> 00:19:49,600

of stuff like looking back at the 80s

576

00:19:52,710 --> 00:19:50,400

and

577

00:19:54,230 --> 00:19:52,720

uh the graphics that we all

578

00:19:55,909 --> 00:19:54,240

know and love when it comes to like the

579

00:19:58,390 --> 00:19:55,919

nintendo entertainment system versus

580

00:20:01,110 --> 00:19:58,400

what you get now with playstation or

581

00:20:02,070 --> 00:20:01,120

uh any common uh yeah

582

00:20:03,270 --> 00:20:02,080

let me

583

00:20:05,510 --> 00:20:03,280

point out and say yeah here's something

584

00:20:07,029 --> 00:20:05,520

in 30 years have changed dramatically 40

585

00:20:09,430 --> 00:20:07,039

years go back and look at the games we

586

00:20:12,470 --> 00:20:09,440

were playing on you know on uh

587

00:20:14,230 --> 00:20:12,480

our commodore 64s on our ataris um that

588

00:20:15,590 --> 00:20:14,240

we thought was great

589

00:20:17,029 --> 00:20:15,600

you know hey i'm going to play joust all

590

00:20:19,350 --> 00:20:17,039

day long i don't care what anybody says

591

00:20:21,590 --> 00:20:19,360

playing pitfall 24

592

00:20:22,630 --> 00:20:21,600

2049er remember some of these games

593

00:20:23,830 --> 00:20:22,640

um

594

00:20:25,350 --> 00:20:23,840

and then you look at what kids have

595

00:20:27,510 --> 00:20:25,360

today or what you know in the case of

596

00:20:30,230 --> 00:20:27,520

you and joe what you guys have today a

597

00:20:31,830 --> 00:20:30,240

bunch of nerds yeah um it's it's way

598

00:20:34,070 --> 00:20:31,840

different now but uh you're you're

599

00:20:35,590 --> 00:20:34,080

basically playing like a live movie now

600

00:20:37,270 --> 00:20:35,600

these days but um

601
00:20:38,390 --> 00:20:37,280
and then imagine

602
00:20:39,590 --> 00:20:38,400
what's what are we gonna have in another

603
00:20:41,190 --> 00:20:39,600
10 years it's going to be blowing our

604
00:20:43,110 --> 00:20:41,200
minds and no despite what anybody says

605
00:20:44,390 --> 00:20:43,120
it's not going to be freaking vr it's

606
00:20:45,909 --> 00:20:44,400
not going to happen because no one wants

607
00:20:48,070 --> 00:20:45,919
to live inside a

608
00:20:49,430 --> 00:20:48,080
giant set of sunglasses but that's

609
00:20:50,950 --> 00:20:49,440
usually where everyone goes it'll be vr

610
00:20:53,270 --> 00:20:50,960
but hey speaking of vr remember we had

611
00:20:55,350 --> 00:20:53,280
vr back in the 80s and it was crappy

612
00:20:57,190 --> 00:20:55,360
then these computers i tell you they

613
00:20:58,470 --> 00:20:57,200

just get crazier and crazier but you're

614

00:21:00,310 --> 00:20:58,480

right you could point at any one of the

615

00:21:02,870 --> 00:21:00,320

things that we still have and they have

616

00:21:03,830 --> 00:21:02,880

dramatically improved um

617

00:21:05,430 --> 00:21:03,840

over the time but you're right there's

618

00:21:06,870 --> 00:21:05,440

not been like aj

619

00:21:08,149 --> 00:21:06,880

well you jaded but i think you're right

620

00:21:10,149 --> 00:21:08,159

to say there's not been a single

621

00:21:11,669 --> 00:21:10,159

dramatic transformative

622

00:21:13,669 --> 00:21:11,679

bleep bloop landed on in the middle of

623

00:21:15,190 --> 00:21:13,679

the super bowl and gave out a new energy

624

00:21:16,390 --> 00:21:15,200

source for flying cars it just hasn't

625

00:21:18,630 --> 00:21:16,400

happened yeah it's like

626

00:21:21,510 --> 00:21:18,640

you know between the 40s and the 50s you

627

00:21:24,549 --> 00:21:21,520

had the the jet engine really being

628

00:21:25,830 --> 00:21:24,559

perfected then you know 50s to 60s you

629

00:21:27,590 --> 00:21:25,840

had

630

00:21:29,430 --> 00:21:27,600

rockets being uh

631

00:21:30,390 --> 00:21:29,440

perfected or used to escape the

632

00:21:33,590 --> 00:21:30,400

atmosphere

633

00:21:36,230 --> 00:21:33,600

there's like some major steps and we

634

00:21:38,870 --> 00:21:36,240

still got the cars well more efficient

635

00:21:40,870 --> 00:21:38,880

we i'm waiting for that anti-gravity

636

00:21:44,470 --> 00:21:40,880

technology that they got to be rolled

637

00:21:45,510 --> 00:21:44,480

out zero-point energy some sort of

638

00:21:48,390 --> 00:21:45,520

you know

639

00:21:51,190 --> 00:21:48,400

nazi bell drive transmission so we're

640

00:21:52,710 --> 00:21:51,200

all we're all doing good things like we

641

00:21:53,990 --> 00:21:52,720

got the nazi bell we knew we knew it

642

00:21:55,110 --> 00:21:54,000

does something let's just hook it up to

643

00:21:56,710 --> 00:21:55,120

a car

644

00:21:58,470 --> 00:21:56,720

i'm telling you mike do not market that

645

00:22:02,549 --> 00:21:58,480

as

646

00:22:04,549 --> 00:22:02,559

new for 2022 the nazi bell transmission

647

00:22:07,190 --> 00:22:04,559

not the best uh not gonna go over well

648

00:22:08,710 --> 00:22:07,200

pr campaign add campaign for yourself

649

00:22:10,230 --> 00:22:08,720

like mike you can't you might wanna

650

00:22:12,630 --> 00:22:10,240

change it

651
00:22:14,789 --> 00:22:12,640
oh all right yeah uh the nazi craft nope

652
00:22:16,549 --> 00:22:14,799
that's the wrong one

653
00:22:17,830 --> 00:22:16,559
from that word

654
00:22:19,909 --> 00:22:17,840
go away

655
00:22:22,070 --> 00:22:19,919
all right let's we'll move on here

656
00:22:25,510 --> 00:22:22,080
stop talking about this crap and

657
00:22:30,070 --> 00:22:27,270
give us an email at

658
00:22:32,710 --> 00:22:30,080
our big dumb month gmail.com

659
00:22:34,870 --> 00:22:32,720
check out obdmpo.com

660
00:22:35,370 --> 00:22:34,880
for all the social media and donation

661
00:22:39,190 --> 00:22:35,380
links
