

# ROBOT COMPUTERS

1  
00:00:00,270 --> 00:00:06,309  
[Applause]

2  
00:00:10,150 --> 00:00:08,950  
hey everyone you may be asking where's

3  
00:00:12,549 --> 00:00:10,160  
the show

4  
00:00:15,270 --> 00:00:12,559  
well youtube does not like us that much

5  
00:00:17,510 --> 00:00:15,280  
we only post the wacky news stories here

6  
00:00:19,910 --> 00:00:17,520  
things that are less controversial if

7  
00:00:21,349 --> 00:00:19,920  
you want all the other topics and i

8  
00:00:23,590 --> 00:00:21,359  
think you know what i'm talking about

9  
00:00:24,870 --> 00:00:23,600  
you have to listen to those on other

10  
00:00:26,870 --> 00:00:24,880  
platforms

11  
00:00:29,269 --> 00:00:26,880  
we still stream live

12  
00:00:31,830 --> 00:00:29,279  
we stream live on twitch

13  
00:00:35,190 --> 00:00:31,840

float.appndlive

14

00:00:38,389 --> 00:00:35,200

and those are at 7pm eastern standard

15

00:00:40,790 --> 00:00:38,399

time on wednesday and then 12pm eastern

16

00:00:43,350 --> 00:00:40,800

standard time on saturday

17

00:00:45,590 --> 00:00:43,360

as always you can download the audio

18

00:00:47,670 --> 00:00:45,600

only podcast for free

19

00:00:50,869 --> 00:00:47,680

you can check the description in this

20

00:00:53,510 --> 00:00:50,879

video or go to [obdmpod.com](http://obdmpod.com)

21

00:00:55,830 --> 00:00:53,520

the show's march on we haven't stopped

22

00:00:58,069 --> 00:00:55,840

it's just we have stopped uploading full

23

00:01:01,590 --> 00:00:58,079

shows and streaming to youtube thanks

24

00:01:04,630 --> 00:01:01,600

and here's another wacky news segment

25

00:01:06,550 --> 00:01:04,640

and uh this headline says

26

00:01:07,990 --> 00:01:06,560

and this i got headlines about robots

27

00:01:10,230 --> 00:01:08,000

here people okay

28

00:01:14,550 --> 00:01:10,240

robots just keep that in mind i got a

29

00:01:17,310 --> 00:01:14,560

lot of robots okay robot computers

30

00:01:21,190 --> 00:01:17,320

headline firm will pay you

31

00:01:23,910 --> 00:01:21,200

280 000 to use your face

32

00:01:24,870 --> 00:01:23,920

on a robot all right hey i think we can

33

00:01:28,710 --> 00:01:24,880

uh

34

00:01:31,270 --> 00:01:28,720

i'll get part-time jobs doing this stuff

35

00:01:33,749 --> 00:01:31,280

it's all right yeah ever wanted an army

36

00:01:36,950 --> 00:01:33,759

of identical robot counterparts and even

37

00:01:40,469 --> 00:01:36,960

get paid for that privilege now you can

38

00:01:43,590 --> 00:01:40,479

i don't want that let's go oh no promo

39

00:01:50,149 --> 00:01:47,350  
promo bot which describes itself as a

40

00:01:51,270 --> 00:01:50,159  
producer of autonomous service robots

41

00:01:52,950 --> 00:01:51,280  
for business

42

00:01:55,190 --> 00:01:52,960  
is certainly no stranger to the field of

43

00:01:58,469 --> 00:01:55,200  
robotics having previously uh featured

44

00:02:02,230 --> 00:01:58,479  
in the news with its limited though

45

00:02:04,069 --> 00:02:02,240  
impressive ir 77 robot which looks

46

00:02:06,389 --> 00:02:04,079  
like something out of a sci-fi movie

47

00:02:07,109 --> 00:02:06,399  
from the nineteen eighties as well as

48

00:02:09,910 --> 00:02:07,119  
well

49

00:02:10,949 --> 00:02:09,920  
as it's more far more realistic alex

50

00:02:13,670 --> 00:02:10,959  
robot

51  
00:02:15,510 --> 00:02:13,680  
which even served as a news anchor on a

52  
00:02:16,949 --> 00:02:15,520  
russian tv channel what was the name of

53  
00:02:21,589 --> 00:02:16,959  
the the model that was like the super

54  
00:02:23,030 --> 00:02:21,599  
realistic one the ir 77 not the the bad

55  
00:02:26,869 --> 00:02:23,040  
guy the bounty hunter robot bounty

56  
00:02:28,790 --> 00:02:26,879  
hunter from star wars no that's ig 88 oh

57  
00:02:30,630 --> 00:02:28,800  
he's 11 better

58  
00:02:32,229 --> 00:02:30,640  
now the fact that i knew that right up

59  
00:02:34,630 --> 00:02:32,239  
top my head not having to look it up

60  
00:02:38,309 --> 00:02:34,640  
shows you how much i care

61  
00:02:39,750 --> 00:02:38,319  
about star wars to be fair that's okay

62  
00:02:41,750 --> 00:02:39,760  
i knew it i was like i'm gonna bring

63  
00:02:44,229 --> 00:02:41,760

that one up

64

00:02:45,830 --> 00:02:44,239

whoa i are 77 under control situation

65

00:02:47,430 --> 00:02:45,840

normal

66

00:02:49,509 --> 00:02:47,440

they said that's their ultra realistic

67

00:02:51,509 --> 00:02:49,519

one yeah is this the one that you have

68

00:02:55,430 --> 00:02:51,519

on the screen right now is that no

69

00:02:57,030 --> 00:02:55,440

that's not uh this is here's ir77

70

00:02:58,309 --> 00:02:57,040

so you tell me how realistic that looks

71

00:03:00,309 --> 00:02:58,319

i mean i guess realistic and it looks

72

00:03:01,750 --> 00:03:00,319

like a robot but it really looks like a

73

00:03:02,630 --> 00:03:01,760

robot

74

00:03:04,869 --> 00:03:02,640

yeah

75

00:03:05,910 --> 00:03:04,879

wow this is uh all right well let's

76  
00:03:07,509 --> 00:03:05,920  
redress this because we all can make

77  
00:03:10,229 --> 00:03:07,519  
some money here

78  
00:03:11,509 --> 00:03:10,239  
now the the company

79  
00:03:13,589 --> 00:03:11,519  
well this okay

80  
00:03:16,869 --> 00:03:13,599  
just a paraphrase here the company says

81  
00:03:18,630 --> 00:03:16,879  
the impressive ir 77 which looks like

82  
00:03:20,790 --> 00:03:18,640  
something of a sci-fi movie from the

83  
00:03:23,190 --> 00:03:20,800  
1980s so it probably looks like twinkie

84  
00:03:25,430 --> 00:03:23,200  
from batter star galactica and i think

85  
00:03:26,710 --> 00:03:25,440  
it does you put up a picture twinkie uh

86  
00:03:28,309 --> 00:03:26,720  
next to that robot you got right there

87  
00:03:29,190 --> 00:03:28,319  
on screen graduate i think we got a

88  
00:03:30,390 --> 00:03:29,200

winner

89

00:03:31,430 --> 00:03:30,400

good well i'm trying to find where he

90

00:03:34,630 --> 00:03:31,440

says

91

00:03:37,030 --> 00:03:34,640

all right well uh the now the company is

92

00:03:39,190 --> 00:03:37,040

looking to take things one step further

93

00:03:41,350 --> 00:03:39,200

by creating ultra realistic robots that

94

00:03:45,509 --> 00:03:41,360

will be used to

95

00:03:47,910 --> 00:03:45,519

be used to interactive i guess interface

96

00:03:49,509 --> 00:03:47,920

with customers in hotels airports and

97

00:03:53,750 --> 00:03:49,519

shopping centers in countries across the

98

00:03:55,589 --> 00:03:53,760

world within as little as two years

99

00:03:58,229 --> 00:03:55,599

to this end the firm is now looking for

100

00:04:00,630 --> 00:03:58,239

a human donor who will be willing to

101

00:04:03,990 --> 00:04:00,640

sign over his rights to uh their

102

00:04:05,990 --> 00:04:04,000

appearance for use as the robots face

103

00:04:09,270 --> 00:04:06,000

or for a fee

104

00:04:11,110 --> 00:04:09,280

of 280 000

105

00:04:13,670 --> 00:04:11,120

dollars that's a weird number they must

106

00:04:15,830 --> 00:04:13,680

be translated from i tell you what i'll

107

00:04:17,270 --> 00:04:15,840

give you fourteen thousand dollars hulk

108

00:04:18,469 --> 00:04:17,280

will use your face for fourteen thousand

109

00:04:20,870 --> 00:04:18,479

dollars yeah i'd take the money you know

110

00:04:22,790 --> 00:04:20,880

if hulk gives you 14 grand take that

111

00:04:25,350 --> 00:04:22,800

why is your picture by the way why don't

112

00:04:26,790 --> 00:04:25,360

they just use uh adolf hitler's like no

113

00:04:28,710 --> 00:04:26,800

one's gonna sue you if you use this like

114

00:04:30,870 --> 00:04:28,720

his likeness at this point i think all

115

00:04:33,990 --> 00:04:30,880

of germany would sue you they may well

116

00:04:35,189 --> 00:04:34,000

so why why not use like like i could see

117

00:04:37,030 --> 00:04:35,199

celebrities doing this they're already

118

00:04:39,590 --> 00:04:37,040

doing like commercials for like credit

119

00:04:41,990 --> 00:04:39,600

cards like hey else you can be a great

120

00:04:45,510 --> 00:04:42,000

idea yeah like licensed like the

121

00:04:46,710 --> 00:04:45,520

likeness of like uh chevy's chase chevy

122

00:04:48,230 --> 00:04:46,720

chase

123

00:04:50,150 --> 00:04:48,240

you know

124

00:04:52,390 --> 00:04:50,160

the city in maryland

125

00:04:54,790 --> 00:04:52,400

so they're asking for applicants uh to

126

00:04:57,510 --> 00:04:54,800

have a kind and friendly face and will

127

00:05:00,230 --> 00:04:57,520

also need to be over the age of 25

128

00:05:02,870 --> 00:05:00,240

all genders and races will be considered

129

00:05:04,790 --> 00:05:02,880

so pretty much anyone old enough can

130

00:05:06,790 --> 00:05:04,800

apply

131

00:05:08,550 --> 00:05:06,800

i think i might do this i don't look

132

00:05:10,950 --> 00:05:08,560

very good i got to submit like a photo

133

00:05:12,870 --> 00:05:10,960

from when i was like 30. i looked better

134

00:05:14,950 --> 00:05:12,880

when i was 30. what was the name of the

135

00:05:16,870 --> 00:05:14,960

bad guy in robocop 2. remember they put

136

00:05:18,629 --> 00:05:16,880

his face on a screen and just stuck it

137

00:05:19,830 --> 00:05:18,639

on the robot's head was it like started

138

00:05:22,950 --> 00:05:19,840

with a d

139

00:05:29,110 --> 00:05:22,960

he was addicted to like uh heroin dave

140

00:05:32,310 --> 00:05:30,070

dermot

141

00:05:34,150 --> 00:05:32,320

i bet you think you're pretty smart huh

142

00:05:36,550 --> 00:05:34,160

no i don't remember the name of the

143

00:05:39,110 --> 00:05:36,560

villain aruba cop too it was kane i was

144

00:05:40,870 --> 00:05:39,120

way off kane you a college boy or

145

00:05:43,350 --> 00:05:40,880

something huh

146

00:05:45,430 --> 00:05:43,360

i am a college boy the winning applicant

147

00:05:46,870 --> 00:05:45,440

will have their face digitally scanned

148

00:05:47,990 --> 00:05:46,880

and will need to

149

00:05:50,230 --> 00:05:48,000

dictate

150

00:05:51,430 --> 00:05:50,240

at least a hundred are dedicated it says

151

00:05:52,790 --> 00:05:51,440

dictate

152

00:05:54,150 --> 00:05:52,800

uh yeah i think it is i think it is

153

00:05:55,670 --> 00:05:54,160

dictate when you get to the next part of

154

00:05:57,270 --> 00:05:55,680

the sentence might dictate at least a

155

00:05:59,749 --> 00:05:57,280

hundred hours of speech material to

156

00:06:01,670 --> 00:05:59,759

provide the robot builders with a copy

157

00:06:03,670 --> 00:06:01,680

of their voice oh so it's not just like

158

00:06:05,110 --> 00:06:03,680

your face they're gonna use your voice

159

00:06:07,110 --> 00:06:05,120

as well

160

00:06:08,950 --> 00:06:07,120

i think this should be ken davidavidan

161

00:06:11,749 --> 00:06:08,960

and he should just say [h\_\_h] [h\_\_h] for 100

162

00:06:13,350 --> 00:06:11,759

hours that could work

163

00:06:15,510 --> 00:06:13,360

i would do this

164

00:06:17,510 --> 00:06:15,520

i would do like go ahead skin it i would

165

00:06:20,950 --> 00:06:17,520

just do like lines from tombstone skin

166

00:06:22,790 --> 00:06:20,960

that smoke wagon and see what happens

167

00:06:24,469 --> 00:06:22,800

i'm getting tired of your gas and i jerk

168

00:06:26,390 --> 00:06:24,479

that pistol and go to work

169

00:06:27,590 --> 00:06:26,400

that's a different kind of robot tired

170

00:06:30,790 --> 00:06:27,600

of your gassing

171

00:06:32,390 --> 00:06:30,800

jerk that pistol and go to work

172

00:06:34,550 --> 00:06:32,400

uh well i think i think they just want

173

00:06:37,430 --> 00:06:34,560

to use your voice to capture all the um

174

00:06:39,110 --> 00:06:37,440

the nuances yeah and then they will um

175

00:06:40,870 --> 00:06:39,120

uh have it say whatever they want to say

176

00:06:43,189 --> 00:06:40,880

not necessarily the goofballs sayings

177

00:06:45,830 --> 00:06:43,199

you want from 80s and 90s movies

178

00:06:48,309 --> 00:06:45,840

you also need to sign over the rights of

179

00:06:50,469 --> 00:06:48,319

your appearance for an unlimited period

180

00:06:52,390 --> 00:06:50,479

so in perpetuity

181

00:06:53,909 --> 00:06:52,400

uh you're gonna have robot clones of

182

00:06:56,309 --> 00:06:53,919

yourself walking around saying

183

00:06:59,909 --> 00:06:56,319

ridiculous stuff man i'll suck your dick

184

00:07:00,830 --> 00:06:59,919

man i said i suck your dick come on man

185

00:07:01,830 --> 00:07:00,840

it's a

186

00:07:03,830 --> 00:07:01,840

different so

187

00:07:05,270 --> 00:07:03,840

that's a different way to go but so wait

188

00:07:06,390 --> 00:07:05,280

you're signing over the rights to your

189

00:07:07,990 --> 00:07:06,400

likeness that means they could

190

00:07:08,950 --> 00:07:08,000

technically sue you for your driver's

191

00:07:11,510 --> 00:07:08,960

license

192

00:07:13,830 --> 00:07:11,520

oh i wasn't driving my robot clone was

193

00:07:17,189 --> 00:07:13,840

driving a robot clone in russia yeah my

194

00:07:19,189 --> 00:07:17,199

russian robot was driving sir

195

00:07:21,990 --> 00:07:19,199

my other robot clone was in a robot

196

00:07:23,510 --> 00:07:22,000

brothel doing god knows what

197

00:07:24,629 --> 00:07:23,520

do you think these things would be good

198

00:07:25,510 --> 00:07:24,639

enough if you could send them to work

199

00:07:27,189 --> 00:07:25,520

for you

200

00:07:28,790 --> 00:07:27,199

well we're going to find out

201  
00:07:31,029 --> 00:07:28,800  
our company's developing technologies in

202  
00:07:32,710 --> 00:07:31,039  
the field of facial recognition as well

203  
00:07:34,629 --> 00:07:32,720  
as speech autonomous navigation

204  
00:07:37,270 --> 00:07:34,639  
artificial intelligence in other areas

205  
00:07:39,589 --> 00:07:37,280  
of robotics promobot's website reads our

206  
00:07:40,629 --> 00:07:39,599  
new clients want to launch a large-scale

207  
00:07:43,990 --> 00:07:40,639  
project

208  
00:07:46,390 --> 00:07:44,000  
and as for this they need to license a

209  
00:07:48,550 --> 00:07:46,400  
new robot appearance to avoid legal

210  
00:07:50,150 --> 00:07:48,560  
delays so the one they have on screen

211  
00:07:51,990 --> 00:07:50,160  
video there is that is video of this guy

212  
00:07:55,270 --> 00:07:52,000  
they the one that they have on screen

213  
00:07:56,830 --> 00:07:55,280

here it looks like a [h\_\_h] version

214

00:07:59,029 --> 00:07:56,840

of toby

215

00:08:01,589 --> 00:07:59,039

mcguire if tommy mcguire was just

216

00:08:04,070 --> 00:08:01,599

dropped as a kid yeah if he dropped toby

217

00:08:07,110 --> 00:08:04,080

mcguire maybe like two years or three

218

00:08:08,550 --> 00:08:07,120

times uh maybe two maybe four times

219

00:08:09,670 --> 00:08:08,560

that's what you get so it looks like it

220

00:08:12,230 --> 00:08:09,680

looks like uh

221

00:08:14,390 --> 00:08:12,240

toby maguire and if if you merge

222

00:08:16,070 --> 00:08:14,400

toby mcguire and who's the other guy uh

223

00:08:17,430 --> 00:08:16,080

jake gyllenhaal

224

00:08:19,589 --> 00:08:17,440

and then drop them down the stairs as

225

00:08:20,869 --> 00:08:19,599

children yeah

226

00:08:22,309 --> 00:08:20,879

so why don't they just use what they got

227

00:08:23,830 --> 00:08:22,319

or is it scaring people too much yeah

228

00:08:25,670 --> 00:08:23,840

well there's a video what's it what's it

229

00:08:27,670 --> 00:08:25,680

say i will i'll bring the video up on

230

00:08:29,589 --> 00:08:27,680

screen we can all listen together

231

00:08:31,270 --> 00:08:29,599

uh what this what you're gonna see the

232

00:08:33,029 --> 00:08:31,280

thing talking and stuff because you just

233

00:08:35,589 --> 00:08:33,039

want to see it talking okay well i don't

234

00:08:36,630 --> 00:08:35,599

know the whole point i guess so

235

00:08:38,230 --> 00:08:36,640

yeah i'll play the video and we'll

236

00:08:39,919 --> 00:08:38,240

listen to these robots right now just a

237

00:08:44,870 --> 00:08:39,929

bunch of cgi

238

00:08:46,630 --> 00:08:44,880

[Music]

239

00:08:49,110 --> 00:08:46,640  
they have it on screen right now

240

00:08:51,829 --> 00:08:49,120  
and it's just holy [\h\_\_\h] russian robot

241

00:08:54,470 --> 00:08:51,839  
manufacturer promobot has been perfect

242

00:08:57,750 --> 00:08:54,480  
in how its humanoid robots mimic their

243

00:09:00,230 --> 00:08:57,760  
human creators in how they look and move

244

00:09:02,710 --> 00:09:00,240  
promobot robots work as talking

245

00:09:05,590 --> 00:09:02,720  
assistants in government centers in

246

00:09:07,590 --> 00:09:05,600  
moscow as well as universities

247

00:09:08,900 --> 00:09:07,600  
look at that guy i don't want that

248

00:09:12,070 --> 00:09:08,910  
anywhere near me

249

00:09:15,990 --> 00:09:13,670  
i mean look at that face

250

00:09:18,389 --> 00:09:16,000  
they are produced with a mental skull

251  
00:09:20,550 --> 00:09:18,399  
covered with several layers of silicone

252  
00:09:23,829 --> 00:09:20,560  
skin but the company's technical

253  
00:09:30,470 --> 00:09:23,839  
director igor jeremiev says the key to a

254  
00:09:30,480 --> 00:09:34,550  
so these are russian robots

255  
00:09:38,949 --> 00:09:36,389  
they're just trained to go infect people

256  
00:09:40,949 --> 00:09:38,959  
with havana syndrome i guess so

257  
00:09:42,870 --> 00:09:40,959  
if you use i gotta i'm not saying you

258  
00:09:44,949 --> 00:09:42,880  
did it russia but if you guys used your

259  
00:09:47,750 --> 00:09:44,959  
creepy russian robots to

260  
00:09:49,190 --> 00:09:47,760  
shoot havana syndrome with our guys

261  
00:09:50,630 --> 00:09:49,200  
shit's going down

262  
00:09:51,910 --> 00:09:50,640  
i uh

263  
00:09:53,829 --> 00:09:51,920

i i don't have a lot of faith in this

264

00:09:55,750 --> 00:09:53,839

project uh but

265

00:09:57,590 --> 00:09:55,760

i will sign up i guess i mean i could

266

00:09:58,550 --> 00:09:57,600

use a 300k

267

00:10:00,230 --> 00:09:58,560

you know

268

00:10:01,829 --> 00:10:00,240

yeah why 280

269

00:10:03,030 --> 00:10:01,839

it's got to be some specific number yeah

270

00:10:04,949 --> 00:10:03,040

i don't know

271

00:10:06,550 --> 00:10:04,959

can buy a lot of muffins we can buy a

272

00:10:07,910 --> 00:10:06,560

lot of muffins for that kind of stuff

273

00:10:09,030 --> 00:10:07,920

one thing is peter weller he already did

274

00:10:10,949 --> 00:10:09,040

this once

275

00:10:12,630 --> 00:10:10,959

yeah he's not really doing anything so

276

00:10:14,630 --> 00:10:12,640

he probably used the money

277

00:10:16,949 --> 00:10:14,640

i could anybody could use money but i

278

00:10:18,470 --> 00:10:16,959

guess when it comes to friendly face

279

00:10:21,350 --> 00:10:18,480

um they're gonna look for something

280

00:10:23,269 --> 00:10:21,360

fairly specific and i i i'm kind of

281

00:10:24,550 --> 00:10:23,279

curious who they wind up with i will i

282

00:10:26,710 --> 00:10:24,560

will try

283

00:10:28,470 --> 00:10:26,720

and uh we'll we'll see if we can get

284

00:10:30,550 --> 00:10:28,480

this done

285

00:10:33,269 --> 00:10:30,560

yeah there's no voting process it's not

286

00:10:35,430 --> 00:10:33,279

like you can go online and name a boat

287

00:10:36,790 --> 00:10:35,440

in that boat is like name boaty mcboat

288

00:10:37,910 --> 00:10:36,800

face and then they take that away from

289

00:10:39,750 --> 00:10:37,920

you

290

00:10:41,430 --> 00:10:39,760

name facey mcface face

291

00:10:43,190 --> 00:10:41,440

basie mcface face yeah something like

292

00:10:45,430 --> 00:10:43,200

that that's right

293

00:10:47,110 --> 00:10:45,440

but that there's no uh i haven't seen

294

00:10:49,910 --> 00:10:47,120

and it doesn't appear to i'll scrub

295

00:10:51,590 --> 00:10:49,920

through the video there's no

296

00:10:52,790 --> 00:10:51,600

audio of the robot talking so they

297

00:10:55,110 --> 00:10:52,800

probably haven't come up with the voice

298

00:10:56,230 --> 00:10:55,120

yet i wish i find hard to believe but

299

00:10:58,470 --> 00:10:56,240

all right

300

00:11:00,550 --> 00:10:58,480

um i would just suggest as you put

301

00:11:03,190 --> 00:11:00,560

together your your

302

00:11:05,269 --> 00:11:03,200

portfolio of photos and 100 hours of

303

00:11:06,630 --> 00:11:05,279

audio which oddly enough you do have

304

00:11:08,310 --> 00:11:06,640

um

305

00:11:11,030 --> 00:11:08,320

be sure to submit that with a pressed

306

00:11:12,710 --> 00:11:11,040

ham to put you over the top okay i'll do

307

00:11:16,630 --> 00:11:12,720

that

308

00:11:19,030 --> 00:11:16,640

something will be clean if i ship it to

309

00:11:22,630 --> 00:11:19,040

russia i'll get there like in two weeks

310

00:11:25,190 --> 00:11:22,640

so here's some rotting ham in

311

00:11:27,110 --> 00:11:25,200

a greasy envelope

312

00:11:28,790 --> 00:11:27,120

with my likeness

313

00:11:34,230 --> 00:11:28,800

this is how i smell too i smell like

314

00:11:36,389 --> 00:11:35,110

like you

315

00:11:38,310 --> 00:11:36,399

put your ass against the window in a

316

00:11:40,150 --> 00:11:38,320

passing car but

317

00:11:41,509 --> 00:11:40,160

well we have another robot headline here

318

00:11:45,430 --> 00:11:41,519

and this is

319

00:11:47,190 --> 00:11:45,440

sex doll stole my identity and i'm livid

320

00:11:48,389 --> 00:11:47,200

i wanted to pull it off the shelves

321

00:11:50,790 --> 00:11:48,399

immediately

322

00:11:53,269 --> 00:11:50,800

wait wait so you've got two back-to-back

323

00:11:56,470 --> 00:11:53,279

robot likeness human likeness stories

324

00:11:57,990 --> 00:11:56,480

correct awesome how'd you do that this

325

00:12:01,910 --> 00:11:58,000

is the synchronicity of the universe

326

00:12:03,430 --> 00:12:01,920

people uh like i didn't go looking for

327

00:12:05,590 --> 00:12:03,440

this kind of information it came to me

328

00:12:07,030 --> 00:12:05,600

so if i once i see all these these

329

00:12:08,949 --> 00:12:07,040

sequences of events i think there's

330

00:12:10,790 --> 00:12:08,959

something big on the horizon of like

331

00:12:12,310 --> 00:12:10,800

robot clones and

332

00:12:14,310 --> 00:12:12,320

or something along those lines like

333

00:12:16,150 --> 00:12:14,320

there could be uh androids or

334

00:12:18,470 --> 00:12:16,160

doppelgangers of us walking around right

335

00:12:19,670 --> 00:12:18,480

now and we really don't know

336

00:12:21,509 --> 00:12:19,680

but uh

337

00:12:23,670 --> 00:12:21,519

maybe i'm open to the possibility bunch

338

00:12:24,870 --> 00:12:23,680

of robot computers robot computers

339

00:12:27,110 --> 00:12:24,880

walking around

340

00:12:29,269 --> 00:12:27,120

paying my taxes for me

341

00:12:31,190 --> 00:12:29,279

i don't want that

342

00:12:32,230 --> 00:12:31,200

robot computers but here's the headline

343

00:12:35,030 --> 00:12:32,240

here

344

00:12:39,430 --> 00:12:35,040

sex doll stole my identity and i'm livid

345

00:12:40,870 --> 00:12:39,440

i want it pulled off shelves immediately

346

00:12:42,629 --> 00:12:40,880

why don't you just license your likeness

347

00:12:44,310 --> 00:12:42,639

for about 300k you know pull off

348

00:12:46,949 --> 00:12:44,320

something

349

00:12:49,750 --> 00:12:46,959

a raging model says a sextile company

350

00:12:52,550 --> 00:12:49,760

has brazenly turned her into a racy

351  
00:12:54,949 --> 00:12:52,560  
figurine and she's demanding it remove

352  
00:12:58,790 --> 00:12:54,959  
be removed for sale from sale

353  
00:13:00,949 --> 00:12:58,800  
uh yaylee cohen heiress 25 claims the

354  
00:13:03,430 --> 00:13:00,959  
doll studio modeled her doppelganger

355  
00:13:05,509 --> 00:13:03,440  
down to the smallest detail including a

356  
00:13:07,750 --> 00:13:05,519  
unique beauty mark

357  
00:13:10,310 --> 00:13:07,760  
and if that was if there were any doubts

358  
00:13:13,509 --> 00:13:10,320  
over who inspired the doll she says it's

359  
00:13:15,030 --> 00:13:13,519  
even been given her first name

360  
00:13:17,590 --> 00:13:15,040  
what's more she claimed that the company

361  
00:13:20,310 --> 00:13:17,600  
used her photo in video alongside the

362  
00:13:22,470 --> 00:13:20,320  
doll she insists the doll studio did not

363  
00:13:24,150 --> 00:13:22,480

uh did not uh at all

364

00:13:25,990 --> 00:13:24,160

did this all without her consent and

365

00:13:28,389 --> 00:13:26,000

even uh without even asking her

366

00:13:30,310 --> 00:13:28,399

permission uh she is now demanding the

367

00:13:33,269 --> 00:13:30,320

item being pulled off the shelves

368

00:13:36,310 --> 00:13:33,279

and has sought legal advice

369

00:13:39,110 --> 00:13:36,320

the uh brunette pinup who has a million

370

00:13:42,069 --> 00:13:39,120

followers on instagram was made aware of

371

00:13:44,069 --> 00:13:42,079

a familiar face by fans so if

372

00:13:45,910 --> 00:13:44,079

her fans said hey i bought a sex doll

373

00:13:48,870 --> 00:13:45,920

and it happens to look like you just

374

00:13:50,790 --> 00:13:48,880

like you and it's even got your name

375

00:13:52,949 --> 00:13:50,800

exactly

376

00:13:55,110 --> 00:13:52,959

and i'm not returning it to the stores

377

00:13:59,030 --> 00:13:55,120

it's defective it wasn't used that's

378

00:14:05,030 --> 00:14:02,629

uh so uh see speaking

379

00:14:06,629 --> 00:14:05,040

speaking exclusively with the to the

380

00:14:09,030 --> 00:14:06,639

daily star she said someone reached out

381

00:14:10,790 --> 00:14:09,040

to me to address do

382

00:14:11,750 --> 00:14:10,800

someone reached out

383

00:14:13,590 --> 00:14:11,760

to me

384

00:14:14,710 --> 00:14:13,600

got my attention to the whole discussion

385

00:14:17,110 --> 00:14:14,720

about the doll

386

00:14:20,310 --> 00:14:17,120

doll head prototype surprisingly it was

387

00:14:21,110 --> 00:14:20,320

a very familiar face okay

388

00:14:23,670 --> 00:14:21,120

so

389

00:14:25,670 --> 00:14:23,680

these are this isn't a robot doll it's

390

00:14:28,629 --> 00:14:25,680

just a sex doll but they are making

391

00:14:30,790 --> 00:14:28,639

robot sex dolls we've covered that

392

00:14:33,750 --> 00:14:30,800

quite a bit over the past few years and

393

00:14:35,030 --> 00:14:33,760

and what what is she she was a

394

00:14:36,550 --> 00:14:35,040

i don't know who this person is she's a

395

00:14:39,189 --> 00:14:36,560

model probably just an instagram model i

396

00:14:40,230 --> 00:14:39,199

mean if you're yeah she's an influencer

397

00:14:41,829 --> 00:14:40,240

something like that yeah but anyway i

398

00:14:43,030 --> 00:14:41,839

guess my point is if she's a model that

399

00:14:44,310 --> 00:14:43,040

means she does a lot of photography

400

00:14:45,910 --> 00:14:44,320

which means she probably doesn't she

401  
00:14:49,110 --> 00:14:45,920  
already probably does not own her own

402  
00:14:50,389 --> 00:14:49,120  
rights to her image her image rights

403  
00:14:51,910 --> 00:14:50,399  
so that's probably already been signed

404  
00:14:53,110 --> 00:14:51,920  
away so they probably just licensed it

405  
00:14:55,189 --> 00:14:53,120  
so maybe

406  
00:14:56,790 --> 00:14:55,199  
look at that face clearly this lady is

407  
00:14:59,350 --> 00:14:56,800  
not a greasy lawyer

408  
00:15:00,310 --> 00:14:59,360  
uh undetermined at this point

409  
00:15:02,470 --> 00:15:00,320  
um

410  
00:15:04,150 --> 00:15:02,480  
so they stole my face my body even the

411  
00:15:06,870 --> 00:15:04,160  
tiniest details such as my beauty mark

412  
00:15:09,509 --> 00:15:06,880  
under my lip they even use my name they

413  
00:15:12,150 --> 00:15:09,519

called it the doll so she's asking for b

414

00:15:16,710 --> 00:15:12,160

to be removed why didn't she sue for

415

00:15:20,230 --> 00:15:18,550

so yeah well my guess is because she

416

00:15:21,590 --> 00:15:20,240

knows she doesn't have a case so well

417

00:15:23,670 --> 00:15:21,600

she said when i first thought when i

418

00:15:25,910 --> 00:15:23,680

first sought legal help uh i couldn't

419

00:15:27,269 --> 00:15:25,920

find the right lawyer i received yeah

420

00:15:29,590 --> 00:15:27,279

the first the first couple lawyers were

421

00:15:31,269 --> 00:15:29,600

like lady no you you signed away your

422

00:15:34,550 --> 00:15:31,279

image rights when you were 17 and an

423

00:15:36,310 --> 00:15:34,560

idiot so she may have

424

00:15:37,910 --> 00:15:36,320

the dog the doll studio has been

425

00:15:39,749 --> 00:15:37,920

contacted for comment but they haven't

426

00:15:42,069 --> 00:15:39,759

responded

427

00:15:44,870 --> 00:15:42,079

they said talk to their lawyers

428

00:15:46,629 --> 00:15:44,880

they say i did talk to all lawyers yeah

429

00:15:49,430 --> 00:15:46,639

all right that's what uh that's what's

430

00:15:50,470 --> 00:15:49,440

gonna happen [h\_\_\h] em

431

00:15:51,829 --> 00:15:50,480

this sounds like somebody who doesn't

432

00:15:53,350 --> 00:15:51,839

understand how

433

00:15:55,269 --> 00:15:53,360

licensing works it's like people click

434

00:15:56,150 --> 00:15:55,279

past all the eulas and software and they

435

00:15:57,350 --> 00:15:56,160

get pissed off like what do you mean

436

00:15:59,350 --> 00:15:57,360

you're selling my information like you

437

00:16:02,310 --> 00:15:59,360

blew right through that when you started

438

00:16:04,790 --> 00:16:02,320

up your phone so so from robot clones i

439

00:16:06,550 --> 00:16:04,800

want to use your likeness to a sex doll

440

00:16:08,710 --> 00:16:06,560

that they're using your likeness without

441

00:16:10,550 --> 00:16:08,720

your permission to this next story with

442

00:16:13,749 --> 00:16:10,560

headlines scientists have created the

443

00:16:15,910 --> 00:16:13,759

first ever living living robots

444

00:16:17,430 --> 00:16:15,920

that can reproduce

445

00:16:20,069 --> 00:16:17,440

and they definitely did not put them

446

00:16:22,150 --> 00:16:20,079

into the covet shot

447

00:16:24,629 --> 00:16:22,160

uh what could possibly go wrong in

448

00:16:28,310 --> 00:16:24,639

response to the ethical concerns to the

449

00:16:29,430 --> 00:16:28,320

public might have a team the team stress

450

00:16:30,710 --> 00:16:29,440

the streams

451  
00:16:35,269 --> 00:16:30,720  
the team stress

452  
00:16:36,389 --> 00:16:35,279  
xenobots are entirely contained in a lab

453  
00:16:38,550 --> 00:16:36,399  
are easily

454  
00:16:40,870 --> 00:16:38,560  
extinguishable

455  
00:16:43,670 --> 00:16:40,880  
are easily extinguished and are vetted

456  
00:16:45,430 --> 00:16:43,680  
by federal state in institutional ethics

457  
00:16:47,590 --> 00:16:45,440  
experts according to them this is what

458  
00:16:49,990 --> 00:16:47,600  
they're saying don't worry if we gotta

459  
00:16:53,110 --> 00:16:50,000  
get rid of them we can kill them pretty

460  
00:16:55,189 --> 00:16:53,120  
easily and everything's on the up and up

461  
00:16:57,670 --> 00:16:55,199  
and and we we like totally did it with

462  
00:16:59,829 --> 00:16:57,680  
china so

463  
00:17:03,189 --> 00:16:59,839

this reminds me of a star trek episode

464

00:17:06,069 --> 00:17:03,199

where wesley crusher was uh building

465

00:17:08,549 --> 00:17:06,079

these little nanobots for a a class

466

00:17:11,429 --> 00:17:08,559

project now these nanobots they lived in

467

00:17:13,510 --> 00:17:11,439

a container that he could uh control and

468

00:17:16,230 --> 00:17:13,520

get rid of if need be but they were

469

00:17:18,870 --> 00:17:16,240

replicating and uh he fell asleep one

470

00:17:20,949 --> 00:17:18,880

day and the nanobots got out and they

471

00:17:23,510 --> 00:17:20,959

got into the ship's computer and started

472

00:17:25,270 --> 00:17:23,520

replicating consuming memory cores and

473

00:17:27,110 --> 00:17:25,280

advancing and learning from one another

474

00:17:29,909 --> 00:17:27,120

and replicating across the entire

475

00:17:31,750 --> 00:17:29,919

mainframe and they learned

476

00:17:34,470 --> 00:17:31,760

that they could communicate so they

477

00:17:36,070 --> 00:17:34,480

invaded data's body in order to

478

00:17:38,390 --> 00:17:36,080

communicate with the humans and the

479

00:17:40,870 --> 00:17:38,400

humans back like tried to extinguish

480

00:17:43,669 --> 00:17:40,880

them by using gamma ray radiation

481

00:17:46,310 --> 00:17:43,679

but eventually they came to

482

00:17:49,270 --> 00:17:46,320

a decision that listen if you just get

483

00:17:51,750 --> 00:17:49,280

up get us nanobots off your ship we will

484

00:17:53,110 --> 00:17:51,760

stop destroying it and put us on a

485

00:17:55,029 --> 00:17:53,120

planet where there's enough material for

486

00:17:57,350 --> 00:17:55,039

us to feed off of but

487

00:17:59,590 --> 00:17:57,360

the the model i so they became some sort

488

00:18:02,070 --> 00:17:59,600

of resolution but

489

00:18:02,950 --> 00:18:02,080

inadvertently created life and it sounds

490

00:18:05,110 --> 00:18:02,960

like

491

00:18:07,909 --> 00:18:05,120

is this life that they just act created

492

00:18:09,669 --> 00:18:07,919

on purpose and that could be

493

00:18:11,750 --> 00:18:09,679

running amok pretty soon here

494

00:18:12,830 --> 00:18:11,760

uh i i definitely like or i also like

495

00:18:14,789 --> 00:18:12,840

the

496

00:18:16,230 --> 00:18:14,799

um uh

497

00:18:18,230 --> 00:18:16,240

the the comment about how oh no they're

498

00:18:20,630 --> 00:18:18,240

totally safe they were developed with uh

499

00:18:22,549 --> 00:18:20,640

all the strictest guidelines and uh

500

00:18:24,150 --> 00:18:22,559

they'll never get out or anything and if

501  
00:18:26,070 --> 00:18:24,160  
you do we can kill them

502  
00:18:27,830 --> 00:18:26,080  
yeah don't worry about that part we'll

503  
00:18:30,470 --> 00:18:27,840  
kill them we got robocop to kill these

504  
00:18:32,070 --> 00:18:30,480  
guys but uh via the the daily mail says

505  
00:18:33,909 --> 00:18:32,080  
here in a potential breakthrough for

506  
00:18:35,750 --> 00:18:33,919  
regenerative medicine scientists have

507  
00:18:38,230 --> 00:18:35,760  
created the first ever living robots

508  
00:18:40,830 --> 00:18:38,240  
that can reproduce the millimeter-sized

509  
00:18:44,070 --> 00:18:40,840  
living machines called xenobots

510  
00:18:46,549 --> 00:18:44,080  
3.0 are neither traditional robots nor a

511  
00:18:48,070 --> 00:18:46,559  
species of animals but living

512  
00:18:57,430 --> 00:18:48,080  
programmable

513  
00:18:59,510 --> 00:18:57,440

organisms lpos out there i don't know

514

00:19:00,630 --> 00:18:59,520

robot computers i like robot computers

515

00:19:02,710 --> 00:19:00,640

better yeah

516

00:19:05,590 --> 00:19:02,720

made of frog cells the computer design

517

00:19:08,070 --> 00:19:05,600

organisms created by a us team

518

00:19:09,669 --> 00:19:08,080

gathered safe frogs uh

519

00:19:10,710 --> 00:19:09,679

undetermined

520

00:19:13,830 --> 00:19:10,720

um

521

00:19:16,630 --> 00:19:13,840

created by us teams gather single-celled

522

00:19:20,230 --> 00:19:16,640

single cells inside a pac-man shaped

523

00:19:23,190 --> 00:19:20,240

mouth and release babies that look and

524

00:19:25,350 --> 00:19:23,200

move like their parents

525

00:19:28,070 --> 00:19:25,360

self-replicating living biobots could

526

00:19:29,990 --> 00:19:28,080

enable more direct personalized drug

527

00:19:33,510 --> 00:19:30,000

treatment for traumatic injuries birth

528

00:19:35,669 --> 00:19:33,520

defects cancer aging and more

529

00:19:39,430 --> 00:19:35,679

on his own the xenobot parent made of

530

00:19:41,669 --> 00:19:39,440

some 3000 cells form a sphere but it

531

00:19:43,669 --> 00:19:41,679

can't reproduce effectively over several

532

00:19:45,270 --> 00:19:43,679

generations oh so they say

533

00:19:47,669 --> 00:19:45,280

what's the feeding on to generate that's

534

00:19:49,990 --> 00:19:47,679

why what is it living how does what does

535

00:19:53,350 --> 00:19:50,000

it consume to create these new baby

536

00:19:55,029 --> 00:19:53,360

robots consumes coveted

537

00:19:57,750 --> 00:19:55,039

that's it i'm done today

538

00:20:00,310 --> 00:19:57,760

you're probably right

539

00:20:01,990 --> 00:20:00,320

uh these can make children but then the

540

00:20:05,029 --> 00:20:02,000

systems normally

541

00:20:06,950 --> 00:20:05,039

normally they normally die after

542

00:20:08,870 --> 00:20:06,960

uh see

543

00:20:12,870 --> 00:20:08,880

these can make children but then the

544

00:20:15,110 --> 00:20:12,880

system normally dies out after that

545

00:20:17,190 --> 00:20:15,120

said uh one of the scientists it's very

546

00:20:19,750 --> 00:20:17,200

hard actually to get the system to keep

547

00:20:22,630 --> 00:20:19,760

reproducing so the team used a computer

548

00:20:25,430 --> 00:20:22,640

specifically an artificial intelligence

549

00:20:27,270 --> 00:20:25,440

algorithm on the deep green

550

00:20:29,990 --> 00:20:27,280

supercomputer cluster

551  
00:20:32,310 --> 00:20:30,000  
at uvm the algorithm was able to test

552  
00:20:34,390 --> 00:20:32,320  
billions of body shapes in simulations

553  
00:20:36,230 --> 00:20:34,400  
triangle squares pyramid starfish to

554  
00:20:37,430 --> 00:20:36,240  
find ones that

555  
00:20:39,590 --> 00:20:37,440  
replicate

556  
00:20:42,230 --> 00:20:39,600  
they quote we asked the super computer

557  
00:20:45,909 --> 00:20:42,240  
at uvm to figure out how to adjust the

558  
00:20:48,149 --> 00:20:45,919  
shape of the initial parents and the ai

559  
00:20:50,549 --> 00:20:48,159  
came up with some strange designs after

560  
00:20:54,789 --> 00:20:50,559  
months of chugging away including one

561  
00:20:54,799 --> 00:20:59,350  
so okay

562  
00:21:04,310 --> 00:21:02,470  
it's all happening

563  
00:21:06,230 --> 00:21:04,320

again just that first part we're like oh

564

00:21:07,510 --> 00:21:06,240

these are totally replicable

565

00:21:09,510 --> 00:21:07,520

don't worry they're safe don't and

566

00:21:10,549 --> 00:21:09,520

they're totally within the lab it won't

567

00:21:12,870 --> 00:21:10,559

get out

568

00:21:14,390 --> 00:21:12,880

uh it won't be released uh the

569

00:21:15,590 --> 00:21:14,400

government knows about it and if it does

570

00:21:17,029 --> 00:21:15,600

get released we'll just kill him like

571

00:21:18,950 --> 00:21:17,039

well why would you fill that in if it's

572

00:21:22,149 --> 00:21:18,960

not going to get released so

573

00:21:24,630 --> 00:21:22,159

on there this is crazy

574

00:21:27,029 --> 00:21:24,640

it's crazy um a comment from post void

575

00:21:29,110 --> 00:21:27,039

in the chat says that nanobot apocalypse

576

00:21:30,870 --> 00:21:29,120

is often referred to as the gray cloud

577

00:21:33,270 --> 00:21:30,880

or grey mist

578

00:21:35,190 --> 00:21:33,280

oh interesting that's coming soon

579

00:21:36,710 --> 00:21:35,200

wasn't gray missed the name of a uh

580

00:21:38,630 --> 00:21:36,720

pierce brosnan movie

581

00:21:40,070 --> 00:21:38,640

can you look at this one up i swear i

582

00:21:41,830 --> 00:21:40,080

read an article recently where they

583

00:21:46,070 --> 00:21:41,840

wanted to sprinkle

584

00:21:47,270 --> 00:21:46,080

uh nano technology on crops

585

00:21:49,270 --> 00:21:47,280

maybe i misremember like they want to

586

00:21:51,750 --> 00:21:49,280

spread they want they want to sprinkle

587

00:21:55,350 --> 00:21:51,760

like sprinkling they want to sprinkle

588

00:21:57,590 --> 00:21:55,360

uh nanotech on crops and food so it's

589

00:21:58,390 --> 00:21:57,600

ingested everywhere

590

00:22:00,310 --> 00:21:58,400

like

591

00:22:01,750 --> 00:22:00,320

i don't doubt it here's an article

592

00:22:03,270 --> 00:22:01,760

oh an article from the nih

593

00:22:04,470 --> 00:22:03,280

nanotechnology in sustainable

594

00:22:07,750 --> 00:22:04,480

agriculture

595

00:22:09,270 --> 00:22:07,760

oh great we're talking about here um

596

00:22:10,950 --> 00:22:09,280

nanotechnology monitors a leading

597

00:22:12,390 --> 00:22:10,960

agricultural agricultural controlling

598

00:22:14,470 --> 00:22:12,400

process especially by its miniature

599

00:22:15,909 --> 00:22:14,480

dimension thanks uh many potential

600

00:22:17,990 --> 00:22:15,919

benefits that's an enhancement of food

601  
00:22:19,510 --> 00:22:18,000  
quality reduction of agricultural inputs

602  
00:22:21,270 --> 00:22:19,520  
whatever that means enrichment of

603  
00:22:22,630 --> 00:22:21,280  
absorbing nanoscale nutrients from the

604  
00:22:24,070 --> 00:22:22,640  
soil allow the application of

605  
00:22:26,789 --> 00:22:24,080  
nanotechnology to be resident

606  
00:22:28,630 --> 00:22:26,799  
encumbrance thanks nerds oh yeah

607  
00:22:31,029 --> 00:22:28,640  
[h\_\_\h] i'm saying nanobots you want

608  
00:22:35,750 --> 00:22:31,039  
nanobots

609  
00:22:38,310 --> 00:22:35,760  
nanoparticles nanotechnology nanotech

610  
00:22:41,909 --> 00:22:39,990  
this one dangerous nanoparticles

611  
00:22:46,149 --> 00:22:41,919  
contaminating many vaccines is

612  
00:22:46,159 --> 00:22:51,830  
uh

613  
00:22:56,390 --> 00:22:53,990

it's okay analyses carried out show that

614

00:22:57,789 --> 00:22:56,400

in all samples checked uh that in all

615

00:23:00,310 --> 00:22:57,799

samples checked vaccines contain

616

00:23:02,070 --> 00:23:00,320

non-biocompatible and non-biopersistent

617

00:23:03,909 --> 00:23:02,080

foreign bodies which are not declared by

618

00:23:05,430 --> 00:23:03,919

the producers against which the body

619

00:23:06,789 --> 00:23:05,440

reacts in any case this new

620

00:23:08,230 --> 00:23:06,799

investigation represents a new quality

621

00:23:10,710 --> 00:23:08,240

control that can be adopted to assess

622

00:23:11,909 --> 00:23:10,720

the safety of a vaccine our hypothesis

623

00:23:13,830 --> 00:23:11,919

is that this contamination is

624

00:23:15,110 --> 00:23:13,840

unintentional since it's probably due to

625

00:23:17,669 --> 00:23:15,120

political components or procedures of

626  
00:23:18,630 --> 00:23:17,679  
industrial processes

627  
00:23:20,230 --> 00:23:18,640  
don't worry about all that [h\_\_h] in your

628  
00:23:24,710 --> 00:23:20,240  
vaccine it was an accident

629  
00:23:29,430 --> 00:23:27,669  
well in our last piece of robot news and

630  
00:23:31,590 --> 00:23:29,440  
i do this is the last one i have people

631  
00:23:33,750 --> 00:23:31,600  
it's a robot show this is a big robot

632  
00:23:36,149 --> 00:23:33,760  
show we don't do a lot of robot talk but

633  
00:23:38,470 --> 00:23:36,159  
when it comes up we we get all kind of

634  
00:23:40,310 --> 00:23:38,480  
riled up you know i'm all riled up we do

635  
00:23:42,549 --> 00:23:40,320  
it all

636  
00:23:44,630 --> 00:23:42,559  
new covered robot hunts down people for

637  
00:23:46,149 --> 00:23:44,640  
breaking social distancing rules and

638  
00:23:47,830 --> 00:23:46,159

separates them

639

00:23:50,230 --> 00:23:47,840

like that

640

00:23:52,870 --> 00:23:50,240

explodes them uh

641

00:23:56,310 --> 00:23:52,880

maybe by force forceful separation of

642

00:23:58,789 --> 00:23:56,320

your body leg and your head

643

00:24:01,430 --> 00:23:58,799

a new autonomous mobile robot built to

644

00:24:03,830 --> 00:24:01,440

find people breaking coronavirus social

645

00:24:05,350 --> 00:24:03,840

distancing rules has been unveiled

646

00:24:06,230 --> 00:24:05,360

created by

647

00:24:08,710 --> 00:24:06,240

uh

648

00:24:09,990 --> 00:24:08,720

i cannot pronounce this name and i'm not

649

00:24:12,149 --> 00:24:10,000

going to start i'm not looking at the

650

00:24:13,669 --> 00:24:12,159

article but yeah i i'm not going to

651  
00:24:14,789 --> 00:24:13,679  
start find out

652  
00:24:16,070 --> 00:24:14,799  
where is it

653  
00:24:17,510 --> 00:24:16,080  
yeah it's

654  
00:24:20,630 --> 00:24:17,520  
it's like the second hold on i've got

655  
00:24:22,070 --> 00:24:20,640  
all sorts of pop-up pop-unders and

656  
00:24:25,190 --> 00:24:22,080  
cookie acceptance i don't deal with any

657  
00:24:27,029 --> 00:24:25,200  
of this crap get out of here

658  
00:24:28,070 --> 00:24:27,039  
oh now i've broken it

659  
00:24:30,830 --> 00:24:28,080  
it's okay

660  
00:24:34,789 --> 00:24:30,840  
up i'll redress i'll carry

661  
00:24:36,470 --> 00:24:34,799  
on one created by adarsh

662  
00:24:38,870 --> 00:24:36,480  
saithamorph

663  
00:24:41,430 --> 00:24:38,880

yes that guy yeah that adar

664

00:24:42,630 --> 00:24:41,440

you call me dar there you go yeah 8r

665

00:24:44,789 --> 00:24:42,640

um

666

00:24:47,110 --> 00:24:44,799

created by adar a phd student from the

667

00:24:49,190 --> 00:24:47,120

university of maryland and colleagues uh

668

00:24:51,269 --> 00:24:49,200

the robot will be able to detect uh

669

00:24:54,070 --> 00:24:51,279

detect people in crowds

670

00:24:56,470 --> 00:24:54,080

who are not keeping the

671

00:24:58,549 --> 00:24:56,480

social distancing laws in mind

672

00:25:02,470 --> 00:24:58,559

they will travel between them and

673

00:25:09,110 --> 00:25:05,909

i said that the journal i said in a

674

00:25:12,070 --> 00:25:09,120

in the journal p l o s one previous

675

00:25:14,630 --> 00:25:12,080

research has shown shown that staying at

676

00:25:17,190 --> 00:25:14,640

least two meters apart from a one

677

00:25:19,350 --> 00:25:17,200

another can reduce the spread of covet

678

00:25:20,390 --> 00:25:19,360

19.

679

00:25:21,430 --> 00:25:20,400

great

680

00:25:23,269 --> 00:25:21,440

carbon

681

00:25:24,870 --> 00:25:23,279

um i do like that the robot is small

682

00:25:26,230 --> 00:25:24,880

enough that anybody who gets pestered by

683

00:25:28,630 --> 00:25:26,240

this thing will just pick it up and put

684

00:25:31,110 --> 00:25:28,640

it in a trash can technology-based

685

00:25:33,590 --> 00:25:31,120

methods such as uh such as strategies

686

00:25:36,789 --> 00:25:33,600

using wi-fi and bluetooth hold promise

687

00:25:38,789 --> 00:25:36,799

to detect and discourage lapses in

688

00:25:40,870 --> 00:25:38,799

social distancing what does that mean i

689

00:25:42,630 --> 00:25:40,880

don't know technology

690

00:25:43,669 --> 00:25:42,640

using technology-based messages remember

691

00:25:44,870 --> 00:25:43,679

earlier

692

00:25:46,549 --> 00:25:44,880

yeah remember early on there was a

693

00:25:49,110 --> 00:25:46,559

contact tracing

694

00:25:50,470 --> 00:25:49,120

process that both uh google and apple

695

00:25:52,470 --> 00:25:50,480

were on board with

696

00:25:53,909 --> 00:25:52,480

um where they were going to detect you

697

00:25:55,029 --> 00:25:53,919

know who you were near and that could

698

00:25:56,710 --> 00:25:55,039

try to figure out who had the magic

699

00:25:58,310 --> 00:25:56,720

kavid but one of the things they talked

700

00:26:00,070 --> 00:25:58,320

about early on was they could leverage

701  
00:26:02,630 --> 00:26:00,080  
the bluetooth radios

702  
00:26:04,789 --> 00:26:02,640  
quote unquote anonymously to warn you

703  
00:26:05,830 --> 00:26:04,799  
when you were too close to somebody else

704  
00:26:08,310 --> 00:26:05,840  
so that's what they mean they'll use

705  
00:26:09,590 --> 00:26:08,320  
wi-fi and bluetooth location information

706  
00:26:11,750 --> 00:26:09,600  
say mike you're too close to another

707  
00:26:13,350 --> 00:26:11,760  
person you're both going to die because

708  
00:26:14,310 --> 00:26:13,360  
remember one of the things about kavid

709  
00:26:16,149 --> 00:26:14,320  
is

710  
00:26:17,909 --> 00:26:16,159  
when you get two or more people gathered

711  
00:26:21,510 --> 00:26:17,919  
together in my name they magically

712  
00:26:23,430 --> 00:26:21,520  
spontaneously die of kavid carbon

713  
00:26:25,190 --> 00:26:23,440

at least according to

714

00:26:27,350 --> 00:26:25,200

saint fauci

715

00:26:29,430 --> 00:26:27,360

uh however many such approaches

716

00:26:32,310 --> 00:26:29,440

approaches require participation from

717

00:26:35,510 --> 00:26:32,320

individuals or existing infrastructure

718

00:26:38,070 --> 00:26:35,520

so robots have emerged as a potential

719

00:26:40,149 --> 00:26:38,080

tool for addressing social distancing in

720

00:26:42,549 --> 00:26:40,159

crowds it just goes to show that this

721

00:26:45,190 --> 00:26:42,559

thing is not over like

722

00:26:47,029 --> 00:26:45,200

they're gonna you you're telling me that

723

00:26:49,830 --> 00:26:47,039

all the camps that are being built

724

00:26:51,750 --> 00:26:49,840

in australia

725

00:26:52,789 --> 00:26:51,760

and then all the robots are developing

726

00:26:54,230 --> 00:26:52,799

here

727

00:26:56,070 --> 00:26:54,240

uh with all this infrastructure they're

728

00:26:58,870 --> 00:26:56,080

putting place like code is like this

729

00:27:01,350 --> 00:26:58,880

thing is just going to go away next year

730

00:27:03,029 --> 00:27:01,360

this is long term this is this is it

731

00:27:04,950 --> 00:27:03,039

like they're developing so much

732

00:27:07,430 --> 00:27:04,960

infrastructure around this they can't

733

00:27:09,269 --> 00:27:07,440

let it go there's there's new industries

734

00:27:11,430 --> 00:27:09,279

behind this thing now

735

00:27:13,190 --> 00:27:11,440

robot computers there's robot computers

736

00:27:15,029 --> 00:27:13,200

that are being built right now to

737

00:27:16,149 --> 00:27:15,039

separate you from people you're hanging

738

00:27:17,909 --> 00:27:16,159

out with follow you around to the

739

00:27:19,510 --> 00:27:17,919

grocery store and yell at you for

740

00:27:22,070 --> 00:27:19,520

getting too close to the other guy while

741

00:27:23,990 --> 00:27:22,080

both reaching for the box of raisin bran

742

00:27:25,590 --> 00:27:24,000

i'm reaching for my night pickle and i

743

00:27:27,750 --> 00:27:25,600

can't even get it because the guy next

744

00:27:29,510 --> 00:27:27,760

to me got there first and then a robot

745

00:27:31,750 --> 00:27:29,520

got involved

746

00:27:34,630 --> 00:27:31,760

by the way so i had a similar sort of

747

00:27:35,750 --> 00:27:34,640

thing this was months ago but um

748

00:27:37,430 --> 00:27:35,760

we basically got a rule at work where

749

00:27:38,950 --> 00:27:37,440

they were like you we want you to wear a

750

00:27:41,029 --> 00:27:38,960

mask if you the way it's written and

751

00:27:42,870 --> 00:27:41,039

again you just contribute how you can

752

00:27:44,870 --> 00:27:42,880

interpret how you want where i'm asking

753

00:27:46,950 --> 00:27:44,880

if you're not able to maintain a six

754

00:27:48,230 --> 00:27:46,960

foot distance so if you read that the

755

00:27:49,430 --> 00:27:48,240

other way as long as you're six feet

756

00:27:50,870 --> 00:27:49,440

away from somebody you don't have to do

757

00:27:52,310 --> 00:27:50,880

[h\_\_h] which is how most people are

758

00:27:54,389 --> 00:27:52,320

handling it

759

00:27:55,909 --> 00:27:54,399

so there was a guy who walked up next to

760

00:27:57,269 --> 00:27:55,919

me um

761

00:27:58,070 --> 00:27:57,279

in the by the vending machines and was

762

00:27:59,510 --> 00:27:58,080

like

763

00:28:01,110 --> 00:27:59,520

you're supposed to be wearing a mask and

764

00:28:01,990 --> 00:28:01,120

i said no if you look at the thing it

765

00:28:03,190 --> 00:28:02,000

says you have to wear a mask if you're

766

00:28:04,630 --> 00:28:03,200

not within six feet he goes well we're

767

00:28:06,230 --> 00:28:04,640

closer than six feet and i'm like you

768

00:28:09,909 --> 00:28:06,240

walked up to me

769

00:28:12,389 --> 00:28:09,919

you came into my zone so that's on you

770

00:28:14,389 --> 00:28:12,399

yeah he's an ass anyway but still

771

00:28:16,230 --> 00:28:14,399

that's that's [h\_\_h] like you broke

772

00:28:18,950 --> 00:28:16,240

that you broke the rule i didn't you

773

00:28:20,149 --> 00:28:18,960

walked you walked towards me

774

00:28:21,990 --> 00:28:20,159

so that's what this product can do it's

775

00:28:24,070 --> 00:28:22,000

gonna follow you around until until the

776

00:28:26,310 --> 00:28:24,080

very second you breach five feet eleven

777

00:28:27,750 --> 00:28:26,320

and a quarter inches or less half inches

778

00:28:30,230 --> 00:28:27,760

it's gonna be doing more than that so

779

00:28:32,389 --> 00:28:30,240

listen so the robot has been tested in a

780

00:28:34,070 --> 00:28:32,399

variety of different scenarios such as

781

00:28:36,230 --> 00:28:34,080

standing still walking or moving

782

00:28:37,110 --> 00:28:36,240

erratically it was able

783

00:28:38,710 --> 00:28:37,120

moving

784

00:28:40,470 --> 00:28:38,720

it look that's a drunk robot over there

785

00:28:41,750 --> 00:28:40,480

isn't it look at that look at him go

786

00:28:42,950 --> 00:28:41,760

look at that thing all moving around

787

00:28:46,389 --> 00:28:42,960

[h\_\_\h]

788

00:28:48,710 --> 00:28:46,399

uh from pickles it was able to detect

789

00:28:53,590 --> 00:28:48,720

and address most of the breaches that

790

00:28:55,750 --> 00:28:53,600

occurred and cct cctv enhanced

791

00:28:57,990 --> 00:28:55,760

its performance

792

00:28:59,510 --> 00:28:58,000

uh it also uses thermal camera to detect

793

00:29:03,110 --> 00:28:59,520

potential

794

00:29:04,149 --> 00:29:03,120

fevers in aid in contract tracing

795

00:29:06,310 --> 00:29:04,159

efforts

796

00:29:08,549 --> 00:29:06,320

so it will wait what my my question is

797

00:29:12,549 --> 00:29:08,559

though is it gonna immediately uh rat

798

00:29:14,950 --> 00:29:12,559

you out to the to the cdc police

799

00:29:18,070 --> 00:29:14,960

uh so for those worried about privacy it

800

00:29:21,990 --> 00:29:18,080

will use a method of de-identification

801  
00:29:23,029 --> 00:29:22,000  
to stop any potential privacy breaches

802  
00:29:23,830 --> 00:29:23,039  
uh-huh

803  
00:29:25,909 --> 00:29:23,840  
and those

804  
00:29:27,110 --> 00:29:25,919  
nano robots will never get out of the

805  
00:29:28,870 --> 00:29:27,120  
lab

806  
00:29:31,669 --> 00:29:28,880  
a lot of healthcare workers and security

807  
00:29:34,950 --> 00:29:31,679  
personnel had to put their health at

808  
00:29:37,990 --> 00:29:34,960  
risk to serve the public during covet 19

809  
00:29:40,950 --> 00:29:38,000  
during the cover 19 pandemic our work

810  
00:29:44,149 --> 00:29:40,960  
our work's core objective is to provide

811  
00:29:46,470 --> 00:29:44,159  
them with the tools to safely and

812  
00:29:49,510 --> 00:29:46,480  
effectively serve their communities well

813  
00:29:51,190 --> 00:29:49,520

sounds like you put them out of a job

814

00:29:53,590 --> 00:29:51,200

sounds like your maybe this robot should

815

00:29:55,669 --> 00:29:53,600

be uh

816

00:29:58,310 --> 00:29:55,679

wearing a red armband and demand to see

817

00:29:59,750 --> 00:29:58,320

papers i think that's

818

00:30:02,230 --> 00:29:59,760

probably

819

00:30:04,549 --> 00:30:02,240

oh where could they merge this robot

820

00:30:06,070 --> 00:30:04,559

with the uh the sexy hundred hour face

821

00:30:08,310 --> 00:30:06,080

capture robot

822

00:30:10,389 --> 00:30:08,320

um and then they could shoot nanobots at

823

00:30:12,149 --> 00:30:10,399

you could have all the stories at once

824

00:30:13,190 --> 00:30:12,159

get everything yeah

825

00:30:14,870 --> 00:30:13,200

and then it would then it would uh

826

00:30:17,029 --> 00:30:14,880

report you to the cops

827

00:30:19,190 --> 00:30:17,039

what i think that if we're gonna go down

828

00:30:21,029 --> 00:30:19,200

that route i would say that there's

829

00:30:23,190 --> 00:30:21,039

gonna be some sort

830

00:30:26,549 --> 00:30:23,200

of machine

831

00:30:29,269 --> 00:30:26,559

that will be able to assume the identity

832

00:30:32,870 --> 00:30:29,279

of loved ones in order to get you to do

833

00:30:36,870 --> 00:30:34,830

pod people is what i'm basically saying

834

00:30:38,710 --> 00:30:36,880

okay but that's not a machine though

835

00:30:40,630 --> 00:30:38,720

that was that was not and i know but

836

00:30:42,630 --> 00:30:40,640

it's gonna be a pod robot so it will

837

00:30:44,389 --> 00:30:42,640

have the ability to you put like you put

838

00:30:46,710 --> 00:30:44,399

like enough gears and stuff underneath

839

00:30:48,389 --> 00:30:46,720

the skin of a robot it will just

840

00:30:49,990 --> 00:30:48,399

rearrange its face to look like whoever

841

00:30:51,750 --> 00:30:50,000

you want like kind of like the t-1000

842

00:30:53,590 --> 00:30:51,760

from terminator 2. they couldn't

843

00:30:56,149 --> 00:30:53,600

rearrange their face they were made that

844

00:30:58,230 --> 00:30:56,159

way well t-1000

845

00:31:01,830 --> 00:30:58,240

all the 2 1000 okay that was the liquid

846

00:31:03,750 --> 00:31:01,840

one the t-101 or t-800 101 series or

847

00:31:04,870 --> 00:31:03,760

whatever it was that arnold was what's

848

00:31:06,310 --> 00:31:04,880

up

849

00:31:07,750 --> 00:31:06,320

um

850

00:31:09,830 --> 00:31:07,760

my question is will all the pod people

851

00:31:11,669 --> 00:31:09,840

look like donald sutherland

852

00:31:13,669 --> 00:31:11,679

uh i don't think that they will i think

853

00:31:14,870 --> 00:31:13,679

they can rearrange their face but i

854

00:31:16,710 --> 00:31:14,880

think there might be something that's

855

00:31:19,110 --> 00:31:16,720

strangely always like donald sutherland

856

00:31:21,190 --> 00:31:19,120

i i if there's like

857

00:31:23,269 --> 00:31:21,200

android if we're asking people for your

858

00:31:24,149 --> 00:31:23,279

identity to make a robot look like a

859

00:31:25,509 --> 00:31:24,159

human

860

00:31:26,710 --> 00:31:25,519

then they're going to get a lot of

861

00:31:28,710 --> 00:31:26,720

entries they're probably going to scan

862

00:31:31,750 --> 00:31:28,720

them all in and see what works they're

863

00:31:35,269 --> 00:31:31,760

you you creating robots for

864

00:31:36,789 --> 00:31:35,279

cova detection and enforcing laws their

865

00:31:39,269 --> 00:31:36,799

sex robots i think they're going to

866

00:31:40,789 --> 00:31:39,279

create some kind of robot by accident or

867

00:31:43,830 --> 00:31:40,799

something like that using

868

00:31:45,669 --> 00:31:43,840

that is self-replicating can assume any

869

00:31:48,950 --> 00:31:45,679

identity it wants

870

00:31:50,789 --> 00:31:48,960

with goals of controlling your life

871

00:31:51,990 --> 00:31:50,799

and reporting you to the covert police

872

00:31:53,750 --> 00:31:52,000

yes

873

00:31:59,029 --> 00:31:53,760

what are you doing
