7  
00:00:30,580 --> 00:00:29,859  
you foes exit electric blue light over

8  
00:00:33,610 --> 00:00:30,590  
Miami

9  
00:00:35,500 --> 00:00:33,620  
I was outside my house when I saw this

10  
00:00:37,750 --> 00:00:35,510  
star-like object that caught my

11  
00:00:39,880 --> 00:00:37,760  
attention because it was emitting a bow

12  
00:00:42,160 --> 00:00:39,890  
wave in front of it there was another

13  
00:00:44,500 --> 00:00:42,170

ship behind it following the main bigger

14

00:00:47,110 --> 00:00:44,510

one and then the bigger one did this

15

00:00:49,900 --> 00:00:47,120

huge spray like bow wave in midair look

16

00:00:52,210 --> 00:00:49,910

just like the China sighting in 2010 as

17

00:00:54,670 --> 00:00:52,220

soon as this happened the other ship

18

00:00:57,219 --> 00:00:54,680

behind it divided into two smaller ships

19

00:00:59,770 --> 00:00:57,229

and continued to follow the bigger one

20

00:01:02,049 --> 00:00:59,780

after a while they were out of our sight

21

00:01:04,390 --> 00:01:02,059

but there was an electric ride blue

22

00:01:06,250 --> 00:01:04,400

cloud in the sky much more different

23

00:01:11,350 --> 00:01:06,260

than the rest that disappeared a little

24

00:01:13,270 --> 00:01:11,360

bit after the ships were gone follow up

25

00:01:15,820 --> 00:01:13,280

to you a false exit electric blue light

26

00:01:17,649 --> 00:01:15,830

over Miami Florida I took one look at

27

00:01:19,810 --> 00:01:17,659

the photos of a blue cloud type flight

28

00:01:22,060 --> 00:01:19,820

over Miami and immediately thought of a

29

00:01:24,700 --> 00:01:22,070

similar light over Birmingham Alabama in

30

00:01:27,039 --> 00:01:24,710

the late 70s the anomaly was witnessed

31

00:01:29,289 --> 00:01:27,049

by much of the populace and was covered

32

00:01:31,419 --> 00:01:29,299

by local news stations the light

33

00:01:33,639 --> 00:01:31,429

occurred in the western sky just as the

34

00:01:36,190 --> 00:01:33,649

Sun set below the horizon it was

35

00:01:38,469 --> 00:01:36,200

mesmerizing our whole subdivision walked

36

00:01:40,749 --> 00:01:38,479

outside and watched it after a little

37

00:01:42,249 --> 00:01:40,759

hoopla a spokesperson stated it was a

38

00:01:44,649 --> 00:01:42,259

weather balloon that burst in the

39

00:01:46,630 --> 00:01:44,659

atmosphere I was just a preteen at the

40

00:01:49,120 --> 00:01:46,640

time so I don't remember where the

41

00:01:50,800 --> 00:01:49,130

balloon explanation came from I would

42

00:01:53,169 --> 00:01:50,810

imagine it was an Air Force release

43

00:01:54,969 --> 00:01:53,179

there is an Air Force facility that

44

00:01:59,289 --> 00:01:54,979

shares facilities at the Birmingham

45

00:02:01,289 --> 00:01:59,299

Airport 117 air refueling wing it was an

46

00:02:04,059 --> 00:02:01,299

f4 fighter reserve wing at the time

47

00:02:06,429 --> 00:02:04,069

Maxwell Air Force Base is one and a half

48

00:02:08,109 --> 00:02:06,439

hours away in Montgomery after the

49

00:02:10,600 --> 00:02:08,119

balloon announcement the news never

50

00:02:13,600 --> 00:02:10,610

pursued the subject any further now a

51  
00:02:15,520 --> 00:02:13,610  
couple of questions arise first I wonder

52  
00:02:17,770 --> 00:02:15,530  
if anyone ever got a photo of the light

53  
00:02:19,770 --> 00:02:17,780  
over Birmingham the press didn't cover

54  
00:02:22,210 --> 00:02:19,780  
the story until the light had subsided

55  
00:02:23,559 --> 00:02:22,220  
second does anyone have a photo of a

56  
00:02:26,199 --> 00:02:23,569  
weather balloon bursting in the

57  
00:02:28,180 --> 00:02:26,209  
atmosphere I have found a few online and

58  
00:02:29,610 --> 00:02:28,190  
nothing compares to the Miami lighter

59  
00:02:31,920 --> 00:02:29,620  
the light over Berman

60  
00:02:33,479 --> 00:02:31,930  
I asked a latter question because I have

61  
00:02:35,490 --> 00:02:33,489  
a feeling that a weather balloon may be

62  
00:02:38,040 --> 00:02:35,500  
used for an explanation if an

63  
00:02:39,750 --> 00:02:38,050

explanation is given it all if I had a

64

00:02:47,860 --> 00:02:39,760

dollar for every time a weather balloon

65

00:02:53,300 --> 00:02:50,839

the Illinois driver follows low hovering

66

00:02:55,550 --> 00:02:53,310

lights near Urbana I saw lights hovering

67

00:02:57,800 --> 00:02:55,560

over highway I thought it was an

68

00:03:01,430 --> 00:02:57,810

airplane but it didn't move as I came up

69

00:03:04,250 --> 00:03:01,440

on it at 12:25 a.m. August 15 coming

70

00:03:07,309 --> 00:03:04,260

home from work I turned from US 130 on

71

00:03:09,380 --> 00:03:07,319

to us 150 heading east leaving a bonnet

72

00:03:11,630 --> 00:03:09,390

hill and as I came over a very small

73

00:03:13,610 --> 00:03:11,640

Ridge I saw a bright white lights

74

00:03:16,190 --> 00:03:13,620

directly over the highway about four

75

00:03:18,319 --> 00:03:16,200

miles away I thought it's strange to see

76

00:03:20,089 --> 00:03:18,329

something that bright and low well I

77

00:03:22,339 --> 00:03:20,099

thought it was just a small plane

78

00:03:24,410 --> 00:03:22,349

following the highway and expected it to

79

00:03:25,819 --> 00:03:24,420

turn and go on its way but it just

80

00:03:28,130 --> 00:03:25,829

stayed over to the road

81

00:03:30,199 --> 00:03:28,140

I traveled one mile and was going to

82

00:03:32,000 --> 00:03:30,209

make my turn to go home but the lights

83

00:03:34,220 --> 00:03:32,010

was still there and seemed to be not

84

00:03:36,319 --> 00:03:34,230

moving so I stayed on highway and

85

00:03:38,390 --> 00:03:36,329

thought I would go to next crossroads in

86

00:03:40,940 --> 00:03:38,400

May the Illinois just to satisfy my

87

00:03:43,339 --> 00:03:40,950

curiosity and would only be a mile out

88

00:03:43,729 --> 00:03:43,349

of my way and see why this light wasn't

89

00:03:46,460 --> 00:03:43,739

moving

90

00:03:48,500 --> 00:03:46,470

well I got to my second crossroads and

91

00:03:50,750 --> 00:03:48,510

the lights were still there but it moved

92

00:03:53,059 --> 00:03:50,760

south a little off highway and I thought

93

00:03:55,129 --> 00:03:53,069

to myself this is really strange so

94

00:03:57,349 --> 00:03:55,139

instead of turning off I continued down

95

00:03:59,809 --> 00:03:57,359

the highway slowly and I noticed the

96

00:04:02,089 --> 00:03:59,819

lights had moved south as I came upon an

97

00:04:04,909 --> 00:04:02,099

elevator called full sighting just in

98

00:04:07,220 --> 00:04:04,919

mile east of mavey just 200 yards to the

99

00:04:09,259 --> 00:04:07,230

south of the highway I was looking out

100

00:04:11,599 --> 00:04:09,269

my front windshield and saw two white

101  
00:04:13,520 --> 00:04:11,609  
lights on the ends and in between I saw

102  
00:04:15,770 --> 00:04:13,530  
a violet lights red lights blue lights

103  
00:04:17,900 --> 00:04:15,780  
and green lights some were blinking

104  
00:04:20,449 --> 00:04:17,910  
rapidly some slowly and some stayed

105  
00:04:23,960 --> 00:04:20,459  
constant the lights were about fifty to

106  
00:04:26,779 --> 00:04:23,970  
seventy feet long and about 150 to 200

107  
00:04:29,270 --> 00:04:26,789  
feet in the air and about 200 to 300

108  
00:04:31,909 --> 00:04:29,280  
yards away now this where I started

109  
00:04:33,469 --> 00:04:31,919  
acting strange as I was watching it I

110  
00:04:35,420 --> 00:04:33,479  
thought I would stop and get out of my

111  
00:04:37,850 --> 00:04:35,430  
truck and get a detailed look at this

112  
00:04:39,950 --> 00:04:37,860  
because I noticed no other cars coming

113  
00:04:42,390 --> 00:04:39,960

so I could stop right there and get out

114

00:04:44,520 --> 00:04:42,400

but something in my head said no

115

00:04:46,620 --> 00:04:44,530

don't want to get out of the truck so I

116

00:04:48,870 --> 00:04:46,630

said to myself I'm gonna pretend I don't

117

00:04:51,120 --> 00:04:48,880

see this thing and I'm gonna go to the

118

00:04:53,040 --> 00:04:51,130

next road and turn around get my phone

119

00:04:54,960 --> 00:04:53,050

camera out and take a picture of this

120

00:04:57,360 --> 00:04:54,970

thing but when I turned around it was

121

00:05:00,120 --> 00:04:57,370

gone and also this whole time there was

122

00:05:02,249 --> 00:05:00,130

no noise when I came back to where I saw

123

00:05:04,110 --> 00:05:02,259

it I started scanning the sky and saw

124

00:05:06,810 --> 00:05:04,120

the same lights had moved back to the

125

00:05:09,330 --> 00:05:06,820

southwest and they were gone next day I

126  
00:05:11,460 --> 00:05:09,340  
got on Google Maps and located the area

127  
00:05:14,129 --> 00:05:11,470  
where I saw and saw a private grass

128  
00:05:16,230 --> 00:05:14,139  
landing strip and thought to myself okay

129  
00:05:18,090 --> 00:05:16,240  
someone had something up so I called the

130  
00:05:20,070 --> 00:05:18,100  
person who owns it and told him what I

131  
00:05:22,230 --> 00:05:20,080  
saw and he said he flies small

132  
00:05:24,719 --> 00:05:22,240  
single-engine planes but it landed

133  
00:05:26,520 --> 00:05:24,729  
before sundown and he said he and no one

134  
00:05:29,370 --> 00:05:26,530  
else would have anything that big in

135  
00:05:31,529 --> 00:05:29,380  
there or be flying after sundown also on

136  
00:05:34,439 --> 00:05:31,539  
Saturday September 8th I saw the same

137  
00:05:37,200 --> 00:05:34,449  
likes from my house at around 9:30 p.m.

138  
00:05:40,140 --> 00:05:37,210

they were about 3/4 of a mile east of my

139

00:05:41,939 --> 00:05:40,150

house which would be 2.5 miles north of

140

00:05:45,540 --> 00:05:41,949

where the previous encounter happened

141

00:05:47,730 --> 00:05:45,550

this light was about 100 to 150 feet in

142

00:05:50,070 --> 00:05:47,740

the air moving very slowly south I

143

00:05:52,170 --> 00:05:50,080

yelled at my wife that I am looking at

144

00:05:54,330 --> 00:05:52,180

the same object I saw three weeks before

145

00:05:56,370 --> 00:05:54,340

and told her I'm getting in the truck

146

00:05:58,680 --> 00:05:56,380

with camcorder and binoculars and get a

147

00:06:00,810 --> 00:05:58,690

video but when I came out the house I

148

00:06:03,540 --> 00:06:00,820

could see this light fly away at high

149

00:06:09,880 --> 00:06:03,550

speed southeast and was over st. Joseph

150

00:06:15,500 --> 00:06:12,770

you --fill lightshow in helicopters I

151  
00:06:18,130 --> 00:06:15,510  
was 15 years old living in Dallas town

152  
00:06:20,510 --> 00:06:18,140  
Pennsylvania it was a Saturday evening

153  
00:06:22,550 --> 00:06:20,520  
myself and several friends were walking

154  
00:06:24,380 --> 00:06:22,560  
along the back streets north of the main

155  
00:06:25,910 --> 00:06:24,390  
road with a great view of the hills on

156  
00:06:28,160 --> 00:06:25,920  
the other side of the valley towards

157  
00:06:30,320 --> 00:06:28,170  
York I don't recall what got our

158  
00:06:32,570 --> 00:06:30,330  
attention but we watched several bright

159  
00:06:35,180 --> 00:06:32,580  
lights hovering and slowly moving around

160  
00:06:36,740 --> 00:06:35,190  
over the hills on the horizon at first

161  
00:06:38,630 --> 00:06:36,750  
we thought they were just distant

162  
00:06:41,360 --> 00:06:38,640  
airplanes with their landing lights on

163  
00:06:43,430 --> 00:06:41,370

but after watching them for over 30

164

00:06:45,770 --> 00:06:43,440

minutes we realized they were flying the

165

00:06:47,630 --> 00:06:45,780

same pattern over and over again the

166

00:06:49,460 --> 00:06:47,640

larger brighter white light would fly in

167

00:06:52,310 --> 00:06:49,470

slowly from the west to the east and

168

00:06:53,870 --> 00:06:52,320

hover in a certain spot a dimmer smaller

169

00:06:55,850 --> 00:06:53,880

light would come in from the east to

170

00:06:58,160 --> 00:06:55,860

west more quickly and at a higher

171

00:07:00,860 --> 00:06:58,170

altitude then fly slowly as it got

172

00:07:02,870 --> 00:07:00,870

closer to the first light at some point

173

00:07:04,460 --> 00:07:02,880

when they got too close the larger

174

00:07:06,650 --> 00:07:04,470

brighter light would fly off very

175

00:07:08,480 --> 00:07:06,660

quickly back to the west and the dimmer

176

00:07:11,240 --> 00:07:08,490

smaller light would shoot straight up

177

00:07:13,250 --> 00:07:11,250

and disappear the cycle lasted about 2

178

00:07:16,100 --> 00:07:13,260

minutes each time with about 5 minutes

179

00:07:18,830 --> 00:07:16,110

in between we watched this continue over

180

00:07:20,480 --> 00:07:18,840

and over again it went on so long that

181

00:07:22,610 --> 00:07:20,490

we had time to get more neighborhood

182

00:07:24,770 --> 00:07:22,620

kids out there and even run into my

183

00:07:26,840 --> 00:07:24,780

house and get a camera from my mother

184

00:07:28,400 --> 00:07:26,850

who didn't care as much about it as she

185

00:07:31,340 --> 00:07:28,410

did getting to sleep for work the next

186

00:07:33,110 --> 00:07:31,350

day at this point there are about six to

187

00:07:35,570 --> 00:07:33,120

seven of us kids watching these lights

188

00:07:37,610 --> 00:07:35,580

replay the same cycle repeatedly when

189

00:07:39,920 --> 00:07:37,620

three low-flying helicopters flew over

190

00:07:41,900 --> 00:07:39,930

our town heading towards the lights they

191

00:07:43,370 --> 00:07:41,910

were close enough when they flew by that

192

00:07:45,710 --> 00:07:43,380

we could tell they were the big kind

193

00:07:47,600 --> 00:07:45,720

with two rotors on top but since it was

194

00:07:49,730 --> 00:07:47,610

dark I couldn't tell you what color they

195

00:07:51,290 --> 00:07:49,740

were each had a strobe on it which we

196

00:07:53,540 --> 00:07:51,300

could see as they went over the hills

197

00:07:55,250 --> 00:07:53,550

and formed a triangle around the area

198

00:07:57,350 --> 00:07:55,260

where the lights were the helicopter

199

00:07:59,750 --> 00:07:57,360

strokes hovered there about ten minutes

200

00:08:01,490 --> 00:07:59,760

in the light stoked coming so we all got

201  
00:08:04,490 --> 00:08:01,500  
disappointed thinking they scared them

202  
00:08:07,040 --> 00:08:04,500  
off but just as suddenly as before the

203  
00:08:09,230 --> 00:08:07,050  
two lights started their cycle again we

204  
00:08:11,780 --> 00:08:09,240  
took a bunch of pictures most of had

205  
00:08:14,570 --> 00:08:11,790  
rims fingers and friends joking around

206  
00:08:16,910 --> 00:08:14,580  
the only one that turned out was just a

207  
00:08:18,800 --> 00:08:16,920  
blob of light about an hour and a half

208  
00:08:20,630 --> 00:08:18,810  
after all of this started it ended with

209  
00:08:22,059 --> 00:08:20,640  
a final cycle of the pattern that was

210  
00:08:24,159 --> 00:08:22,069  
different from the rest

211  
00:08:26,140 --> 00:08:24,169  
this time with the strokes from the

212  
00:08:27,969 --> 00:08:26,150  
three helicopters framing the scene

213  
00:08:30,249 --> 00:08:27,979

the brighter bigger light came in slowly

214

00:08:32,319 --> 00:08:30,259

from the West heading east and came to

215

00:08:34,269 --> 00:08:32,329

rest at a hover in its usual spot

216

00:08:36,190 --> 00:08:34,279

the smaller dimmer light came in more

217

00:08:38,860 --> 00:08:36,200

quickly from the east heading west and

218

00:08:41,529 --> 00:08:38,870

at a higher altitude as it got closer to

219

00:08:43,839 --> 00:08:41,539

the brighter light it slowed down then

220

00:08:45,759 --> 00:08:43,849

we saw a small pulsing red light come

221

00:08:47,530 --> 00:08:45,769

out of the dimmer light the small

222

00:08:49,900 --> 00:08:47,540

pulsing red light connected with the

223

00:08:51,880 --> 00:08:49,910

larger brighter one at this point the

224

00:08:54,639 --> 00:08:51,890

dimmer lights shot straight up as usual

225

00:08:56,380 --> 00:08:54,649

but when the pulsing red light connected

226

00:08:58,420 --> 00:08:56,390

with the bright light sparks like

227

00:09:01,150 --> 00:08:58,430

fireworks started shooting out of it and

228

00:09:03,250 --> 00:09:01,160

it darted off down and west it was very

229

00:09:05,410 --> 00:09:03,260

bright and startling all of us jumped

230

00:09:07,990 --> 00:09:05,420

back some had the instinct to run away a

231

00:09:10,480 --> 00:09:08,000

few steps one girl even fell backwards

232

00:09:12,190 --> 00:09:10,490

we watched for another hour but the

233

00:09:14,319 --> 00:09:12,200

lights never came back and the

234

00:09:16,780 --> 00:09:14,329

helicopter strobes eventually left the

235

00:09:18,670 --> 00:09:16,790

following Monday there were stories in

236

00:09:20,889 --> 00:09:18,680

the local paper about people in the area

237

00:09:22,630 --> 00:09:20,899

spotting the bright light with fireworks

238

00:09:24,940 --> 00:09:22,640

coming out of the back shooting through

239

00:09:27,370 --> 00:09:24,950

the sky they were dismissed as meteor

240

00:09:29,290 --> 00:09:27,380

sightings the thing that never sat well

241

00:09:30,790 --> 00:09:29,300

with me was the sightings in the paper

242

00:09:32,319 --> 00:09:30,800

matched the description of how the

243

00:09:34,449 --> 00:09:32,329

bright light looked at the end of the

244

00:09:37,780 --> 00:09:34,459

light show but the witnesses saw it on

245

00:09:40,990 --> 00:09:37,790

Sunday around 5:15 p.m. what we saw was

246

00:09:42,790 --> 00:09:41,000

on Saturday around 7:30 p.m. I can't

247

00:09:45,280 --> 00:09:42,800

explain what we saw that night and

248

00:09:47,560 --> 00:09:45,290

although I looked many times I never saw

249

00:09:49,360 --> 00:09:47,570

anything like it again I still have

250

00:09:55,210 --> 00:09:49,370

several newspaper clippings from that

251

00:10:00,830 --> 00:09:58,700

lights at night our closest neighbors

252

00:10:03,170 --> 00:10:00,840

with kids lived a quarter-mile down the

253

00:10:05,480 --> 00:10:03,180

road and one of the kids was camping

254

00:10:07,940 --> 00:10:05,490

with me and maybe my brother in our side

255

00:10:10,130 --> 00:10:07,950

yard which was about a half acre piece

256

00:10:12,950 --> 00:10:10,140

of land behind our three car detached

257

00:10:15,350 --> 00:10:12,960

garage and then bordered on the side by

258

00:10:18,260 --> 00:10:15,360

two large grain bins at least 20 feet

259

00:10:19,970 --> 00:10:18,270

tall and an old barn I woke up in the

260

00:10:22,040 --> 00:10:19,980

middle of the night because I saw a

261

00:10:25,310 --> 00:10:22,050

really bright light shining into our

262

00:10:27,050 --> 00:10:25,320

tent at first I thought maybe a farmer

263

00:10:28,880 --> 00:10:27,060

had pulled up near the barn to turn

264

00:10:31,790 --> 00:10:28,890

around then had their bright lights

265

00:10:33,800 --> 00:10:31,800

shining on the tent I wanted to see who

266

00:10:35,870 --> 00:10:33,810

it was so I crawled out of the tent and

267

00:10:38,540 --> 00:10:35,880

as soon as I was out of the tent the

268

00:10:40,520 --> 00:10:38,550

light was gone it wasn't like someone

269

00:10:44,420 --> 00:10:40,530

pulled away or even flipped the lights

270

00:10:46,670 --> 00:10:44,430

off it just wasn't there so I got

271

00:10:49,370 --> 00:10:46,680

outside and walked onto the road and

272

00:10:51,650 --> 00:10:49,380

didn't see any cars it was really dark

273

00:10:54,920 --> 00:10:51,660

outside and I was heading back to the

274

00:10:57,980 --> 00:10:54,930

tent but before I got to the tent I saw

275

00:11:00,200 --> 00:10:57,990

several bright spherical lights if I had

276  
00:11:03,080 --> 00:11:00,210  
to estimate I'd say they were between a

277  
00:11:05,420 --> 00:11:03,090  
softball and bowling ball in size there

278  
00:11:08,660 --> 00:11:05,430  
were several colors although right now I

279  
00:11:10,520 --> 00:11:08,670  
only recollect red and yellow initially

280  
00:11:13,490 --> 00:11:10,530  
they were hovering above me in the tent

281  
00:11:16,160 --> 00:11:13,500  
about as high as the grain bins then

282  
00:11:18,860 --> 00:11:16,170  
they began to move sometimes they were

283  
00:11:21,170 --> 00:11:18,870  
in a circular pattern and then sometimes

284  
00:11:22,400 --> 00:11:21,180  
three would form a triangle maybe five

285  
00:11:25,010 --> 00:11:22,410  
to six feet long

286  
00:11:27,140 --> 00:11:25,020  
I don't recall how many lights there

287  
00:11:30,470 --> 00:11:27,150  
were but I want to say it was around

288  
00:11:33,350 --> 00:11:30,480

five so they would be in the triangular

289

00:11:35,600 --> 00:11:33,360

circle formation and then suddenly break

290

00:11:38,360 --> 00:11:35,610

from each other and just move randomly

291

00:11:41,270 --> 00:11:38,370

all over the place always above me but

292

00:11:46,509 --> 00:11:41,280

in a lot of directions before going back

293

00:11:52,100 --> 00:11:49,759

this is lawn Strickler if you like this
