00:00:37,750 --> 00:00:35,510  
cruise ship uso key west florida

10  
00:00:40,229 --> 00:00:37,760  
my friend and i returned to our cruise

11  
00:00:41,190 --> 00:00:40,239  
cabin went on the balcony looking at the

12  
00:00:44,229 --> 00:00:41,200  
water

13  
00:00:46,549 --> 00:00:44,239

noticed a helicopter then some birds

14

00:00:48,310 --> 00:00:46,559

we then saw these white balls of light

15

00:00:51,189 --> 00:00:48,320

zigzagging in the sky

16

00:00:53,510 --> 00:00:51,199

sometimes together in unison other times

17

00:00:55,590 --> 00:00:53,520

separately in different directions

18

00:00:57,670 --> 00:00:55,600

they went straight from the sky into the

19

00:00:58,470 --> 00:00:57,680

water and would just reappear back in

20

00:01:00,389 --> 00:00:58,480

the sky

21

00:01:03,349 --> 00:01:00,399

even though we watched for them to come

22

00:01:05,910 --> 00:01:03,359

out at one point they came together less

23

00:01:07,109 --> 00:01:05,920

than 100 feet in front of us together

24

00:01:10,390 --> 00:01:07,119

side by side

25

00:01:12,870 --> 00:01:10,400

still not moving facing us we felt they

26

00:01:14,950 --> 00:01:12,880

were looking at us then together they

27

00:01:16,070 --> 00:01:14,960

started slowly moving in straight line

28

00:01:19,190 --> 00:01:16,080

toward us

29

00:01:21,109 --> 00:01:19,200

they came so close we ran into the cabin

30

00:01:23,749 --> 00:01:21,119

pulled the curtain and turned the lights

31

00:01:25,670 --> 00:01:23,759

out we later found the courage to peep

32

00:01:28,950 --> 00:01:25,680

out of the sliding glass door

33

00:01:30,950 --> 00:01:28,960

but saw nothing it was so scary we were

34

00:01:31,910 --> 00:01:30,960

the only people we could see who were on

35

00:01:34,310 --> 00:01:31,920

the balcony

36

00:01:35,350 --> 00:01:34,320

because it was so late we thought they

37

00:01:37,270 --> 00:01:35,360

would take us

38

00:01:39,190 --> 00:01:37,280

and no one would know what happened to

39

00:01:39,990 --> 00:01:39,200

us or would have thought that we fell

40

00:01:42,710 --> 00:01:40,000

overboard as we

41

00:01:44,950 --> 00:01:42,720

were on floor seven i later looked into

42

00:01:45,510 --> 00:01:44,960

how many people went missing on cruise

43

00:01:54,389 --> 00:01:45,520

ships

44

00:01:56,709 --> 00:01:54,399

and found it has happened many times

45

00:01:57,670 --> 00:01:56,719

coast guard cutter encounters usos off

46

00:02:00,310 --> 00:01:57,680

key west

47

00:02:02,950 --> 00:02:00,320

it was the summer of 2000 and i was just

48

00:02:05,109 --> 00:02:02,960

a non-rate stationed on 110 foot coast

49

00:02:06,950 --> 00:02:05,119

guard cutter out of key west florida

50

00:02:09,270 --> 00:02:06,960

we had enjoyed three days of calm

51  
00:02:11,350 --> 00:02:09,280  
weather and the seas were glassy smooth

52  
00:02:12,309 --> 00:02:11,360  
rare nights like this are when smugglers

53  
00:02:14,150 --> 00:02:12,319  
like to make a run

54  
00:02:16,229 --> 00:02:14,160  
and we were sitting on a darkened ship

55  
00:02:16,710 --> 00:02:16,239  
on a known drug route an awesome fishing

56  
00:02:19,270 --> 00:02:16,720  
spot

57  
00:02:21,190 --> 00:02:19,280  
due to a massive drop off underneath us

58  
00:02:23,430 --> 00:02:21,200  
we had our radar set to max

59  
00:02:24,229 --> 00:02:23,440  
our ears wide open and our mouths clamp

60  
00:02:26,470 --> 00:02:24,239  
shut

61  
00:02:28,229 --> 00:02:26,480  
sound carries like crazy out there and

62  
00:02:30,470 --> 00:02:28,239  
sometimes you can hear the engines of

63  
00:02:31,509 --> 00:02:30,480

the go fast screaming before radar even

64

00:02:34,550 --> 00:02:31,519

picks them up

65

00:02:36,309 --> 00:02:34,560

but tonight was dead no activity at all

66

00:02:38,150 --> 00:02:36,319

i was coming on to the bridge for the

67

00:02:40,470 --> 00:02:38,160

zero 330 watch shift

68

00:02:41,270 --> 00:02:40,480

our jod was checking the equipment for a

69

00:02:43,350 --> 00:02:41,280

pass down

70

00:02:45,589 --> 00:02:43,360

but when he got to the radar he gave a

71

00:02:47,910 --> 00:02:45,599

little wtf under his breath

72

00:02:49,830 --> 00:02:47,920

the oncoming ood came over to see what

73

00:02:50,470 --> 00:02:49,840

was up said the same thing then called

74

00:02:52,710 --> 00:02:50,480

our co

75

00:02:55,509 --> 00:02:52,720

on the sound powered phone we heard him

76  
00:02:57,350 --> 00:02:55,519  
say hey cap we have two contacts moving

77  
00:02:58,309 --> 00:02:57,360  
fast coming straight at us about 40

78  
00:03:00,149 --> 00:02:58,319  
knots out

79  
00:03:01,430 --> 00:03:00,159  
so we think we are about to see some

80  
00:03:03,190 --> 00:03:01,440  
action and everyone

81  
00:03:05,750 --> 00:03:03,200  
starts getting amped up when we hear him

82  
00:03:06,550 --> 00:03:05,760  
give the speed 400 knots and holding

83  
00:03:08,630 --> 00:03:06,560  
steady

84  
00:03:10,869 --> 00:03:08,640  
at this point we think it's just a radar

85  
00:03:11,910 --> 00:03:10,879  
anomaly or some running rabbit's radar

86  
00:03:13,990 --> 00:03:11,920  
type echo

87  
00:03:15,990 --> 00:03:14,000  
but these two staggered contacts stayed

88  
00:03:16,869 --> 00:03:16,000

on the scope and their signal just got

89

00:03:18,869 --> 00:03:16,879

stronger

90

00:03:21,030 --> 00:03:18,879

whatever it was was about the size of a

91

00:03:22,390 --> 00:03:21,040

cargo ship moving about 4 gundered and

92

00:03:24,710 --> 00:03:22,400

50 miles per hour

93

00:03:27,110 --> 00:03:24,720

and wasn't even leaving awake you can

94

00:03:27,830 --> 00:03:27,120

see a wacon radar especially on a calm

95

00:03:29,990 --> 00:03:27,840

night

96

00:03:32,309 --> 00:03:30,000

after hearing this the co is on deck in

97

00:03:33,589 --> 00:03:32,319

his bathroom about 30 seconds later just

98

00:03:35,589 --> 00:03:33,599

staring at the radar

99

00:03:37,509 --> 00:03:35,599

and everyone is just perplexed trying to

100

00:03:39,430 --> 00:03:37,519

get a look in over his shoulder

101  
00:03:41,030 --> 00:03:39,440  
so he sends us all out onto the bridge

102  
00:03:42,710 --> 00:03:41,040  
wing with night vision goggles

103  
00:03:45,270 --> 00:03:42,720  
and has us all looking out for these

104  
00:03:47,030 --> 00:03:45,280  
things every few seconds he is counting

105  
00:03:49,030 --> 00:03:47,040  
down the range and right when they get

106  
00:03:49,990 --> 00:03:49,040  
to eight miles out they simply drop off

107  
00:03:53,270 --> 00:03:50,000  
the radar

108  
00:03:55,270 --> 00:03:53,280  
boom just gone now both of us non-rates

109  
00:03:56,949 --> 00:03:55,280  
get sent down to the bow of the ship and

110  
00:03:58,550 --> 00:03:56,959  
told to listen for anything

111  
00:04:00,869 --> 00:03:58,560  
see if we can hear anything or see

112  
00:04:02,550 --> 00:04:00,879  
anything or whatever so we listen and

113  
00:04:04,550 --> 00:04:02,560

it's so quiet that all we can hear is

114

00:04:05,990 --> 00:04:04,560

the blood pounding in our ears

115

00:04:07,670 --> 00:04:06,000

then after not even a minute of

116

00:04:10,390 --> 00:04:07,680

vigilance we see something

117

00:04:11,670 --> 00:04:10,400

two lights underwater moving fast coming

118

00:04:13,190 --> 00:04:11,680

directly at us

119

00:04:15,350 --> 00:04:13,200

if we had blinked we would have missed

120

00:04:17,670 --> 00:04:15,360

them in just a moment they had passed

121

00:04:19,590 --> 00:04:17,680

directly under our bow and we're gone

122

00:04:21,590 --> 00:04:19,600

the best description i can give would be

123

00:04:22,310 --> 00:04:21,600

like two train lights moving slightly

124

00:04:24,790 --> 00:04:22,320

staggered

125

00:04:26,950 --> 00:04:24,800

not too deep under crystal clear water

126

00:04:28,469 --> 00:04:26,960

maybe 40 or 50 feet down

127

00:04:30,390 --> 00:04:28,479

the leading vessel was slightly

128

00:04:32,310 --> 00:04:30,400

silhouetted by the trailing vessel

129

00:04:34,310 --> 00:04:32,320

and the brief impression i got of it was

130

00:04:37,030 --> 00:04:34,320

like the engine car of a train

131

00:04:39,030 --> 00:04:37,040

just way larger it was over so fast i

132

00:04:40,710 --> 00:04:39,040

really never got a look so i can't say

133

00:04:42,629 --> 00:04:40,720

much more than that about them

134

00:04:44,469 --> 00:04:42,639

my fellow lookout and i exchanged a

135

00:04:46,469 --> 00:04:44,479

shocked look at each other and he asked

136

00:04:48,310 --> 00:04:46,479

me if i had just seen it too

137

00:04:49,510 --> 00:04:48,320

we talked excitedly about it for a

138

00:04:51,990 --> 00:04:49,520

second and ran back

139

00:04:53,830 --> 00:04:52,000

up to report our findings after we made

140

00:04:55,749 --> 00:04:53,840

it to the bridge and started telling the

141

00:04:55,990 --> 00:04:55,759

co what we had seen the quartermaster

142

00:04:58,070 --> 00:04:56,000

shut

143

00:04:59,670 --> 00:04:58,080

us up saying they had popped back up on

144

00:05:02,070 --> 00:04:59,680

radar sure enough

145

00:05:04,469 --> 00:05:02,080

eight miles out there they were still

146

00:05:06,550 --> 00:05:04,479

moving staggered at 400 knots

147

00:05:07,510 --> 00:05:06,560

we watched them disappear off radar at

148

00:05:10,230 --> 00:05:07,520

about 40 plus

149

00:05:12,070 --> 00:05:10,240

miles in silence all of us just holding

150

00:05:12,870 --> 00:05:12,080

our positions until they passed out of

151  
00:05:15,430 --> 00:05:12,880  
range

152  
00:05:17,270 --> 00:05:15,440  
then the old man asked us what we saw we

153  
00:05:18,150 --> 00:05:17,280  
told him and after a minute of silence

154  
00:05:20,950 --> 00:05:18,160  
he just said

155  
00:05:22,230 --> 00:05:20,960  
weird radar glitch it is then sighed and

156  
00:05:24,230 --> 00:05:22,240  
went back to bed

157  
00:05:26,230 --> 00:05:24,240  
after he wished us a good watch and went

158  
00:05:28,230 --> 00:05:26,240  
below deck the cob

159  
00:05:30,310 --> 00:05:28,240  
most senior chief of the boat pulled us

160  
00:05:32,230 --> 00:05:30,320  
up to the flying bridge for a talk

161  
00:05:33,590 --> 00:05:32,240  
he basically told us that there are lots

162  
00:05:35,350 --> 00:05:33,600  
of weird things out here

163  
00:05:37,350 --> 00:05:35,360

and that this is not the first time he

164

00:05:39,270 --> 00:05:37,360

had heard about underwater oddities from

165

00:05:40,310 --> 00:05:39,280

sailors but was the first he had ever

166

00:05:42,230 --> 00:05:40,320

been a part of

167

00:05:44,150 --> 00:05:42,240

he didn't say we shouldn't tell anyone

168

00:05:45,909 --> 00:05:44,160

but he made it pretty clear most people

169

00:05:48,230 --> 00:05:45,919

wouldn't believe us if we did

170

00:05:50,469 --> 00:05:48,240

that was it the next night was just as

171

00:05:51,909 --> 00:05:50,479

calm and we ended up stopping a drug

172

00:05:54,230 --> 00:05:51,919

smuggler with nearly a ton

173

00:05:56,390 --> 00:05:54,240

of product on board and we all just sort

174

00:05:58,150 --> 00:05:56,400

of put the incident behind us and moved

175

00:06:00,150 --> 00:05:58,160

on with our normal lives

176

00:06:02,070 --> 00:06:00,160

all i can say after two decades of

177

00:06:03,909 --> 00:06:02,080

experience in the military is that in

178

00:06:06,550 --> 00:06:03,919

the middle of the ocean on a clear night

179

00:06:08,230 --> 00:06:06,560

and with a good set of nvgs you can see

180

00:06:10,070 --> 00:06:08,240

little zippy things in the sky

181

00:06:12,629 --> 00:06:10,080

just about every night if you have some

182

00:06:14,070 --> 00:06:12,639

patience in my years of sea time i've

183

00:06:15,909 --> 00:06:14,080

seen lots of odd things

184

00:06:23,189 --> 00:06:15,919

but that night will always stand out in

185

00:06:26,309 --> 00:06:24,790

long beach new york unidentified

186

00:06:28,950 --> 00:06:26,319

submerged object

187

00:06:29,510 --> 00:06:28,960

august of 2017 i was sitting with a few

188

00:06:32,150 --> 00:06:29,520

friends

189

00:06:32,550 --> 00:06:32,160

all of us are between 45 and 55 years

190

00:06:34,390 --> 00:06:32,560

old

191

00:06:36,230 --> 00:06:34,400

on the beach in long beach new york

192

00:06:38,629 --> 00:06:36,240

situated between two large jetties

193

00:06:40,710 --> 00:06:38,639

approximately 500 yards apart

194

00:06:42,629 --> 00:06:40,720

more specifically between the franklin

195

00:06:43,430 --> 00:06:42,639

avenue and lincoln avenue beach entrance

196

00:06:45,510 --> 00:06:43,440

ramps

197

00:06:48,230 --> 00:06:45,520

it was a perfect sunny day about 3 p.m

198

00:06:50,230 --> 00:06:48,240

or so the tide was relatively low so our

199

00:06:50,629 --> 00:06:50,240

position put us a few yards above sea

200

00:06:52,230 --> 00:06:50,639

level

201  
00:06:54,550 --> 00:06:52,240  
and you could look down a few degrees

202  
00:06:55,029 --> 00:06:54,560  
over the water as i stared out over the

203  
00:06:56,790 --> 00:06:55,039  
water

204  
00:06:58,870 --> 00:06:56,800  
i suddenly saw a mist in the air just

205  
00:07:00,469 --> 00:06:58,880  
above the water moving about went near

206  
00:07:02,390 --> 00:07:00,479  
25 miles per hour

207  
00:07:04,070 --> 00:07:02,400  
from west to east emanating from what

208  
00:07:05,430 --> 00:07:04,080  
seemed to be a wire antennae from a

209  
00:07:07,270 --> 00:07:05,440  
submerged object

210  
00:07:09,749 --> 00:07:07,280  
it moved straight across the beach about

211  
00:07:11,110 --> 00:07:09,759  
100 feet out and was way too fast to be

212  
00:07:12,870 --> 00:07:11,120  
any marine life

213  
00:07:14,870 --> 00:07:12,880

we see a lot of dolphins and whales in

214

00:07:17,270 --> 00:07:14,880

the area which regular bob as a mammal

215

00:07:19,110 --> 00:07:17,280

would and certainly earn very fast

216

00:07:21,270 --> 00:07:19,120

this thing moved dead straight and super

217

00:07:22,230 --> 00:07:21,280

fast about the speed of a wave runner at

218

00:07:23,909 --> 00:07:22,240

half throttle

219

00:07:25,749 --> 00:07:23,919

the water mist that trailed it came in

220

00:07:27,270 --> 00:07:25,759

so fast i didn't even have time to

221

00:07:29,670 --> 00:07:27,280

mention it to my friends

222

00:07:31,990 --> 00:07:29,680

i was thinking what the hell is that it

223

00:07:33,909 --> 00:07:32,000

then did a 45 degree angle turn towards

224

00:07:34,390 --> 00:07:33,919

open water as it moved directly in front

225

00:07:36,070 --> 00:07:34,400

of me

226

00:07:37,909 --> 00:07:36,080

and because of the angle above the water

227

00:07:39,670 --> 00:07:37,919

where we were situated i could see the

228

00:07:40,150 --> 00:07:39,680

outliner shadow of the object in the

229

00:07:42,309 --> 00:07:40,160

water

230

00:07:43,990 --> 00:07:42,319

and it was about 20 feet long maybe

231

00:07:46,390 --> 00:07:44,000

longer and shaped perhaps like

232

00:07:48,070 --> 00:07:46,400

a missile or long cylindrical object it

233

00:07:49,830 --> 00:07:48,080

accelerated as it went further out

234

00:07:51,189 --> 00:07:49,840

yet i could still see the dark shape as

235

00:07:52,869 --> 00:07:51,199

it headed for open water

236

00:07:54,390 --> 00:07:52,879

the mast of the antennae breaking the

237

00:07:56,950 --> 00:07:54,400

surface the whole time

238

00:07:57,830 --> 00:07:56,960

the entire episode lasted maybe 10 or 15

239

00:08:00,230 --> 00:07:57,840

seconds

240

00:08:01,029 --> 00:08:00,240

weird i would definitely classify this

241

00:08:03,510 --> 00:08:01,039

as a uso

242

00:08:05,110 --> 00:08:03,520

unidentifiable submerged object and can

243

00:08:05,830 --> 00:08:05,120

only imagine what the hell it was doing

244

00:08:07,909 --> 00:08:05,840

there

245

00:08:08,869 --> 00:08:07,919

observing human life along the shore

246

00:08:11,510 --> 00:08:08,879

recall

247

00:08:12,469 --> 00:08:11,520

i know this was no fish shark whale or

248

00:08:14,309 --> 00:08:12,479

dolphin

249

00:08:16,390 --> 00:08:14,319

this was a machine that moved with

250

00:08:26,230 --> 00:08:16,400

purpose control depth and speed

251

00:08:28,469 --> 00:08:26,240

and possibly intent regards bobby

252

00:08:30,309 --> 00:08:28,479

the oso in paradise kota kinabala

253

00:08:33,029 --> 00:08:30,319

malaysia on the morning of saturday

254

00:08:34,870 --> 00:08:33,039

october 8 2005 my wife and i dropped my

255

00:08:37,110 --> 00:08:34,880

18 year old daughter's school

256

00:08:38,790 --> 00:08:37,120

it was about 6 50 a.m and we decided to

257

00:08:39,670 --> 00:08:38,800

go to a nearby beach to wait for the

258

00:08:41,589 --> 00:08:39,680

shops to open

259

00:08:43,670 --> 00:08:41,599

so that we can have our breakfast we

260

00:08:45,030 --> 00:08:43,680

reached a beach just about 7am

261

00:08:47,350 --> 00:08:45,040

while at the beach we sat on the

262

00:08:49,829 --> 00:08:47,360

concrete steps facing to see to the west

263

00:08:51,430 --> 00:08:49,839

it was 705 a.m and the sun was already

264

00:08:53,190 --> 00:08:51,440

shining very brightly when my wife

265

00:08:54,470 --> 00:08:53,200

noticed something unusual on the water

266

00:08:56,389 --> 00:08:54,480

about 500 meters

267

00:08:58,150 --> 00:08:56,399

offshore and she brought my attention to

268

00:09:00,070 --> 00:08:58,160

it what i saw looked like a strip of

269

00:09:01,350 --> 00:09:00,080

white wave breaking on the water surface

270

00:09:03,190 --> 00:09:01,360

and i told her that

271

00:09:04,870 --> 00:09:03,200

however instead of moving towards shore

272

00:09:06,550 --> 00:09:04,880

the wave was moving across the water

273

00:09:07,190 --> 00:09:06,560

parallel to the beach way towards our

274

00:09:08,550 --> 00:09:07,200

left

275

00:09:10,389 --> 00:09:08,560

she then asked me whether it was a

276

00:09:12,310 --> 00:09:10,399

dolphin instead but i told her it was

277

00:09:14,470 --> 00:09:12,320

moving too fast for even a dolphin

278

00:09:16,470 --> 00:09:14,480

and probably way too big the white strip

279

00:09:18,150 --> 00:09:16,480

of wave by my estimation was at least

280

00:09:19,750 --> 00:09:18,160

about eight to nine meters long

281

00:09:21,190 --> 00:09:19,760

it was definitely not a boat either

282

00:09:22,870 --> 00:09:21,200

because what i could see was just a

283

00:09:23,990 --> 00:09:22,880

strip of water breaking on the surface

284

00:09:25,670 --> 00:09:24,000

and nothing above

285

00:09:27,269 --> 00:09:25,680

now the beach that we were at was right

286

00:09:29,190 --> 00:09:27,279

in the center of a gentle bay with the

287

00:09:31,030 --> 00:09:29,200

kota kinabalu international airport

288

00:09:32,150 --> 00:09:31,040

about three kilometers away to our left

289

00:09:33,750 --> 00:09:32,160

at the end of the bay

290

00:09:35,430 --> 00:09:33,760

the moving strip of white water was

291

00:09:35,990 --> 00:09:35,440

moving towards the airport at a speed of

292

00:09:38,550 --> 00:09:36,000

maybe about

293

00:09:40,150 --> 00:09:38,560

30 or 40 kilometers per hour after about

294

00:09:41,910 --> 00:09:40,160

two minutes and maybe a thousand meter

295

00:09:43,509 --> 00:09:41,920

from where we first noticed it a grey

296

00:09:44,949 --> 00:09:43,519

white craft broke out of the water right

297

00:09:46,870 --> 00:09:44,959

where the white wave was and it

298

00:09:48,470 --> 00:09:46,880

continued to move in the same direction

299

00:09:50,389 --> 00:09:48,480

except this time it was flying in the

300

00:09:51,990 --> 00:09:50,399

air from what i could see i could not

301  
00:09:53,829 --> 00:09:52,000  
make out any conventional means of

302  
00:09:54,630 --> 00:09:53,839  
propulsion that i know of no propeller

303  
00:09:56,710 --> 00:09:54,640  
no rotors

304  
00:09:57,829 --> 00:09:56,720  
no jet exhaust and completely silent

305  
00:09:59,350 --> 00:09:57,839  
from where i was

306  
00:10:01,110 --> 00:09:59,360  
well at the distance i could hear the

307  
00:10:03,350 --> 00:10:01,120  
planes taking off and landing earlier

308  
00:10:04,870 --> 00:10:03,360  
this flying vessel was totally silent

309  
00:10:06,470 --> 00:10:04,880  
it flew straight towards the direction

310  
00:10:08,550 --> 00:10:06,480  
of the airstrip and it flew low

311  
00:10:09,990 --> 00:10:08,560  
barely clearing the treetops nearby and

312  
00:10:11,590 --> 00:10:10,000  
it went across the western end of the

313  
00:10:12,949 --> 00:10:11,600

runway below the approach window which

314

00:10:14,470 --> 00:10:12,959

was facing the sea

315

00:10:15,990 --> 00:10:14,480

after another couple of minutes or so

316

00:10:16,790 --> 00:10:16,000

the flying vessel disappeared in the

317

00:10:18,710 --> 00:10:16,800

distance

318

00:10:20,230 --> 00:10:18,720

it never headed towards the skies but in

319

00:10:21,190 --> 00:10:20,240

fact disappeared somewhere among the

320

00:10:23,110 --> 00:10:21,200

distant hills

321

00:10:24,790 --> 00:10:23,120

i really could not find any explanation

322

00:10:25,590 --> 00:10:24,800

for this sighting that both my wife and

323

00:10:27,590 --> 00:10:25,600

i saw

324

00:10:29,350 --> 00:10:27,600

unfortunately i did not bring my camera

325

00:10:30,310 --> 00:10:29,360

and i do not have any proof whatsoever

326

00:10:31,990 --> 00:10:30,320

of this sighting

327

00:10:33,430 --> 00:10:32,000

there were also no other witnesses

328

00:10:35,030 --> 00:10:33,440

although there were a few people jogging

329

00:10:36,550 --> 00:10:35,040

at the beach when this happened but no

330

00:10:37,190 --> 00:10:36,560

one was looking out to see while they

331

00:10:38,470 --> 00:10:37,200

jogged

332

00:10:40,389 --> 00:10:38,480

i guess i was too shocked with

333

00:10:41,430 --> 00:10:40,399

astonishment to hail any of the joggers

334

00:10:42,230 --> 00:10:41,440

to bring their attention to the

335

00:10:43,829 --> 00:10:42,240

phenomena

336

00:10:46,069 --> 00:10:43,839

can my sighting be explained as any

337

00:10:48,000 --> 00:10:46,079

conventional man-made or natural object

338

00:10:52,870 --> 00:10:48,010

i have no explanation whatsoever

339

00:10:56,310 --> 00:10:55,430

this is lawn strickler if you like this
