3  
00:00:32,280 --> 00:00:30,030  
the Massanutten mountain abduction my

4  
00:00:34,680 --> 00:00:32,290  
family and I spent Thanksgiving with my

5  
00:00:37,290 --> 00:00:34,690  
wife's mother Lynn Huff in Massanutten

6  
00:00:39,590 --> 00:00:37,300  
Virginia a ski resort located in the

7  
00:00:42,060 --> 00:00:39,600  
Blue Ridge Mountains near Harrisonburg I

8  
00:00:44,190 --> 00:00:42,070  
discovered while there a past history of

9  
00:00:46,140 --> 00:00:44,200  
abductions in that community one of

10  
00:00:48,810 --> 00:00:46,150  
which resulted in the death of my wife's

11  
00:00:50,970 --> 00:00:48,820  
brother Bobby in 1980 by doctors

12  
00:00:53,460 --> 00:00:50,980  
administering a tranquilizer following

13  
00:00:55,710 --> 00:00:53,470

his Travis Walton type abduction he had

14

00:00:58,710 --> 00:00:55,720

a fatal allergic reaction to the drug

15

00:01:01,259 --> 00:00:58,720

ironically Lynn lives on Hopkins Lane I

16

00:01:03,150 --> 00:01:01,269

was preoccupied with going to Skytop

17

00:01:05,340 --> 00:01:03,160

Overlook at the top of the ridge

18

00:01:07,830 --> 00:01:05,350

overlooking the ski resort and Valley to

19

00:01:10,170 --> 00:01:07,840

the east I wanted to go there around 8

20

00:01:10,649 --> 00:01:10,180

p.m. and look for unusual lights in the

21

00:01:14,160 --> 00:01:10,659

sky

22

00:01:16,410 --> 00:01:14,170

my wife Pat wanted to come along we

23

00:01:18,120 --> 00:01:16,420

drove our van up the switchback road to

24

00:01:20,399 --> 00:01:18,130

the parking lot near the top of the

25

00:01:21,960 --> 00:01:20,409

ridge and parked at the opposite end of

26  
00:01:23,850 --> 00:01:21,970  
the parking lot from the entrance

27  
00:01:27,149 --> 00:01:23,860  
looking out over the valley below

28  
00:01:29,460 --> 00:01:27,159  
there was one vehicle parked there I set

29  
00:01:32,280 --> 00:01:29,470  
up my camera and tripod in front of the

30  
00:01:35,580 --> 00:01:32,290  
van near the guardrail a security patrol

31  
00:01:37,590 --> 00:01:35,590  
car chevy caprice arrived shortly after

32  
00:01:40,080 --> 00:01:37,600  
we arrived and then returned back down

33  
00:01:43,050 --> 00:01:40,090  
to the valley the vehicle that was there

34  
00:01:45,090 --> 00:01:43,060  
when we arrived soon left also I took a

35  
00:01:48,780 --> 00:01:45,100  
two minute exposure of the lights in the

36  
00:01:51,330 --> 00:01:48,790  
valley the time was 8:18 p.m. shortly

37  
00:01:53,370 --> 00:01:51,340  
after that at about 8:28 p.m. a

38  
00:01:55,470 --> 00:01:53,380

brilliant pair of lights entered the

39

00:01:57,780 --> 00:01:55,480

parking lot from the road that comes up

40

00:02:00,090 --> 00:01:57,790

the side of the mountain at first the

41

00:02:02,670 --> 00:02:00,100

lights were diagonally behind the van I

42

00:02:05,670 --> 00:02:02,680

recall hearing some sort of a humming

43

00:02:08,369 --> 00:02:05,680

sound but no car engine sound I thought

44

00:02:10,680 --> 00:02:08,379

not another interruption but this pair

45

00:02:12,630 --> 00:02:10,690

of lights illuminated the treetops next

46

00:02:14,610 --> 00:02:12,640

to the guardrail to my left then

47

00:02:17,309 --> 00:02:14,620

illuminated the tree trunks then the

48

00:02:19,680 --> 00:02:17,319

tree basis and guardrail I turned to

49

00:02:22,110 --> 00:02:19,690

look at the lights I felt a sharp pain

50

00:02:24,119 --> 00:02:22,120

in my left eye and quickly turned away

51  
00:02:26,550 --> 00:02:24,129  
because the lights were about 10 times

52  
00:02:28,860 --> 00:02:26,560  
the brightness of high beams on a car I

53  
00:02:31,559 --> 00:02:28,870  
felt heat radiating from the lights

54  
00:02:33,899 --> 00:02:31,569  
through the window of the van I saw two

55  
00:02:35,910 --> 00:02:33,909  
lights about five feet in diameter with

56  
00:02:38,910 --> 00:02:35,920  
auras of yellow and amber and diffuse

57  
00:02:39,570 --> 00:02:38,920  
rings around white centers I also saw a

58  
00:02:41,970 --> 00:02:39,580  
dark

59  
00:02:44,220 --> 00:02:41,980  
behind the lights after turning away I

60  
00:02:46,350 --> 00:02:44,230  
had the thought in my head don't look at

61  
00:02:48,060 --> 00:02:46,360  
the lights look straight ahead when I

62  
00:02:50,400 --> 00:02:48,070  
tried to turn again I had great

63  
00:02:52,260 --> 00:02:50,410

difficulty as if I were paralyzed I

64

00:02:55,200 --> 00:02:52,270

could only move my head slightly

65

00:02:57,120 --> 00:02:55,210

although my eyes could move freely my

66

00:02:59,250 --> 00:02:57,130

wife tried to turn to look at the light

67

00:03:02,010 --> 00:02:59,260

on the right side of the van but also

68

00:03:03,780 --> 00:03:02,020

had difficulty in turning it was bright

69

00:03:04,950 --> 00:03:03,790

enough that the light lit up the ground

70

00:03:07,560 --> 00:03:04,960

next to the van

71

00:03:09,540 --> 00:03:07,570

catching her attention she remembers the

72

00:03:11,640 --> 00:03:09,550

reflection of the light moving downwards

73

00:03:14,460 --> 00:03:11,650

towards the ground ie getting brighter

74

00:03:17,310 --> 00:03:14,470

she also remembers trying to look at her

75

00:03:19,080 --> 00:03:17,320

wristwatch she recalls having difficulty

76

00:03:21,300 --> 00:03:19,090

and turning her wrist so that she could

77

00:03:23,280 --> 00:03:21,310

see her watch when she finally could see

78

00:03:26,460 --> 00:03:23,290

the watch on her right wrist it's red

79

00:03:28,320 --> 00:03:26,470

8:35 p.m. the next thing she remembered

80

00:03:30,510 --> 00:03:28,330

was being able to turn freely to the

81

00:03:33,150 --> 00:03:30,520

left to look out the left side window of

82

00:03:35,010 --> 00:03:33,160

the van she saw a small vehicle moving

83

00:03:37,620 --> 00:03:35,020

out of the parking lot towards the road

84

00:03:39,600 --> 00:03:37,630

that goes back down the mountain it was

85

00:03:41,910 --> 00:03:39,610

sleek and metallic coloured and had

86

00:03:44,160 --> 00:03:41,920

unusual curves to its silhouette with a

87

00:03:46,290 --> 00:03:44,170

dome the top of which was made of dark

88

00:03:48,570 --> 00:03:46,300

reflective material like tinted glass

89

00:03:50,760 --> 00:03:48,580

below which a tall skirt of metallic

90

00:03:53,010 --> 00:03:50,770

shiny gray metal completed the base of

91

00:03:55,380 --> 00:03:53,020

the dome it had a low back that had a

92

00:03:57,180 --> 00:03:55,390

downward sagging shape to it with a ring

93

00:03:59,190 --> 00:03:57,190

of small white lights that seemed to

94

00:04:01,710 --> 00:03:59,200

merge together bordered above and below

95

00:04:03,840 --> 00:04:01,720

by dark metal ridges and possibly two

96

00:04:05,970 --> 00:04:03,850

small red lights within the row of white

97

00:04:08,070 --> 00:04:05,980

lights one at either side of the craft

98

00:04:10,770 --> 00:04:08,080

that may have flashed briefly as do

99

00:04:12,690 --> 00:04:10,780

brake lights the row of lights separated

100

00:04:15,240 --> 00:04:12,700

the dome and the metal base that was

101  
00:04:17,729 --> 00:04:15,250  
angled inwards on both sides like an old

102  
00:04:19,830 --> 00:04:17,739  
cast-iron cooking skillet and colored a

103  
00:04:22,530 --> 00:04:19,840  
darker metallic shiny gray than the dome

104  
00:04:24,330 --> 00:04:22,540  
the front pair of bright lights appeared

105  
00:04:26,460 --> 00:04:24,340  
to be directed straight ahead and away

106  
00:04:28,920 --> 00:04:26,470  
from us not downwards as the craft

107  
00:04:30,840 --> 00:04:28,930  
pulled out of the parking lot the beams

108  
00:04:32,850 --> 00:04:30,850  
of light widened with distance in front

109  
00:04:35,220 --> 00:04:32,860  
of the craft and it appeared to move

110  
00:04:37,530 --> 00:04:35,230  
horizontally not downwards with the

111  
00:04:39,780 --> 00:04:37,540  
downward slope of the road as if it were

112  
00:04:42,030 --> 00:04:39,790  
floating above the ground there was at

113  
00:04:43,920 --> 00:04:42,040

least a 1 foot gap between the base of

114

00:04:46,440 --> 00:04:43,930

the craft and crest of the road pavement

115

00:04:48,300 --> 00:04:46,450

before the road sloped downwards at the

116

00:04:50,159 --> 00:04:48,310

parking lot entrance there were no

117

00:04:52,560 --> 00:04:50,169

apparent wheels visible underneath the

118

00:04:53,190 --> 00:04:52,570

craft Pat thought it was a small car

119

00:04:55,230 --> 00:04:53,200

pulling

120

00:04:56,970 --> 00:04:55,240

of the parking lot but now thinks that

121

00:04:58,950 --> 00:04:56,980

this was a mental thought purposely

122

00:05:01,320 --> 00:04:58,960

given to confuse and distract her from

123

00:05:03,090 --> 00:05:01,330

recognizing that it was not as the

124

00:05:06,720 --> 00:05:03,100

vehicle departed my watch beeped

125

00:05:08,940 --> 00:05:06,730

indicating that it was 9 0 0 p.m. after

126

00:05:10,680 --> 00:05:08,950

the lights entered the parking lot and I

127

00:05:12,750 --> 00:05:10,690

turned and glanced at them they

128

00:05:15,030 --> 00:05:12,760

descended and dimmed to a brown amber

129

00:05:17,580 --> 00:05:15,040

color then went out as the vehicle moved

130

00:05:19,680 --> 00:05:17,590

towards the guardrail about 15 to 20

131

00:05:22,140 --> 00:05:19,690

feet from the left side of the van and

132

00:05:24,450 --> 00:05:22,150

touched down I saw the lights move

133

00:05:26,700 --> 00:05:24,460

forward in the sideview mirror but could

134

00:05:29,280 --> 00:05:26,710

not turn my head for a better look as I

135

00:05:31,800 --> 00:05:29,290

had just done before there was no sound

136

00:05:33,900 --> 00:05:31,810

coming from the craft then I heard the

137

00:05:35,880 --> 00:05:33,910

distinctive sound of gravel being moved

138

00:05:38,730 --> 00:05:35,890

as if something hard were pushing the

139

00:05:40,830 --> 00:05:38,740

gravel a gravel apron of about 10 feet

140

00:05:43,380 --> 00:05:40,840

in width occurs between the guardrail

141

00:05:45,600 --> 00:05:43,390

and pavement upon returning Sunday

142

00:05:47,850 --> 00:05:45,610

morning after the storm on Saturday I

143

00:05:50,760 --> 00:05:47,860

found ridges of gravel aligned parallel

144

00:05:52,650 --> 00:05:50,770

with the guardrail near the pavement one

145

00:05:55,140 --> 00:05:52,660

prominent Ridge was about a half inch

146

00:05:57,180 --> 00:05:55,150

high an about three feet long other

147

00:05:59,610 --> 00:05:57,190

shorter and lower ridges occurred inside

148

00:06:02,100 --> 00:05:59,620

it as if whatever landed skipped and

149

00:06:04,500 --> 00:06:02,110

then dug in the ridges were too sharp

150

00:06:06,630 --> 00:06:04,510

and high to be caused by tires and the

151

00:06:09,030 --> 00:06:06,640

area in front of the ridges had been

152

00:06:11,190 --> 00:06:09,040

planed flat soon after I heard the

153

00:06:13,470 --> 00:06:11,200

gravel move I heard the door open and

154

00:06:16,050 --> 00:06:13,480

then felt something hit the back of my

155

00:06:18,030 --> 00:06:16,060

neck hard like a blow to the head the

156

00:06:20,340 --> 00:06:18,040

next thing I knew I was waking up from

157

00:06:23,190 --> 00:06:20,350

what seemed like a shallow sleep as if I

158

00:06:25,740 --> 00:06:23,200

had dozed off then I heard my watch beep

159

00:06:28,350 --> 00:06:25,750

that is set to beep every hour on the

160

00:06:30,090 --> 00:06:28,360

hour I thought it's strange because it

161

00:06:33,200 --> 00:06:30,100

seemed as though we had just taken the

162

00:06:36,090 --> 00:06:33,210

two-minute time exposure at 8:18 p.m. I

163

00:06:39,210 --> 00:06:36,100

commented to my wife that it was 9 0 0

164

00:06:42,270 --> 00:06:39,220

p.m. and that we should be leaving she

165

00:06:46,290 --> 00:06:42,280

responded yes I'm for that when I looked

166

00:06:48,180 --> 00:06:46,300

at my watch at red 9 0 0 54 p.m. and yet

167

00:06:50,670 --> 00:06:48,190

it seemed as though I had just heard the

168

00:06:52,800 --> 00:06:50,680

beep soon thereafter we both seemed

169

00:06:55,110 --> 00:06:52,810

alert and commented to each other about

170

00:06:57,660 --> 00:06:55,120

how the past hour went so quickly I

171

00:07:01,020 --> 00:06:57,670

asked my wife if she remembered the last

172

00:07:03,150 --> 00:07:01,030

half-hour and she said no then I began

173

00:07:06,150 --> 00:07:03,160

remembering what had transpired just

174

00:07:06,900 --> 00:07:06,160

before I blacked out I had lost about 30

175

00:07:08,640 --> 00:07:06,910

minutes

176

00:07:10,290 --> 00:07:08,650

and could not recall anything that had

177

00:07:13,680 --> 00:07:10,300

happened during the period of missing

178

00:07:15,810 --> 00:07:13,690

time my wife had lost about 25 minutes

179

00:07:17,880 --> 00:07:15,820

from the time she was able to glanced at

180

00:07:20,730 --> 00:07:17,890

her watch the next morning my wife

181

00:07:23,070 --> 00:07:20,740

noticed a brown area about two inches

182

00:07:25,170 --> 00:07:23,080

wide on the left back of my neck where I

183

00:07:27,300 --> 00:07:25,180

had been hit and commented that the

184

00:07:30,090 --> 00:07:27,310

intense light may have caused a tan on

185

00:07:32,100 --> 00:07:30,100

the left side of my face it was redder I

186

00:07:34,230 --> 00:07:32,110

looked at it in the mirror and saw a

187

00:07:37,050 --> 00:07:34,240

yellow rim around the brown area and

188

00:07:39,090 --> 00:07:37,060

recognized it as a large bruise similar

189

00:07:41,400 --> 00:07:39,100

to but larger than the one I had gotten

190

00:07:45,270 --> 00:07:41,410

before one shot with some sort of energy

191

00:07:47,760 --> 00:07:45,280

beam near Pine Bush in 1992 I checked my

192

00:07:50,400 --> 00:07:47,770

wife but could find no similar mark on

193

00:07:52,770 --> 00:07:50,410

her later Pat noticed a small puncture

194

00:07:55,650 --> 00:07:52,780

mark on the inside Bend of her arm near

195

00:07:57,990 --> 00:07:55,660

one of her veins but not on it the mark

196

00:08:00,420 --> 00:07:58,000

clearly did not intersect any visible

197

00:08:03,210 --> 00:08:00,430

vein but seemed to go directly into the

198

00:08:05,430 --> 00:08:03,220

space next to a tendon the mark was like

199

00:08:07,740 --> 00:08:05,440

that made by a needle and a thin trail

200

00:08:10,230 --> 00:08:07,750

of dark blood was still visible within

201  
00:08:12,690 --> 00:08:10,240  
the needle path she had gotten no shots

202  
00:08:14,670 --> 00:08:12,700  
recently that she can remember the

203  
00:08:16,290 --> 00:08:14,680  
difficulty with her moving her arm to

204  
00:08:18,330 --> 00:08:16,300  
look at her watch may have been her

205  
00:08:20,610 --> 00:08:18,340  
resisting someone holding and turning

206  
00:08:23,159 --> 00:08:20,620  
her arm to give her a tranquilizer or to

207  
00:08:24,600 --> 00:08:23,169  
take a blood sample Pat thinks that the

208  
00:08:27,420 --> 00:08:24,610  
thought of looking at her watch and

209  
00:08:29,460 --> 00:08:27,430  
seeing that it was 8:35 p.m. may have

210  
00:08:32,070 --> 00:08:29,470  
been put in her mind as a cover for what

211  
00:08:34,020 --> 00:08:32,080  
really happened to her arm I went back

212  
00:08:36,330 --> 00:08:34,030  
to the parking lot at the overlook and

213  
00:08:38,969 --> 00:08:36,340

measured distances calculating that the

214

00:08:40,920 --> 00:08:38,979

craft had to be narrower than 30 feet in

215

00:08:43,409 --> 00:08:40,930

order to enter the parking lot from the

216

00:08:46,110 --> 00:08:43,419

road and to be able to maneuver sideways

217

00:08:49,020 --> 00:08:46,120

within the parking lot which was 45 to

218

00:08:51,390 --> 00:08:49,030

50 feet at its widest point I estimate

219

00:08:54,570 --> 00:08:51,400

that the craft was about 20 feet wide at

220

00:08:56,700 --> 00:08:54,580

its base and 10 to 15 feet tall I cannot

221

00:08:58,560 --> 00:08:56,710

recall how high off the ground it was

222

00:09:01,140 --> 00:08:58,570

when I saw the egg-shaped dome behind

223

00:09:03,300 --> 00:09:01,150

the lights it apparently did not have

224

00:09:05,400 --> 00:09:03,310

legs otherwise it would not have made

225

00:09:08,070 --> 00:09:05,410

the slightly curved ridges of gravel

226

00:09:10,620 --> 00:09:08,080

there were no pod marks in the gravel

227

00:09:13,380 --> 00:09:10,630

I may have photographed similar types of

228

00:09:15,960 --> 00:09:13,390

craft in Pine Bush some of those craft

229

00:09:17,970 --> 00:09:15,970

particularly the Scout craft have two

230

00:09:20,050 --> 00:09:17,980

headlights mounted on either side of a

231

00:09:21,700 --> 00:09:20,060

triangular shaped body with a

232

00:09:25,000 --> 00:09:21,710

relatively flat bottom and dome-shaped

233

00:09:26,830 --> 00:09:25,010

area on top for the pilot estimates of

234

00:09:29,260 --> 00:09:26,840

the widths of the outer lights for three

235

00:09:31,090 --> 00:09:29,270

such craft based on photographs of the

236

00:09:33,340 --> 00:09:31,100

lights near trees or in front of the

237

00:09:36,790 --> 00:09:33,350

moon have given similar values between

238

00:09:39,130 --> 00:09:36,800

15 and 20 feet the light that Pat saw on

239

00:09:40,900 --> 00:09:39,140

the right side of the van appeared to be

240

00:09:43,180 --> 00:09:40,910

coming from above and from behind the

241

00:09:45,880 --> 00:09:43,190

van not to the left side of the van

242

00:09:47,860 --> 00:09:45,890

where the craft we saw was positioned it

243

00:09:49,450 --> 00:09:47,870

is difficult for us to understand how

244

00:09:51,340 --> 00:09:49,460

the light from that craft could have

245

00:09:53,410 --> 00:09:51,350

been so bright on the right sight and

246

00:09:55,900 --> 00:09:53,420

lit up the ground because the van should

247

00:09:58,210 --> 00:09:55,910

have blocked it the one possibility if

248

00:10:00,280 --> 00:09:58,220

we were abducted is that another craft

249

00:10:03,040 --> 00:10:00,290

was hovering above us and the smaller

250

00:10:05,380 --> 00:10:03,050

craft was used as a diversion and/or for

251

00:10:08,080 --> 00:10:05,390

two aliens to immobilize and sedate us

252

00:10:10,390 --> 00:10:08,090

the small craft appeared too small to be

253

00:10:12,460 --> 00:10:10,400

the abduction craft implying that there

254

00:10:14,980 --> 00:10:12,470

must have been a second larger ship very

255

00:10:16,750 --> 00:10:14,990

near and above us at first I doubted

256

00:10:19,180 --> 00:10:16,760

that either my wife or I had been

257

00:10:20,380 --> 00:10:19,190

abducted the amount of missing time

258

00:10:23,020 --> 00:10:20,390

seemed too short

259

00:10:24,790 --> 00:10:23,030

however Pat found a needle tracked with

260

00:10:26,890 --> 00:10:24,800

blood in it near the vein of her elbow

261

00:10:29,200 --> 00:10:26,900

and discovered that evening when she got

262

00:10:31,870 --> 00:10:29,210

undressed that her panties were torn at

263

00:10:33,970 --> 00:10:31,880

the waistband I was knocked out Pat

264

00:10:36,630 --> 00:10:33,980

wasn't but remembers little of what

265

00:10:38,680 --> 00:10:36,640

transpired after I lost consciousness I

266

00:10:40,720 --> 00:10:38,690

suspected that they were investigating

267

00:10:42,040 --> 00:10:40,730

me because of an implant in me that

268

00:10:44,710 --> 00:10:42,050

triggered one of their security

269

00:10:46,420 --> 00:10:44,720

detectors that would explain why they

270

00:10:48,850 --> 00:10:46,430

seemed to know when I arrived in Pine

271

00:10:51,130 --> 00:10:48,860

Bush are able to find me in other areas

272

00:10:53,590 --> 00:10:51,140

and frequently come out to entertain me

273

00:10:55,960 --> 00:10:53,600

with maneuvers from my camera I don't

274

00:10:58,090 --> 00:10:55,970

think that my desire to look for UFOs at

275

00:11:02,500 --> 00:10:58,100

Skytop overlook was incidental or

276  
00:11:04,720 --> 00:11:02,510  
accidental on 29 May 1995 Pat and I were

277  
00:11:06,640 --> 00:11:04,730  
hypnotically regressed by Fred max a

278  
00:11:08,980 --> 00:11:06,650  
certified hypnotherapist who also

279  
00:11:12,910 --> 00:11:08,990  
regressed Betty Andreessen Luka of the

280  
00:11:14,830 --> 00:11:12,920  
Andreessen affair pulsky 1995 we

281  
00:11:17,590 --> 00:11:14,840  
discovered that Pat had been abducted by

282  
00:11:19,780 --> 00:11:17,600  
bird-like aliens who were very short and

283  
00:11:20,260 --> 00:11:19,790  
had faces that resembled the face of an

284  
00:11:22,720 --> 00:11:20,270  
owl

285  
00:11:24,850 --> 00:11:22,730  
she was taken floated to the small

286  
00:11:27,100 --> 00:11:24,860  
shuttlecraft that had landed next to my

287  
00:11:29,170 --> 00:11:27,110  
side of the van and then lifted in that

288  
00:11:31,600 --> 00:11:29,180

shuttle up to the larger circular craft

289

00:11:33,390 --> 00:11:31,610

hovering above the van the owl like

290

00:11:35,910 --> 00:11:33,400

aliens did a standard guyhnic

291

00:11:37,260 --> 00:11:35,920

logical examination on path and removed

292

00:11:39,750 --> 00:11:37,270

OVA from her ovary

293

00:11:42,060 --> 00:11:39,760

they also shined various colored lights

294

00:11:42,930 --> 00:11:42,070

into her eyes and recorded the emotional

295

00:11:45,360 --> 00:11:42,940

responses

296

00:11:47,340 --> 00:11:45,370

I saw her being floated back down into

297

00:11:50,490 --> 00:11:47,350

her seat while I was being attended to

298

00:11:52,800 --> 00:11:50,500

in my seat by other owl like aliens my

299

00:11:55,230 --> 00:11:52,810

brain implants were accessed by a probe

300

00:11:58,040 --> 00:11:55,240

which entered my skull just below my ear

301  
00:12:00,780 --> 00:11:58,050  
canals I was not taken aboard the craft

302  
00:12:02,610 --> 00:12:00,790  
several days later the red points of

303  
00:12:06,540 --> 00:12:02,620  
probe entry were still losing blood

304  
00:12:08,970 --> 00:12:06,550  
serum on 11 December 1993 Pat Niles

305  
00:12:11,640 --> 00:12:08,980  
Robin and I went to the winter solstice

306  
00:12:13,620 --> 00:12:11,650  
party being held at Ralph Hughes attalos

307  
00:12:17,250 --> 00:12:13,630  
and Cathy Greene's house in Morristown

308  
00:12:19,830 --> 00:12:17,260  
New Jersey mr. Chile's a ka pila kilo

309  
00:12:22,290 --> 00:12:19,840  
kilo and mr. Rourke of the Big Island in

310  
00:12:24,720 --> 00:12:22,300  
Hawaii were present as guests of David

311  
00:12:27,510 --> 00:12:24,730  
Hartman a wellness counselor promotional

312  
00:12:29,700 --> 00:12:27,520  
agent from Madison New Jersey pila gave

313  
00:12:31,920 --> 00:12:29,710

his story of being abducted at an early

314

00:12:34,140 --> 00:12:31,930

age and having an implant behind his

315

00:12:36,990 --> 00:12:34,150

right ear discovered and removed by his

316

00:12:39,300 --> 00:12:37,000

doctor later he got another implant and

317

00:12:40,820 --> 00:12:39,310

had it surgically removed but before

318

00:12:43,050 --> 00:12:40,830

they could photograph it it

319

00:12:46,020 --> 00:12:43,060

self-destructed into a gas and stained

320

00:12:48,240 --> 00:12:46,030

with a bubbling reaction he said he was

321

00:12:50,610 --> 00:12:48,250

emotionally upset about being victimized

322

00:12:52,950 --> 00:12:50,620

without his permission and said that had

323

00:12:54,930 --> 00:12:52,960

the extraterrestrials asked him and said

324

00:12:57,450 --> 00:12:54,940

it was for a higher purpose he would

325

00:12:59,310 --> 00:12:57,460

have consented when reading communion he

326

00:13:00,780 --> 00:12:59,320

became sick when he got to the part

327

00:13:03,900 --> 00:13:00,790

about the implant Whitley Strieber

328

00:13:06,180 --> 00:13:03,910

described behind his ear Kathy wanted

329

00:13:08,820 --> 00:13:06,190

peel and Nancy Weber to view our auras

330

00:13:11,250 --> 00:13:08,830

to see if there was anything unusual the

331

00:13:13,740 --> 00:13:11,260

room was darkened somewhat and Pat and I

332

00:13:15,840 --> 00:13:13,750

sat against a white wall viewed from

333

00:13:17,910 --> 00:13:15,850

across the room both pilla and Nancy

334

00:13:20,100 --> 00:13:17,920

noticed exceptional Laurel development

335

00:13:20,490 --> 00:13:20,110

and colors around both of us blues and

336

00:13:22,710 --> 00:13:20,500

greens

337

00:13:25,170 --> 00:13:22,720

pila said he had never seen such a

338

00:13:27,300 --> 00:13:25,180

pronounced aura on anyone they both

339

00:13:29,520 --> 00:13:27,310

noticed and described an elongated

340

00:13:31,680 --> 00:13:29,530

cone-shaped distortion to our auras in

341

00:13:33,810 --> 00:13:31,690

the same places originating from just

342

00:13:35,970 --> 00:13:33,820

below our right ears and extending

343

00:13:38,550 --> 00:13:35,980

upwards and outwards as a disjunction or

344

00:13:40,380 --> 00:13:38,560

disturbance in Aurora's they concluded

345

00:13:42,540 --> 00:13:40,390

that something physical within us was

346

00:13:44,970 --> 00:13:42,550

causing this interference suggesting

347

00:13:47,460 --> 00:13:44,980

that it might be due to an implant we

348

00:13:49,470 --> 00:13:47,470

could feel no implant outside our skulls

349

00:13:51,869 --> 00:13:49,480

indicating that whatever it was it was

350

00:13:54,329 --> 00:13:51,879

within our skulls there were no initial

351

00:13:55,920 --> 00:13:54,339

indications of recent or past scars at

352

00:13:58,259 --> 00:13:55,930

the places where this disturbance

353

00:14:00,449 --> 00:13:58,269

originated on either of us but later a

354

00:14:02,879 --> 00:14:00,459

tiny blood scab appeared just to the

355

00:14:04,980 --> 00:14:02,889

left side of my ear canal and continued

356

00:14:05,460 --> 00:14:04,990

to reappear after I removed the earlier

357

00:14:08,759 --> 00:14:05,470

ones

358

00:14:10,889 --> 00:14:08,769

pila remarked and seconded by Nancy that

359

00:14:13,949 --> 00:14:10,899

we had something special happening to us

360
