00:00:05,030 --> 00:00:04,230

[Music]

2
00:00:08,470 --> 00:00:05,040

the oldest

3
00:00:10,629 --> 00:00:08,480

and strongest human emotion is fear

4
00:00:11,669 --> 00:00:10,639

and the oldest and strongest type of

5
00:00:14,870 --> 00:00:11,679

fear

6
00:00:17,269 --> 00:00:14,880

is trepidation of the unknown

7
00:00:20,710 --> 00:00:17,279

when we were children our parents told

8
00:00:23,189 --> 00:00:20,720

us that monsters didn't exist

9
00:00:26,390 --> 00:00:23,199

but we were sure that something was

10
00:00:30,950 --> 00:00:26,400

lurking under the bed or in the closet

11
00:00:34,150 --> 00:00:30,960

fear sees even if our eyes are closed

12
00:00:36,229 --> 00:00:34,160

welcome to the realm of the arcane my

13
00:00:38,549 --> 00:00:36,239

name is lon strickler

14

00:00:39,670 --> 00:00:38,559

join me as i examine unexplained

15

00:00:42,830 --> 00:00:39,680

creatures

16

00:00:44,630 --> 00:00:42,840

strange manifestations of remarkable

17

00:00:47,670 --> 00:00:44,640

realities

18

00:00:50,310 --> 00:00:47,680

imagine this next hour as a voyage of

19

00:00:53,350 --> 00:00:50,320

discovery to strange lands

20

00:00:56,069 --> 00:00:53,360

seeking not for new territory but for

21

00:00:58,709 --> 00:00:56,079

new knowledge of the supernatural come

22

00:01:00,050 --> 00:00:58,719

on board as we begin this adventure

23

00:01:03,510 --> 00:01:00,060

together

24

00:01:07,590 --> 00:01:05,350

hey folks good evening and welcome to

25

00:01:09,270 --> 00:01:07,600

another episode of arcane radio where we

26

00:01:11,910 --> 00:01:09,280

explore the unexplained

27

00:01:13,190 --> 00:01:11,920

live on beyond explanation i'm your host

28

00:01:15,190 --> 00:01:13,200

00:01:40,950 --> 00:01:40,079

tonight i welcome our friend and

41

00:01:43,830 --> 00:01:40,960

colleague ken

42

00:01:45,030 --> 00:01:43,840

gerhart to arcane radio now ken is

00:01:51,429 --> 00:01:49,520

author and tv personality

45

00:01:53,590 --> 00:01:51,439

he has traveled the world searching for

46

00:01:54,469 --> 00:01:53,600

evidence of mysterious animals including

47

00:01:57,510 --> 00:01:54,479

bigfoot

48

00:02:01,830 --> 00:01:57,520

the loch ness monster the chupacabra

49

00:02:04,149 --> 00:02:01,840

50

00:02:06,230 --> 00:02:04,159

now ken has written six books on the

51
00:02:08,389 --> 00:02:06,240
subject of unknown creatures

52
00:02:10,070 --> 00:02:08,399
and his research has been featured on

53
00:02:13,510 --> 00:02:10,080
numerous tv shows

54
00:02:14,390 --> 00:02:13,520
including missing in alaska monster

55
00:02:17,270 --> 00:02:14,400
quest

56
00:02:18,470 --> 00:02:17,280
ancient aliens america on earth

57
00:02:21,110 --> 00:02:18,480
unexplained

58
00:02:25,350 --> 00:02:21,120
and legend hunters ken's website can be

59
00:02:28,470 --> 00:02:25,360
found at kengerhart.com

60
00:02:29,350 --> 00:02:28,480
thanks for joining me this evening good

61
00:02:31,589 --> 00:02:29,360
evening lon

62
00:02:32,949 --> 00:02:31,599
it's always good to see you my friend

63
00:02:34,390 --> 00:02:32,959

thanks for having me on

64

00:02:36,710 --> 00:02:34,400

i don't know if we've been together

65

00:02:37,190 --> 00:02:36,720

since uh the cover thing started or not

66

00:02:40,550 --> 00:02:37,200

maybe

67

00:02:43,750 --> 00:02:40,560

least a year and a half

68

00:02:45,430 --> 00:02:43,760

maybe maybe yeah after the last book

69

00:02:46,869 --> 00:02:45,440

perhaps but yeah it's been a while how

70

00:02:47,990 --> 00:02:46,879

have you been doing you hanging in there

71

00:02:52,949 --> 00:02:48,000

oh

72

00:02:56,070 --> 00:02:54,869

well that's everyone but yeah i'll tell

73

00:03:04,070 --> 00:02:56,080

you

74

00:03:07,670 --> 00:03:04,080

is uh

75

00:03:10,790 --> 00:03:07,680

is essential guide to loch ness monster

76

00:03:15,270 --> 00:03:10,800

and aquatic cryptids

77

00:03:18,550 --> 00:03:15,280

um i've been going through it this week

78

00:03:21,670 --> 00:03:18,560

and before we start just

79

00:03:23,110 --> 00:03:21,680

dissecting nessie let's first go into

80

00:03:25,110 --> 00:03:23,120

the recorded history

81

00:03:28,309 --> 00:03:25,120

of phenomena and how the lore of this

82

00:03:32,869 --> 00:03:31,830

yeah well um like many cryptids uh you

83

00:03:36,229 --> 00:03:32,879

often find

84

00:03:38,789 --> 00:03:36,239

folkloric uh anecdotal folklore

85

00:03:40,710 --> 00:03:38,799

tales and legends uh you know this is

86

00:03:44,149 --> 00:03:40,720

true of course for bigfoot in the yeti

87

00:03:47,190 --> 00:03:44,159

and the almas and other man beasts and

88

00:03:50,149 --> 00:03:47,200

um you know thunderbirds and lake

89

00:03:52,710 --> 00:03:50,159

monsters and you know in terms of nessie

90

00:03:53,990 --> 00:03:52,720

um of course we're talking about the

91

00:03:57,110 --> 00:03:54,000

highlands of scotland

92

00:03:57,830 --> 00:03:57,120

and uh there are enduring legends of

93

00:04:01,110 --> 00:03:57,840

things called

94

00:04:01,910 --> 00:04:01,120

water kelpies uh in in the gaelic

95

00:04:04,070 --> 00:04:01,920

folklore

96

00:04:06,869 --> 00:04:04,080

and uh water kelpies were said to be

97

00:04:10,710 --> 00:04:06,879

kind of shape-shifting water beasts

98

00:04:11,830 --> 00:04:10,720

uh spirits sometimes but uh that would

99

00:04:14,229 --> 00:04:11,840

lure

100

00:04:14,869 --> 00:04:14,239

uh unsuspecting people into the water

101
00:04:16,949 --> 00:04:14,879
and and

102
00:04:17,990 --> 00:04:16,959
drown them and drag them down to their

103
00:04:21,189 --> 00:04:18,000
watery graves

104
00:04:24,390 --> 00:04:21,199
and um the descriptions

105
00:04:25,030 --> 00:04:24,400
uh or the depictions of water kelpies

106
00:04:28,070 --> 00:04:25,040
and

107
00:04:30,390 --> 00:04:28,080
gaelic legends were kind of like a uh

108
00:04:32,230 --> 00:04:30,400
the head of a horse and a horse like

109
00:04:33,189 --> 00:04:32,240
upper half and then kind of the bottom

110
00:04:35,670 --> 00:04:33,199
half

111
00:04:37,189 --> 00:04:35,680
more like fish-like or you know aquatic

112
00:04:40,070 --> 00:04:37,199
with a long tail and stuff

113
00:04:41,670 --> 00:04:40,080

so um similar to other around the world

114

00:04:42,710 --> 00:04:41,680

you have like in greek mythology the

115

00:04:45,030 --> 00:04:42,720

hippocampus

116

00:04:46,390 --> 00:04:45,040

and creatures like that so that's kind

117

00:04:48,870 --> 00:04:46,400

of like at least

118

00:04:50,469 --> 00:04:48,880

in terms of loch ness now you know we

119

00:04:51,430 --> 00:04:50,479

can talk about lake monsters around the

120

00:04:54,710 --> 00:04:51,440

world of course

121

00:04:56,310 --> 00:04:54,720

and you know and lake lake champlain

122

00:04:57,909 --> 00:04:56,320

there in upstate new york and vermont

123

00:05:00,070 --> 00:04:57,919

you had the the abunaki

124

00:05:02,469 --> 00:05:00,080

and uh the mohawks and others had

125

00:05:05,830 --> 00:05:02,479

legends of horned serpents

126

00:05:07,510 --> 00:05:05,840

uh ogopogo in lake okanagan

127

00:05:10,629 --> 00:05:07,520

uh canada of course you had the

128

00:05:12,310 --> 00:05:10,639

nahatique was the local water creature

129

00:05:14,550 --> 00:05:12,320

and so you find this around the world as

130

00:05:16,550 --> 00:05:14,560

you look at a lot of these uh

131

00:05:17,830 --> 00:05:16,560

modern sightings of lake monsters and

132

00:05:21,110 --> 00:05:17,840

then you have that

133

00:05:23,830 --> 00:05:21,120

folkloric aspect or or background so

134

00:05:26,469 --> 00:05:23,840

um you know folklore of course is a

135

00:05:29,990 --> 00:05:26,479

major component of cryptozoology

136

00:05:33,749 --> 00:05:30,000

and um this is mainly because

137

00:05:35,270 --> 00:05:33,759

um several remarkable animal discoveries

138

00:05:37,830 --> 00:05:35,280

of the past century or so

139

00:05:40,790 --> 00:05:37,840

were kind of came from that realm like

140

00:05:43,909 --> 00:05:40,800

the komodo dragon the giant squid

141

00:05:45,990 --> 00:05:43,919

the okapi the mountain gorilla and so

142

00:05:46,390 --> 00:05:46,000

you can find examples of these you know

143

00:05:54,870 --> 00:05:46,400

the

144

00:05:57,189 --> 00:05:54,880

and uh so i guess in that respect

145

00:05:59,990 --> 00:05:57,199

they're not really unknowns

146

00:06:01,830 --> 00:06:00,000

but but to uh traditional quote unquote

147

00:06:02,629 --> 00:06:01,840

western scientists these are you know if

148

00:06:04,550 --> 00:06:02,639

they're not

149

00:06:05,670 --> 00:06:04,560

in a book somewhere documented and

150

00:06:08,230 --> 00:06:05,680

described so

151
00:06:10,550 --> 00:06:08,240
anyways so yeah so we have the uh in

152
00:06:12,390 --> 00:06:10,560
scotland we have the water kelpies

153
00:06:14,230 --> 00:06:12,400
and nearby in ireland where there are

154
00:06:16,070 --> 00:06:14,240
also a lot of lake monster traditions

155
00:06:19,990 --> 00:06:16,080
you also have things called

156
00:06:21,909 --> 00:06:20,000
pasties uh or horse eels

157
00:06:23,110 --> 00:06:21,919
as they're often called so again a

158
00:06:25,270 --> 00:06:23,120
reference to a horse

159
00:06:26,710 --> 00:06:25,280
and uh and you know i'm not for for a

160
00:06:28,550 --> 00:06:26,720
moment suggesting that we're talking

161
00:06:32,070 --> 00:06:28,560
about aquatic horses here

162
00:06:33,830 --> 00:06:32,080
or equines but uh i you know i think

163
00:06:35,590 --> 00:06:33,840

there are some physical things that can

164

00:06:36,150 --> 00:06:35,600

be talked about and we can get into that

165

00:06:39,990 --> 00:06:36,160

as well

166

00:06:43,830 --> 00:06:40,000

so sure yeah i'm interested in in your

167

00:06:49,749 --> 00:06:47,430

you came up with a theory that kind of

168

00:06:51,990 --> 00:06:49,759

made the rounds in the crypto world as

169

00:06:56,150 --> 00:06:52,000

far as what you believe

170

00:06:58,870 --> 00:06:56,160

that uh nessie actually is why don't you

171

00:07:00,070 --> 00:06:58,880

talk about that a bit yeah well it's

172

00:07:02,230 --> 00:07:00,080

it's not

173

00:07:03,589 --> 00:07:02,240

necessarily my theory it's a theory that

174

00:07:07,270 --> 00:07:03,599

i kind of

175

00:07:08,309 --> 00:07:07,280

revisited and um you know i i know a

176

00:07:11,990 --> 00:07:08,319

huge proponent

177

00:07:14,309 --> 00:07:12,000

of uh was of the theory was um dr roy

178

00:07:14,950 --> 00:07:14,319

mackel who was a leading cryptozoologist

179

00:07:17,830 --> 00:07:14,960

who

180

00:07:20,469 --> 00:07:17,840

worked at loch ness uh starting the late

181

00:07:22,309 --> 00:07:20,479

1960s and then later went on to search

182

00:07:23,430 --> 00:07:22,319

for things like them okay liam bambi in

183

00:07:26,550 --> 00:07:23,440

africa

184

00:07:28,870 --> 00:07:26,560

so on and so forth but uh dr macka was a

185

00:07:31,589 --> 00:07:28,880

pretty smart guy and uh you know

186

00:07:33,350 --> 00:07:31,599

kind of along his same line of thinking

187

00:07:34,390 --> 00:07:33,360

not that i'm as smart as he is but i

188

00:07:37,110 --> 00:07:34,400

kind of

189

00:07:38,950 --> 00:07:37,120

followed his lead if you will um if you

190

00:07:39,589 --> 00:07:38,960

look at the most of the anecdotal

191

00:07:42,390 --> 00:07:39,599

evidence

192

00:07:44,230 --> 00:07:42,400

of the loch ness monster and similar

193

00:07:46,469 --> 00:07:44,240

lake monsters around the world

194

00:07:47,430 --> 00:07:46,479

you know most of that is comprised of

195

00:07:49,270 --> 00:07:47,440

eyewitness

196

00:07:50,469 --> 00:07:49,280

descriptions right sightings and

197

00:07:53,029 --> 00:07:50,479

accounts

198

00:07:54,629 --> 00:07:53,039

uh but we have a quite a few in fact in

199

00:07:57,189 --> 00:07:54,639

terms of the loch ness monster i think

200

00:07:58,070 --> 00:07:57,199

there are at least 3 000 well-documented

201
00:08:00,550 --> 00:07:58,080
accounts going

202
00:08:01,430 --> 00:08:00,560
back decades and they're fairly

203
00:08:04,150 --> 00:08:01,440
consistent

204
00:08:06,469 --> 00:08:04,160
which is compelling now most people have

205
00:08:08,230 --> 00:08:06,479
this mistaken picture of the

206
00:08:09,510 --> 00:08:08,240
you know the small head and the long

207
00:08:11,110 --> 00:08:09,520
neck kind of

208
00:08:13,270 --> 00:08:11,120
coming out of the water like that like a

209
00:08:16,309 --> 00:08:13,280
periscope with a little head

210
00:08:17,029 --> 00:08:16,319
and um a lot of that's based on the the

211
00:08:19,029 --> 00:08:17,039
famous

212
00:08:20,230 --> 00:08:19,039
surgeon's photo which we can also talk

213
00:08:22,710 --> 00:08:20,240

about which

214

00:08:24,070 --> 00:08:22,720

is is not the best thing to draw one's

215

00:08:26,150 --> 00:08:24,080

opinion on but

216

00:08:28,309 --> 00:08:26,160

uh actually head and neck sightings of

217

00:08:31,189 --> 00:08:28,319

nessie only comprise about 15

218

00:08:33,029 --> 00:08:31,199

of the sightings about 85 percent of

219

00:08:33,670 --> 00:08:33,039

people that see something in loch ness

220

00:08:36,550 --> 00:08:33,680

describe

221

00:08:38,389 --> 00:08:36,560

either one very large hump you know at

222

00:08:39,589 --> 00:08:38,399

least 10 feet long and sticking several

223

00:08:42,149 --> 00:08:39,599

feet out of the water

224

00:08:44,550 --> 00:08:42,159

or sometimes multiple humps in a row

225

00:08:47,190 --> 00:08:44,560

that seem to be connected to one animal

226

00:08:48,870 --> 00:08:47,200

and that move up and down or undulate

227

00:08:51,030 --> 00:08:48,880

vertically when they when the thing is

228

00:08:52,829 --> 00:08:51,040

breaking the surface of the water

229

00:08:54,310 --> 00:08:52,839

and people describe the skin as very

230

00:08:57,190 --> 00:08:54,320

smooth

231

00:08:59,590 --> 00:08:57,200

they don't see a dorsal fin sometimes a

232

00:09:03,509 --> 00:08:59,600

tail is reported and it's kind of a

233

00:09:05,190 --> 00:09:03,519

flat tail or a horizontal tail not a

234

00:09:07,829 --> 00:09:05,200

vertical tail so

235

00:09:09,590 --> 00:09:07,839

something like a citation and the head

236

00:09:10,389 --> 00:09:09,600

is often described as either being

237

00:09:17,430 --> 00:09:10,399

horse-like

238

00:09:18,630 --> 00:09:17,440

combining all of those physical

239

00:09:19,670 --> 00:09:18,640

descriptions which again are very

240

00:09:21,430 --> 00:09:19,680

consistent

241

00:09:22,949 --> 00:09:21,440

the animal in my opinion that that would

242

00:09:24,710 --> 00:09:22,959

close most closely resemble that

243

00:09:27,110 --> 00:09:24,720

description is something that's extinct

244

00:09:30,550 --> 00:09:27,120

but it's called a bacillus or

245

00:09:33,430 --> 00:09:30,560

or an archaea seat which is basically a

246

00:09:35,269 --> 00:09:33,440

very ancient type of whale that was

247

00:09:38,389 --> 00:09:35,279

around during the eocene

248

00:09:41,430 --> 00:09:38,399

epoch about 43 million years ago

249

00:09:43,750 --> 00:09:41,440

and uh they were an ancient

250

00:09:44,550 --> 00:09:43,760

branch in whale evolution that allegedly

251
00:09:47,590 --> 00:09:44,560
died out

252
00:09:49,269 --> 00:09:47,600
um millions of years ago but you know

253
00:09:53,509 --> 00:09:49,279
they had uh

254
00:09:55,430 --> 00:09:53,519
smooth skin

255
00:09:57,110 --> 00:09:55,440
uh they didn't have a pronounced dorsal

256
00:10:00,310 --> 00:09:57,120
fin they did have the classic

257
00:10:02,550 --> 00:10:00,320
fluke tail of a whale and uh they had a

258
00:10:05,269 --> 00:10:02,560
surprisingly they had very horse-like

259
00:10:06,790 --> 00:10:05,279
shaped heads uh they were carnivores so

260
00:10:08,630 --> 00:10:06,800
they had lots of pointy teeth in their

261
00:10:09,590 --> 00:10:08,640
mouth but the the basic shape of the

262
00:10:10,470 --> 00:10:09,600
head

263
00:10:13,350 --> 00:10:10,480

you can see it there in that

264

00:10:16,550 --> 00:10:13,360

illustration has kind of a a long

265

00:10:20,310 --> 00:10:16,560

elongated horse-like shape to it

266

00:10:21,910 --> 00:10:20,320

no ears of course but um um

267

00:10:23,350 --> 00:10:21,920

and you know that's another interesting

268

00:10:25,030 --> 00:10:23,360

is that you know every once in a while

269

00:10:26,470 --> 00:10:25,040

you also get descriptions of these

270

00:10:28,150 --> 00:10:26,480

animals having hair

271

00:10:30,069 --> 00:10:28,160

either like up something like a mane on

272

00:10:31,670 --> 00:10:30,079

the back which may be

273

00:10:33,430 --> 00:10:31,680

one of the influences on where we get

274

00:10:37,030 --> 00:10:33,440

this you know

275

00:10:37,910 --> 00:10:37,040

uh water kelpie water horse kind of

276

00:10:39,990 --> 00:10:37,920

imagery

277

00:10:41,030 --> 00:10:40,000

or even whiskers which is pretty weird

278

00:10:42,949 --> 00:10:41,040

so um

279

00:10:45,110 --> 00:10:42,959

and of course hair is also mammalian

280

00:10:47,509 --> 00:10:45,120

characteristics and the last thing

281

00:10:48,230 --> 00:10:47,519

is the is the actual ecology of these

282

00:10:50,550 --> 00:10:48,240

lakes

283

00:10:52,310 --> 00:10:50,560

so loch ness is very cold maintain it

284

00:10:54,230 --> 00:10:52,320

never freezes over but it maintains a

285

00:10:55,509 --> 00:10:54,240

constant temperature of about 42 degrees

286

00:10:57,269 --> 00:10:55,519

fahrenheit

287

00:10:58,550 --> 00:10:57,279

similar lakes where lake monsters are

288

00:11:01,829 --> 00:10:58,560

reported

289

00:11:03,590 --> 00:11:01,839

again are very cold uh glacial lakes

290

00:11:05,670 --> 00:11:03,600

carved out by the retreating glaciers

291

00:11:07,350 --> 00:11:05,680

about 10 000 years ago they're very deep

292

00:11:09,509 --> 00:11:07,360

they're very cold

293

00:11:11,110 --> 00:11:09,519

and uh that doesn't seem that seems like

294

00:11:13,670 --> 00:11:11,120

a better habitat for

295

00:11:16,230 --> 00:11:13,680

for something that's uh like a mammal

296

00:11:19,030 --> 00:11:16,240

that's warm blooded or endothermic

297

00:11:22,230 --> 00:11:19,040

as opposed to the old theory about these

298

00:11:24,230 --> 00:11:22,240

aquatic reptiles like plesiosaurs

299

00:11:26,150 --> 00:11:24,240

but anyways it's all speculation long

300

00:11:28,870 --> 00:11:26,160

like everything in cryptozoology

301
00:11:29,590 --> 00:11:28,880
yeah well it's just it's a best guess

302
00:11:33,269 --> 00:11:29,600
and it's just

303
00:11:36,470 --> 00:11:33,279
you know in my opinion it best fits the

304
00:11:38,230 --> 00:11:36,480
legends and the the modern reports in

305
00:11:40,829 --> 00:11:38,240
terms of the physical descriptions

306
00:11:42,949 --> 00:11:40,839
and also the ecology of the habitat

307
00:11:46,310 --> 00:11:42,959
itself

308
00:11:49,430 --> 00:11:46,320
now uh loch ness

309
00:11:52,550 --> 00:11:49,440
particular i mean there are lots of uh

310
00:11:52,949 --> 00:11:52,560
supposed late creatures and such but do

311
00:11:58,389 --> 00:11:52,959
you

312
00:11:59,509 --> 00:11:58,399
now i'm that's the way i'm going to

313
00:12:02,790 --> 00:11:59,519

state it

314

00:12:03,269 --> 00:12:02,800

it does exist is it in the lake all the

315

00:12:06,069 --> 00:12:03,279

time

316

00:12:06,550 --> 00:12:06,079

or do you think it actually can migrate

317

00:12:09,030 --> 00:12:06,560

up through

318

00:12:11,430 --> 00:12:09,040

inverness back into the ocean oh that's

319

00:12:13,829 --> 00:12:11,440

a great that's another great segue lawn

320

00:12:15,269 --> 00:12:13,839

you're a real pro because one of the

321

00:12:16,550 --> 00:12:15,279

things that i left out at the end of my

322

00:12:18,389 --> 00:12:16,560

last explanation

323

00:12:20,550 --> 00:12:18,399

you know i'm talking about ancient

324

00:12:22,389 --> 00:12:20,560

snake-like whales

325

00:12:23,590 --> 00:12:22,399

living in a lake it feels like a whales

326

00:12:26,790 --> 00:12:23,600

in a lake

327

00:12:27,350 --> 00:12:26,800

lakes are fresh water right well guess

328

00:12:31,269 --> 00:12:27,360

what

329

00:12:32,949 --> 00:12:31,279

um there have been examples of cetaceans

330

00:12:35,030 --> 00:12:32,959

or whales

331

00:12:37,190 --> 00:12:35,040

and and porpoises that live in fresh

332

00:12:39,030 --> 00:12:37,200

water in amazon you know in amazonia

333

00:12:40,870 --> 00:12:39,040

south america you have river dolphins

334

00:12:41,829 --> 00:12:40,880

that are adopted exclusively in fresh

335

00:12:43,430 --> 00:12:41,839

water

336

00:12:44,870 --> 00:12:43,440

in the yangtze river of china there are

337

00:12:46,389 --> 00:12:44,880

freshwater dolphins and you do have

338

00:12:49,430 --> 00:12:46,399

examples where whales

339

00:12:50,230 --> 00:12:49,440

smaller whales will come into freshwater

340

00:12:52,069 --> 00:12:50,240

environments

341

00:12:53,430 --> 00:12:52,079

like the saint lawrence river or the

342

00:12:56,550 --> 00:12:53,440

thames river

343

00:12:58,310 --> 00:12:56,560

so what i'm getting at here is that the

344

00:12:58,790 --> 00:12:58,320

descriptions of the loch ness monster

345

00:13:01,430 --> 00:12:58,800

very much

346

00:13:01,910 --> 00:13:01,440

match the traditional sea serpents as we

347

00:13:05,509 --> 00:13:01,920

call them

348

00:13:07,190 --> 00:13:05,519

of the old lore you know there were many

349

00:13:08,069 --> 00:13:07,200

accounts of these in the 19th century of

350

00:13:11,190 --> 00:13:08,079

these giant

351
00:13:12,069 --> 00:13:11,200
snake-like animals in the ocean and i'm

352
00:13:13,990 --> 00:13:12,079
not suggesting

353
00:13:15,990 --> 00:13:14,000
they were snakes i think the name sea

354
00:13:17,750 --> 00:13:16,000
serpent is just a misnomer

355
00:13:18,949 --> 00:13:17,760
but yes i think it's a fair presumption

356
00:13:20,629 --> 00:13:18,959
that we're talking about the same

357
00:13:22,790 --> 00:13:20,639
species that the distribution is

358
00:13:25,829 --> 00:13:22,800
worldwide

359
00:13:28,550 --> 00:13:25,839
in the oceans and that these animals

360
00:13:30,550 --> 00:13:28,560
swim occasionally into fresh water loch

361
00:13:32,550 --> 00:13:30,560
ness is connected to the north atlantic

362
00:13:33,750 --> 00:13:32,560
by a series of rivers and canals and

363
00:13:36,870 --> 00:13:33,760

locks

364

00:13:39,910 --> 00:13:36,880

it's you know

365

00:13:41,910 --> 00:13:39,920

um similar to most of the lakes that we

366

00:13:43,430 --> 00:13:41,920

talk about with regard to lake monsters

367

00:13:44,230 --> 00:13:43,440

they're almost all connected to the

368

00:13:46,710 --> 00:13:44,240

ocean

369

00:13:47,990 --> 00:13:46,720

so yeah i think that's and that that

370

00:13:50,629 --> 00:13:48,000

could potentially explain

371

00:13:51,269 --> 00:13:50,639

why people don't see these animals all

372

00:13:53,910 --> 00:13:51,279

the time

373

00:13:56,310 --> 00:13:53,920

if they're migrating uh but that type of

374

00:13:58,550 --> 00:13:56,320

migration again is not that strange for

375

00:14:00,829 --> 00:13:58,560

for cetaceans but also there are a

376

00:14:02,470 --> 00:14:00,839

number of species like salmon eels

377

00:14:04,310 --> 00:14:02,480

sturgeon

378

00:14:06,069 --> 00:14:04,320

even some types of sharks like bull

379

00:14:07,509 --> 00:14:06,079

sharks that will occasionally transition

380

00:14:09,430 --> 00:14:07,519

back and forth

381

00:14:11,350 --> 00:14:09,440

between salt water and fresh water

382

00:14:11,670 --> 00:14:11,360

environments yeah you're right because i

383

00:14:13,110 --> 00:14:11,680

know

384

00:14:14,870 --> 00:14:13,120

bull sharks that have come up the

385

00:14:18,150 --> 00:14:14,880

mississippi river yeah

386

00:14:21,030 --> 00:14:18,160

uh you know the osmosis uh

387

00:14:21,269 --> 00:14:21,040

you know they're they're able to you

388

00:14:23,509 --> 00:14:21,279

know

389

00:14:25,829 --> 00:14:23,519

live in fresh and salt water and there

390

00:14:28,949 --> 00:14:25,839

are a lot of species like that

391

00:14:30,150 --> 00:14:28,959

um right in fact i believe belugas may

392

00:14:32,790 --> 00:14:30,160

be able to do the same

393

00:14:33,269 --> 00:14:32,800

thing yep belugas will be seen in fresh

394

00:14:34,949 --> 00:14:33,279

water

395

00:14:37,430 --> 00:14:34,959

rivers and things connected to the ocean

396

00:14:38,949 --> 00:14:37,440

yep absolutely yeah i uh

397

00:14:41,110 --> 00:14:38,959

you know i've talked to other

398

00:14:42,629 --> 00:14:41,120

researchers about the loch ness for

399

00:14:45,430 --> 00:14:42,639

years now it's

400

00:14:47,829 --> 00:14:45,440

it's kind of a i don't know kind of a

401

00:14:50,629 --> 00:14:47,839

misnomer or endign to me

402

00:14:52,949 --> 00:14:50,639

but you know i don't discount what

403

00:14:55,590 --> 00:14:52,959

people say they're saying

404

00:14:58,470 --> 00:14:55,600

it's just that i wish people could i

405

00:15:02,069 --> 00:14:58,480

wish could be more consistent you know

406

00:15:05,750 --> 00:15:02,079

uh if we really knew

407

00:15:06,150 --> 00:15:05,760

that there is enough to feed on there in

408

00:15:09,430 --> 00:15:06,160

in

409

00:15:13,990 --> 00:15:09,440

loch ness is there enough and i know

410

00:15:16,550 --> 00:15:14,000

it's a very deep league it can't hide

411

00:15:18,230 --> 00:15:16,560

but do you think some of the research

412

00:15:19,670 --> 00:15:18,240

that has gone on over the years

413

00:15:23,189 --> 00:15:19,680

especially

414

00:15:25,910 --> 00:15:23,199

since i guess maybe the 30s up

415

00:15:27,189 --> 00:15:25,920

uh to this time do you think has real

416

00:15:33,509 --> 00:15:27,199

has

417

00:15:35,670 --> 00:15:33,519

something there

418

00:15:37,030 --> 00:15:35,680

well you know long you made a great

419

00:15:39,110 --> 00:15:37,040

argument there and

420

00:15:42,790 --> 00:15:39,120

you know i i encourage that because i

421

00:15:45,350 --> 00:15:42,800

think that it's important in this field

422

00:15:47,269 --> 00:15:45,360

to challenge ideas and claims and

423

00:15:49,509 --> 00:15:47,279

particularly extraordinary claims

424

00:15:50,629 --> 00:15:49,519

and i encourage i always encourage my

425

00:15:51,990 --> 00:15:50,639

readers

426

00:15:54,150 --> 00:15:52,000

and anyone interested in the subject

427

00:15:56,470 --> 00:15:54,160

matter to think critically and try to

428

00:15:59,509 --> 00:15:56,480

stay objective and to challenge

429

00:16:01,590 --> 00:15:59,519

the the alleged evidence and in terms of

430

00:16:04,389 --> 00:16:01,600

the law you know there are problems with

431

00:16:05,269 --> 00:16:04,399

for example loch ness is an oligotrophic

432

00:16:07,749 --> 00:16:05,279

lake

433

00:16:10,230 --> 00:16:07,759

so it's very nutrient poor there are

434

00:16:12,870 --> 00:16:10,240

there isn't a lot of algae or plankton

435

00:16:14,550 --> 00:16:12,880

subsequently the fish population is

436

00:16:15,910 --> 00:16:14,560

fairly small even for them

437

00:16:17,990 --> 00:16:15,920

the amount of water we're talking about

438

00:16:21,189 --> 00:16:18,000

i mean it is deep it's like

439

00:16:25,749 --> 00:16:21,199

it's 754 feet deep in spots to maybe

440

00:16:27,269 --> 00:16:25,759

800 some feet and um so that's like 263

441

00:16:29,509 --> 00:16:27,279

billion

442

00:16:31,910 --> 00:16:29,519

cubic feet of water so it's a lot of

443

00:16:34,069 --> 00:16:31,920

water but it's very deep and dark

444

00:16:35,670 --> 00:16:34,079

but there's not a lot to eat and there's

445

00:16:36,069 --> 00:16:35,680

not a lot of sunlight doesn't penetrate

446

00:16:38,790 --> 00:16:36,079

it very

447

00:16:40,949 --> 00:16:38,800

well so yeah so you can make arguments

448

00:16:43,189 --> 00:16:40,959

like that that you know what why would

449

00:16:45,910 --> 00:16:43,199

how would you have a population or you

450

00:16:47,670 --> 00:16:45,920

know even a few very large animals

451
00:16:49,350 --> 00:16:47,680
able to survive there and i you know i

452
00:16:50,470 --> 00:16:49,360
always like to kind of step back and

453
00:16:52,230 --> 00:16:50,480
look at those

454
00:16:53,590 --> 00:16:52,240
skeptical arguments because a lot of

455
00:16:56,710 --> 00:16:53,600
them are very powerful

456
00:16:59,110 --> 00:16:56,720
so um um

457
00:17:00,949 --> 00:16:59,120
yeah so i mean the only way to if if we

458
00:17:02,389 --> 00:17:00,959
assume that the loch ness monster does

459
00:17:05,429 --> 00:17:02,399
exist

460
00:17:09,510 --> 00:17:05,439
and i'd say i'm probably

461
00:17:12,309 --> 00:17:09,520
90 you know convinced at most

462
00:17:13,510 --> 00:17:12,319
because you know same with bigfoot i

463
00:17:16,150 --> 00:17:13,520

tell people i'm 90

464

00:17:17,829 --> 00:17:16,160

convinced i haven't seen one i haven't

465

00:17:19,590 --> 00:17:17,839

seen one but i've spent my life

466

00:17:19,909 --> 00:17:19,600

researching and interviewing witnesses

467

00:17:22,230 --> 00:17:19,919

so

468

00:17:23,909 --> 00:17:22,240

that's as close as i can get and that's

469

00:17:25,669 --> 00:17:23,919

the scientific way to look at this stuff

470

00:17:25,990 --> 00:17:25,679

is there's always a small margin of

471

00:17:28,950 --> 00:17:26,000

error

472

00:17:30,150 --> 00:17:28,960

there's nothing there's no certainty you

473

00:17:32,630 --> 00:17:30,160

know in our universe other than

474

00:17:35,350 --> 00:17:32,640

mathematics everything is basically uh

475

00:17:35,909 --> 00:17:35,360

there's always a margin of error so um i

476

00:17:38,950 --> 00:17:35,919

don't know

477

00:17:41,029 --> 00:17:38,960

um you know i i

478

00:17:42,870 --> 00:17:41,039

everybody wants the loch ness monster to

479

00:17:44,789 --> 00:17:42,880

exist obviously i mean the whole notion

480

00:17:47,830 --> 00:17:44,799

is so romantic this

481

00:17:50,150 --> 00:17:47,840

you know ancient dragon like creatures

482

00:17:51,350 --> 00:17:50,160

dwells in this highland lock with

483

00:17:55,029 --> 00:17:51,360

mistrouted

484

00:17:57,430 --> 00:17:55,039

castle ruins and things around um

485

00:17:59,350 --> 00:17:57,440

i guess i i think i look at it in terms

486

00:18:00,710 --> 00:17:59,360

of the bulk of evidence

487

00:18:02,070 --> 00:18:00,720

which again you have the eyewitness

488

00:18:04,230 --> 00:18:02,080

sightings which are very consistent

489

00:18:05,510 --> 00:18:04,240

there's a lot of sonar evidence

490

00:18:06,870 --> 00:18:05,520

and that's one of the things i write

491

00:18:08,470 --> 00:18:06,880

about in the book that people don't talk

492

00:18:09,830 --> 00:18:08,480

about people focus on the alleged

493

00:18:13,270 --> 00:18:09,840

photographs which many

494

00:18:15,190 --> 00:18:13,280

hope many are hoaxes many hoaxes

495

00:18:16,390 --> 00:18:15,200

associated with the locus monster some

496

00:18:17,590 --> 00:18:16,400

photographic evidence is more

497

00:18:20,070 --> 00:18:17,600

controversial

498

00:18:21,750 --> 00:18:20,080

but there's a lot of sonar evidence but

499

00:18:24,230 --> 00:18:21,760

also it's the global view

500

00:18:25,909 --> 00:18:24,240

you know not just loch ness but again

501

00:18:29,909 --> 00:18:25,919

the lake champlain monster

502

00:18:32,390 --> 00:18:29,919

champ ogopogo uh lake mother

503

00:18:34,390 --> 00:18:32,400

lake monsters in russia ireland

504

00:18:38,070 --> 00:18:34,400

scandinavia

505

00:18:39,909 --> 00:18:38,080

uh iceland you know so and there's just

506

00:18:42,150 --> 00:18:39,919

the physical descriptions are always

507

00:18:44,630 --> 00:18:42,160

very consistent the humps the up and

508

00:18:47,510 --> 00:18:44,640

down undulations the smooth skin

509

00:18:48,549 --> 00:18:47,520

the horse like head where do people get

510

00:18:51,430 --> 00:18:48,559

these

511

00:18:53,110 --> 00:18:51,440

you know and why are all the lakes and

512

00:18:54,710 --> 00:18:53,120

you had that graphic before of all the

513

00:18:56,549 --> 00:18:54,720

lakes where the monsters are and they're

514

00:18:57,669 --> 00:18:56,559

all kind of concentrated in the same

515

00:19:00,710 --> 00:18:57,679

lines of latitude

516

00:19:02,950 --> 00:19:00,720

too they're in that forties are in

517

00:19:03,990 --> 00:19:02,960

the northern hemisphere and northern

518

00:19:05,830 --> 00:19:04,000

literature yeah

519

00:19:08,789 --> 00:19:05,840

yeah so i mean you know that's

520

00:19:13,029 --> 00:19:12,150

yeah you know i've i've always thought

521

00:19:16,070 --> 00:19:13,039

that

522

00:19:19,590 --> 00:19:16,080

if this thing is real

523

00:19:20,470 --> 00:19:19,600

it's got to be migrating or coming in

524

00:19:23,750 --> 00:19:20,480

from the ocean

525

00:19:24,789 --> 00:19:23,760

somehow and if that's the case because i

526

00:19:28,870 --> 00:19:24,799

know

527

00:19:31,669 --> 00:19:28,880

inverness and going out

528

00:19:31,990 --> 00:19:31,679

to the ocean is not really that deep

529

00:19:36,470 --> 00:19:32,000

this

530

00:19:39,029 --> 00:19:36,480

that it has to have some

531

00:19:39,830 --> 00:19:39,039

way of moving on land now of course

532

00:19:42,549 --> 00:19:39,840

there have been

533

00:19:43,669 --> 00:19:42,559

witnesses who have stated that they have

534

00:19:45,830 --> 00:19:43,679

seen

535

00:19:47,590 --> 00:19:45,840

something described as nessie actually

536

00:19:49,990 --> 00:19:47,600

walking on land

537

00:19:50,870 --> 00:19:50,000

so uh i mean what are your thoughts on

538

00:19:52,789 --> 00:19:50,880

that

539

00:19:54,310 --> 00:19:52,799

yeah those accounts do exist although

540

00:19:56,150 --> 00:19:54,320

they're actually pretty rare

541

00:19:58,070 --> 00:19:56,160

um in the big scheme of things so

542

00:20:00,150 --> 00:19:58,080

they're like like i said earlier there

543

00:20:03,110 --> 00:20:00,160

are about 3 000

544

00:20:03,750 --> 00:20:03,120

well-documented nessie sightings and

545

00:20:07,510 --> 00:20:03,760

only about

546

00:20:10,390 --> 00:20:07,520

35 reports on land

547

00:20:12,070 --> 00:20:10,400

um and most of those are older one one

548

00:20:14,950 --> 00:20:12,080

has been fairly recent

549

00:20:16,630 --> 00:20:14,960

roland watson is a messy excellent messy

550

00:20:18,070 --> 00:20:16,640

investigator i interviewed for the book

551
00:20:19,750 --> 00:20:18,080
and he's written a book about the land

552
00:20:20,149 --> 00:20:19,760
sightings only if people are interested

553
00:20:23,750 --> 00:20:20,159
in that

554
00:20:24,630 --> 00:20:23,760
aspect it's possible i mean yeah maybe

555
00:20:26,710 --> 00:20:24,640
they do come on

556
00:20:27,990 --> 00:20:26,720
now you hear the stories more in ireland

557
00:20:29,430 --> 00:20:28,000
we were talking earlier about the

558
00:20:33,430 --> 00:20:29,440
pasties or the

559
00:20:35,750 --> 00:20:33,440
um uh horse eels and there

560
00:20:37,270 --> 00:20:35,760
there are many accounts of them crawling

561
00:20:39,669 --> 00:20:37,280
from lake to lake

562
00:20:41,669 --> 00:20:39,679
uh over short distances and kind of

563
00:20:43,669 --> 00:20:41,679

slithering along and even getting stuck

564

00:20:47,190 --> 00:20:43,679

sometimes under bridges or in cal

565

00:20:47,990 --> 00:20:47,200

culverts and things so um but you don't

566

00:20:49,590 --> 00:20:48,000

hear that and you know there

567

00:20:51,590 --> 00:20:49,600

are i guess there are some accounts you

568

00:20:54,390 --> 00:20:51,600

know lake champlain

569

00:20:55,669 --> 00:20:54,400

um not so much in okanagan or other

570

00:20:57,029 --> 00:20:55,679

lakes i mean like

571

00:20:59,190 --> 00:20:57,039

again the land sightings are rare but

572

00:20:59,990 --> 00:20:59,200

it's possible but you're right again we

573

00:21:02,390 --> 00:21:00,000

have another

574

00:21:04,549 --> 00:21:02,400

strong challenge here to the evidence or

575

00:21:06,789 --> 00:21:04,559

the theory i should say which is

576
00:21:07,590 --> 00:21:06,799
you know the river nest is very shallow

577
00:21:11,270 --> 00:21:07,600
and it's

578
00:21:12,870 --> 00:21:11,280
um it's also under constant observation

579
00:21:13,909 --> 00:21:12,880
there's a lot of people that live along

580
00:21:16,470 --> 00:21:13,919
there and

581
00:21:17,909 --> 00:21:16,480
you know i think there's only one or two

582
00:21:20,149 --> 00:21:17,919
very old stories of

583
00:21:21,590 --> 00:21:20,159
of people seeing things swimming back

584
00:21:24,870 --> 00:21:21,600
and forth that could be nessie

585
00:21:27,990 --> 00:21:26,630
i don't know it's a there are mysteries

586
00:21:30,870 --> 00:21:28,000
within mysteries my friend

587
00:21:32,630 --> 00:21:30,880
we don't know you know and the reason

588
00:21:36,390 --> 00:21:32,640

i'm i'm saying that is

589

00:21:38,149 --> 00:21:36,400
at um take uh lake champlain for

590

00:21:39,909 --> 00:21:38,159
instance now i believe

591

00:21:42,230 --> 00:21:39,919
there's a strong possibility that there

592

00:21:43,350 --> 00:21:42,240
there are underground aquifers and such

593

00:21:46,710 --> 00:21:43,360
that move out

594

00:21:49,590 --> 00:21:46,720
from the lake into saint lawrence seaway

595

00:21:52,230 --> 00:21:49,600
if that's the case then maybe what's

596

00:21:55,190 --> 00:21:52,240
coming in there or some type of cetacean

597

00:21:56,789 --> 00:21:55,200
who knows uh and i'm wondering if that

598

00:22:00,470 --> 00:21:56,799
could be the possibility at

599

00:22:02,870 --> 00:22:00,480
loch ness i mean is is there possibility

600

00:22:06,950 --> 00:22:02,880
that there are underground

601
00:22:11,669 --> 00:22:06,960
caves that connect the ocean and the um

602
00:22:13,270 --> 00:22:11,679
in the lake um that's actually been a

603
00:22:15,430 --> 00:22:13,280
a lot of people have talked about that

604
00:22:18,870 --> 00:22:15,440
for years but that that actually

605
00:22:19,590 --> 00:22:18,880
is impossible on because loch ness lies

606
00:22:22,230 --> 00:22:19,600
52

607
00:22:23,590 --> 00:22:22,240
feet above sea level and if it were

608
00:22:26,149 --> 00:22:23,600
connected to the ocean by

609
00:22:27,029 --> 00:22:26,159
underground caverns it would be sea

610
00:22:28,789 --> 00:22:27,039
level

611
00:22:30,549 --> 00:22:28,799
and also and also the water would be

612
00:22:32,149 --> 00:22:30,559
somewhat brackish or salty and there

613
00:22:32,789 --> 00:22:32,159

have been a lot of water samples taken

614

00:22:35,830 --> 00:22:32,799

and there's no

615

00:22:37,590 --> 00:22:35,840

the salinity is very low in loch ness so

616

00:22:39,430 --> 00:22:37,600

but you know you can't maybe rule that

617

00:22:41,190 --> 00:22:39,440

out with other lakes um

618

00:22:42,950 --> 00:22:41,200

some of the russian lake monsters which

619

00:22:45,750 --> 00:22:42,960

i write about in my book

620

00:22:47,669 --> 00:22:45,760

uh the lake lavinkir monster and some of

621

00:22:49,669 --> 00:22:47,679

those others in siberia

622

00:22:50,870 --> 00:22:49,679

uh it's said that a lot of those lakes

623

00:22:54,070 --> 00:22:50,880

are connected

624

00:22:57,510 --> 00:22:54,080

together by kind of volcanic

625

00:22:59,430 --> 00:22:57,520

vents or underwater uh

626
00:23:01,029 --> 00:22:59,440
caverns so that you know again you hear

627
00:23:04,710 --> 00:23:01,039
those stories

628
00:23:06,470 --> 00:23:04,720
um but yeah that that would be

629
00:23:07,909 --> 00:23:06,480
the million dollar question is how these

630
00:23:09,110 --> 00:23:07,919
things are moving up and down now there

631
00:23:14,950 --> 00:23:09,120
have been

632
00:23:18,070 --> 00:23:14,960
reported sometimes in rivers

633
00:23:21,029 --> 00:23:18,080
um probably the most famous is

634
00:23:22,950 --> 00:23:21,039
there kind of near where you are sort of

635
00:23:25,350 --> 00:23:22,960
on the east coast uh the

636
00:23:26,230 --> 00:23:25,360
chesapeake bay chesapeake yeah chelsea

637
00:23:28,390 --> 00:23:26,240
jesse's been

638
00:23:30,789 --> 00:23:28,400

been sighted not only in chesapeake bay

639

00:23:32,230 --> 00:23:30,799

but you know up river a little bit

640

00:23:34,830 --> 00:23:32,240

uh there's also in georgia there's

641

00:23:38,070 --> 00:23:34,840

something called the alta maha

642

00:23:50,390 --> 00:23:41,990

um and that's the savannah river right

643

00:23:53,269 --> 00:23:50,400

yeah yeah i believe so yeah um

644

00:23:56,149 --> 00:23:53,279

i think jesse has been seen in um or

645

00:23:59,750 --> 00:23:56,159

supposedly seen in the patapsco river

646

00:24:01,510 --> 00:23:59,760

goes up into uh baltimore and posse

647

00:24:03,669 --> 00:24:01,520

patuxent river

648

00:24:05,510 --> 00:24:03,679

uh that comes into fredericksburg i'm

649

00:24:07,750 --> 00:24:05,520

not really sure

650

00:24:09,830 --> 00:24:07,760

uh but i have heard a lot of different

651
00:24:12,310 --> 00:24:09,840
things over the years you know i fish

652
00:24:13,430 --> 00:24:12,320
i used to fish the chesapeake bay a lot

653
00:24:17,269 --> 00:24:13,440
and i lived down there

654
00:24:19,830 --> 00:24:17,279
and uh i've seen a lot of strange things

655
00:24:20,950 --> 00:24:19,840
i mean i've seen things moving under

656
00:24:23,110 --> 00:24:20,960
water

657
00:24:25,750 --> 00:24:23,120
that i didn't i knew they weren't a big

658
00:24:27,669 --> 00:24:25,760
rockfish i mean there was something

659
00:24:28,950 --> 00:24:27,679
they were something and now we have had

660
00:24:31,350 --> 00:24:28,960
sharks there

661
00:24:32,549 --> 00:24:31,360
oh wow there was a huge maker caught

662
00:24:35,990 --> 00:24:32,559
near bay bridge

663
00:24:38,310 --> 00:24:36,000

several years ago and uh these sharks do

664

00:24:42,549 --> 00:24:38,320

actually come up into the bed

665

00:24:44,390 --> 00:24:42,559

but uh i i did my friend and i did see

666

00:24:45,110 --> 00:24:44,400

something go underneath the boat one

667

00:24:46,549 --> 00:24:45,120

time

668

00:24:48,310 --> 00:24:46,559

wow i don't know what the hell that

669

00:24:49,510 --> 00:24:48,320

thing was i mean this was definitely not

670

00:24:51,510 --> 00:24:49,520

a shark

671

00:24:53,990 --> 00:24:51,520

so maybe there is something in the

672

00:24:56,149 --> 00:24:54,000

chesapeake bay who knows

673

00:24:58,390 --> 00:24:56,159

yeah no recent sightings on that one

674

00:25:01,110 --> 00:24:58,400

really no there was a good video shot in

675

00:25:04,070 --> 00:25:01,120

1982 the fru footage

676

00:25:05,669 --> 00:25:04,080

um but i interviewed a local historian

677

00:25:06,470 --> 00:25:05,679

there in the area who's actually writing

678

00:25:08,950 --> 00:25:06,480

a book on

679

00:25:10,390 --> 00:25:08,960

chessy and from a skeptical point of

680

00:25:13,269 --> 00:25:10,400

view because he thinks it's

681

00:25:14,870 --> 00:25:13,279

mostly just a folkloric thing but um but

682

00:25:16,470 --> 00:25:14,880

he was telling me that there he he's

683

00:25:18,950 --> 00:25:16,480

been digging and he hasn't found any

684

00:25:19,430 --> 00:25:18,960

really recent sightings since the 1990s

685

00:25:25,110 --> 00:25:19,440

i think

686

00:25:29,029 --> 00:25:27,110

yeah yeah well you talked to some of the

687

00:25:29,909 --> 00:25:29,039

old-timers especially down in the lower

688

00:25:33,110 --> 00:25:29,919

bay

689

00:25:33,750 --> 00:25:33,120

uh the crab fishermen and the oyster uh

690

00:25:36,630 --> 00:25:33,760

fishermen

691

00:25:38,310 --> 00:25:36,640

and um they will tell you a lot of

692

00:25:41,269 --> 00:25:38,320

different things i mean you know

693

00:25:43,029 --> 00:25:41,279

there are some huge animals in there but

694

00:25:46,470 --> 00:25:43,039

for the most part i believe they're just

695

00:25:48,789 --> 00:25:46,480

either huge uh straight bass or

696

00:25:50,149 --> 00:25:48,799

maybe a big blue blue fish or something

697

00:25:52,070 --> 00:25:50,159

like that that come you know that are

698

00:25:56,070 --> 00:25:52,080

very common in the bay

699

00:25:59,669 --> 00:25:56,080

also some huge eels too because um

700

00:26:00,870 --> 00:25:59,679

uh i know the tabs go river actually is

701

00:26:04,710 --> 00:26:00,880

a spawning ground

702

00:26:05,269 --> 00:26:04,720

area where the eels american eels come

703

00:26:06,549 --> 00:26:05,279

up

704

00:26:09,190 --> 00:26:06,559

and of course they all go down to

705

00:26:10,630 --> 00:26:09,200

sargasso sea and and meat down there but

706

00:26:13,750 --> 00:26:10,640

then yeah get the way back

707

00:26:14,870 --> 00:26:13,760

up and uh man i've seen some of those in

708

00:26:17,990 --> 00:26:14,880

the river that are just

709

00:26:19,510 --> 00:26:18,000

absolutely humongous yeah

710

00:26:21,110 --> 00:26:19,520

some of those yields get pretty big

711

00:26:22,310 --> 00:26:21,120

you're right and they migrate they're

712

00:26:25,909 --> 00:26:22,320

andronymous

713

00:26:27,750 --> 00:26:25,919

and uh they're also um at least in

714

00:26:29,350 --> 00:26:27,760

some of those northern rivers you get

715

00:26:33,909 --> 00:26:29,360

the the lake sturgeon

716

00:26:35,830 --> 00:26:33,919

which uh like white sturgeon uh

717

00:26:37,350 --> 00:26:35,840

uh there's uh the white sturgeon there

718

00:26:38,549 --> 00:26:37,360

on the you know you have the atlantic

719

00:26:40,230 --> 00:26:38,559

sturgeon and then you have the white

720

00:26:41,430 --> 00:26:40,240

sturgeon on the pacific coast and some

721

00:26:45,029 --> 00:26:41,440

of those get to be

722

00:26:47,110 --> 00:26:45,039

you know 7 10 11 feet long

723

00:26:48,470 --> 00:26:47,120

and they're really prehistoric looking

724

00:26:50,390 --> 00:26:48,480

fish because they've got these bony

725

00:26:52,470 --> 00:26:50,400

plates in the back

726
00:26:54,710 --> 00:26:52,480
and they're kind of like elasmobranchs or

727
00:26:58,230 --> 00:26:54,720
sharks because they have that

728
00:26:59,669 --> 00:26:58,240
cartilaginous you know weird kind of

729
00:27:01,909 --> 00:26:59,679
prehistoric

730
00:27:03,029 --> 00:27:01,919
look to them so yeah they can they can

731
00:27:06,070 --> 00:27:03,039
get absolutely

732
00:27:08,070 --> 00:27:06,080
humongous i mean i i was actually

733
00:27:10,789 --> 00:27:08,080
i had actually seen one up in near the

734
00:27:12,710 --> 00:27:10,799
columbia river years and years ago

735
00:27:13,830 --> 00:27:12,720
uh some guy taken out of there and that

736
00:27:18,310 --> 00:27:13,840
thing had to have been

737
00:27:21,830 --> 00:27:18,320
seven foot long it was huge yeah and um

738
00:27:23,669 --> 00:27:21,840

yeah so i guess i gotta ask this

739

00:27:25,750 --> 00:27:23,679

question i mean i asked it about every

740

00:27:30,149 --> 00:27:25,760

other cryptid

741

00:27:34,230 --> 00:27:30,159

what is the what's the possibility

742

00:27:37,269 --> 00:27:34,240

that uh nessie or even other lock

743

00:27:40,710 --> 00:27:37,279

uh lock creatures or are

744

00:27:43,750 --> 00:27:40,720

may possibly be supernatural

745

00:27:46,310 --> 00:27:43,760

yeah well um you know that i think

746

00:27:49,029 --> 00:27:46,320

the strongest argument for the the

747

00:27:51,029 --> 00:27:49,039

supernatural advocates is always

748

00:27:52,710 --> 00:27:51,039

you know why can't why can't we find

749

00:27:54,549 --> 00:27:52,720

them you know why are the photographs

750

00:27:56,549 --> 00:27:54,559

never good enough why don't we have a

751
00:27:58,470 --> 00:27:56,559
body that washed up on the shore

752
00:27:59,590 --> 00:27:58,480
or you know and again those are good

753
00:28:03,029 --> 00:27:59,600
challenges

754
00:28:04,549 --> 00:28:03,039
um i'm not you you know me

755
00:28:07,350 --> 00:28:04,559
i mean i've obviously i've investigated

756
00:28:09,510 --> 00:28:07,360
things like the mothman and some dogman

757
00:28:11,750 --> 00:28:09,520
encounters and things and some of those

758
00:28:15,350 --> 00:28:11,760
kind of fringe

759
00:28:18,230 --> 00:28:15,360
cryptids or creatures but um you know i

760
00:28:20,549 --> 00:28:18,240
i tend to be a little bit more of a

761
00:28:22,389 --> 00:28:20,559
traditional cryptozoologist in terms of

762
00:28:24,789 --> 00:28:22,399
focusing on the zoological part

763
00:28:26,470 --> 00:28:24,799

so i totally understand why people think

764

00:28:28,789 --> 00:28:26,480

those things because

765

00:28:30,630 --> 00:28:28,799

you know again the lack of evidence

766

00:28:32,070 --> 00:28:30,640

almost seems supernatural that's the

767

00:28:32,789 --> 00:28:32,080

thing that's really hard to wrap our

768

00:28:35,190 --> 00:28:32,799

heads around

769

00:28:37,830 --> 00:28:35,200

is that if they are animals even if

770

00:28:40,630 --> 00:28:37,840

they're very rare and elusive

771

00:28:42,389 --> 00:28:40,640

you know it just seems like you know at

772

00:28:44,950 --> 00:28:42,399

least we'd have

773

00:28:45,750 --> 00:28:44,960

you know a better photo you know a clear

774

00:28:49,269 --> 00:28:45,760

something so

775

00:28:51,269 --> 00:28:49,279

um you know my as you know my

776

00:28:53,510 --> 00:28:51,279

my great friend and and colleague nick

777

00:28:56,549 --> 00:28:53,520

redfearn wrote a book called nessie

778

00:28:58,950 --> 00:28:56,559

a few years ago and he he kind of took a

779

00:29:00,149 --> 00:28:58,960

that was an interesting you know kind of

780

00:29:01,269 --> 00:29:00,159

look that you know and that's what i was

781

00:29:03,029 --> 00:29:01,279

referring to

782

00:29:05,029 --> 00:29:03,039

so there is a lot of weird stuff about

783

00:29:07,590 --> 00:29:05,039

loch ness i mean obviously

784

00:29:10,310 --> 00:29:07,600

you know aside from aleister crowley you

785

00:29:13,029 --> 00:29:10,320

know living alongside the lock and doing

786

00:29:13,990 --> 00:29:13,039

weird rituals and things for for years

787

00:29:16,870 --> 00:29:14,000

you have

788

00:29:18,230 --> 00:29:16,880

a lot of the old gaelic legends you know

789

00:29:20,149 --> 00:29:18,240

we talked about the water kelp

790

00:29:22,149 --> 00:29:20,159

originally being like kind of a spirit

791

00:29:25,909 --> 00:29:22,159

animal and a shape shifter

792

00:29:26,310 --> 00:29:25,919

um there's a ghost ship on loch ness i

793

00:29:28,310 --> 00:29:26,320

don't know

794

00:29:29,430 --> 00:29:28,320

if a lot of people know this but there's

795

00:29:31,350 --> 00:29:29,440

there are stories that

796

00:29:33,510 --> 00:29:31,360

like every something like every 10 or 20

797

00:29:34,710 --> 00:29:33,520

years there's this ghost ship this old

798

00:29:36,789 --> 00:29:34,720

sailing ship

799

00:29:38,549 --> 00:29:36,799

that's seen fly you know so that's kind

800

00:29:39,669 --> 00:29:38,559

of a weird old story so yeah you get

801
00:29:44,149 --> 00:29:39,679
that

802
00:29:46,230 --> 00:29:44,159
of spooky eerie supernatural vibe

803
00:29:49,190 --> 00:29:46,240
particularly with loch ness

804
00:29:50,389 --> 00:29:49,200
i i don't know if you could apply that

805
00:29:52,549 --> 00:29:50,399
per se with some of these

806
00:29:53,750 --> 00:29:52,559
other lake monsters and you know and

807
00:29:55,110 --> 00:29:53,760
then i always have to make like the

808
00:29:58,230 --> 00:29:55,120
arguments like

809
00:29:59,669 --> 00:29:58,240
um like people talk about bigfoot

810
00:30:02,310 --> 00:29:59,679
traveling through portals and

811
00:30:03,029 --> 00:30:02,320
like my retort to that is always like

812
00:30:04,710 --> 00:30:03,039
well

813
00:30:06,310 --> 00:30:04,720

why are all the portals way out in the

814

00:30:08,230 --> 00:30:06,320

wilderness why aren't there portals in

815

00:30:10,389 --> 00:30:08,240

the walmart parking lot why aren't there

816

00:30:12,549 --> 00:30:10,399

portals in times square

817

00:30:13,990 --> 00:30:12,559

you know and the same thing applies to

818

00:30:15,750 --> 00:30:14,000

nessie it's like if nessie is

819

00:30:17,909 --> 00:30:15,760

supernatural

820

00:30:19,990 --> 00:30:17,919

why are creatures like nessie why are

821

00:30:23,510 --> 00:30:20,000

they not being seen in

822

00:30:25,350 --> 00:30:23,520

tiny ponds in you know kentucky

823

00:30:26,549 --> 00:30:25,360

why are they always seen in these

824

00:30:29,750 --> 00:30:26,559

northern

825

00:30:31,510 --> 00:30:29,760

glacial cold connect deep connected to

826

00:30:33,350 --> 00:30:31,520

the ocean types of similar lakes and why

827

00:30:36,789 --> 00:30:33,360

are they grouped together

828

00:30:37,510 --> 00:30:36,799

and seemingly a biological distribution

829

00:30:40,870 --> 00:30:37,520

you know that

830

00:30:42,870 --> 00:30:40,880

that but i don't know i mean we you know

831

00:30:44,070 --> 00:30:42,880

we're so fallible as humans long we just

832

00:30:46,310 --> 00:30:44,080

don't know that much

833

00:30:47,430 --> 00:30:46,320

you know i can probably and you know i

834

00:30:49,350 --> 00:30:47,440

have talked about the

835

00:30:51,430 --> 00:30:49,360

the supernatural aspect of a lot of

836

00:30:54,549 --> 00:30:51,440

cryptids

837

00:30:56,710 --> 00:30:54,559

big foot upgrade canines i've

838

00:30:58,950 --> 00:30:56,720

i've been preaching that for a while now

839

00:30:59,830 --> 00:30:58,960

the possibilities but when it comes to

840

00:31:02,070 --> 00:30:59,840

um

841

00:31:03,509 --> 00:31:02,080

late creatures ah that seems kind of a

842

00:31:05,990 --> 00:31:03,519

stretch to me

843

00:31:06,549 --> 00:31:06,000

uh of course i like you said nick wrote

844

00:31:10,230 --> 00:31:06,559

about

845

00:31:12,389 --> 00:31:10,240

with me

846

00:31:13,269 --> 00:31:12,399

and i thought hmm i don't know you know

847

00:31:14,870 --> 00:31:13,279

that's

848

00:31:16,789 --> 00:31:14,880

you know he was talking about fault

849

00:31:18,149 --> 00:31:16,799

forms and things showing up here and

850

00:31:20,549 --> 00:31:18,159

there and i thought okay

851
00:31:21,909 --> 00:31:20,559
well that may very well be but of course

852
00:31:24,070 --> 00:31:21,919
you know

853
00:31:24,950 --> 00:31:24,080
everybody there's conjecture on all this

854
00:31:29,830 --> 00:31:24,960
stuff and

855
00:31:32,389 --> 00:31:29,840
uh i guess it's our job to figure it out

856
00:31:33,190 --> 00:31:32,399
yeah and there's also bias and you know

857
00:31:34,950 --> 00:31:33,200
that's the audio

858
00:31:36,630 --> 00:31:34,960
i like to talk about in all my books and

859
00:31:37,269 --> 00:31:36,640
i don't mean that in it i don't ever

860
00:31:39,269 --> 00:31:37,279
mean that

861
00:31:42,230 --> 00:31:39,279
to sound negative or to be in a negative

862
00:31:45,590 --> 00:31:42,240
thing but it's a true

863
00:31:47,669 --> 00:31:45,600

fact that all human beings are very

864

00:31:49,190 --> 00:31:47,679

much individuals in terms of our belief

865

00:31:51,430 --> 00:31:49,200

systems

866

00:31:53,509 --> 00:31:51,440

how we were raised what our experiences

867

00:31:54,549 --> 00:31:53,519

have been you know our cultures and all

868

00:31:57,430 --> 00:31:54,559

these things

869

00:31:58,870 --> 00:31:57,440

and so all of us have different ways or

870

00:32:00,630 --> 00:31:58,880

filters of looking at

871

00:32:02,630 --> 00:32:00,640

things and particularly when you're

872

00:32:04,630 --> 00:32:02,640

talking about the unexplained

873

00:32:06,070 --> 00:32:04,640

which is you know these are these are

874

00:32:08,149 --> 00:32:06,080

topics that touch

875

00:32:09,669 --> 00:32:08,159

us in a very profound way at the very

876
00:32:11,909 --> 00:32:09,679
root of our

877
00:32:13,350 --> 00:32:11,919
you know of our being you know these are

878
00:32:14,230 --> 00:32:13,360
the great mysteries the enduring

879
00:32:17,269 --> 00:32:14,240
mysteries of

880
00:32:19,750 --> 00:32:17,279
of humanity so um

881
00:32:20,710 --> 00:32:19,760
so yeah i understand why some people

882
00:32:23,750 --> 00:32:20,720
have more of a

883
00:32:25,509 --> 00:32:23,760
of an interest in supernatural or at

884
00:32:27,269 --> 00:32:25,519
least more of an acceptance

885
00:32:29,029 --> 00:32:27,279
or maybe they've experienced things in

886
00:32:30,389 --> 00:32:29,039
their life you know

887
00:32:32,149 --> 00:32:30,399
lived in a haunted house when they were

888
00:32:33,190 --> 00:32:32,159

growing up i hear that a lot and stuff

889

00:32:35,590 --> 00:32:33,200

like that

890

00:32:37,669 --> 00:32:35,600

um you know nick of course is an

891

00:32:39,990 --> 00:32:37,679

excellent cryptid researcher

892

00:32:42,230 --> 00:32:40,000

but you know he's also very well known

893

00:32:43,110 --> 00:32:42,240

in the ufo field and he's investigated a

894

00:32:46,389 --> 00:32:43,120

lot of

895

00:32:49,590 --> 00:32:46,399

books about roswell

896

00:32:51,509 --> 00:32:49,600

and a lot of the great ufo cases and

897

00:32:53,190 --> 00:32:51,519

you know things like that so he's got

898

00:32:56,310 --> 00:32:53,200

kind of a different

899

00:32:58,230 --> 00:32:56,320

um way of looking at

900

00:32:59,669 --> 00:32:58,240

phenomenon than i do which is cool

901
00:33:01,430 --> 00:32:59,679
because that's how people come and

902
00:33:03,509 --> 00:33:01,440
or you and that's how people come up

903
00:33:06,070 --> 00:33:03,519
with different ideas and

904
00:33:06,870 --> 00:33:06,080
and and we we exchange those ideas and

905
00:33:12,070 --> 00:33:06,880
yeah

906
00:33:13,909 --> 00:33:12,080
you know that's us guys have been

907
00:33:17,669 --> 00:33:13,919
involved with the uh

908
00:33:18,470 --> 00:33:17,679
the abduction scenarios and aliens and

909
00:33:20,710 --> 00:33:18,480
this and that

910
00:33:22,870 --> 00:33:20,720
yeah we kind of get uh touched when it

911
00:33:24,149 --> 00:33:22,880
comes to cryptids because

912
00:33:27,029 --> 00:33:24,159
we kind of put a little bit of that

913
00:33:30,149 --> 00:33:27,039

together now of course

914

00:33:32,389 --> 00:33:30,159

here in pennsylvania but there have been

915

00:33:33,029 --> 00:33:32,399

some sightings of like bigfoot and ufos

916

00:33:36,070 --> 00:33:33,039

together and

917

00:33:37,590 --> 00:33:36,080

other places as well but there are there

918

00:33:39,430 --> 00:33:37,600

seem to be some connections of course

919

00:33:42,630 --> 00:33:39,440

the presque isle

920

00:33:46,149 --> 00:33:42,640

uh incident is a perfect example

921

00:33:48,230 --> 00:33:46,159

so uh i don't know i mean yeah i guess

922

00:33:50,149 --> 00:33:48,240

i guess i i use a lot of that influence

923

00:33:52,070 --> 00:33:50,159

of stuff i'm investigating kind of tied

924

00:33:54,630 --> 00:33:52,080

together so

925

00:33:55,990 --> 00:33:54,640

can we eliminate one aspect of of the

926
00:33:58,070 --> 00:33:56,000
lake monster mystery

927
00:34:01,029 --> 00:33:58,080
sure and i think we can all definitively

928
00:34:02,710 --> 00:34:01,039
agree that we can't connect it to ufos

929
00:34:04,630 --> 00:34:02,720
so ladies and gentlemen i believe this

930
00:34:06,149 --> 00:34:04,640
monster does i've never heard anyone

931
00:34:07,350 --> 00:34:06,159
suggest that but at least

932
00:34:09,589 --> 00:34:07,360
i think we could rule that one out i

933
00:34:11,669 --> 00:34:09,599
mean i know people talk about bigfoot

934
00:34:13,270 --> 00:34:11,679
sightings with ufo activity in the air

935
00:34:15,109 --> 00:34:13,280
mothman but yeah

936
00:34:17,510 --> 00:34:15,119
i can't think of any anyone ever

937
00:34:20,710 --> 00:34:17,520
describing a a spaceship landing

938
00:34:22,550 --> 00:34:20,720

over loch ness in a a giant 40-foot

939

00:34:23,349 --> 00:34:22,560

monster coming out and going to the lake

940

00:34:25,669 --> 00:34:23,359

so i don't know

941

00:34:26,550 --> 00:34:25,679

i digress yeah well i i can i can buy

942

00:34:29,349 --> 00:34:26,560

that i mean

943

00:34:30,869 --> 00:34:29,359

i i have not heard of anything even

944

00:34:34,310 --> 00:34:30,879

suggesting that

945

00:34:37,909 --> 00:34:34,320

other than maybe these

946

00:34:39,990 --> 00:34:37,919

uh these fly manta ray

947

00:34:41,030 --> 00:34:40,000

beings that i've been reporting on for

948

00:34:42,950 --> 00:34:41,040

years

949

00:34:44,710 --> 00:34:42,960

uh there may be a connection there

950

00:34:47,430 --> 00:34:44,720

somewhere to do with

951
00:34:48,869 --> 00:34:47,440
something associated possibly with water

952
00:34:50,790 --> 00:34:48,879
and flying and such

953
00:34:51,990 --> 00:34:50,800
but yeah beyond that i think that's a

954
00:34:54,950 --> 00:34:52,000
stretch

955
00:34:55,829 --> 00:34:54,960
um you know i'd like to be a little

956
00:34:57,589 --> 00:34:55,839
self-indulge

957
00:34:59,510 --> 00:34:57,599
indulge in here for a moment and vent if

958
00:35:03,270 --> 00:34:59,520
i could a little bit because

959
00:35:05,430 --> 00:35:03,280
um you know i get obviously i have a lot

960
00:35:06,950 --> 00:35:05,440
of people that reach out to me to share

961
00:35:09,430 --> 00:35:06,960
their experiences with sightings which

962
00:35:10,470 --> 00:35:09,440
i'm always excited and happy to to hear

963
00:35:14,230 --> 00:35:10,480

and listen to people

964

00:35:16,470 --> 00:35:14,240

and and hear what they have to say um

965

00:35:18,630 --> 00:35:16,480

i every once in a while i run across

966

00:35:20,069 --> 00:35:18,640

somebody and it's often an experimenter

967

00:35:22,390 --> 00:35:20,079

or someone who's

968

00:35:24,230 --> 00:35:22,400

who's had some kind of encounter or

969

00:35:27,109 --> 00:35:24,240

something that they can't explain

970

00:35:29,109 --> 00:35:27,119

and they basically tell me that they

971

00:35:31,589 --> 00:35:29,119

alone have solved

972

00:35:33,030 --> 00:35:31,599

the mystery of all of these things you

973

00:35:34,870 --> 00:35:33,040

know and it's always related it's

974

00:35:37,030 --> 00:35:34,880

bigfoot it's ufos it's ghosts

975

00:35:39,349 --> 00:35:37,040

whatever but they're the ones who

976

00:35:41,750 --> 00:35:39,359

finally put the all the pieces together

977

00:35:43,589 --> 00:35:41,760

and i i gotta tell you a lot i take that

978

00:35:45,349 --> 00:35:43,599

i maybe i shouldn't but i kind of take

979

00:35:47,430 --> 00:35:45,359

it a little personally

980

00:35:49,670 --> 00:35:47,440

you know not only on my behalf but for

981

00:35:52,790 --> 00:35:49,680

for people like you and for all of the

982

00:35:54,230 --> 00:35:52,800

the hundreds of excellent investigators

983

00:35:55,510 --> 00:35:54,240

of the unexplained that i've

984

00:35:57,430 --> 00:35:55,520

i've had the honor of working with

985

00:35:58,950 --> 00:35:57,440

through the years because

986

00:36:01,190 --> 00:35:58,960

you know all of us have been working

987

00:36:03,910 --> 00:36:01,200

hard trying to solve these mysteries and

988

00:36:05,829 --> 00:36:03,920

and get to the truth and so when someone

989

00:36:09,030 --> 00:36:05,839

kind of comes at me and like hey man

990

00:36:11,829 --> 00:36:09,040

you know i figured it out dummy yeah

991

00:36:12,230 --> 00:36:11,839

yeah i think we've all heard that though

992

00:36:14,710 --> 00:36:12,240

i mean

993

00:36:16,069 --> 00:36:14,720

yeah i agree with you it's like okay

994

00:36:17,990 --> 00:36:16,079

well

995

00:36:20,630 --> 00:36:18,000

do i want to hear what this person has

996

00:36:23,829 --> 00:36:20,640

to say or not i will listen to them

997

00:36:25,510 --> 00:36:23,839

yeah but anyways i

998

00:36:26,950 --> 00:36:25,520

i bumped heads with a couple of those

999

00:36:28,710 --> 00:36:26,960

guys lately because i'll call them out a

1000

00:36:31,670 --> 00:36:28,720

little bit i'll say look it's kind of

1001
00:36:32,069 --> 00:36:31,680
it's you're it's disingenuous to me and

1002
00:36:35,030 --> 00:36:32,079
other

1003
00:36:36,470 --> 00:36:35,040
investigators out there that you are the

1004
00:36:37,670 --> 00:36:36,480
one that figured this all out and we're

1005
00:36:38,630 --> 00:36:37,680
all just kind of bumping around in the

1006
00:36:39,750 --> 00:36:38,640
dark for

1007
00:36:42,310 --> 00:36:39,760
decades and we don't know what we're

1008
00:36:45,430 --> 00:36:42,320
doing so none of us know

1009
00:36:48,470 --> 00:36:45,440
you know i mean it's it's fascinating

1010
00:36:50,790 --> 00:36:48,480
i love cryptozoology but i'm also very

1011
00:36:52,390 --> 00:36:50,800
interested in ufos and the paranormal

1012
00:36:53,589 --> 00:36:52,400
and all these things i have friends that

1013
00:36:55,109 --> 00:36:53,599

do all of these

1014

00:36:57,349 --> 00:36:55,119

different and it's it's to me it's

1015

00:36:58,790 --> 00:36:57,359

anything unexplainable is is incredibly

1016

00:37:00,550 --> 00:36:58,800

fascinating and i've been i've been

1017

00:37:02,069 --> 00:37:00,560

loving watching these news reports

1018

00:37:03,829 --> 00:37:02,079

lately every night

1019

00:37:05,910 --> 00:37:03,839

with the you know the navy pilots and

1020

00:37:07,349 --> 00:37:05,920

the final ufos are like making it onto

1021

00:37:09,030 --> 00:37:07,359

like the headline

1022

00:37:10,870 --> 00:37:09,040

yeah you know not that i have a strong

1023

00:37:12,550 --> 00:37:10,880

opinion on what that means

1024

00:37:14,069 --> 00:37:12,560

but it's just fun to kind of watch that

1025

00:37:14,550 --> 00:37:14,079

and say oh they're going to have a

1026

00:37:18,310 --> 00:37:14,560

pilot's

1027

00:37:19,670 --> 00:37:18,320

talk about a ufo they saw and so

1028

00:37:21,349 --> 00:37:19,680

i don't know so all this stuff is

1029

00:37:23,270 --> 00:37:21,359

fascinating and fun i guess that's

1030

00:37:25,430 --> 00:37:23,280

the only point i'm trying to make well

1031

00:37:26,069 --> 00:37:25,440

between you and i i'm skeptical of all

1032

00:37:28,710 --> 00:37:26,079

that but

1033

00:37:29,829 --> 00:37:28,720

who knows you know i i i'm of the

1034

00:37:31,510 --> 00:37:29,839

mindset that

1035

00:37:33,990 --> 00:37:31,520

unless they've got to tell us they're

1036

00:37:37,030 --> 00:37:34,000

not going to say too much

1037

00:37:37,670 --> 00:37:37,040

yeah um i i you know and i i don't know

1038

00:37:38,950 --> 00:37:37,680

i mean they

1039

00:37:40,790 --> 00:37:38,960

there's obvious there's there are

1040

00:37:42,550 --> 00:37:40,800

obvious considerations there i mean

1041

00:37:44,230 --> 00:37:42,560

people could obviously panic

1042

00:37:45,430 --> 00:37:44,240

and consider especially after everything

1043

00:37:47,030 --> 00:37:45,440

we went through with this horrible

1044

00:37:48,470 --> 00:37:47,040

pandemic it was like we were living in a

1045

00:37:49,910 --> 00:37:48,480

science fiction movie

1046

00:37:51,670 --> 00:37:49,920

and now if they were to come down and

1047

00:37:52,630 --> 00:37:51,680

say oh yeah then the aliens really are

1048

00:37:54,310 --> 00:37:52,640

here

1049

00:37:56,150 --> 00:37:54,320

you know that might that might tip us

1050

00:37:57,510 --> 00:37:56,160

over the edge but i will say this one of

1051
00:37:59,829 --> 00:37:57,520
the theories that they were talking

1052
00:38:01,750 --> 00:37:59,839
about this is just my

1053
00:38:03,349 --> 00:38:01,760
you know little wheels turning here but

1054
00:38:03,670 --> 00:38:03,359
you know they're talking about that this

1055
00:38:06,310 --> 00:38:03,680
is

1056
00:38:07,910 --> 00:38:06,320
technology that maybe if not our

1057
00:38:10,069 --> 00:38:07,920
military has that maybe

1058
00:38:11,190 --> 00:38:10,079
god forbid russia or china has developed

1059
00:38:13,750 --> 00:38:11,200
some incredible

1060
00:38:15,829 --> 00:38:13,760
hypersonic technology for these ufos

1061
00:38:17,430 --> 00:38:15,839
well if that's the case

1062
00:38:20,470 --> 00:38:17,440
why have people been describing these

1063
00:38:22,230 --> 00:38:20,480

things since the 1940s

1064

00:38:24,950 --> 00:38:22,240

they didn't come up with that technology

1065

00:38:27,030 --> 00:38:24,960

back then so it's the same thing people

1066

00:38:28,150 --> 00:38:27,040

are still seeing these ufos and they act

1067

00:38:29,990 --> 00:38:28,160

the same right i mean

1068

00:38:31,750 --> 00:38:30,000

they move at impossible speeds and they

1069

00:38:34,390 --> 00:38:31,760

can jump around and

1070

00:38:36,550 --> 00:38:34,400

vanish and i don't know so i don't i'm

1071

00:38:38,710 --> 00:38:36,560

not saying they're aliens but

1072

00:38:41,030 --> 00:38:38,720

i'm skeptical that these some of them

1073

00:38:43,030 --> 00:38:41,040

may be military but i'm skeptical that

1074

00:38:45,510 --> 00:38:43,040

the the phenomenon as a whole is just a

1075

00:38:47,270 --> 00:38:45,520

misunderstanding based on

1076

00:38:49,990 --> 00:38:47,280

some kind of recent technology that

1077

00:38:53,270 --> 00:38:50,000

doesn't make sense to me

1078

00:38:55,510 --> 00:38:53,280

so let's talk about other secrets now

1079

00:38:56,390 --> 00:38:55,520

you know starting with those leviathans

1080

00:38:58,790 --> 00:38:56,400

that

1081

00:39:00,150 --> 00:38:58,800

supposedly destroyed sailing ships in

1082

00:39:03,030 --> 00:39:00,160

the open ocean

1083

00:39:06,390 --> 00:39:03,040

yeah is there any real tangible evidence

1084

00:39:09,910 --> 00:39:06,400

that any of this occurred at any point

1085

00:39:10,630 --> 00:39:09,920

um well you know most of the old sea

1086

00:39:12,829 --> 00:39:10,640

serpent

1087

00:39:14,069 --> 00:39:12,839

well you know you get to the real old

1088

00:39:16,790 --> 00:39:14,079

stories

1089

00:39:17,910 --> 00:39:16,800

like guys like olas magnus back in the

1090

00:39:21,109 --> 00:39:17,920

in the

1091

00:39:24,470 --> 00:39:21,119

16th century was writing about

1092

00:39:27,109 --> 00:39:24,480

um you know these sailing ships being

1093

00:39:29,670 --> 00:39:27,119

torn apart by these great sea serpents

1094

00:39:31,910 --> 00:39:29,680

and then later on you had stories from

1095

00:39:34,069 --> 00:39:31,920

you know eric pontopidon the bishop of

1096

00:39:36,550 --> 00:39:34,079

bergen and different people but

1097

00:39:38,390 --> 00:39:36,560

most of the sea serpent accounts the

1098

00:39:41,750 --> 00:39:38,400

famous ones from the 19th century did

1099

00:39:44,230 --> 00:39:41,760

not really involve any hostility you had

1100

00:39:44,790 --> 00:39:44,240

the most famous was in 1848 when you had

1101

00:39:47,910 --> 00:39:44,800

the uh

1102

00:39:49,349 --> 00:39:47,920

the hss hms daedalus

1103

00:39:51,190 --> 00:39:49,359

which was a british frigate that was

1104

00:39:52,790 --> 00:39:51,200

sailing off the coast of of southwest

1105

00:39:54,950 --> 00:39:52,800

africa there and these

1106

00:39:57,589 --> 00:39:54,960

you know like 11 crew members watched

1107

00:39:59,910 --> 00:39:57,599

this thing swim by and it didn't attack

1108

00:40:01,910 --> 00:39:59,920

them they were just like watching it

1109

00:40:03,349 --> 00:40:01,920

through their glasses and things and

1110

00:40:06,069 --> 00:40:03,359

saying that's a sea serpent

1111

00:40:07,190 --> 00:40:06,079

um there have been similar observations

1112

00:40:09,030 --> 00:40:07,200

through the years

1113

00:40:10,710 --> 00:40:09,040

so i don't know if these things are

1114

00:40:13,510 --> 00:40:10,720

potentially

1115

00:40:14,390 --> 00:40:13,520

aggressive now that said there are a lot

1116

00:40:17,589 --> 00:40:14,400

of i found

1117

00:40:19,030 --> 00:40:17,599

researching the for the book i found

1118

00:40:21,829 --> 00:40:19,040

actually a lot of accounts

1119

00:40:24,470 --> 00:40:21,839

of about modern boats either being

1120

00:40:26,630 --> 00:40:24,480

directly lifted out of the water

1121

00:40:28,550 --> 00:40:26,640

presumably by one of these lake monsters

1122

00:40:30,230 --> 00:40:28,560

and then dropped back down

1123

00:40:31,910 --> 00:40:30,240

or a couple of times kind of being

1124

00:40:33,670 --> 00:40:31,920

rammed or whatever

1125

00:40:36,150 --> 00:40:33,680

yeah so that that's that seems to be a

1126

00:40:38,390 --> 00:40:36,160

recurring thing it happened in uh

1127

00:40:40,309 --> 00:40:38,400

their stories in loch ness but also in

1128

00:40:44,550 --> 00:40:40,319

uh scandinavia

1129

00:40:48,069 --> 00:40:44,560

uh uh a lake monster named selma

1130

00:40:51,829 --> 00:40:48,079

um in lake memphis magog up there

1131

00:40:53,990 --> 00:40:51,839

um i think one

1132

00:40:55,430 --> 00:40:54,000

one in australia so this is a recurring

1133

00:40:57,670 --> 00:40:55,440

story where some guys are out in a

1134

00:40:59,670 --> 00:40:57,680

usually a small boat and it just

1135

00:41:02,150 --> 00:40:59,680

literally like rises up out of the water

1136

00:41:03,589 --> 00:41:02,160

like they're on the back of some animal

1137

00:41:05,430 --> 00:41:03,599

that's lifting them out of the water and

1138

00:41:06,870 --> 00:41:05,440

then eventually it drops them back down

1139

00:41:08,550 --> 00:41:06,880

so that seems to happen quite a bit

1140

00:41:10,069 --> 00:41:08,560

which would be pretty scary

1141

00:41:11,670 --> 00:41:10,079

i think pretty terrifying if you were

1142

00:41:13,750 --> 00:41:11,680

out you know bass fishing or whatever

1143

00:41:17,190 --> 00:41:13,760

and suddenly you realize that something

1144

00:41:19,190 --> 00:41:17,200

just water lifted you up um

1145

00:41:20,230 --> 00:41:19,200

so i don't know if the the traditional

1146

00:41:22,230 --> 00:41:20,240

loch ness monster

1147

00:41:23,829 --> 00:41:22,240

or sea serpent or lake monster i would

1148

00:41:26,950 --> 00:41:23,839

consider to be

1149

00:41:27,990 --> 00:41:26,960

particularly aggressive i think you know

1150

00:41:31,430 --> 00:41:28,000

you always get those

1151

00:41:33,349 --> 00:41:31,440

old stories um

1152

00:41:35,190 --> 00:41:33,359

and again a lot of those like you know

1153

00:41:37,589 --> 00:41:35,200

again like with bigfoot

1154

00:41:39,829 --> 00:41:37,599

you know i mean i'm not an advocate of

1155

00:41:41,349 --> 00:41:39,839

the bigfoot being the sasquatch being

1156

00:41:43,910 --> 00:41:41,359

dangerous or aggressive towards humans

1157

00:41:46,630 --> 00:41:43,920

as you know but if you go farther back

1158

00:41:48,150 --> 00:41:46,640

then you get the old stories like um you

1159

00:41:50,790 --> 00:41:48,160

know teddy roosevelt story

1160

00:41:53,510 --> 00:41:50,800

about the trappers bauman and the guy

1161

00:41:56,069 --> 00:41:53,520

getting killed by a bigfoot and uh

1162

00:41:56,710 --> 00:41:56,079

the eighth canyon story from 1924 where

1163

00:41:58,710 --> 00:41:56,720

the the

1164

00:42:00,150 --> 00:41:58,720

miners are being attacked so i mean

1165

00:42:01,190 --> 00:42:00,160

that's the parallel there is usually

1166

00:42:03,750 --> 00:42:01,200

those stories of the

1167

00:42:05,510 --> 00:42:03,760

attacks and aggression are usually like

1168

00:42:07,510 --> 00:42:05,520

older stories

1169

00:42:08,630 --> 00:42:07,520

and uh you don't hear a lot of modern

1170

00:42:09,910 --> 00:42:08,640

accounts that

1171

00:42:12,309 --> 00:42:09,920

so i guess what i'm trying to say is

1172

00:42:13,910 --> 00:42:12,319

that you know yes these these cryptids

1173

00:42:15,670 --> 00:42:13,920

are monsters in terms of their

1174

00:42:16,870 --> 00:42:15,680

appearance and they're big and there's

1175

00:42:19,270 --> 00:42:16,880

frightening looking and we don't know

1176

00:42:21,349 --> 00:42:19,280

what they are but i don't

1177

00:42:22,470 --> 00:42:21,359

view them personally as monsters in

1178

00:42:24,390 --> 00:42:22,480

terms of

1179

00:42:26,710 --> 00:42:24,400

you know they're not out to get us

1180

00:42:30,230 --> 00:42:26,720

they're just animals that are

1181

00:42:33,190 --> 00:42:30,240

probably trying to avoid us if anything

1182

00:42:36,390 --> 00:42:33,200

now there is one uh one of these sea

1183

00:42:38,950 --> 00:42:36,400

creatures that kind of fascinates me

1184

00:42:40,790 --> 00:42:38,960

and i i know you did the show up in

1185

00:42:44,550 --> 00:42:40,800

alaska and up in that area

1186

00:42:46,069 --> 00:42:44,560

um the cadbury saurus and i'm quite sure

1187

00:42:47,030 --> 00:42:46,079

you've heard of that well you had it in

1188

00:42:49,790 --> 00:42:47,040

the book

1189

00:42:51,030 --> 00:42:49,800

can you tell us a bit about that yeah

1190

00:42:55,109 --> 00:42:51,040

cadburysaurus

1191

00:42:57,030 --> 00:42:55,119

uh or you know shorter nickname is caddy

1192

00:42:58,630 --> 00:42:57,040

is a sea serpent animal that's been

1193

00:43:01,270 --> 00:42:58,640

reported

1194

00:43:03,349 --> 00:43:01,280

off the coast of british columbia uh

1195

00:43:05,589 --> 00:43:03,359

specifically in a place called cadbury

1196

00:43:08,630 --> 00:43:05,599

bay which it's named after

1197

00:43:11,829 --> 00:43:08,640

and the straits of juan de fuca

1198

00:43:12,710 --> 00:43:11,839

and the georgia straits and some of

1199

00:43:14,710 --> 00:43:12,720

those little

1200

00:43:16,470 --> 00:43:14,720

you know kind of in between vancouver

1201

00:43:18,230 --> 00:43:16,480

island and and the mainland there in

1202

00:43:21,430 --> 00:43:18,240

british columbia

1203

00:43:25,589 --> 00:43:21,440

um and maybe the sightings go up

1204

00:43:28,230 --> 00:43:25,599

all the way to alaska um

1205

00:43:30,470 --> 00:43:28,240

but uh the the really the best

1206

00:43:32,069 --> 00:43:30,480

photographic evidence for any lake

1207

00:43:33,309 --> 00:43:32,079

monster or sea serpent

1208

00:43:36,069 --> 00:43:33,319

is actually related to the

1209

00:43:37,670 --> 00:43:36,079

cadburyosaurus yeah and it's not even of

1210

00:43:39,750 --> 00:43:37,680

a live animal

1211

00:43:41,109 --> 00:43:39,760

but uh interestingly enough it's of a

1212

00:43:43,750 --> 00:43:41,119

cadaver

1213

00:43:45,430 --> 00:43:43,760

a carcass that was pulled out of a

1214

00:43:48,870 --> 00:43:45,440

whale's stomach

1215

00:43:49,910 --> 00:43:48,880

back in 1937 on a place called queen

1216

00:43:52,710 --> 00:43:49,920

charlotte island

1217

00:43:53,510 --> 00:43:52,720

in uh in uh at a place called maiden

1218

00:43:55,109 --> 00:43:53,520

harbor

1219

00:43:57,270 --> 00:43:55,119

and these whale cleansers who were the

1220

00:43:59,109 --> 00:43:57,280

guys that cleaned the whales when they

1221

00:44:00,470 --> 00:43:59,119

the whalers used to drag in these sperm

1222

00:44:02,069 --> 00:44:00,480

whales and things and they would clean

1223

00:44:03,990 --> 00:44:02,079

them out

1224

00:44:05,990 --> 00:44:04,000

and kind of get the blubber and all that

1225

00:44:07,829 --> 00:44:06,000

stuff they found this like snake-like

1226
00:44:10,550 --> 00:44:07,839
animal plopped out of the stomach and it

1227
00:44:12,790 --> 00:44:10,560
was about 12 or 14 feet long

1228
00:44:14,230 --> 00:44:12,800
it had kind of a weird camel or horse

1229
00:44:16,630 --> 00:44:14,240
like head

1230
00:44:18,230 --> 00:44:16,640
it had a kind of a fluke tail and two

1231
00:44:20,150 --> 00:44:18,240
flippers on the front end and

1232
00:44:21,990 --> 00:44:20,160
it didn't seem to be rotting and

1233
00:44:23,750 --> 00:44:22,000
decomposing it seemed to be fairly

1234
00:44:25,510 --> 00:44:23,760
well intact like it had just been eaten

1235
00:44:27,030 --> 00:44:25,520
by this whale

1236
00:44:30,309 --> 00:44:27,040
and no one had ever seen anything like

1237
00:44:33,910 --> 00:44:30,319
it before uh none of the people there so

1238
00:44:36,550 --> 00:44:33,920

the guy in charge whose name was hubbard

1239

00:44:38,630 --> 00:44:36,560

he uh he had them lay this animal out on

1240

00:44:40,630 --> 00:44:38,640

some boxes you just showed a photo and

1241

00:44:43,109 --> 00:44:40,640

they put a white white sheets behind it

1242

00:44:45,430 --> 00:44:43,119

for contrast they took some photographs

1243

00:44:47,990 --> 00:44:45,440

and um the photographs were later

1244

00:44:51,670 --> 00:44:48,000

published in some newspapers and things

1245

00:44:53,990 --> 00:44:51,680

um sadly uh tragically no one knows what

1246

00:44:56,150 --> 00:44:54,000

happened the actual carcass itself it

1247

00:44:57,750 --> 00:44:56,160

seemed to have disappeared there was a

1248

00:44:58,550 --> 00:44:57,760

rumor that some of the remains may have

1249

00:45:01,510 --> 00:44:58,560

been sent to a

1250

00:45:02,589 --> 00:45:01,520

museum in british columbia uh but you

1251

00:45:04,069 --> 00:45:02,599

know it may have just been

1252

00:45:06,390 --> 00:45:04,079

unceremoniously dumped

1253

00:45:07,750 --> 00:45:06,400

back into the ocean who knows anyways

1254

00:45:11,670 --> 00:45:07,760

this particular photo

1255

00:45:14,150 --> 00:45:11,680

is weird as it looks it fits the classic

1256

00:45:17,430 --> 00:45:14,160

archetypical sea serpent in terms of the

1257

00:45:20,950 --> 00:45:17,440

horse-like head the long snake-like body

1258

00:45:22,630 --> 00:45:20,960

the two flippers and the the skin or

1259

00:45:24,390 --> 00:45:22,640

you know it's got it seems to have maybe

1260

00:45:25,430 --> 00:45:24,400

even like a mane or something going down

1261

00:45:27,510 --> 00:45:25,440

the back so it kind of fits the

1262

00:45:29,829 --> 00:45:27,520

description that would be a smaller

1263

00:45:32,150 --> 00:45:29,839

sea serpent since the people have

1264

00:45:33,109 --> 00:45:32,160

described them being like 40 to 60 feet

1265

00:45:37,670 --> 00:45:33,119

long

1266

00:45:42,230 --> 00:45:37,680

it would be a juvenile perhaps

1267

00:45:44,470 --> 00:45:42,240

but even skeptics of cryptozoology

1268

00:45:45,430 --> 00:45:44,480

uh have looked at this photograph and

1269

00:45:48,309 --> 00:45:45,440

said

1270

00:45:49,910 --> 00:45:48,319

you know this i mean it's not impossible

1271

00:45:51,589 --> 00:45:49,920

that this was a real animal that's just

1272

00:45:53,430 --> 00:45:51,599

unknown you know and it's nothing we've

1273

00:45:56,870 --> 00:45:53,440

ever seen before so

1274

00:45:58,870 --> 00:45:56,880

i don't know i i again it looks to me

1275

00:46:00,710 --> 00:45:58,880

it it doesn't look like a plesiosaur

1276

00:46:02,550 --> 00:46:00,720

right it's clearly whatever that thing

1277

00:46:05,349 --> 00:46:02,560

is it's a mammal

1278

00:46:07,829 --> 00:46:05,359

and um the thing that it most resembles

1279

00:46:09,510 --> 00:46:07,839

would again be one of these ancient

1280

00:46:11,829 --> 00:46:09,520

snake-like whales that that i was

1281

00:46:12,390 --> 00:46:11,839

talking about bacillus ores or archaea

1282

00:46:14,950 --> 00:46:12,400

seeds

1283

00:46:16,069 --> 00:46:14,960

it's not exactly like but closest to

1284

00:46:17,670 --> 00:46:16,079

that

1285

00:46:19,190 --> 00:46:17,680

you know like almost like it would have

1286

00:46:20,870 --> 00:46:19,200

evolved from something like that

1287

00:46:22,550 --> 00:46:20,880

so i don't know i think that that is

1288

00:46:25,829 --> 00:46:22,560

pretty compelling evidence

1289

00:46:29,510 --> 00:46:25,839

and and that that photo itself kind of

1290

00:46:33,270 --> 00:46:29,520

reminds me of some of the depictions

1291

00:46:35,510 --> 00:46:33,280

of uh champ that people have made

1292

00:46:36,710 --> 00:46:35,520

over the years yep uh with that

1293

00:46:39,990 --> 00:46:36,720

horse-like head

1294

00:46:43,109 --> 00:46:40,000

and uh of course he had the man's a

1295

00:46:45,109 --> 00:46:43,119

photograph but yeah you know some people

1296

00:46:49,430 --> 00:46:45,119

have seen

1297

00:46:51,829 --> 00:46:49,440

described it with that horse-like head

1298

00:46:53,510 --> 00:46:51,839

so uh that's kind of what i related to

1299

00:46:56,710 --> 00:46:53,520

and i i think there have been some

1300

00:46:59,430 --> 00:46:56,720

expeditions up in the region

1301
00:46:59,910 --> 00:46:59,440
uh to in there's a particular lake and i

1302
00:47:02,710 --> 00:46:59,920
forget

1303
00:47:04,150 --> 00:47:02,720
the lake off hand where there have not

1304
00:47:06,069 --> 00:47:04,160
and it hasn't been too long ago where

1305
00:47:10,309 --> 00:47:06,079
they had actually gone in there

1306
00:47:13,589 --> 00:47:10,319
looking for something similar to this

1307
00:47:15,990 --> 00:47:13,599
yeah and um so presumably

1308
00:47:17,589 --> 00:47:16,000
the cadbury saurus and again there are

1309
00:47:19,589 --> 00:47:17,599
many sightings there off the

1310
00:47:21,510 --> 00:47:19,599
the coast of bc that predate the loch

1311
00:47:24,950 --> 00:47:21,520
ness monster even

1312
00:47:26,950 --> 00:47:24,960
um and and the lake champlain monster he

1313
00:47:27,990 --> 00:47:26,960

pretty predates both of those there were

1314

00:47:31,430 --> 00:47:28,000

there was a big

1315

00:47:34,150 --> 00:47:31,440

champs flat back in 1873 so

1316

00:47:35,270 --> 00:47:34,160

pt barnum actually put out a reward so i

1317

00:47:36,630 --> 00:47:35,280

mean it was a

1318

00:47:38,870 --> 00:47:36,640

so yeah these things have been around

1319

00:47:41,200 --> 00:47:38,880

for a long time uh whatever they are

1320

00:47:42,309 --> 00:47:41,210

if they exist and um

1321

00:47:44,390 --> 00:47:42,319

[Music]

1322

00:47:46,069 --> 00:47:44,400

so again i think the uh the naden harbor

1323

00:47:47,990 --> 00:47:46,079

carcasses is a compelling

1324

00:47:50,309 --> 00:47:48,000

now i talk about there's a chapter in my

1325

00:47:52,790 --> 00:47:50,319

book that's dedicated to

1326

00:47:55,109 --> 00:47:52,800

uh uh some can some confounding

1327

00:47:57,190 --> 00:47:55,119

carcasses is the title of the chapter

1328

00:47:59,750 --> 00:47:57,200

and it's true there have been many cases

1329

00:48:00,150 --> 00:47:59,760

of animal carcasses that have washed up

1330

00:48:05,349 --> 00:48:00,160

shore

1331

00:48:07,990 --> 00:48:05,359

ultimately identified were originally

1332

00:48:10,630 --> 00:48:08,000

called monsters or sea serpents

1333

00:48:12,950 --> 00:48:10,640

and you know the most famous of is like

1334

00:48:15,349 --> 00:48:12,960

the strong say beast which was

1335

00:48:17,190 --> 00:48:15,359

you know up in uh you know the orkney

1336

00:48:20,470 --> 00:48:17,200

islands off the coast of scotland back

1337

00:48:23,510 --> 00:48:20,480

in uh

1338

00:48:25,030 --> 00:48:23,520

early 1800's and then you had um

1339

00:48:27,109 --> 00:48:25,040

you know many other examples but all of

1340

00:48:29,109 --> 00:48:27,119

those have been subsequently identified

1341

00:48:30,950 --> 00:48:29,119

as being either rotting decomposing

1342

00:48:33,670 --> 00:48:30,960

basking sharks

1343

00:48:35,990 --> 00:48:33,680

or whale carcasses and another famous

1344

00:48:37,109 --> 00:48:36,000

one of course is the zayomaru carcass

1345

00:48:39,190 --> 00:48:37,119

which was

1346

00:48:40,710 --> 00:48:39,200

pulled up out of the ocean off the coast

1347

00:48:43,510 --> 00:48:40,720

of new zealand by a

1348

00:48:44,870 --> 00:48:43,520

japanese trawler in 1977 and everyone

1349

00:48:46,309 --> 00:48:44,880

has seen the photo of this thing like

1350

00:48:47,750 --> 00:48:46,319

kind of hanging

1351

00:48:49,589 --> 00:48:47,760

from ropes and it looks like a

1352

00:48:51,990 --> 00:48:49,599

plesiosaur

1353

00:48:53,990 --> 00:48:52,000

um you know hasn't been definitively

1354

00:48:56,150 --> 00:48:54,000

i've been identified as a basking shirt

1355

00:48:59,349 --> 00:48:56,160

but it seems to be based on

1356

00:49:02,390 --> 00:48:59,359

studies that have been done on its uh

1357

00:49:04,309 --> 00:49:02,400

physical composition and things so

1358

00:49:05,910 --> 00:49:04,319

um yeah so you know that that would be

1359

00:49:08,069 --> 00:49:05,920

the hope is that if these animals

1360

00:49:10,309 --> 00:49:08,079

actually exist that one day

1361

00:49:12,309 --> 00:49:10,319

one of them will actually wash up on a

1362

00:49:15,510 --> 00:49:12,319

on a beach somewhere

1363

00:49:17,750 --> 00:49:15,520

but um you know the oceans are vast and

1364

00:49:20,470 --> 00:49:17,760

deep lawn i mean

1365

00:49:22,630 --> 00:49:20,480

71 of the earth's surface is covered by

1366

00:49:25,990 --> 00:49:22,640

deep water that's averaging 12

1367

00:49:26,470 --> 00:49:26,000

000 feet deep i mean that's that's way

1368

00:49:28,390 --> 00:49:26,480

deep

1369

00:49:30,309 --> 00:49:28,400

and so there's definitely things down

1370

00:49:33,030 --> 00:49:30,319

there that we haven't seen yet yeah i

1371

00:49:37,750 --> 00:49:33,040

think we'd be shocked if we actually

1372

00:49:40,950 --> 00:49:37,760

knew what was down there you know uh

1373

00:49:43,430 --> 00:49:40,960

the possibilities are endless i believe

1374

00:49:45,190 --> 00:49:43,440

uh you know and if anybody has seen it

1375

00:49:46,230 --> 00:49:45,200

they either didn't live to tell about it

1376

00:49:52,549 --> 00:49:46,240

or

1377

00:49:55,750 --> 00:49:52,559

but uh yeah i um

1378

00:49:58,309 --> 00:49:55,760

i don't know i you know i you know

1379

00:50:00,069 --> 00:49:58,319

lake creatures ocean creatures hasn't

1380

00:50:02,790 --> 00:50:00,079

really been my forte though

1381

00:50:04,549 --> 00:50:02,800

i would talk about it i do i am

1382

00:50:06,470 --> 00:50:04,559

interested in it of course

1383

00:50:08,549 --> 00:50:06,480

everybody's been interested in the loch

1384

00:50:10,870 --> 00:50:08,559

ness monster but

1385

00:50:12,150 --> 00:50:10,880

well i mean you know after you start

1386

00:50:14,870 --> 00:50:12,160

looking into it and there's

1387

00:50:15,589 --> 00:50:14,880

many lakes especially in the united

1388

00:50:18,630 --> 00:50:15,599

states

1389

00:50:21,190 --> 00:50:18,640

in north america and

1390

00:50:23,910 --> 00:50:21,200

a lot of it comes from indian or native

1391

00:50:27,190 --> 00:50:23,920

american lore and such

1392

00:50:29,109 --> 00:50:27,200

you know uh but people do

1393

00:50:30,470 --> 00:50:29,119

in modern times do seem to see them i

1394

00:50:32,950 --> 00:50:30,480

mean you mentioned

1395

00:50:33,510 --> 00:50:32,960

uh lake champlain and there was a

1396

00:50:35,750 --> 00:50:33,520

sighting

1397

00:50:37,750 --> 00:50:35,760

uh there back in the 1800s from a

1398

00:50:39,670 --> 00:50:37,760

steamboat

1399

00:50:41,670 --> 00:50:39,680

where people had actually seen this

1400

00:50:44,390 --> 00:50:41,680

thing of course the abc

1401
00:50:45,829 --> 00:50:44,400
film at lake champlain has always

1402
00:50:47,190 --> 00:50:45,839
fascinated me

1403
00:50:49,109 --> 00:50:47,200
i don't know what the hell that thing

1404
00:50:51,109 --> 00:50:49,119
was but you know

1405
00:50:52,710 --> 00:50:51,119
it was pretty it was pretty convincing

1406
00:50:54,150 --> 00:50:52,720
to me that there was something in there

1407
00:50:56,470 --> 00:50:54,160
that really

1408
00:50:58,309 --> 00:50:56,480
scientifically shouldn't have been there

1409
00:51:00,069 --> 00:50:58,319
yeah there are a few compelling photos

1410
00:51:01,430 --> 00:51:00,079
and we didn't really get

1411
00:51:03,109 --> 00:51:01,440
we haven't had a chance to get into it

1412
00:51:05,510 --> 00:51:03,119
too much but you know there's a lot of

1413
00:51:06,950 --> 00:51:05,520

sonar evidence for these animals yeah

1414

00:51:11,190 --> 00:51:06,960

i mean in loch ness there have been

1415

00:51:12,790 --> 00:51:11,200

sonar contacts dating back to 1954

1416

00:51:14,470 --> 00:51:12,800

quite a few actually by different

1417

00:51:16,710 --> 00:51:14,480

scientific teams through the years

1418

00:51:18,230 --> 00:51:16,720

using different levels of sonar

1419

00:51:18,790 --> 00:51:18,240

technology as it's gotten better and

1420

00:51:20,630 --> 00:51:18,800

better

1421

00:51:22,630 --> 00:51:20,640

as recently as september of last year

1422

00:51:24,790 --> 00:51:22,640

there was a sonar contact

1423

00:51:27,349 --> 00:51:24,800

made by a boat skipper there on loch

1424

00:51:29,270 --> 00:51:27,359

ness who has a tour boat and

1425

00:51:30,950 --> 00:51:29,280

uh i think ronald o'brien was his name

1426

00:51:34,309 --> 00:51:30,960

and this thing was like 500 feet

1427

00:51:36,950 --> 00:51:34,319

deep and it was basically this long

1428

00:51:39,829 --> 00:51:36,960

looked like a solid animal about 15 feet

1429

00:51:41,430 --> 00:51:39,839

long or i'm sorry 20 to 30 feet long

1430

00:51:43,109 --> 00:51:41,440

and uh so there's a lot of sonar

1431

00:51:45,190 --> 00:51:43,119

contacts in

1432

00:51:46,710 --> 00:51:45,200

loch ness also in lake champlain there

1433

00:51:48,390 --> 00:51:46,720

have been there's been sonar evidence

1434

00:51:51,349 --> 00:51:48,400

even some recently

1435

00:51:52,870 --> 00:51:51,359

um and some of these other lakes too so

1436

00:51:54,150 --> 00:51:52,880

i mean that's a whole nother level of

1437

00:51:55,829 --> 00:51:54,160

evidence that

1438

00:51:57,910 --> 00:51:55,839

you know and of course everyone out

1439

00:51:59,510 --> 00:51:57,920

there your listeners are very educated

1440

00:52:00,630 --> 00:51:59,520

so they know what sonar is it's

1441

00:52:02,710 --> 00:52:00,640

basically

1442

00:52:03,990 --> 00:52:02,720

you know like these fish finders they're

1443

00:52:05,750 --> 00:52:04,000

just beaming sound waves

1444

00:52:08,470 --> 00:52:05,760

through the water and then they bounce

1445

00:52:10,230 --> 00:52:08,480

off of targets and echo back to a

1446

00:52:12,069 --> 00:52:10,240

transponder and you basically get a

1447

00:52:14,630 --> 00:52:12,079

contact of something

1448

00:52:15,270 --> 00:52:14,640

sometimes it's a small fish but you know

1449

00:52:17,349 --> 00:52:15,280

these these

1450

00:52:18,950 --> 00:52:17,359

the ones that i'm talking about are

1451
00:52:20,710 --> 00:52:18,960
they're not schools of fish according to

1452
00:52:22,630 --> 00:52:20,720
people that have analyzed the contacts

1453
00:52:25,990 --> 00:52:22,640
they're like solid objects

1454
00:52:27,430 --> 00:52:26,000
that are animate and moving and big

1455
00:52:29,510 --> 00:52:27,440
so i mean that's that's a whole other

1456
00:52:31,349 --> 00:52:29,520
level of evidence so you know maybe as

1457
00:52:32,230 --> 00:52:31,359
the technology gets better lawn you know

1458
00:52:34,870 --> 00:52:32,240
with sonar

1459
00:52:35,750 --> 00:52:34,880
and underwater cameras and now you have

1460
00:52:37,750 --> 00:52:35,760
edna

1461
00:52:39,910 --> 00:52:37,760
and that's that's taking place at loch

1462
00:52:41,430 --> 00:52:39,920
ness so with all this new technology

1463
00:52:42,470 --> 00:52:41,440

there is a chance that maybe we'll at

1464

00:52:45,430 --> 00:52:42,480

least get a

1465

00:52:46,790 --> 00:52:45,440

definitive answers to the uh the lake

1466

00:52:49,910 --> 00:52:46,800

monster mystery

1467

00:52:52,470 --> 00:52:49,920

well we can only hope really yeah

1468

00:52:53,589 --> 00:52:52,480

um now i'm going to go completely off

1469

00:52:56,069 --> 00:52:53,599

subject

1470

00:52:57,589 --> 00:52:56,079

and ask you you about a year and a half

1471

00:53:00,549 --> 00:52:57,599

ago you were involved with

1472

00:53:02,230 --> 00:53:00,559

the film terror in the skies from small

1473

00:53:05,630 --> 00:53:02,240

town monsters

1474

00:53:09,349 --> 00:53:05,640

and uh of course you you know about our

1475

00:53:12,549 --> 00:53:09,359

investigations in chicago lake michigan

1476
00:53:12,950 --> 00:53:12,559
area of these wing human rights i have

1477
00:53:14,470 --> 00:53:12,960
never

1478
00:53:16,549 --> 00:53:14,480
asked you what do you think about that

1479
00:53:19,349 --> 00:53:16,559
phenomenon

1480
00:53:20,950 --> 00:53:19,359
well um you know admittedly lon you're

1481
00:53:22,950 --> 00:53:20,960
gracious enough to send me a lot of

1482
00:53:24,790 --> 00:53:22,960
those accounts early on when they first

1483
00:53:26,549 --> 00:53:24,800
started kind of coming in

1484
00:53:28,150 --> 00:53:26,559
and i read a lot of the eyewitness

1485
00:53:29,430 --> 00:53:28,160
descriptions i haven't personally

1486
00:53:30,309 --> 00:53:29,440
interviewed any of the witnesses but i

1487
00:53:33,589 --> 00:53:30,319
read a lot of the

1488
00:53:37,270 --> 00:53:33,599

the descriptions and the early reports

1489

00:53:37,990 --> 00:53:37,280

and um you know i think that it fits the

1490

00:53:41,430 --> 00:53:38,000

traditional

1491

00:53:42,309 --> 00:53:41,440

mothman in terms of you know you have

1492

00:53:45,510 --> 00:53:42,319

basically

1493

00:53:47,910 --> 00:53:45,520

a lot of concentrated accounts in a

1494

00:53:48,710 --> 00:53:47,920

in a short period of time in a specific

1495

00:53:50,549 --> 00:53:48,720

area

1496

00:53:52,230 --> 00:53:50,559

that was kind of the the pattern and

1497

00:53:52,790 --> 00:53:52,240

point pleasant with the original mothman

1498

00:53:54,630 --> 00:53:52,800

right

1499

00:53:56,950 --> 00:53:54,640

and i've investigated similar flying

1500

00:53:58,870 --> 00:53:56,960

humanoid flaps in mexico

1501
00:54:00,549 --> 00:53:58,880
so it sounds like and there's i know

1502
00:54:01,990 --> 00:54:00,559
there's also been one going on in kansas

1503
00:54:04,549 --> 00:54:02,000
city recently as well

1504
00:54:05,270 --> 00:54:04,559
so so you get these kind of it's like

1505
00:54:07,510 --> 00:54:05,280
they just

1506
00:54:09,510 --> 00:54:07,520
you know nobody hears anything from you

1507
00:54:11,430 --> 00:54:09,520
know there are no reports

1508
00:54:12,710 --> 00:54:11,440
you know for any given amount of time or

1509
00:54:14,470 --> 00:54:12,720
that anyone's ever heard of and all of a

1510
00:54:16,150 --> 00:54:14,480
sudden this thing appears

1511
00:54:18,630 --> 00:54:16,160
and people a lot of people are kind of

1512
00:54:20,950 --> 00:54:18,640
seeing it and um

1513
00:54:22,309 --> 00:54:20,960

you know it's uh as far as the flying

1514

00:54:25,990 --> 00:54:22,319

humanoids in general

1515

00:54:28,549 --> 00:54:26,000

i mean i don't view that as a

1516

00:54:30,950 --> 00:54:28,559

zoological problem because you know

1517

00:54:32,630 --> 00:54:30,960

based on the descriptions of

1518

00:54:34,150 --> 00:54:32,640

you know they just it's they're just too

1519

00:54:35,030 --> 00:54:34,160

weird i mean when you're talking about

1520

00:54:38,230 --> 00:54:35,040

combining like

1521

00:54:40,150 --> 00:54:38,240

human-like features with wings and

1522

00:54:42,630 --> 00:54:40,160

you know and then you know they're off

1523

00:54:44,549 --> 00:54:42,640

in the circum the behavior patterns

1524

00:54:46,870 --> 00:54:44,559

you know it's like these these flying

1525

00:54:50,789 --> 00:54:46,880

humanoids are very menacing right they

1526

00:54:52,710 --> 00:54:50,799

they chase cars and they they

1527

00:54:54,069 --> 00:54:52,720

come out of the night and just terrify

1528

00:54:55,430 --> 00:54:54,079

people and stuff

1529

00:54:56,950 --> 00:54:55,440

and they seem to almost and i write

1530

00:54:58,309 --> 00:54:56,960

about this in my book encounters with

1531

00:55:00,230 --> 00:54:58,319

flying humanoids

1532

00:55:02,950 --> 00:55:00,240

it almost seems like these flying

1533

00:55:05,510 --> 00:55:02,960

humanoids whatever they are

1534

00:55:05,990 --> 00:55:05,520

they kind of like feed off of the the

1535

00:55:08,470 --> 00:55:06,000

emotion

1536

00:55:09,910 --> 00:55:08,480

of fear or they're drawn to that that

1537

00:55:12,950 --> 00:55:09,920

emotion

1538

00:55:14,230 --> 00:55:12,960

um but i don't know i view that as more

1539

00:55:16,470 --> 00:55:14,240

of a metaphysical

1540

00:55:18,150 --> 00:55:16,480

thing and so you know i know i know the

1541

00:55:20,630 --> 00:55:18,160

big argument against

1542

00:55:22,549 --> 00:55:20,640

the the you know the michigan chicago

1543

00:55:24,470 --> 00:55:22,559

great lakes mothman flap has been well

1544

00:55:26,309 --> 00:55:24,480

if you know chicago

1545

00:55:28,069 --> 00:55:26,319

come on man why are people saying this

1546

00:55:30,150 --> 00:55:28,079

weird thing in chicago well

1547

00:55:32,829 --> 00:55:30,160

if it's not an animal and if it's more

1548

00:55:35,430 --> 00:55:32,839

of a supernatural or metaphysical

1549

00:55:37,430 --> 00:55:35,440

construct then that at least makes sense

1550

00:55:40,150 --> 00:55:37,440

that it doesn't have to follow any

1551
00:55:41,349 --> 00:55:40,160
zoological rules it can show up wherever

1552
00:55:48,069 --> 00:55:41,359
it

1553
00:55:51,829 --> 00:55:48,079
whatever but um

1554
00:55:53,430 --> 00:55:51,839
i don't know i i i don't really

1555
00:55:55,190 --> 00:55:53,440
you know i know a lot of people like to

1556
00:55:55,829 --> 00:55:55,200
you know in terms of the moth man

1557
00:55:58,630 --> 00:55:55,839
there's always

1558
00:56:00,789 --> 00:55:58,640
of course the um the silver bridge

1559
00:56:03,510 --> 00:56:00,799
tragedy is

1560
00:56:05,270 --> 00:56:03,520
connected and so there's this uh this

1561
00:56:06,870 --> 00:56:05,280
worldwide view that these flying

1562
00:56:10,630 --> 00:56:06,880
humanoids like mothman

1563
00:56:12,950 --> 00:56:10,640

are basically harbingers or or omen

1564

00:56:14,710 --> 00:56:12,960

you know an omen of some kind of some

1565

00:56:16,789 --> 00:56:14,720

but you know

1566

00:56:18,150 --> 00:56:16,799

i mean in terms of the chicago area you

1567

00:56:19,190 --> 00:56:18,160

know that would be interesting and you

1568

00:56:22,950 --> 00:56:19,200

know where these

1569

00:56:24,230 --> 00:56:22,960

sightings occurred to my head to my

1570

00:56:25,670 --> 00:56:24,240

knowledge has there had there hasn't

1571

00:56:27,349 --> 00:56:25,680

been any kind of like

1572

00:56:28,789 --> 00:56:27,359

tragedy or anything like that in that

1573

00:56:30,789 --> 00:56:28,799

specific area has there

1574

00:56:32,870 --> 00:56:30,799

yeah not that i know of i mean you know

1575

00:56:35,349 --> 00:56:32,880

chicago's got a lot of issues

1576

00:56:37,030 --> 00:56:35,359

anyway but yeah you know as far as

1577

00:56:38,150 --> 00:56:37,040

anything that we can connect to the

1578

00:56:40,150 --> 00:56:38,160

phenomena

1579

00:56:42,470 --> 00:56:40,160

no we just haven't really had that you

1580

00:56:44,630 --> 00:56:42,480

know though i have had

1581

00:56:46,309 --> 00:56:44,640

literally hundreds of people living that

1582

00:56:46,870 --> 00:56:46,319

who live in chicago hadn't seen this

1583

00:56:50,309 --> 00:56:46,880

thing

1584

00:56:51,990 --> 00:56:50,319

who have called me to know ask me what

1585

00:56:53,990 --> 00:56:52,000

the hell is going to happen in chicago

1586

00:56:57,030 --> 00:56:54,000

of course i can't tell them that

1587

00:56:59,750 --> 00:56:57,040

uh but you know people were people were

1588

00:57:01,270 --> 00:56:59,760

frightened of it now of course

1589

00:57:03,349 --> 00:57:01,280

most of the sightings of the past year

1590

00:57:05,430 --> 00:57:03,359

and a half have been at o'hare

1591

00:57:07,510 --> 00:57:05,440

which is crazy you know we're trying to

1592

00:57:10,150 --> 00:57:07,520

really trying to get a

1593

00:57:12,390 --> 00:57:10,160

get a beat on that because that you know

1594

00:57:15,910 --> 00:57:12,400

and of course there's been some

1595

00:57:18,309 --> 00:57:15,920

ufo and possible alien

1596

00:57:19,030 --> 00:57:18,319

involvement as well so i don't know you

1597

00:57:21,430 --> 00:57:19,040

know yeah

1598

00:57:23,270 --> 00:57:21,440

so again it's that whole mothman pattern

1599

00:57:25,190 --> 00:57:23,280

where you have all this kind of weird

1600

00:57:27,030 --> 00:57:25,200

kilian stuff happening together oh

1601
00:57:30,390 --> 00:57:27,040
absolutely yeah

1602
00:57:33,990 --> 00:57:30,400
um yeah i don't know man it's um

1603
00:57:37,109 --> 00:57:34,000
you know i these i've gotten a couple of

1604
00:57:38,950 --> 00:57:37,119
uh mothman or flying humanoid

1605
00:57:40,230 --> 00:57:38,960
experiencers recently that reached out

1606
00:57:42,069 --> 00:57:40,240
to me that said that

1607
00:57:43,750 --> 00:57:42,079
these things actually manifested in

1608
00:57:45,030 --> 00:57:43,760
their house like there was one couple

1609
00:57:45,990 --> 00:57:45,040
that claimed they were laying in their

1610
00:57:48,069 --> 00:57:46,000
bed

1611
00:57:49,829 --> 00:57:48,079
and it was like hovering it came in and

1612
00:57:51,190 --> 00:57:49,839
it was hovering over them in the bedroom

1613
00:57:52,870 --> 00:57:51,200

and that was a pretty

1614

00:57:54,309 --> 00:57:52,880

harrowing account so i mean i can't

1615

00:57:55,829 --> 00:57:54,319

imagine how terrifying something like

1616

00:57:57,510 --> 00:57:55,839

that would be so again

1617

00:57:59,430 --> 00:57:57,520

you know this is not whatever this

1618

00:58:01,109 --> 00:57:59,440

phenomenon is

1619

00:58:03,030 --> 00:58:01,119

and i you know no people don't always

1620

00:58:05,430 --> 00:58:03,040

connect this like i do but i i

1621

00:58:06,470 --> 00:58:05,440

i see a lot of parallels to the dog man

1622

00:58:08,950 --> 00:58:06,480

phenomenon too

1623

00:58:10,870 --> 00:58:08,960

because you know like like the flying

1624

00:58:12,789 --> 00:58:10,880

humanoids dog man doesn't fit

1625

00:58:14,870 --> 00:58:12,799

into the paradigm of the natural world

1626

00:58:17,270 --> 00:58:14,880

it's not a fleshy blood

1627

00:58:18,390 --> 00:58:17,280

along the same lines as me and it

1628

00:58:21,030 --> 00:58:18,400

appears

1629

00:58:22,069 --> 00:58:21,040

it behaves a lot of the same ways and it

1630

00:58:24,230 --> 00:58:22,079

vanishes and

1631

00:58:25,349 --> 00:58:24,240

you know there are green mists and

1632

00:58:27,990 --> 00:58:25,359

popping noises

1633

00:58:30,150 --> 00:58:28,000

and you know it's yeah so i don't know

1634

00:58:33,190 --> 00:58:30,160

i'm not i'm not a paranormal

1635

00:58:35,270 --> 00:58:33,200

researcher per se but that's that's how

1636

00:58:37,030 --> 00:58:35,280

a lot of that feels is that it's it's

1637

00:58:38,309 --> 00:58:37,040

just something you know not of this

1638

00:58:41,109 --> 00:58:38,319

earth and

1639

00:58:42,549 --> 00:58:41,119

i'm i'm not and i'm not too humble to

1640

00:58:45,109 --> 00:58:42,559

say lon that

1641

00:58:46,150 --> 00:58:45,119

that type of stuff is beyond my

1642

00:58:48,230 --> 00:58:46,160

understanding

1643

00:58:49,190 --> 00:58:48,240

i don't i don't unders i don't have the

1644

00:58:52,470 --> 00:58:49,200

answers and i

1645

00:58:54,150 --> 00:58:52,480

you know i think i think humans should

1646

00:58:55,829 --> 00:58:54,160

get comfortable with that notion that

1647

00:58:56,789 --> 00:58:55,839

there are things in our world in our

1648

00:58:58,870 --> 00:58:56,799

universe

1649

00:59:00,549 --> 00:58:58,880

that maybe just are not understandable

1650

00:59:02,470 --> 00:59:00,559

that we're just not there yet in terms

1651
00:59:03,510 --> 00:59:02,480
of being able to grasp exactly what's

1652
00:59:06,789 --> 00:59:03,520
going on

1653
00:59:07,190 --> 00:59:06,799
absolutely well it's been a conundrum to

1654
00:59:14,230 --> 00:59:07,200
us

1655
00:59:16,230 --> 00:59:14,240
you know how that is yeah well you know

1656
00:59:17,030 --> 00:59:16,240
you're to be commended for documenting

1657
00:59:19,829 --> 00:59:17,040
all of those

1658
00:59:21,430 --> 00:59:19,839
those sightings and and putting them out

1659
00:59:23,430 --> 00:59:21,440
there and you know people can form their

1660
00:59:26,230 --> 00:59:23,440
own opinions you know based on

1661
00:59:27,990 --> 00:59:26,240
sure you know reading your books or

1662
00:59:29,270 --> 00:59:28,000
looking into the cases more if they like

1663
00:59:34,069 --> 00:59:29,280

so

1664

00:59:35,030 --> 00:59:34,079

tell the folks how they get contact with

1665

00:59:41,190 --> 00:59:35,040

you

1666

00:59:42,950 --> 00:59:41,200

forthcoming well thanks again for having

1667

00:59:43,589 --> 00:59:42,960

me online it's always an honor to be on

1668

00:59:45,750 --> 00:59:43,599

your show

1669

00:59:46,950 --> 00:59:45,760

i've been been here many times and i've

1670

00:59:49,990 --> 00:59:46,960

appreciated it

1671

00:59:51,789 --> 00:59:50,000

each and every time um so

1672

00:59:54,069 --> 00:59:51,799

people can contact me on my website

1673

00:59:55,750 --> 00:59:54,079

kengerhart.com but i'm also all over

1674

00:59:58,630 --> 00:59:55,760

social media

1675

01:00:00,470 --> 00:59:58,640

facebook twitter instagram and now even

1676

01:00:01,510 --> 01:00:00,480

the dreaded tick tock i've i've had to

1677

01:00:04,630 --> 01:00:01,520

get on there so

1678

01:00:05,030 --> 01:00:04,640

um i have a youtube channel i've got

1679

01:00:06,950 --> 01:00:05,040

some

1680

01:00:08,470 --> 01:00:06,960

cool little short cryptid videos that

1681

01:00:08,789 --> 01:00:08,480

that i do if people want to check that

1682

01:00:12,150 --> 01:00:08,799

out

1683

01:00:13,430 --> 01:00:12,160

and uh so yeah i'm contactable as far as

1684

01:00:14,870 --> 01:00:13,440

what i have going on right now i'm going

1685

01:00:16,950 --> 01:00:14,880

to be doing a lot of lectures around the

1686

01:00:19,030 --> 01:00:16,960

country at different bigfoot conferences

1687

01:00:20,309 --> 01:00:19,040

and hopefully some folks will come out

1688

01:00:22,870 --> 01:00:20,319

and uh

1689

01:00:24,789 --> 01:00:22,880

see me um but i'm getting ready in a

1690

01:00:26,829 --> 01:00:24,799

month uh i'm headed with a group from

1691

01:00:29,030 --> 01:00:26,839

texas and oklahoma out to northern

1692

01:00:30,950 --> 01:00:29,040

california and we're doing a

1693

01:00:33,829 --> 01:00:30,960

an eight-day expedition to search for

1694

01:00:36,789 --> 01:00:33,839

alleged evidence of giant salamanders

1695

01:00:38,710 --> 01:00:36,799

which have been reported um that are

1696

01:00:40,150 --> 01:00:38,720

reported in native american lore up

1697

01:00:41,990 --> 01:00:40,160

there but also

1698

01:00:43,829 --> 01:00:42,000

many sightings in the in the 20th

1699

01:00:46,710 --> 01:00:43,839

century and these are like supposed to

1700

01:00:49,750 --> 01:00:46,720

be like five foot long salamanders

1701

01:00:52,470 --> 01:00:49,760

um similar in size to the asians

1702

01:00:54,390 --> 01:00:52,480

giant asian species like the chinese and

1703

01:00:56,230 --> 01:00:54,400

japanese giant salamanders but

1704

01:00:57,910 --> 01:00:56,240

it could be something else um we don't

1705

01:00:59,990 --> 01:00:57,920

know we don't know if they even exist

1706

01:01:01,750 --> 01:01:00,000

but we're gonna go out there and search

1707

01:01:03,990 --> 01:01:01,760

for them and then uh

1708

01:01:04,950 --> 01:01:04,000

so i'm excited about that and uh oh and

1709

01:01:06,710 --> 01:01:04,960

we do have a uh

1710

01:01:08,870 --> 01:01:06,720

you know i i hate to be that guy but we

1711

01:01:11,670 --> 01:01:08,880

do have a gofundme because

1712

01:01:12,230 --> 01:01:11,680

you know in cryptozoology there aren't

1713

01:01:15,589 --> 01:01:12,240

there there's

1714

01:01:16,630 --> 01:01:15,599

there are no grants there's no sponsor

1715

01:01:18,390 --> 01:01:16,640

it's just us

1716

01:01:21,030 --> 01:01:18,400

basically going out you know out of our

1717

01:01:23,109 --> 01:01:21,040

pocket to do this and we love to do it

1718

01:01:24,789 --> 01:01:23,119

but uh if anyone out there wants to to

1719

01:01:26,950 --> 01:01:24,799

get involved we could definitely use

1720

01:01:28,870 --> 01:01:26,960

some donations to help us just kind of

1721

01:01:30,630 --> 01:01:28,880

pay for our rental car and our gas money

1722

01:01:35,109 --> 01:01:30,640

to drive

1723

01:01:38,630 --> 01:01:37,030

anyway i know you more than anybody

1724

01:01:38,950 --> 01:01:38,640

because you're out there all the time

1725

01:01:43,670 --> 01:01:38,960

and

1726

01:01:45,589 --> 01:01:43,680

i'm passionate about it but

1727

01:01:46,789 --> 01:01:45,599

people don't understand that there's not

1728

01:01:49,270 --> 01:01:46,799

a lot of

1729

01:01:50,710 --> 01:01:49,280

you know there's not there isn't the

1730

01:01:52,789 --> 01:01:50,720

fame and glory and

1731

01:01:53,910 --> 01:01:52,799

wealth that people often imagine with

1732

01:01:55,349 --> 01:01:53,920

this kind of thing we

1733

01:01:57,589 --> 01:01:55,359

those of us that do it we do it because

1734

01:02:00,549 --> 01:01:57,599

we love it we're passionate about it

1735

01:02:01,829 --> 01:02:00,559

and uh you know it's a living but it is

1736

01:02:03,829 --> 01:02:01,839

expensive to to

1737

01:02:05,589 --> 01:02:03,839

do a lot of this kind of research you

1738

01:02:09,270 --> 01:02:05,599

know because you gotta travel and

1739

01:02:11,510 --> 01:02:09,280

buy equipment and stuff so anyways

1740

01:02:12,870 --> 01:02:11,520

what can best all the power to you man i

1741

01:02:14,870 --> 01:02:12,880

appreciate you coming home with me

1742

01:02:15,910 --> 01:02:14,880

tonight and uh it's always good to talk

1743

01:02:19,029 --> 01:02:15,920

to you

1744

01:02:21,349 --> 01:02:19,039

and uh let's keep in touch

1745

01:02:22,950 --> 01:02:21,359

same here law and uh thanks to everyone

1746

01:02:23,589 --> 01:02:22,960

that uh in the chat room everyone that

1747

01:02:25,990 --> 01:02:23,599

1748

01:02:27,270 --> 01:02:26,000

and uh yeah hopefully we'll talk again

1749

01:02:30,230 --> 01:02:27,280
