DAVE COTE

1  
00:00:25,050 --> 00:00:19,500

[Music]

2  
00:00:28,670 --> 00:00:25,060

you're in the para cast the gold

3  
00:00:34,560 --> 00:00:28,680

standard of paranormal radio and now

4  
00:00:36,990 --> 00:00:34,570

here's gene Steinberg you know in the

5  
00:00:39,210 --> 00:00:37,000

commercial news media where they have TV

6  
00:00:41,220 --> 00:00:39,220

stations with hundreds of people they'll

7  
00:00:42,840 --> 00:00:41,230

assemble the show sometimes in just a

8  
00:00:45,360 --> 00:00:42,850

few minutes because of the press of

9  
00:00:47,130 --> 00:00:45,370

events but I don't think in the ten

10  
00:00:50,310 --> 00:00:47,140

years that we've done the power cast

11  
00:00:53,069 --> 00:00:50,320

we'll ever plan to show and began to

12  
00:00:56,250 --> 00:00:53,079

execute that plan in 20 minutes flat is

13  
00:00:58,860 --> 00:00:56,260

this a record for us Chris yeah I think

14

00:01:00,870 --> 00:00:58,870

it is I think the closest we've come is

15

00:01:03,960 --> 00:01:00,880

when we've done a couple of episodes at

16

00:01:06,330 --> 00:01:03,970

the International UFO Congress then we

17

00:01:08,070 --> 00:01:06,340

assembled guests pretty quickly and we

18

00:01:10,469 --> 00:01:08,080

got some pretty good content out of it

19

00:01:12,330 --> 00:01:10,479

let me have hopes for today but I want

20

00:01:14,070 --> 00:01:12,340

to talk briefly about something that we

21

00:01:16,889 --> 00:01:14,080

mentioned during the after the power

22

00:01:19,560 --> 00:01:16,899

cast podcast which is a part of the

23

00:01:21,840 --> 00:01:19,570

power cast plus package and I'd like to

24

00:01:25,050 --> 00:01:21,850

bring it up here too and that's about

25

00:01:28,169 --> 00:01:25,060

the level of evidence it's available to

26

00:01:30,330 --> 00:01:28,179

prove that UFOs or spaceships now last

27

00:01:33,510 --> 00:01:30,340

week we featured Phyllis Bunning her and

28

00:01:36,809 --> 00:01:33,520

she's a terrific guest she's a nice lady

29

00:01:41,100 --> 00:01:36,819

who obviously is very dedicated to her

30

00:01:46,680 --> 00:01:41,110

work and she recounted her research into

31

00:01:49,020 --> 00:01:46,690

the delphos Kansas UFO case from 1971 is

32

00:01:52,169 --> 00:01:49,030

it Chris and then the Barney and Betty

33

00:01:55,800 --> 00:01:52,179

hill case from 1961 word she actually

34

00:01:59,219 --> 00:01:55,810

looked at Betty Hills dress right now in

35

00:02:02,490 --> 00:01:59,229

all this all this testing she did and

36

00:02:04,919 --> 00:02:02,500

she's a chemist by profession she found

37

00:02:08,510 --> 00:02:04,929

no evidence to indicate the presence of

38

00:02:10,650 --> 00:02:08,520

an alien now I don't know about you that

39

00:02:13,170 --> 00:02:10,660

doesn't prove anything

40

00:02:16,080 --> 00:02:13,180

that there are no aliens but where is

41

00:02:18,740 --> 00:02:16,090

the proof that there are aliens number

42

00:02:21,479 --> 00:02:18,750

one you it's how many years after the

43

00:02:23,100 --> 00:02:21,489

alleged abduction did she do the testing

44

00:02:25,410 --> 00:02:23,110

so you know even though the dress did

45

00:02:28,260 --> 00:02:25,420

hang in the closet was never washed you

46

00:02:29,220 --> 00:02:28,270

know the way DNA testing goes you would

47

00:02:33,000 --> 00:02:29,230

think that there were there would be

48

00:02:34,350 --> 00:02:33,010

something but but no I just had my DNA

49

00:02:36,480 --> 00:02:34,360

tested actually I got my

50

00:02:41,670 --> 00:02:36,490

results yesterday what do we know about

51  
00:02:45,090 --> 00:02:41,680  
you are you an earth person well folks

52  
00:02:48,870 --> 00:02:45,100  
listen he's hesitating it's you know I

53  
00:02:51,780 --> 00:02:48,880  
was told by my erstwhile father I was

54  
00:02:52,770 --> 00:02:51,790  
adopted by another family he lost me and

55  
00:02:55,140 --> 00:02:52,780  
now he's dead

56  
00:02:56,550 --> 00:02:55,150  
well that's his punishment for losing

57  
00:02:58,680 --> 00:02:56,560  
you yeah exactly

58  
00:03:01,380 --> 00:02:58,690  
well anyway he must have been quite

59  
00:03:03,090 --> 00:03:01,390  
quite the flim-flam man because I don't

60  
00:03:05,910 --> 00:03:03,100  
have a great-grandmother who's Cherokee

61  
00:03:14,940 --> 00:03:05,920  
as he put it I am more British than most

62  
00:03:18,180 --> 00:03:14,950  
Brits I Sam chap yes I'm 70% Brit 17%

63  
00:03:25,140 --> 00:03:18,190

from the Iberian Peninsula so I have

64

00:03:30,540 --> 00:03:25,150

asked and 1% jewish 1% Finnish 1%

65

00:03:34,610 --> 00:03:30,550

Russian and 1% Molly from West Africa

66

00:03:38,070 --> 00:03:34,620

and 1% what's the country right off of

67

00:03:40,130 --> 00:03:38,080

Madagascar in southern Africa that's

68

00:03:43,050 --> 00:03:40,140

probably where my you know

69

00:03:47,310 --> 00:03:43,060

great-great-great - about a 10,000

70

00:03:51,539 --> 00:03:47,320

generations ago I was probably some you

71

00:03:54,830 --> 00:03:51,549

know hairy naked barely tool-using

72

00:04:01,699 --> 00:03:54,840

primate so you are very slightly

73

00:04:04,620 --> 00:04:01,709

african-american yes 0.5% Mali 0.5% I

74

00:04:07,380 --> 00:04:04,630

was probably a captured slave in the

75

00:04:09,210 --> 00:04:07,390

1400s or something I don't know

76  
00:04:11,220 --> 00:04:09,220  
that was taken to the Iberian Peninsula

77  
00:04:13,949 --> 00:04:11,230  
and married into a Spanish family that

78  
00:04:16,500 --> 00:04:13,959  
somehow had a connection to Great

79  
00:04:19,680 --> 00:04:16,510  
Britain probably fell off the boat in

80  
00:04:19,890 --> 00:04:19,690  
the Spanish Armada and that explains a

81  
00:04:22,469 --> 00:04:19,900  
lot

82  
00:04:25,680 --> 00:04:22,479  
falling off the boat I mean yeah well

83  
00:04:31,140 --> 00:04:25,690  
I'm according to my my profile says

84  
00:04:37,590 --> 00:04:31,150  
you're more British than most Brits all

85  
00:04:40,469 --> 00:04:37,600  
right I like the one percent Jewish yeah

86  
00:04:42,810 --> 00:04:40,479  
well at least I got a little in me you

87  
00:04:43,850 --> 00:04:42,820  
know what can I say at least I'm one of

88  
00:04:47,640 --> 00:04:43,860

the chosen

89

00:04:49,230 --> 00:04:47,650

that's right I just wonder who chose you

90

00:04:54,740 --> 00:04:49,240

I was thinking here maybe I should get a

91

00:04:57,510 --> 00:04:54,750

DNA test what do they cost now \$99 okay

92

00:05:00,629 --> 00:04:57,520

\$99 any listeners want to contribute to

93

00:05:03,360 --> 00:05:00,639

my DNA test I did it to see see if my

94

00:05:06,029 --> 00:05:03,370

you know papi I really had some Cherokee

95

00:05:07,710 --> 00:05:06,039

at me because I wanted to get my my card

96

00:05:11,010 --> 00:05:07,720

if I did have a great-great grandmother

97

00:05:13,950 --> 00:05:11,020

a great-great great-grandmother I would

98

00:05:17,129 --> 00:05:13,960

be one-eighth Cherokee and then I could

99

00:05:23,279 --> 00:05:17,139

get my card and get casino royalties but

100

00:05:24,960 --> 00:05:23,289

but no it's your relatives fault so the

101  
00:05:27,629 --> 00:05:24,970  
whole thing here is you were trying to

102  
00:05:30,570 --> 00:05:27,639  
confirm the percentage of Native

103  
00:05:32,730 --> 00:05:30,580  
American blood in you well that was one

104  
00:05:34,730 --> 00:05:32,740  
reason yeah but I I was just curious and

105  
00:05:38,129 --> 00:05:34,740  
I loved the fact that they did this

106  
00:05:40,740 --> 00:05:38,139  
20,000 markers I think or something and

107  
00:05:44,520 --> 00:05:40,750  
it's fascinating to you know to trace

108  
00:05:47,219 --> 00:05:44,530  
your your DNA back of course I'm not

109  
00:05:49,260 --> 00:05:47,229  
sure if it was a was a might is it

110  
00:05:52,080 --> 00:05:49,270  
mitochondrial that they do I'm not sure

111  
00:05:55,140 --> 00:05:52,090  
your honor I need to just look at the

112  
00:05:57,450 --> 00:05:55,150  
results I didn't check in go deeper into

113  
00:06:00,300 --> 00:05:57,460

it to see the actual science involved in

114

00:06:02,250 --> 00:06:00,310

which which side of the family it's

115

00:06:05,339 --> 00:06:02,260

probably my father's side so it's a

116

00:06:07,290 --> 00:06:05,349

patrilineal test on natural annual tests

117

00:06:10,290 --> 00:06:07,300

is going to be different because I I do

118

00:06:12,870 --> 00:06:10,300

know my lineage on my mother's side and

119

00:06:14,670 --> 00:06:12,880

I am descendant of the Y Gant's and

120

00:06:18,240 --> 00:06:14,680

Carters and their their English and

121

00:06:20,129 --> 00:06:18,250

German so but I had no German show up no

122

00:06:21,600 --> 00:06:20,139

Irish I mean with a name like O'Brien

123

00:06:25,070 --> 00:06:21,610

you think you at least have a little bit

124

00:06:28,560 --> 00:06:25,080

of Irish in you but no none not one bit

125

00:06:33,620 --> 00:06:28,570

long and short if it is here is that I

126

00:06:37,740 --> 00:06:33,630

would think that if Betty Hills dress

127

00:06:41,339 --> 00:06:37,750

was managed or handled by aliens with

128

00:06:43,110 --> 00:06:41,349

the DNA still be there after 50 60 years

129

00:06:45,629 --> 00:06:43,120

or something like that well supposedly

130

00:06:47,909 --> 00:06:45,639

they excrete you know their bodily

131

00:06:50,490 --> 00:06:47,919

wastes from their skin so I would

132

00:06:52,710 --> 00:06:50,500

imagine yeah and it would be a it would

133

00:06:55,149 --> 00:06:52,720

be pretty obvious that there be some

134

00:06:57,219 --> 00:06:55,159

alien poo or something

135

00:06:59,290 --> 00:06:57,229

on that dress underneath the armpits

136

00:07:00,579 --> 00:06:59,300

like she described where they you know

137

00:07:02,769 --> 00:07:00,589

where they were carrying her there

138

00:07:05,350 --> 00:07:02,779

should be something there but there

139

00:07:06,879 --> 00:07:05,360

isn't there was and nothing was seen see

140

00:07:08,619 --> 00:07:06,889

this is the biggest problem we have with

141

00:07:11,259 --> 00:07:08,629

this sometimes you see something

142

00:07:15,449 --> 00:07:11,269

anomalous in the testing well this isn't

143

00:07:18,369 --> 00:07:15,459

really normal but at the end of the day

144

00:07:20,290 --> 00:07:18,379

we've been saying UFOs or spaceships or

145

00:07:22,119 --> 00:07:20,300

most people have been saying that we

146

00:07:25,479 --> 00:07:22,129

obviously have the reality of the

147

00:07:30,939 --> 00:07:25,489

sightings and the radar and the trace

148

00:07:33,299 --> 00:07:30,949

evidence but nothing says et not a bit

149

00:07:35,859 --> 00:07:33,309

of it says et not at all

150

00:07:43,869 --> 00:07:35,869

yep you should think that that one of

151  
00:07:46,389 --> 00:07:43,879  
those machines would have done okay or

152  
00:07:48,249 --> 00:07:46,399  
something like that whatever it is we're

153  
00:07:51,609 --> 00:07:48,259  
not seeing the evidence it doesn't mean

154  
00:07:53,499 --> 00:07:51,619  
UFOs aren't spaceships but I think when

155  
00:07:56,649 --> 00:07:53,509  
you reach a point where we're talking

156  
00:08:00,699 --> 00:07:56,659  
about all these years doing testing

157  
00:08:03,669 --> 00:08:00,709  
researching we see evidence of that now

158  
00:08:06,669 --> 00:08:03,679  
of course if they are time travelers

159  
00:08:11,109 --> 00:08:06,679  
from the future you know like the twelve

160  
00:08:13,059 --> 00:08:11,119  
Monkeys TV show or even from another

161  
00:08:15,569 --> 00:08:13,069  
dimension I guess we'd see is but if

162  
00:08:19,230 --> 00:08:15,579  
they're from right here on earth a

163  
00:08:22,929 --> 00:08:19,240

breakaway civilization whatever

164

00:08:26,019 --> 00:08:22,939

obviously the DNA would be human where

165

00:08:27,369 --> 00:08:26,029

it exists I don't know anyway what we're

166

00:08:31,079 --> 00:08:27,379

going to talk about today in the power

167

00:08:34,719 --> 00:08:31,089

cast has nothing whatever to do with

168

00:08:37,420 --> 00:08:34,729

trace evidence although potentially it

169

00:08:39,639 --> 00:08:37,430

could we've been talking about projects

170

00:08:43,300 --> 00:08:39,649

for UFO detectors such as the San Luis

171

00:08:46,420 --> 00:08:43,310

Valley camera project and of course UFO

172

00:08:48,879 --> 00:08:46,430

data that project which we featured on

173

00:08:51,220 --> 00:08:48,889

an episode of the power cast is run by

174

00:08:54,519 --> 00:08:51,230

mark wrote ago of the Center for UFO

175

00:08:56,920 --> 00:08:54,529

studies along with Leslie Kane and read

176  
00:09:00,249 --> 00:08:56,930  
a story that Chris forwarded to me a few

177  
00:09:03,179 --> 00:09:00,259  
weeks back headlined Vancouver's

178

detector into low-earth orbit and the

184  
00:09:25,569 --> 00:09:23,060  
fellow who's joining us is the project

few minutes about how he got involved in

189

00:09:40,660 --> 00:09:36,800

UFOs why he thinks a low-earth orbit

190

00:09:42,850 --> 00:09:40,670

satellite will be productive the status

191

00:09:45,790 --> 00:09:42,860

of the project and when it might be

para cast comm so we have Dave Cote and

312

00:14:27,400 --> 00:14:25,100

I there hi there

313

00:14:30,100 --> 00:14:27,410

joining us on the para cast with gene

314

00:14:33,760 --> 00:14:30,110

and Chris we're gonna talk about this

315

00:14:35,530 --> 00:14:33,770

CubeSat project for disclosure but first

316

00:14:37,300 --> 00:14:35,540

let me remind you we mention in our

317

00:14:38,800 --> 00:14:37,310

previous segment we have a second radio

318

00:14:40,840 --> 00:14:38,810

show out there that we'd like you to

319

00:14:44,020 --> 00:14:40,850

listen to like you to get caught up in

320

00:14:46,060 --> 00:14:44,030

it's called after the para cast and it

321

00:14:49,210 --> 00:14:46,070

really it started out just to be kind of

322

00:14:51,610 --> 00:14:49,220

a wrap-up show or color commentary but

323

00:14:54,790 --> 00:14:51,620

then we would do episodes and suddenly

324

00:14:57,040 --> 00:14:54,800

we find that we can't just do the

325

00:14:59,680 --> 00:14:57,050

regular show in the normal amount of

326

00:15:02,470 --> 00:14:59,690

time the guest has more to say so we

327

00:15:04,060 --> 00:15:02,480

continue the episode in after the para

328

00:15:07,450 --> 00:15:04,070

cast we did that with our listener

329

00:15:10,120 --> 00:15:07,460

roundtable we did that with another show

330

00:15:13,930 --> 00:15:10,130

of ours where we had the 10th

331

00:15:15,670 --> 00:15:13,940

anniversary episode but to get after the

I want to know sir is how did you get

337

00:15:33,760 --> 00:15:31,339

interested in following UFOs well it

338

00:15:35,710 --> 00:15:33,770

started for me I think it was around

339

00:15:38,080 --> 00:15:35,720

2010

340

00:15:40,150 --> 00:15:38,090

and it heard a lot of stories from

341

00:15:42,160 --> 00:15:40,160

various friends some of them being

342

00:15:45,430 --> 00:15:42,170

reputable one of them was a film

343

00:15:47,700 --> 00:15:45,440

director as I used to work in film and I

344

00:15:50,380 --> 00:15:47,710

never really thought too much of it and

345

00:15:52,590 --> 00:15:50,390

around 2010 I had an old high-school

346

00:15:55,330 --> 00:15:52,600

friend who I know quite well trust him

347

00:15:58,330 --> 00:15:55,340

he told me of an experience that he had

348

00:15:59,980 --> 00:15:58,340

had in California for him it was 2008

349

00:16:03,310 --> 00:15:59,990

off the coast of California

350

00:16:06,730 --> 00:16:03,320

he witnessed apparently like a mile-wide

351

00:16:09,760 --> 00:16:06,740

ship over the water over a few islands

352

00:16:11,350 --> 00:16:09,770

and the islands gave him reference so

353

00:16:14,890 --> 00:16:11,360

that he could say it was about a mile

354

00:16:16,840 --> 00:16:14,900

wide he described all the details to me

355

00:16:19,210 --> 00:16:16,850

and I I mean I was still quite skeptical

356

00:16:21,640 --> 00:16:19,220

and I told him like like I know you I

357

00:16:23,440 --> 00:16:21,650

trust you but this is just like it's out

358

00:16:26,770 --> 00:16:23,450

of this world literally and I had a hard

359

00:16:29,200 --> 00:16:26,780

time hearing his story and at that point

360

00:16:32,230 --> 00:16:29,210

he invited me he said would you like to

361

00:16:33,940 --> 00:16:32,240

see them and I kind of thought what he

362

00:16:36,970 --> 00:16:33,950

said that ever since the sighting he had

363

00:16:39,010 --> 00:16:36,980

it kind of terrified him he said when it

364

00:16:41,650 --> 00:16:39,020

happened cars came screeching to a halt

365

00:16:44,140 --> 00:16:41,660

some people screamed and he says ever

366

00:16:45,670 --> 00:16:44,150

since it happened he'll go looking in

367

00:16:47,860 --> 00:16:45,680

the night skies and he'll usually see

368

00:16:49,420 --> 00:16:47,870

something now I don't know if there's a

369

00:16:52,030 --> 00:16:49,430

connection there like he's had a

370

00:16:53,650 --> 00:16:52,040

sighting and then he sees more things so

371

00:16:56,800 --> 00:16:53,660

he invited me along and I thought well

372

00:16:59,350 --> 00:16:56,810

yeah sure I'd love to see something to

373

00:17:02,050 --> 00:16:59,360

help with my skepticism and so he took

374

00:17:04,329 --> 00:17:02,060

me out to a place called Mission it's

375

00:17:08,679 --> 00:17:04,339

close to my family's house near

376

00:17:11,350 --> 00:17:08,689

Vancouver and we went to Rolly Lake at

377

00:17:13,840 --> 00:17:11,360

night and we kind of just sat under the

378

00:17:16,120 --> 00:17:13,850

stars and waited it was about an hour

379

00:17:18,910 --> 00:17:16,130

and when I was losing hope thinking you

380

00:17:20,860 --> 00:17:18,920

know this is ridiculous we saw something

381

00:17:23,470 --> 00:17:20,870

we saw a little look like a flash bulb

382

00:17:26,380 --> 00:17:23,480

turned on above us way up kind of in the

383

00:17:29,650 --> 00:17:26,390

atmosphere and my friend he started

384

00:17:31,600 --> 00:17:29,660

hollering really excited I just kind of

385

00:17:32,110 --> 00:17:31,610

jumped out of myself I get freaked me

386

00:17:34,600 --> 00:17:32,120

out a little

387

00:17:36,760 --> 00:17:34,610

as the light started kind of circling

388

00:17:39,100 --> 00:17:36,770

around and moving and then it would turn

389

00:17:41,920 --> 00:17:39,110

out and then it would turn on again and

390

00:17:45,490 --> 00:17:41,930

it would kind of zigzag now this was

391

00:17:47,890 --> 00:17:45,500

before drones existed so it was not a

392

00:17:49,660 --> 00:17:47,900

drone and it wasn't a plane obviously

393

00:17:52,960 --> 00:17:49,670

and it wasn't a helicopter

394

00:17:56,230 --> 00:17:52,970

there was no sound so at this point in

395

00:17:58,510 --> 00:17:56,240

time I I kind of my skepticism turned

396

00:18:00,880 --> 00:17:58,520

into a question of like what did I see

397

00:18:03,700 --> 00:18:00,890

what what could this possibly be and

398

00:18:06,760 --> 00:18:03,710

then I just I began researching the

399

00:18:09,760 --> 00:18:06,770

subject trying to figure out what it was

400

00:18:12,130 --> 00:18:09,770

I was looking at that night and since

401  
00:18:14,800 --> 00:18:12,140  
then I went out that whole summer

402  
00:18:17,740 --> 00:18:14,810  
invited my brothers to come with us we

403  
00:18:19,810 --> 00:18:17,750  
had a few sightings I just could not get

404  
00:18:22,120 --> 00:18:19,820  
my logical a brain around what we were

405  
00:18:25,300 --> 00:18:22,130  
seeing so this is what kind of led to my

406  
00:18:28,420 --> 00:18:25,310  
interest and wanting to find scientific

407  
00:18:31,330 --> 00:18:28,430  
way of pinning down what we were

408  
00:18:35,500 --> 00:18:31,340  
witnessing let me ask you here before

409  
00:18:37,950 --> 00:18:35,510  
you saw those orbs yeah before your

410  
00:18:40,540 --> 00:18:37,960  
friend told you of the mile long UFO

411  
00:18:44,250 --> 00:18:40,550  
yeah you never read about the subject

412  
00:18:47,410 --> 00:18:44,260  
you never paid attention to it um I mean

413  
00:18:51,550 --> 00:18:47,420

in a fun kind of way like watching

414

00:18:53,380 --> 00:18:51,560

x-files and ancient aliens and

415

00:18:56,110 --> 00:18:53,390

documentary that kind of thing where

416

00:18:58,420 --> 00:18:56,120

it's interesting it's like I mean I

417

00:19:01,800 --> 00:18:58,430

never thought I thought there's no proof

418

00:19:05,020 --> 00:19:01,810

for this but it's an interesting theory

419

00:19:06,970 --> 00:19:05,030

so at this point to use just may be a

420

00:19:09,910 --> 00:19:06,980

form of entertainment some information

421

00:19:12,700 --> 00:19:09,920

some relaxation but you directly having

422

00:19:17,890 --> 00:19:12,710

seen something strange I assume it must

423

00:19:22,210 --> 00:19:17,900

be extraterrestrial well one thing that

424

00:19:24,760 --> 00:19:22,220

happened was I I saw these UFOs over the

425

00:19:27,010 --> 00:19:24,770

course of a summer it told me that

426

00:19:30,790 --> 00:19:27,020

there's something there now whether this

427

00:19:33,610 --> 00:19:30,800

is a government blackops thing however

428

00:19:35,380 --> 00:19:33,620

in Canada in the small town near Maple

429

00:19:38,590 --> 00:19:35,390

Ridge our mission I don't see how that

430

00:19:40,750 --> 00:19:38,600

would be the case but it kind of

431

00:19:42,820 --> 00:19:40,760

verified what my friend had told me

432

00:19:45,850 --> 00:19:42,830

about this huge sighting that he had had

433

00:19:50,290 --> 00:19:45,860

and if this huge sighting that he had

434

00:19:52,900 --> 00:19:50,300

seen in 2008 were true then I can't see

435

00:19:57,160 --> 00:19:52,910

that being any kind of Earth project if

436

00:20:00,190 --> 00:19:57,170

it was literally a mile a mile long

437

00:20:03,190 --> 00:20:00,200

in my research after this I came across

438

00:20:06,700 --> 00:20:03,200

like the famous Phoenix lights

439

00:20:09,760 --> 00:20:06,710

that's a very you know reputable claim

440

00:20:11,920 --> 00:20:09,770

and that ship was very large and it's

441

00:20:14,290 --> 00:20:11,930

hard to see that as being something that

442

00:20:17,830 --> 00:20:14,300

humans are or governments are playing

443

00:20:21,700 --> 00:20:17,840

with fair enough now how did you set

444

00:20:23,920 --> 00:20:21,710

this project to send aloft a UFO

445

00:20:26,410 --> 00:20:23,930

detector how did lead to that just

446

00:20:30,310 --> 00:20:26,420

seeing something strange seeing strange

447

00:20:33,610 --> 00:20:30,320

things in the sky well since that time I

448

00:20:36,490 --> 00:20:33,620

mean I've had a few sightings as I tend

449

00:20:40,450 --> 00:20:36,500

to look up a little more day or night I

450

00:20:42,550 --> 00:20:40,460

was in Thailand in Bangkok with my

451  
00:20:45,370 --> 00:20:42,560  
fiance a couple years back and we were

452  
00:20:47,050 --> 00:20:45,380  
on the roof of our apartment in broad

453  
00:20:49,660 --> 00:20:47,060  
daylight just laying there you know

454  
00:20:52,870 --> 00:20:49,670  
relaxing and we saw a cigar shaped

455  
00:20:55,210 --> 00:20:52,880  
object floating above us and going

456  
00:20:58,120 --> 00:20:55,220  
across the sky and it had no wings it

457  
00:21:00,580 --> 00:20:58,130  
was about probably the heights maybe a

458  
00:21:03,330 --> 00:21:00,590  
bit higher as a like a jet an airline

459  
00:21:06,750 --> 00:21:03,340  
jet but it was very strange it was

460  
00:21:09,520 --> 00:21:06,760  
literally one of the cigar-shaped UFOs

461  
00:21:11,820 --> 00:21:09,530  
that you see pictures of now we're

462  
00:21:14,260 --> 00:21:11,830  
talking here about the same size as a

463  
00:21:16,630 --> 00:21:14,270

regular aircraft except without the

464

00:21:18,900 --> 00:21:16,640

wings in the tail pretty much pretty

465

00:21:21,400 --> 00:21:18,910

much it might have been a bit larger and

466

00:21:23,080 --> 00:21:21,410

we watched it for quite a while to make

467

00:21:26,500 --> 00:21:23,090

sure like there wasn't a trick of the

468

00:21:30,310 --> 00:21:26,510

light and yeah they've had no wings it

469

00:21:33,220 --> 00:21:30,320

was very strange so since then yeah

470

00:21:35,710 --> 00:21:33,230

we've had a few other sightings and it's

471

00:21:37,920 --> 00:21:35,720

just kind of been in my brain and one of

472

00:21:40,300 --> 00:21:37,930

those things that I can't figure out and

473

00:21:42,880 --> 00:21:40,310

because of that it's like something in

474

00:21:45,670 --> 00:21:42,890

my mind does not make sense I was

475

00:21:47,350 --> 00:21:45,680

reading an article about interorbital

476

00:21:49,810 --> 00:21:47,360

systems it's a company that does

477

00:21:53,080 --> 00:21:49,820

launches and they there's this big

478

00:21:55,480 --> 00:21:53,090

article on how they will send a really

479

00:21:57,670 --> 00:21:55,490

small tube sat it's not quite a CubeSat

480

00:22:00,670 --> 00:21:57,680

a little smaller and they'll launch it

481

00:22:04,060 --> 00:22:00,680

for you for 8,000 bucks and that kind of

482

00:22:07,090 --> 00:22:04,070

Keynes my interest thinking wow maybe we

483

00:22:10,630 --> 00:22:07,100

can actually do an experiment to see

484

00:22:12,450 --> 00:22:10,640

what these the UFO phenomenon is you

485

00:22:15,550 --> 00:22:12,460

know before we get to our next segment

486

00:22:16,790 --> 00:22:15,560

how interesting it is that a long time

487

00:22:18,800 --> 00:22:16,800

ago you want

488

00:22:20,870 --> 00:22:18,810

launch anything into orbit any kind of

489

00:22:23,060 --> 00:22:20,880

orbit any kind of satellite you're

490

00:22:25,790 --> 00:22:23,070

talking about tens and tens of billions

491

00:22:29,240 --> 00:22:25,800

of dollars so it's the province of very

492

00:22:30,860 --> 00:22:29,250

rich people or governments regular

493

00:22:33,620 --> 00:22:30,870

people couldn't do it we want to get

494

00:22:35,600 --> 00:22:33,630

into this great equalizer in terms of

495

00:22:38,150 --> 00:22:35,610

launching your satellite and what you

496

00:22:40,310 --> 00:22:38,160

hope to accomplish and we'll deal maybe

lives and you could be one of them it's

573

00:25:48,729 --> 00:25:47,059

called heart and body extract sharon

hera's co-creator of heart and body

575

00:25:52,959 --> 00:25:51,080

extract talks about the positive effects

576  
00:25:54,999 --> 00:25:52,969  
of heart and body extract what happens

577  
00:25:56,409 --> 00:25:55,009  
with the formula heart and body extract

578  
00:25:59,139 --> 00:25:56,419  
is this giving the body the necessary

579  
00:26:01,719 --> 00:25:59,149  
vitamins minerals amino acids enzymes

580  
00:26:03,849 --> 00:26:01,729  
inside a nutrients so the body will heal

581  
00:26:06,009 --> 00:26:03,859  
itself yes the body does have the

582  
00:26:07,989 --> 00:26:06,019  
ability to balance blood pressure now as

583  
00:26:10,659 --> 00:26:07,999  
cholesterol clean and unclog the

584  
00:26:12,579 --> 00:26:10,669  
arteries it can also work on balancing

585  
00:26:14,859 --> 00:26:12,589  
the circulation for diabetics so the

586  
00:26:17,049 --> 00:26:14,869  
body is an amazing thing it simply needs

587  
00:26:18,909 --> 00:26:17,059  
some help so it has the tools to heal

588  
00:26:21,279 --> 00:26:18,919

00:27:10,010 --> 00:27:08,040  
hi this is Bryce Abel and the producer

609  
00:27:11,930 --> 00:27:10,020  
of dark skies the co-author of AD after

610

disclosure and you are listening to the

611  
00:27:25,130 --> 00:27:14,090  
para cast the gold standard of

612  
00:27:27,350 --> 00:27:25,140  
paranormal radio on the Power casts we

613  
00:27:30,950 --> 00:27:27,360

have Dave Cote who was a software

614

00:27:34,160 --> 00:27:30,960

engineer has had UFO sightings including

615

00:27:36,650 --> 00:27:34,170

a large cigar shaped craft and now is

616

00:27:39,650 --> 00:27:36,660

looking into the possibility and trying

617

00:27:42,680 --> 00:27:39,660

to make this project work he and his

618

00:27:46,850 --> 00:27:42,690

colleagues for a cube set here's what

619

00:27:49,610 --> 00:27:46,860

about \$8,000 costs what kind of launches

620

00:27:51,380 --> 00:27:49,620

this is this regular orbit like you

621

00:27:56,240 --> 00:27:51,390

launch a communications satellite aura

622

00:27:59,060 --> 00:27:56,250

so I have other probe the \$8,000 launch

623

00:28:01,190 --> 00:27:59,070

was for a small tiny device that's

624

00:28:04,510 --> 00:28:01,200

called a tube Sat it's smaller than it

625

00:28:07,670 --> 00:28:04,520

keeps out it wouldn't have much

626  
00:28:10,760 --> 00:28:07,680  
functionality to it so what we're doing

627  
00:28:14,000 --> 00:28:10,770  
is we're launching a CubeSat either a u1

628  
00:28:17,240 --> 00:28:14,010  
or a u2 which is the u1 is it's 10

629  
00:28:18,800 --> 00:28:17,250  
centimeters cubed I you to you just

630  
00:28:22,660 --> 00:28:18,810  
double that let's do them stuck together

631  
00:28:25,460 --> 00:28:22,670  
so our launch is actually going to cost

632  
00:28:28,520 --> 00:28:25,470  
the launch itself is about seventeen

633  
00:28:29,960 --> 00:28:28,530  
thousand US dollars and then the

634  
00:28:33,350 --> 00:28:29,970  
building of the satellite will probably

635  
00:28:35,540 --> 00:28:33,360  
be about about that as well so it'll

636  
00:28:37,550 --> 00:28:35,550  
it'll probably come up to thirty

637  
00:28:41,150 --> 00:28:37,560  
thousand maybe a little more after

638  
00:28:44,450 --> 00:28:41,160

everything is considered and our lot it

639

00:28:46,070 --> 00:28:44,460

will go I think it's between three

640

00:28:48,230 --> 00:28:46,080

hundred and ten kilometers to four

641

00:28:50,690 --> 00:28:48,240

hundred kilometers depending on space

642

00:28:53,270 --> 00:28:50,700

weather at the day of the launch this

643

00:28:56,090 --> 00:28:53,280

will only give us approximately three

644

00:28:58,640 --> 00:28:56,100

months of orbit before it re-enters and

645

00:29:01,670 --> 00:28:58,650

burns up so it's not it's not the same

646

00:29:05,170 --> 00:29:01,680

as like a global star network that's up

647

00:29:08,060 --> 00:29:05,180

that's know it's low it's a low orbit

648

00:29:10,910 --> 00:29:08,070

what sort of what sort of trajectory

649

00:29:12,259 --> 00:29:10,920

will it have once it's once it's placed

650

00:29:14,690 --> 00:29:12,269

in orbit

651

00:29:16,009 --> 00:29:14,700

it will be that will it be going around

652

00:29:18,589 --> 00:29:16,019

the northern hemisphere of the southern

653

00:29:22,959 --> 00:29:18,599

hemisphere or the equator it'll be a

654

00:29:25,969 --> 00:29:22,969

polar orbit so we're heading south and

655

00:29:28,759 --> 00:29:25,979

it'll do a polar orbit in a southward

656

00:29:30,079 --> 00:29:28,769

direction I'm assuming it'll it'll kind

657

00:29:32,359 --> 00:29:30,089

of go over different parts of there

658

00:29:34,699 --> 00:29:32,369

similar to the International Space

659

00:29:36,169 --> 00:29:34,709

Station and kind of hook goes around but

660

00:29:39,229 --> 00:29:36,179

then it moves over just a bit because of

661

00:29:41,599 --> 00:29:39,239

the rotation of air so it'll be moving

662

00:29:45,529 --> 00:29:41,609

east every orbit it'll have a slightly

663

00:29:48,589 --> 00:29:45,539

different level along the - yeah so -

664

00:29:51,019 --> 00:29:48,599

eventually it'll cover all parts of the

665

00:29:53,779 --> 00:29:51,029

globe so you're going to get a complete

666

00:29:56,989 --> 00:29:53,789

coverage with this kind of thing yeah I

667

00:30:00,949 --> 00:29:56,999

mean unfortunately it's it'll be a small

668

00:30:02,569 --> 00:30:00,959

area for like it will only see the small

669

00:30:04,879 --> 00:30:02,579

area as it's traveling around it would

670

00:30:10,609 --> 00:30:04,889

be nice to have a network of maybe a

671

00:30:12,499 --> 00:30:10,619

hundred of them yeah well I'm gonna get

672

00:30:14,329 --> 00:30:12,509

into the details with you about this

673

00:30:18,229 --> 00:30:14,339

what you hope to accomplish in terms of

674

00:30:20,899 --> 00:30:18,239

the measuring equipment on it but is

675

00:30:23,839 --> 00:30:20,909

this also meant vendors may be a way to

676

00:30:25,729 --> 00:30:23,849

test the concept and maybe interest

677

00:30:27,759 --> 00:30:25,739

people who have the money to set up a

678

00:30:30,499 --> 00:30:27,769

complete network with these satellites

679

00:30:33,949 --> 00:30:30,509

definitely that's kind of my thoughts

680

00:30:35,769 --> 00:30:33,959

were I mean when I did my first it was

681

00:30:40,399 --> 00:30:35,779

the first two months of our fundraising

682

00:30:43,519 --> 00:30:40,409

a TV news media place contacted me out

683

00:30:46,129 --> 00:30:43,529

of Ontario and they interviewed me on it

684

00:30:47,749 --> 00:30:46,139

and I thought I've already kind of

685

00:30:50,269 --> 00:30:47,759

reached the goal of getting the word out

686

00:30:52,459 --> 00:30:50,279

because yes I think the fact that we're

687

00:30:55,310 --> 00:30:52,469

doing this it kind of opens people's

688

00:30:58,399 --> 00:30:55,320

eyes and opens their minds to the fact

689

00:31:00,259 --> 00:30:58,409

that it's possible I mean it's not going

690

00:31:02,419 --> 00:31:00,269

to cost hundreds of millions anymore

691

00:31:05,060 --> 00:31:02,429

with you know three thirty forty

692

00:31:09,799 --> 00:31:05,070

thousand dollars anyone can just launch

693

00:31:12,560 --> 00:31:09,809

one of these things okay so obviously it

694

00:31:15,440 --> 00:31:12,570

is affordable and this remember just as

695

00:31:20,269 --> 00:31:15,450

an example of the cost seventeen

696

00:31:22,099 --> 00:31:20,279

thousand dollars for the launching like

697

00:31:25,210 --> 00:31:22,109

that the total cost being in the thirty

698

00:31:27,220 --> 00:31:25,220

thousands range that's about the cost to

699

00:31:30,270 --> 00:31:27,230

an average new car I think an average

700

00:31:33,220 --> 00:31:30,280

new car in the United States is close to

701  
00:31:35,020 --> 00:31:33,230  
\$34,000 now there's something that you

702  
00:31:36,580 --> 00:31:35,030  
can actually go to a bank and finance or

703  
00:31:39,640 --> 00:31:36,590  
did you have to just use crowdfunding

704  
00:31:41,980 --> 00:31:39,650  
well in the beginning I when I had

705  
00:31:44,860 --> 00:31:41,990  
thought it would only cost 8,000 I was

706  
00:31:47,350 --> 00:31:44,870  
considering doing it myself

707  
00:31:48,640 --> 00:31:47,360  
I contacted a couple friends and said

708  
00:31:51,580 --> 00:31:48,650  
hey do you guys want to get in on this

709  
00:31:53,049 --> 00:31:51,590  
with me and one of them no one would

710  
00:31:54,610 --> 00:31:53,059  
just you know put up their money and

711  
00:31:57,460 --> 00:31:54,620  
they said he suggested why don't I do

712  
00:31:59,649 --> 00:31:57,470  
some crowdfunding so I thought okay well

713  
00:32:01,690 --> 00:31:59,659

I'll give it a try I didn't really have

714

00:32:04,560 --> 00:32:01,700

high hopes on it but I thought you know

715

00:32:06,909 --> 00:32:04,570

it's worth a try so I put it up and

716

00:32:09,549 --> 00:32:06,919

while I was putting it up and doing my

717

00:32:11,500 --> 00:32:09,559

research I realized that to actually get

718

00:32:13,930 --> 00:32:11,510

the instruments we need it's gonna be a

719

00:32:17,860 --> 00:32:13,940

lot more so I had set our initial

720

00:32:20,740 --> 00:32:17,870

crowdfunding at 50,000 because once data

721

00:32:22,450 --> 00:32:20,750

costs are included and everything is

722

00:32:24,490 --> 00:32:22,460

included and we may have to pay some

723

00:32:28,149 --> 00:32:24,500

people for their time for soldering and

724

00:32:31,390 --> 00:32:28,159

electrical things it does add up quite

725

00:32:33,340 --> 00:32:31,400

quickly and so yeah that's how I ended

726

00:32:36,310 --> 00:32:33,350

up going the crowdsource route

727

00:32:38,799 --> 00:32:36,320

I didn't finance any of it none of it's

728

00:32:40,810 --> 00:32:38,809

on loan it's all interested parties that

729

00:32:42,730 --> 00:32:40,820

are putting their own money in and they

730

00:32:45,909 --> 00:32:42,740

just want to see us try to help

731

00:32:48,279 --> 00:32:45,919

disclosure happen so you expect here

732

00:32:51,130 --> 00:32:48,289

that there's a chance you'll be able to

733

00:32:54,279 --> 00:32:51,140

detect something strange I think so I

734

00:32:58,870 --> 00:32:54,289

think there's a chance I mean just going

735

00:33:00,399 --> 00:32:58,880

on the sightings I've had I'd say 50

736

00:33:03,490 --> 00:33:00,409

percent of the time going out on a

737

00:33:05,680 --> 00:33:03,500

summer night near some water a lake and

738

00:33:09,789 --> 00:33:05,690

looking at the sky for a couple hours we

739

00:33:12,250 --> 00:33:09,799

see something strange now if I mean

740

00:33:14,649 --> 00:33:12,260

there are UFOs there unidentified flying

741

00:33:16,720 --> 00:33:14,659

objects we don't know what they are so

742

00:33:19,419 --> 00:33:16,730

if if we see that half the time going

743

00:33:21,640 --> 00:33:19,429

out looking and I don't go out often I

744

00:33:23,500 --> 00:33:21,650

mean over the summer maybe I'll go five

745

00:33:24,909 --> 00:33:23,510

times and then two or three of those

746

00:33:28,480 --> 00:33:24,919

times we'll see a strange light in the

747

00:33:30,220 --> 00:33:28,490

sky that's not moving normally so this

748

00:33:33,070 --> 00:33:30,230

gives me hopes to think that yeah we'll

749

00:33:34,990 --> 00:33:33,080

capture something and with the right

750

00:33:38,279 --> 00:33:35,000

instruments hopefully it won't just be a

751  
00:33:41,259 --> 00:33:38,289  
UFO and we might be able to say it's

752  
00:33:44,200 --> 00:33:41,269  
unidentifiable flying object what

753  
00:33:46,599 --> 00:33:44,210  
interests me first of all is the batting

754  
00:33:48,940 --> 00:33:46,609  
average you have in seeing strange

755  
00:33:51,070 --> 00:33:48,950  
things in the sky I mean people do this

756  
00:33:53,229 --> 00:33:51,080  
for years and see nothing and you have a

757  
00:33:56,680 --> 00:33:53,239  
50% chance of seeing something if you

758  
00:33:58,719 --> 00:33:56,690  
spend a few hours outside I think you

759  
00:34:01,419 --> 00:33:58,729  
know what would actually got me thinking

760  
00:34:04,049 --> 00:34:01,429  
about it was I mean I had never seen

761  
00:34:06,339 --> 00:34:04,059  
anything before and I guess in my own

762  
00:34:09,549 --> 00:34:06,349  
mind I would think yeah I've looked at

763  
00:34:12,399 --> 00:34:09,559

the sky a lot but I never actually put a

764

00:34:14,500 --> 00:34:12,409

blanket out can the sky for you know a

765

00:34:17,019 --> 00:34:14,510

four hour period of time I'd never done

766

00:34:20,769 --> 00:34:17,029

that before and I wonder how many people

767

00:34:22,180 --> 00:34:20,779

actually do that first of all I must

768

00:34:24,159 --> 00:34:22,190

have missed where these sighting the

769

00:34:29,319 --> 00:34:24,169

events occurred where where exactly were

770

00:34:31,000 --> 00:34:29,329

you this was in Mission which is close

771

00:34:33,309 --> 00:34:31,010

to Vancouver about an hour and a half

772

00:34:38,049 --> 00:34:33,319

drive from Vancouver Canada but which

773

00:34:43,839 --> 00:34:38,059

direction East Vancouver okay so you

774

00:34:46,930 --> 00:34:43,849

were let's see about west coast of the

775

00:34:51,339 --> 00:34:46,940

continent yeah okay yeah yeah I grew up

776  
00:34:52,869 --> 00:34:51,349  
in Seattle yeah yeah I've been all

777  
00:34:55,750 --> 00:34:52,879  
through that area of the Harrison Hot

778  
00:34:58,870 --> 00:34:55,760  
Springs all the way all the way over to

779  
00:35:01,750 --> 00:34:58,880  
Jasper and Lake Louise Lake Louise and

780  
00:35:05,620 --> 00:35:01,760  
then up the Saskatchewan River Valley an

781  
00:35:07,779 --> 00:35:05,630  
area that's really not that there's not

782  
00:35:12,069 --> 00:35:07,789  
that much population there we have you

783  
00:35:16,539 --> 00:35:12,079  
spoke with Bryan Vike who's runs a kind

784  
00:35:19,420 --> 00:35:16,549  
of UFO group there at BC No yeah you

785  
00:35:21,370 --> 00:35:19,430  
should look him up VI ke Bryan Vike he's

786  
00:35:24,160 --> 00:35:21,380  
been he's been a clearinghouse for

787  
00:35:29,980 --> 00:35:24,170  
British Columbia reports for 20 plus

788  
00:35:32,950 --> 00:35:29,990

years Wow yeah because what you you may

789

00:35:35,160 --> 00:35:32,960

want to do is you know that's that's a

790

00:35:38,920 --> 00:35:35,170

pretty incredible statistic where I

791

00:35:42,010 --> 00:35:38,930

lived for 13 years down in Colorado at

792

00:35:45,279 --> 00:35:42,020

least for the United States has the per

793

00:35:48,130 --> 00:35:45,289

10,000 population has the highest number

794

00:35:50,289 --> 00:35:48,140

of UFO sightings it's around 273

795

00:35:53,949 --> 00:35:50,299

sighting events per

796

00:35:58,319 --> 00:35:53,959

thousand population so you know what

797

00:36:02,979 --> 00:35:58,329

you're talking about is so far above any

798

00:36:04,809 --> 00:36:02,989

established level of sighting events for

799

00:36:07,419 --> 00:36:04,819

an area that I'm scratching my head

800

00:36:09,009 --> 00:36:07,429

going man maybe I should take a trip up

801

00:36:10,089 --> 00:36:09,019

there if you think the heavy other time

802

00:36:12,429 --> 00:36:10,099

you go out you're gonna be seeing

803

00:36:14,469 --> 00:36:12,439

objects up there maybe maybe more people

804

00:36:15,549 --> 00:36:14,479

need to be focusing their attentions on

805

00:36:17,079 --> 00:36:15,559

that part of southern British Columbia

806

00:36:18,789 --> 00:36:17,089

and I'm going to ask you another

807

00:36:21,519 --> 00:36:18,799

question we have to break in a moment

808

00:36:24,400 --> 00:36:21,529

and that is here you're having this

809

00:36:26,979 --> 00:36:24,410

great batting average have you talked to

810

00:36:30,969 --> 00:36:26,989

people who live in that area about

811

00:36:33,910 --> 00:36:30,979

whether they are seeing UFOs - the local

812

00:36:36,339 --> 00:36:33,920

newspapers or newspaper local media

813

00:36:37,959 --> 00:36:36,349

report frequent sightings I want to know

814

00:36:39,400 --> 00:36:37,969

more about that we'll get into that and

815

00:36:41,799 --> 00:36:39,410

then focus more on your satellite

816

904  
00:41:16,960 --> 00:41:13,860  
of paranormal radio we have Dave Cote

905  
00:41:20,300 --> 00:41:16,970  
and he's involved in a project called

906  
00:41:24,760 --> 00:41:20,310  
CubeSat for disclosure names talked

907  
00:41:28,760 --> 00:41:24,770  
about the fact that he is seeing UFOs

908  
00:41:32,300 --> 00:41:28,770  
west of Vancouver and the province of

909  
00:41:33,920 --> 00:41:32,310  
British Columbia Canada has a 500

910  
00:41:36,770 --> 00:41:33,930  
batting average which means half the

911  
00:41:39,740 --> 00:41:36,780  
time he looks or goes out he sees

912  
00:41:41,600 --> 00:41:39,750  
something so what about the local media

913  
00:41:44,900 --> 00:41:41,610

what about the local populace or other

914

00:41:48,590 --> 00:41:44,910

people reporting a lot of UFOs well I

915

00:41:50,660 --> 00:41:48,600

have not looked into any reporting

916

00:41:53,450 --> 00:41:50,670

channels like I have not I think I

917

00:41:55,760 --> 00:41:53,460

reported maybe one I had found an app on

918

00:41:57,890 --> 00:41:55,770

my android phone can't remember the name

919

00:42:00,920 --> 00:41:57,900

of that but you could report UFO

920

00:42:04,640 --> 00:42:00,930

sightings you can also look for UFO

921

00:42:07,190 --> 00:42:04,650

reports within your radius etc I had

922

00:42:08,720 --> 00:42:07,200

done that once but mainly I had just

923

00:42:11,690 --> 00:42:08,730

kind of talked about it with my family

924

00:42:14,360 --> 00:42:11,700

my friends people I'd take my brothers

925

00:42:16,760 --> 00:42:14,370

are both science students as well and

926  
00:42:18,350 --> 00:42:16,770  
they're they're highly skeptical so

927  
00:42:20,630 --> 00:42:18,360  
whenever we would see something we would

928  
00:42:21,620 --> 00:42:20,640  
talk about it and by the time the next

929  
00:42:24,319 --> 00:42:21,630  
day it rolled around

930  
00:42:25,549 --> 00:42:24,329  
we kind of discounted it as much as we

931  
00:42:27,289 --> 00:42:25,559  
could to the point where we didn't

932  
00:42:30,529 --> 00:42:27,299  
really believe what we saw again and

933  
00:42:32,660 --> 00:42:30,539  
then we'd go another few nights and we'd

934  
00:42:34,700 --> 00:42:32,670  
see something else and this is kind of

935  
00:42:37,069 --> 00:42:34,710  
the process we'd go through like I'll

936  
00:42:39,589 --> 00:42:37,079  
try to describe what we would see that

937  
00:42:41,930 --> 00:42:39,599  
would be you know a common thing that we

938  
00:42:45,200 --> 00:42:41,940

would see is you'd see a quick little

939

00:42:46,819 --> 00:42:45,210

flash like a flash bulb going off way in

940

00:42:49,309 --> 00:42:46,829

the atmosphere above you and then you

941

00:42:51,259 --> 00:42:49,319

kind of pay attention and then you wait

942

00:42:53,420 --> 00:42:51,269

and then it would flash again and

943

00:42:55,670 --> 00:42:53,430

sometimes actually stay on for a bit and

944

00:42:58,339 --> 00:42:55,680

this little light would kind of wiggle

945

00:42:59,870 --> 00:42:58,349

around and then it would turn out so

946

00:43:01,700 --> 00:42:59,880

then we would see that and we'd think

947

00:43:04,400 --> 00:43:01,710

what the heck we'd start to talk about

948

00:43:06,140 --> 00:43:04,410

well it's not a plane because I mean

949

00:43:07,400 --> 00:43:06,150

planes they're very predictable they

950

00:43:09,650 --> 00:43:07,410

have their flashing lights that they

951  
00:43:12,079 --> 00:43:09,660  
legally have to have they move in a

952  
00:43:15,529 --> 00:43:12,089  
straight line they don't go in arcs no

953  
00:43:17,029 --> 00:43:15,539  
sound so likely not a helicopter then we

954  
00:43:19,880 --> 00:43:17,039  
would start signal could it be you know

955  
00:43:21,680 --> 00:43:19,890  
I'm a falling star or a meteor I mean if

956  
00:43:23,720 --> 00:43:21,690  
it's a flash just a single flash then

957  
00:43:26,390 --> 00:43:23,730  
yes it very well could be a meteor just

958  
00:43:28,460 --> 00:43:26,400  
hitting not streaking because maybe it's

959  
00:43:30,170 --> 00:43:28,470  
coming directly at us but when it

960  
00:43:31,730 --> 00:43:30,180  
actually stays on and moves a little bit

961  
00:43:34,009 --> 00:43:31,740  
that's when you start to question like

962  
00:43:36,470 --> 00:43:34,019  
what on earth are we witnessing here

963  
00:43:38,569 --> 00:43:36,480

some of the times we'd see we just see a

964

00:43:41,089 --> 00:43:38,579

flicker like the light turn on for a sec

965

00:43:44,240 --> 00:43:41,099

go off other times it would stay on and

966

00:43:46,999 --> 00:43:44,250

move about I bet if I say how many times

967

00:43:49,279 --> 00:43:47,009

did we see something actually moving in

968

00:43:50,470 --> 00:43:49,289

and making a motion through the sky that

969

00:43:54,740 --> 00:43:50,480

would lower my batting average

970

00:43:56,240 --> 00:43:54,750

significantly but yeah we've had quite a

971

00:43:59,240 --> 00:43:56,250

few times that we were scratching our

972

00:44:01,930 --> 00:43:59,250

heads and not able to explain to each

973

00:44:04,579 --> 00:44:01,940

other ourselves what we were seeing

974

00:44:07,609 --> 00:44:04,589

Chris you've done so many years of field

975

00:44:12,319 --> 00:44:07,619

investigation ever hear of whites like

976  
00:44:14,900 --> 00:44:12,329  
that I've heard of every configuration

977  
00:44:18,380 --> 00:44:14,910  
every description every color every type

978  
00:44:20,960 --> 00:44:18,390  
of movement it's there is no real rhyme

979  
00:44:23,180 --> 00:44:20,970  
or reason it's very intriguing to me

980  
00:44:26,059 --> 00:44:23,190  
though that there should be all this

981  
00:44:27,529 --> 00:44:26,069  
apparent activity going on and we just

982  
00:44:29,270 --> 00:44:27,539  
aren't hearing about it through Brian

983  
00:44:31,700 --> 00:44:29,280  
Mike and others

984  
00:44:34,220 --> 00:44:31,710  
right there in Seattle is the national

985  
00:44:36,530 --> 00:44:34,230  
UFO Reporting Center and Peter Davenport

986  
00:44:39,140 --> 00:44:36,540  
I think if you want to do some more

987  
00:44:42,950 --> 00:44:39,150  
research Dave you should contact Peter

988  
00:44:44,710 --> 00:44:42,960

and find out the kinds of reports that

989

00:44:48,860 --> 00:44:44,720

are right across the border there and in

990

00:44:52,520 --> 00:44:48,870

North Central Washington over towards I

991

00:44:55,840 --> 00:44:52,530

guess the the Seattle area and then up

992

00:44:58,640 --> 00:44:55,850

around between Nelson and beast in

993

00:45:00,410 --> 00:44:58,650

Vancouver and get a little better sense

994

00:45:03,680 --> 00:45:00,420

of what officially is being reported

995

00:45:05,330 --> 00:45:03,690

there you know you could some of what

996

00:45:08,180 --> 00:45:05,340

you're seeing could be some sort of

997

00:45:09,770 --> 00:45:08,190

Bowie might be trotting stuff out and

998

00:45:12,110 --> 00:45:09,780

test flying stuff over there you never

999

00:45:13,790 --> 00:45:12,120

know so I think I think I'd be

1000

00:45:16,970 --> 00:45:13,800

interesting for you to do some research

1001  
00:45:19,130 --> 00:45:16,980  
in and you know because give a bit more

1002  
00:45:21,170 --> 00:45:19,140  
up to speed on some of the activity

1003  
00:45:22,760 --> 00:45:21,180  
that's going on in the area I love the

1004  
00:45:26,900 --> 00:45:22,770  
idea of your project I think it's a

1005  
00:45:28,040 --> 00:45:26,910  
really good one oh yeah maybe sort of

1006  
00:45:30,050 --> 00:45:28,050  
help that we can give you here at the

1007  
00:45:32,300 --> 00:45:30,060  
parrot cast let us know we have a

1008  
00:45:35,090 --> 00:45:32,310  
international audience we've got folks

1009  
00:45:36,740 --> 00:45:35,100  
up and up in your area and all over the

1010  
00:45:39,470 --> 00:45:36,750  
world listening to the show every week

1011  
00:45:42,200 --> 00:45:39,480  
and we do kind of pride ourselves and

1012  
00:45:43,670 --> 00:45:42,210  
being up to speed on a lot of the

1013  
00:45:46,670 --> 00:45:43,680

different subject matters that we we

1014

00:45:47,780 --> 00:45:46,680

cover here especially UFOs and and you

1015

00:45:50,450 --> 00:45:47,790

know I think it's important for you to

1016

00:45:52,940 --> 00:45:50,460

get up to speed and and that's going to

1017

00:45:55,010 --> 00:45:52,950

help you to in terms of selecting the

1018

00:45:57,800 --> 00:45:55,020

brands and types of equipment that you

1019

00:46:00,170 --> 00:45:57,810

want to put on your bird you know

1020

00:46:03,770 --> 00:46:00,180

obviously you're doing that but you know

1021

00:46:05,240 --> 00:46:03,780

I've got some contacts for you that you

1022

00:46:07,850 --> 00:46:05,250

know guys that used to work at Aerojet

1023

00:46:10,130 --> 00:46:07,860

and design optic systems for the

1024

00:46:11,900 --> 00:46:10,140

department defense and in other things

1025

00:46:14,900 --> 00:46:11,910

so you know you do have recourse in

1026  
00:46:17,060 --> 00:46:14,910  
getting some consultancy type assistance

1027  
00:46:20,000 --> 00:46:17,070  
from people that really know their stuff

1028  
00:46:22,490 --> 00:46:20,010  
and you know you don't with this kind of

1029  
00:46:24,470 --> 00:46:22,500  
operation and limited lifespan you want

1030  
00:46:28,690 --> 00:46:24,480  
to maximize the potential as much as you

1031  
00:46:31,460 --> 00:46:28,700  
can and you know bang for the buck and

1032  
00:46:33,560 --> 00:46:31,470  
and there's ways to you know you don't

1033  
00:46:36,290 --> 00:46:33,570  
want to have to reinvent the wheel so to

1034  
00:46:39,330 --> 00:46:36,300  
speak and and in the cost of the

1035  
00:46:41,700 --> 00:46:39,340  
technology as I'm sure you found out is

1036  
00:46:43,680 --> 00:46:41,710  
falling off a cliff which is I think

1037  
00:46:46,860 --> 00:46:43,690  
really good for the for the UFO

1038  
00:46:48,930 --> 00:46:46,870

detection projects out there well I have

1039

00:46:50,930 --> 00:46:48,940

one going myself that's going to be a

1040

00:46:53,610 --> 00:46:50,940

ground based detection system but

1041

00:46:55,860 --> 00:46:53,620

triangulated array so we can pull some

1042

00:46:57,870 --> 00:46:55,870

good science out you need to talk to you

1043

00:46:59,850 --> 00:46:57,880

some scientists some optical physicists

1044

00:47:01,560 --> 00:46:59,860

and others and find out the kind of data

1045

00:47:03,840 --> 00:47:01,570

that they would require to take

1046

00:47:06,510 --> 00:47:03,850

seriously that would be my number one

1047

00:47:08,250 --> 00:47:06,520

but suggestion and I'm sure you know to

1048

00:47:11,310 --> 00:47:08,260

some extent you've done that but you

1049

00:47:14,700 --> 00:47:11,320

know you should really spread your net

1050

00:47:17,100 --> 00:47:14,710

far and wide for real good targeted

1051  
00:47:19,890 --> 00:47:17,110  
professional scientific help with us

1052  
00:47:22,860 --> 00:47:19,900  
that's that's my opinion yeah I mean we

1053  
00:47:25,740 --> 00:47:22,870  
were lucky enough I had a fellow named

1054  
00:47:27,150 --> 00:47:25,750  
Matt Lippert who's come aboard I'll give

1055  
00:47:30,150 --> 00:47:27,160  
you I'll give a bit of background when I

1056  
00:47:33,210 --> 00:47:30,160  
first started I had a family friend and

1057  
00:47:35,790 --> 00:47:33,220  
he's taking his master's degree he's

1058  
00:47:36,870 --> 00:47:35,800  
doing in CubeSat optimization then he

1059  
00:47:39,750 --> 00:47:36,880  
was going to help to build it and

1060  
00:47:42,090 --> 00:47:39,760  
everything once we had our first news

1061  
00:47:44,190 --> 00:47:42,100  
broadcast I think it freaked him out a

1062  
00:47:46,290 --> 00:47:44,200  
little because he's applying for his

1063  
00:47:48,270 --> 00:47:46,300

master's at different schools and he

1064

00:47:50,520 --> 00:47:48,280

pulled out and he said I don't wanna you

1065

00:47:53,100 --> 00:47:50,530

didn't want to associate it with the UFO

1066

00:47:55,350 --> 00:47:53,110

subject while he's applying to schools

1067

00:47:57,660 --> 00:47:55,360

for his master's and at that point I

1068

00:48:00,450 --> 00:47:57,670

kind of freaked out thinking wow I guess

1069

00:48:04,080 --> 00:48:00,460

I have to build this myself I'd have to

1070

00:48:06,570 --> 00:48:04,090

learn but then a fellow from assets the

1071

00:48:07,680 --> 00:48:06,580

Air Force Institute of Technology he

1072

00:48:10,200 --> 00:48:07,690

sent me a message through our

1073

00:48:12,960 --> 00:48:10,210

Kickstarter and he said he's very

1074

00:48:14,790 --> 00:48:12,970

interested he had a similar idea that

1075

00:48:16,800 --> 00:48:14,800

you know he wanted to send a CubeSat up

1076  
00:48:21,000 --> 00:48:16,810  
for a similar purpose and he wanted to

1077  
00:48:22,200 --> 00:48:21,010  
help out I vetted him I mean the fact

1078  
00:48:24,120 --> 00:48:22,210  
that he works for the Air Force I had

1079  
00:48:25,740 --> 00:48:24,130  
all kinds of you know conspiracy

1080  
00:48:27,780 --> 00:48:25,750  
thoughts like oh the Air Force right

1081  
00:48:30,540 --> 00:48:27,790  
they are they trying to get involved or

1082  
00:48:32,960 --> 00:48:30,550  
whatever but it turns out he works for

1083  
00:48:35,670 --> 00:48:32,970  
them in an educational capacity

1084  
00:48:38,610 --> 00:48:35,680  
basically teaching them about cube SATs

1085  
00:48:40,230 --> 00:48:38,620  
and he's got an interest in our project

1086  
00:48:42,870 --> 00:48:40,240  
because he wants to start a CubeSat

1087  
00:48:45,360 --> 00:48:42,880  
company so by teaming up with us in

1088  
00:48:47,790 --> 00:48:45,370

building this with us he gets to launch

1089

00:48:50,100 --> 00:48:47,800

his first satellite and then kind of

1090

00:48:52,410 --> 00:48:50,110

pull out from his current job and start

1091

00:48:53,160 --> 00:48:52,420

a his own Lippert technologies where

1092

00:48:55,470 --> 00:48:53,170

he'll

1093

00:48:58,680 --> 00:48:55,480

basically offer to people let's build

1094

00:49:02,250 --> 00:48:58,690

you a CubeSat so it's kind of beneficial

1095

00:49:03,750 --> 00:49:02,260

to him as well as us and he's taken on

1096

00:49:07,109 --> 00:49:03,760

the majority of the building of the

1097

00:49:10,079 --> 00:49:07,119

components which is great because at the

1098

00:49:12,270 --> 00:49:10,089

school he's got access to electrical

1099

00:49:15,900 --> 00:49:12,280

engineers people who know how to

1100

00:49:18,720 --> 00:49:15,910

actually do the soldering etc he's

1101  
00:49:21,210 --> 00:49:18,730  
helped in a way that we can we can take

1102  
00:49:24,420 --> 00:49:21,220  
a it's called a BeagleBone blackboard

1103  
00:49:26,490 --> 00:49:24,430  
and then they'll swap the RAM out to

1104  
00:49:29,880 --> 00:49:26,500  
make it a little sturdier to for the the

1105  
00:49:32,400 --> 00:49:29,890  
radiation that's up in orbit and he also

1106  
00:49:34,470 --> 00:49:32,410  
has like he's got SpaceX on the speed

1107  
00:49:37,319 --> 00:49:34,480  
dial and all these different folks that

1108  
00:49:39,569 --> 00:49:37,329  
he talks to that alone has helped us a

1109  
00:49:43,170 --> 00:49:39,579  
lot in terms of just the instruments

1110  
00:49:45,359 --> 00:49:43,180  
what's either available what we need

1111  
00:49:47,819 --> 00:49:45,369  
things that don't exist that he's been

1112  
00:49:50,670 --> 00:49:47,829  
able to kind of modulate or build

1113  
00:49:52,710 --> 00:49:50,680

himself so I'm very thankful to Matt

1114

00:49:54,180 --> 00:49:52,720

Lippert for coming aboard and he's

1115

00:49:57,450 --> 00:49:54,190

really making things a lot easier that

1116

00:50:00,150 --> 00:49:57,460

way now I want to go into when we get

1117

00:50:03,180 --> 00:50:00,160

back after the break and they asking you

1118

00:50:05,700 --> 00:50:03,190

about the equipment on the site what

1119

00:50:09,000 --> 00:50:05,710

assumptions you're making about what you

1120

00:50:11,849 --> 00:50:09,010

hope to measure with regard to a UFO but

1121

00:50:14,130 --> 00:50:11,859

first let me tell our listeners now as

1122

00:50:16,710 --> 00:50:14,140

some of you already know the power cast

1123

00:50:18,150 --> 00:50:16,720

is not all that we do we have a second

1124

00:50:20,730 --> 00:50:18,160

radio show where we cover personal

1125

00:50:23,039 --> 00:50:20,740

technology with special interviews the

1126  
00:50:24,839 --> 00:50:23,049  
latest gadgets and such it's called the

1127  
00:50:27,539 --> 00:50:24,849  
tech night our life it was actually my

1128  
00:50:29,940 --> 00:50:27,549  
first radio show it started in 2002 and

1129  
00:50:32,400 --> 00:50:29,950  
you could check it out at Tech night out

1130  
00:50:35,250 --> 00:50:32,410  
comm slash radio that's tech night out

1131  
00:50:38,160 --> 00:50:35,260  
comm slash radio but we also have a

1132  
00:50:41,339 --> 00:50:38,170  
companion radio show for the power cast

1133  
00:50:44,760 --> 00:50:41,349  
and we call it of course after the power

1134  
00:50:47,280 --> 00:50:44,770  
cast includes color commentary just

1135  
00:50:49,260 --> 00:50:47,290  
Chris and I talking occasionally we

1136  
00:50:51,299 --> 00:50:49,270  
continue interviews that began in the

1137  
00:50:54,329 --> 00:50:51,309  
regular episode the power cast because

1138  
00:50:56,760 --> 00:50:54,339

it's just too much to cover not enough

1139

00:50:59,190 --> 00:50:56,770

time and so we continue as we've done in

1140

00:51:02,430 --> 00:50:59,200

recent weeks with our listener

1141

00:51:05,010 --> 00:51:02,440

roundtable and also with our tenth

1142

00:51:06,240 --> 00:51:05,020

anniversary show with Paul Kimball and

1143

00:51:10,320 --> 00:51:06,250

welcome back to the para cast the gold

standard of paranormal radio and now

1210

here's Jane Steinberg okay so we'll get

1211  
00:54:17,120 --> 00:54:15,120  
back into some of the citing stuff but I

1212  
00:54:19,880 --> 00:54:17,130  
wanted to focus a little bit more about

1213  
00:54:23,750 --> 00:54:19,890

CubeSat so you're gonna put up this

1214

00:54:26,690 --> 00:54:23,760

satellite in low-earth orbit what do you

1215

00:54:29,210 --> 00:54:26,700

hope to measure what kind of equipment

1216

00:54:31,460 --> 00:54:29,220

are you gonna put on it well primarily

1217

00:54:34,610 --> 00:54:31,470

there I mean the first edition we had

1218

00:54:37,850 --> 00:54:34,620

were cameras and we will have two

1219

00:54:41,360 --> 00:54:37,860

cameras one facing earthbound and then

1220

00:54:42,620 --> 00:54:41,370

one facing towards space now the

1221

00:54:44,840 --> 00:54:42,630

earthbound camera

1222

00:54:48,110 --> 00:54:44,850

I mean I've I've been recently doing a

1223

00:54:52,190 --> 00:54:48,120

bunch of image analysis just based on

1224

00:54:54,320 --> 00:54:52,200

the live feeds of the ISS and taking a

1225

00:54:57,680 --> 00:54:54,330

look at that and it is going to be

1226  
00:55:00,710 --> 00:54:57,690  
difficult to actually pick out objects

1227  
00:55:03,170 --> 00:55:00,720  
on the earthbound range unless it's at

1228  
00:55:04,820 --> 00:55:03,180  
night if the UFO is lit up at night then

1229  
00:55:07,700 --> 00:55:04,830  
that mean we're gonna get a nice few

1230  
00:55:10,310 --> 00:55:07,710  
pixels of light there the space bound

1231  
00:55:12,680 --> 00:55:10,320  
also will be better in terms of

1232  
00:55:14,570 --> 00:55:12,690  
capturing an object that's reflecting

1233  
00:55:16,610 --> 00:55:14,580  
something I mean at that point we're

1234  
00:55:19,400 --> 00:55:16,620  
gonna have to determine was that another

1235  
00:55:20,990 --> 00:55:19,410  
satellite was it space junk was it

1236  
00:55:23,930 --> 00:55:21,000  
reflecting or emitting its own light

1237  
00:55:26,300 --> 00:55:23,940  
source etc so we'll have the cameras

1238  
00:55:28,610 --> 00:55:26,310

there'll be high def cameras that we'll

1239

00:55:30,800 --> 00:55:28,620

be able to capture as much as it can

1240

00:55:33,350 --> 00:55:30,810

based on its pixel count we'll be

1241

00:55:35,390 --> 00:55:33,360

removing the the infrared filters that

1242

00:55:37,340 --> 00:55:35,400

they put on a lot of cameras just so

1243

00:55:38,990 --> 00:55:37,350

that you get a nice image without all

1244

00:55:41,480 --> 00:55:39,000

the extra infrared we'll be removing

1245

00:55:43,190 --> 00:55:41,490

that filter the we would will get the

1246

00:55:46,100 --> 00:55:43,200

additional information of infrared

1247

00:55:48,350 --> 00:55:46,110

spectrum that should be able to help I'd

1248

00:55:52,130 --> 00:55:48,360

say maybe it'll double our resolution

1249

00:55:54,770 --> 00:55:52,140

then we will have I mean I had I had

1250

00:55:56,540 --> 00:55:54,780

thought that high-energy ionized

1251

00:55:59,540 --> 00:55:56,550

radiation would be a good idea so we'll

1252

00:56:01,940 --> 00:55:59,550

have a a Geiger counter on there these

1253

00:56:04,310 --> 00:56:01,950

things are usually directional which

1254

00:56:06,830 --> 00:56:04,320

will make it a little difficult unless

1255

00:56:08,839 --> 00:56:06,840

the the radiation readings spiked all

1256

00:56:12,349 --> 00:56:08,849

around our satellite

1257

00:56:14,180 --> 00:56:12,359

but in my research of UFO phenomenon or

1258

00:56:17,120 --> 00:56:14,190

where people have actually claimed that

1259

00:56:20,299 --> 00:56:17,130

they've experienced like a landing like

1260

00:56:22,579 --> 00:56:20,309

there's one in the UK there in the

1261

00:56:25,370 --> 00:56:22,589

forest there's a few others I researched

1262

00:56:27,950 --> 00:56:25,380

they tended to mention electromagnetic

1263

00:56:29,809 --> 00:56:27,960

radiation spikes during these events so

1264

00:56:31,519 --> 00:56:29,819

I thought well then we should be

1265

00:56:34,339 --> 00:56:31,529

measuring that as well so we're gonna

1266

00:56:36,579 --> 00:56:34,349

measure electromagnetic so we basically

1267

00:56:39,349 --> 00:56:36,589

got high energy particles

1268

00:56:41,719 --> 00:56:39,359

electromagnetic and then the visual and

1269

00:56:44,329 --> 00:56:41,729

the infrared with our cameras you know

1270

00:56:48,620 --> 00:56:44,339

there's two two sensors that you really

1271

00:56:51,799 --> 00:56:48,630

should consider no the gravity meter to

1272

00:56:54,739 --> 00:56:51,809

measure changes in in gravity and also a

1273

00:56:57,469 --> 00:56:54,749

magnetometer to measure changes in

1274

00:57:02,140 --> 00:56:57,479

electric electric magnetic spectrum

1275

00:57:05,420 --> 00:57:02,150

those are - oh those are - you know

1276

00:57:09,859 --> 00:57:05,430

forces that we are fairly certain are

1277

00:57:11,870 --> 00:57:09,869

involved in UFO propulsion and also you

1278

00:57:14,120 --> 00:57:11,880

know the types of effects that are

1279

00:57:15,910 --> 00:57:14,130

reported by witnesses Carl actual

1280

00:57:17,359 --> 00:57:15,920

systems crashing that sort of thing

1281

00:57:20,839 --> 00:57:17,369

changes in the Earth's gravitational

1282

00:57:23,229 --> 00:57:20,849

field or the amount of gravity is being

1283

00:57:25,789 --> 00:57:23,239

affected by by another gravity source

1284

00:57:28,339 --> 00:57:25,799

things like optical collapsing of

1285

00:57:30,499 --> 00:57:28,349

horizons for instance of footage taken

1286

00:57:31,999 --> 00:57:30,509

out of airliner window windows and the

1287

00:57:36,140 --> 00:57:32,009

intense gravitational field actually

1288

00:57:38,569 --> 00:57:36,150

optically bends the light so those are

1289

00:57:40,309 --> 00:57:38,579

two really important ones something like

1290

00:57:45,140 --> 00:57:40,319

a radiation detector I think would be

1291

00:57:47,599 --> 00:57:45,150

fairly I don't know I just thought it

1292

00:57:50,269 --> 00:57:47,609

would be so superfluous I think I don't

1293

00:57:54,739 --> 00:57:50,279

think it would really have that you'd

1294

00:57:56,239 --> 00:57:54,749

really learn much from that just in

1295

00:57:57,979 --> 00:57:56,249

space you've got so much radiation

1296

00:58:02,089 --> 00:57:57,989

bouncing around already it's gonna be

1297

00:58:05,509 --> 00:58:02,099

evident pulling all the time but the you

1298

00:58:08,329 --> 00:58:05,519

know changes in gravitational intensity

1299

00:58:10,400 --> 00:58:08,339

and also changes in eeehm intensity is

1300

00:58:12,789 --> 00:58:10,410

really important those are two - sensor

1301

00:58:15,469 --> 00:58:12,799

arrays that are I think crucial

1302

00:58:17,479 --> 00:58:15,479

obviously you know it's you know

1303

00:58:20,930 --> 00:58:17,489

scientists aren't really that impressed

1304

00:58:22,299 --> 00:58:20,940

by optical information they're impressed

1305

00:58:27,099 --> 00:58:22,309

more with

1306

00:58:29,319 --> 00:58:27,109

measuring other types of of energy yeah

1307

00:58:32,380 --> 00:58:29,329

I agree and we do like we do have the

1308

00:58:35,259 --> 00:58:32,390

magnetometer on board we have a three

1309

00:58:38,650 --> 00:58:35,269

axis magnetometer and then we'll also be

1310

00:58:40,709 --> 00:58:38,660

getting the electromagnetic the the

1311

00:58:43,479 --> 00:58:40,719

high-energy radiation the Geiger counter

1312

00:58:45,819 --> 00:58:43,489

it's just really light and really easy

1313

00:58:50,319 --> 00:58:45,829

to stick on there and really cheap it's

1314

00:58:52,569 --> 00:58:50,329

only like 100 bucks so why not I mean

1315

00:58:55,089 --> 00:58:52,579

yeah you're right like that may not show

1316

00:58:57,219 --> 00:58:55,099

anything because there's also something

1317

00:59:00,219 --> 00:58:57,229

we need to worry about that's what's it

1318

00:59:03,539 --> 00:59:00,229

called there's something anomaly it's

1319

00:59:07,630 --> 00:59:03,549

over I think Antarctica it's this high

1320

00:59:09,249 --> 00:59:07,640

radiation area that potentially our cube

1321

00:59:12,099 --> 00:59:09,259

side will have to pass through on each

1322

00:59:13,329 --> 00:59:12,109

orbit hopefully we'll miss it but

1323

00:59:16,539 --> 00:59:13,339

there's a chance we're going to be going

1324

00:59:18,309 --> 00:59:16,549

through it we're gonna try to harden the

1325

00:59:20,739 --> 00:59:18,319

satellite so that it doesn't get damaged

1326

00:59:23,109 --> 00:59:20,749

but in the past this little anomaly this

1327

00:59:26,529 --> 00:59:23,119

anomalous area has actually shut down

1328

00:59:27,759 --> 00:59:26,539

satellites so yeah I mean if we didn't

1329

00:59:29,979 --> 00:59:27,769

know about that we'd think oh wow

1330

00:59:31,569 --> 00:59:29,989

there's definitely not an anomaly

1331

00:59:36,489 --> 00:59:31,579

happening every time we go over the

1332

00:59:40,839 --> 00:59:36,499

Antarctic right I hate to be the the

1333

00:59:43,929 --> 00:59:40,849

negative name up here the one thing that

1334

00:59:48,759 --> 00:59:43,939

I I'd be most concerned with is having

1335

00:59:52,329 --> 00:59:48,769

some sort of anti satellite defense

1336

00:59:56,459 --> 00:59:52,339

system because chances are there will be

1337

01:00:00,219 --> 00:59:56,469

certain other neighbors in space that

1338

01:00:04,179 --> 01:00:00,229

will be a little bit I think challenged

1339

01:00:06,549 --> 01:00:04,189

by your project and you know people have

1340

01:00:08,079 --> 01:00:06,559

often joked with me that the the the one

1341

01:00:09,669 --> 01:00:08,089

thing I need to be concerned with in the

1342

01:00:13,689 --> 01:00:09,679

San Luis Valley with my three camera

1343

01:00:16,120 --> 01:00:13,699

arrays is somebody flying by and zapping

1344

01:00:17,279 --> 01:00:16,130

my cameras and then the same might hold

1345

01:00:21,249 --> 01:00:17,289

true for you

1346

01:00:22,449 --> 01:00:21,259

you have just seemed to maybe stick a

1347

01:00:27,150 --> 01:00:22,459

radar unit

1348

01:00:31,059 --> 01:00:27,160

I mean incoming antes that the weapons

1349

01:00:33,039 --> 01:00:31,069

yeah I mean I've had that post quite a

1350

01:00:35,980 --> 01:00:33,049

few times usually in the comment

1351

01:00:37,690 --> 01:00:35,990

sections of of articles and such

1352

01:00:40,030 --> 01:00:37,700

people will say the government's going

1353

01:00:41,590 --> 01:00:40,040

to shoot it down and whatnot and I mean

1354

01:00:44,440 --> 01:00:41,600

I suppose if that happened that would

1355

01:00:46,780 --> 01:00:44,450

just be a little bit of confirmation

1356

01:00:49,240 --> 01:00:46,790

that maybe something is going on in

1357

01:00:52,210 --> 01:00:49,250

space that yeah people don't people

1358

01:00:54,160 --> 01:00:52,220

don't want us to know about and as costs

1359

01:00:57,340 --> 01:00:54,170

come down I mean maybe we'll just send

1360

01:01:00,340 --> 01:00:57,350

up more and more yeah well I said that

1361

01:01:02,560 --> 01:01:00,350

kind of half in jest but yeah I've been

1362

01:01:06,010 --> 01:01:02,570

told by by a friend who was involved in

1363

01:01:08,740 --> 01:01:06,020

most of our highly classified detection

1364

01:01:10,840 --> 01:01:08,750

equipment up in space that since ninety

1365

01:01:12,850 --> 01:01:10,850

since the early 90s every satellite

1366

01:01:14,440 --> 01:01:12,860

system we put up there for the

1367

01:01:18,910 --> 01:01:14,450

Department of Defense has also been

1368

01:01:20,470 --> 01:01:18,920

pointed outward so yeah great well I

1369

01:01:22,480 --> 01:01:20,480

don't know if it's crazy but it has a

1370

01:01:23,980 --> 01:01:22,490

ring of truth to it and this is somebody

1371

01:01:27,400 --> 01:01:23,990

that worked on everything from Apollo

1372

01:01:30,820 --> 01:01:27,410

all the way through to to the early 90s

1373

01:01:33,400 --> 01:01:30,830

on our on our very classified satellite

1374

01:01:36,609 --> 01:01:33,410

so we have up there with all bristling

1375

01:01:38,560 --> 01:01:36,619

with with detection arrays now in terms

1376

01:01:41,140 --> 01:01:38,570

of your camera

1377

01:01:44,859 --> 01:01:41,150

since you're relying heavily on the

1378

01:01:48,370 --> 01:01:44,869

g-wiz factor which of course is an

1379

01:01:50,040 --> 01:01:48,380

optical there's optical data what kind

1380

01:01:53,730 --> 01:01:50,050

of camera are we talking about here what

1381

01:01:56,710 --> 01:01:53,740

to give me a sense of of the actual

1382

01:02:00,940 --> 01:01:56,720

resolution of the camera you're talking

1383

01:02:02,950 --> 01:02:00,950

16 K 4 K what I think it's 4 K it's

1384

01:02:05,710 --> 01:02:02,960

changed a few times so let me see if I

1385

01:02:08,470 --> 01:02:05,720

can actually find it here it was what

1386

01:02:11,560 --> 01:02:08,480

was the one we were using this is where

1387

01:02:18,040 --> 01:02:11,570

we do spontaneous radio instant yes sir

1388

01:02:25,030 --> 01:02:18,050

Chester it was the D DFCS I mean just

1389

01:02:28,330 --> 01:02:25,040

quickly what distance can it I mean

1390

01:02:30,370 --> 01:02:28,340

because a pasta you know past a distance

1391

01:02:31,960 --> 01:02:30,380

a camera that could fit on a satellite

1392

01:02:34,810 --> 01:02:31,970

that size it's not going to be able to

1393

01:02:40,300 --> 01:02:34,820

detect anything over you know anything

1394

01:02:41,590 --> 01:02:40,310

under a mile at that you're only gonna

1395

01:02:42,970 --> 01:02:41,600

be picking up motherships you're not

1396

01:02:45,490 --> 01:02:42,980

gonna be picking up are you only gonna

1397

01:02:47,109 --> 01:02:45,500

be picking up grandmother ships and you

1398

01:02:49,240 --> 01:02:47,119

have a very small chance of getting

1399

01:02:51,580 --> 01:02:49,250

mother's mother ships yeah I mean

1400

01:02:52,930 --> 01:02:51,590

it's gonna be it's not like when it's

1401  
01:02:55,330 --> 01:02:52,940  
going to be similar to the camera that's

1402  
01:02:58,960 --> 01:02:55,340  
used the high-def camera on the

1403  
01:03:00,190 --> 01:02:58,970  
International Space Station which like

1404  
01:03:01,480 --> 01:03:00,200  
when you look down you're gonna see a

1405  
01:03:04,840 --> 01:03:01,490  
whole bunch of clouds you're gonna see

1406  
01:03:07,330 --> 01:03:04,850  
some ocean and yes if it were you can't

1407  
01:03:10,840 --> 01:03:07,340  
you can barely make out a plane a plane

1408  
01:03:12,430 --> 01:03:10,850  
would be a couple pixels though in that

1409  
01:03:14,770 --> 01:03:12,440  
in terms of that we would be hoping that

1410  
01:03:17,860 --> 01:03:14,780  
it would be closer and that we would be

1411  
01:03:20,170 --> 01:03:17,870  
lucking out coming across something man

1412  
01:03:23,560 --> 01:03:20,180  
obviously again it would be nice to have

1413  
01:03:25,780 --> 01:03:23,570

several of them expanding well none of

1414

01:03:28,090 --> 01:03:25,790

them would be ideal then you could cover

1415

01:03:29,590 --> 01:03:28,100

the whole thing like a blanket but yeah

1416

01:03:31,030 --> 01:03:29,600

so in other words it's almost like

1417

01:03:35,950 --> 01:03:31,040

playing lottery to go up there because

1418

01:03:38,590 --> 01:03:35,960

forum dot the para cast calm so we're

1526

01:08:17,900 --> 01:08:15,420

going into space maybe with CubeSat Dave

1527

01:08:21,440 --> 01:08:17,910

code is part of the CubeSat for

1528

01:08:23,930 --> 01:08:21,450

disclosure project so let's look at

1529

01:08:25,520 --> 01:08:23,940

where we are now and obviously you

1530

01:08:28,820 --> 01:08:25,530

haven't built the satellite yet so

1531

01:08:32,270 --> 01:08:28,830

things can change right now the basic

1532

01:08:33,800 --> 01:08:32,280

hope is that if you capture UFO in terms

1533

01:08:36,110 --> 01:08:33,810

of a photograph it's got to be a pretty

1534

01:08:38,210 --> 01:08:36,120

big UFO it can't be one of the normal

1535

01:08:41,660 --> 01:08:38,220

so-called normal sized craft right

1536

01:08:44,390 --> 01:08:41,670

unless it's close I mean if it's within

1537

01:08:46,910 --> 01:08:44,400

er our field of the unit's high enough

1538

01:08:49,880 --> 01:08:46,920

up in the altitude which I mean based on

1539

01:08:52,490 --> 01:08:49,890

anything sightings that like any

1540

01:08:53,930 --> 01:08:52,500

settings that I've had or a lot of

1541

01:08:56,360 --> 01:08:53,940

majority of the sightings that I've

1542

01:08:59,090 --> 01:08:56,370

heard about they're usually quite high

1543

01:09:01,070 --> 01:08:59,100

up in the lower atmosphere so I would

1544

01:09:04,310 --> 01:09:01,080

hope that we may capture something

1545

01:09:06,349 --> 01:09:04,320

around that range in the like low Earth

1546

01:09:09,160 --> 01:09:06,359

orbit basically are you gonna have

1547

01:09:13,400 --> 01:09:09,170

optics also facing outward or just down

1548

01:09:16,630 --> 01:09:13,410

up and then down we're aiming for a kind

1549

01:09:19,730 --> 01:09:16,640

of a fisheye parabolic lens that will

1550

01:09:21,920 --> 01:09:19,740

extend our field of view beyond what it

1551

01:09:25,130 --> 01:09:21,930

would normally right so like an all-sky

1552

01:09:27,380 --> 01:09:25,140

cam type right there are cameras that

1553

01:09:29,400 --> 01:09:27,390

that don't have the fisheye distortion

1554

01:09:32,100 --> 01:09:29,410

that you can use that have tremendously

1555

01:09:33,900 --> 01:09:32,110

my field of view yeah exactly so that's

1556

01:09:36,630 --> 01:09:33,910

what we'll be aiming for I mean we

1557

01:09:38,940 --> 01:09:36,640

probably will not see the actual horizon

1558

01:09:41,310 --> 01:09:38,950

like dipping beyond the horizon but

1559

01:09:44,250 --> 01:09:41,320

we'll get a large portion of the sky

1560

01:09:46,290 --> 01:09:44,260

around the satellite itself now this is

1561

01:09:49,680 --> 01:09:46,300

obviously very much dependent on look

1562

01:09:52,320 --> 01:09:49,690

that number one there are mothership

1563

01:09:54,480 --> 01:09:52,330

sized craft flying about that they would

1564

01:10:00,630 --> 01:09:54,490

get close enough to you to be able to

1565

01:10:03,060 --> 01:10:00,640

detect them yes okay now I'm gonna be a

1566

01:10:04,320 --> 01:10:03,070

little critical here but I understand

1567

01:10:06,300 --> 01:10:04,330

the nature of what you're doing what

1568

01:10:08,930 --> 01:10:06,310

you're trying to do the chances for

1569

01:10:11,910 --> 01:10:08,940

success are fairly low aren't they I

1570

01:10:15,150 --> 01:10:11,920

wouldn't go as far to say that I mean

1571

01:10:17,160 --> 01:10:15,160

based on the sightings that do occur I

1572

01:10:19,350 --> 01:10:17,170

think we have a pretty good chance I

1573

01:10:21,780 --> 01:10:19,360

mean it's gonna be up there for three

1574

01:10:24,300 --> 01:10:21,790

months so that's quite a long time I

1575

01:10:26,910 --> 01:10:24,310

think the amount of photos we're gonna

1576

01:10:29,400 --> 01:10:26,920

be taking close to a million photos that

1577

01:10:30,630 --> 01:10:29,410

we'll be going through so I think we

1578

01:10:33,210 --> 01:10:30,640

have a pretty good chance of catching

1579

01:10:35,820 --> 01:10:33,220

something at least some some anomaly of

1580

01:10:38,910 --> 01:10:35,830

some sort have you considered some sort

1581

01:10:41,990 --> 01:10:38,920

of software that would be triggered like

1582

01:10:46,800 --> 01:10:42,000

by motion in other words detect motion

1583

01:10:50,790 --> 01:10:46,810

and then use your optics to focus in and

1584

01:10:53,070 --> 01:10:50,800

follow and track motion yes absolutely

1585

01:10:55,650 --> 01:10:53,080

and I'm actually working on that right

1586

01:10:57,270 --> 01:10:55,660

now I've been writing software that

1587

01:11:00,000 --> 01:10:57,280

we're gonna be putting on our boards and

1588

01:11:02,730 --> 01:11:00,010

it's specifically does exactly that it

1589

01:11:05,760 --> 01:11:02,740

will detect motion changes within the

1590

01:11:08,670 --> 01:11:05,770

image and then will allow us to refocus

1591

01:11:11,550 --> 01:11:08,680

and we've got some magnetic talkers that

1592

01:11:13,920 --> 01:11:11,560

will actually allow us to move our

1593

01:11:16,170 --> 01:11:13,930

cameras move this app and and focus on

1594

01:11:18,480 --> 01:11:16,180

an area that we wish to focus on so it

1595

01:11:21,330 --> 01:11:18,490

won't be so much random we will actually

1596

01:11:25,350 --> 01:11:21,340

have some control and some automation in

1597

01:11:27,120 --> 01:11:25,360

those are very very exciting yeah gonna

1598

01:11:29,910 --> 01:11:27,130

be open source could I could I borrow

1599

01:11:31,500 --> 01:11:29,920

your software absolutely yeah I'm

1600

01:11:34,020 --> 01:11:31,510

actually I've been putting the word out

1601  
01:11:36,920 --> 01:11:34,030  
through MUFON I know there's a few

1602  
01:11:39,960 --> 01:11:36,930  
groups that have been having a

1603  
01:11:40,930 --> 01:11:39,970  
difficulty with that exactly yeah we

1604  
01:11:43,720 --> 01:11:40,940  
have to

1605  
01:11:45,790 --> 01:11:43,730  
yeah okay well yeah I'd love to share it

1606  
01:11:47,140 --> 01:11:45,800  
I'm definitely everything will be open

1607  
01:11:50,880 --> 01:11:47,150  
source

1608  
01:11:53,680 --> 01:11:50,890  
MUFON is some tubes are like kitchen

1609  
01:11:56,070 --> 01:11:53,690  
let's just stop the grisly stuff here

1610  
01:11:59,500 --> 01:11:56,080  
MUFON tends to be somewhat difficult

1611  
01:12:02,200 --> 01:11:59,510  
yeah they were they have been difficult

1612  
01:12:06,130 --> 01:12:02,210  
to actually get through to talk to

1613  
01:12:08,320 --> 01:12:06,140

someone to quite a while but we ended up

1614

01:12:11,050 --> 01:12:08,330

being contacted and they did an article

1615

01:12:14,350 --> 01:12:11,060

for us that's they agreed to put it on

1616

01:12:16,330 --> 01:12:14,360

their sites we had started out reaching

1617

01:12:18,490 --> 01:12:16,340

out to different MUFON branches like

1618

01:12:22,060 --> 01:12:18,500

they'll have different move funds per

1619

01:12:24,640 --> 01:12:22,070

state and we had no success at all and

1620

01:12:27,490 --> 01:12:24,650

then Dave shock who was involved in the

1621

01:12:30,010 --> 01:12:27,500

project as well he had a contacts that I

1622

01:12:32,980 --> 01:12:30,020

guess works for the big MUFON like the

1623

01:12:34,420 --> 01:12:32,990

umbrella of them and they ended up

1624

01:12:37,360 --> 01:12:34,430

sending someone else to do an article on

1625

01:12:38,740 --> 01:12:37,370

us and stuck it on their website we're

1626

01:12:40,210 --> 01:12:38,750

probably going to be going out in their

1627

01:12:40,780 --> 01:12:40,220

their little brochure they mailed to

1628

01:12:43,300 --> 01:12:40,790

everyone

1629

01:12:45,160 --> 01:12:43,310

so hopefully Dan and Dan Aykroyd's gonna

1630

01:12:49,510 --> 01:12:45,170

be looking at it because he's got his

1631

01:12:51,250 --> 01:12:49,520

his lifetime subscription to them but

1632

01:12:53,110 --> 01:12:51,260

yeah they ended up coming around and

1633

01:12:55,540 --> 01:12:53,120

being quite helpful so we were really

1634

01:12:57,490 --> 01:12:55,550

pleased with that well if you need some

1635

01:13:00,430 --> 01:12:57,500

help with MUFON let me know because the

1636

01:13:03,490 --> 01:13:00,440

head of MUFON is a friend and I've known

1637

01:13:06,700 --> 01:13:03,500

Jen Harlan for years and if you need any

1638

01:13:08,680 --> 01:13:06,710

sort of you know adrenaline shot for the

1639

01:13:10,210 --> 01:13:08,690

process let me know and we could hear at

1640

01:13:13,240 --> 01:13:10,220

the podcast we've more than willing to

1641

01:13:14,980 --> 01:13:13,250

help well-conceived projects so his

1642

01:13:17,620 --> 01:13:14,990

especially when it comes to networking

1643

01:13:19,990 --> 01:13:17,630

with other like-minded individuals so

1644

01:13:22,150 --> 01:13:20,000

just let us know and we'll we'll help in

1645

01:13:24,580 --> 01:13:22,160

any way the weekend let me ask you a

1646

01:13:25,990 --> 01:13:24,590

question here too and that is once the

1647

01:13:28,090 --> 01:13:26,000

satellite is al offering I'm going to

1648

01:13:30,480 --> 01:13:28,100

assume here this is all going to come to

1649

01:13:32,950 --> 01:13:30,490

pass the project will be successful

1650

01:13:37,270 --> 01:13:32,960

they'll get a satellite up when you want

1651

01:13:39,280 --> 01:13:37,280

okay now what means are there to detect

1652

01:13:40,780 --> 01:13:39,290

the signals is this something that can

1653

01:13:42,550 --> 01:13:40,790

be measured around the world or do you

1654

01:13:45,790 --> 01:13:42,560

have to be in specific locations or what

1655

01:13:50,380 --> 01:13:45,800

well initially we were gonna go through

1656

01:13:53,020 --> 01:13:50,390

ham radio but this was not feasible I

1657

01:13:55,479 --> 01:13:53,030

mean we'd have to have such a network of

1658

01:13:58,569 --> 01:13:55,489

ground stations all over the globe

1659

01:14:00,969 --> 01:13:58,579

the data rate was so slow so what we

1660

01:14:03,399 --> 01:14:00,979

ended up doing is we were talking to a

1661

01:14:06,909 --> 01:14:03,409

company called near space launch and

1662

01:14:10,029 --> 01:14:06,919

they work directly with Globalstar who

1663

01:14:12,279 --> 01:14:10,039

has their network of satellites all

1664

01:14:16,209 --> 01:14:12,289

around the globe up there and they they

1665

01:14:18,189 --> 01:14:16,219

sell services for sap telephones various

1666

01:14:21,009 --> 01:14:18,199

different companies will purchase their

1667

01:14:23,139 --> 01:14:21,019

data services so we're getting a modem

1668

01:14:26,500 --> 01:14:23,149

from them and then we're just going to

1669

01:14:29,109 --> 01:14:26,510

pay them a monthly data amount so this

1670

01:14:31,479 --> 01:14:29,119

is great because this will allow us to

1671

01:14:33,819 --> 01:14:31,489

have I think it's like 98% global

1672

01:14:35,409 --> 01:14:33,829

coverage there might be a couple areas

1673

01:14:38,349 --> 01:14:35,419

in the ocean that you'll miss a few

1674

01:14:40,060 --> 01:14:38,359

minutes but also we'll be able to log in

1675

01:14:42,939 --> 01:14:40,070

either through their web sites or

1676

01:14:44,770 --> 01:14:42,949

receive emails of our data or they'll

1677

01:14:47,319 --> 01:14:44,780

help us integrate it right into our web

1678

01:14:49,149 --> 01:14:47,329

our own website so that's how we're

1679

01:14:52,779 --> 01:14:49,159

gonna do our data and it gives us a much

1680

01:14:55,299 --> 01:14:52,789

higher data rate the only limit then

1681

01:14:58,540 --> 01:14:55,309

becomes cost yeah I was gonna ask how

1682

01:15:00,339 --> 01:14:58,550

much is this hosta month well right now

1683

01:15:03,549 --> 01:15:00,349

we're looking at there's a package it's

1684

01:15:05,829 --> 01:15:03,559

about three thousand a month which we

1685

01:15:08,349 --> 01:15:05,839

should be able to do that now this would

1686

01:15:11,819 --> 01:15:08,359

allow us a constant stream maybe every

1687

01:15:15,790 --> 01:15:11,829

three seconds or every five seconds of a

1688

01:15:18,310 --> 01:15:15,800

small image it's it's probably up to 200

1689

01:15:22,659 --> 01:15:18,320

kilobytes which is tiny and it still has

1690

01:15:25,060 --> 01:15:22,669

a resolution that's 1900 by by 1900 so

1691

01:15:27,429 --> 01:15:25,070

the resolution is good and then what we

1692

01:15:29,319 --> 01:15:27,439

could do is stream that and that we'd

1693

01:15:31,589 --> 01:15:29,329

have on our website like an image every

1694

01:15:36,009 --> 01:15:31,599

five seconds so kind of be like a really

1695

01:15:38,619 --> 01:15:36,019

low frame rate video and then if we can

1696

01:15:42,159 --> 01:15:38,629

perfect the software enough that the

1697

01:15:43,929 --> 01:15:42,169

anomaly detection gets really good when

1698

01:15:46,629 --> 01:15:43,939

it detects an anomaly it would send a

1699

01:15:49,329 --> 01:15:46,639

high-def image and I mean if we could

1700

01:15:51,520 --> 01:15:49,339

keep it down so it wasn't sending more

1701

01:15:54,609 --> 01:15:51,530

than like one or two a day with real

1702

01:15:56,529 --> 01:15:54,619

anomalies then we could keep the data

1703

01:15:59,319 --> 01:15:56,539

costs down but if it starts sending

1704

01:15:59,729 --> 01:15:59,329

high-def images every second and we're

1705

01:16:02,829 --> 01:15:59,739

screwed

1706

01:16:06,699 --> 01:16:02,839

that's that's a huge amount of data now

1707

01:16:08,080 --> 01:16:06,709

if this is posted on your site there for

1708

01:16:10,780 --> 01:16:08,090

anyone

1709

01:16:12,910 --> 01:16:10,790

can go to your site and see the signals

1710

01:16:14,560 --> 01:16:12,920

the transmissions as they're received

1711

01:16:19,150 --> 01:16:14,570

we're gonna ask more questions about

1712

01:16:21,700 --> 01:16:19,160

that about the project where it's gonna

1713

01:16:23,920 --> 01:16:21,710

go and maybe more about your viewpoints

1714

01:16:26,770 --> 01:16:23,930

about UFOs and since this is called

1715

01:16:28,680 --> 01:16:26,780

this is the wrong flyer class order of

the up one cycle P in other books when

1829

01:21:09,980 --> 01:21:00,180

you're listening to the podcast

1830

01:21:12,420 --> 01:21:09,990

[Music]

1831

01:21:14,610 --> 01:21:12,430

so the question I asked Dave code is

1832

01:21:16,590 --> 01:21:14,620

based on what you're telling me once

1833

01:21:19,110 --> 01:21:16,600

this is up once this is launched once

1834

01:21:22,680 --> 01:21:19,120

this is working we can go to your site

1835

01:21:25,710 --> 01:21:22,690

and see the pictures absolutely okay

1836

01:21:29,520 --> 01:21:25,720

in fact I'll go further to say I'm

1837

01:21:32,280 --> 01:21:29,530

working on the software now and I've

1838

01:21:34,410 --> 01:21:32,290

just been coding like crazy and what I'm

1839

01:21:37,440 --> 01:21:34,420

using is because it's freely available

1840

01:21:40,050 --> 01:21:37,450

we've got the International Space

1841

01:21:43,580 --> 01:21:40,060

Station's hi-def Camel air to the camera

1842

01:21:46,590 --> 01:21:43,590

we'll be using in terms of field of view

1843

01:21:48,930 --> 01:21:46,600

running the software on that camera the

1844

01:21:51,060 --> 01:21:48,940

livestream and I was thinking of

1845

01:21:54,270 --> 01:21:51,070

actually maybe in the next few days

1846

01:21:57,090 --> 01:21:54,280

putting up a dummy website that would

1847

01:22:00,000 --> 01:21:57,100

stream their pictures and just do a mock

1848

01:22:01,350 --> 01:22:00,010

scan of anomalies just to get a feel I'd

1849

01:22:05,070 --> 01:22:01,360

like to also put a comment board and

1850

01:22:08,400 --> 01:22:05,080

people could comment suggestions I'm

1851  
01:22:10,410 --> 01:22:08,410  
measuring on my own laptop here like how

1852  
01:22:13,440 --> 01:22:10,420  
many pictures it's downloading how much

1853  
01:22:16,440 --> 01:22:13,450  
space it's taking up per day it's pretty

1854  
01:22:20,100 --> 01:22:16,450  
good so far I mean it's not going over 3

1855  
01:22:23,190 --> 01:22:20,110  
to 6 gigabytes per day now that's the

1856  
01:22:26,340 --> 01:22:23,200  
high-def images so it looks like it's

1857  
01:22:29,430 --> 01:22:26,350  
starting to work ok let me ask you hear

1858  
01:22:31,830 --> 01:22:29,440  
more about this and that is once this is

1859  
01:22:33,960 --> 01:22:31,840  
up once you've got your first satellite

1860  
01:22:36,180 --> 01:22:33,970  
and hopefully there will be more would

1861  
01:22:40,050 --> 01:22:36,190  
you consider running images from other

1862  
01:22:41,730 --> 01:22:40,060  
UFO detection projects I'd love that I

1863  
01:22:43,020 --> 01:22:41,740

mean if people wanted to collaborate

1864

01:22:45,090 --> 01:22:43,030

that would be wonderful

1865

01:22:47,160 --> 01:22:45,100

you see that's part of the picture here

1866

01:22:49,980 --> 01:22:47,170

is so much has been in the UFO field

1867

01:22:52,380 --> 01:22:49,990

where there's not a lot of cooperation

1868

01:22:54,360 --> 01:22:52,390

but I wanted to go back briefly to your

1869

01:22:55,650 --> 01:22:54,370

sightings you've got all this

1870

01:22:57,870 --> 01:22:55,660

instrumentation that you're

1871

01:23:00,210 --> 01:22:57,880

contemplating for your satellite you're

1872

01:23:02,160 --> 01:23:00,220

seeing UFOs regularly when you go out to

1873

01:23:06,840 --> 01:23:02,170

do your sky watching what do you have

1874

01:23:10,580 --> 01:23:06,850

with you I usually bring myself a friend

1875

01:23:15,200 --> 01:23:10,590

a blanket and a laser pointer and

1876

01:23:16,560 --> 01:23:15,210

recently I purchased a night vision

1877

01:23:19,560 --> 01:23:16,570

monocular

1878

01:23:21,990 --> 01:23:19,570

like a owl I I think is the brand

1879

01:23:23,370 --> 01:23:22,000

something like that owl something I was

1880

01:23:25,830 --> 01:23:23,380

a little bit discouraged after I

1881

01:23:30,860 --> 01:23:25,840

purchased the night vision because it

1882

01:23:32,880 --> 01:23:30,870

basically cut my sightings down to 25%

1883

01:23:36,030 --> 01:23:32,890

because I think there's a lot of space

1884

01:23:37,770 --> 01:23:36,040

junk up there I saw a few little flashes

1885

01:23:40,770 --> 01:23:37,780

not the ones that turned on and moved

1886

01:23:42,800 --> 01:23:40,780

around but just little flashes that I

1887

01:23:45,090 --> 01:23:42,810

thought could be something significant

1888

01:23:47,430 --> 01:23:45,100

however once looking through my night

1889

01:23:49,830 --> 01:23:47,440

vision I would say oh wait I can

1890

01:23:52,320 --> 01:23:49,840

actually make it out and it looks like a

1891

01:23:55,290 --> 01:23:52,330

tumbling piece of space junk

1892

01:23:58,020 --> 01:23:55,300

so yeah usually when I go out I'll bring

1893

01:24:00,300 --> 01:23:58,030

a little laser pointer it depends on

1894

01:24:03,240 --> 01:24:00,310

whether you believe in this kind of

1895

01:24:05,220 --> 01:24:03,250

thing or not but my friend who initially

1896

01:24:08,340 --> 01:24:05,230

took me for my first sighting when you

1897

01:24:11,340 --> 01:24:08,350

have the huge experience he seemed to

1898

01:24:13,710 --> 01:24:11,350

think that I mean he straight-up thinks

1899

01:24:15,900 --> 01:24:13,720

they're extraterrestrials in their

1900

01:24:18,750 --> 01:24:15,910

spaceships and they're very connected to

1901

01:24:21,810 --> 01:24:18,760

us he had made a few comments to me

1902

01:24:23,280 --> 01:24:21,820

saying on our first night of a sighting

1903

01:24:27,060 --> 01:24:23,290

don't be scared

1904

01:24:28,410 --> 01:24:27,070

he said they can sense it I mean I

1905

01:24:31,050 --> 01:24:28,420

thought this was kind of strange of

1906

01:24:32,940 --> 01:24:31,060

course but he said he'd taken friends in

1907

01:24:35,340 --> 01:24:32,950

the past who were kind of terrified and

1908

01:24:36,660 --> 01:24:35,350

they'd seen nothing and then the friend

1909

01:24:39,720 --> 01:24:36,670

would go off into the bushes to the

1910

01:24:41,850 --> 01:24:39,730

bathroom and he would see something this

1911

01:24:43,890 --> 01:24:41,860

implied that there's some kind of a I

1912

01:24:47,820 --> 01:24:43,900

guess like a psychic connection or

1913

01:24:49,670 --> 01:24:47,830

something and I don't know how much I

1914

01:24:52,950 --> 01:24:49,680

put into that how much I believe in that

1915

01:24:56,340 --> 01:24:52,960

but I will say that I tried meditating a

1916

01:24:59,550 --> 01:24:56,350

few times and the times I did meditate

1917

01:25:02,460 --> 01:24:59,560

we did see something so I mean I don't

1918

01:25:04,910 --> 01:25:02,470

know how far open your mind has to be to

1919

01:25:07,710 --> 01:25:04,920

you know believe that kind of stuff but

1920

01:25:13,650 --> 01:25:07,720

maybe there's something to it well if

1921

01:25:15,840 --> 01:25:13,660

you're Steven Greer nothing here that

1922

01:25:20,220 --> 01:25:15,850

Steven Greer is someone who is not one

1923

01:25:23,070 --> 01:25:20,230

of our favorite people no okay you know

1924

01:25:26,730 --> 01:25:23,080

we don't see that any validity to his

1925

01:25:29,400 --> 01:25:26,740

evidence he's more in it we think to

1926

01:25:30,300 --> 01:25:29,410

make money from having people who pay

1927

01:25:36,000 --> 01:25:30,310

large amounts

1928

01:25:37,890 --> 01:25:36,010

for UFO Skywatch right welcome to get

1929

01:25:40,650 --> 01:25:37,900

trained as an ambassador to the universe

1930

01:25:43,020 --> 01:25:40,660

with him as our chief our chief

1931

01:25:46,560 --> 01:25:43,030

representative I do think that there is

1932

01:25:48,810 --> 01:25:46,570

a very large untapped potential in

1933

01:25:52,350 --> 01:25:48,820

looking at the role of consciousness and

1934

01:25:54,750 --> 01:25:52,360

and the UFO phenomenon without question

1935

01:25:56,460 --> 01:25:54,760

there is a link how that link could be

1936

01:25:58,440 --> 01:25:56,470

manifested is still open to some

1937

01:26:00,420 --> 01:25:58,450

interpretation but not nowhere near

1938

01:26:02,700 --> 01:26:00,430

enough work has been done in that

1939

01:26:06,120 --> 01:26:02,710

particular realm and I do agree that

1940

01:26:08,160 --> 01:26:06,130

there may be some sort of validity to be

1941

01:26:09,480 --> 01:26:08,170

part of a co-creative process shall we

1942

01:26:13,920 --> 01:26:09,490

say I think we're lack of a better

1943

01:26:15,570 --> 01:26:13,930

definition but there is a lot of work

1944

01:26:19,020 --> 01:26:15,580

that needs to be done in that room I'm

1945

01:26:22,470 --> 01:26:19,030

convinced I agree I agree I mean I I

1946

01:26:25,020 --> 01:26:22,480

tend to need the scientific stuff the

1947

01:26:27,390 --> 01:26:25,030

facts to look at but I mean I I have

1948

01:26:29,880 --> 01:26:27,400

practiced at some some meditation and

1949

01:26:32,370 --> 01:26:29,890

like I said the few times we we did

1950

01:26:34,950 --> 01:26:32,380

meditate at night we would have a

1951

01:26:37,410 --> 01:26:34,960

sighting it was interesting so yeah I

1952

01:26:39,030 --> 01:26:37,420

think consciousness is a I guess

1953

01:26:41,520 --> 01:26:39,040

something that's not understood is

1954

01:26:44,280 --> 01:26:41,530

basically what it is of course with a

1955

01:26:47,400 --> 01:26:44,290

satellite you can't have the satellite

1956

01:26:48,930 --> 01:26:47,410

do any meditation but are you thinking

1957

01:26:51,360 --> 01:26:48,940

that maybe when the satellite is aloft

1958

01:26:54,540 --> 01:26:51,370

and you know it's a particular area

1959

01:26:56,270 --> 01:26:54,550

that's near you it's orbiting not far

1960

01:26:58,530 --> 01:26:56,280

from you that you do a little

1961

01:27:00,480 --> 01:26:58,540

consciousness work to see what you could

1962

01:27:01,080 --> 01:27:00,490

generate well you know I've never

1963

01:27:05,310 --> 01:27:01,090

thought of that

1964

01:27:08,550 --> 01:27:05,320

Oh perhaps we will yeah I mean it

1965

01:27:10,410 --> 01:27:08,560

wouldn't hurt to try right I guess it

1966

01:27:12,750 --> 01:27:10,420

doesn't because we're still you know

1967

01:27:15,120 --> 01:27:12,760

making assumptions in terms of what's

1968

01:27:19,500 --> 01:27:15,130

gonna happen here you have to hope that

1969

01:27:22,560 --> 01:27:19,510

a UFO is gonna be aloft in a low space

1970

01:27:27,870 --> 01:27:22,570

area at the time that your satellites in

1971

01:27:30,330 --> 01:27:27,880

the exact place you need and I tends to

1972

01:27:32,610 --> 01:27:30,340

switch between the two mindsets of I

1973

01:27:34,350 --> 01:27:32,620

think we're gonna find something too I

1974

01:27:37,050 --> 01:27:34,360

don't think we're gonna find something

1975

01:27:39,000 --> 01:27:37,060

and I kind of go back and forth I mean

1976

01:27:42,780 --> 01:27:39,010

I've been writing the software I'm

1977

01:27:45,360 --> 01:27:42,790

playing with the space station video

1978

01:27:47,400 --> 01:27:45,370

and my software is picking up anomalies

1979

01:27:49,530 --> 01:27:47,410

and changes in the images which is great

1980

01:27:51,540 --> 01:27:49,540

but I've actually been scanning through

1981

01:27:53,220 --> 01:27:51,550

them and I never find something and I

1982

01:27:54,600 --> 01:27:53,230

get discouraged and I think man we're

1983

01:27:57,630 --> 01:27:54,610

never gonna find something

1984

01:28:03,030 --> 01:27:57,640

until I realized wait this is a NASA

1985

01:28:05,850 --> 01:28:03,040

camera and I mean the outages are about

1986

01:28:07,530 --> 01:28:05,860

once per hour I think on their on their

1987

01:28:10,710 --> 01:28:07,540

little camera where they they go to blue

1988

01:28:12,750 --> 01:28:10,720

screen and that makes me think how do

1989

01:28:16,470 --> 01:28:12,760

they have that many outages I mean if

1990

01:28:18,650 --> 01:28:16,480

their oxygen systems had an outage you

1991

01:28:21,000 --> 01:28:18,660

know there'd be some real problems so

1992

01:28:23,220 --> 01:28:21,010

perhaps you know maybe they are

1993

01:28:25,260 --> 01:28:23,230

censoring maybe they're censoring things

1994

01:28:26,190 --> 01:28:25,270

and then I'll jump back - yes we're

1995

01:28:28,170 --> 01:28:26,200

agreeing that we're definitely gonna

1996

01:28:30,810 --> 01:28:28,180

find something and I kind of just keep

1997

01:28:32,780 --> 01:28:30,820

going back and forth and we'll just see

1998

01:28:36,120 --> 01:28:32,790

what we what we come up with I guess

1999

01:28:40,590 --> 01:28:36,130

okay you have a crowd sourcing project

2000

01:28:46,880 --> 01:28:40,600

to raise money where's that stand we are

2001  
01:28:51,810 --> 01:28:46,890  
at approximately 30,000 US Dollars and

2002  
01:28:55,020 --> 01:28:51,820  
you need how much again I think we're

2003  
01:28:58,710 --> 01:28:55,030  
there I think we could accomplish a you

2004  
01:29:00,300 --> 01:28:58,720  
one CubeSat at this point however we

2005  
01:29:03,780 --> 01:29:00,310  
would not get all the instruments we

2006  
01:29:05,420 --> 01:29:03,790  
need as well as the data the data cost

2007  
01:29:08,420 --> 01:29:05,430  
that we're going to be paying for so

2008  
01:29:11,820 --> 01:29:08,430  
right now where we stand is I've I've

2009  
01:29:15,150 --> 01:29:11,830  
written a check to the the launch

2010  
01:29:16,830 --> 01:29:15,160  
company interorbital systems sixteen

2011  
01:29:19,350 --> 01:29:16,840  
thousand six hundred twenty-five dollars

2012  
01:29:21,420 --> 01:29:19,360  
has been sent to them or on their

2013  
01:29:24,300 --> 01:29:21,430

manifests we're in a launch middle of

2014

01:29:26,250 --> 01:29:24,310

next year we should be up on their

2015

01:29:31,110 --> 01:29:26,260

website soon in their little manifest

2016

01:29:33,390 --> 01:29:31,120

section then I have \$10,000 a checks

2017

01:29:35,790 --> 01:29:33,400

written to Matt Lippert he's building

2018

01:29:39,150 --> 01:29:35,800

the satellites with some colleagues out

2019

01:29:41,430 --> 01:29:39,160

of a fit that should be able to buy most

2020

01:29:43,400 --> 01:29:41,440

of the components now he has mentioned

2021

01:29:46,050 --> 01:29:43,410

there might be a little bit more because

2022

01:29:48,120 --> 01:29:46,060

he can't do some of the electrical

2023

01:29:51,330 --> 01:29:48,130

engineering um in terms of if we have to

2024

01:29:54,090 --> 01:29:51,340

actually custom build some things so he

2025

01:29:54,390 --> 01:29:54,100

may have to pay a bit of a salary or an

2026

01:29:59,190 --> 01:29:54,400

hour

2027

01:30:03,990 --> 01:29:59,200

and if AP needs to do that it might cost

2028

01:30:07,500 --> 01:30:04,000

a little bit more then I have a

2029

01:30:09,570 --> 01:30:07,510

Kickstarter that just just finished and

2030

01:30:12,060 --> 01:30:09,580

we get probably about 5,000 from that

2031

01:30:16,620 --> 01:30:12,070

that's going to go towards the data

2032

01:30:18,360 --> 01:30:16,630

costs so that's so looks like right now

2033

01:30:20,130 --> 01:30:18,370

we have to break in a moment right now

2034

01:30:22,200 --> 01:30:20,140

looks like you're almost there but a few

2035

01:30:24,240 --> 01:30:22,210

thousand dollars more wouldn't hurt we

2036

01:30:28,200 --> 01:30:24,250

have Dave Cote and we're talking about

2037

01:30:31,380 --> 01:30:28,210

CubeSat for disclosure launching a UFO

2038

01:30:39,360 --> 01:30:31,390

detector in space to find them with gene

2039

01:30:42,000 --> 01:30:39,370

could use it for slideshows you could

use it to import images from digital

2097

01:33:23,629 --> 01:33:21,690

twenty plus years as a radio host i've

2098

01:33:25,250 --> 01:33:23,639

seen about everything one thing that

2099

01:33:27,229 --> 01:33:25,260

he's recurring though are these

2100

01:33:30,379 --> 01:33:27,239

timeshare charlatans

2101  
01:33:32,180 --> 01:33:30,389  
these high-pressure sales people who get

2102  
01:33:34,220 --> 01:33:32,190  
folks to come out to some resort for a

2103  
01:33:35,810 --> 01:33:34,230  
special weekend to offer then they get

2104  
01:33:37,790 --> 01:33:35,820  
them in a corner and browbeat them and

2105  
01:33:39,109 --> 01:33:37,800  
coerce them into buying a timeshare they

2106  
01:33:40,819 --> 01:33:39,119  
don't need they don't want they can't

2107  
01:33:42,530 --> 01:33:40,829  
afford and then they're stuck with that

2108  
01:33:44,720 --> 01:33:42,540  
thing forever monthly payments mortgage

2109  
01:33:46,760 --> 01:33:44,730  
payments annual fees that keep going up

2110  
01:33:48,169 --> 01:33:46,770  
and up well up until recently people

2111  
01:33:49,459 --> 01:33:48,179  
thought they couldn't get rid of these

2112  
01:33:51,229 --> 01:33:49,469

this is Micah Hanks to the graylien

2144

01:35:00,189 --> 01:34:58,129

report and you're listening to the para

2145

01:35:00,910 --> 01:35:00,199

cast the gold standard of paranormal

2146

01:35:08,459 --> 01:35:00,920

radio

2147

[Music]

2148

01:35:14,500 --> 01:35:11,750

so let's continue with this now I assume

2149

01:35:16,209 --> 01:35:14,510

therefore that if people still want to

2150

01:35:19,810 --> 01:35:16,219

get involved maybe donate a few dollars

2151  
01:35:21,520 --> 01:35:19,820  
or a tax refund or something they can go

2152  
01:35:24,250 --> 01:35:21,530  
to your kickstarter campaign is that

2153  
01:35:26,890 --> 01:35:24,260  
where they go actually now we have a

2154  
01:35:29,680 --> 01:35:26,900  
it's an IndieGoGo campaign we had a

2155  
01:35:32,709 --> 01:35:29,690  
Kickstarter it completed so we now have

2156  
01:35:36,250 --> 01:35:32,719  
we've started an IndieGoGo campaign we

2157  
01:35:40,390 --> 01:35:36,260  
have a link it's it's CubeSat Tech so

2158  
01:35:42,790 --> 01:35:40,400  
CubeSat dot te CH that will always point

2159  
01:35:45,160 --> 01:35:42,800  
to the current campaign that's running

2160  
01:35:46,870 --> 01:35:45,170  
and once the launch happens it'll point

2161  
01:35:49,720 --> 01:35:46,880  
to our website they'll have all the

2162  
01:35:53,200 --> 01:35:49,730  
images etc there's a chance we may keep

2163  
01:35:55,900 --> 01:35:53,210

the the IndieGoGo running for good I

2164

01:35:57,640 --> 01:35:55,910

mean if it seems like this is a there's

2165

01:36:00,010 --> 01:35:57,650

a lot of interest in this we could end

2166

01:36:03,040 --> 01:36:00,020

up putting further donations towards

2167

01:36:04,930 --> 01:36:03,050

another launch so I guess we'll see like

2168

01:36:07,840 --> 01:36:04,940

if this if this is successful and

2169

01:36:10,209 --> 01:36:07,850

interesting enough maybe it could be a

2170

01:36:12,880 --> 01:36:10,219

yearly thing like every every year we

2171

01:36:15,430 --> 01:36:12,890

have a three month window of looking for

2172

01:36:16,990 --> 01:36:15,440

phenomenon and keeping the website

2173

01:36:20,020 --> 01:36:17,000

running and just see what we come up

2174

01:36:21,700 --> 01:36:20,030

with what's the batting average of this

2175

01:36:24,459 --> 01:36:21,710

launching place in terms of getting

2176  
01:36:27,310 --> 01:36:24,469  
satellites into orbit successfully they

2177  
01:36:29,200 --> 01:36:27,320  
I think they have a perfect record I

2178  
01:36:31,450 --> 01:36:29,210  
mean on their on their manifest and all

2179  
01:36:34,900 --> 01:36:31,460  
their launches they've had made no

2180  
01:36:37,120 --> 01:36:34,910  
mention of any failed launches I think

2181  
01:36:39,970 --> 01:36:37,130  
it's like they're quite secretive about

2182  
01:36:41,350 --> 01:36:39,980  
their technology and you know maybe

2183  
01:36:44,170 --> 01:36:41,360  
they've had some failures that they

2184  
01:36:46,270 --> 01:36:44,180  
don't mention publicly but I think some

2185  
01:36:49,420 --> 01:36:46,280  
of their secrecy comes from their

2186  
01:36:52,720 --> 01:36:49,430  
efficiency they found a way to launch

2187  
01:36:55,330 --> 01:36:52,730  
these satellites like commercially I

2188  
01:36:57,070 --> 01:36:55,340

mean they're a private company and so

2189

01:36:59,530 --> 01:36:57,080

they want to hold to their secrets

2190

01:37:02,500 --> 01:36:59,540

you know tightly is there any guarantee

2191

01:37:05,320 --> 01:37:02,510

at all or is it done without a warranty

2192

01:37:07,660 --> 01:37:05,330

of success there's not a guarantee so

2193

01:37:09,430 --> 01:37:07,670

yeah if a rocket exploded we would lose

2194

01:37:11,200 --> 01:37:09,440

everything I guess that's just the way

2195

01:37:13,270 --> 01:37:11,210

that has to go well I wouldn't want to

2196

01:37:15,580 --> 01:37:13,280

raise that possibility obviously the

2197

01:37:17,709 --> 01:37:15,590

hope thing does work they've got a good

2198

01:37:19,390 --> 01:37:17,719

record and their technology seems pretty

2199

01:37:20,709 --> 01:37:19,400

amazing because

2200

01:37:23,520 --> 01:37:20,719

I know there's a lot of other companies

2201

01:37:27,880 --> 01:37:23,530

that are kind of eyeing for the same

2202

01:37:30,160 --> 01:37:27,890

technology which is I mean these are not

2203

01:37:33,520 --> 01:37:30,170

Rockets like SpaceX or like NASA where

2204

01:37:36,630 --> 01:37:33,530

they're sending things deep-space or you

2205

01:37:39,700 --> 01:37:36,640

know lunar or a Mars mission these are

2206

01:37:41,439 --> 01:37:39,710

very affordable successful rockets that

2207

01:37:43,030 --> 01:37:41,449

can get stuff into low-earth orbit and

2208

01:37:45,850 --> 01:37:43,040

they seem to have a really good average

2209

01:37:48,660 --> 01:37:45,860

of getting things there so since you

2210

01:37:52,090 --> 01:37:48,670

call yourself CubeSat for disclosure

2211

01:37:53,950 --> 01:37:52,100

let's look at the UFO thing for a moment

2212

01:37:56,530 --> 01:37:53,960

here and that is do you think the

2213

01:37:59,860 --> 01:37:56,540

governments of Earth know something have

2214

01:38:02,020 --> 01:37:59,870

guilty knowledge about UFOs and that if

2215

01:38:05,080 --> 01:38:02,030

we got them to talk we'd hear some

2216

01:38:07,810 --> 01:38:05,090

pretty interesting stuff Wow I guess

2217

01:38:10,510 --> 01:38:07,820

that's the question when I first you

2218

01:38:12,820 --> 01:38:10,520

know how to sighting I didn't think in

2219

01:38:16,080 --> 01:38:12,830

those terms at all I was more curious

2220

01:38:18,370 --> 01:38:16,090

about you know what have I seen but now

2221

01:38:21,130 --> 01:38:18,380

being involved in having done some

2222

01:38:24,130 --> 01:38:21,140

research and having talked to certain

2223

01:38:26,770 --> 01:38:24,140

people I think there might be a lot to

2224

01:38:28,750 --> 01:38:26,780

that or at least something to that Dave

2225

01:38:31,709 --> 01:38:28,760

shock who's involved with the project

2226

01:38:34,630 --> 01:38:31,719

and he's helped quite a lot he came in

2227

01:38:37,600 --> 01:38:34,640

because years ago he had had a similar

2228

01:38:40,330 --> 01:38:37,610

idea to send a satellite for UFO

2229

01:38:43,330 --> 01:38:40,340

purposes but that was about a decade ago

2230

01:38:46,899 --> 01:38:43,340

maybe longer and it was gonna cost him

2231

01:38:48,610 --> 01:38:46,909

two hundred million dollars to do so now

2232

01:38:50,770 --> 01:38:48,620

obviously he was trying to raise quite a

2233

01:38:51,760 --> 01:38:50,780

lot of money and a lot of people were

2234

01:38:54,700 --> 01:38:51,770

hearing about it

2235

01:38:57,070 --> 01:38:54,710

he ended up rubbing shoulders with

2236

01:38:59,740 --> 01:38:57,080

various people one of them worked for

2237

01:39:04,120 --> 01:38:59,750

the president's office at the time and

2238

01:39:07,090 --> 01:39:04,130

kind of gave him some advice and told

2239

01:39:09,310 --> 01:39:07,100

him that basically he had the okay that

2240

01:39:13,090 --> 01:39:09,320

if he did get the funding and launched

2241

01:39:16,390 --> 01:39:13,100

this thing I guess long story short the

2242

01:39:18,520 --> 01:39:16,400

government wouldn't mind if UFOs were

2243

01:39:21,459 --> 01:39:18,530

disclosed but it was kind of along the

2244

01:39:23,620 --> 01:39:21,469

lines of maybe they've known about it

2245

01:39:25,180 --> 01:39:23,630

maybe there's a secret maybe if they

2246

01:39:28,510 --> 01:39:25,190

came out with disclosure right now

2247

01:39:30,610 --> 01:39:28,520

people get really angry so maybe they

2248

01:39:32,770 --> 01:39:30,620

would like if some private citizens

2249

01:39:33,570 --> 01:39:32,780

figured some stuff out so they could

2250

01:39:37,470 --> 01:39:33,580

just kind of go

2251

01:39:39,750 --> 01:39:37,480

Wow no it's they're interesting so yeah

2252

01:39:41,430 --> 01:39:39,760

I don't know I mean there's a lot of

2253

01:39:44,220 --> 01:39:41,440

interesting testimony from credible

2254

01:39:45,630 --> 01:39:44,230

really credible people that seem to

2255

01:39:48,060 --> 01:39:45,640

think that yes the government knows

2256

01:39:51,120 --> 01:39:48,070

about it yes there's visitation

2257

01:39:53,070 --> 01:39:51,130

happening except etc yeah tagging the

2258

01:39:55,020 --> 01:39:53,080

line about tagging the term rather

2259

01:39:57,450 --> 01:39:55,030

disclosure to the project is an

2260

01:40:02,070 --> 01:39:57,460

interesting choice I think that that

2261

01:40:03,930 --> 01:40:02,080

that could aid you you know for the the

2262

01:40:06,870 --> 01:40:03,940

wider population who's interested in

2263

01:40:10,440 --> 01:40:06,880

this subject and really lust after that

2264

01:40:14,640 --> 01:40:10,450

disclosure that magical day when Obama

2265

01:40:16,980 --> 01:40:14,650

or Donald Trump god forbid the trots out

2266

01:40:19,800 --> 01:40:16,990

the press conference with a little alien

2267

01:40:22,080 --> 01:40:19,810

hand in hand and saying well we're

2268

01:40:24,210 --> 01:40:22,090

finally gonna fess up and here's our

2269

01:40:26,610 --> 01:40:24,220

little little space buddies and we've

2270

01:40:29,250 --> 01:40:26,620

you know known X amount about these

2271

01:40:31,200 --> 01:40:29,260

these beans for X amount of years and

2272

01:40:33,300 --> 01:40:31,210

and of course you know half the

2273

01:40:35,160 --> 01:40:33,310

population immediately would think it's

2274

01:40:37,980 --> 01:40:35,170

just some sort of CGI trick and then

2275

01:40:41,130 --> 01:40:37,990

it's it's not to be taken seriously

2276

01:40:43,230 --> 01:40:41,140

and the other half would I don't think

2277

01:40:45,510 --> 01:40:43,240

they'd freak out like they did in 1938

2278

01:40:47,400 --> 01:40:45,520

when Orson Welles did the fake War of

2279

01:40:49,980 --> 01:40:47,410

the Worlds broadcast I think that that

2280

01:40:52,290 --> 01:40:49,990

that excuses is not tenable here in this

2281

01:40:55,140 --> 01:40:52,300

modern age but but the whole idea of

2282

01:40:57,750 --> 01:40:55,150

tagging that that term disclosure onto

2283

01:40:59,610 --> 01:40:57,760

your project kind of makes me scratch my

2284

01:41:02,820 --> 01:40:59,620

head a little bit what what prompted

2285

01:41:05,880 --> 01:41:02,830

that particular decision did to do to

2286

01:41:09,090 --> 01:41:05,890

put that word there um I think it was it

2287

01:41:10,970 --> 01:41:09,100

was mainly because I think more interest

2288

01:41:13,260 --> 01:41:10,980

comes to the project as a result of

2289

01:41:14,010 --> 01:41:13,270

putting it into the category of

2290

01:41:18,540 --> 01:41:14,020

disclosure

2291

01:41:19,800 --> 01:41:18,550

something to disclose when I guess the

2292

01:41:22,680 --> 01:41:19,810

truth of the matter is we don't have

2293

01:41:27,060 --> 01:41:22,690

enough scientific evidence to say that

2294

01:41:29,130 --> 01:41:27,070

there's anything to disclose but I mean

2295

01:41:31,800 --> 01:41:29,140

I I kind of think about the testimony

2296

01:41:34,200 --> 01:41:31,810

that exists from the pilots and military

2297

01:41:38,760 --> 01:41:34,210

personnel excetera and and I think well

2298

01:41:41,370 --> 01:41:38,770

as verbal testimony doctor would go a

2299

01:41:43,470 --> 01:41:41,380

long way in a court of law if you had

2300

01:41:47,040 --> 01:41:43,480

that much verbal testimony from that

2301

01:41:49,350 --> 01:41:47,050

many witnesses it would hold up in court

2302

01:41:50,910 --> 01:41:49,360

so based on that I'd say okay well

2303

01:41:53,340 --> 01:41:50,920

that's the disclosure we're going for

2304

01:41:55,770 --> 01:41:53,350

we're going to disclose whatever it is

2305

01:42:00,690 --> 01:41:55,780

that's going on in the atmosphere where

2306

01:42:04,020 --> 01:42:00,700

do I thought about possibly approaching

2307

01:42:05,640 --> 01:42:04,030

other governments who have already kind

2308

01:42:07,980 --> 01:42:05,650

of opened up their files a little bit

2309

01:42:11,930 --> 01:42:07,990

loose in the secrecy of their files a

2310

01:42:15,710 --> 01:42:11,940

bit like the United Kingdom Brazil

2311

01:42:17,940 --> 01:42:15,720

France countries like that and possibly

2312

01:42:19,320 --> 01:42:17,950

you know talked with some of the movers

2313

01:42:21,930 --> 01:42:19,330

and shakers in those communities to

2314

01:42:24,810 --> 01:42:21,940

possibly get some some real deep pocket

2315

01:42:26,850 --> 01:42:24,820

help from from you know other

2316

01:42:29,430 --> 01:42:26,860

governments let's say you know put a

2317

01:42:31,200 --> 01:42:29,440

little more pressure on on the US with

2318

01:42:32,820 --> 01:42:31,210

this have you considered that or you

2319

01:42:35,790 --> 01:42:32,830

just you're just going for a complete

2320

01:42:38,670 --> 01:42:35,800

grassroots crowdfunding thing I think I

2321

01:42:40,820 --> 01:42:38,680

mean initially and and still I'd like to

2322

01:42:44,490 --> 01:42:40,830

stay as much I think away from

2323

01:42:46,560 --> 01:42:44,500

governments or big big companies and try

2324

01:42:49,850 --> 01:42:46,570

to keep this as much as a citizen

2325

01:42:52,920 --> 01:42:49,860

oriented project as possible I think

2326

01:42:55,830 --> 01:42:52,930

along the lines of open sourcing it I

2327

01:42:58,290 --> 01:42:55,840

think that's a better approach it's more

2328

01:43:01,010 --> 01:42:58,300

I think it's more respectable more

2329

01:43:04,020 --> 01:43:01,020

believable more transparent that way

2330

01:43:05,670 --> 01:43:04,030

because if somebody with a lot of money

2331

01:43:08,970 --> 01:43:05,680

comes aboard they're probably going to

2332

01:43:11,190 --> 01:43:08,980

want control and you know then maybe we

2333

01:43:12,990 --> 01:43:11,200

won't be able to show everyone or

2334

01:43:17,070 --> 01:43:13,000

software or show everyone every single

2335

01:43:20,940 --> 01:43:17,080

image I mean I I've kind of read some

2336

01:43:22,440 --> 01:43:20,950

things of one of them I can't remember

2337

01:43:25,160 --> 01:43:22,450

who the fellows name was but he got

2338

01:43:28,980 --> 01:43:25,170

involved with MUFON and funding their

2339

01:43:32,630 --> 01:43:28,990

stars name is Robert Bigelow right and

2340

01:43:36,180 --> 01:43:32,640

there was all this kind of conspiracy of

2341

01:43:38,430 --> 01:43:36,190

did he do this just as a means to get

2342

01:43:40,500 --> 01:43:38,440

control of the information and I mean

2343

01:43:42,750 --> 01:43:40,510

whether this is the case or isn't the

2344

01:43:45,060 --> 01:43:42,760

case it's like the questions start to

2345

01:43:46,980 --> 01:43:45,070

arise once big money gets involved and I

2346

01:43:49,140 --> 01:43:46,990

don't really want that I want to keep it

2347

01:43:50,550 --> 01:43:49,150

you know it's it's a bunch of people

2348

01:43:53,700 --> 01:43:50,560

putting their money together to do

2349

01:43:55,890 --> 01:43:53,710

something really interesting yeah he

2350

01:43:57,360 --> 01:43:55,900

also is the only private individual in

2351  
01:43:58,520 --> 01:43:57,370  
the world that has his own orbiting

2352  
01:44:00,210 --> 01:43:58,530  
space station

2353  
01:44:07,440 --> 01:44:00,220  
really

2354  
01:44:10,340 --> 01:44:07,450  
NASA to supply modules for four orbiting

2355  
01:44:13,710 --> 01:44:10,350  
space flat platforms Bigelow Aerospace

2356  
01:44:16,080 --> 01:44:13,720  
that's interesting did he did he have

2357  
01:44:17,460 --> 01:44:16,090  
his space station before he was involved

2358  
01:44:18,740 --> 01:44:17,470  
with MUFON that's an interesting

2359  
01:44:25,520 --> 01:44:18,750  
question

2360  
01:44:26,700 --> 01:44:25,530  
launch Genesis one I will research it

2361  
01:44:30,140 --> 01:44:26,710  
okay

2362  
01:44:35,520 --> 01:44:30,150  
I mean I'm I'm not one to jump on

2363  
01:44:37,500 --> 01:44:35,530

conspiracies um but I think yeah if deep

2364

01:44:40,680 --> 01:44:37,510

pockets and big money or governments

2365

01:44:42,660 --> 01:44:40,690

were to jump in and fund our project can

2366

01:44:45,120 --> 01:44:42,670

give us like a million bucks or 100

2367

01:44:47,460 --> 01:44:45,130

million I think then a lot of questions

2368

01:44:49,290 --> 01:44:47,470

would arise from people and whether

2369

01:44:52,860 --> 01:44:49,300

these questions were valid or not I just

2370

01:44:54,750 --> 01:44:52,870

think they would arise no well Laurance

2371

01:44:59,430 --> 01:44:54,760

Rockefeller funded me for two years no

2372

01:45:05,700 --> 01:44:59,440

strings attached oh that is cool

2373

01:45:11,810 --> 01:45:05,710

so you know there is hope Wow before we

2374

01:45:14,760 --> 01:45:11,820

break Genesis 1 was launched on July 12

2375

01:45:17,280 --> 01:45:14,770

2006 that's quite a bit before the

2376

01:45:19,110 --> 01:45:17,290

connection to MUFON with got Dave Cote

2377

01:45:20,880 --> 01:45:19,120

dream that turns out to be a nightmare

2388

planet are planning to conquer the earth

2390

01:45:59,070 --> 01:45:56,650

this is gripping science fiction of the

here's Jane Steinberg so isn't that

2433  
01:48:06,429 --> 01:48:03,590  
interesting if we're looking for

2434  
01:48:11,109 --> 01:48:06,439  
anniversary's Genesis 1 from Bigelow

2435  
01:48:15,129 --> 01:48:11,119  
Aerospace launched in 2006 on July 12th

2436  
01:48:16,600 --> 01:48:15,139  
the power cast debuts February 28th of

2437  
01:48:19,799 --> 01:48:16,610  
that year there was no connection

2438  
01:48:23,229 --> 01:48:19,809

whatever Genesis 2 was launched in 2007

2439

01:48:26,140 --> 01:48:23,239

very cool we really like to educate our

2440

01:48:28,810 --> 01:48:26,150

guests when they come on yeah no that's

2441

01:48:31,929 --> 01:48:28,820

very cool the topics were touching upon

2442

01:48:35,049 --> 01:48:31,939

there's so much information like I mean

2443

01:48:36,790 --> 01:48:35,059

there's the UFO subject there's all the

2444

01:48:39,819 --> 01:48:36,800

different government questions there's

2445

01:48:42,370 --> 01:48:39,829

like now we're on to this Bigelow fellow

2446

01:48:44,080 --> 01:48:42,380

and MUFON and then there's the science

2447

01:48:46,239 --> 01:48:44,090

there's the CubeSat there's all the

2448

01:48:48,310 --> 01:48:46,249

different aspects of the camera and what

2449

01:48:49,779 --> 01:48:48,320

we're measuring so we've got there's a

2450

01:48:50,949 --> 01:48:49,789

lot of fields kind of being clumped

2451

01:48:53,439 --> 01:48:50,959

together here I think it's really

2452

01:48:56,169 --> 01:48:53,449

interesting have you gotten any response

2453

01:48:57,699 --> 01:48:56,179

from the Canadian government about your

2454

01:48:59,439 --> 01:48:57,709

effort has there been any sort of

2455

01:49:02,169 --> 01:48:59,449

dialogue there I'd be interested to know

2456

01:49:04,569 --> 01:49:02,179

what your what your your mother country

2457

01:49:06,669 --> 01:49:04,579

there would officially have to say about

2458

01:49:10,270 --> 01:49:06,679

an effort like that Trudeau seems like a

2459

01:49:12,279 --> 01:49:10,280

pretty open-minded guy well I have not

2460

01:49:15,969 --> 01:49:12,289

actually reached out to any governments

2461

01:49:19,270 --> 01:49:15,979

per se I've basically talks to whomever

2462

01:49:21,910 --> 01:49:19,280

media outlet is interested in like doing

2463

01:49:24,629 --> 01:49:21,920

interviews and interviews for radio

2464

01:49:27,729 --> 01:49:24,639

interviews for television interviews for

2465

01:49:30,600 --> 01:49:27,739

articles written articles but I haven't

2466

01:49:33,459 --> 01:49:30,610

put out any emails to actual governments

2467

01:49:35,830 --> 01:49:33,469

mainly we've hit up all the different

2468

01:49:37,989 --> 01:49:35,840

news agencies that we could think of are

2469

01:49:41,649 --> 01:49:37,999

you getting much response from America

2470

01:49:44,350 --> 01:49:41,659

quite a lot let me think I could say our

2471

01:49:45,759 --> 01:49:44,360

funders are global we had a lot of

2472

01:49:48,179 --> 01:49:45,769

American support from people

2473

01:49:52,640 --> 01:49:48,189

contributing but then we had a lot from

2474

01:49:56,360 --> 01:49:52,650

like France South America South Africa

2475

01:49:58,970 --> 01:49:56,370

Mexico Germany we've had like basically

2476  
01:50:01,100 --> 01:49:58,980  
most of the countries most of the major

2477  
01:50:03,460 --> 01:50:01,110  
industrial countries have kind of come

2478  
01:50:07,220 --> 01:50:03,470  
on board but this is citizens of course

2479  
01:50:10,630 --> 01:50:07,230  
not governments what about news media

2480  
01:50:14,510 --> 01:50:10,640  
news media's it's been pretty good as

2481  
01:50:16,420 --> 01:50:14,520  
for mainstream we've only had one it was

2482  
01:50:20,750 --> 01:50:16,430  
a based out of Ontario

2483  
01:50:22,610 --> 01:50:20,760  
CHCH news they wanted to do a Skype

2484  
01:50:24,860 --> 01:50:22,620  
interview a video interview and they

2485  
01:50:28,120 --> 01:50:24,870  
actually aired it on and Canadian

2486  
01:50:30,980 --> 01:50:28,130  
national television which was very cool

2487  
01:50:32,810 --> 01:50:30,990  
then we had the province newspaper which

2488  
01:50:35,900 --> 01:50:32,820

is our actual local newspaper here in

2489

01:50:38,480 --> 01:50:35,910

Vancouver they did an article on us I

2490

01:50:41,420 --> 01:50:38,490

think they were the two only real like

2491

01:50:44,780 --> 01:50:41,430

mainstream news companies that got

2492

01:50:47,930 --> 01:50:44,790

involved and strangely late after CHCH

2493

01:50:50,060 --> 01:50:47,940

aired our interview they claimed

2494

01:50:52,700 --> 01:50:50,070

bankruptcy and I'm really hoping there

2495

01:50:54,800 --> 01:50:52,710

was no connection there well strange

2496

01:50:57,830 --> 01:50:54,810

things happen with UFOs what about

2497

01:51:00,140 --> 01:50:57,840

detractors have you had any people say

2498

01:51:02,900 --> 01:51:00,150

hey this is nonsense what are you doing

2499

01:51:06,140 --> 01:51:02,910

you're wasting money what um not really

2500

01:51:09,710 --> 01:51:06,150

we've had some questions of the

2501  
01:51:12,170 --> 01:51:09,720  
technical capabilities um I've had a few

2502  
01:51:14,960 --> 01:51:12,180  
people comment that there's no way I can

2503  
01:51:17,030 --> 01:51:14,970  
pull this off because of the various

2504  
01:51:19,280 --> 01:51:17,040  
testing that has to happen like the

2505  
01:51:22,070 --> 01:51:19,290  
vibration testing and hardening

2506  
01:51:24,620 --> 01:51:22,080  
everything to radiation and I happen to

2507  
01:51:26,570 --> 01:51:24,630  
be very lucky that not liquid came on

2508  
01:51:28,850 --> 01:51:26,580  
and actually has access to the

2509  
01:51:30,350 --> 01:51:28,860  
facilities to do these tests and it's

2510  
01:51:33,080 --> 01:51:30,360  
not gonna cost us anything so that's

2511  
01:51:34,430 --> 01:51:33,090  
really cool that's the main thing and

2512  
01:51:36,200 --> 01:51:34,440  
then of course some people are just

2513  
01:51:38,750 --> 01:51:36,210

skeptical that we'll find anything

2514

01:51:41,420 --> 01:51:38,760

because some people don't think anything

2515

01:51:43,340 --> 01:51:41,430

exists out there but you don't know

2516

01:51:45,200 --> 01:51:43,350

unless you try and in terms of the

2517

01:51:46,610 --> 01:51:45,210

amount of money you're spending it's

2518

01:51:48,920 --> 01:51:46,620

jump change I mean if you can get

2519

01:51:51,110 --> 01:51:48,930

somebody like a Donald Trump to yeah

2520

01:51:54,200 --> 01:51:51,120

here's a million dollars once you launch

2521

01:51:56,720 --> 01:51:54,210

a bunch of satellites I mean wow that

2522

01:51:59,960 --> 01:51:56,730

would be crazy but I dude like that he's

2523

01:52:04,859 --> 01:51:59,970

going to want some control exactly yeah

2524

01:52:07,950 --> 01:52:04,869

I mean my thoughts are basically that

2525

01:52:11,490 --> 01:52:07,960

anytime something that humans come

2526  
01:52:13,589 --> 01:52:11,500  
across that is strange or interesting we

2527  
01:52:15,330 --> 01:52:13,599  
study it it's kind of just what we do we

2528  
01:52:17,729 --> 01:52:15,340  
we figure out what's going on and we

2529  
01:52:20,129 --> 01:52:17,739  
study it whether it be a particle

2530  
01:52:22,649 --> 01:52:20,139  
decayed and in a funny manner we want to

2531  
01:52:24,089 --> 01:52:22,659  
know why why did it decay that way why

2532  
01:52:28,379 --> 01:52:24,099  
didn't it fit the models we currently

2533  
01:52:30,419 --> 01:52:28,389  
have etcetera and we spend I mean human

2534  
01:52:35,339 --> 01:52:30,429  
beings spend hundreds of billions of

2535  
01:52:38,359 --> 01:52:35,349  
dollars studying things so what's funny

2536  
01:52:41,010 --> 01:52:38,369  
about the possible extraterrestrial

2537  
01:52:43,260 --> 01:52:41,020  
phenomenon is that you get all these

2538  
01:52:44,700 --> 01:52:43,270

people saying they're witness to

2539

01:52:48,629 --> 01:52:44,710

something strange they're witness to a

2540

01:52:50,310 --> 01:52:48,639

sighting you get pilots he gets get some

2541

01:52:56,490 --> 01:52:50,320

critical credible people like the

2542

01:52:58,859 --> 01:52:56,500

Canadian X Minister of Defense he says

2543

01:53:00,899 --> 01:52:58,869

he has knowledge that you know earth has

2544

01:53:02,250 --> 01:53:00,909

been visited so basically I've got all

2545

01:53:04,530 --> 01:53:02,260

these people who've seen things and

2546

01:53:08,070 --> 01:53:04,540

something weirds happening and yet it

2547

01:53:09,540 --> 01:53:08,080

hasn't been scientifically probed and I

2548

01:53:11,970 --> 01:53:09,550

think that it should be

2549

01:53:15,109 --> 01:53:11,980

now one thing occurred to me just as I

2550

01:53:18,270 --> 01:53:15,119

was thinking here you have this area

2551  
01:53:20,729 --> 01:53:18,280  
west of Vancouver where you're regularly

2552  
01:53:23,030 --> 01:53:20,739  
seeing things ever consider the

2553  
01:53:25,770 --> 01:53:23,040  
possibility of putting a surface based

2554  
01:53:28,410 --> 01:53:25,780  
UFO detection system in that area to see

2555  
01:53:30,660 --> 01:53:28,420  
what would happen I haven't thought of

2556  
01:53:33,629 --> 01:53:30,670  
it but that's probably a really cool

2557  
01:53:36,689 --> 01:53:33,639  
idea it would probably cost a heck of a

2558  
01:53:39,000 --> 01:53:36,699  
lot less than a CubeSat wouldn't it yeah

2559  
01:53:42,300 --> 01:53:39,010  
I think you would and another one that I

2560  
01:53:45,000 --> 01:53:42,310  
recently thought of this came up I came

2561  
01:53:49,560 --> 01:53:45,010  
upon it just based on testing of the

2562  
01:53:52,830 --> 01:53:49,570  
keeps at weather balloons you can launch

2563  
01:53:54,419 --> 01:53:52,840

a weather balloon or get one for like a

2564

01:53:56,760 --> 01:53:54,429

couple hundred bucks like under a

2565

01:53:58,229 --> 01:53:56,770

thousand dollars we could put all the

2566

01:54:00,180 --> 01:53:58,239

same instruments on a weather balloon

2567

01:54:03,899 --> 01:54:00,190

that would do all the same things

2568

01:54:06,870 --> 01:54:03,909

basically and it would be a tiny

2569

01:54:09,030 --> 01:54:06,880

fraction of the cost what would it cost

2570

01:54:12,030 --> 01:54:09,040

for the instrumentation the same as the

2571

01:54:15,240 --> 01:54:12,040

satellite or a lot less a lot less

2572

01:54:17,990 --> 01:54:15,250

because you wouldn't have to harden it

2573

01:54:20,550 --> 01:54:18,000

for space

2574

01:54:22,800 --> 01:54:20,560

you wouldn't have to care so much about

2575

01:54:26,160 --> 01:54:22,810

it being perfect because your launch

2576

01:54:28,290 --> 01:54:26,170

your launch mechanism costs 500 bucks

2577

01:54:30,870 --> 01:54:28,300

whereas with a satellite you want

2578

01:54:33,350 --> 01:54:30,880

everything to be perfect because you're

2579

01:54:37,169 --> 01:54:33,360

spending 17,000 bucks just for the watch

2580

01:54:40,700 --> 01:54:37,179

well let me just be a devil's advocate

2581

01:54:42,840 --> 01:54:40,710

here you have a place there and Chris is

2582

01:54:45,330 --> 01:54:42,850

sympathetic to this because he's in a

2583

01:54:47,100 --> 01:54:45,340

similar situation you have a place that

2584

01:54:52,020 --> 01:54:47,110

appears to be attracting a lot of

2585

01:54:54,629 --> 01:54:52,030

unusual events with a satellite the

2586

01:54:55,950 --> 01:54:54,639

chances of capturing anything aren't

2587

01:54:58,110 --> 01:54:55,960

that high but it's certainly worth the

2588

01:55:01,110 --> 01:54:58,120

effort to try you've gotta try

2589

01:55:04,890 --> 01:55:01,120

especially if UFOs are related to outer

2590

01:55:06,720 --> 01:55:04,900

space but now you have a place here that

2591

01:55:08,580 --> 01:55:06,730

for a small amount of money that maybe

2592

01:55:11,790 --> 01:55:08,590

you can just do it with a credit card or

2593

01:55:13,640 --> 01:55:11,800

something or have each of your partners

2594

01:55:17,340 --> 01:55:13,650

your seven partners say okay we'll go

2595

01:55:20,490 --> 01:55:17,350

get a credit card advance for \$500 each

2596

01:55:22,470 --> 01:55:20,500

and we'll put something together with a

2597

01:55:25,250 --> 01:55:22,480

balloon based system with a surface

2598

01:55:28,860 --> 01:55:25,260

based system hey why aren't you doing it

2599

01:55:32,340 --> 01:55:28,870

that's a good idea I mean I hadn't

2600

01:55:34,320 --> 01:55:32,350

thought of it prior to this one one

2601  
01:55:37,770 --> 01:55:34,330  
reason that kind of drove my interest in

2602  
01:55:40,740 --> 01:55:37,780  
a satellite was that if he came across

2603  
01:55:42,680 --> 01:55:40,750  
something that was in the atmosphere you

2604  
01:55:45,240 --> 01:55:42,690  
would likely like if you're close enough

2605  
01:55:48,320 --> 01:55:45,250  
to get it visually you're also gonna be

2606  
01:55:50,160 --> 01:55:48,330  
close enough to get some electromagnetic

2607  
01:55:53,310 --> 01:55:50,170  
measurements you're also gonna be close

2608  
01:55:56,939 --> 01:55:53,320  
enough to get some possible radiation

2609  
01:55:59,250 --> 01:55:56,949  
measurements so that's why I think it

2610  
01:56:00,899 --> 01:55:59,260  
was a good idea to build a satellite

2611  
01:56:02,189 --> 01:56:00,909  
it's got all the things condensed into

2612  
01:56:05,040 --> 01:56:02,199  
one

2613  
01:56:07,860 --> 01:56:05,050

I think the ground operation is a great

2614

01:56:10,610 --> 01:56:07,870

idea it may be difficult I don't know

2615

01:56:14,280 --> 01:56:10,620

about measuring the electromagnetic

2616

01:56:16,350 --> 01:56:14,290

depending if you get something visual

2617

01:56:18,030 --> 01:56:16,360

I mean if it's an e up if it's in the

2618

01:56:20,280 --> 01:56:18,040

lower atmosphere you're probably not

2619

01:56:22,310 --> 01:56:20,290

going to be able to measure too much in

2620

01:56:24,780 --> 01:56:22,320

terms of electromagnetic soar or

2621

01:56:28,620 --> 01:56:24,790

gravitation it's it's all depends on

2622

01:56:29,950 --> 01:56:28,630

field strength and proximity okay but

2623

01:56:32,530 --> 01:56:29,960

yeah

2624

01:56:35,370 --> 01:56:32,540

I've been doing a you know working for a

2625

01:56:37,630 --> 01:56:35,380

number of years on a triangulated

2626  
01:56:39,880 --> 01:56:37,640  
instrument and array in the San Luis

2627  
01:56:43,300 --> 01:56:39,890  
Valley which is fairly well known for

2628  
01:56:46,750 --> 01:56:43,310  
its its ongoing waves of anomalous

2629  
01:56:49,180 --> 01:56:46,760  
aerial object activity and with with the

2630  
01:56:52,150 --> 01:56:49,190  
proper software for detected motion in

2631  
01:56:53,890 --> 01:56:52,160  
in tracked motion you can send

2632  
01:56:55,680 --> 01:56:53,900  
coordinate data it's all the cameras and

2633  
01:56:59,110 --> 01:56:55,690  
they can swing around and triangulate

2634  
01:57:01,570 --> 01:56:59,120  
when you start triangulating arrays on

you know just optical data for instance

2637  
01:57:13,030 --> 01:57:07,790

Chris you were explaining and we can

2764

02:02:08,050 --> 02:02:06,210

continue now the way you're setting up

2765

02:02:10,790 --> 02:02:08,060

your system go ahead please

2766

02:02:12,830 --> 02:02:10,800

well what we've decided to do because I

2767

02:02:15,680 --> 02:02:12,840

know a satellite I mean that's really

2768

02:02:18,050 --> 02:02:15,690

sexy sounding and there would be a lot

2769

02:02:20,900 --> 02:02:18,060

of interest in in a project like that

2770

02:02:24,380 --> 02:02:20,910

something that I'm doing doesn't have

2771

02:02:27,590 --> 02:02:24,390

quite the the cachet let's say of a

2772

02:02:32,750 --> 02:02:27,600

project like a like CubeSat but I think

2773

02:02:33,860 --> 02:02:32,760

it's important to begin both you know

2774

02:02:38,060 --> 02:02:33,870

it's kind of a double pronged attack

2775

02:02:40,390 --> 02:02:38,070

here identify hotspot areas have you

2776

02:02:44,540 --> 02:02:40,400

know have have in place of fixed

2777

02:02:46,790 --> 02:02:44,550

locations to monitor the you know above

2778

02:02:50,150 --> 02:02:46,800

earth airspace here but combined with a

2779

02:02:52,310 --> 02:02:50,160

system that's also space born wouldn't

2780

02:02:54,230 --> 02:02:52,320

it be neat if you were headed over the

2781

02:02:56,780 --> 02:02:54,240

Rocky Mountains and all of a sudden we

2782

02:02:58,670 --> 02:02:56,790

had an event in southern Colorado and my

2783

02:03:00,440 --> 02:02:58,680

system was operating and your system was

2784

02:03:02,620 --> 02:03:00,450

operating the data that you could you

2785

02:03:08,120 --> 02:03:02,630

could glean from that would be just just

2786

02:03:10,760 --> 02:03:08,130

dazzling but again I think the kind of

2787

02:03:13,190 --> 02:03:10,770

idea you have could be you know the

2788

02:03:15,140 --> 02:03:13,200

space version of what that what I've

2789

02:03:18,170 --> 02:03:15,150

been proposing and what I'm in the midst

2790

02:03:20,900 --> 02:03:18,180

of of setting up right now we actually

2791

02:03:23,000 --> 02:03:20,910

did a beta test a few years ago and and

2792

02:03:25,430 --> 02:03:23,010

we're able to capture some pretty

2793

02:03:27,830 --> 02:03:25,440

interesting anomalies that turned out to

2794

02:03:31,520 --> 02:03:27,840

be mundane but it's good to be able to

2795

02:03:34,660 --> 02:03:31,530

to get a data a bunch of data together

2796

02:03:37,430 --> 02:03:34,670

that then you can use to to you know

2797

02:03:39,920 --> 02:03:37,440

factor out false positives shall we say

2798

02:03:44,030 --> 02:03:39,930

so the you know I think I think both

2799

02:03:45,500 --> 02:03:44,040

approaches you know are important to

2800

02:03:47,840 --> 02:03:45,510

monitor hot spot areas and then to

2801  
02:03:51,560 --> 02:03:47,850  
monitor you know airspace I think once

2802  
02:03:54,320 --> 02:03:51,570  
you get a satellite network up and

2803  
02:03:56,000 --> 02:03:54,330  
possibly even something with more

2804  
02:03:58,220 --> 02:03:56,010  
technology and it they could be placed

2805  
02:03:59,570 --> 02:03:58,230  
higher and still have the capabilities

2806  
02:04:01,970 --> 02:03:59,580  
of a low orbit orbital

2807  
02:04:04,010 --> 02:04:01,980  
a platform then you could you could talk

2808  
02:04:04,400 --> 02:04:04,020  
about geosynchronous orbits that sort of

2809  
02:04:06,740 --> 02:04:04,410  
thing

2810  
02:04:09,020 --> 02:04:06,750  
a question that kind of raised comes up

2811  
02:04:12,170 --> 02:04:09,030  
in my mind is space is filled with a lot

2812  
02:04:13,850 --> 02:04:12,180  
of junk up there and are these orbital

2813  
02:04:17,240 --> 02:04:13,860

paths how are you choosing this

2814

02:04:20,180 --> 02:04:17,250

particular orbital path and do you have

2815

02:04:21,920 --> 02:04:20,190

any sort of I don't know it's awful

2816

02:04:24,140 --> 02:04:21,930

small so I guess colliding with some

2817

02:04:26,210 --> 02:04:24,150

space junk is is probably not too much

2818

02:04:29,120 --> 02:04:26,220

of a concern but is there a way to

2819

02:04:31,490 --> 02:04:29,130

determine an optimal orbital path that

2820

02:04:35,180 --> 02:04:31,500

that keeps you out of harm's way with

2821

02:04:39,500 --> 02:04:35,190

the thousands of bolts and screws and

2822

02:04:41,420 --> 02:04:39,510

stuff traveling it in amazing speeds up

2823

02:04:42,980 --> 02:04:41,430

there is there a way to figure all that

2824

02:04:45,830 --> 02:04:42,990

out in advance is there some sort of

2825

02:04:47,960 --> 02:04:45,840

algorithm I mean I'm sure there is but I

2826  
02:04:49,460 --> 02:04:47,970  
think I mean that's something that any

2827  
02:04:51,890 --> 02:04:49,470  
herb Atal systems will be dealing with

2828  
02:04:54,230 --> 02:04:51,900  
because I'm like they do all the

2829  
02:04:55,610 --> 02:04:54,240  
launches and I'm sure they've kind of

2830  
02:04:58,010 --> 02:04:55,620  
figured that stuff out I've never heard

2831  
02:05:00,200 --> 02:04:58,020  
of any of their satellites being damaged

2832  
02:05:02,540 --> 02:05:00,210  
by space junk I think I think there's

2833  
02:05:04,730 --> 02:05:02,550  
only been a few events where some space

2834  
02:05:06,830 --> 02:05:04,740  
junk um like we're actually wrecked a

2835  
02:05:08,750 --> 02:05:06,840  
satellite right for the most part I

2836  
02:05:11,120 --> 02:05:08,760  
don't think we're high enough up to

2837  
02:05:13,400 --> 02:05:11,130  
worry so much yeah because you are in

2838  
02:05:16,220 --> 02:05:13,410

low low you said let 300 300 kilometers

2839

02:05:17,930 --> 02:05:16,230

up or yeah yeah about 310 kilometers so

2840

02:05:20,300 --> 02:05:17,940

we're like we're much lower than the

2841

02:05:22,730 --> 02:05:20,310

space station and we're not as high as a

2842

02:05:24,590 --> 02:05:22,740

lot of telecommunication satellites that

2843

02:05:27,320 --> 02:05:24,600

are up there but most of the space junk

2844

02:05:30,140 --> 02:05:27,330

to your Weibull yeah you know apparently

2845

02:05:33,230 --> 02:05:30,150

a lot of the space junk I was reading

2846

02:05:33,740 --> 02:05:33,240

about was created when I think it was

2847

02:05:36,530 --> 02:05:33,750

China

2848

02:05:38,360 --> 02:05:36,540

they sent a an anti-satellite missiles

2849

02:05:39,380 --> 02:05:38,370

to the test

2850

02:05:42,440 --> 02:05:39,390

they destroyed one of their own

2851  
02:05:44,000 --> 02:05:42,450  
satellites but it created thousands and

2852  
02:05:46,760 --> 02:05:44,010  
thousands of little bits of junk that's

2853  
02:05:50,480 --> 02:05:46,770  
up there now so that's the Chinese fault

2854  
02:05:52,790 --> 02:05:50,490  
they did it all it was a test and I mean

2855  
02:05:55,220 --> 02:05:52,800  
I'm sure a lot of countries have screwed

2856  
02:05:57,410 --> 02:05:55,230  
things up with tests but but yeah it's

2857  
02:05:59,210 --> 02:05:57,420  
kind of terrible yeah well there's

2858  
02:06:00,980 --> 02:05:59,220  
there's talk of a robotic satellite

2859  
02:06:03,350 --> 02:06:00,990  
system that'll be sent up like like a

2860  
02:06:05,750 --> 02:06:03,360  
large of the garbage collector that's

2861  
02:06:07,700 --> 02:06:05,760  
going to be going on collecting they'll

2862  
02:06:11,140 --> 02:06:07,710  
be you know they'll have maneuverable

2863  
02:06:14,440 --> 02:06:11,150

capabilities so it they're gonna be

2864

02:06:16,810 --> 02:06:14,450

enough space junk the movie gravity

2865

02:06:19,390 --> 02:06:16,820

that was quite terrifying and that sort

2866

02:06:22,120 --> 02:06:19,400

of had to do with space junk yeah it did

2867

02:06:23,830 --> 02:06:22,130

how about micrometeorites things like

2868

02:06:26,380 --> 02:06:23,840

that I mean are you going going to be

2869

02:06:28,150 --> 02:06:26,390

able to withstand a you know dust

2870

02:06:30,910 --> 02:06:28,160

particles traveling it

2871

02:06:33,460 --> 02:06:30,920

what is it 60,000 miles an hour or

2872

02:06:37,150 --> 02:06:33,470

something we can hope we definitely hope

2873

02:06:39,150 --> 02:06:37,160

I mean yeah you're right let's say we

2874

02:06:42,520 --> 02:06:39,160

were hit by a meteorite that would be

2875

02:06:47,710 --> 02:06:42,530

almost as amazing as catching an anomaly

2876  
02:06:50,200 --> 02:06:47,720  
the odds against that are pretty much in

2877  
02:06:52,890 --> 02:06:50,210  
your favor yeah I have to say I

2878  
02:06:56,140 --> 02:06:52,900  
definitely agree that putting together

2879  
02:06:58,600 --> 02:06:56,150  
like the CubeSat or any space space

2880  
02:07:01,390 --> 02:06:58,610  
observations along with ground

2881  
02:07:03,310 --> 02:07:01,400  
observations I hadn't actually thought

2882  
02:07:05,740 --> 02:07:03,320  
of teaming up that way because I was

2883  
02:07:05,920 --> 02:07:05,750  
thinking well what we'd rely on is you

2884  
02:07:08,860 --> 02:07:05,930  
know

2885  
02:07:11,500 --> 02:07:08,870  
MUFON reports so say we do capture

2886  
02:07:13,330 --> 02:07:11,510  
something and then we've got some visual

2887  
02:07:15,400 --> 02:07:13,340  
then we've got some electromagnetic and

2888  
02:07:17,440 --> 02:07:15,410

whatever else but then we go to the

2889

02:07:19,240 --> 02:07:17,450

sighting reports and see if there was

2890

02:07:22,120 --> 02:07:19,250

anything happening in that same area

2891

02:07:25,420 --> 02:07:22,130

that same day but also yes ground-based

2892

02:07:27,760 --> 02:07:25,430

data that could correlate with it I

2893

02:07:30,310 --> 02:07:27,770

think would mean then that would be oh

2894

02:07:32,950 --> 02:07:30,320

man I need a hankie just thinking about

2895

02:07:35,800 --> 02:07:32,960

that oh we were getting kind of grisly

2896

02:07:37,780 --> 02:07:35,810

here folks this is Family Radio well I

2897

02:07:40,360 --> 02:07:37,790

get to blow my nose because I'd be so

2898

02:07:44,440 --> 02:07:40,370

excited if we could do a first project

2899

02:07:46,360 --> 02:07:44,450

that was successful and show people that

2900

02:07:49,120 --> 02:07:46,370

you know for not so much money you could

2901  
02:07:50,470 --> 02:07:49,130  
put these things up be the ground

2902  
02:07:52,690 --> 02:07:50,480  
station a CubeSat

2903  
02:07:55,450 --> 02:07:52,700  
weather balloon whatever but if more

2904  
02:07:57,190 --> 02:07:55,460  
people interested in the topic would

2905  
02:08:00,400 --> 02:07:57,200  
start doing and we could do it globally

2906  
02:08:04,090 --> 02:08:00,410  
I mean our coverage would increase a

2907  
02:08:07,390 --> 02:08:04,100  
thousandfold yeah yeah I'll say yes if

2908  
02:08:10,180 --> 02:08:07,400  
quick question here - alright so say you

2909  
02:08:12,910 --> 02:08:10,190  
want to adapt your CubeSat project to a

2910  
02:08:15,400 --> 02:08:12,920  
surface system a balloon based system

2911  
02:08:18,220 --> 02:08:15,410  
all right how long do you think it would

2912  
02:08:19,930 --> 02:08:18,230  
take you to do that and would it cause

2913  
02:08:22,720 --> 02:08:19,940

you to sacrifice the work you're doing

2914

02:08:25,129 --> 02:08:22,730

on the satellite I don't think so I

2915

02:08:27,979 --> 02:08:25,139

haven't done any research on the blue

2916

02:08:30,560 --> 02:08:27,989

that recently got into my brain just

2917

02:08:31,609 --> 02:08:30,570

talking of testing and then realizing oh

2918

02:08:34,459 --> 02:08:31,619

my goodness there

2919

02:08:37,070 --> 02:08:34,469

these balloons exist I don't even know

2920

02:08:39,020 --> 02:08:37,080

what the rules are around launching them

2921

02:08:41,720 --> 02:08:39,030

there's probably some kind of rules in

2922

02:08:44,660 --> 02:08:41,730

terms of where you launch at how long

2923

02:08:46,729 --> 02:08:44,670

it's allowed to be out excetera just

2924

02:08:50,000 --> 02:08:46,739

make sure it doesn't it doesn't crash at

2925

02:08:52,340 --> 02:08:50,010

Roswell yeah exactly and I have an idea

2926

02:08:54,229 --> 02:08:52,350

for you for funding yeah since you since

2927

02:08:56,600 --> 02:08:54,239

you're gonna have a live feed on the

2928

02:08:57,830 --> 02:08:56,610

internet why not sell advertising to

2929

02:09:01,100 --> 02:08:57,840

have a logo in the lower right hand

2930

02:09:04,070 --> 02:09:01,110

corner for Dow Chemical or Monsanto or

2931

02:09:05,660 --> 02:09:04,080

you know some big pocket corporation and

2932

02:09:08,780 --> 02:09:05,670

just say hey you know how would you like

2933

02:09:11,090 --> 02:09:08,790

to have your logo on the only spaceborne

2934

02:09:13,070 --> 02:09:11,100

UFO detection system on the on the on

2935

02:09:15,500 --> 02:09:13,080

the feed yeah that's probably a great

2936

02:09:18,560 --> 02:09:15,510

idea I mean no it is a great idea you're

2937

02:09:20,419 --> 02:09:18,570

welcome thank you Chris a check for this

2938

02:09:24,740 --> 02:09:20,429

you could use to pay for the sandwich

2939

02:09:26,780 --> 02:09:24,750

for the idea the other idea might be

2940

02:09:29,120 --> 02:09:26,790

here you said this will be open source

2941

02:09:31,340 --> 02:09:29,130

which means that anybody could get the

2942

02:09:33,439 --> 02:09:31,350

software yeah that's they can download

2943

02:09:36,770 --> 02:09:33,449

the software and anything but what about

2944

02:09:38,479 --> 02:09:36,780

assembling construction kits developing

2945

02:09:40,640 --> 02:09:38,489

a construction kit where anybody who

2946

02:09:42,800 --> 02:09:40,650

wanted to build a similar system could

2947

02:09:44,810 --> 02:09:42,810

go ahead and do it this way you can

2948

02:09:46,939 --> 02:09:44,820

expand your coverage and you're doing it

2949

02:09:48,310 --> 02:09:46,949

in a way that you're not merchandising

2950

02:09:50,600 --> 02:09:48,320

although I guess you could sell

2951  
02:09:52,850 --> 02:09:50,610  
ready-made kits which would be one way

2952  
02:09:54,169 --> 02:09:52,860  
to merchandise it but setting up a

2953  
02:09:55,879 --> 02:09:54,179  
system here will you provide

2954  
02:09:58,070 --> 02:09:55,889  
instructions it's the equipment we need

2955  
02:10:01,189 --> 02:09:58,080  
for the cameras is what we need for this

2956  
02:10:03,910 --> 02:10:01,199  
here is a software kind of almost like a

2957  
02:10:06,740 --> 02:10:03,920  
turnkey system that people could build

2958  
02:10:08,180 --> 02:10:06,750  
without too much trouble and then if

2959  
02:10:10,879 --> 02:10:08,190  
that works then you can actually start

2960  
02:10:13,459 --> 02:10:10,889  
assembling them and selling them and use

2961  
02:10:14,720 --> 02:10:13,469  
that to finance further projects you

2962  
02:10:16,729 --> 02:10:14,730  
know I'm developing a whole marketing

2963  
02:10:18,250 --> 02:10:16,739

plan for you here and I know nothing

2964

02:10:21,260 --> 02:10:18,260

about marketing as most people know

2965

02:10:28,979 --> 02:10:21,270

David is joining us with Jean and Chris

2966

02:10:37,979 --> 02:10:32,879

thank you for listening to GCN

2967

02:10:39,359 --> 02:10:37,989

be sure to visit GCN live.com today this

2968

02:10:41,639 --> 02:10:39,369

is dan pillla do you owe the IRS money

2969

02:10:43,469 --> 02:10:41,649

you can't pay our tax debts crippling

2970

02:10:45,839 --> 02:10:43,479

you I've defended people from the IRS

2971

02:10:47,759 --> 02:10:45,849

for over 30 years I've helped thousands

2972

02:10:49,319 --> 02:10:47,769

and I can help you too I wrote the book

2973

02:10:51,179 --> 02:10:49,329

on IRS settlement and I'm telling you

2974

02:10:54,810 --> 02:10:51,189

there's no such thing as a hopeless case

2975

02:10:56,909 --> 02:10:54,820

call 834 no tax to finally get free of

2976

02:10:58,290 --> 02:10:56,919

IRS debt with the IRS as new programs

2977

02:10:59,310 --> 02:10:58,300

there's never been a better time to

2978

02:11:03,689 --> 02:10:59,320

solve your problem

2979

02:11:07,529 --> 02:11:03,699

Footwear our company is working together

for babies to raise money and awareness

3061  
02:14:19,900 --> 02:14:17,420  
about the serious problem of premature

3062  
02:14:21,910 --> 02:14:19,910  
birth in the US as a business leader I

3063  
02:14:24,010 --> 02:14:21,920

know that babies born very sick or too

3064

02:14:25,630 --> 02:14:24,020

soon cost businesses billions of dollars

3065

02:14:27,459 --> 02:14:25,640

each year in addition to the emotional

3066

02:14:29,229 --> 02:14:27,469

stress on employees and their families

3067

02:14:30,760 --> 02:14:29,239

that's why Famous Footwear is committed

3068

02:14:33,010 --> 02:14:30,770

to raising funds to improve the health

3069

02:14:34,660 --> 02:14:33,020

start a team today at March for Babies

3072

02:14:49,090 --> 02:14:46,699

org hi the thing to the parrot cause I'm

3073

02:14:52,600 --> 02:14:49,100

kinda serious here Dave Cote what do you

3074

02:14:54,040 --> 02:14:52,610

think Chris hey you know more heads are

3075

02:14:55,540 --> 02:14:54,050

better than one we've come up with two

3076

02:14:57,910 --> 02:14:55,550

great ideas that could generate some

3077

02:15:00,450 --> 02:14:57,920

additional interest and also generate

3078

02:15:03,040 --> 02:15:00,460

you know those those very important

3079

02:15:06,220 --> 02:15:03,050

hundred dollars a day to pay for your

3080

02:15:08,830 --> 02:15:06,230

for your actual pier actual downlink

3081

02:15:11,740 --> 02:15:08,840

I mean I'll comment to all that all

3082

02:15:14,320 --> 02:15:11,750

those questions and ideas I think the

3083

02:15:16,150 --> 02:15:14,330

the idea of the you know having like

3084

02:15:19,270 --> 02:15:16,160

advertising banners on the site is a

3085

02:15:20,860 --> 02:15:19,280

great one I don't know what our you know

3086

02:15:22,950 --> 02:15:20,870

our monthly hits are going to be like

3087

02:15:26,620 --> 02:15:22,960

I'd like to think it'd be really high

3088

02:15:29,110 --> 02:15:26,630

being the first CubeSat launched by

3089

02:15:32,110 --> 02:15:29,120

citizens for this purpose so yeah we'll

3090

02:15:33,700 --> 02:15:32,120

definitely try that and the s4 the

3091

02:15:36,280 --> 02:15:33,710

software and open sourcing I'm

3092

02:15:38,560 --> 02:15:36,290

definitely gonna you know open source

3093

02:15:40,540 --> 02:15:38,570

give it to anyone who's interested it's

3094

02:15:43,390 --> 02:15:40,550

basically just I'm writing it in Python

3095

02:15:44,830 --> 02:15:43,400

and everything I'm using to write it is

3096

02:15:48,189 --> 02:15:44,840

also open source I'm just kind of

3097

02:15:50,439 --> 02:15:48,199

putting the pieces together I'm very

3098

02:15:54,430 --> 02:15:50,449

open to sharing it as I perfected it

3099

02:15:57,550 --> 02:15:54,440

this is Linux or what yeah well I'm

3100

02:15:59,500 --> 02:15:57,560

doing it on Linux on Ubuntu but you can

3101

02:16:02,700 --> 02:15:59,510

get Python on Windows you can get python

3102

02:16:05,320 --> 02:16:02,710

on Mac it's kind of the most common

3103

02:16:07,870 --> 02:16:05,330

software language that's out there like

3104

02:16:10,390 --> 02:16:07,880

most web servers that run your websites

3105

02:16:13,600 --> 02:16:10,400

a large percent of them are run they run

3106

02:16:16,450 --> 02:16:13,610

Ubuntu the server version of Ubuntu

3107

02:16:17,189 --> 02:16:16,460

Ubuntu comes with Python so it's built

3108

02:16:20,160 --> 02:16:17,199

right into

3109

02:16:22,080 --> 02:16:20,170

now the servers that I've run our cent

3110

02:16:24,689 --> 02:16:22,090

OS which is like the open-source version

3111

02:16:26,820 --> 02:16:24,699

of Red Hat that's very similar Python

3112

02:16:29,760 --> 02:16:26,830

will run on that as well okay but I'm

3113

02:16:32,640 --> 02:16:29,770

thinking here is obviously Windows is a

3114

02:16:34,799 --> 02:16:32,650

more complicated beast in terms of

3115

02:16:37,890 --> 02:16:34,809

taking something from Linux but porting

3116

02:16:39,780 --> 02:16:37,900

something from Linux to a Mac because of

3117

02:16:41,910 --> 02:16:39,790

the family resemblance of both Unix

3118

02:16:44,700 --> 02:16:41,920

ought to be a piece of cake don't you

3119

02:16:46,290 --> 02:16:44,710

think it's pretty easy yeah so

3120

02:16:48,870 --> 02:16:46,300

encouraging you here to build a Mac

3121

02:16:51,719 --> 02:16:48,880

version is what I'm doing oh well yeah

3122

02:16:53,480 --> 02:16:51,729

Python runs on Mac very easily basically

3123

02:16:56,640 --> 02:16:53,490

you just you make sure you having a an

3124

02:16:57,839 --> 02:16:56,650

interpreter Python interpreter just make

3125

02:16:59,790 --> 02:16:57,849

sure you have all the drivers that will

3126

02:17:01,980 --> 02:16:59,800

run Python and then the software will

3127

02:17:04,620 --> 02:17:01,990

run on it the way I'm running it now I'm

3128

02:17:07,230 --> 02:17:04,630

running it on a live interpreter so I

3129

02:17:10,049 --> 02:17:07,240

open the Python interpreter and then

3130

02:17:12,419 --> 02:17:10,059

I'll just I run the code I can also run

3131

02:17:15,929 --> 02:17:12,429

it from a script I can also make it

3132

02:17:18,270 --> 02:17:15,939

executable but it's pretty simple in

3133

02:17:20,580 --> 02:17:18,280

terms of a language that people can

3134

02:17:22,860 --> 02:17:20,590

understand I think most computer

3135

02:17:25,410 --> 02:17:22,870

programmers dabble in Python so I think

3136

02:17:28,500 --> 02:17:25,420

it's a good choice and then finally to

3137

02:17:30,750 --> 02:17:28,510

comment on the little kits like if we

3138

02:17:33,690 --> 02:17:30,760

were to give kits or open source how to

3139

02:17:36,089 --> 02:17:33,700

build that's going to be up to Matt

3140

02:17:38,490 --> 02:17:36,099

Lippert and liquid technologies which

3141

02:17:41,400 --> 02:17:38,500

will be the company to be starting I

3142

02:17:43,560 --> 02:17:41,410

know that I signed an NDA a

3143

02:17:47,009 --> 02:17:43,570

nondisclosure agreement to look at all

3144

02:17:49,740 --> 02:17:47,019

his parts and jassi's and he uses three

3145

02:17:53,219 --> 02:17:49,750

3d printers to you know put the frame

3146

02:17:54,600 --> 02:17:53,229

that kind of thing I don't know how open

3147

02:17:57,360 --> 02:17:54,610

he wants to be because he's actually

3148

02:18:00,929 --> 02:17:57,370

gonna be starting a CubeSat company he's

3149

02:18:03,179 --> 02:18:00,939

gonna be building kits for universities

3150

02:18:04,650 --> 02:18:03,189

which is going to be cool I know he's

3151

02:18:06,419 --> 02:18:04,660

very excited about dad he's gonna be

3152

02:18:08,790 --> 02:18:06,429

sending kids at the university

3153

02:18:10,950 --> 02:18:08,800

encouraging them to start teaching a

3154

02:18:14,549 --> 02:18:10,960

course on on cube SATs that kind of

3155

02:18:17,009 --> 02:18:14,559

thing I will definitely put out there as

3156

02:18:19,620 --> 02:18:17,019

much as I can in terms of how to build

3157

02:18:21,990 --> 02:18:19,630

your own CubeSat okay well not just

3158

02:18:25,320 --> 02:18:22,000

thinking of CubeSat I'm thinking of

3159

02:18:27,660 --> 02:18:25,330

detection systems for surface placement

3160

02:18:30,780 --> 02:18:27,670

and for building placement that at least

3161

02:18:32,540 --> 02:18:30,790

may not infringe on whatever he wants to

3162

02:18:36,480 --> 02:18:32,550

if he wants to keep that proprietary

3163

02:18:41,009 --> 02:18:36,490

that's fine but you could still adapt it

3164

02:18:41,730 --> 02:18:41,019

to surface and balloon use that's a

3165

02:18:44,370 --> 02:18:41,740

great idea

3166

02:18:46,379 --> 02:18:44,380

yeah I'd say we should do that you know

3167

02:18:48,330 --> 02:18:46,389

Chris we ought to get something started

3168

02:18:49,679 --> 02:18:48,340

here I think well I'm definitely gonna

3169

02:18:51,809 --> 02:18:49,689

be getting your contact information

3170

02:18:54,169 --> 02:18:51,819

after we're done taping here because boy

3171

02:18:56,099 --> 02:18:54,179

I'll tell you we have a team of postdoc

3172

02:18:57,450 --> 02:18:56,109

students in Italy that have been

3173

02:18:59,639 --> 02:18:57,460

scratching their heads they've come up

3174

02:19:02,849 --> 02:18:59,649

with with good software for nighttime

3175

02:19:05,070 --> 02:19:02,859

use but the real the real obviously the

3176

02:19:07,500 --> 02:19:05,080

best data is going to be gathered during

3177

02:19:09,809 --> 02:19:07,510

the daylight hours and and we're having

3178

02:19:11,879 --> 02:19:09,819

problem with ground clutter and other

3179

02:19:13,980 --> 02:19:11,889

things and Doug was troubled who of

3180

02:19:15,330 --> 02:19:13,990

course is the special effects with that

3181

02:19:17,910 --> 02:19:15,340

did the special effects for Close

3182

02:19:20,219 --> 02:19:17,920

Encounters and 2001 Bladerunner blah

3183

02:19:22,860 --> 02:19:20,229

blah blah I had the pleasure and honor

3184

02:19:24,570 --> 02:19:22,870

of meeting him some weeks ago at the

3185

02:19:26,400 --> 02:19:24,580

International UFO Congress and I made

3186

02:19:27,450 --> 02:19:26,410

the comment boy I sure wish we could get

3187

02:19:29,400 --> 02:19:27,460

a hold of some of that military

3188

02:19:34,740 --> 02:19:29,410

targeting software and he goes oh it's

3189

02:19:36,419 --> 02:19:34,750

not as hard as you think yeah he said

3190

02:19:38,459 --> 02:19:36,429

well there's a will there's way you know

3191

02:19:40,320 --> 02:19:38,469

so with a twinkle in his eye kind of

3192

02:19:42,330 --> 02:19:40,330

little wink wink you know so I'm not I'm

3193

02:19:45,240 --> 02:19:42,340

not exactly sure what that meant but I

3194

02:19:48,089 --> 02:19:45,250

believe me I'm going to find out just

3195

02:19:50,670 --> 02:19:48,099

parenthetically here your colleague Dave

3196

02:19:53,219 --> 02:19:50,680

shot wrote me and said that he came very

3197

02:19:57,410 --> 02:19:53,229

close to meeting me or Chris at the

3198

02:20:01,710 --> 02:19:57,420

International UFO Congress but evidently

3199

02:20:03,650 --> 02:20:01,720

Alejandro Rojas was busy talking to

3200

02:20:06,000 --> 02:20:03,660

somebody else and it didn't work out

3201  
02:20:08,250 --> 02:20:06,010  
that's too bad yeah he was down there

3202  
02:20:10,429 --> 02:20:08,260  
for I think a full day and he had a

3203  
02:20:12,690 --> 02:20:10,439  
blast I wish I could have been there

3204  
02:20:15,630 --> 02:20:12,700  
young I'm really looking forward to this

3205  
02:20:18,059 --> 02:20:15,640  
because boy if we could get get the bugs

3206  
02:20:21,000 --> 02:20:18,069  
worked out of our system

3207  
02:20:22,710 --> 02:20:21,010  
that would enable us to to go full speed

3208  
02:20:25,080 --> 02:20:22,720  
ahead right now that's so that's the one

3209  
02:20:28,050 --> 02:20:25,090  
thing that's hanging us up the area in

3210  
02:20:29,910 --> 02:20:28,060  
Colorado where this array will be placed

3211  
02:20:32,639 --> 02:20:29,920  
as in south central Colorado above the

3212  
02:20:34,139 --> 02:20:32,649  
border of New Mexico it's a known UFO

3213  
02:20:37,410 --> 02:20:34,149

hotspot there's been thousands of

3214

02:20:39,960 --> 02:20:37,420

sightings there everything employing in

3215

02:20:42,059 --> 02:20:39,970

waves and one of the things again that

3216

02:20:43,150 --> 02:20:42,069

we really want is obviously the detect

3217

02:20:46,301 --> 02:20:43,160

motion and

3218

02:20:49,031 --> 02:20:46,311

and coordinate triangulation with motion

3219

02:20:51,430 --> 02:20:49,041

tracking so once we get past that hurdle

3220

02:20:53,770 --> 02:20:51,440

we're gonna be raring to go

3221

02:20:57,730 --> 02:20:53,780

and we're also going to be providing

3222

02:21:00,100 --> 02:20:57,740

kits for others to set up systems and

3223

02:21:02,081 --> 02:21:00,110

other hotspot areas the other problem

3224

02:21:04,451 --> 02:21:02,091

that we were having is bandwidth and

3225

02:21:07,060 --> 02:21:04,461

because it is such a remote rural area

3226

02:21:09,821 --> 02:21:07,070

it's taken quite a while for the area to

3227

02:21:12,371 --> 02:21:09,831

catch up to the state of Technology now

3228

02:21:13,871 --> 02:21:12,381

but now we're in a situation where that

3229

02:21:18,371 --> 02:21:13,881

problem has been solved by the

3230

02:21:21,371 --> 02:21:18,381

inexorable spread of T two lines and and

3231

02:21:23,201 --> 02:21:21,381

you know high bandwidth scenarios so

3232

02:21:25,270 --> 02:21:23,211

that is no longer a problem

3233

02:21:27,001 --> 02:21:25,280

the only thing really the only sticky

3234

02:21:29,531 --> 02:21:27,011

wicket right now is like I said that

3235

02:21:32,230 --> 02:21:29,541

that motion tracking software so any

3236

02:21:36,911 --> 02:21:32,240

help that you could provide our team any

3237

02:21:37,831 --> 02:21:36,921

sort of ideas or you know obviously

3238

02:21:41,470 --> 02:21:37,841

we're gonna be dealing with different

3239

02:21:43,180 --> 02:21:41,480

different problems one one being

3240

02:21:46,060 --> 02:21:43,190

spaceborne one being you know ground

3241

02:21:48,011 --> 02:21:46,070

ground located so but I'm sure you know

3242

02:21:51,400 --> 02:21:48,021

brilliant minds working together have a

3243

02:21:53,591 --> 02:21:51,410

habit of being able to you know you know

3244

02:21:55,720 --> 02:21:53,601

conquer obstacles I think for lack of a

3245

02:21:59,350 --> 02:21:55,730

better term so yeah I'm really excited

3246

02:22:02,230 --> 02:21:59,360

to speak further with you about this and

3247

02:22:05,980 --> 02:22:02,240

and I do urge you to come up with

3248

02:22:09,100 --> 02:22:05,990

creative ways of funding the project so

3249

02:22:12,161 --> 02:22:09,110

that you can start putting up other

3250

02:22:14,650 --> 02:22:12,171

birds and and expanding the network and

3251

02:22:16,600 --> 02:22:14,660

and I think this is very exciting

3252

02:22:19,541 --> 02:22:16,610

like you mentioned at the top of the

3253

02:22:23,381 --> 02:22:19,551

show when I costed out a three camera

3254

02:22:25,150 --> 02:22:23,391

system back in 94 and five it would have

3255

02:22:27,091 --> 02:22:25,160

been a million a million dollars to do

3256

02:22:32,201 --> 02:22:27,101

what we can now do today for about

3257

02:22:35,261 --> 02:22:32,211

20,000 Wow yeah well it's I love it you

3258

02:22:37,121 --> 02:22:35,271

know it's it's it's a 20-plus year

3259

02:22:40,121 --> 02:22:37,131

vision that we're almost at the point of

3260

02:22:45,041 --> 02:22:40,131

actualizing then and i think the idea of

3261

02:22:47,411 --> 02:22:45,051

having some advertising on the site you

3262

02:22:48,850 --> 02:22:47,421

know you could approach the the

3263

02:22:51,310 --> 02:22:48,860

companies that are supplying your optics

3264

02:22:53,770 --> 02:22:51,320

companies that are supplying you know

3265

02:22:54,400 --> 02:22:53,780

the constituent parts basically and then

3266

02:23:03,220 --> 02:22:54,410

and

3267

02:23:06,490 --> 02:23:03,230

there's all sorts of marketing potential

3268

02:23:09,640 --> 02:23:06,500

for companies out there to have such a

3269

02:23:11,830 --> 02:23:09,650

high visibility project you know as an

3270

02:23:13,841 --> 02:23:11,840

advertising a marketing vehicle and and

3271

02:23:17,410 --> 02:23:13,851

you know we live in a capitalist system

3272

02:23:18,850 --> 02:23:17,420

so why not take advantage of it one

3273

02:23:21,520 --> 02:23:18,860

thing I want to say though Chris before

3274

02:23:23,530 --> 02:23:21,530

we go on getting move on to contribute

3275

02:23:26,850 --> 02:23:23,540

anything other than maybe some coverage

3276

02:23:29,710 --> 02:23:26,860

to the event is easier said than done

3277

02:23:32,770 --> 02:23:29,720

that's true they don't normally do

3278

02:23:36,761 --> 02:23:32,780

things like that they they had

3279

02:23:40,120 --> 02:23:36,771

considered possibly putting a like a

3280

02:23:43,420 --> 02:23:40,130

little bit of a donate thing in regards

3281

02:23:45,730 --> 02:23:43,430

to our project but I think their budget

3282

02:23:48,341 --> 02:23:45,740

is kind of and I don't think they have a

3283

02:23:50,140 --> 02:23:48,351

lot of money I think they're they rely

3284

02:23:53,530 --> 02:23:50,150

on you know raising funds through their

3285

02:23:55,511 --> 02:23:53,540

own site for themselves so that's that's

3286

02:23:57,160 --> 02:23:55,521

probably why but yeah I think for

3287

02:23:59,020 --> 02:23:57,170

coverage they could be really good like

3288

02:24:00,881 --> 02:23:59,030

getting the word out I mean their

3289

02:24:04,000 --> 02:24:00,891

newsletter that goes out to all the

3290

02:24:07,210 --> 02:24:04,010

subscribers including dan Aykroyd I

3291

02:24:09,341 --> 02:24:07,220

think that's great if you can get dan

3292

02:24:11,440 --> 02:24:09,351

Aykroyd to participate that'd be grave

3293

02:24:13,841 --> 02:24:11,450

to try to reach out to him I'll ask you

3294

02:24:15,910 --> 02:24:13,851

that question and we'll have your answer

3295

02:24:18,430 --> 02:24:15,920

on the other side we've got one more

3296

02:24:21,670 --> 02:24:18,440

3401

02:29:06,941 --> 02:29:04,190

listening to the podcast so Dave Cote

3402

02:29:09,011 --> 02:29:06,951

with regard to cube cent and we know dan

3403

02:29:11,711 --> 02:29:09,021

Aykroyd is a paying member lifetime

3404

02:29:13,841 --> 02:29:11,721

member of MUFON he's got plenty of money

3405

02:29:16,421 --> 02:29:13,851

have you tried to reach out to him

3406

02:29:19,541 --> 02:29:16,431

directly to see if he'd be willing to

3407

02:29:23,161 --> 02:29:19,551

provide some assistance I have it's very

3408

02:29:25,600 --> 02:29:23,171

hard to get a hold of celebrities now

3409

02:29:28,180 --> 02:29:25,610

it's not that they're not interested

3410

02:29:31,060 --> 02:29:28,190

it's that too many people try to contact

3411

02:29:32,850 --> 02:29:31,070

them and working in film I had to kind

3412

02:29:35,890 --> 02:29:32,860

of learn how to get a hold of people and

3413

02:29:38,501 --> 02:29:35,900

sometimes you'll go through an agent or

3414

02:29:39,911 --> 02:29:38,511

like a large actor and you'll have to

3415

02:29:41,831 --> 02:29:39,921

pay a fee just to get a meeting with

3416

02:29:43,781 --> 02:29:41,841

them or you'll have to have a guaranteed

3417

02:29:46,991 --> 02:29:43,791

amount if you're gonna book them for a

3418

02:29:49,301 --> 02:29:47,001

role so I think they like they weed out

3419

02:29:50,801 --> 02:29:49,311

the people that want to swarm them the

3420

02:29:54,731 --> 02:29:50,811

paparazzi that kind of thing

3421

02:29:56,531 --> 02:29:54,741

what I did is I found an email for Dan

3422

02:29:58,781 --> 02:29:56,541

Aykroyd has a line company that he

3423

02:30:01,121 --> 02:29:58,791

started and I sent an email through the

3424

02:30:03,881 --> 02:30:01,131

line company website hoping that it

3425

02:30:06,341 --> 02:30:03,891

could get to him I also tried Twitter

3426

02:30:08,621 --> 02:30:06,351

I've tried various people through

3427

02:30:11,140 --> 02:30:08,631

Twitter but I haven't had too much of a

3428

02:30:13,270 --> 02:30:11,150

response with that so I'm sure they get

3429

02:30:17,470 --> 02:30:13,280

thousands of tweets from people every

3430

02:30:20,350 --> 02:30:17,480

day and yeah it's difficult well crystal

3431

02:30:23,321 --> 02:30:20,360

had vodka yeah yeah exactly

3432

02:30:26,171 --> 02:30:23,331

yeah he spoke down in Phoenix about

3433

02:30:28,720 --> 02:30:26,181

three or four years ago at a book

3434

02:30:30,610 --> 02:30:28,730

signing he does pop up from time to time

3435

02:30:32,440 --> 02:30:30,620

here and there

3436

02:30:34,630 --> 02:30:32,450

but the guys you know obviously got deep

3437

02:30:37,120 --> 02:30:34,640

pockets I mean just just as syndicated

3438

02:30:39,341 --> 02:30:37,130

I-word Elwood's Bluesmobile I mean God

3439

02:30:41,591 --> 02:30:39,351

he must have a steady source of weekly

3440

02:30:43,810 --> 02:30:41,601

income just from that from Red Wing

3441

02:30:46,091 --> 02:30:43,820

boots and some of the advertisers that

3442

02:30:48,370 --> 02:30:46,101

are real faithful on that program so I

3443

02:30:49,570 --> 02:30:48,380

mean if there's Willers way the best way

3444

02:30:51,310 --> 02:30:49,580

to get to these people is to find

3445

02:30:54,100 --> 02:30:51,320

somebody that's close to them who would

3446

02:30:56,410 --> 02:30:54,110

be easier to to approach and get to them

3447

02:30:57,580 --> 02:30:56,420

and to interest in accurate and

3448

02:31:00,040 --> 02:30:57,590

something like this I think is a

3449

02:31:03,070 --> 02:31:00,050

no-brainer I think if you put out some

3450

02:31:06,040 --> 02:31:03,080

sort of message through Jan Harrison at

3451  
02:31:08,410 --> 02:31:06,050  
MUFON or you know to take a side channel

3452  
02:31:10,450 --> 02:31:08,420  
back channel to get to and I I think you

3453  
02:31:14,200 --> 02:31:10,460  
I wouldn't be surprised if he would be

3454  
02:31:17,261 --> 02:31:14,210  
very very supportive yeah and I'm hoping

3455  
02:31:20,591 --> 02:31:17,271  
so I mean so yes we we've talked to Jan

3456  
02:31:23,950 --> 02:31:20,601  
and move on he was supportive of our

3457  
02:31:26,080 --> 02:31:23,960  
projects and it has helped to include us

3458  
02:31:28,540 --> 02:31:26,090  
in an article on their site through that

3459  
02:31:30,551 --> 02:31:28,550  
channel a newsletter should be going out

3460  
02:31:32,440 --> 02:31:30,561  
within the next month it's their monthly

3461  
02:31:34,930 --> 02:31:32,450  
like it's a monthly newsletter that

3462  
02:31:37,240 --> 02:31:34,940  
comes from MUFON yes and yeah and that's

3463  
02:31:39,610 --> 02:31:37,250

the printed one that's we've been told

3464

02:31:41,650 --> 02:31:39,620

dan Aykroyd reads all of them so that's

3465

02:31:44,380 --> 02:31:41,660

kind of the channel that we're hoping to

3466

02:31:46,810 --> 02:31:44,390

reach ISM because I think with someone

3467

02:31:50,261 --> 02:31:46,820

like him who has such an interest in

3468

02:31:51,400 --> 02:31:50,271

this topic it's not a matter of they're

3469

02:31:53,230 --> 02:31:51,410

not going to want to talk to you but

3470

02:31:54,250 --> 02:31:53,240

it's more a matter of getting the

3471

02:31:56,710 --> 02:31:54,260

information in front of their eyes

3472

02:31:57,820 --> 02:31:56,720

that's the challenge so I'm hoping that

3473

02:32:00,190 --> 02:31:57,830

the the newsletter

3474

02:32:01,960 --> 02:32:00,200

you know tips them off and maybe we get

3475

02:32:04,360 --> 02:32:01,970

an email even just a mention would

3476

02:32:07,390 --> 02:32:04,370

probably help us out quite a lot yeah

3477

02:32:10,780 --> 02:32:07,400

also Tom DeLonge from blink 182 is a

3478

02:32:13,120 --> 02:32:10,790

huge UFO buff and robbie williams the

3479

02:32:15,040 --> 02:32:13,130

pop singer from england is also a huge

3480

02:32:16,780 --> 02:32:15,050

UFO buff and there's there's others too

3481

02:32:18,610 --> 02:32:16,790

there's you know you did Shirley

3482

02:32:21,430 --> 02:32:18,620

MacLaine's and you know you could go

3483

02:32:23,860 --> 02:32:21,440

down the list of people that have I mean

3484

02:32:28,240 --> 02:32:23,870

geez even Clinton's named Sammy Hagar

3485

02:32:31,030 --> 02:32:28,250

claimed he's an abductee he's got some

3486

02:32:34,230 --> 02:32:31,040

serious dough and you know Rihanna

3487

02:32:37,240 --> 02:32:34,240

apparently hired someone to be down

3488

02:32:39,190 --> 02:32:37,250

close to area 51 and report to her any

3489

02:32:45,580 --> 02:32:39,200

any sightings he has any interesting

3490

02:32:48,670 --> 02:32:45,590

news right yeah and Bieber apparently is

3491

02:32:53,080 --> 02:32:48,680

a UFO nut as well well I'd stay away

3492

02:32:57,130 --> 02:32:53,090

from that one but who beaver Oh Justin

3493

02:32:59,591 --> 02:32:57,140

Bieber I did him in orbit you never know

3494

02:33:02,140 --> 02:32:59,601

yeah isn't he small guy maybe it

3495

02:33:04,750 --> 02:33:02,150

wouldn't take much yeah yeah I would

3496

02:33:07,120 --> 02:33:04,760

love to launch him into low-earth orbit

3497

02:33:09,761 --> 02:33:07,130

and and then have a big party watching a

3498

02:33:11,410 --> 02:33:09,771

Marie enter their beer let's not get

3499

02:33:12,910 --> 02:33:11,420

violent because people will then say you

3500

02:33:16,030 --> 02:33:12,920

know what we could do that to Donald

3501  
02:33:18,011 --> 02:33:16,040  
Trump well you brought it up what is the

3502  
02:33:20,740 --> 02:33:18,021  
lifespan three months you said three

3503  
02:33:24,430 --> 02:33:20,750  
months if there's say we get a huge

3504  
02:33:27,100 --> 02:33:24,440  
crazy solar month it could lower it to

3505  
02:33:30,910 --> 02:33:27,110  
two months but technically it could go

3506  
02:33:33,670 --> 02:33:30,920  
longer humming four or five months yeah

3507  
02:33:36,341 --> 02:33:33,680  
depends on space weather is a major

3508  
02:33:38,170 --> 02:33:36,351  
factor we're in think we're in a peak

3509  
02:33:40,060 --> 02:33:38,180  
right now so we're in one of the busier

3510  
02:33:42,040 --> 02:33:40,070  
areas but so we've brought we're

3511  
02:33:45,070 --> 02:33:42,050  
probably looking at three months yeah

3512  
02:33:46,750 --> 02:33:45,080  
we're going out of a solar 11-year solar

3513  
02:33:49,810 --> 02:33:46,760

peak year I think I think it came early

3514

02:33:51,940 --> 02:33:49,820

this time yeah so hopefully by next year

3515

02:33:53,710 --> 02:33:51,950

it'll have died down enough so that we

3516

02:33:55,511 --> 02:33:53,720

get you know at least our three months

3517

02:33:58,720 --> 02:33:55,521

that would be nice yeah the other thing

3518

02:34:01,780 --> 02:33:58,730

I would I would really urge you is to to

3519

02:34:04,360 --> 02:34:01,790

get somebody to help bring the team up

3520

02:34:06,850 --> 02:34:04,370

to speed about the the justice subject

3521

02:34:09,011 --> 02:34:06,860

of ufology I think it's important once

3522

02:34:11,110 --> 02:34:09,021

you once you get closer to launch date

3523

02:34:13,150 --> 02:34:11,120

you know it's important to be really

3524

02:34:15,130 --> 02:34:13,160

knowledgeable about about the subject

3525

02:34:17,591 --> 02:34:15,140

obviously and I'm sure you're you're

3526

02:34:20,140 --> 02:34:17,601

scrambling to get up to speed but if you

3527

02:34:23,140 --> 02:34:20,150

need any help in that regard the para

3528

02:34:25,000 --> 02:34:23,150

cast is a perfect place to to pick some

3529

02:34:27,280 --> 02:34:25,010

brains we have some very very brilliant

3530

02:34:29,020 --> 02:34:27,290

people on our forums people way smarter

3531

02:34:30,640 --> 02:34:29,030

than me and I know a lot about the

3532

02:34:31,930 --> 02:34:30,650

subject and I think it's important

3533

02:34:34,150 --> 02:34:31,940

because you're gonna have to come from a

3534

02:34:37,750 --> 02:34:34,160

place of authority obviously once the

3535

02:34:40,960 --> 02:34:37,760

media attention starts if you're able to

3536

02:34:42,850 --> 02:34:40,970

reference you know particular cases able

3537

02:34:45,730 --> 02:34:42,860

to reference data

3538

02:34:49,540 --> 02:34:45,740

you know like Peter Davenport from the

3539

02:34:52,120 --> 02:34:49,550

national UFO Reporting Center has how

3540

02:34:54,849 --> 02:34:52,130

many events has he logged I think he

3541

02:34:59,599 --> 02:34:54,859

logs about 30,000 a year

3542

02:35:01,909 --> 02:34:59,609

not a year but he logs quite a few he's

3543

02:35:04,609 --> 02:35:01,919

logged I just tens and tens of thousands

3544

02:35:07,250 --> 02:35:04,619

of reports and of course move on I

3545

02:35:09,679 --> 02:35:07,260

really urge you to contact Brian Wieck

3546

02:35:12,380 --> 02:35:09,689

just because you're you're in British

3547

02:35:15,409 --> 02:35:12,390

Columbia's he is and and he's a really

3548

02:35:17,779 --> 02:35:15,419

good person to to dovetail your local

3549

02:35:21,199 --> 02:35:17,789

efforts there and I think it's important

3550

02:35:23,779 --> 02:35:21,209

to you know to come across as

3551

02:35:27,290 --> 02:35:23,789

knowledgeable and as as healthily

3552

02:35:29,359 --> 02:35:27,300

skeptical as as you can that's important

3553

02:35:32,179 --> 02:35:29,369

because once people tag the true

3554

02:35:34,790 --> 02:35:32,189

believer tag on you science and academia

3555

02:35:38,149 --> 02:35:34,800

has a hard time reconciling that

3556

02:35:40,670 --> 02:35:38,159

particular time an individual or an

3557

02:35:44,569 --> 02:35:40,680

organization so you're getting into the

3558

02:35:46,849 --> 02:35:44,579

realm of politics here and and to be as

3559

02:35:48,739 --> 02:35:46,859

fully up to speed as humanly possible

3560

02:35:49,219 --> 02:35:48,749

obviously is going to be toward to your

3561

02:35:51,859 --> 02:35:49,229

advantage

3562

02:35:54,859 --> 02:35:51,869

yeah definitely and I would love to

3563

02:35:57,399 --> 02:35:54,869

exchange information over an email in

3564

02:36:00,920 --> 02:35:57,409

the future and pick your guys brain and

3565

02:36:02,630 --> 02:36:00,930

share on our software updates and any

3566

02:36:04,580 --> 02:36:02,640

ideas I might have to help you out on

3567

02:36:06,649 --> 02:36:04,590

your projects and that would be

3568

02:36:09,469 --> 02:36:06,659

excellent thank you there's a lot of

3569

02:36:11,389 --> 02:36:09,479

stuff like I recently I have a drone

3570

02:36:13,880 --> 02:36:11,399

that I got for Christmas as a present

3571

02:36:15,469 --> 02:36:13,890

for my fiance it's just one of those

3572

02:36:17,420 --> 02:36:15,479

little drones that flies around you

3573

02:36:19,580 --> 02:36:17,430

control it with a smartphone and I've

3574

02:36:22,399 --> 02:36:19,590

been playing with getting it to fly by

3575

02:36:25,219 --> 02:36:22,409

itself and to do this it needs object

3576

02:36:28,550 --> 02:36:25,229

recognition from a single monocular

3577

02:36:30,290 --> 02:36:28,560

camera it is able to see a red ball and

3578

02:36:32,300 --> 02:36:30,300

then you move the red ball around and

3579

02:36:33,679 --> 02:36:32,310

it'll follow it so I think that's right

3580

02:36:36,349 --> 02:36:33,689

along the lines of what you're looking

3581

02:36:38,750 --> 02:36:36,359

for I didn't write the software but it

3582

02:36:40,309 --> 02:36:38,760

is open-source and yeah I'd love to just

3583

02:36:42,800 --> 02:36:40,319

send you everything I know on that

3584

02:36:46,340 --> 02:36:42,810

because that worries you know it could

3585

02:36:48,949 --> 02:36:46,350

be it could be that one just little yeah

3586

02:36:50,809 --> 02:36:48,959

answer to to a problem that would get

3587

02:36:54,109 --> 02:36:50,819

get us over the hurdle we've been

3588

02:36:55,880 --> 02:36:54,119

working about nine ten months on it you

3589

02:36:57,559 --> 02:36:55,890

know they were paid somewhat but the

3590

02:36:59,960 --> 02:36:57,569

immediacy the amount of work that's

3591

02:37:01,699 --> 02:36:59,970

going into it it's not gonna more they

3592

02:37:03,349 --> 02:37:01,709

even come close to covering it so thank

3593

02:37:06,711 --> 02:37:03,359

you very much for being on the show and

3594

02:37:08,600 --> 02:37:06,721

look forward to communicating more

3595

02:37:10,850 --> 02:37:08,610
