

Skinwalker Ranch Season 3

1
00:00:00,270 --> 00:00:06,700
[Applause]

2
00:00:11,110 --> 00:00:09,669
[Music]

3
00:00:13,190 --> 00:00:11,120
all right well

4
00:00:14,870 --> 00:00:13,200
i've been watching the newest season of

5
00:00:17,109 --> 00:00:14,880
skinwalker ranch on the history channel

6
00:00:19,830 --> 00:00:17,119
uh it's season three

7
00:00:21,990 --> 00:00:19,840
uh last season they were doing a lot of

8
00:00:24,470 --> 00:00:22,000
experiments trying to use thermal and

9
00:00:27,910 --> 00:00:24,480
and various types of like imagery to to

10
00:00:30,710 --> 00:00:27,920
capture anomalies and and measure radio

11
00:00:33,270 --> 00:00:30,720
frequencies and typically when they did

12
00:00:35,750 --> 00:00:33,280
experiments on skinwalker ranch they

13
00:00:38,310 --> 00:00:35,760

would run into electrical phenomenon

14

00:00:40,869 --> 00:00:38,320

that would shut down their equipment and

15

00:00:43,510 --> 00:00:40,879

make it incredibly difficult to record

16

00:00:44,549 --> 00:00:43,520

things or or to use multiple computers

17

00:00:46,310 --> 00:00:44,559

at once

18

00:00:47,270 --> 00:00:46,320

this season they're back in a big way

19

00:00:49,750 --> 00:00:47,280

okay

20

00:00:52,869 --> 00:00:49,760

and they've got some

21

00:00:56,069 --> 00:00:52,879

experiments that they're trying to to do

22

00:00:58,709 --> 00:00:56,079

to measure some sort of phenomenon

23

00:00:59,990 --> 00:00:58,719

that is above the ranch now they they

24

00:01:02,790 --> 00:01:00,000

detected

25

00:01:05,189 --> 00:01:02,800

various uh microwave activity they

26

00:01:07,670 --> 00:01:05,199

believe that there is a large source of

27

00:01:09,590 --> 00:01:07,680

energy like above the ranch so they're

28

00:01:12,550 --> 00:01:09,600

trying to get

29

00:01:15,670 --> 00:01:12,560

measurements of the electromagnetic

30

00:01:17,510 --> 00:01:15,680

frequency and gps coordinates

31

00:01:21,109 --> 00:01:17,520

above the ranch so what they're trying

32

00:01:22,870 --> 00:01:21,119

to do is drop gps trackers that records

33

00:01:26,390 --> 00:01:22,880

all sorts of data

34

00:01:29,270 --> 00:01:26,400

as they uh as it falls through this

35

00:01:31,590 --> 00:01:29,280

region above the ranch and so they were

36

00:01:35,350 --> 00:01:31,600

flying up there in a helicopter dropping

37

00:01:38,550 --> 00:01:35,360

out these gps trackers to see

38

00:01:40,870 --> 00:01:38,560

what kind of data they can get and this

39

00:01:42,630 --> 00:01:40,880

first little clip is about that

40

00:01:44,069 --> 00:01:42,640

of the gps trackers that we released

41

00:01:45,510 --> 00:01:44,079

from the helicopter we managed to

42

00:01:47,910 --> 00:01:45,520

retrieve two of them

43

00:01:49,590 --> 00:01:47,920

and it appears the data are intact

44

00:01:50,789 --> 00:01:49,600

at this point we don't know the location

45

00:01:53,109 --> 00:01:50,799

of the others

46

00:01:54,630 --> 00:01:53,119

i've had a preliminary look at the data

47

00:01:56,310 --> 00:01:54,640

and there are some interesting

48

00:01:58,630 --> 00:01:56,320

discrepancies

49

00:01:59,910 --> 00:01:58,640

what i want to show you are the two

50

00:02:03,350 --> 00:01:59,920

separate

51
00:02:04,230 --> 00:02:03,360
gps data payloads

52
00:02:06,069 --> 00:02:04,240
all right

53
00:02:09,270 --> 00:02:06,079
now let me explain what you're looking

54
00:02:11,430 --> 00:02:09,280
at here you can probably guess these uh

55
00:02:14,869 --> 00:02:11,440
blue cubes that i'm using represent the

56
00:02:16,630 --> 00:02:14,879
position of the gps payloads

57
00:02:20,070 --> 00:02:16,640
this is where things start getting

58
00:02:26,710 --> 00:02:23,910
these blue cubes appear to be 50 feet 70

59
00:02:29,430 --> 00:02:26,720
feet below the the surface of the mesa

60
00:02:32,070 --> 00:02:29,440
looks like you smashed into the mason

61
00:02:34,869 --> 00:02:32,080
what the heck

62
00:02:39,990 --> 00:02:37,670
so they got like weird

63
00:02:42,470 --> 00:02:40,000

data from that it's not like as

64

00:02:45,270 --> 00:02:42,480
straightforward as they thought it would

65

00:02:46,550 --> 00:02:45,280
be so their gps trackers when they drop

66

00:02:48,470 --> 00:02:46,560
them they expected the kind to go

67

00:02:50,949 --> 00:02:48,480
somewhat straight straight down you know

68

00:02:53,750 --> 00:02:50,959
they take into account uh the wind and

69

00:02:55,110 --> 00:02:53,760
whatnot um but that's not what they're

70

00:02:58,309 --> 00:02:55,120
getting they're getting measurements

71

00:03:01,509 --> 00:02:58,319
that seem to be as if the trackers are

72

00:03:03,270 --> 00:03:01,519
hitting and going below the surface of

73

00:03:04,550 --> 00:03:03,280
the ranch uh

74

00:03:07,430 --> 00:03:04,560
here's a little clip to follow up on

75

00:03:09,589 --> 00:03:07,440
that holy cow look at that when we

76
00:03:12,949 --> 00:03:09,599
dropped the payload so we threw it out

77
00:03:15,110 --> 00:03:12,959
right there and then look it goes upwind

78
00:03:18,070 --> 00:03:15,120
as if things aren't weird enough first

79
00:03:20,710 --> 00:03:18,080
the gps thought we went into the mesa

80
00:03:22,309 --> 00:03:20,720
now we pinpointed an exact location

81
00:03:24,470 --> 00:03:22,319
above the triangle where we've measured

82
00:03:27,509 --> 00:03:24,480
strange energy readings in the past and

83
00:03:29,270 --> 00:03:27,519
it looks like the gps units bounced off

84
00:03:30,949 --> 00:03:29,280
something we couldn't see

85
00:03:32,710 --> 00:03:30,959
i wonder if that's the same thing that

86
00:03:33,830 --> 00:03:32,720
went under cameron's helicopter last

87
00:03:36,710 --> 00:03:33,840
year

88
00:03:38,869 --> 00:03:36,720

all right so holy crap

89

00:03:41,190 --> 00:03:38,879

so as they're doing these experiments

90

00:03:44,550 --> 00:03:41,200

not only are they having

91

00:03:47,589 --> 00:03:44,560

weird uh readings but they also spotted

92

00:03:48,550 --> 00:03:47,599

uh an unidentified helicopter above the

93

00:03:51,030 --> 00:03:48,560

ranch

94

00:03:53,270 --> 00:03:51,040

doing its own kind of

95

00:03:54,710 --> 00:03:53,280

it looks like a crisscross almost like

96

00:03:56,630 --> 00:03:54,720

loot back and forth like they're doing

97

00:03:58,550 --> 00:03:56,640

their own kind of measurements of the

98

00:04:00,710 --> 00:03:58,560

ranch it's not theirs they couldn't

99

00:04:02,869 --> 00:04:00,720

figure out who the helicopter belonged

100

00:04:04,149 --> 00:04:02,879

to but it was up there in the sky

101

00:04:06,470 --> 00:04:04,159

um and oftentimes when they're doing

102

00:04:09,429 --> 00:04:06,480

these experiments when they're getting

103

00:04:11,830 --> 00:04:09,439

ready to uh do a large scale experiment

104

00:04:13,110 --> 00:04:11,840

they bring people from the outside in on

105

00:04:16,710 --> 00:04:13,120

to the ranch

106

00:04:19,270 --> 00:04:16,720

they will observe the sky and see a ufo

107

00:04:21,110 --> 00:04:19,280

a bright light that will be there and

108

00:04:24,230 --> 00:04:21,120

then zip off

109

00:04:27,670 --> 00:04:24,240

um during this uh they had a helicopter

110

00:04:29,909 --> 00:04:27,680

up dropping the gps and they said

111

00:04:31,670 --> 00:04:29,919

we saw a shadow of something that looked

112

00:04:33,350 --> 00:04:31,680

like it was following below us but we

113

00:04:34,950 --> 00:04:33,360

couldn't see anything visually so it

114

00:04:37,270 --> 00:04:34,960

looked like something else was in the

115

00:04:39,670 --> 00:04:37,280

air but they couldn't tell what it was

116

00:04:41,350 --> 00:04:39,680

so they decided to reproduce this

117

00:04:43,590 --> 00:04:41,360

experiment a few days later but with a

118

00:04:46,950 --> 00:04:43,600

plane using the same kind of instruments

119

00:04:49,030 --> 00:04:46,960

to see maybe it was just an anomaly with

120

00:04:51,110 --> 00:04:49,040

the their sensors so let's do the whole

121

00:04:53,350 --> 00:04:51,120

thing again and see

122

00:04:55,670 --> 00:04:53,360

what happens the stuff that i got out of

123

00:04:58,310 --> 00:04:55,680

the actual data logging

124

00:04:59,909 --> 00:04:58,320

that's really perplexing get this these

125

00:05:02,310 --> 00:04:59,919

little guys they receive signals

126

00:05:04,629 --> 00:05:02,320

directly from the satellites they're gps

127

00:05:05,990 --> 00:05:04,639

tracker units i had five of these things

128

00:05:08,390 --> 00:05:06,000

on the flight

129

00:05:11,590 --> 00:05:08,400

the data from four of the five was

130

00:05:13,749 --> 00:05:11,600

either absent or garbled

131

00:05:15,189 --> 00:05:13,759

and get this the one that worked is

132

00:05:17,510 --> 00:05:15,199

flawless

133

00:05:20,390 --> 00:05:17,520

this is really suggestive that there's

134

00:05:21,909 --> 00:05:20,400

something locally going on here

135

00:05:28,469 --> 00:05:21,919

well let's see it

136

00:05:33,510 --> 00:05:31,270

so here we are at the roosevelt airstrip

137

00:05:35,990 --> 00:05:33,520

and we did just as planned we did

138

00:05:38,469 --> 00:05:36,000

several altitudes making those

139

00:05:40,070 --> 00:05:38,479

s turns and and uh doing what we call

140

00:05:43,189 --> 00:05:40,080

the push broom pattern

141

00:05:45,350 --> 00:05:43,199

so you said that her system data logged

142

00:05:48,310 --> 00:05:45,360

on board so what did it show you're not

143

00:05:51,029 --> 00:05:48,320

gonna believe this so this is what

144

00:05:52,710 --> 00:05:51,039

one of our units got right and as i said

145

00:05:54,629 --> 00:05:52,720

it looks pristine it really does it

146

00:05:57,110 --> 00:05:54,639

looks i don't see anything in that that

147

00:05:58,309 --> 00:05:57,120

looks like anything jumped out yeah now

148

00:06:05,029 --> 00:05:58,319

you guys are not gonna believe this let

149

00:06:09,510 --> 00:06:07,909

uh is that under the ranch yeah i need

150

00:06:12,390 --> 00:06:09,520

to explain this

151
00:06:14,230 --> 00:06:12,400
look at that uh-huh that's interesting

152
00:06:17,029 --> 00:06:14,240
uh just as you saw with the yellow

153
00:06:19,430 --> 00:06:17,039
tracks from our trackers

154
00:06:22,230 --> 00:06:19,440
uh you see the flight out

155
00:06:23,909 --> 00:06:22,240
okay she's she's taking this path we

156
00:06:25,990 --> 00:06:23,919
execute one

157
00:06:30,710 --> 00:06:26,000
loop if you will over the property and

158
00:06:35,909 --> 00:06:32,070
many of the

159
00:06:38,309 --> 00:06:35,919
altitude readings that she reported were

160
00:06:41,510 --> 00:06:38,319
far beneath the ground in fact

161
00:06:47,350 --> 00:06:43,909
and not just beneath sea level but 62

162
00:06:49,990 --> 00:06:47,360
and a half miles below sea level

163
00:06:52,309 --> 00:06:50,000

so yeah their their readings are all off

164

00:06:53,510 --> 00:06:52,319

they can't get anything accurate at one

165

00:06:55,110 --> 00:06:53,520

point in time looks up the uh like

166

00:06:57,990 --> 00:06:55,120

they're up in the air but the gps is

167

00:06:59,189 --> 00:06:58,000

saying no you're actually 62 miles below

168

00:07:02,710 --> 00:06:59,199

the surface

169

00:07:05,510 --> 00:07:02,720

uh so some some weird strange stuff

170

00:07:07,749 --> 00:07:05,520

going on there um something's definitely

171

00:07:09,430 --> 00:07:07,759

going on and it's happening over and

172

00:07:11,430 --> 00:07:09,440

over again it's just not one experiment

173

00:07:14,070 --> 00:07:11,440

it's a multiple and then my final clip

174

00:07:15,510 --> 00:07:14,080

here uh is as they're doing these

175

00:07:17,589 --> 00:07:15,520

experiments

176

00:07:20,309 --> 00:07:17,599

they're trying to communicate from the

177

00:07:22,469 --> 00:07:20,319

ground up to the aircraft and they're

178

00:07:23,830 --> 00:07:22,479

using walkie-talkies uh you know they're

179

00:07:27,430 --> 00:07:23,840

during the television show so they're

180

00:07:29,589 --> 00:07:27,440

all miked up probably with uh lav mics

181

00:07:31,990 --> 00:07:29,599

all that kind of stuff and as are doing

182

00:07:34,150 --> 00:07:32,000

this they're detecting detecting a very

183

00:07:36,309 --> 00:07:34,160

particular frequency

184

00:07:38,950 --> 00:07:36,319

that tends to appear

185

00:07:41,350 --> 00:07:38,960

when they're doing these experiments and

186

00:07:44,469 --> 00:07:41,360

they can't pinpoint exactly why it's

187

00:07:46,660 --> 00:07:44,479

occurring or what is producing it look

188

00:07:47,749 --> 00:07:46,670

at that the 1.6 is going crazy

189

00:07:50,790 --> 00:07:47,759

[Music]

190

00:07:53,189 --> 00:07:50,800

i don't know what that is

191

00:07:55,270 --> 00:07:53,199

in the middle of all this chaos once

192

00:07:57,909 --> 00:07:55,280

again the spectrum analyzer suddenly

193

00:08:01,110 --> 00:07:57,919

registered an rf radiation spike at a

194

00:08:03,350 --> 00:08:01,120

frequency of 1.6 gigahertz now that's

195

00:08:06,150 --> 00:08:03,360

the same kind of energy spike we've seen

196

00:08:09,270 --> 00:08:06,160

over and over when uaps have appeared in

197

00:08:10,790 --> 00:08:09,280

the past it happened at the same time

198

00:08:19,110 --> 00:08:10,800

eric and kendra were seeing the shadow

199

00:08:23,189 --> 00:08:20,309

what is that

200

00:08:28,950 --> 00:08:25,270

all right

201

00:08:33,670 --> 00:08:30,869

it's picking us all up

202

00:08:35,350 --> 00:08:33,680

just after the 1.6 gigahertz rf spike in

203

00:08:37,190 --> 00:08:35,360

the control room

204

00:08:41,350 --> 00:08:37,200

we suddenly heard our own voices being

205

00:08:45,910 --> 00:08:41,360

broadcast and echoing back at us

206

00:08:50,230 --> 00:08:48,550

stand by stand by for one moment please

207

00:08:52,150 --> 00:08:50,240

there's no way that should have been

208

00:08:54,870 --> 00:08:52,160

possible it was like we're being

209

00:08:57,590 --> 00:08:54,880

recorded by someone or something in real

210

00:08:57,600 --> 00:09:02,470

maybe it's in here

211

00:09:05,110 --> 00:09:03,910

so they don't know why they're getting

212

00:09:07,110 --> 00:09:05,120

this feedback

213

00:09:09,670 --> 00:09:07,120

it popped up all of a sudden like their

214

00:09:11,750 --> 00:09:09,680

voices were being picked up by a mic and

215

00:09:13,750 --> 00:09:11,760

then sent back through their

216

00:09:15,670 --> 00:09:13,760

walkie-talkie or speaker system there

217

00:09:17,509 --> 00:09:15,680

they couldn't figure it out so a lot of

218

00:09:20,630 --> 00:09:17,519

weird anomaly is going on they're

219

00:09:22,630 --> 00:09:20,640

they're they have films some some ufos

220

00:09:24,550 --> 00:09:22,640

and a lot of weirdness

221

00:09:26,150 --> 00:09:24,560

uh they don't know what it all means

222

00:09:28,470 --> 00:09:26,160

though they have a lot of data they

223

00:09:29,430 --> 00:09:28,480

don't know where uh what it means they

224

00:09:30,710 --> 00:09:29,440

don't know

225

00:09:31,750 --> 00:09:30,720

where some of these signals are being

226

00:09:34,230 --> 00:09:31,760

produced

227

00:09:36,389 --> 00:09:34,240

and it's continuing all these events

228

00:09:38,630 --> 00:09:36,399

continue to happen

229

00:09:40,870 --> 00:09:38,640

but without much

230

00:09:43,030 --> 00:09:40,880

uh

231

00:09:44,870 --> 00:09:43,040

analysis involved so as they get ready

232

00:09:46,949 --> 00:09:44,880

to do experiments they know things are

233

00:09:48,870 --> 00:09:46,959

going to mess up a computer shuts down

234

00:09:51,269 --> 00:09:48,880

but they don't know why or what is the

235

00:09:54,949 --> 00:09:51,279

catalyst for spontaneous computer

236

00:09:56,630 --> 00:09:54,959

shutdown or these weird anomalies so um

237

00:09:58,470 --> 00:09:56,640

just some more skinwalker ranch stuff

238

00:09:59,829 --> 00:09:58,480

there for you and that's episode three

239

00:10:03,590 --> 00:09:59,839

so this is kind of like a little

240

00:10:06,389 --> 00:10:03,600

encapsulation of three episodes um same

241

00:10:08,949 --> 00:10:06,399

stuff happens some people come on the uh

242

00:10:13,829 --> 00:10:08,959

the ranch to get horrible headaches uh

243

00:10:16,470 --> 00:10:13,839

there's a spike in uh meg or a microwave

244

00:10:18,389 --> 00:10:16,480

frequency range people get headaches not

245

00:10:19,910 --> 00:10:18,399

unlike like uh havana syndrome kind of

246

00:10:21,430 --> 00:10:19,920

stuff that happens

247

00:10:23,190 --> 00:10:21,440

uh i but

248

00:10:25,670 --> 00:10:23,200

uh to our knowledge we don't have any

249

00:10:27,190 --> 00:10:25,680

measurements of the frequency spikes

250

00:10:28,949 --> 00:10:27,200

around people that have experienced

251

00:10:30,949 --> 00:10:28,959

havana syndrome so there might be

252

00:10:32,949 --> 00:10:30,959

something like that going out on at the

253

00:10:34,790 --> 00:10:32,959

ranch

254

00:10:37,350 --> 00:10:34,800

the uh 1.6 gig they just had their

255

00:10:39,750 --> 00:10:37,360

satellite phone on that's all that was

256

00:10:41,430 --> 00:10:39,760

well i mean it's possible

257

00:10:42,870 --> 00:10:41,440

i guarantee that's what it was because

258

00:10:44,630 --> 00:10:42,880

they're out there where there's no cell

259

00:10:46,949 --> 00:10:44,640

signals so they have their satellite

260

00:10:48,389 --> 00:10:46,959

phone on and that's that's where

261

00:10:51,750 --> 00:10:48,399

satellite phones operate

262

00:10:52,949 --> 00:10:51,760

in 1.6 1.6 well i i don't know that i

263

00:10:56,389 --> 00:10:52,959

don't know if they have a satellite

264

00:10:58,710 --> 00:10:56,399

phone uh maybe they do you hopefully uh

265

00:10:59,509 --> 00:10:58,720

you'd imagine that they would rule that

266

00:11:08,790 --> 00:10:59,519

out

267

00:11:11,030 --> 00:11:08,800

a bunch of dirty noise floating around

268

00:11:12,150 --> 00:11:11,040

so what is all that stuff anyway what is

269

00:11:14,870 --> 00:11:12,160

all that stuff

270

00:11:18,069 --> 00:11:14,880

so i love that uh microphone going into

271

00:11:19,670 --> 00:11:18,079

the dude's mouth gif

272

00:11:21,670 --> 00:11:19,680

people don't know you could join us on

273

00:11:23,590 --> 00:11:21,680

twitch and wherever else mike you you

274

00:11:26,150 --> 00:11:23,600

tell them but uh

275

00:11:28,310 --> 00:11:26,160

cretchet puts up all these gifts to add

276
00:11:29,269 --> 00:11:28,320
flavor

277
00:11:30,710 --> 00:11:29,279
yeah

278
00:11:32,470 --> 00:11:30,720
who is that guy i don't know what is

279
00:11:34,630 --> 00:11:32,480
that what is that skinwalker ranch

280
00:11:35,829 --> 00:11:34,640
making up for their show yeah what is

281
00:11:40,790 --> 00:11:35,839
that

282
00:11:42,550 --> 00:11:40,800
funny weird what the [h__\h]

283
00:11:45,509 --> 00:11:42,560
it's like they drop a boom mic in his

284
00:11:47,750 --> 00:11:45,519
mouth like a dick it's like a bath house

285
00:11:50,870 --> 00:11:47,760
micro dick i was gonna use bill hicks

286
00:11:52,470 --> 00:11:50,880
here but uh there you go yeah

287
00:11:55,829 --> 00:11:52,480
what is that

288
00:11:58,069 --> 00:11:55,839

well joe that's all i got yeah i i know

289

00:11:59,910 --> 00:11:58,079

you tolerate do you tolerate the

290

00:12:01,030 --> 00:11:59,920

skinwalker ranch

291

00:12:02,629 --> 00:12:01,040

segment

292

00:12:05,110 --> 00:12:02,639

i i do want to say in general i

293

00:12:07,590 --> 00:12:05,120

congratulate them on milking the [ʰ__ʰ]

294

00:12:09,590 --> 00:12:07,600

out of that show no i know dude because

295

00:12:11,110 --> 00:12:09,600

the one thing they don't do is go do any

296

00:12:12,949 --> 00:12:11,120

sort of paranormal investigations you

297

00:12:14,550 --> 00:12:12,959

got three jag-offs driving around in a

298

00:12:16,949 --> 00:12:14,560

jeep saying like my phones are not to

299

00:12:19,030 --> 00:12:16,959

work in i don't know i've got there's

300

00:12:22,230 --> 00:12:19,040

five people okay i mean put on some lab

301
00:12:24,949 --> 00:12:22,240
coats because they sound like you know

302
00:12:27,269 --> 00:12:24,959
they just got out of the outhouse

303
00:12:28,949 --> 00:12:27,279
and turned on like whatever the hell

304
00:12:30,550 --> 00:12:28,959
gear they got well

305
00:12:32,550 --> 00:12:30,560
the accent doesn't help but he just he

306
00:12:33,910 --> 00:12:32,560
does seem like a smart guy he's a

307
00:12:35,990 --> 00:12:33,920
passionate guy i get that but like

308
00:12:38,550 --> 00:12:36,000
things where they're like hey these uh

309
00:12:40,710 --> 00:12:38,560
um gps units were malfunctioning so we

310
00:12:43,110 --> 00:12:40,720
did the test again the next day from a

311
00:12:44,790 --> 00:12:43,120
different place in a different aircraft

312
00:12:47,509 --> 00:12:44,800
it's like well that's not going to be

313
00:12:48,629 --> 00:12:47,519

valid what are you work for the fda or

314

00:12:51,430 --> 00:12:48,639

something

315

00:12:52,949 --> 00:12:51,440

cdc just making [h__h] up

316

00:12:55,030 --> 00:12:52,959

listen i give them the benefit of the

317

00:12:57,030 --> 00:12:55,040

doubt ratchet i know you do not sing

318

00:12:58,069 --> 00:12:57,040

their praises and you think that it's

319

00:13:00,150 --> 00:12:58,079

mostly

320

00:13:02,230 --> 00:13:00,160

uh incompetent people doing this stuff

321

00:13:05,190 --> 00:13:02,240

i'm going to take them at face value

322

00:13:09,269 --> 00:13:05,200

that the things that they're doing

323

00:13:10,790 --> 00:13:09,279

uh are done in a scientific way you know

324

00:13:12,470 --> 00:13:10,800

i'm just frustrated because of all the

325

00:13:13,910 --> 00:13:12,480

cool stuff that's possibly been going on

326

00:13:15,030 --> 00:13:13,920

at skinwalker ranch you got these guys

327

00:13:18,389 --> 00:13:15,040

just yelling about their phones and

328

00:13:20,150 --> 00:13:18,399

microphones i agree i i i don't know why

329

00:13:22,230 --> 00:13:20,160

they haven't

330

00:13:23,030 --> 00:13:22,240

chosen to to do

331

00:13:25,590 --> 00:13:23,040

uh

332

00:13:28,790 --> 00:13:25,600

like remote viewing more

333

00:13:30,389 --> 00:13:28,800

more like spiritual psionic psychic kind

334

00:13:32,470 --> 00:13:30,399

of stuff

335

00:13:34,949 --> 00:13:32,480

some of the skill walkers out there

336

00:13:37,430 --> 00:13:34,959

oh yeah they need to get in touch with

337

00:13:38,470 --> 00:13:37,440

the more paranormal side if you're gonna

338

00:13:40,550 --> 00:13:38,480

track

339

00:13:42,470 --> 00:13:40,560

the paranormal you got to bring in the

340

00:13:44,310 --> 00:13:42,480

paranormal and so bring in some psychics

341

00:13:45,990 --> 00:13:44,320

bring in some shaman there are plenty of

342

00:13:48,389 --> 00:13:46,000

native american shaman that know a lot

343

00:13:51,269 --> 00:13:48,399

about the area that may uh want to come

344

00:13:53,189 --> 00:13:51,279

onto the ranch they talk to them around

345

00:13:56,069 --> 00:13:53,199

the area in the surrounding area but

346

00:13:58,870 --> 00:13:56,079

they haven't invited a lot on the ranch

347

00:14:01,350 --> 00:13:58,880

they have invited one or two to do some

348

00:14:04,069 --> 00:14:01,360

sort of seances but not not in the way

349

00:14:06,790 --> 00:14:04,079

that i would envision so i'm thinking of

350

00:14:09,509 --> 00:14:06,800

like scooby-doo they need to get a ufo

351
00:14:10,790 --> 00:14:09,519
person they need to get a psychic yeah

352
00:14:12,389 --> 00:14:10,800
you know what i mean they got all these

353
00:14:14,389 --> 00:14:12,399
different folks like the they got to

354
00:14:16,629 --> 00:14:14,399
have like a

355
00:14:18,870 --> 00:14:16,639
you know ghost hunter they need an a

356
00:14:20,230 --> 00:14:18,880
team of ghost busting

357
00:14:21,829 --> 00:14:20,240
something

358
00:14:25,110 --> 00:14:21,839
they do they need an a team of

359
00:14:27,110 --> 00:14:25,120
ghostbusting to to get it done but

360
00:14:31,350 --> 00:14:27,120
uh it's not getting done

361
00:14:33,269 --> 00:14:31,360
and uh i wish they would get it done

362
00:14:34,949 --> 00:14:33,279
okay the scooby-doo idea they need they

363
00:14:36,629 --> 00:14:34,959

need like a couple of goofball

364

00:14:38,949 --> 00:14:36,639

characters they need you know a dog they

365

00:14:40,870 --> 00:14:38,959

need to haunt an ethan park yeah turn

366

00:14:43,350 --> 00:14:40,880

out three-legged dog it has to no or a

367

00:14:44,629 --> 00:14:43,360

dog with two wheels because he lost his

368

00:14:46,150 --> 00:14:44,639

back legs

369

00:14:48,629 --> 00:14:46,160

then it turns out it was mr withers the

370

00:14:51,030 --> 00:14:48,639

entire time

371

00:14:55,590 --> 00:14:52,790

give us an email at

372

00:14:56,829 --> 00:14:55,600

our big dumb month gmail.com

373

00:14:59,829 --> 00:14:56,839

check out
