is fear the oldest and strongest type of

3
00:00:17,609 --> 00:00:15,130
fear the trepidation of young when we

4
00:00:21,240 --> 00:00:17,619
were children our parents told us that

5
00:00:24,180 --> 00:00:21,250
monsters didn't exist but we were sure

6
00:00:28,349 --> 00:00:24,190
that something is lurking under the bed

7
00:00:30,290 --> 00:00:28,359
or in the closet beer seats even if our

8
00:00:34,020 --> 00:00:30,300
eyes are closed

9
00:00:37,020 --> 00:00:34,030
welcome to the realm of your cane my

name is LAN stripper join me as I

11

examine unexplained creatures

12
00:00:46,469 --> 00:00:42,220
strange manifestations and remarkable

13
00:00:49,610 --> 00:00:46,479

realities imagine this next hour as a

14

00:00:53,189 --> 00:00:49,620

voyage of discovered to strange lands

15

00:00:55,950 --> 00:00:53,199

seeking not for new territory but for

16

00:00:58,380 --> 00:00:55,960

new knowledge of the supernatural come

17

00:00:59,880 --> 00:00:58,390

on board as we begin this adventure

18

00:01:04,670 --> 00:00:59,890

together

19

00:01:04,680 --> 00:01:07,850

you

20

00:01:12,960 --> 00:01:10,410

hey folks good evening and welcome to

21

00:01:15,120 --> 00:01:12,970

another episode of arcane radio where we

22

00:01:17,100 --> 00:01:15,130

explore the unexplained here on the

23

00:01:19,380 --> 00:01:17,110

paranormal king radio network

24

00:01:21,749 --> 00:01:19,390

I'm your host launch director coming to

25

00:01:23,520 --> 00:01:21,759

you with a cannon shot of historic

26

00:01:26,340 --> 00:01:23,530

Gettysburg in the Krypton mecca of

27

00:01:30,870 --> 00:01:26,350

Pennsylvania I thank you for joining me

28

00:01:34,399 --> 00:01:30,880

now before I introduce our guests I want

29

00:01:37,830 --> 00:01:34,409

to mention that during the past week the

30

00:01:41,190 --> 00:01:37,840

fans of monsters 40 research team has

31

00:01:44,460 --> 00:01:41,200

once again been made aware of two more

32

00:01:46,969 --> 00:01:44,470

winged humanoid encounter reports near

33

00:01:50,100 --> 00:01:46,979

the Chicago's O'Hare International and

34

00:01:53,040 --> 00:01:50,110

that makes a total of four reports in

35

00:01:56,580 --> 00:01:53,050

three weeks originating from the same

36

00:02:00,109 --> 00:01:56,590

general general area northeast of the

37

00:02:02,669 --> 00:02:00,119

airport now like I stated previously

38

00:02:04,680 --> 00:02:02,679

there has been a recent uptick of

39

00:02:07,469 --> 00:02:04,690

sightings in the Chicagoland area

40

00:02:11,789 --> 00:02:07,479

so make sure you check the blog daily

41

00:02:15,509 --> 00:02:11,799

for all updates now I recently received

42

00:02:19,080 --> 00:02:15,519

a telephone call from a gentleman out

43

00:02:21,479 --> 00:02:19,090

I'll call he came in reference to a

44

00:02:25,560 --> 00:02:21,489

multiple Bigfoot sighting he had in

45

00:02:28,080 --> 00:02:25,570

mid-august 2019 he was in the process of

46

00:02:30,660 --> 00:02:28,090

helping a friend move from Tennessee to

47

00:02:32,490 --> 00:02:30,670

Perry County Missouri now when they

48

00:02:35,849 --> 00:02:32,500

reached her destination the new

49

00:02:38,280 --> 00:02:35,859

residence was in a real section of Perry

50

00:02:42,030 --> 00:02:38,290

County Missouri it was approximately

51
00:02:44,550 --> 00:02:42,040
6:30 a.m. local time the dawn light was

52
00:02:46,830 --> 00:02:44,560
just beginning to creep through the

53
00:02:50,060 --> 00:02:46,840
house was near a neighbor's larger house

54
00:02:52,740 --> 00:02:50,070
which had a crowd with horses behind it

55
00:02:56,370 --> 00:02:52,750
now iki was beginning to unload

56
00:02:58,199 --> 00:02:56,380
furniture and when his friend when his

57
00:03:00,420 --> 00:02:58,209
friend pointed in the direction of the

58
00:03:03,030 --> 00:03:00,430
corral and mentioned that there was

59
00:03:05,039 --> 00:03:03,040
movement in the woods behind it now he

60
00:03:08,069 --> 00:03:05,049
can't paused and looked in the direction

61
00:03:11,460 --> 00:03:08,079
of the crowd he noticed the movement as

62
00:03:14,069 --> 00:03:11,470
well but was unsure what he was looking

63
00:03:16,729 --> 00:03:14,079

at he began to walk towards the crowd

64

00:03:19,530 --> 00:03:16,739

while remaining on his friends property

65

00:03:20,730 --> 00:03:19,540

he continued to watch as the morning

66

00:03:24,930 --> 00:03:20,740

light became bright

67

00:03:28,200 --> 00:03:24,940

he distinct distinctly observed for

68

00:03:30,740 --> 00:03:28,210

hairy conical heads and shoulders

69

00:03:33,840 --> 00:03:30,750

bobbing up along the edge of the woods

70

00:03:36,360 --> 00:03:33,850

then a horse's act is somewhat mindful

71

00:03:39,660 --> 00:03:36,370

of the activity but did not act afraid

72

00:03:43,260 --> 00:03:39,670

and he k was surprised how quickly these

73

00:03:46,350 --> 00:03:43,270

beings were moving about now he told me

74

00:03:48,120 --> 00:03:46,360

that he watched the movement for for

75

00:03:50,520 --> 00:03:48,130

about twenty to thirty minutes

76

00:03:53,520 --> 00:03:50,530

but was unable to get a decent

77

00:03:55,650 --> 00:03:53,530

photograph now he was positive that he

78

00:03:57,450 --> 00:03:55,660

was properly focusing on the heads and

79

00:04:00,090 --> 00:03:57,460

shoulders which were the only parts

80

00:04:03,270 --> 00:04:00,100

visible but nothing discernible was in

81

00:04:04,680 --> 00:04:03,280

the images there was distinctive grunts

82

00:04:07,440 --> 00:04:04,690

and heavy breathing coming from

83

00:04:09,690 --> 00:04:07,450

direction of this Big Foot group now he

84

00:04:12,570 --> 00:04:09,700

has been a Bigfoot enthusiast for many

85

00:04:14,820 --> 00:04:12,580

years and then and is positive that

86

00:04:16,650 --> 00:04:14,830

these were Bigfoot even though he has

87

00:04:18,740 --> 00:04:16,660

never investigated the phenomena he

88

00:04:21,990 --> 00:04:18,750

believes that this was a family group

89

00:04:25,830 --> 00:04:22,000

consisting with a large male a smaller

90

00:04:27,690 --> 00:04:25,840

female and possibly two juveniles now

91

00:04:30,690 --> 00:04:27,700

Ikki was very excited about what he had

92

00:04:32,910 --> 00:04:30,700

seen and is searching for a way to prove

93

00:04:34,530 --> 00:04:32,920

what he had witnessed I offered my

94

00:04:36,810 --> 00:04:34,540

assistance and hopefully he'll be able

95

00:04:39,090 --> 00:04:36,820

to gather photographic evidence in the

96

00:04:41,700 --> 00:04:39,100

future and he is mindful that full

97

00:04:43,800 --> 00:04:41,710

disclosure of the location would be

98

00:04:46,080 --> 00:04:43,810

somewhat detrimental to these Bigfoot

99

00:04:48,960 --> 00:04:46,090

and has no intention of cause these

100

00:04:50,310 --> 00:04:48,970

creatures any harm so that was an

101

00:04:52,550 --> 00:04:50,320

interesting account

102

00:04:56,340 --> 00:04:52,560

I actually just received that last night

103

00:04:58,440 --> 00:04:56,350

so let's go ahead and get started with

104

00:05:02,490 --> 00:04:58,450

the show tonight I welcome Alaska

105

00:05:05,340 --> 00:05:02,500

Bigfoot researcher Larry beans Baxter -

106

00:05:07,130 --> 00:05:05,350

arcane radio now born in Kentucky Larry

107

00:05:10,200 --> 00:05:07,140

is a military and law enforcement

108

00:05:12,780 --> 00:05:10,210

veteran with a passion for investigating

109

00:05:15,650 --> 00:05:12,790

the unexplained he's joined the military

110

00:05:18,600 --> 00:05:15,660

in his 20s and was stationed in Alaska

111

00:05:21,450 --> 00:05:18,610

beans fell in love Alaska admitted his

112

00:05:23,310 --> 00:05:21,460

own living in Alaska beans has spent

113

00:05:25,860 --> 00:05:23,320

several years investigating the Bigfoot

114

00:05:29,310 --> 00:05:25,870

phenomena as well as the abandoned town

115

00:05:33,140 --> 00:05:29,320

of Port Chatham Alaska he is a member of

116

00:05:34,290 --> 00:05:33,150

the Kenai Bigfoot research group so

117

00:05:36,029 --> 00:05:34,300

being

118

00:05:37,680 --> 00:05:36,039

thanks for joining me this evening hey

119

00:05:42,059 --> 00:05:37,690

thanks for having me online I appreciate

120

00:05:44,399 --> 00:05:42,069

it so I got a chance today to watch a

121

00:05:53,149 --> 00:05:44,409

film you were in I think was probably

122

00:06:00,260 --> 00:05:56,610

phenomenom okay can you kind of tell us

123

00:06:02,059 --> 00:06:00,270

the story about what had been supposedly

124

00:06:04,860 --> 00:06:02,069

going on there

125

00:06:09,330 --> 00:06:04,870

yeah well porch atham has a really

126

00:06:11,399 --> 00:06:09,340

interesting history here in Alaska there

127

00:06:13,339 --> 00:06:11,409

were two communities there is located on

128

00:06:16,550 --> 00:06:13,349

the southern tip of the Kenai Peninsula

129

00:06:19,830 --> 00:06:16,560

kind of in south-central Alaska and

130

00:06:21,450 --> 00:06:19,840

there were two communities there one

131

00:06:23,100 --> 00:06:21,460

called Portlock which was named for

132

00:06:25,920 --> 00:06:23,110

captain Nathaniel Portlock with the

133

00:06:30,110 --> 00:06:25,930

British Navy and then port Chatham which

134

00:06:34,399 --> 00:06:30,120

was named for the area port chaplain and

135

00:06:38,070 --> 00:06:34,409

there's a lot of history there with

136

00:06:39,779 --> 00:06:38,080

resources you know most people if you

137

00:06:41,999 --> 00:06:39,789

look up or Chatham you'll hear about the

138

00:06:44,519 --> 00:06:42,009

the the cannery was that was there the

139

00:06:45,839 --> 00:06:44,529

fish cannery but there was a lot of

140

00:06:47,969 --> 00:06:45,849

other stuff going on there that people

141

00:06:50,070 --> 00:06:47,979

don't really know about

142

00:06:53,580 --> 00:06:50,080

there was a chromite mine there that

143

00:06:56,610 --> 00:06:53,590

produced a lot of chromite for the World

144

00:07:00,360 --> 00:06:56,620

War one there was also a coal mine there

145

00:07:01,950 --> 00:07:00,370

and a bunch of little sawmills that you

146

00:07:04,559 --> 00:07:01,960

know harvested the lumber around the

147

00:07:07,469 --> 00:07:04,569

area so the area is really rich in

148

00:07:09,450 --> 00:07:07,479

natural resources and not not just the

149

00:07:12,559 --> 00:07:09,460

fish there that you know they were

150

00:07:15,600 --> 00:07:12,569

harvesting for the cannery and so

151
00:07:18,510 --> 00:07:15,610
naturally you know people moved in there

152
00:07:22,490 --> 00:07:18,520
and they started collecting the natural

153
00:07:26,790 --> 00:07:24,540
probably an you know about the night in

154
00:07:29,390 --> 00:07:26,800
the early 1900's people started

155
00:07:31,800 --> 00:07:29,400
realizing that something wasn't right

156
00:07:35,999 --> 00:07:31,810
most of the workers at the cannery were

157
00:07:37,619 --> 00:07:36,009
local Aleut natives and they just they

158
00:07:39,540 --> 00:07:37,629
noticed things were not right they were

159
00:07:42,810 --> 00:07:39,550
going into the woods to hunt people were

160
00:07:43,980 --> 00:07:42,820
disappearing and in 1905 the the cannery

161
00:07:45,329 --> 00:07:43,990
workers just kind of threw their hands

162
00:07:47,830 --> 00:07:45,339
up says we're not doing this anymore you

163
00:07:49,620 --> 00:07:47,840

know it's not safe and they

164

00:07:51,940 --> 00:07:49,630

basically quit they went on strike and

165

00:07:56,470 --> 00:07:51,950

the owners of the cannery they finally

166

00:07:59,230 --> 00:07:56,480

relented and hired armed guards to guard

167

00:08:01,270 --> 00:07:59,240

the cannery and the workers to keep them

168

00:08:04,090 --> 00:08:01,280

safe from what the natives call a nom de

169

00:08:07,390 --> 00:08:04,100

NOC there's not really a good

170

00:08:08,890 --> 00:08:07,400

translation from the native language to

171

00:08:12,490 --> 00:08:08,900

English for what the non Tanakh means

172

00:08:14,409 --> 00:08:12,500

most of the translators translation is

173

00:08:19,150 --> 00:08:14,419

big hairy thing or hairy hairy man-like

174

00:08:20,710 --> 00:08:19,160

thing so they hired some armed guards

175

00:08:24,610 --> 00:08:20,720

the workers came back and things were

176

00:08:27,940 --> 00:08:24,620

okay for a few years and again you know

177

00:08:29,560 --> 00:08:27,950

in the 1930s people began to disappear

178

00:08:32,790 --> 00:08:29,570

again there was a gentleman named Andrew

179

00:08:34,930 --> 00:08:32,800

camlock he was he ran a little lumber or

180

00:08:38,019 --> 00:08:34,940

sawmill he had a little lumberjack

181

00:08:39,909 --> 00:08:38,029

operation going on he disappeared they

182

00:08:42,640 --> 00:08:39,919

went up into the woods to look for him

183

00:08:44,950 --> 00:08:42,650

found him dead he was you know killed by

184

00:08:48,160 --> 00:08:44,960

a large piece of machinery that they

185

00:08:51,400 --> 00:08:48,170

said that a human couldn't lift and the

186

00:08:53,530 --> 00:08:51,410

people were scared so you know they

187

00:08:56,140 --> 00:08:53,540

chalked this up to the to the net not to

188

00:08:57,610 --> 00:08:56,150

not creature you know there's there's

189

00:08:58,990 --> 00:08:57,620

other things in the woods there as well

190

00:09:01,780 --> 00:08:59,000

you know there's plenty of moose and

191

00:09:03,670 --> 00:09:01,790

bear it is Alaska but just you know the

192

00:09:05,680 --> 00:09:03,680

manner that these people were killed and

193

00:09:07,329 --> 00:09:05,690

and the things that were being you know

194

00:09:11,230 --> 00:09:07,339

50 gallon drums were being you know

195

00:09:12,310 --> 00:09:11,240

tossed around and people were convinced

196

00:09:19,480 --> 00:09:12,320

it was an anti-knock and they were

197

00:09:22,630 --> 00:09:19,490

scared so eventually you know after

198

00:09:24,220 --> 00:09:22,640

enough people disappeared the town got

199

00:09:27,070 --> 00:09:24,230

together and they just decided they were

200

00:09:28,990 --> 00:09:27,080

gonna leave so they wha they I think it

201
00:09:32,560 --> 00:09:29,000
was 1950 the last resident was a

202
00:09:34,329 --> 00:09:32,570
postmaster and he packed up in left in

203
00:09:36,220 --> 00:09:34,339
1950 and that was it the town was just

204
00:09:39,340 --> 00:09:36,230
left to be abandoned they left all the

205
00:09:41,079 --> 00:09:39,350
cannery equipment there you know there's

206
00:09:43,870 --> 00:09:41,089
houses still that are still standing not

207
00:09:46,060 --> 00:09:43,880
too many but a few and they just left it

208
00:09:48,850 --> 00:09:46,070
to the elements and if you go there now

209
00:09:51,579 --> 00:09:48,860
you can see pieces of the cannery are

210
00:09:54,310 --> 00:09:51,589
starting to fall off the cliffs from the

211
00:09:56,140 --> 00:09:54,320
erosion and you can just see the the

212
00:09:58,060 --> 00:09:56,150
pieces of machinery littered along the

213
00:10:00,460 --> 00:09:58,070

beach it's actually pretty pretty cool

214

00:10:01,780 --> 00:10:00,470

it's pretty surreal and it's it's an

215

00:10:03,870 --> 00:10:01,790

amazing place I've never seen thing

216

00:10:06,280 --> 00:10:03,880

like it to see a place that was once

217

00:10:09,040 --> 00:10:06,290

basically a hub of Natural Resources

218

00:10:10,650 --> 00:10:09,050

production just to be left and you know

219

00:10:13,660 --> 00:10:10,660

that's not something you see a whole lot

220

00:10:14,980 --> 00:10:13,670

you know in in human history you know

221

00:10:16,570 --> 00:10:14,990

with mines and stuff you'll see those

222

00:10:18,670 --> 00:10:16,580

talents for mines you know because the

223

00:10:21,400 --> 00:10:18,680

mine will play out and people leave

224

00:10:23,590 --> 00:10:21,410

because there's no more resources but

225

00:10:27,310 --> 00:10:23,600

you know with the fish they they never

226

00:10:29,980 --> 00:10:27,320

went anywhere you know the the cannery

227

00:10:32,950 --> 00:10:29,990

should still be going today and this is

228

00:10:34,690 --> 00:10:32,960

one of the few times in human history

229

00:10:37,180 --> 00:10:34,700

where you can look and say that you know

230

00:10:38,830 --> 00:10:37,190

progress was pushed back that you know

231

00:10:41,860 --> 00:10:38,840

the people were scared out of there

232

00:10:45,820 --> 00:10:41,870

and you know people are still avoided

233

00:10:48,570 --> 00:10:45,830

today uh-huh yeah you are you were

234

00:10:54,190 --> 00:10:48,580

involved with production with extreme

235

00:10:56,920 --> 00:10:54,200

expeditions Steven tee major he produced

236

00:11:00,910 --> 00:10:56,930

the in search of the poor Chatham Harry

237

00:11:04,590 --> 00:11:00,920

man and I watched that film today and

238

00:11:07,390 --> 00:11:04,600

it's interesting it's quite interesting

239

00:11:10,930 --> 00:11:07,400

do you have any idea of any other

240

00:11:14,080 --> 00:11:10,940

serious investigations in the area

241

00:11:17,050 --> 00:11:14,090

previous to when you guys were there no

242

00:11:21,400 --> 00:11:17,060

and you know there's a few good reasons

243

00:11:23,860 --> 00:11:21,410

for that long you know one it's hard to

244

00:11:26,230 --> 00:11:23,870

get to Alaska it's kind of expensive you

245

00:11:28,630 --> 00:11:26,240

know you got to get on a plane and fly

246

00:11:30,310 --> 00:11:28,640

up here and then once you get to Alaska

247

00:11:32,560 --> 00:11:30,320

you got to get the porch a foam now

248

00:11:33,820 --> 00:11:32,570

there's this is an interesting fact you

249

00:11:37,270 --> 00:11:33,830

know from where I'm sitting right now

250

00:11:39,370 --> 00:11:37,280

talking to you I am about 44 air miles

251

00:11:42,520 --> 00:11:39,380

from Port Chatham it's like 40 miles

252

00:11:44,590 --> 00:11:42,530

away it's not far at all but to get

253

00:11:45,700 --> 00:11:44,600

there it would probably cost me a couple

254

00:11:47,440 --> 00:11:45,710

thousand dollars because I'd have to

255

00:11:48,970 --> 00:11:47,450

charter a boat to go there nobody wants

256

00:11:50,530 --> 00:11:48,980

to go there I got to find a you know a

257

00:11:53,500 --> 00:11:50,540

boat captain it's willing to go in there

258

00:11:55,360 --> 00:11:53,510

and take me there so you know it's not

259

00:11:58,210 --> 00:11:55,370

it's not a place that's easy to get to

260

00:12:02,020 --> 00:11:58,220

it takes a lot of resources and planning

261

00:12:05,080 --> 00:12:02,030

to get there mm yeah I I kind of figured

262

00:12:07,090 --> 00:12:05,090

that out by watching the watching the

263

00:12:11,080 --> 00:12:07,100

film I mean he was like a six-hour ride

264

00:12:13,620 --> 00:12:11,090

on a boat so yeah he had to cross a lot

265

00:12:14,900 --> 00:12:13,630

of were to get just 40 miles from you

266

00:12:16,010 --> 00:12:14,910

yeah

267

00:12:17,570 --> 00:12:16,020

you know and a lot of people that are

268

00:12:18,740 --> 00:12:17,580

critical of the film are like well why

269

00:12:20,930 --> 00:12:18,750

didn't they do this or why didn't they

270

00:12:23,000 --> 00:12:20,940

take that or why didn't they you know do

271

00:12:24,740 --> 00:12:23,010

this or that and you got to understand

272

00:12:26,180 --> 00:12:24,750

we were you know limited with our time

273

00:12:27,890 --> 00:12:26,190

to be there because literally time was

274

00:12:30,050 --> 00:12:27,900

money because we had to pay for the boat

275

00:12:31,460 --> 00:12:30,060

to be there and to you know we were

276

00:12:33,680 --> 00:12:31,470

limited pretty much by what we could

277

00:12:37,040 --> 00:12:33,690

carry you know we couldn't take a whole

278

00:12:38,570 --> 00:12:37,050

lot of heavy stuff in there so right it

279

00:12:41,090 --> 00:12:38,580

was it was the best we could do with

280

00:12:44,540 --> 00:12:41,100

what we had and it was the first as far

281

00:12:48,320 --> 00:12:44,550

as I know big for research that was done

282

00:12:51,260 --> 00:12:48,330

on the ground there well the the thing

283

00:12:53,930 --> 00:12:51,270

that impressed me most of all was you

284

00:12:58,490 --> 00:12:53,940

everybody that would watch this would

285

00:13:02,780 --> 00:12:58,500

get a very good idea of the terrain for

286

00:13:04,820 --> 00:13:02,790

one thing it's very thick now you've got

287

00:13:06,140 --> 00:13:04,830

I don't know what kind of pines those

288

00:13:10,460 --> 00:13:06,150

are that are in there

289

00:13:12,820 --> 00:13:10,470

but they have low branches and they've

290

00:13:16,850 --> 00:13:12,830

got to be a pain to get through and

291

00:13:19,610 --> 00:13:16,860

you've got very thick moss on the on the

292

00:13:22,640 --> 00:13:19,620

ground that seems to shift every time

293

00:13:26,150 --> 00:13:22,650

you walk on it it does seem very

294

00:13:28,990 --> 00:13:26,160

inhospitable for anybody let alone the

295

00:13:32,710 --> 00:13:29,000

people that had lived there at one time

296

00:13:35,540 --> 00:13:32,720

yeah and it's been set in there since

297

00:13:37,670 --> 00:13:35,550

1950 so you know it's natures

298

00:13:41,720 --> 00:13:37,680

I'm sure at one point they probably had

299

00:13:42,950 --> 00:13:41,730

trails and roads and not necessarily

300

00:13:44,900 --> 00:13:42,960

paved ones but they had you know

301

00:13:48,530 --> 00:13:44,910

pathways and stuff and all that's all

302

00:13:51,470 --> 00:13:48,540

grown up now and the terrain is just

303

00:13:53,240 --> 00:13:51,480

it's primordial I can't it's like

304

00:13:54,940 --> 00:13:53,250

something out of Jurassic Park and that

305

00:13:56,990 --> 00:13:54,950

was one of the problems that we ran into

306

00:13:59,210 --> 00:13:57,000

especially in some of the areas we were

307

00:14:01,970 --> 00:13:59,220

at because the ground was so soft and

308

00:14:04,460 --> 00:14:01,980

spongy that it didn't really lend itself

309

00:14:06,190 --> 00:14:04,470

to tracking very well we did see a few

310

00:14:08,450 --> 00:14:06,200

impressions that were pretty impressive

311

00:14:11,210 --> 00:14:08,460

but we couldn't really cast them just

312

00:14:14,360 --> 00:14:11,220

because it was in this that spongy moss

313

00:14:16,190 --> 00:14:14,370

so it was kind of a disappointment to me

314

00:14:20,180 --> 00:14:16,200

to find I found a really nice 14 inch

315

00:14:21,680 --> 00:14:20,190

track and I you know I was it just could

316

00:14:24,500 --> 00:14:21,690

not I could not photograph it the way I

317

00:14:27,050 --> 00:14:24,510

want I cannot tell you or show you how

318

00:14:28,879 --> 00:14:27,060

awesome that that imprint was because

319

00:14:30,650 --> 00:14:28,889

just from every angle I was full

320

00:14:32,629 --> 00:14:30,660

graphing it from I couldn't get it to

321

00:14:33,889 --> 00:14:32,639

show up I was using all the tricks I

322

00:14:37,099 --> 00:14:33,899

knew I'm trying to use like oblique

323

00:14:38,569 --> 00:14:37,109

lighting to get it to show up and it was

324

00:14:39,829 --> 00:14:38,579

it was something you know it was one of

325

00:14:42,079 --> 00:14:39,839

the few times I've ever looked out the

326

00:14:43,910 --> 00:14:42,089

ground and you know we're like holy you

327

00:14:45,889 --> 00:14:43,920

know curse word you know that was

328

00:14:47,419 --> 00:14:45,899

impressive yeah you had been lucky

329

00:14:51,319 --> 00:14:47,429

enough to find a mud hole somewhere

330

00:14:54,590 --> 00:14:51,329

because uh there wasn't many there and I

331

00:14:57,189 --> 00:14:54,600

I did happen to see the photograph I

332

00:14:59,419 --> 00:14:57,199

think you got three very distinct two

333

00:15:04,970 --> 00:14:59,429

impressions but it did seem like a

334

00:15:08,119 --> 00:15:04,980

pretty good-sized human-like foot yeah

335

00:15:11,059 --> 00:15:08,129

and you know that was the area where we

336

00:15:12,710 --> 00:15:11,069

heard a lot of movement and you know

337

00:15:14,210 --> 00:15:12,720

like you pointed out the brush was so

338

00:15:16,159 --> 00:15:14,220

thick we could have had something you

339

00:15:17,539 --> 00:15:16,169

know just a few feet from us and we

340

00:15:19,460 --> 00:15:17,549

would have never known it oh I doubt

341

00:15:22,369 --> 00:15:19,470

literally there there were several times

342

00:15:23,840 --> 00:15:22,379

where we would walk around a bend or

343

00:15:25,369 --> 00:15:23,850

something and we would just hear just

344

00:15:27,169 --> 00:15:25,379

just ahead of us just far enough to

345

00:15:28,789 --> 00:15:27,179

where we couldn't see we'd hear a thump

346

00:15:30,739 --> 00:15:28,799

you know something running away a thump

347

00:15:33,799 --> 00:15:30,749

thump thump them and we couldn't really

348

00:15:36,019 --> 00:15:33,809

tell if it was bipedal or not you know

349

00:15:39,199 --> 00:15:36,029

we did see some signs of bear and other

350

00:15:41,389 --> 00:15:39,209

animals but in my experience you know

351

00:15:43,699 --> 00:15:41,399

bears don't you know they don't they

352

00:15:45,379 --> 00:15:43,709

don't make a thumping sound like that

353

00:15:46,759 --> 00:15:45,389

one they run away they're you know they

354

00:15:50,749 --> 00:15:46,769

usually they're pretty light on their

355

00:15:52,579 --> 00:15:50,759

feet actually yeah yeah I noticed that

356

00:15:55,280 --> 00:15:52,589

myself I've seen plenty of bears running

357

00:15:58,519 --> 00:15:55,290

off and you it's very rare to hear I'm

358

00:16:00,590 --> 00:15:58,529

even in even in a dry wood just you just

359

00:16:02,389 --> 00:16:00,600

don't hear a lot of it they do seem to

360

00:16:04,369 --> 00:16:02,399

be kind of light on their feet like a

361

00:16:07,639 --> 00:16:04,379

cushion under the feet when they're

362

00:16:11,449 --> 00:16:07,649

running so in that environment with that

363

00:16:13,579 --> 00:16:11,459

spongy ground I can imagine it'd be very

364

00:16:16,699 --> 00:16:13,589

difficult to hear them you'd had to have

365

00:16:19,129 --> 00:16:16,709

a lot of weight forcing down for you to

366

00:16:21,139 --> 00:16:19,139

hear something running off now I mean

367

00:16:25,720 --> 00:16:21,149

speaking of that in that one area that

368

00:16:29,509 --> 00:16:25,730

you were in at the end of the first day

369

00:16:34,009 --> 00:16:29,519

where you caught the FLIR of something

370

00:16:36,889 --> 00:16:34,019

that looked humanoid I tell you I've

371

00:16:39,829 --> 00:16:36,899

seen a lot of FLIR a Bigfoot or I

372

00:16:41,629 --> 00:16:39,839

suppose a Bigfoot and I think that's

373

00:16:42,710 --> 00:16:41,639

probably one of the best ones I've seen

374

00:16:45,290 --> 00:16:42,720

because this

375

00:16:47,749 --> 00:16:45,300

thing had the right shape to it it was

376

00:16:52,249 --> 00:16:47,759

bipedal and this thing was raising his

377

00:16:56,689 --> 00:16:52,259

arms above its head and moving away so I

378

00:17:00,519 --> 00:16:56,699

don't know Illi really do believe you

379

00:17:03,319 --> 00:17:00,529

did capture one yeah and you know

380

00:17:06,020 --> 00:17:03,329

hindsight is 20/20 and curse of

381

00:17:07,909 --> 00:17:06,030

Sasquatch and all that I I actually got

382

00:17:09,949 --> 00:17:07,919

a lot better look at it in the FLIR than

383

00:17:11,750 --> 00:17:09,959

what you see on the video I actually

384

00:17:13,960 --> 00:17:11,760

watched it for several seconds before I

385

00:17:17,179 --> 00:17:13,970

finally was like oh I got a hit record

386

00:17:21,039 --> 00:17:17,189

but the best I could describe it as if

387

00:17:23,600 --> 00:17:21,049

it looked like Donkey Kong from the

388

00:17:27,199 --> 00:17:23,610

video game it looked like Donkey Kong

389

00:17:29,480 --> 00:17:27,209

was standin you know standing there just

390

00:17:32,090 --> 00:17:29,490

lifting his hands up and down her his

391

00:17:34,490 --> 00:17:32,100

arms up and down over his head and I

392

00:17:35,870 --> 00:17:34,500

thought huh that's weird and I think

393

00:17:36,890 --> 00:17:35,880

just about everybody that went with us

394

00:17:38,419 --> 00:17:36,900

saw it because we're sitting there

395

00:17:41,029 --> 00:17:38,429

passing the FLIR around like what the

396

00:17:43,010 --> 00:17:41,039

hell is that you know and yeah I finally

397

00:17:45,320 --> 00:17:43,020

hit the record button but it seemed like

398

00:17:47,500 --> 00:17:45,330

it was moving away from us I don't I

399

00:17:49,880 --> 00:17:47,510

don't think it liked us be in there and

400

00:17:52,039 --> 00:17:49,890

it seemed to be moving away from us and

401

00:17:53,060 --> 00:17:52,049

we tried to catch up with it but you

402

00:17:55,340 --> 00:17:53,070

know you'll have you have to watch the

403

00:17:57,409 --> 00:17:55,350

movie to see what happens yeah you know

404

00:18:00,799 --> 00:17:57,419

I know the part another phenomena I

405

00:18:03,680 --> 00:18:00,809

thought was very interesting was the

406

00:18:05,750 --> 00:18:03,690

area has a lot of wild blueberry bushes

407

00:18:09,020 --> 00:18:05,760

the whole way through it from what I

408

00:18:13,549 --> 00:18:09,030

could see on the film and you guys made

409

00:18:15,500 --> 00:18:13,559

note of it seemed that one part what the

410

00:18:17,390 --> 00:18:15,510

blueberries were eating off the bushes

411

00:18:21,260 --> 00:18:17,400

and you got a lot of bears in the area

412

00:18:23,270 --> 00:18:21,270

but it seems like the other part I mean

413

00:18:26,600 --> 00:18:23,280

all the berries are still on the bushes

414

00:18:29,419 --> 00:18:26,610

and you know it has to make you think

415

00:18:31,700 --> 00:18:29,429

well maybe these bears aren't going over

416

00:18:35,419 --> 00:18:31,710

the other side for a reason

417

00:18:38,899 --> 00:18:35,429

maybe there's a territorial didn't dent

418

00:18:41,230 --> 00:18:38,909

elation or something I mean they stay

419

00:18:43,760 --> 00:18:41,240

out of in their own territory

420

00:18:45,669 --> 00:18:43,770

exactly lawn it was it was almost like

421

00:18:48,260 --> 00:18:45,679

there was an invisible partitioned

422

00:18:50,990 --> 00:18:48,270

through that part of the woods were on

423

00:18:51,350 --> 00:18:51,000

one side you know there was lots of bear

424

00:18:54,860 --> 00:18:51,360

scat

425

00:18:56,450 --> 00:18:54,870

lots of bear sign and just he stripped

426

00:18:58,100 --> 00:18:56,460

berry bushes that

427

00:18:59,450 --> 00:18:58,110

had been pretty much picked clean you

428

00:19:02,540 --> 00:18:59,460

know there'd be a berry here or there

429

00:19:05,390 --> 00:19:02,550

and then on the other side there was no

430

00:19:08,360 --> 00:19:05,400

bear scat no bear sign or anything and

431

00:19:10,130 --> 00:19:08,370

the bushes were just full and and

432

00:19:13,520 --> 00:19:10,140

berries just dropped dropping off of

433

00:19:14,690 --> 00:19:13,530

them and I think you know I wasn't the

434

00:19:16,760 --> 00:19:14,700

only one that got the impression that

435

00:19:19,190 --> 00:19:16,770

maybe there was an invisible barrier

436

00:19:23,350 --> 00:19:19,200

there that you know that maybe those

437

00:19:27,020 --> 00:19:23,360

full bushes belong to somebody else yeah

438

00:19:30,080 --> 00:19:27,030

yeah I mean it's an interesting film I

439

00:19:31,970 --> 00:19:30,090

mean I there are a few things that come

440

00:19:34,370 --> 00:19:31,980

up in it that really make you think I

441

00:19:37,100 --> 00:19:34,380

mean overall what was your impression of

442

00:19:38,270 --> 00:19:37,110

it did you did you learn much from it is

443

00:19:41,750 --> 00:19:38,280

this something that you're going to be

444

00:19:44,360 --> 00:19:41,760

able to use in further research well I

445

00:19:47,600 --> 00:19:44,370

think the most important thing I learned

446

00:19:49,580 --> 00:19:47,610

from it was just how rugged the terrain

447

00:19:51,110 --> 00:19:49,590

is over there and you know I want to I

448

00:19:54,500 --> 00:19:51,120

want to go back over there eventually

449

00:19:56,480 --> 00:19:54,510

and and do some more research but you

450

00:19:58,010 --> 00:19:56,490

know that that initial trip over there

451

00:20:00,020 --> 00:19:58,020

just really taught me just how rough

452

00:20:01,490 --> 00:20:00,030

it's gonna be and you know I'm gonna

453

00:20:05,810 --> 00:20:01,500

have to get in better shape for one

454

00:20:06,920 --> 00:20:05,820

thing and I'm gonna just yeah I'm just

455

00:20:09,110 --> 00:20:06,930

gonna have to take some better equipment

456

00:20:10,880 --> 00:20:09,120

and just be prepared for that terrain

457

00:20:12,290 --> 00:20:10,890

because I hadn't been there actually I

458

00:20:14,780 --> 00:20:12,300

don't none of us had been there so we

459

00:20:17,450 --> 00:20:14,790

weren't quite sure what to expect so

460

00:20:18,830 --> 00:20:17,460

getting there and just getting boots on

461

00:20:20,960 --> 00:20:18,840

the ground and seeing what it was like

462

00:20:22,310 --> 00:20:20,970

and what we got to contend with was

463

00:20:25,370 --> 00:20:22,320

probably the the biggest learning

464

00:20:27,560 --> 00:20:25,380

experience for me and I can't wait to

465

00:20:29,660 --> 00:20:27,570

get back over there and you know look

466

00:20:32,840 --> 00:20:29,670

around some more and hopefully get a

467

00:20:35,120 --> 00:20:32,850

better sighting like I not very many

468

00:20:37,310 --> 00:20:35,130

people go there so I think what you know

469

00:20:39,350 --> 00:20:37,320

the Bigfoot that are over there probably

470

00:20:40,640 --> 00:20:39,360

aren't too used to humans so I think you

471

00:20:44,120 --> 00:20:40,650

probably got a pretty good chance of

472

00:20:46,070 --> 00:20:44,130

having a sighting over there mm yeah let

473

00:20:47,480 --> 00:20:46,080

alone the bears and the moose and I'll

474

00:20:53,960 --> 00:20:47,490

tell you I've had an encounter with a

475

00:20:58,820 --> 00:20:53,970

moose and that is not fun they they are

476
00:21:00,500 --> 00:20:58,830
quite amazing and huge animals and they

477
00:21:02,390 --> 00:21:00,510
don't have a fondness for people so you

478
00:21:04,040 --> 00:21:02,400
really take your chances doing it and of

479
00:21:08,419 --> 00:21:04,050
course you guys were really wanted to

480
00:21:10,639 --> 00:21:08,429
the teeth I mean and I can't blame you

481
00:21:13,970 --> 00:21:10,649
yeah you know when it comes to a whole

482
00:21:15,350 --> 00:21:13,980
Pro kill no kill thing I'm I'm Pro kill

483
00:21:17,480 --> 00:21:15,360
but that doesn't necessarily mean I'm

484
00:21:19,700 --> 00:21:17,490
gonna be the one that does it yeah yeah

485
00:21:23,450 --> 00:21:19,710
I I think it's gonna take a body to

486
00:21:24,919 --> 00:21:23,460
prove it but at the same time I don't

487
00:21:26,869 --> 00:21:24,929
think I would shoot one unless it was

488
00:21:30,259 --> 00:21:26,879

acting threatening to warden it was it

489

00:21:31,970 --> 00:21:30,269

was self-defense yeah but yeah you know

490

00:21:33,350 --> 00:21:31,980

we got a lot more than just Bigfoot to

491

00:21:35,330 --> 00:21:33,360

worry about up here you know there's

492

00:21:37,879 --> 00:21:35,340

almost every year there we have at least

493

00:21:39,350 --> 00:21:37,889

one or two bear maulings there's been

494

00:21:42,109 --> 00:21:39,360

several on the peninsula here where I

495

00:21:43,430 --> 00:21:42,119

live so you know it's just it's just

496

00:21:46,730 --> 00:21:43,440

better to have it and not need it than

497

00:21:49,039 --> 00:21:46,740

need it and not have it so I you know

498

00:21:50,720 --> 00:21:49,049

being I was tasked with security for the

499

00:21:51,950 --> 00:21:50,730

expedition because you know I've been in

500

00:21:54,950 --> 00:21:51,960

the military and I worked in law

501
00:21:56,869 --> 00:21:54,960
enforcement so I wanted to be able to

502
00:21:59,930 --> 00:21:56,879
handle you know whatever threat that we

503
00:22:01,730 --> 00:21:59,940
face so we had you know a shotgun with

504
00:22:05,989 --> 00:22:01,740
some pretty good slugs in it and you

505
00:22:07,789 --> 00:22:05,999
know my 44 Magnum so that's you know

506
00:22:09,200 --> 00:22:07,799
that's just the reality of it here in

507
00:22:14,119 --> 00:22:09,210
Alaska there's things here that will

508
00:22:17,509 --> 00:22:14,129
kill you if they can all right so what

509
00:22:19,129 --> 00:22:17,519
got you into Bigfoot well you know I've

510
00:22:22,820 --> 00:22:19,139
always been into it ever since I was a

511
00:22:27,200 --> 00:22:22,830
little kid I can't point to one specific

512
00:22:29,629 --> 00:22:27,210
thing or incident that you know got me

513
00:22:31,820 --> 00:22:29,639

into it I used to remember the Weekly

514

00:22:35,659 --> 00:22:31,830

World News that that newspaper were the

515

00:22:37,310 --> 00:22:35,669

you know yeah when I was a kid you know

516

00:22:39,080 --> 00:22:37,320

my mom would buy that at the checkout

517

00:22:40,820 --> 00:22:39,090

stand and I would read the articles in

518

00:22:42,859 --> 00:22:40,830

there and I clip them out and keep home

519

00:22:44,450 --> 00:22:42,869

and you know I was really into like

520

00:22:46,039 --> 00:22:44,460

Ghost Busters and stuff when I was a kid

521

00:22:47,720 --> 00:22:46,049

so I've always been you know interested

522

00:22:50,330 --> 00:22:47,730

in the paranormal and drawn toward that

523

00:22:53,090 --> 00:22:50,340

and Bigfoot was kind of extension of

524

00:22:54,950 --> 00:22:53,100

that and moving up here in Alaska it

525

00:22:57,859 --> 00:22:54,960

just it was almost just like a natural

526
00:22:59,600 --> 00:22:57,869
you know like well what there what can I

527
00:23:01,970 --> 00:22:59,610
investigate up here and Bigfoot seem to

528
00:23:03,320 --> 00:23:01,980
be the natural choice and it was always

529
00:23:05,180 --> 00:23:03,330
something that I kind of thought like

530
00:23:07,039 --> 00:23:05,190
well I'll do it when I retire you know

531
00:23:09,859 --> 00:23:07,049
I'll do it when I got nothing but time

532
00:23:12,350 --> 00:23:09,869
and I just I kind of decided a couple of

533
00:23:14,600 --> 00:23:12,360
years ago that you know I better start

534
00:23:16,310 --> 00:23:14,610
now because you don't always get you're

535
00:23:17,539 --> 00:23:16,320
not always around to do the things you

536
00:23:19,310 --> 00:23:17,549
want to do and it was something I really

537
00:23:21,160 --> 00:23:19,320
wanted to do so I figured I better get

538
00:23:22,990 --> 00:23:21,170

it do it while the doing was good

539

00:23:25,960 --> 00:23:23,000

and so I kind of come out of the Bigfoot

540

00:23:27,670 --> 00:23:25,970

closet and and kind of started to do

541

00:23:30,370 --> 00:23:27,680

research up here

542

00:23:31,360 --> 00:23:30,380

you know in a more public light so yeah

543

00:23:33,490 --> 00:23:31,370

it's just something I've always been

544

00:23:37,200 --> 00:23:33,500

drawn to I can't really point to one

545

00:23:40,720 --> 00:23:37,210

incident though have you had any

546

00:23:44,650 --> 00:23:40,730

interesting encounters yeah I've had a

547

00:23:46,570 --> 00:23:44,660

few really the first thing I think of it

548

00:23:50,380 --> 00:23:46,580

was a 2000 I came over the year might

549

00:23:51,880 --> 00:23:50,390

have been 2014 or so I went to an area

550

00:23:53,350 --> 00:23:51,890

where there had been some encounters not

551

00:23:57,190 --> 00:23:53,360

port Chatham but it was here on the

552

00:24:00,460 --> 00:23:57,200

Kenai Peninsula and I found a pretty a

553

00:24:01,870 --> 00:24:00,470

pretty decent track and I thought man I

554

00:24:04,330 --> 00:24:01,880

got a I got to come back and check this

555

00:24:05,650 --> 00:24:04,340

place out some more and I went back

556

00:24:08,020 --> 00:24:05,660

there a couple of months later and my

557

00:24:09,280 --> 00:24:08,030

wife was with me for this one and we

558

00:24:11,230 --> 00:24:09,290

were in about the same area where I

559

00:24:12,670 --> 00:24:11,240

found the track and again you know we

560

00:24:14,110 --> 00:24:12,680

heard this like thump thump thump you

561

00:24:17,020 --> 00:24:14,120

know something was running away from us

562

00:24:18,550 --> 00:24:17,030

and we couldn't we couldn't figure out

563

00:24:20,200 --> 00:24:18,560

what it was I went looking for it there

564

00:24:22,780 --> 00:24:20,210

was no bear scat no moose scat in the

565

00:24:25,060 --> 00:24:22,790

area and because I found that track

566

00:24:28,360 --> 00:24:25,070

there you know earlier I think that

567

00:24:30,610 --> 00:24:28,370

probably that was a area that there was

568

00:24:32,920 --> 00:24:30,620

a Bigfoot living and I've went back

569

00:24:36,580 --> 00:24:32,930

there several times and have it had

570

00:24:39,280 --> 00:24:36,590

anything else happen but I think here in

571

00:24:40,900 --> 00:24:39,290

Alaska your best chance of having a

572

00:24:44,830 --> 00:24:40,910

sighting or encounter is probably like

573

00:24:46,270 --> 00:24:44,840

late spring or early fall I don't think

574

00:24:48,280 --> 00:24:46,280

they're around a lot in the summertime

575

00:24:52,000 --> 00:24:48,290

when the tourists are around I think

576
00:24:53,350 --> 00:24:52,010
they they go they go to ground in the in

577
00:24:55,960 --> 00:24:53,360
the tourist season and they come out

578
00:24:57,880 --> 00:24:55,970
when the tourists leave it sounds kind

579
00:24:59,980 --> 00:24:57,890
of kind of funny but it's true

580
00:25:00,940 --> 00:24:59,990
you know people come down here they call

581
00:25:04,240 --> 00:25:00,950
the Kenai Peninsula

582
00:25:06,670 --> 00:25:04,250
Alaska's playground right right because

583
00:25:07,750 --> 00:25:06,680
people come down here to recreate and

584
00:25:09,670 --> 00:25:07,760
they're in the woods and they're on the

585
00:25:13,240 --> 00:25:09,680
water and they're you know having fun

586
00:25:17,710 --> 00:25:13,250
and I think it drives the you know the

587
00:25:19,420 --> 00:25:17,720
shy wildlife away so those were probably

588
00:25:21,040 --> 00:25:19,430

the two that kind of got me into this

589

00:25:23,170 --> 00:25:21,050

thinking hey there's something here you

590

00:25:25,080 --> 00:25:23,180

know in Alaska that I can actually sink

591

00:25:27,610 --> 00:25:25,090

my teeth into and then do something with

592

00:25:29,740 --> 00:25:27,620

so that's kind of what started it all

593

00:25:32,410 --> 00:25:29,750

for me here in Alaska

594

00:25:34,390 --> 00:25:32,420

I mean at her a lot of stories but the

595

00:25:35,320 --> 00:25:34,400

Kenai Peninsula in the Bigfoot

596

00:25:37,200 --> 00:25:35,330

encounters

597

00:25:40,480 --> 00:25:37,210

I mean I'd even heard stories about

598

00:25:43,960 --> 00:25:40,490

children people being taken by these

599

00:25:46,330 --> 00:25:43,970

creatures but what's the the most

600

00:25:49,230 --> 00:25:46,340

interesting story that you can that

601
00:25:55,570 --> 00:25:49,240
you've heard that you can tell us now

602
00:25:58,900 --> 00:25:55,580
jeez I love I just I love almost the

603
00:26:00,780 --> 00:25:58,910
whole history of port Chatham but the

604
00:26:02,710 --> 00:26:00,790
one that probably interested me the most

605
00:26:05,470 --> 00:26:02,720
is the one I was talking about earlier

606
00:26:07,660 --> 00:26:05,480
mr. Andrew camlock that the guy that

607
00:26:10,960 --> 00:26:07,670
died when he got hit by the piece of

608
00:26:12,970 --> 00:26:10,970
machinery I did a lot of research into

609
00:26:15,700 --> 00:26:12,980
that and even though it happened in the

610
00:26:17,860 --> 00:26:15,710
1930s I thought you know here's here's

611
00:26:19,510 --> 00:26:17,870
you know I do a lot of investigations in

612
00:26:21,310 --> 00:26:19,520
my job so I thought this is something

613
00:26:24,940 --> 00:26:21,320

I've got a name I've got a date this is

614

00:26:27,700 --> 00:26:24,950

something I can work with so I got into

615

00:26:29,560 --> 00:26:27,710

the state records and I was trying to

616

00:26:30,820 --> 00:26:29,570

find the death certificate for mr. Kamla

617

00:26:33,070 --> 00:26:30,830

because if I could find the cause of

618

00:26:35,700 --> 00:26:33,080

death and you know that would that would

619

00:26:38,590 --> 00:26:35,710

go a long way to proving the the story

620

00:26:39,880 --> 00:26:38,600

so I did a quite a bit of research I

621

00:26:42,070 --> 00:26:39,890

actually had somebody at the state

622

00:26:43,390 --> 00:26:42,080

records office you know looking things

623

00:26:47,170 --> 00:26:43,400

up for me it's in Juneau so it's

624

00:26:48,940 --> 00:26:47,180

actually quite a ways away and I wasn't

625

00:26:51,850 --> 00:26:48,950

able to find his death certificate and I

626
00:26:53,800 --> 00:26:51,860
think that's probably because you know a

627
00:26:54,610 --> 00:26:53,810
lot of this happens before statehood so

628
00:26:57,850 --> 00:26:54,620
there wasn't a lot of good

629
00:27:00,970 --> 00:26:57,860
record-keeping going on but I did find a

630
00:27:05,410 --> 00:27:00,980
death certificate for Andrew camlocks

631
00:27:08,350 --> 00:27:05,420
son who died some years later and

632
00:27:11,050 --> 00:27:08,360
Andrews name was listed on his son's

633
00:27:13,090 --> 00:27:11,060
death certificate as his father so there

634
00:27:16,960 --> 00:27:13,100
was a gentleman named Andrew camlock

635
00:27:18,760 --> 00:27:16,970
that was a alive in the 1930s that could

636
00:27:20,440 --> 00:27:18,770
have been killed by the nantan ox so

637
00:27:23,530 --> 00:27:20,450
that was exciting for me was to find

638
00:27:25,570 --> 00:27:23,540

that yeah I don't to call it proof but

639

00:27:26,920 --> 00:27:25,580

to find that validation that there's

640

00:27:29,230 --> 00:27:26,930

some truth to that story that that

641

00:27:31,960 --> 00:27:29,240

gentleman did exist because there's not

642

00:27:33,640 --> 00:27:31,970

a lot of names attached to these stories

643

00:27:34,960 --> 00:27:33,650

about Port Chatham you know they just

644

00:27:37,240 --> 00:27:34,970

say well hunters one of the woods and

645

00:27:39,730 --> 00:27:37,250

they died and there's not a whole lot

646

00:27:42,970 --> 00:27:39,740

you can do with that as far as research

647

00:27:43,500 --> 00:27:42,980

goes but find it find out that mr. cam

648

00:27:46,050 --> 00:27:43,510

looking

649

00:27:47,520 --> 00:27:46,060

that was a big deal to me and it makes

650

00:27:48,630 --> 00:27:47,530

it one of my favorite stories because

651
00:27:52,920 --> 00:27:48,640
there's actually something there that

652
00:27:56,850 --> 00:27:52,930
you can find mm-hmm can you kind of give

653
00:28:01,320 --> 00:27:56,860
us a roundabout figure the death toll at

654
00:28:03,780 --> 00:28:01,330
four Chatham well from what I understand

655
00:28:07,500 --> 00:28:03,790
I mean we've got mr. kam look that's one

656
00:28:10,170 --> 00:28:07,510
and the hunters are referred to in

657
00:28:13,680 --> 00:28:10,180
plural so I can only assume it was

658
00:28:16,530 --> 00:28:13,690
probably you know more than a couple so

659
00:28:19,350 --> 00:28:16,540
you know the best I can you know without

660
00:28:21,960 --> 00:28:19,360
that much more information I can go with

661
00:28:28,110 --> 00:28:21,970
is probably between you know two and

662
00:28:32,130 --> 00:28:28,120
five for sure yeah interesting yeah I

663
00:28:34,920 --> 00:28:32,140

mean you know down here in the 48 you

664

00:28:37,620 --> 00:28:34,930

don't hear much about or if anything

665

00:28:41,880 --> 00:28:37,630

about Bigfoot attacks they're rock used

666

00:28:44,490 --> 00:28:41,890

you know occasionally some but it does

667

00:28:47,130 --> 00:28:44,500

seem that you know especially the

668

00:28:49,500 --> 00:28:47,140

indigenous stories that there are

669

00:28:52,740 --> 00:28:49,510

definitely attacks up there in Alaska I

670

00:28:57,570 --> 00:28:52,750

think some areas of northern Canada as

671

00:29:00,960 --> 00:28:57,580

well yeah there's a native people here

672

00:29:03,480 --> 00:29:00,970

named the Kenai see and they have a

673

00:29:05,010 --> 00:29:03,490

creature there they're very you know

674

00:29:06,900 --> 00:29:05,020

they live on the peninsula as well and

675

00:29:08,610 --> 00:29:06,910

they have a creature they called the nan

676

00:29:11,540 --> 00:29:08,620

Tina which it's very similar than

677

00:29:14,700 --> 00:29:11,550

antiknock it's just nante Nala and the

678

00:29:19,920 --> 00:29:14,710

translation for that is the one who

679

00:29:22,530 --> 00:29:19,930

steals us and that's pretty creepy so

680

00:29:25,410 --> 00:29:22,540

you have heard of kidnappings by these

681

00:29:27,540 --> 00:29:25,420

things yeah there's a very famous story

682

00:29:32,220 --> 00:29:27,550

I believe it was in Alaska Magazine of

683

00:29:35,070 --> 00:29:32,230

the bush pilot who got married and was

684

00:29:36,750 --> 00:29:35,080

flying from Anchorage to another part of

685

00:29:40,170 --> 00:29:36,760

the state with his bride the weather got

686

00:29:44,460 --> 00:29:40,180

rough they put down somewhere on a

687

00:29:45,900 --> 00:29:44,470

sandbar near a river and he was putting

688

00:29:47,700 --> 00:29:45,910

up the tent and his wife started

689

00:29:50,540 --> 00:29:47,710

screaming and he turns around to see her

690

00:29:54,210 --> 00:29:50,550

being carried off by this big

691

00:29:56,280 --> 00:29:54,220

beast on two feet running off and he

692

00:29:58,830 --> 00:29:56,290

gave chasing and couldn't find them and

693

00:30:00,480 --> 00:29:58,840

yeah I haven't found any solid

694

00:30:01,980 --> 00:30:00,490

documentation or police report on that

695

00:30:05,550 --> 00:30:01,990

but that's a pretty popular story that

696

00:30:10,200 --> 00:30:05,560

makes the rounds up here now the

697

00:30:13,260 --> 00:30:10,210

morphology of a Bigfoot Sasquatch or

698

00:30:14,910 --> 00:30:13,270

whatever you want to call them is it

699

00:30:18,960 --> 00:30:14,920

much different than what we have down

700

00:30:20,820 --> 00:30:18,970

here in the 48th lower 48 you know there

701
00:30:24,480 --> 00:30:20,830
doesn't seem to be a lot of difference

702
00:30:28,410 --> 00:30:24,490
I've heard of you know black colored

703
00:30:30,480 --> 00:30:28,420
ones the red colored ones and you know

704
00:30:32,460 --> 00:30:30,490
even I haven't heard of any white ones

705
00:30:34,860 --> 00:30:32,470
though you know like a Yeti colored so

706
00:30:37,620 --> 00:30:34,870
yeah I think they're they're probably

707
00:30:41,160 --> 00:30:37,630
it's probably pretty similar I think

708
00:30:44,160 --> 00:30:41,170
that I one thing I can't figure it out

709
00:30:46,590 --> 00:30:44,170
is how they survived the the winners I

710
00:30:49,070 --> 00:30:46,600
mean I guess if moose and bear can then

711
00:30:51,660 --> 00:30:49,080
you know I guess Bigfoot can as well but

712
00:30:54,030 --> 00:30:51,670
it's just it just amazes me that

713
00:30:56,730 --> 00:30:54,040

something like that can survive in

714

00:31:00,300 --> 00:30:56,740

weather and like that we have up here

715

00:31:02,640 --> 00:31:00,310

and not just just died of exposure

716

00:31:04,170 --> 00:31:02,650

especially you know since they have

717

00:31:06,810 --> 00:31:04,180

fingers and toes why don't they get

718

00:31:08,730 --> 00:31:06,820

frost bite me I mean and I've thought

719

00:31:11,100 --> 00:31:08,740

about that myself it's not like they

720

00:31:13,320 --> 00:31:11,110

have a lot of fat stored on them from

721

00:31:16,320 --> 00:31:13,330

you know from what people have said they

722

00:31:19,920 --> 00:31:16,330

seen you know they have a coat of hair

723

00:31:23,160 --> 00:31:19,930

to a degree but you know Alaskan winters

724

00:31:24,750 --> 00:31:23,170

are pretty pretty tough one you know and

725

00:31:26,820 --> 00:31:24,760

you know of course other animals

726

00:31:29,070 --> 00:31:26,830

indigenous animals bear moose or

727

00:31:33,690 --> 00:31:29,080

whatever they've all got a layers of fat

728

00:31:36,570 --> 00:31:33,700

that protect them basically so it does

729

00:31:38,760 --> 00:31:36,580

seem it is interesting at yeah you're

730

00:31:42,600 --> 00:31:38,770

right about the frost plate that that is

731

00:31:44,670 --> 00:31:42,610

interesting yeah I do have a little you

732

00:31:46,380 --> 00:31:44,680

know just a theory I don't really have

733

00:31:50,310 --> 00:31:46,390

anything to substantiate it but I think

734

00:31:53,040 --> 00:31:50,320

that they must have a denser muscle

735

00:31:54,960 --> 00:31:53,050

system or or something because you know

736

00:31:56,820 --> 00:31:54,970

you hear about all these all these

737

00:31:59,130 --> 00:31:56,830

stories about people taking shots at

738

00:32:01,770 --> 00:31:59,140

them and they just run off and I know I

739

00:32:03,570 --> 00:32:01,780

hit it you know and there's no there's

740

00:32:06,030 --> 00:32:03,580

no blood or anything so

741

00:32:07,770 --> 00:32:06,040

I think they I mean they must have you

742

00:32:09,450 --> 00:32:07,780

know if they've got denser muscles that

743

00:32:12,270 --> 00:32:09,460

would almost act like a natural Kevlar

744

00:32:14,640 --> 00:32:12,280

you know and and disperse the the force

745

00:32:16,260 --> 00:32:14,650

of bullets that hit them so I think that

746

00:32:18,680 --> 00:32:16,270

I mean it's I guess it's as good a

747

00:32:22,200 --> 00:32:18,690

theory as anything else you know yeah

748

00:32:24,420 --> 00:32:22,210

yeah we hear that too but I I don't know

749

00:32:26,520 --> 00:32:24,430

I don't know you know I personally

750

00:32:28,620 --> 00:32:26,530

believe in particularly some areas here

751

00:32:31,920 --> 00:32:28,630

in the lower 48 that there's a

752

00:32:35,040 --> 00:32:31,930

supernatural aspect these creatures but

753

00:32:37,560 --> 00:32:35,050

I I think up where you are these things

754

00:32:42,300 --> 00:32:37,570

are they're indigenous flesh-and-blood

755

00:32:44,340 --> 00:32:42,310

beings I'm quite sure that you know I

756

00:32:46,410 --> 00:32:44,350

even when I first got into this I

757

00:32:49,500 --> 00:32:46,420

thought for sure they were you know

758

00:32:52,140 --> 00:32:49,510

flesh and blood and I I still I still do

759

00:32:53,640 --> 00:32:52,150

but when I was down in Washington

760

00:32:55,410 --> 00:32:53,650

recently I had some things happen to me

761

00:32:59,970 --> 00:32:55,420

there I was kind of made me question

762

00:33:03,150 --> 00:32:59,980

that and I I try to keep an open mind

763

00:33:06,060 --> 00:33:03,160

but right I'm I don't want to just

764

00:33:09,600 --> 00:33:06,070

completely just start you know you

765

00:33:11,010 --> 00:33:09,610

whether they say you can't answer you

766

00:33:14,640 --> 00:33:11,020

know a question with a question you know

767

00:33:15,960 --> 00:33:14,650

like what are they so I think that until

768

00:33:20,610 --> 00:33:15,970

I see one

769

00:33:22,050 --> 00:33:20,620

you know cloak or D materialize or pop

770

00:33:24,170 --> 00:33:22,060

out of a portal that I'm still going to

771

00:33:26,340 --> 00:33:24,180

be a pretty firm a flesh-and-blood guy

772

00:33:29,940 --> 00:33:26,350

well you know I've talked a lot of

773

00:33:32,280 --> 00:33:29,950

people indeed over the years and I know

774

00:33:33,870 --> 00:33:32,290

a lot of them that are much more of a

775

00:33:36,750 --> 00:33:33,880

money than they used to be

776

00:33:39,270 --> 00:33:36,760

frankly because they never find a body

777

00:33:40,920 --> 00:33:39,280

they're just so elusive and I've

778

00:33:42,690 --> 00:33:40,930

actually talked to people that had been

779

00:33:45,930 --> 00:33:42,700

tracking these things and it just

780

00:33:50,100 --> 00:33:45,940

suddenly disappear on I mean and there's

781

00:33:52,050 --> 00:33:50,110

no there's no rhyme or reason how they

782

00:33:54,960 --> 00:33:52,060

can just disappear in the train that

783

00:33:58,890 --> 00:33:54,970

they're actually in I mean that specific

784

00:34:01,080 --> 00:33:58,900

terrain so I don't know that there's I

785

00:34:03,270 --> 00:34:01,090

think there's a connection between a lot

786

00:34:06,240 --> 00:34:03,280

of different things when it comes to

787

00:34:08,910 --> 00:34:06,250

cryptids but you know I guess until we

788

00:34:13,220 --> 00:34:08,920

really prove it and you know we're left

789

00:34:15,840 --> 00:34:13,230

to to imagine what it very well may be

790

00:34:17,010 --> 00:34:15,850

yeah and you know I I didn't really

791

00:34:19,320 --> 00:34:17,020

mention with port

792

00:34:21,750 --> 00:34:19,330

there's other things going on there as

793

00:34:23,220 --> 00:34:21,760

well they had the dark lady did I tell

794

00:34:26,040 --> 00:34:23,230

you about that yeah go ahead and tell me

795

00:34:27,690 --> 00:34:26,050

about that so her didn't mention in the

796

00:34:30,750 --> 00:34:27,700

movie but I didn't really know what it

797

00:34:33,240 --> 00:34:30,760

was yeah so there is a legend that

798

00:34:36,210 --> 00:34:33,250

there's a lady that comes out of the

799

00:34:38,909 --> 00:34:36,220

cliffs and walks around on the beach and

800

00:34:41,490 --> 00:34:38,919

a dark or black dress and the the dress

801
00:34:43,800 --> 00:34:41,500
like flows behind her and drags on the

802
00:34:46,740 --> 00:34:43,810
beach and she kind of floats around and

803
00:34:50,580 --> 00:34:46,750
goes back into the cliffs and they call

804
00:34:52,740 --> 00:34:50,590
her the dark lady well there's also this

805
00:34:55,200 --> 00:34:52,750
is probably my favorite non Bigfoot

806
00:34:57,870 --> 00:34:55,210
story out of port Chatham there was a

807
00:34:59,760 --> 00:34:57,880
story of a gentleman who came in to the

808
00:35:01,980 --> 00:34:59,770
port south on one day and he was tying

809
00:35:03,810 --> 00:35:01,990
his boat up at the dock and he was

810
00:35:07,140 --> 00:35:03,820
walking down the dock to go to the town

811
00:35:09,450 --> 00:35:07,150
and he passed a group of Native children

812
00:35:10,620 --> 00:35:09,460
sitting on the on the edge of the dock

813
00:35:12,030 --> 00:35:10,630

and he walked past them and he thought

814

00:35:13,680 --> 00:35:12,040

man that was kind of what cuz this is

815

00:35:15,780 --> 00:35:13,690

back in the you know 30s and 40s when

816

00:35:17,970 --> 00:35:15,790

you know back when people said you know

817

00:35:21,720 --> 00:35:17,980

sir and ma'am and you know kids

818

00:35:23,070 --> 00:35:21,730

respected their elders and he walked

819

00:35:24,270 --> 00:35:23,080

past those kids I didn't say nothin to

820

00:35:25,740 --> 00:35:24,280

him he thought man that's kind of weird

821

00:35:27,440 --> 00:35:25,750

and he turned back around to look at him

822

00:35:29,640 --> 00:35:27,450

and they were gone Hey

823

00:35:33,000 --> 00:35:29,650

so there's a little bit more going on a

824

00:35:35,940 --> 00:35:33,010

porch hath on than just Bigfoot yeah you

825

00:35:40,200 --> 00:35:35,950

know I I imagine when you were there you

826

00:35:42,120 --> 00:35:40,210

probably got that instinct or that funny

827

00:35:43,920 --> 00:35:42,130

feeling that there's a lot more going on

828

00:35:46,380 --> 00:35:43,930

around here than just Bigfoot running

829

00:35:49,290 --> 00:35:46,390

around yeah you know I've thought about

830

00:35:50,750 --> 00:35:49,300

it quite a bit lon and I think you know

831

00:35:54,120 --> 00:35:50,760

if you're if you're familiar with

832

00:35:56,880 --> 00:35:54,130

skinwalker ranch right and that story

833

00:35:58,680 --> 00:35:56,890

you know remember when they moved into

834

00:36:00,420 --> 00:35:58,690

the ranch for the first time the the

835

00:36:04,770 --> 00:36:00,430

previous owners said well what did we do

836

00:36:06,990 --> 00:36:04,780

don't dig and remember when when I was

837

00:36:09,570 --> 00:36:07,000

talking about porch atham there was a

838

00:36:10,650 --> 00:36:09,580

Croma by mine and a coal mine right

839

00:36:12,720 --> 00:36:10,660

there mm-hmm

840

00:36:15,060 --> 00:36:12,730

so it almost makes me wonder if the if

841

00:36:16,170 --> 00:36:15,070

the mining and the in the taking of the

842

00:36:17,670 --> 00:36:16,180

you know resources out of the ground

843

00:36:20,070 --> 00:36:17,680

might have had something to do with it

844

00:36:22,530 --> 00:36:20,080

you know it's possible

845

00:36:26,430 --> 00:36:22,540

I mean chromite that's pretty dangerous

846

00:36:29,810 --> 00:36:26,440

stuff be and I had to be some problems

847

00:36:32,720 --> 00:36:29,820

with that you would think

848

00:36:38,030 --> 00:36:32,730

I don't know I mean maybe nature fights

849

00:36:40,400 --> 00:36:38,040

back or whatever yeah that's that's kind

850

00:36:42,500 --> 00:36:40,410

of what I was thinking is maybe these

851

00:36:46,580 --> 00:36:42,510

kind of events is kind of nature's

852

00:36:51,770 --> 00:36:46,590

immune system or Nature's Way of saying

853

00:36:54,590 --> 00:36:51,780

don't do that so what do you believe is

854

00:36:57,470 --> 00:36:54,600

the future Bigfoot in Alaska do you

855

00:36:59,030 --> 00:36:57,480

think it's gonna become something you

856

00:37:01,790 --> 00:36:59,040

know more people are going to get

857

00:37:05,870 --> 00:37:01,800

involved in investigating these vast

858

00:37:07,460 --> 00:37:05,880

areas I mean what comes to your head

859

00:37:10,700 --> 00:37:07,470

what makes you what what do you think

860

00:37:13,460 --> 00:37:10,710

about it you know I I think you know

861

00:37:15,530 --> 00:37:13,470

with a lot of things Alaska is the the

862

00:37:16,760 --> 00:37:15,540

final frontier or the last frontier and

863

00:37:19,940 --> 00:37:16,770

I think probably it's the same with

864

00:37:21,860 --> 00:37:19,950

bigfooting it's it's hard to get up here

865

00:37:24,650 --> 00:37:21,870

and it's hard you know it's expensive to

866

00:37:26,870 --> 00:37:24,660

live here so you know there's not going

867

00:37:27,950 --> 00:37:26,880

to be a lot of people coming up here to

868

00:37:29,420 --> 00:37:27,960

do just that

869

00:37:33,200 --> 00:37:29,430

there may be some people that already

870

00:37:35,180 --> 00:37:33,210

live here that get interested in it and

871

00:37:37,490 --> 00:37:35,190

get into it but I don't see a lot of

872

00:37:41,540 --> 00:37:37,500

people you know coming up here to do

873

00:37:42,440 --> 00:37:41,550

just that uh-huh you know and that's

874

00:37:44,480 --> 00:37:42,450

understandable

875

00:37:49,370 --> 00:37:44,490

I know it is expensive to live up it

876

00:37:53,360 --> 00:37:49,380

yeah people don't realize how massive it

877

00:37:54,800 --> 00:37:53,370

is either Alaska is huge and it always

878

00:37:57,020 --> 00:37:54,810

cracks me up something will happen

879

00:38:00,020 --> 00:37:57,030

there'll be a volcano eruption or a

880

00:38:01,970 --> 00:38:00,030

forest fire and I'll have family from

881

00:38:04,520 --> 00:38:01,980

Kentucky call me and ask me are you okay

882

00:38:06,380 --> 00:38:04,530

are you all right not like that that is

883

00:38:08,570 --> 00:38:06,390

so far away for me it doesn't even

884

00:38:11,210 --> 00:38:08,580

matter I said that would be like me call

885

00:38:12,470 --> 00:38:11,220

and you in Kentucky and asking you if

886

00:38:17,750 --> 00:38:12,480

you're safe from the hurricane in

887

00:38:24,500 --> 00:38:17,760

Florida it is like it is a huge state I

888

00:38:26,660 --> 00:38:24,510

mean so what what do you have planned in

889

00:38:29,390 --> 00:38:26,670

the future as far as I mean I think you

890

00:38:32,210 --> 00:38:29,400

did mention to me that you are involved

891

00:38:35,210 --> 00:38:32,220

in another production do you have any

892

00:38:38,870 --> 00:38:35,220

plans to write or do anything else as

893

00:38:41,510 --> 00:38:38,880

far as your research I am working on a

894

00:38:42,350 --> 00:38:41,520

book on port Chatham I don't have a

895

00:38:46,100 --> 00:38:42,360

timeline

896

00:38:47,810 --> 00:38:46,110

for its it started but it's pretty you

897

00:38:49,490 --> 00:38:47,820

know the research in that is pretty

898

00:38:51,290 --> 00:38:49,500

labor-intensive just because it's hard

899

00:38:54,860 --> 00:38:51,300

to find the records and they're so old

900

00:38:57,860 --> 00:38:54,870

and scattered so I do have a book on

901
00:39:00,950 --> 00:38:57,870
port Chatham coming eventually mm-hmm I

902
00:39:03,860 --> 00:39:00,960
do have a couple of productions coming

903
00:39:06,380 --> 00:39:03,870
up just recently I mentioned I was in

904
00:39:08,630 --> 00:39:06,390
Washington I was back down there with

905
00:39:10,370 --> 00:39:08,640
extreme expeditions we did some filming

906
00:39:13,430 --> 00:39:10,380
in a place called Stephens County down

907
00:39:15,440 --> 00:39:13,440
there with Bigfoot Stevens County and at

908
00:39:17,240 --> 00:39:15,450
some time I think I think it's coming

909
00:39:20,450 --> 00:39:17,250
out early next year or maybe spring a

910
00:39:21,980 --> 00:39:20,460
next year there's a documentary called

911
00:39:24,260 --> 00:39:21,990
Bigfoot encounters in the Pacific

912
00:39:25,640 --> 00:39:24,270
Northwest that's coming out we've

913
00:39:30,140 --> 00:39:25,650

already filmed that or at least the

914

00:39:32,330 --> 00:39:30,150

first part of that and then I believe on

915

00:39:33,890 --> 00:39:32,340

the 3rd of this month there's a show

916

00:39:37,190 --> 00:39:33,900

premiering on the Travel Channel called

917

00:39:41,540 --> 00:39:37,200

the Alaska triangle there's a episode of

918

00:39:43,520 --> 00:39:41,550

that were Adam Davies Stephen major

919

00:39:46,430 --> 00:39:43,530

myself actually you took a film crew

920

00:39:48,140 --> 00:39:46,440

over to port Chatham so there's going to

921

00:39:50,630 --> 00:39:48,150

be some more port Chatham action there

922

00:39:52,220 --> 00:39:50,640

I'm not sure what date that episode is

923

00:39:53,510 --> 00:39:52,230

going to air but I think it might

924

00:39:55,670 --> 00:39:53,520

actually be the last episode of the

925

00:39:58,780 --> 00:39:55,680

series it's like a 10 episode series so

926
00:40:01,520 --> 00:39:58,790
that's coming out sometime next month

927
00:40:06,740 --> 00:40:01,530
interesting well I'm never gonna watch

928
00:40:08,480 --> 00:40:06,750
it cuz I tell you idea the stories and

929
00:40:09,620 --> 00:40:08,490
phenomena that come out Alaska really

930
00:40:14,510 --> 00:40:09,630
fascinated me

931
00:40:18,190 --> 00:40:14,520
I know in ken gerhart and the other two

932
00:40:21,230 --> 00:40:18,200
gentlemen were involved with that show

933
00:40:23,120 --> 00:40:21,240
you know missing in Alaska I think the

934
00:40:26,120 --> 00:40:23,130
name of was that some pretty interesting

935
00:40:27,710 --> 00:40:26,130
things and I know he had some issues

936
00:40:31,330 --> 00:40:27,720
when he was up there

937
00:40:34,400 --> 00:40:31,340
I broke his ankle up in one episode and

938
00:40:35,510 --> 00:40:34,410

he told me that the other episode when

939

00:40:38,300 --> 00:40:35,520

they they thought they were actually

940

00:40:42,050 --> 00:40:38,310

being stalked by Bigfoot and I think

941

00:40:44,420 --> 00:40:42,060

that was on the Kenai Peninsula it look

942

00:40:46,160 --> 00:40:44,430

it seemed to me like yeah there's a lot

943

00:40:49,370 --> 00:40:46,170

going on up there you know it is very

944

00:40:52,100 --> 00:40:49,380

interesting to watch yeah Alaska is a

945

00:40:55,230 --> 00:40:52,110

dangerous place I there's a funny

946

00:40:57,120 --> 00:40:55,240

cartoon done by a guy that

947

00:40:59,359 --> 00:40:57,130

it's from Alaska it's called tundra and

948

00:41:01,589 --> 00:40:59,369

he has a little cartoon where these

949

00:41:02,700 --> 00:41:01,599

tourists are coming out of a bus and

950

00:41:04,680 --> 00:41:02,710

they're like we're running up to bears

951
00:41:07,320 --> 00:41:04,690
and and taking pictures of the Bears and

952
00:41:09,839 --> 00:41:07,330
it says it says Alaska step off the bus

953
00:41:11,329 --> 00:41:09,849
and into the food chain yeah yeah

954
00:41:18,900 --> 00:41:11,339
exactly

955
00:41:20,849 --> 00:41:18,910
when you do investigations do you do you

956
00:41:24,030 --> 00:41:20,859
ever forget the indigenous people

957
00:41:25,440 --> 00:41:24,040
involved with it I've you know I've

958
00:41:28,560 --> 00:41:25,450
reached out to a couple of the local

959
00:41:32,599 --> 00:41:28,570
tribes and asked them to share stories

960
00:41:35,010 --> 00:41:32,609
and I think both times that I've kind of

961
00:41:37,650 --> 00:41:35,020
prodded and asked you know I've been

962
00:41:40,589 --> 00:41:37,660
politely told no they they don't like to

963
00:41:43,500 --> 00:41:40,599

963 speak about it especially the nan Tanakh

964

00:41:45,570 --> 00:41:43,510

and a lot of the reason for that is they

965

00:41:47,250 --> 00:41:45,580

they think just just to speak the name

966

00:41:49,410 --> 00:41:47,260

just to say the word nan Tanaka is

967

00:41:50,940 --> 00:41:49,420

basically to invite it to you or to call

968

00:41:53,280 --> 00:41:50,950

it to you so they don't like to talk

969

00:41:55,410 --> 00:41:53,290

about it yeah I could understand that I

970

00:41:59,910 --> 00:41:55,420

have done investigations I've been part

971

00:42:04,950 --> 00:41:59,920

of investigations in some reservations

972

00:42:08,760 --> 00:42:04,960

some Native American reservations and it

973

00:42:10,770 --> 00:42:08,770

seems like the older generation it just

974

00:42:13,589 --> 00:42:10,780

feels like they're asking for trouble

975

00:42:17,000 --> 00:42:13,599

when they start telling stories it's

976
00:42:19,140 --> 00:42:17,010
kind of kept in but kept between them

977
00:42:21,960 --> 00:42:19,150
but it seems a lot of the younger get

978
00:42:24,150 --> 00:42:21,970
kids now they're kind of coming out and

979
00:42:27,170 --> 00:42:24,160
trying and telling people about this to

980
00:42:29,849 --> 00:42:27,180
the chagrin of their their forefathers

981
00:42:31,620 --> 00:42:29,859
yeah we had actually stopped at Port

982
00:42:34,560 --> 00:42:31,630
Graham on our way to port Chatham last

983
00:42:37,260 --> 00:42:34,570
time and with the film crew from the

984
00:42:38,990 --> 00:42:37,270
Travel Channel and we were hoping to

985
00:42:41,130 --> 00:42:39,000
speak with some of the residents there

986
00:42:43,349 --> 00:42:41,140
some of the people that fled port

987
00:42:46,500 --> 00:42:43,359
Chatham moved to Port Graham his actual

988
00:42:48,000 --> 00:42:46,510

real life far away and we got there you

989

00:42:50,790 --> 00:42:48,010

know we were kind of unannounced and we

990

00:42:52,470 --> 00:42:50,800

showed up in town and you know we asked

991

00:42:54,750 --> 00:42:52,480

a couple of people hey you know you know

992

00:42:56,099 --> 00:42:54,760

we want to talk about Bigfoot and

993

00:42:59,460 --> 00:42:56,109

Antonacci know can you tell us some

994

00:43:01,230 --> 00:42:59,470

stories and a gentleman finally showed

995

00:43:03,150 --> 00:43:01,240

up in a pickup truck said I'll go talk

996

00:43:04,380 --> 00:43:03,160

to the tribal chief you know and be back

997

00:43:07,680 --> 00:43:04,390

with and he showed up a few minutes

998

00:43:08,609 --> 00:43:07,690

later and I guess they'd had a village

999

00:43:11,400 --> 00:43:08,619

elder died

1000

00:43:13,739 --> 00:43:11,410

the night before or very recently anyway

1001
00:43:16,140 --> 00:43:13,749
and he said yeah the chief says no

1002
00:43:17,849 --> 00:43:16,150
stories today so we didn't get to talk

1003
00:43:21,390 --> 00:43:17,859
with anybody it was kind of

1004
00:43:25,739 --> 00:43:21,400
disappointing I was going to ask you if

1005
00:43:29,939 --> 00:43:25,749
any the the relatives of the people that

1006
00:43:33,269 --> 00:43:29,949
lived in port lock in Port Chad then

1007
00:43:36,479 --> 00:43:33,279
have ducked and kind of come forward

1008
00:43:40,799 --> 00:43:36,489
with any information there's a there's a

1009
00:43:43,829 --> 00:43:40,809
lady that lives in nan Wallach it's a

1010
00:43:47,130 --> 00:43:43,839
village across from Port Graham

1011
00:43:50,239 --> 00:43:47,140
basically and she was actually born in

1012
00:43:53,009 --> 00:43:50,249
Port Chatham and parities yeah and

1013
00:43:54,599 --> 00:43:53,019

there's a few interviews with her online

1014

00:43:56,459 --> 00:43:54,609

and I hope one of these days to be able

1015

00:43:58,289 --> 00:43:56,469

to interview her myself she's actually I

1016

00:44:01,439 --> 00:43:58,299

need to get on it because she's getting

1017

00:44:04,589 --> 00:44:01,449

hung up there in years but yeah there's

1018

00:44:06,269 --> 00:44:04,599

a few YouTube videos I can't I don't

1019

00:44:08,640 --> 00:44:06,279

have her name available right in front

1020

00:44:11,819 --> 00:44:08,650

of me but if you just you know search

1021

00:44:13,919 --> 00:44:11,829

for nan Wallach elder or nan Tanakh you

1022

00:44:15,089 --> 00:44:13,929

should be able to find it but yeah

1023

00:44:16,499 --> 00:44:15,099

there's a there's a few people that were

1024

00:44:19,739 --> 00:44:16,509

actually born in Port Chaplin that are

1025

00:44:22,849 --> 00:44:19,749

still kicking her own mm-hmm that would

1026

00:44:25,049 --> 00:44:22,859

be a pretty interesting resource

1027

00:44:27,630 --> 00:44:25,059

especially since a problem aunt told

1028

00:44:32,099 --> 00:44:27,640

stories why they were kids of some of

1029

00:44:33,439 --> 00:44:32,109

the activity it did get her there that's

1030

00:44:37,140 --> 00:44:33,449

that's interesting

1031

00:44:41,819 --> 00:44:37,150

so do you investigate any other

1032

00:44:43,829 --> 00:44:41,829

phenomena around can I not actively you

1033

00:44:45,989 --> 00:44:43,839

know I don't go out in search of it but

1034

00:44:47,189 --> 00:44:45,999

if I if something if I hear about

1035

00:44:50,609 --> 00:44:47,199

something or something pops up on my

1036

00:44:53,459 --> 00:44:50,619

radar I'll go check it out there's a

1037

00:44:55,650 --> 00:44:53,469

cemetery in the city of Kenai that's

1038

00:44:57,390 --> 00:44:55,660

said to be haunted and I went there a

1039

00:44:58,859 --> 00:44:57,400

couple of Halloween's to get well wasn't

1040

00:45:02,160 --> 00:44:58,869

on Halloween but it was near Halloween

1041

00:45:04,169 --> 00:45:02,170

just uh just to kick around and you know

1042

00:45:07,469 --> 00:45:04,179

took a audio recorder and tried to get

1043

00:45:09,179 --> 00:45:07,479

some EVPs and I didn't get any EVPs but

1044

00:45:12,289 --> 00:45:09,189

oddly enough right in the middle of my

1045

00:45:14,519 --> 00:45:12,299

my little exploration there my my

1046

00:45:16,169 --> 00:45:14,529

recorder just up and died on me with

1047

00:45:16,790 --> 00:45:16,179

fresh batteries so that was kind of

1048

00:45:21,330 --> 00:45:16,800

weird

1049

00:45:24,960 --> 00:45:21,340

mmm yeah I did an investigation several

1050

00:45:28,050 --> 00:45:24,970

years ago you know I wouldn't I wasn't

1051

00:45:30,710 --> 00:45:28,060

in Alaska but Ill do a series of

1052

00:45:34,290 --> 00:45:30,720

interviews with a couple people that

1053

00:45:38,970 --> 00:45:34,300

lived in it's it's it was north further

1054

00:45:40,830 --> 00:45:38,980

north up the coast from can I was and I

1055

00:45:42,540 --> 00:45:40,840

forget the name of the village but they

1056

00:45:46,380 --> 00:45:42,550

were right on the they're right on the

1057

00:45:50,220 --> 00:45:46,390

shoreline and some of the phenomena that

1058

00:45:53,220 --> 00:45:50,230

occurred there was just really weird I

1059

00:45:56,540 --> 00:45:53,230

mean it was to point that that they were

1060

00:46:00,540 --> 00:45:56,550

calling it a la la' five in the thigh

1061

00:46:03,660 --> 00:46:00,550

leviathan type creature that would come

1062

00:46:06,270 --> 00:46:03,670

out at night they were they were telling

1063

00:46:09,750 --> 00:46:06,280

me about them going out you know on the

1064

00:46:12,320 --> 00:46:09,760

snow in snowmobiles at night and this

1065

00:46:15,510 --> 00:46:12,330

thing be chasing them all over the place

1066

00:46:18,630 --> 00:46:15,520

now oh you know yeah have you heard

1067

00:46:21,570 --> 00:46:18,640

anything similar to that I've heard of

1068

00:46:26,900 --> 00:46:21,580

you know bigfoot-type creatures chasing

1069

00:46:31,590 --> 00:46:26,910

snow machines yeah yeah I've heard of

1070

00:46:33,960 --> 00:46:31,600

you know Bigfoot coming up to cabins and

1071

00:46:35,190 --> 00:46:33,970

and slapping the sides of cabins you

1072

00:46:36,510 --> 00:46:35,200

know pretty pretty typical Bigfoot

1073

00:46:37,320 --> 00:46:36,520

behavior that you hear of in the lower

1074

00:46:39,660 --> 00:46:37,330

48

1075

00:46:41,010 --> 00:46:39,670

right um the one thing that I kind of do

1076

00:46:43,820 --> 00:46:41,020

think is lacking up here is we don't

1077

00:46:46,320 --> 00:46:43,830

hear about a whole lot of tree knocks I

1078

00:46:48,390 --> 00:46:46,330

think there was one I thought I heard on

1079

00:46:49,740 --> 00:46:48,400

port Chatham but I wasn't sure but other

1080

00:46:51,080 --> 00:46:49,750

than that I've never heard of tree knock

1081

00:46:54,060 --> 00:46:51,090

up here I've heard him in Washington

1082

00:46:55,620 --> 00:46:54,070

right I ain't know that thought that was

1083

00:46:57,120 --> 00:46:55,630

something I was interesting to film it

1084

00:46:59,700 --> 00:46:57,130

swig because you guys did a lot of tree

1085

00:47:02,550 --> 00:46:59,710

knocking and it's just something you

1086

00:47:07,020 --> 00:47:02,560

don't hear about a lot of up in Alaska

1087

00:47:10,080 --> 00:47:07,030

as far as drawing Bigfoot yeah you know

1088

00:47:12,090 --> 00:47:10,090

and I don't think I've kind of stopped

1089

00:47:15,030 --> 00:47:12,100

doing it I've taken it out of my little

1090

00:47:16,980 --> 00:47:15,040

bag of tricks cuz yeah because I you

1091

00:47:19,040 --> 00:47:16,990

know if they don't do it then what what

1092

00:47:21,840 --> 00:47:19,050

goods are gonna do for me to do it yeah

1093

00:47:23,610 --> 00:47:21,850

yeah I mean I guess there's there's two

1094

00:47:27,170 --> 00:47:23,620

sides to that I mean I know there are

1095

00:47:29,970 --> 00:47:27,180

some researchers that swear by it but

1096

00:47:30,450 --> 00:47:29,980

I'll be honest with you I have never

1097

00:47:32,670 --> 00:47:30,460

heard

1098

00:47:34,880 --> 00:47:32,680

tree knocking out in the field I mean

1099

00:47:37,380 --> 00:47:34,890

the many years I've been out there

1100

00:47:39,750 --> 00:47:37,390

that's just something I never really

1101
00:47:41,700 --> 00:47:39,760
heard myself heard a lot of roaring a

1102
00:47:43,500 --> 00:47:41,710
lot of screaming a lot of other things

1103
00:47:46,680 --> 00:47:43,510
but I've never heard anything actually

1104
00:47:48,329 --> 00:47:46,690
banging on trees yeah I I heard some

1105
00:47:51,480 --> 00:47:48,339
really good tree knocks in Washington

1106
00:47:53,250 --> 00:47:51,490
but most of those were just you know it

1107
00:47:57,270 --> 00:47:53,260
wasn't in response to anything we did it

1108
00:47:59,339 --> 00:47:57,280
was just on on its own one one technique

1109
00:48:02,130 --> 00:47:59,349
that I want to employ up here that I

1110
00:48:03,930 --> 00:48:02,140
just haven't quite had the the the guts

1111
00:48:05,490 --> 00:48:03,940
to do yet I'll be honest and tell you I

1112
00:48:08,900 --> 00:48:05,500
haven't had the guts to do it is I want

1113
00:48:10,829 --> 00:48:08,910

to play a baby crying mmm yeah

1114

00:48:14,730 --> 00:48:10,839

are you think it would attract

1115

00:48:17,099 --> 00:48:14,740

impossibly yeah I think so I would hope

1116

00:48:19,560 --> 00:48:17,109

so but that's that's something I want to

1117

00:48:23,070 --> 00:48:19,570

do but I don't want to do it where I'm

1118

00:48:25,230 --> 00:48:23,080

in a position where I can't get away you

1119

00:48:27,060 --> 00:48:25,240

know if I that I can't take a retreat I

1120

00:48:29,130 --> 00:48:27,070

don't want to go set out in the middle

1121

00:48:31,650 --> 00:48:29,140

of the woods and do it you know with no

1122

00:48:34,589 --> 00:48:31,660

means of escape I agree with you I I

1123

00:48:36,870 --> 00:48:34,599

yeah I could agree with that have you

1124

00:48:38,490 --> 00:48:36,880

ever done any gifting or you know I I

1125

00:48:40,650 --> 00:48:38,500

heard a lot of stories about gifting and

1126

00:48:44,220 --> 00:48:40,660

such you you but have you ever done like

1127

00:48:45,810 --> 00:48:44,230

that laid something out and maybe notice

1128

00:48:47,579 --> 00:48:45,820

that it was taken or something was left

1129

00:48:51,030 --> 00:48:47,589

behind have you ever noticed any

1130

00:48:52,500 --> 00:48:51,040

activity like that no you know and of

1131

00:48:54,089 --> 00:48:52,510

course you know porch hath on my time

1132

00:48:55,290 --> 00:48:54,099

they're so limited I don't really you

1133

00:48:57,690 --> 00:48:55,300

know I haven't really had a chance to

1134

00:49:00,359 --> 00:48:57,700

try that there yet yeah but some of the

1135

00:49:02,540 --> 00:49:00,369

other areas I've tried or researched in

1136

00:49:04,589 --> 00:49:02,550

I haven't I haven't done that I haven't

1137

00:49:07,770 --> 00:49:04,599

gifted anything but of course you know

1138

00:49:11,040 --> 00:49:07,780

we have a lot of other animals here that

1139

00:49:13,829 --> 00:49:11,050

I think could be you know rodents and

1140

00:49:16,020 --> 00:49:13,839

squirrels and stuff so I have I have a

1141

00:49:17,070 --> 00:49:16,030

you know if something for gifting to

1142

00:49:21,030 --> 00:49:17,080

work for me I would have to get

1143

00:49:23,070 --> 00:49:21,040

something back so if I put something

1144

00:49:24,690 --> 00:49:23,080

down and it's gone and I'd have to have

1145

00:49:26,450 --> 00:49:24,700

video of the Bigfoot taking it before I

1146

00:49:29,400 --> 00:49:26,460

would think it was involved with Bigfoot

1147

00:49:33,210 --> 00:49:29,410

now you had matches something before the

1148

00:49:36,270 --> 00:49:33,220

show to me in reference to the film that

1149

00:49:39,630 --> 00:49:36,280

didn't make it on the film was that you

1150

00:49:42,560 --> 00:49:39,640

found like abandoned TVs and other

1151
00:49:44,580 --> 00:49:42,570
equipment and stuff at a certain area

1152
00:49:47,040 --> 00:49:44,590
yeah it was it wasn't

1153
00:49:49,890 --> 00:49:47,050
long after we first got ashore and we

1154
00:49:51,480 --> 00:49:49,900
were walking along the the ridgeline

1155
00:49:54,750 --> 00:49:51,490
there up above you know in the cliffs

1156
00:49:59,130 --> 00:49:54,760
headed towards the town site and we kind

1157
00:50:01,290 --> 00:49:59,140
of found this clearing with like I don't

1158
00:50:03,780 --> 00:50:01,300
recall there being any actual TVs but it

1159
00:50:06,210 --> 00:50:03,790
was like the backs of TVs and like you

1160
00:50:08,370 --> 00:50:06,220
know like just it was junk just just

1161
00:50:10,650 --> 00:50:08,380
jumped like the back of old TVs some old

1162
00:50:13,530 --> 00:50:10,660
stereo like pieces of stereo and stuff

1163
00:50:17,520 --> 00:50:13,540

and it was all just kind of just kind of

1164

00:50:18,690 --> 00:50:17,530

piled in this one little area and you

1165

00:50:21,450 --> 00:50:18,700

know we came up on it we thought it was

1166

00:50:22,920 --> 00:50:21,460

odd but we didn't really were just like

1167

00:50:25,020 --> 00:50:22,930

oh look at all this junk this is you

1168

00:50:27,600 --> 00:50:25,030

know this is weird and we took a picture

1169

00:50:30,000 --> 00:50:27,610

of it and we moved on well then you know

1170

00:50:31,560 --> 00:50:30,010

hindsight 20/20 I got to thinking about

1171

00:50:33,510 --> 00:50:31,570

it and I was like how did that crap get

1172

00:50:36,300 --> 00:50:33,520

there and why is it there because it

1173

00:50:38,370 --> 00:50:36,310

wasn't like it was on the shoreline

1174

00:50:41,070 --> 00:50:38,380

where it could get washed in by the tide

1175

00:50:44,340 --> 00:50:41,080

this was way up on a you know on a cliff

1176
00:50:47,540 --> 00:50:44,350
mm-hm and it was all bunched together

1177
00:50:49,830 --> 00:50:47,550
all taut you know like in one area and

1178
00:50:52,140 --> 00:50:49,840
the more I think about it the more I

1179
00:50:54,000 --> 00:50:52,150
think something put it there yeah it

1180
00:50:56,880 --> 00:50:54,010
does seem that way I I told you I've

1181
00:50:59,340 --> 00:50:56,890
heard so many stories of people finding

1182
00:51:01,770 --> 00:50:59,350
you know that would be in a camping spot

1183
00:51:04,290 --> 00:51:01,780
and stump something would be taken and

1184
00:51:06,210 --> 00:51:04,300
they go looking around and it find a

1185
00:51:09,390 --> 00:51:06,220
whole pile of all kinds of different

1186
00:51:12,200 --> 00:51:09,400
stuff that it seemed like it was

1187
00:51:15,030 --> 00:51:12,210
something other than a human doing it

1188
00:51:18,330 --> 00:51:15,040

you know and I have rank that maybe

1189

00:51:20,820 --> 00:51:18,340

maybe what's going on yeah I have heard

1190

00:51:22,680 --> 00:51:20,830

of that bears will you know they like

1191

00:51:26,060 --> 00:51:22,690

plastic or they'll chew on plastic and I

1192

00:51:29,250 --> 00:51:26,070

I want to throw in that I didn't see any

1193

00:51:31,880 --> 00:51:29,260

you know any any chewing or any marks on

1194

00:51:35,160 --> 00:51:31,890

any of the stuff that we found right Oh

1195

00:51:37,500 --> 00:51:35,170

bear can get into a house and just chew

1196

00:51:39,540 --> 00:51:37,510

it all to hell I mean it's it's pretty

1197

00:51:41,340 --> 00:51:39,550

amazing the damage they can do I've seen

1198

00:51:43,350 --> 00:51:41,350

him getting in the cars and just

1199

00:51:47,010 --> 00:51:43,360

literally destroy the whole car I mean

1200

00:51:49,620 --> 00:51:47,020

it's it's it's amazing yeah a few years

1201
00:51:54,690 --> 00:51:49,630
ago I had a co-worker who his son left

1202
00:51:58,170 --> 00:51:54,700
some discarded McDonald's bags in the in

1203
00:51:58,440 --> 00:51:58,180
his truck and a bear come into his yard

1204
00:52:00,359 --> 00:51:58,450
and

1205
00:52:03,900 --> 00:52:00,369
just scratched his new truck all to

1206
00:52:06,480 --> 00:52:03,910
pieces my you know it's pretty it's a

1207
00:52:07,920 --> 00:52:06,490
pretty funny story because he calls his

1208
00:52:10,560 --> 00:52:07,930
insurance company of course they're in

1209
00:52:12,750 --> 00:52:10,570
you know the lower 48 and he's telling

1210
00:52:14,670 --> 00:52:12,760
the lady you know this bear you know

1211
00:52:16,109 --> 00:52:14,680
scratch my truck up you know and in the

1212
00:52:21,180 --> 00:52:16,119
late he didn't believe him he had to

1213
00:52:25,319 --> 00:52:21,190

send them pictures what's in there

1214

00:52:27,300 --> 00:52:25,329

what's the nearest settlement what's the

1215

00:52:30,480 --> 00:52:27,310

nearest settlement to port Chatham are

1216

00:52:34,020 --> 00:52:30,490

to portal it port like it would be a

1217

00:52:36,210 --> 00:52:34,030

Port Graham okay and you know you got a

1218

00:52:38,760 --> 00:52:36,220

you got to get a boat take a boat to get

1219

00:52:40,520 --> 00:52:38,770

there there's there's no road that

1220

00:52:41,880 --> 00:52:40,530

connects porch a phone with any place

1221

00:52:45,780 --> 00:52:41,890

Wow

1222

00:52:47,670 --> 00:52:45,790

it must really be thick beyond yon port

1223

00:52:50,579 --> 00:52:47,680

Chatham I mean it must you I don't know

1224

00:52:53,930 --> 00:52:50,589

how far back you guys went into that

1225

00:52:56,250 --> 00:52:53,940

area but it must be unbelievably thick

1226

00:52:58,890 --> 00:52:56,260

yeah I've never seen anything like it

1227

00:53:02,220 --> 00:52:58,900

you know I grew up running around in the

1228

00:53:03,780 --> 00:53:02,230

woods in Kentucky and I I thought I knew

1229

00:53:05,490 --> 00:53:03,790

my way around woods so I got the porch

1230

00:53:08,579 --> 00:53:05,500

atham and I'd never seen anything like

1231

00:53:11,670 --> 00:53:08,589

it it is just it's it's just a workout

1232

00:53:15,000 --> 00:53:11,680

just you know go 15 20 feet usually so

1233

00:53:17,940 --> 00:53:15,010

Wow yeah I mean if you watch the film

1234

00:53:22,050 --> 00:53:17,950

and I I encourage everybody to get it

1235

00:53:24,109 --> 00:53:22,060

you can get it on Amazon Prime and just

1236

00:53:27,329 --> 00:53:24,119

rent it it's very interesting there's

1237

00:53:29,880 --> 00:53:27,339

but like you said the terrain itself is

1238

00:53:33,660 --> 00:53:29,890

what really impressed me I don't think

1239

00:53:38,790 --> 00:53:33,670

I've ever seen Moss that thick in one

1240

00:53:41,460 --> 00:53:38,800

area it's just it's just on Baloo yeah

1241

00:53:43,020 --> 00:53:41,470

and you know it's a it's a relatively

1242

00:53:46,890 --> 00:53:43,030

you know I think it's like four or five

1243

00:53:49,500 --> 00:53:46,900

bucks to rent a movie and it's a world's

1244

00:53:50,730 --> 00:53:49,510

cheaper than to rent it and and get a

1245

00:53:53,550 --> 00:53:50,740

good look at the place than it is to

1246

00:53:56,790 --> 00:53:53,560

actually get up here yeah it is it's

1247

00:54:00,359 --> 00:53:56,800

fascinating and and course it was

1248

00:54:03,690 --> 00:54:00,369

hands-on investigation as well it wasn't

1249

00:54:05,099 --> 00:54:03,700

like your typical documentary where you

1250

00:54:07,770 --> 00:54:05,109

get something flying over and just

1251
00:54:10,559 --> 00:54:07,780
taking pictures but you know I think you

1252
00:54:11,730 --> 00:54:10,569
know I for all any criticism on the side

1253
00:54:14,910 --> 00:54:11,740
I think it was very

1254
00:54:18,750 --> 00:54:14,920
interesting and I'd like for other

1255
00:54:20,730 --> 00:54:18,760
people to see the the FLIR and to see

1256
00:54:22,650 --> 00:54:20,740
that and get their own impression

1257
00:54:24,380 --> 00:54:22,660
because I tell you it's probably the

1258
00:54:27,120 --> 00:54:24,390
best one I've ever seen

1259
00:54:29,640 --> 00:54:27,130
yeah and you know one of the things that

1260
00:54:31,320 --> 00:54:29,650
I'm really proud of was with the

1261
00:54:34,260 --> 00:54:31,330
documentary with the porch awesome show

1262
00:54:36,630 --> 00:54:34,270
there is that you know there wasn't a

1263
00:54:38,160 --> 00:54:36,640

lot of that nothing's staged it if it's

1264

00:54:39,810 --> 00:54:38,170

on the screen it really happened there

1265

00:54:41,490 --> 00:54:39,820

were a couple of times were oh you know

1266

00:54:42,870 --> 00:54:41,500

maybe the cameraman didn't get this or

1267

00:54:45,480 --> 00:54:42,880

didn't get that so we'd have to repeat

1268

00:54:49,980 --> 00:54:45,490

some things but pretty much everything

1269

00:54:51,630 --> 00:54:49,990

that you see is 100% real it's not you

1270

00:54:54,330 --> 00:54:51,640

know there's no script it's not staged

1271

00:54:57,780 --> 00:54:54,340

you know we won it's a real documentary

1272

00:54:58,680 --> 00:54:57,790

it's a real you know it's being filmed

1273

00:55:02,010 --> 00:54:58,690

as it's happening

1274

00:55:02,460 --> 00:55:02,020

mmm-hmm yeah it's good for that really

1275

00:55:05,400 --> 00:55:02,470

yes

1276
00:55:08,600 --> 00:55:05,410
let me ask you one more thing what's the

1277
00:55:15,210 --> 00:55:08,610
biggest Hal but they caught off the boat

1278
00:55:16,650 --> 00:55:15,220
for the for the documentary there but it

1279
00:55:20,040 --> 00:55:16,660
was kind of interesting we're kind of

1280
00:55:22,770 --> 00:55:20,050
getting maybe one foot have a foot and a

1281
00:55:25,500 --> 00:55:22,780
half sized halibuts I wonder if they

1282
00:55:27,510 --> 00:55:25,510
were hooked in a decent-sized room no

1283
00:55:29,870 --> 00:55:27,520
because they were fishing in import

1284
00:55:32,359 --> 00:55:29,880
Chatham they're in the in the bay I

1285
00:55:34,710 --> 00:55:32,369
think they might have got one that was

1286
00:55:36,900 --> 00:55:34,720
eight or nine pounds I think they got

1287
00:55:39,240 --> 00:55:36,910
one that was it was big enough to eat

1288
00:55:40,920 --> 00:55:39,250

but if you want to catch the big ones

1289

00:55:44,370 --> 00:55:40,930

you got to go out into the end of the

1290

00:55:45,840 --> 00:55:44,380

deep water yeah that's been a dream of

1291

00:55:48,780 --> 00:55:45,850

mine to go up there and good fishing I

1292

00:55:52,550 --> 00:55:48,790

love fly fishing and that'd be great I

1293

00:55:54,810 --> 00:55:52,560

mean I just have a ball up there so

1294

00:55:58,830 --> 00:55:54,820
