when we were children our parents told

5
00:00:23,710 --> 00:00:21,439
us that monsters didn't exist but we

6
00:00:26,320 --> 00:00:23,720
were sure that something is lurking

7
00:00:30,690 --> 00:00:26,330
under the better

8
00:00:33,760 --> 00:00:30,700
beer seeds even if our eyes are closed

manifestations and remarkable realities

imagine this next hour as a voyage of

14

00:00:54,340 --> 00:00:51,230

discovery to strange lands seeking not

15

00:00:57,400 --> 00:00:54,350

for new territory but for new knowledge

16

00:01:08,950 --> 00:00:57,410

of the supernatural come on board as we

17

00:01:10,360 --> 00:01:08,960

begin this adventure together hey folks

18

00:01:12,910 --> 00:01:10,370

good evening and welcome to another

19

00:01:14,770 --> 00:01:12,920

episode of arcane radio where we explore

20

00:01:17,380 --> 00:01:14,780

the unexplained here on the paranormal

21

00:01:19,420 --> 00:01:17,390

King radio network I'm your host LAN

22

00:01:21,550 --> 00:01:19,430

Stricker coming to you with an a cannon

23

00:01:24,100 --> 00:01:21,560

shot of historic Gettysburg in the

24

00:01:27,190 --> 00:01:24,110

cryptid mecca of Pennsylvania I thank

25

00:01:31,500 --> 00:01:27,200

you for joining me now before we start

26
00:01:35,050 --> 00:01:31,510
with our guests I want to mention a new

27
00:01:38,590 --> 00:01:35,060
email' new case we got that came into US

28
00:01:41,050 --> 00:01:38,600
on August the 12th this past Monday I

29
00:01:42,730 --> 00:01:41,060
received an email and then a telephone

30
00:01:46,110 --> 00:01:42,740
call from a gentleman by name a mark

31
00:01:49,900 --> 00:01:46,120
Hagen of South Shore ghostbusters in

32
00:01:51,670 --> 00:01:49,910
South Chicago he wanted to report a

33
00:01:54,010 --> 00:01:51,680
sighting with large wing humanoid in the

34
00:01:58,330 --> 00:01:54,020
Hammond Indiana area which occurred

35
00:02:03,640 --> 00:01:58,340
August 2018 about a year ago now his

36
00:02:05,770 --> 00:02:03,650
statement was it was August 2018 my wife

37
00:02:08,410 --> 00:02:05,780
and I were driving south on Kalman

38
00:02:10,990 --> 00:02:08,420

Avenue and we were coming up to the red

39

00:02:14,500 --> 00:02:11,000

light at 131st Street when we heard what

40

00:02:16,630 --> 00:02:14,510

sounded like leather rustling now this

41

00:02:19,509 --> 00:02:16,640

was in the evening we looked to the

42

00:02:23,080 --> 00:02:19,519

retention pond on our left and saw a

43

00:02:26,170 --> 00:02:23,090

glowing something so glowing red that I

44

00:02:28,509 --> 00:02:26,180

am going to see more eyes and saw a

45

00:02:29,369 --> 00:02:28,519

large bat-like creature take to the

46

00:02:32,410 --> 00:02:29,379

skies

47

00:02:34,809 --> 00:02:32,420

it was dark-colored and easily had to be

48

00:02:37,330 --> 00:02:34,819

six foot or more tall from what I can

49

00:02:40,180 --> 00:02:37,340

make out the wingspan was close to ten

50

00:02:42,580 --> 00:02:40,190

foot or more about a week or so

51
00:02:45,010 --> 00:02:42,590
later driving with my colleague in south

52
00:02:48,640 --> 00:02:45,020
shore ghostbusters this time we saw it

53
00:02:51,520 --> 00:02:48,650
atop decline Avenue overpass like it was

54
00:02:54,270 --> 00:02:51,530
eating something we turned around only

55
00:02:56,800 --> 00:02:54,280
to see it take off the skies once more

56
00:02:58,210 --> 00:02:56,810
now we've been investigating the error

57
00:03:00,640 --> 00:02:58,220
and found this particular creature

58
00:03:02,560 --> 00:03:00,650
sticks close to the water now we have

59
00:03:05,020 --> 00:03:02,570
heard multiple counts of seeing red

60
00:03:08,070 --> 00:03:05,030
glowing lights over the waters of lost

61
00:03:11,170 --> 00:03:08,080
March since June or so of this year

62
00:03:12,910 --> 00:03:11,180
now Hagen also told me that he's very

63
00:03:15,220 --> 00:03:12,920

familiar with the water large waterfowl

64

00:03:16,510 --> 00:03:15,230

in the area and that this being was

65

00:03:19,270 --> 00:03:16,520

definitely not one of the indigenous

66

00:03:23,680 --> 00:03:19,280

birds done to have the air around Lake

67

00:03:25,420 --> 00:03:23,690

Michigan the team of planners of

68

00:03:26,830 --> 00:03:25,430

monsters 14 team plans to go in the area

69

00:03:30,030 --> 00:03:26,840

for further investigation

70

00:03:32,770 --> 00:03:30,040

now these sightings are very similar to

71

00:03:37,360 --> 00:03:32,780

location description from a report in

72

00:03:40,840 --> 00:03:37,370

July 2002 I first 2017 and that was over

73

00:03:43,930 --> 00:03:40,850

the Lord lost Marsh area there have been

74

00:03:46,180 --> 00:03:43,940

these red light red eye sightings of

75

00:03:50,620 --> 00:03:46,190

something that suddenly takes off into

76

00:03:53,170 --> 00:03:50,630

the air I talked to two residents in the

77

00:03:56,650 --> 00:03:53,180

Hammond Indiana area about a year and a

78

00:03:59,410 --> 00:03:56,660

half ago who were telling me that they

79

00:04:02,229 --> 00:03:59,420

noticed something that looked humanoid

80

00:04:06,190 --> 00:04:02,239

they had wings seemed to be feeding on

81

00:04:08,920 --> 00:04:06,200

fish in the in the wetlands around that

82

00:04:11,500 --> 00:04:08,930

area so we're going to be going back out

83

00:04:13,540 --> 00:04:11,510

in the field and looking at this area

84

00:04:17,080 --> 00:04:13,550

once again hopefully we'll come up some

85

00:04:19,330 --> 00:04:17,090

more information so let's get right into

86

00:04:21,880 --> 00:04:19,340

it tonight

87

00:04:24,760 --> 00:04:21,890

I welcome anomalies investigator author

88

00:04:27,550 --> 00:04:24,770

and artist Linda Godfrey to RK and Rio

89

00:04:29,950 --> 00:04:27,560

now Linda has written 19 books on

90

00:04:32,380 --> 00:04:29,960

strange creatures phenomena and people

91

00:04:35,380 --> 00:04:32,390

as journalists she was the first to

92

00:04:38,100 --> 00:04:35,390

break the story of a terrifying werewolf

93

00:04:40,930 --> 00:04:38,110

like monstrosity lurking in the shadows

94

00:04:44,080 --> 00:04:40,940

shrouded forest around Elk Horn of

95

00:04:46,300 --> 00:04:44,090

Wisconsin's Bray Road she's a frequent

96

00:04:48,779 --> 00:04:46,310

guest on national TV and radio shows

97

00:04:51,430 --> 00:04:48,789

including Master Quest Lost Tapes

98

00:04:52,780 --> 00:04:51,440

monsters and mysteries coast to coast am

99

00:04:55,330 --> 00:04:52,790

and many more

100

00:04:56,530 --> 00:04:55,340

Linda's most recent book is titled I

101
00:04:59,500 --> 00:04:56,540
know what I saw

102
00:05:03,490 --> 00:04:59,510
modern-day encounters with monsters of

103
00:05:05,620 --> 00:05:03,500
new urban legend and ancient lore so

104
00:05:07,300 --> 00:05:05,630
Linda thanks for joining me well thanks

105
00:05:11,890 --> 00:05:07,310
for having me always good to be on here

106
00:05:14,320 --> 00:05:11,900
with you now this book you have talked

107
00:05:19,540 --> 00:05:14,330
or mentioned about a lot of different

108
00:05:21,100 --> 00:05:19,550
types of cryptid beings but the one

109
00:05:23,140 --> 00:05:21,110
thing I did want to ask you about

110
00:05:25,030 --> 00:05:23,150
because this is a phenomena that I've

111
00:05:28,210 --> 00:05:25,040
been getting a lot of reports on lately

112
00:05:30,100 --> 00:05:28,220
and people have been talking about and I

113
00:05:31,300 --> 00:05:30,110

know these sightings do happen in your

114

00:05:34,480 --> 00:05:31,310

neck of the woods

115

00:05:38,920 --> 00:05:34,490

these Wendigo sightings what have you

116

00:05:41,920 --> 00:05:38,930

been hearing about that well you know it

117

00:05:43,270 --> 00:05:41,930

it's something that I always find a

118

00:05:45,490 --> 00:05:43,280

little bit confusing because the

119

00:05:49,210 --> 00:05:45,500

descriptions of them vary so much and

120

00:05:52,000 --> 00:05:49,220

especially if you go back into the the

121

00:05:54,790 --> 00:05:52,010

earliest Native American descriptions of

122

00:05:57,540 --> 00:05:54,800

them back in the 1600s and the first fur

123

00:06:00,360 --> 00:05:57,550

trappers and and priests were coming in

124

00:06:04,000 --> 00:06:00,370

knitting the the indigenous peoples

125

00:06:07,630 --> 00:06:04,010

religious beliefs they were describing

126

00:06:09,460 --> 00:06:07,640

windigos as being a spirit thing that

127

00:06:12,220 --> 00:06:09,470

would take over a person who had tried

128

00:06:14,950 --> 00:06:12,230

cannibalism or they went in sight the

129

00:06:16,630 --> 00:06:14,960

person to try cannibalism and and then

130

00:06:18,340 --> 00:06:16,640

the thing would just grow and grow but

131

00:06:22,090 --> 00:06:18,350

it would turn less and less human and

132

00:06:24,790 --> 00:06:22,100

become thinner and actually eventually

133

00:06:26,470 --> 00:06:24,800

out of made out of pure ice and if

134

00:06:29,020 --> 00:06:26,480

anybody managed sometimes they would be

135

00:06:31,810 --> 00:06:29,030

22 feet tall by the way and if anybody

136

00:06:33,370 --> 00:06:31,820

managed to kill one it would melt down

137

00:06:36,040 --> 00:06:33,380

and then they might find the shriveled

138

00:06:38,970 --> 00:06:36,050

body or just just the heart sometimes

139

00:06:43,360 --> 00:06:38,980

well the person that did that so that

140

00:06:45,190 --> 00:06:43,370

was my original thought of what the

141

00:06:48,550 --> 00:06:45,200

windigos must be and that they were

142

00:06:51,280 --> 00:06:48,560

hunger starvation related in mostly the

143

00:06:52,900 --> 00:06:51,290

northern US and in Canada and that's

144

00:06:57,280 --> 00:06:52,910

where a lot of these legends do come out

145

00:06:59,200 --> 00:06:57,290

from but I think that the the definition

146

00:07:01,870 --> 00:06:59,210

has been sort of evolving and changing

147

00:07:04,450 --> 00:07:01,880

whereas now we're hearing about things

148

00:07:06,190 --> 00:07:04,460

that look more human-like the more human

149

00:07:08,800 --> 00:07:06,200

sized

150

00:07:11,050 --> 00:07:08,810

they're more like taken over by a demon

151

00:07:13,660 --> 00:07:11,060

or something on that order in many of

152

00:07:15,640 --> 00:07:13,670

the stories so it's it's something that

153

00:07:20,790 --> 00:07:15,650

has evolved and changed and I don't know

154

00:07:23,290 --> 00:07:20,800

if it's really all the same creature or

155

00:07:26,890 --> 00:07:23,300

you know I'm not sure about that yet

156

00:07:28,690 --> 00:07:26,900

yeah it's strange because you know over

157

00:07:31,950 --> 00:07:28,700

the last few years I've been getting a

158

00:07:36,130 --> 00:07:31,960

lot of these reports what people call a

159

00:07:40,480 --> 00:07:36,140

flesh gate or a rake or something to

160

00:07:43,120 --> 00:07:40,490

that effect kind of a thin the humanoid

161

00:07:45,610 --> 00:07:43,130

type being sometimes it kind of

162

00:07:47,130 --> 00:07:45,620

resembles a deer with large antlers

163

00:07:51,580 --> 00:07:47,140

right

164

00:07:54,570 --> 00:07:51,590

you know I guess not a mother roid this

165

00:07:58,840 --> 00:07:54,580

described is the same but there's always

166

00:08:01,000 --> 00:07:58,850

something to do with cannibalism or you

167

00:08:02,860 --> 00:08:01,010

know recently I got a report a girl who

168

00:08:05,830 --> 00:08:02,870

was attacked out in Utah by something

169

00:08:08,110 --> 00:08:05,840

that and she was indigenous as well and

170

00:08:10,450 --> 00:08:08,120

she stated that this thing came back to

171

00:08:11,740 --> 00:08:10,460

her and her dog so I don't know what

172

00:08:15,220 --> 00:08:11,750

people are seeing and we've been getting

173

00:08:16,690 --> 00:08:15,230

reports in Pennsylvania as well yeah and

174

00:08:19,150 --> 00:08:16,700

I know there's a lot there's another

175

00:08:20,320 --> 00:08:19,160

thin creature called the Albert which

176
00:08:22,150 --> 00:08:20,330

yeah

177
00:08:26,530 --> 00:08:22,160

that's another indigenous one I think

178
00:08:29,740 --> 00:08:26,540

it's from Pennsylvania area and the [h__h]

179
00:08:32,680 --> 00:08:29,750

the Slenderman right is another one that

180
00:08:36,280 --> 00:08:32,690

that that one doesn't have anything to

181
00:08:38,850 --> 00:08:36,290

do really with indigenous but a lot of

182
00:08:42,700 --> 00:08:38,860

it is made up because it came from

183
00:08:45,970 --> 00:08:42,710

people writing into this horror writing

184
00:08:48,400 --> 00:08:45,980

yeah creepy costume yeah but it's it's

185
00:08:51,040 --> 00:08:48,410

sort of has become cemented into the

186
00:08:53,320 --> 00:08:51,050

lore and gets lumped in with with as you

187
00:08:55,720 --> 00:08:53,330

say the break and these other the hat

188
00:08:58,030 --> 00:08:55,730

man is another one shadow shadow man and

189

00:09:00,160 --> 00:08:58,040

the weird thing about that is it's sort

190

00:09:04,510 --> 00:09:00,170

of segwayed off I've been getting more

191

00:09:06,130 --> 00:09:04,520

and more stories about phantom dogs that

192

00:09:09,730 --> 00:09:06,140

are blood they're black dogs they have

193

00:09:11,410 --> 00:09:09,740

red eyes very large and when they turn

194

00:09:14,860 --> 00:09:11,420

around the people see that they're two

195

00:09:16,660 --> 00:09:14,870

dimensional mm-hmm and that's really

196

00:09:18,519 --> 00:09:16,670

unusual and they seem more related to

197

00:09:21,550 --> 00:09:18,529

like the Hat man

198

00:09:24,749 --> 00:09:21,560

that's often seen in silhouette you know

199

00:09:27,400 --> 00:09:24,759

or these other things so it

200

00:09:29,920 --> 00:09:27,410

it's like there's this whole basket of

201
00:09:33,189 --> 00:09:29,930
new stuff out there and yet it's old you

202
00:09:35,590 --> 00:09:33,199
know the yeah the the idea of flying

203
00:09:37,569 --> 00:09:35,600
things and skinny flying things goes

204
00:09:40,569 --> 00:09:37,579
back to vampires and from Jericho's

205
00:09:43,269 --> 00:09:40,579
farther back to like the the Pazuzu and

206
00:09:44,920 --> 00:09:43,279
in the Sumerians so it's something

207
00:09:47,139 --> 00:09:44,930
that's been around for a long time and

208
00:09:48,429 --> 00:09:47,149
sometimes it has wings and some meant

209
00:09:49,840 --> 00:09:48,439
most of them have wings that went

210
00:09:52,210 --> 00:09:49,850
especially when they're seen flying but

211
00:09:55,179 --> 00:09:52,220
it's a very different from the other

212
00:09:57,819 --> 00:09:55,189
large flying bird-like creatures that

213
00:10:00,819 --> 00:09:57,829

would probably more properly be called

214

00:10:05,049 --> 00:10:00,829

the the the Thunderbirds which would be

215

00:10:07,840 --> 00:10:05,059

the giant Raptors core sometimes they

216

00:10:10,780 --> 00:10:07,850

look like giant storks they're not

217

00:10:12,309 --> 00:10:10,790

so way back when I will not way back

218

00:10:15,699 --> 00:10:12,319

five years ago probably when I was

219

00:10:17,949 --> 00:10:15,709

writing the American masters but it just

220

00:10:20,170 --> 00:10:17,959

and and I started doing more research I

221

00:10:23,230 --> 00:10:20,180

was just flabbergasted and how many

222

00:10:25,420 --> 00:10:23,240

flying things there were you know and

223

00:10:27,280 --> 00:10:25,430

there's still also the basketball and

224

00:10:29,439 --> 00:10:27,290

the bad Squatch which is my favorite

225

00:10:32,530 --> 00:10:29,449

Crypt as well as descriptive zoological

226
00:10:34,509 --> 00:10:32,540
name I think of all of them you know and

227
00:10:36,879 --> 00:10:34,519
and I personally investigated one of

228
00:10:40,119 --> 00:10:36,889
those over by La Crosse Wisconsin was

229
00:10:42,129 --> 00:10:40,129
very much like the bad Squatch and this

230
00:10:43,780 --> 00:10:42,139
one did involve indigenous people and it

231
00:10:44,799 --> 00:10:43,790
was flying at their truck windshield

232
00:10:47,139 --> 00:10:44,809
they thought it was going to hit them

233
00:10:49,960 --> 00:10:47,149
and then like you were just discussing

234
00:10:53,019 --> 00:10:49,970
it's also similar it didn't just the

235
00:10:55,480 --> 00:10:53,029
last second flip up words turned up

236
00:10:57,970 --> 00:10:55,490
sailed off screeching at this high high

237
00:11:00,340 --> 00:10:57,980
volume and both the men and the truck

238
00:11:03,340 --> 00:11:00,350

became sick they had to pull over some

239

00:11:06,069 --> 00:11:03,350

one of them can throw up sick for weeks

240

00:11:07,809 --> 00:11:06,079

and lacrosse happens to be you're

241

00:11:11,350 --> 00:11:07,819

talking about them being near water

242

00:11:13,299 --> 00:11:11,360

it's right on the Mississippi and it has

243

00:11:15,999 --> 00:11:13,309

part of the city is on this island

244

00:11:20,230 --> 00:11:16,009

French island and there's a powerful

245

00:11:22,569 --> 00:11:20,240

under the power plant there so and I've

246

00:11:23,379 --> 00:11:22,579

had and after the story ran about the

247

00:11:25,059 --> 00:11:23,389

first sighting

248

00:11:27,220 --> 00:11:25,069

I had reports from other people who

249

00:11:28,600 --> 00:11:27,230

actually lived on on French island one

250

00:11:31,929 --> 00:11:28,610

of them was having a cigarette in his

251
00:11:34,839 --> 00:11:31,939
backyard and saw it on his kids swing so

252
00:11:36,809 --> 00:11:34,849
senator playset in the backyard if you

253
00:11:39,339 --> 00:11:36,819
just hang in there in the moonlight and

254
00:11:42,609 --> 00:11:39,349
another one had seen it out on his yard

255
00:11:45,549 --> 00:11:42,619
too so these things I believe are

256
00:11:48,009 --> 00:11:45,559
probably more widespread than we know

257
00:11:49,749 --> 00:11:48,019
and if just as people become aware and

258
00:11:51,729 --> 00:11:49,759
they know it is something they should

259
00:11:54,909 --> 00:11:51,739
report that we begin to realize there

260
00:11:58,599 --> 00:11:54,919
are more and more of them you are now

261
00:12:02,079 --> 00:11:58,609
you did write a bit about these canine

262
00:12:06,039 --> 00:12:02,089
type phantoms or other types of canines

263
00:12:07,079 --> 00:12:06,049

dier dier dogs and such you talked a bit

264

00:12:10,479 --> 00:12:07,089

about those

265

00:12:12,819 --> 00:12:10,489

yeah the dyer dog is something that's

266

00:12:17,019 --> 00:12:12,829

been a real interest to me for the past

267

00:12:18,789 --> 00:12:17,029

27 years because as soon as i did that

268

00:12:20,469 --> 00:12:18,799

story about the beast of Bray Road and

269

00:12:22,629 --> 00:12:20,479

it kind of went national and everybody

270

00:12:24,549 --> 00:12:22,639

was hearing about it I started getting

271

00:12:29,169 --> 00:12:24,559

all kinds of monster stories but

272

00:12:33,069 --> 00:12:29,179

particularly they were either a Bigfoot

273

00:12:34,719 --> 00:12:33,079

or they were some type of huge dog that

274

00:12:37,929 --> 00:12:34,729

wasn't on its hind legs you know it

275

00:12:40,389 --> 00:12:37,939

couldn't really be described as a dog

276

00:12:44,529 --> 00:12:40,399

man in my book because it was on all

277

00:12:46,119 --> 00:12:44,539

fours but they were so large that almost

278

00:12:48,429 --> 00:12:46,129

everybody who's ever reported them has

279

00:12:51,579 --> 00:12:48,439

compared them to either a miniature

280

00:12:53,559 --> 00:12:51,589

horse a Shetland pony or a bull calf

281

00:12:55,989 --> 00:12:53,569

that's how big they are they're bigger

282

00:12:58,929 --> 00:12:55,999

than the biggest dogs and people would

283

00:13:00,909 --> 00:12:58,939

see them sometimes sitting and looking

284

00:13:03,519 --> 00:13:00,919

mournfully at them from the side of the

285

00:13:05,229 --> 00:13:03,529

road and just they drive on by and and

286

00:13:07,809 --> 00:13:05,239

this thing would just be sitting there

287

00:13:12,489 --> 00:13:07,819

staring at the but more often it chases

288

00:13:14,619 --> 00:13:12,499

cars and it keeps up with the car or the

289

00:13:16,449 --> 00:13:14,629

truck or whatever it is and people will

290

00:13:19,210 --> 00:13:16,459

I hear this over and over and over again

291

00:13:21,489 --> 00:13:19,220

they'll say it was so tall that it's

292

00:13:24,819 --> 00:13:21,499

shoulders were even with the bottom of

293

00:13:27,909 --> 00:13:24,829

my driver's side window which is gonna

294

00:13:29,919 --> 00:13:27,919

put it shoulder height at over 36 inches

295

00:13:32,319 --> 00:13:29,929

probably and I think the biggest dog

296

00:13:34,779 --> 00:13:32,329

measurement is maybe 32 and the thing

297

00:13:36,909 --> 00:13:34,789

about it also was that not only were

298

00:13:38,319 --> 00:13:36,919

they they chasing these cars sometimes

299

00:13:40,629 --> 00:13:38,329

and they were trying to bump them off

300

00:13:43,629 --> 00:13:40,639

the road and in many cases they at least

301
00:13:45,399 --> 00:13:43,639
make contact and I've had one not too

302
00:13:45,840 --> 00:13:45,409
long ago where it did bump somebody off

303
00:13:48,090 --> 00:13:45,850
the road

304
00:13:49,950 --> 00:13:48,100
they managed to find out recover they

305
00:13:51,750 --> 00:13:49,960
had a right kind of vehicle that you

306
00:13:54,500 --> 00:13:51,760
kind of get back out of that ditch side

307
00:13:58,920 --> 00:13:54,510
where they work the other thing is that

308
00:14:00,990 --> 00:13:58,930
they sometimes look more doglike they

309
00:14:03,120 --> 00:14:01,000
might have slightly shorter ears then

310
00:14:07,050 --> 00:14:03,130
the dog men or the slightly shorter

311
00:14:09,300 --> 00:14:07,060
muzzle and their head is universally

312
00:14:13,440 --> 00:14:09,310
almost reported as being too big for the

313
00:14:16,110 --> 00:14:13,450

body and the big wide jaws and these

314

00:14:18,870 --> 00:14:16,120

reminded me more of the build of the

315

00:14:21,570 --> 00:14:18,880

dire wolves the dire wolf which we have

316

00:14:23,400 --> 00:14:21,580

plenty of skeletons and remains to

317

00:14:26,730 --> 00:14:23,410

examine especially in Southern

318

00:14:29,430 --> 00:14:26,740

California also had these big choppers

319

00:14:31,350 --> 00:14:29,440

made to grind bone you know that was one

320

00:14:33,870 --> 00:14:31,360

of the main differences they were not

321

00:14:35,610 --> 00:14:33,880

all that much bigger than the good

322

00:14:38,130 --> 00:14:35,620

science timber Wolf's that we have today

323

00:14:40,590 --> 00:14:38,140

there they weren't enormous in fact the

324

00:14:43,710 --> 00:14:40,600

ones that people are reporting to me now

325

00:14:45,510 --> 00:14:43,720

sound as big if not bigger than the

326

00:14:47,820 --> 00:14:45,520

actual de are wolves and I've been

327

00:14:50,400 --> 00:14:47,830

keeping them you know year by year and

328

00:14:52,440 --> 00:14:50,410

finally I had this stash of them that I

329

00:14:54,360 --> 00:14:52,450

thought well I've put some of these in

330

00:14:57,270 --> 00:14:54,370

different places in the books where they

331

00:14:59,670 --> 00:14:57,280

seem to fit other categories but it

332

00:15:01,050 --> 00:14:59,680

seemed like it was time to admit that

333

00:15:06,030 --> 00:15:01,060

yeah here was this whole classification

334

00:15:10,680 --> 00:15:06,040

of these big big boned tall thick

335

00:15:12,840 --> 00:15:10,690

thickly built four legged dog like

336

00:15:14,700 --> 00:15:12,850

creatures that people still would notice

337

00:15:17,520 --> 00:15:14,710

they say this was just no dog this is no

338

00:15:19,020 --> 00:15:17,530

ordinary dog and seem to me that since

339

00:15:21,840 --> 00:15:19,030

they had kind of both the features of

340

00:15:24,420 --> 00:15:21,850

the direwolf and the big dogs that dire

341

00:15:27,090 --> 00:15:24,430

dogs sounded like the right thing to

342

00:15:28,530 --> 00:15:27,100

call them and so I just I'll start out

343

00:15:30,900 --> 00:15:28,540

with that and if people think it's

344

00:15:36,170 --> 00:15:30,910

appropriate you know and it sticks fine

345

00:15:39,180 --> 00:15:36,180

but this is one of the really creepiest

346

00:15:41,940 --> 00:15:39,190

categories I think because they're they

347

00:15:45,090 --> 00:15:41,950

are more combative they are more

348

00:15:48,600 --> 00:15:45,100

aggressive I want to say then the

349

00:15:50,160 --> 00:15:48,610

regular dog men which 90% of the time

350

00:15:51,450 --> 00:15:50,170

unless you're getting stalked in the

351

00:15:53,730 --> 00:15:51,460

forest at night or something they're

352

00:15:55,320 --> 00:15:53,740

going across the road you know they're

353

00:15:58,200 --> 00:15:55,330

they're usually not attacking the cars

354

00:15:59,580 --> 00:15:58,210

or doing anything overtly really

355

00:16:01,560 --> 00:15:59,590

aggressive where these things

356

00:16:03,810 --> 00:16:01,570

desire it's like they want to get you

357

00:16:05,370 --> 00:16:03,820

off-the-road and see what they can do do

358

00:16:07,770 --> 00:16:05,380

with you it's what people think and it

359

00:16:09,150 --> 00:16:07,780

does it scares people more and then just

360

00:16:10,830 --> 00:16:09,160

seeing one from the safety of their car

361

00:16:15,240 --> 00:16:10,840

when the animal is actually trying to

362

00:16:19,260 --> 00:16:15,250

get you off the road you know I had a

363

00:16:21,330 --> 00:16:19,270

out of report last year from a hunter

364

00:16:25,440 --> 00:16:21,340

here in Pennsylvania near the Tuscarora

365

00:16:28,760 --> 00:16:25,450

State Park and you know Butch and I have

366

00:16:32,040 --> 00:16:28,770

been looking into the upright canine and

367

00:16:37,320 --> 00:16:32,050

this thing he saw was on four legs

368

00:16:38,760 --> 00:16:37,330

quadruped ed but it was huge and he was

369

00:16:41,130 --> 00:16:38,770

up in his tree it was up in his deer

370

00:16:45,300 --> 00:16:41,140

stand and he saw this thing he saw two

371

00:16:49,530 --> 00:16:45,310

of them running across the field after a

372

00:16:51,420 --> 00:16:49,540

deer and he sat there and he lost sight

373

00:16:54,150 --> 00:16:51,430

of it then a couple of minutes later

374

00:16:58,260 --> 00:16:54,160

this thing started coming towards him

375

00:17:02,460 --> 00:16:58,270

and he was looking out over a field from

376

00:17:07,050 --> 00:17:02,470

the edge of the woods and this quadruped

377

00:17:09,300 --> 00:17:07,060

ed walked up to his you know - like 50

378

00:17:14,190 --> 00:17:09,310

yards in front of his deer stand and

379

00:17:16,860 --> 00:17:14,200

just sat and he said I swear this thing

380

00:17:19,770 --> 00:17:16,870

had the head of a wolf it was huge

381

00:17:23,010 --> 00:17:19,780

bigger than a wolf and it actually had a

382

00:17:25,080 --> 00:17:23,020

sloping back like that of a hyena yes

383

00:17:29,180 --> 00:17:25,090

that's another thing they report exactly

384

00:17:33,780 --> 00:17:29,190

I Wow yeah and he said it's sat there

385

00:17:35,190 --> 00:17:33,790

for a long time just looking at him and

386

00:17:37,620 --> 00:17:35,200

he said you know I was afraid to take a

387

00:17:39,510 --> 00:17:37,630

shot at it because I don't you know you

388

00:17:41,580 --> 00:17:39,520

eat something you don't know what it is

389

00:17:43,650 --> 00:17:41,590

you know I hear that all the time of

390

00:17:45,840 --> 00:17:43,660

these people that that walk up onto

391

00:17:48,840 --> 00:17:45,850

these upright canines there there's

392

00:17:50,820 --> 00:17:48,850

these things are so big and they're you

393

00:17:52,830 --> 00:17:50,830

know it's like they've you know

394

00:17:54,240 --> 00:17:52,840

something's telling that do not take a

395

00:17:57,510 --> 00:17:54,250

shot at this thing even when they're

396

00:17:59,310 --> 00:17:57,520

armed so the fact of it sitting there

397

00:18:01,290 --> 00:17:59,320

like that it's really a different

398

00:18:02,850 --> 00:18:01,300

behavior than the regular dog man yeah

399

00:18:04,230 --> 00:18:02,860

just get out of sight

400

00:18:05,880 --> 00:18:04,240

you know it'll run off into whatever

401

00:18:07,740 --> 00:18:05,890

cover there is if it's think if it

402

00:18:11,280 --> 00:18:07,750

thinks you're really staring at this one

403

00:18:12,320 --> 00:18:11,290

sort of invites being stared at it it's

404

00:18:14,360 --> 00:18:12,330

like it kind of wild

405

00:18:16,250 --> 00:18:14,370

that what what I recall that always gave

406

00:18:18,350 --> 00:18:16,260

me the shivers was from a school bus

407

00:18:21,110 --> 00:18:18,360

driver who was going up a hill and this

408

00:18:23,539 --> 00:18:21,120

one was sitting with the Sun Sun kind of

409

00:18:25,820 --> 00:18:23,549

setting lighting up its face and just

410

00:18:28,490 --> 00:18:25,830

looking at her going past with this

411

00:18:30,740 --> 00:18:28,500

school bus as it as she went slowly up

412

00:18:32,419 --> 00:18:30,750

the hill and it just sat there looking

413

00:18:33,639 --> 00:18:32,429

and looking and looking as if you know

414

00:18:37,970 --> 00:18:33,649

you just wonder what they're thinking

415

00:18:40,970 --> 00:18:37,980

mm-hmm I have the I had a report given

416

00:18:44,840 --> 00:18:40,980

to me by some guy who does investigate

417

00:18:46,970 --> 00:18:44,850

sightings for me down in Alabama and he

418

00:18:50,629 --> 00:18:46,980

he there's south of Birmingham he was

419

00:18:54,850 --> 00:18:50,639

telling me that a friend of his was out

420

00:18:58,009 --> 00:18:54,860

one early evening of still light up and

421

00:19:01,070 --> 00:18:58,019

they were driving a you know these large

422

00:19:03,259 --> 00:19:01,080

Escalades and his wife was driving and

423

00:19:05,960 --> 00:19:03,269

his his mother-in-law was in the front

424

00:19:09,950 --> 00:19:05,970

seat and that he was in the back and

425

00:19:13,360 --> 00:19:09,960

they were driving down the road and this

426

00:19:16,909 --> 00:19:13,370

something huge with large yellow eyes

427

00:19:20,210 --> 00:19:16,919

was in the right right lane it was a

428

00:19:22,720 --> 00:19:20,220

two-lane road and they slowed up and as

429

00:19:26,990 --> 00:19:22,730

they got closer to it it was a huge

430

00:19:30,580 --> 00:19:27,000

canine that was sitting on the right

431

00:19:34,399 --> 00:19:30,590

lane of this road large yellow eyes and

432

00:19:37,759 --> 00:19:34,409

the guy swore they had to slow up and go

433

00:19:41,000 --> 00:19:37,769

past this thing he swore that it's

434

00:19:44,930 --> 00:19:41,010

shoulders were at the level of the side

435

00:19:48,110 --> 00:19:44,940

mirrors of this Escalade exactly that's

436

00:19:50,450 --> 00:19:48,120

our huge canine it is it is well think

437

00:19:52,639 --> 00:19:50,460

of a canine the size about Shetland pony

438

00:19:55,580 --> 00:19:52,649

you know and that that's what they're

439

00:19:58,700 --> 00:19:55,590

all saying yeah it's not the same it

440

00:20:01,159 --> 00:19:58,710

doesn't behave the same as the man

441

00:20:03,590 --> 00:20:01,169

wolves or wolf men or or dog men

442

00:20:06,230 --> 00:20:03,600

whatever you want to call it does it's

443

00:20:08,269 --> 00:20:06,240

it's much thicker much heavier if the

444

00:20:11,450 --> 00:20:08,279

jaws are more noticeable even if it has

445

00:20:15,200 --> 00:20:11,460

the wolf type head and yeah it's it's

446

00:20:16,850 --> 00:20:15,210

like a new entity into itself Wow

447

00:20:18,799 --> 00:20:16,860

do you think these things are indigenous

448

00:20:22,970 --> 00:20:18,809

do you think they're flesh and blood or

449

00:20:25,580 --> 00:20:22,980

did spirit well so far you know they

450

00:20:28,850 --> 00:20:25,590

seem to be really

451

00:20:30,740 --> 00:20:28,860

not at all afraid of making physical

452

00:20:34,070 --> 00:20:30,750

contact and they can make a heavy

453

00:20:36,350 --> 00:20:34,080

physical contact right they can leave

454

00:20:39,950 --> 00:20:36,360

tracks people have seen the big tracks

455

00:20:41,799 --> 00:20:39,960

but it's it's really hard they don't so

456

00:20:43,970 --> 00:20:41,809

they don't seem like they should be

457

00:20:46,789 --> 00:20:43,980

spirits but on the other hand they're

458

00:20:49,610 --> 00:20:46,799

really weird yeah when they're when they

459

00:20:52,279 --> 00:20:49,620

look completely doglike and actually my

460

00:20:56,990 --> 00:20:52,289

one thought is that perhaps in Canada

461

00:20:58,880 --> 00:20:57,000

there are pockets of say I mean ten

462

00:21:00,710 --> 00:20:58,890

thousand years is not a long time for

463

00:21:02,840 --> 00:21:00,720

the direwolf's to have been extinct and

464

00:21:05,180 --> 00:21:02,850

they're not to be a small pocket of them

465

00:21:07,399 --> 00:21:05,190

somewhere up and I mean Alaska's huge

466

00:21:08,810 --> 00:21:07,409

Canada's huge somewhere up there who is

467

00:21:12,049 --> 00:21:08,820

to say that there isn't a pocket and

468

00:21:16,039 --> 00:21:12,059

that if they interbred with some of the

469

00:21:18,049 --> 00:21:16,049

large huge mounds that humans have bred

470

00:21:20,330 --> 00:21:18,059

that maybe you would get something like

471

00:21:22,220 --> 00:21:20,340

something like this and right generally

472

00:21:23,450 --> 00:21:22,230

when you when you put two clothes they

473

00:21:25,190 --> 00:21:23,460

well they would still be dogs they're

474

00:21:28,070 --> 00:21:25,200

not really different species but when

475

00:21:30,680 --> 00:21:28,080

you when you put two unlike animals

476
00:21:32,899 --> 00:21:30,690
together if they can breed the offspring

477
00:21:34,909 --> 00:21:32,909
will often be larger still than the

478
00:21:38,000 --> 00:21:34,919
parents kind of like the liger

479
00:21:40,909 --> 00:21:38,010
you know right well you know that that's

480
00:21:43,460 --> 00:21:40,919
like the coywolf that is so prevalent up

481
00:21:45,470 --> 00:21:43,470
in Canada and you know these things have

482
00:21:49,039 --> 00:21:45,480
been moving south we were actually

483
00:21:51,769 --> 00:21:49,049
seeing it in Pennsylvania and you know

484
00:21:56,049 --> 00:21:51,779
the course of Lourdes they're a mix

485
00:21:58,760 --> 00:21:56,059
between a Timberwolf and a and a coyote

486
00:22:02,950 --> 00:21:58,770
and of course the coyotes have been here

487
00:22:06,080 --> 00:22:02,960
for the past couple of decades now and

488
00:22:09,740 --> 00:22:06,090

these things are the kind of lanky but

489

00:22:11,269 --> 00:22:09,750

they're big right I know I have a friend

490

00:22:13,220 --> 00:22:11,279

who lives up in Toronto and he was

491

00:22:15,320 --> 00:22:13,230

telling me they've been having trouble

492

00:22:18,169 --> 00:22:15,330

up there for over a decade now with

493

00:22:19,820 --> 00:22:18,179

these things in the outskirts of Toronto

494

00:22:21,560 --> 00:22:19,830

so apparently they're making their way

495

00:22:23,240 --> 00:22:21,570

down through New York and down into

496

00:22:25,460 --> 00:22:23,250

Pennsylvania I don't know if you're

497

00:22:27,830 --> 00:22:25,470

getting the sightings where you are at

498

00:22:30,139 --> 00:22:27,840

all yeah oh yeah yeah they're pretty

499

00:22:32,149 --> 00:22:30,149

much all over all right yeah they're

500

00:22:34,760 --> 00:22:32,159

they've been moving eastward for a while

501
00:22:36,860 --> 00:22:34,770
so if you can get you know an inter

502
00:22:37,660 --> 00:22:36,870
breeding like that which sticks well

503
00:22:39,430 --> 00:22:37,670
then

504
00:22:41,950 --> 00:22:39,440
you know whiteness with the heat with

505
00:22:44,320 --> 00:22:41,960
the huge size and and they also have

506
00:22:46,840 --> 00:22:44,330
that the dier dier dogs off also have

507
00:22:49,450 --> 00:22:46,850
this sort of rough on the back of their

508
00:22:54,340 --> 00:22:49,460
necks oftentimes not always but it's

509
00:22:56,169 --> 00:22:54,350
pretty common feature unusual yeah I

510
00:22:58,330 --> 00:22:56,179
mean when I started getting these

511
00:23:00,370 --> 00:22:58,340
reports of these quadrupeds that just

512
00:23:02,410 --> 00:23:00,380
look like I mean bigger than a regular

513
00:23:05,530 --> 00:23:02,420

wolf it's like you gotta start wondering

514

00:23:08,320 --> 00:23:05,540

what are people seeing out there yeah

515

00:23:09,700 --> 00:23:08,330

but you know down in like down in

516

00:23:13,659 --> 00:23:09,710

Alabama I've been getting a lot of

517

00:23:16,539 --> 00:23:13,669

reports in turnaround north south and

518

00:23:18,880 --> 00:23:16,549

west of Birmingham I don't know what

519

00:23:21,400 --> 00:23:18,890

people are seeing but we're getting

520

00:23:26,049 --> 00:23:21,410

consistent sightings I've had four

521

00:23:28,110 --> 00:23:26,059

sightings within the past year and I I

522

00:23:32,200 --> 00:23:28,120

don't know what they've got down there

523

00:23:34,900 --> 00:23:32,210

but I don't know now something else you

524

00:23:39,580 --> 00:23:34,910

mentioned in your book where the the big

525

00:23:42,250 --> 00:23:39,590

cats and of course we all know you know

526

00:23:44,320 --> 00:23:42,260

even though the State Game Commission's

527

00:23:47,880 --> 00:23:44,330

officially don't want to recognize these

528

00:23:50,740 --> 00:23:47,890

things but they're out there right oh

529

00:23:53,470 --> 00:23:50,750

yeah and they're coming eastward again

530

00:23:55,419 --> 00:23:53,480

you know there was this huge campaign to

531

00:23:56,320 --> 00:23:55,429

wipe them all out especially the

532

00:23:59,380 --> 00:23:56,330

mountain lions

533

00:24:03,159 --> 00:23:59,390

back around the 1900s and by nineteen

534

00:24:05,890 --> 00:24:03,169

the the early 1930s or before they'd

535

00:24:08,440 --> 00:24:05,900

been pretty much exterminated everybody

536

00:24:10,299 --> 00:24:08,450

thought in almost every state I believe

537

00:24:13,780 --> 00:24:10,309

that they had pockets where they could

538

00:24:17,650 --> 00:24:13,790

hide out too but I started thinking

539

00:24:19,870 --> 00:24:17,660

about it more when a newspaper reporter

540

00:24:23,200 --> 00:24:19,880

and former editor of a paper in

541

00:24:26,650 --> 00:24:23,210

Hillsboro Wisconsin wrote me saying he

542

00:24:30,580 --> 00:24:26,660

had personally interviewed over 150

543

00:24:33,340 --> 00:24:30,590

people in an 18 mile radius which is not

544

00:24:36,460 --> 00:24:33,350

a very big territory from Hillsboro

545

00:24:38,710 --> 00:24:36,470

Wisconsin and the surrounding really

546

00:24:40,990 --> 00:24:38,720

rugged interesting territory where the

547

00:24:43,810 --> 00:24:41,000

glacier the glacier forgot to go and

548

00:24:45,700 --> 00:24:43,820

that a hundred fifty of them and that he

549

00:24:48,730 --> 00:24:45,710

said well over fifty percent were black

550

00:24:51,380 --> 00:24:48,740

or melanistic and never heard mountain

551
00:24:53,780 --> 00:24:51,390
lions are not supposed to exist

552
00:24:56,830 --> 00:24:53,790
they are said to be impossible because

553
00:25:01,100 --> 00:24:56,840
they're too far apart on the feline

554
00:25:03,169 --> 00:25:01,110
family tree and yet where would they all

555
00:25:08,180 --> 00:25:03,179
come from it is possible that some of

556
00:25:10,549 --> 00:25:08,190
them interbred with Jaguars can be

557
00:25:12,200 --> 00:25:10,559
melanistic you know and it gets into

558
00:25:13,910 --> 00:25:12,210
kind of lungs it's explained pretty well

559
00:25:16,610 --> 00:25:13,920
in the book I won't get into all of that

560
00:25:19,850 --> 00:25:16,620
but that's what this gentleman is name

561
00:25:23,299 --> 00:25:19,860
is Steve Stanek had done it I have got a

562
00:25:25,730 --> 00:25:23,309
lot of work on it and and I give him

563
00:25:28,880 --> 00:25:25,740

much all of the credit for finding these

564

00:25:32,120 --> 00:25:28,890

things but talking to these people you

565

00:25:33,830 --> 00:25:32,130

know we my husband and my son and I

566

00:25:35,299 --> 00:25:33,840

decided to form a little film company of

567

00:25:37,730 --> 00:25:35,309

our own and just make a little

568

00:25:39,560 --> 00:25:37,740

documentary because these people are so

569

00:25:41,720 --> 00:25:39,570

sincere and some of them are just

570

00:25:44,120 --> 00:25:41,730

incredibly qualified we have one woman

571

00:25:46,549 --> 00:25:44,130

who has several doctorates and she was

572

00:25:48,380 --> 00:25:46,559

an associate with the Florida panther

573

00:25:50,840 --> 00:25:48,390

project where they were bringing back

574

00:25:52,580 --> 00:25:50,850

the Florida Panthers so and she knows

575

00:25:54,590 --> 00:25:52,590

them she said I saw this pure black one

576

00:25:58,039 --> 00:25:54,600

sitting right in front of my car and I

577

00:26:00,110 --> 00:25:58,049

feel very qualified to say that this was

578

00:26:02,570 --> 00:26:00,120

like a black mountain lion I called she

579

00:26:06,169 --> 00:26:02,580

said I called it the black panther and

580

00:26:08,500 --> 00:26:06,179

so this seems like the the even bigger

581

00:26:10,880 --> 00:26:08,510

secret that they don't want to get out

582

00:26:12,650 --> 00:26:10,890

not only do they not want to talk about

583

00:26:15,140 --> 00:26:12,660

the actual mountain lions being there in

584

00:26:16,669 --> 00:26:15,150

such huge numbers even though everybody

585

00:26:20,120 --> 00:26:16,679

and their brother practically if you

586

00:26:24,140 --> 00:26:20,130

imagine this is a tiny tiny area of the

587

00:26:26,150 --> 00:26:24,150

state and not heavily populated so when

588

00:26:27,740 --> 00:26:26,160

you have that many sightings and Stanek

589

00:26:29,390 --> 00:26:27,750

thinks that there probably took twice

590

00:26:31,520 --> 00:26:29,400

that many easily just from people who

591

00:26:35,330 --> 00:26:31,530

won't talk you're talking about a giant

592

00:26:37,159 --> 00:26:35,340

portion of the whole area that have seen

593

00:26:39,020 --> 00:26:37,169

them and it's getting there used to be a

594

00:26:42,110 --> 00:26:39,030

really bad stigma now people are getting

595

00:26:44,900 --> 00:26:42,120

dramas want to be members of the club so

596

00:26:47,049 --> 00:26:44,910

to speak and the last and it's still

597

00:26:50,990 --> 00:26:47,059

happening the latest one we had was

598

00:26:52,700 --> 00:26:51,000

early March of this year and one of the

599

00:26:55,220 --> 00:26:52,710

town barbers was standing out on his

600

00:26:57,350 --> 00:26:55,230

back porch and saw a rather large

601
00:27:00,440 --> 00:26:57,360
specimen of what looked like a black

602
00:27:02,210 --> 00:27:00,450
mountain lion just coolly parading

603
00:27:04,220 --> 00:27:02,220
through his backyard as if it knew right

604
00:27:04,910 --> 00:27:04,230
where it was going and it went behind us

605
00:27:07,130 --> 00:27:04,920
out in some

606
00:27:09,920 --> 00:27:07,140
I lost track of it and I've been going

607
00:27:12,380 --> 00:27:09,930
up there periodically with my own trail

608
00:27:14,870 --> 00:27:12,390
cam and setting it we did get a

609
00:27:17,060 --> 00:27:14,880
wonderful shot black house cat but you

610
00:27:18,800 --> 00:27:17,070
can tell it's good to have something

611
00:27:20,780 --> 00:27:18,810
like that to compare it against right

612
00:27:23,420 --> 00:27:20,790
you know then then you know so we're

613
00:27:25,520 --> 00:27:23,430

still trying to get a shot because then

614

00:27:27,740 --> 00:27:25,530

he found out that his neighbor his

615

00:27:30,260 --> 00:27:27,750

next-door neighbor had had two sightings

616

00:27:33,050 --> 00:27:30,270

of it hmm

617

00:27:36,560 --> 00:27:33,060

so you know it's just it's really a big

618

00:27:39,620 --> 00:27:36,570

mystery and you know it's it's a mystery

619

00:27:42,440 --> 00:27:39,630

also as to why it's supposed to be kept

620

00:27:45,650 --> 00:27:42,450

so quiet one person when a member of

621

00:27:48,530 --> 00:27:45,660

local well just say a local official

622

00:27:52,730 --> 00:27:48,540

found out that she had been in her film

623

00:27:55,370 --> 00:27:52,740

talking about seeing a mother mountain

624

00:27:58,010 --> 00:27:55,380

lion and a kitten with her which makes

625

00:28:00,440 --> 00:27:58,020

it a breeding population which gets them

626

00:28:02,900 --> 00:28:00,450

into a whole nother thing said if she

627

00:28:06,440 --> 00:28:02,910

let that be shown she would not have a

628

00:28:08,300 --> 00:28:06,450

future in law enforcement what the

629

00:28:10,730 --> 00:28:08,310

person was half the person was having a

630

00:28:12,770 --> 00:28:10,740

ride along be because that was their

631

00:28:15,710 --> 00:28:12,780

goal was to be in law enforcement

632

00:28:17,510 --> 00:28:15,720

she just happened to see this and yeah

633

00:28:21,830 --> 00:28:17,520

so so we're getting threats to people

634

00:28:23,630 --> 00:28:21,840

right well now you know what happened

635

00:28:25,700 --> 00:28:23,640

over in great britain when they you know

636

00:28:28,130 --> 00:28:25,710

people started releasing their exotic

637

00:28:30,830 --> 00:28:28,140

cats and then they started breeding over

638

00:28:32,870 --> 00:28:30,840

there you think maybe that might be

639

00:28:36,170 --> 00:28:32,880

what's going on here to some degree that

640

00:28:37,820 --> 00:28:36,180

some of these these I don't know the

641

00:28:40,580 --> 00:28:37,830

breeders of people who kept these things

642

00:28:43,790 --> 00:28:40,590

as pets that kind of escaped I mean I

643

00:28:46,970 --> 00:28:43,800

know in Ohio there were Laura a very

644

00:28:49,310 --> 00:28:46,980

decent sized number of big cat escapes

645

00:28:52,430 --> 00:28:49,320

do you think that might be a possibility

646

00:28:55,670 --> 00:28:52,440

I do think that play some part of it I

647

00:28:58,930 --> 00:28:55,680

really do because Wisconsin has always

648

00:29:01,040 --> 00:28:58,940

been a circus state okay had a lot of

649

00:29:04,610 --> 00:29:01,050

overwintering communities that are

650

00:29:07,210 --> 00:29:04,620

overwintering for places for circuses or

651
00:29:12,860 --> 00:29:07,220
that they were overwintering places and

652
00:29:15,710 --> 00:29:12,870
I even actually have a historic write-up

653
00:29:18,440 --> 00:29:15,720
of one of the early circuses Hall's

654
00:29:21,320 --> 00:29:18,450
Circus which wintered in Evin

655
00:29:23,470 --> 00:29:21,330
still Wisconsin not well I know maybe

656
00:29:25,550 --> 00:29:23,480
maybe two or three hours away from

657
00:29:28,550 --> 00:29:25,560
Hillsboro but that's nothing for a big

658
00:29:32,690 --> 00:29:28,560
cat but they were told of one of the

659
00:29:35,930 --> 00:29:32,700
leopards escaping from its cage and it

660
00:29:37,700 --> 00:29:35,940
went up a tree and actually they had a

661
00:29:39,320 --> 00:29:37,710
small Posse to come and shut it and

662
00:29:42,230 --> 00:29:39,330
shoot it down and it still mauled

663
00:29:44,480 --> 00:29:42,240

somebody really badly on its way out as

664

00:29:47,000 --> 00:29:44,490

it was falling out of the tree that's

665

00:29:49,790 --> 00:29:47,010

just one example there there really are

666

00:29:51,890 --> 00:29:49,800

plenty more today where people are

667

00:29:54,710 --> 00:29:51,900

taking these things as pets finding

668

00:29:56,870 --> 00:29:54,720

finding out they can't handle them and

669

00:29:59,390 --> 00:29:56,880

then they end up if they're lucky at a

670

00:30:02,570 --> 00:29:59,400

big animal shelter there's two of them

671

00:30:03,890 --> 00:30:02,580

that I visited myself and we've talked

672

00:30:05,780 --> 00:30:03,900

to the people one of them displays a

673

00:30:08,630 --> 00:30:05,790

Siberian tiger that ate half of its

674

00:30:11,270 --> 00:30:08,640

owner because I'm eating it properly

675

00:30:13,690 --> 00:30:11,280

yeah so you can understand they get

676

00:30:16,190 --> 00:30:13,700

hungry and they start seeing other cases

677

00:30:19,580 --> 00:30:16,200

but yeah I do think that though that

678

00:30:22,070 --> 00:30:19,590

probably blends into the mix mm-hmm and

679

00:30:24,740 --> 00:30:22,080

makes you know every once in a while a

680

00:30:26,600 --> 00:30:24,750

new individual will appear and maybe it

681

00:30:29,200 --> 00:30:26,610

is something that is already melanistic

682

00:30:32,630 --> 00:30:29,210

there there seems to be a fair number of

683

00:30:35,810 --> 00:30:32,640

black leopards on display is in some of

684

00:30:38,480 --> 00:30:35,820

these and yeah we have we have an owner

685

00:30:41,090 --> 00:30:38,490

of one of the big cats shelters not too

686

00:30:45,260 --> 00:30:41,100

far from Baraboo who really tells it

687

00:30:47,900 --> 00:30:45,270

like it is in this film and it's it's

688

00:30:51,860 --> 00:30:47,910

pretty interesting and inspiring what

689

00:30:56,000 --> 00:30:51,870

goes on but somehow how wherever they

690

00:30:58,130 --> 00:30:56,010

can whether they came from zoos or pet

691

00:31:00,530 --> 00:30:58,140

owners who got tired of them or couldn't

692

00:31:05,420 --> 00:31:00,540

keep them in captivity properly or

693

00:31:08,330 --> 00:31:05,430

whatever or they're coming up from the

694

00:31:10,880 --> 00:31:08,340

western side of the US with either black

695

00:31:14,510 --> 00:31:10,890

jaguars or mixed already with the black

696

00:31:16,640 --> 00:31:14,520

jaguars there or if s TV static thinks

697

00:31:19,640 --> 00:31:16,650

they were already up around Hillsboro

698

00:31:20,990 --> 00:31:19,650

and maybe one or two black jaguars got

699

00:31:23,450 --> 00:31:21,000

thrown in with their mix there are a lot

700

00:31:26,600 --> 00:31:23,460

of different ways that could happen but

701
00:31:29,390 --> 00:31:26,610
somehow it all ends up with this melting

702
00:31:32,800 --> 00:31:29,400
pot of mountain lions or Panther like

703
00:31:35,270 --> 00:31:32,810
creatures in this very small area

704
00:31:37,190 --> 00:31:35,280
yeah you know there has been talk about

705
00:31:41,300 --> 00:31:37,200
mountain lions here in Pennsylvania for

706
00:31:43,310 --> 00:31:41,310
many many years in fact I actually saw

707
00:31:48,470 --> 00:31:43,320
it when I lived in Maryland I actually

708
00:31:52,820 --> 00:31:48,480
saw one in 84 I saw one going across the

709
00:31:55,130 --> 00:31:52,830
road a country road walk right in front

710
00:31:56,750 --> 00:31:55,140
of me I mean this cat was so big I mean

711
00:32:02,360 --> 00:31:56,760
it's table as long as as long as the cat

712
00:32:05,030 --> 00:32:02,370
that's how they are oh it was tan yeah

713
00:32:07,220 --> 00:32:05,040

it was tan and that's not the first one

714

00:32:11,480 --> 00:32:07,230

I heard about in the area now that was

715

00:32:13,940 --> 00:32:11,490

back in 83 so you know that was before

716

00:32:16,610 --> 00:32:13,950

the Coyotes even started making the way

717

00:32:20,210 --> 00:32:16,620

east so I don't know where that one came

718

00:32:25,310 --> 00:32:20,220

from but we also had some sightings of

719

00:32:27,680 --> 00:32:25,320

melanistic cats as well and that was

720

00:32:30,050 --> 00:32:27,690

back in the eighties in around the area

721

00:32:32,240 --> 00:32:30,060

where I lived that so who knows

722

00:32:34,040 --> 00:32:32,250

they're so stealthy you know when I

723

00:32:36,920 --> 00:32:34,050

started researching them I was seeing

724

00:32:39,050 --> 00:32:36,930

articles scientific journal articles

725

00:32:41,690 --> 00:32:39,060

that were calling them ghost cats okay

726

00:32:43,550 --> 00:32:41,700

cat wow you know what I look and I find

727

00:32:45,560 --> 00:32:43,560

out that it's actually the scientist

728

00:32:47,690 --> 00:32:45,570

nickname for them because they act like

729

00:32:49,280 --> 00:32:47,700

ghosts they're you know once one second

730

00:32:51,200 --> 00:32:49,290

you see him the next you don't and it's

731

00:32:53,300 --> 00:32:51,210

not that they're literally vanishing

732

00:32:57,520 --> 00:32:53,310

they're just so easy to blend in with

733

00:32:59,720 --> 00:32:57,530

the landscape and so furtive and and

734

00:33:03,110 --> 00:32:59,730

able to just sneak around because

735

00:33:05,600 --> 00:33:03,120

surprise is a big part their prey method

736

00:33:09,200 --> 00:33:05,610

they depend on being able to surprise a

737

00:33:11,660 --> 00:33:09,210

prey get it in the neck bite it and stop

738

00:33:13,280 --> 00:33:11,670

it from struggling immediately that's

739

00:33:15,770 --> 00:33:13,290

that's how they're trying to do it and

740

00:33:20,180 --> 00:33:15,780

so they're so they call them ghost cats

741

00:33:22,250 --> 00:33:20,190

but it just refers to their way of

742

00:33:24,170 --> 00:33:22,260

getting around so you're very lucky my

743

00:33:27,280 --> 00:33:24,180

husband was actually stalked by one in

744

00:33:30,800 --> 00:33:27,290

our own backyard is that right that was

745

00:33:32,960 --> 00:33:30,810

really scary yeah it was about six or

746

00:33:34,550 --> 00:33:32,970

seven years ago and it was the same year

747

00:33:36,890 --> 00:33:34,560

that one came through and got all the

748

00:33:38,150 --> 00:33:36,900

way up to Connecticut from the duck they

749

00:33:40,790 --> 00:33:38,160

come from the Black Hills through

750

00:33:42,920 --> 00:33:40,800

Minnesota and then around through

751
00:33:45,890 --> 00:33:42,930
southern Wisconsin and keep heading on

752
00:33:48,470 --> 00:33:45,900
the the Great Lakes path

753
00:33:50,930 --> 00:33:48,480
and it was nighttime and we had we were

754
00:33:52,490 --> 00:33:50,940
living until about two years ago right

755
00:33:56,030 --> 00:33:52,500
on the edge of the Kettle Moraine state

756
00:33:58,040 --> 00:33:56,040
state for us which is drop-offs and we

757
00:33:59,900 --> 00:33:58,050
had one of those on one side of our yard

758
00:34:01,910 --> 00:33:59,910
we had like an acre there's a steep

759
00:34:03,560 --> 00:34:01,920
drop-off on one side and on the back and

760
00:34:05,480 --> 00:34:03,570
he kept his boat back there it was

761
00:34:07,670 --> 00:34:05,490
nighttime it was fall he wanted to go

762
00:34:09,889 --> 00:34:07,680
back and look at his boat he's raised as

763
00:34:12,770 --> 00:34:09,899

a farm boy did not take his flashlight

764

00:34:15,230 --> 00:34:12,780

with him so he gets out there almost to

765

00:34:18,500 --> 00:34:15,240

the boat and here's this unmistakable

766

00:34:20,120 --> 00:34:18,510

can't yell you know just not really

767

00:34:22,490 --> 00:34:20,130

Aurora it's that kind of yell and he

768

00:34:24,290 --> 00:34:22,500

knew what it was and almost instantly

769

00:34:26,990 --> 00:34:24,300

hear this thunk and it was three feet

770

00:34:30,110 --> 00:34:27,000

from it had jumped it bounded it might

771

00:34:32,620 --> 00:34:30,120

even have been on his boat and jumped

772

00:34:36,860 --> 00:34:32,630

off of that and he had to walk backwards

773

00:34:39,470 --> 00:34:36,870

through that whole yard trying not like

774

00:34:41,840 --> 00:34:39,480

if he had stumbled and fallen back and

775

00:34:43,280 --> 00:34:41,850

it was pacing him three feet away from

776

00:34:45,950 --> 00:34:43,290

in front of him he was picking and

777

00:34:48,080 --> 00:34:45,960

yelling and what was I doing I was in my

778

00:34:51,680 --> 00:34:48,090

house in our house with the headphones

779

00:34:53,899 --> 00:34:51,690

on doing a show just like shorts and I

780

00:34:56,960 --> 00:34:53,909

could not I could not hear him yelling

781

00:34:59,240 --> 00:34:56,970

or screaming and luckily when he made it

782

00:35:01,790 --> 00:34:59,250

to where the deck started he stepped up

783

00:35:04,100 --> 00:35:01,800

on the deck and then the thing just

784

00:35:06,650 --> 00:35:04,110

turned and went down into the drop-off

785

00:35:08,630 --> 00:35:06,660

and but he saw it again the next morning

786

00:35:12,560 --> 00:35:08,640

when he went to church or not to church

787

00:35:13,970 --> 00:35:12,570

we went just to work it was at a bend in

788

00:35:15,680 --> 00:35:13,980

the road where there's a cornfield that

789

00:35:17,120 --> 00:35:15,690

came out of the cornfield and stood

790

00:35:18,470 --> 00:35:17,130

there and just looked at him like oh I

791

00:35:21,980 --> 00:35:18,480

almost had you last night

792

00:35:24,290 --> 00:35:21,990

was his feeling he's I've never seen him

793

00:35:27,830 --> 00:35:24,300

so white-faced though he's just I went

794

00:35:29,930 --> 00:35:27,840

and I came out of my office and he was

795

00:35:32,000 --> 00:35:29,940

you know looking like his face had been

796

00:35:33,740 --> 00:35:32,010

drained and two of our neighbors on

797

00:35:37,970 --> 00:35:33,750

different ends of the road also saw it

798

00:35:40,730 --> 00:35:37,980

so it wasn't his imagination it makes

799

00:35:42,590 --> 00:35:40,740

you wonder I mean you know it gets a

800

00:35:43,750 --> 00:35:42,600

little scarier now than I used to be the

801
00:35:47,060 --> 00:35:43,760
garden in the woods

802
00:35:48,590 --> 00:35:47,070
be honest with you because I knew when I

803
00:35:51,020 --> 00:35:48,600
was a kid that was nothing me to go out

804
00:35:53,090 --> 00:35:51,030
there you know go hunting by myself and

805
00:35:55,340 --> 00:35:53,100
such but I would think twice better now

806
00:35:58,700 --> 00:35:55,350
we never saw deer when I was a kid I

807
00:36:00,140 --> 00:35:58,710
mean if you saw a deer it was yeah there

808
00:36:02,230 --> 00:36:00,150
another thing you know the deer

809
00:36:05,599 --> 00:36:02,240
population in the United States

810
00:36:08,630 --> 00:36:05,609
particularly east of the Mississippi has

811
00:36:11,900 --> 00:36:08,640
simply exploded in the last 20 or 30

812
00:36:15,410 --> 00:36:11,910
years yes and I think it's kind of

813
00:36:18,140 --> 00:36:15,420

drawing a lot of these cats and whatever

814

00:36:21,140 --> 00:36:18,150

towards the east right because they will

815

00:36:22,670 --> 00:36:21,150

go wherever there's food right or the

816

00:36:24,170 --> 00:36:22,680

Manette's that's their favorite thing

817

00:36:27,530 --> 00:36:24,180

you know it's what they're they're

818

00:36:28,760 --> 00:36:27,540

really built to to get and and of course

819

00:36:31,070 --> 00:36:28,770

they've brought the curse of the deer

820

00:36:34,880 --> 00:36:31,080

tick and Lyme's disease with it don't

821

00:36:36,800 --> 00:36:34,890

tell me about that but you know if it

822

00:36:38,300 --> 00:36:36,810

really makes the whole argument it

823

00:36:40,190 --> 00:36:38,310

should we not want these creatures

824

00:36:42,260 --> 00:36:40,200

around because they can eat our dogs and

825

00:36:44,630 --> 00:36:42,270

we're unsafe and you know scare us in

826

00:36:46,190 --> 00:36:44,640

our own backyard or should we should we

827

00:36:49,790 --> 00:36:46,200

be glad they're here so they're eating

828

00:36:52,550 --> 00:36:49,800

the deer and you know the ecosystem is

829

00:36:55,579 --> 00:36:52,560

remaining viable and not producing all

830

00:36:57,410 --> 00:36:55,589

these the unwanted plants that and and

831

00:37:03,109 --> 00:36:57,420

the unwanted insects like the deer tick

832

00:37:04,760 --> 00:37:03,119

right I don't know I you know I look

833

00:37:07,609 --> 00:37:04,770

down like I said I had lived down in

834

00:37:10,490 --> 00:37:07,619

Maryland for about for about 40 years

835

00:37:13,520 --> 00:37:10,500

and I was you know I was near Baltimore

836

00:37:18,740 --> 00:37:13,530

and when I first moved down there in the

837

00:37:21,589 --> 00:37:18,750

70s the deer population was nothing I

838

00:37:24,290 --> 00:37:21,599

mean not even near to what it was I mean

839

00:37:27,859 --> 00:37:24,300

it is now I mean it just simply exploded

840

00:37:30,050 --> 00:37:27,869

and it's like that everywhere even here

841

00:37:34,430 --> 00:37:30,060

in Pennsylvania I know there's many many

842

00:37:36,079 --> 00:37:34,440

more deer than it ever has been I don't

843

00:37:39,890 --> 00:37:36,089

know if it's conservation with the

844

00:37:41,510 --> 00:37:39,900

reason why but now all of a sudden you

845

00:37:43,609 --> 00:37:41,520

know we hear all these cryptid sightings

846

00:37:46,160 --> 00:37:43,619

all kinds of weird things that have

847

00:37:49,670 --> 00:37:46,170

never been well you know rarely talked

848

00:37:54,770 --> 00:37:49,680

about before and you know so I don't

849

00:37:56,810 --> 00:37:54,780

know it's very interesting and it also

850

00:37:59,990 --> 00:37:56,820

makes you know it leads me back to maybe

851

00:38:02,300 --> 00:38:00,000

that's why these giant dire dogs are

852

00:38:04,550 --> 00:38:02,310

being lured down from the northern

853

00:38:07,120 --> 00:38:04,560

climates because although it's getting

854

00:38:12,350 --> 00:38:07,130

warmer up there in many places too but

855

00:38:14,630 --> 00:38:12,360

there's their noses are bit by

856

00:38:16,670 --> 00:38:14,640

bit by bit leading them to these big

857

00:38:18,020 --> 00:38:16,680

deer herds we had one when we were

858

00:38:19,910 --> 00:38:18,030

living at that house there was one herd

859

00:38:23,270 --> 00:38:19,920

that ran around that had at least thirty

860

00:38:24,560 --> 00:38:23,280

deer in it you know there and and

861

00:38:28,040 --> 00:38:24,570

they're very destructive they eat all

862

00:38:29,600 --> 00:38:28,050

the flowers you plant and oh sure how

863

00:38:34,760 --> 00:38:29,610

they were they were pretty much just out

864

00:38:37,220 --> 00:38:34,770

of control so that's always a big

865

00:38:40,640 --> 00:38:37,230

controversy too whenever you have these

866

00:38:44,210 --> 00:38:40,650

animals but it it always has made it

867

00:38:47,230 --> 00:38:44,220

more plausible for me to think that when

868

00:38:50,480 --> 00:38:47,240

the deer probably were originally fairly

869

00:38:53,720 --> 00:38:50,490

plentiful when it was all prairies here

870

00:38:56,270 --> 00:38:53,730

all the Prairie States had these acres

871

00:38:58,490 --> 00:38:56,280

and acres billions of acres of four to

872

00:39:01,370 --> 00:38:58,500

five to six foot tall different prairie

873

00:39:04,490 --> 00:39:01,380

grasses and that's why I got my original

874

00:39:06,290 --> 00:39:04,500

indigenous dog man idea for trying to

875

00:39:09,590 --> 00:39:06,300

figure out a logical reason why things

876

00:39:11,210 --> 00:39:09,600

that looked like wolves would be walking

877

00:39:13,280 --> 00:39:11,220

on their hind legs and it would

878

00:39:16,640 --> 00:39:13,290

definitely give you an advantage if you

879

00:39:18,620 --> 00:39:16,650

could stand on your hind legs and run

880

00:39:22,280 --> 00:39:18,630

that way because you could see the deer

881

00:39:24,560 --> 00:39:22,290

coming towards you so I that's just it's

882

00:39:26,750 --> 00:39:24,570

maybe fanciful imagination on my part

883

00:39:30,260 --> 00:39:26,760

but most things with animals are food

884

00:39:32,360 --> 00:39:30,270

driven yeah they need food they want

885

00:39:35,510 --> 00:39:32,370

they'll adapt themselves to just about

886

00:39:37,490 --> 00:39:35,520

anything to get the food and so I don't

887

00:39:41,420 --> 00:39:37,500

think it's an unreasonable way to look

888

00:39:44,120 --> 00:39:41,430

at it another thing I was looking at the

889

00:39:46,820 --> 00:39:44,130

chat and somebody was mentioning elk and

890

00:39:50,950 --> 00:39:46,830

Yelp population this state has grown as

891

00:39:55,400 --> 00:39:50,960

well black bear as well I mean you know

892

00:39:59,540 --> 00:39:55,410

all these species for whatever reason

893

00:40:02,290 --> 00:39:59,550

are just starting to thrive as opposed

894

00:40:04,700 --> 00:40:02,300

to what they used to be like so

895

00:40:07,430 --> 00:40:04,710

invariably you think they would draw big

896

00:40:09,500 --> 00:40:07,440

predators right and I don't know if you

897

00:40:12,500 --> 00:40:09,510

saw there's a newest article just a day

898

00:40:15,830 --> 00:40:12,510

or two ago where a family camping in a

899

00:40:19,400 --> 00:40:15,840

tent in northern Minnesota had a wolf

900

00:40:21,110 --> 00:40:19,410

stick its head into their tent now there

901
00:40:23,150 --> 00:40:21,120
was no way to find out if it had walked

902
00:40:25,640 --> 00:40:23,160
up to the mountain sign likes so you

903
00:40:27,769 --> 00:40:25,650
wouldn't know if it was a dog man or

904
00:40:29,660 --> 00:40:27,779
or something else but it did something

905
00:40:32,269 --> 00:40:29,670
that wolves has said not to ever do

906
00:40:34,329 --> 00:40:32,279
which is that it attacked into these

907
00:40:38,269 --> 00:40:34,339
people who were in their tent and

908
00:40:40,120 --> 00:40:38,279
actually I think it clamped onto the

909
00:40:42,920 --> 00:40:40,130
head of an 11 year old boy

910
00:40:45,640 --> 00:40:42,930
left some you know he needed a lot of

911
00:40:48,049 --> 00:40:45,650
stitches to get it fixed but he was okay

912
00:40:51,109 --> 00:40:48,059
thank goodness but father was able to

913
00:40:53,420 --> 00:40:51,119

kind of beat him around the wolf around

914

00:40:57,170 --> 00:40:53,430

the head and get him to withdraw from

915

00:40:59,569 --> 00:40:57,180

the tent but you know things that

916

00:41:02,029 --> 00:40:59,579

animals aren't supposed to do doesn't

917

00:41:04,069 --> 00:41:02,039

mean they never do them and it says

918

00:41:06,769 --> 00:41:04,079

something to the effect that well if

919

00:41:09,700 --> 00:41:06,779

it's doing a thing like that which it is

920

00:41:14,720 --> 00:41:09,710

not as it's normal food nothing there

921

00:41:17,450 --> 00:41:14,730

patterned to look at its prey then it's

922

00:41:20,660 --> 00:41:17,460

having maybe there are getting a lot of

923

00:41:22,880 --> 00:41:20,670

them maybe the it's finding the going to

924

00:41:24,769 --> 00:41:22,890

tough competing with other male waltzer

925

00:41:28,220 --> 00:41:24,779

that's very possible

926

00:41:30,920 --> 00:41:28,230

yeah because it's hard to say but I'm

927

00:41:32,450 --> 00:41:30,930

I'm reading this thing and feeling bad

928

00:41:34,339 --> 00:41:32,460

for the boy and his family and at the

929

00:41:36,019 --> 00:41:34,349

same time thinking oh please let one of

930

00:41:37,609 --> 00:41:36,029

them have looked out the window of the

931

00:41:42,500 --> 00:41:37,619

tent and seen it walking out at sign

932

00:41:45,140 --> 00:41:42,510

legs but unfortunately you know I should

933

00:41:48,799 --> 00:41:45,150

get so lucky well you know it does seem

934

00:41:51,140 --> 00:41:48,809

that a lot of the indigenous species and

935

00:41:54,319 --> 00:41:51,150

also some of these cryptids particular

936

00:41:56,690 --> 00:41:54,329

Bigfoot that they did seem from

937

00:41:58,940 --> 00:41:56,700

observations from witnesses that they

938

00:42:03,109 --> 00:41:58,950

kind of react differently than they had

939

00:42:04,880 --> 00:42:03,119

in the past in other words you know Stan

940

00:42:08,000 --> 00:42:04,890

Gordon was telling me about this a while

941

00:42:12,170 --> 00:42:08,010

back but there there's have been several

942

00:42:14,720 --> 00:42:12,180

times when people see a they report that

943

00:42:17,059 --> 00:42:14,730

they see a Bigfoot and they're looking

944

00:42:20,260 --> 00:42:17,069

at this thing and the thing the Bigfoot

945

00:42:22,430 --> 00:42:20,270

actually realizes that it can be seen

946

00:42:27,589 --> 00:42:22,440

and reacts to it

947

00:42:30,859 --> 00:42:27,599

yep I mean like that's that's odd yeah

948

00:42:32,720 --> 00:42:30,869

it's not how normal animals are right

949

00:42:34,819 --> 00:42:32,730

you know they'll they'll kind of look

950

00:42:36,529 --> 00:42:34,829

and assess whether they want to kill you

951
00:42:38,910 --> 00:42:36,539
or they want to chase you or you're just

952
00:42:40,250 --> 00:42:38,920
nothing and they should but you know

953
00:42:43,319 --> 00:42:40,260
just kind of go on their own way but

954
00:42:46,620 --> 00:42:43,329
yeah these other things a Bigfoot

955
00:42:47,940 --> 00:42:46,630
there's their sussing you back I had now

956
00:42:50,069 --> 00:42:47,950
if you read this if you read my book you

957
00:42:53,190 --> 00:42:50,079
you know one of the last chapters I told

958
00:42:56,730 --> 00:42:53,200
about three consecutive sightings that I

959
00:42:58,589 --> 00:42:56,740
had in the same area of fields over the

960
00:43:00,870 --> 00:42:58,599
course of the year I had to wait 20

961
00:43:03,299 --> 00:43:00,880
years before I got sightings like this

962
00:43:06,299 --> 00:43:03,309
so people say well you you know

963
00:43:10,440 --> 00:43:06,309

certainly she has no I haven't and I've

964

00:43:12,690 --> 00:43:10,450

I wanted to but this particular one I

965

00:43:13,829 --> 00:43:12,700

was out for a morning hike and I had

966

00:43:15,299 --> 00:43:13,839

just brought out the door I thought I'm

967

00:43:17,849 --> 00:43:15,309

just gonna kind of take a class jog

968

00:43:19,410 --> 00:43:17,859

around and and come back and identity I

969

00:43:22,230 --> 00:43:19,420

did not have my phone with me I had

970

00:43:23,970 --> 00:43:22,240

nothing and I went up to where there was

971

00:43:25,710 --> 00:43:23,980

a field that I liked I liked to visit

972

00:43:28,259 --> 00:43:25,720

there was a path that went past it

973

00:43:29,819 --> 00:43:28,269

because there were cranes that nested

974

00:43:32,450 --> 00:43:29,829

right in the middle of that field and

975

00:43:34,680 --> 00:43:32,460

there was like four foot grass around

976
00:43:35,849 --> 00:43:34,690
where that nuts was it didn't show you

977
00:43:37,380 --> 00:43:35,859
wouldn't know it was there

978
00:43:39,240 --> 00:43:37,390
if you weren't there when the cranes

979
00:43:42,150 --> 00:43:39,250
while the cranes weren't no place to be

980
00:43:46,380 --> 00:43:42,160
seen but there was this thing sticking

981
00:43:48,779 --> 00:43:46,390
up it was a dark like charcoal black and

982
00:43:52,019 --> 00:43:48,789
it looked furry and my first thought was

983
00:43:54,059 --> 00:43:52,029
and it was round on top and my first you

984
00:43:55,289 --> 00:43:54,069
know you're trying you're catalogue

985
00:43:58,140 --> 00:43:55,299
inside you're not trying to think what

986
00:43:59,670 --> 00:43:58,150
it is and my first thought was a fence

987
00:44:02,039 --> 00:43:59,680
close to sometime but then I looked over

988
00:44:03,779 --> 00:44:02,049

at the fence posts and they were about a

989

00:44:06,450 --> 00:44:03,789

third of the size and they were gray and

990

00:44:08,609 --> 00:44:06,460

they were shorter and I looked back at

991

00:44:11,430 --> 00:44:08,619

this big black round thing sticking up

992

00:44:13,049 --> 00:44:11,440

out of the meadow grass and I couldn't

993

00:44:14,730 --> 00:44:13,059

see its face because the Sun was kind of

994

00:44:17,870 --> 00:44:14,740

behind it it was early in the day and

995

00:44:20,069 --> 00:44:17,880

and it had hair hair kind of over

996

00:44:22,529 --> 00:44:20,079

hanging like its eyebrows so it's

997

00:44:25,289 --> 00:44:22,539

faceless was shadowed but it looked at

998

00:44:28,650 --> 00:44:25,299

me and it was like it was thinking oh

999

00:44:33,150 --> 00:44:28,660

crap she started and it started it just

1000

00:44:34,890 --> 00:44:33,160

slowly went straight down into what I

1001
00:44:36,809 --> 00:44:34,900
assume with the crouch down into the

1002
00:44:38,910 --> 00:44:36,819
grass until I could see it no longer but

1003
00:44:43,230 --> 00:44:38,920
it was right at the very spot where the

1004
00:44:44,849 --> 00:44:43,240
cranes had their nest so that makes a

1005
00:44:48,210 --> 00:44:44,859
lot of sense as to why it was there but

1006
00:44:51,539 --> 00:44:48,220
it was most definitely reacting to my

1007
00:44:52,380 --> 00:44:51,549
seeing it and knowing this yeah we I

1008
00:44:54,720 --> 00:44:52,390
hear more

1009
00:44:57,000 --> 00:44:54,730
that I mean all the time and it's like I

1010
00:45:00,079 --> 00:44:57,010
mean that's just something I had never

1011
00:45:02,339 --> 00:45:00,089
heard of a decade ago it's like you know

1012
00:45:03,690 --> 00:45:02,349
they would if they become aware you're

1013
00:45:05,370 --> 00:45:03,700

there they're gone they're not standing

1014

00:45:07,799 --> 00:45:05,380

there looking at you like and you can

1015

00:45:10,980 --> 00:45:07,809

see them looking at you like they're

1016

00:45:13,009 --> 00:45:10,990

shot that you can see them right bizarre

1017

00:45:15,269 --> 00:45:13,019

and yet you can well on that particular

1018

00:45:17,910 --> 00:45:15,279

there was the road right near there and

1019

00:45:20,609 --> 00:45:17,920

probably every day especially at rush

1020

00:45:22,769 --> 00:45:20,619

hour in the morning there would be car

1021

00:45:24,870 --> 00:45:22,779

after truck after car you know whizzing

1022

00:45:26,420 --> 00:45:24,880

by in the road and nobody probably would

1023

00:45:28,589 --> 00:45:26,430

see them because how often are you

1024

00:45:30,690 --> 00:45:28,599

staring around in the underbrush when

1025

00:45:35,460 --> 00:45:30,700

you're driving you know most people are

1026
00:45:38,880 --> 00:45:35,470
not I got a dashcam on my car know just

1027
00:45:41,400 --> 00:45:38,890
to prevent that very thing but yeah when

1028
00:45:44,009 --> 00:45:41,410
and and they're used to people just

1029
00:45:46,710 --> 00:45:44,019
rushing by and when somebody breaks our

1030
00:45:48,680 --> 00:45:46,720
behavior code and stops and stares at

1031
00:45:52,490 --> 00:45:48,690
them well then they know they've got

1032
00:45:56,220 --> 00:45:54,960
now you route something else in a book

1033
00:45:58,170 --> 00:45:56,230
that kind of caught my eye was the

1034
00:46:00,870 --> 00:45:58,180
hidden little people and that's

1035
00:46:02,819 --> 00:46:00,880
interesting because I've been getting

1036
00:46:06,059 --> 00:46:02,829
reports out of northern Minnesota for a

1037
00:46:10,109 --> 00:46:06,069
couple years now about these little

1038
00:46:14,700 --> 00:46:10,119

people in the in the mass fern forest up

1039

00:46:16,589 --> 00:46:14,710

there and in northern Minnesota I don't

1040

00:46:19,859 --> 00:46:16,599

know if you it's part of something that

1041

00:46:21,870 --> 00:46:19,869

you have heard about but this is this is

1042

00:46:23,700 --> 00:46:21,880

kind of an interesting subject to me

1043

00:46:26,759 --> 00:46:23,710

kind of tell me about what what you

1044

00:46:28,410 --> 00:46:26,769

talked about in the book well the thing

1045

00:46:30,150 --> 00:46:28,420

that surprised me when I started putting

1046

00:46:32,160 --> 00:46:30,160

it all together was that mmm

1047

00:46:34,920 --> 00:46:32,170

excuse me almost every place and time

1048

00:46:36,599 --> 00:46:34,930

has little people mmm and sometimes

1049

00:46:41,630 --> 00:46:36,609

they're talking about little spirit

1050

00:46:44,789 --> 00:46:41,640

beings fairy-type beings and other times

1051
00:46:48,450 --> 00:46:44,799
they're talking about what sounds like a

1052
00:46:51,299 --> 00:46:48,460
race of smaller humanoids or humans are

1053
00:46:53,789 --> 00:46:51,309
generally right when you think about it

1054
00:46:55,680 --> 00:46:53,799
we know that there are sometimes very

1055
00:46:58,230 --> 00:46:55,690
small people that are very well

1056
00:47:01,620 --> 00:46:58,240
proportioned they used to be called

1057
00:47:04,680 --> 00:47:01,630
midgets now they go by little people I

1058
00:47:06,030 --> 00:47:04,690
think maybe small small humans is is

1059
00:47:08,280 --> 00:47:06,040
even better than that

1060
00:47:10,680 --> 00:47:08,290
or just small people because then we

1061
00:47:14,310 --> 00:47:10,690
understand that they're us they're just

1062
00:47:16,440 --> 00:47:14,320
long I know if anybody remembers I don't

1063
00:47:19,530 --> 00:47:16,450

from life but from reading about it

1064

00:47:22,770 --> 00:47:19,540

there was a circus small person named

1065

00:47:25,110 --> 00:47:22,780

Tom Thumb and I can correct me if I'm

1066

00:47:28,460 --> 00:47:25,120

wrong but I think he was only like 27

1067

00:47:33,150 --> 00:47:28,470

inches tall but he was in perfect

1068

00:47:36,360 --> 00:47:33,160

proportion you know exactly and so and

1069

00:47:39,660 --> 00:47:36,370

yet he was human in every way and so

1070

00:47:41,430 --> 00:47:39,670

that's different but there also are what

1071

00:47:44,040 --> 00:47:41,440

people understand because they're doing

1072

00:47:47,880 --> 00:47:44,050

things like popping in and out of out of

1073

00:47:51,980 --> 00:47:47,890

the air they're doing little magic

1074

00:47:55,730 --> 00:47:51,990

tricks whatever that their spirit beings

1075

00:47:57,840 --> 00:47:55,740

sometimes they are things that have

1076
00:48:00,540 --> 00:47:57,850
transformed from other things there's

1077
00:48:04,530 --> 00:48:00,550
one in Scotland that is supposed to

1078
00:48:07,920 --> 00:48:04,540
transform from like a dwarf size to a

1079
00:48:12,180 --> 00:48:07,930
Bigfoot into an actual Bigfoot like it

1080
00:48:13,470 --> 00:48:12,190
yeah it's got this long uniformity or

1081
00:48:15,480 --> 00:48:13,480
something like that I've got it written

1082
00:48:18,540 --> 00:48:15,490
somewhere I probably couldn't pronounce

1083
00:48:22,650 --> 00:48:18,550
it if I did have it in front of me and

1084
00:48:24,360 --> 00:48:22,660
then the the Native Americans along the

1085
00:48:28,460 --> 00:48:24,370
the Bad Axe River and up by Lake

1086
00:48:30,450 --> 00:48:28,470
Superior they have these things

1087
00:48:33,360 --> 00:48:30,460
scientists today call them concretions

1088
00:48:35,490 --> 00:48:33,370

they look like perfectly round little

1089

00:48:38,610 --> 00:48:35,500

concrete balls but they're supposedly

1090

00:48:42,600 --> 00:48:38,620

naturally formed just by the way the

1091

00:48:45,180 --> 00:48:42,610

silt in the lake where wave action and I

1092

00:48:46,980 --> 00:48:45,190

I have one myself I got from a guy who

1093

00:48:48,870 --> 00:48:46,990

collected them although they're supposed

1094

00:48:52,230 --> 00:48:48,880

to belong to the bannocks people I am

1095

00:48:55,710 --> 00:48:52,240

going to be returned it but the idea

1096

00:48:59,160 --> 00:48:55,720

with these things is that each one has a

1097

00:49:02,400 --> 00:48:59,170

tiny inhabiting spirit within it hmm and

1098

00:49:04,950 --> 00:49:02,410

so they can also transform or do other

1099

00:49:06,960 --> 00:49:04,960

things or you know I'm not sure what all

1100

00:49:09,000 --> 00:49:06,970

they can do but there's something

1101
00:49:11,670 --> 00:49:09,010
special to them but you know you go to

1102
00:49:16,950 --> 00:49:11,680
Hawaii and you've got the Menehune you

1103
00:49:19,380 --> 00:49:16,960
go down into the heart of the lower 48

1104
00:49:23,250 --> 00:49:19,390
and you've got

1105
00:49:26,570 --> 00:49:23,260
but wedgies which probably my second

1106
00:49:29,880 --> 00:49:26,580
favorite cryptid name compared to to

1107
00:49:33,540 --> 00:49:29,890
that Squatch and the poke wedgies are

1108
00:49:35,940 --> 00:49:33,550
very much like European style fairies

1109
00:49:37,950 --> 00:49:35,950
and elves and trolls in which they can

1110
00:49:40,260 --> 00:49:37,960
be good or they can be if you cross them

1111
00:49:44,220 --> 00:49:40,270
they can be very grumpy and you know

1112
00:49:46,710 --> 00:49:44,230
mess up your your buildings and you know

1113
00:49:50,010 --> 00:49:46,720

kind of just sabotage you in ways that

1114

00:49:52,320 --> 00:49:50,020

small things would yeah so I go through

1115

00:49:54,090 --> 00:49:52,330

the whole thing and it's it's just

1116

00:49:58,110 --> 00:49:54,100

interesting to me how they're so

1117

00:50:00,660 --> 00:49:58,120

universal yeah yeah you do hear a lot of

1118

00:50:04,200 --> 00:50:00,670

different stories occasionally I'll get

1119

00:50:07,230 --> 00:50:04,210

one that you know I'm like yeah it's

1120

00:50:10,230 --> 00:50:07,240

kind of for me to fathom I talked to

1121

00:50:13,890 --> 00:50:10,240

people and you know they they swear they

1122

00:50:16,350 --> 00:50:13,900

see these things and I don't know you

1123

00:50:18,660 --> 00:50:16,360

know the the small people isn't really

1124

00:50:19,770 --> 00:50:18,670

my genre but occasionally I'll get one

1125

00:50:24,030 --> 00:50:19,780

that interests me

1126

00:50:26,160 --> 00:50:24,040

well there are small Bigfoot right and

1127

00:50:29,670 --> 00:50:26,170

of course you don't know if it's a

1128

00:50:30,990 --> 00:50:29,680

juvenile that would probably be my first

1129

00:50:33,870 --> 00:50:31,000

guess it's that especially if they were

1130

00:50:37,260 --> 00:50:33,880

tall ones near it but if you were just

1131

00:50:39,660 --> 00:50:37,270

saying as a little group of small ones

1132

00:50:42,320 --> 00:50:39,670

you might think that they were the same

1133

00:50:44,910 --> 00:50:42,330

in the same way there are tall and small

1134

00:50:48,300 --> 00:50:44,920

humans there may be tall and small

1135

00:50:50,550 --> 00:50:48,310

Bigfoot yeah that's true you know before

1136

00:50:51,960 --> 00:50:50,560

you go I do want to talk about something

1137

00:50:54,540 --> 00:50:51,970

that was in your book that I thought

1138

00:50:57,210 --> 00:50:54,550

very interesting was to heal wine flying

1139

00:51:01,470 --> 00:50:57,220

dog man what in the world is the old

1140

00:51:03,600 --> 00:51:01,480

wine flying dog man yeah well this is

1141

00:51:06,810 --> 00:51:03,610

the one book that I really kind of

1142

00:51:09,630 --> 00:51:06,820

hemmed and hawed over putting it in the

1143

00:51:12,870 --> 00:51:09,640

book for a long time you know because I

1144

00:51:16,650 --> 00:51:12,880

had quite a bit to choose from and yet

1145

00:51:20,010 --> 00:51:16,660

the the theme of my book was how modern

1146

00:51:24,180 --> 00:51:20,020

sightings intertwine with and connect

1147

00:51:29,280 --> 00:51:24,190

with ancient lore and legend and in this

1148

00:51:32,700 --> 00:51:29,290

particular incident there was a man who

1149

00:51:33,240 --> 00:51:32,710

had and I hope I'm thinking I hope I'm

1150

00:51:34,770 --> 00:51:33,250

getting the

1151

00:51:36,990 --> 00:51:34,780

one you're talking about the one where

1152

00:51:41,280 --> 00:51:37,000

he he was walking his dog and the spirit

1153

00:51:46,170 --> 00:51:41,290

dog came along right yeah so there was

1154

00:51:47,970 --> 00:51:46,180

this I probably probably should just

1155

00:51:50,100 --> 00:51:47,980

read it because it's a little complex no

1156

00:51:55,530 --> 00:51:50,110

but the gist of it is that he's out

1157

00:51:58,530 --> 00:51:55,540

walking his dog and this spirit dog

1158

00:52:01,500 --> 00:51:58,540

comes along morphs into a different

1159

00:52:06,200 --> 00:52:01,510

species of dog and begins mating with

1160

00:52:10,200 --> 00:52:06,210

his dog and it had come out of the sky

1161

00:52:12,960 --> 00:52:10,210

now what made me think about it was gosh

1162

00:52:17,670 --> 00:52:12,970

almost every religion has something

1163

00:52:19,710 --> 00:52:17,680

about an exalted type of creature or

1164

00:52:22,560 --> 00:52:19,720

person or entity or whatever coming out

1165

00:52:26,280 --> 00:52:22,570

of the sky and mating with something

1166

00:52:28,140 --> 00:52:26,290

else on earth and to achieve their their

1167

00:52:31,290 --> 00:52:28,150

ends you know the Bible has that almost

1168

00:52:34,610 --> 00:52:31,300

every every major religion or many minor

1169

00:52:39,990 --> 00:52:34,620

ones as well and I thought here I've got

1170

00:52:42,120 --> 00:52:40,000

an example of something like that and so

1171

00:52:44,580 --> 00:52:42,130

and when I talked I interviewed and

1172

00:52:46,050 --> 00:52:44,590

interviewed the person and they seemed

1173

00:52:49,470 --> 00:52:46,060

just sincere they didn't want anything

1174

00:52:51,620 --> 00:52:49,480

for it but the thing was that the his

1175

00:52:55,200 --> 00:52:51,630

dog had gotten pregnant and he had

1176
00:52:56,670 --> 00:52:55,210
puppies - two puppies and he sent me a

1177
00:52:58,470 --> 00:52:56,680
photo of the puppies and he said there

1178
00:53:00,390 --> 00:52:58,480
they're really magnificent dogs there

1179
00:53:03,660 --> 00:53:00,400
they don't seem supernatural in any way

1180
00:53:06,090 --> 00:53:03,670
at least at that time they hadn't but I

1181
00:53:12,330 --> 00:53:06,100
put him in there because it just makes

1182
00:53:15,570 --> 00:53:12,340
you wonder if how that relates to so

1183
00:53:17,640 --> 00:53:15,580
many of these other beliefs and Laura

1184
00:53:19,770 --> 00:53:17,650
and legends about this very same thing

1185
00:53:21,270 --> 00:53:19,780
is this the way they get started or you

1186
00:53:23,700 --> 00:53:21,280
know do things just come out of the sky

1187
00:53:25,920 --> 00:53:23,710
and appear to meet with earthly

1188
00:53:28,920 --> 00:53:25,930

creatures and if so why what would it

1189

00:53:31,230 --> 00:53:28,930

have gained and since it intrigued me

1190

00:53:33,300 --> 00:53:31,240

and interested me so much that I'm still

1191

00:53:35,850 --> 00:53:33,310

thinking about it like after a year and

1192

00:53:38,550 --> 00:53:35,860

many talks with this man I thought well

1193

00:53:41,100 --> 00:53:38,560

I'll let everybody else for me to figure

1194

00:53:44,790 --> 00:53:41,110

that out for themselves to think if they

1195

00:53:47,070 --> 00:53:44,800

what they think of it mmm you know it

1196

00:53:49,260 --> 00:53:47,080

kind of goes back to

1197

00:53:51,000 --> 00:53:49,270

I don't know maybe a Chimaira or maybe

1198

00:53:54,060 --> 00:53:51,010

something like out of the Book of Enoch

1199

00:53:58,470 --> 00:53:54,070

and the angels coming down and breeding

1200

00:54:01,830 --> 00:53:58,480

with inhabitants on earth that's kind of

1201
00:54:03,870 --> 00:54:01,840
bizarre exactly the kind of thing I was

1202
00:54:06,590 --> 00:54:03,880
thinking about you know anymore and when

1203
00:54:08,730 --> 00:54:06,600
you get up into many other cultures

1204
00:54:11,640 --> 00:54:08,740
sometimes you know there there's a whole

1205
00:54:13,770 --> 00:54:11,650
area of China where the people who live

1206
00:54:16,380 --> 00:54:13,780
there now believe that their ancestors

1207
00:54:19,260 --> 00:54:16,390
were descended by a meaning of a dog in

1208
00:54:21,420 --> 00:54:19,270
a human and you know they still have

1209
00:54:24,480 --> 00:54:21,430
celebrations for that kind of thing so

1210
00:54:27,150 --> 00:54:24,490
um you know as far as and some

1211
00:54:29,190 --> 00:54:27,160
historical things going it's not unheard

1212
00:54:31,880 --> 00:54:29,200
of this this is a dog mating with

1213
00:54:34,980 --> 00:54:31,890

another dog so and puppies are produced

1214

00:54:38,460 --> 00:54:34,990

so I I just thought it fit the

1215

00:54:41,610 --> 00:54:38,470

parameters of the book title in a way

1216

00:54:43,200 --> 00:54:41,620

that no other story did so I'm kind of

1217

00:54:45,690 --> 00:54:43,210

waiting to see I'm hoping he keeps up

1218

00:54:47,420 --> 00:54:45,700

with me to keep track of those puppies

1219

00:54:51,750 --> 00:54:47,430

as they girl

1220

00:54:53,910 --> 00:54:51,760

so there's another there's another

1221

00:54:55,710 --> 00:54:53,920

cryptid that I have been getting reports

1222

00:54:58,860 --> 00:54:55,720

about and you wrote a little bit about

1223

00:55:00,180 --> 00:54:58,870

in a book or dear people and I and I

1224

00:55:03,030 --> 00:55:00,190

know it goes back to the indigenous

1225

00:55:09,600 --> 00:55:03,040

people but what what exactly are dear

1226

00:55:14,010 --> 00:55:09,610

people well basically they are generally

1227

00:55:16,560 --> 00:55:14,020

perceived as either deer standing up and

1228

00:55:19,980 --> 00:55:16,570

walking much like dog men except they're

1229

00:55:21,810 --> 00:55:19,990

Deerman with the antlers and and they

1230

00:55:24,120 --> 00:55:21,820

have a deer head and they just walk

1231

00:55:25,740 --> 00:55:24,130

around on their hind legs and people

1232

00:55:27,810 --> 00:55:25,750

will mistake them for one of the stick

1233

00:55:30,090 --> 00:55:27,820

figure stickman at first when they seen

1234

00:55:33,780 --> 00:55:30,100

because the legs are so thin and they're

1235

00:55:35,910 --> 00:55:33,790

walking under their hooks you know so if

1236

00:55:37,440 --> 00:55:35,920

it's just they they look very weird to

1237

00:55:39,840 --> 00:55:37,450

see one running down the road but then

1238

00:55:42,840 --> 00:55:39,850

there are other ones that seem to be

1239

00:55:46,230 --> 00:55:42,850

more like they remind people they remind

1240

00:55:49,430 --> 00:55:46,240

me of the water horse from Ireland where

1241

00:55:52,260 --> 00:55:49,440

there's like a beautiful horse and it

1242

00:55:56,100 --> 00:55:52,270

entraps people too into the water so

1243

00:55:58,020 --> 00:55:56,110

look again and one incident that wasn't

1244

00:56:00,210 --> 00:55:58,030

to me that I talked about in the book

1245

00:56:01,020 --> 00:56:00,220

was this these two guys were driving

1246

00:56:02,550 --> 00:56:01,030

late at night

1247

00:56:04,080 --> 00:56:02,560

three in the morning and they saw this

1248

00:56:08,130 --> 00:56:04,090

beautiful woman standing by the side of

1249

00:56:10,830 --> 00:56:08,140

the road and one of them wanted to stop

1250

00:56:13,860 --> 00:56:10,840

and pick her up and the other one is

1251

00:56:16,020 --> 00:56:13,870

like no you know if she's out here at 3

1252

00:56:17,880 --> 00:56:16,030

o'clock in the morning able to take care

1253

00:56:20,370 --> 00:56:17,890

of herself and you know my grandmother

1254

00:56:23,580 --> 00:56:20,380

said never stopped for a dear woman or a

1255

00:56:28,670 --> 00:56:23,590

dear man and so you get the feeling that

1256

00:56:35,730 --> 00:56:33,020

well the book is title I know what I saw

1257

00:56:38,460 --> 00:56:35,740

modern-day encounters with monsters of

1258

00:56:39,840 --> 00:56:38,470

new urban legend in ancient lore and boy

1259

00:56:41,850 --> 00:56:39,850

that were wet covers at all over that

1260

00:56:43,650 --> 00:56:41,860

title I tell you and I'll tell you folks

1261

00:56:45,690 --> 00:56:43,660

get the book cause it's got all kinds of

1262
