00:00:07,990 --> 00:00:05,829
[Music]

2
00:00:09,340 --> 00:00:08,000
so what we have here

3
00:00:10,629 --> 00:00:09,350
sixty thousand

4
00:00:12,150 --> 00:00:10,639
[Music]

5
00:00:15,190 --> 00:00:12,160
redcoats

6
00:00:17,510 --> 00:00:15,200
musket firing soldiers

7
00:00:21,189 --> 00:00:17,520
20 000 of which are elite and they can

8
00:00:23,990 --> 00:00:21,199
reload five times as fast on that flank

9
00:00:26,470 --> 00:00:24,000
and then an additional 20 000 of elite

10
00:00:28,390 --> 00:00:26,480
on the other flank in the middle the

11
00:00:30,710 --> 00:00:28,400
regular old

12
00:00:33,910 --> 00:00:30,720
musket carrying

13
00:00:36,470 --> 00:00:33,920

redcoat now on the other side

14

00:00:37,990 --> 00:00:36,480

who they are fighting you will see a

15

00:00:41,030 --> 00:00:38,000

wall

16

00:00:43,590 --> 00:00:41,040

of roman soldiers carrying shields which

17

00:00:44,950 --> 00:00:43,600

may deflect some musket fire beyond that

18

00:00:47,990 --> 00:00:44,960

i think there's a hundred thousand of

19

00:00:48,950 --> 00:00:48,000

them then beyond that we have

20

00:00:55,110 --> 00:00:48,960

three

21

00:00:58,349 --> 00:00:55,120

and beyond that

22

00:01:01,189 --> 00:00:58,359

we have some uh john wicks but they're

23

00:01:02,549 --> 00:01:01,199

extremely weak i reduce down their

24

00:01:04,950 --> 00:01:02,559

firing range

25

00:01:06,390 --> 00:01:04,960

to basically hand-hand combat their and

26

00:01:08,789 --> 00:01:06,400

i reduce down their damage uh

27

00:01:09,750 --> 00:01:08,799

considerably and then beyond that we do

28

00:01:10,630 --> 00:01:09,760

have

29

00:01:12,149 --> 00:01:10,640

uh

30

00:01:13,429 --> 00:01:12,159

no there's some more john john wick's

31

00:01:15,350 --> 00:01:13,439

back here

32

00:01:17,910 --> 00:01:15,360

then we have some just uh some regular

33

00:01:21,190 --> 00:01:17,920

old medieval swordsmen we do have some

34

00:01:23,670 --> 00:01:21,200

archers we have 6 000 world war ii uh

35

00:01:24,950 --> 00:01:23,680

german soldiers here they are they do

36

00:01:26,630 --> 00:01:24,960

have some range so they're going to be

37

00:01:27,670 --> 00:01:26,640

able to do some damage

38

00:01:29,749 --> 00:01:27,680

to

39

00:01:31,990 --> 00:01:29,759

the red coats

40

00:01:33,910 --> 00:01:32,000

it's going to be happening very soon and

41

00:01:37,990 --> 00:01:33,920

if you look at the total numbers up

42

00:01:38,830 --> 00:01:38,000

there we have 60 000 red coats versus

43

00:01:42,230 --> 00:01:38,840

5

44

00:01:43,590 --> 00:01:42,240

million and 600 000 people and i i saw

45

00:01:45,429 --> 00:01:43,600

some deaths already up there i don't

46

00:01:47,510 --> 00:01:45,439

know how that happened but

47

00:01:57,140 --> 00:01:47,520

let's do it here we go

48

00:01:57,150 --> 00:02:01,270

[Applause]

49

00:02:07,030 --> 00:02:03,270

and you can see

50

00:02:09,029 --> 00:02:07,040

their shields are really not doing

51
00:02:11,029 --> 00:02:09,039
too much to help them from the barrage

52
00:02:12,790 --> 00:02:11,039
of musket fire but the zombies are

53
00:02:15,830 --> 00:02:12,800
making in advance

54
00:02:18,390 --> 00:02:15,840
there's such a wall of zombies coming at

55
00:02:22,630 --> 00:02:18,400
the redcoats that

56
00:02:24,390 --> 00:02:22,640
some will inevitably get through

57
00:02:27,350 --> 00:02:24,400
oh look at that guy he got pretty darn

58
00:02:31,190 --> 00:02:27,360
fall but over here on this side

59
00:02:38,229 --> 00:02:34,790
the egyptian warriors being

60
00:02:40,309 --> 00:02:38,239
mauled by the barrage of musket fire

61
00:02:43,430 --> 00:02:40,319
they're coming in fast but they are

62
00:02:46,070 --> 00:02:43,440
dying just as quick but they are making

63
00:02:48,390 --> 00:02:46,080

some headway towards the front lines

64

00:02:50,150 --> 00:02:48,400

and we should see them reach them

65

00:02:52,790 --> 00:02:50,160

reach the red coast in about 30 seconds

66

00:02:57,190 --> 00:02:54,869

but there still is a nice distance

67

00:03:00,149 --> 00:02:57,200

between the two sides

68

00:03:02,869 --> 00:03:00,159

let's take a look over here is there any

69

00:03:05,430 --> 00:03:02,879

anyone making that much headway as the

70

00:03:09,509 --> 00:03:05,440

egyptians over here we see

71

00:03:11,910 --> 00:03:09,519

we got zombies just falling

72

00:03:14,229 --> 00:03:11,920

and then we have some additional

73

00:03:15,990 --> 00:03:14,239

shield carrying uh romans look at that

74

00:03:18,949 --> 00:03:16,000

that's a nice roman war helmet you got

75

00:03:20,550 --> 00:03:18,959

going on there yeah they are making

76

00:03:22,149 --> 00:03:20,560

edges they're edging up to the front

77

00:03:27,910 --> 00:03:22,159

line

78

00:03:27,920 --> 00:03:33,350

two redcoats have died thus far

79

00:03:38,149 --> 00:03:35,670

yeah but look at this oh my god this

80

00:03:39,750 --> 00:03:38,159

entire side it looks like

81

00:03:42,789 --> 00:03:39,760

this is going to see some real action

82

00:03:44,390 --> 00:03:42,799

real soon right here

83

00:03:45,750 --> 00:03:44,400

now the interesting feature about this

84

00:03:48,390 --> 00:03:45,760

game

85

00:03:50,949 --> 00:03:48,400

is that as bodies die they pile up and

86

00:03:53,670 --> 00:03:50,959

there will be

87

00:03:56,229 --> 00:03:53,680

a wall that is created

88

00:03:57,910 --> 00:03:56,239

and that would observe absorb bullets

89

00:04:01,110 --> 00:03:57,920

musket fire

90

00:04:03,190 --> 00:04:01,120

and the advancing army would be able to

91

00:04:05,830 --> 00:04:03,200

hide behind that until they get closer

92

00:04:07,830 --> 00:04:05,840

and peak their head up over that

93

00:04:09,190 --> 00:04:07,840

mound of bodies but that hasn't happened

94

00:04:11,509 --> 00:04:09,200

yet

95

00:04:12,869 --> 00:04:11,519

oh but we are seeing some

96

00:04:16,710 --> 00:04:12,879

advancing

97

00:04:16,720 --> 00:04:21,270

oh my oh my oh my you can just

98

00:04:25,510 --> 00:04:23,670

see this there is

99

00:04:28,550 --> 00:04:25,520

so much going on let's let's take a look

100

00:04:30,790 --> 00:04:28,560

from the top here

101
00:04:33,510 --> 00:04:30,800
now i am not controlling either side

102
00:04:37,590 --> 00:04:35,510
automatically done i could take i could

103
00:04:40,629 --> 00:04:37,600
take control over a particular soldier

104
00:04:43,030 --> 00:04:40,639
if i so choose but i'm not

105
00:04:45,830 --> 00:04:43,040
they know what they're doing

106
00:04:46,870 --> 00:04:45,840
they got their orders

107
00:04:47,749 --> 00:04:46,880
and they know how to take care of

108
00:04:49,990 --> 00:04:47,759
business

109
00:04:55,030 --> 00:04:50,000
it does appear as though

110
00:04:57,510 --> 00:04:55,040
the entire egyptian army was wiped out

111
00:05:00,150 --> 00:04:57,520
now

112
00:05:02,150 --> 00:05:00,160
these elite redcoats they are adjusting

113
00:05:06,469 --> 00:05:02,160

their aim

114

00:05:11,749 --> 00:05:08,390

of the zombie horde and as you can see

115

00:05:14,469 --> 00:05:11,759

there is a body mound forming in the

116

00:05:15,909 --> 00:05:14,479

redcoats are running up to

117

00:05:18,310 --> 00:05:15,919

get ground

118

00:05:19,990 --> 00:05:18,320

on top they are swarming in they are

119

00:05:25,270 --> 00:05:20,000

meeting in the middle right here

120

00:05:31,029 --> 00:05:27,670

oh my god this is just insane what is

121

00:05:37,029 --> 00:05:35,110

so far uh only about 1200 redcoats have

122

00:05:39,830 --> 00:05:37,039

died

123

00:05:41,510 --> 00:05:39,840

versus

124

00:05:43,189 --> 00:05:41,520

oh boy

125

00:05:45,830 --> 00:05:43,199

almost

126

00:05:47,830 --> 00:05:45,840

five million of the other side have have

127

00:05:53,590 --> 00:05:47,840

perished thus far the zombie is

128

00:05:59,270 --> 00:05:56,150

so far the the german soldiers back here

129

00:06:00,710 --> 00:05:59,280

that do have an opportunity at some

130

00:06:02,629 --> 00:06:00,720

range

131

00:06:04,469 --> 00:06:02,639

um not as

132

00:06:05,909 --> 00:06:04,479

effective as i would have hoped here

133

00:06:08,710 --> 00:06:05,919

they are they're they're sitting pretty

134

00:06:11,830 --> 00:06:08,720

back over here

135

00:06:13,029 --> 00:06:11,840

they are they're letting the

136

00:06:15,430 --> 00:06:13,039

the sword

137

00:06:17,270 --> 00:06:15,440

wielding medieval guys go in first as

138

00:06:20,390 --> 00:06:17,280

they sit back and take

139

00:06:22,150 --> 00:06:20,400

take some shots at the redcoats but i

140

00:06:25,749 --> 00:06:22,160

don't know how effective their

141

00:06:27,749 --> 00:06:25,759

bullets are at range versus the muskets

142

00:06:29,430 --> 00:06:27,759

i think the the muskets have the

143

00:06:32,230 --> 00:06:29,440

advantage here

144

00:06:34,710 --> 00:06:32,240

and as you see there has been

145

00:06:36,950 --> 00:06:34,720

a wall of bodies created that is

146

00:06:38,390 --> 00:06:36,960

preventing

147

00:06:40,309 --> 00:06:38,400

those german bolts from getting through

148

00:06:42,790 --> 00:06:40,319

and the red coats are advancing up on

149

00:06:44,870 --> 00:06:42,800

top of this body wall

150

00:06:46,830 --> 00:06:44,880

and they are taking position

151
00:06:49,830 --> 00:06:46,840
and they're gonna start raining down

152
00:06:53,830 --> 00:06:49,840
hell upon those germans

153
00:06:53,840 --> 00:06:57,430
and the world war ii so

154
00:07:02,309 --> 00:06:58,870
and it just doesn't look good there's

155
00:07:05,749 --> 00:07:02,319
five thousand left five thousand versus

156
00:07:07,990 --> 00:07:05,759
fifty thousand the red coats

157
00:07:10,950 --> 00:07:08,000
they are going to be victorious there's

158
00:07:12,790 --> 00:07:10,960
just no way around this

159
00:07:14,390 --> 00:07:12,800
the elite soldiers

160
00:07:16,309 --> 00:07:14,400
perhaps they're firing too fast i'll

161
00:07:17,990 --> 00:07:16,319
have to back it off but i thought 5

162
00:07:21,830 --> 00:07:18,000
million

163
00:07:27,350 --> 00:07:24,870

would have been a good ratio

164

00:07:30,870 --> 00:07:27,360

to offset that firing rate from the

165

00:07:33,029 --> 00:07:30,880

redcoat elites but apparently not

166

00:07:38,150 --> 00:07:33,039

and now the germans

167

00:07:43,589 --> 00:07:41,430

because the redcoats are coming

168

00:07:55,589 --> 00:07:43,599

they're advancing

169

00:07:55,599 --> 00:08:01,189

it's all but over

170

00:08:07,430 --> 00:08:04,869

now we can just watch the germans die

171

00:08:07,440 --> 00:08:11,189

oh yeah

172

00:08:15,909 --> 00:08:14,230

no boy oh there i mean just

173

00:08:18,710 --> 00:08:15,919

now we're just watching that there's no

174

00:08:19,990 --> 00:08:18,720

chance for them to come back

175

00:08:30,070 --> 00:08:20,000

absolutely no chance for them to come

176
00:08:32,949 --> 00:08:31,360
five left

177
00:08:38,070 --> 00:08:32,959
[Applause]

178
00:08:46,790 --> 00:08:41,110
there's one there's one dude

179
00:08:51,829 --> 00:08:48,949
they're firing at somebody where's that

180
00:08:59,030 --> 00:08:54,949
here he is here's the one guy left

181
00:09:03,230 --> 00:09:01,829
entire opposing army is firing him

182
00:09:06,710 --> 00:09:03,240
55

183
00:09:08,949 --> 00:09:06,720
908 redcoats are firing

184
00:09:10,150 --> 00:09:08,959
at this one german soldier how long can

185
00:09:22,150 --> 00:09:10,160
you hold out

186
00:09:22,160 --> 00:09:26,320
are you gonna do it

187
00:09:33,350 --> 00:09:29,509
[Applause]

188
00:09:35,190 --> 00:09:34,150

hey

189

00:09:44,310 --> 00:09:35,200

jerks

190

00:09:46,230 --> 00:09:44,320

i need you to attack

191

00:09:53,110 --> 00:09:46,240

this guy

192

00:09:59,670 --> 00:09:55,509

you just advance right there

193

00:09:59,680 --> 00:10:08,630

advance up there

194

00:10:08,640 --> 00:10:11,670

break ranks

195

00:10:11,680 --> 00:10:20,870

and discharge

196

00:10:23,670 --> 00:10:22,710

but they're they're storming in they

197

00:10:26,390 --> 00:10:23,680

should be

198

00:10:31,269 --> 00:10:26,400

well within range here they are

199

00:10:31,279 --> 00:10:35,190

they should be well within range

200

00:10:40,550 --> 00:10:37,350

why why is this guy not dying

201
00:10:40,560 --> 00:10:50,630
it's got to be at this point

202
00:10:50,640 --> 00:10:57,509
he is invulnerable

203
00:11:01,430 --> 00:10:59,430
he's absolutely impervious he's like the

204
00:11:06,230 --> 00:11:01,440
superman

205
00:11:10,389 --> 00:11:08,150
well i wonder if i can end this thing at

206
00:11:12,550 --> 00:11:10,399
this point we we all can agree

207
00:11:14,949 --> 00:11:12,560
that the

208
00:11:17,590 --> 00:11:14,959
redcoats won this

209
00:11:19,590 --> 00:11:17,600
and so i think we have to just end this

210
00:11:20,630 --> 00:11:19,600
for everyone
