

12/18/16

DR. JEFFREY MELDRUM

1  
00:00:04,010 --> 00:00:01,699  
this program is brought to you by the

2  
00:00:07,369 --> 00:00:04,020  
genesis communications network a world

3  
00:00:17,190 --> 00:00:07,379  
leader in talk radio since 1998 visit

4  
00:00:35,060 --> 00:00:29,560  
[Music]

5  
00:00:39,160 --> 00:00:35,070  
you're in the para cast the gold

6  
00:00:44,899 --> 00:00:39,170  
standard of paranormal radio now here's

7  
00:00:46,910 --> 00:00:44,909  
gene Stein fortunately we have such a

8  
00:00:48,590 --> 00:00:46,920  
great guest who will probably be doing

9  
00:00:50,719 --> 00:00:48,600  
most of the talking on this episode of

10  
00:00:53,149 --> 00:00:50,729  
the power cast that you won't have to

11  
00:00:55,850 --> 00:00:53,159  
put up with me and my head cold which I

12  
00:00:59,209 --> 00:00:55,860  
just got like the day before and Chris

13  
00:01:01,789 --> 00:00:59,219

has what he calls a Zuni Reservation

14

00:01:04,340 --> 00:01:01,799

crud which is kind of a cold too but it

15

00:01:07,280 --> 00:01:04,350

gets every so often so regardless of

16

00:01:13,219 --> 00:01:07,290

what you call it we're both in less than

17

00:01:17,149 --> 00:01:13,229

ideal shape ever gets me introduce the

18

00:01:19,880 --> 00:01:17,159

show we try to be original about it and

19

00:01:23,630 --> 00:01:19,890

dr. Jeffrey Meldrum is a very special

20

00:01:26,749 --> 00:01:23,640

guest well I you know I have stuffed

21

00:01:28,069 --> 00:01:26,759

myself full of cough suppressant and all

22

00:01:31,460 --> 00:01:28,079

the things that go along with having a

23

00:01:34,670 --> 00:01:31,470

really bad respiratory virus actually so

24

00:01:37,160 --> 00:01:34,680

but I'm really excited dr. Meldrum to

25

00:01:39,410 --> 00:01:37,170

have you on the show I've been a huge

26

00:01:41,649 --> 00:01:39,420

fan of your work for four years since

27

00:01:43,730 --> 00:01:41,659

you've you've been in the public eye

28

00:01:48,230 --> 00:01:43,740

anything that I see with your name on it

29

00:01:51,050 --> 00:01:48,240

has instant credibility for me I am an

30

00:01:53,060 --> 00:01:51,060

experienced ER I had my own possible

31

00:01:55,430 --> 00:01:53,070

Bigfoot encounter I didn't see it but I

32

00:01:57,200 --> 00:01:55,440

sure heard it and smelled it so this has

33

00:01:59,210 --> 00:01:57,210

been a subject that has been near and

34

00:02:02,120 --> 00:01:59,220

dear to my heart for for many years and

35

00:02:02,870 --> 00:02:02,130

I I just am so so honored and pleased to

36

00:02:05,750 --> 00:02:02,880

have you on the show

37

00:02:07,430 --> 00:02:05,760

you are known for being one of the very

38

00:02:09,589 --> 00:02:07,440

few credentialed scientists who's been

39

00:02:12,289 --> 00:02:09,599

willing to to say well wait a minute we

40

00:02:14,780 --> 00:02:12,299

can't just throw this out and and call

41

00:02:15,500 --> 00:02:14,790

hairy hominids which are found all

42

00:02:18,170 --> 00:02:15,510

around the world

43

00:02:21,170 --> 00:02:18,180

allegedly we just can't call this some

44

00:02:22,670 --> 00:02:21,180

sort of myth or legend there's there's

45

00:02:24,979 --> 00:02:22,680

enough evidence to suggest that this is

46

00:02:27,470 --> 00:02:24,989

something that science should be taking

47

00:02:30,740 --> 00:02:27,480

seriously and at least at least not

48

00:02:32,240 --> 00:02:30,750

dismissing it out of hand as many of the

49

00:02:34,670 --> 00:02:32,250

topics we discussed here on the podcast

50

00:02:36,559 --> 00:02:34,680

are dismissed out of hand by the

51  
00:02:38,269 --> 00:02:36,569  
scientific and academic community so I

52  
00:02:42,199 --> 00:02:38,279  
prefer to call these subjects proto

53  
00:02:43,670 --> 00:02:42,209  
scientific subjects so it's really a

54  
00:02:45,679 --> 00:02:43,680  
an honor and a pleasure again to have

55  
00:02:46,880 --> 00:02:45,689  
you on the show welcome glad to be here

56  
00:02:50,929 --> 00:02:46,890  
thanks for the thanks for the

57  
00:02:53,720 --> 00:02:50,939  
opportunity to start off Jeff I wanted

58  
00:02:55,459 --> 00:02:53,730  
to ask you about your interests as Chris

59  
00:02:58,789 --> 00:02:55,469  
was making clear you're one of the few

60  
00:03:00,530 --> 00:02:58,799  
academics who tackles subjects of this

61  
00:03:03,830 --> 00:03:00,540  
nature what attracted you to it

62  
00:03:07,789 --> 00:03:03,840  
well my my background is in anatomy but

63  
00:03:10,699 --> 00:03:07,799

also physical anthropology and and when

64

00:03:14,559 --> 00:03:10,709

I'm not teaching students over a human

65

00:03:17,420 --> 00:03:14,569

cadaver I'm doing research on the

66

00:03:19,190 --> 00:03:17,430

evolutionary adaptations of the human

67

00:03:21,319 --> 00:03:19,200

body for our particular mode of

68

00:03:24,589 --> 00:03:21,329

locomotion that is walking on two legs

69

00:03:26,929 --> 00:03:24,599

so the evolution the timing and pattern

70

00:03:30,020 --> 00:03:26,939

of the adaptations associated with

71

00:03:32,119 --> 00:03:30,030

bipedalism have been foremost in my

72

00:03:33,649 --> 00:03:32,129

research interests and so on the one

73

00:03:35,959 --> 00:03:33,659

hand I I grew up in the Pacific

74

00:03:38,509 --> 00:03:35,969

Northwest and certainly was familiar

75

00:03:41,959 --> 00:03:38,519

with the subject of Sasquatch was

76

00:03:44,119 --> 00:03:41,969

introduced to it boy and I was in 1968

77

00:03:46,339 --> 00:03:44,129

when Roger Patterson came through

78

00:03:48,860 --> 00:03:46,349

Spokane Washington and showed his

79

00:03:51,319 --> 00:03:48,870

documentary featuring that famous film

80

00:03:56,050 --> 00:03:51,329

clip 60-second film clip from Blood

81

00:03:57,830 --> 00:03:56,060

Bluff Creek but you know my my real

82

00:04:01,909 --> 00:03:57,840

involvement in this from an academic

83

00:04:05,330 --> 00:04:01,919

point of view came about in 96 when so

84

00:04:07,339 --> 00:04:05,340

it's been 20 years now that I was

85

00:04:09,559 --> 00:04:07,349

brought up face to face with a very

86

00:04:13,189 --> 00:04:09,569

fresh set of footprints and you know

87

00:04:16,219 --> 00:04:13,199

what what could be more fascinating for

88

00:04:19,189 --> 00:04:16,229

a student of human bipedalism than to be

89

00:04:22,670 --> 00:04:19,199

a direct witness to trace evidence of

90

00:04:25,100 --> 00:04:22,680

another white primate and so on

91

00:04:28,159 --> 00:04:25,110

that level on on that academic or

92

00:04:30,649 --> 00:04:28,169

intellectual level it you know it

93

00:04:33,290 --> 00:04:30,659

dovetails with my my research interests

94

00:04:35,510 --> 00:04:33,300

perfectly perfect natural experiment if

95

00:04:37,339 --> 00:04:35,520

such a creature exists to better

96

00:04:40,370 --> 00:04:37,349

understand our own evolutionary history

97

00:04:44,570 --> 00:04:40,380

but it goes without saying that the

98

00:04:46,610 --> 00:04:44,580

subject has this intrinsic quality to it

99

00:04:48,980 --> 00:04:46,620

that it's a mystery and the you know

100

00:04:51,740 --> 00:04:48,990

I've always loved the the things that

101  
00:04:54,519 --> 00:04:51,750  
that were lurking there on the fringes

102  
00:04:55,640 --> 00:04:54,529  
of science of scientific knowledge

103  
00:04:56,719 --> 00:04:55,650  
because

104  
00:04:59,150 --> 00:04:56,729  
me science has always been about

105  
00:05:01,879 --> 00:04:59,160  
exploration I mean I get I'm disciplined

106  
00:05:05,749 --> 00:05:01,889  
enough that I can put in the hard knocks

107  
00:05:10,159 --> 00:05:05,759  
and do the wrote a work in in a research

108  
00:05:13,610 --> 00:05:10,169  
lab or in the field but but for me my my

109  
00:05:16,279 --> 00:05:13,620  
my thrill is in exploration I mean it's

110  
00:05:20,290 --> 00:05:16,289  
it's in asking questions that have

111  
00:05:22,730 --> 00:05:20,300  
confounded the experts or have have been

112  
00:05:25,480 --> 00:05:22,740  
you know as you discussed have been

113  
00:05:29,600 --> 00:05:25,490

neglected or dismissed

114

00:05:34,520 --> 00:05:29,610

it's the what-if questions and with a

115

00:05:37,189 --> 00:05:34,530

firm solid footing a basis in in no hard

116

00:05:40,610 --> 00:05:37,199

evidence I mean I I was once confronted

117

00:05:42,980 --> 00:05:40,620

by a past department chairman who chided

118

00:05:46,340 --> 00:05:42,990

me by saying well after all Jeff these

119

00:05:48,560 --> 00:05:46,350

are just stories I looked at him from

120

00:05:51,110 --> 00:05:48,570

home I said well just stories that leave

121

00:05:53,480 --> 00:05:51,120

footprints that shed hair the Void scat

122

00:05:57,560 --> 00:05:53,490

the vocal eyes that are witnessed by

123

00:06:00,230 --> 00:05:57,570

credible experienced outdoorsmen and and

124

00:06:01,490 --> 00:06:00,240

hunters and and professionals I said

125

00:06:11,120 --> 00:06:01,500

it's al it's a lot more than just

126  
00:06:13,490 --> 00:06:11,130  
stories yeah well for all the good well

127  
00:06:14,779 --> 00:06:13,500  
you know we'd get into this later but

128  
00:06:16,550 --> 00:06:14,789  
I'm sure there is some blowback from

129  
00:06:18,800 --> 00:06:16,560  
from expressing an interest and and

130  
00:06:20,629 --> 00:06:18,810  
being public about it it's one thing to

131  
00:06:22,010 --> 00:06:20,639  
have a private interest and have it be

132  
00:06:23,330 --> 00:06:22,020  
kind of a closeted subject that you're

133  
00:06:25,159 --> 00:06:23,340  
researching it's another thing to

134  
00:06:28,399 --> 00:06:25,169  
dovetail your work with other

135  
00:06:29,899 --> 00:06:28,409  
investigators field field people asked

136  
00:06:31,670 --> 00:06:29,909  
for it for samples and and be very

137  
00:06:33,800 --> 00:06:31,680  
public about it and you know I want to

138  
00:06:35,659 --> 00:06:33,810

get into that's a whole subject in and

139

00:06:37,909 --> 00:06:35,669

of itself but before we get too long

140

00:06:40,279 --> 00:06:37,919

down the road here we just have a couple

141

00:06:43,129 --> 00:06:40,289

of minutes left for this segment but you

142

00:06:45,110 --> 00:06:43,139

mentioned seen back as a kid seeing the

143

00:06:48,260 --> 00:06:45,120

patterson-gimlin film where do you come

144

00:06:50,450 --> 00:06:48,270

down on the weather that's a legitimate

145

00:06:54,219 --> 00:06:50,460

piece of visual evidence or well

146

00:06:58,010 --> 00:06:54,229

executed hoax I'm absolutely 100% well

147

00:06:59,629 --> 00:06:58,020

99.99% convinced that that is is

148

00:07:01,640 --> 00:06:59,639

absolutely legitimate

149

00:07:03,920 --> 00:07:01,650

I mean I've I've looked at it from so

150

00:07:05,990 --> 00:07:03,930

many different angles if I had nothing

151  
00:07:09,210 --> 00:07:06,000  
but the footprints that were documented

152  
00:07:12,090 --> 00:07:09,220  
on that scene let alone the film

153  
00:07:14,790 --> 00:07:12,100  
shows the correlated actions of the the

154  
00:07:17,790 --> 00:07:14,800  
foot of the film subject whatever it may

155  
00:07:21,000 --> 00:07:17,800  
be in everyone's mind I would be on that

156  
00:07:23,580 --> 00:07:21,010  
basis alone convinced but adding to that

157  
00:07:27,300 --> 00:07:23,590  
as I said that the depiction of the

158  
00:07:30,450 --> 00:07:27,310  
actual subject not only the the actions

159  
00:07:33,510 --> 00:07:30,460  
of the foot during those those several

160  
00:07:35,250 --> 00:07:33,520  
steps but but the anatomy from head to

161  
00:07:38,490 --> 00:07:35,260  
toe I mean it's a fascinating exercise

162  
00:07:39,600 --> 00:07:38,500  
to just literally go through and examine

163  
00:07:42,600 --> 00:07:39,610

the anatomy and I do that with my

164

00:07:44,520 --> 00:07:42,610

students sometimes my physical therapy

165

00:07:46,080 --> 00:07:44,530

students particularly at the last day

166

00:07:48,240 --> 00:07:46,090

when we're having to review as we wrap

167

00:07:50,400 --> 00:07:48,250

things up sometimes I'll I'll pop this

168

00:07:54,780 --> 00:07:50,410

up on the screen and I've got a very

169

00:07:57,840 --> 00:07:54,790

high-quality gif of a clip of a loop of

170

00:08:01,020 --> 00:07:57,850

this thing close-up very crisp very

171

00:08:02,520 --> 00:08:01,030

clear you can pick out individual muscle

172

00:08:04,620 --> 00:08:02,530

groups and I'll have them do that I'll

173

00:08:06,540 --> 00:08:04,630

say now identify as much of the surface

174

00:08:08,760 --> 00:08:06,550

anatomy that you can that you can

175

00:08:10,140 --> 00:08:08,770

observe here and then I go even further

176

00:08:12,150 --> 00:08:10,150

and say now what what is there aught

177

00:08:14,460 --> 00:08:12,160

about the way of which it walks because

178

00:08:17,250 --> 00:08:14,470

we will have discussed the determinants

179

00:08:20,240 --> 00:08:17,260

of human gait and and some of the

180

00:08:23,990 --> 00:08:20,250

parameters of normal human walking and

181

00:08:26,340 --> 00:08:24,000

there are very dramatic and obvious

182

00:08:29,490 --> 00:08:26,350

contrasts in the way this thing walks

183

00:08:31,800 --> 00:08:29,500

it's not simply a man in a fur suit and

184

00:08:33,750 --> 00:08:31,810

anyone who says that just doesn't have

185

00:08:36,480 --> 00:08:33,760

the wherewithal to evaluate it with any

186

00:08:40,370 --> 00:08:36,490

credibility right plus the the actual

187

00:08:43,260 --> 00:08:40,380

trackway indicates an animal of

188

00:08:46,950 --> 00:08:43,270

considerable weight right weight and

189

00:08:48,270 --> 00:08:46,960

size exactly yeah it's it's a

190

00:08:50,160 --> 00:08:48,280

fascinating oh here we're coming up on

191

00:08:53,190 --> 00:08:50,170

the fiftieth anniversary of that right

192

00:08:55,560 --> 00:08:53,200

that film next year and and we're still

193

00:08:57,390 --> 00:08:55,570

having these same conversations I'm you

194

00:08:59,570 --> 00:08:57,400

know a lot of a lot of work has been

195

00:09:02,030 --> 00:08:59,580

done it's interesting that that

196

00:09:05,460 --> 00:09:02,040

perennially that seems that there are

197

00:09:08,610 --> 00:09:05,470

skeptics who take shots at it from

198

00:09:10,800 --> 00:09:08,620

various quarters and invariably it

199

00:09:13,620 --> 00:09:10,810

emerges even with more luster than it

200

00:09:15,600 --> 00:09:13,630

than it had previously many cases were

201  
00:09:18,270 --> 00:09:15,610  
able to with that renewed interest we're

202  
00:09:20,910 --> 00:09:18,280  
able to go back at it with technologies

203  
00:09:22,500 --> 00:09:20,920  
that weren't available and and identify

204  
00:09:27,060 --> 00:09:22,510  
details that were complete

205  
00:09:29,190 --> 00:09:27,070  
be unobserved unobservable back in 1967

206  
00:09:31,380 --> 00:09:29,200  
when Patterson made the film but are

207  
00:09:33,480 --> 00:09:31,390  
there and with the right technologies

208  
00:09:36,720 --> 00:09:33,490  
can be brought out can be observed can

209  
00:09:40,080 --> 00:09:36,730  
be understood better in ways that you

210  
00:09:42,690 --> 00:09:40,090  
know a hoax or in 1967 could never have

211  
00:09:45,840 --> 00:09:42,700  
anticipated let alone have incorporated

212  
00:09:48,570 --> 00:09:45,850  
into footage let's see one break here

213  
00:09:50,820 --> 00:09:48,580

guys we have dr. Jeffrey Meldrum and

214

00:09:52,950 --> 00:09:50,830

we're looking at the scientific side of

215

00:09:55,620 --> 00:09:52,960

Bigfoot research to see what kind of

216

00:09:57,690 --> 00:09:55,630

answers we can achieve from it this is

217

00:10:00,060 --> 00:09:57,700

gonna be a real special episode folks so

218

00:10:09,540 --> 00:10:00,070

listen on with gene and Chris you're in

219

00:10:12,630 --> 00:10:09,550

the bear guest neighbors I want to tell

220

00:10:15,060 --> 00:10:12,640

you about my favorite graphics app it's

221

00:10:17,130 --> 00:10:15,070

the award-winning graphic converter you

222

00:10:19,020 --> 00:10:17,140

know graphic converter is the universal

223

00:10:22,020 --> 00:10:19,030

genius for photo editing on your Mac

224

00:10:24,780 --> 00:10:22,030

join over one and a half million loyal

225

00:10:27,600 --> 00:10:24,790

users for this Swiss Army knife photo

226

00:10:29,940 --> 00:10:27,610

editing app it gives you all you expect

227

00:10:32,910 --> 00:10:29,950

from a top-flight image editing app with

228

00:10:36,120 --> 00:10:32,920

tons of features and most important it's

229

00:10:38,940 --> 00:10:36,130

easy to use it's also far less expensive

230

00:10:41,340 --> 00:10:38,950

than that other app that you can only

231

00:10:43,650 --> 00:10:41,350

get by a subscription you know that one

232

00:10:47,880 --> 00:10:43,660

I'm talking about what's more you can

233

00:10:50,160 --> 00:10:47,890

get 20% off with your order right now so

234

00:11:07,530 --> 00:10:50,170

write this down to learn about graphic

235

00:11:13,650 --> 00:11:09,630

all right guys we're ready for our

236

00:11:16,280 --> 00:11:13,660

4-season sunroom with refreshments

237

00:11:18,390 --> 00:11:16,290

oh no we'll be sleeping under the stars

238

00:11:22,060 --> 00:11:18,400

mom

239

00:11:25,840 --> 00:11:22,070

you know the fun nice try little bro

240

00:11:27,760 --> 00:11:25,850

it's a gym my gym hey grandma getting

241

00:11:29,620 --> 00:11:27,770

her four seasons garden room weather

242

00:11:33,910 --> 00:11:29,630

tight and still like being outdoors

243

00:11:39,040 --> 00:11:33,920

maybe a living room oh no wait a family

244

00:11:41,470 --> 00:11:39,050

pub no matter what the budget the season

245

00:11:43,750 --> 00:11:41,480

or the climate for season sunrooms let

246

00:11:44,800 --> 00:11:43,760

you and your family enjoy the outdoors

247

00:11:46,570 --> 00:11:44,810

inside

253

00:12:13,840 --> 00:12:11,500

we use cellphones against our heads

254

00:12:15,550 --> 00:12:13,850

every day but now a landmark US

255

00:12:17,170 --> 00:12:15,560

government study confirms increased

256

00:12:19,600 --> 00:12:17,180

health risks from exposure to EMF

257

00:12:21,670 --> 00:12:19,610

radiation emitted from these devices the

258

00:12:23,920 --> 00:12:21,680

time to protect yourself is now the

259

00:12:25,600 --> 00:12:23,930

solution is defender shield proudly made

defender shield calm the worldwide

266

00:12:41,560 --> 00:12:39,530

leader in EMF radiation protection this

267

00:12:43,600 --> 00:12:41,570

is a life-changing message for anyone

268

00:12:45,850 --> 00:12:43,610

with sleep apnea who is on the go and

269

00:12:48,880 --> 00:12:45,860

tired of dragging around a big bulky

270

00:12:50,710 --> 00:12:48,890

home CPAP device now there's finally a

271

00:12:52,330 --> 00:12:50,720

portable device that's as small as a

272

00:12:54,190 --> 00:12:52,340

soda can and weighs less than a pound

273

00:12:55,540 --> 00:12:54,200

you can even add a battery that's as

274

00:12:57,850 --> 00:12:55,550

tiny as a deck of cards

275

00:13:00,040 --> 00:12:57,860

it's the transcend mini CPAP and if

276

00:13:02,110 --> 00:13:00,050

you're one of the first 100 callers you

277

00:13:25,440 --> 00:13:02,120

can try transcend risk free for 10 days

278

00:13:40,840 --> 00:13:38,620

1-844-202-2727 I need t-33

279

00:13:42,580 --> 00:13:40,850

in these uncertain times it makes sense

280

00:13:44,500 --> 00:13:42,590

to have a sustainable backup method to

281

00:13:46,540 --> 00:13:44,510

cook food and boil water if your current

282

00:13:48,400 --> 00:13:46,550

plan includes using a fuel burning stove

283

00:13:50,230 --> 00:13:48,410

or cooking over an open fire then

284

00:13:51,970 --> 00:13:50,240

there's a much better way the Minuteman

285

00:13:54,160 --> 00:13:51,980

rocket stove is a biomass burning

286

00:13:56,110 --> 00:13:54,170

cooking stove that only requires small

287

00:13:57,940 --> 00:13:56,120

quantities of sticks and twigs for fuel

288

00:13:59,650 --> 00:13:57,950

the Minuteman stove is easy to use

289

00:14:01,660 --> 00:13:59,660

smokeless portable powerful and

290

00:14:03,490 --> 00:14:01,670

sustainable for the finest and survival

291

00:14:05,560 --> 00:14:03,500

cooking stoves and fire starters made

292

00:14:10,710 --> 00:14:05,570

right here in the USA go to Minuteman

293

00:14:15,999 --> 00:14:13,690

we'd like to hear from you if you have a

294

00:14:19,359 --> 00:14:16,009

comment or question about the peracare

sent it to news at the para caste calm

296

00:14:25,090 --> 00:14:23,149

that's news at the para caste calm and

297

00:14:28,269 --> 00:14:25,100

don't forget to visit our famous para

298

00:14:32,679 --> 00:14:28,279

caste community forums at forum dot the

299

00:14:34,389 --> 00:14:32,689

para cast calm before we go on we're

300

00:14:37,449 --> 00:14:34,399

doing a real special for the holidays

301  
00:14:42,669 --> 00:14:37,459  
for the para cast plus and that is I put

302  
00:14:44,499 --> 00:14:42,679  
up three episodes from our premium area

303  
00:14:46,960 --> 00:14:44,509  
to give you an idea of what it's all

304  
00:14:50,289 --> 00:14:46,970  
about it goes back to our episode of

305  
00:14:53,169 --> 00:14:50,299  
February 28th 2016 the tenth anniversary

306  
00:14:55,809 --> 00:14:53,179  
episode so we have the commercial free

307  
00:14:57,699 --> 00:14:55,819  
version we have the after the para cast

308  
00:14:59,530 --> 00:14:57,709  
podcast where we continue that interview

309  
00:15:01,479 --> 00:14:59,540  
and we've got an interview from the

310  
00:15:03,429 --> 00:15:01,489  
other side of truth that Paul Kimball

311  
00:15:06,039 --> 00:15:03,439  
did with the ever controversial dr.

312  
00:15:08,169 --> 00:15:06,049  
Steven Greer it's all available from our

313  
00:15:10,960 --> 00:15:08,179

forums and I'll give you an idea of what

314

00:15:12,400 --> 00:15:10,970

we offer in the power cast Plus which is

315

00:15:14,499 --> 00:15:12,410

of course the commercial free version of

316

00:15:18,189 --> 00:15:14,509

the show the after the para cast podcast

317

00:15:21,340 --> 00:15:18,199

a growing video library and lots more

318

00:15:25,449 --> 00:15:21,350

and the price begins at \$4.99 a month

319

00:15:28,900 --> 00:15:25,459

our price cheap check out plus . ^ cast

320

00:15:32,049 --> 00:15:28,910

com PL us doctor para cast com

321

00:15:35,650 --> 00:15:32,059

we had dr. Jeffrey Meldrum he's a

322

00:15:40,329 --> 00:15:35,660

scientist who is exploring the mysteries

323

00:15:44,410 --> 00:15:40,339

of Bigfoot now you're pointing Jeff to

324

00:15:46,480 --> 00:15:44,420

your research into how humans began to

325

00:15:49,239 --> 00:15:46,490

walk upright in things like that

326

00:15:54,129 --> 00:15:49,249

do we think Bigfoot is kind of maybe a

327

00:15:56,949 --> 00:15:54,139

lost generation of humanoid I just

328

00:15:59,049 --> 00:15:56,959

didn't die off well certainly the

329

00:16:01,900 --> 00:15:59,059

question is where where would it plug

330

00:16:05,470 --> 00:16:01,910

into the family tree and out how far

331

00:16:07,650 --> 00:16:05,480

afield would we go to include it for me

332

00:16:10,989 --> 00:16:07,660

there are basically I think two

333

00:16:12,759 --> 00:16:10,999

reasonable working hypotheses and

334

00:16:14,439 --> 00:16:12,769

they're that they're simply that I mean

335

00:16:17,970 --> 00:16:14,449

I get kind of gets the cart before the

336

00:16:20,769 --> 00:16:17,980

horse to really expend too much energy

337

00:16:22,869 --> 00:16:20,779

other than to establish a sort of a

338

00:16:26,109 --> 00:16:22,879

theoretical context for considering it

339

00:16:28,720 --> 00:16:26,119

but about what sasquatches before we

340

00:16:30,220 --> 00:16:28,730

acknowledge that indeed it exists but

341

00:16:33,400 --> 00:16:30,230

for me there's there's two possibilities

342

00:16:35,590 --> 00:16:33,410

one it has well both have been suggested

343

00:16:38,319 --> 00:16:35,600

by by previous investigators and

344

00:16:40,629 --> 00:16:38,329

researchers I think John Green was one

345

00:16:43,780 --> 00:16:40,639

of the first to suggest a connection

346

00:16:46,780 --> 00:16:43,790

with Gigantopithecus and as well as

347

00:16:48,759 --> 00:16:46,790

there were others back then too but we

348

00:16:52,180 --> 00:16:48,769

know that this giant tape existed in

349

00:16:54,160 --> 00:16:52,190

eastern Asia well into the Pleistocene

350

00:16:56,500 --> 00:16:54,170

perhaps as recently as two hundred

351

00:16:58,150 --> 00:16:56,510

thousand years ago and so in

352

00:16:59,889 --> 00:16:58,160

Gigantopithecus we have something that's

353

00:17:02,230 --> 00:16:59,899

the right size in the right place at the

354

00:17:03,970 --> 00:17:02,240

right time but others may have have

355

00:17:06,789 --> 00:17:03,980

pointed out we only have jaws and teeth

356

00:17:09,100 --> 00:17:06,799

we don't have any post cranial skeletal

357

00:17:12,250 --> 00:17:09,110

remains that would that would determine

358

00:17:15,250 --> 00:17:12,260

with confidence whether this creature

359

00:17:17,620 --> 00:17:15,260

was upright standing or not there are

360

00:17:19,270 --> 00:17:17,630

things that in my mind tip the scales in

361

00:17:22,630 --> 00:17:19,280

that direction dr. Krantz made an

362

00:17:24,730 --> 00:17:22,640

argument about the angles of the the

363

00:17:27,819 --> 00:17:24,740

bodies of the thorax mandible that has

364

00:17:31,330 --> 00:17:27,829

been preserved which suggests a position

365

00:17:34,180 --> 00:17:31,340

of the neck forward between those two

366

00:17:35,799 --> 00:17:34,190

halves two sides of the jaw and also

367

00:17:39,460 --> 00:17:35,809

there are things you know that the

368

00:17:42,490 --> 00:17:39,470

shoulder of a large ape especially one

369

00:17:44,500 --> 00:17:42,500

that has you know any inclination to be

370

00:17:46,570 --> 00:17:44,510

climbing up in the trees the shoulders

371

00:17:49,960 --> 00:17:46,580

been modified in such a way that walking

372

00:17:51,580 --> 00:17:49,970

on all fours is a bit problematic for

373

00:17:54,460 --> 00:17:51,590

the joints of the wrist and the elbow in

374

00:17:55,960 --> 00:17:54,470

the shoulder and this is why chimps and

375

00:17:58,960 --> 00:17:55,970

gorillas one of the reasons why they've

376

00:18:01,720 --> 00:17:58,970

adopted this unusual knuckle-walking

377

00:18:03,430 --> 00:18:01,730

stance and have evolved that in concert

378

00:18:05,799 --> 00:18:03,440

a parallel to one another almost

379

00:18:07,900 --> 00:18:05,809

certainly on the other hand some would

380

00:18:11,260 --> 00:18:07,910

point to bipedalism as being a very

381

00:18:13,690 --> 00:18:11,270

exclusive adaptation that marks the the

382

00:18:16,419 --> 00:18:13,700

advent of the hominin radiation our our

383

00:18:19,750 --> 00:18:16,429

immediate ancestors and relatives since

384

00:18:22,750 --> 00:18:19,760

the divergence from a ancestor shared

385

00:18:24,580 --> 00:18:22,760

with chimpanzees so some seven million

386

00:18:27,220 --> 00:18:24,590

years ago six to seven million years ago

387

00:18:29,440 --> 00:18:27,230

if that's the case I mean the thing that

388

00:18:31,600 --> 00:18:29,450

you always have to bear in mind when

389

00:18:33,190 --> 00:18:31,610

posing this question and there are those

390

00:18:35,260 --> 00:18:33,200

out there you know who advocate this is

391

00:18:38,919 --> 00:18:35,270

just a Lost Tribe of people it's a loss

392

00:18:40,980 --> 00:18:38,929

it's a just a feral human a Homo sapiens

393

00:18:42,510 --> 00:18:40,990

and they've been some more creative

394

00:18:44,760 --> 00:18:42,520

hypotheses thrown out

395

00:18:47,510 --> 00:18:44,770

there I guess as well that if we look at

396

00:18:49,980 --> 00:18:47,520

what is it that defines homo that the

397

00:18:53,700 --> 00:18:49,990

for the longest time until quite

398

00:18:57,300 --> 00:18:53,710

recently the advent of tool use was the

399

00:18:59,460 --> 00:18:57,310

signature characteristic of the genus

400

00:19:01,640 --> 00:18:59,470

Homo that's going to have to be modified

401  
00:19:04,610 --> 00:19:01,650  
now just a couple years ago some

402  
00:19:08,280 --> 00:19:04,620  
discoveries in East Africa have shown

403  
00:19:11,010 --> 00:19:08,290  
tool marks on an archaeological remains

404  
00:19:14,060 --> 00:19:11,020  
on bones dating back to a time

405  
00:19:17,280 --> 00:19:14,070  
coincident with late australopithecines

406  
00:19:19,230 --> 00:19:17,290  
but the point simply is when you look at

407  
00:19:22,020 --> 00:19:19,240  
Sasquatch there's no there's no material

408  
00:19:25,260 --> 00:19:22,030  
culture there's no evidence of stone

409  
00:19:27,200 --> 00:19:25,270  
tools or even you know modified sticks

410  
00:19:30,770 --> 00:19:27,210  
or branches that are that are used

411  
00:19:33,150 --> 00:19:30,780  
consistently it's all opportunistic

412  
00:19:34,650 --> 00:19:33,160  
whacking of trees are breaking and

413  
00:19:37,080 --> 00:19:34,660

brandishing of sticks you know in a

414

00:19:38,790 --> 00:19:37,090

threat display there's no evidence of

415

00:19:40,740 --> 00:19:38,800

home bases there's no evidence of fire

416

00:19:43,680 --> 00:19:40,750

control there's no evidence review a

417

00:19:45,120 --> 00:19:43,690

complex social structure most sightings

418

00:19:46,890 --> 00:19:45,130

are of solitary individuals most

419

00:19:50,370 --> 00:19:46,900

footprints are of solitary individuals

420

00:19:52,260 --> 00:19:50,380

or females with with offspring in tow so

421

00:19:55,220 --> 00:19:52,270

if it is a hominid it would have to be a

422

00:19:58,290 --> 00:19:55,230

very early radiation early divergence

423

00:20:00,780 --> 00:19:58,300

now one of my predecessors Gordon

424

00:20:03,150 --> 00:20:00,790

Strasburg was a strong advocate for per

425

00:20:05,100 --> 00:20:03,160

anthropos it was an interesting when

426

00:20:08,580 --> 00:20:05,110

paranthesis share some of the same kinds

427

00:20:11,310 --> 00:20:08,590

of hypertrophy of the chewing apparatus

428

00:20:15,140 --> 00:20:11,320

that we see in Gigantopithecus big deep

429

00:20:19,050 --> 00:20:15,150

jaws and and thick molar enamel enlarged

430

00:20:22,770 --> 00:20:19,060

enlarged premolars and tiny incisors and

431

00:20:24,270 --> 00:20:22,780

canines non projecting canine teeth

432

00:20:27,390 --> 00:20:24,280

which allows for that side-to-side

433

00:20:30,180 --> 00:20:27,400

motion during chewing and I always kind

434

00:20:33,180 --> 00:20:30,190

of I thought well how how could that be

435

00:20:37,890 --> 00:20:33,190

I mean here the the fossil record for

436

00:20:39,450 --> 00:20:37,900

anthropos you know it ceased about one

437

00:20:43,020 --> 00:20:39,460

and a half million years ago in East

438

00:20:45,270 --> 00:20:43,030

Africa and and per anthropos only stood

439

00:20:48,660 --> 00:20:45,280

about five and a half you know five foot

440

00:20:50,610 --> 00:20:48,670

eight males perhaps so it's it's the

441

00:20:53,190 --> 00:20:50,620

wrong size in the wrong place at the

442

00:20:55,470 --> 00:20:53,200

wrong time and I thought that would have

443

00:20:56,460 --> 00:20:55,480

ruled it out except that just recently

444

00:20:58,380 --> 00:20:56,470

you

445

00:21:01,620 --> 00:20:58,390

be aware of the discovery of Homo

446

00:21:05,850 --> 00:21:01,630

floresiensis mohabbat in Southeast Asia

447

00:21:08,340 --> 00:21:05,860

with a remarkably recent age of as young

448

00:21:10,169 --> 00:21:08,350

as perhaps 50,000 years now as it's been

449

00:21:12,090 --> 00:21:10,179

modified up a little bit but still

450

00:21:15,360 --> 00:21:12,100

50,000 years is just a snap of the

451  
00:21:17,760 --> 00:21:15,370  
fingers in geologic time well how do you

452  
00:21:20,820 --> 00:21:17,770  
end and everything points to Homo

453  
00:21:23,370 --> 00:21:20,830  
floresiensis being a very early homo or

454  
00:21:24,659 --> 00:21:23,380  
even late Australopithecus see skeletal

455  
00:21:27,539 --> 00:21:24,669  
Anatomy the thing has a brain the size

456  
00:21:29,700 --> 00:21:27,549  
of a chimpanzee it's it's post cranial

457  
00:21:31,710 --> 00:21:29,710  
skeleton its lower limbs for example

458  
00:21:34,440 --> 00:21:31,720  
look just like a chimpanzee or an

459  
00:21:37,169 --> 00:21:34,450  
Australopithecus een so how do you how

460  
00:21:38,250 --> 00:21:37,179  
do you connect the dots from a late

461  
00:21:41,789 --> 00:21:38,260  
australopithecines

462  
00:21:45,810 --> 00:21:41,799  
in East Africa or at the very best

463  
00:21:48,210 --> 00:21:45,820

perhaps in Asia Minor making its way all

464

00:21:50,070 --> 00:21:48,220

the way to Southeast Asia without

465

00:21:52,049 --> 00:21:50,080

leaving any fossil record in between

466

00:21:54,149 --> 00:21:52,059

that we've discovered yet yeah there's

467

00:21:56,190 --> 00:21:54,159

so much that we don't know yeah yeah

468

00:21:58,710 --> 00:21:56,200

absolutely so anyway so that's not out

469

00:22:01,740 --> 00:21:58,720

of the question at all either something

470

00:22:04,200 --> 00:22:01,750

like a robust australopithecines at that

471

00:22:08,250 --> 00:22:04,210

as it spread its range spread across

472

00:22:11,039 --> 00:22:08,260

South Asia into eastern Asia could have

473

00:22:12,830 --> 00:22:11,049

achieved gigantism just as so many other

474

00:22:16,740 --> 00:22:12,840

mammals did during the early Pleistocene

475

00:22:19,380 --> 00:22:16,750

and and expanded his range into North

476

00:22:22,500 --> 00:22:19,390

America or Gigantopithecus would be

477

00:22:27,000 --> 00:22:22,510

another I know if you go the other way

478

00:22:29,490 --> 00:22:27,010

because the hobbits actually the sort of

479

00:22:31,680 --> 00:22:29,500

devolved in terms of their size probably

480

00:22:38,039 --> 00:22:31,690

because of the the environment and they

481

00:22:40,919 --> 00:22:38,049

became smaller too let's do our break

482

00:22:43,159 --> 00:22:40,929

guys yeah we've got more to come with

you're listening to the podcast the gold

597

00:27:28,590 --> 00:27:26,770

standard of paranormal radio if Chris

598

00:27:31,080 --> 00:27:28,600

sounds a little bit hoarse there it's

599

00:27:36,150 --> 00:27:31,090

because he's suffering from the creeping

600

00:27:37,980 --> 00:27:36,160

rot if the zuni could of the Zuni cried

601  
00:27:40,380 --> 00:27:37,990  
the creeping ride I'm suffering from who

602  
00:27:42,600 --> 00:27:40,390  
knows what but I have the tissue here

603  
00:27:44,549 --> 00:27:42,610  
and I've taken the antihistamines which

604  
00:27:47,520 --> 00:27:44,559  
have done nothing to my voices most of

605  
00:27:49,020 --> 00:27:47,530  
you will notice and we're plucking on

606  
00:27:51,810 --> 00:27:49,030  
but we don't have to worry about because

607  
00:27:54,260 --> 00:27:51,820  
we have dr. Jeffrey Meldrum here he will

608  
00:27:56,750 --> 00:27:54,270  
keep us going even when we run astray

609  
00:27:59,880 --> 00:27:56,760  
Chris I have a quick question though

610  
00:28:02,400 --> 00:27:59,890  
going through the you know the report

611  
00:28:06,030 --> 00:28:02,410  
logs and witness descriptions and and

612  
00:28:08,730 --> 00:28:06,040  
looking at regional types of Sasquatch

613  
00:28:11,790 --> 00:28:08,740

or Bigfoot you do tend to see size

614

00:28:14,580 --> 00:28:11,800

variation variation and description of

615

00:28:16,910 --> 00:28:14,590

how muscle they are some appear to be

616

00:28:19,650 --> 00:28:16,920

smaller in stature like the skunk Apes

617

00:28:20,760 --> 00:28:19,660

for instance the wild man of the all

618

00:28:23,400 --> 00:28:20,770

nasties

619

00:28:26,430 --> 00:28:23,410

for instance or seem to be a smaller

620

00:28:29,340 --> 00:28:26,440

version how can we account for what

621

00:28:31,290 --> 00:28:29,350

appear to be different types right well

622

00:28:34,740 --> 00:28:31,300

one of the things that has started to

623

00:28:37,790 --> 00:28:34,750

take shape and a theme that I've been

624

00:28:41,070 --> 00:28:37,800

pounding the drum about that is is

625

00:28:44,540 --> 00:28:41,080

altering the anthropological community's

626

00:28:48,150 --> 00:28:44,550

perception of the place for this notion

627

00:28:50,250 --> 00:28:48,160

rests on two principles one is that that

628

00:28:52,320 --> 00:28:50,260

we there's a growing appreciation then

629

00:28:55,080 --> 00:28:52,330

this has been happening over the past oh

630

00:28:57,990 --> 00:28:55,090

three or four decades now that that the

631

00:29:01,470 --> 00:28:58,000

hominid niche is not an exclusive club

632

00:29:03,780 --> 00:29:01,480

as was once thought it was once believed

633

00:29:05,790 --> 00:29:03,790

that that it was such an odd combination

634

00:29:09,510 --> 00:29:05,800

of adaptations there could be only one

635

00:29:12,210 --> 00:29:09,520

species in it at a time now we know that

636

00:29:14,820 --> 00:29:12,220

from from a burgeoning well burgeoning I

637

00:29:18,060 --> 00:29:14,830

guess is a relative term but a growing

638

00:29:20,040 --> 00:29:18,070

fossil record of hominid evolution that

639

00:29:21,810 --> 00:29:20,050

there were multiple species coexisting

640

00:29:22,259 --> 00:29:21,820

across the landscape at any given time

641

00:29:24,239 --> 00:29:22,269

in the

642

00:29:26,159 --> 00:29:24,249

asked so if you could step in a time

643

00:29:29,339 --> 00:29:26,169

machine and say go back to million years

644

00:29:31,379 --> 00:29:29,349

to East Africa you might bump into you

645

00:29:34,769 --> 00:29:31,389

know at least well right now are known

646

00:29:37,109 --> 00:29:34,779

at least four species of hominid if you

647

00:29:39,989 --> 00:29:37,119

could go back to East Asia as recently

648

00:29:42,229 --> 00:29:39,999

as 20,000 years ago you might bump into

649

00:29:45,029 --> 00:29:42,239

any of a half a dozen different species

650

00:29:47,430 --> 00:29:45,039

living alongside homo sapiens

651  
00:29:50,129 --> 00:29:47,440  
so those two recognitions those two

652  
00:29:52,440 --> 00:29:50,139  
acknowledgments one that there has been

653  
00:29:55,759 --> 00:29:52,450  
this the rule rather than exception has

654  
00:29:58,349 --> 00:29:55,769  
been the contemporaneity of many

655  
00:30:01,560 --> 00:29:58,359  
differently adapted hominid species

656  
00:30:05,579 --> 00:30:01,570  
living side by side across the landscape

657  
00:30:07,680 --> 00:30:05,589  
through time and to the fact that new

658  
00:30:09,149 --> 00:30:07,690  
revelations recent revelations have

659  
00:30:11,219 --> 00:30:09,159  
shown that many of these branches

660  
00:30:12,839 --> 00:30:11,229  
several these branches not many but

661  
00:30:15,959 --> 00:30:12,849  
several these branches have persisted

662  
00:30:19,019 --> 00:30:15,969  
until more recently than ever recognized

663  
00:30:21,839 --> 00:30:19,029

so we have hobbits that are at least as

664

00:30:24,209 --> 00:30:21,849

young as 50 thousand years we have just

665

00:30:27,359 --> 00:30:24,219

recently a mandible of a homo erectus

666

00:30:30,629 --> 00:30:27,369

was dredged up off the coast of Taiwan

667

00:30:32,129 --> 00:30:30,639

in a fisherman's net and it was dated to

668

00:30:34,889 --> 00:30:32,139

10,000 years ago

669

00:30:36,599 --> 00:30:34,899

we have occupation sites attributed to

670

00:30:38,399 --> 00:30:36,609

Neanderthal that are perhaps as young as

671

00:30:39,359 --> 00:30:38,409

10,000 years we have Homo

672

00:30:42,719 --> 00:30:39,369

heidelbergensis

673

00:30:45,539 --> 00:30:42,729

in found a specimen outside of Beijing

674

00:30:46,979 --> 00:30:45,549

that's less than 20,000 years I mean

675

00:30:49,469 --> 00:30:46,989

these were dates that would be

676

00:30:51,599 --> 00:30:49,479

unthinkable in in the recent past

677

00:30:53,759 --> 00:30:51,609

so why in the face of that mounting

678

00:30:55,319 --> 00:30:53,769

evidence on the one hand and on the

679

00:30:57,659 --> 00:30:55,329

other hand in the face of so much

680

00:31:00,299 --> 00:30:57,669

evidence and so much ethnographic

681

00:31:03,440 --> 00:31:00,309

tradition that there were several types

682

00:31:06,389 --> 00:31:03,450

of wild men as you pointed out the very

683

00:31:09,599 --> 00:31:06,399

Neanderthal like all masti the little

684

00:31:12,569 --> 00:31:09,609

australopithecines lke Hobbit or perhaps

685

00:31:17,129 --> 00:31:12,579

Arang pendick you know the the modern or

686

00:31:19,440 --> 00:31:17,139

the recent equivalent the Himalayan Yeti

687

00:31:21,690 --> 00:31:19,450

that all evidence the best evidence

688

00:31:23,609 --> 00:31:21,700

points to a divergent big toe that would

689

00:31:26,969 --> 00:31:23,619

suggest it's a much more ape-like form

690

00:31:28,949 --> 00:31:26,979

still inhabiting the subtropical to

691

00:31:32,549 --> 00:31:28,959

temperate forests of the Himalayas and

692

00:31:35,640 --> 00:31:32,559

the Sasquatch with its equivalents seen

693

00:31:38,040 --> 00:31:35,650

in China in Southeast Asia and

694

00:31:40,650 --> 00:31:38,050

in the Caucasus Mountains I was recently

695

00:31:43,320 --> 00:31:40,660

over in Russia and followed up on a

696

00:31:44,850 --> 00:31:43,330

sighting of a creature that whose

697

00:31:47,880 --> 00:31:44,860

description was remarkably similar to

698

00:31:49,730 --> 00:31:47,890

Sasquatch and left 17 inch footprints

699

00:31:52,710 --> 00:31:49,740

that were essentially indistinguishable

700

00:31:57,030 --> 00:31:52,720

in all their characteristics and their

701  
00:31:59,730 --> 00:31:57,040  
and their Mew no specifics contrast to

702  
00:32:02,040 --> 00:31:59,740  
human footprints remarkably similar to a

703  
00:32:04,290 --> 00:32:02,050  
Sasquatch track what I'm hearing and

704  
00:32:08,490 --> 00:32:04,300  
what you're saying is that humanoid

705  
00:32:10,710 --> 00:32:08,500  
species are both older and newer than we

706  
00:32:13,380 --> 00:32:10,720  
previously suspected that some branches

707  
00:32:15,930 --> 00:32:13,390  
survived for a longer period of time and

708  
00:32:16,410 --> 00:32:15,940  
might therefore still survive that's

709  
00:32:18,660 --> 00:32:16,420  
right

710  
00:32:21,270 --> 00:32:18,670  
absolutely so the term I like to apply

711  
00:32:24,900 --> 00:32:21,280  
to that is really common oyd a species

712  
00:32:27,180 --> 00:32:24,910  
that once was more widespread but now is

713  
00:32:29,730 --> 00:32:27,190

restricted that's now persistent to the

714

00:32:32,190 --> 00:32:29,740

present in a more restricted range and

715

00:32:35,460 --> 00:32:32,200

distribution and of course hominoid is

716

00:32:38,549 --> 00:32:35,470

refers to the superfamily humming idea

717

00:32:40,680 --> 00:32:38,559

which includes us and the great apes so

718

00:32:42,570 --> 00:32:40,690

it would encompass you know things that

719

00:32:46,410 --> 00:32:42,580

are very ape-like like the Yeti or

720

00:32:49,080 --> 00:32:46,420

things that could be early hominins like

721

00:32:51,270 --> 00:32:49,090

the sasquatch and things that could be

722

00:32:54,180 --> 00:32:51,280

very closely related to us like the

723

00:32:56,160 --> 00:32:54,190

allness now this is interesting here

724

00:32:58,320 --> 00:32:56,170

because I listen to you when I'm hearing

725

00:33:01,560 --> 00:32:58,330

a scientist simply explain in a very

726

00:33:04,020 --> 00:33:01,570

logical way why these things can be so

727

00:33:06,330 --> 00:33:04,030

why is it that scientists do not appear

728

00:33:08,610 --> 00:33:06,340

to accept any of this it doesn't sound

729

00:33:11,400 --> 00:33:08,620

to me like it's anything outside the

730

00:33:13,320 --> 00:33:11,410

realm of logic at all well that's that's

731

00:33:14,580 --> 00:33:13,330

the case that I've been trying to make

732

00:33:16,650 --> 00:33:14,590

you know like I said I've been beating

733

00:33:21,419 --> 00:33:16,660

this drum for for quite a number of

734

00:33:24,000 --> 00:33:21,429

years and now the the evidence is

735

00:33:28,669 --> 00:33:24,010

becoming sort of overwhelming it's it's

736

00:33:32,430 --> 00:33:28,679

it's undeniable and but some lessons are

737

00:33:35,190 --> 00:33:32,440

slow to be learned and as I said there

738

00:33:39,299 --> 00:33:35,200

was this paradigm this notion of a

739

00:33:43,590 --> 00:33:39,309

single species that was very influential

740

00:33:46,530 --> 00:33:43,600

in anthropology back in the you know

741

00:33:49,680 --> 00:33:46,540

back in the 60s and so you know Ivan

742

00:33:52,049 --> 00:33:49,690

Sanderson wrote this encyclopedic

743

00:33:55,350 --> 00:33:52,059

home in which he he marshaled all this

744

00:33:58,139 --> 00:33:55,360

evidence for subhuman species around the

745

00:34:01,110 --> 00:33:58,149

world but when he presents that to the

746

00:34:03,539 --> 00:34:01,120

academic community in 1961 when it was

747

00:34:06,240 --> 00:34:03,549

published that was right at the heyday

748

00:34:09,210 --> 00:34:06,250

of the notion that there could be only

749

00:34:12,030 --> 00:34:09,220

one hominid species at a time and it was

750

00:34:14,970 --> 00:34:12,040

only subsequently in the 70s that the

751  
00:34:16,889 --> 00:34:14,980  
fossil record began to expand to the

752  
00:34:18,510 --> 00:34:16,899  
point that it was you know just

753  
00:34:21,270 --> 00:34:18,520  
undeniable that there were multiple

754  
00:34:24,839 --> 00:34:21,280  
species coexisting that you know it

755  
00:34:29,190 --> 00:34:24,849  
wasn't an exclusive club and it's just

756  
00:34:31,079 --> 00:34:29,200  
been slow for that to to finally take

757  
00:34:33,480 --> 00:34:31,089  
root and and even with the

758  
00:34:35,790 --> 00:34:33,490  
acknowledgment of that it still was felt

759  
00:34:38,579 --> 00:34:35,800  
you know that basically the argument was

760  
00:34:40,319 --> 00:34:38,589  
just was just drop kicked further down

761  
00:34:43,109 --> 00:34:40,329  
the pike you know kick the can down the

762  
00:34:44,790 --> 00:34:43,119  
road to apply to modern humans well

763  
00:34:47,159 --> 00:34:44,800

modern humans because of our culture and

764

00:34:48,839 --> 00:34:47,169

our technology and our intelligence you

765

00:34:51,990 --> 00:34:48,849

know we have driven all these other

766

00:34:55,220 --> 00:34:52,000

hominids to extinction well that's a big

767

00:34:58,890 --> 00:34:55,230

assumption when we have footprints and

768

00:35:03,000 --> 00:34:58,900

visual sightings of hominoids in you

769

00:35:06,180 --> 00:35:03,010

know in eastern Asia and and Asia Minor

770

00:35:08,099 --> 00:35:06,190

and Siberia when we have reports of

771

00:35:10,770 --> 00:35:08,109

Sasquatch in North America and we have

772

00:35:12,270 --> 00:35:10,780

reports of little people lurking pendick

773

00:35:16,859 --> 00:35:12,280

in Southeast Asia I mean that's the

774

00:35:19,170 --> 00:35:16,869

point so you forgot the Yowie well yeah

775

00:35:24,030 --> 00:35:19,180

yeah you know the Yowie is a little bit

776

00:35:27,809 --> 00:35:24,040

radioactive for me you know my my my

777

00:35:29,790 --> 00:35:27,819

expertise is in footprints and we there

778

00:35:32,819 --> 00:35:29,800

still hasn't been presented of a

779

00:35:35,880 --> 00:35:32,829

convincing footprint case you know a

780

00:35:39,809 --> 00:35:35,890

case based on footprint evidence that we

781

00:35:42,030 --> 00:35:39,819

have a hominoid or a hominid in in

782

00:35:44,040 --> 00:35:42,040

Australia so what exactly we're dealing

783

00:35:46,440 --> 00:35:44,050

with there it's one that fascinates me

784

00:35:49,260 --> 00:35:46,450

and I and I've read widely audit by I've

785

00:35:52,460 --> 00:35:49,270

always kind of dropped a little bit I'm

786

00:35:55,859 --> 00:35:52,470

not sure exactly yet I have it I have it

787

00:35:59,700 --> 00:35:55,869

followed my train of thought how to it's

788

00:36:03,390 --> 00:35:59,710

a conclusion as of yet but the point I

789

00:36:05,519 --> 00:36:03,400

wanted to make those is while the

790

00:36:09,299 --> 00:36:05,529

formal institutional scientific

791

00:36:11,460 --> 00:36:09,309

community still is reluctant this is the

792

00:36:13,859 --> 00:36:11,470

backdrop I guess I should say but but

793

00:36:16,740 --> 00:36:13,869

there is also another veneer and that is

794

00:36:19,170 --> 00:36:16,750

this notion of skepticism and and the

795

00:36:21,690 --> 00:36:19,180

the misplaced label of pseudoscience

796

00:36:24,390 --> 00:36:21,700

when it applies to the search for

797

00:36:26,370 --> 00:36:24,400

sasquatch another relic Commons and that

798

00:36:29,279 --> 00:36:26,380

is another issue that we've had to deal

799

00:36:32,700 --> 00:36:29,289

with is you know the show me the body

800

00:36:36,599 --> 00:36:32,710

the man mantra that Michael Shermer

801  
00:36:39,539 --> 00:36:36,609  
likes to chant right you know they want

802  
00:36:42,630 --> 00:36:39,549  
the conclusion before the evidence is

803  
00:36:44,730 --> 00:36:42,640  
analyzed right we'll have more to

804  
00:36:48,530 --> 00:36:44,740  
discuss with dr. Jeffrey Meldrum and

805

there's something that is changing

883

00:39:55,450 --> 00:39:53,750

thousands of people's lives and you

884

00:39:57,549 --> 00:39:55,460

could be one of them it's called heart

885

00:39:59,440 --> 00:39:57,559

and body extract sharon hera's

886

00:40:01,240 --> 00:39:59,450

co-creator of heart and body extract

887

00:40:03,309 --> 00:40:01,250

talks about the positive effects of

888

00:40:05,319 --> 00:40:03,319

heart and body extract what happens with

889

00:40:06,519 --> 00:40:05,329

the formula heart and body extract is

890

00:40:09,220 --> 00:40:06,529

this giving the body the necessary

891

00:40:11,799 --> 00:40:09,230

vitamins minerals amino acids enzymes

892

00:40:13,930 --> 00:40:11,809

inside a nutrient so the body will heal

893

00:40:16,059 --> 00:40:13,940

itself yes the body does have the

894

00:40:18,039 --> 00:40:16,069

ability to balance blood pressure now as

895

cholesterol clean and unclog the

896

00:40:22,630 --> 00:40:20,750

arteries it can also work on balancing

897

00:40:24,760 --> 00:40:22,640

the circulation for diabetics so the

898

00:40:26,859 --> 00:40:24,770

body is the amazing thing it simply

899

00:40:28,930 --> 00:40:26,869

needs some help so it has the tools to

days six shades

910  
00:40:50,740 --> 00:40:49,730  
there's no messy strips or trays that

911  
00:40:52,150 --> 00:40:50,750  
you have to leave in your mouth for an

912  
00:40:52,599 --> 00:40:52,160  
hour just swab your teeth for five

913  
00:40:54,609 --> 00:40:52,609

minutes

914

00:40:56,440 --> 00:40:54,619

risk-free 1-800 to nine zero eight four

920

00:41:11,079 --> 00:41:06,380

eight zero that's one eight hundred to

921

00:41:12,700 --> 00:41:11,089

nine zero eight four eight zero hello

922

00:41:16,410 --> 00:41:12,710

this is John Burroughs one of the

923

00:41:18,690 --> 00:41:16,420

witnesses to the Rendlesham UFO incident

924

00:41:27,270 --> 00:41:18,700

- the para cast the gold standard of a

925

00:41:31,150 --> 00:41:29,559

now my head cold feels a little bit

926  
00:41:33,640 --> 00:41:31,160  
better I think it's because it's such an

927  
00:41:36,549 --> 00:41:33,650  
enjoyable episode dr. Jeffrey Meldrum is

928  
00:41:40,420 --> 00:41:36,559  
here to talk about discoveries into

929  
00:41:46,510 --> 00:41:40,430  
Bigfoot Sasquatch and it's enough to set

930  
00:41:48,700 --> 00:41:46,520  
off Siri you're not looking Siri that's

931  
00:41:50,020 --> 00:41:48,710  
the problem this has been happening more

932  
00:41:54,579 --> 00:41:50,030  
and more lately I think it's some kind

933  
00:41:57,010 --> 00:41:54,589  
of psychosomatic ailment or some kind of

934  
00:41:59,650 --> 00:41:57,020  
paranoid or paranormal phenomenon but

935  
00:42:02,289 --> 00:41:59,660  
seriously speaking Jeff is it possible

936  
00:42:04,780 --> 00:42:02,299  
at this point in time to even estimate

937  
00:42:07,329 --> 00:42:04,790  
the population of these creatures around

938  
00:42:10,630 --> 00:42:07,339

the world I mean how many would it take

939

00:42:12,099 --> 00:42:10,640

to produce an occasional sighting and

940

00:42:15,099 --> 00:42:12,109

how many would we need to just have

941

00:42:17,950 --> 00:42:15,109

evidence all over the place right well I

942

00:42:20,530 --> 00:42:17,960

have not tackled that issue on a global

943

00:42:23,620 --> 00:42:20,540

scale certainly but but just to give an

944

00:42:25,329 --> 00:42:23,630

example on a more local scale because

945

00:42:27,549 --> 00:42:25,339

I'm often asked this how many sasquatch

946

00:42:30,579 --> 00:42:27,559

do you think there are and I always try

947

00:42:32,260 --> 00:42:30,589

to emphasize the rarity you know the

948

00:42:35,289 --> 00:42:32,270

comeback is always well how do you

949

00:42:39,280 --> 00:42:35,299

sustain a viable reproductive population

950

00:42:41,440 --> 00:42:39,290

well that's a real nebulous concept and

951

00:42:43,809 --> 00:42:41,450

you know if you dig a little bit you'll

952

00:42:47,620 --> 00:42:43,819

find that there is no standard there's

953

00:42:51,640 --> 00:42:47,630

no scale really it depends entirely upon

954

00:42:54,760 --> 00:42:51,650

the genetic load the genetic you know

955

00:42:58,569 --> 00:42:54,770

deleterious recessive load that a

956

00:43:00,910 --> 00:42:58,579

population bears which which if it's

957

00:43:04,000 --> 00:43:00,920

high then that precipitates you know

958

00:43:05,950 --> 00:43:04,010

inbreeding depression you know you don't

959

00:43:08,200 --> 00:43:05,960

you don't marry your cousin because the

960

00:43:11,559 --> 00:43:08,210

chance of the two of you having some

961

00:43:13,720 --> 00:43:11,569

harmful recessive gene cropping up in

962

00:43:16,210 --> 00:43:13,730

your children then become statistically

963

00:43:19,260 --> 00:43:16,220

very high but if your gene pool is

964

00:43:22,359 --> 00:43:19,270

fairly free of those kinds of mutations

965

00:43:24,400 --> 00:43:22,369

then a population can muddle along just

966

00:43:26,500 --> 00:43:24,410

fine you know mountain gorillas went

967

00:43:28,900 --> 00:43:26,510

through a bottleneck where the

968

00:43:31,359 --> 00:43:28,910

population was reduced to below 200 and

969

00:43:33,370 --> 00:43:31,369

they rebounded now spending just between

970

00:43:35,559 --> 00:43:33,380

six hundred eight hundred with no signs

971

00:43:37,740 --> 00:43:35,569

of you know deleterious effects of

972

00:43:39,730 --> 00:43:37,750

inbreeding their gene pool could

973

00:43:41,859 --> 00:43:39,740

tolerate that now

974

00:43:43,750 --> 00:43:41,869

rule of thumb if you do do some research

975

00:43:46,660 --> 00:43:43,760

or dig into that that's thrown out by

976  
00:43:48,700 --> 00:43:46,670  
some four vertebrates would be about a

977  
00:43:52,450 --> 00:43:48,710  
thousand individuals to have a

978  
00:43:55,870 --> 00:43:52,460  
reasonably viable population well that's

979  
00:43:58,540 --> 00:43:55,880  
easily accommodated in North America for

980  
00:43:59,770 --> 00:43:58,550  
sasquatch little exercise oh and I won't

981  
00:44:02,500 --> 00:43:59,780  
go through the whole thing with you here

982  
00:44:05,020 --> 00:44:02,510  
but you know we have some suggestive

983  
00:44:07,570 --> 00:44:05,030  
evidence from which we can infer that

984  
00:44:09,370 --> 00:44:07,580  
you know being solitary they probably

985  
00:44:11,109 --> 00:44:09,380  
have a very large range given the

986  
00:44:13,510 --> 00:44:11,119  
habitat you know depending on the

987  
00:44:16,120 --> 00:44:13,520  
habitat to how that range may vary

988  
00:44:18,700 --> 00:44:16,130

considerably but let's say a thousand

989

00:44:21,940 --> 00:44:18,710

square miles and in that thousand square

990

00:44:24,609 --> 00:44:21,950

miles a male may solitary male may

991

00:44:26,680 --> 00:44:24,619

defend or patrol an area that overlaps

992

00:44:28,690 --> 00:44:26,690

that of some females so say in a

993

00:44:31,630 --> 00:44:28,700

thousand square miles there's one

994

00:44:34,150 --> 00:44:31,640

dominant male and one or two maybe three

995

00:44:36,430 --> 00:44:34,160

females and probably a couple offspring

996

00:44:38,290 --> 00:44:36,440

in the mix there let's just say five

997

00:44:41,020 --> 00:44:38,300

individuals well if you look at a map of

998

00:44:42,340 --> 00:44:41,030

Idaho and and also bear in mind one more

999

00:44:45,220 --> 00:44:42,350

factor there's a pretty good correlation

1000

00:44:48,550 --> 00:44:45,230

it seems between credible Sasquatch

1001  
00:44:50,890 --> 00:44:48,560  
sightings and precipitation it seems

1002  
00:44:54,730 --> 00:44:50,900  
that these creatures require a habitat

1003  
00:44:57,910 --> 00:44:54,740  
that's is associated with about 1618

1004  
00:45:00,520 --> 00:44:57,920  
inches or more of precipitation and some

1005  
00:45:03,490 --> 00:45:00,530  
more temperate yeah temperate but moist

1006  
00:45:05,800 --> 00:45:03,500  
I mean they need moist forests the core

1007  
00:45:08,290 --> 00:45:05,810  
habitat seems to be Douglas fir forests

1008  
00:45:10,920 --> 00:45:08,300  
you know in a rich understory say with

1009  
00:45:14,890 --> 00:45:10,930  
blueberry and other other fruiting

1010  
00:45:17,440 --> 00:45:14,900  
shrubs and so forth there has to be

1011  
00:45:19,780 --> 00:45:17,450  
water they seem to be wet wet pretty wet

1012  
00:45:22,270 --> 00:45:19,790  
apes you know require wet habitat but in

1013  
00:45:25,930 --> 00:45:22,280

case you look at Idaho how many thousand

1014

00:45:27,970 --> 00:45:25,940

square mile plots could you fit into the

1015

00:45:30,160 --> 00:45:27,980

areas of Idaho that have a suitable

1016

00:45:32,260 --> 00:45:30,170

habitat associated with that kind of

1017

00:45:34,510 --> 00:45:32,270

rainfall well there's about twelve maybe

1018

00:45:36,880 --> 00:45:34,520

fourteen that's going to vary obviously

1019

00:45:39,280 --> 00:45:36,890

with surface area given topography and

1020

00:45:41,440 --> 00:45:39,290

given patchiness of the habitat etc see

1021

00:45:44,230 --> 00:45:41,450

I mean these are very coarse numbers but

1022

00:45:46,510 --> 00:45:44,240

if that's in a ballpark five times

1023

00:45:48,430 --> 00:45:46,520

twelve there's only about sixty

1024

00:45:51,520 --> 00:45:48,440

Sasquatch in the entire state of Idaho

1025

00:45:53,109 --> 00:45:51,530

there's 20,000 black bear in Idaho by

1026

00:45:54,910 --> 00:45:53,119

comparison right

1027

00:45:58,269 --> 00:45:54,920

that could also explain why we haven't

1028

00:46:00,819 --> 00:45:58,279

found skeletons why we we don't find you

1029

00:46:02,739 --> 00:46:00,829

know more evidence physical evidence of

1030

00:46:05,349 --> 00:46:02,749

their of their passing shall we say

1031

00:46:07,539 --> 00:46:05,359

because if you add to those numbers the

1032

00:46:10,329 --> 00:46:07,549

fact that they are probably long-lived

1033

00:46:11,980 --> 00:46:10,339

large apes and and there's a good

1034

00:46:14,650 --> 00:46:11,990

correlation positive correlation of

1035

00:46:18,069 --> 00:46:14,660

longevity with body size so they could

1036

00:46:20,289 --> 00:46:18,079

live to be 5060 years old easily so of

1037

00:46:22,210 --> 00:46:20,299

those 60 than an Idaho how many of them

1038

00:46:23,710 --> 00:46:22,220

are in their golden years that are gonna

1039

00:46:26,259 --> 00:46:23,720

die a natural death because they

1040

00:46:27,519 --> 00:46:26,269

wouldn't have any natural predators you

1041

00:46:30,910 --> 00:46:27,529

know there's not many things that would

1042

00:46:32,499 --> 00:46:30,920

give an 800-pound gorilla cause for

1043

00:46:35,589 --> 00:46:32,509

concern out in the forests of North

1044

00:46:38,829 --> 00:46:35,599

America so you know how often is a death

1045

00:46:41,109 --> 00:46:38,839

even going to occur in Idaho for example

1046

00:46:43,539 --> 00:46:41,119

using our case you know it may be at 1 1

1047

00:46:45,489 --> 00:46:43,549

in 10 years and so what are your chances

1048

00:46:48,160 --> 00:46:45,499

of finding that one body that has

1049

00:46:49,720 --> 00:46:48,170

secreted itself off in some nook or

1050

00:46:52,509 --> 00:46:49,730

cranny because it was feeling sick or

1051  
00:46:56,019 --> 00:46:52,519  
decrepit or old and died you know

1052  
00:46:58,269 --> 00:46:56,029  
removed from from its surroundings you

1053  
00:47:00,940 --> 00:46:58,279  
you when you when you think in terms of

1054  
00:47:04,349 --> 00:47:00,950  
that degree of rarity then the

1055  
00:47:07,599 --> 00:47:04,359  
objections to the lack of of that

1056  
00:47:10,329 --> 00:47:07,609  
definitive can physical evidence aren't

1057  
00:47:13,029 --> 00:47:10,339  
really so damning after all right but if

1058  
00:47:15,489 --> 00:47:13,039  
there are no predators directly and no

1059  
00:47:18,759 --> 00:47:15,499  
impediments to population wouldn't that

1060  
00:47:20,710 --> 00:47:18,769  
population grow over time somewhat well

1061  
00:47:23,559 --> 00:47:20,720  
not necessarily because because the rate

1062  
00:47:26,890 --> 00:47:23,569  
of reproduction is very low in large 8

1063  
00:47:28,779 --> 00:47:26,900

so you look at say orangutans just as an

1064

00:47:32,349 --> 00:47:28,789

example a female will only give birth

1065

00:47:35,739 --> 00:47:32,359

every 6 to 8 years and and they're very

1066

00:47:38,769 --> 00:47:35,749

slow to develop so that whole life

1067

00:47:41,470 --> 00:47:38,779

history cycle it's it's not like rabbits

1068

00:47:43,539 --> 00:47:41,480

or rats reproducing or even deer or elk

1069

00:47:46,359 --> 00:47:43,549

reproducing or even bear I mean it's

1070

00:47:48,819 --> 00:47:46,369

it's you know potentially four times I

1071

00:47:50,079 --> 00:47:48,829

think bears life expectancy is somewhere

1072

00:47:53,799 --> 00:47:50,089

between you know twenty and thirty years

1073

00:47:56,680 --> 00:47:53,809

and so this is is twice three times that

1074

00:47:58,809 --> 00:47:56,690

length with a much lower rate of

1075

00:48:00,519 --> 00:47:58,819

reproduction so no I don't think it

1076

00:48:01,930 --> 00:48:00,529

would and it's not to say you've even

1077

00:48:03,880 --> 00:48:01,940

without natural predators you know

1078

00:48:05,499 --> 00:48:03,890

there's still there's accidents there's

1079

00:48:06,550 --> 00:48:05,509

illness there's there could be

1080

00:48:12,010 --> 00:48:06,560

starvation did

1081

00:48:13,390 --> 00:48:12,020

hard winters or whatever but yeah I and

1082

00:48:16,090 --> 00:48:13,400

of course then we've got you know

1083

00:48:18,850 --> 00:48:16,100

anytime you add to the mix habitat

1084

00:48:21,220 --> 00:48:18,860

degradation and fragmentation that's

1085

00:48:22,930 --> 00:48:21,230

also going to affect the ability of

1086

00:48:25,090 --> 00:48:22,940

especially these lone solitary

1087

00:48:27,550 --> 00:48:25,100

individuals to find a mate you know what

1088

00:48:29,860 --> 00:48:27,560

to get together for procreation and so

1089

00:48:31,930 --> 00:48:29,870

no I don't think we would expect

1090

00:48:35,170 --> 00:48:31,940

burgeoning populations this this is the

1091

00:48:37,180 --> 00:48:35,180

the challenge of conserving the other

1092

00:48:39,190 --> 00:48:37,190

great apes you know when a when a

1093

00:48:41,110 --> 00:48:39,200

gorilla population goes down to a

1094

00:48:45,150 --> 00:48:41,120

bottleneck like the mountain gorillas

1095

00:48:48,430 --> 00:48:45,160

did it takes them decades to rebound

1096

00:48:51,640 --> 00:48:48,440

right you know that's not even even you

1097

00:48:54,580 --> 00:48:51,650

mentioning the vast spaces in British

1098

00:48:56,590 --> 00:48:54,590

Columbia and parts of Alberta that very

1099

00:48:59,890 --> 00:48:56,600

few people have ever even been I mean

1100

00:49:02,200 --> 00:48:59,900

there's millions of acres up there a

1101  
00:49:04,810 --> 00:49:02,210  
virgin untapped there's no way in no way

1102  
00:49:06,760 --> 00:49:04,820  
out there may be you know a breeding

1103  
00:49:09,580 --> 00:49:06,770  
population up there that's then kicking

1104  
00:49:11,440 --> 00:49:09,590  
out the young males to go out on their

1105  
00:49:14,740 --> 00:49:11,450  
own but one thing that's always

1106  
00:49:18,070 --> 00:49:14,750  
surprised me and and this is a figure

1107  
00:49:19,930 --> 00:49:18,080  
that you can obviously argue Sasquatch

1108  
00:49:23,620 --> 00:49:19,940  
sightings in Oklahoma and Kansas but

1109  
00:49:26,920 --> 00:49:23,630  
according to my research these types of

1110  
00:49:29,860 --> 00:49:26,930  
creatures have been seen in 48 of 50

1111  
00:49:33,880 --> 00:49:29,870  
states seen and reported and that that

1112  
00:49:36,910 --> 00:49:33,890  
is is unbelievable I mean where would a

1113  
00:49:40,240 --> 00:49:36,920

Bigfoot hide or the DuPont monster as

1114

00:49:42,400 --> 00:49:40,250

he's called in southern Illinois I think

1115

00:49:45,010 --> 00:49:42,410

you use the operative word there it is

1116

00:49:48,280 --> 00:49:45,020

rather unbelievable I just have a real

1117

00:49:50,140 --> 00:49:48,290

hard time okay if you open up a field

1118

00:49:53,170 --> 00:49:50,150

guide to mammals Peterson's field guide

1119

00:49:55,630 --> 00:49:53,180

to mammals and turn to the range map of

1120

00:49:58,600 --> 00:49:55,640

black bears which are another large

1121

00:50:01,180 --> 00:49:58,610

omnivore while they may they may

1122

00:50:02,830 --> 00:50:01,190

partition that niche I'm sure they

1123

00:50:05,080 --> 00:50:02,840

partition that niche a bit differently

1124

00:50:07,360 --> 00:50:05,090

still they have some of the basic

1125

00:50:10,840 --> 00:50:07,370

habitat requirements that we've

1126  
00:50:12,520 --> 00:50:10,850  
associated with sasquatch you know look

1127  
00:50:15,070 --> 00:50:12,530  
at the range distribution there and it

1128  
00:50:20,520 --> 00:50:15,080  
doesn't cover 48 uh you know states the

1129  
00:50:24,480 --> 00:50:20,530  
man and so I'm you know I always

1130  
00:50:27,150 --> 00:50:24,490  
Challenge the the would-be reporters to

1131  
00:50:30,090 --> 00:50:27,160  
to corroborate their visual sighting

1132  
00:50:32,130 --> 00:50:30,100  
with butt print evidence even the best

1133  
00:50:34,440 --> 00:50:32,140  
evidence has to be examined carefully I

1134  
00:50:37,140 --> 00:50:34,450  
mean it's been my experience I think

1135  
00:50:41,150 --> 00:50:37,150  
those numbers are grossly over inflated

1136  
00:50:44,520 --> 00:50:41,160  
because when I've had the opportunity to

1137  
00:50:47,490 --> 00:50:44,530  
track down and examine footprint

1138  
00:50:50,450 --> 00:50:47,500

evidence you know you cannot you cannot

1139

00:50:53,430 --> 00:50:50,460

take someone at their word because most

1140

00:50:57,410 --> 00:50:53,440

I mean it takes it with a few exceptions

1141

00:51:00,720 --> 00:50:57,420

I mean there are experienced qualified

1142

00:51:04,290 --> 00:51:00,730

authoritative witnesses out there no

1143

00:51:07,830 --> 00:51:04,300

doubt but you know a lot of the

1144

00:51:11,520 --> 00:51:07,840

footprint examples that are shared with

1145

00:51:14,280 --> 00:51:11,530

me are you know they could be potholes

1146

00:51:18,420 --> 00:51:14,290

they could be misidentified bear lots of

1147

00:51:20,280 --> 00:51:18,430

misidentified human footprints you you I

1148

00:51:22,080 --> 00:51:20,290

you know it just requires that I really

1149

00:51:24,990 --> 00:51:22,090

look at that so I can't take those

1150

00:51:26,880 --> 00:51:25,000

reports on paper at face value and

1151  
00:51:28,590 --> 00:51:26,890  
especially than a visual account where

1152  
00:51:32,840 --> 00:51:28,600  
all you have is the ability of that

1153  
00:51:35,820 --> 00:51:32,850  
individual to describe their experience

1154  
00:51:38,190 --> 00:51:35,830  
you know it's it's not necessarily

1155

here's Jane Steinberg now a little bit

1210  
00:54:26,069 --> 00:54:24,220  
later in the episode we've got a number

1211  
00:54:28,230 --> 00:54:26,079  
of questions from our listeners which

1212  
00:54:30,690 --> 00:54:28,240  
they posted in the para cast forums at

1213  
00:54:33,240 --> 00:54:30,700

4:00 I'm not the para cast con we're

1214

00:54:36,359 --> 00:54:33,250

talking to dr. Jeffrey Meldrum one of

1215

00:54:39,180 --> 00:54:36,369

the few academics who takes Bigfoot

1216

00:54:41,910 --> 00:54:39,190

seriously now with all this stuff and

1217

00:54:44,040 --> 00:54:41,920

all this logic you're presenting us why

1218

00:54:45,750 --> 00:54:44,050

is it that science isn't giving it more

1219

00:54:48,809 --> 00:54:45,760

attention sounds to me like just a

1220

00:54:51,420 --> 00:54:48,819

natural evolution of their studies of

1221

00:54:53,700 --> 00:54:51,430

different species of humanoids and other

1222

00:54:55,950 --> 00:54:53,710

creatures right well I think we're

1223

00:54:59,730 --> 00:54:55,960

slowly getting to that point and I have

1224

00:55:02,660 --> 00:54:59,740

in some capacities interaction with my

1225

00:55:06,660 --> 00:55:02,670

colleagues where they are quite open I

1226  
00:55:09,750 --> 00:55:06,670  
edit an online scholarly journal with an

1227  
00:55:11,579 --> 00:55:09,760  
editorial board that consists of PhDs

1228  
00:55:14,190 --> 00:55:11,589  
and other professionals with the

1229  
00:55:17,250 --> 00:55:14,200  
appropriate you know skill sets I also

1230  
00:55:20,700 --> 00:55:17,260  
threw that in that capacity recruit

1231  
00:55:22,859 --> 00:55:20,710  
reviewers or commentators on submissions

1232  
00:55:25,290 --> 00:55:22,869  
to that journal and I you know I go

1233  
00:55:29,130 --> 00:55:25,300  
after the the best and the most

1234  
00:55:32,250 --> 00:55:29,140  
prominent experts in the various fields

1235  
00:55:35,130 --> 00:55:32,260  
and many have been quite willing to

1236  
00:55:38,339 --> 00:55:35,140  
offer their opinion and and to give an

1237  
00:55:42,059 --> 00:55:38,349  
objective scholarly commentary on those

1238  
00:55:45,930 --> 00:55:42,069

submissions but it still it still has

1239

00:55:48,720 --> 00:55:45,940

such a stigma attached to it that many

1240

00:55:50,700 --> 00:55:48,730

are unwilling to jeopardize their career

1241

00:55:54,510 --> 00:55:50,710

their reputation and I certainly

1242

00:55:57,000 --> 00:55:54,520

wouldn't encourage a young assistant

1243

00:56:00,180 --> 00:55:57,010

professor just starting down their

1244

00:56:01,680 --> 00:56:00,190

career path to get mired in the

1245

00:56:05,550 --> 00:56:01,690

controversy that surrounds it

1246

00:56:08,670 --> 00:56:05,560

unfortunately openly it's - I can speak

1247

00:56:10,440 --> 00:56:08,680

from experience it's even idealistic

1248

00:56:13,410 --> 00:56:10,450

enough to jump into the deep end the

1249

00:56:16,109 --> 00:56:13,420

pool before I had tenure it was a bloody

1250

00:56:18,540 --> 00:56:16,119

bruising battle to get through that

1251  
00:56:21,690 --> 00:56:18,550  
gauntlet because of the narrow

1252  
00:56:25,170 --> 00:56:21,700  
mindedness of many of my colleagues in

1253  
00:56:28,470 --> 00:56:25,180  
my department and campus so the other

1254  
00:56:29,880 --> 00:56:28,480  
hand the reaction has spanned the gambit

1255  
00:56:32,309 --> 00:56:29,890  
from my colleagues there are those who

1256  
00:56:34,079 --> 00:56:32,319  
are or very very interested and

1257  
00:56:36,210 --> 00:56:34,089  
passionate and about it curious

1258  
00:56:38,130 --> 00:56:36,220  
passionately curious about it the

1259  
00:56:41,030 --> 00:56:38,140  
opposite extreme there are those who

1260  
00:56:44,099 --> 00:56:41,040  
have a I can only describe as a visceral

1261  
00:56:46,440 --> 00:56:44,109  
rejection of it for for various reasons

1262  
00:56:48,359 --> 00:56:46,450  
that we've touched on already been an

1263  
00:56:50,630 --> 00:56:48,369

interesting an interesting that what

1264

00:56:54,120 --> 00:56:50,640

I've been at this now since 96 so

1265

00:56:56,490 --> 00:56:54,130

20-some years well you've managed to

1266

00:56:59,370 --> 00:56:56,500

emerge fairly unscathed

1267

00:57:03,109 --> 00:56:59,380

so whatever brand of academic Teflon

1268

00:57:05,790 --> 00:57:03,119

that you're using I I would suggest the

1269

00:57:07,680 --> 00:57:05,800

recipe because having dealt with a

1270

00:57:09,960 --> 00:57:07,690

number of paranormal subjects and and

1271

00:57:12,240 --> 00:57:09,970

met scientists who are very interested

1272

00:57:14,420 --> 00:57:12,250

in the subjects and and heard heard

1273

00:57:16,680 --> 00:57:14,430

about the you know the same types of

1274

00:57:19,980 --> 00:57:16,690

problems that they they would encounter

1275

00:57:22,440 --> 00:57:19,990

if they attempted to you know to be more

1276

00:57:25,530 --> 00:57:22,450

public about their interests these are

1277

00:57:28,650 --> 00:57:25,540

toxic subjects anytime you have subject

1278

00:57:32,089 --> 00:57:28,660

areas that are rife with hoaxing rife

1279

00:57:35,190 --> 00:57:32,099

with shall we say a good science

1280

00:57:37,859 --> 00:57:35,200

procedurals procedure and the scientific

1281

00:57:39,839 --> 00:57:37,869

method not adhere to properly you're

1282

00:57:41,760 --> 00:57:39,849

gonna run into you're gonna run into

1283

00:57:43,579 --> 00:57:41,770

some rope and push back and reluctance

1284

00:57:45,540 --> 00:57:43,589

oh I think on the from the mainstream

1285

00:57:47,730 --> 00:57:45,550

where do you come down at Melba

1286

00:57:50,190 --> 00:57:47,740

Ketchum's attempt a number of years ago

1287

00:57:54,180 --> 00:57:50,200

I think in 2012 where she attempted to

1288

00:57:56,760 --> 00:57:54,190

get some DNA analysis of I think 17 or

1289

00:57:58,559 --> 00:57:56,770

19 samples I'm not even sure if that

1290

00:57:59,760 --> 00:57:58,569

ended up being the final number could

1291

00:58:04,050 --> 00:57:59,770

you give our listeners maybe a little

1292

00:58:05,640 --> 00:58:04,060

rundown on that what what they did wrong

1293

00:58:07,859 --> 00:58:05,650

what they did right and how we can

1294

00:58:12,120 --> 00:58:07,869

improve it next time right well in fact

1295

00:58:16,260 --> 00:58:12,130

I just published or posted in our

1296

00:58:19,950 --> 00:58:16,270

journal an article by a PhD chemist who

1297

00:58:20,539 --> 00:58:19,960

did a fantastic review of not only dr.

1298

00:58:24,359 --> 00:58:20,549

Ketchum's

1299

00:58:27,900 --> 00:58:24,369

study but dr. Sykes and a couple of

1300

00:58:30,539 --> 00:58:27,910

other DNA analyses of alleged Sasquatch

1301  
00:58:31,749 --> 00:58:30,549  
samples and I'd encourage your reviewers

1302  
00:58:34,089 --> 00:58:31,759  
to to

1303  
00:58:36,759 --> 00:58:34,099  
check that out it's at at the relic

1304  
00:58:41,979 --> 00:58:36,769  
hominid inquiry which is just simply is

1305  
00:58:45,549 --> 00:58:41,989  
you dot e-d-u /rh i but he was actually

1306  
00:58:48,639 --> 00:58:45,559  
quite quite kind and and pointed out

1307  
00:58:52,779 --> 00:58:48,649  
some of the shortcomings i at this point

1308  
00:58:55,929 --> 00:58:52,789  
not so generous in my assessment of that

1309  
00:58:57,879 --> 00:58:55,939  
whole thing having been involved with it

1310  
00:59:00,279 --> 00:58:57,889  
when not involved with it but having

1311  
00:59:03,459 --> 00:59:00,289  
been observing it from the sidelines

1312  
00:59:06,789 --> 00:59:03,469  
pretty much since the since her first

1313  
00:59:08,589 --> 00:59:06,799

exposure to the sasquatch subject but in

1314

00:59:09,819 --> 00:59:08,599

short because we don't have much time

1315

00:59:12,099 --> 00:59:09,829

and I hate to spend too much time on

1316

00:59:14,529 --> 00:59:12,109

this absolutely no credibility

1317

00:59:17,109 --> 00:59:14,539

whatsoever nothing in that report is

1318

00:59:18,789 --> 00:59:17,119

really reliable or none of the

1319

00:59:21,939 --> 00:59:18,799

conclusions was put that way and

1320

00:59:26,289 --> 00:59:21,949

interpretations of the data insofar as

1321

00:59:31,269 --> 00:59:26,299

the data is reliable and and actually

1322

00:59:32,439 --> 00:59:31,279

describing novel sequences like I said

1323

00:59:34,629 --> 00:59:32,449

we could spend the whole hour talking

1324

00:59:37,149 --> 00:59:34,639

about it but I mean you mentioned the

1325

00:59:39,159 --> 00:59:37,159

number of samples so I'll just I'll just

1326

00:59:42,489 --> 00:59:39,169

comment on that I think it was in in

1327

00:59:45,489 --> 00:59:42,499

excess of a hundred samples 101 yeah but

1328

00:59:48,759 --> 00:59:45,499

every one of which every one of which at

1329

00:59:51,659 --> 00:59:48,769

least as reported yielded Sasquatch DNA

1330

00:59:54,279 --> 00:59:51,669

in her assessment now I've screamed

1331

00:59:56,679 --> 00:59:54,289

dozens and dozens of hair samples that

1332

01:00:02,589 --> 00:59:56,689

have been submitted to me and probably

1333

01:00:04,569 --> 01:00:02,599

10% if that our primate hair and the

1334

01:00:06,969 --> 01:00:04,579

question is simply whether it's human or

1335

01:00:09,969 --> 01:00:06,979

whether it's potentially Sasquatch and

1336

01:00:15,009 --> 01:00:09,979

there are there are some characteristics

1337

01:00:17,259 --> 01:00:15,019

that including being uncut most human

1338

01:00:20,219 --> 01:00:17,269

hair samples that you pick up have been

1339

01:00:24,729 --> 01:00:20,229

cut at some point and the end shows that

1340

01:00:27,999 --> 01:00:24,739

that process having taken place but by

1341

01:00:30,399 --> 01:00:28,009

far the majority are of common forms of

1342

01:00:33,429 --> 01:00:30,409

wildlife people don't recognize or

1343

01:00:35,289 --> 01:00:33,439

realize that hair persists in the

1344

01:00:37,539 --> 01:00:35,299

environment to a remarkable degree

1345

01:00:40,599 --> 01:00:37,549

yeah it's resilient it was very

1346

01:00:43,179 --> 01:00:40,609

resilient and so the odds you know I

1347

01:00:44,410 --> 01:00:43,189

would that there was there's a great

1348

01:00:47,770 --> 01:00:44,420

book

1349

01:00:51,550 --> 01:00:47,780

on tracking and I was Elle Brock he

1350

01:00:54,220 --> 01:00:51,560

talks about hair in the final chapters

1351

01:00:55,870 --> 01:00:54,230

of his book and when he has students out

1352

01:00:57,460 --> 01:00:55,880

in the field and they stop for a lunch

1353

01:00:59,980 --> 01:00:57,470

break he won't let them stand up until

1354

01:01:02,350 --> 01:00:59,990

they pick up ten strands of hair and

1355

01:01:04,270 --> 01:01:02,360

once he says you know at first it seems

1356

01:01:06,460 --> 01:01:04,280

like that's impossible but once you get

1357

01:01:08,260 --> 01:01:06,470

a search image for these fibers you

1358

01:01:10,210 --> 01:01:08,270

start finding them all over the place I

1359

01:01:12,070 --> 01:01:10,220

mean they're just everywhere and so when

1360

01:01:13,540 --> 01:01:12,080

a when a witness out there would be

1361

01:01:16,390 --> 01:01:13,550

witness whether they actually did

1362

01:01:18,430 --> 01:01:16,400

encounter a sasquatch or not presumably

1363

01:01:21,670 --> 01:01:18,440

an association plucks a hair from a

1364

01:01:24,460 --> 01:01:21,680

dancer from the branch of a overhanging

1365

01:01:27,070 --> 01:01:24,470

overhanging branch of a tree they they

1366

01:01:29,980 --> 01:01:27,080

may think that that was left by what

1367

01:01:32,200 --> 01:01:29,990

they saw the chances are it was it's

1368

01:01:34,420 --> 01:01:32,210

been there for quite a while and it

1369

01:01:37,690 --> 01:01:34,430

could be one you know some of anything

1370

01:01:40,360 --> 01:01:37,700

it so that the fact that she claimed

1371

01:01:43,540 --> 01:01:40,370

that all of her samples were were

1372

01:01:47,020 --> 01:01:43,550

Sasquatch had no idea that she had said

1373

01:01:48,400 --> 01:01:47,030

that and one of the samples that held at

1374

01:01:51,250 --> 01:01:48,410

the central position and hole in that

1375

01:01:54,760 --> 01:01:51,260

hole analysis and meshed her study

1376

01:01:57,760 --> 01:01:54,770

with the remarkably dubious experiences

1377

01:02:02,320 --> 01:01:57,770

of Justin schmao they suppose a you know

1378

01:02:05,470 --> 01:02:02,330

killer of a sasquatch in California and

1379

01:02:07,960 --> 01:02:05,480

and I was involved with that from very

1380

01:02:10,570 --> 01:02:07,970

early on and it became very obvious that

1381

01:02:12,760 --> 01:02:10,580

that there was no credibility there and

1382

01:02:15,820 --> 01:02:12,770

that the sample that you'd collected was

1383

01:02:18,040 --> 01:02:15,830

not primate you know and I all I had to

1384

01:02:20,680 --> 01:02:18,050

do was look at it under a you know a

1385

01:02:23,170 --> 01:02:20,690

jeweler's loupe and and could tell you

1386

01:02:25,840 --> 01:02:23,180

that it was it was fur it was not hair

1387

01:02:27,670 --> 01:02:25,850

of a primate it was fur at the time I

1388

01:02:29,920 --> 01:02:27,680

thought it was most just looking at it

1389

01:02:31,840 --> 01:02:29,930

visually with a 15 power loop was

1390

01:02:34,300 --> 01:02:31,850

probably something like a coyote it

1391

01:02:37,510 --> 01:02:34,310

turned out it was bear as was confirmed

1392

01:02:40,630 --> 01:02:37,520

by two independent labs separately and

1393

01:02:42,460 --> 01:02:40,640

yet she still included that in her study

1394

01:02:47,350 --> 01:02:42,470

and said that it was the best sample the

1395

01:02:50,620 --> 01:02:47,360

jad oh god yeah yeah it was it was

1396

01:02:54,120 --> 01:02:50,630

unfortunately where it was it was a huge

1397

01:02:56,320 --> 01:02:54,130

distraction well that's that study and

1398

01:02:58,270 --> 01:02:56,330

because that prompted me I mean our our

1399

01:03:00,640 --> 01:02:58,280

my principle objective in

1400

01:03:03,610 --> 01:03:00,650

field was to garner tissues from which

1401  
01:03:06,550 --> 01:03:03,620  
we could do DNA analysis and so when she

1402  
01:03:08,680 --> 01:03:06,560  
claimed that she had you know dozens and

1403  
01:03:11,740 --> 01:03:08,690  
dozens of samples already submitted to

1404  
01:03:14,530 --> 01:03:11,750  
her I kind of pulled back on our on our

1405  
01:03:16,510 --> 01:03:14,540  
field efforts and focused you know it

1406  
01:03:18,910 --> 01:03:16,520  
wasn't a waste of time because I focused

1407  
01:03:21,130 --> 01:03:18,920  
attention on things like launching the

1408  
01:03:23,980 --> 01:03:21,140  
relic hominid inquiry and our virtual

1409  
01:03:27,190 --> 01:03:23,990  
footprints archive and other sort of

1410  
01:03:30,100 --> 01:03:27,200  
laboratory based studies and analyses to

1411  
01:03:32,290 --> 01:03:30,110  
further those but you know we were

1412  
01:03:34,740 --> 01:03:32,300  
crossing our fingers that she was gonna

1413  
01:03:39,430 --> 01:03:34,750

you know pull the rabbit out of the Hat

1414

01:03:42,130 --> 01:03:39,440

unfortunately that's what she pulled out

1415

01:03:43,270 --> 01:03:42,140

a bear some coyotes may be yeah lions

1416

01:03:45,430 --> 01:03:43,280

and tigers and bears oh my

1417

01:03:47,950 --> 01:03:45,440

we're gonna have more creatures coming

1418

01:03:49,570 --> 01:03:47,960

1419

01:03:57,260 --> 01:03:49,580

Jeffrey Meldrum with gene and Chris

1420

01:04:02,400 --> 01:03:59,760

neighbors I want to tell you about my

1421

01:04:04,800 --> 01:04:02,410

favorite graphics app it's the

1422

01:04:06,780 --> 01:04:04,810

award-winning graphic converter you know

1423

01:04:08,670 --> 01:04:06,790

graphic converter is the universal

1424

01:04:11,700 --> 01:04:08,680

genius for photo editing on your Mac

users for this Swiss Army knife photo

1427

01:04:19,560 --> 01:04:17,230

editing app it gives you all you expect

1428

01:04:22,530 --> 01:04:19,570

from a top-flight image editing app with

1429

01:04:25,770 --> 01:04:22,540

tons of features and most important it's

1430

01:04:28,560 --> 01:04:25,780

easy to use it's also far less expensive

1431

01:04:30,960 --> 01:04:28,570

than that other app that you can only

1432

01:04:31,860 --> 01:04:30,970

get by a subscription you know that what

1433

01:04:35,310 --> 01:04:31,870

I'm talking about

1434

01:04:38,250 --> 01:04:35,320

what's more you can get 20% off with

1435

01:04:43,490 --> 01:04:38,260

your order right now so write this down

1436

01:04:57,290 --> 01:04:43,500

to learn about graphic converter go to

1437

01:05:01,860 --> 01:04:59,880

hi this dr. Joel Wallach the dead

1438

01:05:03,270 --> 01:05:01,870

doctors don't lie guy you ever wondered

1439

01:05:05,070 --> 01:05:03,280

why farmers can keep their livestock

1440

01:05:06,360 --> 01:05:05,080

lean and healthy just by eating the

1441

01:05:08,520 --> 01:05:06,370

minerals and a nutrient-dense diet

1442

01:05:09,870 --> 01:05:08,530

before Marcus cut off their middles

1443

01:05:11,700 --> 01:05:09,880

leaving them to crave high-calorie

1444

01:05:13,770 --> 01:05:11,710

grains to fatten them up so weight

1445

01:05:15,510 --> 01:05:13,780

control is this easy why does the

1446

01:05:17,760 --> 01:05:15,520

medical system prescribe invasive

1447

01:05:19,800 --> 01:05:17,770

1526

01:08:25,370 --> 01:08:23,310

we've been talking with dr. Jeffrey

1527

01:08:26,990 --> 01:08:25,380

Meldrum here and and we do have quite a

1528

01:08:29,570 --> 01:08:27,000

number of questions we have covered a

1529

01:08:33,290 --> 01:08:29,580

lot of them already I have one though

1530

01:08:35,990 --> 01:08:33,300

that I think is the \$64,000 question do

1531

01:08:38,210 --> 01:08:36,000

we have you need DNA evidence that

1532

01:08:42,440 --> 01:08:38,220

supports the existence of a bigfoot-type

1533

01:08:44,180 --> 01:08:42,450

animal do do we have any yes no short

1534

01:08:46,490 --> 01:08:44,190

answer is no unfortunately we don't I

1535

01:08:49,880 --> 01:08:46,500

mean there there been a couple of little

1536

01:08:52,550 --> 01:08:49,890

suggestive things you may remember the

1537

01:08:54,950 --> 01:08:52,560

documentary from Monster quest

1538

01:08:58,400 --> 01:08:54,960

where we went up to the Snelgrove lake

1539

01:09:00,710 --> 01:08:58,410

in Ontario yeah had rocks thrown at us

1540

01:09:02,930 --> 01:09:00,720

and there was that infamous nail board

1541

01:09:05,320 --> 01:09:02,940

or screw board and tissues were

1542

01:09:08,050 --> 01:09:05,330

collected from that and one of the

1543

01:09:10,730 --> 01:09:08,060

participants in that outing Kurt Nelson

1544

01:09:14,120 --> 01:09:10,740

went to great lengths to try to get DNA

1545

01:09:16,400 --> 01:09:14,130

from a badly degraded sample and was

1546

01:09:19,010 --> 01:09:16,410

only able to get a small fragment of

1547

01:09:22,790 --> 01:09:19,020

about 300 base pairs but there was an

1548

01:09:25,070 --> 01:09:22,800

interesting substitution that had not

1549

01:09:27,380 --> 01:09:25,080

been reported for humans but was common

1550

01:09:30,470 --> 01:09:27,390

to chimpanzees you know so we know it

1551  
01:09:33,410 --> 01:09:30,480  
was a chimpanzee DNA up there but with

1552  
01:09:36,310 --> 01:09:33,420  
only 300 bases and and given the the

1553  
01:09:38,930 --> 01:09:36,320  
extraordinary lengths he had to go to to

1554  
01:09:41,750 --> 01:09:38,940  
isolate and purify that sample you know

1555  
01:09:43,580 --> 01:09:41,760  
the more you manipulate the more chances

1556  
01:09:46,910 --> 01:09:43,590  
there are for a miss Reed or some

1557  
01:09:48,710 --> 01:09:46,920  
alteration right and so one out of 300

1558  
01:09:52,070 --> 01:09:48,720  
just isn't enough so that was suggestive

1559  
01:09:54,590 --> 01:09:52,080  
but all of Melba's is unreliable is not

1560  
01:09:56,570 --> 01:09:54,600  
definitive by any means of an of an

1561  
01:09:59,240 --> 01:09:56,580  
unknown species and certainly not some

1562  
01:10:01,640 --> 01:09:59,250  
hybrid as she has advocated had

1563  
01:10:03,770 --> 01:10:01,650

advocated long before she ever had DNA

1564

01:10:05,570 --> 01:10:03,780

samples what was the term that you used

1565

01:10:07,550 --> 01:10:05,580

the god gene or something that just

1566

01:10:09,200 --> 01:10:07,560

absolutely blew the the whole thing out

1567

01:10:11,510 --> 01:10:09,210

of the water just just from that one

1568

01:10:14,030 --> 01:10:11,520

term oh yeah I'm not familiar with that

1569

01:10:15,620 --> 01:10:14,040

I get caught yeah cut me off put it

1570

01:10:17,520 --> 01:10:15,630

there on that one I was some term in

1571

01:10:20,190 --> 01:10:17,530

there that that just but the the

1572

01:10:23,730 --> 01:10:20,200

debunkers jumped all over it oh well

1573

01:10:26,940 --> 01:10:23,740

well the most ridiculous things was when

1574

01:10:29,580 --> 01:10:26,950

she published the minimum spanning tree

1575

01:10:31,980 --> 01:10:29,590

to show the affiliation the closest

1576

01:10:35,610 --> 01:10:31,990

affiliations of the sequences to other

1577

01:10:39,560 --> 01:10:35,620

taxa that she had garnered from from the

1578

01:10:44,760 --> 01:10:39,570

databases one of the closest ties was to

1579

01:10:47,040 --> 01:10:44,770

Galago Cressida a you know a Galago it's

1580

01:10:50,790 --> 01:10:47,050

a little prosimian a lemur like thing

1581

01:10:52,380 --> 01:10:50,800

from Madagascar and she went when

1582

01:10:53,850 --> 01:10:52,390

describing this on the radio at one

1583

01:10:56,430 --> 01:10:53,860

point she said you know this this was

1584

01:10:59,700 --> 01:10:56,440

struck us as very odd until we learned

1585

01:11:02,040 --> 01:10:59,710

that there was a subfossil lemur that

1586

01:11:04,170 --> 01:11:02,050

weighed 400 pounds in Madagascar that

1587

01:11:07,470 --> 01:11:04,180

only extinct you know ten thousand years

1588

01:11:11,040 --> 01:11:07,480

ago I did not know that well yeah so but

1589

01:11:16,200 --> 01:11:11,050

so we went from a some subhuman hooking

1590

01:11:20,580 --> 01:11:16,210

up with a European human female to now

1591

01:11:23,420 --> 01:11:20,590

we've got we've got a human female of

1592

01:11:26,130 --> 01:11:23,430

15,000 years ago in Europe somehow

1593

01:11:29,760 --> 01:11:26,140

making it down to Madagascar to hook up

1594

01:11:32,580 --> 01:11:29,770

with a 400-pound lemur dang she gets

1595

01:11:34,920 --> 01:11:32,590

around and from that produced the

1596

01:11:36,720 --> 01:11:34,930

lineage that gave rise to Sasquatch in

1597

01:11:39,930 --> 01:11:36,730

North America and it sounds like a real

1598

01:11:42,650 --> 01:11:39,940

party girl yeah so anyway so that that's

1599

01:11:45,690 --> 01:11:42,660

the the lengths that it went into

1600

01:11:49,400 --> 01:11:45,700

incredulity but but then unfortunately

1601  
01:11:52,530 --> 01:11:49,410  
dr. Sykes is samples did not seem to

1602  
01:11:55,380 --> 01:11:52,540  
yield wealth it would reportedly did not

1603  
01:11:57,360 --> 01:11:55,390  
yield any DNA that couldn't readily be

1604  
01:12:00,210 --> 01:11:57,370  
attributed to common forms of Wildlife

1605  
01:12:02,490 --> 01:12:00,220  
you know I had been very hopeful when

1606  
01:12:04,380 --> 01:12:02,500  
dr. Sykes came on the scene that this

1607  
01:12:07,050 --> 01:12:04,390  
would be you know some redemption for

1608  
01:12:09,240 --> 01:12:07,060  
the debacle that was the Ketchum study

1609  
01:12:12,180 --> 01:12:09,250  
and you know I think he went about it

1610  
01:12:14,510 --> 01:12:12,190  
very systematically although dr. Hart

1611  
01:12:18,180 --> 01:12:14,520  
shows some of the shortcomings in his

1612  
01:12:20,700 --> 01:12:18,190  
experimental design as well and but

1613  
01:12:24,690 --> 01:12:20,710

nevertheless I had offered to you know

1614

01:12:27,780 --> 01:12:24,700

as I said when when I am given hair

1615

01:12:29,280 --> 01:12:27,790

samples there's a lot of chaff there to

1616

01:12:30,420 --> 01:12:29,290

be winnowed away from the from the

1617

01:12:32,430 --> 01:12:30,430

kernel and

1618

01:12:34,380 --> 01:12:32,440

I offered to screen the samples because

1619

01:12:37,410 --> 01:12:34,390

I knew that if he put out a call for

1620

01:12:40,740 --> 01:12:37,420

specimens he'd receive everything under

1621

01:12:44,600 --> 01:12:40,750

the Sun you know and why waste our time

1622

01:12:47,580 --> 01:12:44,610

and effort on things that are obviously

1623

01:12:49,890 --> 01:12:47,590

dear or I gotta have a filter or some

1624

01:12:51,840 --> 01:12:49,900

sort of screening process absolutely you

1625

01:12:54,180 --> 01:12:51,850

know focus your beam a little bit here

1626

01:12:57,930 --> 01:12:54,190

he's in he didn't want to impose any

1627

01:13:00,300 --> 01:12:57,940

preconceptions on the sampling so as you

1628

01:13:03,690 --> 01:13:00,310

can expect everything you know his his

1629

01:13:06,150 --> 01:13:03,700

results were spanned the gambit even to

1630

01:13:08,550 --> 01:13:06,160

porcupine from Texas and I could hold

1631

01:13:10,260 --> 01:13:08,560

the porcupine guard hair up to the light

1632

01:13:12,680 --> 01:13:10,270

and tell you it wasn't the Sasquatch

1633

01:13:15,150 --> 01:13:12,690

hair you know it's that kind of

1634

01:13:17,220 --> 01:13:15,160

unfortunate waste of time and energy and

1635

01:13:18,720 --> 01:13:17,230

but then there were also some other I

1636

01:13:21,090 --> 01:13:18,730

mean there were a number of samples that

1637

01:13:24,360 --> 01:13:21,100

went unaccounted for there were a number

1638

01:13:27,210 --> 01:13:24,370

that I personally sent to him that that

1639

01:13:29,810 --> 01:13:27,220

I did screen that matched what we think

1640

01:13:32,700 --> 01:13:29,820

is the gold standard of morphology

1641

01:13:34,770 --> 01:13:32,710

perfectly I mean they these were samples

1642

01:13:37,140 --> 01:13:34,780

that came from that were a couple from

1643

01:13:39,630 --> 01:13:37,150

Texas there was one from British

1644

01:13:43,500 --> 01:13:39,640

Columbia one from Washington I remember

1645

01:13:45,570 --> 01:13:43,510

and they they just you know looked spot

1646

01:13:48,150 --> 01:13:45,580

on what we think a Sasquatch hair looks

1647

01:13:50,610 --> 01:13:48,160

like under the microscope and they

1648

01:13:53,010 --> 01:13:50,620

didn't seem to be included so my fear

1649

01:13:56,640 --> 01:13:53,020

was that there were samples that

1650

01:14:00,030 --> 01:13:56,650

morphologically were very spot on but as

1651

01:14:02,100 --> 01:14:00,040

has been the case in the past have we've

1652

01:14:05,100 --> 01:14:02,110

been unable to get DNA from them because

1653

01:14:08,130 --> 01:14:05,110

they have features like a cellular

1654

01:14:11,220 --> 01:14:08,140

medulla that makes extracting DNA from a

1655

01:14:15,150 --> 01:14:11,230

hair shaft without an actively growing

1656

01:14:17,910 --> 01:14:15,160

bulb a follicle rather challenging and

1657

01:14:21,930 --> 01:14:17,920

so I've not followed through with this

1658

01:14:24,720 --> 01:14:21,940

query to dr. Sykes but I'm I suspect

1659

01:14:27,780 --> 01:14:24,730

that some of the samples that didn't

1660

01:14:29,070 --> 01:14:27,790

yield DNA went unreported and in fact

1661

01:14:31,920 --> 01:14:29,080

those might have been the most

1662

01:14:34,590 --> 01:14:31,930

interesting interesting how that that's

1663

01:14:36,900 --> 01:14:34,600

the case well yeah

1664

01:14:40,140 --> 01:14:36,910

whatever the case may be we're still

1665

01:14:42,390 --> 01:14:40,150

unfortunately at home home plate when it

1666

01:14:44,189 --> 01:14:42,400

comes to we haven't even got the

1667

01:14:48,029 --> 01:14:44,199

first-base yet when it comes to

1668

01:14:50,489 --> 01:14:48,039

a DNA analysis to demonstrate a novel

1669

01:14:52,229 --> 01:14:50,499

species by that means well let's get to

1670

01:14:55,680 --> 01:14:52,239

some of our questions I have a one from

1671

01:14:58,350 --> 01:14:55,690

F workman who's been a poster at forum

1672

01:14:59,850 --> 01:14:58,360

dr. Peric ascom you go to the question

1673

01:15:02,640 --> 01:14:59,860

Bank and you can write your questions

1674

01:15:05,310 --> 01:15:02,650

out that we then relay on to our guests

1675

01:15:07,799 --> 01:15:05,320

this is an interesting one a number of

1676

01:15:11,129 --> 01:15:07,809

cases that I've investigated have

1677

01:15:14,339 --> 01:15:11,139

featured strange premonitions that the

1678

01:15:17,040 --> 01:15:14,349

witness has claims to have had before an

1679

01:15:19,620 --> 01:15:17,050

encounter and his question is some

1680

01:15:21,779 --> 01:15:19,630

witnesses have experienced so-called

1681

01:15:24,000 --> 01:15:21,789

paranormal happenings or sensations when

1682

01:15:25,500 --> 01:15:24,010

encountering Bigfoot and he's wondering

1683

01:15:27,689 --> 01:15:25,510

if you have any theories why some

1684

01:15:30,209 --> 01:15:27,699

witness have felt a presence like an

1685

01:15:33,839 --> 01:15:30,219

abnormal feeling of fear or dread before

1686

01:15:36,449 --> 01:15:33,849

a visual olfactory or some sort of sonic

1687

01:15:40,169 --> 01:15:36,459

event that they can in their own minds a

1688

01:15:43,109 --> 01:15:40,179

tribute to Sasquatch right well short of

1689

01:15:46,439 --> 01:15:43,119

appealing to a paranormal or

1690

01:15:50,339 --> 01:15:46,449

parapsychological explanation if there

1691

01:15:52,469 --> 01:15:50,349

is a biological explanation one that I

1692

01:15:54,839 --> 01:15:52,479

have entertained and have discussed at

1693

01:15:57,540 --> 01:15:54,849

some length in my book in the chapter on

1694

01:15:59,729 --> 01:15:57,550

vocalizations is the the notion of

1695

01:16:03,180 --> 01:15:59,739

infrasound and I know that infrasound

1696

01:16:05,910 --> 01:16:03,190

has gotten a lot of mileage and an

1697

01:16:09,209 --> 01:16:05,920

embellishment along the way I think the

1698

01:16:12,359 --> 01:16:09,219

the the term of late has been being

1699

01:16:15,870 --> 01:16:12,369

zapped by a Bigfoot but there is this

1700

01:16:18,449 --> 01:16:15,880

interesting combination of factors we

1701

01:16:20,729 --> 01:16:18,459

know now that a lot of animals employ

1702

01:16:24,239 --> 01:16:20,739

infrasonic frequencies in their

1703

01:16:26,580 --> 01:16:24,249

vocalizations whether it's to broadcast

1704

01:16:29,520 --> 01:16:26,590

to their Khan's Pacific's over great

1705

01:16:31,469 --> 01:16:29,530

distance like elephants when it was one

1706

01:16:32,969 --> 01:16:31,479

of the first terrestrial species right

1707

01:16:36,000 --> 01:16:32,979

they could communicate through 30 feet

1708

01:16:38,040 --> 01:16:36,010

of concrete exactly and over kilometers

1709

01:16:39,689 --> 01:16:38,050

of distance more to come with dr.

1710

01:16:48,470 --> 01:16:39,699

Jeffrey Meldrum with gene and Chris

1711

01:16:57,129 --> 01:16:52,120

thank you for listening to GCS

1712

01:17:01,250 --> 01:17:00,020

did you know your car can be hacked just

1713

01:17:03,080 --> 01:17:01,260

like your computer or phone

1714

01:17:05,720 --> 01:17:03,090

hackers can hijack the signal of your

1715

01:17:07,910 --> 01:17:05,730

own key fob to burglarize your vehicle

1716

01:17:09,950 --> 01:17:07,920

in seconds the black hole Faraday key

1717

01:17:12,020 --> 01:17:09,960

fob bag is a signal and penetrable

1718

01:17:14,419 --> 01:17:12,030

shield that stops these hacks in their

1719

01:17:16,939 --> 01:17:14,429

tracks protect one of your most valuable

1720

01:17:19,549 --> 01:17:16,949

assets go to hack proof bag calm

1721

01:17:22,339 --> 01:17:19,559

that's hack proof bag calm and use promo

1722

if your teeth are stained from coffee

1727

01:17:34,220 --> 01:17:32,489

tea or smoking power swabs is the answer

1728

01:17:36,200 --> 01:17:34,230

in five minutes you'll see two shades

1729

01:17:36,620 --> 01:17:36,210

whiter teeth and in seven days six

1730

01:17:38,270 --> 01:17:36,630

shades

1731

01:17:39,500 --> 01:17:38,280

there's no messy strips or trays that

1732

01:17:40,910 --> 01:17:39,510

you have to leave in your mouth for an

1733

01:17:42,589 --> 01:17:40,920

hour just swab your teeth for five

1734

01:17:45,200 --> 01:17:42,599

minutes and you're done to try power

1800

01:20:02,740 --> 01:20:00,650

winter has just begun and are you

1801  
01:20:04,300 --> 01:20:02,750  
already tired of being cold how would

1802  
01:20:06,490 --> 01:20:04,310  
you like to never be cold again

1803  
01:20:09,220 --> 01:20:06,500  
this is Dale with forretress clothing

1804  
01:20:11,919 --> 01:20:09,230  
and I'm here to tell you you will never

1805  
01:20:14,140 --> 01:20:11,929  
be cold again with forretress if you're

1806  
01:20:16,180 --> 01:20:14,150  
tired of freezing your butt off I coming

1807  
01:20:19,780 --> 01:20:16,190  
sitting in a tree stand deer hunting

1808  
01:20:22,359 --> 01:20:19,790  
winter camping fishing ice fishing no

1809  
01:20:26,109 --> 01:20:22,369  
longer fear the cold if you snowmobile

1810  
01:20:28,479 --> 01:20:26,119  
ski snowboard get fortress sledding with

1811  
01:20:30,280 --> 01:20:28,489  
the kids shoveling the walks shopping or

1812  
01:20:32,709 --> 01:20:30,290  
if you or your spouse get cold feet at

1813  
01:20:34,930 --> 01:20:32,719

home get fortress if you're stuck

1814

01:20:37,450 --> 01:20:34,940

outside working in the cold or find

1815

01:20:39,520 --> 01:20:37,460

yourself in an emergency situation get

1816

01:20:41,770 --> 01:20:39,530

our winter bug out bag and you will

1817

01:20:43,540 --> 01:20:41,780

never be cold again fortress is the

1818

01:20:45,100 --> 01:20:43,550

answer so quit complaining and go to

1819

01:20:46,839 --> 01:20:45,110

fortress clothing calm

1820

01:20:49,060 --> 01:20:46,849

it's a mid-layer garment that goes with

1821

01:20:52,689 --> 01:20:49,070

anything you want to wear enter coupon

1822

01:20:54,240 --> 01:20:52,699

code radio and get 20% off any item go

1823

01:21:00,130 --> 01:20:54,250

now while we still have inventory

1824

01:21:00,140 --> 01:21:04,190

[Music]

1825

01:21:09,000 --> 01:21:07,470

this is 37 the author of you up on the

1826

01:21:14,160 --> 01:21:09,010

streets and you're listening to the

1827

01:21:15,810 --> 01:21:14,170

podcast hey I heard a commercial the

1828

01:21:18,720 --> 01:21:15,820

other day for a very respectable

1829

01:21:20,940 --> 01:21:18,730

advertiser my pillow you know get very

1830

01:21:24,090 --> 01:21:20,950

comfortable pillow and everything in the

1831

01:21:26,430 --> 01:21:24,100

world you know GCN is signing up some

1832

01:21:29,100 --> 01:21:26,440

mainstream advertisers oh we must be

1833

01:21:30,570 --> 01:21:29,110

doing something right there gene well

1834

01:21:32,729 --> 01:21:30,580

I'm not getting paid for it you're not

1835

01:21:35,130 --> 01:21:32,739

getting paid it doesn't really help we

1836

01:21:36,540 --> 01:21:35,140

have dr. Jeffrey Meldrum and we didn't

1837

01:21:38,880 --> 01:21:36,550

pay him either he's just a nice guy

1838

01:21:41,220 --> 01:21:38,890

that's why he shows up very nice very

1839

01:21:43,170 --> 01:21:41,230

gracious to come on the show we do

1840

01:21:45,360 --> 01:21:43,180

consider ourselves kind of the the 60

1841

01:21:47,250 --> 01:21:45,370

minutes of the paranormal we don't you

1842

01:21:49,260 --> 01:21:47,260

know suspend our disbelief and in

1843

01:21:52,979 --> 01:21:49,270

scratch our guests bellies we make him

1844

01:21:55,800 --> 01:21:52,989

work here's some more questions that are

1845

01:21:57,780 --> 01:21:55,810

pretty interesting this is from Ron away

1846

01:21:59,880 --> 01:21:57,790

he's been a longtime poster at forum dr.

1847

01:22:02,520 --> 01:21:59,890

Peric ascom where you guys get to ask

1848

01:22:04,979 --> 01:22:02,530

questions of our wonderful guests and he

1849

01:22:06,720 --> 01:22:04,989

says as with UFO sightings he believes

1850

01:22:07,890 --> 01:22:06,730

that it is ludicrous to think that all

1851  
01:22:11,490 --> 01:22:07,900  
Sasquatch sightings are either

1852  
01:22:13,320 --> 01:22:11,500  
fabricated or a misidentification do you

1853  
01:22:15,030 --> 01:22:13,330  
believe that the government agencies are

1854  
01:22:17,250 --> 01:22:15,040  
fully aware of the creatures existence

1855  
01:22:19,830 --> 01:22:17,260  
and if so what is your favorite theory

1856  
01:22:22,080 --> 01:22:19,840  
for the cover-up I know there are a lot

1857  
01:22:24,870 --> 01:22:22,090  
of there are a lot of people out there

1858  
01:22:26,940 --> 01:22:24,880  
who have experiences or claimed

1859  
01:22:29,850 --> 01:22:26,950  
experiences with men in black and

1860  
01:22:32,660 --> 01:22:29,860  
unmarked aircraft and so forth I've not

1861  
01:22:36,500 --> 01:22:32,670  
had any of those you know either I'm

1862  
01:22:38,880 --> 01:22:36,510  
disseminating great disinformation

1863  
01:22:41,400 --> 01:22:38,890

unwittingly and so they're just letting

1864

01:22:45,180 --> 01:22:41,410

me go or Laura has been suggested that

1865

01:22:46,979 --> 01:22:45,190

if I was intimidated or or accosted that

1866

01:22:48,959 --> 01:22:46,989

it would be I'd be too visual or too

1867

01:22:50,820 --> 01:22:48,969

visible rather too much in the public

1868

01:22:53,430 --> 01:22:50,830

eye so they have to just kind of let me

1869

01:22:56,430 --> 01:22:53,440

go on my own but the experiences I have

1870

01:22:58,860 --> 01:22:56,440

had where there has been intentional

1871

01:23:02,790 --> 01:22:58,870

overt suppression of information or

1872

01:23:04,800 --> 01:23:02,800

evidence it has primarily resulted from

1873

01:23:06,360 --> 01:23:04,810

you know much like in the scientific

1874

01:23:09,180 --> 01:23:06,370

community is this attitude that it can't

1875

01:23:11,360 --> 01:23:09,190

exist it's a wild goose chase I don't

1876

01:23:15,290 --> 01:23:11,370

want I don't want to be embarrassed by

1877

01:23:19,700 --> 01:23:15,300

any reports that are taking place on my

1878

01:23:22,160 --> 01:23:19,710

or - I don't want to be challenged about

1879

01:23:24,920 --> 01:23:22,170

spending taxpayers money you may have

1880

01:23:27,590 --> 01:23:24,930

seen that the ridiculous news coverage

1881

01:23:29,000 --> 01:23:27,600

about an event that I participated down

1882

01:23:31,370 --> 01:23:29,010

at the University of New Mexico at

1883

01:23:34,730 --> 01:23:31,380

Gallup yeah we're an unscrupulous

1884

01:23:38,540 --> 01:23:34,740

reporter teamed up with a desperate

1885

01:23:40,910 --> 01:23:38,550

politician to try to create a scandal to

1886

01:23:43,310 --> 01:23:40,920

get publicity for his re-election bid

1887

01:23:47,480 --> 01:23:43,320

apparently is what it seems to boil down

1888

01:23:48,860 --> 01:23:47,490

to but a public event that was was well

1889

01:23:52,310 --> 01:23:48,870

known for months and months and months

1890

01:23:55,280 --> 01:23:52,320

it suddenly became a hot topic and and

1891

01:24:00,560 --> 01:23:55,290

the the bottom line was how was state

1892

01:24:04,510 --> 01:24:00,570

money being spent to finance a gathering

1893

01:24:07,520 --> 01:24:04,520

a conference on Bigfoot now and to

1894

01:24:09,890 --> 01:24:07,530

underwrite some field exploration to

1895

01:24:12,020 --> 01:24:09,900

visit some of the sites and see some of

1896

01:24:14,870 --> 01:24:12,030

the habitats and visit with some of the

1897

01:24:17,690 --> 01:24:14,880

local witnesses you know so that those

1898

01:24:20,420 --> 01:24:17,700

two things I think are are much more

1899

01:24:25,130 --> 01:24:20,430

there certainly there's also you know in

1900

01:24:27,680 --> 01:24:25,140

the industry you know the the forest or

1901  
01:24:31,490 --> 01:24:27,690  
logging industry certainly doesn't want

1902  
01:24:33,890 --> 01:24:31,500  
to have a lot of amateur investigators

1903  
01:24:36,320 --> 01:24:33,900  
trumping through and trespassing on

1904  
01:24:38,240 --> 01:24:36,330  
private property so I think there's a

1905  
01:24:41,240 --> 01:24:38,250  
potential for suppression of information

1906  
01:24:44,000 --> 01:24:41,250  
there you hear stories about loggers who

1907  
01:24:45,710 --> 01:24:44,010  
are told to just don't tell you know

1908  
01:24:47,750 --> 01:24:45,720  
don't talk about it we don't want to

1909  
01:24:50,170 --> 01:24:47,760  
draw attention we don't want this to be

1910  
01:24:53,330 --> 01:24:50,180  
the mother of all spotted owl type

1911  
01:24:57,100 --> 01:24:53,340  
situations oh boy that would be the last

1912  
01:25:02,570 --> 01:24:59,720  
you know in the national parks for

1913  
01:25:04,400 --> 01:25:02,580

example the I know of Rangers who had

1914

01:25:08,540 --> 01:25:04,410

experiences but they never reported up

1915

01:25:13,730 --> 01:25:08,550

the line and and there's because of fear

1916

01:25:15,200 --> 01:25:13,740

of retribution or criticism or some sort

1917

01:25:16,730 --> 01:25:15,210

of blowback look just like pilots and

1918

01:25:20,420 --> 01:25:16,740

UFO sighting it's the same sort of thing

1919

01:25:23,360 --> 01:25:20,430

right yeah that's very similar well he

1920

01:25:25,340 --> 01:25:23,370

another question from eff workman is

1921

01:25:26,270 --> 01:25:25,350

he's wondering you know you've ever had

1922

01:25:29,210 --> 01:25:26,280

counter during one of your

1923

01:25:31,850 --> 01:25:29,220

investigations or have you had any other

1924

01:25:33,590 --> 01:25:31,860

types of so-called paranormal I put in

1925

01:25:36,140 --> 01:25:33,600

so-called because it's such a catch-all

1926

01:25:39,230 --> 01:25:36,150

phrase so-called paranormal experiences

1927

01:25:41,240 --> 01:25:39,240

while investigating the case well I have

1928

01:25:44,690 --> 01:25:41,250

in the introduction to my book I

1929

01:25:47,540 --> 01:25:44,700

described one close encounter that was

1930

01:25:50,330 --> 01:25:47,550

quite interesting not a visual encounter

1931

01:25:52,250 --> 01:25:50,340

but under the cover of fog that had

1932

01:25:54,920 --> 01:25:52,260

rolled in off the California coast into

1933

01:25:56,630 --> 01:25:54,930

the into the six rivers area

1934

01:25:58,790 --> 01:25:56,640

we had something rifling through

1935

01:26:02,210 --> 01:25:58,800

backpacks and brushing against ten

1936

01:26:05,060 --> 01:26:02,220

against tents and rain flies but able to

1937

01:26:07,400 --> 01:26:05,070

just kind of dissolve back into the into

1938

01:26:11,360 --> 01:26:07,410

the murk when we get out of our tents

1939

01:26:13,880 --> 01:26:11,370

but was leaving 16-inch footprints wow

1940

01:26:16,580 --> 01:26:13,890

that's pretty up close and personal yeah

1941

01:26:19,610 --> 01:26:16,590

I may have had a visual encounter just

1942

01:26:25,460 --> 01:26:19,620

last fall

1943

01:26:28,610 --> 01:26:25,470

not in 2015 I was up in Alberta with an

1944

01:26:30,350 --> 01:26:28,620

investigator there and saw just just a

1945

01:26:33,770 --> 01:26:30,360

silhouetted what what seemed to be a

1946

01:26:35,330 --> 01:26:33,780

silhouetted figure that was in context

1947

01:26:40,060 --> 01:26:35,340

of something that had approached our

1948

01:26:44,240 --> 01:26:40,070

camp was pop and brush had vocalized and

1949

01:26:47,800 --> 01:26:44,250

was reacting to our attempts to talk at

1950

01:26:50,570 --> 01:26:47,810

it you know you you you you try to

1951

01:26:53,060 --> 01:26:50,580

reassuringly speak to it and suddenly it

1952

01:26:56,150 --> 01:26:53,070

sounded like a baseball bat was cracked

1953

01:26:58,960 --> 01:26:56,160

and broken into that kind of thing and

1954

01:27:02,180 --> 01:26:58,970

then it broke from the shadows and and

1955

01:27:04,760 --> 01:27:02,190

quickly walked across the road into the

1956

01:27:07,340 --> 01:27:04,770

shadows the opposite side this being

1957

01:27:09,470 --> 01:27:07,350

observed through night vision not

1958

01:27:11,240 --> 01:27:09,480

certain you know I'd say there's much

1959

01:27:13,220 --> 01:27:11,250

better than a 50/50 chance that it would

1960

01:27:16,250 --> 01:27:13,230

indeed it was a Bigfoot given the

1961

01:27:20,480 --> 01:27:16,260

context especially would up that perhaps

1962

01:27:23,840 --> 01:27:20,490

you know to 70% well we're now Berta was

1963

01:27:26,900 --> 01:27:23,850

that it was about midway up straight

1964

01:27:30,580 --> 01:27:26,910

west from Calgary right up against the

1965

01:27:32,930 --> 01:27:30,590

Rocky Mountains just north of the of the

1966

01:27:35,390 --> 01:27:32,940

both shocks just went blank having a

1967

01:27:37,399 --> 01:27:35,400

senior moment here what low around Lake

1968

01:27:39,770 --> 01:27:37,409

Louise Saskatchewan River area there

1969

01:27:40,490 --> 01:27:39,780

yeah yeah roughly I think yet that

1970

01:27:43,550 --> 01:27:40,500

sounds right

1971

01:27:46,010 --> 01:27:43,560

yeah no that's my favorite place in

1972

01:27:50,090 --> 01:27:46,020

North America that's unbelievably

1973

01:27:51,379 --> 01:27:50,100

beautiful up there and that is boy if I

1974

01:27:56,959 --> 01:27:51,389

was a Bigfoot that's where I'd want to

1975

01:28:00,260 --> 01:27:56,969

live I heard years ago the story

1976

01:28:03,950 --> 01:28:00,270

circulating around the local Washington

1977

01:28:06,500 --> 01:28:03,960

State Bigfoot community of a supposedly

1978

01:28:09,050 --> 01:28:06,510

a community of Bigfoot right in the

1979

01:28:10,700 --> 01:28:09,060

center of British Columbia in a very

1980

01:28:12,919 --> 01:28:10,710

very closed off valley that there was

1981

01:28:17,240 --> 01:28:12,929

only one way in and one way out and that

1982

01:28:20,419 --> 01:28:17,250

there were two huge furs or had western

1983

01:28:22,129 --> 01:28:20,429

red cedars or some huge conifer the two

1984

01:28:24,979 --> 01:28:22,139

of them had been pulled down and bowed

1985

01:28:26,750 --> 01:28:24,989

down and tied together lashed together

1986

01:28:30,050 --> 01:28:26,760

like a big McDonald's arch at the

1987

01:28:32,840 --> 01:28:30,060

entrance to this particular valley and

1988

01:28:35,780 --> 01:28:32,850

that there was a sizable community of

1989

01:28:37,640 --> 01:28:35,790

these creatures living in there and it's

1990

01:28:40,669 --> 01:28:37,650

seemed to be some sort of central point

1991

01:28:42,830 --> 01:28:40,679

and that there actually was a social

1992

01:28:44,649 --> 01:28:42,840

very large social group there have you

1993

01:28:48,700 --> 01:28:44,659

ever heard anything like that before I

1994

01:28:51,020 --> 01:28:48,710

haven't no not not to that extent but

1995

01:28:53,330 --> 01:28:51,030

again my question would be you know

1996

01:28:55,820 --> 01:28:53,340

what's the basis for that for that

1997

01:28:59,300 --> 01:28:55,830

assertion is there right right there any

1998

01:29:02,570 --> 01:28:59,310

any evidence to remember it was a bush

1999

01:29:05,030 --> 01:29:02,580

pilot that flew over it and was was so

2000

01:29:07,879 --> 01:29:05,040

frightened about it he did mention it to

2001

01:29:10,669 --> 01:29:07,889

some people but but never really went to

2002

01:29:13,520 --> 01:29:10,679

the authorities or or went anywhere

2003

01:29:15,080 --> 01:29:13,530

further with it because he number one he

2004

01:29:17,510 --> 01:29:15,090

was just too afraid for his own

2005

01:29:21,290 --> 01:29:17,520

reputation as understandably so and and

2006

01:29:22,550 --> 01:29:21,300

number two he felt that that he would he

2007

01:29:25,689 --> 01:29:22,560

felt that he would be doing the

2008

01:29:28,700 --> 01:29:25,699

community a disservice if he actually

2009

01:29:30,260 --> 01:29:28,710

location and people did try to backtrack

2010

01:29:33,169 --> 01:29:30,270

his flight path and stuff I mean there's

2011

01:29:35,450 --> 01:29:33,179

you hear stories all the time that one

2012

01:29:40,070 --> 01:29:35,460

was the only one that I've ever heard

2013

01:29:42,410 --> 01:29:40,080

that talked about an actual group larger

2014

01:29:46,430 --> 01:29:42,420

than let's say a family group as

2015

01:29:48,680 --> 01:29:46,440

described by like an Albert Ostman back

2016

01:29:50,650 --> 01:29:48,690

when he said he was abducted by one and

2017

01:29:54,550 --> 01:29:50,660

brought to a cave blah blah blah

2018

01:29:57,130 --> 01:29:54,560

which I've never really fully kind of

2019

01:29:59,920 --> 01:29:57,140

embraced that particular account but how

2020

01:30:03,430 --> 01:29:59,930

about Jacko well supposedly in the 1880s

2021

01:30:09,880 --> 01:30:03,440

a railroad sideshow kind of circus

2022

01:30:12,580 --> 01:30:09,890

allegedly had a a juvenile Bigfoot that

2023

01:30:13,810 --> 01:30:12,590

was on display for a number of weeks

2024

01:30:17,050 --> 01:30:13,820

that would be able to wrench a part

2025

01:30:19,900 --> 01:30:17,060

would in a very unnatural impossible way

2026

01:30:22,060 --> 01:30:19,910

and and I've been for years I tried to

2027

01:30:24,390 --> 01:30:22,070

search down there's some alleged

2028

01:30:26,200 --> 01:30:24,400

photographs that have been taken of it

2029

01:30:28,000 --> 01:30:26,210

does that ring a bell that was

2030

01:30:31,600 --> 01:30:28,010

absolutely though that's one of the

2031

01:30:32,500 --> 01:30:31,610

classics in or I think the person who's

2032

01:30:34,120 --> 01:30:32,510

probably done some of the most

2033

01:30:36,730 --> 01:30:34,130

investigation of that is Christopher

2034

01:30:38,260 --> 01:30:36,740

2146

01:35:08,040 --> 01:35:05,980

this is the wrong tire co-author of UFO

2147

01:35:10,810 --> 01:35:08,050

on Cyclopes other books when you're

2148

01:35:21,120 --> 01:35:10,820

listening to the para cast

2149

01:35:26,470 --> 01:35:24,100

so as we progress towards the final leg

2150

01:35:30,460 --> 01:35:26,480

of our journey here let me remind you

2151

01:35:32,320 --> 01:35:30,470

that we do have a free para cast plus

2152

01:35:35,020 --> 01:35:32,330

sampler at our forums that formed out

2153

01:35:36,880 --> 01:35:35,030

the power cast com we have three or four

2154

01:35:39,100 --> 01:35:36,890

samples up there where we give you a

2155

01:35:42,040 --> 01:35:39,110

sample of the commercial free version of

2156

01:35:44,380 --> 01:35:42,050

the power cast a sample of after the

2157

01:35:46,870 --> 01:35:44,390

power cast and one of the videos then

2158

01:35:49,030 --> 01:35:46,880

we've posted and you could check those

2159

01:35:52,300 --> 01:35:49,040

out and if you like what you hear

2160

01:35:55,120 --> 01:35:52,310

just subscribe but plus dot the power

2161

01:36:00,160 --> 01:35:55,130

cast com that's PL us not the power cast

2162

01:36:04,450 --> 01:36:00,170

com the prices start at just \$4.99 our

2163

01:36:06,760 --> 01:36:04,460

price cheap SP \$4.99 was that less than

2164

01:36:09,610 --> 01:36:06,770

a Starbucks Chris what's a Starbucks

2165

01:36:11,140 --> 01:36:09,620

coffee cost now I have I don't go to

2166

01:36:13,600 --> 01:36:11,150

Starbucks I heard they just recently

2167

01:36:16,420 --> 01:36:13,610

raised their prices so it's even less

2168

01:36:19,390 --> 01:36:16,430

now so therefore the power cast plus

2169

01:36:21,790 --> 01:36:19,400

becomes an ever greater value makes a

2170

01:36:25,030 --> 01:36:21,800

great Christmas gift for your paranormal

2171

01:36:27,370 --> 01:36:25,040

boyfriend or paranormal girlfriend or

2172

01:36:30,270 --> 01:36:27,380

whatever girlfriend or your imaginary

2173

01:36:32,440 --> 01:36:30,280

girlfriend I'm sure she'd like that too

2174

01:36:35,320 --> 01:36:32,450

that's right you can have an imaginary

2175

01:36:38,200 --> 01:36:35,330

viewing plus doc the power cast comm we

2176

01:36:39,340 --> 01:36:38,210

have the not imaginary doctor Jeffrey

2177

01:36:42,700 --> 01:36:39,350

Meldrum I know he's not imaginary

2178

01:36:45,760 --> 01:36:42,710

because he has his webcam on we know you

2179

01:36:47,230 --> 01:36:45,770

actually see he's a real person see no

2180

01:36:49,330 --> 01:36:47,240

one ever sees what I really look like

2181

01:36:51,190 --> 01:36:49,340

they just see this strange avatar

2182

01:36:55,900 --> 01:36:51,200

because we don't want to let them know

2183

01:36:57,820 --> 01:36:55,910

that so my webcam is forever off here's

2184

01:37:00,910 --> 01:36:57,830

a good question Jane from Harry Newton

2185

01:37:03,520 --> 01:37:00,920

who's one of our listeners in the London

2186

01:37:05,770 --> 01:37:03,530

area London England where there are no

2187

01:37:07,210 --> 01:37:05,780

Bigfoot except for occasional

2188

01:37:10,900 --> 01:37:07,220

politicians that Trump through the

2189

01:37:12,460 --> 01:37:10,910

countryside I finally had a collection

2190

01:37:16,330 --> 01:37:12,470

of those but I didn't want to get into

2191

01:37:19,480 --> 01:37:16,340

politics okay now you are an expert on

2192

01:37:22,870 --> 01:37:19,490

bipedal feet and he's wondering with all

2193

01:37:24,340 --> 01:37:22,880

the wonderful plaster casts you probably

2194

01:37:25,520 --> 01:37:24,350

have one of the largest collections in

2195

01:37:28,670 --> 01:37:25,530

the world I would imagine

2196

01:37:30,440 --> 01:37:28,680

which one is your favorite and why yeah

2197

01:37:32,600 --> 01:37:30,450

I get that asked frequently when I'm at

2198

01:37:35,360 --> 01:37:32,610

conferences and have a variety of these

2199

01:37:38,720 --> 01:37:35,370

on display it's hard to single one out

2200

01:37:41,090 --> 01:37:38,730

because each one has its own unique set

2201

01:37:43,670 --> 01:37:41,100

of circumstances and and often

2202

01:37:45,980 --> 01:37:43,680

illustrates a particular point and so

2203

01:37:50,300 --> 01:37:45,990

I'm you know I utilize many different

2204

01:37:52,670 --> 01:37:50,310

examples to make those points I mean one

2205

01:37:56,450 --> 01:37:52,680

one that then you know I was delighted

2206

01:37:58,460 --> 01:37:56,460

to to have access to was a cast that was

2207

01:38:01,160 --> 01:37:58,470

made by Bob timís at the

2208

01:38:03,970 --> 01:38:01,170

patterson-gimlin film site which has

2209

01:38:07,850 --> 01:38:03,980

proved to be you know quite central to

2210

01:38:10,010 --> 01:38:07,860

my modeling of the form and function of

2211

01:38:12,200 --> 01:38:10,020

the Sasquatch foot and the distinctions

2212

01:38:14,630 --> 01:38:12,210

that it exhibits by comparison by

2213

01:38:16,670 --> 01:38:14,640

contrast to the human foot and this

2214

01:38:19,720 --> 01:38:16,680

track has a very distinctive pressure

2215

01:38:22,850 --> 01:38:19,730

Ridge preserved within it that

2216

01:38:25,130 --> 01:38:22,860

illustrates this function of the mid

2217

01:38:27,560 --> 01:38:25,140

tarsal brake or the mid foot flexibility

2218

01:38:29,060 --> 01:38:27,570

that is it seems to be very

2219

01:38:32,870 --> 01:38:29,070

characteristic of the Sasquatch tracks

2220

01:38:34,880 --> 01:38:32,880

it shows the arch the foot arch well no

2221

01:38:36,830 --> 01:38:34,890

it's not arched that's the whole point

2222

01:38:39,500 --> 01:38:36,840

is you know that the tracks that Roger

2223

01:38:42,320 --> 01:38:39,510

Patterson cast were remarkably flat

2224

01:38:44,540 --> 01:38:42,330

looking no arch with differential

2225

01:38:47,030 --> 01:38:44,550

pressure under the heel involved the

2226

01:38:49,550 --> 01:38:47,040

foot at all and that that caused the

2227

01:38:51,980 --> 01:38:49,560

experts at the time if they can be

2228

01:38:55,430 --> 01:38:51,990

called that you know at that time back

2229

01:38:58,280 --> 01:38:55,440

in the 60s the study of human locomotion

2230

01:39:00,080 --> 01:38:58,290

and footprints was you know as far as

2231

01:39:02,780 --> 01:39:00,090

evolutionary history was was in its

2232

01:39:04,400 --> 01:39:02,790

infancy but because of the flatness of

2233

01:39:06,470 --> 01:39:04,410

the tracks that he presented them with

2234

01:39:09,200 --> 01:39:06,480

it was easy for them to just dismiss

2235

01:39:11,450 --> 01:39:09,210

them as you know the result of static

2236

01:39:11,930 --> 01:39:11,460

prosthetics carved wooden feet you know

2237

01:39:15,200 --> 01:39:11,940

like

2238

01:39:17,780 --> 01:39:15,210

Wallace has asserted but the other track

2239

01:39:19,640 --> 01:39:17,790

show remarkable dynamics and again it's

2240

01:39:22,610 --> 01:39:19,650

not an arch but it's due to that

2241

01:39:26,000 --> 01:39:22,620

flexibility of the flat foot the heel is

2242

01:39:28,370 --> 01:39:26,010

elevated first with flexion through the

2243

01:39:30,590 --> 01:39:28,380

mid foot weight transferred to the

2244

01:39:33,050 --> 01:39:30,600

forefoot and under the appropriate

2245

01:39:35,540 --> 01:39:33,060

conditions plasticity of the substrate

2246

01:39:38,810 --> 01:39:35,550

and the forward impulse you'll sometimes

2247

01:39:40,370 --> 01:39:38,820

get a pressure release or pressure disc

2248

01:39:43,310 --> 01:39:40,380

okay so it's a release from the front

2249

01:39:45,590 --> 01:39:43,320

towards the back yes exactly okay

2250

01:39:46,490 --> 01:39:45,600

sometimes it actually displaces material

2251

01:39:48,830 --> 01:39:46,500

back into the heel

2252

01:39:51,350 --> 01:39:48,840

sometimes it just causes it to hump up

2253

01:39:53,230 --> 01:39:51,360

as that downward pressure of the

2254

01:39:55,490 --> 01:39:53,240

forefoot just displaces some of the

2255

01:39:57,020 --> 01:39:55,500

material backward and then probably the

2256

01:39:59,150 --> 01:39:57,030

faster speed bump

2257

01:40:00,410 --> 01:39:59,160

the faster walks probably the more

2258

01:40:02,150 --> 01:40:00,420

you're gonna see that I would like

2259

01:40:04,760 --> 01:40:02,160

exactly you know it's just like when we

2260

01:40:07,190 --> 01:40:04,770

walk down the beach we'll push up in a

2261

01:40:08,720 --> 01:40:07,200

similar fashion behind the ball of the

2262

01:40:10,970 --> 01:40:08,730

foot right there at the base of our big

2263

01:40:12,440 --> 01:40:10,980

toe or we'll kick up some material from

2264

01:40:14,360 --> 01:40:12,450

our toes at themselves because

2265

01:40:16,850 --> 01:40:14,370

especially the big toe where we push off

2266

01:40:19,250 --> 01:40:16,860

through that big toe the Sasquatch seems

2267

01:40:22,400 --> 01:40:19,260

to push off from the fore part of the

2268

01:40:24,800 --> 01:40:22,410

foot in its entirety the the toes are

2269

01:40:29,000 --> 01:40:24,810

there primarily for traction but not so

2270

01:40:31,160 --> 01:40:29,010

much for propulsion and so that timís

2271

01:40:33,260 --> 01:40:31,170

track illustrates that principle very

2272

01:40:35,960 --> 01:40:33,270

very well but but there are many others

2273

01:40:39,200 --> 01:40:35,970

there that also show the remarkable

2274

01:40:41,150 --> 01:40:39,210

degree of mobility of the foot in in

2275

01:40:43,250 --> 01:40:41,160

supination and pronation you know the

2276

01:40:46,430 --> 01:40:43,260

twisting of the fourth or relative to

2277

01:40:48,290 --> 01:40:46,440

the hind foot and it is just it's truly

2278

01:40:50,330 --> 01:40:48,300

amazing it was as I get talking about it

2279

01:40:53,290 --> 01:40:50,340

I don't know if the excitement comes

2280

01:40:55,580 --> 01:40:53,300

through people yes I know and I'm

2281

01:40:57,860 --> 01:40:55,590

believe me at it excites me too because

2282

01:41:00,290 --> 01:40:57,870

someone who knows as much about this

2283

01:41:03,260 --> 01:41:00,300

subject of being involved in this in

2284

01:41:04,880 --> 01:41:03,270

this particular type of research is you

2285

01:41:07,250 --> 01:41:04,890

know I mean we're very fortunate to have

2286

01:41:10,280 --> 01:41:07,260

you and and Harry wanted me to pass

2287

01:41:13,160 --> 01:41:10,290

along a thank you on his behalf because

2288

01:41:15,140 --> 01:41:13,170

he's as a result of your work and others

2289

01:41:17,270 --> 01:41:15,150

he has become very very fascinated with

2290

01:41:19,610 --> 01:41:17,280

the subject and big thumbs up from Harry

2291

01:41:22,070 --> 01:41:19,620

Newton in London well thank you I was

2292

01:41:24,440 --> 01:41:22,080

able to make a presentation to a group

2293

01:41:26,570 --> 01:41:24,450

of podiatrists an orthopedist at the

2294

01:41:29,270 --> 01:41:26,580

Massachusetts General Hospital for a

2295

01:41:31,250 --> 01:41:29,280

speaking engagement and I tell you it

2296

01:41:34,600 --> 01:41:31,260

was it was just it was fun it was sheer

2297

01:41:39,020 --> 01:41:34,610

fun to be able to talk shop with a

2298

01:41:41,450 --> 01:41:39,030

roomful you know 75 plus clinicians who

2299

01:41:44,300 --> 01:41:41,460

could appreciate and were conversant in

2300

01:41:48,140 --> 01:41:44,310

the form and function of the foot well

2301

01:41:49,940 --> 01:41:48,150

and it's pathology in fact I have I left

2302

01:41:52,729 --> 01:41:49,950

with the department chairman another of

2303

01:41:55,220 --> 01:41:52,739

my favorite the pet of the Boz Berg

2304

01:41:57,890 --> 01:41:55,230

crippled foot pair the crippled track oh

2305

01:41:59,799 --> 01:41:57,900

that's a famous one that is and you know

2306

01:42:01,850 --> 01:41:59,809

it unfortunately has a bit of a pall

2307

01:42:04,819 --> 01:42:01,860

hanging over it because of its

2308

01:42:06,560 --> 01:42:04,829

association with Ivan Marx you know we

2309

01:42:09,020 --> 01:42:06,570

know hoaxed a number of different things

2310

01:42:11,209 --> 01:42:09,030

but but in this case you know as I've

2311

01:42:14,060 --> 01:42:11,219

often said even a blind squirrel finds a

2312

01:42:16,729 --> 01:42:14,070

nut and I think this was an amazing nut

2313

01:42:19,370 --> 01:42:16,739

that he found because discussing that

2314

01:42:21,680 --> 01:42:19,380

that particular case with these

2315

01:42:24,620 --> 01:42:21,690

clinicians and the interpretation of the

2316

01:42:28,339 --> 01:42:24,630

pathology and the possible trauma to the

2317

01:42:30,620 --> 01:42:28,349

foot I left a replica pair of those

2318

01:42:33,379 --> 01:42:30,630

tracks with the department head and

2319

01:42:40,089 --> 01:42:33,389

they're on display in the office and the

2320

01:42:43,370 --> 01:42:40,099

clinicians were fascinated you know I

2321

01:42:45,259 --> 01:42:43,380

love it you know from time to time you

2322

01:42:48,609 --> 01:42:45,269

you encounter cases and I'm sure you

2323

01:42:50,899 --> 01:42:48,619

have to where there's there's seemingly

2324

01:42:53,089 --> 01:42:50,909

there's just elements of the case that

2325

01:42:55,100 --> 01:42:53,099

that even though trace evidence is left

2326

01:42:55,729 --> 01:42:55,110

behind there's something that doesn't

2327

01:42:57,979 --> 01:42:55,739

add up

2328

01:43:00,200 --> 01:42:57,989

I'll give you an example my brother had

2329

01:43:02,810 --> 01:43:00,210

an encounter wasn't visual but they were

2330

01:43:05,209 --> 01:43:02,820

on horseback they were on a logging road

2331

01:43:07,700 --> 01:43:05,219

between gold bar and startup Washington

2332

01:43:10,669 --> 01:43:07,710

just below Stevens Pass it was a is a

2333

01:43:13,370 --> 01:43:10,679

moist day you know in the Cascades they

2334

01:43:15,859 --> 01:43:13,380

were on a logging road that had kind of

2335

01:43:17,450 --> 01:43:15,869

compressed clay that was wet and the

2336

01:43:19,430 --> 01:43:17,460

horses all of a sudden started freaking

2337

01:43:21,200 --> 01:43:19,440

out and so they had to get off and calm

2338

01:43:23,689 --> 01:43:21,210

the horses down then they had the smell

2339

01:43:26,209 --> 01:43:23,699

and they led the horses around the

2340

01:43:28,399 --> 01:43:26,219

corner kind of around the bend in the

2341

01:43:31,640 --> 01:43:28,409

logging road and they encountered five

2342

01:43:33,620 --> 01:43:31,650

footprints one was on the it was going

2343

01:43:35,930 --> 01:43:33,630

from from right to left across the road

2344

01:43:37,819 --> 01:43:35,940

there was one footprint on this side of

2345

01:43:39,560 --> 01:43:37,829

the road one in the middle of the road

2346

01:43:42,770 --> 01:43:39,570

one on the other side of the road a

2347

01:43:45,919 --> 01:43:42,780

swooped footprint going up a kind of a

2348

01:43:48,950 --> 01:43:45,929

the cut in the the mountainside they

2349

01:43:50,600 --> 01:43:48,960

broken pine bough a very large branch

2350

01:43:52,700 --> 01:43:50,610

had been broken like it had grabbed it

2351

01:43:55,819 --> 01:43:52,710

to pull itself up but there were no

2352

01:43:58,700 --> 01:43:55,829

tracks approaching the road and no

2353

01:44:00,620 --> 01:43:58,710

tracks leaving the road the track in the

2354

01:44:03,200 --> 01:44:00,630

middle of the road was so pristine that

2355

01:44:06,439 --> 01:44:03,210

there was like fingerprints of the foot

2356

01:44:09,500 --> 01:44:06,449

we compressed in the in the wet clay

2357

01:44:11,330 --> 01:44:09,510

that left actual dermal impressions the

2358

01:44:13,729 --> 01:44:11,340

University of Washington came up this

2359

01:44:17,449 --> 01:44:13,739

was in trying to remember the date this

2360

01:44:21,259 --> 01:44:17,459

would have been the fall of 73 I think

2361

01:44:24,830 --> 01:44:21,269

or the possibly 74 I forget how do you

2362

01:44:27,319 --> 01:44:24,840

explain a trackway that only consists of

2363

01:44:30,529 --> 01:44:27,329

five prints with none approaching the

2364

01:44:33,290 --> 01:44:30,539

trackway and none leaving it where there

2365

01:44:34,819 --> 01:44:33,300

should have been trace evidence is there

2366

01:44:36,679 --> 01:44:34,829

some sort of paranormal I guess the

2367

01:44:39,620 --> 01:44:36,689

question is do we have some sort of

2368

01:44:43,189 --> 01:44:39,630

paranormal aspect here some sort of

2369

01:44:45,109 --> 01:44:43,199

being able to blink in and out of

2370

01:44:46,969 --> 01:44:45,119

reality I know a lot of the 40 ins

2371

01:44:49,159 --> 01:44:46,979

believe that this is some sort of

2372

01:44:53,359 --> 01:44:49,169

paranormal creature and is not just

2373

01:44:54,830 --> 01:44:53,369

purely an undiscovered species of animal

2374

01:44:56,089 --> 01:44:54,840

that there's something paranormal about

2375

01:44:57,589 --> 01:44:56,099

it where do you come down with those

2376

01:45:00,709 --> 01:44:57,599

types of theories in those types of

2377

01:45:04,639 --> 01:45:00,719

cases well my again my experience has

2378

01:45:09,699 --> 01:45:04,649

been that what appears to be a sudden

2379

01:45:13,639 --> 01:45:09,709

start and sudden stop really isn't that

2380

01:45:15,500 --> 01:45:13,649

you know that the conditions may have

2381

01:45:17,270 --> 01:45:15,510

been depending on how fresh that sounds

2382

01:45:19,909 --> 01:45:17,280

like now this is one of those situations

2383

01:45:22,580 --> 01:45:19,919

where the strange creatures who manage

2384

01:45:25,069 --> 01:45:22,590

the collection of advertising that we

2385

01:45:27,319 --> 01:45:25,079

present on the para cast are here to

2386

01:45:29,449 --> 01:45:27,329

tell us we've got to stop we have dr.

2396

01:46:03,510 --> 01:46:00,880

intense dreams about a beautiful woman

2397

01:46:06,240 --> 01:46:03,520

pleading for his help after a terrible

2398

01:46:08,520 --> 01:46:06,250

battle in outer space but the dreams

2399

01:46:10,350 --> 01:46:08,530

turn out to be true and thrust him into

2400

01:46:12,990 --> 01:46:10,360

a telepathic love affair with a woman

2438

01:48:03,259 --> 01:47:59,640

welcome back to the para cast the gold

2439

01:48:11,899 --> 01:48:03,269

standard of paranormal radio

2440

01:48:14,120 --> 01:48:11,909

and now here's Jane Steinberg we have

2441

01:48:16,970 --> 01:48:14,130

dr. Jeffrey Meldrum for several more

2442

01:48:19,970 --> 01:48:16,980

segments of the para cast with Gina and

2443

01:48:21,950 --> 01:48:19,980

Chris were not just giving you our own

2444

01:48:24,290 --> 01:48:21,960

questions but asking the ones that you

2445

01:48:27,680 --> 01:48:24,300

posed in the question Bank at forum dot

2446

01:48:29,989 --> 01:48:27,690

the power cast not come so when we broke

2447

01:48:31,970 --> 01:48:29,999

for our last commercial break dr.

2448

01:48:35,089 --> 01:48:31,980

Meldrum was going to start with a new

2449

01:48:37,220 --> 01:48:35,099

answer to abduction let me just first

2450

01:48:40,069 --> 01:48:37,230

add something there was grass slowly

2451

01:48:42,799 --> 01:48:40,079

rising out of the print below the

2452

01:48:45,500 --> 01:48:42,809

swooped print on the the side of the the

2453

01:48:47,509 --> 01:48:45,510

cut so there was still grass coming up

2454

01:48:50,299 --> 01:48:47,519

out of the print that's how in terms of

2455

01:48:52,790 --> 01:48:50,309

time proximity right so very fresh so

2456

01:48:55,399 --> 01:48:52,800

within yep less than two minutes yeah

2457

01:48:57,979 --> 01:48:55,409

because in some instances I find that

2458

01:49:01,700 --> 01:48:57,989

you know the conditions where the

2459

01:49:04,189 --> 01:49:01,710

footprints had been laid down might have

2460

01:49:08,209 --> 01:49:04,199

been different at the time of the

2461

01:49:09,649 --> 01:49:08,219

passing of the of the track maker and so

2462

01:49:13,430 --> 01:49:09,659

and those can vary and those can vary

2463

01:49:16,129 --> 01:49:13,440

oftentimes in under very or in a very

2464

01:49:18,290 --> 01:49:16,139

short period of time but the question I

2465

01:49:20,089 --> 01:49:18,300

mean the fact that there was grass you

2466

01:49:22,609 --> 01:49:20,099

know and not knowing the condition of

2467

01:49:24,830 --> 01:49:22,619

the forest floor on either side of the

2468

01:49:28,160 --> 01:49:24,840

road and the road cut yeah be hard to

2469

01:49:29,720 --> 01:49:28,170

answer that yeah it's hard to know you

2470

01:49:32,899 --> 01:49:29,730

know there there was this was one of the

2471

01:49:35,739 --> 01:49:32,909

criticisms that a famous tracker Joel

2472

01:49:38,299 --> 01:49:35,749

Hardin a Border Patrol tracker who

2473

01:49:40,489 --> 01:49:38,309

investigated some of the reports in the

2474

01:49:43,040 --> 01:49:40,499

blue mountains outside of Walla Walla in

2475

01:49:46,580 --> 01:49:43,050

southeastern Washington one of his

2476  
01:49:49,279 --> 01:49:46,590  
criticisms was that the tracks appeared

2477  
01:49:53,419 --> 01:49:49,289  
to start and stop and this struck me as

2478  
01:49:55,750 --> 01:49:53,429  
odd and in fact in my opinion just spoke

2479  
01:49:58,129 --> 01:49:55,760  
to the credibility of the tracks because

2480  
01:50:00,950 --> 01:49:58,139  
here's a person who is a professional

2481  
01:50:02,569 --> 01:50:00,960  
tracker not just not like me I don't

2482  
01:50:04,669 --> 01:50:02,579  
consider myself a professional tracker

2483  
01:50:08,660 --> 01:50:04,679  
how it started not professional but I

2484  
01:50:12,140 --> 01:50:08,670  
you know I'm not qualified to follow and

2485  
01:50:14,739 --> 01:50:12,150  
cut sign which consists of broken blades

2486  
01:50:16,790 --> 01:50:14,749  
of grass and overturned pebbles and and

2487  
01:50:18,650 --> 01:50:16,800  
indentations in the pine duffer

2488  
01:50:20,510 --> 01:50:18,660

what I mean but but if there's a clear

2489

01:50:23,350 --> 01:50:20,520

footprint I can interpret it and to

2490

01:50:26,870 --> 01:50:23,360

infer the anatomy infer the function and

2491

01:50:28,610 --> 01:50:26,880

and so forth but this individual claimed

2492

01:50:30,770 --> 01:50:28,620

that you know these tracks start stopped

2493

01:50:34,010 --> 01:50:30,780

and started well if if it was as he

2494

01:50:36,830 --> 01:50:34,020

alleged a hoaxer who was donning and

2495

01:50:40,210 --> 01:50:36,840

doffing fake feet he should have been

2496

01:50:43,910 --> 01:50:40,220

able to pick up sign of that person yeah

2497

01:50:47,060 --> 01:50:43,920

yeah the hoaxers sign now you know I I'm

2498

01:50:48,560 --> 01:50:47,070

really hesitant and want to appeal like

2499

01:50:50,750 --> 01:50:48,570

I said before to a paranormal

2500

01:50:53,510 --> 01:50:50,760

explanation I have a hard time

2501  
01:50:56,240 --> 01:50:53,520  
envisioning or wrapping my head around

2502  
01:50:58,160 --> 01:50:56,250  
the notion of a of what seems to

2503  
01:50:59,810 --> 01:50:58,170  
otherwise to be a physical creature who

2504  
01:51:03,500 --> 01:50:59,820  
would be capable of doing such things

2505  
01:51:05,960 --> 01:51:03,510  
and yet only appears where there's 16 to

2506  
01:51:07,850 --> 01:51:05,970  
18 inches of rainfall and you know

2507  
01:51:10,340 --> 01:51:07,860  
doesn't bother to clean up the scat that

2508  
01:51:12,890 --> 01:51:10,350  
they leave behind or you know that kind

2509  
01:51:15,500 --> 01:51:12,900  
of everything that I'm familiar with

2510  
01:51:19,040 --> 01:51:15,510  
from my own personal experience suggests

2511  
01:51:22,190 --> 01:51:19,050  
and indicates a biological species and

2512  
01:51:24,110 --> 01:51:22,200  
organism well it exists biologically and

2513  
01:51:26,450 --> 01:51:24,120

in our plane of existence in our

2514

01:51:28,840 --> 01:51:26,460

following our rules of physics and so

2515

01:51:33,080 --> 01:51:28,850

forth I I just don't see this as a

2516

01:51:35,180 --> 01:51:33,090

singular entity or phenomenon that one

2517

01:51:38,150 --> 01:51:35,190

has to just simply because we haven't

2518

01:51:40,940 --> 01:51:38,160

yet found the definitive type specimen

2519

01:51:42,860 --> 01:51:40,950

that we would be justified in resorting

2520

01:51:45,770 --> 01:51:42,870

to a paranormal explanation to get kind

2521

01:51:48,020 --> 01:51:45,780

of an Occam's razor scenario yeah yeah

2522

01:51:49,790 --> 01:51:48,030

you know and autumn's razor gets that's

2523

01:51:52,700 --> 01:51:49,800

one of my pet peeves Occam's razor is

2524

01:51:54,850 --> 01:51:52,710

often misused you know his edict was

2525

01:51:57,520 --> 01:51:54,860

essentially that we shouldn't add

2526

01:52:00,080 --> 01:51:57,530

variables we shouldn't add entities

2527

01:52:02,210 --> 01:52:00,090

unnecessarily to ensure that in an

2528

01:52:04,250 --> 01:52:02,220

attempt to explain something he never

2529

01:52:06,800 --> 01:52:04,260

said that the simplest explanation is

2530

01:52:09,800 --> 01:52:06,810

more likely to be true and history

2531

01:52:13,070 --> 01:52:09,810

should have taught us in both in

2532

01:52:17,050 --> 01:52:13,080

evolution for example and and in in

2533

01:52:19,700 --> 01:52:17,060

other areas of science that rarely is

2534

01:52:22,040 --> 01:52:19,710

the science follow the shortest course

2535

01:52:23,600 --> 01:52:22,050

from point A to point B when it when

2536

01:52:25,820 --> 01:52:23,610

you're dealing with historical science

2537

01:52:27,670 --> 01:52:25,830

like evolution for example there's

2538

01:52:30,080 --> 01:52:27,680

there's no way to justify that because

2539

01:52:30,680 --> 01:52:30,090

natural selection has no knowledge of

2540

01:52:33,680 --> 01:52:30,690

what B

2541

01:52:36,350 --> 01:52:33,690

is it's not prescient it can't predict

2542

01:52:37,459 --> 01:52:36,360

the future and so it would have no way

2543

01:52:39,830 --> 01:52:37,469

of knowing what the shortest distance

2544

01:52:41,510 --> 01:52:39,840

would be to the condition that we might

2545

01:52:44,240 --> 01:52:41,520

be experiencing in the future or or

2546

01:52:46,490 --> 01:52:44,250

right now in the present nature solves

2547

01:52:49,000 --> 01:52:46,500

his problems by whatever means and often

2548

01:52:52,520 --> 01:52:49,010

they're very convoluted very complicated

2549

01:52:55,939 --> 01:52:52,530

means like how do evolutionary

2550

01:52:58,250 --> 01:52:55,949

biologists explain the evolution of

2551

01:53:00,020 --> 01:52:58,260

caterpillars being able to go into

2552

01:53:03,350 --> 01:53:00,030

chrysalis and morph into a butterfly

2553

01:53:08,630 --> 01:53:06,439

that's pretty complicated yeah I

2554

01:53:10,850 --> 01:53:08,640

wouldn't resort to paranormal until I

2555

01:53:13,490 --> 01:53:10,860

until I had ruled out the simpler

2556

01:53:15,170 --> 01:53:13,500

explanations right and and one of those

2557

01:53:17,360 --> 01:53:15,180

might be that it's just darn hard to

2558

01:53:22,010 --> 01:53:17,370

pick up the track in in the forest floor

2559

01:53:25,120 --> 01:53:22,020

yeah that's brain that impressed me and

2560

01:53:28,729 --> 01:53:25,130

my first real concerted field experience

2561

01:53:30,979 --> 01:53:28,739

expedition you know setting was how

2562

01:53:33,590 --> 01:53:30,989

little of the ground actually took a

2563

01:53:36,080 --> 01:53:33,600

track very well at least a visible

2564

01:53:39,200 --> 01:53:36,090

discernible footprint that I could study

2565

01:53:40,970 --> 01:53:39,210

and pour a cast of and so forth it was

2566

01:53:43,370 --> 01:53:40,980

very very little surface area out there

2567

01:53:45,320 --> 01:53:43,380

yeah yeah that's true and you really

2568

01:53:46,760 --> 01:53:45,330

have to be good I'm always reminded of

2569

01:53:49,430 --> 01:53:46,770

that scene in Butch Cassidy and the

2570

01:53:53,330 --> 01:53:49,440

Sundance Kid when when the the trackers

2571

01:53:55,400 --> 01:53:53,340

tracking them over just bare rock they

2572

01:53:59,990 --> 01:53:55,410

keep asking so who are those guys how

2573

01:54:02,870 --> 01:54:00,000

can they do that Lord Baltimore I think

2574

01:54:05,060 --> 01:54:02,880

his name was okay some some more

2575

01:54:07,760 --> 01:54:05,070

questions from our listeners vespi hi

2576

01:54:09,170 --> 01:54:07,770

folk whose one of our top posters at the

2577

01:54:10,939 --> 01:54:09,180

Peres cast where you can ask you

2578

01:54:13,910 --> 01:54:10,949

questions of our guests at forum dr.

2579

01:54:15,709 --> 01:54:13,920

Perry cast comm the question Bank he's

2580

01:54:18,260 --> 01:54:15,719

wondering again about hard hard evidence

2581

01:54:21,290 --> 01:54:18,270

now you've mentioned scat do we have

2582

01:54:23,660 --> 01:54:21,300

some stool samples from these creatures

2583

01:54:26,000 --> 01:54:23,670

are you I wasn't aware of that well yes

2584

01:54:28,670 --> 01:54:26,010

there have been reports from from way

2585

01:54:31,790 --> 01:54:28,680

back the early sightings and put in

2586

01:54:35,650 --> 01:54:31,800

first documentation in California back

2587

01:54:39,110 --> 01:54:35,660

in the 50s late fifties extraordinarily

2588

01:54:43,290 --> 01:54:39,120

large but rather human looking scat

2589

01:54:45,959 --> 01:54:43,300

piles there have been some hit and miss

2590

01:54:48,600 --> 01:54:45,969

analyses there was one that Ivan

2591

01:54:51,600 --> 01:54:48,610

Sanderson reported in his book where a

2592

01:54:55,229 --> 01:54:51,610

parasitologist took a look and found the

2593

01:54:58,109 --> 01:54:55,239

the egg husks you know a form of

2594

01:55:01,919 --> 01:54:58,119

parasitic worm that was very unusual for

2595

01:55:06,689 --> 01:55:01,929

something in North America he was

2596

01:55:08,040 --> 01:55:06,699

familiar with them from swine in Asia so

2597

01:55:09,899 --> 01:55:08,050

that was kind of interesting I mean I

2598

01:55:14,419 --> 01:55:09,909

what that means I'm not quite sure just

2599

01:55:17,760 --> 01:55:14,429

that it wasn't a common a common

2600

01:55:19,709 --> 01:55:17,770

combination of characteristics both and

2601  
01:55:21,450 --> 01:55:19,719  
that was a North American sample that

2602  
01:55:23,700 --> 01:55:21,460  
was a North American sample yeah wow

2603  
01:55:25,620 --> 01:55:23,710  
that is interesting we've dealt with a

2604  
01:55:29,700 --> 01:55:25,630  
lot of different samples and you know

2605  
01:55:32,310 --> 01:55:29,710  
the problem is that we're dealing with a

2606  
01:55:34,620 --> 01:55:32,320  
large omnivore and if you're at all

2607  
01:55:36,120 --> 01:55:34,630  
familiar with bear scat for example

2608  
01:55:39,419 --> 01:55:36,130  
another on the herbs we've pointed out

2609  
01:55:41,669 --> 01:55:39,429  
earlier the scat the appearance and

2610  
01:55:44,040 --> 01:55:41,679  
consistency of the scat will differ

2611  
01:55:47,160 --> 01:55:44,050  
remarkably depending on what this

2612  
01:55:49,979 --> 01:55:47,170  
omnivore is eating it's not like you

2613  
01:55:53,280 --> 01:55:49,989

know cow pies where they eat nothing but

2614

01:55:54,990 --> 01:55:53,290

grass and straw and so forth and so if

2615

01:55:57,450 --> 01:55:55,000

they're eating berries they're going to

2616

01:55:58,830 --> 01:55:57,460

be runny and blue and have bits of

2617

01:56:00,240 --> 01:55:58,840

berries in it if they're in this

2618

01:56:02,549 --> 01:56:00,250

bitterly spring and they're eating lots

2619

01:56:05,520 --> 01:56:02,559

of grass then it looks more like horse

2620

01:56:07,680 --> 01:56:05,530

manure if they get into a carcass and

2621

01:56:10,140 --> 01:56:07,690

they're eating a lot of the putrifying

2622

01:56:12,479 --> 01:56:10,150

meat a lot of protein then it's dark

2623

01:56:13,979 --> 01:56:12,489

black and tar you know it's it's going

2624

01:56:16,220 --> 01:56:13,989

to change so that I'm sure that the

2625

01:56:18,990 --> 01:56:16,230

Sasquatch scat is going to very

2626  
01:56:21,780 --> 01:56:19,000  
similarly to that so the weight only way

2627  
01:56:24,540 --> 01:56:21,790  
really did distinguish it would be you

2628  
01:56:31,830 --> 01:56:24,550  
know an excessive diameter of that of

2629  
01:56:34,859 --> 01:56:31,840  
that blog if you will or with DNA

2630  
01:56:36,890 --> 01:56:34,869  
analysis and unfortunately you have a

2631  
01:56:40,290 --> 01:56:36,900  
very narrow window you only have about

2632  
01:56:42,839 --> 01:56:40,300  
at tops eight hours before bacterial

2633  
01:56:44,700 --> 01:56:42,849  
action will destroy any of the DNA that

2634  
01:56:49,950 --> 01:56:44,710  
has come off fluffed off with the

2635  
01:56:52,799 --> 01:56:49,960  
mucosal cells on that and so we had the

2636  
01:56:55,740 --> 01:56:52,809  
proverbial perfect scat sample I mean I

2637  
01:56:57,210 --> 01:56:55,750  
always tell individuals don't bother me

2638  
01:56:59,550 --> 01:56:57,220

really with with these cats

2639

01:57:03,090 --> 01:56:59,560

until unless they're very fresh you know

2640

01:57:07,560 --> 01:57:03,100

literally located between two cleaner

2641

01:57:10,920 --> 01:57:07,570

footprints and we had there was a case

2642

01:57:13,710 --> 01:57:10,930

in Wyoming where a sasquatch was

2643

01:57:16,230 --> 01:57:13,720

visiting some seasonally occupied cabins

2644

01:57:18,510 --> 01:57:16,240

and was peering into the windows

2645

01:57:21,620 --> 01:57:18,520

especially the kitchen windows where

2646

01:57:24,480 --> 01:57:21,630

dinner was being cooked and just off

2647

01:57:27,930 --> 01:57:24,490

removed from the cabins not too far

2648

01:57:29,820 --> 01:57:27,940

there were two tracks with a scat pile

2649

01:57:33,060 --> 01:57:29,830

right in between them let's talk about

2650

01:57:35,310 --> 01:57:33,070

those tracks in our next segment with

2651  
01:57:40,820 --> 01:57:35,320

01:58:16,070 --> 01:58:12,240  
tons of features and most important it's

2663  
01:58:18,260 --> 01:58:16,080

easy to use it's also far less expensive

2664

01:58:20,660 --> 01:58:18,270

than that other app that you can only

2669

01:58:51,140 --> 01:58:49,250

hi this is Sophie Winnick longtime

2670

01:58:53,510 --> 01:58:51,150

distributor and user avenged Appetit

2671

01:58:55,550 --> 01:58:53,520

products in the last few years my family

2672

01:58:57,290 --> 01:58:55,560

went through a crisis everything else in

2673

01:58:59,060 --> 01:58:57,300

my life including my business had to be

2674

01:59:00,770 --> 01:58:59,070

put on the back burner thankfully life

2675

01:59:02,420 --> 01:59:00,780

is getting back to normal now but the

2676

01:59:04,100 --> 01:59:02,430

one thing I never had to worry about was

2677

01:59:05,990 --> 01:59:04,110

my business and my monthly commission

2678

01:59:08,120 --> 01:59:06,000

I've been a distributor for youngevity

2679

01:59:10,130 --> 01:59:08,130

for over 17 years since before it was

2680

01:59:12,170 --> 01:59:10,140

youngevity and I've got to say the most

2681

01:59:14,390 --> 01:59:12,180

amazing thing about this company is the

2682

01:59:16,430 --> 01:59:14,400

people while my family was in crisis

2683

01:59:18,500 --> 01:59:16,440

other distributors stepped in and helped

2684

01:59:20,360 --> 01:59:18,510

my customers simply because that's what

2685

01:59:22,490 --> 01:59:20,370

youngevity people do even for people

2686

01:59:24,170 --> 01:59:22,500

they don't know for me it has never been

2687

01:59:26,420 --> 01:59:24,180

about getting rich it was about a

2688

01:59:28,040 --> 01:59:26,430

product I could stand behind the company

2689

01:59:30,260 --> 01:59:28,050

I could count on and a monthly

2690

01:59:33,920 --> 01:59:30,270

commission check that is never not once

2691

01:59:35,630 --> 01:59:33,930

been late in 17 years youngevity is

2692

01:59:37,850 --> 01:59:35,640

truly a business for everyone even

2693

01:59:40,820 --> 01:59:37,860

people who have too much to do I'm

2694

01:59:43,310 --> 01:59:40,830

Sophie Winnick I'm just like you I have

2695

01:59:48,830 --> 01:59:43,320

a real life real ups and downs but I

2696

today this is Marie D Jones the author

2743

02:02:02,600 --> 02:01:59,850

of this book is from the future and you

2744

02:02:12,910 --> 02:02:02,610

are listening to the podcast the gold

2745

02:02:19,490 --> 02:02:17,180

okay the tracks from the creature tell

2746

02:02:20,930 --> 02:02:19,500

us more well the the tracks were

2747

02:02:23,900 --> 02:02:20,940

extremely clear I mean there was some of

2748

02:02:26,690 --> 02:02:23,910

the best 16-inch tracks I seen and we

2749

02:02:29,510 --> 02:02:26,700

showed all of the hallmarks of mid-foot

2750

02:02:32,420 --> 02:02:29,520

flexibility that you know are indicative

2751  
02:02:34,400 --> 02:02:32,430  
in my mind of legitimate tracks you know

2752  
02:02:36,680 --> 02:02:34,410  
not likely to Obinna so they went side

2753  
02:02:37,730 --> 02:02:36,690  
by side with the heels dug in well where

2754  
02:02:40,580 --> 02:02:37,740  
they were side by side there was

2755  
02:02:42,770 --> 02:02:40,590  
actually more weight on the fore part of

2756  
02:02:46,880 --> 02:02:42,780  
the foot as it okay actually that makes

2757  
02:02:48,560 --> 02:02:46,890  
sense yeah yeah so that scat sample the

2758  
02:02:50,450 --> 02:02:48,570  
law is gonna say these tracks were

2759  
02:02:52,790 --> 02:02:50,460  
followed for probably a quarter of a

2760  
02:02:55,070 --> 02:02:52,800  
mile and then we had a we had an

2761  
02:02:58,190 --> 02:02:55,080  
independent sighting reported from that

2762  
02:03:00,140 --> 02:02:58,200  
area at almost the same time about about

2763  
02:03:03,800 --> 02:03:00,150

three or four miles removed from this

2764

02:03:06,770 --> 02:03:03,810

side by a hiker the scat was collected

2765

02:03:09,320 --> 02:03:06,780

unfortunately you know the delay in

2766

02:03:10,970 --> 02:03:09,330

getting the word to us meant that it had

2767

02:03:14,420 --> 02:03:10,980

been out exposed the elements for

2768

02:03:16,100 --> 02:03:14,430

probably Oh a good five or six days but

2769

02:03:19,130 --> 02:03:16,110

we went ahead and collected it it was

2770

02:03:23,830 --> 02:03:19,140

you know roughly human in appearance in

2771

02:03:27,340 --> 02:03:23,840

in shape that is a greater volume but

2772

02:03:31,160 --> 02:03:27,350

completely full of well chewed up edges

2773

02:03:32,390 --> 02:03:31,170

so it wasn't a dog or a carnival or it

2774

02:03:34,730 --> 02:03:32,400

was I mean it could have been a bear

2775

02:03:36,320 --> 02:03:34,740

that was the only other possibility but

2776

02:03:38,540 --> 02:03:36,330

the tracks it was associated with were

2777

02:03:41,360 --> 02:03:38,550

so clear so we went ahead and collected

2778

02:03:43,910 --> 02:03:41,370

some one we sent it off to a DNA lab on

2779

02:03:45,740 --> 02:03:43,920

the off chance that it might have

2780

02:03:47,750 --> 02:03:45,750

something and betcha they just loved to

2781

02:03:49,010 --> 02:03:47,760

opening up that package yeah well they

2782

02:03:50,210 --> 02:03:49,020

were actually quite excited about it

2783

02:03:52,580 --> 02:03:50,220

especially in the description of the

2784

02:03:55,850 --> 02:03:52,590

circumstances unfortunately all they got

2785

02:03:57,950 --> 02:03:55,860

from it was dog DNA and what we figure

2786

02:04:01,700 --> 02:03:57,960

had happened was one of the residents

2787

02:04:03,950 --> 02:04:01,710

dog had taken an interest in it and as

2788

02:04:05,540 --> 02:04:03,960

you might expect lifted his leg and

2789

02:04:09,110 --> 02:04:05,550

marked his territory

2790

02:04:11,900 --> 02:04:09,120

you know this intruder had the audacity

2791

02:04:14,180 --> 02:04:11,910

to leave a scat pile in his in his

2792

02:04:16,670 --> 02:04:14,190

backyard he was going to mark it and so

2793

02:04:20,480 --> 02:04:16,680

yeah it was DNA you know proteins from

2794

02:04:23,150 --> 02:04:20,490

the urine that had you know which is not

2795

02:04:25,050 --> 02:04:23,160

good trying to isolate DNA from an

2796

02:04:26,970 --> 02:04:25,060

unknown primate

2797

02:04:30,150 --> 02:04:26,980

often times when when I would go out on

2798

02:04:32,640 --> 02:04:30,160

cattle mutilation investigations we

2799

02:04:34,650 --> 02:04:32,650

would allow the Pyrenees my brothers

2800

02:04:36,990 --> 02:04:34,660

Pyrenees to be the first one to actually

2801  
02:04:40,050 --> 02:04:37,000  
go into the site because he would do

2802  
02:04:43,020 --> 02:04:40,060  
exactly that he would go around to in an

2803  
02:04:45,600 --> 02:04:43,030  
ID where any sort of coyotes had

2804  
02:04:50,400 --> 02:04:45,610  
approached the carcass by peeing on the

2805  
02:04:52,140 --> 02:04:50,410  
bushes that they peed on so he was our

2806  
02:04:55,620 --> 02:04:52,150  
junior investigator the first one on the

2807  
02:04:57,060 --> 02:04:55,630  
scene usually yeah they only had only

2808  
02:04:59,640 --> 02:04:57,070  
had I don't know if I would want to have

2809  
02:05:02,940 --> 02:04:59,650  
their sense of smell I know it could be

2810  
02:05:04,530 --> 02:05:02,950  
more of a burden yeah almost parts per

2811  
02:05:06,480 --> 02:05:04,540  
trillion I think I think the bloodhounds

2812  
02:05:09,660 --> 02:05:06,490  
can smell parts per trillion in bears

2813  
02:05:12,930 --> 02:05:09,670

can two bears can smell up to five miles

2814

02:05:14,790 --> 02:05:12,940

away I think downwind hears you know we

2815

02:05:17,160 --> 02:05:14,800

have to get into this question there's a

2816

02:05:20,040 --> 02:05:17,170

couple of questions about the problem of

2817

02:05:23,700 --> 02:05:20,050

hoaxing and vespi hi folks want Stu know

2818

02:05:25,530 --> 02:05:23,710

how badly hoax is like Rick Dyer and and

2819

02:05:27,240 --> 02:05:25,540

others have harmed serious Bigfoot

2820

02:05:29,640 --> 02:05:27,250

research do you think that these guys

2821

02:05:31,350 --> 02:05:29,650

are just a just an annoyance that

2822

02:05:32,310 --> 02:05:31,360

they're just an irritation or do you

2823

02:05:34,410 --> 02:05:32,320

think that they're doing the irreparable

2824

02:05:36,690 --> 02:05:34,420

harm to this subject being taken

2825

02:05:38,910 --> 02:05:36,700

seriously by academics well that's a

2826

02:05:41,250 --> 02:05:38,920

good question and it's I don't know that

2827

02:05:43,380 --> 02:05:41,260

I have a clean-cut answer I don't think

2828

02:05:45,810 --> 02:05:43,390

it's irreparable harm in the case of

2829

02:05:49,890 --> 02:05:45,820

something like Rick Dyer I think that it

2830

02:05:53,390 --> 02:05:49,900

it what it does is it gives more grist

2831

02:05:56,490 --> 02:05:53,400

for the mill being run by the

2832

02:05:59,370 --> 02:05:56,500

ideological skeptics out there yeah they

2833

02:06:01,320 --> 02:05:59,380

like to then focus everyone's attention

2834

02:06:03,500 --> 02:06:01,330

on those things I mean in the case of

2835

02:06:06,570 --> 02:06:03,510

Rick Dyer it's so blatantly

2836

02:06:09,810 --> 02:06:06,580

transparently obvious though the only

2837

02:06:11,880 --> 02:06:09,820

the most gullible or the most wishful

2838

02:06:14,130 --> 02:06:11,890

individuals would would even give him

2839

02:06:16,170 --> 02:06:14,140

the time of day well I could share some

2840

02:06:18,540 --> 02:06:16,180

fun stories of behind-the-scenes stories

2841

02:06:21,120 --> 02:06:18,550

of his wrangling trying to get me to

2842

02:06:22,970 --> 02:06:21,130

come and just think of us just the

2843

02:06:28,140 --> 02:06:22,980

length credibility you know to his

2844

02:06:30,630 --> 02:06:28,150

allegations but it was he did his

2845

02:06:33,210 --> 02:06:30,640

roadshow he wanted to get a place up in

2846

02:06:34,470 --> 02:06:33,220

Flagstaff and and do his dog and pony

2847

02:06:36,450 --> 02:06:34,480

show up there and they absolutely

2848

02:06:38,300 --> 02:06:36,460

refused I was hoping that they allowed

2849

02:06:40,070 --> 02:06:38,310

him to do it because I wanted to go

2850

02:06:41,510 --> 02:06:40,080

there and do a real big expose on him

2851  
02:06:43,130 --> 02:06:41,520  
but yeah they wouldn't even allow them

2852  
02:06:45,410 --> 02:06:43,140  
to stop they say don't even stopping

2853  
02:06:46,910 --> 02:06:45,420  
this down and just keep going pal that's

2854  
02:06:49,580 --> 02:06:46,920  
probably for the best

2855  
02:06:50,990 --> 02:06:49,590  
how about the Minnesota Iceman this is

2856  
02:06:55,160 --> 02:06:51,000  
something that I have always been

2857  
02:06:58,580 --> 02:06:55,170  
absolutely just fascinated by of course

2858  
02:07:02,000 --> 02:06:58,590  
Ivan Sanderson got a chance to take a

2859  
02:07:05,360 --> 02:07:02,010  
look at this short-lived display of an

2860  
02:07:08,000 --> 02:07:05,370  
apparent hominid in a smaller hominid

2861  
02:07:11,060 --> 02:07:08,010  
but all fully hair covered the inner

2862  
02:07:13,310 --> 02:07:11,070  
block of ice yeah well just recently the

2863  
02:07:15,560 --> 02:07:13,320

volume that Bernard hugglemas had

2864

02:07:17,630 --> 02:07:15,570

written on that has been translated from

2865

02:07:19,970 --> 02:07:17,640

French into English and has been

2866

02:07:22,250 --> 02:07:19,980

published and it's now out and available

2867

02:07:24,950 --> 02:07:22,260

we could just did a I just wrote a book

2868

02:07:27,830 --> 02:07:24,960

review on it for the Journal of

2869

02:07:30,410 --> 02:07:27,840

scientific exploration the JSE it

2870

02:07:33,680 --> 02:07:30,420

fascinating it sort of reopened that

2871

02:07:35,890 --> 02:07:33,690

that case for me as I read this book for

2872

02:07:39,710 --> 02:07:35,900

the first time and got Bernards

2873

02:07:41,600 --> 02:07:39,720

perspective in contrast to Ivan's Ivan

2874

02:07:44,170 --> 02:07:41,610

was probably a little more skeptical and

2875

02:07:47,090 --> 02:07:44,180

thought that Bernhard had jumped the gun

2876

02:07:50,990 --> 02:07:47,100

but you know it really was a shell game

2877

02:07:53,180 --> 02:07:51,000

it was it was from as soon as some

2878

02:07:56,870 --> 02:07:53,190

serious attention was directed by the

2879

02:08:00,170 --> 02:07:56,880

FBI and the Smithsonian then suddenly

2880

02:08:02,660 --> 02:08:00,180

Hanson claimed that the owner the

2881

02:08:05,420 --> 02:08:02,670

anonymous owner had retracted it and had

2882

02:08:06,890 --> 02:08:05,430

replaced it with this mannequin the

2883

02:08:10,160 --> 02:08:06,900

mannequin which is now down at the

2884

02:08:15,020 --> 02:08:10,170

Museum of the weird I guess in in visit

2885

02:08:17,150 --> 02:08:15,030

Arizona or Nevada Arizona Arizona and so

2886

02:08:20,870 --> 02:08:17,160

the question is was the original that

2887

02:08:23,960 --> 02:08:20,880

was examined in at length by Sanderson

2888

02:08:26,900 --> 02:08:23,970

and hoomans was that just was that a

2889

02:08:30,470 --> 02:08:26,910

real body of flesh and bones body or was

2890

02:08:32,780 --> 02:08:30,480

it the model which Hanson then thought

2891

02:08:34,600 --> 02:08:32,790

out repositioned the little modified

2892

02:08:36,980 --> 02:08:34,610

perhaps a bit and then refroze

2893

02:08:39,950 --> 02:08:36,990

unfortunately I don't think we'll ever

2894

02:08:41,240 --> 02:08:39,960

know and and even if if we you know even

2895

02:08:43,870 --> 02:08:41,250

if a compelling argument could be made

2896

02:08:48,680 --> 02:08:43,880

one way or the other the only physical

2897

02:08:50,930 --> 02:08:48,690

remains we have are or is that model

2898

02:08:52,130 --> 02:08:50,940

that's on display down there and

2899

02:08:54,320 --> 02:08:52,140

certainly that is

2900

02:08:55,730 --> 02:08:54,330

just it's a mannequin it's not much

2901

02:08:57,080 --> 02:08:55,740

different than well it's it's better

2902

02:09:01,790 --> 02:08:57,090

quality much better quality

2903

02:09:05,180 --> 02:09:01,800

Rick tires travesty but it's whenever

2904

02:09:06,020 --> 02:09:05,190

you're being kind yeah yeah we'll just

2905

02:09:07,910 --> 02:09:06,030

never know

2906

02:09:11,060 --> 02:09:07,920

yeah it's always fascinated me

2907

02:09:14,180 --> 02:09:11,070

especially the diagram that Sanderson

2908

02:09:17,690 --> 02:09:14,190

drew up and and very meticulously - I

2909

02:09:19,760 --> 02:09:17,700

might add for summin summin just looking

2910

02:09:21,890 --> 02:09:19,770

through glass and being able to to

2911

02:09:24,440 --> 02:09:21,900

determine as much as he did it was very

2912

02:09:25,970 --> 02:09:24,450

very intriguing you just have to wonder

2913

02:09:29,320 --> 02:09:25,980

maybe that thing sitting on ice

2914

02:09:33,230 --> 02:09:29,330

somewhere just waiting for somebody to

2915

02:09:34,460 --> 02:09:33,240

find it and bring it out or imagine but

2916

02:09:37,820 --> 02:09:34,470

it's you know stranger things have

2917

02:09:39,830 --> 02:09:37,830

happened that so yeah it's fascinating

2918

02:09:43,310 --> 02:09:39,840

but it's you know there are so many

2919

02:09:45,530 --> 02:09:43,320

fronts so many lines of investigation

2920

02:09:49,130 --> 02:09:45,540

that I'm involved with and one to one

2921

02:09:53,390 --> 02:09:49,140

degree or another that it just it you

2922

02:09:56,240 --> 02:09:53,400

know it doesn't justify the time to

2923

02:10:01,210 --> 02:09:56,250

delve into it any further well maybe one

2924

02:10:06,860 --> 02:10:04,040

weekend you know the enthusiasts out

2925

02:10:08,960 --> 02:10:06,870

there this is this is tailor-made for

2926

02:10:11,570 --> 02:10:08,970

for somebody to just take a hold and

2927

02:10:13,490 --> 02:10:11,580

chase down all those leads and you know

2928

02:10:14,840 --> 02:10:13,500

talk to Terry : I got a phone call from

2929

02:10:17,000 --> 02:10:14,850

Terry :

2930

02:10:19,430 --> 02:10:17,010

many many years ago when he and he

2931

02:10:21,050 --> 02:10:19,440

described his first experience he was

2932

02:10:22,790 --> 02:10:21,060

the individual who examined it and then

2933

02:10:25,340 --> 02:10:22,800

brought it to the attention of Sanderson

2934

02:10:27,470 --> 02:10:25,350

let's do that further in our next

2935

02:10:29,360 --> 02:10:27,480

segment we've got more to come with dr.

2936

02:10:39,080 --> 02:10:29,370

Jeffrey Meldrum and Jean and Kris you're

2937

02:10:46,700 --> 02:10:42,990

thank you for listening to GCN

2938

02:10:49,200 --> 02:10:46,710

be sure to visit [GCN live.com](http://GCNlive.com) today

2939

02:10:50,940 --> 02:10:49,210

there is an affordable alternative to

2940

02:10:52,680 --> 02:10:50,950

the high cost of health care that offers

2941

02:10:54,990 --> 02:10:52,690

freedom from insurance while providing

2942

02:10:57,450 --> 02:10:55,000

compliance with the Obamacare individual

2943

02:10:59,160 --> 02:10:57,460

mandate imagine having access to quality

2944

02:11:00,900 --> 02:10:59,170

affordable health care that allows you

2945

02:11:03,930 --> 02:11:00,910

the freedom to choose your doctor and

2946

02:11:06,000 --> 02:11:03,940

hospital members can share up to 100% of

2947

02:11:08,070 --> 02:11:06,010

necessary medical expenses including

2948

02:11:09,840 --> 02:11:08,080

some alternative treatments find out how

2949

02:11:11,820 --> 02:11:09,850

you and your family can contain

2950

02:11:14,850 --> 02:11:11,830

healthcare costs without giving up your

2951

02:11:18,030 --> 02:11:14,860

freedom go to Liberty on call org that's

2952

02:11:20,340 --> 02:11:18,040

Liberty on call org looking for that

2953

02:11:22,230 --> 02:11:20,350

edge during those intimate moments we

2954

02:11:24,900 --> 02:11:22,240

see many ads for enhancement but the

2955

02:11:26,940 --> 02:11:24,910

side effects include death at GCN team

2956

02:11:28,530 --> 02:11:26,950

we should change the healthy body brain

2957

02:11:30,390 --> 02:11:28,540

and heart pack to the healthy libido

2958

02:11:32,100 --> 02:11:30,400

pack the brain and heart are not the

2959

02:11:34,710 --> 02:11:32,110

only organs that require a healthy

2960

02:11:37,200 --> 02:11:34,720

vascular system for proper blood flow at

2961

02:11:39,060 --> 02:11:37,210

the right moment go to GCN team.com

2962

02:11:41,700 --> 02:11:39,070

or call eight seven seven eight seven

2963

02:11:44,100 --> 02:11:41,710

eight 4203 that's eight seven seven

2964

02:11:48,350 --> 02:11:44,110

eight seven eight 4203 that's eight

2965

02:11:53,130 --> 02:11:51,240

my computer is so slow it's making me

2966

02:11:54,780 --> 02:11:53,140

crazy I used to have that problem did

2967

02:11:57,030 --> 02:11:54,790

you quit using the computer or did you

2968

02:11:58,560 --> 02:11:57,040

buy a new one no I caught geeks on site

2969

02:12:00,330 --> 02:11:58,570

they made an appointment to visit my

2970

02:12:01,800 --> 02:12:00,340

home and showed up the same day you mean

2971

02:12:03,720 --> 02:12:01,810

they didn't ask you to bring your

2972

02:12:05,280 --> 02:12:03,730

computer to a shop that's what happened

2973

02:12:06,750 --> 02:12:05,290

what I call a support company geeks

2974

02:12:09,150 --> 02:12:06,760

on-site can go to your home or business

2975

02:12:11,490 --> 02:12:09,160

or even repair your computer online they

2976

02:12:13,560 --> 02:12:11,500

have 24/7 emergency service if you were

2977

02:12:15,420 --> 02:12:13,570

one eight hundred five nine one sixteen

2994

02:12:52,530 --> 02:12:50,410

eighty two warning if you're drowning in

2995

02:12:54,030 --> 02:12:52,540

debt you can't afford do not let the

2996

02:12:55,560 --> 02:12:54,040

credit card companies trick you into

2997

02:12:56,130 --> 02:12:55,570

thinking that you have to pay it all

2998

02:12:58,350 --> 02:12:56,140

back

2999

02:13:00,210 --> 02:12:58,360

because you don't what the credit card

3000

02:13:02,160 --> 02:13:00,220

companies don't want you to know is that

3001

02:13:04,260 --> 02:13:02,170

there's actually a way to get debt free

3002

02:13:06,930 --> 02:13:04,270

without paying off your entire debt or

3003

02:13:08,820 --> 02:13:06,940

going bankrupt if you have \$5,000 or

3004

02:13:10,290 --> 02:13:08,830

more in credit card debt you now have

3005

02:13:12,270 --> 02:13:10,300

the right to settle that debt for a

3006

02:13:14,430 --> 02:13:12,280

3030

02:14:59,800 --> 02:14:56,380

today this is Marie D Jones the author

3031

02:15:02,530 --> 02:14:59,810

of this book is from the future and you

3032

02:15:07,910 --> 02:15:02,540

are listening to the podcast the gold

[Music]

3034

02:15:17,410 --> 02:15:14,020

I said Jeff you were saying that this

3035

02:15:20,890 --> 02:15:17,420

was brought to Ivan Sanderson no Ivan

3036

02:15:22,899 --> 02:15:20,900

Sanderson died one in the 70s or 80s boy

3037

02:15:26,080 --> 02:15:22,909

yeah thank you I don't know the exact

3038

02:15:28,240 --> 02:15:26,090

date yeah yeah sure and who homeless

3039

02:15:29,709 --> 02:15:28,250

white woman's more recently but yeah

3040

02:15:32,100 --> 02:15:29,719

teri : had brought it to their attention

3041

02:15:34,540 --> 02:15:32,110

they brought a content he had been

3042

02:15:37,689 --> 02:15:34,550

correspondent frequently with Sanderson

3043

02:15:41,050 --> 02:15:37,699

and and oilman's was happened to be

3044

02:15:43,569 --> 02:15:41,060

there visiting when Ivan got this report

3045

02:15:45,750 --> 02:15:43,579

and so they went and investigated it

3046

02:15:49,089 --> 02:15:45,760

together but yeah it's an interesting

3047

02:15:51,609 --> 02:15:49,099

interesting description in case but I I

3048

02:15:53,800 --> 02:15:51,619

could see it going either way oilmen

3049

02:15:56,490 --> 02:15:53,810

does a really good job too of kind of

3050

02:15:58,750 --> 02:15:56,500

threading his way through the various

3051

02:16:00,280 --> 02:15:58,760

potential explanations and he was a

3052

02:16:04,720 --> 02:16:00,290

strong advocate for this kind of

3053

02:16:08,520 --> 02:16:04,730

cloak-and-dagger scenario where the body

3054

02:16:13,780 --> 02:16:08,530

was collected in Southeast Asia by a

3055

02:16:17,979 --> 02:16:13,790

Vietnam GI who then secretin it back to

3056

02:16:20,310 --> 02:16:17,989

the states on a military transport in a

3057

02:16:23,410 --> 02:16:20,320

coffin or in other baggage or whatever

3058

02:16:25,899 --> 02:16:23,420

this was a means by which you know drugs

3059

02:16:27,790 --> 02:16:25,909

were presumably brought back to the

3060

02:16:31,290 --> 02:16:27,800

States on a regular basis and so there

3061

02:16:34,509 --> 02:16:31,300

was a vehicle a mechanism by which

3062

02:16:39,040 --> 02:16:34,519

another form of contraband could get

3063

02:16:41,469 --> 02:16:39,050

past customs and and other obstacles you

3064

02:16:44,620 --> 02:16:41,479

know I never liked that is it beyond

3065

02:16:48,849 --> 02:16:44,630

conception but it always just amazed me

3066

02:16:50,889 --> 02:16:48,859

why someone would think that the best

3067

02:16:52,599 --> 02:16:50,899

way to exploit if they were out to

3068

02:16:55,360 --> 02:16:52,609

exploit rather than to further the

3069

02:16:58,450 --> 02:16:55,370

science that the best way to exploit was

3070

02:17:04,030 --> 02:16:58,460

to put something like that out for you

3071

02:17:05,799 --> 02:17:04,040

know for us peekaboo for two bits you

3072

02:17:09,580 --> 02:17:05,809

know but I guess that was a fairly

3073

02:17:12,400 --> 02:17:09,590

lucrative means back in at that day I

3074

02:17:14,259 --> 02:17:12,410

guess we lose track of what you can what

3075

02:17:16,270 --> 02:17:14,269

you can buy with 25 cents you know when

3076

02:17:19,599 --> 02:17:16,280

I tell my kids I used to buy candy bar

3077

02:17:23,530 --> 02:17:19,609

for a nickel they can bully yeah he came

3078

02:17:25,299 --> 02:17:23,540

by the wrapper for that now fright I was

3079

02:17:27,729 --> 02:17:25,309

hot on the heels of

3080

02:17:32,019 --> 02:17:27,739

America's first serial killers in 18 the

3081

02:17:35,709 --> 02:17:32,029

1860s the Espinoza brothers him and his

3082

02:17:38,830 --> 02:17:35,719

uncle and a cousin bushwhacked at least

3083

02:17:41,469 --> 02:17:38,840

40 Cowboys in Colorado someone that's

3084

02:17:43,450 --> 02:17:41,479

not very well-known to most people and

3085

02:17:45,250 --> 02:17:43,460

this was over a six-month period the

3086

02:17:47,889 --> 02:17:45,260

famous mountain man Tom Tobin was sent

3087

02:17:49,809 --> 02:17:47,899

to collect the heads to take him out and

3088

02:17:53,589 --> 02:17:49,819

collect the head so he could get a \$500

3089

02:17:56,109 --> 02:17:53,599

reward from Gilpin William Gilpin who

3090

02:17:57,490 --> 02:17:56,119

was the territorial governor and so he

3091

02:17:59,049 --> 02:17:57,500

got him he found him he cut their heads

3092

02:18:00,399 --> 02:17:59,059

off but he got caught in a flash flood

3093

02:18:02,410 --> 02:18:00,409

and the where for know River and lost

3094

02:18:03,910 --> 02:18:02,420

two of the heads oh but he was able to

3095

02:18:06,309 --> 02:18:03,920

make it back to Denver from southern

3096

02:18:08,410 --> 02:18:06,319

Colorado with one head he plunked it

3097

02:18:10,569 --> 02:18:08,420

down on the desk and and was told that

3098

02:18:12,609 --> 02:18:10,579

there wasn't \$500 in the Treasury to

3099

02:18:14,469 --> 02:18:12,619

give him to get him his reward

3100

02:18:17,139 --> 02:18:14,479

but Gilpin bottomed a suit and took him

3101

02:18:19,450 --> 02:18:17,149

out to dinner and so Tobin evidently

3102

02:18:23,080 --> 02:18:19,460

sold the head to a sideshow and for

3103

02:18:28,059 --> 02:18:23,090

years many years it was displayed in a

3104

02:18:30,819 --> 02:18:28,069

pickle jar the ghost the head of the

3105

02:18:34,660 --> 02:18:30,829

notorious not forget his first name but

3106

02:18:36,729 --> 02:18:34,670

it was the Nestor Espinoza and no you

3107

02:18:39,189 --> 02:18:36,739

know I tried to find out where I tracked

3108

02:18:40,569 --> 02:18:39,199

it for a ways but you know these things

3109

02:18:42,490 --> 02:18:40,579

have a way of collecting a lot of

3110

02:18:46,509 --> 02:18:42,500

quarters and then disappearing into the

3111

02:18:48,089 --> 02:18:46,519

dustbin it's probably the same thing

3112

02:18:50,259 --> 02:18:48,099

happened when the Minnesota Iceman

3113

02:18:53,080 --> 02:18:50,269

probably ended up you know getting

3114

02:18:56,859 --> 02:18:53,090

tossed into a landfill or something very

3115

02:18:58,030 --> 02:18:56,869

well well here's another couple of

3116

02:19:00,549 --> 02:18:58,040

questions we're kind of running out of

3117

02:19:03,969 --> 02:19:00,559

time but you know there's been a lot now

3118

02:19:06,000 --> 02:19:03,979

made over the years since David Pilates

3119

02:19:10,240 --> 02:19:06,010

has come out with his missing 411 books

3120

02:19:11,500 --> 02:19:10,250

which detail the many hundreds even

3121

02:19:13,599 --> 02:19:11,510

thousands of people that have

3122

02:19:16,569 --> 02:19:13,609

inexplicably disappeared within national

3123

02:19:19,959 --> 02:19:16,579

parks you know there's always that kind

3124

02:19:21,879 --> 02:19:19,969

of hint in the the narrative that these

3125

02:19:23,679 --> 02:19:21,889

people were taken by something and of

3126

02:19:25,979 --> 02:19:23,689

course the automatic knee-jerk

3127

02:19:28,149 --> 02:19:25,989

assumption is that the Bigfoot is

3128

02:19:30,399 --> 02:19:28,159

abducting people for some reason or

3129

02:19:32,679 --> 02:19:30,409

another or killing them or whatever how

3130

02:19:34,479 --> 02:19:32,689

does that strike you and and what do you

3131

02:19:36,839 --> 02:19:34,489

make of all these disappearances

3132

02:19:38,070 --> 02:19:36,849

some very inexplicable were the

3133

02:19:39,660 --> 02:19:38,080

bodies are found where people have

3134

02:19:42,179 --> 02:19:39,670

crisscross the area if you know many

3135

02:19:46,530 --> 02:19:42,189

many times piles of carefully cold

3136

02:19:49,559 --> 02:19:46,540

folded clothing or found some pretty

3137

02:19:51,300 --> 02:19:49,569

strange circumstantial evidence around a

3138

02:19:52,830 --> 02:19:51,310

lot of these cases well do you think

3139

02:19:55,290 --> 02:19:52,840

there's any connection between Bigfoot

3140

02:19:57,420 --> 02:19:55,300

and all these many disappearances I

3141

02:20:00,269 --> 02:19:57,430

don't know if they could all be

3142

02:20:03,479 --> 02:20:00,279

attributed to Bigfoot in a uniform

3143

02:20:06,990 --> 02:20:03,489

fashion I know that's yeah I think it's

3144

02:20:09,149 --> 02:20:07,000

very possible that some disappearances

3145

02:20:11,880 --> 02:20:09,159

could be attributed there I mean I've

3146

02:20:14,099 --> 02:20:11,890

dealt with a couple of instances where

3147

02:20:15,689 --> 02:20:14,109

there was some good circumstantial

3148

02:20:20,490 --> 02:20:15,699

evidence and even some eyewitness

3149

02:20:23,490 --> 02:20:20,500

evidence that pointed to an unsolved

3150

02:20:27,389 --> 02:20:23,500

disappearance being attributable to

3151  
02:20:29,389 --> 02:20:27,399  
Sasquatch activity you know I when you

3152  
02:20:30,540 --> 02:20:29,399  
look at some of the Native American

3153  
02:20:34,410 --> 02:20:30,550  
tribbles

3154  
02:20:38,120 --> 02:20:34,420  
some has a King Kong narrative are the

3155  
02:20:41,700 --> 02:20:38,130  
King Kong narrative up in the north was

3156  
02:20:45,000 --> 02:20:41,710  
they give the you know a bus they'd

3157  
02:20:47,070 --> 02:20:45,010  
actually present the Bigfoot with a fair

3158  
02:20:48,899 --> 02:20:47,080  
maiden that's right and there are

3159  
02:20:51,330 --> 02:20:48,909  
accounts a couple of credible accounts

3160  
02:20:52,139 --> 02:20:51,340  
one one in particular that I'm familiar

3161  
02:20:57,899 --> 02:20:52,149  
with

3162  
02:20:59,729 --> 02:20:57,909  
fairly closely that of a native a tribal

3163  
02:21:03,210 --> 02:20:59,739

woman being abducted young women being

3164

02:21:07,620 --> 02:21:03,220

abducted and coming back you know a year

3165

02:21:10,349 --> 02:21:07,630

later pregnant and giving birth to a in

3166

02:21:14,880 --> 02:21:10,359

this instance giving birth to an infant

3167

02:21:17,639 --> 02:21:14,890

that was sickly gangly much hairier than

3168

02:21:21,450 --> 02:21:17,649

typical never able to learn to speak and

3169

02:21:23,700 --> 02:21:21,460

died at a young age of its ills wow I've

3170

02:21:26,240 --> 02:21:23,710

never heard about that one yeah and and

3171

02:21:29,189 --> 02:21:26,250

that one was confirmed independently by

3172

02:21:30,780 --> 02:21:29,199

another individual that you know we had

3173

02:21:33,240 --> 02:21:30,790

we had both ends of the story the woman

3174

02:21:36,469 --> 02:21:33,250

had gone off in into seclusion was sent

3175

02:21:39,059 --> 02:21:36,479

to live with relatives out of state and

3176  
02:21:42,330 --> 02:21:39,069  
when we were doing the documentary shoot

3177  
02:21:43,820 --> 02:21:42,340  
in that state this one guy comes up and

3178  
02:21:46,050 --> 02:21:43,830  
as we're talking he tells the story

3179  
02:21:49,109 --> 02:21:46,060  
about this woman who came down from

3180  
02:21:50,610 --> 02:21:49,119  
Wyoming and gave and reportedly gave

3181  
02:21:53,670 --> 02:21:50,620  
birth to this you know

3182  
02:21:55,410 --> 02:21:53,680  
mongrel child that was sick and and died

3183  
02:21:59,011 --> 02:21:55,420  
when it was about eight years old and it

3184  
02:22:01,341 --> 02:21:59,021  
was buried up there on the hill and it

3185  
02:22:03,900 --> 02:22:01,351  
was uncanny because it was absolutely

3186  
02:22:06,660 --> 02:22:03,910  
confirmed that it was the same same

3187  
02:22:08,130 --> 02:22:06,670  
circumstance same time same individual

3188  
02:22:11,820 --> 02:22:08,140

he even knew the names of the person

3189

02:22:15,020 --> 02:22:11,830

involved and and so it was interesting

3190

02:22:17,490 --> 02:22:15,030

so there's that possibility that if true

3191

02:22:18,810 --> 02:22:17,500

speaks a lot about you know this

3192

02:22:20,880 --> 02:22:18,820

question we were talking about earlier

3193

02:22:23,341 --> 02:22:20,890

about the relatedness of Sasquatch to

3194

02:22:25,290 --> 02:22:23,351

humans right the ability to hybridize

3195

02:22:28,950 --> 02:22:25,300

even if it doesn't produce a viable

3196

02:22:33,060 --> 02:22:28,960

offspring that that is you know healthy

3197

02:22:37,710 --> 02:22:33,070

and vibrant but you know David is very

3198

02:22:39,450 --> 02:22:37,720

careful and makes the make stresses the

3199

02:22:42,780 --> 02:22:39,460

point that nowhere in his book does he

3200

02:22:49,230 --> 02:22:42,790

attribute these occurrences to Bigfoot

3201

02:22:50,761 --> 02:22:49,240

to any other factor he simply is yeah

3202

02:22:52,740 --> 02:22:50,771

he's stating the facts to the best of

3203

02:22:55,380 --> 02:22:52,750

his ability right there is no evidence

3204

02:22:58,380 --> 02:22:55,390

to suggest that that is an answer for

3205

02:23:01,110 --> 02:22:58,390

some or even any of the disappearances

3206

02:23:04,261 --> 02:23:01,120

right but you know the one of the names

3207

02:23:08,520 --> 02:23:04,271

for the Sasquatch in this region is so

3208

02:23:12,360 --> 02:23:08,530

Ibiza which is that or so avec which is

3209

02:23:14,551 --> 02:23:12,370

the eater of children and we know what

3210

02:23:18,530 --> 02:23:14,561

seemed to be just so stories about

3211

02:23:21,060 --> 02:23:18,540

snatching and and carrying off infants

3212

02:23:24,330 --> 02:23:21,070

took on a whole new dimension for me

3213

02:23:27,091 --> 02:23:24,340

when a colleague who had worked in the

3214

02:23:30,540 --> 02:23:27,101

Peace Corps in Africa got a job as a

3215

02:23:33,540 --> 02:23:30,550

ranger in a park and told me that during

3216

02:23:35,820 --> 02:23:33,550

his stint there they had an incident

3217

02:23:39,511 --> 02:23:35,830

that was kind of hushed up in which a

3218

02:23:41,430 --> 02:23:39,521

field workers child that was bundled up

3219

02:23:43,551 --> 02:23:41,440

down under a bush parked under a bush

3220

02:23:47,310 --> 02:23:43,561

while she was a few yards away

3221

02:23:50,670 --> 02:23:47,320

tilling was snatched by a passing

3222

02:23:52,950 --> 02:23:50,680

chimpanzee and before the field workers

3223

02:23:55,950 --> 02:23:52,960

could chase it down and you know and

3224

02:23:57,750 --> 02:23:55,960

retrieve it it had been dispatched and

3225

02:24:01,350 --> 02:23:57,760

partially consumed by this chimp

3226

02:24:03,970 --> 02:24:01,360

well then shortly thereafter in a much

3227

02:24:07,570 --> 02:24:03,980

more public fashion word got out

3228

02:24:09,131 --> 02:24:07,580

that in that area of Uganda it where

3229

02:24:12,070 --> 02:24:09,141

they were experiencing severe drought

3230

02:24:14,100 --> 02:24:12,080

conditions there was a rash of such

3231

02:24:17,341 --> 02:24:14,110

abductions and over a seven month period

3232

02:24:22,030 --> 02:24:17,351

12 individual in infants or toddlers

3233

02:24:23,621 --> 02:24:22,040

were snatched by chimpanzees I'll tell

3234

02:24:25,331 --> 02:24:23,631

you what I don't want to be in that area

3308

02:27:30,149 --> 02:27:27,880

years ago when a trainer told me it was

3309

02:27:32,460 --> 02:27:30,159

the end-all of protein powder one day

3310

02:27:35,010 --> 02:27:32,470

when I ran out I decided to try other

3311

02:27:37,080 --> 02:27:35,020

brand I spent eight months and could not

3312

02:27:39,510 --> 02:27:37,090

find a replacement I went through tons

3313

02:27:42,000 --> 02:27:39,520

of brands height and flavors and almost

3314

02:27:44,460 --> 02:27:42,010

all of them tasted unnatural and not

3315

02:27:47,189 --> 02:27:44,470

pleasant when it all boiled down I came

3316

02:27:49,620 --> 02:27:47,199

right back to one world way I buy the

3317

Bigfoot sasquatch whatever that they

3354  
02:29:25,060 --> 02:29:22,490  
appear in window areas that tend to

3355  
02:29:26,170 --> 02:29:25,070  
attract paranormal activity but

3356  
02:29:29,290 --> 02:29:26,180  
everything you're talking about is just

3357  
02:29:31,900 --> 02:29:29,300  
a physical presence everything you know

3358  
02:29:33,820 --> 02:29:31,910  
the behaviors even this this issue now

3359  
02:29:35,710 --> 02:29:33,830  
see of child snatching can be

3360  
02:29:39,850 --> 02:29:35,720  
accommodated within the natural behavior

3361  
02:29:42,070 --> 02:29:39,860  
of great apes there was an instance one

3362  
02:29:43,900 --> 02:29:42,080  
of my contacts on the reservation told

3363  
02:29:46,060 --> 02:29:43,910

the story that he was familiar with from

3364

02:29:48,100 --> 02:29:46,070

his grandparents growing up in Northern

3365

02:29:51,490 --> 02:29:48,110

Nevada where during a very harsh winter

3366

02:29:53,890 --> 02:29:51,500

a child was snatched by a sasquatch and

3367

02:29:56,860 --> 02:29:53,900

that was probably the the seed that

3368

02:29:59,591 --> 02:29:56,870

planted this notion and and gave rise to

3369

02:30:02,230 --> 02:29:59,601

this this name of snatcher but that's

3370

02:30:04,240 --> 02:30:02,240

ona qua the cannibal scientists of

3371

02:30:06,700 --> 02:30:04,250

British Columbia the the Pacific

3372

02:30:10,480 --> 02:30:06,710

Northwest that's what she's known for

3373

02:30:13,091 --> 02:30:10,490

right well yeah that Sonoco has these

3374

02:30:14,980 --> 02:30:13,101

big oversized hands depicted with big

3375

02:30:17,230 --> 02:30:14,990

oversized human-like hands which she

3376

02:30:19,210 --> 02:30:17,240

reportedly covers with pine pitch you

3377

02:30:21,040 --> 02:30:19,220

know like an NFL receiver so she can

3378

02:30:21,940 --> 02:30:21,050

catch the children and they won't slip

3379

02:30:23,860 --> 02:30:21,950

out of her hands

3380

02:30:25,091 --> 02:30:23,870

itches him into a basket on her back

3381

02:30:26,950 --> 02:30:25,101

and takes him home to eat for dinner

3382

02:30:29,140 --> 02:30:26,960

that they usually escape because she's

3383

02:30:32,051 --> 02:30:29,150

rather dim-witted and she often falls

3384

02:30:33,490 --> 02:30:32,061

asleep and the kids can climb out or

3385

02:30:36,011 --> 02:30:33,500

pick their way out through the crude

3386

02:30:38,530 --> 02:30:36,021

basket but there are numerous things

3387

02:30:40,450 --> 02:30:38,540

like that where descriptions or

3388

02:30:43,060 --> 02:30:40,460

behaviors attributed sasquatch have

3389

02:30:45,280 --> 02:30:43,070

actually anticipated what we learn

3390

02:30:48,131 --> 02:30:45,290

eventually about the natural behaviors

3391

02:30:49,900 --> 02:30:48,141

of great apes or the fossil record of

3392

02:30:51,460 --> 02:30:49,910

hominid evolution you know those

3393

02:30:53,801 --> 02:30:51,470

examples are fascinating and how would

3394

02:30:56,170 --> 02:30:53,811

hoaxers come up with those things and be

3395

02:30:58,150 --> 02:30:56,180

so accurate in their depictions I mean

3396

02:31:00,400 --> 02:30:58,160

why would we have these stories that go

3397

02:31:02,290 --> 02:31:00,410

all the way back into prehistory that

3398

02:31:05,950 --> 02:31:02,300

filter down through the generations of

3399

02:31:07,960 --> 02:31:05,960

these wild men or in some instances a

3400

02:31:10,720 --> 02:31:07,970

race of shamans that decided to go back

3401  
02:31:12,940 --> 02:31:10,730  
to the wild many descriptions legendary

3402  
02:31:15,551 --> 02:31:12,950  
descriptions in the Native American lore

3403  
02:31:18,551 --> 02:31:15,561  
talk about humans that went back into a

3404  
02:31:20,310 --> 02:31:18,561  
feral State and occasionally hold the

3405  
02:31:23,470 --> 02:31:20,320  
tribe hostage and they have to

3406  
02:31:26,200 --> 02:31:23,480  
Maiden or for whatever reason probably

3407  
02:31:28,390 --> 02:31:26,210  
to help with the gene pool or something

3408  
02:31:31,750 --> 02:31:28,400  
but of course as I mentioned the Windigo

3409  
02:31:33,400 --> 02:31:31,760  
in the Ojibwe and Amish Nobby cultures

3410  
02:31:35,530 --> 02:31:33,410  
just above the border there in Canada

3411  
02:31:37,870 --> 02:31:35,540  
around the Great Lakes area the the

3412  
02:31:40,240 --> 02:31:37,880  
Windigo is the big hairy cannibal that

3413  
02:31:43,211 --> 02:31:40,250

comes through and snatches a child and

3414

02:31:45,610 --> 02:31:43,221

paces off it'd be quite unfortunate if I

3415

02:31:48,160 --> 02:31:45,620

was hiking along in Yosemite or Rainier

3416

02:31:50,051 --> 02:31:48,170

National Park or something and have one

3417

02:31:52,290 --> 02:31:50,061

of my parties snatched by a Bigfoot for

3418

02:31:55,750 --> 02:31:52,300

reasons unknown that would be a little

3419

02:31:57,910 --> 02:31:55,760

disconcerting well let's let's kind of

3420

02:32:00,790 --> 02:31:57,920

look forward now since we're running out

3421

02:32:03,671 --> 02:32:00,800

of time here where do you see this type

3422

02:32:06,280 --> 02:32:03,681

of research progressing what do we need

3423

02:32:09,970 --> 02:32:06,290

to think about to further this research

3424

02:32:13,570 --> 02:32:09,980

and how can we convince more scientists

3425

02:32:16,600 --> 02:32:13,580

that this is a very fruitful Avenue of

3426

02:32:19,030 --> 02:32:16,610

Investigation and research and and and

3427

02:32:21,850 --> 02:32:19,040

and to lose the stigma what can we do

3428

02:32:24,100 --> 02:32:21,860

well I think one is the recognition of

3429

02:32:26,530 --> 02:32:24,110

this shifting paradigm in anthropology

3430

02:32:28,830 --> 02:32:26,540

for example away from the single species

3431

02:32:32,230 --> 02:32:28,840

hypothesis to what we might call a

3432

02:32:34,360 --> 02:32:32,240

persistent multi species hypothesis that

3433

02:32:36,430 --> 02:32:34,370

we have contemporaneity of species

3434

02:32:39,881 --> 02:32:36,440

throughout history even into the present

3435

02:32:42,430 --> 02:32:39,891

and once a context once a construct

3436

02:32:46,841 --> 02:32:42,440

within the framework within this new

3437

02:32:48,220 --> 02:32:46,851

paradigm is Latino takes root then you

3438

02:32:49,780 --> 02:32:48,230

know my colleagues especially the

3439

02:32:53,680 --> 02:32:49,790

upcoming generation will be justified

3440

02:32:56,440 --> 02:32:53,690

and writing a paper or doing an analysis

3441

02:32:59,410 --> 02:32:56,450

of some of this evidence and I see that

3442

02:33:02,051 --> 02:32:59,420

coming you know are still very important

3443

02:33:04,631 --> 02:33:02,061

obviously is is the ultimate collection

3444

02:33:08,230 --> 02:33:04,641

of either a type specimen or short of

3445

02:33:09,850 --> 02:33:08,240

that a definitive DNA analysis that's

3446

02:33:12,250 --> 02:33:09,860

going to be challenging I really think

3447

02:33:15,730 --> 02:33:12,260

you know if this creature is somewhere

3448

02:33:17,830 --> 02:33:15,740

in that gap between us and chimpanzees

3449

02:33:20,110 --> 02:33:17,840

in our closest living relative

3450

02:33:23,051 --> 02:33:20,120

acknowledged living relative you know

3451

02:33:25,690 --> 02:33:23,061

that the gap between them and us is very

3452

02:33:28,600 --> 02:33:25,700

narrow just a few percentage points a

3453

02:33:30,430 --> 02:33:28,610

difference in DNA sometimes you have to

3454

02:33:32,591 --> 02:33:30,440

look hard to find those distinctions

3455

02:33:33,480 --> 02:33:32,601

between us and them and if you're just

3456

02:33:36,480 --> 02:33:33,490

doing

3457

02:33:40,680 --> 02:33:36,490

you know a cursory spa checkup at one

3458

02:33:42,930 --> 02:33:40,690

particular locus on a limited basis then

3459

02:33:46,500 --> 02:33:42,940

what are the chances that you might miss

3460

02:33:49,261 --> 02:33:46,510

that distinguishing trait that sets a

3461

02:33:51,230 --> 02:33:49,271

sasquatch apart from us now so I think

3462

02:33:54,211 --> 02:33:51,240

it's going to require a dedicated

3463

02:33:56,970 --> 02:33:54,221

researcher who's willing to invest the

3464

02:33:59,850 --> 02:33:56,980

time with with the proper funding but to

3465

02:34:02,790 --> 02:33:59,860

rep to dedicate that his or her time to

3466

02:34:04,650 --> 02:34:02,800

do this completely and thoroughly in

3467

02:34:05,730 --> 02:34:04,660

order to come to that conclusion you

3468

02:34:07,470 --> 02:34:05,740

know there is no precedent for

3469

02:34:10,350 --> 02:34:07,480

acknowledging a new species of the basis

3470

02:34:12,810 --> 02:34:10,360

of DNA a law we've traditionally always

3471

02:34:15,301 --> 02:34:12,820

required a physical specimen but there

3472

02:34:18,660 --> 02:34:15,311

is a growing literature now in which we

3473

02:34:22,410 --> 02:34:18,670

find discussions of the propriety of

3474

02:34:24,810 --> 02:34:22,420

that requirement in cases of endangered

3475

02:34:27,870 --> 02:34:24,820

or rare species can we in this day and

3476

02:34:30,511 --> 02:34:27,880

age now rely upon a voucher specimen of

3477

02:34:32,790 --> 02:34:30,521

DNA a tissue or you know a hair sample

3478

02:34:34,680 --> 02:34:32,800

to establish and recognize the new

3479

02:34:36,720 --> 02:34:34,690

species and perhaps Sasquatch will be

3480

02:34:39,270 --> 02:34:36,730

the best test case of that you know to

3481

02:34:42,060 --> 02:34:39,280

come along if we get to that point as

3482

02:34:44,131 --> 02:34:42,070

far as studying them you know even if

3483

02:34:48,410 --> 02:34:44,141

someone walked in with a hair strand or

3484

02:34:51,120 --> 02:34:48,420

a chunk of skin and blood that produced

3485

02:34:52,680 --> 02:34:51,130

definitive DNA that would just be the

3486

02:34:53,820 --> 02:34:52,690

beginning of the work we're going to

3487

02:34:56,070 --> 02:34:53,830

need to do to come to an understanding

3488

02:34:59,070 --> 02:34:56,080

of just what these things are what these

3489

02:35:01,020 --> 02:34:59,080

beings are and it won't become any

3490

02:35:03,180 --> 02:35:01,030

easier to collect that kind of data in

3491

02:35:05,160 --> 02:35:03,190

the field and so we're gonna have to use

3492

02:35:06,841 --> 02:35:05,170

techniques like I'm working with the

3493

02:35:10,711 --> 02:35:06,851

gentleman we've acquired a 20 foot

3494

02:35:13,310 --> 02:35:10,721

helium blimp right that is motor driven

3495

02:35:17,160 --> 02:35:13,320

rather than being a stationary you know

3496

02:35:19,290 --> 02:35:17,170

type of a surveillance device it's

3497

02:35:21,211 --> 02:35:19,300

equipped with the best of the best

3498

02:35:24,000 --> 02:35:21,221

thermal imaging cameras that our

3499

02:35:25,860 --> 02:35:24,010

tailored capacity will permit and we're

3500

02:35:29,910 --> 02:35:25,870

chomping at the bit to get out there

3501  
02:35:32,850 --> 02:35:29,920  
this next year next spring is using this

3502  
02:35:34,171 --> 02:35:32,860  
to do aerial surveys at night looking

3503  
02:35:35,490 --> 02:35:34,181  
for warm bodies but then of course

3504  
02:35:37,591 --> 02:35:35,500  
you're gonna have to get in there on

3505  
02:35:39,870 --> 02:35:37,601  
your feet boots on the ground to site

3506  
02:35:41,341 --> 02:35:39,880  
verify and you'll in the haystack but

3507  
02:35:43,320 --> 02:35:41,351  
boy it's a real bleep forward

3508  
02:35:46,350 --> 02:35:43,330  
well yeah compared to just tromping

3509  
02:35:46,980 --> 02:35:46,360  
around on foot or putting game cameras

3510  
02:35:48,270 --> 02:35:46,990  
out I think

3511  
02:35:50,910 --> 02:35:48,280  
it's a huge step forward it's a

3512  
02:35:52,830 --> 02:35:50,920  
necessary step forward in order to take

3513  
02:35:54,570 --> 02:35:52,840

this search to the next level

3514

02:35:56,671 --> 02:35:54,580

yeah it's very proactive I like it I

3515

02:35:58,290 --> 02:35:56,681

love the design of the blimp - it's real

3516

02:36:00,421 --> 02:35:58,300

sexy looking well now this is a

3517

02:36:02,190 --> 02:36:00,431

different one okay you're thinking of

3518

02:36:04,770 --> 02:36:02,200

the Falcon project with that fabric

3519

02:36:06,330 --> 02:36:04,780

right that catamaran stuff unfortunately

3520

02:36:09,511 --> 02:36:06,340

the funding never came through for that

3521

02:36:12,480 --> 02:36:09,521

and so in working with another sponsor

3522

02:36:14,551 --> 02:36:12,490

another investigator with funding

3523

02:36:16,650 --> 02:36:14,561

directed towards this you know instead

3524

02:36:19,560 --> 02:36:16,660

of a two hundred and sixty thousand

3525

02:36:22,560 --> 02:36:19,570

dollar airship that mr. Barnes had

3526

02:36:25,290 --> 02:36:22,570

envisioned and his you know engineers

3527

02:36:27,450 --> 02:36:25,300

have designed where ours cost probably

3528

02:36:29,580 --> 02:36:27,460

about twenty thousand dollars another

3529

02:36:32,250 --> 02:36:29,590

ten thousand for the camera system

3530

02:36:34,560 --> 02:36:32,260

itself that's 1/10 the price yeah

3531

02:36:37,921 --> 02:36:34,570

exactly and so you know I can see a time

3532

02:36:41,131 --> 02:36:37,931

to where we double up you know this has

3533

02:36:42,720 --> 02:36:41,141

an air time of about a duration of about

3534

02:36:46,850 --> 02:36:42,730

two and a half to three and a half hours

3535

02:36:49,410 --> 02:36:46,860

and so you know if you have a contact

3536

02:36:52,200 --> 02:36:49,420

envision us eventually having sort of a

3537

02:36:54,301 --> 02:36:52,210

tag-team strategy where the second blimp

3538

02:36:56,131 --> 02:36:54,311

comes up and picks up the tracking while

3539

02:36:58,650 --> 02:36:56,141

the other one comes back to camp and we

3540

02:37:00,360 --> 02:36:58,660

swap out the batteries recharge it and

3541

02:37:03,421 --> 02:37:00,370

get ready to send it out a couple hours

3542

02:37:06,511 --> 02:37:03,431

later and that way maintain surveillance

3543

02:37:09,511 --> 02:37:06,521

over an area or hopefully over a target

3544

02:37:11,490 --> 02:37:09,521

throughout the night I'll tell you what

3545

02:37:13,200 --> 02:37:11,500

please keep us informed Jeff it just

3546

02:37:14,761 --> 02:37:13,210

sounds fascinating that you're making

3547

02:37:16,400 --> 02:37:14,771

some progress here and we'll get some

3548

02:37:19,290 --> 02:37:16,410

real answers in the very near future

3549

02:37:20,520 --> 02:37:19,300

Jeff Meldrum please tell our listeners

3550

02:37:23,131 --> 02:37:20,530

where they can find more information

3551

02:37:25,261 --> 02:37:23,141

about what you do well I'd like to

3552

02:37:27,720 --> 02:37:25,271

encourage the viewers to go to the relic

3553

02:37:30,060 --> 02:37:27,730

hominid inquiry for some good scholarly

3554

02:37:34,320 --> 02:37:30,070

treatment of the subject that's an ISU

3555

02:37:36,421 --> 02:37:34,330

edu slash RHI my publication Sasquatch

3556

02:37:39,841 --> 02:37:36,431

legend meets science can be had through

3557

02:37:41,790 --> 02:37:39,851

Amazon a great starting point and I've

3558

02:37:44,250 --> 02:37:41,800

also written a couple of field guides

3559

02:37:46,470 --> 02:37:44,260

the most recent of which is sort of a

3560

02:37:49,020 --> 02:37:46,480

synopsis of these dual principles we've

3561

02:37:52,591 --> 02:37:49,030

been discussing about relic hominids if

3562

02:37:54,870 --> 02:37:52,601

you search my name under Amazon and look

3563

02:37:56,940 --> 02:37:54,880

for wild men a field guide for relic

3564

02:37:59,520 --> 02:37:56,950

hominid I think it'll be a good

3565

02:38:00,660 --> 02:37:59,530

jumping-off point you can find us on

3566
