Author, Artist,

Anomalies Investigator

BXP

1
00:00:11,930 --> 00:00:08,179
the oldest and strongest human emotion

2
00:00:16,460 --> 00:00:11,940
is fear the oldest and strongest type of

3
00:00:19,099 --> 00:00:16,470
fear is trepidation of young when we

4
00:00:21,810 --> 00:00:19,109
were children our parents told us that

5
00:00:24,599 --> 00:00:21,820
monsters didn't exist

6
00:00:27,420 --> 00:00:24,609
but we were sure that something is

7
00:00:31,790 --> 00:00:27,430
lurking under the bed or in the closet

8
00:00:35,520 --> 00:00:31,800
vier seeds even if our eyes are closed

9
00:00:38,520 --> 00:00:35,530
welcome to the realm of your cane my

10
00:00:41,520 --> 00:00:38,530
name is lawn stripper join me as I

11
00:00:45,710 --> 00:00:41,530
examine unexplained creatures strange

12
00:00:49,020 --> 00:00:45,720
manifestations and remarkable realities

13
00:00:52,320 --> 00:00:49,030

imagine this next hour as a voyage of

14

00:00:55,439 --> 00:00:52,330

discovered to strange lands seeking not

15

00:00:58,500 --> 00:00:55,449

for new territory but for new knowledge

16

00:01:01,410 --> 00:00:58,510

of the supernatural come on board as we

17

00:01:08,200 --> 00:01:01,420

begin this adventure together

18

00:01:12,770 --> 00:01:10,820

hey folks good evening and welcome to

19

00:01:15,170 --> 00:01:12,780

another episode of arcane radio

20

00:01:16,820 --> 00:01:15,180

I'm your host lawn Strickler and I thank

21

00:01:19,850 --> 00:01:16,830

you for joining me here and the

22

00:01:21,710 --> 00:01:19,860

paranormal King radio network listeners

23

00:01:22,880 --> 00:01:21,720

can share their support for arcane radio

24

00:01:26,210 --> 00:01:22,890

by becoming the patron

25

00:01:29,149 --> 00:01:26,220

simply go to fans of Montcalm and click

26
00:01:31,880 --> 00:01:29,159
the pod beam patron banner now before I

27
00:01:36,020 --> 00:01:31,890
introduce my guests I want to mention

28
00:01:39,310 --> 00:01:36,030
that count I recently received now this

29
00:01:42,050 --> 00:01:39,320
came from a gentleman in Laredo Texas

30
00:01:44,180 --> 00:01:42,060
who stayed he had a sighting that

31
00:01:48,139 --> 00:01:44,190
remained fresh in his mind for almost 20

32
00:01:51,260 --> 00:01:48,149
years he said when he was 17 he had just

33
00:01:54,650 --> 00:01:51,270
joined the band as a lead singer they

34
00:01:56,510 --> 00:01:54,660
were practicing outside when that all we

35
00:01:59,120 --> 00:01:56,520
all automatically stopped playing

36
00:02:02,480 --> 00:01:59,130
engaged in disbelief as a creature

37
00:02:04,910 --> 00:02:02,490
floated or slowly died and about 20 foot

38
00:02:08,389 --> 00:02:04,920

from the ground and about 20 foot away

39

00:02:12,110 --> 00:02:08,399

from us it can only be described as a

40

00:02:15,740 --> 00:02:12,120

baby with small head and red eyes

41

00:02:18,949 --> 00:02:15,750

it had no feathers just skinned under

42

00:02:23,509 --> 00:02:18,959

the wings it turned and looked at us as

43

00:02:27,440 --> 00:02:23,519

it was slowly gliding by aside for me

44

00:02:29,210 --> 00:02:27,450

there were three other witnesses and one

45

00:02:31,280 --> 00:02:29,220

of which passed away just a few years

46

00:02:34,610 --> 00:02:31,290

ago I have looked everywhere for years

47

00:02:36,110 --> 00:02:34,620

trying to identify this flying baby but

48

00:02:39,110 --> 00:02:36,120

I've never seen or heard of anything

49

00:02:41,449 --> 00:02:39,120

else reporting it now the closest I have

50

00:02:44,390 --> 00:02:41,459

found to the phenomena is the Mothman

51
00:02:48,710 --> 00:02:44,400
I think this creature may have been a

52
00:02:52,130 --> 00:02:48,720
young Mothman of sorts now the rate of

53
00:02:54,770 --> 00:02:52,140
Texas is an area that I have received a

54
00:02:58,160 --> 00:02:54,780
lot of reports over the years and in

55
00:03:01,160 --> 00:02:58,170
fact these reports include several UFO

56
00:03:05,690 --> 00:03:01,170
reports but I've also received a flying

57
00:03:08,569 --> 00:03:05,700
race shaped cryptid as well which I had

58
00:03:12,979 --> 00:03:08,579
to keeping track of nationwide for like

59
00:03:16,460 --> 00:03:12,989
the past 10 years also I had a very

60
00:03:18,470 --> 00:03:16,470
strange report from Lorado concerning

61
00:03:20,350 --> 00:03:18,480
would have been impossible possibly been

62
00:03:22,600 --> 00:03:20,360
erased

63
00:03:26,080 --> 00:03:22,610

the gentleman said he and his wife were

64

00:03:28,450 --> 00:03:26,090

returning from San Antonio on a Sunday

65

00:03:31,510 --> 00:03:28,460

night sometime around May or June

66

00:03:33,990 --> 00:03:31,520

he says wave had fallen asleep and so I

67

00:03:38,200 --> 00:03:34,000

turned up the radio and drove south

68

00:03:40,990 --> 00:03:38,210

taking one taking a 35 into Laredo

69

00:03:44,020 --> 00:03:41,000

as we approached the north side of town

70

00:03:47,680 --> 00:03:44,030

attend the cruise control off and drop

71

00:03:49,630 --> 00:03:47,690

down to 65 to 60 to negotiate a turn

72

00:03:52,600 --> 00:03:49,640

under the railroad bridge that crossed

73

00:03:54,520 --> 00:03:52,610

the interstate I was in the right-hand

74

00:03:56,620 --> 00:03:54,530

lane as I came close to the bridge

75

00:03:59,200 --> 00:03:56,630

that's when I spotted what it first

76

00:04:02,530 --> 00:03:59,210

looked like a homeless guy completely

77

00:04:06,010 --> 00:04:02,540

naked scuttling along the in bank of the

78

00:04:09,640 --> 00:04:06,020

road he was skinny pale skin and his

79

00:04:11,500 --> 00:04:09,650

arms look emaciated as I passed him I

80

00:04:15,010 --> 00:04:11,510

had a creepy feeling that something

81

00:04:17,020 --> 00:04:15,020

about this person was all wrong the way

82

00:04:22,210 --> 00:04:17,030

mood as well as the way his arms and

83

00:04:25,420 --> 00:04:22,220

legs or animalistic than human with 26

84

00:04:27,340 --> 00:04:25,430

years of law enforcement under my belt I

85

00:04:29,760 --> 00:04:27,350

thought about stopping and going back to

86

00:04:32,380 --> 00:04:29,770

see what this guy was doing but however

87

00:04:34,090 --> 00:04:32,390

with my wife along it was close to

88

00:04:37,570 --> 00:04:34,100

midnight so I kept going forgetting the

89

00:04:40,960 --> 00:04:37,580

guy was just drunk I told my wife about

90

00:04:42,760 --> 00:04:40,970

it when you know that what I had seen

91

00:04:44,950 --> 00:04:42,770

when we arrived home and she thought it

92

00:04:48,270 --> 00:04:44,960

sounded like a drunken guy living under

93

00:04:52,480 --> 00:04:48,280

a bridge but after meeting several folks

94

00:04:56,380 --> 00:04:52,490

hearing about similar type of encounters

95

00:04:59,950 --> 00:04:56,390

I began to listen and it sounded what

96

00:05:01,920 --> 00:04:59,960

people described as a rake

97

00:05:04,330 --> 00:05:01,930

the creature was peril lowing

98

00:05:06,850 --> 00:05:04,340

paralleling the road so I never saw its

99

00:05:10,050 --> 00:05:06,860

face or eyes but the body shape was as

100

00:05:12,220 --> 00:05:10,060

close to the drawings I had seen so

101
00:05:14,080 --> 00:05:12,230
every time I approached that River

102
00:05:17,290 --> 00:05:14,090
Bridge I slowed down and take a second

103
00:05:20,380 --> 00:05:17,300
look but so far I haven't seen it again

104
00:05:23,409 --> 00:05:20,390
now there's no doubt that the rate of

105
00:05:27,130 --> 00:05:23,419
Texas as well as most of South Texas is

106
00:05:30,010 --> 00:05:27,140
a hotbed of unexplained activity and I

107
00:05:33,110 --> 00:05:30,020
have received a lot of sightings in that

108
00:05:37,420 --> 00:05:33,120
part of the country so

109
00:05:41,540 --> 00:05:37,430
is definitely definitely a hotspot for

110
00:05:45,140 --> 00:05:41,550
strange things so let's get started

111
00:05:47,800 --> 00:05:45,150
tonight's guest Linda Godfrey is an

112
00:05:50,570 --> 00:05:47,810
anomalies investigator author and artist

113
00:05:53,330 --> 00:05:50,580

Linda's written 19 books on strange

114

00:05:55,250 --> 00:05:53,340

creatures phenomena and people as a

115

00:05:58,340 --> 00:05:55,260

journalist she was the first to break

116

00:06:01,820 --> 00:05:58,350

the story the terrifying wolf like wolf

117

00:06:03,920 --> 00:06:01,830

werewolf like monstrosity lurking in the

118

00:06:08,120 --> 00:06:03,930

shadows shrouded forests around the

119

00:06:10,040 --> 00:06:08,130

Elkhorn Wisconsin's Bray Road she's a

120

00:06:12,350 --> 00:06:10,050

frequent guest on national television

121

00:06:15,800 --> 00:06:12,360

and radio shows including Monster quest

122

00:06:19,310 --> 00:06:15,810

Lost Tapes monsters and mysteries coast

123

00:06:21,110 --> 00:06:19,320

to coast am and many many more Linda

124

00:06:24,650 --> 00:06:21,120

will appear in the upcoming film the

125

00:06:26,480 --> 00:06:24,660

brave Beast the Bray Road Beast which is

126

00:06:28,939 --> 00:06:26,490

due to be released in October

127

00:06:32,360 --> 00:06:28,949

her website can be found at Linda

128

00:06:32,629 --> 00:06:32,370

Godfrey dot-com Linda thanks for joining

129

00:06:36,339 --> 00:06:32,639

me

130

00:06:38,839 --> 00:06:36,349

I'm really glad to be here

131

00:06:41,120 --> 00:06:38,849

you know I recently had the opportunity

132

00:06:44,870 --> 00:06:41,130

to watch set reading those film the Bray

133

00:06:46,850 --> 00:06:44,880

Road Beast in I was somewhat surprised

134

00:06:50,089 --> 00:06:46,860

at the history and lore associated with

135

00:06:53,750 --> 00:06:50,099

the area now because the occult activity

136

00:06:56,240 --> 00:06:53,760

said to be prevalent in the January you

137

00:06:58,909 --> 00:06:56,250

think it's possible that the braver of

138

00:07:03,500 --> 00:06:58,919

beasts may be a summon being or possibly

139

00:07:07,370 --> 00:07:03,510

a skinwalker well I I think you can't

140

00:07:08,960 --> 00:07:07,380

throw that possibility out given the

141

00:07:10,730 --> 00:07:08,970

fact that there were some weird things

142

00:07:12,550 --> 00:07:10,740

going on you know I had always mentioned

143

00:07:16,730 --> 00:07:12,560

in my book that there there were some

144

00:07:18,950 --> 00:07:16,740

bags of mutilated dog remains found in a

145

00:07:21,290 --> 00:07:18,960

couple of places around the county some

146

00:07:23,270 --> 00:07:21,300

of the places where that occult activity

147

00:07:26,390 --> 00:07:23,280

was going on were really quite a

148

00:07:28,969 --> 00:07:26,400

distance from Bray Road there was said

149

00:07:31,219 --> 00:07:28,979

to be at one particular house over near

150

00:07:34,040 --> 00:07:31,229

whitewater lake which would be a good at

151
00:07:37,180 --> 00:07:34,050
least 20 minute drive so there weren't

152
00:07:40,129 --> 00:07:37,190
really a lot of things on Bray Road

153
00:07:43,310 --> 00:07:40,139
there was a woman's body found on Bray

154
00:07:45,500 --> 00:07:43,320
Road some years later after that but it

155
00:07:46,230 --> 00:07:45,510
wasn't considered to be a local thing it

156
00:07:47,700 --> 00:07:46,240
was she

157
00:07:51,150 --> 00:07:47,710
brought evidently from somewhere and

158
00:07:52,529 --> 00:07:51,160
being kind of a lonely road not super

159
00:07:54,839 --> 00:07:52,539
lonely lots of times it can be quite

160
00:07:56,969 --> 00:07:54,849
busy but but late at night it usually is

161
00:07:59,159 --> 00:07:56,979
it's an easy place to dump something you

162
00:08:01,140 --> 00:07:59,169
don't want people to find again you know

163
00:08:03,600 --> 00:08:01,150

and there was a story going around that

164

00:08:06,779 --> 00:08:03,610

somebody had seen a person all dressed

165

00:08:08,520 --> 00:08:06,789

in black riding on a black horse with

166

00:08:11,490 --> 00:08:08,530

black hounds you know coming away from

167

00:08:14,490 --> 00:08:11,500

the that road so there were a number of

168

00:08:16,680 --> 00:08:14,500

things one thing that has come to light

169

00:08:18,510 --> 00:08:16,690

just in the past few years I mentioned

170

00:08:22,260 --> 00:08:18,520

it in one of my books and it's in in

171

00:08:24,300 --> 00:08:22,270

that new film as well was the fact that

172

00:08:26,270 --> 00:08:24,310

when one of the key witnesses first went

173

00:08:30,059 --> 00:08:26,280

to visit with the animal control officer

174

00:08:31,800 --> 00:08:30,069

the one that gave me the werewolf fold

175

00:08:34,440 --> 00:08:31,810

the full it was a file folder marked

176

00:08:37,290 --> 00:08:34,450

werewolf that I was keeping all of the

177

00:08:39,959 --> 00:08:37,300

sightings in that book started flying

178

00:08:42,719 --> 00:08:39,969

off the bookshelf behind him you know

179

00:08:45,449 --> 00:08:42,729

and they both agreed to that and trust

180

00:08:48,960 --> 00:08:45,459

me that officer is not somebody who

181

00:08:53,550 --> 00:08:48,970

speaks hastily or lightly or false I

182

00:08:56,970 --> 00:08:53,560

mean he's he's a very very very nice

183

00:08:58,440 --> 00:08:56,980

very serious sort of person you know and

184

00:09:00,930 --> 00:08:58,450

if he says books are flying off the

185

00:09:03,930 --> 00:09:00,940

shelf I believe it and Laurie - the

186

00:09:07,079 --> 00:09:03,940

witness they were kind of flabbergasted

187

00:09:10,800 --> 00:09:07,089

at that so there there have been these

188

00:09:13,560 --> 00:09:10,810

incidents and I do I I did discover just

189

00:09:15,569 --> 00:09:13,570

in the last year or so that because I've

190

00:09:18,180 --> 00:09:15,579

been trying all these years long to

191

00:09:20,760 --> 00:09:18,190

figure out why Bray wrote why this

192

00:09:23,190 --> 00:09:20,770

little three to four mile long country

193

00:09:25,650 --> 00:09:23,200

road where there's really nothing

194

00:09:28,860 --> 00:09:25,660

obvious but I did discover that it was a

195

00:09:31,350 --> 00:09:28,870

well used Native American Trail yeah and

196

00:09:34,440 --> 00:09:31,360

that it was a source of maple trees

197

00:09:36,300 --> 00:09:34,450

there were big maple groves there where

198

00:09:38,880 --> 00:09:36,310

they would come and get maple sugar

199

00:09:42,720 --> 00:09:38,890

which was a sacred thing because maple

200

00:09:44,490 --> 00:09:42,730

sugar is not only edible in itself it

201
00:09:47,370 --> 00:09:44,500
preserves food it's something that

202
00:09:49,650 --> 00:09:47,380
maintains life so this whole girl would

203
00:09:52,829 --> 00:09:49,660
have been very sacred to them and then I

204
00:09:55,380 --> 00:09:52,839
also discovered that the ending point of

205
00:09:58,920 --> 00:09:55,390
Bray Road where it runs into highway 11

206
00:10:00,900 --> 00:09:58,930
and also Bowers Road crosses there and

207
00:10:03,290 --> 00:10:00,910
when I looked in the old history books I

208
00:10:07,760 --> 00:10:03,300
discovered that they were all pathways

209
00:10:10,430 --> 00:10:07,770
to other lake systems and they actually

210
00:10:12,720 --> 00:10:10,440
constituted a natural Geographic

211
00:10:14,700 --> 00:10:12,730
medicine wheel a medicine wheel is

212
00:10:17,130 --> 00:10:14,710
something it looks like a wheel from a

213
00:10:20,420 --> 00:10:17,140

wagon with all this folks and they can

214

00:10:23,700 --> 00:10:20,430

be handmade they're very widely used in

215

00:10:26,010 --> 00:10:23,710

ceremonies for many tribes and as I

216

00:10:28,920 --> 00:10:26,020

researched the medicine wheels more and

217

00:10:31,740 --> 00:10:28,930

more I found several sources that said

218

00:10:34,140 --> 00:10:31,750

the center of a natural medicine wheel

219

00:10:36,150 --> 00:10:34,150

not one built with rocks by people but

220

00:10:38,760 --> 00:10:36,160

that is farmed on to the landscape like

221

00:10:43,380 --> 00:10:38,770

this one is thought of as a portal or a

222

00:10:46,950 --> 00:10:43,390

vortex in for another place and so this

223

00:10:49,200 --> 00:10:46,960

is the closest I've come to to finding

224

00:10:53,490 --> 00:10:49,210

any kind of a background or history for

225

00:10:56,820 --> 00:10:53,500

the possible occult backgrounds and also

226

00:11:00,450 --> 00:10:56,830

you mentioned from that movie of you

227

00:11:02,640 --> 00:11:00,460

heard the testimony of Lee hampel is the

228

00:11:07,170 --> 00:11:02,650

farm owner that I've been assisting him

229

00:11:09,120 --> 00:11:07,180

in his field putting out dead deer

230

00:11:11,160 --> 00:11:09,130

roadkill deer from Illinois that he

231

00:11:12,750 --> 00:11:11,170

would bring down in his truck and we put

232

00:11:13,320 --> 00:11:12,760

them out and kind of observe what

233

00:11:15,840 --> 00:11:13,330

happened

234

00:11:18,660 --> 00:11:15,850

he had trail cameras we go and take

235

00:11:21,000 --> 00:11:18,670

notes and one of the things that

236

00:11:22,800 --> 00:11:21,010

occurred was that and I have this

237

00:11:27,960 --> 00:11:22,810

documented in my book monsters in my

238

00:11:30,510 --> 00:11:27,970

house we saw orange shaped forms in the

239

00:11:33,960 --> 00:11:30,520

tree lines in the daytime not not at

240

00:11:36,120 --> 00:11:33,970

night in the daytime that showed up on

241

00:11:38,220 --> 00:11:36,130

the trail cams and they would be there

242

00:11:40,320 --> 00:11:38,230

for a certain amount of time and then

243

00:11:42,750 --> 00:11:40,330

they would just be gone you know we

244

00:11:45,870 --> 00:11:42,760

would rule out a Sun sunshine flashing

245

00:11:47,610 --> 00:11:45,880

on it or you know sunset colors or

246

00:11:49,949 --> 00:11:47,620

anything this these were in in morning

247

00:11:51,870 --> 00:11:49,959

in daylight and then at the end there'd

248

00:11:54,420 --> 00:11:51,880

be something kind of furry and black

249

00:11:56,579 --> 00:11:54,430

against the camera lens or way way out

250

00:11:57,180 --> 00:11:56,589

in the field as if it had come out of

251
00:11:59,640 --> 00:11:57,190
these things

252
00:12:03,000 --> 00:11:59,650
and they look somewhat big shaped

253
00:12:04,710 --> 00:12:03,010
Bigfoot shaped to me he also had lots of

254
00:12:06,300 --> 00:12:04,720
different footprints too he had some

255
00:12:07,829 --> 00:12:06,310
that he calls fist prints which looked

256
00:12:09,630 --> 00:12:07,839
kind of like if you took a giant

257
00:12:12,590 --> 00:12:09,640
horseshoe and stomped it way down into

258
00:12:15,050 --> 00:12:12,600
the ground and then he had five

259
00:12:18,050 --> 00:12:15,060
canine prints that were very deep also

260
00:12:20,449 --> 00:12:18,060
and we're just talking about the the

261
00:12:23,120 --> 00:12:20,459
hind feet making you so what they were

262
00:12:25,160 --> 00:12:23,130
bipedal so tons of mysteries and that

263
00:12:27,410 --> 00:12:25,170

farm is located right near that same

264

00:12:31,699 --> 00:12:27,420

point where it would be in the center of

265

00:12:35,210 --> 00:12:31,709

the geological wagon wheel or prayer

266

00:12:38,030 --> 00:12:35,220

wheel all right yeah I'm familiar

267

00:12:41,449 --> 00:12:38,040

medicine wheels I mean we use medicine

268

00:12:43,820 --> 00:12:41,459

wheels and crystals and you know in

269

00:12:46,220 --> 00:12:43,830

certain type of central walls and such

270

00:12:51,829 --> 00:12:46,230

so I know the lore I know that the

271

00:12:54,230 --> 00:12:51,839

native Native people use those now the

272

00:12:56,690 --> 00:12:54,240

area we're talking about is that's

273

00:12:59,150 --> 00:12:56,700

Lafayette Township and whoa Walworth

274

00:13:04,790 --> 00:12:59,160

County Wisconsin which is near I guess

275

00:13:07,070 --> 00:13:04,800

is just east of Elkhorn right have the

276

00:13:11,990 --> 00:13:07,080

local authorities ever said much about

277

00:13:14,480 --> 00:13:12,000

the phenomena not really you know and

278

00:13:16,610 --> 00:13:14,490

when they have it's usually it's either

279

00:13:18,319 --> 00:13:16,620

jokey you know they were giving out

280

00:13:21,410 --> 00:13:18,329

silver bullets for a while they gave one

281

00:13:24,650 --> 00:13:21,420

to me I'm not sure not sure it went and

282

00:13:27,560 --> 00:13:24,660

and in one of the TV shows our County

283

00:13:30,500 --> 00:13:27,570

Sheriff put on a big white Boss Hogg

284

00:13:32,300 --> 00:13:30,510

style hat you know and and dressed up in

285

00:13:35,240 --> 00:13:32,310

a way that I've never seen him dressed

286

00:13:38,240 --> 00:13:35,250

before you know that was kind of odd but

287

00:13:39,920 --> 00:13:38,250

way back when you know the the local

288

00:13:42,380 --> 00:13:39,930

wildlife officials were saying things

289

00:13:44,930 --> 00:13:42,390

like well you know they didn't really

290

00:13:46,790 --> 00:13:44,940

see a 5 to 7 foot tall wolf-like

291

00:13:51,560 --> 00:13:46,800

creature walking on its hind legs what

292

00:13:54,110 --> 00:13:51,570

they saw was a 36 pound coyote um

293

00:13:57,319 --> 00:13:54,120

weirdly or we're very weirdly making a

294

00:13:59,300 --> 00:13:57,329

jump like 5 to 6 feet in the air and

295

00:14:01,579 --> 00:13:59,310

then suddenly it appeared in the

296

00:14:03,889 --> 00:14:01,589

headlights and they thought that just

297

00:14:05,900 --> 00:14:03,899

for this the the microsecond then it was

298

00:14:07,790 --> 00:14:05,910

up at the top of that leap and then they

299

00:14:09,170 --> 00:14:07,800

thought that they were seeing and that's

300

00:14:11,510 --> 00:14:09,180

such a stretch to me you know it just

301

00:14:12,860 --> 00:14:11,520

falls into it you can't even discuss it

302

00:14:16,449 --> 00:14:12,870

because it falls apart while you're

303

00:14:20,000 --> 00:14:16,459

trying to explain their view and

304

00:14:21,680 --> 00:14:20,010

anything to keep people away from you

305

00:14:23,420 --> 00:14:21,690

know clogging up Bray Road which in a

306

00:14:25,470 --> 00:14:23,430

way you can't book you can't blame them

307

00:14:28,650 --> 00:14:25,480

for not wanting they have to send out

308

00:14:32,100 --> 00:14:28,660

deputies use up their force take extra

309

00:14:35,550 --> 00:14:32,110

money from that sort of time spent

310

00:14:39,269 --> 00:14:35,560

patrolling crowds I think that there was

311

00:14:42,240 --> 00:14:39,279

a lot going on in that date in that the

312

00:14:45,300 --> 00:14:42,250

officials were trying to sort of poopoo

313

00:14:49,470 --> 00:14:45,310

it but generally cuckooing is about the

314

00:14:51,660 --> 00:14:49,480

way that it seemed in most cases what

315

00:14:55,139 --> 00:14:51,670

did it was consummated people believe

316

00:14:58,230 --> 00:14:55,149

that he's upright canines are well I've

317

00:15:00,660 --> 00:14:58,240

actually oh I started asking people when

318

00:15:03,389 --> 00:15:00,670

I had the chance I have a number of

319

00:15:06,750 --> 00:15:03,399

First Nation friends and met others

320

00:15:09,180 --> 00:15:06,760

along the way and asked for particular

321

00:15:11,490 --> 00:15:09,190

interviews with what one of the elders

322

00:15:15,210 --> 00:15:11,500

at the Ho Chunk nation who was also an

323

00:15:17,790 --> 00:15:15,220

anthropologist and what she said and

324

00:15:20,129 --> 00:15:17,800

what most of the ones I have interviewed

325

00:15:22,850 --> 00:15:20,139

have said is that they believe that the

326

00:15:26,310 --> 00:15:22,860

upright canines and Bigfoot are both

327

00:15:28,079 --> 00:15:26,320

originally spirit animals or spirit

328

00:15:29,759 --> 00:15:28,089

creatures they're not just animals

329

00:15:32,189 --> 00:15:29,769

they're spirit creatures with

330

00:15:34,620 --> 00:15:32,199

intelligence that come from another

331

00:15:37,110 --> 00:15:34,630

realm or the spirit world as they would

332

00:15:40,800 --> 00:15:37,120

call it and most often they believe that

333

00:15:42,420 --> 00:15:40,810

the entrance to and and exits to and

334

00:15:45,000 --> 00:15:42,430

from this world are located in

335

00:15:47,670 --> 00:15:45,010

freshwater Springs and that's why you'll

336

00:15:51,660 --> 00:15:47,680

so often find sacred burial mounds and

337

00:15:57,990 --> 00:15:51,670

the animal effigy mounds located very

338

00:16:01,400 --> 00:15:58,000

close to fresh water sources there was

339

00:16:04,559 --> 00:16:01,410

back in the 30s there was a actual

340

00:16:07,230 --> 00:16:04,569

report of one of these upright canines

341

00:16:10,530 --> 00:16:07,240

on top of a burial mound can you count

342

00:16:13,889 --> 00:16:10,540

of going to get a bit yeah yeah that was

343

00:16:15,660 --> 00:16:13,899

a really interesting incident it was not

344

00:16:19,110 --> 00:16:15,670

on Bray Road it was in Jefferson County

345

00:16:22,710 --> 00:16:19,120

the next County about the middle of the

346

00:16:26,910 --> 00:16:22,720

county near its its main time which is

347

00:16:30,509 --> 00:16:26,920

Jefferson and this was st. Coletta's and

348

00:16:34,410 --> 00:16:30,519

it was an Institute for the care of the

349

00:16:39,150 --> 00:16:34,420

developmentally disabled and back in it

350

00:16:41,610 --> 00:16:39,160

was 1936 and there was a night watchman

351
00:16:44,129 --> 00:16:41,620
was a former champion boxer so he's kind

352
00:16:46,110 --> 00:16:44,139
of a big guy who was supposed to make

353
00:16:47,730 --> 00:16:46,120
the rounds on foot I've seen on the

354
00:16:50,430 --> 00:16:47,740
internet some places people say he was

355
00:16:53,059 --> 00:16:50,440
driving by and that's not true at all he

356
00:16:56,429 --> 00:16:53,069
was making his usual rounds on foot and

357
00:16:58,259 --> 00:16:56,439
there was an Indian Mound close to what

358
00:17:00,119 --> 00:16:58,269
is now the highway in front of the

359
00:17:03,660 --> 00:17:00,129
building at that time it was sort of in

360
00:17:05,130 --> 00:17:03,670
the background of the buildings but he

361
00:17:06,809 --> 00:17:05,140
looked at it it seemed that there was

362
00:17:08,490 --> 00:17:06,819
somebody out standing on top of that

363
00:17:11,760 --> 00:17:08,500

burial mound so he went and looked

364

00:17:14,789 --> 00:17:11,770

closer and to a surprise it wasn't a

365

00:17:19,949 --> 00:17:14,799

person at all it was six to seven foot

366

00:17:22,439 --> 00:17:19,959

tall human humanoid and that's probably

367

00:17:26,730 --> 00:17:22,449

closer way to say it the way he

368

00:17:28,860 --> 00:17:26,740

described it it was almost like half dog

369

00:17:31,440 --> 00:17:28,870

man half Bigfoot it had some attributes

370

00:17:34,440 --> 00:17:31,450

in both and you can see in my book I was

371

00:17:36,180 --> 00:17:34,450

loaned a copy of the sketch made by his

372

00:17:41,730 --> 00:17:36,190

son Joseph sheckelman

373

00:17:45,360 --> 00:17:41,740

who was a Racine County newspaper editor

374

00:17:47,610 --> 00:17:45,370

at the time and when his father was he

375

00:17:49,320 --> 00:17:47,620

his father never told anyone about it

376

00:17:51,060 --> 00:17:49,330

except his wife who told him never to

377

00:17:52,830 --> 00:17:51,070

tell him anyone else but he confessed it

378

00:17:54,720 --> 00:17:52,840

to his son when he thought he was on his

379

00:17:57,110 --> 00:17:54,730

deathbed and had Joe draw this sketch

380

00:18:00,090 --> 00:17:57,120

for him you know at his direction and

381

00:18:01,890 --> 00:18:00,100

the interesting thing is that when the

382

00:18:04,140 --> 00:18:01,900

thing saw him the first night it ran

383

00:18:06,060 --> 00:18:04,150

away but he went back again the next

384

00:18:09,990 --> 00:18:06,070

night armed with a really large

385

00:18:12,690 --> 00:18:10,000

flashlight and kind of a billy club sort

386

00:18:15,630 --> 00:18:12,700

of light and the creature was there

387

00:18:17,789 --> 00:18:15,640

again this time it stood up and faced

388

00:18:21,060 --> 00:18:17,799

him and looked at him and it made sort

389

00:18:24,029 --> 00:18:21,070

of a it made a noise that he interpreted

390

00:18:27,060 --> 00:18:24,039

as sounding like the word Ghidorah which

391

00:18:32,460 --> 00:18:27,070

is the region in the Bible where Jesus

392

00:18:34,440 --> 00:18:32,470

was casting out spirits and you could I

393

00:18:36,870 --> 00:18:34,450

always have to play devil's advocate you

394

00:18:39,659 --> 00:18:36,880

know having ten years as a reporter it's

395

00:18:42,390 --> 00:18:39,669

sort of drilled into me it does occur to

396

00:18:44,159 --> 00:18:42,400

me that the girl and the duh you know

397

00:18:46,830 --> 00:18:44,169

those those sounds are part of the growl

398

00:18:48,750 --> 00:18:46,840

it may have growling in an unusual way

399

00:18:51,299 --> 00:18:48,760

but I thought it was interesting that he

400

00:18:54,659 --> 00:18:51,309

also thought that it sounded like

401
00:18:57,659 --> 00:18:54,669
that Ghidorah sir and he called it like

402
00:19:01,619 --> 00:18:57,669
a proto-human language was what he he

403
00:19:03,659 --> 00:19:01,629
addressed that as and he did seem to

404
00:19:06,210 --> 00:19:03,669
scare it away and as far as I know there

405
00:19:08,940 --> 00:19:06,220
were not any more incidents with that

406
00:19:11,580 --> 00:19:08,950
creature there but Jo Chaplin's father

407
00:19:14,310 --> 00:19:11,590
Mark who was the one that saw it said he

408
00:19:16,440 --> 00:19:14,320
looked into its eyes and he felt that it

409
00:19:22,440 --> 00:19:16,450
was quote-unquote a demon straight from

410
00:19:24,299 --> 00:19:22,450
Hell well you know with all the

411
00:19:27,359 --> 00:19:24,309
information that you've had over the

412
00:19:31,619 --> 00:19:27,369
years do you arm could just simply be a

413
00:19:33,690 --> 00:19:31,629

case of a canapé well if it is it's

414

00:19:35,850 --> 00:19:33,700

somebody who's been having the

415

00:19:38,759 --> 00:19:35,860

experience for a long time because the

416

00:19:40,529 --> 00:19:38,769

sightings are still happening and the

417

00:19:42,779 --> 00:19:40,539

sightings that were first reported you

418

00:19:44,100 --> 00:19:42,789

know like this one went back to 1936 I

419

00:19:47,909 --> 00:19:44,110

had a number of them that were in the

420

00:19:53,519 --> 00:19:47,919

early to mid 80s so we're talking about

421

00:19:56,519 --> 00:19:53,529

you know 30 40 years now I don't know

422

00:19:59,100 --> 00:19:56,529

really much about the practice of

423

00:20:00,629 --> 00:19:59,110

lycanthropy I don't know if people who

424

00:20:02,220 --> 00:20:00,639

claim to do that are supposed to have

425

00:20:07,169 --> 00:20:02,230

long lives or if they do it for many

426

00:20:08,789 --> 00:20:07,179

decades but I think that the length of

427

00:20:12,090 --> 00:20:08,799

time that it's been going on sort of

428

00:20:14,909 --> 00:20:12,100

argues against that and it also argues

429

00:20:17,340 --> 00:20:14,919

against it being say one natural animal

430

00:20:21,060 --> 00:20:17,350

I mean the lifespan average lifespan for

431

00:20:26,129 --> 00:20:21,070

a wild wolf is something like nine years

432

00:20:28,619 --> 00:20:26,139

at most and often it ends much quicker

433

00:20:31,879 --> 00:20:28,629

so you have to there that leaves us with

434

00:20:34,919 --> 00:20:31,889

two alternatives either there is a

435

00:20:37,109 --> 00:20:34,929

largely unknown unseen breeding

436

00:20:38,970 --> 00:20:37,119

population although we do have reports

437

00:20:44,609 --> 00:20:38,980

of pups now in that seeing them with

438

00:20:47,369 --> 00:20:44,619

pups population or they are replenishing

439

00:20:49,830 --> 00:20:47,379

their community with individuals from

440

00:20:52,680 --> 00:20:49,840

elsewhere whether they're elsewhere on

441

00:20:55,529 --> 00:20:52,690

this planet or out west and they take

442

00:20:57,359 --> 00:20:55,539

that normal natural wildlife corridor

443

00:21:00,119 --> 00:20:57,369

down from the Black Hills through

444

00:21:01,799 --> 00:21:00,129

Minnesota through southern Wisconsin and

445

00:21:03,549 --> 00:21:01,809

down around the Great Lakes

446

00:21:06,399 --> 00:21:03,559

and just happen to end up and

447

00:21:08,860 --> 00:21:06,409

stay there is another thing or are they

448

00:21:13,060 --> 00:21:08,870

coming from a realm where they cannot

449

00:21:14,769 --> 00:21:13,070

reproduce naturally in their own world

450

00:21:17,409 --> 00:21:14,779

or whatever this is what some people

451
00:21:20,139 --> 00:21:17,419
have suggested me and so they use

452
00:21:22,299 --> 00:21:20,149
portals that they know of to come here

453
00:21:23,889 --> 00:21:22,309
and while they are here and this is

454
00:21:25,960 --> 00:21:23,899
something else that my native friends of

455
00:21:27,999 --> 00:21:25,970
all said while they're here they're not

456
00:21:30,610 --> 00:21:28,009
some kind of kooky spooky

457
00:21:33,249 --> 00:21:30,620
you know spirits there they have to be

458
00:21:36,669 --> 00:21:33,259
fully corporeal so they can eat produce

459
00:21:38,830 --> 00:21:36,679
energy you know do all the things that a

460
00:21:41,169 --> 00:21:38,840
normal animal would do but there are

461
00:21:43,930 --> 00:21:41,179
times when their ties to the earth are

462
00:21:46,450 --> 00:21:43,940
lighter and they start going back into

463
00:21:49,749 --> 00:21:46,460

their other vibrations or other world

464

00:21:51,820 --> 00:21:49,759

yeah and maybe they come back maybe they

465

00:21:54,039 --> 00:21:51,830

don't it's something you know and all

466

00:21:56,499 --> 00:21:54,049

this is of course speculative I'm not

467

00:21:58,570 --> 00:21:56,509

saying what it is gospel stuff it's

468

00:22:00,100 --> 00:21:58,580

these are just different theories but it

469

00:22:02,100 --> 00:22:00,110

does come down to there they're either

470

00:22:05,529 --> 00:22:02,110

having a breeding population here or

471

00:22:07,210 --> 00:22:05,539

coming in here from somewhere else now

472

00:22:09,070 --> 00:22:07,220

you and I have talked about this for

473

00:22:11,859 --> 00:22:09,080

years now and you know when I first

474

00:22:13,600 --> 00:22:11,869

started discussing this with you and I

475

00:22:15,940 --> 00:22:13,610

don't know when that was but it was a

476

00:22:18,489 --> 00:22:15,950

while ago yeah you were more on the

477

00:22:21,850 --> 00:22:18,499

natural side but you've kind of changed

478

00:22:23,889 --> 00:22:21,860

a bit over the years well you know as it

479

00:22:26,799 --> 00:22:23,899

goes and the longer you're in this and

480

00:22:28,659 --> 00:22:26,809

the more things happen to you um you

481

00:22:32,289 --> 00:22:28,669

know you just kind of can't help it and

482

00:22:34,539 --> 00:22:32,299

I've had right out on that farm you know

483

00:22:37,570 --> 00:22:34,549

this wasn't talked about in the film but

484

00:22:40,450 --> 00:22:37,580

I've had an experience where we had both

485

00:22:42,940 --> 00:22:40,460

the owner and Sanjay single a colleague

486

00:22:49,509 --> 00:22:42,950

of mine who you know often goes out of

487

00:22:51,310 --> 00:22:49,519

hiking and and and researching we saw

488

00:22:54,759 --> 00:22:51,320

something we will never be able to

489

00:22:56,739 --> 00:22:54,769

explain we were watching one I we had a

490

00:22:58,600 --> 00:22:56,749

hundred eighty pound deer out there that

491

00:23:01,899 --> 00:22:58,610

nothing was touching which was weird it

492

00:23:05,350 --> 00:23:01,909

was about the same time of year about

493

00:23:06,789 --> 00:23:05,360

the same kind of weather and nothing was

494

00:23:08,710 --> 00:23:06,799

going near there should have at least

495

00:23:11,049 --> 00:23:08,720

have been Turkey buzzards you know

496

00:23:12,609 --> 00:23:11,059

taking things off of it or coyotes

497

00:23:13,810 --> 00:23:12,619

taking it I mean kayo its elite almost

498

00:23:16,020 --> 00:23:13,820

anything you know they should have been

499

00:23:17,280 --> 00:23:16,030

in taking about

500

00:23:19,320 --> 00:23:17,290

right here and there and nothing was

501
00:23:22,230 --> 00:23:19,330
touching it and I said well maybe

502
00:23:24,210 --> 00:23:22,240
there's something bigger that's scaring

503
00:23:26,580 --> 00:23:24,220
away all these little guys really bigger

504
00:23:30,560 --> 00:23:26,590
and we should try and just do a stakeout

505
00:23:33,360 --> 00:23:30,570
and they agreed so we were sitting in

506
00:23:35,490 --> 00:23:33,370
Sanjay's car near some shrubs all the

507
00:23:38,130 --> 00:23:35,500
way across the field which is like a

508
00:23:40,650 --> 00:23:38,140
forty acre field so it was quite quite a

509
00:23:43,650 --> 00:23:40,660
large expanse and there was a tree line

510
00:23:46,080 --> 00:23:43,660
where the deer bait was always put and

511
00:23:48,390 --> 00:23:46,090
we kind of aim in the car at that spot

512
00:23:50,880 --> 00:23:48,400
and then we sat there waiting and we

513
00:23:53,160 --> 00:23:50,890

were watching natural air airport

514

00:23:55,500 --> 00:23:53,170

traffic that was going over one part of

515

00:23:57,060 --> 00:23:55,510

the tree line I was anyway and I happen

516

00:23:59,430 --> 00:23:57,070

to notice one of these lights that

517

00:24:03,930 --> 00:23:59,440

looked like the landing gear light of an

518

00:24:06,960 --> 00:24:03,940

airplane suddenly stopped right where it

519

00:24:08,760 --> 00:24:06,970

was a midair and then went noticeably

520

00:24:11,130 --> 00:24:08,770

backwards it wasn't just like you know

521

00:24:13,410 --> 00:24:11,140

twinkling or oscillate it traveled

522

00:24:14,940 --> 00:24:13,420

backwards and I said I was in the

523

00:24:17,400 --> 00:24:14,950

backseat the two guys were in the front

524

00:24:19,560 --> 00:24:17,410

and they're both big guys they're both

525

00:24:21,960 --> 00:24:19,570

like six foot two or so I could barely

526

00:24:23,940 --> 00:24:21,970

see between the two of them I said but

527

00:24:26,460 --> 00:24:23,950

look I said look look guys I don't think

528

00:24:28,800 --> 00:24:26,470

that one's a plane and they looked at it

529

00:24:34,020 --> 00:24:28,810

and right as I said that and they looked

530

00:24:38,070 --> 00:24:34,030

at it I it began heading for a straight

531

00:24:42,480 --> 00:24:38,080

across the field which was really a

532

00:24:45,000 --> 00:24:42,490

weird thing and we were just sort of

533

00:24:50,100 --> 00:24:45,010

memorized or mesmerised at first and

534

00:24:51,870 --> 00:24:50,110

then we began to all just kind of look

535

00:24:53,160 --> 00:24:51,880

for our cameras and we were sitting we

536

00:24:54,480 --> 00:24:53,170

were saying what is that oh my gosh it's

537

00:24:56,010 --> 00:24:54,490

coming closer you know that kind of

538

00:25:00,150 --> 00:24:56,020

thing it didn't take very long either

539

00:25:03,450 --> 00:25:00,160

and it stopped about 30 feet away from

540

00:25:05,460 --> 00:25:03,460

the car maybe 30 feet in the air max it

541

00:25:07,260 --> 00:25:05,470

may have been closer than that it was

542

00:25:09,980 --> 00:25:07,270

about the size of a basketball

543

00:25:15,450 --> 00:25:09,990

we all agreed it was a perfectly

544

00:25:18,810 --> 00:25:15,460

spheroid object that was lit and it was

545

00:25:21,270 --> 00:25:18,820

the light was sort of a cool white color

546

00:25:22,680 --> 00:25:21,280

but it wasn't really lighting up the

547

00:25:25,080 --> 00:25:22,690

land around it it was it was

548

00:25:28,020 --> 00:25:25,090

self-contained self lit and it was

549

00:25:29,160 --> 00:25:28,030

hovering there and I was going for my

550

00:25:30,900 --> 00:25:29,170

kid I was just position

551
00:25:33,960 --> 00:25:30,910
my camera to start you know taking a

552
00:25:37,410 --> 00:25:33,970
video and Sanjay had the idea to shine

553
00:25:39,080 --> 00:25:37,420
the McKnight Meg liked it and he just

554
00:25:42,840 --> 00:25:39,090
did that he aimed it out his window and

555
00:25:46,050 --> 00:25:42,850
shined it at it and we all had the

556
00:25:49,650 --> 00:25:46,060
extreme sense that it was surprised and

557
00:25:51,510 --> 00:25:49,660
it sort of just soared in place a little

558
00:25:55,260 --> 00:25:51,520
bit it's hard to even describe what it

559
00:25:57,540 --> 00:25:55,270
did and somehow puffed out but not her

560
00:26:00,150 --> 00:25:57,550
like making a poof it just sort of we

561
00:26:03,900 --> 00:26:00,160
all have really real difficulty trying

562
00:26:07,860 --> 00:26:03,910
to express how it went out but it did it

563
00:26:12,480 --> 00:26:07,870

went out and we and then we all shared

564

00:26:15,090 --> 00:26:12,490

our favorite special word of surprise at

565

00:26:16,950 --> 00:26:15,100

the time because you know and and we who

566

00:26:18,960 --> 00:26:16,960

is a retired math and physics teachers

567

00:26:21,480 --> 00:26:18,970

going that's not possible

568

00:26:24,120 --> 00:26:21,490

that's not physics it can't happen in

569

00:26:26,040 --> 00:26:24,130

physics it couldn't have done that but

570

00:26:27,660 --> 00:26:26,050

yet it had and the three of us you know

571

00:26:30,000 --> 00:26:27,670

pretty highly trained observers Lee

572

00:26:33,570 --> 00:26:30,010

especially by that you know all saw the

573

00:26:36,600 --> 00:26:33,580

same thing and you know in perfect light

574

00:26:39,030 --> 00:26:36,610

perfect viewing conditions and how do

575

00:26:41,790 --> 00:26:39,040

you explain that you know yeah and this

576
00:26:44,910 --> 00:26:41,800
is right near the edge that end of Bray

577
00:26:47,820 --> 00:26:44,920
Road his his Road intersects with Bray

578
00:26:51,300 --> 00:26:47,830
Road right there and it's the it's the

579
00:26:53,340 --> 00:26:51,310
territory so you know sooner or later

580
00:26:56,010 --> 00:26:53,350
enough of these things occur and you

581
00:26:58,050 --> 00:26:56,020
just have to start taking you know

582
00:27:03,510 --> 00:26:58,060
unless unless you're a hidebound skeptic

583
00:27:05,460 --> 00:27:03,520
you know which I try to be open yet you

584
00:27:07,470 --> 00:27:05,470
know keep my reporters head up but but

585
00:27:10,140 --> 00:27:07,480
once things are happening like that to

586
00:27:11,970 --> 00:27:10,150
you it's different than just having an

587
00:27:14,250 --> 00:27:11,980
intellectual appreciation of them you

588
00:27:17,100 --> 00:27:14,260

and you have the gut knowledge that yeah

589

00:27:20,640 --> 00:27:17,110

it happens there's no way no possible

590

00:27:24,570 --> 00:27:20,650

way to explain that by knowing by no

591

00:27:27,060 --> 00:27:24,580

means well you know this this is

592

00:27:29,430 --> 00:27:27,070

something that's been becoming more and

593

00:27:33,210 --> 00:27:29,440

more prevalent in encrypted research

594

00:27:36,600 --> 00:27:33,220

with these orbs or UFO activity

595

00:27:39,300 --> 00:27:36,610

coinciding with sightings or around

596

00:27:41,070 --> 00:27:39,310

areas where sightings have been at so

597

00:27:42,720 --> 00:27:41,080

you know honestly that does is a privy

598

00:27:47,100 --> 00:27:42,730

what you just mentioned

599

00:27:49,140 --> 00:27:47,110

and it seems that Lee has also been

600

00:27:52,590 --> 00:27:49,150

filming a lot of lights on his property

601
00:27:55,830 --> 00:27:52,600
as well oh yes yeah he's got huh he's

602
00:27:57,990 --> 00:27:55,840
got thousands thousands of chariots that

603
00:28:00,060 --> 00:27:58,000
you can't even you can't even imagine me

604
00:28:02,159 --> 00:28:00,070
and he sends me he sends me them like

605
00:28:08,030 --> 00:28:02,169
maybe once a week he had one last week

606
00:28:11,490 --> 00:28:08,040
where there's no indication of why any

607
00:28:13,440 --> 00:28:11,500
thing was tripped on the camera and you

608
00:28:16,020 --> 00:28:13,450
can see these light rays these very

609
00:28:18,299 --> 00:28:16,030
defined light rates are coming down from

610
00:28:21,710 --> 00:28:18,309
above then this is daytime then there's

611
00:28:24,210 --> 00:28:21,720
a middle shot where all of a sudden at

612
00:28:25,919 --> 00:28:24,220
about the halfway point these straight

613
00:28:27,240 --> 00:28:25,929

chefs if these were just shafts of

614

00:28:29,880 --> 00:28:27,250

sunlight they would have been straight

615

00:28:31,830 --> 00:28:29,890

they turn into squiggly lines about

616

00:28:34,289 --> 00:28:31,840

halfway down they remain straight on top

617

00:28:36,659 --> 00:28:34,299

and then half way top turn it into these

618

00:28:38,760 --> 00:28:36,669

squiggly lines and then you know a

619

00:28:41,520 --> 00:28:38,770

second or so later it's back to the

620

00:28:44,340 --> 00:28:41,530

straight ones yeah what kind of light

621

00:28:48,120 --> 00:28:44,350

beam straight light beam turns half of

622

00:28:51,030 --> 00:28:48,130

itself into a squiggly line yeah that's

623

00:28:53,490 --> 00:28:51,040

hard to believe right and yet there they

624

00:28:55,140 --> 00:28:53,500

are I mean yeah just edible you know I'm

625

00:28:57,390 --> 00:28:55,150

sure I could get him to post those or

626
00:29:00,210 --> 00:28:57,400
give them to you so you can post post

627
00:29:02,400 --> 00:29:00,220
them if you want but if he has things

628
00:29:03,330 --> 00:29:02,410
like that and weirder you know even

629
00:29:07,100 --> 00:29:03,340
weirder than that

630
00:29:10,380 --> 00:29:07,110
so you just if it's like a huge

631
00:29:12,480 --> 00:29:10,390
electromagnetic disturbance all over

632
00:29:16,200 --> 00:29:12,490
that area is how I would characterize it

633
00:29:20,700 --> 00:29:16,210
you know he's he's been followed in his

634
00:29:23,400 --> 00:29:20,710
pickup truck by a giant ball of what

635
00:29:25,890 --> 00:29:23,410
somebody identified as hot plasma except

636
00:29:28,260 --> 00:29:25,900
there's no source for the plasma I would

637
00:29:29,610 --> 00:29:28,270
follow him on a road and then later in

638
00:29:32,460 --> 00:29:29,620

the corner it just vanished

639

00:29:34,770 --> 00:29:32,470

that kind of thing we have in monsters

640

00:29:38,250 --> 00:29:34,780

among us I have a good layout of what

641

00:29:41,850 --> 00:29:38,260

one of the recent over the past few

642

00:29:44,130 --> 00:29:41,860

years sightings which was a farmer who

643

00:29:46,380 --> 00:29:44,140

lived maybe about a half a mile down the

644

00:29:49,350 --> 00:29:46,390

road from from Lee he was like his his

645

00:29:51,510 --> 00:29:49,360

next neighbour down and this was a

646

00:29:54,180 --> 00:29:51,520

February a couple of years ago when it

647

00:29:56,340 --> 00:29:54,190

was ten below zero and he's sitting in

648

00:29:58,980 --> 00:29:56,350

his shed and all of a sudden his

649

00:30:00,870 --> 00:29:58,990

to start going crazy making noise and he

650

00:30:02,880 --> 00:30:00,880

looks out the window because farmers are

651
00:30:05,279 --> 00:30:02,890
always up at this was like 3:00 a.m. and

652
00:30:06,360 --> 00:30:05,289
and farmers are very often up at that

653
00:30:08,279 --> 00:30:06,370
time of the night because their

654
00:30:10,650 --> 00:30:08,289
equipment breaks down they have to fix

655
00:30:14,180 --> 00:30:10,660
it they have no choice so he looks out

656
00:30:16,830 --> 00:30:14,190
and he sees this coyote coyote just

657
00:30:19,650 --> 00:30:16,840
going lickety-split as hard as it can

658
00:30:21,779 --> 00:30:19,660
run for the woods and he's like what up

659
00:30:25,770 --> 00:30:21,789
then once Jason that and he looks and

660
00:30:29,190 --> 00:30:25,780
sees he said was five to six foot tall

661
00:30:31,590 --> 00:30:29,200
shaggy brown furred creature a canine

662
00:30:33,659 --> 00:30:31,600
looked like a wolf leaning forward a

663
00:30:36,950 --> 00:30:33,669

little bit running on its hind legs and

664

00:30:40,110 --> 00:30:36,960

slowly but surely overtaking this coyote

665

00:30:42,149 --> 00:30:40,120

running in the snow all right the

666

00:30:46,440 --> 00:30:42,159

interesting thing is that this happened

667

00:30:50,520 --> 00:30:46,450

at 3 o'clock and about one minute prior

668

00:30:53,460 --> 00:30:50,530

to that a sequence of shots of coyotes

669

00:30:55,640 --> 00:30:53,470

eating a the boat was just annoying the

670

00:30:59,070 --> 00:30:55,650

bones of a deer carcass over at leaves

671

00:31:01,200 --> 00:30:59,080

ended and in the last few shots there

672

00:31:02,700 --> 00:31:01,210

were light rays coming that looked very

673

00:31:04,680 --> 00:31:02,710

much like these ones he just sent me the

674

00:31:06,990 --> 00:31:04,690

other day coming from out of nowhere in

675

00:31:09,330 --> 00:31:07,000

the woods shining right down beaming on

676

00:31:11,010 --> 00:31:09,340

to the coyote and the last one that

677

00:31:13,440 --> 00:31:11,020

there was the Coyotes looking up at it

678

00:31:14,850 --> 00:31:13,450

as if you know it's seeing the light too

679

00:31:17,669 --> 00:31:14,860

it's not something that the camera is

680

00:31:19,080 --> 00:31:17,679

doing and then it leaves after six

681

00:31:22,740 --> 00:31:19,090

straight hours of knowing those bones

682

00:31:25,680 --> 00:31:22,750

and then a minute after that it is seen

683

00:31:29,370 --> 00:31:25,690

by the neighbor being chased by

684

00:31:31,580 --> 00:31:29,380

something well you know you had

685

00:31:34,289 --> 00:31:31,590

mentioned earlier that it seemed like

686

00:31:36,180 --> 00:31:34,299

roadkill and which other animals will

687

00:31:40,909 --> 00:31:36,190

stay away from you know that's something

688

00:31:45,029 --> 00:31:40,919

else that has been reported to me where

689

00:31:48,330 --> 00:31:45,039

someone would mention that they'd see

690

00:31:52,289 --> 00:31:48,340

one of these upright canines either a

691

00:31:55,169 --> 00:31:52,299

feeding or roadkill or they'd be around

692

00:31:58,770 --> 00:31:55,179

the area of a dead animal and nothing

693

00:31:59,580 --> 00:31:58,780

else would go near it mm-hmm yeah I've

694

00:32:03,090 --> 00:31:59,590

heard that before

695

00:32:06,390 --> 00:32:03,100

yeah yeah I mean that's so strange

696

00:32:09,149 --> 00:32:06,400

yeah it is it is because normally the

697

00:32:09,690 --> 00:32:09,159

way that nature works is something is

698

00:32:12,419 --> 00:32:09,700

dead or

699

00:32:16,379 --> 00:32:12,429

killed or you know down in the woods and

700

00:32:18,539 --> 00:32:16,389

and there's a whole group of predators

701
00:32:20,909 --> 00:32:18,549
that come the biggest guys usually get

702
00:32:21,509 --> 00:32:20,919
their favorite part first usually around

703
00:32:23,430 --> 00:32:21,519
there

704
00:32:26,100 --> 00:32:23,440
the Coyotes will go in and they'll kind

705
00:32:28,620 --> 00:32:26,110
of core out from the back and then you

706
00:32:30,840 --> 00:32:28,630
know the the skunks that the the kind of

707
00:32:33,690 --> 00:32:30,850
nasty slashing smaller things because

708
00:32:35,430 --> 00:32:33,700
skunks skunks and raccoons and badgers

709
00:32:38,370 --> 00:32:35,440
and creatures like that and all the

710
00:32:39,480 --> 00:32:38,380
movement scene can be kind of nasty if

711
00:32:41,190 --> 00:32:39,490
they're fighting over something they'll

712
00:32:42,870 --> 00:32:41,200
come in the Turkey buzzards will fly in

713
00:32:45,389 --> 00:32:42,880

and they'll be you know taking long

714

00:32:47,070 --> 00:32:45,399
stringy bits out and and then the

715

00:32:48,509 --> 00:32:47,080
smaller ones still it finally it gets

716

00:32:49,049 --> 00:32:48,519
down to the you know the Flies and the

717

00:32:51,750 --> 00:32:49,059
maggots

718

00:32:53,970 --> 00:32:51,760
so generally there's this whole little

719

00:32:56,610 --> 00:32:53,980
ecosystem built around this dead animal

720

00:32:58,830 --> 00:32:56,620
and in this case it was like it was made

721

00:33:02,820 --> 00:32:58,840
out of you know vinyl propylene or

722

00:33:05,399 --> 00:33:02,830
something yeah well you know I heard a

723

00:33:08,909 --> 00:33:05,409
story when we started getting these

724

00:33:12,690 --> 00:33:08,919
sightings in Pennsylvania that kind of

725

00:33:19,139 --> 00:33:12,700
reinforces that a bit there was a there

726

00:33:21,539 --> 00:33:19,149

was a DNR ranger who had pulled into a

727

00:33:24,149 --> 00:33:21,549

gas station one that was the witness I

728

00:33:27,659 --> 00:33:24,159

talked to and he said there was a small

729

00:33:34,080 --> 00:33:27,669

elk in the back of the back of the truck

730

00:33:37,500 --> 00:33:34,090

and he he asked the the dnr ranger about

731

00:33:39,060 --> 00:33:37,510

this elk and he said he was wondering

732

00:33:41,279 --> 00:33:39,070

how long it was dead he said you know

733

00:33:44,519 --> 00:33:41,289

the range of time you know this elk look

734

00:33:47,580 --> 00:33:44,529

it's been dead for several days but

735

00:33:51,690 --> 00:33:47,590

nothing fed on it and he said this elk

736

00:33:54,299 --> 00:33:51,700

had a collar placed on it about a year

737

00:33:57,539 --> 00:33:54,309

ago and we had been tracking it and

738

00:33:58,500 --> 00:33:57,549

something slipped the collar off of this

739

00:34:03,360 --> 00:33:58,510

thing because they found the collar

740

00:34:09,149 --> 00:34:03,370

nearby but no other animal had fed on

741

00:34:12,690 --> 00:34:09,159

this belt well so you know that is

742

00:34:14,909 --> 00:34:12,700

that's very strange I heard this I've

743

00:34:18,599 --> 00:34:14,919

also heard the same thing about dead

744

00:34:23,659 --> 00:34:18,609

black bear that would be basically in

745

00:34:26,189 --> 00:34:23,669

Visser ated and but not fed upon

746

00:34:29,069 --> 00:34:26,199

mmm-hmm that would be sitting around I

747

00:34:31,229 --> 00:34:29,079

mean it would sit for days yeah yeah

748

00:34:34,439 --> 00:34:31,239

there's something to it yeah we've seen

749

00:34:35,819 --> 00:34:34,449

that happen any number of times you know

750

00:34:41,249 --> 00:34:35,829

and when when you said slip the collar

751
00:34:43,649 --> 00:34:41,259
that reminded me of one of the deer that

752
00:34:45,059 --> 00:34:43,659
he had gotten he had because they they

753
00:34:46,859 --> 00:34:45,069
were always being carried away to

754
00:34:48,719 --> 00:34:46,869
different parts you know and obviously

755
00:34:49,979 --> 00:34:48,729
picked up her over the shoulder of these

756
00:34:51,959 --> 00:34:49,989
things because we don't like skin too

757
00:34:54,719 --> 00:34:51,969
high you see the hind footprints right

758
00:34:57,539 --> 00:34:54,729
and he had this idea of getting a couple

759
00:35:00,089 --> 00:34:57,549
of cheap iPhones off of ebay and then

760
00:35:02,969 --> 00:35:00,099
setting one up to you know geo locate

761
00:35:05,309 --> 00:35:02,979
the other one so that if something came

762
00:35:07,410 --> 00:35:05,319
and picked up you know part of the deer

763
00:35:10,499 --> 00:35:07,420

and and that iPhone was in there then we

764

00:35:11,969 --> 00:35:10,509

could track it wasn't really a million

765

00:35:14,759 --> 00:35:11,979

yeah I mean you just have these great

766

00:35:17,699 --> 00:35:14,769

ideas so I went over to his farm yeah

767

00:35:19,439 --> 00:35:17,709

and you know Justin my my worst stuff

768

00:35:22,349 --> 00:35:19,449

because what we were doing was trying to

769

00:35:24,959 --> 00:35:22,359

figure out where on this deer carcass we

770

00:35:26,699 --> 00:35:24,969

could insert the iPhone you know where

771

00:35:28,890 --> 00:35:26,709

we could get in get it in there and it

772

00:35:30,239 --> 00:35:28,900

would remain hidden and we thought we

773

00:35:32,640 --> 00:35:30,249

were going to put it in through its

774

00:35:35,669 --> 00:35:32,650

mouth in hand but just kind of shoved up

775

00:35:37,049 --> 00:35:35,679

you know back in its mouth but it

776

00:35:38,609 --> 00:35:37,059

wouldn't go over the teeth there was no

777

00:35:41,249 --> 00:35:38,619

way we could get it over the teeth it's

778

00:35:43,169 --> 00:35:41,259

surprising and we tried all kinds of

779

00:35:46,169 --> 00:35:43,179

other ideas I wouldn't even want to go

780

00:35:50,839 --> 00:35:46,179

into and he finally gave up and what he

781

00:35:55,109 --> 00:35:50,849

did was he has some super super strong

782

00:35:57,779 --> 00:35:55,119

some kind of vinyl vinyl material that

783

00:35:59,819 --> 00:35:57,789

is is used for a lot of technical things

784

00:36:03,539 --> 00:35:59,829

that's very very difficult to break or

785

00:36:06,630 --> 00:36:03,549

cut and so he he attached that to the

786

00:36:09,269 --> 00:36:06,640

iPhone and then attach that to the deer

787

00:36:14,400 --> 00:36:09,279

well the next day or so he went out

788

00:36:17,160 --> 00:36:14,410

there and the collar which was supposed

789

00:36:19,499 --> 00:36:17,170

to be super unbreakable was it looked

790

00:36:21,150 --> 00:36:19,509

like it had been cut but there were no

791

00:36:24,089 --> 00:36:21,160

implements or anything like that around

792

00:36:27,660 --> 00:36:24,099

the deer hadn't been touched and the

793

00:36:31,009 --> 00:36:27,670

iPhone was still there so whoever did it

794

00:36:34,829 --> 00:36:31,019

wasn't trying to get the iPhone yeah and

795

00:36:36,660 --> 00:36:34,839

it's just inexplicable how that would

796

00:36:37,560 --> 00:36:36,670

happen and if an animal was there

797

00:36:39,450 --> 00:36:37,570

wanting to feed on

798

00:36:41,430 --> 00:36:39,460

why would they bother just to you know

799

00:36:43,140 --> 00:36:41,440

go to all the trouble of chewing off the

800

00:36:46,650 --> 00:36:43,150

and it didn't look chewed it looked like

801

00:36:49,200 --> 00:36:46,660

it was surgically cut hmmm yeah that

802

00:36:51,240 --> 00:36:49,210

that's very similar what this person

803

00:36:55,200 --> 00:36:51,250

described me and what other people have

804

00:36:59,100 --> 00:36:55,210

been describing to me you know hear

805

00:37:02,610 --> 00:36:59,110

these stories about mutilations and so

806

00:37:04,860 --> 00:37:02,620

forth where this surgically slight an

807

00:37:07,380 --> 00:37:04,870

was a surgically sliced but nothing

808

00:37:09,120 --> 00:37:07,390

feeds upon them well you know maybe

809

00:37:12,780 --> 00:37:09,130

there's something else going on there

810

00:37:15,300 --> 00:37:12,790

but it's absolutely bizarre it really is

811

00:37:17,940 --> 00:37:15,310

oh yeah yeah I had another but make sure

812

00:37:20,640 --> 00:37:17,950

that took him and put in my book there

813

00:37:23,970 --> 00:37:20,650

was one of them had finally been like

814

00:37:25,230 --> 00:37:23,980

just gone to town on buying the coyotes

815

00:37:29,520 --> 00:37:25,240

and stuff and we've been kind of pulled

816

00:37:31,170 --> 00:37:29,530

apart and the head and the spine were

817

00:37:32,820 --> 00:37:31,180

still attached but they were out in the

818

00:37:35,820 --> 00:37:32,830

middle of the field something had taken

819

00:37:37,050 --> 00:37:35,830

them all the way out there and Cougars

820

00:37:38,880 --> 00:37:37,060

if they're gonna drag something away

821

00:37:41,010 --> 00:37:38,890

they'll drag it to where they can cover

822

00:37:43,320 --> 00:37:41,020

it with brush or take it up in a tree

823

00:37:44,550 --> 00:37:43,330

but whatever would this was thought they

824

00:37:46,470 --> 00:37:44,560

would just leave it out in the center of

825

00:37:48,270 --> 00:37:46,480

this field almost it seemed that almost

826

00:37:51,300 --> 00:37:48,280

like a sign like it was wanting to be

827

00:37:54,240 --> 00:37:51,310

noticed and the head was at it had been

828

00:37:57,420 --> 00:37:54,250

attached to the spine but it was

829

00:37:59,730 --> 00:37:57,430

separated by a perfect it was twisted

830

00:38:02,280 --> 00:37:59,740

and it would have to take some really

831

00:38:06,300 --> 00:38:02,290

strong twist and then cut with something

832

00:38:08,670 --> 00:38:06,310

and Lee took that to a butcher and said

833

00:38:12,000 --> 00:38:08,680

what would have to happen for this to

834

00:38:13,590 --> 00:38:12,010

have been separated for the neck bone to

835

00:38:15,570 --> 00:38:13,600

have been separated from the spine bone

836

00:38:17,790 --> 00:38:15,580

in the way that you see here and the

837

00:38:19,770 --> 00:38:17,800

butcher looked at it and said well it

838

00:38:23,360 --> 00:38:19,780

would have needed to have had a big

839

00:38:24,480 --> 00:38:23,370

chopping block and a big butcher knife

840

00:38:26,940 --> 00:38:24,490

hmm

841

00:38:30,650 --> 00:38:26,950

which means and I trust me there's no

842

00:38:36,750 --> 00:38:33,090

trouble we're much bigger trouble than

843

00:38:38,880 --> 00:38:36,760

anybody knows so you know you just these

844

00:38:42,180 --> 00:38:38,890

unexplainable things happen and you just

845

00:38:44,130 --> 00:38:42,190

lost your words you know you were

846

00:38:46,950 --> 00:38:44,140

talking about we were talking about the

847

00:38:49,260 --> 00:38:46,960

interdimensional possibilities and you

848

00:38:51,420 --> 00:38:49,270

know these are and in fact you know when

849

00:38:54,180 --> 00:38:51,430

you look at the film

850

00:38:57,599 --> 00:38:54,190

we're where Lee has these these videos

851
00:39:01,019 --> 00:38:57,609
of this mist forming above these road

852
00:39:04,260 --> 00:39:01,029
coming the deer carcasses right it's so

853
00:39:06,210 --> 00:39:04,270
bizarre you know I have always thought

854
00:39:11,549 --> 00:39:06,220
for years I have thought for years that

855
00:39:14,220 --> 00:39:11,559
the inter-dimensional theory has some

856
00:39:16,940 --> 00:39:14,230
validity to it it's on it's hard to

857
00:39:20,250 --> 00:39:16,950
explain it's almost a possible explain

858
00:39:22,289 --> 00:39:20,260
but you know I I really started looking

859
00:39:24,990 --> 00:39:22,299
at it much differently when we started

860
00:39:27,359 --> 00:39:25,000
having these sightings in Chicago of

861
00:39:28,380 --> 00:39:27,369
this these winged humanoids but people

862
00:39:32,789 --> 00:39:28,390
were describing

863
00:39:35,130 --> 00:39:32,799

I mean sometimes we had one case in

864

00:39:36,779 --> 00:39:35,140

particular where this was seen that just

865

00:39:40,079 --> 00:39:36,789

literally disappeared like it went

866

00:39:43,109 --> 00:39:40,089

through a doorway or these things will

867

00:39:45,750 --> 00:39:43,119

just show up for a matter of seconds and

868

00:39:48,890 --> 00:39:45,760

did suddenly disappear I mean there's

869

00:39:51,510 --> 00:39:48,900

got to be something to this I mean we

870

00:39:54,359 --> 00:39:51,520

we're just on the cusp of this quite

871

00:39:57,839 --> 00:39:54,369

frankly and you know I think it goes it

872

00:40:01,289 --> 00:39:57,849

goes for a lot of different cryptid

873

00:40:03,510 --> 00:40:01,299

activity and not only uprights or these

874

00:40:04,740 --> 00:40:03,520

winged humanoids but also for Bigfoot

875

00:40:07,049 --> 00:40:04,750

you know we've been hearing for years

876
00:40:10,380 --> 00:40:07,059
about people tracking Bigfoot and you

877
00:40:13,589 --> 00:40:10,390
think just suddenly disappear right it's

878
00:40:15,870 --> 00:40:13,599
it's very bizarre but there's got to be

879
00:40:17,970 --> 00:40:15,880
something to it well you probably are

880
00:40:19,380 --> 00:40:17,980
familiar with the incident that I call

881
00:40:21,420 --> 00:40:19,390
the man bat in La Crosse

882
00:40:23,220 --> 00:40:21,430
right Wisconsin which is over on the

883
00:40:25,500 --> 00:40:23,230
Mississippi River on the western side of

884
00:40:27,329 --> 00:40:25,510
Wisconsin which is for those who don't

885
00:40:29,579 --> 00:40:27,339
know the state very well it's a very

886
00:40:31,500 --> 00:40:29,589
different drink than we have anywhere

887
00:40:35,010 --> 00:40:31,510
else in Wisconsin because being by the

888
00:40:37,940 --> 00:40:35,020

Mississippi in the unglaciated area it's

889

00:40:40,859 --> 00:40:37,950

there are cliffs and caves and rocks and

890

00:40:44,370 --> 00:40:40,869

looks more like parts of Wyoming or

891

00:40:48,870 --> 00:40:44,380

something and this incident was back in

892

00:40:51,390 --> 00:40:48,880

2006 and they called me right away and I

893

00:40:52,980 --> 00:40:51,400

was out there I drove out and spent a

894

00:40:57,059 --> 00:40:52,990

few days there out in the field with

895

00:40:59,490 --> 00:40:57,069

them and what happened was a man in his

896

00:41:01,440 --> 00:40:59,500

50s and his 25 year old son we're

897

00:41:03,900 --> 00:41:01,450

driving along a country road from La

898

00:41:04,650 --> 00:41:03,910

Crosse to a smaller community called

899

00:41:08,839 --> 00:41:04,660

Holmen

900

00:41:11,069 --> 00:41:08,849

about satellite tone and they were

901
00:41:14,130 --> 00:41:11,079
looking just looking at the road you

902
00:41:15,870 --> 00:41:14,140
know driving along and this thing they

903
00:41:17,400 --> 00:41:15,880
noticed was heading straight for their

904
00:41:19,289 --> 00:41:17,410
truck they were driving a pickup truck

905
00:41:20,910 --> 00:41:19,299
and it was coming right for their

906
00:41:22,620 --> 00:41:20,920
windshield and they kind of braced and

907
00:41:24,299 --> 00:41:22,630
the Sun slowed down because he was sure

908
00:41:27,480 --> 00:41:24,309
there was going to just smash right into

909
00:41:30,440 --> 00:41:27,490
them and just before it did so it just

910
00:41:33,029 --> 00:41:30,450
suddenly shot straight up in the air

911
00:41:35,279 --> 00:41:33,039
making this piercing scream that made

912
00:41:37,740 --> 00:41:35,289
both of them sick and they described it

913
00:41:41,819 --> 00:41:37,750

he drew a sketch for me and it looks

914

00:41:44,670 --> 00:41:41,829

like sort of a wolfish Blackford or

915

00:41:47,279 --> 00:41:44,680

Dartford creature with giant bat wings

916

00:41:51,680 --> 00:41:47,289

kind of like a gigantic fruit bat is

917

00:41:54,000 --> 00:41:51,690

what it reminds me of very much and the

918

00:41:56,160 --> 00:41:54,010

vibration or whatever it was from that

919

00:41:58,289 --> 00:41:56,170

screech it made made both of them

920

00:42:01,829 --> 00:41:58,299

instantly you know the son had to pull

921

00:42:04,620 --> 00:42:01,839

over and throw up and father was like in

922

00:42:07,170 --> 00:42:04,630

bed for two weeks from the incident from

923

00:42:09,809 --> 00:42:07,180

whatever happened to it but we went to

924

00:42:13,440 --> 00:42:09,819

other player me some nearby places that

925

00:42:15,620 --> 00:42:13,450

we drove around in and we had extremely

926
00:42:18,839 --> 00:42:15,630
odd things happening we were on this

927
00:42:20,640 --> 00:42:18,849
almost completely desolate country road

928
00:42:23,039 --> 00:42:20,650
where there were no houses no no

929
00:42:25,589 --> 00:42:23,049
anything and a horse came galloping

930
00:42:27,539 --> 00:42:25,599
across the dark field this is nighttime

931
00:42:30,329 --> 00:42:27,549
pitch-black a horse came galloping

932
00:42:32,640 --> 00:42:30,339
across the dark field it just jumped

933
00:42:37,680 --> 00:42:32,650
right in front of the car that we were

934
00:42:39,569 --> 00:42:37,690
in and stood there it had a braided tail

935
00:42:42,870 --> 00:42:39,579
it didn't have any saddle or anything

936
00:42:45,240 --> 00:42:42,880
like that uh it stood there until his

937
00:42:46,829 --> 00:42:45,250
and the man who saw this was a Native

938
00:42:49,170 --> 00:42:46,839

American and his the girlfriend was

939

00:42:51,720 --> 00:42:49,180

along and she's a hunter and she got out

940

00:42:53,010 --> 00:42:51,730

of the car and went over near the horse

941

00:42:55,319 --> 00:42:53,020

and then she got back in the car

942

00:42:56,940 --> 00:42:55,329

immediately white as a sheet and said we

943

00:42:59,690 --> 00:42:56,950

have to leave we have to go right now

944

00:43:02,220 --> 00:42:59,700

and won't say why and when she did that

945

00:43:04,740 --> 00:43:02,230

the horse began trotting it trotted

946

00:43:07,440 --> 00:43:04,750

ahead of us all the way till we came to

947

00:43:09,500 --> 00:43:07,450

a safe turn out of that area and then it

948

00:43:12,690 --> 00:43:09,510

galloped off another field

949

00:43:14,660 --> 00:43:12,700

hmm so there were other there were weird

950

00:43:17,480 --> 00:43:14,670

things you know going on we drove past

951
00:43:21,230 --> 00:43:17,490
the site of the

952
00:43:23,140 --> 00:43:21,240
the happening was where you would be

953
00:43:26,510 --> 00:43:23,150
cresting a hill in your car and

954
00:43:29,270 --> 00:43:26,520
everybody my other boyfriend Terry who

955
00:43:32,210 --> 00:43:29,280
was driving and the man and his

956
00:43:33,680 --> 00:43:32,220
girlfriend all saw something ruffle

957
00:43:35,810 --> 00:43:33,690
across the road they said it was like

958
00:43:38,960 --> 00:43:35,820
somebody unfurled a big bolt of silk

959
00:43:41,110 --> 00:43:38,970
black silk fabric was the best way they

960
00:43:44,480 --> 00:43:41,120
described it and then there were other

961
00:43:47,090 --> 00:43:44,490
reports out there too on a part of the

962
00:43:51,400 --> 00:43:47,100
city of La Crosse called French island

963
00:43:54,050 --> 00:43:51,410

which is near a nuclear power plant

964

00:43:56,030 --> 00:43:54,060

where there were also sightings and one

965

00:43:59,330 --> 00:43:56,040

of them was it talked about it sort of

966

00:44:00,920 --> 00:43:59,340

unfurling itself in the same way you

967

00:44:02,600 --> 00:44:00,930

know it's as if you had a bolt of cloth

968

00:44:04,340 --> 00:44:02,610

and you threw it out you know into the

969

00:44:05,510 --> 00:44:04,350

air and you could just picture it making

970

00:44:07,880 --> 00:44:05,520

those ripples I don't know if you've

971

00:44:14,090 --> 00:44:07,890

seen any of those in the Chicago ones

972

00:44:16,550 --> 00:44:14,100

but we have we have we had we've had

973

00:44:19,040 --> 00:44:16,560

people tell us about the scene this

974

00:44:22,820 --> 00:44:19,050

being with its wings wrapped around it

975

00:44:24,920 --> 00:44:22,830

like a cape yeah and yeah and you know

976
00:44:27,230 --> 00:44:24,930
that you know we had most of the

977
00:44:31,640 --> 00:44:27,240
sightings were in the Chicago area back

978
00:44:34,570 --> 00:44:31,650
in 2017 but you know lately most the

979
00:44:39,880 --> 00:44:34,580
sightings in 2018 had been in Wisconsin

980
00:44:43,520 --> 00:44:39,890
and I mean anywhere from Elkhorn East

981
00:44:44,030 --> 00:44:43,530
over into Cross catamaran over into

982
00:44:47,000 --> 00:44:44,040
Kenosha

983
00:44:49,640 --> 00:44:47,010
up into Milwaukee we had one in

984
00:44:52,430 --> 00:44:49,650
Milwaukee a very distinctive sighting

985
00:44:55,220 --> 00:44:52,440
Milwaukee yeah I don't know exactly how

986
00:44:56,840 --> 00:44:55,230
many we've had but I I think it's safe

987
00:45:01,630 --> 00:44:56,850
to say there have been six or seven

988
00:45:04,220 --> 00:45:01,640

reports this year in in in southeast of

989

00:45:06,920 --> 00:45:04,230

Wisconsin well you know all the theories

990

00:45:10,880 --> 00:45:06,930

that you've just met our places that are

991

00:45:14,090 --> 00:45:10,890

very rich in ancient animal ever chief

992

00:45:15,380 --> 00:45:14,100

animal shaped effigy mounds which are

993

00:45:17,450 --> 00:45:15,390

very unusual and that many people

994

00:45:20,780 --> 00:45:17,460

realize that Wisconsin southern

995

00:45:24,440 --> 00:45:20,790

Wisconsin has something like 96% of the

996

00:45:25,610 --> 00:45:24,450

world's ancient animal shaped effigy

997

00:45:28,280 --> 00:45:25,620

moans that means they weren't always

998

00:45:30,420 --> 00:45:28,290

used for burial some some were just you

999

00:45:33,329 --> 00:45:30,430

know sort of pictorial some of them are

1000

00:45:36,150 --> 00:45:33,339

really huge they go up to 160 feet wide

1001
00:45:38,099 --> 00:45:36,160
or more and they're all around Madison

1002
00:45:40,410 --> 00:45:38,109
and the lakes there around Milwaukee and

1003
00:45:43,950 --> 00:45:40,420
especially the river and the lakes the

1004
00:45:45,390 --> 00:45:43,960
Kettle Moraine is full of them all all

1005
00:45:48,240 --> 00:45:45,400
these places that you mentioned because

1006
00:45:50,220 --> 00:45:48,250
it's such a lake rich area I really

1007
00:45:52,650 --> 00:45:50,230
believe that whole area was sacred

1008
00:45:54,420 --> 00:45:52,660
because of the lakes that are there and

1009
00:45:58,109 --> 00:45:54,430
the number the great number of fresh

1010
00:46:00,750 --> 00:45:58,119
Springs that there were to would have

1011
00:46:05,309 --> 00:46:00,760
all made this entire area sacred and

1012
00:46:06,599 --> 00:46:05,319
some people suggest that medicine man at

1013
00:46:09,870 --> 00:46:06,609

the time were able to ascend up

1014

00:46:11,250 --> 00:46:09,880

guardians or to establish secure portals

1015

00:46:13,319 --> 00:46:11,260

that would stay you know different

1016

00:46:16,650 --> 00:46:13,329

things you know I know have no way of

1017

00:46:18,839 --> 00:46:16,660

knowing if that's true or you can't even

1018

00:46:22,349 --> 00:46:18,849

really investigate something like that

1019

00:46:24,589 --> 00:46:22,359

nowadays after all this time but it's

1020

00:46:27,329 --> 00:46:24,599

it's just another way of looking at it

1021

00:46:30,260 --> 00:46:27,339

you know one of my team members asked me

1022

00:46:32,510 --> 00:46:30,270

to ask you if you know of any reports

1023

00:46:36,960 --> 00:46:32,520

coming out of the richard bong

1024

00:46:40,710 --> 00:46:36,970

recreation areas of late well not super

1025

00:46:44,789 --> 00:46:40,720

not super of late odd but it is a rich

1026
00:46:47,930 --> 00:46:44,799
very rich source of sightings and I have

1027
00:46:52,410 --> 00:46:47,940
a friend who was a now retired he

1028
00:46:56,730 --> 00:46:52,420
retired early a retired County sheriff's

1029
00:47:00,809 --> 00:46:56,740
deputy over in that area and he saw an

1030
00:47:03,180 --> 00:47:00,819
upright wolf man running across that

1031
00:47:05,069 --> 00:47:03,190
area while he was parked quietly at

1032
00:47:06,930 --> 00:47:05,079
night one night filming on his report so

1033
00:47:08,849 --> 00:47:06,940
it was a place he liked to go I think he

1034
00:47:10,769 --> 00:47:08,859
saw I think he saw two of them there on

1035
00:47:12,559 --> 00:47:10,779
different occasions and I've also had

1036
00:47:16,279 --> 00:47:12,569
somebody report seeing a black panther

1037
00:47:19,440 --> 00:47:16,289
running across the road in that area and

1038
00:47:22,380 --> 00:47:19,450

there are underground tunnels that are

1039

00:47:25,170 --> 00:47:22,390

closed up now but they were just left

1040

00:47:28,740 --> 00:47:25,180

open for years I know kid kids from the

1041

00:47:30,510 --> 00:47:28,750

area in the 70s and 80s used to go and

1042

00:47:32,609 --> 00:47:30,520

party down there I guess it was full I

1043

00:47:34,859 --> 00:47:32,619

know people who did that I did not but

1044

00:47:37,049 --> 00:47:34,869

that I know people who did and now

1045

00:47:39,690 --> 00:47:37,059

they're closed up but it's interesting

1046

00:47:41,530 --> 00:47:39,700

because that was supposed to be a

1047

00:47:47,780 --> 00:47:41,540

special

1048

00:47:52,160 --> 00:47:47,790

military air observation place and

1049

00:47:55,550 --> 00:47:52,170

station and they shut it down like the

1050

00:47:57,950 --> 00:47:55,560

day just just about the exact same time

1051
00:47:59,390 --> 00:47:57,960
that the the runways were being I think

1052
00:48:01,520 --> 00:47:59,400
was maybe the day before the runways

1053
00:48:03,470 --> 00:48:01,530
report you know all the all the other

1054
00:48:04,910 --> 00:48:03,480
things the tunnels and the buildings

1055
00:48:07,010 --> 00:48:04,920
that everything was all in place dude

1056
00:48:09,320 --> 00:48:07,020
let it go and then suddenly they just

1057
00:48:11,210 --> 00:48:09,330
said don't forget it and the local rumor

1058
00:48:14,630 --> 00:48:11,220
is that's because of what was in the

1059
00:48:17,140 --> 00:48:14,640
tunnels you know this person I asked

1060
00:48:20,900 --> 00:48:17,150
that question told me that same story

1061
00:48:26,180 --> 00:48:20,910
well he's an aviation he's into aviation

1062
00:48:30,040 --> 00:48:26,190
and he told me that same story so yeah

1063
00:48:32,980 --> 00:48:30,050

you're right that is pretty bizarre

1064

00:48:36,440 --> 00:48:32,990

maybe they did find something oh my god

1065

00:48:40,940 --> 00:48:36,450

yeah and there are so many tunnels

1066

00:48:42,830 --> 00:48:40,950

everywhere tunnels old mine shafts old

1067

00:48:44,510 --> 00:48:42,840

steam tunnels from went out the

1068

00:48:46,460 --> 00:48:44,520

buildings had to be heated by steam and

1069

00:48:49,490 --> 00:48:46,470

we're connected by these tunnels up

1070

00:48:51,589 --> 00:48:49,500

every downtown just about in Wisconsin

1071

00:48:53,359 --> 00:48:51,599

and many other states I'm sure has

1072

00:48:56,300 --> 00:48:53,369

downtown tunnels connecting everything

1073

00:48:58,609 --> 00:48:56,310

because in the days before they had the

1074

00:49:00,410 --> 00:48:58,619

efficient snow plan we have no you'd get

1075

00:49:02,480 --> 00:49:00,420

you know three four foot double snow and

1076
00:49:04,430 --> 00:49:02,490
nobody could get anywhere so you could

1077
00:49:08,030 --> 00:49:04,440
get all over downtown Oshkosh for

1078
00:49:10,070 --> 00:49:08,040
example yeah just by without coming up

1079
00:49:12,290 --> 00:49:10,080
for air just you know from the lower

1080
00:49:15,829 --> 00:49:12,300
level tunnels so there is this

1081
00:49:18,200 --> 00:49:15,839
subterranean sort of Refuge that we

1082
00:49:20,450 --> 00:49:18,210
don't see but other things could easily

1083
00:49:22,910 --> 00:49:20,460
utilize if they wanted I mentioned

1084
00:49:25,930 --> 00:49:22,920
somewhere I've had rumors of werewolves

1085
00:49:28,430 --> 00:49:25,940
in the sewers of Minot North Dakota and

1086
00:49:30,440 --> 00:49:28,440
again and again it was a policeman

1087
00:49:32,000 --> 00:49:30,450
writing me about them I've never been

1088
00:49:34,760 --> 00:49:32,010

able to prove that I've never had

1089

00:49:36,740 --> 00:49:34,770

anybody see they saw one but you know

1090

00:49:39,079 --> 00:49:36,750

that's some it's another thing that's

1091

00:49:42,859 --> 00:49:39,089

out there and that's an area where is a

1092

00:49:45,770 --> 00:49:42,869

large Air Force Base as well oh yes yeah

1093

00:49:48,170 --> 00:49:45,780

and you you very often find sightings I

1094

00:49:49,820 --> 00:49:48,180

noticed this early on with the upright

1095

00:49:53,700 --> 00:49:49,830

will fly creatures and it gets stronger

1096

00:49:57,920 --> 00:49:53,710

and stronger and even stronger in Europe

1097

00:50:01,620 --> 00:49:57,930

your World War two naval and air and

1098

00:50:03,870 --> 00:50:01,630

land bases up very very often have this

1099

00:50:05,760 --> 00:50:03,880

sort of activity connected with them but

1100

00:50:08,160 --> 00:50:05,770

all over other places to where you've

1101
00:50:12,360 --> 00:50:08,170
got military installations there are

1102
00:50:17,580 --> 00:50:12,370
very very often more reports of these

1103
00:50:19,320 --> 00:50:17,590
anomalous creatures of all kinds you

1104
00:50:21,870 --> 00:50:19,330
know you know when you wrote the book

1105
00:50:23,550 --> 00:50:21,880
the the beast of Bray Road and it was

1106
00:50:26,010 --> 00:50:23,560
released in 2003

1107
00:50:27,840 --> 00:50:26,020
you know the sightings and reports kind

1108
00:50:28,760 --> 00:50:27,850
of picked up do you have any idea why

1109
00:50:33,120 --> 00:50:28,770
that happened

1110
00:50:34,920 --> 00:50:33,130
well yeah I believe it's because people

1111
00:50:36,390 --> 00:50:34,930
really hadn't heard of it and if they

1112
00:50:40,350 --> 00:50:36,400
had heard of it they didn't know that

1113
00:50:43,140 --> 00:50:40,360

anybody anywhere cared or was keeping a

1114

00:50:45,540 --> 00:50:43,150

collection you know and it had been like

1115

00:50:47,100 --> 00:50:45,550

11 years when that book was published it

1116

00:50:48,660 --> 00:50:47,110

had been 11 years since that initial

1117

00:50:50,880 --> 00:50:48,670

report and I was just working for the

1118

00:50:54,360 --> 00:50:50,890

newspaper writing about other things all

1119

00:50:56,250 --> 00:50:54,370

that time I I really had no clue that I

1120

00:50:57,720 --> 00:50:56,260

would somebody someday be you know

1121

00:50:59,850 --> 00:50:57,730

writing book after book but when that

1122

00:51:01,920 --> 00:50:59,860

book came out it just caused an

1123

00:51:04,350 --> 00:51:01,930

explosion an immediate explosion of

1124

00:51:07,350 --> 00:51:04,360

people writing me and remember again

1125

00:51:09,060 --> 00:51:07,360

this was the early 90s that when it

1126

00:51:11,760 --> 00:51:09,070

first started and this continued on

1127

00:51:14,510 --> 00:51:11,770

through that decade finding by snail

1128

00:51:18,480 --> 00:51:14,520

mail the newspaper address you know

1129

00:51:21,300 --> 00:51:18,490

resorting to actual telephones on the

1130

00:51:25,410 --> 00:51:21,310

wall with curly cords to find me and

1131

00:51:27,420 --> 00:51:25,420

reporting things and so when when that

1132

00:51:30,030 --> 00:51:27,430

happened I had this huge collection of

1133

00:51:32,220 --> 00:51:30,040

more sightings within no time and that's

1134

00:51:33,750 --> 00:51:32,230

why hunting the American werewolf came

1135

00:51:36,510 --> 00:51:33,760

about I thought well I've got to share

1136

00:51:38,640 --> 00:51:36,520

these and because I really always

1137

00:51:41,490 --> 00:51:38,650

considered that kind of my prime role

1138

00:51:44,130 --> 00:51:41,500

was I call it keeper of the lure is kind

1139

00:51:47,850 --> 00:51:44,140

of my tongue-in-cheek favorite title for

1140

00:51:50,000 --> 00:51:47,860

myself and so I I did that and then the

1141

00:51:53,610 --> 00:51:50,010

same thing happened again and and thus

1142

00:51:56,310 --> 00:51:53,620

the Michigan Dogman and other unknown

1143

00:51:59,010 --> 00:51:56,320

upright canines across the US and and so

1144

00:52:02,670 --> 00:51:59,020

forth and it's just kept going until now

1145

00:52:04,860 --> 00:52:02,680

and I think that there are a lot more

1146

00:52:07,320 --> 00:52:04,870

people also aware people who might have

1147

00:52:09,300 --> 00:52:07,330

just brushed it off as being a bear or

1148

00:52:11,370 --> 00:52:09,310

dear when they knew it wasn't now

1149

00:52:14,370 --> 00:52:11,380

understand that there is something else

1150

00:52:16,590 --> 00:52:14,380

that it validates people people write me

1151
00:52:18,660 --> 00:52:16,600
and they just say oh you know thank you

1152
00:52:21,480 --> 00:52:18,670
for validating what I saw I thought I

1153
00:52:22,950 --> 00:52:21,490
was going nuts or I knew it wasn't a

1154
00:52:24,270 --> 00:52:22,960
bear but I didn't know what else to call

1155
00:52:26,430 --> 00:52:24,280
it you know that kind of thing

1156
00:52:29,310 --> 00:52:26,440
so it raises the awareness that raises

1157
00:52:30,960 --> 00:52:29,320
people's ability to really understand

1158
00:52:33,180 --> 00:52:30,970
and describe what they're seeing and

1159
00:52:35,730 --> 00:52:33,190
also they're a lot they're more people

1160
00:52:38,040 --> 00:52:35,740
taking the reports you know for a long

1161
00:52:39,720 --> 00:52:38,050
time I felt like the lone ranger nobody

1162
00:52:41,730 --> 00:52:39,730
else in the world seemed interested in

1163
00:52:45,030 --> 00:52:41,740

taking reports of things that look like

1164

00:52:47,340 --> 00:52:45,040

werewolves and and I don't think that

1165

00:52:49,530 --> 00:52:47,350

their actual medieval style werewolves I

1166

00:52:51,750 --> 00:52:49,540

didn't then and I don't know but it's

1167

00:52:54,090 --> 00:52:51,760

just something about that word nobody

1168

00:52:56,100 --> 00:52:54,100

wanted to touch it and so now in the

1169

00:52:58,770 --> 00:52:56,110

past few years it's become you know

1170

00:53:00,540 --> 00:52:58,780

quite popular on the Internet and so I

1171

00:53:02,310 --> 00:53:00,550

credit that too when you've got more

1172

00:53:04,110 --> 00:53:02,320

people aware more people looking more

1173

00:53:05,850 --> 00:53:04,120

people taking reports well of course

1174

00:53:08,280 --> 00:53:05,860

you're going to get a lot more and and

1175

00:53:10,410 --> 00:53:08,290

it will seem like there may have been

1176
00:53:12,870 --> 00:53:10,420
just as many of the creatures beforehand

1177
00:53:16,980 --> 00:53:12,880
there just weren't as many looking for

1178
00:53:21,150 --> 00:53:16,990
them and recording them have you had any

1179
00:53:23,790 --> 00:53:21,160
accounts in your area of these uprights

1180
00:53:26,100 --> 00:53:23,800
showing any type of aggression because

1181
00:53:28,680 --> 00:53:26,110
quite frankly the reports we've received

1182
00:53:30,600 --> 00:53:28,690
here in Pennsylvania they don't

1183
00:53:33,210 --> 00:53:30,610
necessarily show aggression but they

1184
00:53:36,120 --> 00:53:33,220
stand your ground right right if it

1185
00:53:39,870 --> 00:53:36,130
seems very much like territorial defense

1186
00:53:42,360 --> 00:53:39,880
to me although there's in a lot of

1187
00:53:45,500 --> 00:53:42,370
really you can't help but see some sort

1188
00:53:48,360 --> 00:53:45,510

of a note of what looks like kind of

1189

00:53:51,570 --> 00:53:48,370

sarcasm almost and and sometimes it's

1190

00:53:53,610 --> 00:53:51,580

like they enjoy stopping and scaring the

1191

00:53:55,470 --> 00:53:53,620

people and and that makes us they know

1192

00:53:57,540 --> 00:53:55,480

they've you know raised raised the hair

1193

00:53:59,520 --> 00:53:57,550

on the hackles of their necks really

1194

00:54:01,770 --> 00:53:59,530

well then they'll bound off into the

1195

00:54:04,620 --> 00:54:01,780

cornfield or the woods or wherever it is

1196

00:54:06,870 --> 00:54:04,630

and people will continually hear these

1197

00:54:09,900 --> 00:54:06,880

same three words they'll say you know I

1198

00:54:12,200 --> 00:54:09,910

felt that it was sneering or jeering or

1199

00:54:19,140 --> 00:54:12,210

leering something all of those words

1200

00:54:20,160 --> 00:54:19,150

connote an idea of distaste or thinking

1201

00:54:22,650 --> 00:54:20,170

they're better than

1202

00:54:24,059 --> 00:54:22,660

the other person that sort of thing and

1203

00:54:26,280 --> 00:54:24,069

that's just not something you normally

1204

00:54:29,160 --> 00:54:26,290

hear from people who run into say a bear

1205

00:54:30,960 --> 00:54:29,170

you know or a coyote I'm who ever said I

1206

00:54:34,770 --> 00:54:30,970

felt I felt that the bear was sneering

1207

00:54:37,079 --> 00:54:34,780

at me you know it it's it's just it's

1208

00:54:40,770 --> 00:54:37,089

just a different sort of feeling and

1209

00:54:43,760 --> 00:54:40,780

people also say that they feel these

1210

00:54:47,039 --> 00:54:43,770

animals struck them as more intelligent

1211

00:54:49,410 --> 00:54:47,049

than just your animal regular animal and

1212

00:54:53,010 --> 00:54:49,420

I mean bears and wolves are both pretty

1213

00:54:55,680 --> 00:54:53,020

high on the IQ scale for animals so to

1214

00:54:57,660 --> 00:54:55,690

say something is more intelligent than a

1215

00:55:00,270 --> 00:54:57,670

natural bear or wolf is really saying

1216

00:55:02,400 --> 00:55:00,280

something yeah you know we've had

1217

00:55:06,289 --> 00:55:02,410

instances where people have come across

1218

00:55:10,740 --> 00:55:06,299

these beans and have been armed but

1219

00:55:12,120 --> 00:55:10,750

absolutely refuse or even very hesitant

1220

00:55:15,000 --> 00:55:12,130

to even take a shot at it

1221

00:55:17,390 --> 00:55:15,010

I don't know if it's because of it it's

1222

00:55:21,000 --> 00:55:17,400

putting all some type of vibe or

1223

00:55:23,910 --> 00:55:21,010

whatever the reason is but we have you

1224

00:55:26,099 --> 00:55:23,920

know we have not ever had any instance

1225

00:55:28,829 --> 00:55:26,109

where somebody's taking a shot at this

1226

00:55:30,960 --> 00:55:28,839

thing oh I've had several you know one

1227

00:55:34,559 --> 00:55:30,970

was a guy who was out fishing in a flat

1228

00:55:37,849 --> 00:55:34,569

boat one of the southern states and saw

1229

00:55:40,620 --> 00:55:37,859

an upright dog man or wolf-like creature

1230

00:55:42,539 --> 00:55:40,630

standing right on the shore and when he

1231

00:55:43,859 --> 00:55:42,549

looked at it his bar his dog was in the

1232

00:55:45,210 --> 00:55:43,869

boat with him and started barking and

1233

00:55:48,120 --> 00:55:45,220

the creature started coming right on

1234

00:55:50,789 --> 00:55:48,130

into the water toward the dog and so he

1235

00:55:53,819 --> 00:55:50,799

did shoot it he had an automatic pistol

1236

00:55:55,740 --> 00:55:53,829

and he gave it a couple of good rounds

1237

00:55:58,260 --> 00:55:55,750

and he said it just ran off into the

1238

00:55:59,640 --> 00:55:58,270

woods and he stayed in the boat a little

1239

00:56:01,740 --> 00:55:59,650

longer because he was kind of afraid to

1240

00:56:03,630 --> 00:56:01,750

go look but when he did there was no

1241

00:56:05,490 --> 00:56:03,640

sign there were a few drops of blood and

1242

00:56:08,789 --> 00:56:05,500

nothing really you know he thought he'd

1243

00:56:12,750 --> 00:56:08,799

find a dead feature you know 100 feet in

1244

00:56:14,789 --> 00:56:12,760

but no nothing nothing showed up I have

1245

00:56:16,440 --> 00:56:14,799

had a farmer tell me that he's sure he

1246

00:56:18,630 --> 00:56:16,450

shot one he said it was standing upright

1247

00:56:20,190 --> 00:56:18,640

and it looked like a wolf and he was

1248

00:56:22,470 --> 00:56:20,200

afraid it was coming toward him and he

1249

00:56:24,660 --> 00:56:22,480

shot it and then when it was just lying

1250

00:56:26,849 --> 00:56:24,670

there dead he said it just didn't look

1251
00:56:29,700 --> 00:56:26,859
any different from a big old timber wolf

1252
00:56:31,349 --> 00:56:29,710
and they do come down that wildlife

1253
00:56:33,750 --> 00:56:31,359
corridor that I met that I mentioned

1254
00:56:35,370 --> 00:56:33,760
before so there's not a

1255
00:56:38,069 --> 00:56:35,380
a breeding population of wolves

1256
00:56:40,319 --> 00:56:38,079
necessarily but they passed sir they can

1257
00:56:43,799 --> 00:56:40,329
be in the area but he said he was afraid

1258
00:56:45,569 --> 00:56:43,809
that he would get fined big time and

1259
00:56:47,370 --> 00:56:45,579
they can take if they if you just

1260
00:56:49,079 --> 00:56:47,380
something like that they can take away

1261
00:56:52,109 --> 00:56:49,089
your car I mean you know it can get

1262
00:56:54,240 --> 00:56:52,119
pretty pretty bad punishment so he said

1263
00:56:56,759 --> 00:56:54,250

he just dug a big hole and put him in it

1264

00:56:58,319 --> 00:56:56,769

and covering it up and you know wouldn't

1265

00:57:00,990 --> 00:56:58,329

take anybody to where it was you know

1266

00:57:02,849 --> 00:57:01,000

I'm like please can you dig it up yeah I

1267

00:57:04,349 --> 00:57:02,859

really have to see the ball and sneeze

1268

00:57:06,720 --> 00:57:04,359

sneezes nope nope I'm not gonna have

1269

00:57:08,640 --> 00:57:06,730

somebody take Mike shocker right you

1270

00:57:11,039 --> 00:57:08,650

know my stuff I just told you so you

1271

00:57:12,569 --> 00:57:11,049

know there was one and that he had

1272

00:57:14,670 --> 00:57:12,579

waited I was speaking and he had waited

1273

00:57:17,069 --> 00:57:14,680

till everybody else was gone before he

1274

00:57:19,410 --> 00:57:17,079

told me that and he was not seeking

1275

00:57:21,150 --> 00:57:19,420

attention he was dead serious and kind

1276

00:57:25,500 --> 00:57:21,160

of frightened telling me at the time to

1277

00:57:27,930 --> 00:57:25,510

I couldn't it's amazing yeah well Linda

1278

00:57:30,839 --> 00:57:27,940

how can people contact you and find your

1279

00:57:34,440 --> 00:57:30,849

books and where are you going to be

1280

00:57:37,740 --> 00:57:34,450

appearing at well the first question

1281

00:57:39,809 --> 00:57:37,750

Linda Godfrey calm no w's or anything

1282

00:57:42,660 --> 00:57:39,819

just go to Linda Godfrey calm it has my

1283

00:57:44,009 --> 00:57:42,670

book lists and bio page some recent

1284

00:57:46,499 --> 00:57:44,019

stories that haven't been posted

1285

00:57:48,569 --> 00:57:46,509

anywhere else or not in books lots of

1286

00:57:51,870 --> 00:57:48,579

other information so just Linda Godfrey

1287

00:57:54,890 --> 00:57:51,880

calm I'm going to be up at are going to

1288

00:57:58,019 --> 00:57:54,900

be in Milwaukee get just look up MKE

1289

00:58:00,269 --> 00:57:58,029

Paracon Milwaukee Paracon right in the

1290

00:58:02,910 --> 00:58:00,279

middle of October and believe it's at

1291

00:58:05,609 --> 00:58:02,920

the Irish Cultural Center again and

1292

00:58:08,009 --> 00:58:05,619

stuff is going to be debuting his

1293

00:58:09,240 --> 00:58:08,019

Wisconsin screening of that movie so if

1294

00:58:11,609 --> 00:58:09,250

you haven't seen that it's a good time

1295

00:58:13,259 --> 00:58:11,619

to do that too and then first weekend of

1296

00:58:17,210 --> 00:58:13,269

November I'm going to be up at the North

1297

00:58:19,769 --> 00:58:17,220

car North Star Casino up in bowler and

1298

00:58:23,700 --> 00:58:19,779

kind of over toward Green Bay that area

1299

00:58:25,259 --> 00:58:23,710

of Wisconsin for a brand new Paracon

1300

00:58:28,049 --> 00:58:25,269

that they're just starting this year and

1301

00:58:29,640 --> 00:58:28,059

that's gonna be a lot of fun to I'm

1302

00:58:32,370 --> 00:58:29,650

working on a couple of other projects

1303

00:58:36,749 --> 00:58:32,380

I've got a new book and having a very

1304

00:58:38,970 --> 00:58:36,759

laborious birth at my publishers it's

1305

00:58:41,819 --> 00:58:38,980

just taking of taking a very long time

1306

00:58:44,370 --> 00:58:41,829

for various reasons but should be out

1307

00:58:45,640 --> 00:58:44,380

sometime this year I'm hoping and that

1308

00:58:48,970 --> 00:58:45,650

goes even into

1309

00:58:52,599 --> 00:58:48,980

some of the really Wilder stuff so um

1310

00:58:54,339 --> 00:58:52,609

he'll be interesting well I look forward

1311

00:58:56,500 --> 00:58:54,349

to reading that you know Linda thanks

1312

00:58:58,779 --> 00:58:56,510

for coming on with me you know I could

1313

00:59:04,859 --> 00:58:58,789

probably talk for hours and hours and

1314

00:59:07,630 --> 00:59:04,869

days yeah we do keep in touch and try to

1315

00:59:10,240 --> 00:59:07,640

put reports you know give each other

1316

00:59:13,450 --> 00:59:10,250

reports on certain things that pop up or

1317

00:59:15,160 --> 00:59:13,460

away so I had to have you come on again

1318

00:59:17,319 --> 00:59:15,170

and when your new book comes out we'll

1319

00:59:19,599 --> 00:59:17,329

definitely have you on oh thanks so much

1320

00:59:23,710 --> 00:59:19,609

anytime you take care now

1321

00:59:27,069 --> 00:59:23,720

you too thanks a lot mm-hmm now before I

1322

00:59:31,329 --> 00:59:27,079

go let me leave this with the listeners

1323

00:59:33,789 --> 00:59:31,339

in the movies the villain always died in

1324

00:59:37,089 --> 00:59:33,799

the end even the monsters

1325

00:59:39,359 --> 00:59:37,099

for instance Dracula stick a wooden

1326

00:59:41,920 --> 00:59:39,369

stick in his heart and he turned to dust

1327

00:59:44,760 --> 00:59:41,930

but those things in our nightmares

1328

00:59:49,059 --> 00:59:44,770

always seem to come back to haunt us

1329

00:59:51,010 --> 00:59:49,069

sometimes beyond our dreams I think

1330

00:59:53,620 --> 00:59:51,020

every word for listening to the show and

1331

01:00:04,190 --> 00:59:53,630

for your support good night and have a

1332

01:00:04,200 --> 01:00:16,830

[Music]

1333

01:00:16,840 --> 01:00:20,260

[Applause]

1334

01:01:17,420 --> 01:00:41,900

[Music]
