

HUMANZEE

1
00:00:00,270 --> 00:00:06,950
[Applause]

2
00:00:13,190 --> 00:00:10,390
hybrid humanzi super soldiers created in

3
00:00:17,109 --> 00:00:13,200
lab for organ harvesting

4
00:00:19,750 --> 00:00:17,119
and space travel yeah this is damn

5
00:00:21,349 --> 00:00:19,760
exciting stuff it's certainly any uh

6
00:00:23,670 --> 00:00:21,359
relation to the ones famously developed

7
00:00:25,910 --> 00:00:23,680
by stalin in the 50s

8
00:00:27,990 --> 00:00:25,920
well that might come to play here but

9
00:00:29,349 --> 00:00:28,000
this is uh this is a different country

10
00:00:32,229 --> 00:00:29,359
doing this

11
00:00:33,990 --> 00:00:32,239
at a different time but yeah uh styling

12
00:00:38,150 --> 00:00:34,000
tried to create some

13
00:00:40,470 --> 00:00:38,160

hybrid primates or hybrid apes and uh in

14

00:00:42,709 --> 00:00:40,480

man super soldiers i don't know a lot

15

00:00:44,630 --> 00:00:42,719

about that but maybe we could dive into

16

00:00:47,430 --> 00:00:44,640

it as we read this

17

00:00:49,830 --> 00:00:47,440

uh so attempts to create hybrids a

18

00:00:52,229 --> 00:00:49,840

hybrid between humans and other animals

19

00:00:54,310 --> 00:00:52,239

to create the perfect factory for

20

00:00:57,350 --> 00:00:54,320

transplant organs has been reported for

21

00:00:58,950 --> 00:00:57,360

a century and are allegedly still going

22

00:01:01,110 --> 00:00:58,960

on today

23

00:01:06,390 --> 00:01:01,120

in 2019 a team of scientists led by

24

00:01:08,870 --> 00:01:06,400

professor uh juan carlos uh inspinza

25

00:01:11,350 --> 00:01:08,880

from the u.s salk institute for

26

00:01:14,630 --> 00:01:11,360

biological studies uh reportedly created

27

00:01:16,789 --> 00:01:14,640

a human monkey hybrid which survived for

28

00:01:18,390 --> 00:01:16,799

19 days i thought this kind of stuff was

29

00:01:19,670 --> 00:01:18,400

illegal to do

30

00:01:20,789 --> 00:01:19,680

highly illegal especially if it's done

31

00:01:22,870 --> 00:01:20,799

in the u.s

32

00:01:25,429 --> 00:01:22,880

yeah that's why they do virus research

33

00:01:27,830 --> 00:01:25,439

in wuhan china now ended by the us but

34

00:01:29,910 --> 00:01:27,840

not in the u.s maybe the u.s salk

35

00:01:31,749 --> 00:01:29,920

institute for biological studies is not

36

00:01:33,429 --> 00:01:31,759

actually in the u.s

37

00:01:34,310 --> 00:01:33,439

well the jonas stalk institute where is

38

00:01:37,670 --> 00:01:34,320

that

39

00:01:39,590 --> 00:01:37,680

i don't know u.s salk s-a-l-k insurance

40

00:01:41,350 --> 00:01:39,600

dr jonas salk uh salkins do for

41

00:01:43,270 --> 00:01:41,360

biological studies in san diego

42

00:01:45,510 --> 00:01:43,280

california okay

43

00:01:46,630 --> 00:01:45,520

so they're all going to jail

44

00:01:49,670 --> 00:01:46,640

yeah

45

00:01:52,310 --> 00:01:49,680

uh but as far back as the 1920 soviet

46

00:01:54,389 --> 00:01:52,320

scientists in russia were ordered by

47

00:01:57,350 --> 00:01:54,399

dictator stalin to create

48

00:01:59,510 --> 00:01:57,360

hybrid eight-man super soldiers capable

49

00:02:01,830 --> 00:01:59,520

of working under extreme conditions too

50

00:02:03,910 --> 00:02:01,840

dangerous for ordinary humans like

51
00:02:06,230 --> 00:02:03,920
burger king probably

52
00:02:09,029 --> 00:02:06,240
uh secret documents from the time

53
00:02:10,790 --> 00:02:09,039
declassified in the 1990s show that

54
00:02:15,030 --> 00:02:10,800
kremlin chiefs

55
00:02:16,949 --> 00:02:15,040
wanted an unbeatable army of man apes

56
00:02:19,670 --> 00:02:16,959
with immense strength

57
00:02:22,869 --> 00:02:19,680
but with an underdeveloped brain

58
00:02:24,150 --> 00:02:22,879
that were resilient and resistant to

59
00:02:25,190 --> 00:02:24,160
hunger

60
00:02:26,070 --> 00:02:25,200
okay

61
00:02:27,350 --> 00:02:26,080
i mean

62
00:02:28,949 --> 00:02:27,360
this does not sound like a good idea i

63
00:02:30,790 --> 00:02:28,959

want people who are stronger than humans

64

00:02:33,110 --> 00:02:30,800

but also dumber

65

00:02:38,030 --> 00:02:33,120

yeah maybe just go to west virginia you

66

00:02:44,070 --> 00:02:42,470

[Laughter]

67

00:02:45,900 --> 00:02:44,080

sorry my western junior friends i had to

68

00:02:47,190 --> 00:02:45,910

do it

69

00:02:48,150 --> 00:02:47,200

[Music]

70

00:02:51,270 --> 00:02:48,160

uh

71

00:02:54,070 --> 00:02:51,280

the project was led by i'm actually

72

00:02:56,229 --> 00:02:54,080

pronounce this uh this name here

73

00:02:58,470 --> 00:02:56,239

uh a biologist whose life work was

74

00:03:00,710 --> 00:02:58,480

centered around the cross breeding of

75

00:03:05,990 --> 00:03:00,720

humans and apes using artificial

76

00:03:11,030 --> 00:03:07,750

ivanov

77

00:03:12,790 --> 00:03:11,040

father's name was also named his name

78

00:03:15,750 --> 00:03:12,800

ivan so

79

00:03:20,309 --> 00:03:15,760

ivanovich named after his father so ilya

80

00:03:22,949 --> 00:03:20,319

ivanov is his name oh jesus christ

81

00:03:25,830 --> 00:03:22,959

you're a college boy or something huh

82

00:03:27,030 --> 00:03:25,840

just read books man huh or information

83

00:03:28,949 --> 00:03:27,040

hides

84

00:03:31,750 --> 00:03:28,959

hide it from the masses and books well

85

00:03:34,229 --> 00:03:31,760

the project uh in there in the the

86

00:03:35,830 --> 00:03:34,239

soviet union uh does not appear to have

87

00:03:37,190 --> 00:03:35,840

been it does not appear to have been

88

00:03:40,789 --> 00:03:37,200

successful

89

00:03:44,309 --> 00:03:40,799

and and uh his his work died with him in

90

00:03:46,550 --> 00:03:44,319

the early 30s so

91

00:03:48,710 --> 00:03:46,560

well actually ivanov died in a soviet

92

00:03:51,030 --> 00:03:48,720

work camp in the early 30s so maybe his

93

00:03:54,390 --> 00:03:51,040

work continued on but in the 1970s the

94

00:03:56,789 --> 00:03:54,400

emergence of an alleged mutant chimp

95

00:04:01,429 --> 00:03:56,799

with eerily human characteristics

96

00:04:03,350 --> 00:04:01,439

reawaken the humanzie idea

97

00:04:04,229 --> 00:04:03,360

so there's a picture on screen of a

98

00:04:09,830 --> 00:04:04,239

chimp

99

00:04:12,830 --> 00:04:09,840

eerily human-like behavior

100

00:04:17,030 --> 00:04:12,840

so what we're looking at on screen

101
00:04:18,949 --> 00:04:17,040
is a chimpanzee but his head is not as

102
00:04:20,710 --> 00:04:18,959
hairy and i don't want i don't know what

103
00:04:22,469 --> 00:04:20,720
makes him like super

104
00:04:25,430 --> 00:04:22,479
human-like his face is

105
00:04:26,870 --> 00:04:25,440
not super chimpanzee-like i mean it's

106
00:04:31,030 --> 00:04:26,880
i don't know it's a weird-looking ape no

107
00:04:35,430 --> 00:04:33,189
oliver a performing ape that was

108
00:04:37,510 --> 00:04:35,440
reported to have been a human chimpanzee

109
00:04:39,510 --> 00:04:37,520
hybrid appeared to be much more

110
00:04:40,629 --> 00:04:39,520
intelligent than other chimps

111
00:04:43,909 --> 00:04:40,639
and had

112
00:04:45,830 --> 00:04:43,919
rather less body hair

113
00:04:48,390 --> 00:04:45,840

however post-mortem testing showed that

114

00:04:51,189 --> 00:04:48,400

oliver had the same genetic makeup as

115

00:04:53,830 --> 00:04:51,199

any normal chimpanzee in the 1980s

116

00:04:55,990 --> 00:04:53,840

reports emerged of an experiment

117

00:04:58,230 --> 00:04:56,000

in human chimpanzee crossbreeding

118

00:05:01,830 --> 00:04:58,240

conducted in the people's republic of

119

00:05:03,350 --> 00:05:01,840

china in 1967.

120

00:05:05,430 --> 00:05:03,360

the chinese government was said to be

121

00:05:08,390 --> 00:05:05,440

restarting the project and one of the

122

00:05:12,790 --> 00:05:08,400

scientists involved dr xi

123

00:05:16,629 --> 00:05:14,390

newspaper

124

00:05:18,870 --> 00:05:16,639

that he aimed to produce an animal that

125

00:05:22,830 --> 00:05:18,880

could speak while retaining the

126

00:05:26,870 --> 00:05:25,029

chimpanzee oh my god there's another

127

00:05:29,510 --> 00:05:26,880

champions guy on the screen right here

128

00:05:31,110 --> 00:05:29,520

and this this guy just looks evil

129

00:05:32,629 --> 00:05:31,120

oh jesus christ trust any of these

130

00:05:36,629 --> 00:05:32,639

chimps no

131

00:05:42,390 --> 00:05:39,270

make very poor valets that's for sure

132

00:05:44,310 --> 00:05:42,400

uh he said that the hybrid humane z's

133

00:05:46,870 --> 00:05:44,320

would be used for mining heavy

134

00:05:48,629 --> 00:05:46,880

agriculture work in exploration of

135

00:05:51,350 --> 00:05:48,639

dangerous environments such as outer

136

00:05:52,550 --> 00:05:51,360

space and the depths of the ocean

137

00:05:55,189 --> 00:05:52,560

as yet

138

00:05:57,430 --> 00:05:55,199

there are no authentic authenticated

139

00:05:59,749 --> 00:05:57,440

cases of genetically engineered ape men

140

00:06:01,590 --> 00:05:59,759

being successfully produced although a

141

00:06:05,629 --> 00:06:01,600

report in the sun claims that the

142

00:06:08,790 --> 00:06:05,639

humansie was born during during a

143

00:06:11,029 --> 00:06:08,800

hybridization project in the us

144

00:06:12,230 --> 00:06:11,039

but was deliberately killed by lab

145

00:06:14,629 --> 00:06:12,240

workers

146

00:06:17,110 --> 00:06:14,639

professor belamonte's team are

147

00:06:19,590 --> 00:06:17,120

reportedly still working towards an

148

00:06:20,550 --> 00:06:19,600

eight-man goal working with a lab in

149

00:06:23,189 --> 00:06:20,560

china

150

00:06:24,629 --> 00:06:23,199

where there are fewer legal issues

151

00:06:25,909 --> 00:06:24,639

weird how that works yeah maybe we

152

00:06:28,469 --> 00:06:25,919

should do some virus research over there

153

00:06:29,830 --> 00:06:28,479

too that'll go well

154

00:06:31,270 --> 00:06:29,840

uh

155

00:06:33,830 --> 00:06:31,280

you know it's been rumored that some of

156

00:06:35,430 --> 00:06:33,840

the cryptids that are out walking around

157

00:06:37,670 --> 00:06:35,440

some of the ones that appeared in the

158

00:06:39,990 --> 00:06:37,680

the 60s and 70s specifically something

159

00:06:42,790 --> 00:06:40,000

like mothman could have been the product

160

00:06:45,430 --> 00:06:42,800

of some sort of genetic

161

00:06:48,950 --> 00:06:45,440

lab experiment done by the us military

162

00:06:51,589 --> 00:06:48,960

and that either it got loose or was let

163

00:06:54,150 --> 00:06:51,599

loose on purpose and that might explain

164

00:06:56,469 --> 00:06:54,160

like that the pig man of vermont

165

00:06:59,350 --> 00:06:56,479

uh it might explain mothman or maybe

166

00:07:01,830 --> 00:06:59,360

even the goat man of texas

167

00:07:04,469 --> 00:07:01,840

uh i'm i'm open to those interpretations

168

00:07:06,230 --> 00:07:04,479

of of these uh weird cryptids

169

00:07:07,110 --> 00:07:06,240

but i doubt we're going to get any sort

170

00:07:08,629 --> 00:07:07,120

of

171

00:07:10,390 --> 00:07:08,639

uh documents

172

00:07:12,390 --> 00:07:10,400

with these kinds of experiments but you

173

00:07:15,430 --> 00:07:12,400

know they're doing these experiments

174

00:07:18,070 --> 00:07:15,440

somewhere deep within the us and in the

175

00:07:21,749 --> 00:07:18,080

pentagon's complete approval and they're

176

00:07:25,430 --> 00:07:21,759

they're using these uh our our soldiers

177

00:07:27,749 --> 00:07:25,440

as lab rats to make super soldiers

178

00:07:31,670 --> 00:07:27,759

uh well our soldiers are just

179

00:07:34,710 --> 00:07:33,589

human source material sort of thing but

180

00:07:36,230 --> 00:07:34,720

um

181

00:07:37,990 --> 00:07:36,240

100 guarantee they're working on stuff

182

00:07:39,510 --> 00:07:38,000

like this because the argument can be

183

00:07:41,270 --> 00:07:39,520

made oh well if we come up with a better

184

00:07:43,270 --> 00:07:41,280

human analog we can use it for medical

185

00:07:44,230 --> 00:07:43,280

research and this is a natchez and then

186

00:07:45,670 --> 00:07:44,240

when you say well why do you have to do

187

00:07:48,070 --> 00:07:45,680

this in like some sort of weird level

188

00:07:49,830 --> 00:07:48,080

five lab in china and they go shut up

189

00:07:51,589 --> 00:07:49,840

so

190

00:07:53,350 --> 00:07:51,599

i just want to know like at this point

191

00:07:54,550 --> 00:07:53,360

so you know the chinese are definitely

192

00:08:00,390 --> 00:07:54,560

working on this

193

00:08:03,270 --> 00:08:00,400

are they gonna wait what's the the the

194

00:08:07,029 --> 00:08:03,280

the risk versus reward like would you

195

00:08:09,510 --> 00:08:07,039

make a an an eight man is it cheaper in

196

00:08:11,670 --> 00:08:09,520

in less risky or more risky versus

197

00:08:14,550 --> 00:08:11,680

creating like a robot from like a boston

198

00:08:16,309 --> 00:08:14,560

dynamics kind of thing

199

00:08:17,830 --> 00:08:16,319

and so they're like weighing it out like

200

00:08:18,869 --> 00:08:17,840

the the chinese were trying to create

201

00:08:21,749 --> 00:08:18,879

something

202

00:08:24,710 --> 00:08:21,759

a super strong

203

00:08:26,469 --> 00:08:24,720

less intelligent hybrid human chimpanzee

204

00:08:29,670 --> 00:08:26,479

for agriculture work

205

00:08:31,749 --> 00:08:29,680

and uh space travel but at that point we

206

00:08:33,750 --> 00:08:31,759

have robots that can do the space travel

207

00:08:35,589 --> 00:08:33,760

for us and pretty much real estate can

208

00:08:37,670 --> 00:08:35,599

do a lot of agriculture work so what's

209

00:08:39,430 --> 00:08:37,680

the what's the benefit here we also have

210

00:08:41,029 --> 00:08:39,440

robot computers too but we do have robot

211

00:08:42,469 --> 00:08:41,039

computers yeah

212

00:08:44,230 --> 00:08:42,479

um

213

00:08:46,310 --> 00:08:44,240

computers well it's the same reason that

214

00:08:49,030 --> 00:08:46,320

uh in the especially in the uh 50s and

215

00:08:50,470 --> 00:08:49,040

60s we use a lot of animals for space

216

00:08:52,790 --> 00:08:50,480

flight testing

217

00:08:54,630 --> 00:08:52,800

because they were a better biological

218

00:08:55,750 --> 00:08:54,640

analog to sending humans up there but we

219

00:08:56,550 --> 00:08:55,760

didn't have

220

00:08:57,990 --> 00:08:56,560

uh

221

00:08:59,829 --> 00:08:58,000

robots and instrumentation that was

222

00:09:01,750 --> 00:08:59,839

sophisticated enough to do that

223

00:09:03,110 --> 00:09:01,760

but you raise a good point in this day

224

00:09:04,550 --> 00:09:03,120

and age why wouldn't we be using

225

00:09:05,670 --> 00:09:04,560

advanced robotics to do this sort of

226

00:09:07,350 --> 00:09:05,680

thing instead of

227

00:09:08,949 --> 00:09:07,360

uh weird ape men and the answer is

228

00:09:10,870 --> 00:09:08,959

probably because eight men are more fun

229

00:09:12,230 --> 00:09:10,880

to create and then destroyer so i don't

230

00:09:14,070 --> 00:09:12,240

know it's weird

231

00:09:16,070 --> 00:09:14,080

uh i think we might have to have like a

232

00:09:18,470 --> 00:09:16,080

race of pigmen to work at taco bell

233

00:09:22,710 --> 00:09:18,480

because taco bell really needs workers

234

00:09:25,509 --> 00:09:22,720

they really do hey i just saw pig man

235

00:09:28,070 --> 00:09:25,519

a pigment a pigment

236

00:09:30,710 --> 00:09:28,080

i was you know driving back from one of

237

00:09:33,750 --> 00:09:30,720

our favorite places here in uh central

238

00:09:36,470 --> 00:09:33,760

ohio and i saw a taco bell sign and it

239

00:09:38,389 --> 00:09:36,480

said you can apply for a taco bell job

240

00:09:41,269 --> 00:09:38,399

by texting

241

00:09:43,750 --> 00:09:41,279

like uh moss tacos to this specific

242

00:09:45,990 --> 00:09:43,760

number and you can now apply for taco

243

00:09:47,990 --> 00:09:46,000

bell jobs through your phone just with a

244

00:09:51,269 --> 00:09:48,000

text that's how desperate they are i

245

00:09:53,190 --> 00:09:51,279

would hope that text it responds with a

246

00:09:54,710 --> 00:09:53,200

link to the actual application and

247

00:09:56,949 --> 00:09:54,720

they're not simply going to hire someone

248

00:09:58,550 --> 00:09:56,959

based purely on their phone number in a

249

00:10:00,870 --> 00:09:58,560

couple of short text messages but you

250

00:10:02,150 --> 00:10:00,880

raise a good point they may be just that

251
00:10:03,509 --> 00:10:02,160
desperate these days because so many

252
00:10:05,110 --> 00:10:03,519
people just seem to be leaving the

253
00:10:06,310 --> 00:10:05,120
workforce and not

254
00:10:07,590 --> 00:10:06,320
not going i don't understand what

255
00:10:09,750 --> 00:10:07,600
they're doing i mean

256
00:10:11,750 --> 00:10:09,760
are they living on on unemployment on

257
00:10:13,350 --> 00:10:11,760
you know a very small

258
00:10:15,269 --> 00:10:13,360
income every month is that their

259
00:10:17,590 --> 00:10:15,279
long-term plan that doesn't seem viable

260
00:10:20,150 --> 00:10:17,600
i think 2022 might be the the year that

261
00:10:22,310 --> 00:10:20,160
i get served my steak quesadilla by a

262
00:10:24,310 --> 00:10:22,320
pigment at taco bell i wish there were

263
00:10:25,910 --> 00:10:24,320

pigment yeah i do too i wish there were

264

00:10:27,269 --> 00:10:25,920

a big big picture a lot of us look a lot

265

00:10:29,190 --> 00:10:27,279

better for standing next to the pigment

266

00:10:31,990 --> 00:10:29,200

absolutely hey i'm telling you the pig

267

00:10:34,710 --> 00:10:32,000

man is alive

268

00:10:36,790 --> 00:10:34,720

big man land on his car

269

00:10:38,630 --> 00:10:36,800

uh

270

00:10:40,310 --> 00:10:38,640

well they're they're doing it all people

271

00:10:43,350 --> 00:10:40,320

it's all happening they're doing it all

272

00:10:47,430 --> 00:10:43,360
