Richard Hoffman
Scientific Coalition
for Ufology (SCU).

1
00:00:11,780 --> 00:00:08,589

[Music]

2
00:00:13,640 --> 00:00:11,790

someone like you and I we've been

3
00:00:17,960 --> 00:00:13,650

following this for so many years what

4
00:00:19,760 --> 00:00:17,970

got you interested in UFOs uh well it's

5
00:00:23,509 --> 00:00:19,770

kind of interesting story I was late for

6
00:00:27,019 --> 00:00:23,519

a science class and I had a teacher that

7
00:00:28,339 --> 00:00:27,029

had passed around a assignment the

8
00:00:31,099 --> 00:00:28,349

assignment was you're supposed to pick a

9
00:00:33,920 --> 00:00:31,109

topic that was on a list and then give a

10
00:00:37,010 --> 00:00:33,930

presentation on it and to do some

11
00:00:38,750 --> 00:00:37,020

homework basically and so I was late for

12
00:00:40,400 --> 00:00:38,760

the class because I was in a band class

13
00:00:42,410 --> 00:00:40,410

line to put my instrumental landing and

14

00:00:45,970 --> 00:00:42,420

the only thing that I found left on the

15

00:00:49,400 --> 00:00:45,980

list was the work basically UFO and I

16

00:00:53,180 --> 00:00:49,410

didn't know what that was and so I

17

00:00:54,770 --> 00:00:53,190

recall going up to my teacher after

18

00:00:55,939 --> 00:00:54,780

class and said something but can you

19

00:00:59,180 --> 00:00:55,949

give me a hint

20

00:01:01,090 --> 00:00:59,190

what is UFO I said well you've heard of

21

00:01:03,529 --> 00:01:01,100

flying saucers you've heard of you know

22

00:01:05,630 --> 00:01:03,539

identified flying objects maybe I said

23

00:01:07,160 --> 00:01:05,640

well I didn't hear about you know UFOs

24

00:01:09,590 --> 00:01:07,170

before but I have heard of flying

25

00:01:11,270 --> 00:01:09,600

saucers yeah he said well go and go and

26

00:01:13,340 --> 00:01:11,280

do the investment you know go do your

27

00:01:16,240 --> 00:01:13,350

research and and you can you could

28

00:01:19,550 --> 00:01:16,250

probably find something on it and so I

29

00:01:21,800 --> 00:01:19,560

half-heartedly did that I think I read a

30

00:01:23,690 --> 00:01:21,810

couple books you know like the books on

31

00:01:27,530 --> 00:01:23,700

the bridge you know something similar to

32

00:01:30,710 --> 00:01:27,540

like my Saturnian lover my trip to Venus

33

00:01:33,380 --> 00:01:30,720

or something of that nature and so you

34

00:01:36,020 --> 00:01:33,390

know I didn't treat it very seriously

35

00:01:38,240 --> 00:01:36,030

and it resulted in me getting up and

36

00:01:41,929 --> 00:01:38,250

making a big fool of myself in front of

37

00:01:45,139 --> 00:01:41,939

a very well astute teacher who asked me

38

00:01:47,660 --> 00:01:45,149

a lot of questions I didn't really

39

00:01:51,859 --> 00:01:47,670

answer them well and so I got my D that

40

00:01:54,289 --> 00:01:51,869

day yeah all right fair I got my feet

41

00:01:58,069 --> 00:01:54,299

and I you know you know and then I I

42

00:01:59,600 --> 00:01:58,079

recall going home you know whether it

43

00:02:01,370 --> 00:01:59,610

was that day or the day after or

44

00:02:04,310 --> 00:02:01,380

something like that that on the news

45

00:02:07,429 --> 00:02:04,320

they had Walter Cronkite came on and was

46

00:02:09,380 --> 00:02:07,439

talking about a case called the walling

47

00:02:13,010 --> 00:02:09,390

Samora or the long summer occasion in

48

00:02:13,580 --> 00:02:13,020

Socorro New Mexico I think when I heard

49

00:02:15,830 --> 00:02:13,590

that

50

00:02:17,900 --> 00:02:15,840

I became like well wait a minute there's
