The Last Frontier"**

the oldest and strongest human emotion

2
00:00:16,109 --> 00:00:11,590
is fear the oldest and strongest type of

3
00:00:18,749 --> 00:00:16,119
fear is trepidation of young when we

4
00:00:22,679 --> 00:00:18,759
were children our parents told us that

5
00:00:25,319 --> 00:00:22,689
monsters didn't exist but we were sure

6
00:00:26,689 --> 00:00:25,329
that something is lurking under the bed

7
00:00:31,460 --> 00:00:26,699
or in the closet

8
00:00:35,160 --> 00:00:31,470
beer seats even if our eyes are closed

9
00:00:38,189 --> 00:00:35,170
welcome to the realm of your king my

10
00:00:41,040 --> 00:00:38,199
name is lon stripper join me as I

11
00:00:45,349 --> 00:00:41,050
examine unexplained creatures strange

12
00:00:48,720 --> 00:00:45,359
manifestations and remarkable realities

13
00:00:51,959 --> 00:00:48,730

imagine this next hour as a voyage of

14

00:00:55,079 --> 00:00:51,969

discovered to strange lands seeking not

15

00:00:58,139 --> 00:00:55,089

for new territory but for new knowledge

16

00:01:01,060 --> 00:00:58,149

of the supernatural come on board as we

17

00:01:07,330 --> 00:01:01,070

begin this adventure together

18

00:01:12,109 --> 00:01:09,680

hey folks good evening and welcome to

19

00:01:14,120 --> 00:01:12,119

another episode of arcane radio where we

20

00:01:15,710 --> 00:01:14,130

explore the unexplained here on the

21

00:01:18,260 --> 00:01:15,720

paranormal king radio network

22

00:01:20,300 --> 00:01:18,270

I'm your host LAN Stricker coming to you

23

00:01:22,190 --> 00:01:20,310

with an a cannon shot of historic

24

00:01:24,590 --> 00:01:22,200

Gettysburg Pennsylvania thank you for

25

00:01:25,219 --> 00:01:24,600

joining me now before I introduce my

26

00:01:27,770 --> 00:01:25,229

guest

27

00:01:31,609 --> 00:01:27,780

I did mention last week that we were

28

00:01:33,800 --> 00:01:31,619

working on a second pilot report coming

29

00:01:37,370 --> 00:01:33,810

out of a Haier international in Chicago

30

00:01:40,880 --> 00:01:37,380

and we were able to get an interview

31

00:01:44,690 --> 00:01:40,890

with this pilot and I'm gonna read to

32

00:01:46,999 --> 00:01:44,700

you what we got from it so this pilot

33

00:01:50,840 --> 00:01:47,009

had he has been working as a pilot since

34

00:01:54,999 --> 00:01:50,850

2008 previously flew in the Air Force

35

00:01:59,930 --> 00:01:55,009

for six years 9,000 hours of flight time

36

00:02:03,340 --> 00:01:59,940

variety of aircraft so he said that the

37

00:02:09,139 --> 00:02:03,350

incident happened on Thursday August 8th

38

00:02:10,910 --> 00:02:09,149

2019 at O'Hara around 1800 hours now he

39

00:02:13,430 --> 00:02:10,920

said he had flown into an Hera the

40

00:02:16,220 --> 00:02:13,440

previous day and stayed at a hotel for

41

00:02:22,009 --> 00:02:16,230

the night he was due to fly out of 20

42

00:02:24,199 --> 00:02:22,019

hundred hours to go to the UK see there

43

00:02:26,569 --> 00:02:24,209

was taking the airport shuttle towards

44

00:02:29,539 --> 00:02:26,579

the terminal and as he looked out the

45

00:02:32,420 --> 00:02:29,549

window he saw a large human with

46

00:02:35,990 --> 00:02:32,430

enormous wings and glowing red eyes

47

00:02:39,050 --> 00:02:36,000

perched upon a rail and looking right at

48

00:02:41,750 --> 00:02:39,060

him now there was nobody else in the

49

00:02:45,170 --> 00:02:41,760

transport he said the being appeared to

50

00:02:47,630 --> 00:02:45,180

be squatting down on the rail but had

51
00:02:50,080 --> 00:02:47,640
its wings completely open and moved them

52
00:02:53,300 --> 00:02:50,090
slowly as he stared at the shuttle bus

53
00:02:55,940 --> 00:02:53,310
and he said I knew that he was watching

54
00:02:59,060 --> 00:02:55,950
me as its head swivels and followed the

55
00:03:01,789 --> 00:02:59,070
shuttle as we passed its eyes locked on

56
00:03:04,340 --> 00:03:01,799
me the entire time said I was startled

57
00:03:06,890 --> 00:03:04,350
and I'll admit it very frightened now

58
00:03:08,690 --> 00:03:06,900
lonely by this encounter by the absolute

59
00:03:11,360 --> 00:03:08,700
boldness of this thing as it didn't move

60
00:03:15,530 --> 00:03:11,370
and attempt to hide itself as we

61
00:03:18,379 --> 00:03:15,540
approached he said we passed it on the

62
00:03:20,010 --> 00:03:18,389
outside lane where we were to close us

63
00:03:23,520 --> 00:03:20,020

approximately 15 foot

64

00:03:25,770 --> 00:03:23,530

from it when I was pursued I never once

65

00:03:29,730 --> 00:03:25,780

flinched or ket to hide itself just stay

66

00:03:31,830 --> 00:03:29,740

put he said he had heard the stories of

67

00:03:33,990 --> 00:03:31,840

the O'Hara Mothman is which what he

68

00:03:36,690 --> 00:03:34,000

called it he said other pilots are

69

00:03:39,390 --> 00:03:36,700

calling it the same thing or as some

70

00:03:41,370 --> 00:03:39,400

have also called it Batman but I simply

71

00:03:43,830 --> 00:03:41,380

dismissed them as being nothing more

72

00:03:46,500 --> 00:03:43,840

than fantasy maybe an urban legend that

73

00:03:49,200 --> 00:03:46,510

was associated with an already spooky

74

00:03:51,480 --> 00:03:49,210

Airport I mean who hasn't heard of the

75

00:03:53,790 --> 00:03:51,490

weird UFO sightings around O'Hare and

76

00:03:56,370 --> 00:03:53,800

stories of ghosts and whatnot

77

00:03:58,410 --> 00:03:56,380

what happened me that evening changed my

78

00:04:02,190 --> 00:03:58,420

entire view of those stories so when I

79

00:04:05,340 --> 00:04:02,200

saw the post asking for pilots to step

80

00:04:06,600 --> 00:04:05,350

up and step up and to share their

81

00:04:09,000 --> 00:04:06,610

stories that took advantage the

82

00:04:13,980 --> 00:04:09,010

opportunity that tell my encounter with

83

00:04:15,690 --> 00:04:13,990

you a hair Mothman now with after the

84

00:04:19,590 --> 00:04:15,700

interview with the team investigator our

85

00:04:21,930 --> 00:04:19,600

team investigator Manuel now read the

86

00:04:23,310 --> 00:04:21,940

pilot did state to him that he saw this

87

00:04:24,870 --> 00:04:23,320

thing it was squatted down the arms

88

00:04:28,560 --> 00:04:24,880

appeared to be gripping the guardrail

89

00:04:31,500 --> 00:04:28,570

and we're long and very skinny almost

90

00:04:33,480 --> 00:04:31,510

bony and with jet black he didn't get a

91

00:04:35,880 --> 00:04:33,490

good look at the fingers of the entity

92

00:04:39,000 --> 00:04:35,890

but he described the length of the arms

93

00:04:41,610 --> 00:04:39,010

to be about 3 foot long but couldn't

94

00:04:44,130 --> 00:04:41,620

give an act of measurement the witness

95

00:04:45,980 --> 00:04:44,140

said even squatting down yet any entity

96

00:04:48,450 --> 00:04:45,990

it was still about four foot tall and

97

00:04:51,540 --> 00:04:48,460

out of it would stand out would be well

98

00:04:54,390 --> 00:04:51,550

over six and a half foot the head was

99

00:04:57,870 --> 00:04:54,400

rounded and featured list other than to

100

00:05:01,380 --> 00:04:57,880

to eliminating eyes that he described as

101
00:05:03,690 --> 00:05:01,390
ruby red in color he did note that the

102
00:05:05,940 --> 00:05:03,700
head was not overly large and appeared

103
00:05:08,190 --> 00:05:05,950
to around it at the top now the wings

104
00:05:10,260 --> 00:05:08,200
are black and very large important at

105
00:05:13,380 --> 00:05:10,270
the end appeared to be segmented like

106
00:05:15,360 --> 00:05:13,390
that of the wings of a large bat now the

107
00:05:18,840 --> 00:05:15,370
pilot estimated the wings to be at least

108
00:05:21,240 --> 00:05:18,850
10 foot wide from tip to tip and about 5

109
00:05:23,760 --> 00:05:21,250
foot and height the wings appeared to be

110
00:05:27,570 --> 00:05:23,770
taller than the being by at least 2 foot

111
00:05:29,550 --> 00:05:27,580
and were black in color when asked about

112
00:05:31,650 --> 00:05:29,560
the encounter you stated the entity did

113
00:05:33,450 --> 00:05:31,660

not move at all and stayed perched on

114

00:05:36,659 --> 00:05:33,460

the guardrail

115

00:05:40,680 --> 00:05:36,669

held his ground and didn't move did make

116

00:05:42,779 --> 00:05:40,690

eye contact and you know it was just

117

00:05:45,300 --> 00:05:42,789

support the witness was just surprised

118

00:05:48,089 --> 00:05:45,310

how I just stood there and looked at him

119

00:05:50,420 --> 00:05:48,099

and he said the the actual incident

120

00:05:53,550 --> 00:05:50,430

lasted between ten and fifteen seconds

121

00:05:55,439 --> 00:05:53,560

so the witness did present his airline

122

00:05:57,890 --> 00:05:55,449

company credentials and federal

123

00:06:00,570 --> 00:05:57,900

identification to prove his employment

124

00:06:03,360 --> 00:06:00,580

showed photos of his time with his

125

00:06:05,490 --> 00:06:03,370

previous employer and military service

126

00:06:07,860 --> 00:06:05,500

the answer all the questions didn't

127

00:06:11,249 --> 00:06:07,870

deviate away from his initial sighting

128

00:06:16,499 --> 00:06:11,259

report so that's our second pilot

129

00:06:19,790 --> 00:06:16,509

sighting now I had heard from other

130

00:06:22,439 --> 00:06:19,800

sources that many of these pilots are

131

00:06:24,570 --> 00:06:22,449

aware of this being and they have been

132

00:06:28,230 --> 00:06:24,580

talking and discussing it on social

133

00:06:29,730 --> 00:06:28,240

media and among themselves so hopefully

134

00:06:33,029 --> 00:06:29,740

we're going to get some more sighting

135

00:06:34,860 --> 00:06:33,039

reports from the pilots other people

136

00:06:37,499 --> 00:06:34,870

working at the airport we've already had

137

00:06:41,939 --> 00:06:37,509

two other security people send reports

138

00:06:45,060 --> 00:06:41,949

so hopefully it continues so tonight I

139

00:06:47,279 --> 00:06:45,070

welcome author investigator explored

140

00:06:49,529 --> 00:06:47,289

and legends of alas

166

00:07:52,240 --> 00:07:49,690

his website can be found at Erie Lights

167

00:07:56,020 --> 00:07:52,250

dot-com so David thanks for joining with

168

00:08:00,700 --> 00:07:56,030

it's evening sir long good evening man

169

00:08:02,710 --> 00:08:00,710

you've been busy this week I know your I

170

00:08:06,610 --> 00:08:02,720

heard John Dave Scott last night

171

00:08:09,250 --> 00:08:06,620

over a spaced out radio and yeah you

172

00:08:11,890 --> 00:08:09,260

have been busy I didn't know the show as

173

00:08:14,080 --> 00:08:11,900

well this week I think I'm pretty sure

174

00:08:17,260 --> 00:08:14,090

you did so but I know you can hardly

175

00:08:20,290 --> 00:08:17,270

keep up John how you feel man I know

176

00:08:24,220 --> 00:08:20,300

exactly how I feel so this book is about

177

00:08:28,810 --> 00:08:24,230

cryptids in what you call the last

178

00:08:31,450 --> 00:08:28,820

frontier of Alaska what made you decide

179

00:08:34,360 --> 00:08:31,460

to write this book though we do know

180

00:08:38,260 --> 00:08:34,370

there's a lot going on up there oh yeah

181

00:08:39,970 --> 00:08:38,270

well you know this is actually the third

182

00:08:41,560 --> 00:08:39,980

book I mean it's a standalone but it's a

183

00:08:45,040 --> 00:08:41,570

third book in a series in a sense

184

00:08:49,060 --> 00:08:45,050

because what happened was I started

185

00:08:51,370 --> 00:08:49,070

digging through my files and a uterus so

186

00:08:54,670 --> 00:08:51,380

ago decided to write a book on the

187

00:08:57,190 --> 00:08:54,680

cryptids of Nevada right just because I

188

00:08:59,380 --> 00:08:57,200

had so many unusual pages from there and

189

00:09:01,990 --> 00:08:59,390

and partially because you know people

190

00:09:03,520 --> 00:09:02,000

think Nevada come on notice there's

191

00:09:07,000 --> 00:09:03,530

aliens right but there's not any

192

00:09:10,030 --> 00:09:07,010

monsters and you know that's not really

193

00:09:13,090 --> 00:09:10,040

the case I dug up a lot of fascinating

194

00:09:16,540 --> 00:09:13,100

things in Nevada and I've investigated

195

00:09:18,730 --> 00:09:16,550

in every state and have you know just

196

00:09:20,350 --> 00:09:18,740

massive case files from the years I've

197

00:09:22,270 --> 00:09:20,360

been to the stuff since the seventies so

198

00:09:24,310 --> 00:09:22,280

you know the things I've collected over

199

00:09:26,050 --> 00:09:24,320

the years from commuter personal

200

00:09:28,570 --> 00:09:26,060

investigations interviewing witnesses

201
00:09:30,130 --> 00:09:28,580
and things people are sent to me you

202
00:09:32,320 --> 00:09:30,140
know I started realizing I was a lot of

203
00:09:35,890 --> 00:09:32,330
this stuff that and people either either

204
00:09:37,840 --> 00:09:35,900
either haven't heard or you know they're

205
00:09:40,600 --> 00:09:37,850
just not familiar with because it's so

206
00:09:43,000 --> 00:09:40,610
obscure so I did the book which was

207
00:09:45,700 --> 00:09:43,010
really well received and then I did

208
00:09:49,930 --> 00:09:45,710
Arizona which also had a ton of case

209
00:09:52,150 --> 00:09:49,940
files on and you know the I just kind of

210
00:09:54,010 --> 00:09:52,160
felt like I was going to keep going and

211
00:09:54,880 --> 00:09:54,020
I started looking at what state I was

212
00:09:57,070 --> 00:09:54,890
going to do next

213
00:09:59,250 --> 00:09:57,080

I had recently spent some more time in

214

00:10:02,210 --> 00:09:59,260

Alaska and

215

00:10:05,760 --> 00:10:02,220

you know it's a pretty fascinating place

216

00:10:09,060 --> 00:10:05,770

was a very every one of these books has

217

00:10:12,390 --> 00:10:09,070

been very unique to write just as unique

218

00:10:15,870 --> 00:10:12,400

as the state is Alaska almost more so in

219

00:10:19,680 --> 00:10:15,880

some ways because it's almost the polar

220

00:10:21,810 --> 00:10:19,690

opposite of Nevada you know I I pretty

221

00:10:23,700 --> 00:10:21,820

much feel confident that it included

222

00:10:25,740 --> 00:10:23,710

almost everything you know it's probably

223

00:10:28,700 --> 00:10:25,750

I'm sure there's a few cases here and

224

00:10:31,650 --> 00:10:28,710

there that maybe I didn't come across or

225

00:10:34,440 --> 00:10:31,660

that it just happened but with Alaska

226

00:10:36,930 --> 00:10:34,450

the polar opposite I had so much there's

227

00:10:39,720 --> 00:10:36,940

so many sightings so many encounters up

228

00:10:42,540 --> 00:10:39,730

there I really had to kind of distill a

229

00:10:44,160 --> 00:10:42,550

lot of that down in some portions of the

230

00:10:47,400 --> 00:10:44,170

book particularly the session about

231

00:10:49,710 --> 00:10:47,410

sasquatch because really I mean you

232

00:10:54,120 --> 00:10:49,720

could you could easily feel body fill

233

00:10:56,970 --> 00:10:54,130

volumes on on Sasquatch encounters an

234

00:10:59,220 --> 00:10:56,980

Alaskan Robert Ally of course has done

235

00:11:02,400 --> 00:10:59,230

some incredible work with Raincoast

236

00:11:03,690 --> 00:11:02,410

Sasquatch and he's got something new

237

00:11:05,850 --> 00:11:03,700

coming out to cover some of the

238

00:11:08,100 --> 00:11:05,860

sightings in Alaska but you know that's

239

00:11:10,170 --> 00:11:08,110

just an example of a singular focus I

240

00:11:12,510 --> 00:11:10,180

wanted to address that but I also wanted

241

00:11:14,310 --> 00:11:12,520

to address a lot of the other cryptids

242

00:11:16,530 --> 00:11:14,320

in the state many of them that people

243

00:11:20,430 --> 00:11:16,540

just aren't very familiar with or don't

244

00:11:23,820 --> 00:11:20,440

hear much about so that was yeah I guess

245

00:11:26,610 --> 00:11:23,830

kinda how it came about I find Alaska a

246

00:11:28,200 --> 00:11:26,620

very fascinating place I I couldn't

247

00:11:30,330 --> 00:11:28,210

imagine living there because I don't

248

00:11:33,510 --> 00:11:30,340

really prefer that kind of cold you know

249

00:11:36,660 --> 00:11:33,520

like create abortion yeah but but at the

250

00:11:40,110 --> 00:11:36,670

same time there's a certain mystery and

251
00:11:42,990 --> 00:11:40,120
almost mysticism about the the

252
00:11:45,060 --> 00:11:43,000
environment about the land itself okay

253
00:11:48,390 --> 00:11:45,070
and of course there's so many

254
00:11:51,090 --> 00:11:48,400
fascinating facets of the folklore and

255
00:11:54,710 --> 00:11:51,100
the native traditions and everything

256
00:11:59,910 --> 00:11:54,720
else up there that it's just really is a

257
00:12:01,830 --> 00:11:59,920
goldmine of fascinating stories yeah you

258
00:12:04,470 --> 00:12:01,840
know I've had several reports come out

259
00:12:09,960 --> 00:12:04,480
of Alaska mostly to do with hairy

260
00:12:11,740 --> 00:12:09,970
hominids or unusual bipeds it seems like

261
00:12:15,450 --> 00:12:11,750
every Inuit group

262
00:12:18,820 --> 00:12:15,460
there has their own name for the beans

263
00:12:22,660 --> 00:12:18,830

you know I've even had people tell me

264

00:12:26,590 --> 00:12:22,670

that they appear as either some type of

265

00:12:28,600 --> 00:12:26,600

shadow being that they they really don't

266

00:12:30,670 --> 00:12:28,610

know what it is but they believe it's to

267

00:12:33,580 --> 00:12:30,680

come choco or whatever they want to call

268

00:12:36,670 --> 00:12:33,590

it you know the the Ottoman or the you

269

00:12:39,670 --> 00:12:36,680

know the other types of names that they

270

00:12:41,590 --> 00:12:39,680

use for the these beings anywhere and

271

00:12:44,860 --> 00:12:41,600

I've had these sightings anywhere from

272

00:12:47,080 --> 00:12:44,870

the Kenai Peninsula of Westover in

273

00:12:49,540 --> 00:12:47,090

senescent Nelson Island I mean they're

274

00:12:54,520 --> 00:12:49,550

just thousands of sightings and

275

00:12:57,250 --> 00:12:54,530

encounters yeah very much so and you

276

00:13:00,100 --> 00:12:57,260

know you bring up the otter man which is

277

00:13:04,720 --> 00:13:00,110

also known as the kushtaka yeah Coosh

278

00:13:07,270 --> 00:13:04,730

macaw and that really was I always try

279

00:13:10,180 --> 00:13:07,280

to be incredibly respectful of native

280

00:13:12,630 --> 00:13:10,190

traditions I've been blessed throughout

281

00:13:15,160 --> 00:13:12,640

my life to have spent a lot of time with

282

00:13:18,010 --> 00:13:15,170

elders from various native traditions

283

00:13:21,160 --> 00:13:18,020

and and learned a lot of things and you

284

00:13:25,390 --> 00:13:21,170

know as a result and just out of pure

285

00:13:27,550 --> 00:13:25,400

respect also I tried to to portray those

286

00:13:29,860 --> 00:13:27,560

names very accurately and and you know

287

00:13:34,710 --> 00:13:29,870

navigate that territory very carefully

288

00:13:39,460 --> 00:13:34,720

the acoustic Isle was a very interesting

289

00:13:43,090 --> 00:13:39,470

case because you know first of all a lot

290

00:13:48,460 --> 00:13:43,100

of a lot of Bigfoot researchers

291

00:13:50,170 --> 00:13:48,470

mistakenly believe that when Alaskan

292

00:13:51,610 --> 00:13:50,180

tribal peoples are talking about the

293

00:13:54,160 --> 00:13:51,620

Krishna combat they're talking about

294

00:13:56,140 --> 00:13:54,170

essentially a sasquatch and you know

295

00:13:59,410 --> 00:13:56,150

I've talked to elders up there that are

296

00:14:02,590 --> 00:13:59,420

very adamant and that they are not the

297

00:14:04,510 --> 00:14:02,600

same thing and really when you hear the

298

00:14:06,760 --> 00:14:04,520

stories and delve into the mythos you

299

00:14:09,010 --> 00:14:06,770

begin to understand and we're talking

300

00:14:12,760 --> 00:14:09,020

about two very distinct things in their

301
00:14:16,270 --> 00:14:12,770
world view because the has you stated

302
00:14:19,060 --> 00:14:16,280
all of these tribes they all have names

303
00:14:22,510 --> 00:14:19,070
for the hairy man and there's there's so

304
00:14:24,190 --> 00:14:22,520
many different terms in Alaska because

305
00:14:25,450 --> 00:14:24,200
there's so many different different

306
00:14:29,340 --> 00:14:25,460
tribes

307
00:14:31,600 --> 00:14:29,350
they all have words that essentially

308
00:14:35,020 --> 00:14:31,610
describe a hairy man that we would call

309
00:14:36,490 --> 00:14:35,030
Sasquatch or Bigfoot now when they start

310
00:14:39,930 --> 00:14:36,500
talking about the Krishna it's a very

311
00:14:43,060 --> 00:14:39,940
different thing because the crucifies a

312
00:14:47,800 --> 00:14:43,070
shape-shifter and it is difficult and

313
00:14:50,800 --> 00:14:47,810

otter person an otter man and this the

314

00:14:53,410 --> 00:14:50,810

the roar that revolves around this

315

00:14:55,990 --> 00:14:53,420

creature it's sort of guessed in a very

316

00:14:59,620 --> 00:14:56,000

part of some of their spiritual beliefs

317

00:15:03,820 --> 00:14:59,630

because this creature comes about as a

318

00:15:07,240 --> 00:15:03,830

result of Oh what would may be roughly

319

00:15:09,930 --> 00:15:07,250

translated as a person being lost has

320

00:15:12,460 --> 00:15:09,940

their spirit or the soul being lost

321

00:15:15,130 --> 00:15:12,470

maybe in the wilderness or maybe in the

322

00:15:19,210 --> 00:15:15,140

water and going to a transformative

323

00:15:25,420 --> 00:15:19,220

process that is a attend to death in a

324

00:15:27,550 --> 00:15:25,430

sense and if this occurs sometimes these

325

00:15:30,520 --> 00:15:27,560

creatures other Krishna [h__h] can come

326

00:15:34,300 --> 00:15:30,530

and save this person but the only way to

327

00:15:36,130 --> 00:15:34,310

save them is to transform them into one

328

00:15:38,920 --> 00:15:36,140

of their kind and they're no longer

329

00:15:40,810 --> 00:15:38,930

human now it means a really delicate

330

00:15:43,990 --> 00:15:40,820

territory because in some of the

331

00:15:45,100 --> 00:15:44,000

traditions there is a monic process

332

00:15:47,380 --> 00:15:45,110

through which the person can be

333

00:15:50,410 --> 00:15:47,390

retrieved and saved but only if they've

334

00:15:52,600 --> 00:15:50,420

gotten to him in time so it's a really

335

00:15:54,220 --> 00:15:52,610

fascinating family we're continuing to

336

00:15:56,530 --> 00:15:54,230

talk about resolve evening because

337

00:15:57,850 --> 00:15:56,540

there's so many complexities to it but

338

00:16:00,580 --> 00:15:57,860

essentially you know we're talking about

339

00:16:05,200 --> 00:16:00,590

something kind of akin to a skinwalker

340

00:16:07,170 --> 00:16:05,210

in the southwest they accept that it's

341

00:16:10,150 --> 00:16:07,180

not voluntary something that occurs

342

00:16:12,270 --> 00:16:10,160

involuntarily because of circumstances

343

00:16:16,690 --> 00:16:12,280

that causes this person to be

344

00:16:19,960 --> 00:16:16,700

transformed into a what looks like a

345

00:16:21,670 --> 00:16:19,970

bipedal otter and it's I know that

346

00:16:25,000 --> 00:16:21,680

sounds very strange if you've never

347

00:16:28,210 --> 00:16:25,010

heard this before it could sound almost

348

00:16:30,490 --> 00:16:28,220

kind of comical the the painting on the

349

00:16:33,340 --> 00:16:30,500

front of the book was another amazing

350

00:16:35,920 --> 00:16:33,350

cover by Sam Sharon's doing the covers

351

00:16:38,900 --> 00:16:35,930

for all of this series and when I threw

352

00:16:41,000 --> 00:16:38,910

this one out and you know what's pretty

353

00:16:44,270 --> 00:16:41,010

what a good challenge I think you know

354

00:16:46,640 --> 00:16:44,280

it can't be overly creepy and it can't

355

00:16:48,760 --> 00:16:46,650

be you know goosey looking either and I

356

00:16:51,560 --> 00:16:48,770

think he came up with a an amazing

357

00:16:53,630 --> 00:16:51,570

portrayal of this creature on on this

358

00:16:56,360 --> 00:16:53,640

one of the book oh yeah you know I was

359

00:16:58,850 --> 00:16:56,370

surprised when I first looked at it and

360

00:17:05,180 --> 00:16:58,860

I mean if that's what people are saying

361

00:17:08,330 --> 00:17:05,190

I mean my god I'm telling you it's it's

362

00:17:11,330 --> 00:17:08,340

it's I mean you can it looks like an

363

00:17:13,700 --> 00:17:11,340

otter but I guess some people could you

364

00:17:17,870 --> 00:17:13,710

know was taken before a Bigfoot I mean

365

00:17:19,870 --> 00:17:17,880

the way it's built and the size and you

366

00:17:23,780 --> 00:17:19,880

know it's funny you talked about the

367

00:17:25,670 --> 00:17:23,790

he's being shapeshifters I mean the

368

00:17:29,150 --> 00:17:25,680

they're kind of their versions getting

369

00:17:30,770 --> 00:17:29,160

Walker I that's kind of what it sounded

370

00:17:34,820 --> 00:17:30,780

like to me when I've gotten these

371

00:17:38,210 --> 00:17:34,830

reports I know there's a tribe not far

372

00:17:40,960 --> 00:17:38,220

from Bethel that the gentleman had

373

00:17:44,240 --> 00:17:40,970

contacted me and talked to me about this

374

00:17:47,690 --> 00:17:44,250

there's being that it looked and acted

375

00:17:51,620 --> 00:17:47,700

like the a Bigfoot but it came out of

376

00:17:53,630 --> 00:17:51,630

the ocean he called it a lion but it

377

00:17:56,540 --> 00:17:53,640

would come out of the ocean and chase

378

00:17:59,150 --> 00:17:56,550

them at night when they were out on

379

00:18:02,450 --> 00:17:59,160

their on their snowmobiles

380

00:18:05,090 --> 00:18:02,460

it's weird stories like that I mean you

381

00:18:06,530 --> 00:18:05,100

know they knew what it was but you know

382

00:18:08,450 --> 00:18:06,540

this thing would actually be able to

383

00:18:10,820 --> 00:18:08,460

keep up with them as it was chasing them

384

00:18:13,400 --> 00:18:10,830

so of course they would you know not go

385

00:18:14,840 --> 00:18:13,410

out at night anymore and which is kind

386

00:18:16,880 --> 00:18:14,850

of hard to do during the wintertime

387

00:18:20,330 --> 00:18:16,890

because it's dark most the time anyway

388

00:18:24,500 --> 00:18:20,340

so yeah there's some really crazy

389

00:18:26,600 --> 00:18:24,510

stories I agree with you well in these

390

00:18:30,410 --> 00:18:26,610

you know these creatures when you start

391

00:18:33,620 --> 00:18:30,420

delving into different aspects of the

392

00:18:36,740 --> 00:18:33,630

tradition and and understand their

393

00:18:39,020 --> 00:18:36,750

perspective it emits a little bit more

394

00:18:41,330 --> 00:18:39,030

sense to you you know you know these

395

00:18:43,700 --> 00:18:41,340

these are very old stories and they come

396

00:18:47,090 --> 00:18:43,710

from tribal people that would very close

397

00:18:51,200 --> 00:18:47,100

to land so in Alaska the otter is a

398

00:18:52,520 --> 00:18:51,210

unique animal because they're its it can

399

00:18:55,640 --> 00:18:52,530

live on land and

400

00:18:58,550 --> 00:18:55,650

the water so in that sense sort of an

401
00:19:01,010 --> 00:18:58,560
in-between creature to begin with you

402
00:19:02,840 --> 00:19:01,020
know something that can live in two

403
00:19:07,510 --> 00:19:02,850
worlds so to speak

404
00:19:10,610 --> 00:19:07,520
and you know they're very honors a very

405
00:19:13,430 --> 00:19:10,620
family-oriented you know they're often

406
00:19:17,600 --> 00:19:13,440
seen as very joyous creatures and by

407
00:19:19,940 --> 00:19:17,610
people who are studying you know kind of

408
00:19:22,970 --> 00:19:19,950
those human animal relations and so

409
00:19:24,500 --> 00:19:22,980
forth and you know when you start taking

410
00:19:27,170 --> 00:19:24,510
those things into account you can kind

411
00:19:29,330 --> 00:19:27,180
of understand okay well I'm honor is a

412
00:19:32,210 --> 00:19:29,340
very unique creature in that environment

413
00:19:34,640 --> 00:19:32,220

and taken from the perspective that it

414

00:19:36,710 --> 00:19:34,650

drawls in two worlds to begin with you

415

00:19:39,350 --> 00:19:36,720

can be embassy the shape-shifting

416

00:19:41,600 --> 00:19:39,360

connection that maybe would develop and

417

00:19:43,970 --> 00:19:41,610

you know certainly for someone who goes

418

00:19:47,480 --> 00:19:43,980

through that transformative process into

419

00:19:51,400 --> 00:19:47,490

another world then you know there you go

420

00:19:55,400 --> 00:19:51,410

all right now I guess the most famous

421

00:19:56,330 --> 00:19:55,410

encounter case in Alaska as far as

422

00:20:01,580 --> 00:19:56,340

bipeds

423

00:20:03,230 --> 00:20:01,590

or Sasquatch would be for Chatham what's

424

00:20:04,760 --> 00:20:03,240

your take on that whole mystery can you

425

00:20:07,130 --> 00:20:04,770

kind of go into the bed I've talked

426
00:20:10,250 --> 00:20:07,140
about before with others but what's your

427
00:20:13,370 --> 00:20:10,260
take on it yeah this is this is a

428
00:20:16,100 --> 00:20:13,380
fascinating case Torche happens also

429
00:20:20,090 --> 00:20:16,110
known as Portlock right it's a little

430
00:20:23,480 --> 00:20:20,100
town that began to develop in for the

431
00:20:28,610 --> 00:20:23,490
1920s and it was cannery town it never

432
00:20:30,650 --> 00:20:28,620
really grew to any too much size you

433
00:20:32,450 --> 00:20:30,660
know it only had a small number of

434
00:20:38,390 --> 00:20:32,460
citizens who lived there they all worked

435
00:20:43,100 --> 00:20:38,400
for the canopy and it wasn't until much

436
00:20:45,730 --> 00:20:43,110
later in the 40s or so rather than 30s

437
00:20:49,340 --> 00:20:45,740
when the town actually had a post office

438
00:20:54,110 --> 00:20:49,350

but what happens with this town first of

439

00:20:58,160 --> 00:20:54,120

all it's just kind of isolated it's it

440

00:21:01,070 --> 00:20:58,170

starts having these strange occurrences

441

00:21:04,760 --> 00:21:01,080

in the 1930s and begins where the

442

00:21:06,120 --> 00:21:04,770

gentleman who is just in the hills

443

00:21:09,510 --> 00:21:06,130

outside of town

444

00:21:11,250 --> 00:21:09,520

who they find murdered now you know put

445

00:21:13,140 --> 00:21:11,260

yourself in this mind does a very small

446

00:21:15,540 --> 00:21:13,150

community they all work for the cannery

447

00:21:18,900 --> 00:21:15,550

they all know each other suddenly son is

448

00:21:21,300 --> 00:21:18,910

dead and it appears to be that the

449

00:21:21,870 --> 00:21:21,310

person has been murdered but here's the

450

00:21:25,860 --> 00:21:21,880

kicker

451
00:21:28,530 --> 00:21:25,870
the guy was murdered with a blow to his

452
00:21:31,230 --> 00:21:28,540
head by a piece of logging equipment now

453
00:21:35,220 --> 00:21:31,240
this piece of logging equipment was too

454
00:21:38,970 --> 00:21:35,230
massive sir for single man to move so

455
00:21:43,680 --> 00:21:38,980
this mystery begins to develop you know

456
00:21:45,720 --> 00:21:43,690
what what possibly lifted this massive

457
00:21:51,390 --> 00:21:45,730
piece of logging equipment and struck

458
00:21:53,730 --> 00:21:51,400
this man down so after this other people

459
00:21:56,910 --> 00:21:53,740
begin to disappear and the area hunters

460
00:21:57,180 --> 00:21:56,920
go up into the hills and they don't come

461
00:22:01,320 --> 00:21:57,190
back

462
00:22:04,470 --> 00:22:01,330
there are gruesome legends that pieces

463
00:22:08,040 --> 00:22:04,480

of their body would wash down into the

464

00:22:11,310 --> 00:22:08,050

town in their river and it was clear

465

00:22:13,200 --> 00:22:11,320

that they had been mauled and torn up by

466

00:22:20,700 --> 00:22:13,210

something but the March did not match a

467

00:22:23,580 --> 00:22:20,710

bear the the town somewhere around the

468

00:22:27,870 --> 00:22:23,590

world war ii period is just after the

469

00:22:30,840 --> 00:22:27,880

town is suddenly abandoned and the story

470

00:22:33,270 --> 00:22:30,850

you know this this is not just an urban

471

00:22:37,520 --> 00:22:33,280

legend the story's been reported in an

472

00:22:40,650 --> 00:22:37,530

alaskan media reported in the 70s

473

00:22:43,500 --> 00:22:40,660

supported again early to thousands of

474

00:22:46,680 --> 00:22:43,510

actually at one point interviewed a

475

00:22:49,560 --> 00:22:46,690

woman who was an elder originally from

476

00:22:53,820 --> 00:22:49,570

the town and she was born in porchetta

477

00:22:57,570 --> 00:22:53,830

mid 1930s early 1930s she had distinct

478

00:23:01,290 --> 00:22:57,580

memories of being a little girl and that

479

00:23:04,710 --> 00:23:01,300

suddenly the whole town said we're

480

00:23:06,930 --> 00:23:04,720

moving we're all leaving they were they

481

00:23:09,510 --> 00:23:06,940

were told to gather all of their things

482

00:23:12,330 --> 00:23:09,520

up the schools were closed the hounds

483

00:23:14,160 --> 00:23:12,340

were shuttered and that hole left on

484

00:23:17,200 --> 00:23:14,170

mass and went to another town to live

485

00:23:19,839 --> 00:23:17,210

now she says that

486

00:23:23,649 --> 00:23:19,849

the whole village left because of the

487

00:23:27,129 --> 00:23:23,659

menteng that that is one of the regional

488

00:23:30,820 --> 00:23:27,139

names that essentially translates a big

489

00:23:32,049 --> 00:23:30,830

hairy man so the stories are there was

490

00:23:37,299 --> 00:23:32,059

massive

491

00:23:39,999 --> 00:23:37,309

hairy man's sasquatch living around the

492

00:23:41,320 --> 00:23:40,009

area outside of ports on Thurman it was

493

00:23:46,299 --> 00:23:41,330

very territorial

494

00:23:48,549 --> 00:23:46,309

and would you know had killed some of

495

00:23:50,349 --> 00:23:48,559

these hunters a lot of other stories

496

00:23:55,049 --> 00:23:50,359

that are mixed you know people spotting

497

00:23:58,659 --> 00:23:55,059

18-inch footprints a story of hunters

498

00:24:02,649 --> 00:23:58,669

following a moose moose tracks and that

499

00:24:05,589 --> 00:24:02,659

suddenly the Moose Tracks just stop

500

00:24:08,769 --> 00:24:05,599

there signs of a scuffle and there's

501
00:24:11,919 --> 00:24:08,779
nothing no more moose tracks but there

502
00:24:15,430 --> 00:24:11,929
are a set of 18-inch tracks that lead

503
00:24:18,279 --> 00:24:15,440
away from the scene these appear to be

504
00:24:20,709 --> 00:24:18,289
bare human footprints at least something

505
00:24:24,279 --> 00:24:20,719
to Candida I mean obviously much larger

506
00:24:26,589 --> 00:24:24,289
than any man so this is a fascinating

507
00:24:28,749 --> 00:24:26,599
story abandoned town still sits there

508
00:24:31,139 --> 00:24:28,759
I've tried on a couple of occasions to

509
00:24:36,219 --> 00:24:31,149
get to it it's difficult to access

510
00:24:38,409 --> 00:24:36,229
because of its location and it really

511
00:24:41,229 --> 00:24:38,419
really takes a bit of planning now I

512
00:24:43,690 --> 00:24:41,239
have spoken to some people who have been

513
00:24:46,839 --> 00:24:43,700

to Port chasm and investigated the site

514

00:24:49,089 --> 00:24:46,849

and you know I've heard firsthand from

515

00:24:52,239 --> 00:24:49,099

them that it is a very strange place

516

00:24:54,039 --> 00:24:52,249

even to this day obviously a lot of the

517

00:24:57,009 --> 00:24:54,049

native people won't go there it's just

518

00:24:59,979 --> 00:24:57,019

become kind of 10b but of course you

519

00:25:02,440 --> 00:24:59,989

know that just draws people me yeah

520

00:25:04,329 --> 00:25:02,450

absolute last minute you know by the

521

00:25:07,779 --> 00:25:04,339

legend so I know some of these people

522

00:25:09,849 --> 00:25:07,789

that have gone and investigated and they

523

00:25:11,950 --> 00:25:09,859

report things some of these guys very

524

00:25:15,099 --> 00:25:11,960

seasoned investigators and they report

525

00:25:18,849 --> 00:25:15,109

these strange feelings of being watched

526

00:25:22,299 --> 00:25:18,859

while they're in the town you know a few

527

00:25:24,009 --> 00:25:22,309

people have heard sounds you know around

528

00:25:26,680 --> 00:25:24,019

the town from the woods outside of the

529

00:25:28,209 --> 00:25:26,690

town that they equate was something

530

00:25:30,970 --> 00:25:28,219

that's likely a Sasquatch or a Bigfoot

531

00:25:32,919 --> 00:25:30,980

so it appears that

532

00:25:35,919 --> 00:25:32,929

you know whatever creature or creatures

533

00:25:41,590 --> 00:25:35,929

were living out around this town were

534

00:25:42,280 --> 00:25:41,600

very territorial and remain remain there

535

00:25:46,630 --> 00:25:42,290

to this day

536

00:25:48,820 --> 00:25:46,640

still just protecting their land yeah I

537

00:25:50,950 --> 00:25:48,830

am it must be something going on because

538

00:25:54,430 --> 00:25:50,960

quite frankly nobody's tried to resettle

539

00:25:57,520 --> 00:25:54,440

here and I know a lot of old women

540

00:25:59,020 --> 00:25:57,530

staying around that's still there some

541

00:26:02,380 --> 00:25:59,030

parts of the Hat you know homes that

542

00:26:06,610 --> 00:26:02,390

were still there but uh I have seen at

543

00:26:10,380 --> 00:26:06,620

least one film that was taken on an

544

00:26:13,480 --> 00:26:10,390

expedition there and it is quite eerie I

545

00:26:16,270 --> 00:26:13,490

I don't know if they really came up with

546

00:26:20,190 --> 00:26:16,280

any solid evidence but the fact they

547

00:26:23,200 --> 00:26:20,200

were there and some of their

548

00:26:26,200 --> 00:26:23,210

recollections of what they felt and off

549

00:26:28,299 --> 00:26:26,210

telling things seemed was pretty spooky

550

00:26:33,130 --> 00:26:28,309

but you know for a fact I mean you know

551
00:26:35,919 --> 00:26:33,140
you hung around Casey for years and you

552
00:26:38,340 --> 00:26:35,929
seen stuff all over the contract as far

553
00:26:42,039 --> 00:26:38,350
as with Bigfoot and other cryptids go

554
00:26:44,650 --> 00:26:42,049
there just somewhat supernatural aspect

555
00:26:46,210 --> 00:26:44,660
to it that is just unexplained and of

556
00:26:49,390 --> 00:26:46,220
course you know that may very well be

557
00:26:50,950 --> 00:26:49,400
what's going on yeah oh yeah and then

558
00:26:55,380 --> 00:26:50,960
you know you've got other factors that

559
00:26:58,600 --> 00:26:55,390
come in to the remoteness of velasca and

560
00:27:00,190 --> 00:26:58,610
you know the state itself and then of

561
00:27:02,680 --> 00:27:00,200
course within the state you know the

562
00:27:05,230 --> 00:27:02,690
remoteness of allah these places like

563
00:27:10,030 --> 00:27:05,240

this little village kind of you know off

564

00:27:12,340 --> 00:27:10,040

to itself you know the largest town or

565

00:27:14,260 --> 00:27:12,350

the city of courses anchors and even it

566

00:27:17,200 --> 00:27:14,270

is not competitively it's not that large

567

00:27:18,970 --> 00:27:17,210

you know it's not like a chicago or

568

00:27:23,350 --> 00:27:18,980

something so you know you're talking

569

00:27:24,820 --> 00:27:23,360

about a very stark landscape and a lot

570

00:27:26,289 --> 00:27:24,830

of the people a lot of people don't

571

00:27:29,470 --> 00:27:26,299

realize how how large

572

00:27:32,440 --> 00:27:29,480

alaska is you know it's a massive state

573

00:27:36,190 --> 00:27:32,450

and I tell people you know you you have

574

00:27:39,940 --> 00:27:36,200

to really to in a clear concept you can

575

00:27:41,919 --> 00:27:39,950

go online and you type in alas that

576
00:27:44,110 --> 00:27:41,929
something like Alaska superimposed over

577
00:27:44,920 --> 00:27:44,120
the lower 48 and most people would be

578
00:27:48,760 --> 00:27:44,930
shocked

579
00:27:53,940 --> 00:27:48,770
and how large the state of Alaska looks

580
00:27:57,010 --> 00:27:53,950
overtop the lower 48 states and you know

581
00:27:59,650 --> 00:27:57,020
incredibly sparsely populated overall

582
00:28:02,740 --> 00:27:59,660
because of course much of it is tongue

583
00:28:05,890 --> 00:28:02,750
very remote areas that are just not

584
00:28:07,750 --> 00:28:05,900
really inhabitable but even that the

585
00:28:09,820 --> 00:28:07,760
small villages and stuff that I was

586
00:28:13,510 --> 00:28:09,830
scattered about I know often very tiny

587
00:28:17,050 --> 00:28:13,520
and so much little animals and so much

588
00:28:19,330 --> 00:28:17,060

wildlife so it's very conceivable of

589

00:28:21,310 --> 00:28:19,340

that there are plenty of things living

590

00:28:22,120 --> 00:28:21,320

in the wild up there that that are yet

591

00:28:26,740 --> 00:28:22,130

to be discovered

592

00:28:29,140 --> 00:28:26,750

oh yeah yeah well that brings us to one

593

00:28:32,980 --> 00:28:29,150

of the more fascinating areas to do with

594

00:28:38,260 --> 00:28:32,990

Alaska assembly aquatic life or aquatic

595

00:28:40,060 --> 00:28:38,270

cryptids that people describe what which

596

00:28:42,910 --> 00:28:40,070

one fascinates you the most I mean I've

597

00:28:48,340 --> 00:28:42,920

heard so many which one fascinate you

598

00:28:49,330 --> 00:28:48,350

the most oh well they're all incredibly

599

00:28:52,210 --> 00:28:49,340

fascinating yeah

600

00:28:54,580 --> 00:28:52,220

intrigued by the luckily I'm not on stir

601
00:28:56,110 --> 00:28:54,590
now lately on those fascinating for a

602
00:28:59,230 --> 00:28:56,120
number of reasons because first of all

603
00:29:00,520 --> 00:28:59,240
there are it's kind of a hot spot across

604
00:29:05,950 --> 00:29:00,530
the board cuz there's a Squatch

605
00:29:08,740 --> 00:29:05,960
sightings around that area too and you

606
00:29:10,720 --> 00:29:08,750
know there's a great Sasquatch story how

607
00:29:12,760 --> 00:29:10,730
I get to the lake monster in a minute

608
00:29:15,850 --> 00:29:12,770
but it was a great Sasquatch story that

609
00:29:19,840 --> 00:29:15,860
came out of Lake Iliamna because there's

610
00:29:22,570 --> 00:29:19,850
a there's a little little business there

611
00:29:25,380 --> 00:29:22,580
that you go and stay and of course it's

612
00:29:27,700 --> 00:29:25,390
a an area that draws fishermen and

613
00:29:31,540 --> 00:29:27,710

outdoorsmen and stuff when the weather

614

00:29:35,800 --> 00:29:31,550

is suitable but there was a a gentleman

615

00:29:37,450 --> 00:29:35,810

who was working there and and he it was

616

00:29:40,660 --> 00:29:37,460

not you know some area everybody knows

617

00:29:45,160 --> 00:29:40,670

everybody else right and uh this guy he

618

00:29:47,020 --> 00:29:45,170

was known as you know he would he would

619

00:29:49,120 --> 00:29:47,030

hit the booze every once in a while and

620

00:29:51,160 --> 00:29:49,130

you know it's kind of a you know the

621

00:29:53,970 --> 00:29:51,170

last and outdoorsman you know it's a

622

00:29:58,400 --> 00:29:53,980

private job but he was he was driving

623

00:30:00,470 --> 00:29:58,410

near the lake one day and spotted this

624

00:30:06,080 --> 00:30:00,480

giant hairy creature caught crossing the

625

00:30:10,460 --> 00:30:06,090

road and you know this is very much at

626

00:30:12,740 --> 00:30:10,470

that frontier attitude of a lot of

627

00:30:17,590 --> 00:30:12,750

people in Alaska his reaction was he

628

00:30:25,460 --> 00:30:20,480

pistol out of his glove box and took a

629

00:30:27,290 --> 00:30:25,470

shot at this thing and play the oh well

630

00:30:29,750 --> 00:30:27,300

in the area it doesn't know what it is

631

00:30:32,660 --> 00:30:29,760

exactly but he's just taking a shot at

632

00:30:36,020 --> 00:30:32,670

it anyway and mizzen tells his story now

633

00:30:38,750 --> 00:30:36,030

the first reaction was okay well you

634

00:30:41,300 --> 00:30:38,760

know he's he's had a few drinks and he's

635

00:30:44,060 --> 00:30:41,310

seeing things or whatever but some of

636

00:30:46,280 --> 00:30:44,070

the guys from the aerial meant to just

637

00:30:48,110 --> 00:30:46,290

out of curiosity to see the sight that

638

00:30:51,380 --> 00:30:48,120

he was talking about him and they did

639

00:30:53,510 --> 00:30:51,390

they found these these tracks that they

640

00:30:55,820 --> 00:30:53,520

could not explain furthermore they found

641

00:30:58,310 --> 00:30:55,830

that the path this thing took crossing

642

00:31:00,080 --> 00:30:58,320

from one side of the other to the other

643

00:31:01,520 --> 00:31:00,090

of the road you know the embankment was

644

00:31:04,610 --> 00:31:01,530

really high it wasn't something that a

645

00:31:06,140 --> 00:31:04,620

human could easily navigate so didn't

646

00:31:08,390 --> 00:31:06,150

have any explanation as to what was

647

00:31:10,610 --> 00:31:08,400

going on here and has the talk spread

648

00:31:13,070 --> 00:31:10,620

around of course some of the local

649

00:31:15,080 --> 00:31:13,080

native people said oh yeah it's the

650

00:31:18,290 --> 00:31:15,090

hairy man we know about it means those

651
00:31:21,680 --> 00:31:18,300
are around here so again you know here's

652
00:31:24,500 --> 00:31:21,690
an area that the stories go way way back

653
00:31:27,470 --> 00:31:24,510
in local tradition but it's just kept

654
00:31:29,410 --> 00:31:27,480
very quiet because you know the tribal

655
00:31:34,760 --> 00:31:29,420
people don't want to disturb this thing

656
00:31:36,200 --> 00:31:34,770
the you know yeah the media gets ahold

657
00:31:38,780 --> 00:31:36,210
of it they want a whole lot of attention

658
00:31:41,270 --> 00:31:38,790
put on it and of course that gets shut

659
00:31:43,640 --> 00:31:41,280
down by the locals but you know the

660
00:31:45,530 --> 00:31:43,650
stories persist and of course in the

661
00:31:47,300 --> 00:31:45,540
midst of all of this happening we also

662
00:31:50,290 --> 00:31:47,310
have the legends surrounding the lake

663
00:31:54,220 --> 00:31:50,300

itself that this monster that reportedly

664

00:31:59,870 --> 00:31:54,230

exists in there and it's it's known as

665

00:32:02,840 --> 00:31:59,880

the Lake Iliamna monster some people

666

00:32:05,090 --> 00:32:02,850

refer to it as illy and different

667

00:32:06,950 --> 00:32:05,100

stories about exactly what this thing is

668

00:32:09,140 --> 00:32:06,960

now I think this one's kind of

669

00:32:12,200 --> 00:32:09,150

fascinating because I I believe it's

670

00:32:16,519 --> 00:32:12,210

probably a giant sturgeon

671

00:32:18,889 --> 00:32:16,529

and you know when you when you look at

672

00:32:21,139 --> 00:32:18,899

how large some of these creatures can

673

00:32:24,379 --> 00:32:21,149

get know maybe some people be

674

00:32:27,139 --> 00:32:24,389

disappointed in that but you know these

675

00:32:31,789 --> 00:32:27,149

same state and dinosaurs I mean these

676
00:32:34,009 --> 00:32:31,799
are massive massive fish and if there's

677
00:32:36,320 --> 00:32:34,019
one that's in there that has grown you

678
00:32:38,259 --> 00:32:36,330
know to extraordinary size that in

679
00:32:42,470 --> 00:32:38,269
itself would be a pretty amazing find

680
00:32:44,739 --> 00:32:42,480
right there there are stories of you

681
00:32:48,739 --> 00:32:44,749
know the famous Monster Hunter Tom slick

682
00:32:51,499 --> 00:32:48,749
tried to to catch this thing there's

683
00:32:53,389 --> 00:32:51,509
guys that that he hired to try to

684
00:32:58,730 --> 00:32:53,399
capture this monster there was a story

685
00:33:03,320 --> 00:32:58,740
about these guys have used a 55-gallon

686
00:33:07,629 --> 00:33:03,330
oil drum as a bobber they hatched it

687
00:33:11,690 --> 00:33:07,639
they attached it to this massive

688
00:33:14,840 --> 00:33:11,700

quarter-inch thick iron hook that they

689

00:33:17,389 --> 00:33:14,850

baited with a chunk of moose flesh they

690

00:33:20,690 --> 00:33:17,399

threw this in they used 16 inch

691

00:33:25,060 --> 00:33:20,700

stainless steel aircraft cable for the

692

00:33:28,999 --> 00:33:25,070

line she went fishing for this creature

693

00:33:32,539 --> 00:33:29,009

now you would think okay they maybe have

694

00:33:37,249 --> 00:33:32,549

a good shot no whatever this thing was

695

00:33:40,909 --> 00:33:37,259

they hooked it this one it's not rough

696

00:33:46,580 --> 00:33:40,919

on aircraft cable yeah

697

00:33:50,529 --> 00:33:46,590

snapped in two so you know whatever is

698

00:33:53,239 --> 00:33:50,539

down there is something that is uh

699

00:33:56,509 --> 00:33:53,249

pretty impressive even if it's a known

700

00:34:02,029 --> 00:33:56,519

animal it's it's pretty daggone

701
00:34:06,049 --> 00:34:02,039
impressive and you know the the sturgeon

702
00:34:07,730 --> 00:34:06,059
theory it's it's one of the ones that's

703
00:34:09,950 --> 00:34:07,740
floated around you know some people

704
00:34:14,109 --> 00:34:09,960
think it's some kind of a sleeper shark

705
00:34:17,059 --> 00:34:14,119
or you know some kind of a freshwater

706
00:34:21,220 --> 00:34:17,069
whale type of creature a lot of deer has

707
00:34:23,690 --> 00:34:21,230
been bandied about but all that aside

708
00:34:27,409 --> 00:34:23,700
it's uh

709
00:34:31,720 --> 00:34:27,419
you know it's something that nobody has

710
00:34:34,069 --> 00:34:31,730
exactly been able to hook and prove yet

711
00:34:37,040 --> 00:34:34,079
yeah I know it's a I know it's a large

712
00:34:39,379 --> 00:34:37,050
lake and it's it does seem like it's

713
00:34:45,169 --> 00:34:39,389

landlocked I don't think that I'm even

714

00:34:47,180 --> 00:34:45,179

though this close to the ocean but I you

715

00:34:50,169 --> 00:34:47,190

know other than like you said a sturgeon

716

00:34:52,700 --> 00:34:50,179

I could even dream of what this may be

717

00:34:57,470 --> 00:34:52,710

yeah and I mean it could be something

718

00:35:00,650 --> 00:34:57,480

you know that it's just unknown or you

719

00:35:02,210 --> 00:35:00,660

know a lost creature that we just know

720

00:35:05,300 --> 00:35:02,220

we think as it's been that's very

721

00:35:07,910 --> 00:35:05,310

possible in a place like Alaska but

722

00:35:09,770 --> 00:35:07,920

never the white sturgeon at this point

723

00:35:11,990 --> 00:35:09,780

is pretty good candidate and just

724

00:35:13,880 --> 00:35:12,000

because of the size and because of the

725

00:35:15,740 --> 00:35:13,890

armor plating that they have on the back

726

00:35:17,150 --> 00:35:15,750

here on like I said they were very

727

00:35:19,400 --> 00:35:17,160

pretty story they're very powerful

728

00:35:23,859 --> 00:35:19,410

creatures Jeremy Wade went up there

729

00:35:26,480 --> 00:35:23,869

River Monsters and he went searching for

730

00:35:28,700 --> 00:35:26,490

whatever was in the lake and he came

731

00:35:31,370 --> 00:35:28,710

away convinced that it was it was

732

00:35:33,589 --> 00:35:31,380

probably a sturgeon because he heard

733

00:35:36,410 --> 00:35:33,599

stories from some of the locals who

734

00:35:39,410 --> 00:35:36,420

wouldn't really talk you know much to

735

00:35:41,990 --> 00:35:39,420

the media or anybody else but he's got a

736

00:35:44,150 --> 00:35:42,000

talent and a knack for you know talking

737

00:35:44,569 --> 00:35:44,160

to people just other fishermen and so

738

00:35:47,000 --> 00:35:44,579

forth

739

00:35:49,010 --> 00:35:47,010

and he heard stories from people who

740

00:35:51,020 --> 00:35:49,020

said no they didn't seem the thing and

741

00:35:53,990 --> 00:35:51,030

it was a sturgeon that was living in

742

00:35:55,670 --> 00:35:54,000

there but again you know that's just as

743

00:35:58,460 --> 00:35:55,680

impressive just because the the

744

00:36:01,670 --> 00:35:58,470

potential massive size of this creature

745

00:36:03,710 --> 00:36:01,680

I mean snapping uh you know 16-inch

746

00:36:06,020 --> 00:36:03,720

aircraft cable that's an impressive food

747

00:36:09,349 --> 00:36:06,030

no matter what it is yeah really I don't

748

00:36:12,050 --> 00:36:09,359

even think a bear could do that no yeah

749

00:36:13,940 --> 00:36:12,060

that's that's amazing well speaking of

750

00:36:18,140 --> 00:36:13,950

bears did you were you were able to get

751

00:36:21,200 --> 00:36:18,150

over to Kodiak at all and look at that

752

00:36:24,200 --> 00:36:21,210

place and maybe hear any stories that

753

00:36:25,700 --> 00:36:24,210

came out of Kodiak as much as you would

754

00:36:27,980 --> 00:36:25,710

think from there I may have some

755

00:36:29,690 --> 00:36:27,990

Sasquatch accounts you pretty much find

756

00:36:33,130 --> 00:36:29,700

Sasquatch accounts everywhere and

757

00:36:36,319 --> 00:36:33,140

actually uh there in the state there's

758

00:36:37,400 --> 00:36:36,329

there's legends they're better legends

759

00:36:40,310 --> 00:36:37,410

here and there but

760

00:36:43,010 --> 00:36:40,320

they are so scant that it's it's

761

00:36:46,070 --> 00:36:43,020

difficult to paint a whole lot down and

762

00:36:48,950 --> 00:36:46,080

you talk in the book about the legend of

763

00:36:52,070 --> 00:36:48,960

the ten sorted bear that some of the

764

00:36:55,520 --> 00:36:52,080

native tribes talked about and this

765

00:36:59,000 --> 00:36:55,530

whole legend of this massive bear that

766

00:37:02,450 --> 00:36:59,010

purportedly used to live in in remote

767

00:37:04,100 --> 00:37:02,460

parts of Alaska and you know I'm not

768

00:37:06,440 --> 00:37:04,110

necessarily saying it had you know

769

00:37:09,260 --> 00:37:06,450

really had ten feet but at the same time

770

00:37:12,740 --> 00:37:09,270

you know you can imagine something even

771

00:37:15,830 --> 00:37:12,750

much larger potentially than the common

772

00:37:17,690 --> 00:37:15,840

grizzly bears that we know about and you

773

00:37:19,430 --> 00:37:17,700

know maybe some kind of a hybrid or

774

00:37:22,250 --> 00:37:19,440

something that could exist in some of

775

00:37:25,010 --> 00:37:22,260

the remote areas well you know they have

776

00:37:28,370 --> 00:37:25,020

talked about a type of grizzly brown

777

00:37:31,340 --> 00:37:28,380

bear mixed with a polar bear for years

778

00:37:35,030 --> 00:37:31,350

now and I think maybe maybe some DNA

779

00:37:36,740 --> 00:37:35,040

evidence of that I don't know and I

780

00:37:38,210 --> 00:37:36,750

discussed I discussed that a little bit

781

00:37:40,370 --> 00:37:38,220

in the book yeah yeah I think some of

782

00:37:45,710 --> 00:37:40,380

these I think some of these hybrids you

783

00:37:47,630 --> 00:37:45,720

know has as we learn more you know about

784

00:37:50,090 --> 00:37:47,640

what's out there in the wild and we see

785

00:37:51,530 --> 00:37:50,100

more interconnectedness of various

786

00:37:54,500 --> 00:37:51,540

species I think we'll see more and more

787

00:37:57,260 --> 00:37:54,510

that proven and you know that it'll show

788

00:38:00,470 --> 00:37:57,270

some of these unusual sightings that

789

00:38:01,820 --> 00:38:00,480

maybe as they can be accounted and

790

00:38:03,610 --> 00:38:01,830

forward by some of these hybrid

791

00:38:06,800 --> 00:38:03,620

creatures mm-hmm

792

00:38:10,130 --> 00:38:06,810

now you know I've been into the winged

793

00:38:13,520 --> 00:38:10,140

cryptid thing more recently than before

794

00:38:17,120 --> 00:38:13,530

but I had been for a long time what what

795

00:38:18,130 --> 00:38:17,130

type of winged cryptids have you heard

796

00:38:20,810 --> 00:38:18,140

about up there

797

00:38:24,680 --> 00:38:20,820

well Thunderbirds are the big one yes

798

00:38:27,530 --> 00:38:24,690

and you know the Thunderbird legends of

799

00:38:30,020 --> 00:38:27,540

course again go back amongst the native

800

00:38:32,620 --> 00:38:30,030

people up there but there's also been

801
00:38:38,890 --> 00:38:32,630
some fairly modern sightings mayors a

802
00:38:42,590 --> 00:38:38,900
famous sighting in 1970s there was a

803
00:38:46,790 --> 00:38:42,600
gentleman who was flying a Cessna 207

804
00:38:50,360 --> 00:38:46,800
and he saw this when he described this

805
00:38:51,270 --> 00:38:50,370
as massive bird now he he believed that

806
00:38:54,330 --> 00:38:51,280
the wingspan

807
00:38:58,920 --> 00:38:54,340
was about 14 feet he calculated that

808
00:39:01,410 --> 00:38:58,930
from from his experience with his claim

809
00:39:04,050 --> 00:39:01,420
and gauging that by you know the winter

810
00:39:05,190 --> 00:39:04,060
formative assessments he was funny well

811
00:39:07,550 --> 00:39:05,200
that's that's a pretty impressive

812
00:39:10,800 --> 00:39:07,560
wingspan it's yeah

813
00:39:14,370 --> 00:39:10,810

not necessarily outside the bounds of

814

00:39:16,290 --> 00:39:14,380

you know a known creature but at the

815

00:39:17,820 --> 00:39:16,300

same time you know it's not something

816

00:39:19,830 --> 00:39:17,830

you necessarily want to see sweeping

817

00:39:26,070 --> 00:39:19,840

down on you when you're out walking your

818

00:39:27,770 --> 00:39:26,080

dogs or something you know there's some

819

00:39:31,740 --> 00:39:27,780

pretty amazing things I mean there was a

820

00:39:36,650 --> 00:39:31,750

person sighting in January 2018 so just

821

00:39:40,740 --> 00:39:36,660

a couple of years ago and this was

822

00:39:44,340 --> 00:39:40,750

somebody who called in and said that she

823

00:39:45,810 --> 00:39:44,350

had seen this giant bird and you know I

824

00:39:47,420 --> 00:39:45,820

wanted it I wanted to know if anybody

825

00:39:51,030 --> 00:39:47,430

else had seen it it was in the

826

00:39:54,000 --> 00:39:51,040

Mendenhall Valley which is outside of

827

00:39:58,050 --> 00:39:54,010

those you know so you know we're talking

828

00:40:00,590 --> 00:39:58,060

about a populated area and she observed

829

00:40:04,110 --> 00:40:00,600

this thing for you know long enough to

830

00:40:06,270 --> 00:40:04,120

to get a good look at it that she's a

831

00:40:08,250 --> 00:40:06,280

longtime Alaskan resident and said you

832

00:40:10,140 --> 00:40:08,260

know this is not a known creature I've

833

00:40:12,120 --> 00:40:10,150

seen you know all these other things

834

00:40:13,770 --> 00:40:12,130

that you're you're saying it could

835

00:40:15,870 --> 00:40:13,780

potentially be I've seen these creatures

836

00:40:20,130 --> 00:40:15,880

which is not what I saw is just

837

00:40:22,980 --> 00:40:20,140

something you know unknown essentially

838

00:40:25,320 --> 00:40:22,990

so it's fascinating when you hear these

839

00:40:26,790 --> 00:40:25,330

stories they're honestly they have a

840

00:40:29,100 --> 00:40:26,800

whole different atmosphere of

841

00:40:32,850 --> 00:40:29,110

believability in a way looking in an

842

00:40:35,000 --> 00:40:32,860

area like Alaska because you can begin

843

00:40:37,740 --> 00:40:35,010

to understand something like that why

844

00:40:41,160 --> 00:40:37,750

they're not seen as often you know

845

00:40:44,010 --> 00:40:41,170

perhaps or you know how they're there

846

00:40:46,260 --> 00:40:44,020

possibly living because something that's

847

00:40:48,650 --> 00:40:46,270

winged that that's that large nor

848

00:40:51,210 --> 00:40:48,660

Thunderbird or whatever this thing is

849

00:40:54,540 --> 00:40:51,220

probably has a large very large hunting

850

00:40:57,090 --> 00:40:54,550

range and can easily be out over remote

851
00:40:58,710 --> 00:40:57,100
areas of the Alaskan tundra just not be

852
00:41:02,820 --> 00:40:58,720
seen for a long time

853
00:41:04,950 --> 00:41:02,830
until somebody spots it yeah I know I

854
00:41:07,710 --> 00:41:04,960
know ken did the forward in your book

855
00:41:10,140 --> 00:41:07,720
and I know him and Jack's out well I'd

856
00:41:13,260 --> 00:41:10,150
talk to both of them about some of these

857
00:41:15,980 --> 00:41:13,270
large bird sightings up there I can seem

858
00:41:18,390 --> 00:41:15,990
to think that this may very well be

859
00:41:21,450 --> 00:41:18,400
something I mean something if somebody

860
00:41:23,220 --> 00:41:21,460
actually seen of course but the area is

861
00:41:25,800 --> 00:41:23,230
so remote I don't know where he was

862
00:41:29,609 --> 00:41:25,810
exactly a jump Denali around that area

863
00:41:32,070 --> 00:41:29,619

but it seems that these large bird

864

00:41:35,490 --> 00:41:32,080

sightings do pop up every once in a

865

00:41:36,900 --> 00:41:35,500

while yeah they did of course you know

866

00:41:40,950 --> 00:41:36,910

it's like a lot of other places there

867

00:41:43,380 --> 00:41:40,960

are many accounts that just don't get

868

00:41:46,470 --> 00:41:43,390

reported right and people don't want to

869

00:41:48,180 --> 00:41:46,480

talk about them you know they don't want

870

00:41:51,000 --> 00:41:48,190

the publicity they don't want to you

871

00:41:53,040 --> 00:41:51,010

know come out and say oh yes I saw this

872

00:41:56,099 --> 00:41:53,050

thing because you know even even with

873

00:41:58,650 --> 00:41:56,109

the different level of acceptability of

874

00:42:02,400 --> 00:41:58,660

these topics many people are still very

875

00:42:04,710 --> 00:42:02,410

good want to go into too much detail

876
00:42:07,020 --> 00:42:04,720
about what they've experienced yeah you

877
00:42:09,839 --> 00:42:07,030
know it's kind of like and you know very

878
00:42:12,180 --> 00:42:09,849
well how the Danae and Navajo legends

879
00:42:14,700 --> 00:42:12,190
are they just they don't like to talk

880
00:42:17,550 --> 00:42:14,710
about it and for the most of the older

881
00:42:19,290 --> 00:42:17,560
folks but I guess it's the same way up

882
00:42:22,260 --> 00:42:19,300
there they you know I guess it's

883
00:42:26,400 --> 00:42:22,270
ingrained then and not to talk to the

884
00:42:28,349 --> 00:42:26,410
outsiders too much about that and

885
00:42:29,970 --> 00:42:28,359
sometimes it's a matter of you know some

886
00:42:32,849 --> 00:42:29,980
of these topics are considered sacred

887
00:42:35,599 --> 00:42:32,859
some of the random sort of taboos some

888
00:42:39,210 --> 00:42:35,609

considered frightening you know and

889

00:42:41,820 --> 00:42:39,220

there's a lot of people that you know

890

00:42:43,920 --> 00:42:41,830

they won't go into it in too much detail

891

00:42:49,770 --> 00:42:43,930

because they're afraid of experiencing

892

00:42:53,250 --> 00:42:49,780

it again of having their dialog about it

893

00:42:56,910 --> 00:42:53,260

attracting creatures attention and they

894

00:43:01,859 --> 00:42:56,920

don't want that yeah I know there have

895

00:43:03,570 --> 00:43:01,869

been talk about some type of humanoids

896

00:43:06,180 --> 00:43:03,580

unknown humanoids that would come out of

897

00:43:07,530 --> 00:43:06,190

the woods and steal children I think

898

00:43:11,070 --> 00:43:07,540

most of that was in the Kenai Peninsula

899

00:43:12,680 --> 00:43:11,080

area well it does big area but what do

900

00:43:17,310 --> 00:43:12,690

you know about that

901
00:43:17,940 --> 00:43:17,320
yeah the disappearances in the last

902
00:43:26,609 --> 00:43:17,950
night

903
00:43:30,079 --> 00:43:26,619
it is it's it's kind of a big topic I

904
00:43:34,770 --> 00:43:30,089
mean to a certain degree I understand

905
00:43:37,970 --> 00:43:34,780
and it doesn't surprise me because again

906
00:43:40,760 --> 00:43:37,980
because of it a train and you know

907
00:43:44,460 --> 00:43:40,770
because so many people I think are just

908
00:43:48,480 --> 00:43:44,470
unprepared for the Alaskan wilderness

909
00:43:51,750 --> 00:43:48,490
and you know this is an area that I mean

910
00:43:55,260 --> 00:43:51,760
I've been out there and you can you know

911
00:43:57,780 --> 00:43:55,270
you can go just a couple of clicks away

912
00:43:59,520 --> 00:43:57,790
from the road and you if you don't have

913
00:44:01,530 --> 00:43:59,530

a really good sense impression oh you

914

00:44:04,829 --> 00:44:01,540

haven't marked your trail you can easily

915

00:44:07,140 --> 00:44:04,839

be lost very quickly and you know turned

916

00:44:08,490 --> 00:44:07,150

around you know especially you know when

917

00:44:10,140 --> 00:44:08,500

there's snow on the ground everything is

918

00:44:12,200 --> 00:44:10,150

white you know what what do you have

919

00:44:16,290 --> 00:44:12,210

maybe have your tracks you can follow

920

00:44:21,900 --> 00:44:16,300

but now if you don't have that tough

921

00:44:24,809 --> 00:44:21,910

predicament and you know with so much

922

00:44:27,150 --> 00:44:24,819

wilderness it's hard to find a lot of

923

00:44:29,309 --> 00:44:27,160

these people that disappear the other

924

00:44:33,690 --> 00:44:29,319

factor is a lot of people don't realize

925

00:44:36,180 --> 00:44:33,700

this there's a lot of crime in Alaska I

926
00:44:39,839 --> 00:44:36,190
was like a surprise I was very surprised

927
00:44:43,050 --> 00:44:39,849
to learn at one point that I spending

928
00:44:45,290 --> 00:44:43,060
time in Anchorage how bad the kracken

929
00:44:49,859 --> 00:44:45,300
rate is in Anchorage and how many

930
00:44:53,370 --> 00:44:49,869
international gangs operate in the city

931
00:44:56,190 --> 00:44:53,380
of Anchorage because it's so easy for

932
00:44:58,650 --> 00:44:56,200
all of these people to get in and out so

933
00:45:02,670 --> 00:44:58,660
you know you've got you've got Russian

934
00:45:09,990 --> 00:45:02,680
gangs Chinese American and European it's

935
00:45:12,690 --> 00:45:10,000
it's it's a incredible mix of you know

936
00:45:14,880 --> 00:45:12,700
forces that are operating in that that

937
00:45:18,089 --> 00:45:14,890
small community so you know that's

938
00:45:21,150 --> 00:45:18,099

that's a fact you have to consider and

939

00:45:24,240 --> 00:45:21,160

you know all of those things they start

940

00:45:25,890 --> 00:45:24,250

to add up - Wow well yeah there's a lot

941

00:45:28,200 --> 00:45:25,900

of disappearances but there also a lot

942

00:45:30,690 --> 00:45:28,210

of different explanations now as far as

943

00:45:31,680 --> 00:45:30,700

supernatural forces yeah there's always

944

00:45:34,440 --> 00:45:31,690

been story

945

00:45:37,579 --> 00:45:34,450

of strange disappearance as you know and

946

00:45:39,900 --> 00:45:37,589

sometimes those are associated with

947

00:45:41,819 --> 00:45:39,910

various creatures that you know whether

948

00:45:45,030 --> 00:45:41,829

it's the Christian car the hairy man or

949

00:45:48,240 --> 00:45:45,040

whatever that may be live in the dense

950

00:45:52,559 --> 00:45:48,250

forests of Alaska and come in and abduct

951
00:45:55,520 --> 00:45:52,569
people for whatever reason but you know

952
00:45:59,760 --> 00:45:55,530
those stories are always a billion rusev

953
00:46:01,920 --> 00:45:59,770
to chase down details on and really

954
00:46:04,710 --> 00:46:01,930
understand you know outside of someone's

955
00:46:06,089 --> 00:46:04,720
coming back and saying I was taken by

956
00:46:08,819 --> 00:46:06,099
one of these creatures on that kind of

957
00:46:12,359 --> 00:46:08,829
way we really we sort of don't know do

958
00:46:15,839 --> 00:46:12,369
me now now and you know you've I've

959
00:46:18,870 --> 00:46:15,849
heard so many stories especially around

960
00:46:21,720 --> 00:46:18,880
the Nome Alaska area of actual alien

961
00:46:23,910 --> 00:46:21,730
abductions or UFO abductions and people

962
00:46:29,730 --> 00:46:23,920
of course he made a movie about it which

963
00:46:31,319 --> 00:46:29,740

was all speculation but you know I don't

964

00:46:33,270 --> 00:46:31,329

know if that has to do with it I know

965

00:46:36,240 --> 00:46:33,280

there's a lot of UFO activity art

966

00:46:38,309 --> 00:46:36,250

strange lights seen up there but I

967

00:46:40,940 --> 00:46:38,319

really like I'm like you you know you

968

00:46:43,650 --> 00:46:40,950

can get out there in the wilderness at

969

00:46:47,700 --> 00:46:43,660

night and you're lost and you're not

970

00:46:50,339 --> 00:46:47,710

getting back you know it can't it can be

971

00:46:53,550 --> 00:46:50,349

very easy to get lost and just lose your

972

00:46:55,980 --> 00:46:53,560

sense of direction yeah and it's funny

973

00:46:58,050 --> 00:46:55,990

you know people ask me that that was he

974

00:47:02,910 --> 00:46:58,060

was the fourth time he asked me about

975

00:47:04,200 --> 00:47:02,920

that all the time and you know the

976
00:47:07,200 --> 00:47:04,210
movement was made for entertainment

977
00:47:09,450 --> 00:47:07,210
obviously I mean it's very unsettling

978
00:47:12,420 --> 00:47:09,460
movie I mean it's very atmospheric and

979
00:47:14,339 --> 00:47:12,430
and it is quite showing but you know

980
00:47:18,809 --> 00:47:14,349
yeah there are a lot of sightings and

981
00:47:21,359 --> 00:47:18,819
encounters up there again you know when

982
00:47:24,660 --> 00:47:21,369
you start considering the environment I

983
00:47:27,540 --> 00:47:24,670
mean it's one thing to encounter a UFO

984
00:47:29,910 --> 00:47:27,550
you know you're out side of your town or

985
00:47:32,099 --> 00:47:29,920
you know you drive them across the

986
00:47:34,290 --> 00:47:32,109
highway somewhere but I mean you you

987
00:47:37,800 --> 00:47:34,300
place that in the context of a very

988
00:47:40,980 --> 00:47:37,810

remote area where you know you're

989

00:47:43,349 --> 00:47:40,990

conscious and know that civilization is

990

00:47:44,250 --> 00:47:43,359

on still a lot of miles away for

991

00:47:47,420 --> 00:47:44,260

instance so

992

00:47:49,890 --> 00:47:47,430

you know that the gas station you passed

993

00:47:51,900 --> 00:47:49,900

there was long closed and there's

994

00:47:54,720 --> 00:47:51,910

nothing else you know it adds a

995

00:47:56,690 --> 00:47:54,730

different element to that encounter and

996

00:48:01,020 --> 00:47:56,700

I I've interviewed people who've had

997

00:48:03,450 --> 00:48:01,030

sightings up there and it is it's a it's

998

00:48:07,079 --> 00:48:03,460

very different in nature just because

999

00:48:09,630 --> 00:48:07,089

the place is very different yeah I know

1000

00:48:10,920 --> 00:48:09,640

I've never been up there but uh you know

1001

00:48:13,980 --> 00:48:10,930

some of the stuff I've heard over the

1002

00:48:15,030 --> 00:48:13,990

years is pretty chilling and of course

1003

00:48:17,430 --> 00:48:15,040

there's just not a whole lot of

1004

00:48:21,230 --> 00:48:17,440

explanation for a lot of it what do you

1005

00:48:24,270 --> 00:48:21,240

think it may be the next the next

1006

00:48:33,829 --> 00:48:24,280

cryptid phenomena that rears its ugly

1007

00:48:40,530 --> 00:48:37,319

let me put this way down you've been

1008

00:48:43,530 --> 00:48:40,540

hearing about all these bizarre pale

1009

00:48:47,550 --> 00:48:43,540

humanoid sightings that have been that

1010

00:48:50,370 --> 00:48:47,560

have been grabbing the the Krypton news

1011

00:48:51,960 --> 00:48:50,380

over the past several months seems like

1012

00:48:54,390 --> 00:48:51,970

these things are everywhere people are

1013

00:48:56,220 --> 00:48:54,400

seeing something and of course there was

1014

00:48:59,670 --> 00:48:56,230

this film that I don't even know it was

1015

00:49:02,520 --> 00:48:59,680

Alaska but I know it was up in that part

1016

00:49:04,260 --> 00:49:02,530

of the country part of the world where

1017

00:49:06,569 --> 00:49:04,270

this thing kind of walked up onto a

1018

00:49:10,440 --> 00:49:06,579

moose I don't know if it was digital or

1019

00:49:12,540 --> 00:49:10,450

CGI or whatever but people are reporting

1020

00:49:14,550 --> 00:49:12,550

these things have you been hearing

1021

00:49:18,930 --> 00:49:14,560

anything like that anything similar to

1022

00:49:20,849 --> 00:49:18,940

that up there no I know the accounts

1023

00:49:25,309 --> 00:49:20,859

that you're talking about yeah heard any

1024

00:49:27,960 --> 00:49:25,319

of those come out of Alaska recently no

1025

00:49:33,180 --> 00:49:27,970

you know there's there's always a force

1026
00:49:36,870 --> 00:49:33,190
of known animals that are beyond normal

1027
00:49:40,109 --> 00:49:36,880
sized Sasquatch reports certainly

1028
00:49:41,970 --> 00:49:40,119
continue to flow out of their water most

1029
00:49:45,240 --> 00:49:41,980
reports due to this there's so much

1030
00:49:47,640 --> 00:49:45,250
water in Alaska you know and nuts and

1031
00:49:49,829 --> 00:49:47,650
that's about a crack just about this on

1032
00:49:51,300 --> 00:49:49,839
the ice but I mean if you look at at the

1033
00:49:53,819 --> 00:49:51,310
shape of Alaska and how many of the

1034
00:49:57,030 --> 00:49:53,829
islands you know stretch out into to the

1035
00:49:58,519 --> 00:49:57,040
water and you've got cultures that you

1036
00:50:01,859 --> 00:49:58,529
know built around

1037
00:50:04,859 --> 00:50:01,869
the fishing and in you know very water

1038
00:50:08,749 --> 00:50:04,869

Finnish culture so there's tozzoli fans

1039

00:50:11,579 --> 00:50:08,759

that are cited at a anomalous and

1040

00:50:12,930 --> 00:50:11,589

unexplained so you have that whole

1041

00:50:15,809 --> 00:50:12,940

factor and then of course all the

1042

00:50:19,499 --> 00:50:15,819

freshwater weights and everything to but

1043

00:50:23,130 --> 00:50:19,509

I I don't know it's gonna be interesting

1044

00:50:25,920 --> 00:50:23,140

I think to see you know what happens in

1045

00:50:29,099 --> 00:50:25,930

say the next six months to a year simply

1046

00:50:31,049 --> 00:50:29,109

because of course much of the world has

1047

00:50:33,749 --> 00:50:31,059

been living in very closed off

1048

00:50:38,069 --> 00:50:33,759

conditions like Alaskans typically with

1049

00:50:39,839 --> 00:50:38,079

a because all of these quarantines and

1050

00:50:41,190 --> 00:50:39,849

crass crazy stuff you know there's

1051
00:50:43,739 --> 00:50:41,200
there's a lot of people who live in

1052
00:50:45,390 --> 00:50:43,749
Alaska and they don't know that they're

1053
00:50:48,539 --> 00:50:45,400
not out and about all the time because

1054
00:50:52,650 --> 00:50:48,549
the the climate you know the conditions

1055
00:50:54,749 --> 00:50:52,660
don't allow it so one thing start to

1056
00:50:56,220 --> 00:50:54,759
sort of open back up again it's going to

1057
00:50:59,999 --> 00:50:56,230
be interesting to see what kind of new

1058
00:51:01,739 --> 00:51:00,009
reports we'll get out of there and what

1059
00:51:03,989 --> 00:51:01,749
kind of Krypton reports in general and

1060
00:51:04,950 --> 00:51:03,999
that's that's kind of commentary on you

1061
00:51:07,259 --> 00:51:04,960
know what you're talking about with

1062
00:51:09,359 --> 00:51:07,269
these sudden sightings a brown pale

1063
00:51:11,579 --> 00:51:09,369

entities which I've noticed that they

1064

00:51:14,009 --> 00:51:11,589

have just started surfacing with the

1065

00:51:17,339 --> 00:51:14,019

quarantine conditions being listed in a

1066

00:51:20,489 --> 00:51:17,349

lot of places so I think we're in some

1067

00:51:22,410 --> 00:51:20,499

for some interesting changes well we're

1068

00:51:23,759 --> 00:51:22,420

getting them here in Pennsylvania I mean

1069

00:51:26,700 --> 00:51:23,769

and that's something I never thought

1070

00:51:29,599 --> 00:51:26,710

we'd be getting here and we might we're

1071

00:51:33,239 --> 00:51:29,609

on to active investigations currently

1072

00:51:35,339 --> 00:51:33,249

that a pretty solid report so god knows

1073

00:51:37,349 --> 00:51:35,349

what they are I mean you know hopefully

1074

00:51:38,190 --> 00:51:37,359

if we get a little bit of insight as to

1075

00:51:42,329 --> 00:51:38,200

what it is

1076
00:51:45,539 --> 00:51:42,339
there is one thing one phenomena in in

1077
00:51:48,930 --> 00:51:45,549
Alaska and other parts of the North I

1078
00:51:52,140 --> 00:51:48,940
would say are these mammoths people

1079
00:51:53,069 --> 00:51:52,150
singing in real like mammoths what's the

1080
00:51:59,370 --> 00:51:53,079
deal on that

1081
00:52:02,009 --> 00:51:59,380
I love these stories partially just

1082
00:52:04,229 --> 00:52:02,019
because you know it's kind of a legend

1083
00:52:07,259 --> 00:52:04,239
of survival in a sense of the story is

1084
00:52:11,519 --> 00:52:07,269
that there are legends of mammoths

1085
00:52:12,120 --> 00:52:11,529
having survived in remote parts of

1086
00:52:16,770 --> 00:52:12,130
Alaska

1087
00:52:18,870 --> 00:52:16,780
No that sounds fantastic first started

1088
00:52:21,240 --> 00:52:18,880

hearing it and and you know it sounds

1089

00:52:23,970 --> 00:52:21,250

you know for me it sounds really cool

1090

00:52:26,190 --> 00:52:23,980

you know to them and that when you when

1091

00:52:30,930 --> 00:52:26,200

you really delve into it

1092

00:52:34,290 --> 00:52:30,940

there are sadly not really many modern

1093

00:52:38,550 --> 00:52:34,300

reports just because but there are

1094

00:52:41,130 --> 00:52:38,560

reports that you know from from the

1095

00:52:43,110 --> 00:52:41,140

eighteen others and so and even know a

1096

00:52:47,220 --> 00:52:43,120

couple from the early nineteen hundred's

1097

00:52:50,160 --> 00:52:47,230

that talk about woolly mammoth living in

1098

00:52:53,220 --> 00:52:50,170

Alaska they're legends that some of the

1099

00:52:57,600 --> 00:52:53,230

native people you know had stories of

1100

00:53:00,660 --> 00:52:57,610

hunting these creatures and they even

1101
00:53:04,950 --> 00:53:00,670
produced you know bones and tusks and so

1102
00:53:06,870 --> 00:53:04,960
forth and even meat at one point so when

1103
00:53:09,270 --> 00:53:06,880
you when you take it off as a whole and

1104
00:53:11,520 --> 00:53:09,280
start delving into what it seems to

1105
00:53:15,360 --> 00:53:11,530
indicate is that there's a strong

1106
00:53:19,320 --> 00:53:15,370
possibility that totally mammoth survive

1107
00:53:23,220 --> 00:53:19,330
much much longer than modern science

1108
00:53:26,370 --> 00:53:23,230
believes that yeah now I should add but

1109
00:53:30,150 --> 00:53:26,380
there's really kind of a whole swath of

1110
00:53:32,910 --> 00:53:30,160
territory that produces these stories

1111
00:53:36,590 --> 00:53:32,920
you know it's remote parts of Alaska and

1112
00:53:39,330 --> 00:53:36,600
and also remote parts of Russia Siberia

1113
00:53:41,520 --> 00:53:39,340

has you know produced some of these

1114

00:53:44,280 --> 00:53:41,530

stories and occasionally you'll see

1115

00:53:46,320 --> 00:53:44,290

purported photographs there was even a

1116

00:53:49,170 --> 00:53:46,330

video a couple of years ago that you

1117

00:53:51,750 --> 00:53:49,180

know reportedly showed a mammoth

1118

00:53:54,090 --> 00:53:51,760

strolling across a part of Siberia or

1119

00:53:56,970 --> 00:53:54,100

something yeah you know a lot of this

1120

00:54:01,680 --> 00:53:56,980

stuff is just unfortunately you know CGI

1121

00:54:03,630 --> 00:54:01,690

of Photoshop and things like that so you

1122

00:54:05,550 --> 00:54:03,640

know it's disappointing when you start

1123

00:54:08,610 --> 00:54:05,560

looking at those aspects but when you do

1124

00:54:10,830 --> 00:54:08,620

dig into the legends and lore of these

1125

00:54:14,460 --> 00:54:10,840

creatures you find that there's it's a

1126

00:54:16,680 --> 00:54:14,470

good indication that they survive much

1127

00:54:18,450 --> 00:54:16,690

longer than it's commonly accepted now

1128

00:54:21,960 --> 00:54:18,460

for me I think that that's very

1129

00:54:23,820 --> 00:54:21,970

fascinating you know even you another I

1130

00:54:26,799 --> 00:54:23,830

I'd love to think that there's heard on

1131

00:54:30,049 --> 00:54:26,809

roaming around the tundra somewhere but

1132

00:54:31,759 --> 00:54:30,059

you know and and you know I always leave

1133

00:54:34,059 --> 00:54:31,769

the door open because hey anything is

1134

00:54:37,279 --> 00:54:34,069

possible in this crazy world but yeah

1135

00:54:40,370 --> 00:54:37,289

you know the indications are like I said

1136

00:54:42,829 --> 00:54:40,380

that but they did survive for a time and

1137

00:54:44,839 --> 00:54:42,839

last and you know I would love to for

1138

00:54:46,549 --> 00:54:44,849

somebody to come up with even more solid

1139

00:54:50,299 --> 00:54:46,559

evidence that that brings it even closer

1140

00:54:52,279 --> 00:54:50,309

to home yeah I agree with you I think I

1141

00:54:55,849 --> 00:54:52,289

think there is a good possibility that

1142

00:55:01,670 --> 00:54:55,859

wolven madness actually existed past the

1143

00:55:03,650 --> 00:55:01,680

Ice Age maybe not for many millennia but

1144

00:55:06,979 --> 00:55:03,660

I think it did go longer than what most

1145

00:55:09,349 --> 00:55:06,989

scientists believe yeah certainly sound

1146

00:55:14,390 --> 00:55:09,359

I think in isolated pockets you know you

1147

00:55:15,589 --> 00:55:14,400

know of course now all the talk is that

1148

00:55:18,079 --> 00:55:15,599

they're going to clone it and bring it

1149

00:55:20,269 --> 00:55:18,089

back to life so yeah maybe maybe they'll

1150

00:55:25,640 --> 00:55:20,279

set them loose in Alaska and we'll have

1151
00:55:34,819 --> 00:55:25,650
that anyway yeah well I I hope people

1152
00:55:37,339 --> 00:55:34,829
watched Jurassic Park you know in in a

1153
00:55:41,509 --> 00:55:37,349
way and I understand why for me that

1154
00:55:43,759 --> 00:55:41,519
reports are intriguing because it's kind

1155
00:55:45,469 --> 00:55:43,769
of a story of potential survival isn't

1156
00:55:49,519 --> 00:55:45,479
it I mean I think that's one of the

1157
00:55:51,799 --> 00:55:49,529
reasons that the thylacine captures so

1158
00:55:54,229 --> 00:55:51,809
many people's attention and I genuinely

1159
00:55:56,900 --> 00:55:54,239
believe that they're still living in the

1160
00:55:58,160 --> 00:55:56,910
in the wilds in Australia and I think

1161
00:56:00,049 --> 00:55:58,170
there's good potential of that being

1162
00:56:04,189 --> 00:56:00,059
proven in the nights you know one to

1163
00:56:05,930 --> 00:56:04,199

five years but man what a comeback story

1164

00:56:10,759 --> 00:56:05,940

you know something like that that is

1165

00:56:12,680 --> 00:56:10,769

presumed extinct and long gone be be

1166

00:56:15,229 --> 00:56:12,690

like a modern sea looking you know which

1167

00:56:17,779 --> 00:56:15,239

was something else that everyone's sworn

1168

00:56:19,789 --> 00:56:17,789

but long gone but now here's this

1169

00:56:22,880 --> 00:56:19,799

prehistoric fish that's what it's still

1170

00:56:24,709 --> 00:56:22,890

alive so you know certainly the

1171

00:56:28,370 --> 00:56:24,719

potential for other species like that

1172

00:56:30,789 --> 00:56:28,380

coming back up and different isolated

1173

00:56:34,400 --> 00:56:30,799

areas of a planet and it still be just

1174

00:56:39,230 --> 00:56:34,410

yeah I think the I think the tiger may

1175

00:56:42,470 --> 00:56:39,240

very well end up being I mean it's beer

1176

00:56:44,630 --> 00:56:42,480

certain parts of Alaska you know not

1177

00:56:46,520 --> 00:56:44,640

necessarily in Tasmania but I think in

1178

00:56:49,700 --> 00:56:46,530

Alaska it sells it may very well be

1179

00:56:52,550 --> 00:56:49,710

there I mean it's so vast I mean and

1180

00:56:55,160 --> 00:56:52,560

that there have been some evidence that

1181

00:56:58,850 --> 00:56:55,170

may actually suggest that it is still

1182

00:57:02,540 --> 00:56:58,860

alive yeah and it's gonna be you know

1183

00:57:05,540 --> 00:57:02,550

kind of a real triumph for cryptozoology

1184

00:57:08,300 --> 00:57:05,550

pakora you know a lot of us have long

1185

00:57:10,900 --> 00:57:08,310

professed that it still is just out

1186

00:57:13,640 --> 00:57:10,910

there and in the wilds in Australia and

1187

00:57:15,320 --> 00:57:13,650

you know I think once that's proven it's

1188

00:57:19,910 --> 00:57:15,330

going to be eye-opening for a lot of

1189

00:57:22,430 --> 00:57:19,920

people so you know but back a time I

1190

00:57:25,970 --> 00:57:22,440

mean the potential is there - for

1191

00:57:28,670 --> 00:57:25,980

unknown species I mean it's so much vast

1192

00:57:30,470 --> 00:57:28,680

land and you know the climate of course

1193

00:57:33,080 --> 00:57:30,480

makes it very difficult for extensive

1194

00:57:37,100 --> 00:57:33,090

research so yeah I know I know

1195

00:57:39,010 --> 00:57:37,110

a few researchers up there but you know

1196

00:57:41,570 --> 00:57:39,020

they have to deal with conditions that

1197

00:57:44,090 --> 00:57:41,580

limit their investigations and

1198

00:57:48,500 --> 00:57:44,100

explorations to you know parts of the

1199

00:57:50,210 --> 00:57:48,510

year and areas that are difficult to

1200

00:57:52,640 --> 00:57:50,220

access that when they can get in there

1201
00:57:54,830 --> 00:57:52,650
and check those things out they do and

1202
00:57:57,620 --> 00:57:54,840
who knows I mean somebody might stumble

1203
00:57:58,990 --> 00:57:57,630
on something mind-boggling and porkchop

1204
00:58:03,890 --> 00:57:59,000
them one day

1205
00:58:05,359 --> 00:58:03,900
so David uh what's what's going on the

1206
00:58:07,609 --> 00:58:05,369
future what do you have planned I know

1207
00:58:10,370 --> 00:58:07,619
this kovin thing has everybody's

1208
00:58:14,120 --> 00:58:10,380
schedule screwed up but I what do you

1209
00:58:17,690 --> 00:58:14,130
plan on getting how having or being done

1210
00:58:20,770 --> 00:58:17,700
within and later on this year yeah so

1211
00:58:23,270 --> 00:58:20,780
it's yeah this craziness with this

1212
00:58:25,460 --> 00:58:23,280
covert stuff I mean it's canceled so

1213
00:58:32,990 --> 00:58:25,470

many events you know for for people like

1214

00:58:36,890 --> 00:58:33,000

me to speak but if if conditions hold

1215

00:58:40,340 --> 00:58:36,900

I'll be speaking at the South monstera

1216

00:58:42,890 --> 00:58:40,350

festival beginning in August in South

1217

00:58:44,900 --> 00:58:42,900

Arkansas and I'll also be at the van

1218

00:58:47,420 --> 00:58:44,910

Meter festival in September and van

1219

00:58:50,570 --> 00:58:47,430

Meter how long in terms of other

1220

00:58:52,280 --> 00:58:50,580

projects I ask at yeah I've got a slew

1221

00:58:57,830 --> 00:58:52,290

of books finished and and

1222

00:59:01,340 --> 00:58:57,840

coming out in the next two to three

1223

00:59:02,960 --> 00:59:01,350

weeks the next installment in the

1224

00:59:05,120 --> 00:59:02,970

haunted series that I've been writing

1225

00:59:09,200 --> 00:59:05,130

across Allison will be out that is on

1226
00:59:11,690 --> 00:59:09,210
haunted churches beyond that there will

1227
00:59:14,120 --> 00:59:11,700
be the next book in Mystic cryptids

1228
00:59:17,780 --> 00:59:14,130
series and the focus this time is on

1229
00:59:20,840 --> 00:59:17,790
Indiana so yeah the cover-up for that

1230
00:59:24,440 --> 00:59:20,850
you can see it on my website on your

1231
00:59:27,350 --> 00:59:24,450
life's comm the book is called monsters

1232
00:59:29,480 --> 00:59:27,360
at the crossroads and the featured

1233
00:59:32,390 --> 00:59:29,490
cryptid on the cover is the Beast of

1234
00:59:36,680 --> 00:59:32,400
busco laughter there's a giant turtle

1235
00:59:38,450 --> 00:59:36,690
and that's a whole cool story so I'm

1236
00:59:41,750 --> 00:59:38,460
looking at that word today because I

1237
00:59:45,260 --> 00:59:41,760
like that one more eg Anna has off has a

1238
00:59:48,170 --> 00:59:45,270

ton of stuff it comes out of there it

1239

00:59:50,480 --> 00:59:48,180

does it's very rich and in some

1240

00:59:52,820 --> 00:59:50,490

incredible stories I had a good time

1241

00:59:55,220 --> 00:59:52,830

with that one and I spent a lot of time

1242

00:59:56,780 --> 00:59:55,230

in Indiana so it was another one like

1243

00:59:58,700 --> 00:59:56,790

the last it was a matter of you know

1244

01:00:01,010 --> 00:59:58,710

just going down and saying okay you know

1245

01:00:03,730 --> 01:00:01,020

I've got a really focuses and give a

1246

01:00:06,170 --> 01:00:03,740

good overview because needs to do

1247

01:00:09,530 --> 01:00:06,180

several volumes just on the Sasquatch

1248

01:00:11,660 --> 01:00:09,540

sightings alone in this man but some

1249

01:00:13,430 --> 01:00:11,670

really great monster stories out of

1250

01:00:15,380 --> 01:00:13,440

there and and I'm gonna keep going with

1251

01:00:18,410 --> 01:00:15,390

those you know people keep asking me if

1252

01:00:21,130 --> 01:00:18,420

I'm going to do all 50 states and I just

1253

01:00:23,420 --> 01:00:21,140

say well you know hold on and keep watch

1254

01:00:25,010 --> 01:00:23,430

well David thanks again for coming on

1255

01:00:28,520 --> 01:00:25,020

the show you're always welcome here and

1256

01:00:31,160 --> 01:00:28,530

I look forward to reading your stuff in

1257

01:00:32,210 --> 01:00:31,170

the future I know words man I appreciate

1258

01:00:36,680 --> 01:00:32,220

it you have a good night okay

1259

01:00:39,620 --> 01:00:36,690

you take care thank now if you have an

1260

01:00:41,090 --> 01:00:39,630

unexplained encounter or sighting feel
