

A scenic landscape featuring a wooden barn in the foreground, rolling mountains in the background, and several pterosaurs flying in the sky. The scene is framed by green foliage on the left and right sides. The overall color palette is warm, with soft pinks and oranges in the sky.

pterodactyl-like cryptid witness near

the pine barrens

10  
00:00:39,830 --> 00:00:37,760

hey i stumbled upon your sight cause

11  
00:00:40,389 --> 00:00:39,840

i've been searching for what i just seen

12  
00:00:43,030 --> 00:00:40,399

for like

13  
00:00:45,430 --> 00:00:43,040

two hours and have no luck i live in

14

00:00:48,549 --> 00:00:45,440

south jersey in a somewhat wooded area

15

00:00:50,470 --> 00:00:48,559

very calm and normal small town anyway

16

00:00:52,310 --> 00:00:50,480

today in the car on the way to the store

17

00:00:54,389 --> 00:00:52,320

i was looking at the sky

18

00:00:56,869 --> 00:00:54,399

it was about seven or eight at night and

19

00:00:59,349 --> 00:00:56,879

i seen this strange thing in the sky

20

00:01:01,029 --> 00:00:59,359

it had huge wings like a bat it was like

21

00:01:03,510 --> 00:01:01,039

a dark brown color

22

00:01:04,310 --> 00:01:03,520

there was no feathers of all the body

23

00:01:07,109 --> 00:01:04,320

was black

24

00:01:08,870 --> 00:01:07,119

with short or no hair it had a very slim

25

00:01:10,789 --> 00:01:08,880

body and a small tail

26

00:01:13,750 --> 00:01:10,799

the thing about this bat creature was

27

00:01:16,390 --> 00:01:13,760

its size it was bigger than a hawk

28

00:01:17,990 --> 00:01:16,400

and in my town we always see hawks so

29

00:01:20,630 --> 00:01:18,000

i'm used to seeing them

30

00:01:22,710 --> 00:01:20,640

i'm also used to seeing bats this

31

00:01:24,630 --> 00:01:22,720

creature flapped its wings slowly

32

00:01:27,270 --> 00:01:24,640

but the bats here usually flap their

33

00:01:27,910 --> 00:01:27,280

wings fast that's the strange part for

34

00:01:30,630 --> 00:01:27,920

me

35

00:01:31,990 --> 00:01:30,640

i could have sworn it was pterodactyl no

36

00:01:33,830 --> 00:01:32,000

one believes me

37

00:01:35,749 --> 00:01:33,840

i just need to know what the hell i've

38

00:01:38,870 --> 00:01:35,759

seen please help

39

00:01:40,390 --> 00:01:38,880

i live in breeze new jersey 15 minutes

40

00:01:42,710 --> 00:01:40,400

from cherry hill

41

00:01:44,310 --> 00:01:42,720

not too far from the pine barrens isn't

42

00:01:45,590 --> 00:01:44,320

that where the jersey devil is

43

00:01:47,830 --> 00:01:45,600

considered to be

44

00:01:49,590 --> 00:01:47,840

and from what i heard the jersey devil

45

00:01:50,870 --> 00:01:49,600

has like hooves and i this creature

46

00:01:53,670 --> 00:01:50,880

didn't have any

47

00:01:54,069 --> 00:01:53,680

maybe i'm wrong but anyway this thing

48

00:01:56,149 --> 00:01:54,079

flew

49

00:01:58,550 --> 00:01:56,159

pretty low and i didn't get to see its

50

00:02:01,109 --> 00:01:58,560

face i know its wings had no

51  
00:02:03,990 --> 00:02:01,119  
feathers or anything it flew at a fast

52  
00:02:05,830 --> 00:02:04,000  
speed even its wings were flapping slow

53  
00:02:14,550 --> 00:02:05,840  
that's all the details i can get for

54  
00:02:18,949 --> 00:02:17,190  
tersorb served west of philadelphia this

55  
00:02:20,550 --> 00:02:18,959  
is tom from philadelphia

56  
00:02:22,470 --> 00:02:20,560  
we spoke on the phone earlier this

57  
00:02:24,390 --> 00:02:22,480  
evening and i gave you my account of the

58  
00:02:26,309 --> 00:02:24,400  
pterosaur that i spotted flying over an

59  
00:02:28,630 --> 00:02:26,319  
area of gladwin pennsylvania

60  
00:02:30,550 --> 00:02:28,640  
i enjoyed our conversation you asked me

61  
00:02:31,270 --> 00:02:30,560  
to email my account to you so here it is

62  
00:02:33,030 --> 00:02:31,280  
again

63  
00:02:35,110 --> 00:02:33,040

i do landscaping work in the area of

64

00:02:37,030 --> 00:02:35,120

gladwin the properties they are very

65

00:02:37,830 --> 00:02:37,040

large with lots of space between big

66

00:02:40,150 --> 00:02:37,840

houses

67

00:02:41,830 --> 00:02:40,160

it is mostly a vast wooded area my

68

00:02:43,670 --> 00:02:41,840

fellow worker and i had finished eating

69

00:02:45,350 --> 00:02:43,680

lunch on the front steps of the house

70

00:02:47,509 --> 00:02:45,360

and i went back down to the street

71

00:02:48,470 --> 00:02:47,519

country club lane to put our leftovers

72

00:02:50,470 --> 00:02:48,480

into the car

73

00:02:51,910 --> 00:02:50,480

i saw a strange dinosaur bird-like

74

00:02:53,750 --> 00:02:51,920

creature flying above

75

00:02:56,150 --> 00:02:53,760

at first it was silhouetted against the

76  
00:02:57,910 --> 00:02:56,160  
sky but i clearly saw a long skinny tail

77  
00:03:00,149 --> 00:02:57,920  
that ended in an outcropping

78  
00:03:01,670 --> 00:03:00,159  
silhouetted as it was i described this

79  
00:03:03,430 --> 00:03:01,680  
outcropping at the time

80  
00:03:05,430 --> 00:03:03,440  
as a knobber bulbous shape at the end of

81  
00:03:06,710 --> 00:03:05,440  
the tail the tail trailed behind the

82  
00:03:09,030 --> 00:03:06,720  
creature as a flu

83  
00:03:11,430 --> 00:03:09,040  
it then was obscured by some trees but i

84  
00:03:12,949 --> 00:03:11,440  
continue to watch its projective path

85  
00:03:15,110 --> 00:03:12,959  
it was pretty much traveling in a

86  
00:03:16,070 --> 00:03:15,120  
straight line it re-emerged on the other

87  
00:03:17,830 --> 00:03:16,080  
side of the trees

88  
00:03:19,350 --> 00:03:17,840

and i again saw the long tail with the

89

00:03:21,190 --> 00:03:19,360

knob on the end then

90

00:03:23,430 --> 00:03:21,200

at one point it caught the light in such

91

00:03:25,110 --> 00:03:23,440

a way that it was no longer silhouetted

92

00:03:27,589 --> 00:03:25,120

the sun must have come out from some

93

00:03:29,110 --> 00:03:27,599

clouds as it traveled away to my left i

94

00:03:31,110 --> 00:03:29,120

saw its dorsal side

95

00:03:33,270 --> 00:03:31,120

it was a somewhat tannic golden color

96

00:03:35,110 --> 00:03:33,280

and because it was such a uniform color

97

00:03:35,670 --> 00:03:35,120

it appeared not necessarily to have

98

00:03:37,670 --> 00:03:35,680

feathers

99

00:03:38,869 --> 00:03:37,680

but possibly just skin or maybe very

100

00:03:40,949 --> 00:03:38,879

small scales

101  
00:03:42,710 --> 00:03:40,959  
i told stephen my co-worker that i

102  
00:03:44,470 --> 00:03:42,720  
thought i saw a pterodactyl

103  
00:03:45,910 --> 00:03:44,480  
at the time i didn't know the difference

104  
00:03:47,110 --> 00:03:45,920  
between pterodactyl and other

105  
00:03:49,030 --> 00:03:47,120  
pepterosaurs

106  
00:03:51,030 --> 00:03:49,040  
i found out later that pterodactyls

107  
00:03:53,190 --> 00:03:51,040  
don't have tails like what i saw

108  
00:03:55,030 --> 00:03:53,200  
when i described to tale to stephen he

109  
00:03:55,750 --> 00:03:55,040  
said you mean something like a lion's

110  
00:03:57,509 --> 00:03:55,760  
tail

111  
00:03:58,869 --> 00:03:57,519  
i realized that he described it very

112  
00:04:00,550 --> 00:03:58,879  
well with those words

113  
00:04:02,309 --> 00:04:00,560

the next night i did a search on the

114

00:04:03,589 --> 00:04:02,319

computer for birds that look like

115

00:04:05,350 --> 00:04:03,599

pterodactyls

116

00:04:06,869 --> 00:04:05,360

i found out then that the pterodactyl

117

00:04:08,070 --> 00:04:06,879

doesn't have the long tail like the

118

00:04:10,309 --> 00:04:08,080

creature i saw

119

00:04:12,149 --> 00:04:10,319

i found four flying reptile dinosaurs

120

00:04:13,990 --> 00:04:12,159

for pterosaurs all of which look

121

00:04:15,670 --> 00:04:14,000

surprisingly like what i saw

122

00:04:17,349 --> 00:04:15,680

they're described as being in about the

123

00:04:19,110 --> 00:04:17,359

same size fringe too

124

00:04:21,030 --> 00:04:19,120

i would guess the wingspan was about

125

00:04:21,509 --> 00:04:21,040

four feet but i can only guess that that

126  
00:04:23,350 --> 00:04:21,519  
since

127  
00:04:25,590 --> 00:04:23,360  
when something is up in the sky it's

128  
00:04:27,430 --> 00:04:25,600  
hard to reference it to other objects

129  
00:04:29,430 --> 00:04:27,440  
the fork pterosaurs that resemble the

130  
00:04:31,430 --> 00:04:29,440  
creature i saw the rem for hinchies

131  
00:04:32,390 --> 00:04:31,440  
eutomorphadin scofogonathus and the

132  
00:04:34,310 --> 00:04:32,400  
domorphitin

133  
00:04:35,990 --> 00:04:34,320  
the last of these is only speculated to

134  
00:04:37,990 --> 00:04:36,000  
have the knob at the end of the tail

135  
00:04:39,830 --> 00:04:38,000  
although no fossils have actually been

136  
00:04:41,350 --> 00:04:39,840  
found with it the other three are known

137  
00:04:43,350 --> 00:04:41,360  
to have the outcropping

138  
00:04:45,270 --> 00:04:43,360

the outcropping in any of these is

139

00:04:45,990 --> 00:04:45,280

actually a diamond-shaped flap called a

140

00:04:47,270 --> 00:04:46,000

vine

141

00:04:49,510 --> 00:04:47,280

i found that there have been many

142

00:04:51,270 --> 00:04:49,520

sightings of possible pterosaurs

143

00:04:52,550 --> 00:04:51,280

some people describe them as a large

144

00:04:54,629 --> 00:04:52,560

bat-like creature

145

00:04:55,830 --> 00:04:54,639

not everyone mentions a long tail the

146

00:04:58,230 --> 00:04:55,840

actual pterodactyl

147

00:04:59,990 --> 00:04:58,240

again did not have a long tail the

148

00:05:01,590 --> 00:05:00,000

pterosaurs that i named and the ones

149

00:05:03,110 --> 00:05:01,600

that have been sighted by others

150

00:05:04,950 --> 00:05:03,120

a bad luck in that they don't have

151  
00:05:05,830 --> 00:05:04,960  
feathers and they have hands at the bend

152  
00:05:07,270 --> 00:05:05,840  
of the wing

153  
00:05:09,110 --> 00:05:07,280  
they're not that like in that they do

154  
00:05:11,029 --> 00:05:09,120  
not flap their wings quickly but have

155  
00:05:12,310 --> 00:05:11,039  
more of a gliding motion to their flight

156  
00:05:14,150 --> 00:05:12,320  
like my creature

157  
00:05:15,990 --> 00:05:14,160  
i have to be honest in saying that i did

158  
00:05:17,990 --> 00:05:16,000  
not see hands or fingers but there was

159  
00:05:19,189 --> 00:05:18,000  
so much for me to observe in a fairly

160  
00:05:21,510 --> 00:05:19,199  
short amount of time

161  
00:05:23,430 --> 00:05:21,520  
did i mostly notice the tail the shape

162  
00:05:24,950 --> 00:05:23,440  
of the head also escapes me now if i

163  
00:05:26,950 --> 00:05:24,960

should have to describe it

164

00:05:28,950 --> 00:05:26,960

my very first impression the moment i

165

00:05:29,270 --> 00:05:28,960

spotted it was not so much that it was a

166

00:05:31,830 --> 00:05:29,280

bad

167

00:05:33,670 --> 00:05:31,840

bird but rather a bird-like dinosaur i

168

00:05:35,350 --> 00:05:33,680

feel so strongly about what i have seen

169

00:05:36,070 --> 00:05:35,360

that i sensed that i should report it to

170

00:05:38,070 --> 00:05:36,080

somebody

171

00:05:39,749 --> 00:05:38,080

somewhere i am glad that i have been

172

00:05:41,430 --> 00:05:39,759

able to put this in writing but the

173

00:05:43,270 --> 00:05:41,440

incident is still fresh

174

00:05:44,469 --> 00:05:43,280

i'm happy to have this information

175

00:05:46,629 --> 00:05:44,479

shared with anyone

176

00:05:48,870 --> 00:05:46,639

as someone has another explanation other

177

00:05:49,590 --> 00:05:48,880

than that i saw pterosaur i will gladly

178

00:05:51,350 --> 00:05:49,600

listen

179

00:05:52,710 --> 00:05:51,360

if there's a large bird in the gladwen

180

00:05:54,870 --> 00:05:52,720

area with a tail like that

181

00:05:56,309 --> 00:05:54,880

i will consider myself informed and not

182

00:05:58,230 --> 00:05:56,319

argue so far

183

00:05:59,830 --> 00:05:58,240

my research doesn't indicate that but

184

00:06:01,749 --> 00:05:59,840

i'm not a bird expert

185

00:06:02,950 --> 00:06:01,759

thanks so much for listening and for

186

00:06:04,629 --> 00:06:02,960

your encouragement

187

00:06:06,469 --> 00:06:04,639

i wish you all the best with all that

188

00:06:14,150 --> 00:06:06,479

you are doing sincerely

189

00:06:18,790 --> 00:06:16,710

oregon pterosaur i was visiting the

190

00:06:20,390 --> 00:06:18,800

beach in oregon with a few friends for

191

00:06:22,230 --> 00:06:20,400

one of their birthdays

192

00:06:23,590 --> 00:06:22,240

we were driving down the street the

193

00:06:25,749 --> 00:06:23,600

house was on and

194

00:06:27,990 --> 00:06:25,759

since i was sitting in the back i didn't

195

00:06:29,270 --> 00:06:28,000

have much to focus on besides looking

196

00:06:31,670 --> 00:06:29,280

out the window

197

00:06:33,270 --> 00:06:31,680

flying far above a hill about where i

198

00:06:35,510 --> 00:06:33,280

see eagles and hawks fly

199

00:06:38,150 --> 00:06:35,520

was a large black bird with a wingspan

200

00:06:40,629 --> 00:06:38,160

easily 25 to 30 feet resembling a

201  
00:06:42,309 --> 00:06:40,639  
pterodactyl i had seen in movies

202  
00:06:44,390 --> 00:06:42,319  
i thought it was weird for a couple

203  
00:06:47,350 --> 00:06:44,400  
minutes as i'd never seen a bird

204  
00:06:49,029 --> 00:06:47,360  
that large in my life not even pictures

205  
00:06:51,350 --> 00:06:49,039  
of anything that large

206  
00:06:53,909 --> 00:06:51,360  
i was able to quickly brush it off until

207  
00:06:56,070 --> 00:06:53,919  
began researching cryptids in oregon

208  
00:06:58,230 --> 00:06:56,080  
i found an article about thunderbirds

209  
00:07:00,070 --> 00:06:58,240  
with a thumbnail displaying a very large

210  
00:07:02,790 --> 00:07:00,080  
black bird like i described

211  
00:07:03,749 --> 00:07:02,800  
and as i read it this memory came back

212  
00:07:06,070 --> 00:07:03,759  
to me

213  
00:07:08,629 --> 00:07:06,080

here's an excerpt from what i read

214

00:07:11,189 --> 00:07:08,639

native tribes all across north america

215

00:07:12,790 --> 00:07:11,199

especially along the pacific coast and

216

00:07:15,029 --> 00:07:12,800

in the great lakes area

217

00:07:17,350 --> 00:07:15,039

have stories depicting enormous birds of

218

00:07:19,510 --> 00:07:17,360

prey some stories told

219

00:07:21,189 --> 00:07:19,520

that these birds were so large and

220

00:07:21,749 --> 00:07:21,199

powerful that when they flapped their

221

00:07:24,469 --> 00:07:21,759

wings

222

00:07:25,430 --> 00:07:24,479

thunder was created lightning flashed

223

00:07:27,830 --> 00:07:25,440

out of their eyes

224

00:07:28,629 --> 00:07:27,840

and water fell off their backs creating

225

00:07:31,029 --> 00:07:28,639

rain

226

00:07:32,390 --> 00:07:31,039

the tribes used thunderbirds to explain

227

00:07:33,270 --> 00:07:32,400

some of the things that happened

228

00:07:35,029 --> 00:07:33,280

naturally

229

00:07:37,670 --> 00:07:35,039

such as storms and other forms of

230

00:07:38,550 --> 00:07:37,680

weather sightings of large bird-like

231

00:07:40,629 --> 00:07:38,560

creatures

232

00:07:42,150 --> 00:07:40,639

have been reported for many years at

233

00:07:43,990 --> 00:07:42,160

least since people began

234

00:07:45,589 --> 00:07:44,000

settling further west in the united

235

00:07:47,430 --> 00:07:45,599

states and canada

236

00:07:49,990 --> 00:07:47,440

to me this creature looked more like a

237

00:07:56,830 --> 00:07:50,000

pterodactyl or a dragon than any modern

238

00:08:00,790 --> 00:07:58,710

cc

239

00:08:03,189 --> 00:08:00,800

flying gargoyle encountered in tampa

240

00:08:03,990 --> 00:08:03,199

florida i had an incident in tampa

241

00:08:06,629 --> 00:08:04,000

florida

242

00:08:07,909 --> 00:08:06,639

a winged creature siding driving to work

243

00:08:09,909 --> 00:08:07,919

early in the morning

244

00:08:12,070 --> 00:08:09,919

it wasn't dark but not quite daylight

245

00:08:13,909 --> 00:08:12,080

out going around a curve in a road

246

00:08:16,390 --> 00:08:13,919

knowing i'm coming up to a light it's

247

00:08:18,550 --> 00:08:16,400

always red and i always have to stop

248

00:08:20,629 --> 00:08:18,560

for one of the only times i can remember

249

00:08:21,830 --> 00:08:20,639

i somehow was the first vehicle stopped

250

00:08:23,670 --> 00:08:21,840

at the intersection

251  
00:08:25,589 --> 00:08:23,680  
i knew i needed to keep an eye on the

252  
00:08:26,070 --> 00:08:25,599  
light so i'm looking up waiting for it

253  
00:08:27,990 --> 00:08:26,080  
to turn

254  
00:08:30,070 --> 00:08:28,000  
green and i just happened to catch

255  
00:08:32,070 --> 00:08:30,080  
something moving along to my left

256  
00:08:33,909 --> 00:08:32,080  
it was flying from left to right south

257  
00:08:35,990 --> 00:08:33,919  
to north i won't lie

258  
00:08:37,509 --> 00:08:36,000  
i did not get to see it for long but in

259  
00:08:39,509 --> 00:08:37,519  
that one to three seconds

260  
00:08:41,829 --> 00:08:39,519  
it was as clear as i could possibly have

261  
00:08:43,909 --> 00:08:41,839  
imagined it looked just like a gargoyle

262  
00:08:44,870 --> 00:08:43,919  
large bat like wings hands crutches

263  
00:08:47,269 --> 00:08:44,880

uptight in front

264

00:08:48,470 --> 00:08:47,279

legs kind of crutches up in as well

265

00:08:50,949 --> 00:08:48,480

gliding along

266

00:08:52,870 --> 00:08:50,959

wings didn't flap now i don't claim to

267

00:08:54,630 --> 00:08:52,880

have the world's greatest eye or be an

268

00:08:56,949 --> 00:08:54,640

expert on all things relating to

269

00:08:58,949 --> 00:08:56,959

distance but i know what it looked like

270

00:09:00,230 --> 00:08:58,959

i'm certain of its eyes which would be

271

00:09:02,070 --> 00:09:00,240

about a large man

272

00:09:04,630 --> 00:09:02,080

and i know it wasn't that far in front

273

00:09:06,630 --> 00:09:04,640

of me i had a lot of objects in my for

274

00:09:08,070 --> 00:09:06,640

view to help get a good perception

275

00:09:10,389 --> 00:09:08,080

could it have been anything else other

276

00:09:12,870 --> 00:09:10,399

than a gargoyle of course

277

00:09:13,590 --> 00:09:12,880

i'm not crazy that's just what it looked

278

00:09:20,870 --> 00:09:13,600

like

279

00:09:24,790 --> 00:09:22,870

red eyed gargoyle floating along yuvas

280

00:09:26,870 --> 00:09:24,800

creek in gilroy california

281

00:09:28,790 --> 00:09:26,880

about nine to ten years ago i was living

282

00:09:30,310 --> 00:09:28,800

along the yuvas creek in my hometown of

283

00:09:32,470 --> 00:09:30,320

gilroy california

284

00:09:34,389 --> 00:09:32,480

it was late summer around 12 30 a.m to

285

00:09:35,990 --> 00:09:34,399

shortly after 1am when my two other

286

00:09:37,829 --> 00:09:36,000

companions and i heard a screaming

287

00:09:40,150 --> 00:09:37,839

sound of death coming farther down from

288

00:09:41,910 --> 00:09:40,160

us i was already planning to go outside

289

00:09:43,509 --> 00:09:41,920

to check on my neighbor's tent close to

290

00:09:44,790 --> 00:09:43,519

where we heard that high-pitched cry of

291

00:09:47,110 --> 00:09:44,800

something being killed

292

00:09:48,710 --> 00:09:47,120

the tent was empty like it should be i

293

00:09:49,990 --> 00:09:48,720

started to take the trail back to my

294

00:09:51,509 --> 00:09:50,000

spot it wasn't very dark

295

00:09:53,829 --> 00:09:51,519

due to the fact that the moon was going

296

00:09:55,590 --> 00:09:53,839

to be full i was almost in front of my

297

00:09:56,150 --> 00:09:55,600

spot when i heard the sound of air three

298

00:09:58,710 --> 00:09:56,160

times

299

00:10:00,070 --> 00:09:58,720

whoosh whoosh whoosh i turned towards

300

00:10:02,069 --> 00:10:00,080

the creek and looked at the band

301  
00:10:04,150 --> 00:10:02,079  
not expecting to see what i saw from

302  
00:10:05,990 --> 00:10:04,160  
behind the trees and shrubs was a black

303  
00:10:07,910 --> 00:10:06,000  
devilish gargoyle looking battling day

304  
00:10:08,550 --> 00:10:07,920  
to 10 foot tall red-eyed red mouth

305  
00:10:10,710 --> 00:10:08,560  
floating

306  
00:10:11,910 --> 00:10:10,720  
not flying creature his skin a dense

307  
00:10:14,069 --> 00:10:11,920  
rubbery type skin

308  
00:10:15,670 --> 00:10:14,079  
now remember he's floating past me not

309  
00:10:17,509 --> 00:10:15,680  
knowing i was watching him

310  
00:10:19,430 --> 00:10:17,519  
in my head i repeated doe look at me

311  
00:10:20,630 --> 00:10:19,440  
don't look at me over and over staying

312  
00:10:22,630 --> 00:10:20,640  
perfectly still

313  
00:10:23,670 --> 00:10:22,640

it continues to float past my friend

314

00:10:25,910 --> 00:10:23,680

looking out for me

315

00:10:26,870 --> 00:10:25,920

said what are you doing i said come here

316

00:10:28,949 --> 00:10:26,880

come here

317

00:10:30,310 --> 00:10:28,959

as the creature approaches the next bend

318

00:10:33,110 --> 00:10:30,320

rich sees the back of it

319

00:10:35,190 --> 00:10:33,120

said to me wtf was that well for the

320

00:10:37,269 --> 00:10:35,200

past 10 years i've told my story of that

321

00:10:39,030 --> 00:10:37,279

night hoping someone would believe me

322

00:10:40,310 --> 00:10:39,040

well you know what happens people think

323

00:10:42,949 --> 00:10:40,320

you're crazy

324

00:10:44,790 --> 00:10:42,959

finally this year 2019 four others say

325

00:10:45,269 --> 00:10:44,800

they also have seen it in the past six

326  
00:10:47,590 --> 00:10:45,279  
months

327  
00:10:49,110 --> 00:10:47,600  
twice the thing that really bothers me

328  
00:10:50,949 --> 00:10:49,120  
is how could it stay up in the air

329  
00:10:52,870 --> 00:10:50,959  
only flapping its wings three times he

330  
00:10:55,269 --> 00:10:52,880  
was huge no way

331  
00:10:56,710 --> 00:10:55,279  
it's impossible it was going too slow to

332  
00:10:58,710 --> 00:10:56,720  
stay up but it did

333  
00:11:00,550 --> 00:10:58,720  
i know what i saw that night and nothing

334  
00:11:06,550 --> 00:11:00,560  
is going to change my mind

335  
00:11:09,990 --> 00:11:09,110  
this is lon strickler if you like this

336  
00:11:11,750 --> 00:11:10,000  
program

337  
00:11:13,110 --> 00:11:11,760  
it would help us if you would give it a

338  
00:11:15,990 --> 00:11:13,120

thumbs up
