[Music]

2
00:00:41,700 --> 00:00:39,330
hello this is Nick Pope and you're

3
00:00:44,610 --> 00:00:41,710
listening to a paranormal UK radio

4
00:00:46,619 --> 00:00:44,620
network the UK's biggest paranormal

5
00:00:50,790 --> 00:00:46,629
Network and this is paranormal

6
00:00:54,840 --> 00:00:50,800
dimensions with David Young hello and

7
00:00:56,759 --> 00:00:54,850
thank you for joining okay well we've

8
00:00:59,759 --> 00:00:56,769
had a very sad loss recently at a

9
00:01:01,290 --> 00:00:59,769
ufology world obviously everyone will

10
00:01:05,940 --> 00:01:01,300
know that we lost Stanton Friedman

11
00:01:08,219 --> 00:01:05,950
suddenly just a short time ago and I've

12
00:01:11,040 --> 00:01:08,229
got a very lovely lady Kathy Martin

13
00:01:15,779 --> 00:01:11,050

there was a I would say a close friend

14

00:01:16,980 --> 00:01:15,789

of Stan's and obviously what more than

15

00:01:20,730 --> 00:01:16,990

just a coach for a lot of working

16

00:01:23,120 --> 00:01:20,740

working relationship - just before I do

17

00:01:26,040 --> 00:01:23,130

that I'll just do my normal calls out so

18

00:01:28,950 --> 00:01:26,050

this is for Sascha Christie of Liverpool

19

00:01:32,700 --> 00:01:28,960

it was my first guest on this show and

20

00:01:35,910 --> 00:01:32,710

Phil mentor Pontefract UK and Donald

21

00:01:39,270 --> 00:01:35,920

Schmitt who I hope to have as a guest on

22

00:01:41,870 --> 00:01:39,280

the next show again Stanton Friedman

23

00:01:44,309 --> 00:01:41,880

kind of special as far as we can call it

24

00:01:46,620 --> 00:01:44,319

but now I'd like to introduce Sir

25

00:01:50,359 --> 00:01:46,630

Kathleen Mardan I mean everyone should

26

00:01:56,580 --> 00:01:54,180

thank you very much and thank you so

27

00:01:59,430 --> 00:01:56,590

much for making time to come on the show

28

00:02:01,770 --> 00:01:59,440

and and I'd like to say at this moment

29

00:02:05,070 --> 00:02:01,780

and what's the secret does he though

30

00:02:07,469 --> 00:02:05,080

Stan was very close to you and it's all

31

00:02:09,240 --> 00:02:07,479

very sad at certain and everything and I

32

00:02:12,030 --> 00:02:09,250

don't really know where to start with

33

00:02:16,670 --> 00:02:12,040

you I suppose where did you first hear

34

00:02:21,180 --> 00:02:16,680

the news about then unfortunately the

35

00:02:25,309 --> 00:02:21,190

information was was put out to the UFO

36

00:02:27,930 --> 00:02:25,319

media before his family was able to

37

00:02:31,500 --> 00:02:27,940

contact the relatives in the United

38

00:02:33,750 --> 00:02:31,510

States and me so I received a couple of

39

00:02:38,520 --> 00:02:33,760

phone calls wondering if it was true I

40

00:02:41,580 --> 00:02:38,530

said I don't think so because I would

41

00:02:45,590 --> 00:02:41,590

have been notified and so you know there

42

00:02:50,090 --> 00:02:45,600

are so many hoaxes of people's truth

43

00:02:53,210 --> 00:02:50,100

they haven't actually occurred so I I

44

00:02:56,510 --> 00:02:53,220

ended up sending a message to Stanton's

45

00:02:59,420 --> 00:02:56,520

daughter and she said you know it sadly

46

00:03:04,610 --> 00:02:59,430

it is true I was the next one on her

47

00:03:11,120 --> 00:03:04,620

list to call and we had lost Stanton the

48

00:03:15,590 --> 00:03:11,130

night before he had died at the Toronto

49

00:03:17,990 --> 00:03:15,600

Pearson Airport while he was waiting for

50

00:03:22,100 --> 00:03:18,000

a return flight home

51
00:03:26,810 --> 00:03:22,110
he'd been in Cleveland Ohio or Columbus

52
00:03:31,070 --> 00:03:26,820
Ohio for the weekend to be interviewed

53
00:03:34,430 --> 00:03:31,080
in front of an audience and I knew that

54
00:03:36,260 --> 00:03:34,440
he was very tired he had told me we

55
00:03:38,720 --> 00:03:36,270
talked on the phone at least once a week

56
00:03:44,240 --> 00:03:38,730
he had told me he was feeling very tired

57
00:03:47,060 --> 00:03:44,250
and old and but he still wanted to plug

58
00:03:51,020 --> 00:03:47,070
on he really loved working in the UFO

59
00:03:54,290 --> 00:03:51,030
field particularly in lecturing and

60
00:03:57,080 --> 00:03:54,300
doing interviews and we had planned to

61
00:04:01,010 --> 00:03:57,090
work together again in Roswell New

62
00:04:03,560 --> 00:04:01,020
Mexico in July at the MUFON

63
00:04:06,200 --> 00:04:03,570

international symposium at the end of

64

00:04:08,660 --> 00:04:06,210

July that's in Irvine California and

65

00:04:11,690 --> 00:04:08,670

then again at the International UFO

66

00:04:19,340 --> 00:04:11,700

Congress conference in Phoenix Arizona

67

00:04:22,310 --> 00:04:19,350

in early September and he obviously I

68

00:04:26,330 --> 00:04:22,320

will not be working with Stan again it

69

00:04:29,780 --> 00:04:26,340

is very sad he was a wonderful person a

70

00:04:32,720 --> 00:04:29,790

brilliant man a visionary with a

71

00:04:35,720 --> 00:04:32,730

brilliant mind but he was also the

72

00:04:40,190 --> 00:04:35,730

people's ufologist he didn't place

73

00:04:46,450 --> 00:04:40,200

himself up on a pedestal he was down in

74

00:04:49,430 --> 00:04:46,460

the trenches on equal status with

75

00:04:52,580 --> 00:04:49,440

everyone else that's the way his mind

76
00:04:54,610 --> 00:04:52,590
worked he always said to me if I started

77
00:04:57,980 --> 00:04:54,620
to use words with too many syllables

78
00:04:58,830 --> 00:04:57,990
don't talk that way people won't

79
00:05:01,409 --> 00:04:58,840
understand

80
00:05:04,110 --> 00:05:01,419
and you you need to speak with the

81
00:05:08,370 --> 00:05:04,120
public he was a perfect gentleman

82
00:05:10,980 --> 00:05:08,380
a comedian he made everyone laugh and

83
00:05:16,439 --> 00:05:10,990
every time he gave a presentation or did

84
00:05:22,379 --> 00:05:16,449
a radio show kind generous loving he'll

85
00:05:24,719 --> 00:05:22,389
be sadly missed in the UFO an icon is

86
00:05:27,750 --> 00:05:24,729
the need of the ethology world I mean I

87
00:05:28,860 --> 00:05:27,760
was I actually met him for I spoke to

88
00:05:31,860 --> 00:05:28,870

him for about three or four minutes

89

00:05:33,510 --> 00:05:31,870

obviously nothing like you have but for

90

00:05:35,850 --> 00:05:33,520

that three or four minutes see you know

91

00:05:37,590 --> 00:05:35,860

that he had your yeah he took your

92

00:05:39,000 --> 00:05:37,600

attention and he would listen to what

93

00:05:40,230 --> 00:05:39,010

you were saying he wasn't sort of eyes

94

00:05:41,400 --> 00:05:40,240

everywhere and everything he was

95

00:05:43,980 --> 00:05:41,410

listening to what you were saying

96

00:05:46,260 --> 00:05:43,990

and that sort of three or four minutes

97

00:05:48,900 --> 00:05:46,270

was very precious to me you know it's I

98

00:05:51,930 --> 00:05:48,910

think I think he's I saw him give that

99

00:05:54,330 --> 00:05:51,940

sort of time to everyone who kind of

100

00:05:56,909 --> 00:05:54,340

asked him to spare him a few minutes you

101
00:05:57,450 --> 00:05:56,919
know he's I think it was a gentleman of

102
00:06:00,210 --> 00:05:57,460
ufology

103
00:06:02,640 --> 00:06:00,220
I know you I'm sure he had some

104
00:06:05,100 --> 00:06:02,650
arguments with people certain things

105
00:06:07,980 --> 00:06:05,110
we've seen a few things but in all you

106
00:06:11,300 --> 00:06:07,990
know well he was a gentleman he was gone

107
00:06:14,460 --> 00:06:11,310
the debunkers the actually the dis

108
00:06:18,779 --> 00:06:14,470
informants the individuals who would

109
00:06:21,960 --> 00:06:18,789
hurt people in order to promote an

110
00:06:26,070 --> 00:06:21,970
agenda or a certain set of false ideas

111
00:06:30,089 --> 00:06:26,080
and and he took them on he Stanton was a

112
00:06:35,250 --> 00:06:30,099
very honest person very upright and he

113
00:06:38,790 --> 00:06:35,260

was willing to call them out for their

114

00:06:40,110 --> 00:06:38,800

false information yeah and he was late

115

00:06:44,820 --> 00:06:40,120

effects out wouldn't they yeah I know

116

00:06:47,550 --> 00:06:44,830

yeah I like the mj-12 documents were

117

00:06:50,730 --> 00:06:47,560

quite very interesting but he yeah a few

118

00:06:54,600 --> 00:06:50,740

arguments about didn't he he yes and you

119

00:06:57,960 --> 00:06:54,610

know he he did examine the mj-12

120

00:07:00,960 --> 00:06:57,970

documents he wrote the book top-secret

121

00:07:04,230 --> 00:07:00,970

magic about his work on those documents

122

00:07:06,360 --> 00:07:04,240

but then after that many many more

123

00:07:10,709 --> 00:07:06,370

documents were released to the public

124

00:07:11,580 --> 00:07:10,719

and at least some of those were just

125

00:07:14,130 --> 00:07:11,590

fictitious

126
00:07:17,430 --> 00:07:14,140
and there was no evidence that they were

127
00:07:20,880 --> 00:07:17,440
real and so he always was a person who

128
00:07:24,480 --> 00:07:20,890
would separate fact from fiction if it

129
00:07:28,140 --> 00:07:24,490
was a phony document he knew it was a

130
00:07:32,300 --> 00:07:28,150
phony document and and you know went up

131
00:07:36,690 --> 00:07:32,310
so many a put out it's impossible to

132
00:07:38,700 --> 00:07:36,700
systematically research every single one

133
00:07:39,840 --> 00:07:38,710
of them yeah

134
00:07:41,850 --> 00:07:39,850
do you think that could have been done

135
00:07:44,250 --> 00:07:41,860
on purpose to like hide the real ones

136
00:07:47,390 --> 00:07:44,260
yeah in amongst a jungle of paperwork

137
00:07:51,390 --> 00:07:47,400
yes I do believe that that occurred

138
00:07:53,640 --> 00:07:51,400

absolutely yeah

139

00:07:55,830 --> 00:07:53,650

I mean I don't really what it's well

140

00:07:58,950 --> 00:07:55,840

under I think bill to celebrate Sam

141

00:08:01,350 --> 00:07:58,960

Stenson now because obviously he's gonna

142

00:08:03,210 --> 00:08:01,360

be sadly missed but do you know what is

143

00:08:07,440 --> 00:08:03,220

these funerals he hasn't taken place yes

144

00:08:10,440 --> 00:08:07,450

it has his visiting hours were on Friday

145

00:08:14,600 --> 00:08:10,450

and his funeral was on Saturday a very

146

00:08:17,310 --> 00:08:14,610

small family funeral his family liked

147

00:08:27,660 --> 00:08:17,320

privacy they were very thin private

148

00:08:29,160 --> 00:08:27,670

people stop you're working collaboration

149

00:08:32,760 --> 00:08:29,170

with Stan's I know you vote to put with

150

00:08:35,370 --> 00:08:32,770

it captured in 2007 was that kind of the

151

00:08:36,570 --> 00:08:35,380

start of your working relationship well

152

00:08:39,690 --> 00:08:36,580

no you probably knew him

153

00:08:43,380 --> 00:08:39,700

I knew him way before that through my

154

00:08:49,170 --> 00:08:43,390

Aunt Betty Hill whose starmap he

155

00:08:51,480 --> 00:08:49,180

defended and I had written a quite an

156

00:08:54,390 --> 00:08:51,490

extensive manuscript on a book that I

157

00:08:58,080 --> 00:08:54,400

was writing that included my aunt's

158

00:09:03,150 --> 00:08:58,090

biography information on my uncle Barney

159

00:09:06,030 --> 00:09:03,160

Hill and their story that had not been

160

00:09:09,360 --> 00:09:06,040

told in the early book that was

161

00:09:11,880 --> 00:09:09,370

published that was published in 1966 and

162

00:09:16,830 --> 00:09:11,890

most of the investigation took place

163

00:09:20,750 --> 00:09:16,840

after 1966 the the physical evidence the

164

00:09:25,020 --> 00:09:20,760

circumstantial evidence and I was at the

165

00:09:29,250 --> 00:09:25,030

mutual UFO network s-- international sim

166

00:09:34,530 --> 00:09:29,260

suppose iam in Denver Colorado I was not

167

00:09:37,140 --> 00:09:34,540

speaking that year but I went primarily

168

00:09:40,950 --> 00:09:37,150

because Stanton was speaking and I was a

169

00:09:44,610 --> 00:09:40,960

big fan of his and during that day I

170

00:09:47,700 --> 00:09:44,620

wanted to approach him and talk to him

171

00:09:51,090 --> 00:09:47,710

about the manuscript and I was also am

172

00:09:55,640 --> 00:09:51,100

the executor to the Hills estate so I

173

00:09:58,320 --> 00:09:55,650

was and trustee so I had all of their

174

00:10:01,830 --> 00:09:58,330

archival collection and I was preparing

175

00:10:05,880 --> 00:10:01,840

it for the University of New Hampshire

176

00:10:07,590 --> 00:10:05,890

my Aunt Betty and I both graduated from

177

00:10:12,150 --> 00:10:07,600

the University of New Hampshire

178

00:10:14,580 --> 00:10:12,160

I went by Stanton's vendor table a few

179

00:10:18,390 --> 00:10:14,590

times that day wanting to speak to him

180

00:10:21,270 --> 00:10:18,400

about my work and he was always busy

181

00:10:25,320 --> 00:10:21,280

there was a huge crowd men surrounding

182

00:10:28,260 --> 00:10:25,330

him and and he was talking and so I

183

00:10:32,550 --> 00:10:28,270

would walk by and and I nearly gave up

184

00:10:35,760 --> 00:10:32,560

but at the end of the day I thought I

185

00:10:39,060 --> 00:10:35,770

would make one last attempt to speak

186

00:10:42,390 --> 00:10:39,070

with him I walked by his vendor table

187

00:10:46,320 --> 00:10:42,400

and he was just packing the leftover

188

00:10:49,680 --> 00:10:46,330

books up to be shipped back to his home

189

00:10:54,420 --> 00:10:49,690

in New Brunswick Canada and I spoke with

190

00:10:56,730 --> 00:10:54,430

him and he said well why don't you join

191

00:10:59,010 --> 00:10:56,740

me for dinner so we went to the dining

192

00:11:01,550 --> 00:10:59,020

room and we sat down we had a dinner

193

00:11:04,040 --> 00:11:01,560

together and at the end of our

194

00:11:07,740 --> 00:11:04,050

conversation he told me that he was very

195

00:11:12,000 --> 00:11:07,750

interested in my work and wanted to

196

00:11:14,490 --> 00:11:12,010

arrange to drive from his house to my

197

00:11:17,010 --> 00:11:14,500

home in New Hampshire I live in Florida

198

00:11:22,410 --> 00:11:17,020

now but I lived in New Hampshire then

199

00:11:25,620 --> 00:11:22,420

and so we arranged for him to visit my

200

00:11:29,430 --> 00:11:25,630

husband and I and he stayed for a few

201
00:11:32,490 --> 00:11:29,440
days he reviewed all of my files read my

202
00:11:35,730 --> 00:11:32,500
manuscript and at the end of this

203
00:11:37,770 --> 00:11:35,740
reading he told me that he was impressed

204
00:11:39,900 --> 00:11:37,780
with what I had written

205
00:11:42,110 --> 00:11:39,910
that he would be happy to join me

206
00:11:46,940 --> 00:11:42,120
because I was being scientific and

207
00:11:49,980 --> 00:11:46,950
unbiased so that was the beginning I

208
00:11:52,890 --> 00:11:49,990
wanted him to write more of the book

209
00:11:57,510 --> 00:11:52,900
that he had time for he had time to

210
00:12:01,680 --> 00:11:57,520
write the beginning of the book the the

211
00:12:04,770 --> 00:12:01,690
foreword and he also had time to write

212
00:12:07,530 --> 00:12:04,780
two chapters in the book on his

213
00:12:11,490 --> 00:12:07,540

involvement in the starmap investigation

214

00:12:14,880 --> 00:12:11,500

and his arguments against the debunkers

215

00:12:19,890 --> 00:12:14,890

so that was his contribution we worked

216

00:12:23,000 --> 00:12:19,900

so well together traveling at working at

217

00:12:25,320 --> 00:12:23,010

a vendor table together sometimes even

218

00:12:29,760 --> 00:12:25,330

lecturing on the Betty and Barney Hill

219

00:12:33,750 --> 00:12:29,770

UFO experience together sometimes I did

220

00:12:36,360 --> 00:12:33,760

it without him but we developed a great

221

00:12:39,210 --> 00:12:36,370

friendship and we went on to write two

222

00:12:43,560 --> 00:12:39,220

more books together science was wrong

223

00:12:46,050 --> 00:12:43,570

and fact fiction and flying saucers so

224

00:12:49,950 --> 00:12:46,060

it was I thought that we achieved a lot

225

00:12:54,180 --> 00:12:49,960

he did as well and we had a very happy

226

00:12:56,160 --> 00:12:54,190

working relationship I'm sure you did I

227

00:13:00,510 --> 00:12:56,170

do have the flying saucers in science

228

00:13:03,750 --> 00:13:00,520

book I need to get the third one the

229

00:13:16,520 --> 00:13:03,760

office as well yes science was wrong and

230

00:13:19,260 --> 00:13:16,530

fact friction and flying saucers yeah

231

00:13:22,320 --> 00:13:19,270

would you mind going over the case of

232

00:13:23,610 --> 00:13:22,330

the the Betty and Barney Hill I know

233

00:13:26,520 --> 00:13:23,620

you've probably told it so many times

234

00:13:28,620 --> 00:13:26,530

but some I think just in case there are

235

00:13:30,360 --> 00:13:28,630

people out there and I never get fed up

236

00:13:32,220 --> 00:13:30,370

with you in it and to hear it from

237

00:13:35,460 --> 00:13:32,230

yourself would be wonderful if you

238

00:13:39,420 --> 00:13:35,470

wouldn't mind certainly well I was 13

239

00:13:42,930 --> 00:13:39,430

years old when my Aunt Betty Hill and my

240

00:13:47,490 --> 00:13:42,940

uncle Barney decided to take a short

241

00:13:49,590 --> 00:13:47,500

vacation to Niagara Falls I had been

242

00:13:51,510 --> 00:13:49,600

there at the previous month

243

00:13:54,120 --> 00:13:51,520

I had photographs

244

00:13:59,280 --> 00:13:54,130

the trip I had gone with Betty's sister

245

00:14:01,440 --> 00:13:59,290

my aunt June and we had a wonderful time

246

00:14:03,660 --> 00:14:01,450

and Betty turned to Barney and said you

247

00:14:06,990 --> 00:14:03,670

know I've never been to Niagara Falls

248

00:14:10,620 --> 00:14:07,000

I'd love to go and Barney decided to

249

00:14:16,500 --> 00:14:10,630

surprise her with this trip in September

250

00:14:18,210 --> 00:14:16,510

of 1961 she had work vacation she was a

251
00:14:20,760 --> 00:14:18,220
social worker for the state of New

252
00:14:24,180 --> 00:14:20,770
Hampshire and he took a few days off

253
00:14:26,579 --> 00:14:24,190
from his job at the post office they set

254
00:14:28,889 --> 00:14:26,589
out they went to Niagara Falls it

255
00:14:31,380 --> 00:14:28,899
doesn't take very long to visit Niagara

256
00:14:35,130 --> 00:14:31,390
Falls so they continued on through

257
00:14:38,990 --> 00:14:35,140
Canada - up through Ontario then on to

258
00:14:43,350 --> 00:14:39,000
Montreal where they had a wonderful time

259
00:14:46,440 --> 00:14:43,360
visiting and decided to head back to New

260
00:14:52,290 --> 00:14:46,450
Hampshire on the night of September 19

261
00:14:54,360 --> 00:14:52,300
1961 because the hurricane was coming up

262
00:14:58,519 --> 00:14:54,370
the coast and they wanted to be at home

263
00:15:01,800 --> 00:14:58,529

when the hurricane hits so on their

264

00:15:04,949 --> 00:15:01,810

journey home through upstate New

265

00:15:07,680 --> 00:15:04,959

Hampshire Betty spotted a new light in

266

00:15:10,650 --> 00:15:07,690

the sky that was coming in closer and

267

00:15:13,620 --> 00:15:10,660

closer she called Barney's attention to

268

00:15:16,319 --> 00:15:13,630

it and he decided to stop to get a

269

00:15:18,780 --> 00:15:16,329

better look at this thing she thought it

270

00:15:21,680 --> 00:15:18,790

might be a satellite he thought that it

271

00:15:24,000 --> 00:15:21,690

might be here a conventional aircraft

272

00:15:26,370 --> 00:15:24,010

but they got out of the car and they

273

00:15:29,190 --> 00:15:26,380

looked at it they realized it was silent

274

00:15:31,230 --> 00:15:29,200

and they had binoculars because they had

275

00:15:36,300 --> 00:15:31,240

gone to Niagara Falls they wanted to

276
00:15:39,960 --> 00:15:36,310
have them for that and the craft came in

277
00:15:42,150 --> 00:15:39,970
closer and closer they they got back

278
00:15:45,600 --> 00:15:42,160
into the car and it was traveling along

279
00:15:49,889 --> 00:15:45,610
beside the car sometimes in front of the

280
00:15:52,260 --> 00:15:49,899
car and as they entered an area called

281
00:15:55,230 --> 00:15:52,270
Franconia Notch which is a beautiful

282
00:15:59,490 --> 00:15:55,240
tourist section in New Hampshire tall

283
00:16:04,080 --> 00:15:59,500
mountains on each side a river that runs

284
00:16:06,360 --> 00:16:04,090
through it and a fairly narrow

285
00:16:11,670 --> 00:16:06,370
in that timeframe there's a highway

286
00:16:14,730 --> 00:16:11,680
there now but they went past Cannon

287
00:16:18,690 --> 00:16:14,740
Mountain which was a ski area still is

288
00:16:22,410 --> 00:16:18,700

and on the top of Cannon Mountain is a

289

00:16:25,350 --> 00:16:22,420

building that was was lighted and my

290

00:16:28,080 --> 00:16:25,360

aunt observed as the craft went over the

291

00:16:32,490 --> 00:16:28,090

top of the mount the building the lights

292

00:16:35,100 --> 00:16:32,500

turned off and that is an indication of

293

00:16:37,110 --> 00:16:35,110

perhaps electromagnetic interference

294

00:16:41,100 --> 00:16:37,120

from the craft we don't know for certain

295

00:16:43,290 --> 00:16:41,110

they continued on to the old man of the

296

00:16:47,820 --> 00:16:43,300

mountain which was New Hampshire's

297

00:16:53,550 --> 00:16:47,830

symbol it's that high on the side of a

298

00:16:56,580 --> 00:16:53,560

mountain and Betty and Barney noticed at

299

00:17:00,510 --> 00:16:56,590

that point that the craft was at least

300

00:17:06,360 --> 00:17:00,520

twice the size of the old man's profile

301
00:17:10,110 --> 00:17:06,370
which was 48 feet from waist to are from

302
00:17:13,170 --> 00:17:10,120
chin to forehead they got back into the

303
00:17:15,900 --> 00:17:13,180
car had itself watching this craft as it

304
00:17:18,930 --> 00:17:15,910
was bouncing back and forth in the sky

305
00:17:21,630 --> 00:17:18,940
traveling in a stair step pattern very

306
00:17:25,530 --> 00:17:21,640
very unusual coming closer and closer

307
00:17:28,680 --> 00:17:25,540
they exited Franconia Notch into the

308
00:17:31,260 --> 00:17:28,690
tourist area at Indian Head this is

309
00:17:33,540 --> 00:17:31,270
where the motels the hotels and the

310
00:17:36,960 --> 00:17:33,550
tourist attractions were it was the

311
00:17:41,910 --> 00:17:36,970
offseason so everything was very very

312
00:17:45,650 --> 00:17:41,920
quiet it was about midnight at that time

313
00:17:49,290 --> 00:17:45,660

when this craft surged ahead and

314

00:17:53,490 --> 00:17:49,300

descended over the highway in front of

315

00:17:57,000 --> 00:17:53,500

Betty and Barney and they had to stop

316

00:18:00,540 --> 00:17:57,010

their car in order to not be directly

317

00:18:01,260 --> 00:18:00,550

under this craft it descended even

318

00:18:03,630 --> 00:18:01,270

further

319

00:18:06,480 --> 00:18:03,640

Barney stepped out of the car he left

320

00:18:09,990 --> 00:18:06,490

the motor running betty was seated in

321

00:18:12,720 --> 00:18:10,000

the driver's seat he looked at the craft

322

00:18:16,220 --> 00:18:12,730

through binoculars at that time he

323

00:18:18,019 --> 00:18:16,230

estimated it was 200 feet in the air and

324

00:18:21,219 --> 00:18:18,029

he could see a

325

00:18:24,619 --> 00:18:21,229

lighted row of windows along a silent

326

00:18:28,399 --> 00:18:24,629

disc-shaped craft that was just hanging

327

00:18:31,369 --> 00:18:28,409

in the sky and Betty looked up she said

328

00:18:36,139 --> 00:18:31,379

that it at that point it was so large it

329

00:18:38,419 --> 00:18:36,149

filled the windshield and Barney then

330

00:18:41,749 --> 00:18:38,429

stepped away from the vehicle and when

331

00:18:44,450 --> 00:18:41,759

he did the craft moved to an adjacent

332

00:18:47,869 --> 00:18:44,460

field he followed it into the field

333

00:18:50,619 --> 00:18:47,879

still attempting to identify what it was

334

00:18:54,219 --> 00:18:50,629

because he knew it was impossible for

335

00:18:58,729 --> 00:18:54,229

Earthlings to be visited by

336

00:19:01,519 --> 00:18:58,739

extraterrestrials and so he walked into

337

00:19:04,190 --> 00:19:01,529

the field the clack craft had now

338

00:19:08,509 --> 00:19:04,200

descended to within a hundred feet of

339

00:19:13,389 --> 00:19:08,519

the ground and he put his the binoculars

340

00:19:18,310 --> 00:19:13,399

up to his eyes he saw eight to eleven

341

00:19:23,509 --> 00:19:18,320

non-human entities looking down at him

342

00:19:25,849 --> 00:19:23,519

he became frightened he was trying to

343

00:19:28,190 --> 00:19:25,859

convince himself that this was something

344

00:19:30,200 --> 00:19:28,200

else that his eyes really weren't seeing

345

00:19:33,349 --> 00:19:30,210

what they were seeing there was

346

00:19:37,489 --> 00:19:33,359

cognitive dissonance going on there all

347

00:19:41,149 --> 00:19:37,499

of a sudden everyone except for one of

348

00:19:44,299 --> 00:19:41,159

these figures moved away from the window

349

00:19:47,570 --> 00:19:44,309

toward a panel their arms went up and

350

00:19:50,659 --> 00:19:47,580

when this occurred something started to

351

00:19:56,419 --> 00:19:50,669

drop down out of the bottom of this

352

00:19:59,060 --> 00:19:56,429

craft Barney immediately feared for his

353

00:20:01,009 --> 00:19:59,070

life he thought they had a plan and that

354

00:20:06,579 --> 00:20:01,019

plan was to capture him

355

00:20:09,589 --> 00:20:06,589

like quote a bug in a net close quote he

356

00:20:11,810 --> 00:20:09,599

pulled the binoculars away from his eyes

357

00:20:14,869 --> 00:20:11,820

breaking the leather strap in the

358

00:20:17,299 --> 00:20:14,879

process and ran screaming back to the

359

00:20:19,219 --> 00:20:17,309

car telling Betty that they had to get

360

00:20:22,759 --> 00:20:19,229

out of there or they were going to be

361

00:20:25,849 --> 00:20:22,769

captured as he was entering the car he

362

00:20:28,969 --> 00:20:25,859

noticed the crack was moving back in his

363

00:20:31,520 --> 00:20:28,979

direction he went speeding down the

364

00:20:34,790 --> 00:20:31,530

highway he told Betty to

365

00:20:38,870 --> 00:20:34,800

roll down her window and look up she did

366

00:20:42,230 --> 00:20:38,880

she was expecting to see lights from the

367

00:20:45,380 --> 00:20:42,240

craft because tiny red lights were on

368

00:20:49,610 --> 00:20:45,390

each side of that craft and and had

369

00:20:53,870 --> 00:20:49,620

started to extend out on on little wing

370

00:20:56,570 --> 00:20:53,880

like structures she rolled the window up

371

00:21:00,590 --> 00:20:56,580

she said I can't see anything maybe it's

372

00:21:04,550 --> 00:21:00,600

gone all I saw was blackness within

373

00:21:07,730 --> 00:21:04,560

moments she and Barney heard a series of

374

00:21:10,550 --> 00:21:07,740

code like buzzing sounds striking the

375

00:21:13,510 --> 00:21:10,560

trunk of their vehicle it caused the car

376

00:21:17,450 --> 00:21:13,520

to vibrate and a tingling sensation

377

00:21:19,490 --> 00:21:17,460

passed through their bodies the next

378

00:21:23,540 --> 00:21:19,500

thing they knew there were thirty five

379

00:21:25,910 --> 00:21:23,550

miles down the highway with very little

380

00:21:29,540 --> 00:21:25,920

memory of what had occurred in the

381

00:21:33,110 --> 00:21:29,550

interim they did remember encountering a

382

00:21:36,230 --> 00:21:33,120

roadblock somewhere they weren't sure

383

00:21:40,040 --> 00:21:36,240

where that was it seemed that they had

384

00:21:43,370 --> 00:21:40,050

somehow turned off the highway and onto

385

00:21:46,610 --> 00:21:43,380

a strange Road they didn't know where

386

00:21:50,390 --> 00:21:46,620

that was or how they arrived back at the

387

00:21:53,030 --> 00:21:50,400

spot down the highway 35 miles they

388

00:21:57,920 --> 00:21:53,040

heard another series of buzzing sounds

389

00:22:01,550 --> 00:21:57,930

and Betty looked for the craft again

390

00:22:03,890 --> 00:22:01,560

Barney stopped the car drove from side

391

00:22:06,950 --> 00:22:03,900

to side on the road trying to make that

392

00:22:10,460 --> 00:22:06,960

sound still arguing with Betty it

393

00:22:13,040 --> 00:22:10,470

couldn't have been a flying saucer he

394

00:22:15,560 --> 00:22:13,050

wasn't able to prove that in fact there

395

00:22:18,680 --> 00:22:15,570

was a great deal of evidence when they

396

00:22:21,020 --> 00:22:18,690

arrived home Barney's best dress shoes

397

00:22:24,080 --> 00:22:21,030

were so deeply scraped that he had to

398

00:22:28,100 --> 00:22:24,090

buy new shoes there was vegetative

399

00:22:32,480 --> 00:22:28,110

debris on his pant legs Betty's dress

400

00:22:34,430 --> 00:22:32,490

was torn in several places she put it in

401
00:22:37,040 --> 00:22:34,440
her closet when she took it out again

402
00:22:40,430 --> 00:22:37,050
there was a pink powdery substance on

403
00:22:42,050 --> 00:22:40,440
the dress the watches wind-up watches

404
00:22:44,870 --> 00:22:42,060
they were wearing that night we're

405
00:22:45,379 --> 00:22:44,880
working perfectly fine before they're

406
00:22:49,849 --> 00:22:45,389
closed

407
00:22:54,560 --> 00:22:49,859
encounter with the UFO they never ran

408
00:22:58,489 --> 00:22:54,570
again both watches were broken and the

409
00:23:01,569 --> 00:22:58,499
trunk of their car had shiny spots that

410
00:23:04,599 --> 00:23:01,579
had not been there the day before

411
00:23:08,659 --> 00:23:04,609
several of them about the size of

412
00:23:14,539 --> 00:23:08,669
quarters or silver dollars but we had in

413
00:23:17,269 --> 00:23:14,549

the united states and betty was curious

414

00:23:21,079 --> 00:23:17,279

she called my mother we had a neighbor

415

00:23:24,739 --> 00:23:21,089

who was a nuclear physicist and my

416

00:23:29,180 --> 00:23:24,749

mother asked what Betty should do about

417

00:23:32,749 --> 00:23:29,190

this he said if you have a compass take

418

00:23:36,649 --> 00:23:32,759

it out move it around the car and see if

419

00:23:39,829 --> 00:23:36,659

the the needle of the compass moves well

420

00:23:43,339 --> 00:23:39,839

when Betty placed it over those spots

421

00:23:46,399 --> 00:23:43,349

the needle would but when she moved it

422

00:23:49,759 --> 00:23:46,409

to another part of the car the needle

423

00:23:53,180 --> 00:23:49,769

dropped down and this was on the trunk I

424

00:23:58,899 --> 00:23:53,190

think you might call it the bonnet yes

425

00:24:01,909 --> 00:23:58,909

and so there were so many mysteries and

426
00:24:04,609 --> 00:24:01,919
Barney was deeply disturbed about what

427
00:24:07,539 --> 00:24:04,619
he saw he had conscious continuous

428
00:24:11,930 --> 00:24:07,549
recall it's in the earliest reports of

429
00:24:15,919 --> 00:24:11,940
observing entities that were somehow not

430
00:24:22,419 --> 00:24:15,929
human dressed in shiny black uniforms

431
00:24:25,699 --> 00:24:22,429
looking down at him and he develops

432
00:24:29,619 --> 00:24:25,709
post-traumatic stress disorder over the

433
00:24:34,129 --> 00:24:29,629
experience he'd had Betty and Barney

434
00:24:37,699 --> 00:24:34,139
eventually were referred to dr. Benjamin

435
00:24:41,899 --> 00:24:37,709
Simon a renowned psychiatrist who

436
00:24:44,690 --> 00:24:41,909
treated veterans returning from World

437
00:24:48,889 --> 00:24:44,700
War two when he was served in the army

438
00:24:54,069 --> 00:24:48,899

and won two great awards for the work he

439

00:24:57,979 --> 00:24:54,079

did because he used deep trance hypnosis

440

00:24:59,200 --> 00:24:57,989

method that he had developed to help to

441

00:25:01,590 --> 00:24:59,210

resolve the

442

00:25:04,299 --> 00:25:01,600

emotional problems that cause

443

00:25:06,519 --> 00:25:04,309

physiological symptoms in all of these

444

00:25:11,320 --> 00:25:06,529

veterans who are returning from the war

445

00:25:13,930 --> 00:25:11,330

he used that on Barney as well Betty was

446

00:25:19,049 --> 00:25:13,940

not suffering from the trauma that

447

00:25:21,519 --> 00:25:19,059

Barney was Betty had not seen the

448

00:25:24,850 --> 00:25:21,529

non-human entities at least she had no

449

00:25:29,169 --> 00:25:24,860

conscious recall of that as Barney did

450

00:25:34,230 --> 00:25:29,179

and so he worked very successfully with

451
00:25:38,529 --> 00:25:34,240
Barney hypnotizing him each week for

452
00:25:41,649 --> 00:25:38,539
once a week for six months and the

453
00:25:46,779 --> 00:25:41,659
hypnosis and the psychotherapy after and

454
00:25:49,060 --> 00:25:46,789
also with Betty he hypnotized them

455
00:25:53,260 --> 00:25:49,070
separately so that they couldn't share

456
00:25:55,440 --> 00:25:53,270
information that was extremely important

457
00:25:58,360 --> 00:25:55,450
in the investigation of this case

458
00:26:01,659 --> 00:25:58,370
because one did not know what the other

459
00:26:06,880 --> 00:26:01,669
saw or said about it and in the end

460
00:26:09,180 --> 00:26:06,890
their stories meshed I just must correct

461
00:26:13,930 --> 00:26:09,190
myself when you when he said about the

462
00:26:33,399 --> 00:26:13,940
the trunk is actually the boot week and

463
00:26:36,460 --> 00:26:33,409

it's actually very fascinated about the

464

00:26:40,169 --> 00:26:36,470

starmap investigation because phantom

465

00:26:42,610 --> 00:26:40,179

was heavily involved with that was yes I

466

00:26:44,919 --> 00:26:42,620

don't know if I've sort of skipped away

467

00:26:46,419 --> 00:26:44,929

from the regression part of it unless

468

00:26:47,680 --> 00:26:46,429

used this is there more from the

469

00:26:49,690 --> 00:26:47,690

regression that you couldn't mention

470

00:26:52,830 --> 00:26:49,700

well I can tell you that Betty and

471

00:26:57,159 --> 00:26:52,840

Barney were regressed separately each

472

00:27:03,159 --> 00:26:57,169

each week a total of eleven regressions

473

00:27:06,909 --> 00:27:03,169

in all for each person and these were

474

00:27:11,080 --> 00:27:06,919

one-hour sessions I through hypnosis

475

00:27:12,899 --> 00:27:11,090

they separately recalled every part of

476

00:27:17,299 --> 00:27:12,909

their trip

477

00:27:22,999 --> 00:27:17,309

including the close encounter and then

478

00:27:26,789 --> 00:27:23,009

their memories were opened up two

479

00:27:31,289 --> 00:27:26,799

identical stories of finding themselves

480

00:27:36,029 --> 00:27:31,299

in a strange place tall trees all around

481

00:27:36,690 --> 00:27:36,039

a dirt road and a roadblock in front of

482

00:27:39,810 --> 00:27:36,700

them

483

00:27:42,149 --> 00:27:39,820

these entities walked toward the car

484

00:27:44,489 --> 00:27:42,159

Betty and Barney who became very

485

00:27:46,739 --> 00:27:44,499

frightened when they were realized that

486

00:27:50,070 --> 00:27:46,749

these were the entities that Barney had

487

00:27:52,769 --> 00:27:50,080

seen in the field Betty tried to run

488

00:27:58,049 --> 00:27:52,779

away to escape she was intercepted

489

00:27:59,369 --> 00:27:58,059

Barney was escorted after Betty to the

490

00:28:02,519 --> 00:27:59,379

craft

491

00:28:05,820 --> 00:28:02,529

Betty fought when she was being taken

492

00:28:09,239 --> 00:28:05,830

onto the craft and this is how her dress

493

00:28:12,419 --> 00:28:09,249

was torn from waist to hemline and the

494

00:28:16,139 --> 00:28:12,429

hem was torn down on one side taken on

495

00:28:20,090 --> 00:28:16,149

given very unusual physical examinations

496

00:28:24,899 --> 00:28:20,100

they were very interested in our

497

00:28:30,090 --> 00:28:24,909

skeletal systems our ligaments our

498

00:28:33,389 --> 00:28:30,100

joints our muscular system they were

499

00:28:38,489 --> 00:28:33,399

very interested in in their hair in

500

00:28:41,669 --> 00:28:38,499

their skin and took their shoes off to

501
00:28:45,109 --> 00:28:41,679
examine their feet closely examined

502
00:28:46,379 --> 00:28:45,119
their hands and these were separates

503
00:28:50,190 --> 00:28:46,389
examinations

504
00:28:52,889 --> 00:28:50,200
Betty's was first they inserted a very

505
00:28:56,340 --> 00:28:52,899
large needle into her navel that caused

506
00:28:59,099 --> 00:28:56,350
her great pain but she took they took

507
00:29:02,700 --> 00:28:59,109
the pain away when they realized it was

508
00:29:05,759 --> 00:29:02,710
hurting because of this she began to

509
00:29:09,450 --> 00:29:05,769
trust the one that she called the leader

510
00:29:13,979 --> 00:29:09,460
the he's the one that we know now as an

511
00:29:17,849 --> 00:29:13,989
escort he was a leader of sorts because

512
00:29:21,810 --> 00:29:17,859
he was the individual who was familiar

513
00:29:25,019 --> 00:29:21,820

with Betty who would take and experience

514

00:29:29,569 --> 00:29:25,029

her time and time again and

515

00:29:32,969 --> 00:29:29,579

so after Betty's examination the

516

00:29:37,919 --> 00:29:32,979

examiner went in and did an examination

517

00:29:41,429 --> 00:29:37,929

on Barney and Betty had lost her fear of

518

00:29:45,089 --> 00:29:41,439

the leader at that point she said to him

519

00:29:48,809 --> 00:29:45,099

I know you're not from around here

520

00:29:52,049 --> 00:29:48,819

there is your home court and this is

521

00:29:55,289 --> 00:29:52,059

when he produced a three-dimensional

522

00:29:58,249 --> 00:29:55,299

star map of sorts she said that it was

523

00:30:01,649 --> 00:29:58,259

like almost like looking out of a window

524

00:30:05,519 --> 00:30:01,659

and it was three-dimensional the stars

525

00:30:08,849 --> 00:30:05,529

were various sizes and various colors as

526

00:30:11,459 --> 00:30:08,859

well and some of those stars she

527

00:30:15,799 --> 00:30:11,469

understood were trade routes there were

528

00:30:22,739 --> 00:30:15,809

many lines drawn between them and then

529

00:30:25,799 --> 00:30:22,749

one of them was our Sun and others were

530

00:30:29,339 --> 00:30:25,809

connected by dotted lines and those

531

00:30:35,129 --> 00:30:29,349

dotted lines represented expeditions

532

00:30:38,939 --> 00:30:35,139

that they were taking so very very

533

00:30:42,719 --> 00:30:38,949

interesting under hypnosis dr. Simon

534

00:30:45,269 --> 00:30:42,729

gave Betty the post from hypnotic

535

00:30:48,959 --> 00:30:45,279

suggestion that if she could remember

536

00:30:52,949 --> 00:30:48,969

that map that she saw and if she was

537

00:30:56,509 --> 00:30:52,959

able to draw it without causing herself

538

00:31:00,869 --> 00:30:56,519

too much angst then she would be able to

539

00:31:03,569 --> 00:31:00,879

draw that map she did sketch that map

540

00:31:08,819 --> 00:31:03,579

and two of the stars in the foreground

541

00:31:13,279 --> 00:31:08,829

are about the sizes of nickels or even

542

00:31:17,969 --> 00:31:13,289

may be as large as quarters there was

543

00:31:19,919 --> 00:31:17,979

worth three actually smaller circles and

544

00:31:24,689 --> 00:31:19,929

then the others were more or less the

545

00:31:30,199 --> 00:31:24,699

size of pinpoints Margery fish who was a

546

00:31:31,409 --> 00:31:30,209

brilliant woman from Ohio decided to

547

00:31:34,739 --> 00:31:31,419

investigate

548

00:31:38,030 --> 00:31:34,749

Betty starmap and she began to build

549

00:31:40,470 --> 00:31:38,040

three-dimensional models

550

00:31:45,090 --> 00:31:40,480

representing our local galactic

551
00:31:48,620 --> 00:31:45,100
neighborhood out 55 light-years she had

552
00:31:52,860 --> 00:31:48,630
to go to the University and borrow

553
00:31:55,290 --> 00:31:52,870
actually sit down in the Astronomy

554
00:31:58,530 --> 00:31:55,300
Department and copy the distance data

555
00:32:01,650 --> 00:31:58,540
from their astronomical catalogs take

556
00:32:04,800 --> 00:32:01,660
that date back to her home and using

557
00:32:08,820 --> 00:32:04,810
monofilament line and beads of various

558
00:32:12,900 --> 00:32:08,830
colors and sizes build that star map

559
00:32:17,270 --> 00:32:12,910
with all of the qualities of those stars

560
00:32:22,050 --> 00:32:17,280
as to as well the size of their maps

561
00:32:26,610 --> 00:32:22,060
the color the distance all in their

562
00:32:30,090 --> 00:32:26,620
proper place on that map she looked for

563
00:32:32,940 --> 00:32:30,100

many years and she could not find an

564

00:32:37,080 --> 00:32:32,950

exact match initially she thought she'd

565

00:32:41,490 --> 00:32:37,090

find many but finally a new catalog was

566

00:32:44,730 --> 00:32:41,500

released in 1971 there was distance

567

00:32:50,370 --> 00:32:44,740

different distance data in that catalog

568

00:32:54,510 --> 00:32:50,380

and some new stars also had distance

569

00:32:57,420 --> 00:32:54,520

data that had not had it before she was

570

00:32:59,760 --> 00:32:57,430

able to take that home move some of

571

00:33:03,720 --> 00:32:59,770

those stars around she had actually

572

00:33:06,270 --> 00:33:03,730

built 14 different models but she moved

573

00:33:09,000 --> 00:33:06,280

the Stars around in one of these models

574

00:33:13,460 --> 00:33:09,010

and lo and behold she had a perfect

575

00:33:18,330 --> 00:33:13,470

match nearly four Betty's star map and

576
00:33:21,540 --> 00:33:18,340
then the problem was who would vent her

577
00:33:25,620 --> 00:33:21,550
work and this is when Stanton Friedman

578
00:33:29,760 --> 00:33:25,630
was called upon to meet with Marjorie to

579
00:33:32,130 --> 00:33:29,770
examine her work he told me that he was

580
00:33:35,010 --> 00:33:32,140
very impressed with Marjorie's

581
00:33:38,610 --> 00:33:35,020
intelligence and with her scientific

582
00:33:40,470 --> 00:33:38,620
methodology and knowledge he said that

583
00:33:42,090 --> 00:33:40,480
she could speak with a scientist he

584
00:33:44,400 --> 00:33:42,100
thought better than she was able to

585
00:33:49,980 --> 00:33:44,410
carry on a conversation with the average

586
00:33:50,730 --> 00:33:49,990
public he found scientists to vet

587
00:33:53,700 --> 00:33:50,740
Marjorie's

588
00:33:54,660 --> 00:33:53,710

work and they all said that her work was

589

00:33:59,790 --> 00:33:54,670

accurate

590

00:34:06,570 --> 00:33:59,800

so then Stanton wrote to the first

591

00:34:10,409 --> 00:34:06,580

article on Marjorie's work and continued

592

00:34:16,680 --> 00:34:10,419

to defend the snare star map based upon

593

00:34:18,419 --> 00:34:16,690

the scientific findings at some point

594

00:34:20,820 --> 00:34:18,429

with child that J Allen Hynek was

595

00:34:27,590 --> 00:34:20,830

involved in the investigation as well

596

00:34:31,460 --> 00:34:27,600

yes what skeptical of it he was he said

597

00:34:35,970 --> 00:34:31,470

scientifically skeptical because of the

598

00:34:38,220 --> 00:34:35,980

psychological part of this the the

599

00:34:44,010 --> 00:34:38,230

hypnosis Barney's post-traumatic stress

600

00:34:48,899 --> 00:34:44,020

disorder but I did meet Allen Hynek when

601
00:34:51,930 --> 00:34:48,909
he was visiting with dr. Simon Betty

602
00:34:54,960 --> 00:34:51,940
Barney and I went to dr. Simon's home

603
00:34:57,780 --> 00:34:54,970
where dr. Simon hypnotized the two of

604
00:35:00,660 --> 00:34:57,790
them together in front of Allen Hynek

605
00:35:06,060 --> 00:35:00,670
and John fuller who was the writer of

606
00:35:08,609 --> 00:35:06,070
the first book on their case and I was

607
00:35:12,060 --> 00:35:08,619
there he hypnotized them separately and

608
00:35:14,910 --> 00:35:12,070
they went through certain steps of their

609
00:35:19,320 --> 00:35:14,920
hypnosis as if they were driving in the

610
00:35:21,900 --> 00:35:19,330
car sitting in the car and talking to

611
00:35:25,130 --> 00:35:21,910
each other on about what they were

612
00:35:29,160 --> 00:35:25,140
observing I think that Allen Hynek

613
00:35:31,920 --> 00:35:29,170

believed this many of the scientists who

614

00:35:35,400 --> 00:35:31,930

did study this case believed that this

615

00:35:38,790 --> 00:35:35,410

really did happen there was the

616

00:35:42,780 --> 00:35:38,800

scientific evidence and the

617

00:35:45,510 --> 00:35:42,790

circumstantial evidence and so I think

618

00:35:50,280 --> 00:35:45,520

that was important and with regard to

619

00:35:59,640 --> 00:35:50,290

the star map there were properties that

620

00:36:01,560 --> 00:35:59,650

were highly unusual when in 1972 when

621

00:36:03,730 --> 00:36:01,570

Marjorie had completed her work and

622

00:36:06,130 --> 00:36:03,740

found the last three stars

623

00:36:09,730 --> 00:36:06,140

she found that all the pattern stars

624

00:36:12,150 --> 00:36:09,740

were sun-like although only 5% of the

625

00:36:14,740 --> 00:36:12,160

thousand stars in the local galactic

626

00:36:19,329 --> 00:36:14,750

neighborhood out 54 light years or

627

00:36:23,980 --> 00:36:19,339

sunlight and map made sense nearest star

628

00:36:26,490 --> 00:36:23,990

to nearest star if a spacecraft from

629

00:36:31,390 --> 00:36:26,500

another planet we're going to go

630

00:36:34,690 --> 00:36:31,400

exploring through space they were all in

631

00:36:37,210 --> 00:36:34,700

a plane which was like pepperoni on a

632

00:36:39,490 --> 00:36:37,220

pizza not raisins in a loaf of raisin

633

00:36:44,500 --> 00:36:39,500

bread so it would be much easier to

634

00:36:48,339 --> 00:36:44,510

travel along that plane and the pair of

635

00:36:52,359 --> 00:36:48,349

base stars was unique because there were

636

00:36:56,890 --> 00:36:52,369

39 point two light-years from the Sun

637

00:37:01,150 --> 00:36:56,900

and only 1/8 of a Lightyear apart from

638

00:37:06,099 --> 00:37:01,160

one another yet they have the properties

639

00:37:11,680 --> 00:37:06,109

of our Sun they have 93 percent of the

640

00:37:17,290 --> 00:37:11,690

solar mass 2191 percent of the diameter

641

00:37:21,339 --> 00:37:17,300

I'm on Zeta Reticuli 179 percent of the

642

00:37:25,000 --> 00:37:21,349

luminosity an abundance of iron and for

643

00:37:27,609 --> 00:37:25,010

Zeta Reticuli 2 which was at the very

644

00:37:33,339 --> 00:37:27,619

forefront the size of a quarter

645

00:37:36,370 --> 00:37:33,349

it had 99 percent of the sun's mass 99

646

00:37:38,680 --> 00:37:36,380

percent of the sun's diameter and a

647

00:37:41,680 --> 00:37:38,690

hundred and two percent of the

648

00:37:45,849 --> 00:37:41,690

luminosity so they had very special

649

00:37:49,410 --> 00:37:45,859

properties as well and I know that we

650

00:37:54,040 --> 00:37:49,420

are finally our scientists are going to

651
00:37:57,339 --> 00:37:54,050
take a look at those two stars and I'm

652
00:38:00,430 --> 00:37:57,349
very very interested in learning if they

653
00:38:04,960 --> 00:38:00,440
really do have a planets or planets

654
00:38:07,240 --> 00:38:04,970
around them I do know that it was

655
00:38:13,630 --> 00:38:07,250
announced that they did find a large

656
00:38:16,420 --> 00:38:13,640
planet around Zeta Reticuli but then

657
00:38:17,170 --> 00:38:16,430
that statement for some reason was

658
00:38:21,849 --> 00:38:17,180
withdrawn

659
00:38:25,540 --> 00:38:21,859
there's so much public interest in that

660
00:38:28,630 --> 00:38:25,550
and I know that the government is not

661
00:38:34,839 --> 00:38:28,640
very happy when it has to answer to the

662
00:38:39,400 --> 00:38:34,849
media there was another very interesting

663
00:38:43,240 --> 00:38:39,410

piece of evidence in that case - betty

664

00:38:45,549 --> 00:38:43,250

was shown alien script and she had asked

665

00:38:46,380 --> 00:38:45,559

if she could take that evidence home

666

00:38:52,180 --> 00:38:46,390

with her

667

00:38:54,280 --> 00:38:52,190

originally the the leader told her yes

668

00:38:54,970 --> 00:38:54,290

she could take it home and she was very

669

00:38:57,579 --> 00:38:54,980

happy

670

00:39:01,960 --> 00:38:57,589

this was her evidence but as she was

671

00:39:06,220 --> 00:39:01,970

leaving the craft the smaller entities

672

00:39:11,290 --> 00:39:06,230

on board who served as the guards and as

673

00:39:15,309 --> 00:39:11,300

the assistants were very upset when they

674

00:39:17,650 --> 00:39:15,319

noticed that she had that booklet

675

00:39:21,490 --> 00:39:17,660

whatever it was with her it certainly

676
00:39:25,180 --> 00:39:21,500
wasn't a book and they took it away from

677
00:39:28,480 --> 00:39:25,190
her and she was extremely upset the

678
00:39:31,569 --> 00:39:28,490
leader told her that he was sorry that

679
00:39:33,970 --> 00:39:31,579
she couldn't have it the decision had

680
00:39:37,630 --> 00:39:33,980
been made that it would be best if they

681
00:39:41,530 --> 00:39:37,640
didn't remember what had occurred and he

682
00:39:44,950 --> 00:39:41,540
apologized for frightening her one thing

683
00:39:47,049 --> 00:39:44,960
I have to mention felt this crew is that

684
00:39:49,450 --> 00:39:47,059
they were very apologetic

685
00:39:51,309 --> 00:39:49,460
they said reassured Betty and Barney

686
00:39:54,099 --> 00:39:51,319
that they would not be harmed

687
00:39:56,589 --> 00:39:54,109
that they only had a few simple tests to

688
00:39:59,349 --> 00:39:56,599

do that they would be returned to their

689

00:40:04,690 --> 00:39:59,359

car and could be on their way back home

690

00:40:07,059 --> 00:40:04,700

so they were very respectful of Betty

691

00:40:10,569 --> 00:40:07,069

and Barney even though they had grabbed

692

00:40:13,750 --> 00:40:10,579

them off the highway kidnapped them they

693

00:40:15,720 --> 00:40:13,760

tried to reassure them that they would

694

00:40:18,339 --> 00:40:15,730

do no harm

695

00:40:19,630 --> 00:40:18,349

hmm because they're also they've been

696

00:40:21,309 --> 00:40:19,640

other abductions

697

00:40:23,109 --> 00:40:21,319

I wonder if this may have been a

698

00:40:25,690 --> 00:40:23,119

different race because if they were so

699

00:40:27,849 --> 00:40:25,700

interested in Betty and Barney and

700

00:40:30,250 --> 00:40:27,859

they're looking at things like their

701

00:40:31,930 --> 00:40:30,260

hair and fingers and whatnot

702

00:40:33,880 --> 00:40:31,940

could there have been a different race I

703

00:40:36,310 --> 00:40:33,890

wonder the two other ones because we do

704

00:40:39,220 --> 00:40:36,320

hear that there are several races visit

705

00:40:43,349 --> 00:40:39,230

visiting these planet your opinions over

706

00:40:46,570 --> 00:40:43,359

on that yes there are several races

707

00:40:49,359 --> 00:40:46,580

visiting this planet I am the mutual UFO

708

00:40:53,290 --> 00:40:49,369

network director of experience or

709

00:40:58,120 --> 00:40:53,300

research I have a team of 33 people who

710

00:41:01,440 --> 00:40:58,130

work on my team and we receive up to a

711

00:41:05,770 --> 00:41:01,450

hundred and fifty reports per month from

712

00:41:08,830 --> 00:41:05,780

individuals who are just looking for

713

00:41:14,620 --> 00:41:08,840

someone that they can talk with about

714

00:41:17,770 --> 00:41:14,630

this who will not criticize them and so

715

00:41:23,280 --> 00:41:17,780

and I've also conducted and worked on

716

00:41:31,660 --> 00:41:28,660

experiences as well and Betty and Barney

717

00:41:32,320 --> 00:41:31,670

remember we were not aware that anyone

718

00:41:34,480 --> 00:41:32,330

else

719

00:41:37,270 --> 00:41:34,490

had been abducted before Betty and

720

00:41:43,210 --> 00:41:37,280

Barney we found out later that there was

721

00:41:47,140 --> 00:41:43,220

an abduction in Brazil the Antonia Vyasa

722

00:41:49,750 --> 00:41:47,150

Boas case but we didn't know that in the

723

00:41:54,010 --> 00:41:49,760

United States when Betty and Barney were

724

00:41:57,130 --> 00:41:54,020

taken in 1961 I have since worked with

725

00:41:59,500 --> 00:41:57,140

people I'm also a hypnotherapist and a

726

00:42:03,960 --> 00:41:59,510

quantum healing hypnosis practitioner

727

00:42:07,720 --> 00:42:03,970

and I have worked with people who have

728

00:42:10,660 --> 00:42:07,730

encountered various races of entities

729

00:42:14,320 --> 00:42:10,670

and some of them seem to work together

730

00:42:17,760 --> 00:42:14,330

others seem not to work with the other

731

00:42:20,349 --> 00:42:17,770

groups there are I'm aware of several

732

00:42:23,650 --> 00:42:20,359

different races of what we call the

733

00:42:26,260 --> 00:42:23,660

graves and it appears that Betty and

734

00:42:30,520 --> 00:42:26,270

Barney were visited by one of those

735

00:42:34,090 --> 00:42:30,530

races of Gray's their skin was gray

736

00:42:39,730 --> 00:42:34,100

they had a slip for a mouth no visible

737

00:42:42,160 --> 00:42:39,740

ears and only holes flat nose very very

738

00:42:43,690 --> 00:42:42,170

tiny just a little upturn with a couple

739

00:42:46,720 --> 00:42:43,700

of nostrils

740

00:42:51,130 --> 00:42:46,730

that sort of wrapped around to the sides

741

00:42:53,710 --> 00:42:51,140

of their heads they could see what

742

00:42:56,589 --> 00:42:53,720

reminded them of cattle eyes they

743

00:43:01,510 --> 00:42:56,599

reflected in the dark and they didn't

744

00:43:05,319 --> 00:43:01,520

have those black lenses over their eyes

745

00:43:07,480 --> 00:43:05,329

like we hear so often their heads were

746

00:43:11,020 --> 00:43:07,490

larger in proportion to their bodies

747

00:43:15,510 --> 00:43:11,030

than humans their chests were fairly

748

00:43:18,160 --> 00:43:15,520

large but they had very spindly limbs

749

00:43:20,289 --> 00:43:18,170

they walked a little differently than

750

00:43:23,020 --> 00:43:20,299

humans as as well as if they were

751

00:43:27,520 --> 00:43:23,030

jointed their joints were somewhat

752

00:43:31,240 --> 00:43:27,530

different and they were completely

753

00:43:36,730 --> 00:43:31,250

hairless dressed in black shiny uniforms

754

00:43:39,339 --> 00:43:36,740

and so that's the way they appeared

755

00:43:43,450 --> 00:43:39,349

there was a smaller group there were two

756

00:43:45,280 --> 00:43:43,460

of the taller ones who looked a little

757

00:43:48,400 --> 00:43:45,290

more human

758

00:43:51,849 --> 00:43:48,410

but that race does look a little more

759

00:43:54,430 --> 00:43:51,859

human than our stereotypical image of

760

00:43:58,470 --> 00:43:54,440

the greys and then there were the

761

00:44:01,690 --> 00:43:58,480

stereotypical little greys who might be

762

00:44:05,710 --> 00:44:01,700

biomechanical I don't know for certain

763

00:44:08,260 --> 00:44:05,720

but that's a speculation I have they had

764

00:44:10,750 --> 00:44:08,270

larger heads in proportion to their

765

00:44:15,460 --> 00:44:10,760

bodies they were shorter than the other

766

00:44:17,049 --> 00:44:15,470

two and they did have black eyes have

767

00:44:19,450 --> 00:44:17,059

you got any sort of estimate how many

768

00:44:21,220 --> 00:44:19,460

racers maybe does it in the planet or I

769

00:44:25,319 --> 00:44:21,230

mean I've heard I've heard something

770

00:44:28,089 --> 00:44:25,329

from something between 17 to 100 yes

771

00:44:32,500 --> 00:44:28,099

people speculate many many different

772

00:44:36,069 --> 00:44:32,510

racers I think that we have to consider

773

00:44:39,880 --> 00:44:36,079

the those that are most frequently

774

00:44:45,030 --> 00:44:39,890

reported and those are from several

775

00:44:50,140 --> 00:44:45,040

racers of grace also human looking

776

00:44:52,569 --> 00:44:50,150

entities who are not completely human

777

00:44:56,140 --> 00:44:52,579

they speak telepathically they're very

778

00:44:58,839 --> 00:44:56,150

attractive humans and

779

00:45:05,170 --> 00:44:58,849

they state that theory they lived to be

780

00:45:08,470 --> 00:45:05,180

800 to 900 years and that they did live

781

00:45:11,559 --> 00:45:08,480

on earth at one time in our distant past

782

00:45:14,700 --> 00:45:11,569

but the planet had become uninhabitable

783

00:45:19,359 --> 00:45:14,710

at that point and they had to move on

784

00:45:23,650 --> 00:45:19,369

there's also a group of in insectoids

785

00:45:27,130 --> 00:45:23,660

mantis type beings that seemed to work

786

00:45:32,380 --> 00:45:27,140

with the greys and sometimes work with

787

00:45:36,579 --> 00:45:32,390

that race of human type aliens before

788

00:45:40,180 --> 00:45:36,589

you and then we have the reptilian race

789

00:45:43,480 --> 00:45:40,190

that and of course there were three

790

00:45:47,109 --> 00:45:43,490

different types of reptilians ranging

791

00:45:51,250 --> 00:45:47,119

from a lizard type to kind of an

792

00:45:54,460 --> 00:45:51,260

alligator kind of face like to an actual

793

00:45:56,620 --> 00:45:54,470

draconian type with a tail they tend not

794

00:46:02,490 --> 00:45:56,630

to work with the other races unless

795

00:46:06,010 --> 00:46:02,500

they've captured them and then we have

796

00:46:10,269 --> 00:46:06,020

also reports of tall whites tall

797

00:46:14,349 --> 00:46:10,279

Golden's Ballou entities and then it

798

00:46:17,170 --> 00:46:14,359

diminishes significantly after that some

799

00:46:21,700 --> 00:46:17,180

people think that Sasquatch is actually

800

00:46:26,200 --> 00:46:21,710

an interdimensional alien kind of being

801
00:46:29,319 --> 00:46:26,210
I don't know this is just I'm - giving

802
00:46:35,049 --> 00:46:29,329
you information based upon the studies

803
00:46:37,029 --> 00:46:35,059
that I have participated in you can do

804
00:46:41,080 --> 00:46:37,039
what the information comes your way cool

805
00:46:43,440 --> 00:46:41,090
yeah yeah it's interesting stuff though

806
00:46:46,269 --> 00:46:43,450
[Music]

807
00:46:49,930 --> 00:46:46,279
how do you see your future role in

808
00:46:52,299 --> 00:46:49,940
ufology I mean are you gonna know Stan's

809
00:47:00,519 --> 00:46:52,309
left a big hole with do you feel you

810
00:47:05,109 --> 00:47:00,529
could no no and I'm not a Stanton

811
00:47:07,750 --> 00:47:05,119
Friedman thought oh very much alike in

812
00:47:09,460 --> 00:47:07,760
our reasoning that's one reason we

813
00:47:12,760 --> 00:47:09,470

worked so well together my

814

00:47:17,560 --> 00:47:12,770

background is in sociology education and

815

00:47:20,589 --> 00:47:17,570

Social Work and I intend to continue I

816

00:47:24,180 --> 00:47:20,599

have written a new book which will be

817

00:47:27,250 --> 00:47:24,190

released on September 1st it's for

818

00:47:29,470 --> 00:47:27,260

experiencers their families their loved

819

00:47:33,359 --> 00:47:29,480

ones their friends and anyone who is

820

00:47:36,580 --> 00:47:33,369

interested in this topic it's titled

821

00:47:42,460 --> 00:47:36,590

extraterrestrial contact what to do when

822

00:47:46,270 --> 00:47:42,470

you've been abducted and so I will be

823

00:47:49,690 --> 00:47:46,280

speaking at many many conferences this

824

00:47:52,980 --> 00:47:49,700

summer and into the fall they're all

825

00:47:58,750 --> 00:47:52,990

listed on my website at Kathleen -

826

00:48:02,320 --> 00:47:58,760

Mardon ma rden dot-com and I I will

827

00:48:06,190 --> 00:48:02,330

continue in in my work with experiencers

828

00:48:09,970 --> 00:48:06,200

I might even do some more archival

829

00:48:13,000 --> 00:48:09,980

research like I did with Stanton it was

830

00:48:17,140 --> 00:48:13,010

very enjoyable I like it very much

831

00:48:21,339 --> 00:48:17,150

particularly government documents but I

832

00:48:24,450 --> 00:48:21,349

am also working in support in a support

833

00:48:27,940 --> 00:48:24,460

role with experiencers I will be doing

834

00:48:30,510 --> 00:48:27,950

support sessions at several conferences

835

00:48:33,760 --> 00:48:30,520

support groups workshops for

836

00:48:36,250 --> 00:48:33,770

experiencers and PowerPoint

837

00:48:39,400 --> 00:48:36,260

presentations as well and I'm very

838

00:48:43,300 --> 00:48:39,410

interested in communication what are

839

00:48:45,849 --> 00:48:43,310

these non-human entities telling us in

840

00:48:48,130 --> 00:48:45,859

the past we've always focused upon the

841

00:48:51,220 --> 00:48:48,140

evidence the physical evidence

842

00:48:53,109 --> 00:48:51,230

what exactly happened on that craft it's

843

00:48:56,349 --> 00:48:53,119

time to move on we have a lot of

844

00:48:58,480 --> 00:48:56,359

information on that why are they here

845

00:49:01,720 --> 00:48:58,490

that's the important thing that I want

846

00:49:07,870 --> 00:49:01,730

to know and what is their relationship

847

00:49:12,040 --> 00:49:07,880

with humans and so I do have a new

848

00:49:15,880 --> 00:49:12,050

PowerPoint presentation on communication

849

00:49:19,839 --> 00:49:15,890

with these non-human intelligent

850

00:49:21,640 --> 00:49:19,849

entities how do you feel about the

851
00:49:22,960 --> 00:49:21,650
disclosure movement you think we've

852
00:49:24,910 --> 00:49:22,970
actually been

853
00:49:27,430 --> 00:49:24,920
in my mind I think a lot of it has

854
00:49:29,529 --> 00:49:27,440
actually been disclosed a lot of

855
00:49:31,150 --> 00:49:29,539
paperwork has been released but there's

856
00:49:33,069 --> 00:49:31,160
so much of it being pushed out there

857
00:49:34,930 --> 00:49:33,079
that you've got you got to find it

858
00:49:38,099 --> 00:49:34,940
yes well you have to go to credible

859
00:49:43,930 --> 00:49:38,109
sources and the black vault is one

860
00:49:46,420 --> 00:49:43,940
credible source and there are a lot of

861
00:49:51,250 --> 00:49:46,430
documents there that have been analyzed

862
00:49:57,059 --> 00:49:51,260
and and are real the disclosure movement

863
00:50:01,450 --> 00:49:57,069

is moving ahead I think on December 16

864

00:50:03,940 --> 00:50:01,460

2017 the New York Times printed an

865

00:50:07,690 --> 00:50:03,950

article on the front page and it was

866

00:50:10,150 --> 00:50:07,700

about a secret program that had been

867

00:50:13,809 --> 00:50:10,160

conducted through the Pentagon and

868

00:50:19,270 --> 00:50:13,819

funded through Congress by Senator Harry

869

00:50:22,150 --> 00:50:19,280

Reid's work to study UFOs that might be

870

00:50:26,430 --> 00:50:22,160

a threat to national security it was

871

00:50:31,269 --> 00:50:26,440

called the advanced aerospace threat

872

00:50:35,470 --> 00:50:31,279

identification program and so far they

873

00:50:39,460 --> 00:50:35,480

have released videos of two different

874

00:50:42,970 --> 00:50:39,470

UFOs with highly unusual properties that

875

00:50:45,220 --> 00:50:42,980

have been studied scientifically they do

876

00:50:48,039 --> 00:50:45,230

not believe that they are from this

877

00:50:51,670 --> 00:50:48,049

planet because of the things that they

878

00:50:55,690 --> 00:50:51,680

are able to do they can stop on a dime

879

00:51:01,180 --> 00:50:55,700

they can stay still in the air without

880

00:51:05,710 --> 00:51:01,190

making any sound whatsoever there is a

881

00:51:09,099 --> 00:51:05,720

plasma field around them they are able

882

00:51:11,950 --> 00:51:09,109

to ascend and descend very very rapidly

883

00:51:16,500 --> 00:51:11,960

they're able to plunge into the ocean

884

00:51:21,279 --> 00:51:16,510

and then move up into the air vertically

885

00:51:24,750 --> 00:51:21,289

again there have been interviews with

886

00:51:28,720 --> 00:51:24,760

David flavour who was an highly

887

00:51:32,500 --> 00:51:28,730

experienced naval pilot who was on one

888

00:51:35,260 --> 00:51:32,510

of those planes that had these UFOs on

889

00:51:39,700 --> 00:51:35,270

radar and

890

00:51:46,840 --> 00:51:39,710

it was Lu Elizondo who was the head of

891

00:51:53,650 --> 00:51:46,850

the a tip program from there a rock star

892

00:51:55,690 --> 00:51:53,660

who had been very very popular had an

893

00:51:58,720 --> 00:51:55,700

interest in all of this and he put

894

00:52:00,730 --> 00:51:58,730

together the to the stars Academy for

895

00:52:03,640 --> 00:52:00,740

arts and science and he was able to

896

00:52:06,130 --> 00:52:03,650

attract Lu Elizondo who had left the

897

00:52:13,600 --> 00:52:06,140

agent program because of the

898

00:52:18,000 --> 00:52:13,610

overwhelming secrecy and he and others

899

00:52:21,220 --> 00:52:18,010

were able to attract several individuals

900

00:52:25,840 --> 00:52:21,230

top-level scientists for the government

901
00:52:31,240 --> 00:52:25,850
and military intelligence people CIA

902
00:52:34,060 --> 00:52:31,250
people and they are working together you

903
00:52:37,510 --> 00:52:34,070
on disclosure and I think that

904
00:52:40,570 --> 00:52:37,520
disclosure is probably going to has

905
00:52:43,270 --> 00:52:40,580
happened Lu Elizondo said it did happen

906
00:52:46,510 --> 00:52:43,280
on the front page of the New York Times

907
00:52:49,390 --> 00:52:46,520
they don't publish false information it

908
00:52:51,940 --> 00:52:49,400
has to be checked out but it will

909
00:52:54,250 --> 00:52:51,950
continue to take place in the United

910
00:52:57,370 --> 00:52:54,260
States and you know we're the ones who

911
00:52:58,900 --> 00:52:57,380
always dragged our feet other countries

912
00:53:02,220 --> 00:52:58,910
have been much more willing to come

913
00:53:06,300 --> 00:53:02,230

forward with their UFO FILES so I think

914

00:53:09,180 --> 00:53:06,310

I'm off to mystic that it will happen

915

00:53:12,430 --> 00:53:09,190

unless you know in the UK if they've

916

00:53:14,920 --> 00:53:12,440

really released a torrent of UFO FILES

917

00:53:16,540 --> 00:53:14,930

and I think a lot of it a lot of

918

00:53:17,950 --> 00:53:16,550

disclosure who's actually buried it

919

00:53:19,090 --> 00:53:17,960

amongst all that and you've really got

920

00:53:20,800 --> 00:53:19,100

to go through it

921

00:53:25,210 --> 00:53:20,810

it's like putting it it's like hugging a

922

00:53:28,380 --> 00:53:25,220

tree and I think this work is very

923

00:53:31,870 --> 00:53:28,390

tedious because you have to go through

924

00:53:36,730 --> 00:53:31,880

thousands of files before you can find a

925

00:53:39,250 --> 00:53:36,740

gem yeah I mean on my soft colored Amish

926

00:53:41,680 --> 00:53:39,260

the paranormal dimensions sites on

927

00:53:44,470 --> 00:53:41,690

Facebook obviously leaked to this

928

00:53:46,120 --> 00:53:44,480

program so I will put a lot of links and

929

00:53:49,120 --> 00:53:46,130

things to yourself and your your website

930

00:53:53,230 --> 00:53:49,130

and books and

931

00:53:54,730 --> 00:53:53,240

I've got a few more minutes to see if I

932

00:53:56,769 --> 00:53:54,740

can phone a couple of questions now that

933

00:53:59,519 --> 00:53:56,779

what interested that pink powdery

934

00:54:02,319 --> 00:53:59,529

substance that was on Betty's dress was

935

00:54:05,410 --> 00:54:02,329

opposed any bit was animal suit has been

936

00:54:09,519 --> 00:54:05,420

analyzed six different scientific

937

00:54:11,829 --> 00:54:09,529

laboratories the beginning the first was

938

00:54:13,870 --> 00:54:11,839

the University of Cincinnati chemistry

939

00:54:16,809 --> 00:54:13,880

department they did everything they

940

00:54:22,660 --> 00:54:16,819

could to try to analyze what that powder

941

00:54:25,630 --> 00:54:22,670

was and to create that on her dress to

942

00:54:29,490 --> 00:54:25,640

bleach it out to do everything they

943

00:54:33,250 --> 00:54:29,500

could not create that same effect on

944

00:54:37,750 --> 00:54:33,260

Betty's dress they it has been analyzed

945

00:54:42,010 --> 00:54:37,760

by several other the scientist at five

946

00:54:45,400 --> 00:54:42,020

additional ones who were at the top of

947

00:54:49,029 --> 00:54:45,410

their field highly qualified and no one

948

00:54:55,000 --> 00:54:49,039

has ever able to identify that powder

949

00:54:59,410 --> 00:54:55,010

the speculation is that the non-human

950

00:55:04,000 --> 00:54:59,420

entities hands had either a fungus or a

951
00:55:05,680 --> 00:55:04,010
yeast on them that because the areas of

952
00:55:10,210 --> 00:55:05,690
Betty's dress that were most heavily

953
00:55:11,890 --> 00:55:10,220
saturated with that pink powder were the

954
00:55:17,380 --> 00:55:11,900
areas where Betty stated they had

955
00:55:21,210 --> 00:55:17,390
touched her and so what the speculation

956
00:55:24,309 --> 00:55:21,220
is is that perhaps they used a

957
00:55:26,950 --> 00:55:24,319
sterilization process on Betty's

958
00:55:30,670 --> 00:55:26,960
clothing on Betty when she entered the

959
00:55:34,210 --> 00:55:30,680
craft it killed the bacteria and that

960
00:55:37,150 --> 00:55:34,220
this fungus or yeast deposited from

961
00:55:41,609 --> 00:55:37,160
their hands onto the dress grew and

962
00:55:45,160 --> 00:55:41,619
flourished and then died off the the

963
00:55:48,430 --> 00:55:45,170

substance florist under a blacklight and

964

00:55:52,980 --> 00:55:48,440

will find that that certain yeasts and

965

00:55:56,170 --> 00:55:52,990

funguses do as well this is still exist

966

00:55:59,289 --> 00:55:56,180

yes her loose her dress is in an

967

00:56:02,130 --> 00:55:59,299

archival collection at the University of

968

00:56:06,250 --> 00:56:02,140

New Hampshire her alma mater

969

00:56:07,570 --> 00:56:06,260

right so is it I'll be can I just wonder

970

00:56:11,530 --> 00:56:07,580

if it might end up in the roswell museum

971

00:56:14,140 --> 00:56:11,540

or something at some point no it won't

972

00:56:17,440 --> 00:56:14,150

there are photographs of her dress I'm

973

00:56:21,160 --> 00:56:17,450

giving a lot of my archival collection

974

00:56:23,290 --> 00:56:21,170

to the roswell museum and the

975

00:56:26,560 --> 00:56:23,300

photographs of the dress so they have

976

00:56:29,530 --> 00:56:26,570

that but they don't have the dress

977

00:56:31,800 --> 00:56:29,540

itself it will remain at the University

978

00:56:34,360 --> 00:56:31,810

of New Hampshire in Betty's and Barney's

979

00:56:37,870 --> 00:56:34,370

archival collection there are two

980

00:56:40,660 --> 00:56:37,880

archives in their names one is for their

981

00:56:43,990 --> 00:56:40,670

civil rights activities their their work

982

00:56:48,010 --> 00:56:44,000

in the civil rights movement in the

983

00:56:52,600 --> 00:56:48,020

United States and also their UFO

984

00:56:55,660 --> 00:56:52,610

collection that's really where it should

985

00:56:59,590 --> 00:56:55,670

be isn't it so yes yeah it would be nice

986

00:57:01,510 --> 00:56:59,600

to have part of it at the Roswell Museum

987

00:57:04,300 --> 00:57:01,520

but when I gave the dress to the

988

00:57:07,720 --> 00:57:04,310

university I hadn't even thought about

989

00:57:14,590 --> 00:57:07,730

cutting out a piece of it to give to the

990

00:57:16,480 --> 00:57:14,600

museum unfortunately yeah so what keeps

991

00:57:20,010 --> 00:57:16,490

you motivated in this business is

992

00:57:24,970 --> 00:57:20,020

anything any disappointments sometimes

993

00:57:29,080 --> 00:57:24,980

I'm fascinated by this research I'm

994

00:57:33,070 --> 00:57:29,090

constantly looking for the answers and

995

00:57:37,000 --> 00:57:33,080

when I find one answer I move on to to

996

00:57:40,840 --> 00:57:37,010

look for another so that consumes nearly

997

00:57:42,310 --> 00:57:40,850

all of my time in addition to the work

998

00:57:44,740 --> 00:57:42,320

that I do with the Edgar Mitchell

999

00:57:46,290 --> 00:57:44,750

foundation research into

1000

00:57:49,390 --> 00:57:46,300

extraterrestrial and extraordinary

1001
00:57:53,170 --> 00:57:49,400
encounters and the mutual UFO network

1002
00:57:57,460 --> 00:57:53,180
I'm very busy with those I'm speaking at

1003
00:58:01,990 --> 00:57:57,470
conferences and I will write another

1004
00:58:05,920 --> 00:58:02,000
book as well I'm just I have to decide

1005
00:58:08,170 --> 00:58:05,930
what I'm going to write it on should I

1006
00:58:11,050 --> 00:58:08,180
write a book on Stanton's life the

1007
00:58:13,270 --> 00:58:11,060
Stanton that I knew and my memories of

1008
00:58:15,099 --> 00:58:13,280
the work we did together I think that

1009
00:58:17,709 --> 00:58:15,109
would be really a lot of

1010
00:58:19,059 --> 00:58:17,719
to do yeah I think that should be done

1011
00:58:19,779 --> 00:58:19,069
there see carefully no I think that

1012
00:58:21,579 --> 00:58:19,789
would be wonderful

1013
00:58:23,079 --> 00:58:21,589

I think somebody should yeah I

1014

00:58:28,660 --> 00:58:23,089

definitely that I think you really

1015

00:58:31,959 --> 00:58:28,670

should do that thank you for your

1016

00:58:36,579 --> 00:58:31,969

opinion receive the same opinions from

1017

00:58:38,650 --> 00:58:36,589

several other individuals yeah anyway

1018

00:58:41,529 --> 00:58:38,660

thank you very much for your time I'm

1019

00:58:43,089 --> 00:58:41,539

afraid that's gone so quickly yeah it's

1020

00:58:47,259 --> 00:58:43,099

been wonderful thank you so much again

1021

00:58:50,229 --> 00:58:47,269

for sparing your time once again Ross is

1022

00:58:51,969 --> 00:58:50,239

here confirmed and sees it you know how

1023

00:58:53,709 --> 00:58:51,979

everyone feels about I mean I think we

1024

00:58:56,410 --> 00:58:53,719

were all shocked and disappointed and

1025

00:58:59,949 --> 00:58:56,420

upset and all the other words of

1026
00:59:02,170 --> 00:58:59,959
description that's a yes but again Thank

1027
00:59:04,150 --> 00:59:02,180

00:59:09,069 --> 00:59:05,450

1030
00:59:10,870 --> 00:59:09,079
you're talking about and all cause I

1031
