**Cryptozoologist, Author
'Essential Guide to Bigfoot'**

BXP

1
00:00:09,890 --> 00:00:06,920
the oldest and strongest human emotion

2
00:00:14,169 --> 00:00:09,900
is fear and the oldest and strongest

3
00:00:17,390 --> 00:00:14,179
type of fear the trepidation of young

4
00:00:21,290 --> 00:00:17,400
when we were children our parents told

5
00:00:23,599 --> 00:00:21,300
us that monsters didn't exist but we

6
00:00:27,320 --> 00:00:23,609
were sure that something is lurking

7
00:00:30,550 --> 00:00:27,330
under the bed or in the closet beer sees

8
00:00:34,250 --> 00:00:30,560
even if our eyes are closed

9
00:00:37,280 --> 00:00:34,260
welcome to the realm of your cane my

10
00:00:40,280 --> 00:00:37,290
name is lon stripper join me as I

11
00:00:42,290 --> 00:00:40,290
examine unexplained creatures strange

12
00:00:46,850 --> 00:00:42,300
manifestations of the remarkable

13
00:00:49,870 --> 00:00:46,860

realities imagine this next hour as a

14

00:00:53,450 --> 00:00:49,880

voyage of discovery to strange lands

15

00:00:56,210 --> 00:00:53,460

seeking not for new territory but for

16

00:00:58,640 --> 00:00:56,220

new knowledge of the supernatural come

17

00:01:10,849 --> 00:00:58,650

on board as we begin this adventure

18

00:01:13,069 --> 00:01:10,859

together hey folks good evening and

19

00:01:15,649 --> 00:01:13,079

welcome to another episode of arcane

20

00:01:18,020 --> 00:01:15,659

radio where we explore the unexplained

21

00:01:18,800 --> 00:01:18,030

here on the paranormal King radio

22

00:01:21,469 --> 00:01:18,810

network

23

00:01:24,080 --> 00:01:21,479

I'm your host lawn Strickler coming to

24

00:01:26,419 --> 00:01:24,090

you with in a cannon shot of historic

25

00:01:29,169 --> 00:01:26,429

Gettysburg in the cryptid mecca of

26

00:01:32,239 --> 00:01:29,179

Pennsylvania I thank you for joining me

27

00:01:36,550 --> 00:01:32,249

now I before we get started with our

28

00:01:40,249 --> 00:01:36,560

guests I recently received a report of

29

00:01:41,989 --> 00:01:40,259

former witness who forwarded - what

30

00:01:45,080 --> 00:01:41,999

actually was forward to manual knob

31

00:01:47,809 --> 00:01:45,090

Rhett or a UFO Clearing House and he for

32

00:01:52,219 --> 00:01:47,819

it to be and where the witness states

33

00:01:54,499 --> 00:01:52,229

that a humanoid was observed ascending

34

00:01:56,620 --> 00:01:54,509

into a UFO at Chicago's O'Hare

35

00:02:01,099 --> 00:01:56,630

International Airport

36

00:02:04,749 --> 00:02:01,109

now this occurred on January 23rd of

37

00:02:07,249 --> 00:02:04,759

this year about 1 o'clock in the morning

38

00:02:10,370 --> 00:02:07,259

where the witness City was standing

39

00:02:12,050 --> 00:02:10,380
outside taking a smoke break and was on

40

00:02:15,590 --> 00:02:12,060
the phone with his girlfriend when he

41

00:02:17,320 --> 00:02:15,600
sold this UFO pass over him he said was

42

00:02:20,650 --> 00:02:17,330
completely silent

43

00:02:22,840 --> 00:02:20,660
extremely bright it has a passed over

44

00:02:25,960 --> 00:02:22,850
shafts of light were coming from it and

45

00:02:29,050 --> 00:02:25,970
going to the ground he said was

46

00:02:30,970 --> 00:02:29,060
egg-shaped and it was moving very fast

47

00:02:34,030 --> 00:02:30,980
and then stopped right above the old

48

00:02:37,600 --> 00:02:34,040
cemetery that sits inside the airport

49

00:02:41,080 --> 00:02:37,610
that some rest Haven Cemetery then a

50

00:02:44,080 --> 00:02:41,090
brilliant blue light came from this

51
00:02:47,770 --> 00:02:44,090
thing toward the ground it looked like

52
00:02:50,650 --> 00:02:47,780
someone was was shining a super bright

53
00:02:53,830 --> 00:02:50,660
spotlight down from the sky toward the

54
00:02:56,860 --> 00:02:53,840
ground it was then that I saw something

55
00:02:59,710 --> 00:02:56,870
rising up towards the object and it

56
00:03:03,100 --> 00:02:59,720
disappeared at about five seconds it

57
00:03:05,400 --> 00:03:03,110
looked like a person but it was standing

58
00:03:08,140 --> 00:03:05,410
too far away to get a good look at it

59
00:03:10,240 --> 00:03:08,150
now I can tell you that it looked a lot

60
00:03:14,230 --> 00:03:10,250
like a person getting sucked up in this

61
00:03:16,180 --> 00:03:14,240
thing the the object then rotated in

62
00:03:18,430 --> 00:03:16,190
place and within three seconds

63
00:03:22,810 --> 00:03:18,440

it flew towards the north and was going

64

00:03:26,110 --> 00:03:22,820

within a second so it was witnessed seem

65

00:03:31,780 --> 00:03:26,120

to be pretty shook up according to two

66

00:03:33,910 --> 00:03:31,790

nut Mon ul this you know I was kind of

67

00:03:38,320 --> 00:03:33,920

surprised to hear about a cemetery being

68

00:03:43,120 --> 00:03:38,330

in the the airport law on the airport

69

00:03:44,710 --> 00:03:43,130

grounds but it definitely is and it's

70

00:03:47,650 --> 00:03:44,720

actually right up against one of the

71

00:03:49,780 --> 00:03:47,660

cargo areas so I believe you know he

72

00:03:52,150 --> 00:03:49,790

stated he was about 300 foot away from

73

00:03:57,900 --> 00:03:52,160

it but I actually think he may have been

74

00:04:01,420 --> 00:03:57,910

a bit closer and from the way it sounded

75

00:04:04,120 --> 00:04:01,430

after main will actually investigate it

76

00:04:08,680 --> 00:04:04,130

I think this this was some type of

77

00:04:11,710 --> 00:04:08,690

humanoid shape not nothing human and the

78

00:04:16,810 --> 00:04:11,720

one thing that's got me thinking is is

79

00:04:17,979 --> 00:04:16,820

it possibly a winged humanoid be picked

80

00:04:20,110 --> 00:04:17,989

up somehow

81

00:04:22,930 --> 00:04:20,120

I mean you know with all the winged

82

00:04:28,090 --> 00:04:22,940

humanoid sightings around the airport

83

00:04:29,800 --> 00:04:28,100

recently it doesn't seem like the the

84

00:04:31,299 --> 00:04:29,810

cemetery in the middle of night would be

85

00:04:35,679 --> 00:04:31,309

some place were

86

00:04:39,189 --> 00:04:35,689

someone would become a but get adopted I

87

00:04:41,319 --> 00:04:39,199

don't know so it's kind of bizarre so

88

00:04:42,969 --> 00:04:41,329

we're looking into it a bit more or

89

00:04:46,509 --> 00:04:42,979

hopefully Manuel's gonna get some more

90

00:04:49,929 --> 00:04:46,519

information I'm gonna try to get a

91

00:04:53,559 --> 00:04:49,939

little more so we'll have to see and

92

00:04:55,509 --> 00:04:53,569

then see if this somehow connected with

93

00:05:00,119 --> 00:04:55,519

the phenomena that's been going on

94

00:05:03,159 --> 00:05:00,129

around Chicago the last couple years so

95

00:05:05,619 --> 00:05:03,169

we'll see so this week

96

00:05:08,229 --> 00:05:05,629

I'm welcome cryptozoologists

97

00:05:11,079 --> 00:05:08,239

investigator and author ken gerhart

98

00:05:12,809 --> 00:05:11,089

arcane radio now Ken as a widely

99

00:05:14,979 --> 00:05:12,819

recognized

100

00:05:17,259 --> 00:05:14,989

cryptozoologist and field investigator

101
00:05:19,829 --> 00:05:17,269
for the Center for Ford to zoology as

102
00:05:22,059 --> 00:05:19,839
well as a fellow at the Pangaea

103
00:05:25,539 --> 00:05:22,069
institute and consultant for several

104
00:05:27,069 --> 00:05:25,549
research research organizations now he

105
00:05:29,429 --> 00:05:27,079
has traveled the world searching for

106
00:05:32,259 --> 00:05:29,439
evidence of mysterious animals and

107
00:05:35,739 --> 00:05:32,269
legendary beasts in addition to

108
00:05:39,129 --> 00:05:35,749
co-hosting his History Channel TV series

109
00:05:41,559 --> 00:05:39,139
missing and Alaska ken appeared in three

110
00:05:43,749 --> 00:05:41,569
episodes of television series Monster

111
00:05:46,779 --> 00:05:43,759
quest and has featured in History

112
00:05:49,499 --> 00:05:46,789
Channel special the real Wolfman as well

113
00:05:53,379 --> 00:05:49,509

as other series including ancient aliens

114

00:05:55,719 --> 00:05:53,389

true monsters unexplained files and

115

00:05:59,019 --> 00:05:55,729

monsters and mysteries in America and

116

00:06:02,259 --> 00:05:59,029

many more his credits include

117

00:06:04,719 --> 00:06:02,269

appearances on numerous news broadcast

118

00:06:08,019 --> 00:06:04,729

and radio programs and he has authored

119

00:06:09,969 --> 00:06:08,029

five well-received books including his

120

00:06:13,329 --> 00:06:09,979

recent title the essential guide to

121

00:06:17,139 --> 00:06:13,339

Bigfoot and by the way it's an excellent

122

00:06:19,389 --> 00:06:17,149

book ken has traveled to 20 22 different

123

00:06:21,189 --> 00:06:19,399

countries on six continents and has

124

00:06:24,939 --> 00:06:21,199

visited virtually all the United States

125

00:06:27,729 --> 00:06:24,949

an avid adventure he has can't along the

126
00:06:30,609 --> 00:06:27,739
Amazon explored the Galapagos hike it's

127
00:06:33,459 --> 00:06:30,619
Australian outback and has visited many

128
00:06:37,629 --> 00:06:33,469
ancient and mysterious sites from Machu

129
00:06:38,699 --> 00:06:37,639
Picchu to Stonehenge so Ken thanks for

130
00:06:41,499 --> 00:06:38,709
joining me

131
00:06:43,719 --> 00:06:41,509
good evening as always it's a pleasure

132
00:06:44,940 --> 00:06:43,729
and an honor to be with you my friend

133
00:06:48,330 --> 00:06:44,950
how are you

134
00:06:50,700 --> 00:06:48,340
I'm doing pretty good I see you've been

135
00:06:54,810 --> 00:06:50,710
keeping busy which is which is good I

136
00:06:59,340 --> 00:06:54,820
guess keeping busy is good there's a

137
00:07:02,250 --> 00:06:59,350
good busy yeah there sure is so as you

138
00:07:04,980 --> 00:07:02,260

heard we've been keeping busy yeah that

139

00:07:06,480 --> 00:07:04,990

uh listening intently to that account

140

00:07:09,630 --> 00:07:06,490

you know it kind of reminds me if you

141

00:07:12,270 --> 00:07:09,640

read any of the old there's a to old but

142

00:07:14,640 --> 00:07:12,280

you know that the 1970s UFO books and

143

00:07:16,920 --> 00:07:14,650

they had all those weird encounters all

144

00:07:19,530 --> 00:07:16,930

over the place with you know all types

145

00:07:21,570 --> 00:07:19,540

of humanoid beings different sizes and

146

00:07:24,120 --> 00:07:21,580

shapes and you know the egg-shaped

147

00:07:26,520 --> 00:07:24,130

objects that would come down and tripod

148

00:07:28,620 --> 00:07:26,530

legs yeah it's kind of like we've gone

149

00:07:30,480 --> 00:07:28,630

full circle and a lot of that stuff is

150

00:07:32,840 --> 00:07:30,490

at least it's you know if it was

151
00:07:35,700 --> 00:07:32,850
happening in between the 70s and now

152
00:07:37,500 --> 00:07:35,710
like we're hearing about it as much yeah

153
00:07:40,590 --> 00:07:37,510
and you mentioned some of that in the

154
00:07:44,460 --> 00:07:40,600
book with the Bigfoot UFO connection in

155
00:07:48,570 --> 00:07:44,470
70s and 73 in particular that Stan

156
00:07:51,030 --> 00:07:48,580
Gordon had investigated during that time

157
00:07:55,950 --> 00:07:51,040
and actually it's still going on it's

158
00:07:57,810 --> 00:07:55,960
just to a lesser degree yeah pretty

159
00:07:59,220 --> 00:07:57,820
weird pretty weird and wacky stuff some

160
00:08:01,590 --> 00:07:59,230
of my favorite stories were the ones

161
00:08:04,710 --> 00:08:01,600
from art South America I think it was

162
00:08:06,150 --> 00:08:04,720
Argentina where the hairy Dwarfs you

163
00:08:07,110 --> 00:08:06,160

know would kinda the occupants would

164

00:08:09,210 --> 00:08:07,120

come out and they were these little

165

00:08:12,000 --> 00:08:09,220

hairy superhuman strengths and they

166

00:08:15,780 --> 00:08:12,010

would throw people off remember reading

167

00:08:17,840 --> 00:08:15,790

any of those accounts but you know those

168

00:08:21,450 --> 00:08:17,850

were some pretty pretty interesting ones

169

00:08:25,310 --> 00:08:21,460

well I tell you I read the book it's

170

00:08:29,360 --> 00:08:25,320

very good very comprehensive enjoyable I

171

00:08:32,940 --> 00:08:29,370

recommend it to any Bigfoot enthusiast

172

00:08:37,890 --> 00:08:32,950

experienced not experienced it does

173

00:08:40,920 --> 00:08:37,900

really does really explain the phenomena

174

00:08:45,090 --> 00:08:40,930

it's a great primer and you should be

175

00:08:47,130 --> 00:08:45,100

very proud of it thank you it definitely

176

00:08:49,350 --> 00:08:47,140

means a lot coming from you a fellow

177

00:08:52,800 --> 00:08:49,360

researcher author and respected

178

00:08:54,870 --> 00:08:52,810

colleague yeah I you know I I've been

179

00:08:56,940 --> 00:08:54,880

investigating Bigfoot for decades but I

180

00:08:58,320 --> 00:08:56,950

never occurred to me that I should write

181

00:08:58,860 --> 00:08:58,330

a book because there I felt like there

182

00:09:00,480 --> 00:08:58,870

were there

183

00:09:02,100 --> 00:09:00,490

a lot of good books out you know for

184

00:09:05,040 --> 00:09:02,110

many years that were kind of to go to

185

00:09:06,690 --> 00:09:05,050

resources but you know things have

186

00:09:09,780 --> 00:09:06,700

changed now it's kind of the the

187

00:09:11,370 --> 00:09:09,790

proliferation of the internet and so you

188

00:09:13,200 --> 00:09:11,380

know it's harder I think for people to

189

00:09:15,720 --> 00:09:13,210

filter through the information that's

190

00:09:17,490 --> 00:09:15,730

out there to figure out what's accurate

191

00:09:19,950 --> 00:09:17,500

in terms of what's being reported or

192

00:09:21,840 --> 00:09:19,960

what you know people all have their own

193

00:09:23,850 --> 00:09:21,850

theories and it's it's you know it's

194

00:09:26,130 --> 00:09:23,860

easy to kind of be led astray but I just

195

00:09:28,110 --> 00:09:26,140

you know I don't want anyone that's

196

00:09:30,840 --> 00:09:28,120

really seriously interested in Bigfoot

197

00:09:33,390 --> 00:09:30,850

as a phenomenon to lose sight of the the

198

00:09:35,400 --> 00:09:33,400

foundational information or knowledge

199

00:09:36,960 --> 00:09:35,410

that's been amassed over the years by

200

00:09:39,810 --> 00:09:36,970

different researchers and kind of put

201

00:09:43,740 --> 00:09:39,820

together and a lot of it is consistent

202

00:09:45,150 --> 00:09:43,750

and you know that's very credible and so

203

00:09:47,790 --> 00:09:45,160

it's important for people to kind of

204

00:09:49,290 --> 00:09:47,800

keep that all in perspective when

205

00:09:54,240 --> 00:09:49,300

they're contemplating something as

206

00:09:56,640 --> 00:09:54,250

remarkable as Bigfoot yeah you know we

207

00:09:59,730 --> 00:09:56,650

do talk a bit about some of these

208

00:10:02,340 --> 00:09:59,740

supernatural theories that may be

209

00:10:05,130 --> 00:10:02,350

associated with the Bigfoot phenomena

210

00:10:09,600 --> 00:10:05,140

but you're right we can't get away from

211

00:10:12,900 --> 00:10:09,610

the actual early evidence and actual

212

00:10:16,170 --> 00:10:12,910

stories and you know what there have

213

00:10:20,670 --> 00:10:16,180

been recorded before that and kind of

214

00:10:23,130 --> 00:10:20,680

had to ground ourselves to this well you

215

00:10:24,660 --> 00:10:23,140

know I I find all of this all of this

216

00:10:25,730 --> 00:10:24,670

unexplained phenomena is quite

217

00:10:27,449 --> 00:10:25,740

fascinating and I've always

218

00:10:29,040 --> 00:10:27,459

cryptozoology is always been my main

219

00:10:31,530 --> 00:10:29,050

passion but I'd you know read books

220

00:10:33,449 --> 00:10:31,540

about UFOs and ghosts and the Bermuda

221

00:10:36,990 --> 00:10:33,459

Triangle and all that stuff it's always

222

00:10:38,160 --> 00:10:37,000

pretty interesting to me but you know I

223

00:10:40,949 --> 00:10:38,170

think there might you know there might

224

00:10:42,690 --> 00:10:40,959

be supernatural type phenomenon going on

225

00:10:44,790 --> 00:10:42,700

around the world sure but the thing that

226

00:10:49,340 --> 00:10:44,800

Bigfoot has going in its favor is it has

227

00:10:52,590 --> 00:10:49,350

different physical you know or at least

228

00:10:54,570 --> 00:10:52,600

presumptively physical aspects to it it

229

00:10:55,710 --> 00:10:54,580

leaves footprints that are consistent

230

00:10:57,690 --> 00:10:55,720

that have been found all over the place

231

00:11:00,290 --> 00:10:57,700

in different wilderness areas they're

232

00:11:02,850 --> 00:11:00,300

typically reported in the same areas

233

00:11:04,290 --> 00:11:02,860

where you would expect to find them then

234

00:11:07,050 --> 00:11:04,300

you have all the Native American

235

00:11:08,250 --> 00:11:07,060

mythology that are very consistent and

236

00:11:11,819 --> 00:11:08,260

then you know you have the fossil

237

00:11:12,480 --> 00:11:11,829

history where you have species you know

238

00:11:14,579 --> 00:11:12,490

hominin

239

00:11:16,290 --> 00:11:14,589

species that look like Bigfoot's a that

240

00:11:20,430 --> 00:11:16,300

existed couple of million years ago and

241

00:11:23,070 --> 00:11:20,440

earlier or later so I mean you know it's

242

00:11:25,110 --> 00:11:23,080

just there's more substantial evidence

243

00:11:27,780 --> 00:11:25,120

to me that Bigfoot is a flesh-and-blood

244

00:11:32,639 --> 00:11:27,790

creature a basically an undiscovered

245

00:11:34,410 --> 00:11:32,649

animal or hominin you know something

246

00:11:37,130 --> 00:11:34,420

from the prehistoric days it's very rare

247

00:11:40,050 --> 00:11:37,140

and still around in remote areas and

248

00:11:41,910 --> 00:11:40,060

there are some weird stories and cases

249

00:11:44,310 --> 00:11:41,920

involving bigfoot-type creatures but I

250

00:11:46,079 --> 00:11:44,320

think as I state in the book if you look

251

00:11:47,940 --> 00:11:46,089

at the vast majority of Bigfoot

252

00:11:51,240 --> 00:11:47,950

sightings which number in you know six

253

00:11:53,100 --> 00:11:51,250

thousand some people say more you know

254

00:11:54,780 --> 00:11:53,110

they're pretty natural sounding it's it

255

00:11:57,540 --> 00:11:54,790

sounds like an animal it's usually just

256

00:11:59,400 --> 00:11:57,550

crossing the road or drinking water from

257

00:12:01,170 --> 00:11:59,410

a pond or you know walking through the

258

00:12:05,040 --> 00:12:01,180

woods you rarely hear about the the

259

00:12:06,780 --> 00:12:05,050

weird lights and UFOs now not to

260

00:12:10,940 --> 00:12:06,790

discount Stan's research or anyone else

261

00:12:14,130 --> 00:12:10,950

because I think there may be a kind of

262

00:12:16,710 --> 00:12:14,140

more of a supernatural or metaphysical

263

00:12:18,510 --> 00:12:16,720

phenomenon that looks like Bigfoot the

264

00:12:20,850 --> 00:12:18,520

same perhaps the same mechanism that

265

00:12:23,280 --> 00:12:20,860

creates other creatures like man and dog

266

00:12:28,110 --> 00:12:23,290

man and maybe sometimes it materializes

267

00:12:32,490 --> 00:12:28,120

as a Bigfoot type thing you know so yeah

268

00:12:35,940 --> 00:12:32,500

I think there is a connection with a lot

269

00:12:39,480 --> 00:12:35,950

of these these phenomena humanoid

270

00:12:41,370 --> 00:12:39,490

phenomena in particular we're just for

271

00:12:43,949 --> 00:12:41,380

instance I mean it comes right to the

272

00:12:45,870 --> 00:12:43,959

top of my head is you know when we've

273

00:12:49,620 --> 00:12:45,880

been looking into this phenomena in

274

00:12:53,519 --> 00:12:49,630

around Chicago northern Illinois we did

275

00:12:57,720 --> 00:12:53,529

have report last year of a of a

276

00:12:59,400 --> 00:12:57,730

sasquatch sized being looked like a

277

00:13:02,310 --> 00:12:59,410

sasquatch they here in the old nine

278

00:13:08,280 --> 00:13:02,320

yards about eight foot and height two

279

00:13:11,010 --> 00:13:08,290

had wings wow that yeah and the one we

280

00:13:13,050 --> 00:13:11,020

had the first witness come forward we

281

00:13:16,170 --> 00:13:13,060

had two other ones after that and in

282

00:13:21,750 --> 00:13:16,180

fact one of the witnesses filed a police

283

00:13:23,850 --> 00:13:21,760

report at the time and we did get the

284

00:13:25,990 --> 00:13:23,860

Freedom of Information Act request and

285

00:13:30,310 --> 00:13:26,000

got the police report so he he

286

00:13:34,200 --> 00:13:30,320

or something but yeah I mean it wasn't

287

00:13:37,450 --> 00:13:34,210

what people had been seeing with the the

288

00:13:42,160 --> 00:13:37,460

emaciated black humanoid with with bat

289

00:13:44,830 --> 00:13:42,170

wings this thing was very different so I

290

00:13:47,890 --> 00:13:44,840

don't know I mean I hate that one stands

291

00:13:51,600 --> 00:13:47,900

out and kind of makes me think that you

292

00:13:56,440 --> 00:13:51,610

know maybe these things are connected

293

00:13:58,090 --> 00:13:56,450

yeah certainly could be I mean we were

294

00:14:00,970 --> 00:13:58,100

talking before the show I haven't done a

295

00:14:02,920 --> 00:14:00,980

ton of dog man research or investigation

296

00:14:05,170 --> 00:14:02,930

but of course I've done the Mothman and

297

00:14:06,850 --> 00:14:05,180

the flying humanoids but from one

298

00:14:08,820 --> 00:14:06,860

everything I've heard and seen there's

299

00:14:13,420 --> 00:14:08,830

so many parallels between those two

300

00:14:15,130 --> 00:14:13,430

creatures yeah you know the the kind of

301
00:14:16,840 --> 00:14:15,140
the anthropomorphic nature where you're

302
00:14:19,650 --> 00:14:16,850
blending human features with it with

303
00:14:23,920 --> 00:14:19,660
different types of animals the bats or

304
00:14:25,870 --> 00:14:23,930
dogs or whatever and also the behavior

305
00:14:28,060 --> 00:14:25,880
you know the way that they just freakin

306
00:14:31,060 --> 00:14:28,070
terrify people they're very hyper

307
00:14:34,440 --> 00:14:31,070
aggressive they chase cars they chase

308
00:14:37,900 --> 00:14:34,450
people they clawed things bang on walls

309
00:14:39,310 --> 00:14:37,910
you know most animals or even the

310
00:14:41,380 --> 00:14:39,320
animals that we perceive to be very

311
00:14:43,720 --> 00:14:41,390
scary like bears and lions are actually

312
00:14:45,880 --> 00:14:43,730
free reticent and docile and afraid of

313
00:14:47,230 --> 00:14:45,890

humans and it's very rare that's all you

314

00:14:49,270 --> 00:14:47,240

know maybe once in a while but they

315

00:14:52,240 --> 00:14:49,280

don't go out of their way to antagonize

316

00:14:55,180 --> 00:14:52,250

and chase humans they just defend their

317

00:14:58,000 --> 00:14:55,190

territory so you know and then there's

318

00:14:59,680 --> 00:14:58,010

you know the UFO connections and glowing

319

00:15:01,360 --> 00:14:59,690

lights and the strangeness and some

320

00:15:03,280 --> 00:15:01,370

mists and you know it's just it seems

321

00:15:07,780 --> 00:15:03,290

like those types of things might all be

322

00:15:09,130 --> 00:15:07,790

connected somehow yeah and you know we

323

00:15:11,500 --> 00:15:09,140

get some of the strangest stuff

324

00:15:14,980 --> 00:15:11,510

sometimes and we're left with trying to

325

00:15:17,350 --> 00:15:14,990

figure it out and try to explain to

326

00:15:19,150 --> 00:15:17,360

people what people are seeing you know

327

00:15:22,630 --> 00:15:19,160

the one thing I didn't really like about

328

00:15:24,880 --> 00:15:22,640

the book was that you you have

329

00:15:27,970 --> 00:15:24,890

interjected a lot of your opinion in it

330

00:15:31,350 --> 00:15:27,980

which was I did like and in fact the one

331

00:15:34,600 --> 00:15:31,360

section that that I noticed right off

332

00:15:37,930 --> 00:15:34,610

was the discussion you had about the

333

00:15:39,759 --> 00:15:37,940

population of a let's say well let's

334

00:15:42,999 --> 00:15:39,769

just save the flesh and blood

335

00:15:45,960 --> 00:15:43,009

Bigfoot and uh why wouldn't you put your

336

00:15:50,109 --> 00:15:45,970

idea over the actual population of

337

00:15:52,150 --> 00:15:50,119

Bigfoot or a related species well you

338

00:15:54,129 --> 00:15:52,160

know you always have to kind of start

339

00:15:56,859 --> 00:15:54,139

these discussions by admitting that it's

340

00:15:58,539 --> 00:15:56,869

really pure speculation because there's

341

00:16:00,489 --> 00:15:58,549

so much we don't know you know we only

342

00:16:03,789 --> 00:16:00,499

know a fraction of what we think we know

343

00:16:05,559 --> 00:16:03,799

but you know I've worked for years now

344

00:16:08,319 --> 00:16:05,569

with the San Antonio Zoo I'm a volunteer

345

00:16:11,470 --> 00:16:08,329

educator there and our zoo is

346

00:16:13,329 --> 00:16:11,480

particularly active in conservation and

347

00:16:14,769 --> 00:16:13,339

breeding of endangered species and

348

00:16:17,739 --> 00:16:14,779

things like that and so I've gotten a

349

00:16:19,539 --> 00:16:17,749

good appreciation for the viability of

350

00:16:22,329 --> 00:16:19,549

different species and what it takes for

351

00:16:24,220 --> 00:16:22,339

a species to stick around so Bigfoot's

352

00:16:26,259 --> 00:16:24,230

been here for thousands or millions of

353

00:16:28,239 --> 00:16:26,269

years and it's if it's still around

354

00:16:30,160 --> 00:16:28,249

there has to be a viable breeding

355

00:16:33,400 --> 00:16:30,170

population just like any other animals

356

00:16:35,710 --> 00:16:33,410

so what would that take so in the book I

357

00:16:37,600 --> 00:16:35,720

discussed the the first best guess was

358

00:16:39,999 --> 00:16:37,610

done by answer physical anthropologist

359

00:16:41,499 --> 00:16:40,009

dr. Grover Krantz at Washington State he

360

00:16:44,859 --> 00:16:41,509

was interested in a Bigfoot phenomenon

361

00:16:48,309 --> 00:16:44,869

for years and he guessed 4000 he said I

362

00:16:50,049 --> 00:16:48,319

think they're about 2,000 Bigfoot's in

363

00:16:52,239 --> 00:16:50,059

Canada and Alaska and then there's

364

00:16:54,400 --> 00:16:52,249

another 2000 south of Canada and other

365

00:16:55,960 --> 00:16:54,410

parts of North America and his reasoning

366

00:16:58,150 --> 00:16:55,970

was pretty sound he said if there's more

367

00:17:00,489 --> 00:16:58,160

than 4,000 I think if he's seen more

368

00:17:02,679 --> 00:17:00,499

often if they're less than that they

369

00:17:04,689 --> 00:17:02,689

wouldn't be able to carry on with the

370

00:17:08,740 --> 00:17:04,699

species because they're spread out so

371

00:17:10,149 --> 00:17:08,750

far and then about a year ago I was

372

00:17:11,740 --> 00:17:10,159

having a discussion with dr. Jeff

373

00:17:14,649 --> 00:17:11,750

Meldrum who's another physical

374

00:17:17,590 --> 00:17:14,659

anthropologist protege of Grover Krantz

375

00:17:19,870 --> 00:17:17,600

and we kind of came up with an equation

376

00:17:22,629 --> 00:17:19,880

to kind of and this was based on his

377

00:17:24,970 --> 00:17:22,639

experience of finding big footprints

378

00:17:27,189 --> 00:17:24,980

that he thought belonged to the same

379

00:17:30,100 --> 00:17:27,199

individual that were spread out like 60

380

00:17:31,990 --> 00:17:30,110

miles apart different times so he has a

381

00:17:34,330 --> 00:17:32,000

theory that Bigfoot has a big wide

382

00:17:35,860 --> 00:17:34,340

roaming range of at least a thousand

383

00:17:38,700 --> 00:17:35,870

square miles so anyways we went into

384

00:17:42,490 --> 00:17:38,710

this whole equation thing and I

385

00:17:43,899 --> 00:17:42,500

extrapolated his number by the size of

386

00:17:47,049 --> 00:17:43,909

all the world Earnest areas in North

387

00:17:50,440 --> 00:17:47,059

America and came up with about 4,000 as

388

00:17:53,410 --> 00:17:50,450

well yeah I mean it's just a guess but I

389

00:17:56,290 --> 00:17:53,420

would say if you know a few thousand I

390

00:17:58,210 --> 00:17:56,300

if you get below that number considering

391

00:18:02,050 --> 00:17:58,220

their sightings from Alaska to Florida

392

00:18:05,860 --> 00:18:02,060

to California to you know Maine I mean

393

00:18:07,720 --> 00:18:05,870

you wouldn't have I don't know you if

394

00:18:09,700 --> 00:18:07,730

you had less than that they just

395

00:18:11,380 --> 00:18:09,710

wouldn't be able to breed and they

396

00:18:16,420 --> 00:18:11,390

wouldn't be genetically viable basically

397

00:18:19,090 --> 00:18:16,430

so right well you know most of the

398

00:18:22,420 --> 00:18:19,100

Bigfoot sightings are Sasquatch

399

00:18:24,640 --> 00:18:22,430

sightings come from North America and of

400

00:18:27,400 --> 00:18:24,650

course there's a lot of sightings in in

401

00:18:30,730 --> 00:18:27,410

other areas but it just it does seem to

402

00:18:34,150 --> 00:18:30,740

be more in the United States in Canada

403

00:18:37,240 --> 00:18:34,160

now I don't know if I speak just because

404

00:18:42,040 --> 00:18:37,250

of one thews es in in the United States

405

00:18:45,910 --> 00:18:42,050

and Canada or what what that is what you

406

00:18:48,280 --> 00:18:45,920

what's your reasoning for that well you

407

00:18:50,710 --> 00:18:48,290

know if you look at speciation you know

408

00:18:55,240 --> 00:18:50,720

I think Bigfoot is probably has a

409

00:18:57,880 --> 00:18:55,250

similar is similar in many ways to other

410

00:19:03,280 --> 00:18:57,890

North American fauna such as large fauna

411

00:19:04,870 --> 00:19:03,290

such as bears elk wolves mountain lions

412

00:19:07,270 --> 00:19:04,880

and a lot of those species came over

413

00:19:08,980 --> 00:19:07,280

from Asia and in fact a lot of the

414

00:19:11,920 --> 00:19:08,990

species are in Asia and North America

415

00:19:16,720 --> 00:19:11,930

both and lo and behold in Asia you have

416

00:19:19,600 --> 00:19:16,730

of course you know the Yeti the Yaron of

417

00:19:21,370 --> 00:19:19,610

China the AH masti of Russia and

418

00:19:23,230 --> 00:19:21,380

Mongolia so there are Bigfoots like

419

00:19:25,090 --> 00:19:23,240

creatures that are other than the in

420

00:19:28,840 --> 00:19:25,100

North America I think you have the most

421

00:19:30,250 --> 00:19:28,850

sightings by far in Asia mm-hm so that

422

00:19:33,790 --> 00:19:30,260

makes sense to me that we're talking

423

00:19:35,980 --> 00:19:33,800

about an animal that basically was

424

00:19:39,070 --> 00:19:35,990

prevalent during the Pleistocene the Ice

425

00:19:41,320 --> 00:19:39,080

Age just as wolves and bears and elk and

426

00:19:43,300 --> 00:19:41,330

other animals were and just like those

427

00:19:46,270 --> 00:19:43,310

other animals probably migrated from

428

00:19:49,540 --> 00:19:46,280

Asia into North America across the land

429

00:19:50,860 --> 00:19:49,550

bridge that existed at that time and so

430

00:19:53,920 --> 00:19:50,870

that's why you have a lot of reports

431

00:19:55,810 --> 00:19:53,930

from both and it's probably an animal

432

00:19:57,910 --> 00:19:55,820

that it's a-you know who knows but it

433

00:20:00,460 --> 00:19:57,920

seems like it's adapted more towards

434

00:20:02,230 --> 00:20:00,470

elevation because you have so many

435

00:20:05,080 --> 00:20:02,240

connections with Bigfoot and the Yeti

436

00:20:06,720 --> 00:20:05,090

and other creatures like that are

437

00:20:09,590 --> 00:20:06,730

usually reported from mouth

438

00:20:12,240 --> 00:20:09,600

so it seems like they like elevation

439

00:20:16,200 --> 00:20:12,250

maybe they like the pine forests maybe

440

00:20:20,100 --> 00:20:16,210

they like say the solitude because

441

00:20:22,080 --> 00:20:20,110

humans don't go there as much but but

442

00:20:23,880 --> 00:20:22,090

you're right and and and within North

443

00:20:25,320 --> 00:20:23,890

America most of the sightings are on the

444

00:20:27,150 --> 00:20:25,330

west coast right you have a lot of

445

00:20:30,930 --> 00:20:27,160

writings from Washington California

446

00:20:32,880 --> 00:20:30,940

Oregon British Columbia and Alaska and

447

00:20:34,260 --> 00:20:32,890

then you have pockets across the rest of

448

00:20:36,560 --> 00:20:34,270

the US there seems to be a pretty big

449

00:20:39,720 --> 00:20:36,570

pocket area that encompasses like

450

00:20:42,000 --> 00:20:39,730

southern Ohio western Pennsylvania and

451
00:20:43,860 --> 00:20:42,010
Northern Kentucky even though there are

452
00:20:45,570 --> 00:20:43,870
reports all over spread out from there

453
00:20:48,299 --> 00:20:45,580
but those are concentrations and then

454
00:20:50,760 --> 00:20:48,309
Florida with the skunk ape and then here

455
00:20:53,120 --> 00:20:50,770
where we have the Four Corners area of

456
00:20:55,530 --> 00:20:53,130
Texas Louisiana Arkansas Oklahoma

457
00:20:57,600 --> 00:20:55,540
there's a lot of activity so there's

458
00:20:58,890 --> 00:20:57,610
lambie they seem to be sightings

459
00:21:03,060 --> 00:20:58,900
everywhere but there are certainly areas

460
00:21:04,860 --> 00:21:03,070
that seem more active mm-hmm yeah you do

461
00:21:08,010 --> 00:21:04,870
you have a chapter in the book about a

462
00:21:11,220 --> 00:21:08,020
little little feed Littlefoot and it's

463
00:21:13,409 --> 00:21:11,230

very interesting because when you get

464

00:21:16,770 --> 00:21:13,419

outside of the United States and Canada

465

00:21:19,980 --> 00:21:16,780

outside of North America it seems to be

466

00:21:24,090 --> 00:21:19,990

an entirely different with these smaller

467

00:21:28,680 --> 00:21:24,100

type beings especially in the the South

468

00:21:32,070 --> 00:21:28,690

Pacific and southern Asia yeah that's

469

00:21:34,080 --> 00:21:32,080

true and you know the most famous of the

470

00:21:36,419 --> 00:21:34,090

little foot creatures is the Arang pen

471

00:21:39,950 --> 00:21:36,429

deck of Sumatra many people have heard

472

00:21:42,510 --> 00:21:39,960

of it reg ped deck means short man and

473

00:21:44,970 --> 00:21:42,520

it's considered to be different from the

474

00:21:49,230 --> 00:21:44,980

orangutan which is also from from that

475

00:21:50,970 --> 00:21:49,240

area that Island but there's there are a

476

00:21:54,960 --> 00:21:50,980

lot of reports of you know the EBU gogo

477

00:21:56,610 --> 00:21:54,970

and in Africa in Equatorial Africa you

478

00:21:59,730 --> 00:21:56,620

have little foot creatures like the

479

00:22:01,470 --> 00:21:59,740

Adaro a and Saheed a I've been to

480

00:22:04,650 --> 00:22:01,480

Central America where I've investigated

481

00:22:07,230 --> 00:22:04,660

a little foot known as the Duende so

482

00:22:09,900 --> 00:22:07,240

they always seem to be along in warmer

483

00:22:14,010 --> 00:22:09,910

climates or jungle habitats for the most

484

00:22:15,780 --> 00:22:14,020

part that's not and that just so happens

485

00:22:17,850 --> 00:22:15,790

to align with something known as

486

00:22:19,649 --> 00:22:17,860

Bergman's rule which in the animal

487

00:22:20,610 --> 00:22:19,659

kingdom means that animals that have

488

00:22:23,640 --> 00:22:20,620

more

489

00:22:26,220 --> 00:22:23,650

can often be found in colder climates

490

00:22:28,320 --> 00:22:26,230

absolutely as you go farther north the

491

00:22:30,450 --> 00:22:28,330

Bears get bigger the Wolves cave

492

00:22:32,730 --> 00:22:30,460

everything so everything gets bigger get

493

00:22:34,740 --> 00:22:32,740

its gotten you know more more mass and

494

00:22:36,960 --> 00:22:34,750

warrants and it can tolerate those and

495

00:22:40,110 --> 00:22:36,970

then things tend to shrink down when you

496

00:22:42,299 --> 00:22:40,120

go down to well this look at mountain

497

00:22:46,230 --> 00:22:42,309

lions you got mountain lions Puma

498

00:22:48,210 --> 00:22:46,240

concolor ranging from Alaska to Central

499

00:22:50,490 --> 00:22:48,220

and South America but they're smaller

500

00:22:52,560 --> 00:22:50,500

mountain lions there where it's hotter

501
00:22:54,150 --> 00:22:52,570
in the Central and South America and

502
00:22:59,820 --> 00:22:54,160
they get bigger as you get up into

503
00:23:04,820 --> 00:22:59,830
Colorado and up north you know so yeah

504
00:23:11,720 --> 00:23:04,830
and there's also a a smaller species

505
00:23:15,870 --> 00:23:14,400
yeah I mean that's you know something

506
00:23:17,700 --> 00:23:15,880
that really got and got me interested in

507
00:23:21,409 --> 00:23:17,710
the subject mm-hmm

508
00:23:23,549 --> 00:23:21,419
when I was up in Alaska in 2015

509
00:23:25,350 --> 00:23:23,559
filming that the series missing in

510
00:23:27,720 --> 00:23:25,360
Alaska we did an episode on the little

511
00:23:29,640 --> 00:23:27,730
people and by little people what they

512
00:23:32,159 --> 00:23:29,650
natives described are little hairy

513
00:23:33,570 --> 00:23:32,169

people that live in the wilderness and

514

00:23:36,840 --> 00:23:33,580

that are different from Bigfoot because

515

00:23:41,820 --> 00:23:36,850

they're tiny and they have a slightly

516

00:23:43,560 --> 00:23:41,830

more supernatural characteristics a you

517

00:23:45,390 --> 00:23:43,570

know there's they're just like little

518

00:23:47,820 --> 00:23:45,400

people legends all over the world where

519

00:23:49,500 --> 00:23:47,830

you have gnomes and fairies and all

520

00:23:53,039 --> 00:23:49,510

these magical beings they're considered

521

00:23:55,169 --> 00:23:53,049

to be a little bit more spectral but

522

00:23:56,940 --> 00:23:55,179

people in Alaska are very terrified of

523

00:23:58,740 --> 00:23:56,950

these little hairy covered man-like

524

00:24:03,110 --> 00:23:58,750

creatures and they call them a number of

525

00:24:06,720 --> 00:24:03,120

names at Duke ins arch and rock Jinxy ox

526

00:24:11,100 --> 00:24:06,730

so on and so forth and I've also spoken

527

00:24:15,390 --> 00:24:11,110

to some Native American people in in the

528

00:24:17,960 --> 00:24:15,400

Dakotas and other parts of North America

529

00:24:20,820 --> 00:24:17,970

that have also claimed to have similar

530

00:24:24,060 --> 00:24:20,830

creatures little hair covered dwarf

531

00:24:27,030 --> 00:24:24,070

creatures so you know it's all I read a

532

00:24:29,310 --> 00:24:27,040

chapter in the book about Littlefoot but

533

00:24:32,730 --> 00:24:29,320

perhaps we could be dealing with a proto

534

00:24:34,200 --> 00:24:32,740

pygmy or a pygmy sized relict hominin

535

00:24:36,539 --> 00:24:34,210

and

536

00:24:38,879 --> 00:24:36,549

similar to Bigfoot but you know more

537

00:24:40,860 --> 00:24:38,889

along the lines of a Homo habilis or

538

00:24:42,360 --> 00:24:40,870

something like that but I'm certainly

539

00:24:44,850 --> 00:24:42,370

not the first person to propose this

540

00:24:47,240 --> 00:24:44,860

stuff if you go back even to Anderson

541

00:24:51,389 --> 00:24:47,250

I haven't Sanderson back in you know

542

00:24:52,620 --> 00:24:51,399

1960s I was writing about the you know a

543

00:24:57,210 --> 00:24:52,630

lot of these little thing called the

544

00:25:00,330 --> 00:24:57,220

proto pygmies in the world yeah I mean

545

00:25:05,549 --> 00:25:00,340

yeah I have heard of these these small

546

00:25:10,409 --> 00:25:05,559

beings and like northern Minnesota into

547

00:25:19,460 --> 00:25:10,419

into Manitoba and Alberta and the ajeeb

548

00:25:26,220 --> 00:25:23,340

yeah the I've taken a few reports on

549

00:25:28,200 --> 00:25:26,230

that as well over the years it does seem

550

00:25:31,230 --> 00:25:28,210

to be I mean you're right these things

551
00:25:36,180 --> 00:25:31,240
are tiny I mean they are small and the

552
00:25:39,749 --> 00:25:36,190
powerful yeah very strong but small I

553
00:25:41,460 --> 00:25:39,759
think the when you talked about the

554
00:25:45,749 --> 00:25:41,470
native peoples of the First Nations

555
00:25:49,919 --> 00:25:45,759
people they tend to believe up there

556
00:25:53,070 --> 00:25:49,929
that these beings kidnap children huh

557
00:25:56,879 --> 00:25:53,080
yep it's very interesting and I think

558
00:25:59,369 --> 00:25:56,889
when you did missing in Alaska them you

559
00:26:02,490 --> 00:25:59,379
talked about it was not only that went

560
00:26:05,909 --> 00:26:02,500
missing yeah yeah vanished and it was it

561
00:26:08,519 --> 00:26:05,919
was in the news and stuff so yeah and

562
00:26:12,060 --> 00:26:08,529
you know that again when I was down in

563
00:26:13,710 --> 00:26:12,070

Belize in 2004 2006 searching for the

564

00:26:15,330 --> 00:26:13,720

Duende which is a little foot creature

565

00:26:18,119 --> 00:26:15,340

that's reported down from the jungles

566

00:26:20,310 --> 00:26:18,129

there I spoke to a gentleman a Mayan

567

00:26:22,350 --> 00:26:20,320

gentleman who told me that his young

568

00:26:26,430 --> 00:26:22,360

sister had been kidnapped by a Duende

569

00:26:28,889 --> 00:26:26,440

and what's weird as he said that before

570

00:26:31,740 --> 00:26:28,899

she was she vanished that she could see

571

00:26:33,119 --> 00:26:31,750

this little man-like creature kind of at

572

00:26:34,499 --> 00:26:33,129

the edge of the jungle and she was

573

00:26:36,930 --> 00:26:34,509

pointing at it but the other people

574

00:26:39,690 --> 00:26:36,940

couldn't really see it and then she

575

00:26:41,820 --> 00:26:39,700

vanished and then he said they found her

576

00:26:44,159 --> 00:26:41,830

I guess they mounted a search for her

577

00:26:46,920 --> 00:26:44,169

and found her sleeping in the in the

578

00:26:50,160 --> 00:26:46,930

jungle next to a strange piece of

579

00:26:53,370 --> 00:26:50,170

fabric and according to this gentleman

580

00:26:55,500 --> 00:26:53,380

his name was Inori oh my he said that

581

00:26:57,240 --> 00:26:55,510

they burned the the piece of fabric

582

00:26:58,980 --> 00:26:57,250

because they thought it was you know of

583

00:27:00,990 --> 00:26:58,990

the devil you know something evil or

584

00:27:05,220 --> 00:27:01,000

demonic or possessed because of this

585

00:27:09,270 --> 00:27:05,230

little creature Duende creature and that

586

00:27:12,930 --> 00:27:09,280

after that happened his infant son or if

587

00:27:14,520 --> 00:27:12,940

sorry infant brother passed away no okay

588

00:27:18,900 --> 00:27:14,530

so there was there was all this really

589

00:27:20,550 --> 00:27:18,910

dark kind of connotation involving the

590

00:27:22,220 --> 00:27:20,560

Duende down there but they did also

591

00:27:23,370 --> 00:27:22,230

describe it as kind of like a little

592

00:27:27,330 --> 00:27:23,380

hairy

593

00:27:30,690 --> 00:27:27,340

you know man like a better words you

594

00:27:33,440 --> 00:27:30,700

know kind of an ancient looking face and

595

00:27:37,050 --> 00:27:33,450

covered in hair and walks upright and

596

00:27:39,530 --> 00:27:37,060

they live supposedly live in the Maya

597

00:27:43,740 --> 00:27:39,540

mountains and some of the areas up there

598

00:27:45,720 --> 00:27:43,750

mmm interesting um there was another

599

00:27:46,350 --> 00:27:45,730

part of the book I found interesting as

600

00:27:50,240 --> 00:27:46,360

well

601
00:27:52,620 --> 00:27:50,250
among many interesting things was

602
00:27:55,530 --> 00:27:52,630
talking about the possibility that

603
00:27:59,370 --> 00:27:55,540
Sasquatch hibernates during the winter

604
00:28:00,720 --> 00:27:59,380
what are your thoughts on that well you

605
00:28:02,850 --> 00:28:00,730
know that's those theories have been out

606
00:28:06,540 --> 00:28:02,860
there for a long time too and I think

607
00:28:09,210 --> 00:28:06,550
some of that has to do with you know

608
00:28:10,920 --> 00:28:09,220
there are the first person that really

609
00:28:12,480 --> 00:28:10,930
chronicled and collected Bigfoot reports

610
00:28:15,570 --> 00:28:12,490
and sightings and put them into a

611
00:28:18,060 --> 00:28:15,580
massive database was John Green who is a

612
00:28:19,650 --> 00:28:18,070
journalist and an author and he he

613
00:28:22,370 --> 00:28:19,660

started collecting sightings or

614

00:28:24,900 --> 00:28:22,380

interviewing people back in the 50s and

615

00:28:27,120 --> 00:28:24,910

through the years he amassed thousands

616

00:28:29,400 --> 00:28:27,130

of sightings and he he started putting

617

00:28:31,110 --> 00:28:29,410

them into a computer in the 1970s and he

618

00:28:32,670 --> 00:28:31,120

looked for patterns and things for years

619

00:28:33,630 --> 00:28:32,680

because he had so many reports he was

620

00:28:35,760 --> 00:28:33,640

trying to see if there were different

621

00:28:38,430 --> 00:28:35,770

patterns and things but what he noticed

622

00:28:40,740 --> 00:28:38,440

was that there were significantly best

623

00:28:42,540 --> 00:28:40,750

sightings in the winter now there's an

624

00:28:44,670 --> 00:28:42,550

obvious reason for that which is people

625

00:28:47,040 --> 00:28:44,680

tend to be less outdoors in the winter

626
00:28:51,540 --> 00:28:47,050
because especially in some of these cold

627
00:28:54,390 --> 00:28:51,550
you know mountainous areas um but you

628
00:28:56,810 --> 00:28:54,400
know there there's a biological way you

629
00:28:59,760 --> 00:28:56,820
can look at it too which is Bigfoot is

630
00:29:00,960 --> 00:28:59,770
very similar to a bear in terms of its

631
00:29:05,159 --> 00:29:00,970
size

632
00:29:07,080 --> 00:29:05,169
an omnivore needs a lot of different

633
00:29:09,360 --> 00:29:07,090
things but during the winter food is

634
00:29:12,180 --> 00:29:09,370
scarce for all animals and so for

635
00:29:15,390 --> 00:29:12,190
example bears enter a state of torpor

636
00:29:16,830 --> 00:29:15,400
not true hibernation but they crawl into

637
00:29:19,049 --> 00:29:16,840
a hole and slow down their metabolism

638
00:29:22,320 --> 00:29:19,059

and sleep and they're that way they're

639

00:29:23,909 --> 00:29:22,330

not burning as much energy other animals

640

00:29:25,560 --> 00:29:23,919

large animals are less active in the

641

00:29:27,390 --> 00:29:25,570

winter for this for similar reasons

642

00:29:30,000 --> 00:29:27,400

there's less food available less energy

643

00:29:32,490 --> 00:29:30,010

so you know it's a fair assumption that

644

00:29:34,110 --> 00:29:32,500

Bigfoot might follow a similar pattern

645

00:29:36,720 --> 00:29:34,120

that maybe because it's such a large

646

00:29:38,460 --> 00:29:36,730

animal and you know estimated weights

647

00:29:41,039 --> 00:29:38,470

range from five hundred to a thousand

648

00:29:42,810 --> 00:29:41,049

pounds they're huge animals that need a

649

00:29:47,100 --> 00:29:42,820

lot of food and so maybe during the

650

00:29:49,020 --> 00:29:47,110

winter they to some extent they're you

651
00:29:52,970 --> 00:29:49,030
know I would say hibernate but they go

652
00:29:55,740 --> 00:29:52,980
into kind of a state of low activity or

653
00:29:58,380 --> 00:29:55,750
possibly they migrate some of them might

654
00:30:03,779 --> 00:29:58,390
migrate to warmer climates yeah that's

655
00:30:06,090 --> 00:30:03,789
another thing is you know we've you know

656
00:30:09,060 --> 00:30:06,100
we have heard a lot of weird things as

657
00:30:12,210 --> 00:30:09,070
far as migration in this part of the

658
00:30:15,210 --> 00:30:12,220
country especially between Pennsylvania

659
00:30:18,149 --> 00:30:15,220
Maryland and West Virginia there there

660
00:30:22,350 --> 00:30:18,159
have been theories about the possibility

661
00:30:25,049 --> 00:30:22,360
that they do move along migration routes

662
00:30:28,620 --> 00:30:25,059
I don't know if it would be a seasonal

663
00:30:32,180 --> 00:30:28,630

thing or if it just because of scarcity

664

00:30:36,240 --> 00:30:32,190

of food or drought or whatever but it

665

00:30:41,010 --> 00:30:36,250

you know it does seem that some of these

666

00:30:44,390 --> 00:30:41,020

these Bigfoot beings do tend to move

667

00:30:47,630 --> 00:30:44,400

about a bit more than what we thought

668

00:30:49,710 --> 00:30:47,640

yeah and that could be an adaptation

669

00:30:53,340 --> 00:30:49,720

absolutely could be this something we

670

00:30:55,860 --> 00:30:53,350

talked about in the book is that you

671

00:30:57,779 --> 00:30:55,870

know Bigfoot I think the you know the

672

00:31:00,060 --> 00:30:57,789

only logical way to explain that Bigfoot

673

00:31:01,830 --> 00:31:00,070

hasn't been found by humans yet or

674

00:31:05,039 --> 00:31:01,840

hasn't been discovered is that they are

675

00:31:07,080 --> 00:31:05,049

essentially built to avoid to contact

676
00:31:09,450 --> 00:31:07,090
with us in other words they've adapted

677
00:31:11,460 --> 00:31:09,460
behavior patterns specifically to avoid

678
00:31:13,080 --> 00:31:11,470
humans because they they are smart

679
00:31:14,430 --> 00:31:13,090
enough to recognize that we are their

680
00:31:19,259 --> 00:31:14,440
biggest threat right

681
00:31:22,649 --> 00:31:19,269
that true for most animals so in that

682
00:31:24,419 --> 00:31:22,659
essence perhaps they are more nomadic

683
00:31:26,519 --> 00:31:24,429
well we know they live in very remote

684
00:31:29,310 --> 00:31:26,529
areas where humans typically don't go I

685
00:31:31,529 --> 00:31:29,320
mean that's kind of common knowledge

686
00:31:33,539 --> 00:31:31,539
they're usually reported in remote areas

687
00:31:35,399 --> 00:31:33,549
so the other theory is that perhaps

688
00:31:37,799 --> 00:31:35,409

they're nomadic they move around a lot

689

00:31:39,600 --> 00:31:37,809

in addition to living in remote areas

690

00:31:40,980 --> 00:31:39,610

they move from one remote area to

691

00:31:43,560 --> 00:31:40,990

another remote area which makes them

692

00:31:46,710 --> 00:31:43,570

harder to find and perhaps they're also

693

00:31:49,680 --> 00:31:46,720

nocturnal or mostly active at night and

694

00:31:51,659 --> 00:31:49,690

that is borne out by the fact that you

695

00:31:53,430 --> 00:31:51,669

have less sightings that are I'm sorry

696

00:31:54,869 --> 00:31:53,440

more sightings at night or at least as

697

00:31:59,100 --> 00:31:54,879

many sightings at night as during the

698

00:32:00,960 --> 00:31:59,110

day so I mean it's possible that these

699

00:32:02,700 --> 00:32:00,970

things are nomadic we don't know I mean

700

00:32:04,649 --> 00:32:02,710

obviously nobody's ever figured out a

701
00:32:08,100 --> 00:32:04,659
migration pattern like I said John Green

702
00:32:10,350 --> 00:32:08,110
look for those kinds of things but I was

703
00:32:15,960 --> 00:32:10,360
recently speaking to a researcher out in

704
00:32:17,909 --> 00:32:15,970
Oregon an investigator and he's been

705
00:32:19,499 --> 00:32:17,919
working a certain area at a certain time

706
00:32:22,580 --> 00:32:19,509
of year where there are sightings I

707
00:32:25,200 --> 00:32:22,590
forget like the month of December and I

708
00:32:29,070 --> 00:32:25,210
spoke to another investigator that had

709
00:32:31,460 --> 00:32:29,080
been collecting sightings from about 50

710
00:32:34,200 --> 00:32:31,470
miles west of that first location and

711
00:32:37,110 --> 00:32:34,210
most of her sightings were coming up in

712
00:32:38,190 --> 00:32:37,120
August and September so we you know we

713
00:32:40,230 --> 00:32:38,200

thought it was interesting well these

714

00:32:41,759 --> 00:32:40,240

areas aren't that far apart there it's

715

00:32:45,720 --> 00:32:41,769

in the mountains they're about 50 or 60

716

00:32:49,110 --> 00:32:45,730

miles apart the the sightings that were

717

00:32:52,710 --> 00:32:49,120

in the warmer months seemed to be at a

718

00:32:55,259 --> 00:32:52,720

higher elevation and then 60 miles away

719

00:32:56,999 --> 00:32:55,269

where the elevation reduced their size

720

00:32:58,379 --> 00:32:57,009

so I don't know it was it seemed almost

721

00:33:00,600 --> 00:32:58,389

it was an inference but it seemed like

722

00:33:02,610 --> 00:33:00,610

okay maybe this is almost like a

723

00:33:04,259 --> 00:33:02,620

sensible migration pattern if these

724

00:33:06,119 --> 00:33:04,269

things are here that they're moving here

725

00:33:09,570 --> 00:33:06,129

in these months and here in these months

726

00:33:13,320 --> 00:33:09,580

and basically following the food yeah I

727

00:33:16,590 --> 00:33:13,330

mean it is interesting I mean we do tend

728

00:33:18,899 --> 00:33:16,600

to I mean it does seem stuff seems to a

729

00:33:20,279 --> 00:33:18,909

few of us that they do move between

730

00:33:22,350 --> 00:33:20,289

these areas

731

00:33:26,009 --> 00:33:22,360

traveling along mountain ridges or

732

00:33:28,409 --> 00:33:26,019

mountain ranges and I mean here so I

733

00:33:30,210 --> 00:33:28,419

don't know if that's that's being seen

734

00:33:33,299 --> 00:33:30,220

in other places but that dad is

735

00:33:34,889 --> 00:33:33,309

interesting you know sure I'm sure to

736

00:33:38,460 --> 00:33:34,899

enough investigators around they would

737

00:33:43,409 --> 00:33:38,470

confirm that yeah now there was a recent

738

00:33:47,639 --> 00:33:43,419

show on on TV expedition Bigfoot and it

739

00:33:50,039 --> 00:33:47,649

kind of touched on a few few different

740

00:33:53,039 --> 00:33:50,049

things so many of us have been involved

741

00:33:54,529 --> 00:33:53,049

with this are very familiar with in

742

00:33:58,649 --> 00:33:54,539

particular infrasound

743

00:34:02,369 --> 00:33:58,659

yeah and you mentioned some of it in a

744

00:34:05,430 --> 00:34:02,379

book what's your take on infrasound do

745

00:34:11,629 --> 00:34:05,440

you believe that Bigfoot is has the

746

00:34:15,629 --> 00:34:11,639

ability to use this to either stun

747

00:34:18,839 --> 00:34:15,639

humans or other animals or what's your

748

00:34:21,270 --> 00:34:18,849

take on that well it's a again it's a

749

00:34:24,270 --> 00:34:21,280

theory that's been discussed by a lot of

750

00:34:26,010 --> 00:34:24,280

researchers for years and I think it's

751

00:34:27,809 --> 00:34:26,020

based on a couple of things one is the

752

00:34:29,220 --> 00:34:27,819

premise that and I'm sure your listeners

753

00:34:31,349 --> 00:34:29,230

are familiar with infrasound but

754

00:34:34,440 --> 00:34:31,359

essentially we're talking about super

755

00:34:38,039 --> 00:34:34,450

low sound waves that are below you know

756

00:34:39,869 --> 00:34:38,049

20 Hertz so really below the human range

757

00:34:42,569 --> 00:34:39,879

of hearing so they're felt more than

758

00:34:45,419 --> 00:34:42,579

they're heard but there are a number of

759

00:34:47,490 --> 00:34:45,429

large animals that do create infrasound

760

00:34:50,490 --> 00:34:47,500

including whales and elephants and

761

00:34:52,200 --> 00:34:50,500

hippos and you know even some predators

762

00:34:54,899 --> 00:34:52,210

like lions and tigers will use it to

763

00:34:58,049 --> 00:34:54,909

kind of stun their prey which are

764

00:34:59,880 --> 00:34:58,059

usually smaller animals you know so you

765

00:35:02,250 --> 00:34:59,890

know it makes sense from a from an

766

00:35:04,710 --> 00:35:02,260

ecological point of view that if again

767

00:35:07,530 --> 00:35:04,720

if Bigfoot is an 800 1200 pound animal

768

00:35:10,500 --> 00:35:07,540

that maybe it can produce those types of

769

00:35:12,359 --> 00:35:10,510

sounds and the other thing is that you

770

00:35:14,039 --> 00:35:12,369

know you you speak to enough

771

00:35:16,829 --> 00:35:14,049

investigators to the years and you hear

772

00:35:18,510 --> 00:35:16,839

these accounts of people that were in an

773

00:35:20,700 --> 00:35:18,520

area where they thought Bigfoot was

774

00:35:24,210 --> 00:35:20,710

close by and suddenly they became sick

775

00:35:26,880 --> 00:35:24,220

or disoriented or they just didn't feel

776

00:35:30,690 --> 00:35:26,890

right you know so you hear a lot of

777

00:35:32,839 --> 00:35:30,700

those accounts and you know that that's

778

00:35:34,920 --> 00:35:32,849

often been kind of associated by

779

00:35:37,620 --> 00:35:34,930

inference that okay there's a Bigfoot

780

00:35:40,319 --> 00:35:37,630

closeby and this person is suddenly you

781

00:35:41,370 --> 00:35:40,329

know having this weird episode and then

782

00:35:43,339 --> 00:35:41,380

the last thing I think which is

783

00:35:46,109 --> 00:35:43,349

interesting is

784

00:35:47,520 --> 00:35:46,119

many people before they have a Bigfoot

785

00:35:49,829 --> 00:35:47,530

sighting if they're out in the woods

786

00:35:52,859 --> 00:35:49,839

they'll describe this situation where

787

00:35:54,569 --> 00:35:52,869

the woods get eerily silent now you're

788

00:35:56,130 --> 00:35:54,579

out in the woods you typically in most

789

00:35:59,010 --> 00:35:56,140

woods if the weather's good you're going

790

00:36:00,779 --> 00:35:59,020

to hear insects and amphibians and birds

791

00:36:03,809 --> 00:36:00,789

and all these things kind of chirping

792

00:36:05,099 --> 00:36:03,819

and vocalizing and you know you hear

793

00:36:06,180 --> 00:36:05,109

that over and over again and different

794

00:36:07,770 --> 00:36:06,190

Bigfoot accounts where people are out

795

00:36:12,480 --> 00:36:07,780

the woods and suddenly it's like there's

796

00:36:14,520 --> 00:36:12,490

nothing it's just a vacuum and so maybe

797

00:36:16,980 --> 00:36:14,530

if there you know you would assume that

798

00:36:20,299 --> 00:36:16,990

maybe many of those animals would would

799

00:36:22,620 --> 00:36:20,309

have the ability to sense infrasound

800

00:36:24,150 --> 00:36:22,630

frequencies and so that you know maybe

801
00:36:26,069 --> 00:36:24,160
if there was a Bigfoot emitting those

802
00:36:28,770 --> 00:36:26,079
sounds that that was creating that so

803
00:36:30,839 --> 00:36:28,780
you know again it's another line of

804
00:36:33,690 --> 00:36:30,849
speculation but it's something that's

805
00:36:35,700 --> 00:36:33,700
been discussed seriously and you know

806
00:36:38,099 --> 00:36:35,710
it's certainly something that should be

807
00:36:40,440 --> 00:36:38,109
explored it's worth looking into yeah it

808
00:36:44,220 --> 00:36:40,450
doesn't make sense because I have heard

809
00:36:48,059 --> 00:36:44,230
over the years about big cats being able

810
00:36:50,370 --> 00:36:48,069
to you know when they're in an area

811
00:36:54,450 --> 00:36:50,380
everything starts to get quiet and of

812
00:36:56,700 --> 00:36:54,460
course many of these larger cats can use

813
00:37:01,289 --> 00:36:56,710

them for sound and that very well may be

814

00:37:04,589 --> 00:37:01,299

the reason why it happens yeah it is

815

00:37:08,190 --> 00:37:04,599

interesting that how that phenomena

816

00:37:12,359 --> 00:37:08,200

happens I just wondered there's any way

817

00:37:17,730 --> 00:37:12,369

of ever being able to measure that in

818

00:37:19,680 --> 00:37:17,740

the field huh well yeah I think so

819

00:37:21,510 --> 00:37:19,690

there are you would need the first thing

820

00:37:23,940 --> 00:37:21,520

you would need is a someone that used to

821

00:37:26,549 --> 00:37:23,950

recording many years ago as a microphone

822

00:37:28,140 --> 00:37:26,559

that was capable of picking up those

823

00:37:31,170 --> 00:37:28,150

frequencies because even most of the

824

00:37:35,190 --> 00:37:31,180

really large diaphragm microphones that

825

00:37:37,170 --> 00:37:35,200

are used in recording studios they start

826

00:37:39,420 --> 00:37:37,180

rolling off the frequency start the

827

00:37:41,370 --> 00:37:39,430

scent of shelving it like 60 50 Hertz

828

00:37:42,990 --> 00:37:41,380

and then going downhill from there so by

829

00:37:44,910 --> 00:37:43,000

the time you get down to 20 Hertz

830

00:37:47,250 --> 00:37:44,920

you know this there's not a lot of

831

00:37:49,200 --> 00:37:47,260

headroom there yeah I'm sure there are

832

00:37:50,910 --> 00:37:49,210

probably specialty microphones for

833

00:37:52,980 --> 00:37:50,920

example that ones that are used for bass

834

00:37:55,530 --> 00:37:52,990

drums and different things that have a

835

00:37:57,900 --> 00:37:55,540

lower frequency spec

836

00:37:59,340 --> 00:37:57,910

so if you had a mic he could pick up

837

00:38:01,110 --> 00:37:59,350

some of those low frequencies in a

838

00:38:03,390 --> 00:38:01,120

digital recorder that had the full range

839

00:38:05,970 --> 00:38:03,400

of and I think most digital recorders go

840

00:38:07,680 --> 00:38:05,980

at least 20 Hertz to 20,000 Hertz but he

841

00:38:09,690 --> 00:38:07,690

could find an especially he probably

842

00:38:11,820 --> 00:38:09,700

specialized gear long but it seems in

843

00:38:18,260 --> 00:38:11,830

theory it could be done yeah a little

844

00:38:20,700 --> 00:38:18,270

pricey yeah it's not a cheap endeavor

845

00:38:23,640 --> 00:38:20,710

it's not a cheap endeavor for the most

846

00:38:24,930 --> 00:38:23,650

part it could be done I'm sure you know

847

00:38:26,760 --> 00:38:24,940

it come to think of it some of the

848

00:38:28,850 --> 00:38:26,770

zoologist that study some of these large

849

00:38:31,050 --> 00:38:28,860

animals you know that maybe they have

850

00:38:34,290 --> 00:38:31,060

some of that technology available

851
00:38:38,880 --> 00:38:34,300
already yeah you took you do talk a lot

852
00:38:42,570 --> 00:38:38,890
about the behavior of Bigfoot and some

853
00:38:45,800 --> 00:38:42,580
of the things that people notice just

854
00:38:49,590 --> 00:38:45,810
like stone-throwing and in particular

855
00:38:51,480 --> 00:38:49,600
these stick figures are and their nest

856
00:38:52,440 --> 00:38:51,490
that they build the stick structures

857
00:38:54,030 --> 00:38:52,450
there as well

858
00:38:56,340 --> 00:38:54,040
you know and there seems to be a lot

859
00:38:59,250 --> 00:38:56,350
more emphasis on these large stick

860
00:39:01,590 --> 00:38:59,260
structures in recent years that's yeah

861
00:39:03,780 --> 00:39:01,600
you know it just seems to be that more

862
00:39:07,490 --> 00:39:03,790
people are paying attention to it and

863
00:39:10,590 --> 00:39:07,500

noticing it as opposed to years previous

864

00:39:12,450 --> 00:39:10,600

you know I don't know if there's a

865

00:39:14,250 --> 00:39:12,460

reason for that maybe they're just more

866

00:39:16,680 --> 00:39:14,260

people out of looking for them I guess

867

00:39:20,400 --> 00:39:16,690

but you know some of the structures I

868

00:39:23,040 --> 00:39:20,410

think have you found that in in

869

00:39:27,450 --> 00:39:23,050

different areas of the country that the

870

00:39:30,330 --> 00:39:27,460

structures do tend to be different I

871

00:39:31,050 --> 00:39:30,340

haven't really noticed a big difference

872

00:39:33,300 --> 00:39:31,060

but I haven't

873

00:39:36,480 --> 00:39:33,310

honestly spent as much time analyzing

874

00:39:38,880 --> 00:39:36,490

that sort of the characteristics of

875

00:39:40,580 --> 00:39:38,890

these different structures but having

876

00:39:43,830 --> 00:39:40,590

spent a lot of time in the woods and

877

00:39:44,790 --> 00:39:43,840

kind of growing up in the woods every

878

00:39:47,280 --> 00:39:44,800

once in a while you'll come across

879

00:39:50,910 --> 00:39:47,290

something anomalous in terms of you know

880

00:39:53,300 --> 00:39:50,920

trees that are you know leaning against

881

00:39:55,680 --> 00:39:53,310

each other or you know something weird

882

00:39:57,990 --> 00:39:55,690

but it does seem like if you go into

883

00:40:01,080 --> 00:39:58,000

certain areas where there's a lot of

884

00:40:04,290 --> 00:40:01,090

Bigfoot reported Bigfoot activity you

885

00:40:06,690 --> 00:40:04,300

sometimes find more dramatically weird

886

00:40:09,040 --> 00:40:06,700

and bigger and more complex structures

887

00:40:11,530 --> 00:40:09,050

that you and a more and a higher

888

00:40:13,840 --> 00:40:11,540

frequency so I remember for example when

889

00:40:17,140 --> 00:40:13,850

I was in Florida's green swamp years ago

890

00:40:18,310 --> 00:40:17,150

doing a investigation I found a lot in

891

00:40:19,840 --> 00:40:18,320

this one area where this third

892

00:40:21,280 --> 00:40:19,850

supposedly been a lot of skunk ape

893

00:40:24,460 --> 00:40:21,290

sightings we've found a lot of these

894

00:40:27,010 --> 00:40:24,470

really weird things where trees had been

895

00:40:29,440 --> 00:40:27,020

pushed into the forks of other trees and

896

00:40:31,630 --> 00:40:29,450

you know it didn't look natural it

897

00:40:34,210 --> 00:40:31,640

definitely looked like a strategic the

898

00:40:36,340 --> 00:40:34,220

other thing was going on there and I've

899

00:40:40,360 --> 00:40:36,350

also seen that in Louisiana I've seen it

900

00:40:43,420 --> 00:40:40,370

in other states as well so I don't know

901
00:40:45,210 --> 00:40:43,430
if anyone's ever taken the time to sort

902
00:40:48,060 --> 00:40:45,220
of compare the data on that and

903
00:40:50,440 --> 00:40:48,070
partially because it's one of the more

904
00:40:53,020 --> 00:40:50,450
incidental forms of evidence with regard

905
00:40:55,270 --> 00:40:53,030
to Bigfoot because no one's really ever

906
00:40:57,400 --> 00:40:55,280
reported to my knowledge of Bigfoot

907
00:41:00,130 --> 00:40:57,410
making one of these things no Brian he's

908
00:41:01,480 --> 00:41:00,140
actually being put together so it's just

909
00:41:05,680 --> 00:41:01,490
one of those things we find in those

910
00:41:07,450 --> 00:41:05,690
areas but you know the ones I found in

911
00:41:09,250 --> 00:41:07,460
Florida I've I talked about this in the

912
00:41:11,070 --> 00:41:09,260
book to me seem kind of like they were

913
00:41:13,630 --> 00:41:11,080

just pointing in a certain direction

914

00:41:15,700 --> 00:41:13,640

when I followed that direction I ended

915

00:41:19,060 --> 00:41:15,710

up finding a water hole that was kind of

916

00:41:21,760 --> 00:41:19,070

obscured by brush and so it seemed like

917

00:41:23,470 --> 00:41:21,770

oh hey I mean it was just my impression

918

00:41:25,660 --> 00:41:23,480

it was like wow it seemed like these

919

00:41:28,630 --> 00:41:25,670

things these weird structures were all

920

00:41:30,190 --> 00:41:28,640

pointing me towards this water hole that

921

00:41:33,730 --> 00:41:30,200

I had to walk a couple hundred yards to

922

00:41:37,750 --> 00:41:33,740

find but but I've seen some pretty wild

923

00:41:40,330 --> 00:41:37,760

ones I found a nest early on what I

924

00:41:44,350 --> 00:41:40,340

believe to be a nest back in 2002 this

925

00:41:46,780 --> 00:41:44,360

was in Big Thicket here in East East

926

00:41:49,300 --> 00:41:46,790

Texas well known for Bigfoot activity

927

00:41:50,380 --> 00:41:49,310

and I was at a place called Turkey Creek

928

00:41:54,340 --> 00:41:50,390

where there had been a lot of sightings

929

00:41:56,230 --> 00:41:54,350

recently and I found this I say I I was

930

00:41:59,920 --> 00:41:56,240

with a group we found this kind of it

931

00:42:01,210 --> 00:41:59,930

looked like a kind of a hut or a shaped

932

00:42:03,480 --> 00:42:01,220

like an igloo really but it was

933

00:42:06,220 --> 00:42:03,490

completely made out of these saplings

934

00:42:08,080 --> 00:42:06,230

baby trees that had been bowed over and

935

00:42:10,660 --> 00:42:08,090

kind of woven together to create like a

936

00:42:12,700 --> 00:42:10,670

dome mmm there was like vegetation

937

00:42:14,620 --> 00:42:12,710

around the outside and I mean looking

938

00:42:16,480 --> 00:42:14,630

inside I know sometimes hunters will

939

00:42:18,550 --> 00:42:16,490

build blinds and things up a while but

940

00:42:20,140 --> 00:42:18,560

this just seemed kind of nasty for

941

00:42:21,730 --> 00:42:20,150

someone that you know

942

00:42:24,220 --> 00:42:21,740

especially in the Big Thicket you have a

943

00:42:26,620 --> 00:42:24,230

lot of water moccasins and cotton mouth

944

00:42:28,630 --> 00:42:26,630

or copperheads and different things

945

00:42:30,069 --> 00:42:28,640

crawling around it it wasn't you know it

946

00:42:31,660 --> 00:42:30,079

was like wow this is not something a

947

00:42:35,260 --> 00:42:31,670

person would really get into but it

948

00:42:36,910 --> 00:42:35,270

seemed you had a doorway and so that you

949

00:42:38,410 --> 00:42:36,920

know I found that one one time and I

950

00:42:40,150 --> 00:42:38,420

found a couple others similar ones

951
00:42:44,319 --> 00:42:40,160
through the years that kind of seemed

952
00:42:46,299 --> 00:42:44,329
like they followed a similar pattern and

953
00:42:47,890 --> 00:42:46,309
I know similar I've seen pictures of

954
00:42:50,529 --> 00:42:47,900
similar nests or

955
00:42:54,700 --> 00:42:50,539
shelters as I called it in from other

956
00:42:58,420 --> 00:42:54,710
states like Oregon Georgia Colorado and

957
00:43:00,599 --> 00:42:58,430
stuff so again knowing no accounts of

958
00:43:03,069 --> 00:43:00,609
Bigfoot building anything like that but

959
00:43:04,809 --> 00:43:03,079
you could speculate and say you're in an

960
00:43:07,059 --> 00:43:04,819
area with a lot of Bigfoot activity a

961
00:43:10,120 --> 00:43:07,069
lot of sightings you find something that

962
00:43:12,190 --> 00:43:10,130
seems like a little crude shelter but

963
00:43:18,910 --> 00:43:12,200

it's not man-made in your opinion you

964

00:43:21,010 --> 00:43:18,920

know well you know the weirdest thing I

965

00:43:24,309 --> 00:43:21,020

ever saw no this is a while back but

966

00:43:27,700 --> 00:43:24,319

this this was in the area where I had my

967

00:43:31,120 --> 00:43:27,710

actual encounter maybe I about four or

968

00:43:34,809 --> 00:43:31,130

five miles downstream from it but we

969

00:43:38,230 --> 00:43:34,819

found a and what we believe may have

970

00:43:43,930 --> 00:43:38,240

been some type of nest or whatever but

971

00:43:45,849 --> 00:43:43,940

it was a structure that was made of tree

972

00:43:48,609 --> 00:43:45,859

stumps that were yanked out of the

973

00:43:51,430 --> 00:43:48,619

ground and with the root structure and

974

00:43:55,359 --> 00:43:51,440

everything and formed in a way that made

975

00:43:57,750 --> 00:43:55,369

a huge hot like thing the damnedest

976

00:44:00,190 --> 00:43:57,760

thing I'd ever seen

977

00:44:01,720 --> 00:44:00,200

sounds pretty great did you guys take

978

00:44:03,940 --> 00:44:01,730

any pictures of that I would love yeah I

979

00:44:06,700 --> 00:44:03,950

had pictures of it and my buddy I think

980

00:44:08,349 --> 00:44:06,710

still has pictures of it but it was a

981

00:44:11,980 --> 00:44:08,359

strangest thing I'd ever seen

982

00:44:13,720 --> 00:44:11,990

now I mean it did look like I mean it

983

00:44:16,150 --> 00:44:13,730

would take a lot of strength to pull one

984

00:44:19,089 --> 00:44:16,160

of these things out of the ground

985

00:44:20,380 --> 00:44:19,099

and and to build something like that no

986

00:44:21,819 --> 00:44:20,390

doubt I mean yeah

987

00:44:23,289 --> 00:44:21,829

they used to pull stumps out of the

988

00:44:27,160 --> 00:44:23,299

ground they of these like bulldozers I

989

00:44:29,650 --> 00:44:27,170

think you know heavy machinery yeah I

990

00:44:31,870 --> 00:44:29,660

mean I I knew it couldn't a bunch of

991

00:44:33,390 --> 00:44:31,880

kids doing that because you know it was

992

00:44:36,990 --> 00:44:33,400

way deep in the woods

993

00:44:40,590 --> 00:44:37,000

and you know so I don't know it but it

994

00:44:42,420 --> 00:44:40,600

was that I had been back in all I had to

995

00:44:45,930 --> 00:44:42,430

be back in the early nineties when we

996

00:44:48,480 --> 00:44:45,940

saw that it was just really strange yeah

997

00:44:50,310 --> 00:44:48,490

I do remember we tried to look around

998

00:44:52,590 --> 00:44:50,320

for hair samples and such but we

999

00:44:55,770 --> 00:44:52,600

couldn't find anything I don't know if

1000

00:44:57,360 --> 00:44:55,780

it was old because the tree roots did

1001
00:44:59,100 --> 00:44:57,370
look like they may have been you know

1002
00:45:00,750 --> 00:44:59,110
out for a while they weren't you know

1003
00:45:03,080 --> 00:45:00,760
they weren't damp or anything there was

1004
00:45:07,380 --> 00:45:03,090
very little ground hanging on to them

1005
00:45:10,500 --> 00:45:07,390
but something or someone took a lot of

1006
00:45:12,600 --> 00:45:10,510
trouble to put that together Wow and

1007
00:45:14,280 --> 00:45:12,610
yeah so I have other invest I work with

1008
00:45:16,860 --> 00:45:14,290
a lot of investigators around the

1009
00:45:18,600 --> 00:45:16,870
country and I get you know I see

1010
00:45:26,040 --> 00:45:18,610
pictures of similar things in different

1011
00:45:28,980 --> 00:45:26,050
areas yeah interesting now you talked a

1012
00:45:32,310 --> 00:45:28,990
little bit about habituation now you

1013
00:45:35,370 --> 00:45:32,320

know we do hear a lot about this some

1014

00:45:37,950 --> 00:45:35,380

people make these claims that they have

1015

00:45:41,040 --> 00:45:37,960

these interactions with with Bigfoot or

1016

00:45:44,640 --> 00:45:41,050

a colony a Bigfoot a pot of Bigfoot I

1017

00:45:48,660 --> 00:45:44,650

mean I've even had people claim to me

1018

00:45:51,270 --> 00:45:48,670

that they have these families of Bigfoot

1019

00:45:55,650 --> 00:45:51,280

living on their property or around their

1020

00:45:58,470 --> 00:45:55,660

property what are your thoughts on this

1021

00:46:00,510 --> 00:45:58,480

in general I mean do you think it does

1022

00:46:04,160 --> 00:46:00,520

happen or you think it's just a

1023

00:46:09,870 --> 00:46:08,190

well I'm admittedly Lana mr. skeptical

1024

00:46:13,710 --> 00:46:09,880

when it comes to claims of habituation

1025

00:46:15,740 --> 00:46:13,720

and if we can go back a few minutes and

1026
00:46:18,990 --> 00:46:15,750
you know what I was saying about Bigfoot

1027
00:46:21,240 --> 00:46:19,000
adaptation at least in my opinion that

1028
00:46:23,340 --> 00:46:21,250
these things are trying to avoid us at

1029
00:46:24,960 --> 00:46:23,350
all costs I mean right most sightings

1030
00:46:25,950 --> 00:46:24,970
that you know they're walking away not

1031
00:46:29,040 --> 00:46:25,960
towards humans

1032
00:46:31,710 --> 00:46:29,050
looking back fearfully they they seem

1033
00:46:33,750 --> 00:46:31,720
they want to get away from us so if I'm

1034
00:46:36,840 --> 00:46:33,760
going to be consistent in my theory then

1035
00:46:38,490 --> 00:46:36,850
I would say that why would a Bigfoot why

1036
00:46:40,230 --> 00:46:38,500
would an animal that's trying to avoid

1037
00:46:41,850 --> 00:46:40,240
human contact because it's fearful of

1038
00:46:44,850 --> 00:46:41,860

humans suddenly once you start

1039

00:46:46,950 --> 00:46:44,860

establishing some relationship or

1040

00:46:48,720 --> 00:46:46,960

communication with a human

1041

00:46:50,220 --> 00:46:48,730

I mean it's not that desperate for food

1042

00:46:51,900 --> 00:46:50,230

it's not like it's begging for food

1043

00:46:55,470 --> 00:46:51,910

because something like Bigfoot can eat

1044

00:46:58,200 --> 00:46:55,480

whatever it wants you know not gonna

1045

00:47:00,589 --> 00:46:58,210

have to ask for handouts yeah so I mean

1046

00:47:03,120 --> 00:47:00,599

I've you know I've interviewed

1047

00:47:05,849 --> 00:47:03,130

self-proclaimed - bicha waiters you know

1048

00:47:07,799 --> 00:47:05,859

it's - I don't mean to made sound in a

1049

00:47:11,400 --> 00:47:07,809

disparaging way a people are entitled to

1050

00:47:13,920 --> 00:47:11,410

their opinions and beliefs I've run into

1051
00:47:16,140 --> 00:47:13,930
some dead ends in terms of cases that

1052
00:47:18,540 --> 00:47:16,150
I've become involved in early on with

1053
00:47:20,549 --> 00:47:18,550
people that claim to [h__h] on there was

1054
00:47:23,900 --> 00:47:20,559
a family that claimed there was a family

1055
00:47:25,770 --> 00:47:23,910
a clan of Bigfoots on their property and

1056
00:47:27,390 --> 00:47:25,780
but they you know they just couldn't

1057
00:47:30,240 --> 00:47:27,400
produce any evidence and it just seemed

1058
00:47:32,400 --> 00:47:30,250
like you know if you've got you know a

1059
00:47:33,359 --> 00:47:32,410
family of these things on your property

1060
00:47:35,339 --> 00:47:33,369
and they're constantly trying to make

1061
00:47:37,230 --> 00:47:35,349
contact with you and so on and so forth

1062
00:47:39,390 --> 00:47:37,240
that at the very least you would have

1063
00:47:42,599 --> 00:47:39,400

good footprint evidence and maybe some

1064

00:47:45,030 --> 00:47:42,609

droppings and hairs and different things

1065

00:47:47,400 --> 00:47:45,040

that they're leaving behind but you know

1066

00:47:49,380 --> 00:47:47,410

the and people always use different

1067

00:47:51,180 --> 00:47:49,390

excuses for the photos well I never

1068

00:47:55,140 --> 00:47:51,190

they won't come out if I do if I have a

1069

00:47:56,520 --> 00:47:55,150

camera or I can't you know I don't need

1070

00:48:03,690 --> 00:47:56,530

to take a picture of them I know they

1071

00:48:05,339 --> 00:48:03,700

exist yeah so I you know I don't know I

1072

00:48:06,809 --> 00:48:05,349

got involved in a couple of cases like

1073

00:48:09,569 --> 00:48:06,819

that and now there's a difference

1074

00:48:11,400 --> 00:48:09,579

between a habituation where you say you

1075

00:48:12,569 --> 00:48:11,410

know these creatures I you know I've

1076

00:48:14,010 --> 00:48:12,579

given them names and they're

1077

00:48:16,140 --> 00:48:14,020

communicating with me and we're

1078

00:48:18,000 --> 00:48:16,150

exchanging gifts and this and that as

1079

00:48:19,410 --> 00:48:18,010

opposed to you live in an area where

1080

00:48:21,569 --> 00:48:19,420

there's a big where there's a lot of

1081

00:48:23,490 --> 00:48:21,579

Bigfoot activity and there are there are

1082

00:48:25,920 --> 00:48:23,500

there could be Bigfoot on your property

1083

00:48:27,420 --> 00:48:25,930

and they are you know moving through and

1084

00:48:31,530 --> 00:48:27,430

you know you're having more sightings

1085

00:48:33,870 --> 00:48:31,540

and more vocalizations but that doesn't

1086

00:48:35,760 --> 00:48:33,880

necessarily mean that you know so I just

1087

00:48:37,230 --> 00:48:35,770

want to draw that make that distinction

1088

00:48:38,819 --> 00:48:37,240

that there are people out there that

1089

00:48:41,220 --> 00:48:38,829

claim they have a lot of activity on

1090

00:48:43,109 --> 00:48:41,230

their property that that's perfectly

1091

00:48:48,299 --> 00:48:43,119

sensible that a Bigfoot might be moving

1092

00:48:50,609 --> 00:48:48,309

through the area but yeah I'm not I'm

1093

00:48:52,770 --> 00:48:50,619

not a fan of the habituation thing it

1094

00:48:55,710 --> 00:48:52,780

yeah that you know having them on your

1095

00:48:58,500 --> 00:48:55,720

property you know it does sound good you

1096

00:49:02,170 --> 00:48:58,510

know maybe there is a possibility of a

1097

00:49:05,180 --> 00:49:02,180

[h__h] uno I got involved with

1098

00:49:08,930 --> 00:49:05,190

you know this gentleman in Nova Scotia

1099

00:49:14,420 --> 00:49:08,940

who had it had these Bigfoot on the

1100

00:49:17,300 --> 00:49:14,430

property and you know he swore that they

1101
00:49:18,830 --> 00:49:17,310
left gifts for him when he's uh he found

1102
00:49:20,540 --> 00:49:18,840
a couple of rocks here were a couple of

1103
00:49:23,090 --> 00:49:20,550
locks we're on his luck whoops and such

1104
00:49:26,630 --> 00:49:23,100
but you know they were they were coming

1105
00:49:30,440 --> 00:49:26,640
in and stealing chickens and that's with

1106
00:49:31,850 --> 00:49:30,450
pigs there all right yeah yeah so you

1107
00:49:34,730 --> 00:49:31,860
know it's I guess it's not really an

1108
00:49:36,470 --> 00:49:34,740
obituary it just happens to be and I

1109
00:49:38,570 --> 00:49:36,480
guess that's the distinction that needs

1110
00:49:40,580 --> 00:49:38,580
to be made that yeah you may have

1111
00:49:43,250 --> 00:49:40,590
Bigfoot on your property but you're not

1112
00:49:44,270 --> 00:49:43,260
you're not basically communicating in

1113
00:49:46,670 --> 00:49:44,280

some way

1114

00:49:48,560 --> 00:49:46,680

make friends with you per se no I

1115

00:49:51,020 --> 00:49:48,570

there's a chapter in the book of course

1116

00:49:53,150 --> 00:49:51,030

long that deals with Bigfoot sociology

1117

00:49:56,710 --> 00:49:53,160

how big how humans relate to Bigfoot and

1118

00:50:00,710 --> 00:49:56,720

I I in turn umber of people including

1119

00:50:02,720 --> 00:50:00,720

some forensic psychologists just to find

1120

00:50:04,940 --> 00:50:02,730

out you know if there were in some cases

1121

00:50:07,940 --> 00:50:04,950

perhaps different reasons that people

1122

00:50:11,120 --> 00:50:07,950

might you know create a phantom for

1123

00:50:12,290 --> 00:50:11,130

example a habituation fantasy and you

1124

00:50:15,200 --> 00:50:12,300

know and it's certainly not in a

1125

00:50:17,450 --> 00:50:15,210

malicious or intentional way but certain

1126
00:50:20,000 --> 00:50:17,460
people can fool themselves I've done it

1127
00:50:21,980 --> 00:50:20,010
I've done it to myself many times you

1128
00:50:24,280 --> 00:50:21,990
can fool yourself sometimes in the into

1129
00:50:26,990 --> 00:50:24,290
misinterpreting things that are going on

1130
00:50:29,090 --> 00:50:27,000
but moreover some of the habituation

1131
00:50:30,950 --> 00:50:29,100
cases that I've gotten involved in there

1132
00:50:37,880 --> 00:50:30,960
had similarities in terms of the way

1133
00:50:39,380 --> 00:50:37,890
people behaved it was a very this is

1134
00:50:41,720 --> 00:50:39,390
probably not a good word to use in these

1135
00:50:43,850 --> 00:50:41,730
days there's a very narcissistic point

1136
00:50:45,770 --> 00:50:43,860
of view where people think of all the

1137
00:50:47,210 --> 00:50:45,780
millions of people or eight billion

1138
00:50:48,920 --> 00:50:47,220

people on the face of the planet

1139

00:50:51,950 --> 00:50:48,930

I'm the one that Bigfoot wants to make

1140

00:50:53,630 --> 00:50:51,960

contact and you know you always said the

1141

00:50:55,430 --> 00:50:53,640

situation where you know that they're

1142

00:50:57,230 --> 00:50:55,440

developing foots only I'm the only one

1143

00:51:00,470 --> 00:50:57,240

that talks to it'll only come out if I'm

1144

00:51:02,210 --> 00:51:00,480

here and you know it just it seems like

1145

00:51:04,010 --> 00:51:02,220

and you know again this may not be an

1146

00:51:06,410 --> 00:51:04,020

intentionally malicious behavior on a

1147

00:51:09,920 --> 00:51:06,420

person's part it could just be you know

1148

00:51:12,290 --> 00:51:09,930

part of this delusion or thing that

1149

00:51:13,820 --> 00:51:12,300

they're they're going through you know

1150

00:51:14,450 --> 00:51:13,830

sometimes these people are dealing with

1151

00:51:16,310 --> 00:51:14,460

you know how

1152

00:51:17,720 --> 00:51:16,320

times and it could be an escape I mean

1153

00:51:20,570 --> 00:51:17,730

who knows there's a number of different

1154

00:51:23,180 --> 00:51:20,580

reasons that somebody might think that

1155

00:51:24,320 --> 00:51:23,190

something like this is happening and you

1156

00:51:26,270 --> 00:51:24,330

know I'm perhaps the you know there

1157

00:51:27,200 --> 00:51:26,280

again they might have actual activity on

1158

00:51:30,829 --> 00:51:27,210

their property but they're just

1159

00:51:32,990 --> 00:51:30,839

misinterpreting it yeah you know you

1160

00:51:37,160 --> 00:51:33,000

know one of your fellow Texans asked me

1161

00:51:39,200 --> 00:51:37,170

to ask you tonight what was the

1162

00:51:42,160 --> 00:51:39,210

strangest cryptid report that you've

1163

00:51:48,230 --> 00:51:42,170

received in Texas in the past years uh

1164

00:51:49,700 --> 00:51:48,240

in the past year a little bit let me

1165

00:51:51,440 --> 00:51:49,710

think about that for a second it's been

1166

00:51:53,870 --> 00:51:51,450

a little bit dry over the past year

1167

00:51:55,910 --> 00:51:53,880

honest well we can expand her past a

1168

00:52:01,220 --> 00:51:55,920

year ago a little beyond that you want

1169

00:52:03,980 --> 00:52:01,230

to weirdest okay well this is a my kind

1170

00:52:05,780 --> 00:52:03,990

of weird but I spoke to a woman that

1171

00:52:07,579 --> 00:52:05,790

lives out in the Davis Mountains which

1172

00:52:10,579 --> 00:52:07,589

are kind of out in West Texas pretty

1173

00:52:12,589 --> 00:52:10,589

darn remote area out there and she

1174

00:52:14,780 --> 00:52:12,599

claims that she had a sighting of a

1175

00:52:18,160 --> 00:52:14,790

giant snake on her property that was

1176
00:52:19,970 --> 00:52:18,170
know basically as big as an anaconda

1177
00:52:24,710 --> 00:52:19,980
certainly we don't have anything like

1178
00:52:26,120 --> 00:52:24,720
that here in North America and she said

1179
00:52:28,940 --> 00:52:26,130
it was like you know at least 10 feet

1180
00:52:30,500 --> 00:52:28,950
long very thick and powerful she saw it

1181
00:52:33,770 --> 00:52:30,510
was a daylight sighting it was in her

1182
00:52:36,710 --> 00:52:33,780
yard and she had spoken to one of her

1183
00:52:38,359 --> 00:52:36,720
neighbors or I think in addition to the

1184
00:52:41,680 --> 00:52:38,369
the person that had lived in that

1185
00:52:44,540 --> 00:52:41,690
property before had also seen this snake

1186
00:52:47,420 --> 00:52:44,550
so I don't know she seemed very credible

1187
00:52:49,970 --> 00:52:47,430
I mean she knew enough about the the

1188
00:52:51,920 --> 00:52:49,980

native species of snakes and what should

1189

00:52:54,589 --> 00:52:51,930

be there and different animal behaviors

1190

00:52:56,660 --> 00:52:54,599

but you don't get a lot of these giant

1191

00:52:58,940 --> 00:52:56,670

snake reports we used to get them right

1192

00:53:00,980 --> 00:52:58,950

you had the peninsula Python and yeah

1193

00:53:02,720 --> 00:53:00,990

Bridgewater triangle and all these giant

1194

00:53:04,490 --> 00:53:02,730

snake sightings you don't get those that

1195

00:53:08,120 --> 00:53:04,500

many these days but this one seems

1196

00:53:09,680 --> 00:53:08,130

fairly compelling and it's out there in

1197

00:53:11,240 --> 00:53:09,690

a pretty remote area so I don't know if

1198

00:53:12,829 --> 00:53:11,250

I don't know if that's the level of

1199

00:53:14,030 --> 00:53:12,839

weird that your listener was looking for

1200

00:53:16,579 --> 00:53:14,040

maybe they were hoping for something

1201
00:53:18,170 --> 00:53:16,589
more and a supernatural that I mean I

1202
00:53:20,630 --> 00:53:18,180
think that's pretty weird when you have

1203
00:53:22,790 --> 00:53:20,640
a report that is weird anaconda sighs

1204
00:53:25,400 --> 00:53:22,800
snakes living around out there in West

1205
00:53:26,720 --> 00:53:25,410
Texas yeah I haven't heard anything like

1206
00:53:29,660 --> 00:53:26,730
that I mean I do

1207
00:53:33,320 --> 00:53:29,670
a lot of reports in your area but you

1208
00:53:35,590 --> 00:53:33,330
know you know your ad mentioned

1209
00:53:38,630 --> 00:53:35,600
something about a report I got with this

1210
00:53:41,859 --> 00:53:38,640
this humanoid or what it was running

1211
00:53:45,650 --> 00:53:41,869
around the highways of San Antonio

1212
00:53:49,849 --> 00:53:45,660
several months ago I don't know what

1213
00:53:52,160 --> 00:53:49,859

that was all about yeah that I read your

1214

00:53:53,990 --> 00:53:52,170

articles I didn't have a chance to kind

1215

00:53:56,420 --> 00:53:54,000

of go look into those but that you're

1216

00:54:01,609 --> 00:53:56,430

right that was a pretty strange case you

1217

00:54:04,430 --> 00:54:01,619

know that that area between San Antonio

1218

00:54:08,270 --> 00:54:04,440

south of there there have been some

1219

00:54:14,090 --> 00:54:08,280

strange reports the little dinosaurs and

1220

00:54:15,950 --> 00:54:14,100

a few other things years yeah so Texas

1221

00:54:18,560 --> 00:54:15,960

is a pretty weird place I really look at

1222

00:54:20,090 --> 00:54:18,570

it and really Texas in general as an

1223

00:54:22,670 --> 00:54:20,100

extension of Mexico I mean

1224

00:54:24,770 --> 00:54:22,680

geographically it is if you ignore the

1225

00:54:26,300 --> 00:54:24,780

political delineation there Texas is

1226

00:54:30,590 --> 00:54:26,310

really especially South Texas is

1227

00:54:32,510 --> 00:54:30,600

definitely way deep into Mexico and of

1228

00:54:34,130 --> 00:54:32,520

course I've investigated all kinds of

1229

00:54:36,550 --> 00:54:34,140

weird things in Mexico over the years

1230

00:54:39,500 --> 00:54:36,560

flying witches and shape-shifting

1231

00:54:42,080 --> 00:54:39,510

creatures and chupacabras and stuff so

1232

00:54:45,380 --> 00:54:42,090

in Mexico and of course you know Mexico

1233

00:54:49,550 --> 00:54:45,390

has that vast history with UFO sightings

1234

00:54:52,190 --> 00:54:49,560

and so yeah you're right we get a lot of

1235

00:54:54,770 --> 00:54:52,200

that down here yeah I've gotten a lot of

1236

00:54:57,550 --> 00:54:54,780

reports of recent year from the hill

1237

00:55:03,290 --> 00:54:57,560

country as far as Bigfoot sightings and

1238

00:55:08,210 --> 00:55:03,300

lots of lots of Bigfoot on areas on

1239

00:55:12,140 --> 00:55:08,220

farms and ranches and stuff it seems

1240

00:55:15,020 --> 00:55:12,150

like the population is kind of expanding

1241

00:55:17,359 --> 00:55:15,030

in that area I don't know if that's true

1242

00:55:21,320 --> 00:55:17,369

or not but I have been getting a lot

1243

00:55:26,210 --> 00:55:21,330

more reports than I had usually god yeah

1244

00:55:29,210 --> 00:55:26,220

I could see that and what a Lupe River

1245

00:55:31,760 --> 00:55:29,220

Valley particularly exactly and there's

1246

00:55:33,590 --> 00:55:31,770

a researcher named Josh Turner and he's

1247

00:55:35,210 --> 00:55:33,600

a primarily dog man and he's been

1248

00:55:38,120 --> 00:55:35,220

getting a lot of dog man reports out of

1249

00:55:40,099 --> 00:55:38,130

that that area out there oh yeah so

1250

00:55:40,610 --> 00:55:40,109

you're right there seems to be a lot of

1251

00:55:44,090 --> 00:55:40,620

that

1252

00:55:45,770 --> 00:55:44,100

a lot of UFO sightings as well it's just

1253

00:55:47,920 --> 00:55:45,780

kind of you know it's one of those I

1254

00:55:50,120 --> 00:55:47,930

guess you could view it as one of those

1255

00:55:53,240 --> 00:55:50,130

quote-unquote triangle areas that we

1256

00:55:55,820 --> 00:55:53,250

have around you know same with

1257

00:55:57,770 --> 00:55:55,830

Pennsylvania and yep

1258

00:55:59,680 --> 00:55:57,780

Bridgewater I mean you just have these

1259

00:56:02,810 --> 00:55:59,690

areas where you seem to have everything

1260

00:56:05,960 --> 00:56:02,820

Bigfoot and all kinds of cryptids and

1261

00:56:08,480 --> 00:56:05,970

weird things being reported well you

1262

00:56:12,230 --> 00:56:08,490

know I've stated over the years as South

1263

00:56:14,690 --> 00:56:12,240

Texas it probably has produced some more

1264

00:56:20,810 --> 00:56:14,700

weird cases that I've ever received in

1265

00:56:23,840 --> 00:56:20,820

general there yeah yeah there this seems

1266

00:56:28,250 --> 00:56:23,850

to be so much going on down there you

1267

00:56:30,380 --> 00:56:28,260

know the little try little t-rex's is

1268

00:56:33,550 --> 00:56:30,390

the ones I'm most favorite wolf that's

1269

00:56:37,070 --> 00:56:33,560

and I've gotten in several those reports

1270

00:56:40,280 --> 00:56:37,080

all right evarin going back to that area

1271

00:56:41,840 --> 00:56:40,290

around a Bernville Texas seems to be an

1272

00:56:45,620 --> 00:56:41,850

area where a lot of these things are

1273

00:56:49,670 --> 00:56:45,630

being seen it yeah you tipped me off to

1274

00:56:53,420 --> 00:56:49,680

those years ago and there are little

1275

00:56:55,490 --> 00:56:53,430

mini dinos or Texas directors I call

1276

00:56:58,610 --> 00:56:55,500

them that are reported out there in

1277

00:57:03,680 --> 00:56:58,620

South Texas you're right seems to be a

1278

00:57:06,230 --> 00:57:03,690

lot of that going on so Ken whoops

1279

00:57:08,060 --> 00:57:06,240

what's in the future for for Ken Guerra

1280

00:57:12,110 --> 00:57:08,070

are what uh what do you have planned for

1281

00:57:13,940 --> 00:57:12,120

this for this year well I'm kind of on a

1282

00:57:15,920 --> 00:57:13,950

promotional tour for my new book the

1283

00:57:18,650 --> 00:57:15,930

essential guide to Bigfoot which is

1284

00:57:20,870 --> 00:57:18,660

available on Amazon and of course people

1285

00:57:22,880 --> 00:57:20,880

can contact me directly through social

1286

00:57:25,040 --> 00:57:22,890

media if they'd like to purchase a

1287

00:57:26,720 --> 00:57:25,050

signed copy I'm on Facebook Instagram

1288

00:57:28,670 --> 00:57:26,730

and Twitter

1289

00:57:30,110 --> 00:57:28,680

but so I'm basically just going to be

1290

00:57:32,890 --> 00:57:30,120

touring around lawn doing different

1291

00:57:35,450 --> 00:57:32,900

lectures about Bigfoot I'll be at the

1292

00:57:38,810 --> 00:57:35,460

crypto paranormal festival a little too

1293

00:57:40,160 --> 00:57:38,820

North Carolina on April 25th mace and

1294

00:57:42,310 --> 00:57:40,170

9th I'll be at the Southeast Texas

1295

00:57:45,650 --> 00:57:42,320

Bigfoot conference in Huntsville Texas

1296

00:57:49,940 --> 00:57:45,660

June 6th I'll be at the in Marinette

1297

00:57:51,890 --> 00:57:49,950

Michigan for a Bigfoot convention July

1298

00:57:54,349 --> 00:57:51,900

25th the Smoky Mountain Bigfoot

1299

00:57:56,390 --> 00:57:54,359

conference and Gabbard Tennessee

1300

00:57:58,189 --> 00:57:56,400

and a few more I'll beat the Mothman

1301

00:58:01,429 --> 00:57:58,199

festival again this year I'm a speaker

1302

00:58:03,819 --> 00:58:01,439

in September at the Point Pleasant so

1303

00:58:05,839 --> 00:58:03,829

yeah so if any of your listeners are

1304

00:58:07,999 --> 00:58:05,849

well you know I'll be posting my

1305

00:58:09,589 --> 00:58:08,009

calendar online but I mainly I'm just

1306

00:58:11,449 --> 00:58:09,599

gonna be kind of out there doing doing

1307

00:58:13,039 --> 00:58:11,459

lectures and presentations this year and

1308

00:58:17,029 --> 00:58:13,049

some investigations when I have a chance

1309

00:58:21,559 --> 00:58:17,039

okay well Ken thanks again for coming on

1310

00:58:24,349 --> 00:58:21,569

the show again everybody I strongly

1311

00:58:26,539 --> 00:58:24,359

suggest you get Ken's book the essential

1312

00:58:29,839 --> 00:58:26,549

guide to Bigfoot it is very

1313

00:58:33,529 --> 00:58:29,849

comprehensive and we're well written and

1314

00:58:34,789 --> 00:58:33,539

you may learn a thing or two well thank

1315

00:58:38,029 --> 00:58:34,799

you again for having me online I

1316

00:58:41,179 --> 00:58:38,039

appreciate your kind words and keep up

1317

00:58:43,160 --> 00:58:41,189

the great work and will you definitely

1318

00:58:46,069 --> 00:58:43,170

need to talk again very soon okay you

1319

00:58:48,849 --> 00:58:46,079

take care now you too my friend yeah

1320

00:58:51,469 --> 00:58:48,859

take care bye bye

1321

00:58:53,239 --> 00:58:51,479
