

1
00:00:00,299 --> 00:00:03,249
oh

2
00:00:10,430 --> 00:00:06,249
well

3
00:00:13,910 --> 00:00:10,440
so uh you uh UK grip by mysterious

4
00:00:16,250 --> 00:00:13,920
disappearance of 45 year old woman

5
00:00:19,730 --> 00:00:16,260
uh I don't know if this is Missing 411

6
00:00:22,849 --> 00:00:19,740
related missing 4-1-1 for all the you

7
00:00:25,009 --> 00:00:22,859
know ant [h__h] out there uh

8
00:00:27,170 --> 00:00:25,019
uh you don't hear a lot of uh Missing

9
00:00:29,570 --> 00:00:27,180
4-1-1 related stuff coming out of the UK

10
00:00:31,009 --> 00:00:29,580
even though they it does exist but we

11
00:00:32,330 --> 00:00:31,019
mostly talk about this stuff in relation

12
00:00:35,389 --> 00:00:32,340
to National Parks here in the United

13
00:00:38,090 --> 00:00:35,399

States but here is a picture of Nicole

14

00:00:39,770 --> 00:00:38,100

Nicola bully uh she vanished while

15

00:00:42,290 --> 00:00:39,780

walking her dog last Friday morning

16

00:00:44,990 --> 00:00:42,300

police investigators have been unable to

17

00:00:48,470 --> 00:00:45,000

determine what happened the 45 year old

18

00:00:50,990 --> 00:00:48,480

who hails from Inskip in Lancashire

19

00:00:53,330 --> 00:00:51,000

England had dropped off her children at

20

00:00:56,630 --> 00:00:53,340

school on the morning of Friday January

21

00:00:58,850 --> 00:00:56,640

27th before heading out take her dog for

22

00:01:03,170 --> 00:00:58,860

a walk she sent an email to her boss

23

00:01:06,350 --> 00:01:03,180

around 8 53 a.m then logged into a

24

00:01:09,710 --> 00:01:06,360

Microsoft teams call at 9 01 am which

25

00:01:11,990 --> 00:01:09,720

ended at 9 30 a.m concerns were quickly

26
00:01:14,450 --> 00:01:12,000
raised however when her phone was found

27
00:01:17,570 --> 00:01:14,460
abandoned on a bench near the river

28
00:01:19,990 --> 00:01:17,580
Weiler while connected to the call

29
00:01:22,850 --> 00:01:20,000
uh her dog was also found running around

30
00:01:24,590 --> 00:01:22,860
unattended nearby police officers

31
00:01:26,749 --> 00:01:24,600
promptly launched the full search of the

32
00:01:28,969 --> 00:01:26,759
area but no further signs of her could

33
00:01:30,590 --> 00:01:28,979
be found even now a full week later

34
00:01:32,510 --> 00:01:30,600
investigators are no closer to

35
00:01:35,630 --> 00:01:32,520
determining what might have happened to

36
00:01:39,230 --> 00:01:35,640
her uh Corey I just can't believe that

37
00:01:41,770 --> 00:01:39,240
were a week or so on and yet it seemed

38
00:01:44,330 --> 00:01:41,780

for no further on said her partner Paul

39

00:01:46,789 --> 00:01:44,340

Ansel who has described her

40

00:01:48,289 --> 00:01:46,799

disappearance as impossible to

41

00:01:50,450 --> 00:01:48,299

comprehend

42

00:01:52,730 --> 00:01:50,460

it just seems absolutely impossible it's

43

00:01:55,310 --> 00:01:52,740

like a dream I can't get my head around

44

00:01:57,170 --> 00:01:55,320

any of it as things stand investigators

45

00:01:58,850 --> 00:01:57,180

have found no evidence to Foul Play and

46

00:02:00,649 --> 00:01:58,860

are leaning towards the possibility that

47

00:02:02,690 --> 00:02:00,659

she may have somehow fallen into the

48

00:02:04,789 --> 00:02:02,700

river and was Swept Away

49

00:02:07,010 --> 00:02:04,799

a search of the river itself however has

50

00:02:09,949 --> 00:02:07,020

also failed to turn up any clues the

51
00:02:12,229 --> 00:02:09,959
search for answers continue

52
00:02:14,930 --> 00:02:12,239
uh and the I guess the the biggest uh

53
00:02:17,809 --> 00:02:14,940
Missing 4-1-1 Hallmarks there typically

54
00:02:21,650 --> 00:02:17,819
people go missing by bodies of water

55
00:02:23,690 --> 00:02:21,660
whether that is a river stream or a lake

56
00:02:26,410 --> 00:02:23,700
um oftentimes if they are accompanied by

57
00:02:29,809 --> 00:02:26,420
a dog their dog is not also disappeared

58
00:02:32,930 --> 00:02:29,819
and they typically will go missing

59
00:02:35,630 --> 00:02:32,940
during the morning or in the evening

60
00:02:36,890 --> 00:02:35,640
dusk or Dawn not in the middle day

61
00:02:39,530 --> 00:02:36,900
typically not in the middle of night

62
00:02:42,290 --> 00:02:39,540
those are on average for most missing

63
00:02:45,290 --> 00:02:42,300

four one one related disappearances so

64

00:02:46,850 --> 00:02:45,300

we don't know anything about uh this

65

00:02:50,630 --> 00:02:46,860

I'll I'll look into this a little bit

66

00:02:54,530 --> 00:02:50,640

more because it would be nice if someone

67

00:02:57,050 --> 00:02:54,540

who is on the Microsoft teams call gave

68

00:03:02,030 --> 00:02:57,060

any indication if they heard any sort of

69

00:03:05,150 --> 00:03:02,040

noise any sort of like a weird beeps or

70

00:03:06,470 --> 00:03:05,160

blips any sort of interference that they

71

00:03:08,089 --> 00:03:06,480

could say well there's a signal

72

00:03:11,089 --> 00:03:08,099

disruption there was some sort of radio

73

00:03:12,890 --> 00:03:11,099

interference or did her call just go

74

00:03:14,930 --> 00:03:12,900

silent there's nothing like that in here

75

00:03:17,210 --> 00:03:14,940

I'd like to know because it's not

76

00:03:19,729 --> 00:03:17,220

oftentimes that someone goes missing

77

00:03:22,970 --> 00:03:19,739

while they're on the phone the only

78

00:03:26,210 --> 00:03:22,980

other time where it's really happened is

79

00:03:28,130 --> 00:03:26,220

in another Missing 411 case where

80

00:03:29,949 --> 00:03:28,140

someone was walking home

81

00:03:34,729 --> 00:03:29,959

he was an auditor

82

00:03:36,530 --> 00:03:34,739

and he went missing while walking home a

83

00:03:37,390 --> 00:03:36,540

little inebriated but he was on the

84

00:03:40,789 --> 00:03:37,400

phone

85

00:03:43,009 --> 00:03:40,799

with uh his wife well his wife uh wasn't

86

00:03:44,990 --> 00:03:43,019

there so he left a voicemail and this is

87

00:03:47,990 --> 00:03:45,000

kind of what it sounded like

88

00:03:50,570 --> 00:03:48,000

it's a voicemail unlike anything you've

89

00:03:53,229 --> 00:03:50,580
ever heard before

90

00:03:58,130 --> 00:03:53,239
there are two minutes worth of noises

91

00:04:02,449 --> 00:04:00,110
that very little actual Talking

92

00:04:04,550 --> 00:04:02,459
authorities confirmed the disturbing

93

00:04:06,830 --> 00:04:04,560
middle of the night call came from Henry

94

00:04:09,490 --> 00:04:06,840
McCabe's cell phone it was Labor Day

95

00:04:12,170 --> 00:04:09,500
September 7th at 2 28 in the morning

96

00:04:14,270 --> 00:04:12,180
McCabe's worried wife heard the message

97

00:04:16,969 --> 00:04:14,280
his and my cell phone connected

98

00:04:19,129 --> 00:04:16,979
Minnesota community policing Services is

99

00:04:21,170 --> 00:04:19,139
a non-profit agency it acts as a

100

00:04:23,510 --> 00:04:21,180
go-between with police in the Liberian

101
00:04:25,730 --> 00:04:23,520
Community the leader is trying to help

102
00:04:29,170 --> 00:04:25,740
the family make some sense of this

103
00:04:33,170 --> 00:04:29,180
recording the growls turn to high pitch

104
00:04:34,969 --> 00:04:33,180
moldings so like he's moaning in pain

105
00:04:39,010 --> 00:04:34,979
not like moaning in pain

106
00:04:45,409 --> 00:04:42,050
there is silence then someone either

107
00:04:48,050 --> 00:04:45,419
Henry or another person says stop it I

108
00:04:49,189 --> 00:04:48,060
tried a picture where he was

109
00:04:51,409 --> 00:04:49,199
um

110
00:04:56,810 --> 00:04:51,419
what it might have been like

111
00:05:03,650 --> 00:05:01,129
sound like that so I uh during this I I

112
00:05:05,749 --> 00:05:03,660
reached out to the the police department

113
00:05:07,790 --> 00:05:05,759

to see if I they had the full recording

114

00:05:09,050 --> 00:05:07,800

since like the investigation was no

115

00:05:11,330 --> 00:05:09,060

longer ongoing

116

00:05:13,790 --> 00:05:11,340

if they could release it they never got

117

00:05:17,450 --> 00:05:13,800

back to me I believe the FBI is involved

118

00:05:19,969 --> 00:05:17,460

in that case and you're on a list I it

119

00:05:22,189 --> 00:05:19,979

very well could be but uh no one got

120

00:05:23,870 --> 00:05:22,199

back to me in I also contacted the the

121

00:05:26,450 --> 00:05:23,880

news station who reported on because

122

00:05:28,010 --> 00:05:26,460

they obviously had access to parts of

123

00:05:29,990 --> 00:05:28,020

the voicemail if not the entire thing to

124

00:05:33,350 --> 00:05:30,000

use in that news piece they did not get

125

00:05:34,670 --> 00:05:33,360

back to me at all uh either to to hear

126
00:05:37,070 --> 00:05:34,680
the full

127
00:05:38,330 --> 00:05:37,080
audio and we were only hearing Snippets

128
00:05:41,870 --> 00:05:38,340
there

129
00:05:44,270 --> 00:05:41,880
um so did sounds like this occur on the

130
00:05:45,950 --> 00:05:44,280
Microsoft teams call that happened to

131
00:05:47,749 --> 00:05:45,960
Nikola uh we just don't know because

132
00:05:50,810 --> 00:05:47,759
it's an incomplete story right now but I

133
00:05:53,450 --> 00:05:50,820
will follow up on it and I will and just

134
00:05:56,450 --> 00:05:53,460
to be fair the audio and Microsoft teams

135
00:05:58,670 --> 00:05:56,460
is crap anyway so yeah I'm sure yeah

136
00:06:00,290 --> 00:05:58,680
mistake number one there well I'll tweak

137
00:06:01,790 --> 00:06:00,300
the story to David politis and see if he

138
00:06:03,529 --> 00:06:01,800

uh

139

00:06:04,909 --> 00:06:03,539

has any interest in it but he might

140

00:06:06,529 --> 00:06:04,919

because there's a piece of technology

141

00:06:08,510 --> 00:06:06,539

involved and there's probably a

142

00:06:11,390 --> 00:06:08,520

recording of This micro Microsoft team's

143

00:06:14,529 --> 00:06:11,400

call give us an email at our big thumb

144

00:06:17,749 --> 00:06:14,539

mouth gmail.com check out
