

1
00:00:04,390 --> 00:00:02,230
dollars in the inhabitants of hollow

2
00:00:06,630 --> 00:00:04,400
earth for the next eleven and a half

3
00:00:08,390 --> 00:00:06,640
years billy journeyed three times to

4
00:00:10,230 --> 00:00:08,400
hollow earth in a shuttlecraft

5
00:00:12,470 --> 00:00:10,240
throughout the underground tunnels and

6
00:00:14,709 --> 00:00:12,480
subsequently also to many other

7
00:00:16,470 --> 00:00:14,719
underground cities located within

8
00:00:19,269 --> 00:00:16,480
earth's crust he encountered the

9
00:00:22,630 --> 00:00:19,279
remnants of the atlantean and lumerian

10
00:00:24,870 --> 00:00:22,640
civilizations now occupying hollow earth

11
00:00:28,230 --> 00:00:24,880
billy says that the shell of the earth

12
00:00:29,990 --> 00:00:28,240
is 800 to 850 miles thick and that the

13
00:00:32,870 --> 00:00:30,000

center of gravity is about halfway

14

00:00:34,389 --> 00:00:32,880

between the outer and inner surfaces of

15

00:00:36,790 --> 00:00:34,399

the earth's shell

16

00:00:39,190 --> 00:00:36,800

and that the inner surface gravity is a

17

00:00:41,030 --> 00:00:39,200

little less than one-third the outer

18

00:00:43,350 --> 00:00:41,040

surface of gravity which allows the

19

00:00:45,670 --> 00:00:43,360

larger stature of the hollow earth

20

00:00:47,110 --> 00:00:45,680

people billy states that the major point

21

00:00:48,630 --> 00:00:47,120

of contention between the surface

22

00:00:51,750 --> 00:00:48,640

dwellers and the hollow earth

23

00:00:53,510 --> 00:00:51,760

inhabitants is the atomic testing done

24

00:00:55,350 --> 00:00:53,520

by the united states governments and
