

Chinese Spy Balloon

1
00:00:00,299 --> 00:00:03,230
oh

2
00:00:10,790 --> 00:00:06,130
well

3
00:00:13,089 --> 00:00:10,800
there is a rogue allegedly Rogue Chinese

4
00:00:15,350 --> 00:00:13,099
balloon that has floated

5
00:00:16,550 --> 00:00:15,360
aggressively over the United States of

6
00:00:20,689 --> 00:00:16,560
America

7
00:00:23,330 --> 00:00:20,699
and uh various people are saying crazy

8
00:00:26,950 --> 00:00:23,340
things but let's start off with the the

9
00:00:29,509 --> 00:00:26,960
top of this uh U.S Secretary of State

10
00:00:31,370 --> 00:00:29,519
blinker he was supposed to visit China

11
00:00:33,590 --> 00:00:31,380
but because of this balloon incident

12
00:00:35,569 --> 00:00:33,600
whoa we might have to put that visit on

13
00:00:36,830 --> 00:00:35,579

hold but here's a little news report on

14

00:00:39,410 --> 00:00:36,840

that

15

00:00:41,750 --> 00:00:39,420

U.S Secretary of State Anthony blinken

16

00:00:43,850 --> 00:00:41,760

has postponed his visit to Beijing this

17

00:00:46,790 --> 00:00:43,860

comes a day after a suspected Chinese

18

00:00:49,010 --> 00:00:46,800

spy balloon was spotted in U.S airspace

19

00:00:51,590 --> 00:00:49,020

Lincoln say that conditions were not

20

00:00:53,569 --> 00:00:51,600

conducive for a constructive visit at

21

00:00:55,130 --> 00:00:53,579

this time okay meanwhile Pentagon has

22

00:00:57,049 --> 00:00:55,140

revealed that the balloon has changed

23

00:00:58,729 --> 00:00:57,059

cause and is floating over Central

24

00:01:02,029 --> 00:00:58,739

United States

25

00:01:04,490 --> 00:01:02,039

here's a report yeah in light of China's

26

00:01:07,850 --> 00:01:04,500

unacceptable action I am postponing my

27

00:01:10,010 --> 00:01:07,860

plan travel this weekend to China U.S

28

00:01:13,010 --> 00:01:10,020

Secretary of State Anthony blinken said

29

00:01:14,690 --> 00:01:13,020

his visit to China was on hold a trip

30

00:01:17,330 --> 00:01:14,700

that had been expected to start on

31

00:01:19,609 --> 00:01:17,340

Friday as a suspected Chinese spy

32

00:01:22,070 --> 00:01:19,619

balloon floated across the United States

33

00:01:24,289 --> 00:01:22,080

okay yesterday the Department of Defense

34

00:01:26,149 --> 00:01:24,299

announced that we had detected and were

35

00:01:28,010 --> 00:01:26,159

tracking a high altitude surveillance

36

00:01:30,050 --> 00:01:28,020

balloon that remains over the

37

00:01:31,370 --> 00:01:30,060

continental United States yeah we

38

00:01:32,749 --> 00:01:31,380

continue to track and monitor the

39

00:01:35,090 --> 00:01:32,759

balloon closely

40

00:01:37,789 --> 00:01:35,100

we're confident this is a Chinese

41

00:01:40,130 --> 00:01:37,799

surveillance balloon the presence of the

42

00:01:42,770 --> 00:01:40,140

surveillance balloon in U.S airspace is

43

00:01:44,810 --> 00:01:42,780

a clear violation of U.S sovereignty and

44

00:01:47,030 --> 00:01:44,820

international law that it's an

45

00:01:49,249 --> 00:01:47,040

irresponsible act and that the prc's

46

00:01:51,950 --> 00:01:49,259

decision to take this action on the even

47

00:01:53,210 --> 00:01:51,960

by planned visit is detrimental to the

48

00:01:54,469 --> 00:01:53,220

substantive discussions that we were

49

00:01:56,389 --> 00:01:54,479

prepared to have what are we talking

50

00:01:58,010 --> 00:01:56,399

about officials said military leaders

51
00:02:00,770 --> 00:01:58,020
considered shooting the balloon down

52
00:02:02,810 --> 00:02:00,780
over Montana on Wednesday but declined

53
00:02:07,210 --> 00:02:02,820
due to the safety risk from falling

54
00:02:12,770 --> 00:02:10,070
Airship head strayed into U.S territory

55
00:02:15,350 --> 00:02:12,780
after being blown off course all right

56
00:02:17,150 --> 00:02:15,360
on Friday Pentagon spokesman Brigadier

57
00:02:19,369 --> 00:02:17,160
General Patrick Ryder said the balloon

58
00:02:22,610 --> 00:02:19,379
had changed course and was now floating

59
00:02:24,949 --> 00:02:22,620
Eastward at about 60 000 feet and

60
00:02:27,770 --> 00:02:24,959
demonstrated a capability to maneuver

61
00:02:29,089 --> 00:02:27,780
but he would not go into specifics but

62
00:02:31,309 --> 00:02:29,099
as the public not have a right to know

63
00:02:33,530 --> 00:02:31,319

uh the public certainly has the ability

64

00:02:35,690 --> 00:02:33,540

to look up in the sky and and see where

65

00:02:37,610 --> 00:02:35,700

the balloon is writer said the balloon

66

00:02:40,010 --> 00:02:37,620

was at an altitude well above commercial

67

00:02:42,290 --> 00:02:40,020

air traffic and did not present a

68

00:02:43,309 --> 00:02:42,300

military or physical threat to people on

69

00:02:45,290 --> 00:02:43,319

the ground

70

00:02:47,509 --> 00:02:45,300

Lincoln said he was not going to put a

71

00:02:49,369 --> 00:02:47,519

date on when he might go to China and

72

00:02:51,710 --> 00:02:49,379

the focus was on resolving the current

73

00:02:53,630 --> 00:02:51,720

incident the most important thing right

74

00:02:55,790 --> 00:02:53,640

now in the moment is

75

00:02:57,890 --> 00:02:55,800

to see that the surveillance asset gets

76
00:02:59,809 --> 00:02:57,900
out of our airspace and we'll take it

77
00:03:01,790 --> 00:02:59,819
from there oh yeah the trip delay is a

78
00:03:04,430 --> 00:03:01,800
blow to those on both sides who saw it

79
00:03:06,589 --> 00:03:04,440
as an overdue opportunity to stabilize

80
00:03:09,589 --> 00:03:06,599
an increasingly fractious relationship

81
00:03:14,149 --> 00:03:09,599
with China the last visit by a U.S

82
00:03:18,530 --> 00:03:16,850
China there we go that's the that's all

83
00:03:20,509 --> 00:03:18,540
we got China China China China China

84
00:03:21,460 --> 00:03:20,519
China China China China China China

85
00:03:23,089 --> 00:03:21,470
China China

86
00:03:25,160 --> 00:03:23,099
[Music]

87
00:03:28,070 --> 00:03:25,170
it's

88
00:03:30,170 --> 00:03:28,080

[Applause]

89

00:03:32,290 --> 00:03:30,180
you go over to China China China China

90

00:03:34,790 --> 00:03:32,300
China China China China China

91

00:03:37,369 --> 00:03:34,800
you take China China

92

00:03:41,690 --> 00:03:37,379
all right well uh there are other

93

00:03:44,690 --> 00:03:41,700
reports that uh at least one news report

94

00:03:47,750 --> 00:03:44,700
saying that the the this this balloon

95

00:03:49,789 --> 00:03:47,760
was shot down there was there were calls

96

00:03:52,509 --> 00:03:49,799
from former president Trump to just

97

00:03:55,850 --> 00:03:52,519
shoot this thing down

98

00:03:58,190 --> 00:03:55,860
and the the Pentagon and the bite

99

00:04:00,170 --> 00:03:58,200
administration were like no we're

100

00:04:02,690 --> 00:04:00,180
worried about falling debris even though

101

00:04:06,530 --> 00:04:02,700

it was primarily over Montana at least

102

00:04:07,550 --> 00:04:06,540

when the news broke uh suggest I mean if

103

00:04:09,110 --> 00:04:07,560

you want to shoot it down that's

104

00:04:11,030 --> 00:04:09,120

probably the perfect place to shoot it

105

00:04:12,229 --> 00:04:11,040

down at also what debris are they

106

00:04:13,729 --> 00:04:12,239

talking about there's like two solar

107

00:04:16,370 --> 00:04:13,739

panels

108

00:04:18,949 --> 00:04:16,380

um a camera 27 Chinese people you know

109

00:04:21,229 --> 00:04:18,959

what were they talking about here it was

110

00:04:23,930 --> 00:04:21,239

unknown uh not unless they know a whole

111

00:04:26,270 --> 00:04:23,940

lot more about this than we do uh it

112

00:04:28,189 --> 00:04:26,280

wasn't care what was its payload was

113

00:04:32,270 --> 00:04:28,199

there something was there some sort of

114

00:04:33,770 --> 00:04:32,280

weapon that was there uh was a delivery

115

00:04:35,210 --> 00:04:33,780

system for something the Chinese are

116

00:04:37,909 --> 00:04:35,220

claiming it's just a weather satellite

117

00:04:39,650 --> 00:04:37,919

is it something more nefarious uh they

118

00:04:41,450 --> 00:04:39,660

had every opportunity to try to shoot it

119

00:04:43,490 --> 00:04:41,460

down but they didn't I don't know how

120

00:04:45,050 --> 00:04:43,500

easy it is to shoot down a balloon

121

00:04:47,810 --> 00:04:45,060

that's 60 000 feet in the air it's

122

00:04:49,610 --> 00:04:47,820

probably not as easy as you would think

123

00:04:51,950 --> 00:04:49,620

it would be uh I don't think we have

124

00:04:54,350 --> 00:04:51,960

artillery that goes that high uh missile

125

00:04:56,210 --> 00:04:54,360

seems impractical what sending a fighter

126

00:04:58,629 --> 00:04:56,220

a couple fighter jets after it probably

127

00:05:01,129 --> 00:04:58,639

not practical either

128

00:05:02,810 --> 00:05:01,139

a couple of dudes in another balloon and

129

00:05:04,610 --> 00:05:02,820

had them chase after it I think that

130

00:05:06,700 --> 00:05:04,620

actually might be the best solution a

131

00:05:10,490 --> 00:05:06,710

good old-fashioned balloon race yeah

132

00:05:14,390 --> 00:05:12,170

and this start that's too fast of a

133

00:05:16,550 --> 00:05:14,400

balloon taking uh taking pot shots at

134

00:05:19,189 --> 00:05:16,560

the thing

135

00:05:21,950 --> 00:05:19,199

but there there were other reports that

136

00:05:24,650 --> 00:05:21,960

this thing was shot down and here's a

137

00:05:28,510 --> 00:05:24,660

news report about that this is uh this

138

00:05:31,790 --> 00:05:28,520

is unconfirmed but it comes from

139

00:05:33,409 --> 00:05:31,800

ktvq news and this is what they had to

140

00:05:36,409 --> 00:05:33,419

say

141

00:05:38,450 --> 00:05:36,419

a Billings West End woman is going viral

142

00:05:40,790 --> 00:05:38,460

tonight on social media after capturing

143

00:05:43,189 --> 00:05:40,800

something Unforgettable on her cell

144

00:05:45,529 --> 00:05:43,199

phone Dolly Moore tells me that she

145

00:05:47,810 --> 00:05:45,539

heard jets fly over her house everything

146

00:05:49,909 --> 00:05:47,820

started to shake and that's when she

147

00:05:52,070 --> 00:05:49,919

decided to grab her cell phone I'm gonna

148

00:05:54,350 --> 00:05:52,080

catch it on my phone this time Dolly

149

00:05:57,050 --> 00:05:54,360

Moore says she barely had time to think

150

00:05:59,330 --> 00:05:57,060

and instead just started rolling and all

151

00:06:01,610 --> 00:05:59,340

I could think was oh my gosh this is

152

00:06:04,129 --> 00:06:01,620

happening again from two nights ago all

153

00:06:07,189 --> 00:06:04,139

the commotion started around 4 45 when

154

00:06:09,230 --> 00:06:07,199

she was finishing up her work day this

155

00:06:11,390 --> 00:06:09,240

big window in her home office looks

156

00:06:14,749 --> 00:06:11,400

South she was watching when all of a

157

00:06:17,990 --> 00:06:14,759

sudden it was this big explosion in the

158

00:06:20,510 --> 00:06:18,000

sky surprise [h__\h] debris started

159

00:06:21,590 --> 00:06:20,520

to slowly coming down like it was Big

160

00:06:24,710 --> 00:06:21,600

Smoke

161

00:06:27,610 --> 00:06:24,720

those images took social media by storm

162

00:06:30,290 --> 00:06:27,620

I'm not a big Twitter person so

163

00:06:32,390 --> 00:06:30,300

I'll just tweet it and like

164

00:06:33,770 --> 00:06:32,400

this is oh my gosh this is what I just

165

00:06:35,930 --> 00:06:33,780

got like we need to isolate that's where

166

00:06:37,490 --> 00:06:35,940

the mystery continues yes we reached out

167

00:06:39,529 --> 00:06:37,500

to sheriff Mike Linder who says there's

168

00:06:41,570 --> 00:06:39,539

been no verification of the video from

169

00:06:43,550 --> 00:06:41,580

others meanwhile the city tweeting out

170

00:06:44,990 --> 00:06:43,560

this saying they're aware of the video

171

00:06:47,689 --> 00:06:45,000

but they haven't been called to any

172

00:06:49,850 --> 00:06:47,699

incidents related to it and nothing was

173

00:06:52,010 --> 00:06:49,860

picked up on radar and Governor Greg

174

00:06:54,830 --> 00:06:52,020

gianforte telling the city of Billings

175

00:06:57,469 --> 00:06:54,840

they don't know of any explosions in

176
00:06:59,390 --> 00:06:57,479
around or across Montana because to us

177
00:07:01,129 --> 00:06:59,400
it looked like when it first came down

178
00:07:03,350 --> 00:07:01,139
it was like oh my gosh it's in our

179
00:07:06,050 --> 00:07:03,360
neighborhood like that's scary you know

180
00:07:09,110 --> 00:07:06,060
but Moore says the whole thing left her

181
00:07:11,749 --> 00:07:09,120
shop yeah I wish I was shaken like I

182
00:07:14,090 --> 00:07:11,759
thought oh my gosh like they just blew

183
00:07:17,510 --> 00:07:14,100
it up over our neighborhood oh my gosh

184
00:07:20,629 --> 00:07:17,520
and now she waits to find out what

185
00:07:21,650 --> 00:07:20,639
happened in Billings Andrea Lutz MTN

186
00:07:25,610 --> 00:07:21,660
news

187
00:07:27,350 --> 00:07:25,620
so there apparently is no follow-up by

188
00:07:28,790 --> 00:07:27,360

this reporter or news station to be done

189

00:07:31,490 --> 00:07:28,800

they did their part they didn't talk to

190

00:07:33,290 --> 00:07:31,500

anybody else in the neighborhood uh they

191

00:07:35,570 --> 00:07:33,300

they basically called one person at the

192

00:07:37,010 --> 00:07:35,580

FAA and that's it

193

00:07:38,749 --> 00:07:37,020

um now what is on screen what is

194

00:07:42,589 --> 00:07:38,759

pictured here it it looks like a

195

00:07:44,990 --> 00:07:42,599

contrail or a chemtrail uh it's quite uh

196

00:07:47,570 --> 00:07:45,000

robust but that's this is what they're

197

00:07:49,570 --> 00:07:47,580

showing as like a as proof that there

198

00:07:53,210 --> 00:07:49,580

was something going on in the sky

199

00:07:55,309 --> 00:07:53,220

uh Now by all reports this Chinese

200

00:07:58,490 --> 00:07:55,319

balloon that was originally seen over

201
00:08:01,070 --> 00:07:58,500
Montana has already made its way to the

202
00:08:02,930 --> 00:08:01,080
east coast and I think it's on basically

203
00:08:03,950 --> 00:08:02,940
over to the east coast by now yeah they

204
00:08:05,629 --> 00:08:03,960
said it's definitely past Charlotte

205
00:08:06,830 --> 00:08:05,639
North Carolina so I think we're out over

206
00:08:07,850 --> 00:08:06,840
the ocean so now they're gonna go blow

207
00:08:10,730 --> 00:08:07,860
it up

208
00:08:13,010 --> 00:08:10,740
uh and I understand not wanting to blow

209
00:08:15,189 --> 00:08:13,020
it up immediately it's fun it lists

210
00:08:18,170 --> 00:08:15,199
people's moods everyone loves balloons

211
00:08:19,909 --> 00:08:18,180
uh but also for maybe a strategic

212
00:08:22,730 --> 00:08:19,919
standpoint maybe they want to monitor

213
00:08:24,529 --> 00:08:22,740

what signals are are coming to and fro I

214

00:08:27,469 --> 00:08:24,539

don't know if you can do that maybe they

215

00:08:29,390 --> 00:08:27,479

want to see how it behaves and like I

216

00:08:30,950 --> 00:08:29,400

said maybe there's some other a payload

217

00:08:33,589 --> 00:08:30,960

on board

218

00:08:36,709 --> 00:08:33,599

but when it comes to like speculation

219

00:08:41,449 --> 00:08:36,719

about what this is or what it could have

220

00:08:44,449 --> 00:08:41,459

done uh David Wilcox who was uh in is

221

00:08:47,150 --> 00:08:44,459

most uh I guess uh

222

00:08:50,210 --> 00:08:47,160

most is of his Fame comes from the UFO

223

00:08:52,430 --> 00:08:50,220

Community Beyond Ancient Aliens and and

224

00:08:54,110 --> 00:08:52,440

uh unfortunately

225

00:08:57,829 --> 00:08:54,120

um I don't really like the guy and he's

226

00:09:00,650 --> 00:08:57,839

also tied to uh Corey good the secret

227

00:09:04,190 --> 00:09:00,660

space program guy David Wilcox came out

228

00:09:07,810 --> 00:09:04,200

and said his sources told him that this

229

00:09:11,050 --> 00:09:07,820

Chinese balloon has an EMP

230

00:09:14,750 --> 00:09:11,060

uh device on it capable of knocking out

231

00:09:17,269 --> 00:09:14,760

uh the grid and electricity right below

232

00:09:20,150 --> 00:09:17,279

it it once they decide to release this

233

00:09:24,110 --> 00:09:20,160

weapon uh by everything that I've read

234

00:09:26,690 --> 00:09:24,120

uh you would need a device much larger

235

00:09:29,269 --> 00:09:26,700

than what is capable of being carried by

236

00:09:31,190 --> 00:09:29,279

that kind of balloon and it would it

237

00:09:32,990 --> 00:09:31,200

would have to be advice like I would say

238

00:09:36,110 --> 00:09:33,000

10 times as big

239

00:09:38,050 --> 00:09:36,120

and or just a detonation of a nuclear

240

00:09:40,009 --> 00:09:38,060

weapon to produce that kind of

241

00:09:40,790 --> 00:09:40,019

electromagnetic pulse to wipe out the

242

00:09:42,769 --> 00:09:40,800

grid

243

00:09:44,810 --> 00:09:42,779

but this is funny enough that that term

244

00:09:48,829 --> 00:09:44,820

came up because we were talking a lot

245

00:09:50,449 --> 00:09:48,839

about uh emps in the Discord chat and it

246

00:09:52,370 --> 00:09:50,459

just comes up in conversation over and

247

00:09:55,730 --> 00:09:52,380

over again uh I don't believe this is

248

00:09:58,670 --> 00:09:55,740

some sort of EMP it could be

249

00:10:01,370 --> 00:09:58,680

an inefficient way to deliver biological

250

00:10:04,130 --> 00:10:01,380

weapons but it also might be just a way

251
00:10:08,570 --> 00:10:04,140
to aggravate the United States but I was

252
00:10:10,990 --> 00:10:08,580
also thinking what is there any relation

253
00:10:12,670 --> 00:10:11,000
to this balloon to what was going on

254
00:10:16,550 --> 00:10:12,680
between

255
00:10:20,630 --> 00:10:16,560
seven to three years ago when it comes

256
00:10:23,690 --> 00:10:20,640
to uh uaps or just drones just drones

257
00:10:25,910 --> 00:10:23,700
being operated by unknown people over

258
00:10:29,630 --> 00:10:25,920
United States power facilities whether

259
00:10:32,690 --> 00:10:29,640
it is a nuclear reactor plant and uh in

260
00:10:37,310 --> 00:10:32,700
Arizona or up in Pennsylvania Ohio there

261
00:10:40,250 --> 00:10:37,320
are many many confirmed uh drones or

262
00:10:42,889 --> 00:10:40,260
unknown Vehicles circling and intruding

263
00:10:45,590 --> 00:10:42,899

that airspace over the years

264

00:10:48,350 --> 00:10:45,600

uh so is there any sort of

265

00:10:51,829 --> 00:10:48,360

unique data that you can you have to

266

00:10:54,350 --> 00:10:51,839

collect from 60 to 80 000 feet up that

267

00:10:55,970 --> 00:10:54,360

you couldn't collect uh from satellites

268

00:10:59,810 --> 00:10:55,980

in space

269

00:11:02,569 --> 00:10:59,820

uh no I think I think you're missing too

270

00:11:04,730 --> 00:11:02,579

that the idea of an EMP is that you

271

00:11:06,350 --> 00:11:04,740

would want to blow it up in the

272

00:11:09,290 --> 00:11:06,360

atmosphere because it would maintain

273

00:11:12,470 --> 00:11:09,300

infrastructure while eliminating

274

00:11:15,230 --> 00:11:12,480

sure all sort of utility so if you are

275

00:11:17,690 --> 00:11:15,240

high enough up you could literally I

276

00:11:20,150 --> 00:11:17,700

mean that's the subject of that book

277

00:11:22,250 --> 00:11:20,160

you wouldn't want to blow up a nuclear

278

00:11:24,170 --> 00:11:22,260

weapon on the ground if you wanted to

279

00:11:26,030 --> 00:11:24,180

maintain infrastructure yeah I'm just

280

00:11:27,889 --> 00:11:26,040

I'm just saying like from what I was

281

00:11:30,949 --> 00:11:27,899

reading about if there could have been

282

00:11:32,150 --> 00:11:30,959

an EMP type of device up there uh is it

283

00:11:34,610 --> 00:11:32,160

practical for that kind of balloon to

284

00:11:36,710 --> 00:11:34,620

carry it I don't know I think so so I

285

00:11:40,970 --> 00:11:36,720

just want to point out um the uh

286

00:11:43,670 --> 00:11:40,980

hardtack one test uh April 28 1958 they

287

00:11:48,050 --> 00:11:43,680

set off a high altitude nuclear or high

288

00:11:50,509 --> 00:11:48,060

altitude um uh nuclear test uh launched

289

00:11:52,190 --> 00:11:50,519

by a helium balloon oh really and and

290

00:11:53,090 --> 00:11:52,200

observed the EMP and that's kind of

291

00:11:56,750 --> 00:11:53,100

where they first started thinking about

292

00:11:58,850 --> 00:11:56,760

using that as a um uh uh a possible

293

00:12:02,090 --> 00:11:58,860

first strike weapon well okay well kiss

294

00:12:05,150 --> 00:12:02,100

my grits uh I I was thinking that they

295

00:12:07,250 --> 00:12:05,160

were trying to measure like get more

296

00:12:09,530 --> 00:12:07,260

accurate readings of like the jet stream

297

00:12:11,329 --> 00:12:09,540

and air currents in case of some sort of

298

00:12:12,710 --> 00:12:11,339

radioactive fallout but yeah that's

299

00:12:13,850 --> 00:12:12,720

that's generally how they do [h__h] like

300

00:12:16,250 --> 00:12:13,860

hey let's just send it up there and blow

301

00:12:18,590 --> 00:12:16,260

it up see what happens yeah

302

00:12:20,829 --> 00:12:18,600

um so if they do or anybody starts

303

00:12:23,569 --> 00:12:20,839

detonating stuff they know the exact

304

00:12:25,310 --> 00:12:23,579

Fallout and that kind of stuff but there

305

00:12:27,430 --> 00:12:25,320

are other things going on so there is

306

00:12:31,190 --> 00:12:27,440

now a confirmed

307

00:12:32,569 --> 00:12:31,200

uh second balloon balloon do you want to

308

00:12:34,310 --> 00:12:32,579

so I have a story that you mentioned the

309

00:12:36,110 --> 00:12:34,320

drones sure I have a story that talks

310

00:12:38,030 --> 00:12:36,120

about the balloons and the drones all in

311

00:12:41,329 --> 00:12:38,040

one if you want that I would love that

312

00:12:44,030 --> 00:12:41,339

story it's in El carrot shop yeah okay

313

00:12:48,170 --> 00:12:44,040

let's talk about that

314

00:12:48,180 --> 00:12:58,009

it is it's balloon Day come on

315

00:13:03,530 --> 00:13:00,889

all right the Army wants to launch drone

316

00:13:07,310 --> 00:13:03,540

swarms Behind Enemy Lines from high

317

00:13:08,650 --> 00:13:07,320

altitude balloons wow that's some good

318

00:13:11,269 --> 00:13:08,660

news on that front this comes from

319

00:13:12,590 --> 00:13:11,279

thedrive.com the drive is uh probably

320

00:13:16,550 --> 00:13:12,600

one of the better websites out there

321

00:13:19,490 --> 00:13:16,560

that that covers this kind of uh weird

322

00:13:22,790 --> 00:13:19,500

Tech kind of stuff and from a pentagon

323

00:13:24,710 --> 00:13:22,800

DOD military angle the balloons could

324

00:13:27,110 --> 00:13:24,720

also collect intelligence serve as

325

00:13:29,870 --> 00:13:27,120

communication relays and send sensors

326

00:13:32,269 --> 00:13:29,880

sensors falling down to the ground to

327

00:13:34,850 --> 00:13:32,279

want watch for enemy activity

328

00:13:38,690 --> 00:13:34,860

now this was I'm trying to get the date

329

00:13:42,050 --> 00:13:38,700

on this this oh uh November 30th 2020.

330

00:13:43,970 --> 00:13:42,060

so not that long ago uh the almost U.S

331

00:13:46,250 --> 00:13:43,980

army is looking at developing a network

332

00:13:49,730 --> 00:13:46,260

of high altitude balloons that would fly

333

00:13:52,610 --> 00:13:49,740

in the stratosphere to be uh to be able

334

00:13:55,730 --> 00:13:52,620

to launch swarms of unmanned aircraft

335

00:13:58,129 --> 00:13:55,740

including those configured as loitering

336

00:14:00,769 --> 00:13:58,139

Munitions also known as suicide drones

337

00:14:02,750 --> 00:14:00,779

over enemy controlled territory these

338

00:14:04,910 --> 00:14:02,760

lighter than air vehicles could also be

339

00:14:06,889 --> 00:14:04,920

configured as Central sensor platforms

340

00:14:09,530 --> 00:14:06,899

to collect various kinds of intelligence

341

00:14:11,629 --> 00:14:09,540

or deploy other surveillance systems

342

00:14:14,750 --> 00:14:11,639

that would fall to the ground in order

343

00:14:17,750 --> 00:14:14,760

to monitor hostile movements as well as

344

00:14:20,329 --> 00:14:17,760

act as a Communications relay a

345

00:14:23,150 --> 00:14:20,339

fascinating kind of uh Tech we thought

346

00:14:25,190 --> 00:14:23,160

balloon technology uh would come so far

347

00:14:27,350 --> 00:14:25,200

in the hundred years since like the the

348

00:14:29,389 --> 00:14:27,360

Hindenburg I've been telling all the

349

00:14:31,490 --> 00:14:29,399

kids they need to major in in balloon

350

00:14:33,710 --> 00:14:31,500

science balloon Tech

351

00:14:35,569 --> 00:14:33,720

yeah yeah I look in front of that but

352

00:14:36,769 --> 00:14:35,579

anyway so yeah to your point about how

353

00:14:37,910 --> 00:14:36,779

did all these you know who's launching

354

00:14:39,050 --> 00:14:37,920

all these drones going over nuclear

355

00:14:40,370 --> 00:14:39,060

sites and now we have balloons flying

356

00:14:41,930 --> 00:14:40,380

over it's like well here's a balloon

357

00:14:43,610 --> 00:14:41,940

that can launch drones right over any of

358

00:14:46,009 --> 00:14:43,620

your nuclear missile sites to do some

359

00:14:48,710 --> 00:14:46,019

spying on [h__\h] I love it

360

00:14:51,949 --> 00:14:48,720

uh the uh

361

00:14:53,389 --> 00:14:51,959

well here's a in a previously it is it

362

00:14:55,670 --> 00:14:53,399

was previously known that the Army was

363

00:14:58,970 --> 00:14:55,680

exploring using balloons floating in the

364

00:15:03,170 --> 00:14:58,980

stratosphere which be uh begins its

365

00:15:05,210 --> 00:15:03,180

altitude range from 23 000 feet to 66

366

00:15:07,009 --> 00:15:05,220

000 feet depending on where you are on

367

00:15:09,590 --> 00:15:07,019

the earth for intelligence surveillance

368

00:15:11,870 --> 00:15:09,600

and reconnaissance uh and communication

369

00:15:14,030 --> 00:15:11,880

roles so that's a pretty wide range you

370

00:15:15,470 --> 00:15:14,040

got like a 40 000 foot range for all

371

00:15:16,970 --> 00:15:15,480

those kinds of things the atmosphere

372

00:15:20,329 --> 00:15:16,980

gets thinner yes

373

00:15:22,670 --> 00:15:20,339

well the atmosphere is uh it's not as uh

374

00:15:24,530 --> 00:15:22,680

thick as we think it is it's only five

375

00:15:26,810 --> 00:15:24,540

to seven kilometers thick yeah that's

376

00:15:31,189 --> 00:15:26,820

right look how look how thick that is

377

00:15:33,650 --> 00:15:31,199

uh as part of the larger mdss Network

378

00:15:35,269 --> 00:15:33,660

they would fill something of a gap

379

00:15:37,970 --> 00:15:35,279

between traditional ground base and

380

00:15:39,829 --> 00:15:37,980

aerial ISR and Communications platforms

381

00:15:41,150 --> 00:15:39,839

and space-based systems so this is a

382

00:15:43,550 --> 00:15:41,160

very lengthy article I'll put this in

383

00:15:44,629 --> 00:15:43,560

the uh well in the description yeah if

384

00:15:46,129 --> 00:15:44,639

you really want to dive into it it's got

385

00:15:47,629 --> 00:15:46,139

like 20 pages on this but to your point

386

00:15:49,430 --> 00:15:47,639

what can I get out of a balloon I can't

387

00:15:50,990 --> 00:15:49,440

get from uh you know satellite well

388

00:15:53,389 --> 00:15:51,000

you're pretty much getting the same

389

00:15:54,769 --> 00:15:53,399

thing but you can get different sensors

390

00:15:57,230 --> 00:15:54,779

you can you can use different uh

391

00:15:59,150 --> 00:15:57,240

instrumentation so it's not replacing

392

00:16:00,829 --> 00:15:59,160

satellites it's augmenting so you can

393

00:16:02,569 --> 00:16:00,839

have you know your Battlefield drones

394

00:16:04,189 --> 00:16:02,579

flying over you can have your your high

395

00:16:05,750 --> 00:16:04,199

altitude loitering drones fly over you

396

00:16:07,189 --> 00:16:05,760

can have balloons then dropping little

397

00:16:08,810 --> 00:16:07,199

drones to really get in there and then

398

00:16:10,970 --> 00:16:08,820

you can have satellites looking at uh

399

00:16:12,410 --> 00:16:10,980

huge swaths of territory so you can use

400

00:16:14,870 --> 00:16:12,420

all of those and you can see everything

401
00:16:16,790 --> 00:16:14,880
you could want about random stuff and

402
00:16:18,590 --> 00:16:16,800
let's not forget that we've read a story

403
00:16:21,290 --> 00:16:18,600
that uh

404
00:16:25,189 --> 00:16:21,300
in Texas there was like a Chinese

405
00:16:26,810 --> 00:16:25,199
General that bought 200 acres of land

406
00:16:28,370 --> 00:16:26,820
and basically there's an airstrip down

407
00:16:32,449 --> 00:16:28,380
there

408
00:16:34,610 --> 00:16:32,459
even covered that the the Chinese

409
00:16:36,350 --> 00:16:34,620
basically have their own police stations

410
00:16:37,910 --> 00:16:36,360
in America where everything just got

411
00:16:40,249 --> 00:16:37,920
shut down actually yeah in New York

412
00:16:43,490 --> 00:16:40,259
where they basically will arrest

413
00:16:46,730 --> 00:16:43,500

dissidents and other Chinese uh people

414

00:16:48,769 --> 00:16:46,740

that are speaking ill about the uh the

415

00:16:50,569 --> 00:16:48,779

Chinese government regime or maybe they

416

00:16:52,970 --> 00:16:50,579

committed some crime over there but they

417

00:16:55,670 --> 00:16:52,980

are arresting people on our soil using

418

00:16:58,030 --> 00:16:55,680

their own laws and apparently uh our

419

00:17:01,430 --> 00:16:58,040

government is doing nothing about it

420

00:17:03,470 --> 00:17:01,440

it's just fine art so we have to look at

421

00:17:04,850 --> 00:17:03,480

like well also remember when um who's

422

00:17:06,890 --> 00:17:04,860

the the I can't think of the guy's name

423

00:17:08,870 --> 00:17:06,900

The Joint Chiefs he called China to let

424

00:17:11,750 --> 00:17:08,880

him know we were doing [h__h] uh Millie

425

00:17:13,970 --> 00:17:11,760

yeah uh General Mark Milly to basically

426
00:17:17,270 --> 00:17:13,980
to ask questions or ask for permission

427
00:17:20,630 --> 00:17:17,280
before doing stuff yeah uh we and so we

428
00:17:22,909 --> 00:17:20,640
have to like ask are we allowing or are

429
00:17:24,650 --> 00:17:22,919
certain people within the Pentagon so

430
00:17:27,530 --> 00:17:24,660
buddy buddy with the Chinese that

431
00:17:29,630 --> 00:17:27,540
they're allowing this incursion by the

432
00:17:30,470 --> 00:17:29,640
the balloon Squadron the the balloons of

433
00:17:32,750 --> 00:17:30,480
Doom

434
00:17:34,549 --> 00:17:32,760
uh or are we just not taking action

435
00:17:37,490 --> 00:17:34,559
because it's better to do nothing and

436
00:17:40,250 --> 00:17:37,500
just let it do its thing than to try to

437
00:17:42,409 --> 00:17:40,260
do something and fail and and make us

438
00:17:43,909 --> 00:17:42,419

look like we're totally incompetent

439

00:17:46,010 --> 00:17:43,919

which we might be

440

00:17:48,409 --> 00:17:46,020

so there is uh

441

00:17:49,970 --> 00:17:48,419

if you look at the Soviet I'm not a big

442

00:17:52,669 --> 00:17:49,980

fan of this guy I had something weird

443

00:17:55,070 --> 00:17:52,679

about him but uh he's a he's a he's a

444

00:17:57,650 --> 00:17:55,080

little over the top his face but yeah

445

00:18:00,830 --> 00:17:57,660

he's he's got a tweet and some people

446

00:18:03,289 --> 00:18:00,840

are pointing to it as though it may be

447

00:18:04,690 --> 00:18:03,299

if you go up above the Kiro 7 News

448

00:18:07,610 --> 00:18:04,700

Seattle

449

00:18:12,230 --> 00:18:07,620

this is his claim

450

00:18:14,450 --> 00:18:12,240

uh Jack plusobic is a plusobic a Soviet

451
00:18:17,150 --> 00:18:14,460
post-op

452
00:18:18,950 --> 00:18:17,160
um so this is what's on screen what we

453
00:18:22,010 --> 00:18:18,960
we now know

454
00:18:24,830 --> 00:18:22,020
the Biden admin knew about the balloon

455
00:18:28,250 --> 00:18:24,840
all along but didn't want to make China

456
00:18:30,230 --> 00:18:28,260
mad before blinken's audience with Xi ji

457
00:18:32,630 --> 00:18:30,240
ping this weekend but a Montana

458
00:18:34,789 --> 00:18:32,640
newspaper got footage of it and they had

459
00:18:36,770 --> 00:18:34,799
to go public holy [h__\h] so the Biden

460
00:18:38,930 --> 00:18:36,780
Minister Administration was sitting on

461
00:18:40,210 --> 00:18:38,940
this balloon balloon gate is that what

462
00:18:45,409 --> 00:18:40,220
we're looking at here

463
00:18:48,169 --> 00:18:45,419

balloon gate I love it wow where's Tim

464

00:18:50,450 --> 00:18:48,179

I mean the the dude is like he's uh

465

00:18:52,310 --> 00:18:50,460

China like he's over a barrel from the

466

00:18:55,130 --> 00:18:52,320

Chinese we know this I've been saying

467

00:18:56,930 --> 00:18:55,140

this forever like Hunter Biden all these

468

00:18:58,730 --> 00:18:56,940

guys they sold him if you look at the

469

00:19:02,210 --> 00:18:58,740

deck that was found on Hunter Biden's

470

00:19:04,610 --> 00:19:02,220

laptop and they had all the uh liquefied

471

00:19:06,529 --> 00:19:04,620

natural gas Fields here in the United

472

00:19:08,750 --> 00:19:06,539

States so that they could basically sell

473

00:19:11,450 --> 00:19:08,760

them out to China like the whole thing

474

00:19:13,370 --> 00:19:11,460

is so Shifty and yeah China owns them

475

00:19:15,950 --> 00:19:13,380

because they probably have

476

00:19:17,570 --> 00:19:15,960

all of those pedophile pictures and all

477

00:19:19,909 --> 00:19:17,580

the dirt and everything else and they're

478

00:19:23,409 --> 00:19:19,919

just you know they sold us out already

479

00:19:25,789 --> 00:19:23,419

look at your child yeah

480

00:19:28,430 --> 00:19:25,799

why do you have a picture of a Stallone

481

00:19:29,870 --> 00:19:28,440

from Over the Top on screen because Joe

482

00:19:32,570 --> 00:19:29,880

said that czechosobia is a little over

483

00:19:34,970 --> 00:19:32,580

the top oh I see a little over the top

484

00:19:36,590 --> 00:19:34,980

okay fair enough

485

00:19:38,510 --> 00:19:36,600

I'll change it to international balloon

486

00:19:40,310 --> 00:19:38,520

month there how about that I saw

487

00:19:42,650 --> 00:19:40,320

somebody on Twitter wrote you can't have

488

00:19:45,590 --> 00:19:42,660

clown world without balloons that is

489

00:19:49,370 --> 00:19:47,270

um well thank you for that the the other

490

00:19:52,130 --> 00:19:49,380

story of their crutches to let us know

491

00:19:54,590 --> 00:19:52,140

that these balloons uh cam they

492

00:19:57,590 --> 00:19:54,600

basically platforms for deploying

493

00:20:00,049 --> 00:19:57,600

deployments of sensors Communications or

494

00:20:02,990 --> 00:20:00,059

other drones uh we don't know if that's

495

00:20:06,289 --> 00:20:03,000

what what we saw uh it just looked like

496

00:20:08,029 --> 00:20:06,299

two panels of you know solar panels

497

00:20:09,590 --> 00:20:08,039

maybe some like a sensor array was

498

00:20:12,169 --> 00:20:09,600

really tough to determine what it was

499

00:20:14,150 --> 00:20:12,179

capable of but there are there are other

500

00:20:17,570 --> 00:20:14,160

balloons out there in this next news

501
00:20:18,710 --> 00:20:17,580
report will uh we'll speak to that and

502
00:20:21,230 --> 00:20:18,720
here we go

503
00:20:23,090 --> 00:20:21,240
news at 11 the Pentagon Now tracking a

504
00:20:25,310 --> 00:20:23,100
second Chinese spy balloon currently

505
00:20:27,049 --> 00:20:25,320
Soaring Over South America this latest

506
00:20:28,909 --> 00:20:27,059
high-flying twist adding to the

507
00:20:30,650 --> 00:20:28,919
Diplomatic dispute between the U.S and

508
00:20:32,150 --> 00:20:30,660
China and also fueling the political

509
00:20:34,549 --> 00:20:32,160
debate over what action the United

510
00:20:36,110 --> 00:20:34,559
States should take next eyewitness news

511
00:20:37,430 --> 00:20:36,120
reporter Michelle Fisher tracking all

512
00:20:39,950 --> 00:20:37,440
the new developments tonight Michelle

513
00:20:41,690 --> 00:20:39,960

Mark the exact location of that second

514

00:20:44,450 --> 00:20:41,700

surveillance balloon over Latin America

515

00:20:46,010 --> 00:20:44,460

still unclear but the Pentagon says it

516

00:20:48,230 --> 00:20:46,020

does not appear to be heading toward the

517

00:20:50,150 --> 00:20:48,240

U.S as for the one that is drifting over

518

00:20:52,630 --> 00:20:50,160

our country the Pentagon says it does

519

00:20:55,130 --> 00:20:52,640

not pose a military risk nonetheless

520

00:20:58,250 --> 00:20:55,140

from a foreign country has many feeling

521

00:21:00,350 --> 00:20:58,260

uneasy is China studying the weather or

522

00:21:02,450 --> 00:21:00,360

studying the states the Pentagon today

523

00:21:04,370 --> 00:21:02,460

making their answer clear we know that

524

00:21:06,350 --> 00:21:04,380

it's a surveillance balloon it's a

525

00:21:08,510 --> 00:21:06,360

rejection of China's claim that it's not

526
00:21:10,730 --> 00:21:08,520
a spy vessel but a civilian Airship used

527
00:21:12,950 --> 00:21:10,740
for weather research we do know that the

528
00:21:15,470 --> 00:21:12,960
balloon has violated U.S airspace and

529
00:21:17,570 --> 00:21:15,480
international law which is unacceptable

530
00:21:19,130 --> 00:21:17,580
and so we've conveyed this directly it's

531
00:21:21,190 --> 00:21:19,140
apparently accepted PRC at multiple

532
00:21:23,750 --> 00:21:21,200
levels

533
00:21:26,450 --> 00:21:23,760
a Chinese foreign Ministry spokesperson

534
00:21:29,270 --> 00:21:26,460
saying today it accidentally entered U.S

535
00:21:31,370 --> 00:21:29,280
airspace it first flew over Alaska then

536
00:21:33,049 --> 00:21:31,380
Southwest Canada and into Billings

537
00:21:35,149 --> 00:21:33,059
Montana where it was spotted Wednesday

538
00:21:37,430 --> 00:21:35,159

questions about the balloon quickly

539

00:21:39,230 --> 00:21:37,440

making their rounds on social media this

540

00:21:41,450 --> 00:21:39,240

thing is up in the sky what the heck is

541

00:21:43,549 --> 00:21:41,460

that that thing is not the moon and off

542

00:21:45,590 --> 00:21:43,559

the ground confused Pilots getting a

543

00:21:47,149 --> 00:21:45,600

look as well take a listen to just some

544

00:21:49,549 --> 00:21:47,159

of the calls coming into air traffic

545

00:21:53,049 --> 00:21:49,559

control

546

00:21:55,730 --> 00:21:53,059

so it looks like it's way up there

547

00:21:58,850 --> 00:21:55,740

okay we've seen that object around a

548

00:22:03,049 --> 00:21:58,860

minute ago uh the captain myself I saw a

549

00:22:04,610 --> 00:22:03,059

stive like 20 000 feet in seconds U.S

550

00:22:07,070 --> 00:22:04,620

officials believe it has a technology

551

00:22:09,110 --> 00:22:07,080

Buy the size of three city buses high

552

00:22:11,270 --> 00:22:09,120

resolution cameras and would appear to

553

00:22:12,950 --> 00:22:11,280

be solar powered panels Chinese

554

00:22:15,350 --> 00:22:12,960

satellites believed to be maneuvering

555

00:22:17,630 --> 00:22:15,360

the balloon as it drifts east across the

556

00:22:19,909 --> 00:22:17,640

country as some call for it to be shot

557

00:22:22,130 --> 00:22:19,919

down the Pentagon says the solution

558

00:22:24,409 --> 00:22:22,140

isn't that simple either an abundance of

559

00:22:27,110 --> 00:22:24,419

caution uh cognizant of the potential

560

00:22:29,149 --> 00:22:27,120

impact to civilians on the ground from a

561

00:22:30,830 --> 00:22:29,159

debris field right now we're going to

562

00:22:32,690 --> 00:22:30,840

continue to Monitor and review options

563

00:22:35,029 --> 00:22:32,700

the Pentagon confirming tonight another

564

00:22:37,789 --> 00:22:35,039

suspected Chinese spy balloon is also

565

00:22:39,770 --> 00:22:37,799

traveling over Latin America and that

566

00:22:41,330 --> 00:22:39,780

balloon is expected to remain over the

567

00:22:43,250 --> 00:22:41,340

United States for a couple of days

568

00:22:45,890 --> 00:22:43,260

according to military trackers it will

569

00:22:48,470 --> 00:22:45,900

drift over a quote number of sensitive

570

00:22:50,750 --> 00:22:48,480

sites the plan then to possibly shoot it

571

00:22:52,669 --> 00:22:50,760

down over U.S Waters also important to

572

00:22:54,710 --> 00:22:52,679

note Secretary of State Anthony blinken

573

00:22:56,810 --> 00:22:54,720

was set to leave tonight for a planned

574

00:22:59,029 --> 00:22:56,820

trip to Beijing but in light of this

575

00:23:01,909 --> 00:22:59,039

balloon he has now postponed that trip

576

00:23:04,270 --> 00:23:01,919

hello I'm Mark Brown get more great ABC

577

00:23:06,169 --> 00:23:04,280

7 content by clicking the Subscribe

578

00:23:07,730 --> 00:23:06,179

thank you Mark trying to click the

579

00:23:11,210 --> 00:23:07,740

Subscribe button there uh thank you Mark

580

00:23:14,029 --> 00:23:11,220

Brown I I appreciate that

581

00:23:15,830 --> 00:23:14,039

all right uh nothing about that makes

582

00:23:17,330 --> 00:23:15,840

any sense because they I mean they could

583

00:23:18,529 --> 00:23:17,340

they could basically puncture that let

584

00:23:19,909 --> 00:23:18,539

it fall and then they could snag it with

585

00:23:21,049 --> 00:23:19,919

it with the helicopter as it comes down

586

00:23:22,190 --> 00:23:21,059

if they didn't want it to land or what

587

00:23:23,630 --> 00:23:22,200

you know that doesn't make any sense

588

00:23:25,669 --> 00:23:23,640

there's a bunch of different ways to

589

00:23:28,850 --> 00:23:25,679

take it down and why wouldn't they to

590

00:23:30,529 --> 00:23:28,860

study its sensor array and exactly what

591

00:23:33,529 --> 00:23:30,539

it was doing

592

00:23:35,870 --> 00:23:33,539

um and to just let it go

593

00:23:37,850 --> 00:23:35,880

uh it doesn't make a lot of sense well I

594

00:23:39,529 --> 00:23:37,860

like how the the who the spokesman's for

595

00:23:40,669 --> 00:23:39,539

the Pentagon said it's unacceptable well

596

00:23:42,049 --> 00:23:40,679

apparently it's acceptable because

597

00:23:44,090 --> 00:23:42,059

you're just letting it go

598

00:23:47,390 --> 00:23:44,100

yeah and apparently according to Jack

599

00:23:49,789 --> 00:23:47,400

posobic uh the bite Administration knew

600

00:23:51,830 --> 00:23:49,799

about this for quite a while and they

601
00:23:53,390 --> 00:23:51,840
didn't tell anybody they didn't feel the

602
00:23:55,970 --> 00:23:53,400
need to just kind of give people a heads

603
00:23:57,890 --> 00:23:55,980
up like hey by the way Rogue Chinese uh

604
00:23:59,029 --> 00:23:57,900
weather balloon up there no need to

605
00:24:01,970 --> 00:23:59,039
worry

606
00:24:04,669 --> 00:24:01,980
but if the Chinese could control it and

607
00:24:06,950 --> 00:24:04,679
if it if the Chinese didn't want to

608
00:24:08,330 --> 00:24:06,960
violate U.S airspace then why not just

609
00:24:10,549 --> 00:24:08,340
bring it down to the ground say are

610
00:24:13,430 --> 00:24:10,559
sorry are bad we're just gonna bring it

611
00:24:15,770 --> 00:24:13,440
down before it even gets to anywhere

612
00:24:17,149 --> 00:24:15,780
near U.S airspace because we want to

613
00:24:19,549 --> 00:24:17,159

provoke an incident because we got

614

00:24:22,909 --> 00:24:19,559

blinken uh coming over here to talk

615

00:24:25,010 --> 00:24:22,919

about backroom deals but they they knew

616

00:24:26,930 --> 00:24:25,020

what was going on the Chinese uh this is

617

00:24:31,490 --> 00:24:26,940

nothing new for them and I'll bring up

618

00:24:34,970 --> 00:24:31,500

I'll bring up this old story from 2001.

619

00:24:37,370 --> 00:24:34,980

about another uh International Espionage

620

00:24:38,870 --> 00:24:37,380

spine incident and I remember when this

621

00:24:41,930 --> 00:24:38,880

happened at the time I was I was working

622

00:24:43,850 --> 00:24:41,940

at the at a hospital and I was an AV

623

00:24:46,310 --> 00:24:43,860

Tech I was hired to like set up stuff

624

00:24:48,590 --> 00:24:46,320

for doctors and conferences and film

625

00:24:50,510 --> 00:24:48,600

surgeries and during this date when you

626

00:24:53,149 --> 00:24:50,520

weren't doing that you'd you'd sit in

627

00:24:56,330 --> 00:24:53,159

the room and watch uh watch the news and

628

00:25:00,409 --> 00:24:56,340

and dub stuff for other people but this

629

00:25:01,870 --> 00:25:00,419

uh this happened in April 20 or April of

630

00:25:05,330 --> 00:25:01,880

2001

631

00:25:09,230 --> 00:25:05,340

U.S plane in China

632

00:25:12,289 --> 00:25:09,240

after it collides with Chinese jet

633

00:25:14,090 --> 00:25:12,299

so a United States Navy spy plane on a

634

00:25:16,430 --> 00:25:14,100

routine surveillance Mission near the

635

00:25:19,190 --> 00:25:16,440

Chinese Coast collided on Sunday with a

636

00:25:21,049 --> 00:25:19,200

Chinese fighter uh that was closely

637

00:25:22,789 --> 00:25:21,059

tailgating it the American plane made this

638

00:25:24,409 --> 00:25:22,799

is the high on island one I believe so

639

00:25:27,470 --> 00:25:24,419

yeah yeah this was a big deal right

640

00:25:29,210 --> 00:25:27,480

before 9 11. right before 9 11. the

641

00:25:31,310 --> 00:25:29,220

American plane made an emergency landing

642

00:25:33,350 --> 00:25:31,320

in China and the United States said it

643

00:25:35,570 --> 00:25:33,360

was seeking the immediate Return of the

644

00:25:39,789 --> 00:25:35,580

24 crew members all said to be in good

645

00:25:42,830 --> 00:25:39,799

condition and uh and and as of the

646

00:25:45,169 --> 00:25:42,840

sophisticated aircraft in all uh its

647

00:25:46,730 --> 00:25:45,179

intelligence equipment so I think they

648

00:25:48,769 --> 00:25:46,740

have a mechanism on there to just

649

00:25:49,789 --> 00:25:48,779

destroy [h__\h] like none of that stuff I

650

00:25:52,190 --> 00:25:49,799

don't think got returned I think

651
00:25:54,590 --> 00:25:52,200
everything was destroyed upon Landing

652
00:25:56,510 --> 00:25:54,600
well they yeah so yeah they set off

653
00:25:58,070 --> 00:25:56,520
small charges to take out take out the

654
00:26:00,169 --> 00:25:58,080
avionics and the electronics they don't

655
00:26:02,450 --> 00:26:00,179
care about the plane itself yeah

656
00:26:05,810 --> 00:26:02,460
uh the mid-air crash occurred about 50

657
00:26:09,350 --> 00:26:05,820
miles Southeast of China's Heinen is it

658
00:26:10,730 --> 00:26:09,360
Hainan island yeah and an island in what

659
00:26:14,630 --> 00:26:10,740
American officials described as

660
00:26:17,029 --> 00:26:14,640
international waters the ep3e no I don't

661
00:26:18,710 --> 00:26:17,039
need to read all this stuff so it's an

662
00:26:22,010 --> 00:26:18,720
ancient plane it's a P3 so no one gives

663
00:26:24,169 --> 00:26:22,020

a [h__h] so uh we were doing our routine

664

00:26:26,810 --> 00:26:24,179

surveillance out there uh the Chinese

665

00:26:29,570 --> 00:26:26,820

were aware of it a Chinese fighter jet

666

00:26:32,390 --> 00:26:29,580

they said tailing it actually uh

667

00:26:35,930 --> 00:26:32,400

according to reports it flew right in

668

00:26:37,730 --> 00:26:35,940

front of our spy plane and I think it

669

00:26:39,409 --> 00:26:37,740

got too close and I think it maybe

670

00:26:40,850 --> 00:26:39,419

clipped the nose or something it was

671

00:26:42,529 --> 00:26:40,860

like it was trying to do like the

672

00:26:45,529 --> 00:26:42,539

Chinese fighter pilot was trying to do

673

00:26:48,230 --> 00:26:45,539

some Top Gun maneuver and he horribly

674

00:26:49,730 --> 00:26:48,240

misjudged it causing this uh mid-air

675

00:26:51,049 --> 00:26:49,740

collision with thankfully I don't think

676
00:26:52,850 --> 00:26:51,059
anyone died

677
00:26:55,430 --> 00:26:52,860
uh but it was a big international

678
00:26:56,990 --> 00:26:55,440
incident I think the Chinese pilot died

679
00:26:59,630 --> 00:26:57,000
Diddy okay yeah

680
00:27:01,430 --> 00:26:59,640
uh big international incident there was

681
00:27:03,590 --> 00:27:01,440
uh this is all living in news for a few

682
00:27:06,350 --> 00:27:03,600
weeks this was at the same time like

683
00:27:08,990 --> 00:27:06,360
right after this happened there was that

684
00:27:12,169 --> 00:27:09,000
uh I think Chandra Levy incident where

685
00:27:14,330 --> 00:27:12,179
there was a U.S uh House of

686
00:27:16,549 --> 00:27:14,340
Representatives intern that went missing

687
00:27:19,250 --> 00:27:16,559
in New York uh and that was a big thing

688
00:27:21,769 --> 00:27:19,260

they were suspecting the congressman of

689

00:27:24,169 --> 00:27:21,779

of killing her and then 911 happened and

690

00:27:27,169 --> 00:27:24,179

so everyone forgot about those two huge

691

00:27:28,789 --> 00:27:27,179

stories in the United States and it just

692

00:27:30,470 --> 00:27:28,799

kind of uh before or after Joe

693

00:27:34,010 --> 00:27:30,480

Scarborough allegedly murdered his

694

00:27:35,750 --> 00:27:34,020

intern that so both these incidences

695

00:27:38,149 --> 00:27:35,760

were after Joe Scarborough I think Joe

696

00:27:42,529 --> 00:27:38,159

Scarborough took place in uh either

697

00:27:44,090 --> 00:27:42,539

early 2001 or late 2000. in that they're

698

00:27:46,970 --> 00:27:44,100

very unfortunate incident to Joe

699

00:27:48,769 --> 00:27:46,980

Scarborough's uh intern who just so

700

00:27:51,830 --> 00:27:48,779

happened to I know he resigned in May

701
00:27:55,070 --> 00:27:51,840
2001 yeah so say the same month as the

702
00:27:57,710 --> 00:27:55,080
Heinen incident yeah oh really wow what

703
00:27:59,810 --> 00:27:57,720
a big what a big year

704
00:28:02,149 --> 00:27:59,820
so there you go that's all I really I

705
00:28:04,850 --> 00:28:02,159
mean I have other stuff on uh on

706
00:28:07,010 --> 00:28:04,860
balloons but I mean having two balloons

707
00:28:09,649 --> 00:28:07,020
like that one over South America went

708
00:28:12,470 --> 00:28:09,659
over uh United States here and then I

709
00:28:16,310 --> 00:28:12,480
did I didn't grab the report uh but I

710
00:28:19,250 --> 00:28:16,320
did read that uh Canada has seen I think

711
00:28:23,090 --> 00:28:19,260
one or two of these uh big balloons come

712
00:28:24,950 --> 00:28:23,100
over uh it's Aerospace within the past a

713
00:28:27,350 --> 00:28:24,960

year or two well Canada is basically

714

00:28:28,549 --> 00:28:27,360

China so that's cool yeah they're cool

715

00:28:31,430 --> 00:28:28,559

with that

716

00:28:34,970 --> 00:28:31,440

so it's a lot of different uh crazy

717

00:28:37,490 --> 00:28:34,980

stuff going on in the balloon land

718

00:28:39,590 --> 00:28:37,500

uh so I mean do you have anything else

719

00:28:42,529 --> 00:28:39,600

to add to this Joe or credit or can I

720

00:28:43,970 --> 00:28:42,539

move on to another story please

721

00:28:45,830 --> 00:28:43,980

and there's a bunch of other stuff

722

00:28:48,110 --> 00:28:45,840

around it but okay I don't know how long

723

00:28:50,330 --> 00:28:48,120

we want to dwell on it

724

00:28:52,909 --> 00:28:50,340

I have one we have to get to related to

725

00:28:54,950 --> 00:28:52,919

this okay let's let's do the the one we

726

00:28:56,990 --> 00:28:54,960

have to to get to

727

00:28:59,090 --> 00:28:57,000

put this into carrot shop so if you're

728

00:29:00,409 --> 00:28:59,100

thinking about possibly taking law into

729

00:29:02,090 --> 00:29:00,419

your own hands

730

00:29:06,950 --> 00:29:02,100

here's the police telling you not to do

731

00:29:09,169 --> 00:29:06,960

it okay and is is there a pure appears

732

00:29:11,690 --> 00:29:09,179

to be some kind of video

733

00:29:14,690 --> 00:29:11,700

uh there's a I we could technically

734

00:29:17,510 --> 00:29:14,700

listen to the article which with robot

735

00:29:19,669 --> 00:29:17,520

voice with robot voice

736

00:29:21,950 --> 00:29:19,679

but uh uh I'll just how about I just

737

00:29:24,710 --> 00:29:21,960

like read the headline here uh police

738

00:29:28,430 --> 00:29:24,720

beg locals to refrain from taking pot

739

00:29:30,529 --> 00:29:28,440

shots at Chinese spy balloon so don't do

740

00:29:32,810 --> 00:29:30,539

that okay that's good news

741

00:29:35,389 --> 00:29:32,820

this is like the fun part of owning guns

742

00:29:38,149 --> 00:29:35,399

is that you can try even though it would

743

00:29:41,450 --> 00:29:38,159

be incredibly difficult to hit an object

744

00:29:44,450 --> 00:29:41,460

60 000 feet up with your your Winchester

745

00:29:46,490 --> 00:29:44,460

12 gauge you don't get anywhere from not

746

00:29:48,049 --> 00:29:46,500

trying though you know if you want to go

747

00:29:51,169 --> 00:29:48,059

out there and crack a few off into the

748

00:29:52,490 --> 00:29:51,179

sky why not this is specific to North

749

00:29:53,330 --> 00:29:52,500

Carolina so it's flying over North

750

00:29:56,269 --> 00:29:53,340

Carolina the police are getting out

751

00:29:57,529 --> 00:29:56,279

there saying yeah um it's it's 60 000

752

00:30:01,570 --> 00:29:57,539

feet please don't go out and just start

753

00:30:05,750 --> 00:30:04,010

he likes to fire two blasts outside the

754

00:30:10,510 --> 00:30:05,760

house if that thing flies over Rehoboth

755

00:30:14,930 --> 00:30:13,070

uh North Carolina police are urging

756

00:30:17,570 --> 00:30:14,940

residents to refrain from aiming their

757

00:30:19,490 --> 00:30:17,580

guns into the sky to take pot shots at

758

00:30:22,010 --> 00:30:19,500

the Chinese spy balloon that may be

759

00:30:24,470 --> 00:30:22,020

headed their way President Joe Joe Biden

760

00:30:26,029 --> 00:30:24,480

faced Republican backlash after deciding

761

00:30:27,649 --> 00:30:26,039

on the advice of military leaders

762

00:30:29,750 --> 00:30:27,659

against shooting down the High Altitude

763

00:30:31,909 --> 00:30:29,760

surveillance balloon when it was spotted

764

00:30:33,649 --> 00:30:31,919

over Montana earlier this week earlier

765

00:30:36,470 --> 00:30:33,659

this week

766

00:30:37,789 --> 00:30:36,480

well this story is from yesterday I

767

00:30:40,130 --> 00:30:37,799

think it was about it on Thursday night

768

00:30:42,370 --> 00:30:40,140

or something right so earlier this week

769

00:30:44,750 --> 00:30:42,380

now earlier earlier this week would be

770

00:30:46,010 --> 00:30:44,760

Monday or Tuesday you're right that's a

771

00:30:47,810 --> 00:30:46,020

little fishy

772

00:30:50,750 --> 00:30:47,820

um when when was it actually first

773

00:30:52,850 --> 00:30:50,760

acknowledged that it was over Monday I I

774

00:30:54,769 --> 00:30:52,860

acknowledge the story yesterday

775

00:30:55,970 --> 00:30:54,779

and that's I think when I've really got

776

00:30:58,370 --> 00:30:55,980

your story

777

00:31:05,029 --> 00:30:58,380

uh

778

00:31:08,029 --> 00:31:05,039

miles from Charlotte begged locals on

779

00:31:09,529 --> 00:31:08,039

Facebook uh to avoid firing their guns

780

00:31:12,049 --> 00:31:09,539

into the air in hopes of shooting down

781

00:31:13,490 --> 00:31:12,059

the balloon which a National Oceanic and

782

00:31:16,070 --> 00:31:13,500

Atmospheric Administration model

783

00:31:18,230 --> 00:31:16,080

predicts could be in the area on

784

00:31:21,529 --> 00:31:18,240

Saturday morning so right now you could

785

00:31:24,289 --> 00:31:21,539

potentially go out there and shoot it if

786

00:31:26,570 --> 00:31:24,299

you had a powerful enough weapon and I

787

00:31:27,889 --> 00:31:26,580

doubt most people do like it would have

788

00:31:30,529 --> 00:31:27,899

to be but it doesn't hurt to try Mike

789

00:31:32,750 --> 00:31:30,539

yeah granted yeah you could get lucky

790

00:31:36,230 --> 00:31:32,760

you might your boat might catch some

791

00:31:38,149 --> 00:31:36,240

sort of air pocket and go up or

792

00:31:40,549 --> 00:31:38,159

you know a tornado might grab your

793

00:31:42,529 --> 00:31:40,559

bullet and toss it up 60 000 feet but

794

00:31:43,970 --> 00:31:42,539

it's just not practical so it's a one in

795

00:31:45,350 --> 00:31:43,980

a billion shot you're not going to hit

796

00:31:48,590 --> 00:31:45,360

it most likely

797

00:31:51,590 --> 00:31:48,600

uh officials also urged residents not to

798

00:31:54,769 --> 00:31:51,600

to not bother contacting them if they do

799

00:31:56,389 --> 00:31:54,779

spot the balloon explaining that they do

800

00:31:59,630 --> 00:31:56,399

not have the capability of responding to

801
00:32:01,909 --> 00:31:59,640
an object uh that they is believe that

802
00:32:03,769 --> 00:32:01,919
they believe to be around 60 000 feet in

803
00:32:05,630 --> 00:32:03,779
the air so don't even call us about it

804
00:32:08,450 --> 00:32:05,640
if you see something this guy do not

805
00:32:11,389 --> 00:32:08,460
even call us

806
00:32:15,049 --> 00:32:11,399
and I like the the image they have an

807
00:32:17,870 --> 00:32:15,059
old guy with a two-barrel shotgun Dover

808
00:32:20,090 --> 00:32:17,880
shotgun yeah it's like he's shooting

809
00:32:23,570 --> 00:32:20,100
skeet out there yep

810
00:32:29,649 --> 00:32:26,630
uh if the now Infamous Chinese weather

811
00:32:32,570 --> 00:32:29,659
balloon makes its way over uh

812
00:32:34,370 --> 00:32:32,580
Gastonia please do not call the the

813
00:32:36,409 --> 00:32:34,380

police and report it the Facebook post

814

00:32:39,470 --> 00:32:36,419

said we don't have the capability to

815

00:32:40,730 --> 00:32:39,480

respond to the an altitude of sixty

816

00:32:42,830 --> 00:32:40,740

thousand feet to check it out we're

817

00:32:44,630 --> 00:32:42,840

pretty sure the feds would want us to

818

00:32:45,529 --> 00:32:44,640

stay out of it pretty sure you don't

819

00:32:47,149 --> 00:32:45,539

know

820

00:32:48,470 --> 00:32:47,159

let's see how high the helicopter what's

821

00:32:51,110 --> 00:32:48,480

the maximum altitude for a police

822

00:32:53,269 --> 00:32:51,120

helicopter I would say 10 000 feet yeah

823

00:32:54,350 --> 00:32:53,279

10 to 12. I mean in some so depending on

824

00:32:56,210 --> 00:32:54,360

how the uh you know if they have

825

00:32:58,490 --> 00:32:56,220

oversized intakes and the better engine

826
00:32:59,450 --> 00:32:58,500
coolers they could they can squeak up to

827
00:33:00,889 --> 00:32:59,460
the 18

828
00:33:03,169 --> 00:33:00,899
000 range but it's that yeah they're not

829
00:33:05,510 --> 00:33:03,179
made for that potentially you could

830
00:33:07,549 --> 00:33:05,520
probably get Elon Musk to have his

831
00:33:10,610 --> 00:33:07,559
private jet

832
00:33:12,529 --> 00:33:10,620
like kind of buzz this thing and take it

833
00:33:15,310 --> 00:33:12,539
down for us right we could do that what

834
00:33:20,750 --> 00:33:17,750
what about Jeff Bezos in his penis

835
00:33:23,090 --> 00:33:20,760
rocket oh there we go yeah he could

836
00:33:24,889 --> 00:33:23,100
easily do it

837
00:33:26,389 --> 00:33:24,899
did he fly up there with his penis

838
00:33:28,190 --> 00:33:26,399

rocket and then you've got uh Shatner

839

00:33:29,990 --> 00:33:28,200

leaning out the window with a shotgun

840

00:33:31,730 --> 00:33:30,000

yeah I'd love to see that

841

00:33:34,009 --> 00:33:31,740

that's the only way to get [h__h] done get

842

00:33:36,049 --> 00:33:34,019

those two guys to do something get those

843

00:33:37,810 --> 00:33:36,059

two boys chatting or a shotgun and just

844

00:33:39,710 --> 00:33:37,820

crazy

845

00:33:41,450 --> 00:33:39,720

what is that

846

00:33:43,070 --> 00:33:41,460

alternatively one other suggestion that

847

00:33:44,570 --> 00:33:43,080

no one else has thought about yet but uh

848

00:33:47,509 --> 00:33:44,580

where's Jetpack Man when you need him

849

00:33:50,509 --> 00:33:47,519

yeah no [h__h] the famed Jetpack Man has

850

00:33:54,289 --> 00:33:50,519

been reported flying over various

851
00:33:57,769 --> 00:33:54,299
airports on the West and East Coast uh

852
00:34:00,110 --> 00:33:57,779
unknown the FAA is aware of Jetpack Man

853
00:34:02,690 --> 00:34:00,120
and so are the feds they're they're

854
00:34:04,310 --> 00:34:02,700
involved and we haven't heard uh uh an

855
00:34:06,169 --> 00:34:04,320
explanation as to exactly what that is

856
00:34:09,409 --> 00:34:06,179
some people suspect drones some people

857
00:34:11,750 --> 00:34:09,419
suspect uh a Jack Skellington balloon

858
00:34:13,669 --> 00:34:11,760
that the the character from uh the The

859
00:34:15,169 --> 00:34:13,679
Nightmare Before Christmas like

860
00:34:17,089 --> 00:34:15,179
launching a balloon that looks like that

861
00:34:18,349 --> 00:34:17,099
character up into the air 5000 feet and

862
00:34:24,070 --> 00:34:18,359
then come back down but there's no

863
00:34:30,109 --> 00:34:26,889

gmail.com check out

864

00:34:33,349 --> 00:34:30,119

obdempo.com for all the social media and
