1  
00:00:11,110 --> 00:00:05,670  
all right

2  
00:00:15,589 --> 00:00:13,830  
very good yeah like i was saying i mean

3  
00:00:18,470 --> 00:00:15,599  
bear with us it's been a couple weeks

4  
00:00:19,590 --> 00:00:18,480  
and yeah i i just wanted to uh i wanted

5  
00:00:21,269 --> 00:00:19,600  
to thank everybody for

6  
00:00:23,830 --> 00:00:21,279  
you know for sticking with me and

7  
00:00:26,390 --> 00:00:23,840  
sticking with the family and uh

8  
00:00:28,230 --> 00:00:26,400  
like i said before i'm gonna want to

9  
00:00:30,150 --> 00:00:28,240  
stay in the saddle keep riding and

10  
00:00:33,430 --> 00:00:30,160  
didn't want to have too much delay and

11  
00:00:34,950 --> 00:00:33,440  
uh and uh it feels good to be back on

12  
00:00:36,950 --> 00:00:34,960  
the show

13  
00:00:38,869 --> 00:00:36,960

well we're glad to have you back lon and

14

00:00:43,110 --> 00:00:38,879

uh you know you and i talk

15

00:00:46,229 --> 00:00:43,120

every day sometimes uh

16

00:00:47,670 --> 00:00:46,239

maybe for three or four or five hours a

17

00:00:49,510 --> 00:00:47,680

day if you break up all the little

18

00:00:52,709 --> 00:00:49,520

messages we send back and forth

19

00:00:54,549 --> 00:00:52,719

yeah so uh you know we always stay in

20

00:00:55,990 --> 00:00:54,559

touch and it was just nice to see so

21

00:00:57,830 --> 00:00:56,000

many people coming out for you meant a

22

00:00:58,150 --> 00:00:57,840

lot to me i know it meant a lot for you

23

00:01:01,590 --> 00:00:58,160

and

24

00:01:04,630 --> 00:01:01,600

we are

25

00:01:07,429 --> 00:01:04,640

tonight yeah kicking it off

26

00:01:09,030 --> 00:01:07,439

yeah i was uh i was i was really uh i

27

00:01:11,510 --> 00:01:09,040

was overwhelmed actually i was

28

00:01:12,630 --> 00:01:11,520

overwhelmed by the expressive gratitude

29

00:01:19,429 --> 00:01:12,640

and

30

00:01:21,190 --> 00:01:19,439

so um it made me feel good so i just

31

00:01:23,910 --> 00:01:21,200

want to thank everyone for that

32

00:01:25,830 --> 00:01:23,920

and you know we're going to keep on

33

00:01:30,310 --> 00:01:25,840

going

34

00:01:31,670 --> 00:01:30,320

lot to talk about tonight lon why don't

35

00:01:33,030 --> 00:01:31,680

you kick it off with some stories you've

36

00:01:35,190 --> 00:01:33,040

been compiling

37

00:01:37,030 --> 00:01:35,200

and we can go ahead and give it a banter

38

00:01:38,550 --> 00:01:37,040

or two well you know i think

39

00:01:40,469 --> 00:01:38,560

i think the the first one i'll talk

40

00:01:43,510 --> 00:01:40,479

about is um

41

00:01:43,990 --> 00:01:43,520

something that came up with uh well last

42

00:01:49,670 --> 00:01:44,000

week

43

00:01:50,870 --> 00:01:49,680

and our friend jason johnson crypto four

44

00:01:54,550 --> 00:01:50,880

corners

45

00:01:58,069 --> 00:01:54,560

uh he gave me a call reference to the

46

00:01:59,670 --> 00:01:58,079

mysterious oklahoma octopus now you know

47

00:02:00,870 --> 00:01:59,680

this legend has been going around for a

48

00:02:04,069 --> 00:02:00,880

long time

49

00:02:09,109 --> 00:02:04,079

uh you know supposedly this cryptid

50

00:02:12,630 --> 00:02:09,119

is a freshwater uh cephalopod like

51

00:02:14,949 --> 00:02:12,640

creature uh and they

52

00:02:16,630 --> 00:02:14,959

it's the story has that is generally

53

00:02:18,790 --> 00:02:16,640

said to inhabit

54

00:02:19,910 --> 00:02:18,800

at least two lakes in oklahoma that's

55

00:02:22,869 --> 00:02:19,920

lake thunderbird

56

00:02:23,510 --> 00:02:22,879

and lake ten killer though there have

57

00:02:26,949 --> 00:02:23,520

been

58

00:02:30,150 --> 00:02:26,959

mentions of other places as well so

59

00:02:32,949 --> 00:02:30,160

supposedly a taxi kills unsuspecting

60

00:02:35,190 --> 00:02:32,959

swimmers and according to the legend

61

00:02:37,910 --> 00:02:35,200

this freshwater monster

62

00:02:40,070 --> 00:02:37,920

measures the size of a horse and

63

00:02:42,070 --> 00:02:40,080

resembles a marine octopus with long

64

00:02:45,509 --> 00:02:42,080

tentacles and leathery

65

00:02:47,670 --> 00:02:45,519

red brown skin uh

66

00:02:49,030 --> 00:02:47,680

you know now skeptics are questioned

67

00:02:51,910 --> 00:02:49,040

whether an octopus

68

00:02:53,589 --> 00:02:51,920

which is an ocean creature can survive

69

00:02:55,270 --> 00:02:53,599

in freshwater lakes

70

00:02:56,790 --> 00:02:55,280

even though you know jellyfish and

71

00:02:58,550 --> 00:02:56,800

sharks have been known to live in fresh

72

00:03:00,390 --> 00:02:58,560

water so

73

00:03:02,070 --> 00:03:00,400

you know it's it's easy to believe that

74

00:03:04,229 --> 00:03:02,080

such a creature

75

00:03:05,350 --> 00:03:04,239

would be a fearsome predator you know

76

00:03:08,070 --> 00:03:05,360

the the giant

77

00:03:10,149 --> 00:03:08,080

pacific octopus for example has

78

00:03:12,149 --> 00:03:10,159

tentacles that each boast the strength

79

00:03:14,869 --> 00:03:12,159

of a 200 pound man

80

00:03:15,990 --> 00:03:14,879

and a powerful beak that can kill its

81

00:03:19,270 --> 00:03:16,000

prey

82

00:03:21,430 --> 00:03:19,280

that's a strong octopus oh yeah so

83

00:03:23,030 --> 00:03:21,440

but but the bottom line is you know if

84

00:03:27,110 --> 00:03:23,040

there is one

85

00:03:29,110 --> 00:03:27,120

uh all monster-sized cephalopods

86

00:03:32,070 --> 00:03:29,120

were at one time a small juvenile

87

00:03:34,470 --> 00:03:32,080

cephalopod so um

88

00:03:36,550 --> 00:03:34,480

you know this this very well may not be

89

00:03:38,869 --> 00:03:36,560

a rumor or a legend

90

00:03:40,229 --> 00:03:38,879

because recently it came to jc's

91

00:03:44,229 --> 00:03:40,239

attention

92

00:03:46,070 --> 00:03:44,239

that on april the 6th 2011

93

00:03:48,949 --> 00:03:46,080

in the canadian river which is near

94

00:03:52,390 --> 00:03:48,959

oklahoma city oklahoma

95

00:03:55,509 --> 00:03:52,400

a small cephalopod was caught

96

00:03:56,789 --> 00:03:55,519

and now they had they had a uh photo of

97

00:04:01,110 --> 00:03:56,799

it

98

00:04:04,949 --> 00:04:01,120

inch

99

00:04:08,630 --> 00:04:04,959

octopus that came out of the river

100

00:04:10,710 --> 00:04:08,640

now the photo came way by one of jesus

101  
00:04:12,470 --> 00:04:10,720  
associates steven freeman

102  
00:04:14,869 --> 00:04:12,480  
who was the first to investigate the

103  
00:04:16,870 --> 00:04:14,879  
circumstances of the photo

104  
00:04:20,629 --> 00:04:16,880  
now he's also an oklahoma resident is

105  
00:04:22,870 --> 00:04:20,639  
currently following up on the sightings

106  
00:04:24,310 --> 00:04:22,880  
he's uh presently active in the process

107  
00:04:27,749 --> 00:04:24,320  
of procuring

108  
00:04:31,749 --> 00:04:27,759  
a cephalopod for examination

109  
00:04:34,390 --> 00:04:31,759  
now the man in the photo

110  
00:04:35,830 --> 00:04:34,400  
reported seeing four to five more along

111  
00:04:39,270 --> 00:04:35,840  
the shore

112  
00:04:41,189 --> 00:04:39,280  
but also reported that one was caught

113  
00:04:43,909 --> 00:04:41,199

and it was called like 30 foot from

114

00:04:45,510 --> 00:04:43,919

shore so

115

00:04:47,030 --> 00:04:45,520

you know it wasn't reported to the

116

00:04:48,230 --> 00:04:47,040

wildlife officials from what i

117

00:04:50,150 --> 00:04:48,240

understand

118

00:04:51,990 --> 00:04:50,160

now another late a lady actually

119

00:04:53,590 --> 00:04:52,000

reported catching one at lake

120

00:04:56,710 --> 00:04:53,600

thunderbird

121

00:04:57,749 --> 00:04:56,720

on october 1st of this year did i try to

122

00:05:01,270 --> 00:04:57,759

eat her

123

00:05:04,310 --> 00:05:01,280

no and added a [h\_\_h] about 30 foot

124

00:05:06,550 --> 00:05:04,320

using a minnow for bait but she

125

00:05:08,070 --> 00:05:06,560

apparently her she said her telephone

126

00:05:09,510 --> 00:05:08,080

was dead so she couldn't take any

127

00:05:12,550 --> 00:05:09,520

pictures

128

00:05:16,469 --> 00:05:12,560

so i don't know she kept you know

129

00:05:18,390 --> 00:05:16,479

kept the thing or not now

130

00:05:19,510 --> 00:05:18,400

krypto four corner investigator jack

131

00:05:21,670 --> 00:05:19,520

carrey

132

00:05:23,990 --> 00:05:21,680

who who lives in the denver area added

133

00:05:27,590 --> 00:05:24,000

that uh he grew up in the oklahoma

134

00:05:28,310 --> 00:05:27,600

city area and there were a lot of

135

00:05:30,629 --> 00:05:28,320

reports

136

00:05:32,070 --> 00:05:30,639

of water skiers and swimmers being

137

00:05:35,430 --> 00:05:32,080

pulled underwater

138

00:05:37,430 --> 00:05:35,440

and some never being seen again

139

00:05:39,830 --> 00:05:37,440

also there have been talk of people who

140

00:05:41,990 --> 00:05:39,840

survived attacks while swimming

141

00:05:44,550 --> 00:05:42,000

swearing at tentacles were wrapped

142

00:05:46,469 --> 00:05:44,560

around them pulling them to deeper water

143

00:05:47,590 --> 00:05:46,479

no i would complain about that that's

144

00:05:50,870 --> 00:05:47,600

something that is

145

00:05:53,990 --> 00:05:53,430

now there is an established story you

146

00:05:56,550 --> 00:05:54,000

know

147

00:05:59,670 --> 00:05:56,560

as established stories go that three

148

00:06:03,830 --> 00:05:59,680

teenagers by the name of tyler schuman

149

00:06:06,950 --> 00:06:03,840

ruthie simple and uh bruce delroy

150

00:06:10,150 --> 00:06:06,960

were reported to have drowned pulled

151  
00:06:12,230 --> 00:06:10,160  
and pulled down by the creature now

152  
00:06:14,629 --> 00:06:12,240  
the reports also apparently state that

153  
00:06:17,029 --> 00:06:14,639  
two other teenagers with them

154  
00:06:18,309 --> 00:06:17,039  
had blistered like wounds and scabs like

155  
00:06:22,790 --> 00:06:18,319  
the marks caused by

156  
00:06:24,469 --> 00:06:22,800  
a octopus suckers so

157  
00:06:26,550 --> 00:06:24,479  
you know these these tales actually

158  
00:06:29,110 --> 00:06:26,560  
these tales go back

159  
00:06:30,790 --> 00:06:29,120  
uh to the native americans from the area

160  
00:06:33,990 --> 00:06:30,800  
the cattle

161  
00:06:35,749 --> 00:06:34,000  
empire uh he told legends of large

162  
00:06:36,710 --> 00:06:35,759  
creatures that looked somewhat like a

163  
00:06:38,550 --> 00:06:36,720

leech

164

00:06:40,790 --> 00:06:38,560

and eight men alive even though the

165

00:06:41,990 --> 00:06:40,800

lakes were man-made in the mid-20th

166

00:06:44,550 --> 00:06:42,000

century

167

00:06:46,870 --> 00:06:44,560

um the story is going to say that the

168

00:06:49,110 --> 00:06:46,880

ponds were linked underground

169

00:06:50,230 --> 00:06:49,120

so the tentacle creature would lurk just

170

00:06:53,270 --> 00:06:50,240

beneath the surface

171

00:06:55,350 --> 00:06:53,280

waiting for prey to come for a drink and

172

00:06:57,589 --> 00:06:55,360

that it would drag them to their desks

173

00:06:59,589 --> 00:06:57,599

when the lakes were made the creatures

174

00:07:01,350 --> 00:06:59,599

moved in but still lurked

175

00:07:03,350 --> 00:07:01,360

in the old springs that leak into the

176

00:07:05,110 --> 00:07:03,360

the lake bottom

177

00:07:07,430 --> 00:07:05,120

so that information needs to be

178

00:07:09,510 --> 00:07:07,440

investigated so

179

00:07:12,309 --> 00:07:09,520

crypto four corners is going to be

180

00:07:13,830 --> 00:07:12,319

planning a spring expedition

181

00:07:15,670 --> 00:07:13,840

in order to capture one of these

182

00:07:18,309 --> 00:07:15,680

cephalopods

183

00:07:19,029 --> 00:07:18,319

and at the same time steve freeman he's

184

00:07:22,469 --> 00:07:19,039

in the area

185

00:07:26,070 --> 00:07:22,479

trying to cure one

186

00:07:28,629 --> 00:07:26,080

um now in the meantime jc

187

00:07:30,309 --> 00:07:28,639

is continuing to conduct his research in

188

00:07:33,670 --> 00:07:30,319

the upper midwest

189

00:07:35,670 --> 00:07:33,680

along the canadian border and frankly

190

00:07:38,309 --> 00:07:35,680

what he is doing

191

00:07:38,710 --> 00:07:38,319

is looking into the dogman sightings up

192

00:07:41,749 --> 00:07:38,720

there

193

00:07:45,350 --> 00:07:41,759

and what i what

194

00:07:48,550 --> 00:07:45,360

information i got from him he has

195

00:07:51,909 --> 00:07:48,560

some pretty good um

196

00:07:54,790 --> 00:07:51,919

some pretty good evidence so

197

00:07:56,629 --> 00:07:54,800

he tells me that of course the owl fans

198

00:07:58,230 --> 00:07:56,639

monsters will

199

00:07:59,749 --> 00:07:58,240

have the exclusive access to any

200

00:08:01,350 --> 00:07:59,759

information and

201  
00:08:03,430 --> 00:08:01,360  
evidence that's established so i'm

202  
00:08:05,110 --> 00:08:03,440  
waiting to get that from him

203  
00:08:07,270 --> 00:08:05,120  
and i i'll probably be hearing something

204  
00:08:08,710 --> 00:08:07,280  
soon from him well if it's in the water

205  
00:08:11,029 --> 00:08:08,720  
i don't mess around with it

206  
00:08:13,990 --> 00:08:11,039  
you know me i don't go near the water

207  
00:08:15,990 --> 00:08:14,000  
i'm the same way i i am not

208  
00:08:17,830 --> 00:08:16,000  
you know i am not something like diving

209  
00:08:20,150 --> 00:08:17,840  
in the water after something

210  
00:08:21,909 --> 00:08:20,160  
uh you know not that i don't like the

211  
00:08:24,790 --> 00:08:21,919  
water it's just that

212  
00:08:25,189 --> 00:08:24,800  
you know it's just one of those things i

213  
00:08:27,189 --> 00:08:25,199

uh

214

00:08:28,469 --> 00:08:27,199

that's that's always something that's

215

00:08:32,550 --> 00:08:28,479

always bugged me you know

216

00:08:34,070 --> 00:08:32,560

i used to go uh i used to go into the

217

00:08:36,550 --> 00:08:34,080

the freshwater lakes when i lived in

218

00:08:39,350 --> 00:08:36,560

pennsylvania as a kid

219

00:08:40,709 --> 00:08:39,360

and he knew some of the size of the fish

220

00:08:43,670 --> 00:08:40,719

that were in that thing like

221

00:08:45,269 --> 00:08:43,680

big muskies and such and those things

222

00:08:46,710 --> 00:08:45,279

had teeth they used to scare the hell

223

00:08:49,110 --> 00:08:46,720

out of me

224

00:08:50,230 --> 00:08:49,120

so um and rightfully so they should

225

00:08:53,269 --> 00:08:50,240

they're giant

226

00:08:55,030 --> 00:08:53,279

fish with teeth that could eat your face

227

00:08:56,550 --> 00:08:55,040

off

228

00:08:59,190 --> 00:08:56,560

i don't mess around with a man i don't

229

00:09:00,870 --> 00:08:59,200

go in the water i'm i'm not much of a

230

00:09:02,470 --> 00:09:00,880

fisherman because i'm afraid of what i'm

231

00:09:04,790 --> 00:09:02,480

going to hook

232

00:09:06,790 --> 00:09:04,800

i like the woods that's about it and i

233

00:09:08,310 --> 00:09:06,800

don't do beaches either not a big fan of

234

00:09:09,829 --> 00:09:08,320

the beach but that's a whole other story

235

00:09:11,030 --> 00:09:09,839

for another time there was greenpeace

236

00:09:12,630 --> 00:09:11,040

involved and

237

00:09:15,750 --> 00:09:12,640

some media and trying to roll me back

238

00:09:17,430 --> 00:09:15,760

into the water it wasn't a good time

239

00:09:18,790 --> 00:09:17,440

concluded with james baker yelling

240

00:09:22,389 --> 00:09:18,800

that's not his blowhole

241

00:09:27,190 --> 00:09:22,399

and that was that was it oh

242

00:09:30,310 --> 00:09:27,200

jeez so you know other than that story

243

00:09:32,070 --> 00:09:30,320

you know there's not a whole lot that i

244

00:09:35,590 --> 00:09:32,080

had

245

00:09:37,509 --> 00:09:35,600

um i i did uh

246

00:09:39,190 --> 00:09:37,519

you know i did write some things up

247

00:09:45,990 --> 00:09:39,200

about

248

00:09:50,630 --> 00:09:46,000

bioengineering of bigfoot and such

249

00:09:54,790 --> 00:09:50,640

that uh that may have been going on

250

00:09:57,190 --> 00:09:54,800

in the edgewood arsenal facility

251  
00:09:58,949 --> 00:09:57,200  
uh this was an investigation that i

252  
00:10:02,710 --> 00:09:58,959  
actually started

253  
00:10:05,910 --> 00:10:02,720  
looking into after my uh

254  
00:10:09,509 --> 00:10:05,920  
my monster story was put on tv

255  
00:10:12,870 --> 00:10:09,519  
i had a lot of people contacting me

256  
00:10:16,949 --> 00:10:12,880  
and i started getting information

257  
00:10:20,150 --> 00:10:16,959  
concerning um

258  
00:10:23,829 --> 00:10:20,160  
an area well a facility

259  
00:10:25,990 --> 00:10:23,839  
near me uh nearest in sykesville

260  
00:10:27,910 --> 00:10:26,000  
that was people used to refer to as the

261  
00:10:31,190 --> 00:10:27,920  
monkey house

262  
00:10:32,870 --> 00:10:31,200  
now you know i i knew of the i knew of

263  
00:10:37,030 --> 00:10:32,880

the building

264

00:10:40,550 --> 00:10:37,040

for other than that

265

00:10:42,630 --> 00:10:40,560

i had heard it was a laundry

266

00:10:43,829 --> 00:10:42,640

where inmates were kept you know to do

267

00:10:47,509 --> 00:10:43,839

the laundry for the

268

00:10:51,030 --> 00:10:47,519

the local the local hospital

269

00:10:54,470 --> 00:10:53,670

you know apparently at the time of the

270

00:11:00,069 --> 00:10:54,480

the

271

00:11:03,670 --> 00:11:00,079

early 70s

272

00:11:04,310 --> 00:11:03,680

one of the witnesses who had made a

273

00:11:07,750 --> 00:11:04,320

statement

274

00:11:09,110 --> 00:11:07,760

to the um to the baltimore

275

00:11:11,190 --> 00:11:09,120

afro-americans who

276

00:11:14,230 --> 00:11:11,200

who actually the paper that actually did

277

00:11:18,550 --> 00:11:14,240

the invest the early investigation

278

00:11:20,230 --> 00:11:18,560

of the case stated that uh

279

00:11:22,550 --> 00:11:20,240

somebody needed to look into the monkey

280

00:11:26,150 --> 00:11:22,560

house so

281

00:11:26,790 --> 00:11:26,160

you know but none of the witness snapper

282

00:11:30,630 --> 00:11:26,800

had my

283

00:11:32,870 --> 00:11:30,640

encounter another witness i talked

284

00:11:33,990 --> 00:11:32,880

starting in 1881 ever mentioned this

285

00:11:37,990 --> 00:11:34,000

place

286

00:11:41,509 --> 00:11:38,000

now i made a i made a few inquiries

287

00:11:43,670 --> 00:11:41,519

uh you know in reference to

288

00:11:44,790 --> 00:11:43,680

the monkey house and according to one

289

00:11:47,110 --> 00:11:44,800

source

290

00:11:49,509 --> 00:11:47,120

he was an original witness may have been

291

00:11:51,750 --> 00:11:49,519

referring to this two-story building

292

00:11:53,030 --> 00:11:51,760

that once stood near the present-day

293

00:11:56,710 --> 00:11:53,040

police and correctional

294

00:11:59,350 --> 00:11:56,720

training facility on slack road

295

00:12:00,710 --> 00:11:59,360

now that's the building i would i had

296

00:12:03,110 --> 00:12:00,720

thought it was

297

00:12:04,310 --> 00:12:03,120

it had a lot of security around it had

298

00:12:07,430 --> 00:12:04,320

uh

299

00:12:10,949 --> 00:12:07,440

chain link fence that had

300

00:12:12,710 --> 00:12:10,959

razor wire and stuff above it

301  
00:12:14,550 --> 00:12:12,720  
the building was officially designated

302  
00:12:16,550 --> 00:12:14,560  
as the laundry facility used by the

303  
00:12:19,910 --> 00:12:16,560  
state hospital now

304  
00:12:21,990 --> 00:12:19,920  
you know i i do recall the security and

305  
00:12:23,430 --> 00:12:22,000  
i was told at the time

306  
00:12:25,430 --> 00:12:23,440  
that correctional inmates were kept

307  
00:12:28,470 --> 00:12:25,440  
there to launder clothes

308  
00:12:29,990 --> 00:12:28,480  
and that they actually stayed at the

309  
00:12:32,629 --> 00:12:30,000  
facility

310  
00:12:35,350 --> 00:12:32,639  
um many locals questioned that

311  
00:12:38,310 --> 00:12:35,360  
explanation it just didn't seem right

312  
00:12:39,269 --> 00:12:38,320  
and the moniker monkey house may have

313  
00:12:42,710 --> 00:12:39,279

been used for

314

00:12:44,550 --> 00:12:42,720

most part by the people who worked at

315

00:12:48,389 --> 00:12:44,560

springfield

316

00:12:51,670 --> 00:12:48,399

state hospital

317

00:12:54,230 --> 00:12:51,680

and this you know it was for

318

00:12:55,110 --> 00:12:54,240

it was for people that had mental

319

00:12:59,269 --> 00:12:55,120

disabilities

320

00:13:02,550 --> 00:12:59,279

and uh they also kept uh

321

00:13:04,389 --> 00:13:02,560

criminally insane there as well so um

322

00:13:09,110 --> 00:13:04,399

now that building was eventually raised

323

00:13:18,069 --> 00:13:13,590

so i had an investigator contact me

324

00:13:21,030 --> 00:13:18,079

he was ex-us ex-us air force

325

00:13:21,670 --> 00:13:21,040

and had worked at a government facility

326

00:13:23,990 --> 00:13:21,680

uh

327

00:13:25,829 --> 00:13:24,000

north of baltimore and harford county in

328

00:13:29,590 --> 00:13:25,839

the early 80s which

329

00:13:33,190 --> 00:13:29,600

which was and uh the edgewood

330

00:13:34,629 --> 00:13:33,200

arsenal um

331

00:13:37,030 --> 00:13:34,639

and he was part of a group of

332

00:13:38,870 --> 00:13:37,040

ex-military who were employed

333

00:13:40,470 --> 00:13:38,880

to perform general work around the

334

00:13:43,030 --> 00:13:40,480

facility

335

00:13:44,550 --> 00:13:43,040

at one particular hot humid day he and a

336

00:13:47,829 --> 00:13:44,560

crew

337

00:13:50,150 --> 00:13:47,839

working outside of a specific building

338

00:13:52,550 --> 00:13:50,160

at this government facility now they

339

00:13:54,310 --> 00:13:52,560

they have been told that they could walk

340

00:13:55,110 --> 00:13:54,320

inside the building if they needed a

341

00:13:57,829 --> 00:13:55,120

quick break

342

00:13:59,110 --> 00:13:57,839

and a drink of water now he states that

343

00:14:01,910 --> 00:13:59,120

he entered a building

344

00:14:03,670 --> 00:14:01,920

looking for the water fountain couldn't

345

00:14:07,269 --> 00:14:03,680

locate one

346

00:14:10,870 --> 00:14:07,279

so he walked deeper into the building

347

00:14:15,030 --> 00:14:10,880

and soon uh

348

00:14:17,750 --> 00:14:15,040

witnessed a large heavy reinforced door

349

00:14:19,670 --> 00:14:17,760

that just seemed out of place the door

350

00:14:21,750 --> 00:14:19,680

had been damaged

351  
00:14:24,310 --> 00:14:21,760  
as if it were ran by something of

352  
00:14:26,150 --> 00:14:24,320  
significant size and power

353  
00:14:27,910 --> 00:14:26,160  
by this time he was approached by a

354  
00:14:29,990 --> 00:14:27,920  
woman in uniform

355  
00:14:32,790 --> 00:14:30,000  
who informed him that he was in a

356  
00:14:35,829 --> 00:14:32,800  
classified area

357  
00:14:37,430 --> 00:14:35,839  
and he must leave immediately he

358  
00:14:38,870 --> 00:14:37,440  
explained that he was just looking for

359  
00:14:41,269 --> 00:14:38,880  
the water fountain

360  
00:14:43,110 --> 00:14:41,279  
a security officer was now on the scene

361  
00:14:44,949 --> 00:14:43,120  
and he directed the witness

362  
00:14:46,310 --> 00:14:44,959  
to the water fountain as they were

363  
00:14:49,189 --> 00:14:46,320

heading toward the building

364

00:14:51,670 --> 00:14:49,199

exit the witness inquired about the

365

00:14:53,030 --> 00:14:51,680

damaged door and the security officer

366

00:14:55,110 --> 00:14:53,040

only mentioned

367

00:14:57,750 --> 00:14:55,120

that the door was damaged but something

368

00:15:00,310 --> 00:14:57,760

can find behind it

369

00:15:02,949 --> 00:15:00,320

now after several years of scrutiny and

370

00:15:06,389 --> 00:15:02,959

questions the investigator believes

371

00:15:10,310 --> 00:15:06,399

that this building was used for research

372

00:15:13,949 --> 00:15:10,320

and contained unknown bipedal beans

373

00:15:15,110 --> 00:15:13,959

that had somewhat how escaped between

374

00:15:18,710 --> 00:15:15,120

1979

375

00:15:22,150 --> 00:15:18,720

and 1984 he had received

376

00:15:25,509 --> 00:15:22,160

information that 20 to 34

377

00:15:25,990 --> 00:15:25,519

individuals of both sexes had been in

378

00:15:28,870 --> 00:15:26,000

the building

379

00:15:30,870 --> 00:15:28,880

at some period he also mentioned that

380

00:15:32,790 --> 00:15:30,880

during this period of time

381

00:15:35,430 --> 00:15:32,800

that there had been many bigfoot

382

00:15:36,790 --> 00:15:35,440

sightings at rock state park and

383

00:15:39,110 --> 00:15:36,800

gunfire's

384

00:15:42,230 --> 00:15:39,120

powder falls state park which are

385

00:15:44,550 --> 00:15:42,240

located near the government facility

386

00:15:46,470 --> 00:15:44,560

now i had i've been aware of the bigfoot

387

00:15:48,870 --> 00:15:46,480

sightings in those locations for

388

00:15:50,949 --> 00:15:48,880

over the years but you know i don't know

389

00:15:53,829 --> 00:15:50,959

if these sightings are related to these

390

00:15:55,030 --> 00:15:53,839

aforementioned uh escapes of course this

391

00:15:57,269 --> 00:15:55,040

information

392

00:15:59,749 --> 00:15:57,279

is completely anecdotal and based on

393

00:16:02,150 --> 00:15:59,759

what and witnesses account

394

00:16:02,870 --> 00:16:02,160

so you know let's be hypothetical for a

395

00:16:06,470 --> 00:16:02,880

second

396

00:16:08,389 --> 00:16:06,480

is it possible that the being eyewitness

397

00:16:12,470 --> 00:16:08,399

near sykesville maryland

398

00:16:15,829 --> 00:16:12,480

in 1981 was an escaped experiment

399

00:16:18,629 --> 00:16:15,839

uh because this facility

400

00:16:19,030 --> 00:16:18,639

in sykesville was nearby the one that

401  
00:16:21,749 --> 00:16:19,040  
they

402  
00:16:23,990 --> 00:16:21,759  
people referred to as the monkey house

403  
00:16:25,910 --> 00:16:24,000  
uh

404  
00:16:27,030 --> 00:16:25,920  
was there another incident or series in

405  
00:16:28,870 --> 00:16:27,040  
an incident at

406  
00:16:31,430 --> 00:16:28,880  
other facilities in maryland during the

407  
00:16:35,189 --> 00:16:31,440  
same time period

408  
00:16:36,710 --> 00:16:35,199  
so you know since i've put since the

409  
00:16:38,710 --> 00:16:36,720  
time i posted that

410  
00:16:40,550 --> 00:16:38,720  
i've talked to several people who were

411  
00:16:43,590 --> 00:16:40,560  
aware of

412  
00:16:45,189 --> 00:16:43,600  
are part of the uh the

413  
00:16:47,110 --> 00:16:45,199

various government biological

414

00:16:49,110 --> 00:16:47,120

experiments uh

415

00:16:50,790 --> 00:16:49,120

one facility that continued to come up

416

00:16:52,629 --> 00:16:50,800

in conversations

417

00:16:54,150 --> 00:16:52,639

was the edgewood arsenal in harford

418

00:16:55,110 --> 00:16:54,160

county maryland which is the same

419

00:16:59,030 --> 00:16:55,120

facility

420

00:17:02,150 --> 00:16:59,040

mentioned by this investigator now

421

00:17:04,069 --> 00:17:02,160

there was a 1994 documentary titled bad

422

00:17:07,829 --> 00:17:04,079

trip to edgewood

423

00:17:09,669 --> 00:17:07,839

which you can find on youtube

424

00:17:11,590 --> 00:17:09,679

and it starts by showing clips of

425

00:17:12,069 --> 00:17:11,600

animals being cruelly tested in the

426

00:17:15,510 --> 00:17:12,079

edgewood

427

00:17:17,990 --> 00:17:15,520

laboratory with voice

428

00:17:18,870 --> 00:17:18,000

over stating that animals were always

429

00:17:22,390 --> 00:17:18,880

tested before

430

00:17:23,429 --> 00:17:22,400

humans now the clips were highly

431

00:17:25,750 --> 00:17:23,439

disturbing

432

00:17:27,829 --> 00:17:25,760

but then the documentary states that

433

00:17:29,669 --> 00:17:27,839

such experiments were not confined to

434

00:17:32,390 --> 00:17:29,679

animals

435

00:17:37,510 --> 00:17:32,400

the medical research volunteer program

436

00:17:40,870 --> 00:17:37,520

was conducted at the facility in 1948

437

00:17:42,470 --> 00:17:40,880

through 1975.

438

00:17:44,870 --> 00:17:42,480

the aim of the experiments was to

439

00:17:48,070 --> 00:17:44,880

analyze the impact of chemical warfare

440

00:17:49,710 --> 00:17:48,080

agents or military personnel to test the

441

00:17:52,789 --> 00:17:49,720

likes of vaccines

442

00:17:55,350 --> 00:17:52,799

pharmaceuticals and protective clothing

443

00:17:56,789 --> 00:17:55,360

it is now known that seven thousand

444

00:17:59,510 --> 00:17:56,799

soldiers

445

00:18:00,870 --> 00:17:59,520

and one thousand civilians were used as

446

00:18:03,230 --> 00:18:00,880

guinea pigs

447

00:18:04,710 --> 00:18:03,240

half of which were tested with so-called

448

00:18:08,789 --> 00:18:04,720

psycho-chemicals

449

00:18:11,990 --> 00:18:08,799

and mind-altering drugs the

450

00:18:12,870 --> 00:18:12,000

medical volunteers were never told that

451  
00:18:17,669 --> 00:18:12,880  
the chemicals

452  
00:18:20,470 --> 00:18:17,679  
asked what the drugs were they were told

453  
00:18:23,270 --> 00:18:20,480  
not to ask questions

454  
00:18:24,950 --> 00:18:23,280  
but what is but what is the actual stent

455  
00:18:26,549 --> 00:18:24,960  
taking place at edgewood

456  
00:18:28,390 --> 00:18:26,559  
and these other facilities throughout

457  
00:18:30,310 --> 00:18:28,400  
the country uh

458  
00:18:32,549 --> 00:18:30,320  
this location edgewood was later

459  
00:18:33,510 --> 00:18:32,559  
designated as the us army medical

460  
00:18:36,789 --> 00:18:33,520  
research

461  
00:18:39,830 --> 00:18:36,799  
institute for chemical defense

462  
00:18:42,630 --> 00:18:39,840  
uh it is also you know see also near

463  
00:18:46,710 --> 00:18:42,640

that aberdeen proving ground area

464

00:18:49,990 --> 00:18:46,720

uh now i guess a lot of people

465

00:18:52,789 --> 00:18:50,000

a lot of people are aware uh after

466

00:18:53,830 --> 00:18:52,799

the fall soviet union that you know that

467

00:18:57,190 --> 00:18:53,840

soviet dictator

468

00:19:00,390 --> 00:18:57,200

joseph stalin had ordered a creation of

469

00:19:02,470 --> 00:19:00,400

altered hominid warriors by crossing

470

00:19:05,190 --> 00:19:02,480

humans with apes according to the secret

471

00:19:07,990 --> 00:19:05,200

documents uncovered in 2005.

472

00:19:08,630 --> 00:19:08,000

now in the mid-1920s russia's top animal

473

00:19:14,950 --> 00:19:08,640

breed

474

00:19:16,789 --> 00:19:14,960

was ordered to turn his skills from

475

00:19:19,270 --> 00:19:16,799

horse and animal work to

476  
00:19:22,230 --> 00:19:19,280  
the quest of a super warrior now

477  
00:19:24,710 --> 00:19:22,240  
according to the moscow newspapers

478  
00:19:25,830 --> 00:19:24,720  
stalin told the scientists i want a new

479  
00:19:28,390 --> 00:19:25,840  
invincible

480  
00:19:30,070 --> 00:19:28,400  
human being insensitive to pain

481  
00:19:31,750 --> 00:19:30,080  
resistant and different about the

482  
00:19:33,590 --> 00:19:31,760  
quality of food they eat

483  
00:19:35,909 --> 00:19:33,600  
the project failed of course because the

484  
00:19:38,630 --> 00:19:35,919  
technology just wasn't available

485  
00:19:40,310 --> 00:19:38,640  
but is it possible that the united

486  
00:19:42,150 --> 00:19:40,320  
states government

487  
00:19:43,830 --> 00:19:42,160  
embarked on a project remotely

488  
00:19:49,430 --> 00:19:43,840

paralleling the uh

489

00:19:54,549 --> 00:19:52,470

yeah i guess it's possible you know

490

00:19:56,789 --> 00:19:54,559

this uh you know there have been a lot

491

00:19:58,549 --> 00:19:56,799

of hairy hominid sightings in harper and

492

00:19:59,909 --> 00:19:58,559

baltimore counties

493

00:20:02,390 --> 00:19:59,919

and here in maryland north into

494

00:20:05,750 --> 00:20:02,400

pennsylvania west spring break

495

00:20:05,990 --> 00:20:05,760

susquehanna river over the past 35 years

496

00:20:09,029 --> 00:20:06,000

now

497

00:20:10,710 --> 00:20:09,039

unlike my studying near sykesville most

498

00:20:14,310 --> 00:20:10,720

of the descriptions of human

499

00:20:16,310 --> 00:20:14,320

or of human-like faces and in fact

500

00:20:18,070 --> 00:20:16,320

many of the east coast harry hominids

501  
00:20:19,830 --> 00:20:18,080  
share that distinction

502  
00:20:22,789 --> 00:20:19,840  
as opposed to the descriptions of

503  
00:20:25,510 --> 00:20:22,799  
ape-like features further west

504  
00:20:26,870 --> 00:20:25,520  
and this all begs for another familiar

505  
00:20:28,390 --> 00:20:26,880  
question why

506  
00:20:30,710 --> 00:20:28,400  
why haven't any of these beings ever

507  
00:20:33,029 --> 00:20:30,720  
been caught or found dead

508  
00:20:33,990 --> 00:20:33,039  
now if bioengineering is part of the

509  
00:20:37,669 --> 00:20:34,000  
development of these

510  
00:20:40,549 --> 00:20:37,679  
beings who is to say that reverse

511  
00:20:42,789 --> 00:20:40,559  
engineering our reverse engineered

512  
00:20:44,390 --> 00:20:42,799  
extraterrestrial technology

513  
00:20:45,990 --> 00:20:44,400

has never been incorporated in the

514

00:20:49,350 --> 00:20:46,000

formulation

515

00:20:51,430 --> 00:20:49,360

of this or any other life form uh could

516

00:20:52,789 --> 00:20:51,440

certain technology give these beings the

517

00:20:56,149 --> 00:20:52,799

ability to cloak

518

00:20:58,390 --> 00:20:56,159

or be multiverse travelers who's to say

519

00:21:01,830 --> 00:20:58,400

that other unknown beings and or

520

00:21:03,110 --> 00:21:01,840

bipedal cryptids can't possess the same

521

00:21:05,029 --> 00:21:03,120

traits

522

00:21:06,789 --> 00:21:05,039

this may be a big drop in the rabbit

523

00:21:09,270 --> 00:21:06,799

hole but you know

524

00:21:11,750 --> 00:21:09,280

i never discount man's willingness to

525

00:21:14,310 --> 00:21:11,760

venture closer to the creator

526

00:21:15,750 --> 00:21:14,320

so you know how far will they go we

527

00:21:18,390 --> 00:21:15,760

don't know

528

00:21:20,070 --> 00:21:18,400

no we don't and you know i just posted

529

00:21:20,630 --> 00:21:20,080

in the chat room if we can clone sheep

530

00:21:23,029 --> 00:21:20,640

who the

531

00:21:24,789 --> 00:21:23,039

heck knows what we can really do and i

532

00:21:26,390 --> 00:21:24,799

think that's a you know a fair point but

533

00:21:27,990 --> 00:21:26,400

we go back to the storyline and this is

534

00:21:29,590 --> 00:21:28,000

not the first time i've heard the monkey

535

00:21:31,909 --> 00:21:29,600

house brought up

536

00:21:33,029 --> 00:21:31,919

yeah along yorn you know in the area

537

00:21:34,390 --> 00:21:33,039

near your encounter

538

00:21:35,590 --> 00:21:34,400

and uh this is the first time i'm

539

00:21:36,710 --> 00:21:35,600

hearing about some of the internal

540

00:21:38,390 --> 00:21:36,720

workings

541

00:21:40,310 --> 00:21:38,400

of some of these other facilities with

542

00:21:41,990 --> 00:21:40,320

this giant metal door that looks like

543

00:21:45,430 --> 00:21:42,000

it's been attacked

544

00:21:48,470 --> 00:21:45,440

and uh and bulged and prone

545

00:21:50,070 --> 00:21:48,480

uh so i don't know uh and they raised

546

00:21:51,990 --> 00:21:50,080

the building now so there's no way to go

547

00:21:53,990 --> 00:21:52,000

back and really find out

548

00:21:57,510 --> 00:21:54,000

no but now all we have to do is start

549

00:21:58,789 --> 00:21:57,520

taking uh reports from other folks

550

00:22:00,310 --> 00:21:58,799

that were in these buildings around

551  
00:22:01,510 --> 00:22:00,320  
those times and see if more people can

552  
00:22:04,070 --> 00:22:01,520  
come forward

553  
00:22:04,710 --> 00:22:04,080  
uh with information on this i guess i'm

554  
00:22:07,510 --> 00:22:04,720  
really

555  
00:22:10,149 --> 00:22:07,520  
more intrigued that you know the person

556  
00:22:13,750 --> 00:22:10,159  
makes claims of what they say 20 to 30

557  
00:22:16,310 --> 00:22:13,760  
individuals of both sexes 20 to 34

558  
00:22:18,390 --> 00:22:16,320  
individuals of both sexes where now

559  
00:22:22,230 --> 00:22:18,400  
where he got these numbers that

560  
00:22:23,350 --> 00:22:22,240  
he didn't say i will say i will say

561  
00:22:27,669 --> 00:22:23,360  
though

562  
00:22:28,789 --> 00:22:27,679  
that he he was an investigator when he

563  
00:22:30,310 --> 00:22:28,799

was in the service

564

00:22:33,750 --> 00:22:30,320

okay when he was still active in the

565

00:22:37,110 --> 00:22:33,760

service and when he retired

566

00:22:40,070 --> 00:22:37,120

he became a uh he became a pi

567

00:22:41,029 --> 00:22:40,080

private investigator so that's that was

568

00:22:43,350 --> 00:22:41,039

his job now

569

00:22:45,270 --> 00:22:43,360

i i think he may have retired all

570

00:22:49,190 --> 00:22:45,280

together recently

571

00:22:52,390 --> 00:22:49,200

but uh when he saw the um

572

00:22:55,590 --> 00:22:52,400

when he sold my experience

573

00:22:56,789 --> 00:22:55,600

on on television when it was on monsters

574

00:22:59,990 --> 00:22:56,799

and mysteries in america

575

00:23:03,430 --> 00:23:00,000

he called me and uh

576  
00:23:05,029 --> 00:23:03,440  
that's when he told me about somebody

577  
00:23:07,029 --> 00:23:05,039  
this monkey house thing and it's

578  
00:23:09,510 --> 00:23:07,039  
something i had heard of later

579  
00:23:11,270 --> 00:23:09,520  
no when i did when i had the encounter

580  
00:23:13,669 --> 00:23:11,280  
and started investigating

581  
00:23:14,630 --> 00:23:13,679  
with other witnesses i never heard of it

582  
00:23:18,149 --> 00:23:14,640  
before

583  
00:23:20,830 --> 00:23:18,159  
but he he went back and and found

584  
00:23:22,950 --> 00:23:20,840  
the reference by one of the original

585  
00:23:26,710 --> 00:23:22,960  
witnesses to the uh

586  
00:23:28,950 --> 00:23:26,720  
story in the the baltimore afro-american

587  
00:23:31,669 --> 00:23:28,960  
newspaper who did the initial

588  
00:23:34,470 --> 00:23:31,679

investigation

589

00:23:35,990 --> 00:23:34,480

so then you know so now you know he

590

00:23:38,870 --> 00:23:36,000

thought it was curious

591

00:23:40,710 --> 00:23:38,880

with this thing you know at edgewood and

592

00:23:42,070 --> 00:23:40,720

uh

593

00:23:44,310 --> 00:23:42,080

now that information but that

594

00:23:46,070 --> 00:23:44,320

information that he had that specific

595

00:23:48,710 --> 00:23:46,080

information that he had

596

00:23:49,669 --> 00:23:48,720

i have no idea where he got it and

597

00:23:51,669 --> 00:23:49,679

that's why i

598

00:23:53,029 --> 00:23:51,679

have been asking and been looking around

599

00:23:55,269 --> 00:23:53,039

for people that

600

00:23:56,870 --> 00:23:55,279

may possibly know something i have

601  
00:23:58,870 --> 00:23:56,880  
talked to a few

602  
00:24:00,310 --> 00:23:58,880  
and uh you know around i don't know if

603  
00:24:01,750 --> 00:24:00,320  
you're familiar with the baltimore

604  
00:24:03,830 --> 00:24:01,760  
washington area well

605  
00:24:05,110 --> 00:24:03,840  
you know it's a government facilities

606  
00:24:08,710 --> 00:24:05,120  
everywhere

607  
00:24:11,350 --> 00:24:08,720  
and uh the the military

608  
00:24:11,830 --> 00:24:11,360  
has a lot of research facilities and you

609  
00:24:16,070 --> 00:24:11,840  
know

610  
00:24:17,430 --> 00:24:16,080  
i i would say that at least 30 percent

611  
00:24:19,190 --> 00:24:17,440  
of the population

612  
00:24:21,029 --> 00:24:19,200  
in this area works somewhere for the

613  
00:24:23,269 --> 00:24:21,039

government either the state or

614

00:24:24,070 --> 00:24:23,279

federal government we're so close to

615

00:24:26,390 --> 00:24:24,080

washington

616

00:24:27,830 --> 00:24:26,400

and i mean there's just a lot of places

617

00:24:31,110 --> 00:24:27,840

and even down into

618

00:24:33,590 --> 00:24:31,120

virginia so you know

619

00:24:34,789 --> 00:24:33,600

the united states government does have a

620

00:24:39,750 --> 00:24:34,799

lot

621

00:24:42,070 --> 00:24:39,760

about of course

622

00:24:42,789 --> 00:24:42,080

you know i there i i had found out that

623

00:24:49,669 --> 00:24:42,799

there was a

624

00:24:52,310 --> 00:24:49,679

less than a mile away from me not long

625

00:24:55,669 --> 00:24:54,789

and that it was it was actually a

626  
00:24:58,310 --> 00:24:55,679  
retired

627  
00:24:59,669 --> 00:24:58,320  
missile silo i never knew it was there

628  
00:25:00,950 --> 00:24:59,679  
we got to watch out for these missiles

629  
00:25:04,390 --> 00:25:00,960  
right now there you go so it's

630  
00:25:05,029 --> 00:25:04,400  
um you know so there there is a lot of

631  
00:25:07,190 --> 00:25:05,039  
stuff

632  
00:25:09,029 --> 00:25:07,200  
in the area and but there are a lot of

633  
00:25:10,870 --> 00:25:09,039  
people that worked at these facilities

634  
00:25:13,190 --> 00:25:10,880  
and you know of course people were

635  
00:25:14,789 --> 00:25:13,200  
i don't know what kind of non-disclosure

636  
00:25:15,430 --> 00:25:14,799  
agreements they have when they retire

637  
00:25:18,870 --> 00:25:15,440  
and

638  
00:25:19,590 --> 00:25:18,880

uh or how long before they can discuss

639

00:25:21,590 --> 00:25:19,600

anything

640

00:25:23,350 --> 00:25:21,600

you do get a few people that will come

641

00:25:27,590 --> 00:25:23,360

forward occasionally

642

00:25:27,990 --> 00:25:27,600

uh but it's not you know for the amount

643

00:25:29,750 --> 00:25:28,000

of people

644

00:25:31,430 --> 00:25:29,760

that are out there it's really not easy

645

00:25:32,789 --> 00:25:31,440

to get them to tell you anything

646

00:25:34,630 --> 00:25:32,799

well no one wants to lose their pension

647

00:25:36,870 --> 00:25:34,640

in this economy absolutely

648

00:25:38,230 --> 00:25:36,880

and i i can't blame them but some of the

649

00:25:39,990 --> 00:25:38,240

information

650

00:25:42,549 --> 00:25:40,000

that you know bits and pieces i have

651  
00:25:45,750 --> 00:25:42,559  
gotten are fairly interesting

652  
00:25:46,870 --> 00:25:45,760  
and uh yeah so you know we'll see maybe

653  
00:25:48,950 --> 00:25:46,880  
we'll get something else

654  
00:25:51,029 --> 00:25:48,960  
well you know you think about things

655  
00:25:53,029 --> 00:25:51,039  
like uh stalin's eight men

656  
00:25:54,710 --> 00:25:53,039  
and who the heck knows what the hell the

657  
00:25:58,310 --> 00:25:54,720  
nazis were into

658  
00:26:00,230 --> 00:25:58,320  
and where we're at with technology now

659  
00:26:01,990 --> 00:26:00,240  
and biotechnology and genetic

660  
00:26:06,310 --> 00:26:02,000  
engineering and the mapping of the gmo

661  
00:26:08,149 --> 00:26:06,320  
genome and those sorts of uh

662  
00:26:09,430 --> 00:26:08,159  
you know projects that are going on out

663  
00:26:12,230 --> 00:26:09,440

there in research

664

00:26:13,269 --> 00:26:12,240

what can we do today that we couldn't do

665

00:26:16,470 --> 00:26:13,279

50 years ago

666

00:26:18,070 --> 00:26:16,480

60 years ago and that that that bothers

667

00:26:19,590 --> 00:26:18,080

me a little bit so

668

00:26:22,230 --> 00:26:19,600

i don't know and i guess we're just

669

00:26:23,909 --> 00:26:22,240

gonna have to chop this one up to

670

00:26:25,430 --> 00:26:23,919

wait and see and see if we hear anything

671

00:26:27,510 --> 00:26:25,440

else well

672

00:26:29,269 --> 00:26:27,520

and we've got the perfect guest tonight

673

00:26:32,149 --> 00:26:29,279

for that because

674

00:26:32,549 --> 00:26:32,159

uh nick redfearn has been investigating

675

00:26:35,750 --> 00:26:32,559

this

676

00:26:39,350 --> 00:26:35,760

weird stuff these conspiracies uh

677

00:26:43,350 --> 00:26:39,360

in with cryptids and government

678

00:26:44,950 --> 00:26:43,360

nasa ufo ufos ufology

679

00:26:47,350 --> 00:26:44,960

for a long time now i've been writing

680

00:26:49,269 --> 00:26:47,360

about it so this uh

681

00:26:50,870 --> 00:26:49,279

you know this may be something that he

682

00:26:53,750 --> 00:26:50,880

can you know can cast you know get some

683

00:26:55,029 --> 00:26:53,760

matches too as well

684

00:26:57,029 --> 00:26:55,039

well it'll be interesting to get his

685

00:27:00,630 --> 00:26:57,039

take on this yeah

686

00:27:02,789 --> 00:27:00,640

yeah it will be so um i i guess that

687

00:27:05,110 --> 00:27:02,799

maybe we should take a break bring nick

688

00:27:06,870 --> 00:27:05,120

on here and uh

689

00:27:08,710 --> 00:27:06,880

go into the next segment yeah i guess

690

00:27:10,310 --> 00:27:08,720

we'll do that

691

00:27:11,590 --> 00:27:10,320

uh i guess i don't have anything else to

692

00:27:13,190 --> 00:27:11,600

talk about myself either a couple

693

00:27:14,950 --> 00:27:13,200

bigfoot reports came in long

694

00:27:16,470 --> 00:27:14,960

the last observations that we're going

695

00:27:19,430 --> 00:27:16,480

to investigate

696

00:27:19,990 --> 00:27:19,440

yes i just saw that today tom ferrance

697

00:27:21,190 --> 00:27:20,000

is uh

698

00:27:23,110 --> 00:27:21,200

on the case so we'll get some

699

00:27:23,830 --> 00:27:23,120

information shortly on that these

700

00:27:27,909 --> 00:27:23,840

missile

701  
00:27:29,590 --> 00:27:27,919  
california's got everybody's panties in

702  
00:27:33,110 --> 00:27:29,600  
a twist

703  
00:27:36,710 --> 00:27:33,120  
uh i think that was a sub-launch missile

704  
00:27:38,149 --> 00:27:36,720  
that uh yeah it was like a blue ball of

705  
00:27:38,870 --> 00:27:38,159  
light scared the hell out of a bunch of

706  
00:27:40,950 --> 00:27:38,880  
people

707  
00:27:42,230 --> 00:27:40,960  
in southern california yeah well you

708  
00:27:44,389 --> 00:27:42,240  
think that was the point it is an

709  
00:27:46,470 --> 00:27:44,399  
election year

710  
00:27:47,510 --> 00:27:46,480  
maybe maybe we need to be stronger on

711  
00:27:50,389 --> 00:27:47,520  
national defense

712  
00:27:52,389 --> 00:27:50,399  
fire missiles and another thing uh uh

713  
00:27:55,669 --> 00:27:52,399

talking about the uh

714

00:27:58,389 --> 00:27:55,679

butch mentioned tonight about the um

715

00:27:59,190 --> 00:27:58,399

the pennsylvania dog man investigation

716

00:28:00,789 --> 00:27:59,200

that

717

00:28:03,669 --> 00:28:00,799

we're going to have some dates coming up

718

00:28:07,750 --> 00:28:03,679

for the next the next round of that

719

00:28:11,230 --> 00:28:07,760

uh the first the first investigation

720

00:28:15,190 --> 00:28:11,240

uh wasn't a whole lot but there was some

721

00:28:19,590 --> 00:28:15,200

strange i don't know

722

00:28:22,789 --> 00:28:19,600

it seemed like it was uh the locations

723

00:28:26,549 --> 00:28:22,799

were so quiet for some reason

724

00:28:28,230 --> 00:28:26,559

um you know he was explaining to it it

725

00:28:30,389 --> 00:28:28,240

sounded really eerie

726

00:28:32,389 --> 00:28:30,399

uh it's got my interest up i may have to

727

00:28:34,389 --> 00:28:32,399

go up there and check that out myself

728

00:28:35,750 --> 00:28:34,399

we'll get you out there long yeah i

729

00:28:39,190 --> 00:28:35,760

might have to go up there myself and

730

00:28:41,350 --> 00:28:39,200

looking around but um you know

731

00:28:42,870 --> 00:28:41,360

we'll see all right well let's take our

732

00:28:45,269 --> 00:28:42,880

break we got a little

733

00:28:46,549 --> 00:28:45,279

ozzy osbourne for the intermission and

734

00:28:47,510 --> 00:28:46,559

then we're going to bring on nick

735

00:28:50,630 --> 00:28:47,520

redfern

736

00:28:51,590 --> 00:28:50,640

to talk about men in black bloodlines of

737

00:28:53,190 --> 00:28:51,600

the gods and

738

00:28:55,430 --> 00:28:53,200

whatever else lon pulls out of the hat

739

00:28:58,389 --> 00:28:55,440

so stay tuned folk time for you to go

740

00:28:59,830 --> 00:28:58,399

and uh have a smoke get a cup of water

741

00:29:00,950 --> 00:28:59,840

maybe a cup of coffee whatever you need

742

00:29:07,990 --> 00:29:00,960

to hang with us

743

00:29:11,990 --> 00:29:10,630

and welcome back folks arcane radio sean

744

00:29:14,870 --> 00:29:12,000

the fork chop forker here

745

00:29:17,669 --> 00:29:14,880

with lon strickler and our guest tonight

746

00:29:19,750 --> 00:29:17,679

mr nick redfern and folks if you've been

747

00:29:21,750 --> 00:29:19,760

uh a listener of arcane radio or you

748

00:29:23,430 --> 00:29:21,760

have any interest in the paranormal

749

00:29:25,990 --> 00:29:23,440

then you already know who nick redford

750

00:29:27,909 --> 00:29:26,000

is and uh you know he's been on our show

751  
00:29:30,630 --> 00:29:27,919  
a couple times he's been with us on the

752  
00:29:33,750 --> 00:29:30,640  
old program beyond the edge radio and

753  
00:29:35,350 --> 00:29:33,760  
you can read uh nick's articles on jim

754  
00:29:37,990 --> 00:29:35,360  
herald.com

755  
00:29:40,470 --> 00:29:38,000  
uh and just about anywhere else that uh

756  
00:29:42,310 --> 00:29:40,480  
cryptozoology or ufo ology is

757  
00:29:44,710 --> 00:29:42,320  
abundant and nick thanks for joining us

758  
00:29:46,149 --> 00:29:44,720  
tonight here on arcane radio

759  
00:29:48,149 --> 00:29:46,159  
yeah sure thanks guys thanks for having

760  
00:29:51,110 --> 00:29:48,159  
me up it's our pleasure as always

761  
00:29:52,310 --> 00:29:51,120  
lon this is where you kick it in the

762  
00:29:54,789 --> 00:29:52,320  
gear big guy

763  
00:29:55,669 --> 00:29:54,799

yeah nick you are you had mentioned to

764

00:29:58,310 --> 00:29:55,679

me that

765

00:29:59,269 --> 00:29:58,320

you you just are you're working on this

766

00:30:01,909 --> 00:29:59,279

uh

767

00:30:03,029 --> 00:30:01,919

the chupacabras book what is that all

768

00:30:04,710 --> 00:30:03,039

about

769

00:30:06,310 --> 00:30:04,720

well actually i'm not so much working on

770

00:30:08,230 --> 00:30:06,320

he actually came out about three or four

771

00:30:10,789 --> 00:30:08,240

weeks ago

772

00:30:11,830 --> 00:30:10,799

and uh it's called chupacabra road trip

773

00:30:14,470 --> 00:30:11,840

and it's about

774

00:30:16,710 --> 00:30:14,480

um it's like a road trip style diary

775

00:30:19,190 --> 00:30:16,720

type book on all the expeditions

776

00:30:20,950 --> 00:30:19,200

i've been on looking for the chupacabra

777

00:30:23,029 --> 00:30:20,960

and that sort of goes back to the

778

00:30:25,350 --> 00:30:23,039

original puerto rican reports

779

00:30:26,870 --> 00:30:25,360

um i've been to puerto rico many times

780

00:30:27,830 --> 00:30:26,880

looking for the chupacabra the first

781

00:30:31,110 --> 00:30:27,840

time in

782

00:30:34,470 --> 00:30:31,120

2004 in the most recent uh last year

783

00:30:34,950 --> 00:30:34,480

and so that the part of the book was

784

00:30:36,789 --> 00:30:34,960

sort of

785

00:30:38,950 --> 00:30:36,799

at two thirds of the book he's devoted

786

00:30:40,549 --> 00:30:38,960

to all the puerto rican expeditions

787

00:30:42,070 --> 00:30:40,559

and then the other third of the book or

788

00:30:44,470 --> 00:30:42,080

thereabouts is

789

00:30:45,830 --> 00:30:44,480

on the the so-called texas and american

790

00:30:48,020 --> 00:30:45,840

chupacabra

791

00:30:49,110 --> 00:30:48,030

and then through to

792

00:30:51,990 --> 00:30:49,120

[Music]

793

00:30:53,350 --> 00:30:52,000

mexico south america places like that so

794

00:30:55,190 --> 00:30:53,360

it's sort of written in the sort of

795

00:30:57,029 --> 00:30:55,200

spirit of a road trip you know hitting

796

00:30:58,950 --> 00:30:57,039

the road and and looking for the

797

00:31:02,149 --> 00:30:58,960

chupacabra

798

00:31:05,509 --> 00:31:02,159

so what have you come up with uh

799

00:31:06,450 --> 00:31:05,519

what what is the actual origin of this

800

00:31:07,509 --> 00:31:06,460

uh this crypt

801  
00:31:09,990 --> 00:31:07,519

[Music]

802  
00:31:11,190 --> 00:31:10,000  
well it gets kind of confusing because i

803  
00:31:13,430 --> 00:31:11,200  
guess the term

804  
00:31:15,350 --> 00:31:13,440  
triple cab has become so iconic that any

805  
00:31:17,430 --> 00:31:15,360  
kind of weird-looking animal people say

806  
00:31:20,789 --> 00:31:17,440  
oh it's the chipper cabaret yeah

807  
00:31:23,269 --> 00:31:20,799  
um but of course you know we have the

808  
00:31:25,430 --> 00:31:23,279  
so the more modern era chupacabras in

809  
00:31:29,110 --> 00:31:25,440  
the us which are these sort of hairless

810  
00:31:31,190 --> 00:31:29,120  
coyote dogs um but the original

811  
00:31:34,149 --> 00:31:31,200  
uh chupacabra that surfaced in puerto

812  
00:31:36,070 --> 00:31:34,159  
rico in 1995 is described as a very sort

813  
00:31:38,389 --> 00:31:36,080

of different looking creature

814

00:31:40,630 --> 00:31:38,399

um for people who don't know uh chub

815

00:31:41,430 --> 00:31:40,640

procab is a spanish term meaning goat

816

00:31:43,830 --> 00:31:41,440

sucker

817

00:31:45,750 --> 00:31:43,840

and it takes its name from the fact that

818

00:31:47,430 --> 00:31:45,760

when the wave of sightings began in

819

00:31:50,470 --> 00:31:47,440

puerto rico

820

00:31:52,070 --> 00:31:50,480

excuse me in 1995

821

00:31:53,830 --> 00:31:52,080

a lot of the animals that were attacked

822

00:31:54,470 --> 00:31:53,840

were far-harm animals and particularly

823

00:31:56,070 --> 00:31:54,480

goats

824

00:31:59,029 --> 00:31:56,080

and there were a lot of rumors about the

825

00:32:02,310 --> 00:31:59,039

animals being drained of blood now

826

00:32:04,070 --> 00:32:02,320

1995 you know i was aware of the

827

00:32:05,909 --> 00:32:04,080

chupacabra phenomenon through sort of

828

00:32:07,029 --> 00:32:05,919

magazines and newsletters you know there

829

00:32:09,190 --> 00:32:07,039

wasn't much of a

830

00:32:10,549 --> 00:32:09,200

an internet back then at all just you

831

00:32:14,070 --> 00:32:10,559

know very basic

832

00:32:15,509 --> 00:32:14,080

um so we're reliant on you know just

833

00:32:17,269 --> 00:32:15,519

wait for magazine stories and

834

00:32:17,909 --> 00:32:17,279

newsletters to come out on the latest

835

00:32:20,389 --> 00:32:17,919

news but

836

00:32:21,509 --> 00:32:20,399

um as i said the first time i went to

837

00:32:24,389 --> 00:32:21,519

puerto rico

838

00:32:26,549 --> 00:32:24,399

was in 2004 and i think it's like any

839

00:32:28,630 --> 00:32:26,559

aspect of cryptozoology

840

00:32:30,149 --> 00:32:28,640

the best way to go answer to get answers

841

00:32:32,230 --> 00:32:30,159

is to go and look for these things

842

00:32:33,430 --> 00:32:32,240

whether it's bigfoot like monsters or

843

00:32:35,750 --> 00:32:33,440

chupacabra

844

00:32:37,430 --> 00:32:35,760

you know field work i don't think

845

00:32:38,310 --> 00:32:37,440

anything will ever sort of replace that

846

00:32:41,669 --> 00:32:38,320

in terms of

847

00:32:43,269 --> 00:32:41,679

importance um and just for me at least

848

00:32:45,830 --> 00:32:43,279

when i went in 2004

849

00:32:48,230 --> 00:32:45,840

this was with um a team from the sci-fi

850

00:32:49,990 --> 00:32:48,240

channel for a show called proof positive

851  
00:32:51,430 --> 00:32:50,000  
um i don't think there's any better way

852  
00:32:54,549 --> 00:32:51,440  
than to sort of be thrust

853  
00:32:56,549 --> 00:32:54,559  
right into the heart of it and um in the

854  
00:32:59,110 --> 00:32:56,559  
eight to nine days were there we

855  
00:33:00,630 --> 00:32:59,120  
interviewed ranchers police officers

856  
00:33:03,350 --> 00:33:00,640  
veterinarians

857  
00:33:04,950 --> 00:33:03,360  
eyewitnesses dozens of people who had

858  
00:33:06,950 --> 00:33:04,960  
some sort of involvement

859  
00:33:09,029 --> 00:33:06,960  
in the chupacabra mystery and it really

860  
00:33:11,509 --> 00:33:09,039  
sort of opened my eyes to the idea that

861  
00:33:13,509 --> 00:33:11,519  
well not the idea but you know the

862  
00:33:15,190 --> 00:33:13,519  
reality of it to me was and still is

863  
00:33:17,350 --> 00:33:15,200

that there's a genuine

864

00:33:18,470 --> 00:33:17,360

unknown creature known as the chupacabra

865

00:33:21,269 --> 00:33:18,480

on puerto rico

866

00:33:24,070 --> 00:33:21,279

the big question still is years later

867

00:33:26,470 --> 00:33:24,080

you know what is it

868

00:33:27,750 --> 00:33:26,480

yeah yeah that's that's that is the big

869

00:33:29,509 --> 00:33:27,760

question what is this thing

870

00:33:30,950 --> 00:33:29,519

is it is is it actually something

871

00:33:34,789 --> 00:33:30,960

natural or is there

872

00:33:37,830 --> 00:33:34,799

a possibility that it could be uh alien

873

00:33:39,509 --> 00:33:37,840

well you know i mean the several um

874

00:33:41,190 --> 00:33:39,519

different theories that i've heard every

875

00:33:43,350 --> 00:33:41,200

time i've been to puerto rico

876

00:33:44,389 --> 00:33:43,360

you know coming from the the locals and

877

00:33:46,710 --> 00:33:44,399

the witnesses

878

00:33:48,870 --> 00:33:46,720

and it typically falls into several

879

00:33:51,110 --> 00:33:48,880

camp you get these people who

880

00:33:52,950 --> 00:33:51,120

think that it's it's some form of

881

00:33:54,630 --> 00:33:52,960

unknown animal you know just an unknown

882

00:33:56,070 --> 00:33:54,640

animal the science hasn't found or

883

00:33:58,149 --> 00:33:56,080

classified yet

884

00:33:59,350 --> 00:33:58,159

um then you have as you said the the

885

00:34:01,110 --> 00:33:59,360

alien theory

886

00:34:03,269 --> 00:34:01,120

people have drawn a parallel with the

887

00:34:04,070 --> 00:34:03,279

fact that admittedly there are a lot of

888

00:34:05,990 --> 00:34:04,080

ufo

889

00:34:07,590 --> 00:34:06,000

sightings in puerto rico and

890

00:34:09,349 --> 00:34:07,600

particularly around the elk the huge

891

00:34:11,109 --> 00:34:09,359

aliyante rain forest

892

00:34:12,790 --> 00:34:11,119

which dominates much of puerto rico and

893

00:34:15,109 --> 00:34:12,800

where they've also been a lot of

894

00:34:17,190 --> 00:34:15,119

chipper cabaret encounters then there's

895

00:34:20,629 --> 00:34:17,200

sort of the conspiracy tinged

896

00:34:21,990 --> 00:34:20,639

um theory that the the chupacabras are

897

00:34:24,790 --> 00:34:22,000

some sort of weird

898

00:34:25,669 --> 00:34:24,800

genetic experiment done by military

899

00:34:28,310 --> 00:34:25,679

agencies

900

00:34:29,030 --> 00:34:28,320

gene splicing and that kind of thing and

901  
00:34:32,470 --> 00:34:29,040  
then you have the

902  
00:34:34,389 --> 00:34:32,480  
the fourth theory um the idea that the

903  
00:34:36,710 --> 00:34:34,399  
creature is something like literally

904  
00:34:38,470 --> 00:34:36,720  
supernatural or paranormal

905  
00:34:40,470 --> 00:34:38,480  
uh rather than a flesh and blood animal

906  
00:34:42,149 --> 00:34:40,480  
and you know regardless of which one

907  
00:34:43,510 --> 00:34:42,159  
of these theories is correct and it

908  
00:34:46,069 --> 00:34:43,520  
could even be another one

909  
00:34:47,669 --> 00:34:46,079  
um the the important thing is i've heard

910  
00:34:49,909 --> 00:34:47,679  
these stories every time i've been to

911  
00:34:52,629 --> 00:34:49,919  
puerto rico and um

912  
00:34:53,750 --> 00:34:52,639  
you know so it it's clearly permeated if

913  
00:34:56,230 --> 00:34:53,760

you like throughout

914

00:34:56,950 --> 00:34:56,240

the entirety of puerto rican society and

915

00:34:59,270 --> 00:34:56,960

culture

916

00:35:01,109 --> 00:34:59,280

and um as far as the physical

917

00:35:02,150 --> 00:35:01,119

description of its concern it's

918

00:35:05,270 --> 00:35:02,160

concerned

919

00:35:08,390 --> 00:35:05,280

um as i said the american one you know

920

00:35:11,030 --> 00:35:08,400

typically these hairless dogs um

921

00:35:12,150 --> 00:35:11,040

but in puerto rico it's a two-legged

922

00:35:14,390 --> 00:35:12,160

creature

923

00:35:17,190 --> 00:35:14,400

a body kind of about the size and build

924

00:35:19,750 --> 00:35:17,200

of a chimpanzee but without the hair

925

00:35:21,510 --> 00:35:19,760

some witnesses talk about this row of

926  
00:35:23,270 --> 00:35:21,520  
sort of vicious looking spikes

927  
00:35:24,710 --> 00:35:23,280  
running down its head in the back of its

928  
00:35:26,310 --> 00:35:24,720  
neck and

929  
00:35:27,990 --> 00:35:26,320  
bizarrely some of the witnesses have

930  
00:35:30,870 --> 00:35:28,000  
even claimed that he had

931  
00:35:31,589 --> 00:35:30,880  
sort of back like membranous wings that

932  
00:35:34,790 --> 00:35:31,599  
kind of thing

933  
00:35:36,069 --> 00:35:34,800  
so um you know we're talking about very

934  
00:35:37,990 --> 00:35:36,079  
different to the

935  
00:35:39,750 --> 00:35:38,000  
american one it's something more like

936  
00:35:42,310 --> 00:35:39,760  
some witnesses have described it as

937  
00:35:44,550 --> 00:35:42,320  
looking not unlike a giant bat or

938  
00:35:48,470 --> 00:35:44,560

something like that

939

00:35:51,510 --> 00:35:48,480

you know i i've read um i have read

940

00:35:53,670 --> 00:35:51,520

uh reports and i'm not necessarily

941

00:35:54,550 --> 00:35:53,680

necessarily those just out of puerto

942

00:35:57,030 --> 00:35:54,560

rico

943

00:35:58,069 --> 00:35:57,040

but there have seemed some flaps down in

944

00:36:01,510 --> 00:35:58,079

chile and down in

945

00:36:03,510 --> 00:36:01,520

south america as well but these things

946

00:36:05,270 --> 00:36:03,520

people would see these things jumping on

947

00:36:08,630 --> 00:36:05,280

the tops of houses

948

00:36:11,829 --> 00:36:08,640

and uh scurrying about and

949

00:36:12,710 --> 00:36:11,839

just literally that hard to catch uh has

950

00:36:15,589 --> 00:36:12,720

there ever been

951  
00:36:17,190 --> 00:36:15,599  
anything you know any type of evidence

952  
00:36:19,190 --> 00:36:17,200  
of these things

953  
00:36:20,230 --> 00:36:19,200  
well unfortunately it's like a lot of

954  
00:36:22,790 --> 00:36:20,240  
these cryptids you know

955  
00:36:24,630 --> 00:36:22,800  
the evidence that we have is not so much

956  
00:36:24,950 --> 00:36:24,640  
sort of physical evidence it's sort of

957  
00:36:27,990 --> 00:36:24,960  
the

958  
00:36:30,390 --> 00:36:28,000  
kind of like big for

959  
00:36:31,109 --> 00:36:30,400  
you know with the footprints or tree

960  
00:36:33,990 --> 00:36:31,119  
knocks and

961  
00:36:36,069 --> 00:36:34,000  
you know or uh chatter in the woods that

962  
00:36:38,829 --> 00:36:36,079  
that's recorded on audio equipment

963  
00:36:41,270 --> 00:36:38,839

it's kind of similar with the chapacabra

964

00:36:42,790 --> 00:36:41,280

um i'll give you a few examples the

965

00:36:45,670 --> 00:36:42,800

first time i went there

966

00:36:46,870 --> 00:36:45,680

we visited um the branch of a farmer

967

00:36:50,150 --> 00:36:46,880

named nael

968

00:36:52,550 --> 00:36:50,160

and um he showed us how uh he had about

969

00:36:53,349 --> 00:36:52,560

like 20 cages in his backyard he bred

970

00:36:56,310 --> 00:36:53,359

chickens

971

00:36:57,030 --> 00:36:56,320

and um he showed us how these cages that

972

00:36:58,870 --> 00:36:57,040

have all been

973

00:37:01,990 --> 00:36:58,880

sort of opened some of them forced

974

00:37:04,630 --> 00:37:02,000

opened by something pretty strong

975

00:37:06,470 --> 00:37:04,640

and killed all the chickens inside

976

00:37:08,470 --> 00:37:06,480

bizarrely they were all killed silently

977

00:37:09,349 --> 00:37:08,480

there was no noise from any of them and

978

00:37:11,589 --> 00:37:09,359

his

979

00:37:13,430 --> 00:37:11,599

farm so to speak was just like a little

980

00:37:13,750 --> 00:37:13,440

house and the backyard was where he kept

981

00:37:31,510 --> 00:37:13,760

the

982

00:37:34,390 --> 00:37:31,520

we were shown um tracks reported um

983

00:37:35,990 --> 00:37:34,400

reportedly from the chupacabra which the

984

00:37:37,430 --> 00:37:36,000

problem was it was hard to

985

00:37:39,030 --> 00:37:37,440

distinguish what they were one of the

986

00:37:41,510 --> 00:37:39,040

main reasons being that

987

00:37:42,150 --> 00:37:41,520

the the prince we were shown on puerto

988

00:37:44,310 --> 00:37:42,160

rico

989

00:37:46,069 --> 00:37:44,320

um you know they get a lot of just heavy

990

00:37:48,150 --> 00:37:46,079

rain suddenly out of the blue

991

00:37:49,670 --> 00:37:48,160

and so some of these tracks have been

992

00:37:51,670 --> 00:37:49,680

distorted by

993

00:37:53,670 --> 00:37:51,680

you know the water coming down and then

994

00:37:56,069 --> 00:37:53,680

the mud you know and they get

995

00:37:58,390 --> 00:37:56,079

lengthened and you know the width

996

00:38:01,270 --> 00:37:58,400

changes because of the water and so on

997

00:38:02,870 --> 00:38:01,280

so in that sense you know it's difficult

998

00:38:05,349 --> 00:38:02,880

to sort of prove anything but what

999

00:38:07,190 --> 00:38:05,359

what really in terms of evidence what

1000

00:38:08,790 --> 00:38:07,200

what kind of convinced me

1001  
00:38:10,150 --> 00:38:08,800  
and i think this is something that you

1002  
00:38:12,470 --> 00:38:10,160  
know we always come back to was the

1003  
00:38:14,950 --> 00:38:12,480  
credibility of the witnesses i mean

1004  
00:38:15,670 --> 00:38:14,960  
some of the people we we interviewed and

1005  
00:38:17,270 --> 00:38:15,680  
when i say

1006  
00:38:19,270 --> 00:38:17,280  
interviewed i mean across sort of the 10

1007  
00:38:21,589 --> 00:38:19,280  
12 years um

1008  
00:38:22,310 --> 00:38:21,599  
were veterinarians who had autopsied

1009  
00:38:24,310 --> 00:38:22,320  
animals

1010  
00:38:26,150 --> 00:38:24,320  
attacked by allegedly attacked by the

1011  
00:38:28,150 --> 00:38:26,160  
chubby cabra and

1012  
00:38:30,230 --> 00:38:28,160  
they found puncture wounds on the neck

1013  
00:38:32,710 --> 00:38:30,240

and then a third

1014

00:38:34,390 --> 00:38:32,720

puncture wound on the sternum that was

1015

00:38:37,349 --> 00:38:34,400

sort of something typical and but

1016

00:38:38,390 --> 00:38:37,359

atypical of you know regular animals

1017

00:38:41,750 --> 00:38:38,400

then there were the

1018

00:38:43,270 --> 00:38:41,760

um people who'd actually taken

1019

00:38:45,829 --> 00:38:43,280

photographs um

1020

00:38:48,069 --> 00:38:45,839

and prepared documents in on behalf of

1021

00:38:49,910 --> 00:38:48,079

the civil defense unit on puerto rico

1022

00:38:53,270 --> 00:38:49,920

i didn't realize until i went out there

1023

00:38:55,829 --> 00:38:53,280

on the second occasion in 2005 that the

1024

00:38:57,349 --> 00:38:55,839

particularly in the 1990s puerto rico's

1025

00:39:00,310 --> 00:38:57,359

civil defense unit

1026  
00:39:01,030 --> 00:39:00,320  
actually had a number of people who

1027  
00:39:03,349 --> 00:39:01,040  
pretty much

1028  
00:39:04,710 --> 00:39:03,359  
on a full-time basis for a while went

1029  
00:39:06,710 --> 00:39:04,720  
out to

1030  
00:39:07,829 --> 00:39:06,720  
sites of alleged attacks by the

1031  
00:39:09,829 --> 00:39:07,839  
chupacabra

1032  
00:39:10,870 --> 00:39:09,839  
photograph the areas interviewed the

1033  
00:39:13,750 --> 00:39:10,880  
witnesses

1034  
00:39:15,430 --> 00:39:13,760  
took pictures of the you know the dead

1035  
00:39:17,670 --> 00:39:15,440  
animals the victims

1036  
00:39:18,790 --> 00:39:17,680  
and prepared prepared official reports

1037  
00:39:20,550 --> 00:39:18,800  
um

1038  
00:39:21,910 --> 00:39:20,560

when i went there in 2005 i was

1039

00:39:23,750 --> 00:39:21,920

fortunate enough to

1040

00:39:25,910 --> 00:39:23,760

meet this was actually with a canadian

1041

00:39:28,069 --> 00:39:25,920

tv company when i went the second time

1042

00:39:29,190 --> 00:39:28,079

and we met one of the retired civil

1043

00:39:32,069 --> 00:39:29,200

defense people

1044

00:39:33,430 --> 00:39:32,079

and he actually brought out for us um

1045

00:39:35,030 --> 00:39:33,440

one of these files which he'd been

1046

00:39:36,310 --> 00:39:35,040

allowed to keep when he was retired when

1047

00:39:38,470 --> 00:39:36,320

he retired because he

1048

00:39:40,310 --> 00:39:38,480

primarily put the file together and he

1049

00:39:41,829 --> 00:39:40,320

was about two inches thick

1050

00:39:44,310 --> 00:39:41,839

and it was feel it was kind of like a

1051  
00:39:45,109 --> 00:39:44,320  
real x-file if you like it was the

1052  
00:39:48,950 --> 00:39:45,119  
official

1053  
00:39:51,270 --> 00:39:48,960  
with

1054  
00:39:52,230 --> 00:39:51,280  
drawings paintings that the witnesses

1055  
00:39:55,190 --> 00:39:52,240  
had done

1056  
00:39:55,990 --> 00:39:55,200  
photographs of animal corpses lining the

1057  
00:39:59,270 --> 00:39:56,000  
fields and

1058  
00:40:01,109 --> 00:39:59,280  
etc so in other words we don't have that

1059  
00:40:01,990 --> 00:40:01,119  
smoking gun evidence but we have like a

1060  
00:40:03,910 --> 00:40:02,000  
lot of

1061  
00:40:06,309 --> 00:40:03,920  
circumstantial evidence as we do in

1062  
00:40:09,510 --> 00:40:06,319  
things you know like bigfoot or

1063  
00:40:12,390 --> 00:40:09,520

nessie or whatever you know

1064

00:40:14,710 --> 00:40:12,400

uh do you know of any cases where humans

1065

00:40:16,790 --> 00:40:14,720

have been attacked by these

1066

00:40:19,109 --> 00:40:16,800

yeah i often get asked that question and

1067

00:40:21,510 --> 00:40:19,119

it's an interesting question because

1068

00:40:22,230 --> 00:40:21,520

again kind of like with the theories on

1069

00:40:24,550 --> 00:40:22,240

on what the

1070

00:40:26,069 --> 00:40:24,560

uh vocabulary vocabularies every time

1071

00:40:28,150 --> 00:40:26,079

i've been to puerto rico i've heard

1072

00:40:31,190 --> 00:40:28,160

stories of human attacks

1073

00:40:33,349 --> 00:40:31,200

um now i've have the big difference

1074

00:40:34,950 --> 00:40:33,359

between the human attack stories and the

1075

00:40:37,030 --> 00:40:34,960

animal attack stories

1076  
00:40:39,030 --> 00:40:37,040  
is that we've got a lot of evidence like

1077  
00:40:41,430 --> 00:40:39,040  
i said people defense documents

1078  
00:40:43,750 --> 00:40:41,440  
photographs witness testimony

1079  
00:40:45,030 --> 00:40:43,760  
the when it comes to the reports of

1080  
00:40:47,990 --> 00:40:45,040  
human attacks

1081  
00:40:48,309 --> 00:40:48,000  
all the stories i've got are secondhand

1082  
00:40:52,309 --> 00:40:48,319  
or

1083  
00:40:54,470 --> 00:40:52,319  
got personally to

1084  
00:40:55,349 --> 00:40:54,480  
you know a first-person situation where

1085  
00:40:57,670 --> 00:40:55,359  
they've said

1086  
00:40:58,470 --> 00:40:57,680  
it was my brother or my boss or whatever

1087  
00:40:59,990 --> 00:40:58,480  
who was

1088  
00:41:02,150 --> 00:41:00,000

attacked and killed by one of these

1089

00:41:04,710 --> 00:41:02,160

creatures now

1090

00:41:06,390 --> 00:41:04,720

you could make the case that the you

1091

00:41:09,270 --> 00:41:06,400

know the human accounts are

1092

00:41:09,510 --> 00:41:09,280

friend of a friend tales based on you

1093

00:41:12,309 --> 00:41:09,520

know

1094

00:41:12,950 --> 00:41:12,319

exaggerations of or distortions of you

1095

00:41:15,670 --> 00:41:12,960

know the

1096

00:41:16,230 --> 00:41:15,680

attacks on animals but on the other hand

1097

00:41:19,030 --> 00:41:16,240

if

1098

00:41:20,550 --> 00:41:19,040

there is some a cover-up of chupacabra

1099

00:41:22,150 --> 00:41:20,560

activity on puerto rico and a lot of

1100

00:41:25,349 --> 00:41:22,160

people think that has been

1101  
00:41:26,870 --> 00:41:25,359  
um arguably attacks on people would be

1102  
00:41:29,030 --> 00:41:26,880  
the one thing more than anything else

1103  
00:41:31,030 --> 00:41:29,040  
that the authorities would want to clamp

1104  
00:41:33,030 --> 00:41:31,040  
down on and that you would find

1105  
00:41:34,870 --> 00:41:33,040  
pretty much nothing on because it would

1106  
00:41:37,829 --> 00:41:34,880  
make sense that forever

1107  
00:41:39,270 --> 00:41:37,839  
you know ensuring there's no hysteria

1108  
00:41:41,190 --> 00:41:39,280  
etc etc

1109  
00:41:42,390 --> 00:41:41,200  
those would be the cases rather than the

1110  
00:41:43,990 --> 00:41:42,400  
animal attacks that

1111  
00:41:45,750 --> 00:41:44,000  
like i said the government would clamp

1112  
00:41:48,309 --> 00:41:45,760  
down on um

1113  
00:41:50,470 --> 00:41:48,319

so you know all i can sort of say is be

1114

00:41:52,790 --> 00:41:50,480

honest with you and say that yes i heard

1115

00:41:54,550 --> 00:41:52,800

stories but i was never able to really

1116

00:41:57,430 --> 00:41:54,560

get any you know nail anything down

1117

00:42:00,230 --> 00:41:57,440

definitive on the human angle

1118

00:42:02,470 --> 00:42:00,240

now the reports that come out of uh

1119

00:42:04,470 --> 00:42:02,480

other parts of latin america

1120

00:42:07,430 --> 00:42:04,480

uh are they fairly similar to the

1121

00:42:09,190 --> 00:42:07,440

reports in puerto rico

1122

00:42:11,430 --> 00:42:09,200

yeah they are i mean the one thing that

1123

00:42:12,150 --> 00:42:11,440

really sort of typifies the nature of

1124

00:42:14,550 --> 00:42:12,160

the

1125

00:42:15,349 --> 00:42:14,560

animals in puerto rico and also in south

1126  
00:42:17,030 --> 00:42:15,359  
america

1127  
00:42:18,390 --> 00:42:17,040  
it's not just the nature of the attacks

1128  
00:42:20,470 --> 00:42:18,400  
with these puncture wounds and

1129  
00:42:22,870 --> 00:42:20,480  
mutilations etc

1130  
00:42:24,630 --> 00:42:22,880  
but the agility of these creatures you

1131  
00:42:26,470 --> 00:42:24,640  
know they're not sort of large

1132  
00:42:27,990 --> 00:42:26,480  
lumbering things like bigfoot or the

1133  
00:42:29,829 --> 00:42:28,000  
yeti or anything like that

1134  
00:42:31,270 --> 00:42:29,839  
they're sort of when i made that analogy

1135  
00:42:32,630 --> 00:42:31,280  
with like chimpanzees

1136  
00:42:34,630 --> 00:42:32,640  
that kind of like that that's sort of

1137  
00:42:36,630 --> 00:42:34,640  
super fast you know where

1138  
00:42:38,150 --> 00:42:36,640

some witnesses have said that they have

1139

00:42:40,150 --> 00:42:38,160

seen them

1140

00:42:41,910 --> 00:42:40,160

running no longer i say running at like

1141

00:42:43,670 --> 00:42:41,920

a slower pace on two limbs

1142

00:42:46,069 --> 00:42:43,680

but then sort of bounding along on four

1143

00:42:47,670 --> 00:42:46,079

limbs like like a chimpanzee will do you

1144

00:42:48,630 --> 00:42:47,680

know it'll when he's really charging

1145

00:42:50,150 --> 00:42:48,640

fast

1146

00:42:51,670 --> 00:42:50,160

attacking another animal or whatever you

1147

00:42:52,550 --> 00:42:51,680

know they they tend to use all four

1148

00:42:53,990 --> 00:42:52,560

limbs

1149

00:42:56,150 --> 00:42:54,000

and so that's one of the things that

1150

00:42:57,430 --> 00:42:56,160

typifies a lot of the chupacabra reports

1151

00:42:59,990 --> 00:42:57,440

is the speed

1152

00:43:01,670 --> 00:43:00,000

of the animal and the fact that you know

1153

00:43:03,589 --> 00:43:01,680

like a lot of other animals they

1154

00:43:06,630 --> 00:43:03,599

predominantly hunt at night

1155

00:43:07,270 --> 00:43:06,640

um and as i said these odd puncture

1156

00:43:13,270 --> 00:43:07,280

wounds

1157

00:43:15,030 --> 00:43:13,280

where that's the only you know um

1158

00:43:16,870 --> 00:43:15,040

evidence of the attack it's not like the

1159

00:43:19,109 --> 00:43:16,880

animals being torn apart or

1160

00:43:21,109 --> 00:43:19,119

dragged away as food it's just

1161

00:43:22,790 --> 00:43:21,119

whatever's attacked them as

1162

00:43:24,550 --> 00:43:22,800

has killed it with these puncture wounds

1163

00:43:26,390 --> 00:43:24,560

and and that's it and that's sort of

1164

00:43:27,030 --> 00:43:26,400

given rise to some of these theories

1165

00:43:34,230 --> 00:43:27,040

that

1166

00:43:36,150 --> 00:43:34,240

you know it's an interesting thing

1167

00:43:37,910 --> 00:43:36,160

again i heard this several times in

1168

00:43:38,790 --> 00:43:37,920

puerto rico about animals with blood

1169

00:43:41,030 --> 00:43:38,800

drain but

1170

00:43:43,589 --> 00:43:41,040

the problem was that you know the

1171

00:43:45,430 --> 00:43:43,599

average farmer on puerto rico

1172

00:43:47,109 --> 00:43:45,440

just doesn't have the money to hire a

1173

00:43:50,630 --> 00:43:47,119

veterinarian to come out and

1174

00:43:52,069 --> 00:43:50,640

perform all the necessary tests you know

1175

00:43:57,670 --> 00:43:52,079

unfortunately a lot of people on puerto

1176

00:44:01,030 --> 00:43:59,670

you know for the family not worrying

1177

00:44:03,750 --> 00:44:01,040

about or

1178

00:44:05,510 --> 00:44:03,760

you know informing some cryptozoologist

1179

00:44:09,030 --> 00:44:05,520

about

1180

00:44:11,270 --> 00:44:09,040

the dabber attack so in other words the

1181

00:44:12,790 --> 00:44:11,280

the evidence very often and like the you

1182

00:44:13,510 --> 00:44:12,800

know the blood sucking angle and things

1183

00:44:16,230 --> 00:44:13,520

like this

1184

00:44:18,550 --> 00:44:16,240

becomes under investigated because

1185

00:44:21,510 --> 00:44:18,560

nobody really can be bothered to

1186

00:44:22,950 --> 00:44:21,520

um you know undertake them or hire

1187

00:44:24,790 --> 00:44:22,960

somebody to do it and again it's

1188

00:44:26,790 --> 00:44:24,800

not through any reason other than the

1189

00:44:28,309 --> 00:44:26,800

fact that the person

1190

00:44:30,069 --> 00:44:28,319

just doesn't have the funds you know in

1191

00:44:31,270 --> 00:44:30,079

these little villages or towns they're

1192

00:44:33,910 --> 00:44:31,280

just not able to

1193

00:44:34,390 --> 00:44:33,920

you know um to hire people to do it so

1194

00:44:37,510 --> 00:44:34,400

they

1195

00:44:39,349 --> 00:44:37,520

out you know that's basically what it

1196

00:44:41,910 --> 00:44:39,359

comes down to

1197

00:44:42,630 --> 00:44:41,920

now in the united states i know several

1198

00:44:46,230 --> 00:44:42,640

years ago

1199

00:44:48,790 --> 00:44:46,240

your friend john downes uh came into

1200

00:44:50,470 --> 00:44:48,800

the united states to look at these uh

1201  
00:44:51,430 --> 00:44:50,480  
blue dogs or what he called them blue

1202  
00:44:54,150 --> 00:44:51,440  
dogs which were

1203  
00:44:57,030 --> 00:44:54,160  
yeah i think they're mostly a hybrid of

1204  
00:44:58,069 --> 00:44:57,040  
coyotes and mexican wolves or whatever

1205  
00:45:01,510 --> 00:44:58,079  
they are

1206  
00:45:05,030 --> 00:45:01,520  
but um do they actually um

1207  
00:45:07,990 --> 00:45:05,040  
do they actually kill like the these

1208  
00:45:09,990 --> 00:45:08,000  
cuba cobbles in latin america or is it

1209  
00:45:12,150 --> 00:45:10,000  
something entirely different

1210  
00:45:13,589 --> 00:45:12,160  
well the the south american one actually

1211  
00:45:16,069 --> 00:45:13,599  
sounds more like

1212  
00:45:17,750 --> 00:45:16,079  
the puerto rican one but yeah this is

1213  
00:45:19,270 --> 00:45:17,760

where it gets confusing because the the

1214

00:45:21,510 --> 00:45:19,280

american one that you're talking about

1215

00:45:24,069 --> 00:45:21,520

you know when john came over and um

1216

00:45:26,230 --> 00:45:24,079

he hung out with ken uh gerhard for a

1217

00:45:27,109 --> 00:45:26,240

few days down in san antonio where ken

1218

00:45:28,870 --> 00:45:27,119

lives and

1219

00:45:30,230 --> 00:45:28,880

there's no doubt that you know ken's

1220

00:45:31,910 --> 00:45:30,240

done more research

1221

00:45:34,550 --> 00:45:31,920

than anybody on the you know the

1222

00:45:37,589 --> 00:45:34,560

american texas chupacabra

1223

00:45:38,870 --> 00:45:37,599

um and i interviewed ken extensively for

1224

00:45:42,150 --> 00:45:38,880

the book and um

1225

00:45:43,670 --> 00:45:42,160

can actually open my eyes to some really

1226

00:45:46,710 --> 00:45:43,680

intriguing stuff and

1227

00:45:48,230 --> 00:45:46,720

i mean the big difference between the

1228

00:45:49,829 --> 00:45:48,240

the puerto rican chupacabra and the

1229

00:45:52,230 --> 00:45:49,839

american one and bigfoot

1230

00:45:53,829 --> 00:45:52,240

is that we actually have the bodies of

1231

00:45:55,910 --> 00:45:53,839

you know the american one

1232

00:45:57,510 --> 00:45:55,920

and they've been hit by vehicles they've

1233

00:45:59,190 --> 00:45:57,520

been shot by branches and we know from

1234

00:46:01,589 --> 00:45:59,200

dna but as you said

1235

00:46:02,309 --> 00:46:01,599

you know they're either coyotes or

1236

00:46:05,190 --> 00:46:02,319

they're

1237

00:46:06,710 --> 00:46:05,200

coyote crosses with uh walls and

1238

00:46:09,349 --> 00:46:06,720

sometimes with dogs

1239

00:46:10,390 --> 00:46:09,359

but the interesting thing is that why

1240

00:46:12,150 --> 00:46:10,400

they

1241

00:46:13,829 --> 00:46:12,160

actually are an anomaly are some of the

1242

00:46:14,309 --> 00:46:13,839

physical issues that are going on with

1243

00:46:17,670 --> 00:46:14,319

them

1244

00:46:19,750 --> 00:46:17,680

for example um the skeptics have said

1245

00:46:22,950 --> 00:46:19,760

well they're just coyotes with mange

1246

00:46:24,790 --> 00:46:22,960

but if you look at your average coyote

1247

00:46:26,710 --> 00:46:24,800

or animal with mange which is you know

1248

00:46:29,510 --> 00:46:26,720

conditioned caused by a mite

1249

00:46:31,349 --> 00:46:29,520

where it causes intense irritation hair

1250

00:46:33,030 --> 00:46:31,359

falls out in clumps they scratch

1251

00:46:34,870 --> 00:46:33,040

themselves to the point where

1252

00:46:36,390 --> 00:46:34,880

they dig so deep because they're itching

1253

00:46:39,270 --> 00:46:36,400

so badly but

1254

00:46:40,470 --> 00:46:39,280

um infection sets in they get sick and

1255

00:46:42,150 --> 00:46:40,480

very often die

1256

00:46:43,670 --> 00:46:42,160

and because their hair is in clumps they

1257

00:46:47,030 --> 00:46:43,680

look really sickly

1258

00:46:49,670 --> 00:46:47,040

but these um texas chupacabra

1259

00:46:51,349 --> 00:46:49,680

they're almost uniformly hairless you

1260

00:46:55,030 --> 00:46:51,359

know completely hairless

1261

00:46:57,750 --> 00:46:55,040

almost completely totally on top of that

1262

00:46:58,550 --> 00:46:57,760

they have a significant overbite in many

1263

00:47:01,750 --> 00:46:58,560

cases

1264

00:47:04,069 --> 00:47:01,760

um and which is not normal you know

1265

00:47:06,790 --> 00:47:04,079

the jaws should be uniform in some of

1266

00:47:08,950 --> 00:47:06,800

the cases they have these weird pouches

1267

00:47:10,069 --> 00:47:08,960

on their on their hind limbs which no

1268

00:47:12,069 --> 00:47:10,079

one has really

1269

00:47:14,069 --> 00:47:12,079

explained properly what they are

1270

00:47:14,470 --> 00:47:14,079

somebody some researchers have suggested

1271

00:47:16,309 --> 00:47:14,480

their

1272

00:47:18,309 --> 00:47:16,319

the equivalence of calluses or something

1273

00:47:19,990 --> 00:47:18,319

like that but that doesn't really

1274

00:47:22,470 --> 00:47:20,000

answer the question you know if you

1275

00:47:25,510 --> 00:47:22,480

google texas triple cover plus

1276

00:47:27,190 --> 00:47:25,520

um calluses and things like that or

1277

00:47:28,870 --> 00:47:27,200

you know lumps on the hindquarters

1278

00:47:31,030 --> 00:47:28,880

you'll see some photographs

1279

00:47:32,950 --> 00:47:31,040

um and then there's also the fact that

1280

00:47:35,349 --> 00:47:32,960

the front limbs of these animals

1281

00:47:37,270 --> 00:47:35,359

seem to be developing at a shorter

1282

00:47:40,870 --> 00:47:37,280

length so it gives them this weird

1283

00:47:43,589 --> 00:47:40,880

kangaroo like hopkins movements um

1284

00:47:45,109 --> 00:47:43,599

so it's ken has suggested that what we

1285

00:47:48,870 --> 00:47:45,119

might be looking at

1286

00:47:50,829 --> 00:47:48,880

is um he's like a population of the

1287

00:47:52,950 --> 00:47:50,839

certainly the sort of the south and

1288

00:47:55,430 --> 00:47:52,960

southwest portions of the us

1289

00:47:56,870 --> 00:47:55,440

that are being affected and that are

1290

00:47:59,990 --> 00:47:56,880

mutating

1291

00:48:02,710 --> 00:48:00,000

and um what ken's found out in

1292

00:48:03,990 --> 00:48:02,720

particularly in texas is that where a

1293

00:48:06,390 --> 00:48:04,000

lot of the clusters

1294

00:48:08,870 --> 00:48:06,400

of these animals have been seen is in

1295

00:48:11,109 --> 00:48:08,880

the vicinity of coal burning plants

1296

00:48:12,230 --> 00:48:11,119

now a lot of these coal burning plants

1297

00:48:15,270 --> 00:48:12,240

give off what's called

1298

00:48:16,230 --> 00:48:15,280

sulfur dioxide which is a mutagen now a

1299

00:48:17,910 --> 00:48:16,240

mutagen

1300

00:48:19,829 --> 00:48:17,920

if it gets into the bloodstream of like

1301

00:48:22,470 --> 00:48:19,839

a pregnant woman or an animal

1302

00:48:23,109 --> 00:48:22,480

it can cause disastrous mutations

1303

00:48:24,790 --> 00:48:23,119

probably

1304

00:48:26,309 --> 00:48:24,800

the worst is like mercury you know

1305

00:48:27,190 --> 00:48:26,319

somebody ingests mercury and they're

1306

00:48:28,950 --> 00:48:27,200

pregnant

1307

00:48:30,230 --> 00:48:28,960

you know it can cause terrible

1308

00:48:33,829 --> 00:48:30,240

deformities

1309

00:48:35,829 --> 00:48:33,839

um but sometimes mutagens can actually

1310

00:48:36,309 --> 00:48:35,839

work in the favor of the animal in odd

1311

00:48:38,549 --> 00:48:36,319

way

1312

00:48:39,910 --> 00:48:38,559

for example if there's a famous storage

1313

00:48:43,829 --> 00:48:39,920

you can find on the internet

1314

00:48:47,190 --> 00:48:43,839

of how in minnesota excuse me minnesota

1315

00:48:49,109 --> 00:48:47,200

pond in 1995 frogs were being found with

1316

00:48:50,630 --> 00:48:49,119

all sorts of weird mutations like extra

1317

00:48:53,510 --> 00:48:50,640

limbs even extra eyes

1318

00:48:56,069 --> 00:48:53,520

but which were fully functioning and um

1319

00:48:57,750 --> 00:48:56,079

this was put down to mutagens so ken has

1320

00:49:00,309 --> 00:48:57,760

suspected that

1321

00:49:02,630 --> 00:49:00,319

we still suspect that what we might be

1322

00:49:03,829 --> 00:49:02,640

seeing is some sort of spontaneous

1323

00:49:06,549 --> 00:49:03,839

mutation

1324

00:49:08,710 --> 00:49:06,559

creating these or mutating these animals

1325

00:49:10,710 --> 00:49:08,720

from their normal coyote state

1326

00:49:13,750 --> 00:49:10,720

into something that has led them to be

1327

00:49:16,549 --> 00:49:13,760

called the texas chupacabra

1328

00:49:17,990 --> 00:49:16,559

so he believes there are actual breeding

1329

00:49:20,870 --> 00:49:18,000

populations

1330

00:49:21,990 --> 00:49:20,880

that you know didn't become um sterile

1331

00:49:25,109 --> 00:49:22,000

through the

1332

00:49:25,829 --> 00:49:25,119

hybridization no that they're actually

1333

00:49:27,829 --> 00:49:25,839

not still

1334

00:49:29,589 --> 00:49:27,839

we know this because um there are a

1335

00:49:29,990 --> 00:49:29,599

number of photographs now where you can

1336

00:49:31,829 --> 00:49:30,000

see the

1337

00:49:33,270 --> 00:49:31,839

pups in the pictures as well they're

1338

00:49:35,270 --> 00:49:33,280

completely careless

1339

00:49:36,630 --> 00:49:35,280

you know and uh and there's also some

1340

00:49:39,109 --> 00:49:36,640

weird

1341

00:49:39,670 --> 00:49:39,119

psychological angles going on with them

1342

00:49:41,829 --> 00:49:39,680

as well

1343

00:49:43,750 --> 00:49:41,839

you know most regular coyotes most

1344

00:49:46,710 --> 00:49:43,760

people never see them even if they live

1345

00:49:48,549 --> 00:49:46,720

you know fairly close to resident

1346

00:49:51,510 --> 00:49:48,559

populations because they come out to

1347

00:49:53,270 --> 00:49:51,520

hunt at night one of the reasons why so

1348

00:49:54,309 --> 00:49:53,280

many of these animals have been killed

1349

00:49:56,549 --> 00:49:54,319

in texas

1350

00:49:57,349 --> 00:49:56,559

uh or hit by cars or you know shot by

1351

00:49:58,630 --> 00:49:57,359

ranchers

1352

00:50:00,630 --> 00:49:58,640

is because they actually come out and

1353

00:50:02,390 --> 00:50:00,640

hunt during the day they're very

1354

00:50:05,190 --> 00:50:02,400

prolific during the day

1355

00:50:07,030 --> 00:50:05,200

you know which isn't normal and i've

1356

00:50:08,710 --> 00:50:07,040

actually got one sort of very weird and

1357

00:50:11,109 --> 00:50:08,720

creepy story where

1358

00:50:11,990 --> 00:50:11,119

but again it suggests like the mindset

1359

00:50:14,549 --> 00:50:12,000

of these creatures is

1360

00:50:16,470 --> 00:50:14,559

also changing it came from a rancher you

1361

00:50:20,309 --> 00:50:16,480

know sort of typical texas rancher

1362

00:50:22,549 --> 00:50:20,319

big guy truck gun um and he's

1363

00:50:24,470 --> 00:50:22,559

um farmed just between san antonio and

1364

00:50:26,309 --> 00:50:24,480

austin had been attacked on a number of

1365

00:50:26,710 --> 00:50:26,319

occasions and he lost some animals and

1366

00:50:29,910 --> 00:50:26,720

he

1367

00:50:32,069 --> 00:50:29,920

you know decided enough's enough and

1368

00:50:33,510 --> 00:50:32,079

because he'd seen this animal a number

1369

00:50:35,190 --> 00:50:33,520

of times during the day

1370

00:50:37,030 --> 00:50:35,200

he went out looking for it and sure

1371

00:50:37,589 --> 00:50:37,040

enough he saw it in one of the fields he

1372

00:50:39,910 --> 00:50:37,599

was actually

1373

00:50:40,630 --> 00:50:39,920

just just sort of humbling across quite

1374

00:50:43,190 --> 00:50:40,640

slowly

1375

00:50:44,309 --> 00:50:43,200

and uh it stopped and stared at him at a

1376

00:50:46,309 --> 00:50:44,319

distance from

1377

00:50:47,510 --> 00:50:46,319

i did i think about 150 feet maybe

1378

00:50:51,190 --> 00:50:47,520

something like that

1379

00:50:52,790 --> 00:50:51,200

he got out of his truck and was about to

1380

00:50:54,710 --> 00:50:52,800

get it in his sights

1381

00:50:56,309 --> 00:50:54,720

and then he got this sensation that we

1382

00:50:57,589 --> 00:50:56,319

all get from time to time that

1383

00:50:58,950 --> 00:50:57,599

somebody's watching you

1384

00:51:00,309 --> 00:50:58,960

you know you flip around like you're in

1385

00:51:02,069 --> 00:51:00,319

the queue at the local store and

1386

00:51:05,349 --> 00:51:02,079

somebody is watching you know

1387

00:51:07,190 --> 00:51:05,359

uh we all get that um and

1388

00:51:09,030 --> 00:51:07,200

he looked round to his left and saw

1389

00:51:10,950 --> 00:51:09,040

another one of these things

1390

00:51:12,870 --> 00:51:10,960

to his left about roughly the same

1391

00:51:15,349 --> 00:51:12,880

distance maybe a little bit less

1392

00:51:16,950 --> 00:51:15,359

and then to his right another and they

1393

00:51:18,670 --> 00:51:16,960

started moving in and he got

1394

00:51:20,470 --> 00:51:18,680

a sense that they were sort of like

1395

00:51:22,710 --> 00:51:20,480

triangulating him

1396

00:51:24,630 --> 00:51:22,720

and as i said you know there's a reason

1397

00:51:27,990 --> 00:51:24,640

why i mentioned you sort of typical big

1398

00:51:28,870 --> 00:51:28,000

you know macho texas rancher he raced

1399

00:51:30,950 --> 00:51:28,880

back for his

1400

00:51:32,870 --> 00:51:30,960

truck and locked the doors and drove off

1401  
00:51:34,710 --> 00:51:32,880  
and he told me he got like a really

1402  
00:51:37,589 --> 00:51:34,720  
eerie feeling that

1403  
00:51:38,150 --> 00:51:37,599  
they were sort of you know sizing him up

1404  
00:51:40,309 --> 00:51:38,160  
and

1405  
00:51:42,390 --> 00:51:40,319  
moving around him you know like a

1406  
00:51:44,390 --> 00:51:42,400  
triangulating fashion so

1407  
00:51:46,069 --> 00:51:44,400  
if that's true and you know i have no

1408  
00:51:49,030 --> 00:51:46,079  
reason to disbelieve that the guy

1409  
00:51:50,870 --> 00:51:49,040  
suggests some sort of you know as i said

1410  
00:51:51,510 --> 00:51:50,880  
like a psychological change in the

1411  
00:51:53,510 --> 00:51:51,520  
mindset

1412  
00:51:56,150 --> 00:51:53,520  
not just you know the the physical

1413  
00:51:59,829 --> 00:51:56,160

issues as well

1414

00:52:03,349 --> 00:51:59,839

so do they do they feed like

1415

00:52:06,790 --> 00:52:03,359

normal uh uh predators or

1416

00:52:08,549 --> 00:52:06,800

do they do they drink blood as well

1417

00:52:09,910 --> 00:52:08,559

well this is where it gets interesting

1418

00:52:12,390 --> 00:52:09,920

because they

1419

00:52:13,270 --> 00:52:12,400

the initially the story was circulating

1420

00:52:14,790 --> 00:52:13,280

that these

1421

00:52:16,230 --> 00:52:14,800

things which people didn't really really

1422

00:52:18,390 --> 00:52:16,240

know what they were at first there's

1423

00:52:20,309 --> 00:52:18,400

stuff on the internet from like 2004

1424

00:52:22,470 --> 00:52:20,319

when people are saying they're like

1425

00:52:23,750 --> 00:52:22,480

giant mutated rats you know which is

1426

00:52:27,349 --> 00:52:23,760

what they look like

1427

00:52:29,910 --> 00:52:27,359

um but when the attacks first began

1428

00:52:31,430 --> 00:52:29,920

there were rumors of the animals

1429

00:52:33,670 --> 00:52:31,440

supposedly

1430

00:52:35,190 --> 00:52:33,680

draining or sucking the blood of the

1431

00:52:37,190 --> 00:52:35,200

farm animals they attacked now there's

1432

00:52:37,750 --> 00:52:37,200

no doubt their tap farm animals killed

1433

00:52:43,589 --> 00:52:37,760

them

1434

00:52:45,510 --> 00:52:43,599

presumably you know fed the young with

1435

00:52:47,990 --> 00:52:45,520

them as well

1436

00:52:50,150 --> 00:52:48,000

now when i've looked into this i have

1437

00:52:53,510 --> 00:52:50,160

never actually come across a case

1438

00:52:54,470 --> 00:52:53,520

which um demonstrates that any of these

1439

00:52:57,430 --> 00:52:54,480

animals

1440

00:52:57,750 --> 00:52:57,440

literally drink blood as a form of food

1441

00:53:00,309 --> 00:52:57,760

like

1442

00:53:02,069 --> 00:53:00,319

for example or in the fashion i should

1443

00:53:03,670 --> 00:53:02,079

say like something like a vampire bat

1444

00:53:05,430 --> 00:53:03,680

which actually doesn't suck blood it

1445

00:53:08,069 --> 00:53:05,440

actually lacks the blood up

1446

00:53:09,030 --> 00:53:08,079

um but you know with its incisors its

1447

00:53:11,109 --> 00:53:09,040

teeth which

1448

00:53:12,950 --> 00:53:11,119

create an anticoagulant a scuba

1449

00:53:14,710 --> 00:53:12,960

coagulant which um

1450

00:53:16,470 --> 00:53:14,720

anticoagulant which prevents the blood

1451  
00:53:18,470 --> 00:53:16,480  
from clotting um

1452  
00:53:19,750 --> 00:53:18,480  
you know if these animals are changing

1453  
00:53:21,670 --> 00:53:19,760  
to that amount

1454  
00:53:23,270 --> 00:53:21,680  
it would be almost impossible you know

1455  
00:53:26,549 --> 00:53:23,280  
our organs aren't

1456  
00:53:28,390 --> 00:53:26,559  
engaged to you know to live on blood

1457  
00:53:30,549 --> 00:53:28,400  
but i actually have spoken to a couple

1458  
00:53:32,470 --> 00:53:30,559  
of people who said that

1459  
00:53:33,589 --> 00:53:32,480  
when their animals were attacked they

1460  
00:53:35,990 --> 00:53:33,599  
did see

1461  
00:53:37,750 --> 00:53:36,000  
these texas chopper cabin basically sort

1462  
00:53:39,910 --> 00:53:37,760  
of lapping the blood

1463  
00:53:41,190 --> 00:53:39,920

you know that was spilled in the attack

1464

00:53:43,109 --> 00:53:41,200

you know instead of just

1465

00:53:45,190 --> 00:53:43,119

eating the mate tearing it or dragging

1466

00:53:46,150 --> 00:53:45,200

the animal away they stood there sort of

1467

00:53:48,630 --> 00:53:46,160

lapping the blood

1468

00:53:50,549 --> 00:53:48,640

where it had flown you know flowed out

1469

00:53:52,950 --> 00:53:50,559

which is kind of unusual

1470

00:53:54,870 --> 00:53:52,960

um but it's things like this the attacks

1471

00:53:58,069 --> 00:53:54,880

on the farm animals the rumors of

1472

00:54:00,470 --> 00:53:58,079

you know the blood draining etc that

1473

00:54:02,150 --> 00:54:00,480

eventually and probably inevitably led

1474

00:54:04,069 --> 00:54:02,160

people to call these things

1475

00:54:06,309 --> 00:54:04,079

you know the texas chupacabra but they

1476

00:54:08,230 --> 00:54:06,319

are they're clearly very different from

1477

00:54:10,390 --> 00:54:08,240

the original chupacabra but like i said

1478

00:54:13,109 --> 00:54:10,400

earlier you know that terms become

1479

00:54:13,670 --> 00:54:13,119

so iconic that anybody sees anything

1480

00:54:15,190 --> 00:54:13,680

weird

1481

00:54:17,670 --> 00:54:15,200

it's like oh it's going to be the trip

1482

00:54:22,549 --> 00:54:20,470

now these are these are chupacabras in

1483

00:54:25,430 --> 00:54:22,559

latin american in particular ones

1484

00:54:26,790 --> 00:54:25,440

in puerto rico are they for the most

1485

00:54:30,069 --> 00:54:26,800

part

1486

00:54:33,270 --> 00:54:30,079

are they what sorry bipedal

1487

00:54:35,910 --> 00:54:33,280

oh um well the the

1488

00:54:36,549 --> 00:54:35,920

latin american ones south american ones

1489

00:54:40,549 --> 00:54:36,559

um

1490

00:54:43,349 --> 00:54:40,559

they are uh puerto rico uh predominantly

1491

00:54:44,470 --> 00:54:43,359

in the us they are falling forward

1492

00:54:47,910 --> 00:54:44,480

obviously

1493

00:54:50,390 --> 00:54:47,920

however in saying that um there are

1494

00:54:52,710 --> 00:54:50,400

some reports of these creatures the

1495

00:54:54,950 --> 00:54:52,720

texas ones um

1496

00:54:56,470 --> 00:54:54,960

actually standing up on their hind legs

1497

00:54:59,430 --> 00:54:56,480

and balancing and even

1498

00:54:59,990 --> 00:54:59,440

having sort of a weird like almost like

1499

00:55:06,390 --> 00:55:00,000

a

1500

00:55:08,710 --> 00:55:06,400

very

1501  
00:55:10,150 --> 00:55:08,720  
weird now there's actually a photograph

1502  
00:55:12,309 --> 00:55:10,160  
you can find online

1503  
00:55:13,270 --> 00:55:12,319  
um taken by a guy i interviewed

1504  
00:55:16,309 --> 00:55:13,280  
personally

1505  
00:55:17,589 --> 00:55:16,319  
um there's a guy named ryan craighead

1506  
00:55:19,990 --> 00:55:17,599  
and this was

1507  
00:55:21,670 --> 00:55:20,000  
a case that i investigated in oklahoma

1508  
00:55:24,710 --> 00:55:21,680  
in 2010

1509  
00:55:26,390 --> 00:55:24,720  
and ryan at the time was about 17 he was

1510  
00:55:29,670 --> 00:55:26,400  
at the local school

1511  
00:55:32,710 --> 00:55:29,680  
in a little town in oklahoma called say

1512  
00:55:34,150 --> 00:55:32,720  
um but if you google ryan craighead plus

1513  
00:55:36,150 --> 00:55:34,160

chub

1514

00:55:37,349 --> 00:55:36,160

you'll see the picture that he took of

1515

00:55:40,789 --> 00:55:37,359

this animal

1516

00:55:43,109 --> 00:55:40,799

and in the picture it looks like

1517

00:55:44,630 --> 00:55:43,119

one of these classic hairless coyotes

1518

00:55:47,510 --> 00:55:44,640

flash triple cabras

1519

00:55:48,710 --> 00:55:47,520

but its front limbs are extremely small

1520

00:55:51,670 --> 00:55:48,720

and it actually is

1521

00:55:53,670 --> 00:55:51,680

kind of bounding along on its hind legs

1522

00:55:57,030 --> 00:55:53,680

you can see it's sort of balancing

1523

00:55:58,870 --> 00:55:57,040

and um you know that

1524

00:56:00,789 --> 00:55:58,880

i have no real way out how to explain

1525

00:56:02,549 --> 00:56:00,799

that other than to say

1526  
00:56:04,789 --> 00:56:02,559  
although i don't have a large amount i

1527  
00:56:05,910 --> 00:56:04,799  
do have sort of six seven eight maybe

1528  
00:56:08,150 --> 00:56:05,920  
reports

1529  
00:56:09,270 --> 00:56:08,160  
of people saying they saw these hairless

1530  
00:56:11,349 --> 00:56:09,280  
coyotes

1531  
00:56:13,270 --> 00:56:11,359  
rise up on the to their hind legs as if

1532  
00:56:15,510 --> 00:56:13,280  
you're almost trying to intimidate the

1533  
00:56:19,030 --> 00:56:15,520  
person or something like that

1534  
00:56:21,109 --> 00:56:19,040  
wow that's interesting

1535  
00:56:23,510 --> 00:56:21,119  
you know i don't know if you're aware of

1536  
00:56:26,789 --> 00:56:23,520  
it but we've been um

1537  
00:56:29,990 --> 00:56:26,799  
uh myself butch witkowski and sean

1538  
00:56:32,069 --> 00:56:30,000

we've been investigating the these dog

1539

00:56:33,109 --> 00:56:32,079

man reports coming out of pennsylvania

1540

00:56:35,589 --> 00:56:33,119

lately

1541

00:56:37,589 --> 00:56:35,599

and uh i mean it's been like it was like

1542

00:56:40,230 --> 00:56:37,599

a flap we got there for a while

1543

00:56:40,789 --> 00:56:40,240

uh they've kind of they've kind of edged

1544

00:56:44,710 --> 00:56:40,799

off but

1545

00:56:46,230 --> 00:56:44,720

we've been investigating them uh

1546

00:56:47,910 --> 00:56:46,240

what's your what's your take on that

1547

00:56:49,430 --> 00:56:47,920

anyway well

1548

00:56:51,430 --> 00:56:49,440

you know i mean the dog man things

1549

00:56:53,030 --> 00:56:51,440

interesting because one of the first

1550

00:56:54,870 --> 00:56:53,040

things that occurred to me when people

1551  
00:56:56,630 --> 00:56:54,880  
started telling me about seeing these

1552  
00:56:58,390 --> 00:56:56,640  
texas tripper campers on the hind legs

1553  
00:57:00,710 --> 00:56:58,400  
was that in

1554  
00:57:01,510 --> 00:57:00,720  
in one sense at least they do sort of

1555  
00:57:03,510 --> 00:57:01,520  
parallel

1556  
00:57:05,829 --> 00:57:03,520  
the dog man reports in the sense you're

1557  
00:57:08,309 --> 00:57:05,839  
talking about a bipedal animal

1558  
00:57:09,349 --> 00:57:08,319  
with a dog-like muzzle and face but

1559  
00:57:11,589 --> 00:57:09,359  
standing up

1560  
00:57:13,349 --> 00:57:11,599  
to a degree at least like a person now

1561  
00:57:15,270 --> 00:57:13,359  
the big difference of course

1562  
00:57:16,710 --> 00:57:15,280  
you know these hairless coyotes they

1563  
00:57:17,430 --> 00:57:16,720

look weird but they're not bigger than

1564

00:57:19,510 --> 00:57:17,440

the average

1565

00:57:21,349 --> 00:57:19,520

chopper cabra that's i mean they're not

1566

00:57:23,829 --> 00:57:21,359

bigger than the average coyote

1567

00:57:24,870 --> 00:57:23,839

so in other words you know that is the

1568

00:57:27,990 --> 00:57:24,880

big difference

1569

00:57:29,349 --> 00:57:28,000

in the sense that um you know as

1570

00:57:32,069 --> 00:57:29,359

people would see these dog men they

1571

00:57:34,309 --> 00:57:32,079

thought something five to six feet tall

1572

00:57:35,190 --> 00:57:34,319

kind of like a a big foot type creature

1573

00:57:37,670 --> 00:57:35,200

but with a

1574

00:57:38,950 --> 00:57:37,680

with the face of a of a dog-like animal

1575

00:57:41,430 --> 00:57:38,960

you know sort of a

1576

00:57:42,950 --> 00:57:41,440

lot something along those lines so i

1577

00:57:44,710 --> 00:57:42,960

think we have to be dealing

1578

00:57:47,829 --> 00:57:44,720

with two different things but it

1579

00:57:49,990 --> 00:57:47,839

admittedly it is intriguing and puzzling

1580

00:57:51,670 --> 00:57:50,000

that people are seeing more of these dog

1581

00:57:53,670 --> 00:57:51,680

men and

1582

00:57:55,109 --> 00:57:53,680

we're also getting reports allegedly of

1583

00:57:57,670 --> 00:57:55,119

these things he's

1584

00:57:59,829 --> 00:57:57,680

simply standing on the hind legs as well

1585

00:58:01,910 --> 00:57:59,839

so whether there's a connection or not

1586

00:58:04,309 --> 00:58:01,920

i don't know but i mean what i would say

1587

00:58:06,150 --> 00:58:04,319

about the dogman reports you know i mean

1588

00:58:07,990 --> 00:58:06,160

like for example linda godfrey you know

1589

00:58:11,109 --> 00:58:08,000

she's collected an incredible number

1590

00:58:11,910 --> 00:58:11,119

of reports and um all i can say is that

1591

00:58:14,390 --> 00:58:11,920

the

1592

00:58:15,510 --> 00:58:14,400

to me it seems to be a real phenomenon

1593

00:58:18,789 --> 00:58:15,520

now

1594

00:58:21,510 --> 00:58:18,799

look at linda's

1595

00:58:23,190 --> 00:58:21,520

research you know she sort of looked at

1596

00:58:24,870 --> 00:58:23,200

the idea of a

1597

00:58:27,030 --> 00:58:24,880

flesh and blood animal she looked at the

1598

00:58:27,670 --> 00:58:27,040

idea of a paranormal animal and i don't

1599

00:58:29,990 --> 00:58:27,680

think

1600

00:58:31,430 --> 00:58:30,000

you know we can sort of say for sure

1601

00:58:34,789 --> 00:58:31,440

what they really are

1602

00:58:36,549 --> 00:58:34,799

but what i would say is that i mean a

1603

00:58:38,630 --> 00:58:36,559

lot of people don't realize this but you

1604

00:58:40,950 --> 00:58:38,640

know the thylacine this presumed

1605

00:58:41,910 --> 00:58:40,960

uh marsupial that lived on new guinea in

1606

00:58:45,109 --> 00:58:41,920

australia

1607

00:58:46,470 --> 00:58:45,119

um in the past well a lot of rumors of

1608

00:58:49,349 --> 00:58:46,480

the thylacine

1609

00:58:51,109 --> 00:58:49,359

uh of the tasmanian tiger is also known

1610

00:58:53,829 --> 00:58:51,119

could possibly still exist

1611

00:58:54,150 --> 00:58:53,839

a lot of people don't know that the the

1612

00:58:56,390 --> 00:58:54,160

uh

1613

00:58:59,109 --> 00:58:56,400

tasmanian tiger the thylacine could

1614

00:58:59,750 --> 00:58:59,119

actually briefly rise itself on its hind

1615

00:59:02,309 --> 00:58:59,760

legs

1616

00:59:03,190 --> 00:59:02,319

and run along in sort of a weird fashion

1617

00:59:04,630 --> 00:59:03,200

on two limbs

1618

00:59:06,549 --> 00:59:04,640

you can actually find that at the

1619

00:59:07,829 --> 00:59:06,559

australian government's official website

1620

00:59:08,309 --> 00:59:07,839

it tells you the whole story about how

1621

00:59:11,109 --> 00:59:08,319

they can

1622

00:59:13,109 --> 00:59:11,119

stand up and balance on their tail uh

1623

00:59:15,109 --> 00:59:13,119

kind of like a kangaroo which is also a

1624

00:59:18,230 --> 00:59:15,119

marsupial like the uh

1625

00:59:20,150 --> 00:59:18,240

like the the thylacine um so as

1626  
00:59:20,710 --> 00:59:20,160  
incredible as it sounds i do sometimes

1627  
00:59:23,190 --> 00:59:20,720  
wonder

1628  
00:59:24,549 --> 00:59:23,200  
if there could be some sort of is i mean

1629  
00:59:26,870 --> 00:59:24,559  
it's really a stretch

1630  
00:59:28,309 --> 00:59:26,880  
but what about the idea of a bipedal

1631  
00:59:31,190 --> 00:59:28,319  
canine in the us

1632  
00:59:33,349 --> 00:59:31,200  
that has the ability to like a bear you

1633  
00:59:35,270 --> 00:59:33,359  
know move up predominantly on

1634  
00:59:37,349 --> 00:59:35,280  
four limbs but if it wants to it can

1635  
00:59:37,990 --> 00:59:37,359  
stand up and rise up onto its hind limbs

1636  
00:59:40,309 --> 00:59:38,000  
as well

1637  
00:59:42,710 --> 00:59:40,319  
you know i stress there's nothing in

1638  
00:59:44,470 --> 00:59:42,720

sort of a historical record to suggest

1639

00:59:46,789 --> 00:59:44,480

that's the case but

1640

00:59:48,630 --> 00:59:46,799

you know it's hard to when you've got

1641

00:59:49,910 --> 00:59:48,640

really credible witnesses

1642

00:59:51,990 --> 00:59:49,920

and there have been a lot of credible

1643

00:59:53,190 --> 00:59:52,000

witnesses to dogman reports when you

1644

00:59:55,349 --> 00:59:53,200

have those

1645

00:59:57,109 --> 00:59:55,359

it's difficult to dismiss them even

1646

00:59:58,549 --> 00:59:57,119

though they sound controversial and

1647

01:00:00,390 --> 00:59:58,559

and i know why to a lot of people they

1648

01:00:02,390 --> 01:00:00,400

sound controversial because they create

1649

01:00:05,510 --> 01:00:02,400

imagery of like werewolves

1650

01:00:07,750 --> 01:00:05,520

and then that sort of provokes you know

1651  
01:00:09,589 --> 01:00:07,760  
images of shape-shifting and full moons

1652  
01:00:10,710 --> 01:00:09,599  
and silver bullets and the whole thing

1653  
01:00:12,470 --> 01:00:10,720  
you know

1654  
01:00:14,150 --> 01:00:12,480  
but i don't think we necessarily have to

1655  
01:00:16,069 --> 01:00:14,160  
bring all that into it

1656  
01:00:18,470 --> 01:00:16,079  
it's just that sort of pop culture and

1657  
01:00:21,430 --> 01:00:18,480  
folklore has brought that into it but

1658  
01:00:22,470 --> 01:00:21,440  
you know the idea of a an unknown

1659  
01:00:25,589 --> 01:00:22,480  
creature in the u.s

1660  
01:00:27,270 --> 01:00:25,599  
that sort of broadly fits that bill but

1661  
01:00:28,870 --> 01:00:27,280  
which could potentially

1662  
01:00:30,870 --> 01:00:28,880  
you know walk on four limbs and two

1663  
01:00:32,950 --> 01:00:30,880

limbs perhaps highly intelligent and

1664

01:00:34,870 --> 01:00:32,960

very adept at hiding itself

1665

01:00:37,990 --> 01:00:34,880

you know that would be sort of a a

1666

01:00:41,589 --> 01:00:38,000

creepy thing to consider you know

1667

01:00:43,430 --> 01:00:41,599

yeah well we're open-minded at this

1668

01:00:43,910 --> 01:00:43,440

point because we have no idea what we're

1669

01:00:47,030 --> 01:00:43,920

dealing

1670

01:00:49,510 --> 01:00:47,040

with no uh you know no and i tell you

1671

01:00:51,109 --> 01:00:49,520

the reports we have gotten are pretty

1672

01:00:53,270 --> 01:00:51,119

good reports i mean

1673

01:00:54,309 --> 01:00:53,280

you know the witnesses have been very

1674

01:00:56,950 --> 01:00:54,319

credible and

1675

01:00:59,030 --> 01:00:56,960

uh i mean they saw something they don't

1676  
01:00:59,750 --> 01:00:59,040  
know what it was but their descriptions

1677  
01:01:04,950 --> 01:00:59,760  
are

1678  
01:01:08,789 --> 01:01:07,430  
you know i i don't know you know it it

1679  
01:01:11,190 --> 01:01:08,799  
it's something that

1680  
01:01:12,390 --> 01:01:11,200  
you know i i really never considered the

1681  
01:01:15,510 --> 01:01:12,400  
dog man

1682  
01:01:17,349 --> 01:01:15,520  
or the bipedal canine a whole lot

1683  
01:01:19,109 --> 01:01:17,359  
even when i used to talk to linda about

1684  
01:01:21,829 --> 01:01:19,119  
it a lot but until we started getting

1685  
01:01:23,990 --> 01:01:21,839  
these reports recently

1686  
01:01:25,430 --> 01:01:24,000  
you gotta start wondering what's going

1687  
01:01:27,349 --> 01:01:25,440  
on around here

1688  
01:01:29,349 --> 01:01:27,359

you know we got a lot of we got a lot of

1689

01:01:31,109 --> 01:01:29,359

bigfoot reports up in pennsylvania but

1690

01:01:33,190 --> 01:01:31,119

god these dog man reports

1691

01:01:35,030 --> 01:01:33,200

even though there has been a history of

1692

01:01:37,270 --> 01:01:35,040

it uh

1693

01:01:38,150 --> 01:01:37,280

the fact that we're getting this many at

1694

01:01:41,670 --> 01:01:38,160

one time

1695

01:01:43,829 --> 01:01:41,680

is kind of unusual yeah it is and i mean

1696

01:01:44,710 --> 01:01:43,839

like i said it's it's it's controversial

1697

01:01:46,950 --> 01:01:44,720

because

1698

01:01:49,510 --> 01:01:46,960

of how they look you know people say we

1699

01:01:51,430 --> 01:01:49,520

look like a werewolf and then

1700

01:01:52,950 --> 01:01:51,440

but you know part half the people are

1701

01:01:54,309 --> 01:01:52,960

going to just roll their eyes at the you

1702

01:01:56,150 --> 01:01:54,319

know the very mention of the term

1703

01:01:57,829 --> 01:01:56,160

werewolves but i mean

1704

01:01:59,750 --> 01:01:57,839

there really isn't sort of a better more

1705

01:02:00,950 --> 01:01:59,760

act you know sort of good way to

1706

01:02:04,710 --> 01:02:00,960

describe them but

1707

01:02:05,029 --> 01:02:04,720

uh i mean for all the reports i've got

1708

01:02:08,230 --> 01:02:05,039

of

1709

01:02:10,870 --> 01:02:08,240

dogman type reports

1710

01:02:12,470 --> 01:02:10,880

i've never ever got a single case i

1711

01:02:13,910 --> 01:02:12,480

don't think linda has more than even

1712

01:02:16,230 --> 01:02:13,920

like one or two where

1713

01:02:18,150 --> 01:02:16,240

somebody claimed you know that's sort of

1714

01:02:20,470 --> 01:02:18,160

shape-shifted or somebody said i want a

1715

01:02:22,150 --> 01:02:20,480

dog man you know i change it a full moon

1716

01:02:23,990 --> 01:02:22,160

i've never ever got anything like that

1717

01:02:25,990 --> 01:02:24,000

it's people who just said

1718

01:02:27,589 --> 01:02:26,000

well that looks like it's normal state

1719

01:02:28,789 --> 01:02:27,599

you know and um

1720

01:02:30,950 --> 01:02:28,799

i think that's an important thing to

1721

01:02:33,029 --> 01:02:30,960

remember people aren't talking about

1722

01:02:34,069 --> 01:02:33,039

people mutating into dog men when the

1723

01:02:35,829 --> 01:02:34,079

moon's full or whatever

1724

01:02:39,829 --> 01:02:35,839

it's whatever they are it seems that's

1725

01:02:43,029 --> 01:02:42,230

well you've written a couple other books

1726

01:02:46,390 --> 01:02:43,039

recently

1727

01:02:49,109 --> 01:02:46,400

uh of the one titled men in black

1728

01:02:50,870 --> 01:02:49,119

personal stories and eerie adventures

1729

01:02:53,109 --> 01:02:50,880

and another one that really intrigued me

1730

01:02:55,190 --> 01:02:53,119

was this bloodline of the gods

1731

01:02:57,589 --> 01:02:55,200

unravel the mystery the human blood type

1732

01:03:00,549 --> 01:02:57,599

to reveal the aliens among us

1733

01:03:02,630 --> 01:03:00,559

now i didn't know what i was getting

1734

01:03:06,309 --> 01:03:02,640

into when i started reading this thing

1735

01:03:09,349 --> 01:03:06,319

but this this claim to

1736

01:03:10,710 --> 01:03:09,359

that negative rh factor may be connected

1737

01:03:14,150 --> 01:03:10,720

to

1738

01:03:16,230 --> 01:03:14,160

alien blood types is is kind of

1739

01:03:18,789 --> 01:03:16,240

unusual can you can you kind of give a

1740

01:03:19,990 --> 01:03:18,799

description or a synopsis of this whole

1741

01:03:22,230 --> 01:03:20,000

thing

1742

01:03:23,029 --> 01:03:22,240

yeah sure well basically you know there

1743

01:03:26,309 --> 01:03:23,039

are four

1744

01:03:28,870 --> 01:03:26,319

um primary blood groups you know

1745

01:03:30,789 --> 01:03:28,880

as far as human uh race is concerned

1746

01:03:34,069 --> 01:03:30,799

they're a b

1747

01:03:36,069 --> 01:03:34,079

a b and o um and

1748

01:03:37,990 --> 01:03:36,079

the vast majority of the human

1749

01:03:39,750 --> 01:03:38,000

population has

1750

01:03:41,029 --> 01:03:39,760

essentially what's called positive blood

1751

01:03:43,589 --> 01:03:41,039

rh positive

1752

01:03:44,710 --> 01:03:43,599

rh comes from the rhesus monkey creature

1753

01:03:47,990 --> 01:03:44,720

which you know

1754

01:03:51,109 --> 01:03:48,000

dna wise were extremely compatible with

1755

01:03:54,470 --> 01:03:51,119

sort of like 93 94 dna

1756

01:03:54,950 --> 01:03:54,480

identical and that's why you know so

1757

01:03:57,029 --> 01:03:54,960

many

1758

01:03:58,950 --> 01:03:57,039

experiments into human drugs actually

1759

01:03:59,910 --> 01:03:58,960

undertaken on racist monkeys because

1760

01:04:03,829 --> 01:03:59,920

they are so

1761

01:04:05,750 --> 01:04:03,839

close to us now although um somewhere in

1762

01:04:08,470 --> 01:04:05,760

the region of like 90 91

1763

01:04:09,270 --> 01:04:08,480

of the population is rh positive a small

1764

01:04:11,670 --> 01:04:09,280

percentage

1765

01:04:12,630 --> 01:04:11,680

is what's called rh negative now what

1766

01:04:15,510 --> 01:04:12,640

that means

1767

01:04:17,670 --> 01:04:15,520

is that roughly well the figures are

1768

01:04:21,510 --> 01:04:17,680

sort of about 10 to 12

1769

01:04:22,230 --> 01:04:21,520

uh for in america i'll give you the

1770

01:04:25,670 --> 01:04:22,240

figures

1771

01:04:29,029 --> 01:04:25,680

in the us for caucasians um

1772

01:04:30,069 --> 01:04:29,039

the figures are roughly um 10 to 12

1773

01:04:33,270 --> 01:04:30,079

percent

1774

01:04:33,670 --> 01:04:33,280

rh negative for african americans it's

1775

01:04:36,549 --> 01:04:33,680

sort of

1776

01:04:37,990 --> 01:04:36,559

eight to nine and for asian americans

1777

01:04:39,829 --> 01:04:38,000

you bet one to two percent so it's a

1778

01:04:40,150 --> 01:04:39,839

very small percentage of the population

1779

01:04:42,710 --> 01:04:40,160

is

1780

01:04:44,309 --> 01:04:42,720

rh negative but what it basically means

1781

01:04:47,109 --> 01:04:44,319

is that their

1782

01:04:48,150 --> 01:04:47,119

blood lacks a particular antigen or a

1783

01:04:50,390 --> 01:04:48,160

proline

1784

01:04:51,270 --> 01:04:50,400

which makes them very different in many

1785

01:04:54,150 --> 01:04:51,280

ways to

1786

01:04:56,549 --> 01:04:54,160

everybody else one of the most amazing

1787

01:04:59,190 --> 01:04:56,559

but also disturbing differences

1788

01:05:00,789 --> 01:04:59,200

is that if you have a man and a woman um

1789

01:05:02,630 --> 01:05:00,799

your woman gets pregnant

1790

01:05:04,870 --> 01:05:02,640

so let's say hypothetically the man is

1791

01:05:06,069 --> 01:05:04,880

rh negative and the woman's blood is rh

1792

01:05:07,910 --> 01:05:06,079

positive

1793

01:05:09,349 --> 01:05:07,920

well when the baby you know the fetus

1794

01:05:12,710 --> 01:05:09,359

starts to grow

1795

01:05:15,109 --> 01:05:12,720

um if you know by chance or if

1796

01:05:16,789 --> 01:05:15,119

um you know procedure has to be uh

1797

01:05:18,710 --> 01:05:16,799

implemented like for example

1798

01:05:20,630 --> 01:05:18,720

what's called amniocentesis where a

1799

01:05:22,390 --> 01:05:20,640

needle has to be inserted to you know to

1800

01:05:25,829 --> 01:05:22,400

check the fetus is okay

1801

01:05:29,190 --> 01:05:25,839

if some of the the father's you know

1802

01:05:29,990 --> 01:05:29,200

if the fetus is rh negative and some of

1803

01:05:31,910 --> 01:05:30,000

that blood

1804

01:05:33,349 --> 01:05:31,920

during the procedure gets into the

1805

01:05:36,549 --> 01:05:33,359

mother's bloodstream and she's

1806

01:05:39,670 --> 01:05:36,559

rh positive her um

1807

01:05:40,390 --> 01:05:39,680

body literally tries to kill the unborn

1808

01:05:42,230 --> 01:05:40,400

baby

1809

01:05:43,990 --> 01:05:42,240

that's why any woman who becomes

1810

01:05:46,630 --> 01:05:44,000

pregnant and you know she if one of the

1811

01:05:48,710 --> 01:05:46,640

parties is rx negative one's rh positive

1812

01:05:49,670 --> 01:05:48,720

they have to be put on medication to

1813

01:05:52,710 --> 01:05:49,680

prevent

1814

01:05:53,750 --> 01:05:52,720

the um the mother's nervous system

1815

01:05:55,589 --> 01:05:53,760

essentially

1816

01:05:57,029 --> 01:05:55,599

um trying to kill the baby and it does

1817

01:06:00,230 --> 01:05:57,039

that by trying to

1818

01:06:02,230 --> 01:06:00,240

create uh create like anemia

1819

01:06:04,950 --> 01:06:02,240

is one of the main characteristics in

1820

01:06:07,829 --> 01:06:04,960

the in the developing fetus his body

1821

01:06:09,510 --> 01:06:07,839

you know which can lead to death um so

1822

01:06:10,309 --> 01:06:09,520

in for all intents and purposes the

1823

01:06:13,990 --> 01:06:10,319

mother's

1824

01:06:14,309 --> 01:06:14,000

um body perceives the the growing fetus

1825

01:06:19,829 --> 01:06:14,319

as

1826

01:06:21,750 --> 01:06:19,839

the point where

1827

01:06:23,109 --> 01:06:21,760

they literally have to have drugs to

1828

01:06:25,029 --> 01:06:23,119

combat this and they work very well it's

1829

01:06:27,190 --> 01:06:25,039

just a matter of making sure that

1830

01:06:29,430 --> 01:06:27,200

it happens you know to ensure that the

1831

01:06:31,430 --> 01:06:29,440

baby doesn't die or it doesn't fall ill

1832

01:06:34,549 --> 01:06:31,440

or anything like that

1833

01:06:36,150 --> 01:06:34,559

what's interesting is this particular

1834

01:06:37,670 --> 01:06:36,160

issue that has sort of gone under the

1835

01:06:42,069 --> 01:06:37,680

radar for so long

1836

01:06:43,510 --> 01:06:42,079

in ufology where a significant number of

1837

01:06:46,390 --> 01:06:43,520

people like for example

1838

01:06:47,029 --> 01:06:46,400

alien abductees contactees people who

1839

01:06:49,510 --> 01:06:47,039

feel

1840

01:06:51,430 --> 01:06:49,520

drawn to the ufo subject or have had

1841

01:06:54,549 --> 01:06:51,440

profound ufo encounters

1842

01:06:57,750 --> 01:06:54,559

are rh negative um

1843

01:06:59,109 --> 01:06:57,760

and on top of that where as i said

1844

01:07:01,109 --> 01:06:59,119

not necessarily even have had an

1845

01:07:01,910 --> 01:07:01,119

encounter but they just feel you know

1846

01:07:03,430 --> 01:07:01,920

like a tug

1847

01:07:05,349 --> 01:07:03,440

from the subject you know something

1848

01:07:08,069 --> 01:07:05,359

pulling them towards it and they just

1849

01:07:10,230 --> 01:07:08,079

don't know why that's happening and i've

1850

01:07:12,230 --> 01:07:10,240

found this time and time and again

1851

01:07:16,150 --> 01:07:12,240

with reports of people who are

1852

01:07:18,470 --> 01:07:16,160

ex-negative having these experiences and

1853

01:07:20,150 --> 01:07:18,480

you know you can actually find cases

1854

01:07:21,510 --> 01:07:20,160

from the very earliest years that

1855

01:07:24,950 --> 01:07:21,520

suggest

1856

01:07:27,750 --> 01:07:24,960

a connection um between abductions

1857

01:07:30,069 --> 01:07:27,760

and the rh negative factor and of course

1858

01:07:32,789 --> 01:07:30,079

the big question is how or why

1859

01:07:34,470 --> 01:07:32,799

and the so the prevailing theory within

1860

01:07:37,510 --> 01:07:34,480

ufo research

1861

01:07:40,190 --> 01:07:37,520

is the idea that um

1862

01:07:41,910 --> 01:07:40,200

possibly in the distant past

1863

01:07:43,990 --> 01:07:41,920

extraterrestrials could have sort of

1864

01:07:47,270 --> 01:07:44,000

modified or upgraded

1865

01:07:50,870 --> 01:07:47,280

um or just all radically altered uh

1866

01:07:53,589 --> 01:07:50,880

one aspect of the human race um

1867

01:07:54,710 --> 01:07:53,599

for whatever purposes we don't know but

1868

01:07:57,670 --> 01:07:54,720

it created

1869

01:07:59,670 --> 01:07:57,680

an offshoot that to some degree you know

1870

01:08:01,670 --> 01:07:59,680

had like an extraterrestrial bloodline

1871

01:08:02,870 --> 01:08:01,680

at its origin and then thousands of

1872

01:08:05,750 --> 01:08:02,880

years later

1873

01:08:07,109 --> 01:08:05,760

what we're seeing is you know the last

1874

01:08:10,710 --> 01:08:07,119

remnants if you like

1875

01:08:13,270 --> 01:08:10,720

of this um uh offshoot

1876

01:08:14,789 --> 01:08:13,280

um you know demonstrating why they're so

1877

01:08:15,750 --> 01:08:14,799

different and i mean there's no real

1878

01:08:17,669 --> 01:08:15,760

reason if

1879

01:08:19,669 --> 01:08:17,679

the theory of evolution is correct

1880

01:08:22,309 --> 01:08:19,679

there's no real reason why

1881

01:08:23,030 --> 01:08:22,319

we shouldn't all be rh positive right

1882

01:08:30,550 --> 01:08:23,040

you know

1883

01:08:32,550 --> 01:08:30,560

professionals understand the differences

1884

01:08:33,590 --> 01:08:32,560

between rx positive and rx negative and

1885

01:08:35,430 --> 01:08:33,600

they understand

1886

01:08:37,349 --> 01:08:35,440

how it can sometimes cause health cause

1887

01:08:40,709 --> 01:08:37,359

health hazards with pregnancy

1888

01:08:44,149 --> 01:08:40,719

there's no real solid consensus as to

1889

01:08:45,749 --> 01:08:44,159

why that's the case and um

1890

01:08:47,349 --> 01:08:45,759

i mean to give you an example of some of

1891

01:08:49,749 --> 01:08:47,359

the people in ufology

1892

01:08:50,709 --> 01:08:49,759

who are sort of uh you know drawn to

1893

01:08:52,950 --> 01:08:50,719

this new rh

1894

01:08:54,070 --> 01:08:52,960

rh negative you know i mentioned about

1895

01:08:55,990 --> 01:08:54,080

the idea that

1896

01:08:57,669 --> 01:08:56,000

you know this goes back to possibly

1897

01:09:00,149 --> 01:08:57,679

ancient astronauts

1898

01:09:02,229 --> 01:09:00,159

scenarios when you know the earliest

1899

01:09:04,309 --> 01:09:02,239

humans may have been genetically altered

1900

01:09:06,630 --> 01:09:04,319

well it turns out some of the major

1901

01:09:08,470 --> 01:09:06,640

figures who've written books on

1902

01:09:10,070 --> 01:09:08,480

international phenomena are agent

1903

01:09:12,309 --> 01:09:10,080

negative argue with the world's most

1904

01:09:13,829 --> 01:09:12,319

famous for example eric von danican is

1905

01:09:16,070 --> 01:09:13,839

rh negative

1906

01:09:17,749 --> 01:09:16,080

um brad steiger who's written

1907

01:09:20,470 --> 01:09:17,759

extensively on ancient mysteries and

1908

01:09:23,749 --> 01:09:20,480

ancient nationals brad's rh negative

1909

01:09:24,709 --> 01:09:23,759

um you have uh a number of other

1910

01:09:27,030 --> 01:09:24,719

researchers

1911

01:09:28,709 --> 01:09:27,040

and authors as well over the years who

1912

01:09:30,630 --> 01:09:28,719

looked into the you know the whole

1913

01:09:32,470 --> 01:09:30,640

issue like robert anton wilson he was

1914

01:09:34,470 --> 01:09:32,480

very interested in

1915

01:09:35,990 --> 01:09:34,480

the ancient astronauts scenario he was

1916

01:09:39,110 --> 01:09:36,000

rh negative

1917

01:09:41,430 --> 01:09:39,120

um and the least goes on and

1918

01:09:43,829 --> 01:09:41,440

one of the theories is the reason why so

1919

01:09:45,189 --> 01:09:43,839

many people who are rh negative feel

1920

01:09:48,229 --> 01:09:45,199

drawn to the

1921

01:09:49,669 --> 01:09:48,239

um the ufo subject

1922

01:09:51,829 --> 01:09:49,679

could be that you know there might be

1923

01:09:54,709 --> 01:09:51,839

some sort of latent

1924

01:09:55,590 --> 01:09:54,719

thing in our dna you know we all inherit

1925

01:09:57,430 --> 01:09:55,600

um

1926

01:09:58,630 --> 01:09:57,440

something from our parents whether eye

1927

01:10:01,430 --> 01:09:58,640

color hair color

1928

01:10:03,189 --> 01:10:01,440

you know shape of your nose whatever um

1929

01:10:04,950 --> 01:10:03,199

there's an interesting but controversial

1930

01:10:08,149 --> 01:10:04,960

theory that we can actually

1931

01:10:11,030 --> 01:10:08,159

inherit fragments and memories as well

1932

01:10:11,510 --> 01:10:11,040

um and that might explain you're kind of

1933

01:10:13,110 --> 01:10:11,520

like the

1934

01:10:14,790 --> 01:10:13,120

the idea when you have a dream and you

1935

01:10:16,790 --> 01:10:14,800

wake up and it starts to fade away and

1936

01:10:18,950 --> 01:10:16,800

you can't remember it all properly but

1937

01:10:21,350 --> 01:10:18,960

you vaguely dismember it it's kind of

1938

01:10:22,149 --> 01:10:21,360

like that the idea that the rh negatives

1939

01:10:25,430 --> 01:10:22,159

may retain

1940

01:10:26,149 --> 01:10:25,440

some fragmentary fragmentary memory of

1941

01:10:29,189 --> 01:10:26,159

their

1942

01:10:30,830 --> 01:10:29,199

you know distant allegiance if you like

1943

01:10:34,390 --> 01:10:30,840

that's the right term to this sort of

1944

01:10:38,950 --> 01:10:36,149

well i tell you when i started reading

1945

01:10:41,750 --> 01:10:38,960

the book it fascinated me so

1946

01:10:43,590 --> 01:10:41,760

i started doing going on the internet

1947

01:10:45,590 --> 01:10:43,600

and reading a little bit about this and

1948

01:10:49,270 --> 01:10:45,600

i contacted

1949

01:10:50,709 --> 01:10:49,280

three different people who i had worked

1950

01:10:51,270 --> 01:10:50,719

with who claimed they were had been

1951

01:10:55,110 --> 01:10:51,280

abducted

1952

01:10:57,590 --> 01:10:55,120

at one period of time or another and uh

1953

01:10:59,510 --> 01:10:57,600

all three instances it was just not the

1954

01:11:02,390 --> 01:10:59,520

one person in the family

1955

01:11:03,350 --> 01:11:02,400

but other persons in the family as well

1956

01:11:06,310 --> 01:11:03,360

and

1957

01:11:06,950 --> 01:11:06,320

i knew of one of them i had that the

1958

01:11:08,470 --> 01:11:06,960

information that

1959

01:11:09,990 --> 01:11:08,480

they did have everybody in the family

1960

01:11:13,350 --> 01:11:10,000

had negative or

1961

01:11:14,470 --> 01:11:13,360

rh negative blood i went and checked the

1962

01:11:16,229 --> 01:11:14,480

other two

1963

01:11:17,990 --> 01:11:16,239

and it's the same with them too they're

1964

01:11:20,870 --> 01:11:18,000

all rh negative

1965

01:11:21,430 --> 01:11:20,880

mm-hmm well that doesn't surprise me

1966

01:11:23,189 --> 01:11:21,440

because i mean

1967

01:11:25,030 --> 01:11:23,199

well it even surprised me you know when

1968

01:11:27,189 --> 01:11:25,040

the book first came out

1969

01:11:28,790 --> 01:11:27,199

the number of people who you know you

1970

01:11:29,590 --> 01:11:28,800

get it's like your show you know you get

1971

01:11:31,110 --> 01:11:29,600

feedback

1972

01:11:33,189 --> 01:11:31,120

uh but when the book came out until i

1973

01:11:35,110 --> 01:11:33,199

got a lot of messages like on facebook

1974

01:11:36,470 --> 01:11:35,120

and twitter and etc

1975

01:11:38,550 --> 01:11:36,480

saying that you know they've read the

1976

01:11:40,630 --> 01:11:38,560

book and oh by the way

1977

01:11:42,470 --> 01:11:40,640

i'm rh negative and another one oh by

1978

01:11:43,990 --> 01:11:42,480

the way i'm rh negative and they all had

1979

01:11:45,910 --> 01:11:44,000

these experiences and

1980

01:11:47,910 --> 01:11:45,920

within the first week or so i probably

1981

01:11:50,870 --> 01:11:47,920

had 40 or 50

1982

01:11:52,550 --> 01:11:50,880

replies as i said that first week alone

1983

01:11:54,709 --> 01:11:52,560

uh from people who'd had

1984

01:11:55,669 --> 01:11:54,719

abduction encounters things like this

1985

01:11:58,310 --> 01:11:55,679

and you know

1986

01:12:00,229 --> 01:11:58,320

they didn't realize necessarily that

1987

01:12:01,350 --> 01:12:00,239

there was a connection with the the rh

1988

01:12:05,110 --> 01:12:01,360

blood but they were

1989

01:12:07,830 --> 01:12:05,120

rh negative um so we're actually seeing

1990

01:12:09,030 --> 01:12:07,840

this subject come sort of more you know

1991

01:12:11,350 --> 01:12:09,040

into focus now

1992

01:12:12,950 --> 01:12:11,360

people are beginning to realize more and

1993

01:12:14,790 --> 01:12:12,960

more that that does some

1994

01:12:16,149 --> 01:12:14,800

seem to be some sort of you know

1995

01:12:18,950 --> 01:12:16,159

connection

1996

01:12:20,870 --> 01:12:18,960

between this sort of ancient bloodline

1997

01:12:25,669 --> 01:12:20,880

if you like and and even right through

1998

01:12:30,070 --> 01:12:27,990

well i tell you i i i went and looked at

1999

01:12:32,470 --> 01:12:30,080

some of the um

2000

01:12:33,110 --> 01:12:32,480

some of the possible characteristics

2001

01:12:35,990 --> 01:12:33,120

that

2002

01:12:37,110 --> 01:12:36,000

they say these people have the rh

2003

01:12:39,990 --> 01:12:37,120

negative

2004

01:12:42,310 --> 01:12:40,000

uh blood some of them have the uh either

2005

01:12:44,870 --> 01:12:42,320

higher than average iqs

2006

01:12:46,870 --> 01:12:44,880

more sensitive vision in other senses

2007

01:12:49,990 --> 01:12:46,880

lower body temperature

2008

01:12:52,870 --> 01:12:50,000

higher blood pressure uh

2009

01:12:53,990 --> 01:12:52,880

psychic intuitive abilities uh

2010

01:12:57,189 --> 01:12:54,000

predominant blue

2011

01:12:59,430 --> 01:12:57,199

green hazel eyes red hair

2012

01:13:01,590 --> 01:12:59,440

sensitivity heat and sunlight cannot be

2013

01:13:05,110 --> 01:13:01,600

cloned in extra vertebrae

2014

01:13:05,830 --> 01:13:05,120

uh you know personally i'm i have rh

2015

01:13:07,189 --> 01:13:05,840

negative

2016

01:13:12,550 --> 01:13:07,199

and every one of those applies to me

2017

01:13:19,510 --> 01:13:16,630

so that i'm thinking myself now you know

2018

01:13:21,030 --> 01:13:19,520

maybe there is something to this yeah

2019

01:13:23,270 --> 01:13:21,040

well you know i mean like i said

2020

01:13:24,709 --> 01:13:23,280

there are a lot of people who haven't

2021

01:13:26,390 --> 01:13:24,719

never had any experiences

2022

01:13:28,550 --> 01:13:26,400

that they can remember at least but they

2023

01:13:30,229 --> 01:13:28,560

feel you know eerily drawn to it

2024

01:13:31,990 --> 01:13:30,239

and i mean the one issue you brought up

2025

01:13:34,070 --> 01:13:32,000

which is interesting is the extra

2026

01:13:36,070 --> 01:13:34,080

the issue of having an extra vertebra

2027

01:13:38,149 --> 01:13:36,080

now every year you know

2028

01:13:40,149 --> 01:13:38,159

people who you of any blood group are

2029

01:13:41,350 --> 01:13:40,159

born with an extroverted it's just a

2030

01:13:43,189 --> 01:13:41,360

condition that sometimes

2031

01:13:44,790 --> 01:13:43,199

happens and yeah you probably wouldn't

2032

01:13:46,550 --> 01:13:44,800

know unless you ever had back surgery

2033

01:13:47,750 --> 01:13:46,560

and the doctor even bothered to point it

2034

01:13:51,030 --> 01:13:47,760

out because it doesn't

2035

01:13:54,070 --> 01:13:51,040

really cause any issues as such however

2036

01:13:55,350 --> 01:13:54,080

there is a slightly higher percentage of

2037

01:13:57,590 --> 01:13:55,360

people who are rh

2038

01:13:59,430 --> 01:13:57,600

negative who have this extra vertebrae

2039

01:14:01,990 --> 01:13:59,440

now what's really interesting

2040

01:14:02,870 --> 01:14:02,000

is that if we go back to 1961 and the

2041

01:14:05,270 --> 01:14:02,880

famous

2042

01:14:06,870 --> 01:14:05,280

betty and barney hill abduction uh a

2043

01:14:09,669 --> 01:14:06,880

couple coming back from

2044

01:14:10,550 --> 01:14:09,679

a vacation in canada back home to new

2045

01:14:11,990 --> 01:14:10,560

hampshire

2046

01:14:14,470 --> 01:14:12,000

and as betty and barney were driving

2047

01:14:16,149 --> 01:14:14,480

home they saw this light in the sky

2048

01:14:18,470 --> 01:14:16,159

and it seemed not to be alive it's some

2049

01:14:21,270 --> 01:14:18,480

sort of vehicle then they had this

2050

01:14:23,590 --> 01:14:21,280

typical missing time thing excuse me

2051

01:14:25,430 --> 01:14:23,600

being taken on board a craft and

2052

01:14:27,270 --> 01:14:25,440

medical experiments and so on that was

2053

01:14:28,470 --> 01:14:27,280

followed by bad dreams and so they

2054

01:14:30,550 --> 01:14:28,480

finally

2055

01:14:32,390 --> 01:14:30,560

had regressive hypnosis well it turns

2056

01:14:33,830 --> 01:14:32,400

out that barney said that when he was on

2057

01:14:35,910 --> 01:14:33,840

board the craft

2058

01:14:37,590 --> 01:14:35,920

that the aliens or whatever they were

2059

01:14:39,110 --> 01:14:37,600

and kept running their fingers up and

2060

01:14:41,990 --> 01:14:39,120

down his spine and he thought with

2061

01:14:45,590 --> 01:14:42,000

hindsight they were counted as vertebrae

2062

01:14:46,149 --> 01:14:45,600

and the of course you know back in 1961

2063

01:14:48,070 --> 01:14:46,159

when

2064

01:14:49,910 --> 01:14:48,080

the hills experience occurred and

2065

01:14:52,470 --> 01:14:49,920

certainly 62 63

2066

01:14:53,669 --> 01:14:52,480

64 when the hypnosis was going on you

2067

01:14:55,270 --> 01:14:53,679

know nobody

2068

01:14:57,750 --> 01:14:55,280

rather than barney and betty really

2069

01:14:58,310 --> 01:14:57,760

we're talking about a connection or some

2070

01:15:02,550 --> 01:14:58,320

sort of

2071

01:15:05,189 --> 01:15:02,560

odd connection between the experience

2072

01:15:06,709 --> 01:15:05,199

and barney spine but if you look at it

2073

01:15:08,790 --> 01:15:06,719

with hindsight today

2074

01:15:10,550 --> 01:15:08,800

and realizing you know the rh negatives

2075

01:15:12,149 --> 01:15:10,560

having more

2076

01:15:13,669 --> 01:15:12,159

people you know with a higher incidence

2077

01:15:14,070 --> 01:15:13,679

of this extra vertebrae you have to

2078

01:15:16,790 --> 01:15:14,080

wonder

2079

01:15:18,229 --> 01:15:16,800

if they were checking out his vertebra

2080

01:15:19,110 --> 01:15:18,239

as if they were trying to determine if

2081

01:15:22,470 --> 01:15:19,120

he was rh

2082

01:15:25,270 --> 01:15:22,480

negative you know well you know i

2083

01:15:26,630 --> 01:15:25,280

i've had black problems all my life and

2084

01:15:28,790 --> 01:15:26,640

when i went to the doctor

2085

01:15:30,229 --> 01:15:28,800

to have my back check he told me i got

2086

01:15:32,070 --> 01:15:30,239

an extra vertebra

2087

01:15:34,470 --> 01:15:32,080

and i've never i've never even really

2088

01:15:35,030 --> 01:15:34,480

thought about it until i read this thing

2089

01:15:37,910 --> 01:15:35,040

i think now

2090

01:15:39,910 --> 01:15:37,920

what in the hell is that all about so

2091

01:15:41,910 --> 01:15:39,920

they know

2092

01:15:44,709 --> 01:15:41,920

what you got me thinking if you're one

2093

01:15:46,180 --> 01:15:44,719

of them i'm maybe

2094

01:15:49,110 --> 01:15:46,190

all right goodbye

2095

01:15:53,270 --> 01:15:49,120

[Laughter]

2096

01:15:56,470 --> 01:15:53,280

that's interesting um oh man so

2097

01:15:58,070 --> 01:15:56,480

where do you know a lot of people or

2098

01:15:59,830 --> 01:15:58,080

a lot of things that have come well you

2099

01:16:02,630 --> 01:15:59,840

even have it in the book

2100

01:16:08,470 --> 01:16:02,640

uh where this is connected to the

2101

01:16:11,990 --> 01:16:09,830

yeah well i point out that you know a

2102

01:16:14,310 --> 01:16:12,000

lot of this the we know the

2103

01:16:16,070 --> 01:16:14,320

certainly the situation today because we

2104

01:16:18,310 --> 01:16:16,080

can answer the paper around

2105

01:16:19,270 --> 01:16:18,320

but the one person who sort of more than

2106

01:16:22,630 --> 01:16:19,280

any other

2107

01:16:24,630 --> 01:16:22,640

um kind of um you put together this

2108

01:16:26,070 --> 01:16:24,640

whole angle of genetic manipulation in

2109

01:16:29,430 --> 01:16:26,080

the distant past was the late

2110

01:16:31,750 --> 01:16:29,440

zechariah sitchin and he felt that

2111

01:16:32,550 --> 01:16:31,760

sort of an early type of human like crow

2112

01:16:34,950 --> 01:16:32,560

magnum

2113

01:16:37,189 --> 01:16:34,960

may have been genetically altered by

2114

01:16:39,110 --> 01:16:37,199

what have become known as the annunaki

2115

01:16:41,030 --> 01:16:39,120

you know they're sort of very well

2116

01:16:44,430 --> 01:16:41,040

legendary figures you know within

2117

01:16:46,229 --> 01:16:44,440

ancient law but um situ perceive them as

2118

01:16:47,669 --> 01:16:46,239

extraterrestrials you know but highly

2119

01:16:49,830 --> 01:16:47,679

advancing fields of

2120

01:16:51,590 --> 01:16:49,840

genetics and gene splicing and he felt

2121

01:16:54,550 --> 01:16:51,600

that a lot of the ancient legends

2122

01:16:55,750 --> 01:16:54,560

of the gods coming down and taking human

2123

01:16:57,669 --> 01:16:55,760

wives and

2124

01:16:59,189 --> 01:16:57,679

giants on the earth and the nephilim and

2125

01:17:00,310 --> 01:16:59,199

all that kind of thing was essentially

2126  
01:17:02,950 --> 01:17:00,320  
tied in

2127  
01:17:03,910 --> 01:17:02,960  
with genetic experiments between you

2128  
01:17:05,990 --> 01:17:03,920  
know

2129  
01:17:07,590 --> 01:17:06,000  
visiting aliens and early primitive

2130  
01:17:09,590 --> 01:17:07,600  
humans and he

2131  
01:17:10,790 --> 01:17:09,600  
suggested that it may have all been done

2132  
01:17:13,990 --> 01:17:10,800  
to create like a

2133  
01:17:16,229 --> 01:17:14,000  
a slave race a sort of robust slave race

2134  
01:17:17,189 --> 01:17:16,239  
and that um what's interesting that

2135  
01:17:19,590 --> 01:17:17,199  
there are

2136  
01:17:20,470 --> 01:17:19,600  
good indications that crow magnum man

2137  
01:17:23,350 --> 01:17:20,480  
may have been

2138  
01:17:24,310 --> 01:17:23,360

rh negative which could have been you

2139

01:17:26,550 --> 01:17:24,320

know the

2140

01:17:27,910 --> 01:17:26,560

the entity the statue was talking about

2141

01:17:29,189 --> 01:17:27,920

and what's interesting is that one of

2142

01:17:32,070 --> 01:17:29,199

the areas where

2143

01:17:33,350 --> 01:17:32,080

crow magnum and proliferated in parts of

2144

01:17:36,310 --> 01:17:33,360

spain and france

2145

01:17:38,070 --> 01:17:36,320

is where the basque people basque the

2146

01:17:40,070 --> 01:17:38,080

basque people live today

2147

01:17:42,149 --> 01:17:40,080

and they have an extremely high

2148

01:17:44,709 --> 01:17:42,159

percentage of rh negatives

2149

01:17:45,750 --> 01:17:44,719

um as i said it's sort of round about

2150

01:17:47,830 --> 01:17:45,760

well you know

2151  
01:17:48,790 --> 01:17:47,840  
around about sort of 10 and lower in the

2152  
01:17:50,709 --> 01:17:48,800  
us

2153  
01:17:51,830 --> 01:17:50,719  
in the basque region of spain where the

2154  
01:17:55,270 --> 01:17:51,840  
bass people live

2155  
01:17:57,430 --> 01:17:55,280  
their percentage is like above 40 so

2156  
01:17:58,550 --> 01:17:57,440  
the fact that the crowd magnums were in

2157  
01:18:00,630 --> 01:17:58,560  
that area as well

2158  
01:18:01,590 --> 01:18:00,640  
just suggest a strong possibility that

2159  
01:18:17,750 --> 01:18:01,600  
they were

2160  
01:18:21,910 --> 01:18:20,149  
you there lon yeah did we lose in there

2161  
01:18:27,590 --> 01:18:21,920  
i think we lost nick

2162  
01:18:30,310 --> 01:18:27,600  
yeah we did yeah

2163  
01:18:31,590 --> 01:18:30,320

we lost nick well folks we're almost out

2164

01:18:33,270 --> 01:18:31,600

of time for the show

2165

01:18:35,669 --> 01:18:33,280

tonight anyhow so we're gonna have to

2166

01:18:38,950 --> 01:18:35,679

get a hold of nick after the show sorry

2167

01:18:42,709 --> 01:18:40,870

a good show tonight you guys lost me in

2168

01:18:44,390 --> 01:18:42,719

the dust with the rh stuff but

2169

01:18:45,830 --> 01:18:44,400

uh you were excited about it that's what

2170

01:18:48,070 --> 01:18:45,840

matters you were really excited

2171

01:18:49,430 --> 01:18:48,080

that that's a fact that's a fascinating

2172

01:18:51,189 --> 01:18:49,440

thing i i

2173

01:18:53,030 --> 01:18:51,199

you know i had heard about this and of

2174

01:18:56,229 --> 01:18:53,040

course i i used to

2175

01:18:58,310 --> 01:18:56,239

love reading the sitchin's book and uh

2176

01:19:00,470 --> 01:18:58,320

the late lloyd pine and i

2177

01:19:02,550 --> 01:19:00,480

and he was a protege of sichuan and we

2178

01:19:05,669 --> 01:19:02,560

used to talk about a lot of this

2179

01:19:09,590 --> 01:19:05,679

and uh it was fascinating but this rh

2180

01:19:10,870 --> 01:19:09,600

negative factor is um

2181

01:19:13,270 --> 01:19:10,880

you know it's just something else to

2182

01:19:15,510 --> 01:19:13,280

think about and uh

2183

01:19:17,669 --> 01:19:15,520

you know i subscribe to some of this the

2184

01:19:19,030 --> 01:19:17,679

book of enoch and the anunnaki and the

2185

01:19:22,310 --> 01:19:19,040

nephilim and

2186

01:19:24,070 --> 01:19:22,320

and all that but um you know

2187

01:19:25,910 --> 01:19:24,080

it it's almost to the point you don't

2188

01:19:28,709 --> 01:19:25,920

it's a lot of speculation

2189

01:19:30,550 --> 01:19:28,719

and but you wonder why you know some

2190

01:19:32,709 --> 01:19:30,560

stuff like that was never

2191

01:19:35,669 --> 01:19:32,719

put into the bible the book of enoch was

2192

01:19:37,990 --> 01:19:35,679

never that was not put into the bible

2193

01:19:39,350 --> 01:19:38,000

as but a lot of books were not put in

2194

01:19:42,070 --> 01:19:39,360

the bible as well

2195

01:19:43,750 --> 01:19:42,080

and the reason you got to think about

2196

01:19:46,310 --> 01:19:43,760

but why was that you know

2197

01:19:47,110 --> 01:19:46,320

is it something so controversial that

2198

01:19:51,350 --> 01:19:47,120

you know

2199

01:19:52,070 --> 01:19:51,360

wasn't considered to be put in the bible

2200

01:19:54,149 --> 01:19:52,080

so

2201

01:19:55,189 --> 01:19:54,159

i don't know it's it's it's an

2202

01:19:57,910 --> 01:19:55,199

interesting theory

2203

01:19:59,430 --> 01:19:57,920

the book is great uh it's called

2204

01:20:01,430 --> 01:19:59,440

bloodline the gods

2205

01:20:03,990 --> 01:20:01,440

unravel the mystery of the human blood

2206

01:20:07,030 --> 01:20:04,000

type to reveal the aliens among us

2207

01:20:10,229 --> 01:20:07,040

uh i'm about halfway through it but

2208

01:20:12,709 --> 01:20:10,239

it's it's a great book

2209

01:20:14,310 --> 01:20:12,719

definitely pick it up folks well one

2210

01:20:17,669 --> 01:20:14,320

that's about all we got for tonight

2211

01:20:20,470 --> 01:20:17,679

next week we talk about uh kennedy

2212

01:20:21,350 --> 01:20:20,480

yeah we're going to do a special next

2213

01:20:24,470 --> 01:20:21,360

week

2214

01:20:28,310 --> 01:20:24,480

uh we are going to be talking about

2215

01:20:32,390 --> 01:20:28,320

the jfk assassination

2216

01:20:36,149 --> 01:20:32,400

conspiracy or was it basically i mean

2217

01:20:40,390 --> 01:20:36,159

was was it really a conspiracy or

2218

01:20:42,790 --> 01:20:40,400

did uh did uh

2219

01:20:44,470 --> 01:20:42,800

was it you know was it one man that that

2220

01:20:47,110 --> 01:20:44,480

caused the havoc or was it

2221

01:20:48,550 --> 01:20:47,120

a conspiracy by some other type of

2222

01:20:51,669 --> 01:20:48,560

agency or

2223

01:20:53,270 --> 01:20:51,679

cabal or whatever

2224

01:20:55,110 --> 01:20:53,280

so you know we're going to do our

2225

01:20:58,550 --> 01:20:55,120

homework this week kind of brush

2226

01:21:00,390 --> 01:20:58,560

up on it and you know if people have

2227

01:21:00,790 --> 01:21:00,400

questions or want to talk about it you

2228

01:21:02,950 --> 01:21:00,800

know

2229

01:21:04,950 --> 01:21:02,960

we got a phone we got the telephone

2230

01:21:08,550 --> 01:21:04,960

number and we've got you know

2231

01:21:09,189 --> 01:21:08,560

the uh the chat room you know maybe we

2232

01:21:12,790 --> 01:21:09,199

can have a

2233

01:21:14,790 --> 01:21:12,800

pretty decent conversation about this

2234

01:21:16,310 --> 01:21:14,800

most definitely so folks we'll see you

2235

01:21:17,189 --> 01:21:16,320

next week you've been listening to

2236

01:21:19,510 --> 01:21:17,199

arcane radio

2237

01:21:20,709 --> 01:21:19,520

shawn forker lon strickler and tonight's

2238

01:21:23,110 --> 01:21:20,719

gays guest

2239

01:21:24,709 --> 01:21:23,120

tonight's guest tonight's guest nick

2240

01:21:25,669 --> 01:21:24,719

redfern we'll catch you next week folks
