1  
00:00:13,030 --> 00:00:11,509  
we live in a reality of phantoms and

2  
00:00:15,990 --> 00:00:13,040  
monsters

3  
00:00:17,189 --> 00:00:16,000  
they exist among us and sometimes they

4  
00:00:20,550 --> 00:00:17,199  
win

5  
00:00:23,029 --> 00:00:20,560  
even the devil was an angel once

6  
00:00:26,070 --> 00:00:23,039  
the world has its own rules

7  
00:00:28,870 --> 00:00:26,080  
and these rules are not human

8  
00:00:31,109 --> 00:00:28,880  
some of us seek answers to the origin

9  
00:00:33,190 --> 00:00:31,119  
and existence of cryptids in the

10  
00:00:36,549 --> 00:00:33,200  
unexplained

11  
00:00:38,869 --> 00:00:36,559  
join us as we venture beyond the known

12  
00:00:41,030 --> 00:00:38,879  
and accepted boundaries

13  
00:00:47,120 --> 00:00:41,040

welcome to our nightmare

14

00:00:58,549 --> 00:00:56,229

so tonight we're discussing bigfoot

29

00:01:33,990 --> 00:01:31,840

and we have three very experienced

30

00:01:36,230 --> 00:01:34,000

researchers and investigators joining

31

00:01:38,469 --> 00:01:36,240

the round table

32

00:01:40,310 --> 00:01:38,479

shane corson was born in scotland and

33

00:01:41,990 --> 00:01:40,320

moved to san diego california when he

34

00:01:43,350 --> 00:01:42,000

was a teenager

35

00:01:45,350 --> 00:01:43,360

shane has always been an avid

36

00:01:46,469 --> 00:01:45,360

outdoorsman adventure at heart and

37

00:01:48,950 --> 00:01:46,479

interested

38

00:01:51,030 --> 00:01:48,960

in discovering new things shane loves

39

00:01:53,510 --> 00:01:51,040

tracking hiking fishing

40

00:01:56,310 --> 00:01:53,520

and testing his survivalist skills

41

00:01:58,630 --> 00:01:56,320

in 1997 he started doing field research

42

00:01:59,990 --> 00:01:58,640

on the subject of bigfoot and spoke with

43

00:02:01,990 --> 00:02:00,000

eyewitnesses

44

00:02:03,910 --> 00:02:02,000

who had possible encounters primarily in

45

00:02:06,069 --> 00:02:03,920

the san bernardino mountains yosemite

46

00:02:09,190 --> 00:02:06,079

and northern california

47

00:02:10,949 --> 00:02:09,200

shane moved to oregon in 2008

48

00:02:14,309 --> 00:02:10,959

and continued his research in the

49

00:02:16,550 --> 00:02:14,319

pacific northwest in 2011 his research

50

00:02:18,710 --> 00:02:16,560

became all too real to him when he had

51  
00:02:21,030 --> 00:02:18,720  
his own bigfoot encounter

52  
00:02:23,270 --> 00:02:21,040  
shane's passion and methodology along

53  
00:02:26,150 --> 00:02:23,280  
with his ambitions of furthering the

54  
00:02:28,470 --> 00:02:26,160  
research of bigfoot evacuated him to

55  
00:02:30,070 --> 00:02:28,480  
becoming the proud member of the olympic

56  
00:02:31,830 --> 00:02:30,080  
project

57  
00:02:34,869 --> 00:02:31,840  
now carter bouchard has been an

58  
00:02:37,910 --> 00:02:34,879

he is a true boots on the ground

73

00:03:09,750 --> 00:03:08,159

desktop warrior

75

00:03:13,830 --> 00:03:11,680

he has met and visited the properties of

76

00:03:15,670 --> 00:03:13,840

nearly a half of the witnesses whose

77

00:03:17,589 --> 00:03:15,680

111  
00:04:35,990 --> 00:04:33,759  
team so guys thanks for coming on this

112  
00:04:38,950 --> 00:04:36,000  
evening

113  
00:04:44,390 --> 00:04:42,150

yep thanks for having us

114

00:04:46,310 --> 00:04:44,400

so uh i guess the first question is

115

00:04:48,870 --> 00:04:46,320

going to be

116

00:04:52,070 --> 00:04:48,880

and i'll start off with shane uh what is

117

00:04:53,909 --> 00:04:52,080

the allure of bigfoot to you i mean why

118

00:04:56,230 --> 00:04:53,919

have you dedicated

119

00:04:59,350 --> 00:04:56,240

so much effort to investigating this

120

00:05:00,870 --> 00:04:59,360

being in other cryptids

121

00:05:03,029 --> 00:05:00,880

yeah i mean uh

122

00:05:06,550 --> 00:05:03,039

it it's really simple for me uh

123

00:05:08,310 --> 00:05:06,560

sasquatch exists i know them to exist

124

00:05:09,990 --> 00:05:08,320

i can't say that i know

125

00:05:11,510 --> 00:05:10,000

every in and out about them i can't say

126

00:05:13,270 --> 00:05:11,520

i know a whole lot about them but i know

127

00:05:14,629 --> 00:05:13,280

they exist so that's a word to me you

128

00:05:17,510 --> 00:05:14,639

know you have

129

00:05:19,110 --> 00:05:17,520

individuals that have encounters and

130

00:05:21,189 --> 00:05:19,120

some of them um

131

00:05:23,350 --> 00:05:21,199

it rocks their world they become afraid

132

00:05:25,350 --> 00:05:23,360

of going out into nature into the woods

133

00:05:27,270 --> 00:05:25,360

you have others that want to shout to

134

00:05:28,390 --> 00:05:27,280

the world that these things exist

135

00:05:33,270 --> 00:05:28,400

and

136

00:05:36,950 --> 00:05:33,280

like myself that

137

00:05:38,790 --> 00:05:36,960

once this entity is solidified as

138

00:05:39,830 --> 00:05:38,800

existing in it you know being a real

139

00:05:42,070 --> 00:05:39,840

thing

140

00:05:43,830 --> 00:05:42,080

you know you pursue it and so that's

141

00:05:44,790 --> 00:05:43,840

where the passion comes from on my end

142

00:05:46,629 --> 00:05:44,800

and that's

143

00:05:48,390 --> 00:05:46,639

the allure is that

144

00:05:49,830 --> 00:05:48,400

these things exist they're out there and

145

00:05:51,990 --> 00:05:49,840

i want to know as much as i can about

146

00:05:54,469 --> 00:05:52,000

them

147

00:05:56,309 --> 00:05:54,479

about you carter

148

00:05:57,670 --> 00:05:56,319

well i'll mirror what shane said you

149

00:06:00,070 --> 00:05:57,680

know i

150

00:06:01,670 --> 00:06:00,080

i was leading expeditions and i i

151  
00:06:03,110 --> 00:06:01,680  
watched one

152  
00:06:05,029 --> 00:06:03,120  
vanish

153  
00:06:07,430 --> 00:06:05,039  
while watching it on thermal just one

154  
00:06:10,629 --> 00:06:07,440  
step two step boom it just flashlight it

155  
00:06:12,309 --> 00:06:10,639  
was gone and i'm sitting there

156  
00:06:14,710 --> 00:06:12,319  
i got to go to the dark side i got to go

157  
00:06:16,469 --> 00:06:14,720  
to the metaphysical paranormal side

158  
00:06:17,749 --> 00:06:16,479  
because this you know flesh and blood

159  
00:06:20,710 --> 00:06:17,759  
thing

160  
00:06:22,550 --> 00:06:20,720  
doesn't explain that you know and then i

161  
00:06:24,150 --> 00:06:22,560  
started you know accumulate because i'm

162  
00:06:25,749 --> 00:06:24,160  
with bfr i've been doing reports and

163  
00:06:27,189 --> 00:06:25,759

reports and reports these people start

164

00:06:30,230 --> 00:06:27,199

telling me

165

00:06:33,350 --> 00:06:30,240

off the wall stuff and you know and like

166

00:06:35,350 --> 00:06:33,360

shane said as well it changes your life

167

00:06:37,590 --> 00:06:35,360

it changes your perspective you know

168

00:06:39,029 --> 00:06:37,600

your reality has changed from the day

169

00:06:41,749 --> 00:06:39,039

you see one

170

00:06:43,430 --> 00:06:41,759

or experience one and nobody can take

171

00:06:45,430 --> 00:06:43,440

that away from it they can try a lot of

172

00:06:47,990 --> 00:06:45,440

people get ridiculed and all that but

173

00:06:49,830 --> 00:06:48,000

once i saw that one disappear and i was

174

00:06:51,110 --> 00:06:49,840

doing reports and hearing the same thing

175

00:06:53,110 --> 00:06:51,120

i'm going

176

00:06:54,390 --> 00:06:53,120

these people aren't crazy the ones that

177

00:06:56,629 --> 00:06:54,400

are crazy are the ones that are just

178

00:06:58,309 --> 00:06:56,639

ignoring it you know and you don't have

179

00:06:59,830 --> 00:06:58,319

to believe

180

00:07:01,270 --> 00:06:59,840

everything you hear but you need to at

181

00:07:03,350 --> 00:07:01,280

least consider it because we don't have

182

00:07:04,950 --> 00:07:03,360

any answers you know

183

00:07:06,710 --> 00:07:04,960

i've seen them three times all at night

184

00:07:09,029 --> 00:07:06,720

i haven't had a daytime sighting but you

185

00:07:09,990 --> 00:07:09,039

know i've experienced them in other ways

186

00:07:12,390 --> 00:07:10,000

you know

187

00:07:13,189 --> 00:07:12,400

quantum wise metaphysically and it's

188

00:07:15,110 --> 00:07:13,199

just

189

00:07:16,629 --> 00:07:15,120

there's something going on that the

190

00:07:19,110 --> 00:07:16,639

government and others don't want us to

191

00:07:20,950 --> 00:07:19,120

know and that's why i'm knee-deep in

192

00:07:22,870 --> 00:07:20,960

this

193

00:07:24,390 --> 00:07:22,880

how are you ron

194

00:07:25,749 --> 00:07:24,400

well um

195

00:07:27,670 --> 00:07:25,759

i've always been shooting films for

196

00:07:28,790 --> 00:07:27,680

years and we did a lot of horror movies

197

00:07:31,189 --> 00:07:28,800

over the years and just kind of moved

198

00:07:33,589 --> 00:07:31,199

into documentaries but you know bigfoot

199

00:07:35,670 --> 00:07:33,599

goes ufos have always been

200

00:07:37,990 --> 00:07:35,680

a huge interest because the monster

201

00:07:39,749 --> 00:07:38,000

aspect of it all right but

202

00:07:41,990 --> 00:07:39,759

doing the documentaries it was just a

203

00:07:45,189 --> 00:07:42,000

way to kind of put more concrete in it

204

00:07:46,790 --> 00:07:45,199

that these things exist but me uh my

205

00:07:48,950 --> 00:07:46,800

crew were like we always say we're

206

00:07:50,150 --> 00:07:48,960

hopeful believers you know until i see

207

00:07:52,550 --> 00:07:50,160

one or

208

00:07:55,029 --> 00:07:52,560

have a better experience i'm hopeful

209

00:07:56,390 --> 00:07:55,039

that they do exist do i truly believe i

210

00:07:57,749 --> 00:07:56,400

don't know we have a lot of evidence i

211

00:07:59,189 --> 00:07:57,759

have a lot of things that happened to us

212

00:08:00,550 --> 00:07:59,199

while we were filming

213

00:08:02,150 --> 00:08:00,560

all the films

214

00:08:03,110 --> 00:08:02,160

i can't explain

215

00:08:05,270 --> 00:08:03,120

but

216

00:08:07,430 --> 00:08:05,280

until i see one or there's a physical

217

00:08:09,189 --> 00:08:07,440

one there dead or alive you know it's

218

00:08:10,869 --> 00:08:09,199

it's hard to believe until that happens

219

00:08:12,390 --> 00:08:10,879

so i guess that's why we keep making the

220

00:08:14,710 --> 00:08:12,400

films hoping that maybe the evidence

221

00:08:15,830 --> 00:08:14,720

will sink in stronger every time we make

222

00:08:17,029 --> 00:08:15,840

something

223

00:08:18,550 --> 00:08:17,039

you know yeah

224

00:08:21,110 --> 00:08:18,560

well i mean

225

00:08:22,550 --> 00:08:21,120

like shane and and i've had an encounter

226

00:08:24,150 --> 00:08:22,560

and um

227

00:08:26,390 --> 00:08:24,160

you know i never even thought about

228

00:08:27,670 --> 00:08:26,400

bigfoot i mean geez this is back in 81

229

00:08:30,309 --> 00:08:27,680

when i had mine

230

00:08:32,070 --> 00:08:30,319

but i uh you know i had heard a bigfoot

231

00:08:33,670 --> 00:08:32,080

of course i heard the patterson gimlin

232

00:08:35,909 --> 00:08:33,680

film but i had no

233

00:08:37,430 --> 00:08:35,919

intention of doing any investigations

234

00:08:40,149 --> 00:08:37,440

but of course

235

00:08:42,070 --> 00:08:40,159

when i had the encounter that changed

236

00:08:42,949 --> 00:08:42,080

and i started

237

00:08:46,710 --> 00:08:42,959

you know

238

00:08:49,030 --> 00:08:46,720

that kind of changed it kind of changed

239

00:08:51,590 --> 00:08:49,040

me in my perspective as to

240

00:08:53,750 --> 00:08:51,600

to cryptozoology in general

241

00:08:55,670 --> 00:08:53,760

but um

242

00:08:57,990 --> 00:08:55,680

you know and you know carter brings us

243

00:08:59,910 --> 00:08:58,000

up about the um the supernatural

244

00:09:02,310 --> 00:08:59,920

possible supernatural aspect of these

245

00:09:03,190 --> 00:09:02,320

beings i know what i saw was flesh and

246

00:09:05,110 --> 00:09:03,200

blood

247

00:09:07,590 --> 00:09:05,120

but you know you hear all these stories

248

00:09:09,190 --> 00:09:07,600

and you know the evidence has been scant

249

00:09:11,910 --> 00:09:09,200

for the most part

250

00:09:13,990 --> 00:09:11,920

and uh

251  
00:09:16,150 --> 00:09:14,000  
what what are your thoughts about this i

252  
00:09:17,430 --> 00:09:16,160  
mean is you know shane is there a

253  
00:09:20,310 --> 00:09:17,440  
supernatural

254  
00:09:21,990 --> 00:09:20,320  
aspect of these beings

255  
00:09:23,670 --> 00:09:22,000  
well personally i don't think so that's

256  
00:09:25,990 --> 00:09:23,680  
just my opinion um

257  
00:09:27,670 --> 00:09:26,000  
just my opinion i i don't believe so uh

258  
00:09:29,590 --> 00:09:27,680  
i could be wrong you know because uh

259  
00:09:30,949 --> 00:09:29,600  
once again nothing's been proven to date

260  
00:09:32,949 --> 00:09:30,959  
nobody's been improving so all cards are

261  
00:09:34,949 --> 00:09:32,959  
on the table uh but it

262  
00:09:36,630 --> 00:09:34,959  
uh you know if it walks like a duck

263  
00:09:37,829 --> 00:09:36,640

talks like a duck and acts like a duck

264

00:09:39,910 --> 00:09:37,839

you know and that's how i look at

265

00:09:41,350 --> 00:09:39,920

sasquatch everything that uh in all my

266

00:09:42,630 --> 00:09:41,360

years of research and the people i've

267

00:09:44,470 --> 00:09:42,640

collaborated with

268

00:09:46,070 --> 00:09:44,480

and i collaborate with a lot of bfro and

269

00:09:47,590 --> 00:09:46,080

the link project members

270

00:09:48,790 --> 00:09:47,600

acros i mean people from across the

271

00:09:50,630 --> 00:09:48,800

country

272

00:09:52,710 --> 00:09:50,640

the absolute vast majority of them

273

00:09:54,150 --> 00:09:52,720

describe a flesh and blood creature the

274

00:09:55,110 --> 00:09:54,160

vast majority of them

275

00:09:57,430 --> 00:09:55,120

and

276

00:09:59,269 --> 00:09:57,440

um a lot of the stuff that i've found

277

00:10:01,670 --> 00:09:59,279

over the years that's paired up you know

278

00:10:03,430 --> 00:10:01,680

sasquatch is paired with paranormal

279

00:10:04,790 --> 00:10:03,440

i do question because a lot of times i'm

280

00:10:06,230 --> 00:10:04,800

not saying there's not something else

281

00:10:09,030 --> 00:10:06,240

going on but

282

00:10:10,550 --> 00:10:09,040

you know it's uh i don't see it in

283

00:10:13,030 --> 00:10:10,560

intertwined with the sasquatch you know

284

00:10:15,430 --> 00:10:13,040

if sasquatch is um

285

00:10:17,350 --> 00:10:15,440

hunting animals if it's possibly making

286

00:10:19,190 --> 00:10:17,360

nests if it's leaving tracks and

287

00:10:21,829 --> 00:10:19,200

impressions and hair

288

00:10:23,829 --> 00:10:21,839

if it's uh raiding trash cans you know

289

00:10:25,269 --> 00:10:23,839

it's it's acting like a known flesh and

290

00:10:27,030 --> 00:10:25,279

blood creature

291

00:10:28,710 --> 00:10:27,040

and uh all the

292

00:10:30,310 --> 00:10:28,720

the audio we recorded over the years the

293

00:10:32,389 --> 00:10:30,320

things we've got on them the things

294

00:10:34,710 --> 00:10:32,399

we've seen in person uh

295

00:10:37,350 --> 00:10:34,720

both physical evidence and whatnot uh

296

00:10:40,550 --> 00:10:37,360

points to a a creature that's just very

297

00:10:43,030 --> 00:10:40,560

very small number but very elusive

298

00:10:44,550 --> 00:10:43,040

and uh so that's uh that's the angle

299

00:10:46,150 --> 00:10:44,560

that i come from

300

00:10:48,550 --> 00:10:46,160

is that i just to date i'm not seeing

301  
00:10:51,190 --> 00:10:48,560  
anything that i could not explain

302  
00:10:52,710 --> 00:10:51,200  
as a physical creature everything points

303  
00:10:54,069 --> 00:10:52,720  
that direction

304  
00:10:55,430 --> 00:10:54,079  
yeah

305  
00:10:57,110 --> 00:10:55,440  
and you caught her what do you think of

306  
00:11:00,949 --> 00:10:57,120  
that and i know what you think about

307  
00:11:03,350 --> 00:11:00,959  
that well it's it's you know i i began

308  
00:11:06,150 --> 00:11:03,360  
as flesh and blood i mean it didn't make

309  
00:11:08,630 --> 00:11:06,160  
sense that they could do or be anything

310  
00:11:11,190 --> 00:11:08,640  
other than that until i i saw that one

311  
00:11:13,350 --> 00:11:11,200  
vanish and

312  
00:11:15,509 --> 00:11:13,360  
that's not a camera malfunction i wasn't

313  
00:11:16,310 --> 00:11:15,519

high or drunk or anything it was just

314

00:11:17,750 --> 00:11:16,320

like

315

00:11:18,710 --> 00:11:17,760

what

316

00:11:21,509 --> 00:11:18,720

you know

317

00:11:24,230 --> 00:11:21,519

and i've heard other things and and then

318

00:11:26,069 --> 00:11:24,240

the people are starting to tell me

319

00:11:27,829 --> 00:11:26,079

things that they wouldn't tell anybody

320

00:11:30,790 --> 00:11:27,839

they've been sitting on for 10 20 30

321

00:11:32,389 --> 00:11:30,800

years i i can't tell this because i get

322

00:11:34,230 --> 00:11:32,399

ridiculed just telling you about the

323

00:11:36,230 --> 00:11:34,240

road crossing and then they start

324

00:11:37,910 --> 00:11:36,240

telling but they don't want these people

325

00:11:39,190 --> 00:11:37,920

they're just sincere they don't want

326

00:11:40,790 --> 00:11:39,200

anything they don't want any fame or

327

00:11:42,069 --> 00:11:40,800

fortune i want their name out they

328

00:11:43,590 --> 00:11:42,079

they're just telling you these stories

329

00:11:44,710 --> 00:11:43,600

and you can tell some of them are deeply

330

00:11:47,750 --> 00:11:44,720

affected

331

00:11:50,550 --> 00:11:47,760

you know and the only thing i can equate

332

00:11:52,389 --> 00:11:50,560

them possibly thinking they're seeing

333

00:11:55,430 --> 00:11:52,399

things is that

334

00:11:57,030 --> 00:11:55,440

ptsd or the shock of actually seeing a

335

00:11:58,710 --> 00:11:57,040

flesh and blood creature that's not

336

00:11:59,910 --> 00:11:58,720

supposed to exist it's selling right in

337

00:12:02,550 --> 00:11:59,920

front of you

338

00:12:05,110 --> 00:12:02,560

and you go into shock and maybe you are

339

00:12:06,949 --> 00:12:05,120

thinking you saw it disappear or what

340

00:12:08,629 --> 00:12:06,959

have you but there's so many people

341

00:12:10,629 --> 00:12:08,639

they're not in shock they're just

342

00:12:12,230 --> 00:12:10,639

telling me a story

343

00:12:14,710 --> 00:12:12,240

and it's

344

00:12:16,710 --> 00:12:14,720

it vanished it went behind a tree went

345

00:12:18,550 --> 00:12:16,720

in a tree it walked through my wall you

346

00:12:20,710 --> 00:12:18,560

just walked through a wall in my house

347

00:12:22,150 --> 00:12:20,720

you just it sounds fantastical and

348

00:12:23,990 --> 00:12:22,160

sci-fi but

349

00:12:26,470 --> 00:12:24,000

enough people are coming at me with this

350

00:12:28,069 --> 00:12:26,480

stuff it's there's got to be something

351

00:12:29,350 --> 00:12:28,079

there you know

352

00:12:31,190 --> 00:12:29,360

that's why i say

353

00:12:33,350 --> 00:12:31,200

consider it you don't have to believe it

354

00:12:35,910 --> 00:12:33,360

but put it on the plate and just think

355

00:12:37,110 --> 00:12:35,920

about it you know because there might be

356

00:12:38,470 --> 00:12:37,120

something else

357

00:12:41,990 --> 00:12:38,480

you know

358

00:12:44,150 --> 00:12:42,000

location for the most part a region

359

00:12:46,870 --> 00:12:44,160

now shane is up in the

360

00:12:49,990 --> 00:12:46,880

uh pacific northwest

361

00:12:53,350 --> 00:12:50,000

you know i i i am kind of of the thought

362

00:12:55,829 --> 00:12:53,360

that there are pods there are

363

00:12:58,150 --> 00:12:55,839

family groups and such of these beans in

364

00:12:59,990 --> 00:12:58,160

certain areas like pacific northwest

365

00:13:01,430 --> 00:13:00,000

maybe around the gulf coast down in

366

00:13:05,030 --> 00:13:01,440

florida

367

00:13:07,110 --> 00:13:05,040

but here in the east and uh

368

00:13:08,389 --> 00:13:07,120

we seem to have a lot of singular

369

00:13:10,230 --> 00:13:08,399

settings

370

00:13:11,430 --> 00:13:10,240

of these beings that they will just show

371

00:13:12,710 --> 00:13:11,440

up all of a sudden and then they

372

00:13:14,710 --> 00:13:12,720

disappear

373

00:13:16,470 --> 00:13:14,720

uh what are your thoughts on ryan you're

374

00:13:18,310 --> 00:13:16,480

you're here in pennsylvania

375

00:13:20,310 --> 00:13:18,320

uh we just

376

00:13:21,990 --> 00:13:20,320

did another film called on double three

377

00:13:23,110 --> 00:13:22,000

the bigfoot invasion which we just did a

378

00:13:25,350 --> 00:13:23,120

whole film

379

00:13:27,590 --> 00:13:25,360

on the possibility of the bigfoot being

380

00:13:29,350 --> 00:13:27,600

an alien or coming from spaceships or

381

00:13:30,790 --> 00:13:29,360

whatever because you know many has such

382

00:13:32,389 --> 00:13:30,800

a wide

383

00:13:34,470 --> 00:13:32,399

uh

384

00:13:36,230 --> 00:13:34,480

a long list of sightings where bigfoots

385

00:13:37,670 --> 00:13:36,240

were seen and then there was a ufo

386

00:13:39,750 --> 00:13:37,680

involved there there were

387

00:13:41,430 --> 00:13:39,760

flashes of light in the woods and

388

00:13:43,509 --> 00:13:41,440

bigfoot's appeared disappear i mean

389

00:13:45,350 --> 00:13:43,519

there were a lot of cases and when i was

390

00:13:47,030 --> 00:13:45,360

interviewing a lot of these uh bigfoot

391

00:13:49,110 --> 00:13:47,040

investigators especially stan gordon who

392

00:13:51,430 --> 00:13:49,120

was always a true believer in flesh and

393

00:13:52,629 --> 00:13:51,440

blood but now he's kind of like

394

00:13:54,870 --> 00:13:52,639

we you know

395

00:13:56,870 --> 00:13:54,880

we almost can't

396

00:13:58,150 --> 00:13:56,880

uh not think about this and i know

397

00:14:00,629 --> 00:13:58,160

there's a small percent of the big foots

398

00:14:03,030 --> 00:14:00,639

of bigfooters i believe that maybe 20 of

399

00:14:04,949 --> 00:14:03,040

them the bigfoot could be an alien

400

00:14:07,269 --> 00:14:04,959

me i you know i'm still on the fence but

401  
00:14:08,150 --> 00:14:07,279  
uh you got to keep that as an option i

402  
00:14:09,750 --> 00:14:08,160  
mean

403  
00:14:11,509 --> 00:14:09,760  
somebody people are seeing these and

404  
00:14:13,430 --> 00:14:11,519  
then seeing ufos at the same time which

405  
00:14:14,829 --> 00:14:13,440  
is incredible so

406  
00:14:16,389 --> 00:14:14,839  
it's always a

407  
00:14:17,350 --> 00:14:16,399  
possibility

408  
00:14:20,550 --> 00:14:17,360  
you know

409  
00:14:22,790 --> 00:14:20,560  
it's a strange thing because um

410  
00:14:25,030 --> 00:14:22,800  
here in the east and even some parts of

411  
00:14:26,790 --> 00:14:25,040  
the midwest there's a lot of other

412  
00:14:28,550 --> 00:14:26,800  
phenomena that are associated with a lot

413  
00:14:30,389 --> 00:14:28,560

of these settings um

414

00:14:32,790 --> 00:14:30,399

you said ufos

415

00:14:35,030 --> 00:14:32,800

and uh of course stan was the person who

416

00:14:36,870 --> 00:14:35,040

really started putting that out there

417

00:14:39,269 --> 00:14:36,880

uh after he encounters that he has been

418

00:14:41,750 --> 00:14:39,279

reporting out in the chestnut ridge and

419

00:14:43,590 --> 00:14:41,760

all throughout pennsylvania but we get a

420

00:14:45,750 --> 00:14:43,600

lot of orb sightings and a lot of

421

00:14:48,949 --> 00:14:45,760

strange paranormal

422

00:14:50,870 --> 00:14:48,959

phenomena associated with it and

423

00:14:53,430 --> 00:14:50,880

i don't know if you get that out in the

424

00:14:55,590 --> 00:14:53,440

uh pacific northwest as much as we do

425

00:14:57,750 --> 00:14:55,600

what do you say that shane

426

00:14:59,269 --> 00:14:57,760

you know a lot of people do report

427

00:15:01,509 --> 00:14:59,279

seeing orbs

428

00:15:03,509 --> 00:15:01,519

i i don't i'm personally taking in maybe

429

00:15:06,069 --> 00:15:03,519

one or two reports

430

00:15:08,310 --> 00:15:06,079

um there have been we do get them fairly

431

00:15:11,189 --> 00:15:08,320

often up here um

432

00:15:13,030 --> 00:15:11,199

you know my question always is you know

433

00:15:14,230 --> 00:15:13,040

you see an orb why do why is that tied

434

00:15:15,509 --> 00:15:14,240

to sasquatch i'm not saying there's

435

00:15:17,110 --> 00:15:15,519

nothing to the orbs i've never

436

00:15:18,710 --> 00:15:17,120

personally seen one the one thing i

437

00:15:20,230 --> 00:15:18,720

thought was an orb i end up

438

00:15:21,430 --> 00:15:20,240

hiking way down this valley because it

439

00:15:23,030 --> 00:15:21,440

was this glowing blue thing and i

440

00:15:25,430 --> 00:15:23,040

thought it was an orb with a group of

441

00:15:26,550 --> 00:15:25,440

people end up being a mushroom a firefox

442

00:15:28,069 --> 00:15:26,560

mushroom

443

00:15:29,829 --> 00:15:28,079

yeah but it looked like an orb it looked

444

00:15:30,790 --> 00:15:29,839

like it was moving but it's 12 o'clock

445

00:15:32,230 --> 00:15:30,800

in the morning you're out and you're

446

00:15:34,230 --> 00:15:32,240

walking around and there's this blue

447

00:15:35,829 --> 00:15:34,240

thing glowing and being a firefox

448

00:15:37,350 --> 00:15:35,839

mushroom i think a lot of it can be

449

00:15:38,870 --> 00:15:37,360

explained not everything i've got good

450

00:15:41,189 --> 00:15:38,880

friends that have seen some weird stuff

451

00:15:42,550 --> 00:15:41,199

and that i i i know they're telling the

452

00:15:43,990 --> 00:15:42,560

truth and and i know they've done their

453

00:15:45,189 --> 00:15:44,000

due diligence

454

00:15:47,430 --> 00:15:45,199

um

455

00:15:48,710 --> 00:15:47,440

my question always is you know there's a

456

00:15:50,230 --> 00:15:48,720

lot of weird stuff that happens out in

457

00:15:52,550 --> 00:15:50,240

the woods in these remote areas and in

458

00:15:54,069 --> 00:15:52,560

nine remote areas sometimes but why does

459

00:15:55,269 --> 00:15:54,079

that you know my question always is why

460

00:15:56,470 --> 00:15:55,279

is that tying with sasquatch just

461

00:15:57,990 --> 00:15:56,480

because you're in the woods and because

462

00:15:59,829 --> 00:15:58,000

you're in you know you're involved in

463

00:16:00,949 --> 00:15:59,839

this phenomena or you're looking for

464

00:16:03,269 --> 00:16:00,959

something and you see that and then you

465

00:16:05,350 --> 00:16:03,279

automatically put two and two together

466

00:16:07,350 --> 00:16:05,360

not that people haven't seen per se i

467

00:16:08,629 --> 00:16:07,360

guess both the sasquatch in an orb or

468

00:16:10,949 --> 00:16:08,639

something like that i know people have

469

00:16:12,470 --> 00:16:10,959

claimed that but um gotta do your due

470

00:16:14,069 --> 00:16:12,480

diligence and try and get to the bottom

471

00:16:15,829 --> 00:16:14,079

of things like i did with the firefox

472

00:16:17,430 --> 00:16:15,839

mushroom if i just said if i taken a

473

00:16:19,350 --> 00:16:17,440

photo of it or a video it would have

474

00:16:21,030 --> 00:16:19,360

looked like an orb but i i went the

475

00:16:22,870 --> 00:16:21,040

extra step of figuring out what the heck

476

00:16:24,710 --> 00:16:22,880

this thing was and it was it was

477

00:16:25,990 --> 00:16:24,720

a pain to get there but when i got there

478

00:16:28,550 --> 00:16:26,000

i realized we're just looking at a

479

00:16:30,710 --> 00:16:28,560

mushroom um so

480

00:16:32,389 --> 00:16:30,720

document everything and go the extra

481

00:16:34,829 --> 00:16:32,399

mile to figure out what it is if you're

482

00:16:36,629 --> 00:16:34,839

bold enough

483

00:16:40,069 --> 00:16:36,639

um

484

00:16:42,870 --> 00:16:40,079

i i got a question here uh from james in

485

00:16:45,269 --> 00:16:42,880

in the chat what's the best bigfoot

486

00:16:47,749 --> 00:16:45,279

video after patty

487

00:16:49,350 --> 00:16:47,759

i i personally say the freeman film i i

488

00:16:50,870 --> 00:16:49,360

find that interesting i i don't know

489

00:16:53,509 --> 00:16:50,880

what do you say carter

490

00:16:54,389 --> 00:16:53,519

freeman that that would be freeman uh

491

00:16:55,829 --> 00:16:54,399

you know

492

00:16:56,949 --> 00:16:55,839

not to mention

493

00:16:59,269 --> 00:16:56,959

some of the things in my private

494

00:17:01,990 --> 00:16:59,279

collection i can't show right but the

495

00:17:04,069 --> 00:17:02,000

freeman uh and i know a lot of people

496

00:17:06,150 --> 00:17:04,079

kind of poopoo that you know he's kind

497

00:17:08,150 --> 00:17:06,160

of 50 50 with folks but

498

00:17:09,750 --> 00:17:08,160

he's just a good old down-home boy i

499

00:17:10,789 --> 00:17:09,760

don't know if he's sophisticated enough

500

00:17:15,270 --> 00:17:10,799

to

501  
00:17:17,590 --> 00:17:15,280  
and all that but i just

502  
00:17:20,150 --> 00:17:17,600  
that's just really legit i've got the

503  
00:17:22,309 --> 00:17:20,160  
print here on my wall uh

504  
00:17:24,870 --> 00:17:22,319  
which i don't think has dermal ridges

505  
00:17:27,270 --> 00:17:24,880  
but some other prints uh do have dermal

506  
00:17:30,470 --> 00:17:27,280  
ridges but i say the freeman film is

507  
00:17:32,390 --> 00:17:30,480  
probably right behind patty

508  
00:17:34,070 --> 00:17:32,400  
what do you think ryan

509  
00:17:36,230 --> 00:17:34,080  
i have to agree with you

510  
00:17:39,750 --> 00:17:36,240  
yeah okay quick to the point sorry on

511  
00:17:39,760 --> 00:17:44,150  
and and you shane

512  
00:17:44,160 --> 00:17:49,510  
are you luchene

513  
00:17:49,520 --> 00:17:56,870

i guess we

514

00:17:56,880 --> 00:18:07,110

did we lose shane uh vincent

515

00:18:11,190 --> 00:18:09,990

okay well we'll we'll go on from there

516

00:18:16,230 --> 00:18:11,200

uh

517

00:18:19,029 --> 00:18:16,240

i got a question from vince what's the

518

00:18:22,070 --> 00:18:19,039

most convincing evidence

519

00:18:23,029 --> 00:18:22,080

you've seen personally of bigfoot okay

520

00:18:25,990 --> 00:18:23,039

uh

521

00:18:27,430 --> 00:18:26,000

carter what do you say to that

522

00:18:30,870 --> 00:18:27,440

well

523

00:18:32,950 --> 00:18:30,880

the best evidence that i have

524

00:18:35,830 --> 00:18:32,960

seen was

525

00:18:38,870 --> 00:18:35,840

being gifted a certain number of rocks

526

00:18:40,230 --> 00:18:38,880

in a certain location that

527

00:18:42,630 --> 00:18:40,240

signified

528

00:18:45,830 --> 00:18:42,640

the number of people in my expedition

529

00:18:47,110 --> 00:18:45,840

party and it appeared

530

00:18:49,669 --> 00:18:47,120

overnight

531

00:18:51,110 --> 00:18:49,679

uh then i had left a camera there i went

532

00:18:54,310 --> 00:18:51,120

back to get the camera the next morning

533

00:18:57,510 --> 00:18:54,320

and there was six rocks on this log

534

00:18:58,870 --> 00:18:57,520

in two little groups five on one end and

535

00:19:01,029 --> 00:18:58,880

one on the other

536

00:19:02,870 --> 00:19:01,039

it you know i was leading the expedition

537

00:19:04,950 --> 00:19:02,880

there was four expedition goes there

538

00:19:07,430 --> 00:19:04,960

was four rocks behind my rock which is

539

00:19:10,150 --> 00:19:07,440

kind of a larger triangular rock and at

540

00:19:11,909 --> 00:19:10,160

the other end was my partner

541

00:19:14,789 --> 00:19:11,919

harold in

542

00:19:16,310 --> 00:19:14,799

illinois who was with us but he was not

543

00:19:17,990 --> 00:19:16,320

with us because

544

00:19:19,830 --> 00:19:18,000

he was too physically

545

00:19:21,909 --> 00:19:19,840

you know injured at the time to make

546

00:19:24,549 --> 00:19:21,919

this trek so he stayed in the car in the

547

00:19:27,510 --> 00:19:24,559

parking lot so there was one

548

00:19:30,950 --> 00:19:27,520

rock at the end five on the others

549

00:19:33,750 --> 00:19:30,960

and it it was a message that we

550

00:19:37,830 --> 00:19:33,760

know who you are we saw you here in the

551

00:19:42,310 --> 00:19:40,310

a message it was a conversation they

552

00:19:43,510 --> 00:19:42,320

were communicating with me to let me

553

00:19:45,110 --> 00:19:43,520

know

554

00:19:47,110 --> 00:19:45,120

we saw you there and we understand you

555

00:19:50,150 --> 00:19:47,120

were talking to us trying to communicate

556

00:19:51,990 --> 00:19:50,160

with us that was just it was out of

557

00:19:53,990 --> 00:19:52,000

it was incredible you know what when i

558

00:19:55,909 --> 00:19:54,000

talk about it when i saw at that time i

559

00:19:57,590 --> 00:19:55,919

i i get chills every time i even talk

560

00:19:59,270 --> 00:19:57,600

about it because it was just like

561

00:20:00,710 --> 00:19:59,280

oh my god

562

00:20:02,390 --> 00:20:00,720

how could this have happened because we

563

00:20:04,070 --> 00:20:02,400

left at midnight we came back i came

564

00:20:05,909 --> 00:20:04,080

back the next morning at eight o'clock

565

00:20:07,110 --> 00:20:05,919

the chances of somebody being in that

566

00:20:09,029 --> 00:20:07,120

location

567

00:20:10,789 --> 00:20:09,039

at midnight this is trail of tears in

568

00:20:13,270 --> 00:20:10,799

illinois

569

00:20:15,190 --> 00:20:13,280

between 12 at night and eight in the

570

00:20:16,149 --> 00:20:15,200

morning aren't really good

571

00:20:17,990 --> 00:20:16,159

you know

572

00:20:20,549 --> 00:20:18,000

and how would they know to put five

573

00:20:23,270 --> 00:20:20,559

rocks and it was just i don't believe in

574

00:20:26,549 --> 00:20:23,280

coincidences so that was my best

575

00:20:29,430 --> 00:20:26,559

uh evidence that i'm on the right track

576

00:20:30,470 --> 00:20:29,440

that for me it just hands down

577

00:20:31,990 --> 00:20:30,480

incredible

578

00:20:35,029 --> 00:20:32,000

how are you ryan what's the best

579

00:20:37,110 --> 00:20:35,039

evidence you've seen uh actually when we

580

00:20:40,230 --> 00:20:37,120

were shooting mountain devil one

581

00:20:42,789 --> 00:20:40,240

this one must been 2010 11.

582

00:20:44,789 --> 00:20:42,799

uh there's a an area in clearfield

583

00:20:46,950 --> 00:20:44,799

rockton area where there was quite a few

584

00:20:49,430 --> 00:20:46,960

sightings for quite a while

585

00:20:50,870 --> 00:20:49,440

so one evening dave rupert and i decided

586

00:20:52,710 --> 00:20:50,880

well we're gonna go out and just kind of

587

00:20:53,990 --> 00:20:52,720

see what we can hear or sound

588

00:20:55,909 --> 00:20:54,000

uh we were

589

00:20:58,230 --> 00:20:55,919

way back in the woods far from anybody

590

00:21:00,390 --> 00:20:58,240

or anything there was a nice clearing

591

00:21:03,029 --> 00:21:00,400

and uh and about two three in the

592

00:21:04,310 --> 00:21:03,039

morning we started having rocks thrown

593

00:21:05,590 --> 00:21:04,320

at us

594

00:21:07,430 --> 00:21:05,600

they weren't coming from the sky because

595

00:21:08,710 --> 00:21:07,440

we were out in the middle of a field

596

00:21:10,390 --> 00:21:08,720

so they were you could hear them coming

597

00:21:12,310 --> 00:21:10,400

right through the trees right at us and

598

00:21:13,270 --> 00:21:12,320

you could hear something walking across

599

00:21:16,470 --> 00:21:13,280

the

600

00:21:18,310 --> 00:21:16,480

it stumbled

601  
00:21:21,029 --> 00:21:18,320  
which was odd i've never heard

602  
00:21:22,710 --> 00:21:21,039  
like something going and then stumbling

603  
00:21:24,070 --> 00:21:22,720  
and then after that it left and

604  
00:21:26,230 --> 00:21:24,080  
previously in the night we had wood

605  
00:21:27,830 --> 00:21:26,240  
knockings that weren't far away

606  
00:21:29,350 --> 00:21:27,840  
and then about a few months later sean

607  
00:21:30,630 --> 00:21:29,360  
forker and his guys were up in the same

608  
00:21:33,270 --> 00:21:30,640  
area and they had

609  
00:21:35,750 --> 00:21:33,280  
experiences too so yeah we know about

610  
00:21:38,070 --> 00:21:35,760  
sean's experience up there

611  
00:21:39,669 --> 00:21:38,080  
so that was the only night ever like

612  
00:21:41,669 --> 00:21:39,679  
hairs on the back of my head neck were

613  
00:21:43,350 --> 00:21:41,679

standing up it was actually frightening

614

00:21:45,750 --> 00:21:43,360

because i turned to dave i said you have

615

00:21:47,750 --> 00:21:45,760

your gun he's like no do you have yours

616

00:21:49,350 --> 00:21:47,760

like we didn't know we were actually

617

00:21:51,270 --> 00:21:49,360

kind of like wow what is this what's

618

00:21:53,430 --> 00:21:51,280

going on you know yeah i don't think you

619

00:21:55,110 --> 00:21:53,440

guys ever figured out what that was but

620

00:21:58,230 --> 00:21:55,120

it was i know it's

621

00:21:59,909 --> 00:21:58,240

scared of jesus out of sean in his bunch

622

00:22:01,909 --> 00:21:59,919

well eric holman and his crew were up

623

00:22:04,950 --> 00:22:01,919

there great and they had rocks thrown at

624

00:22:07,110 --> 00:22:04,960

them at different times

625

00:22:09,270 --> 00:22:07,120

interesting yeah shane before you you

626

00:22:10,549 --> 00:22:09,280

got cut off um

627

00:22:12,470 --> 00:22:10,559

what film

628

00:22:14,549 --> 00:22:12,480

beyond the paddy film do you think is

629

00:22:16,789 --> 00:22:14,559

the best evidence yeah sorry i lost

630

00:22:18,870 --> 00:22:16,799

power there for a second but uh

631

00:22:20,710 --> 00:22:18,880

uh yeah the i have to agree with carter

632

00:22:23,029 --> 00:22:20,720

the paul freeman footage i think is is

633

00:22:25,190 --> 00:22:23,039

phenomenal um i really do i really like

634

00:22:27,990 --> 00:22:25,200

it i think it's one of the best out

635

00:22:29,190 --> 00:22:28,000

there um and once again just like the

636

00:22:30,710 --> 00:22:29,200

patterson gimlin film has not been

637

00:22:32,149 --> 00:22:30,720

disproven and

638

00:22:34,390 --> 00:22:32,159

it's staying the test of time which says

639

00:22:36,630 --> 00:22:34,400

a lot um i also think uh jonathan and

640

00:22:38,230 --> 00:22:36,640

sarah brown as far as thermal footage is

641

00:22:40,470 --> 00:22:38,240

concerned you know the online project

642

00:22:42,470 --> 00:22:40,480

does have some but uh jonathan sarah

643

00:22:44,230 --> 00:22:42,480

brown out chahilis washington captured

644

00:22:46,149 --> 00:22:44,240

uh well jonathan did but it was their

645

00:22:49,270 --> 00:22:46,159

property uh captured the what i believe

646

00:22:50,630 --> 00:22:49,280

is the sasquatch on on on therm um one

647

00:22:52,070 --> 00:22:50,640

and i've been investigated i've been out

648

00:22:54,230 --> 00:22:52,080

there it's fantastic i think it's one of

649

00:22:55,990 --> 00:22:54,240

the best to date and and there's others

650

00:22:59,990 --> 00:22:56,000

um

651  
00:23:01,830 --> 00:23:00,000  
a lot of great evidence over the years i

652  
00:23:03,830 --> 00:23:01,840  
mean there's a lot of good stuff

653  
00:23:05,350 --> 00:23:03,840  
in-house and outhouse and

654  
00:23:07,590 --> 00:23:05,360  
talked a lot of interesting individuals

655  
00:23:10,310 --> 00:23:07,600  
that have shared a lot of interesting

656  
00:23:11,669 --> 00:23:10,320  
very tantalizing stuff uh i think that

657  
00:23:15,190 --> 00:23:11,679  
academia would get a kick out of but

658  
00:23:17,590 --> 00:23:15,200  
they paid attention uh but um i honestly

659  
00:23:19,510 --> 00:23:17,600  
i do think uh and and i'm

660  
00:23:20,870 --> 00:23:19,520  
you know i guess i'm gonna

661  
00:23:22,870 --> 00:23:20,880  
kind of to my own horn here but i think

662  
00:23:24,470 --> 00:23:22,880  
the the nest area that we're working on

663  
00:23:26,789 --> 00:23:24,480

currently right now it's it's

664

00:23:28,630 --> 00:23:26,799

it really is you know uh it's the reason

665

00:23:29,990 --> 00:23:28,640

i moved to washington state it is

666

00:23:31,909 --> 00:23:30,000

literally the reason i moved up here i

667

00:23:34,070 --> 00:23:31,919

was so enthralled with these nests and

668

00:23:35,350 --> 00:23:34,080

having talked and you know spoken with

669

00:23:36,870 --> 00:23:35,360

the guy that originally found them a

670

00:23:38,390 --> 00:23:36,880

timber surveyor

671

00:23:41,110 --> 00:23:38,400

that you know in 27 years had never

672

00:23:41,990 --> 00:23:41,120

found anything like this uh i to me with

673

00:23:50,390 --> 00:23:42,000

the

674

00:23:52,950 --> 00:23:50,400

getting out of this area even currently

675

00:23:54,630 --> 00:23:52,960

uh to me it's just it it's to me it's

676

00:23:56,789 --> 00:23:54,640

just absolutely astounding it's amazing

677

00:23:58,149 --> 00:23:56,799

so you know i guess uh that to me is the

678

00:24:00,710 --> 00:23:58,159

most amazing

679

00:24:04,710 --> 00:24:00,720

stuff that you know today yeah the film

680

00:24:05,909 --> 00:24:04,720

uh that that sean took of the lipper

681

00:24:07,269 --> 00:24:05,919

project and you guys have been

682

00:24:09,190 --> 00:24:07,279

investigating

683

00:24:10,630 --> 00:24:09,200

details that pretty well and uh why

684

00:24:12,470 --> 00:24:10,640

don't you tell everybody a bit about

685

00:24:13,909 --> 00:24:12,480

that um

686

00:24:15,830 --> 00:24:13,919

you don't think these are being used

687

00:24:17,909 --> 00:24:15,840

anymore they're an older

688

00:24:19,029 --> 00:24:17,919

they're older pods or older nesting

689

00:24:20,310 --> 00:24:19,039

areas

690

00:24:22,390 --> 00:24:20,320

uh

691

00:24:24,710 --> 00:24:22,400

what are your thoughts on it

692

00:24:26,549 --> 00:24:24,720

yeah i mean i think they were

693

00:24:28,950 --> 00:24:26,559

we're pretty sure they're made

694

00:24:30,950 --> 00:24:28,960

you know they the original nest there

695

00:24:32,630 --> 00:24:30,960

was made in the month of february to

696

00:24:34,310 --> 00:24:32,640

beginning of march and that coincides

697

00:24:37,269 --> 00:24:34,320

with the seasonal salmon run up in this

698

00:24:39,350 --> 00:24:37,279

area um it's in a remote area um it's

699

00:24:41,590 --> 00:24:39,360

hard to get to it's behind locked gates

700

00:24:42,870 --> 00:24:41,600

uh on on timberland

701  
00:24:46,789 --> 00:24:42,880  
um

702  
00:24:48,789 --> 00:24:46,799  
today we found 24 of these things uh two

703  
00:24:50,630 --> 00:24:48,799  
of them are actually built into

704  
00:24:52,310 --> 00:24:50,640  
the huckleberry bushes

705  
00:24:53,350 --> 00:24:52,320  
uh off the ground they're smaller we

706  
00:24:54,950 --> 00:24:53,360  
call them practice nets because they

707  
00:24:55,990 --> 00:24:54,960  
look like little miniature

708  
00:24:58,470 --> 00:24:56,000  
nests

709  
00:25:00,149 --> 00:24:58,480  
that mirror image the ones on the ground

710  
00:25:02,230 --> 00:25:00,159  
and they nest range in size from about

711  
00:25:03,510 --> 00:25:02,240  
three and a half feet to you know almost

712  
00:25:06,149 --> 00:25:03,520  
eight and a half feet

713  
00:25:07,350 --> 00:25:06,159

uh all um for the most part are bathtub

714

00:25:09,510 --> 00:25:07,360

shaped they're all made out of

715

00:25:10,950 --> 00:25:09,520

huckleberry valves with bigger branches

716

00:25:12,710 --> 00:25:10,960

on the bottom

717

00:25:14,789 --> 00:25:12,720

smaller branches on top

718

00:25:15,909 --> 00:25:14,799

and uh you know dr melvin when we

719

00:25:17,350 --> 00:25:15,919

brought him out a couple years ago he

720

00:25:19,510 --> 00:25:17,360

knows that when we

721

00:25:20,710 --> 00:25:19,520

deconstructed one of these nests

722

00:25:22,070 --> 00:25:20,720

notice that some of the huckleberry

723

00:25:23,909 --> 00:25:22,080

bells were pushed in the ground and this

724

00:25:25,029 --> 00:25:23,919

was formulated around it kind of like a

725

00:25:26,630 --> 00:25:25,039

bed frame

726

00:25:28,870 --> 00:25:26,640

and then you got this really cushioned

727

00:25:30,230 --> 00:25:28,880

area and big indentation where

728

00:25:31,909 --> 00:25:30,240

something's been laying for a while we

729

00:25:34,630 --> 00:25:31,919

don't think these nests are

730

00:25:37,669 --> 00:25:34,640

made for a day say like uh would a a

731

00:25:39,510 --> 00:25:37,679

gorilla would do make a a bed a nest and

732

00:25:41,269 --> 00:25:39,520

then take off these were

733

00:25:43,990 --> 00:25:41,279

there was they're over a foot in depth

734

00:25:46,470 --> 00:25:44,000

made out of a ton of material

735

00:25:48,070 --> 00:25:46,480

that um it would it wouldn't make sense

736

00:25:50,470 --> 00:25:48,080

and they're in clusters

737

00:25:52,230 --> 00:25:50,480

they're basically you got a ridge line

738

00:25:54,630 --> 00:25:52,240

with fingers or plateaus coming off of

739

00:25:56,549 --> 00:25:54,640

this and a seasonal salmon creek with a

740

00:25:59,110 --> 00:25:56,559

steep incline down there

741

00:26:00,710 --> 00:25:59,120

um they're made into um

742

00:26:01,830 --> 00:26:00,720

uh yeah and that that picture there's an

743

00:26:03,430 --> 00:26:01,840

older picture i mean when they were

744

00:26:05,830 --> 00:26:03,440

originally found they were all green and

745

00:26:07,029 --> 00:26:05,840

lush this is this is like two years

746

00:26:10,230 --> 00:26:07,039

later

747

00:26:13,590 --> 00:26:10,240

um but uh you know they they're they're

748

00:26:15,669 --> 00:26:13,600

almost militarily shaped uh or patterned

749

00:26:17,909 --> 00:26:15,679

you know in b formations on these uh

750

00:26:20,470 --> 00:26:17,919

fingers in clusters you'll have fiber

751

00:26:22,230 --> 00:26:20,480

you know seven to five in one spot 300

752

00:26:23,990 --> 00:26:22,240

you know yards or 150 yards away in the

753

00:26:27,029 --> 00:26:24,000

next plateau you'll have three or four

754

00:26:29,510 --> 00:26:27,039

more another 150 yards 50 yards away

755

00:26:31,350 --> 00:26:29,520

you'll have another cluster

756

00:26:33,669 --> 00:26:31,360

these were used for i think more than a

757

00:26:36,710 --> 00:26:33,679

day probably a week or longer

758

00:26:38,549 --> 00:26:36,720

and we got a lot of ideas as to

759

00:26:40,870 --> 00:26:38,559

you know if it isn't if indeed it is

760

00:26:42,789 --> 00:26:40,880

sasquatch making these nests

761

00:26:44,630 --> 00:26:42,799

um you know it could be a possible

762

00:26:45,990 --> 00:26:44,640

birthing scenario because we did uh for

763

00:26:47,510 --> 00:26:46,000

the first time

764

00:26:49,830 --> 00:26:47,520

you know 2016 these things were

765

00:26:51,750 --> 00:26:49,840

discovered we spent the for that year

766

00:26:53,669 --> 00:26:51,760

finding a bunch more

767

00:26:56,390 --> 00:26:53,679

after we're given you know permission to

768

00:26:58,909 --> 00:26:56,400

do what we do and uh we didn't find

769

00:27:01,909 --> 00:26:58,919

anything new after those first

770

00:27:05,669 --> 00:27:01,919

23 nests were discovered we looked and

771

00:27:08,870 --> 00:27:05,679

looked uh the same area adjacent ravines

772

00:27:11,110 --> 00:27:08,880

and todd hill and i in 2020 february

773

00:27:13,909 --> 00:27:11,120

2020 came across something making one of

774

00:27:15,350 --> 00:27:13,919

these things we did not see it but we

775

00:27:17,990 --> 00:27:15,360

had this thing approach us and then it

776

00:27:19,510 --> 00:27:18,000

retreated circled around us

777

00:27:21,750 --> 00:27:19,520

and um

778

00:27:24,389 --> 00:27:21,760

we uh never got eyes on it but heard it

779

00:27:25,909 --> 00:27:24,399

sounded massive sounded bipedal we get

780

00:27:28,950 --> 00:27:25,919

down into the area

781

00:27:30,870 --> 00:27:28,960

and uh lo and behold there's a nest

782

00:27:32,789 --> 00:27:30,880

being made in the month we assume these

783

00:27:34,070 --> 00:27:32,799

things would be made and we don't assume

784

00:27:36,389 --> 00:27:34,080

they're being made every year they're

785

00:27:39,029 --> 00:27:36,399

probably made every four to five years

786

00:27:41,269 --> 00:27:39,039

uh based on what we've been looking at

787

00:27:43,669 --> 00:27:41,279

and uh this thing left hand impressions

788

00:27:45,669 --> 00:27:43,679

it left foot impressions it left hair

789

00:27:47,590 --> 00:27:45,679

uh we brought cliff bergman he's a good

790

00:27:49,990 --> 00:27:47,600

friend of ours out and we he helped cast

791

00:27:51,110 --> 00:27:50,000

a lot of these tracks and impressions

792

00:27:52,070 --> 00:27:51,120

um

793

00:27:53,990 --> 00:27:52,080

and so

794

00:27:55,269 --> 00:27:54,000

it's a it's a continuing uh

795

00:27:57,190 --> 00:27:55,279

investigation

796

00:27:58,950 --> 00:27:57,200

in fact we've been doing in this area is

797

00:28:01,750 --> 00:27:58,960

we've been doing long-term audio chris

798

00:28:03,909 --> 00:28:01,760

spencer uh david ellis of the england

799

00:28:05,110 --> 00:28:03,919

project uh chris spencer specifically in

800

00:28:06,950 --> 00:28:05,120

this area

801  
00:28:09,590 --> 00:28:06,960  
we've been placing long-term audio units

802  
00:28:12,310 --> 00:28:09,600  
that record you know upwards of 30 days

803  
00:28:14,389 --> 00:28:12,320  
um and uh some of the audio we've gone

804  
00:28:16,230 --> 00:28:14,399  
out of this area is you know it's it's

805  
00:28:18,870 --> 00:28:16,240  
it's amazing it's dumbfounding it it

806  
00:28:20,389 --> 00:28:18,880  
sounds very primate very primate-like in

807  
00:28:22,070 --> 00:28:20,399  
a lot of aspects when we got the usual

808  
00:28:22,870 --> 00:28:22,080  
wood knocks and all that

809  
00:28:25,110 --> 00:28:22,880  
um

810  
00:28:27,269 --> 00:28:25,120  
but uh these things aren't you know if

811  
00:28:28,950 --> 00:28:27,279  
indeed sasquatch and i do believe it is

812  
00:28:31,029 --> 00:28:28,960  
they're not in there all the time it's a

813  
00:28:33,269 --> 00:28:31,039

seasonal thing they do move through this

814

00:28:35,750 --> 00:28:33,279

area i think as part of their i won't

815

00:28:37,750 --> 00:28:35,760

say migration but transitorial you know

816

00:28:39,669 --> 00:28:37,760

trespassing and moving around they move

817

00:28:42,070 --> 00:28:39,679

it through this area but they do hunker

818

00:28:43,909 --> 00:28:42,080

down i think in the months of february

819

00:28:46,310 --> 00:28:43,919

march possibly for a birthing scenario

820

00:28:47,669 --> 00:28:46,320

but also because of the salmon runs in

821

00:28:49,350 --> 00:28:47,679

this area

822

00:28:51,110 --> 00:28:49,360

you know even the olympics it doesn't

823

00:28:53,350 --> 00:28:51,120

get a whole lot of snow it's very it's

824

00:28:55,190 --> 00:28:53,360

got a very micro climate you'll still

825

00:28:57,510 --> 00:28:55,200

see huckleberry

826

00:29:00,470 --> 00:28:57,520

uh berries uh through february in this

827

00:29:02,149 --> 00:29:00,480

area which i think is really interesting

828

00:29:03,590 --> 00:29:02,159

and this area does have a lot of bear

829

00:29:06,389 --> 00:29:03,600

it's got a lot of cougars got a lot of

830

00:29:09,269 --> 00:29:06,399

deer you use your ungllets but the deers

831

00:29:10,789 --> 00:29:09,279

the the bears seem to vacate this area

832

00:29:12,549 --> 00:29:10,799

when when you know we think the

833

00:29:14,230 --> 00:29:12,559

sasquatch around we don't find scat or

834

00:29:15,909 --> 00:29:14,240

any sign of bear

835

00:29:17,909 --> 00:29:15,919

and then yeah and so it's just like they

836

00:29:19,750 --> 00:29:17,919

just take off so there's there's a lot

837

00:29:21,430 --> 00:29:19,760

there's a lot to this area

838

00:29:22,549 --> 00:29:21,440

but uh you know come tomorrow we're

839

00:29:24,630 --> 00:29:22,559

gonna be spending a week out in this

840

00:29:26,310 --> 00:29:24,640

area we've been leaving alone other than

841

00:29:27,830 --> 00:29:26,320

placing long-term audio out there and i

842

00:29:29,269 --> 00:29:27,840

am based on the audio we think

843

00:29:31,350 --> 00:29:29,279

something's going on out there maybe

844

00:29:32,870 --> 00:29:31,360

possibly this is the year they're making

845

00:29:34,549 --> 00:29:32,880

or there will be more nests found and

846

00:29:37,430 --> 00:29:34,559

i'm excited about that

847

00:29:39,830 --> 00:29:37,440

how big do you think the group is

848

00:29:41,430 --> 00:29:39,840

well there's uh it's uh so uh when i

849

00:29:43,590 --> 00:29:41,440

first moved up to washington i stayed on

850

00:29:45,350 --> 00:29:43,600

a buddy's property that was about

851  
00:29:46,549 --> 00:29:45,360  
10 miles away

852  
00:29:48,950 --> 00:29:46,559  
from the nest

853  
00:29:50,149 --> 00:29:48,960  
um in a remote area and the reason i

854  
00:29:51,590 --> 00:29:50,159  
stayed on this property i was waiting

855  
00:29:53,510 --> 00:29:51,600  
for my house to foreclose and i stayed

856  
00:29:55,269 --> 00:29:53,520  
in my trailer on this guy's property

857  
00:29:56,710 --> 00:29:55,279  
another olympic project member and he

858  
00:29:57,990 --> 00:29:56,720  
said stay on this property because

859  
00:30:00,630 --> 00:29:58,000  
there's a logging gate right down the

860  
00:30:01,430 --> 00:30:00,640  
road and two different loggers reported

861  
00:30:03,350 --> 00:30:01,440  
seeing

862  
00:30:04,310 --> 00:30:03,360  
at like 3 30 in the morning while

863  
00:30:06,389 --> 00:30:04,320

they're waiting for the gate to be

864

00:30:09,110 --> 00:30:06,399

opened they reported seeing

865

00:30:10,870 --> 00:30:09,120

a unit of four a small you know two

866

00:30:12,870 --> 00:30:10,880

months apart they didn't know each other

867

00:30:15,590 --> 00:30:12,880

these loggers but they both saw the same

868

00:30:17,029 --> 00:30:15,600

thing a large male female and two

869

00:30:18,230 --> 00:30:17,039

smaller ones

870

00:30:22,470 --> 00:30:18,240

um

871

00:30:25,350 --> 00:30:22,480

months of march

872

00:30:27,110 --> 00:30:25,360

so um i you know if indeed we're dealing

873

00:30:29,990 --> 00:30:27,120

with sasquatch in this area and once

874

00:30:31,669 --> 00:30:30,000

again i do believe that um

875

00:30:33,350 --> 00:30:31,679

probably four or five

876  
00:30:34,710 --> 00:30:33,360  
maybe maybe i would say no more than

877  
00:30:35,669 --> 00:30:34,720  
seven possibly

878  
00:30:39,110 --> 00:30:35,679  
um

879  
00:30:40,789 --> 00:30:39,120  
because ten miles away for for two

880  
00:30:41,750 --> 00:30:40,799  
different loggers seeing at least a unit

881  
00:30:43,990 --> 00:30:41,760  
of four

882  
00:30:45,750 --> 00:30:44,000  
that tells me a lot and uh that's what

883  
00:30:48,230 --> 00:30:45,760  
that's what i assume that i could i

884  
00:30:50,950 --> 00:30:48,240  
could be wrong right

885  
00:30:53,750 --> 00:30:50,960  
well that brings up another question um

886  
00:30:57,750 --> 00:30:53,760  
and i'll i'll throw this to you quarter

887  
00:31:02,870 --> 00:31:00,470  
glad you asked

888  
00:31:05,590 --> 00:31:02,880

because i've got i've got uh three

889

00:31:08,549 --> 00:31:05,600

habituation properties i

890

00:31:09,990 --> 00:31:08,559

i visit i i say i manage but i'm i'm

891

00:31:12,470 --> 00:31:10,000

welcome there i just let them know i'm

892

00:31:13,750 --> 00:31:12,480

coming and they live there

893

00:31:16,230 --> 00:31:13,760

and

894

00:31:18,470 --> 00:31:16,240

one family has had them for probably

895

00:31:19,990 --> 00:31:18,480

three generations

896

00:31:21,830 --> 00:31:20,000

grandma

897

00:31:23,830 --> 00:31:21,840

great grandpa

898

00:31:26,149 --> 00:31:23,840

this family

899

00:31:28,870 --> 00:31:26,159

they have them and they interact with

900

00:31:30,950 --> 00:31:28,880

them in one way shape or form

901  
00:31:32,149 --> 00:31:30,960  
once a week once a month they'll see

902  
00:31:34,230 --> 00:31:32,159  
them they'll hear them i've been there

903  
00:31:37,110 --> 00:31:34,240  
i've sat on the porch and traded howls

904  
00:31:40,470 --> 00:31:37,120  
and and clacks back and forth i mean

905  
00:31:42,230 --> 00:31:40,480  
that's a treat but they've seen

906  
00:31:44,630 --> 00:31:42,240  
two groups

907  
00:31:47,110 --> 00:31:44,640  
of of three or four

908  
00:31:49,110 --> 00:31:47,120  
uh shane had mentioned and so but

909  
00:31:49,990 --> 00:31:49,120  
they're different colors so there's at

910  
00:31:52,870 --> 00:31:50,000  
least

911  
00:31:55,190 --> 00:31:52,880  
two families one of four and one of

912  
00:31:57,029 --> 00:31:55,200  
three living on their property the scene

913  
00:31:58,470 --> 00:31:57,039

and one of them is is kind of reddish

914

00:32:00,630 --> 00:31:58,480

and the other is kind of a grayish

915

00:32:01,590 --> 00:32:00,640

blackish you know

916

00:32:02,710 --> 00:32:01,600

and they've

917

00:32:05,269 --> 00:32:02,720

they're friendly enough with them

918

00:32:06,149 --> 00:32:05,279

they've shown them their babies

919

00:32:09,350 --> 00:32:06,159

right

920

00:32:11,509 --> 00:32:09,360

one guy walks up he walks to the uh he

921

00:32:13,350 --> 00:32:11,519

walks about a quarter mile to his gate

922

00:32:14,950 --> 00:32:13,360

gets his mail and walks back in the

923

00:32:17,190 --> 00:32:14,960

morning 7 7 30 every morning like

924

00:32:18,070 --> 00:32:17,200

clockwork who watch the dog up there

925

00:32:20,789 --> 00:32:18,080

and

926  
00:32:23,190 --> 00:32:20,799  
as he gets toward the gate the dog which

927  
00:32:25,909 --> 00:32:23,200  
is a really highly trained

928  
00:32:29,110 --> 00:32:25,919  
attack dog suddenly just cowers and

929  
00:32:31,509 --> 00:32:29,120  
whimpers and just gets quiet and that's

930  
00:32:34,950 --> 00:32:31,519  
how he knows they're there but

931  
00:32:37,269 --> 00:32:34,960  
they hear and see them often they give

932  
00:32:39,430 --> 00:32:37,279  
them you know apples bags apples oranges

933  
00:32:40,950 --> 00:32:39,440  
leftovers and things of that nature i've

934  
00:32:42,870 --> 00:32:40,960  
got three families that do that one of

935  
00:32:44,389 --> 00:32:42,880  
them another one that's in southeast

936  
00:32:46,549 --> 00:32:44,399  
missouri

937  
00:32:47,430 --> 00:32:46,559  
they call the

938  
00:32:49,269 --> 00:32:47,440

wife

939

00:32:50,870 --> 00:32:49,279

by the name

940

00:32:52,549 --> 00:32:50,880

her husband calls it a little like you

941

00:32:54,389 --> 00:32:52,559

know sugar pie you know a little a

942

00:32:55,509 --> 00:32:54,399

little lovey-dovey name it's not sugar

943

00:32:58,549 --> 00:32:55,519

pie but some

944

00:32:59,509 --> 00:32:58,559

similar to her name but

945

00:33:10,710 --> 00:32:59,519

they

946

00:33:13,430 --> 00:33:10,720

been dealing with them for 15 to 20

947

00:33:14,789 --> 00:33:13,440

years this family and then before that

948

00:33:17,430 --> 00:33:14,799

before they moved on to the property

949

00:33:19,269 --> 00:33:17,440

after the grandparents died

950

00:33:22,070 --> 00:33:19,279

they heard the stories and so they're

951  
00:33:25,029 --> 00:33:22,080  
continuing the

952  
00:33:26,389 --> 00:33:25,039  
relationship so to speak they're there i

953  
00:33:27,909 --> 00:33:26,399  
mean

954  
00:33:30,149 --> 00:33:27,919  
the funny thing is

955  
00:33:32,950 --> 00:33:30,159  
is that they forget to tell me it's such

956  
00:33:34,310 --> 00:33:32,960  
a regular thing with them and that's how

957  
00:33:35,350 --> 00:33:34,320  
you know

958  
00:33:36,870 --> 00:33:35,360  
i haven't talked to you in a couple

959  
00:33:39,029 --> 00:33:36,880  
weeks what's been going on well we went

960  
00:33:41,269 --> 00:33:39,039  
down we got a new car and i went down to

961  
00:33:44,549 --> 00:33:41,279  
walmart today and oh well bobby saw

962  
00:33:48,389 --> 00:33:46,549  
just matter of fact like you know i want

963  
00:33:49,350 --> 00:33:48,399

to get a haircut i saw a sasquatch they

964

00:33:51,750 --> 00:33:49,360

don't

965

00:33:53,830 --> 00:33:51,760

it's not that big of a deal

966

00:33:55,269 --> 00:33:53,840

until people who don't believe or have

967

00:33:56,470 --> 00:33:55,279

never been to their property see

968

00:33:57,750 --> 00:33:56,480

something or hear something what was

969

00:33:59,430 --> 00:33:57,760

that well

970

00:34:01,029 --> 00:33:59,440

depending on their believability they

971

00:34:02,870 --> 00:34:01,039

either tell them what it is or they will

972

00:34:04,549 --> 00:34:02,880

tell them something else just to change

973

00:34:08,149 --> 00:34:04,559

the subject but

974

00:34:09,190 --> 00:34:08,159

there are ongoing habituation properties

975

00:34:11,829 --> 00:34:09,200

and people are having these

976  
00:34:13,430 --> 00:34:11,839  
relationships a lot

977  
00:34:14,790 --> 00:34:13,440  
and so

978  
00:34:16,629 --> 00:34:14,800  
it's a real deal

979  
00:34:19,109 --> 00:34:16,639  
how about you ryan have you seen any

980  
00:34:21,109 --> 00:34:19,119  
evidence of that here in pennsylvania uh

981  
00:34:22,069 --> 00:34:21,119  
i hear stories a lot of the maryville

982  
00:34:23,030 --> 00:34:22,079  
area

983  
00:34:23,909 --> 00:34:23,040  
okay

984  
00:34:25,669 --> 00:34:23,919  
um

985  
00:34:26,790 --> 00:34:25,679  
families up there but they're seeing

986  
00:34:27,750 --> 00:34:26,800  
like the

987  
00:34:28,950 --> 00:34:27,760  
short

988  
00:34:31,190 --> 00:34:28,960

bigfoots

989

00:34:32,470 --> 00:34:31,200

they call them that apple steelers or i

990

00:34:34,470 --> 00:34:32,480

can't remember the name of that abba

991

00:34:36,710 --> 00:34:34,480

twitch or whatever you call them yeah

992

00:34:38,629 --> 00:34:36,720

yeah like these short small people

993

00:34:40,470 --> 00:34:38,639

and the indians there's a lot of indian

994

00:34:42,149 --> 00:34:40,480

uh

995

00:34:43,829 --> 00:34:42,159

indians that live up that way and they

996

00:34:45,829 --> 00:34:43,839

have stories about the

997

00:34:47,430 --> 00:34:45,839

small bigfoots that are still apples and

998

00:34:49,750 --> 00:34:47,440

what have you but really just up in the

999

00:34:51,270 --> 00:34:49,760

marionville area i mean uh i'm sure

1000

00:34:53,349 --> 00:34:51,280

people down by the chestnut area

1001

00:34:55,430 --> 00:34:53,359

probably have that occur more often i

1002

00:34:58,390 --> 00:34:55,440

just don't know of anything yeah i mean

1003

00:34:59,510 --> 00:34:58,400

i i live not far from there and uh yeah

1004

00:35:01,270 --> 00:34:59,520

we do

1005

00:35:03,750 --> 00:35:01,280

we have heard of a lot of

1006

00:35:06,790 --> 00:35:03,760

possible habituation with the smaller

1007

00:35:08,390 --> 00:35:06,800

albert which or these other beings and

1008

00:35:11,910 --> 00:35:08,400

i've had reports of people seeing them

1009

00:35:14,470 --> 00:35:11,920

running around in fields and such but uh

1010

00:35:15,829 --> 00:35:14,480

yeah you know the habituation overall

1011

00:35:18,870 --> 00:35:15,839

you don't hear a whole lot of it around

1012

00:35:21,109 --> 00:35:18,880

here how about you uh shane do you hear

1013

00:35:22,950 --> 00:35:21,119

a lot of that up there in the uh pacific

1014

00:35:25,190 --> 00:35:22,960

northwest

1015

00:35:27,190 --> 00:35:25,200

rumors of it i mean um

1016

00:35:28,870 --> 00:35:27,200

not a whole lot you know no offense to

1017

00:35:30,630 --> 00:35:28,880

anybody like once again i can't prove

1018

00:35:32,230 --> 00:35:30,640

anything i'm not a big fan of the

1019

00:35:33,829 --> 00:35:32,240

habituation um

1020

00:35:35,510 --> 00:35:33,839

i've investigated

1021

00:35:37,349 --> 00:35:35,520

uh people that have had them freaking

1022

00:35:39,109 --> 00:35:37,359

around you know uh frequently been

1023

00:35:40,069 --> 00:35:39,119

around their house for lengthy periods

1024

00:35:42,150 --> 00:35:40,079

of time

1025

00:35:44,390 --> 00:35:42,160

my problem with habituation is if

1026

00:35:47,109 --> 00:35:44,400

something's an area too long like the

1027

00:35:48,550 --> 00:35:47,119

nest area for example uh the nest area

1028

00:35:50,710 --> 00:35:48,560

basically i compare the nest area to

1029

00:35:52,710 --> 00:35:50,720

like a house you can't see the nest from

1030

00:35:54,230 --> 00:35:52,720

above or below you can't walk in that

1031

00:35:55,910 --> 00:35:54,240

door until you walk in that door once

1032

00:35:57,190 --> 00:35:55,920

you walk in to the necessary complete

1033

00:35:58,710 --> 00:35:57,200

destruction all around there all the

1034

00:35:59,430 --> 00:35:58,720

huckleberry bowel's broken it's cleared

1035

00:36:01,510 --> 00:35:59,440

out

1036

00:36:03,030 --> 00:36:01,520

lit leaves are stripped off

1037

00:36:04,390 --> 00:36:03,040

if you give up your cards then you're

1038

00:36:05,510 --> 00:36:04,400

going to be known so if you hang out in

1039

00:36:08,069 --> 00:36:05,520

an area too long i don't care if you're

1040

00:36:10,150 --> 00:36:08,079

a sasquatch or a bear or a deer or a

1041

00:36:12,470 --> 00:36:10,160

moose or whatever have you you're in the

1042

00:36:14,630 --> 00:36:12,480

area too much too long

1043

00:36:15,750 --> 00:36:14,640

um then you're gonna you need you need

1044

00:36:17,109 --> 00:36:15,760

food you need all that stuff you're

1045

00:36:19,190 --> 00:36:17,119

gonna leave a lot of impressions you're

1046

00:36:20,390 --> 00:36:19,200

gonna leave a lot of uh you're gonna be

1047

00:36:22,710 --> 00:36:20,400

known to be in that area and then give

1048

00:36:24,550 --> 00:36:22,720

up your cover that's the issue i have

1049

00:36:26,390 --> 00:36:24,560

not that sasquatch zone isn't frequent

1050

00:36:28,630 --> 00:36:26,400

areas i do believe that i think they're

1051  
00:36:30,230 --> 00:36:28,640  
curious and they frequent areas but i'm

1052  
00:36:32,069 --> 00:36:30,240  
not uh

1053  
00:36:34,069 --> 00:36:32,079  
i'm not really i don't know anybody up

1054  
00:36:36,310 --> 00:36:34,079  
here personally that

1055  
00:36:38,630 --> 00:36:36,320  
claims to have you know habituate

1056  
00:36:40,870 --> 00:36:38,640  
anything or you know in sasquatch

1057  
00:36:43,589 --> 00:36:40,880  
i have heard rumors um i'm not seeing

1058  
00:36:45,910 --> 00:36:43,599  
any personally any evidence of that

1059  
00:36:48,310 --> 00:36:45,920  
um i think sasquatch does what it does

1060  
00:36:51,349 --> 00:36:48,320  
and and uh you know if uh you know one

1061  
00:36:53,829 --> 00:36:51,359  
of the the the just real quick is uh you

1062  
00:36:55,510 --> 00:36:53,839  
know donna donna um this lady we worked

1063  
00:36:57,589 --> 00:36:55,520

with for for a while she moved into a

1064

00:36:58,870 --> 00:36:57,599

remote air well not a remote area but a

1065

00:37:00,069 --> 00:36:58,880

house that was vacant for like four

1066

00:37:01,670 --> 00:37:00,079

years

1067

00:37:03,829 --> 00:37:01,680

and for the you know over a couple of

1068

00:37:05,430 --> 00:37:03,839

years she she would see this thing she

1069

00:37:07,270 --> 00:37:05,440

would it would you know yell it would

1070

00:37:09,190 --> 00:37:07,280

scare her dogs or animals they would

1071

00:37:10,230 --> 00:37:09,200

throw stuff at their house but it wasn't

1072

00:37:12,150 --> 00:37:10,240

there for

1073

00:37:13,510 --> 00:37:12,160

like months on end it would come back

1074

00:37:15,190 --> 00:37:13,520

and go and sometimes it'd be much with

1075

00:37:16,150 --> 00:37:15,200

nothing and all of a sudden it's back

1076

00:37:17,829 --> 00:37:16,160

um

1077

00:37:20,390 --> 00:37:17,839

you know single female limited house her

1078

00:37:21,109 --> 00:37:20,400

husband traveled around the country

1079

00:37:23,829 --> 00:37:21,119

but

1080

00:37:25,430 --> 00:37:23,839

it had a fascination with with her and i

1081

00:37:27,910 --> 00:37:25,440

think that mainly because her house had

1082

00:37:30,230 --> 00:37:27,920

a bunch of windows and no blinds and so

1083

00:37:33,349 --> 00:37:30,240

it could watch her from the woods

1084

00:37:35,589 --> 00:37:33,359

it's tv so i think they they they get

1085

00:37:37,750 --> 00:37:35,599

curious and they'll hang out in area

1086

00:37:39,829 --> 00:37:37,760

but to stay in one area and

1087

00:37:41,270 --> 00:37:39,839

get all the substances all the nutrients

1088

00:37:42,630 --> 00:37:41,280

and all the you know food and water you

1089

00:37:44,550 --> 00:37:42,640

need you're going to give yourself up at

1090

00:37:46,710 --> 00:37:44,560

some point in time so maybe there's some

1091

00:37:47,910 --> 00:37:46,720

to it i don't know

1092

00:37:50,069 --> 00:37:47,920

well

1093

00:37:52,790 --> 00:37:50,079

i got another question here um from

1094

00:37:55,349 --> 00:37:52,800

summer nights and neon lights uh how do

1095

00:37:57,510 --> 00:37:55,359

the bigfoot handle the cold weather and

1096

00:37:59,109 --> 00:37:57,520

the climate

1097

00:38:01,030 --> 00:37:59,119

i mean i guess just like any other

1098

00:38:03,030 --> 00:38:01,040

animal i mean you know they seem to

1099

00:38:04,550 --> 00:38:03,040

adjust them now

1100

00:38:06,310 --> 00:38:04,560

what about a quarter

1101

00:38:08,710 --> 00:38:06,320

well you know

1102

00:38:11,430 --> 00:38:08,720

there's a lot of theory and when i first

1103

00:38:14,710 --> 00:38:11,440

got into this i didn't really

1104

00:38:18,230 --> 00:38:14,720

consider this to be valid but uh caves

1105

00:38:20,310 --> 00:38:18,240

living in caves yeah you know they are

1106

00:38:21,990 --> 00:38:20,320

temperature controlled here in missouri

1107

00:38:24,710 --> 00:38:22,000

we have you know

1108

00:38:27,349 --> 00:38:24,720

storage that's all caves and it's it's

1109

00:38:28,870 --> 00:38:27,359

year-round 74 degrees i mean you know

1110

00:38:31,750 --> 00:38:28,880

winter summer

1111

00:38:33,109 --> 00:38:31,760

it's temperate the whole time so my only

1112

00:38:36,390 --> 00:38:33,119

problem with them you know living in

1113

00:38:39,109 --> 00:38:36,400

caves would be if i was on the run i'd

1114

00:38:41,349 --> 00:38:39,119

want a way out i'd want a back door you

1115

00:38:42,710 --> 00:38:41,359

know but they have watchers and they you

1116

00:38:44,790 --> 00:38:42,720

know there's one that watches while

1117

00:38:46,630 --> 00:38:44,800

everybody else is sleeping or eating and

1118

00:38:48,470 --> 00:38:46,640

they probably take turns but you know

1119

00:38:50,150 --> 00:38:48,480

but you know i think if you're in the

1120

00:38:52,550 --> 00:38:50,160

caves and if you can if you can control

1121

00:38:54,550 --> 00:38:52,560

your body heat you can just dig a hole

1122

00:38:56,710 --> 00:38:54,560

you can crawl under a log you can you

1123

00:38:58,069 --> 00:38:56,720

can get into a tight space and use your

1124

00:39:00,470 --> 00:38:58,079

body heat

1125

00:39:03,190 --> 00:39:00,480

to keep yourself warm in really extreme

1126

00:39:07,270 --> 00:39:03,200

uh areas but they would have to live

1127

00:39:09,190 --> 00:39:07,280

in caves or have some type of

1128

00:39:10,870 --> 00:39:09,200

control within their bodies where they

1129

00:39:13,030 --> 00:39:10,880

could

1130

00:39:14,870 --> 00:39:13,040

stay warm uh

1131

00:39:16,069 --> 00:39:14,880

mental thing or

1132

00:39:17,190 --> 00:39:16,079

the body does some kind of

1133

00:39:18,470 --> 00:39:17,200

transformation i'm not talking about

1134

00:39:19,750 --> 00:39:18,480

metaphysical stuff i'm just talking

1135

00:39:21,030 --> 00:39:19,760

about there's a you know chemical thing

1136

00:39:21,829 --> 00:39:21,040

going on where they can control their

1137

00:39:23,829 --> 00:39:21,839

heat

1138

00:39:25,430 --> 00:39:23,839

you know uh you know like ducks with all

1139

00:39:27,190 --> 00:39:25,440

their layers and their feathers and

1140

00:39:29,990 --> 00:39:27,200

they're down and stuff you know they may

1141

00:39:32,630 --> 00:39:30,000

have compacted hairs that keep them

1142

00:39:33,750 --> 00:39:32,640

much warmer than we would anticipate you

1143

00:39:39,349 --> 00:39:33,760

know

1144

00:39:41,510 --> 00:39:39,359

bad some places and uh

1145

00:39:43,109 --> 00:39:41,520

the winter and

1146

00:39:44,630 --> 00:39:43,119

they got to be using some type of

1147

00:39:46,310 --> 00:39:44,640

shelter wouldn't you think

1148

00:39:47,510 --> 00:39:46,320

well i have to agree with them yeah most

1149

00:39:48,870 --> 00:39:47,520

likely caves

1150

00:39:51,270 --> 00:39:48,880

we have a theory for a while that they

1151

00:39:52,870 --> 00:39:51,280

move a lot like bears especially the

1152

00:39:54,069 --> 00:39:52,880

chestnut ridge and the mountain range

1153

00:39:56,310 --> 00:39:54,079

goes all the way up to new york all the

1154

00:39:57,990 --> 00:39:56,320

way down below west virginia you know

1155

00:39:59,510 --> 00:39:58,000

most likely they're traveling that and

1156

00:40:01,829 --> 00:39:59,520

they have a pattern kind of like bears

1157

00:40:03,750 --> 00:40:01,839

do so colder months come they kind of go

1158

00:40:05,829 --> 00:40:03,760

down south a little bit more warms up

1159

00:40:08,950 --> 00:40:05,839

they come back up but uh most of the

1160

00:40:10,309 --> 00:40:08,960

time like carter said mostly using caves

1161

00:40:11,829 --> 00:40:10,319

like they probably have a route that

1162

00:40:13,430 --> 00:40:11,839

they use and they just

1163

00:40:15,030 --> 00:40:13,440

hey we have a home up north we have a

1164

00:40:17,270 --> 00:40:15,040

home north south and they just kind of

1165

00:40:18,630 --> 00:40:17,280

rotate up and down that was our area for

1166

00:40:20,230 --> 00:40:18,640

the longest time

1167

00:40:22,309 --> 00:40:20,240

you know i agree with that i think

1168

00:40:24,870 --> 00:40:22,319

there's a possibility that

1169

00:40:25,990 --> 00:40:24,880

the bigfoot that

1170

00:40:27,430 --> 00:40:26,000

around here

1171

00:40:29,990 --> 00:40:27,440

do um

1172

00:40:31,430 --> 00:40:30,000

migrate through the the appalachias i

1173

00:40:32,710 --> 00:40:31,440

mean uh

1174

00:40:34,309 --> 00:40:32,720

you know there's a lot of mountain there

1175

00:40:35,349 --> 00:40:34,319

a lot of valleys a lot of area a lot of

1176

00:40:39,190 --> 00:40:35,359

cover

1177

00:40:41,030 --> 00:40:39,200

uh they may very well utilize that

1178

00:40:42,550 --> 00:40:41,040

well totally yeah

1179

00:40:44,630 --> 00:40:42,560

it's such a long

1180

00:40:46,390 --> 00:40:44,640

it's yeah i mean people don't realize

1181

00:40:49,030 --> 00:40:46,400

we're going all the way down to georgia

1182

00:40:51,349 --> 00:40:49,040

up into you know up into maine of course

1183

00:40:53,990 --> 00:40:51,359

and yeah and we do get a lot of

1184

00:40:56,309 --> 00:40:54,000

sightings along these the ridge i mean

1185

00:40:59,349 --> 00:40:56,319

along the appalachian trail and in you

1186

00:41:00,710 --> 00:40:59,359

know along the ridgeline so uh

1187

00:41:02,710 --> 00:41:00,720

possibly

1188

00:41:03,990 --> 00:41:02,720

uh you know shane you mentioned that

1189

00:41:05,109 --> 00:41:04,000

it's pretty tempered up there where

1190

00:41:07,349 --> 00:41:05,119

you're at

1191

00:41:09,349 --> 00:41:07,359

and i think that's pretty conducive to

1192

00:41:10,870 --> 00:41:09,359

them being able to survive and

1193

00:41:12,069 --> 00:41:10,880

especially in groups up there what do

1194

00:41:13,510 --> 00:41:12,079

you think

1195

00:41:15,270 --> 00:41:13,520

yeah i mean you mentioned it earlier i

1196

00:41:17,349 --> 00:41:15,280

think you know i mean deer survive up

1197

00:41:18,630 --> 00:41:17,359

here wolves survive up here black bears

1198

00:41:20,150 --> 00:41:18,640

survive up here black bears are

1199

00:41:22,390 --> 00:41:20,160

semi-hibernaters they're not true

1200

00:41:24,870 --> 00:41:22,400

hibernators they'll wake up and yeah so

1201

00:41:26,470 --> 00:41:24,880

um all these animals do it and i think

1202

00:41:28,150 --> 00:41:26,480

they're more transitory so if you look

1203

00:41:29,349 --> 00:41:28,160

at like the elk populations up here you

1204

00:41:31,030 --> 00:41:29,359

know where to find them at certain times

1205

00:41:32,470 --> 00:41:31,040

of the year you know they go up and down

1206

00:41:33,829 --> 00:41:32,480

these mountains you know to go down to

1207

00:41:35,990 --> 00:41:33,839

the valley and then go up you know

1208

00:41:37,270 --> 00:41:36,000

depending on the snow line and it's it's

1209

00:41:39,589 --> 00:41:37,280

not so much a migration it's just

1210

00:41:40,550 --> 00:41:39,599

transitory elevational transitory

1211

00:41:41,990 --> 00:41:40,560

movement

1212

00:41:43,510 --> 00:41:42,000

i think sasquatch does that we don't

1213

00:41:45,430 --> 00:41:43,520

have a whole lot of caves out here um

1214

00:41:46,950 --> 00:41:45,440

but and in some of these areas we do get

1215

00:41:48,710 --> 00:41:46,960

a ton you know up in the olympics they

1216

00:41:50,230 --> 00:41:48,720

do get a lot of snow but you just move

1217

00:41:52,230 --> 00:41:50,240

that's you just move the elk do it the

1218

00:41:54,230 --> 00:41:52,240

bear do it yeah all the animals do it so

1219

00:41:56,069 --> 00:41:54,240

they just move down in elevation

1220

00:41:57,270 --> 00:41:56,079

and that's why if you look at numbers or

1221

00:42:00,790 --> 00:41:57,280

sightings

1222

00:42:01,990 --> 00:42:00,800

at lower elevations you know around

1223

00:42:02,950 --> 00:42:02,000

homesteads where people are because

1224

00:42:04,630 --> 00:42:02,960

people are not up on these mountains

1225

00:42:05,430 --> 00:42:04,640

being trapped by snow they're down lower

1226

00:42:06,790 --> 00:42:05,440

well that's where you're going to have

1227

00:42:08,630 --> 00:42:06,800

your sasquatch sightings and your bear

1228

00:42:10,230 --> 00:42:08,640

sightings your elk sightings because

1229

00:42:11,829 --> 00:42:10,240

there's less snow down there in the

1230

00:42:13,589 --> 00:42:11,839

valleys and then you get up high and

1231

00:42:15,190 --> 00:42:13,599

yeah there's a ton of snow so

1232

00:42:16,630 --> 00:42:15,200

i think it's a transitory thing and i

1233

00:42:19,190 --> 00:42:16,640

think the sasquatch i mean they are

1234

00:42:21,430 --> 00:42:19,200

hairy i think they're they're well uh

1235

00:42:22,309 --> 00:42:21,440

well made to live out in these areas and

1236

00:42:24,390 --> 00:42:22,319

they can

1237

00:42:26,950 --> 00:42:24,400

you know move around and uh

1238

00:42:29,190 --> 00:42:26,960

you know find a stump or uh build a nest

1239

00:42:30,790 --> 00:42:29,200

or uh you know find these warm pockets

1240

00:42:33,190 --> 00:42:30,800

or you know i mean up in the olympics

1241

00:42:34,790 --> 00:42:33,200

too you're surrounded by the coast

1242

00:42:37,030 --> 00:42:34,800

you know so you can go into these little

1243

00:42:38,950 --> 00:42:37,040

micro climate areas where tons of food

1244

00:42:42,550 --> 00:42:38,960

you know and and uh survive and thrive

1245

00:42:43,510 --> 00:42:42,560

there uh and uh stay warm so it's yeah i

1246

00:42:44,950 --> 00:42:43,520

i don't i don't think there's a whole

1247

00:42:46,069 --> 00:42:44,960

lot to it i think they're just you know

1248

00:42:47,829 --> 00:42:46,079

they're they're made for their

1249

00:42:50,069 --> 00:42:47,839

environment and they're they're geniuses

1250

00:42:51,589 --> 00:42:50,079

in their environment just like every

1251

00:42:53,190 --> 00:42:51,599

other animal that's out there now that

1252

00:42:56,829 --> 00:42:53,200

survives

1253

00:43:00,870 --> 00:42:59,990

carter no the other thing i can think of

1254

00:43:01,990 --> 00:43:00,880

uh

1255

00:43:04,390 --> 00:43:02,000

is

1256

00:43:06,710 --> 00:43:04,400

abandoned buildings yeah

1257

00:43:09,349 --> 00:43:06,720

there's a lot of that here

1258

00:43:10,950 --> 00:43:09,359

buildings uh you know the farm you know

1259

00:43:13,109 --> 00:43:10,960

sheds you know

1260

00:43:14,390 --> 00:43:13,119

um hay sheds that are just out in the

1261

00:43:15,910 --> 00:43:14,400

middle of nowhere nobody goes where they

1262

00:43:17,510 --> 00:43:15,920

stash the hay and they go back and take

1263

00:43:19,589 --> 00:43:17,520

a you know a bale or two and then

1264

00:43:22,950 --> 00:43:19,599

they're gone

1265

00:43:24,309 --> 00:43:22,960

awfully wonderful insulation

1266

00:43:26,150 --> 00:43:24,319

and the only other thing that i will

1267

00:43:29,030 --> 00:43:26,160

come up with other than the cave systems

1268

00:43:30,710 --> 00:43:29,040

in you know abandoned buildings is if

1269

00:43:31,589 --> 00:43:30,720

they have a way

1270

00:43:32,950 --> 00:43:31,599

as

1271

00:43:35,270 --> 00:43:32,960

you know this is going to get into the

1272

00:43:37,030 --> 00:43:35,280

paranormal aspect but if they have a way

1273

00:43:39,829 --> 00:43:37,040

to meditate and

1274

00:43:41,990 --> 00:43:39,839

lower their body temperature or raise it

1275

00:43:43,910 --> 00:43:42,000

as many of you know the monks and

1276

00:43:44,790 --> 00:43:43,920

tibetans can do

1277

00:43:47,030 --> 00:43:44,800

uh

1278

00:43:48,630 --> 00:43:47,040

that might be a possibility but

1279

00:43:50,790 --> 00:43:48,640

as shayna mentioned i mentioned it you

1280

00:43:52,829 --> 00:43:50,800

know you know how many layers of hair do

1281

00:43:55,030 --> 00:43:52,839

they really have you know

1282

00:43:56,710 --> 00:43:55,040

what if you've got three or four you've

1283

00:43:58,790 --> 00:43:56,720

got a couple of coats of down and then

1284

00:43:59,510 --> 00:43:58,800

you've got a couple of coats of hair

1285

00:44:01,109 --> 00:43:59,520

yeah

1286

00:44:05,670 --> 00:44:01,119

you know you could be in zero degrees

1287

00:44:08,390 --> 00:44:05,680

and just break a sweat you know yeah

1288

00:44:10,710 --> 00:44:08,400

um i mean this this goes to shane i'm

1289

00:44:12,870 --> 00:44:10,720

burning it ass could those nests be

1290

00:44:14,230 --> 00:44:12,880

uh where they raise their young or use

1291

00:44:15,589 --> 00:44:14,240

them to have young and i think you

1292

00:44:18,470 --> 00:44:15,599

mentioned that

1293

00:44:20,390 --> 00:44:18,480

yeah birthing plates uh possibly their

1294

00:44:22,710 --> 00:44:20,400

birthing or some sort of uh you know

1295

00:44:23,990 --> 00:44:22,720

nursery scenario but not for we're not

1296

00:44:26,069 --> 00:44:24,000

talking like they're using these things

1297

00:44:28,150 --> 00:44:26,079

for months on end there's a spell of

1298

00:44:29,670 --> 00:44:28,160

time and i guarantee it's no longer than

1299

00:44:31,910 --> 00:44:29,680

february through march so no longer than

1300

00:44:34,550 --> 00:44:31,920

two months but i would assume probably

1301

00:44:35,430 --> 00:44:34,560

a week to a month tops in this area

1302

00:44:38,150 --> 00:44:35,440

um

1303

00:44:39,990 --> 00:44:38,160

so uh yeah i mean i that's where i lean

1304

00:44:42,069 --> 00:44:40,000

based on the number of nests and the

1305

00:44:44,790 --> 00:44:42,079

size of nests and also based on those

1306

00:44:46,150 --> 00:44:44,800

bush nests and the reason those bushness

1307

00:44:48,069 --> 00:44:46,160

the ones we call the practice nest

1308

00:44:49,190 --> 00:44:48,079

they're like a mirror image

1309

00:44:50,470 --> 00:44:49,200

of what's on the ground but they're

1310

00:44:52,470 --> 00:44:50,480

built three or four feet into the

1311

00:44:54,309 --> 00:44:52,480

huckleberry bushes the reason those are

1312

00:44:56,630 --> 00:44:54,319

so fascinating they're two of them we

1313

00:44:59,109 --> 00:44:56,640

found and two on the same ridge line but

1314

00:45:00,790 --> 00:44:59,119

in two different nest sites

1315

00:45:02,390 --> 00:45:00,800

the interesting thing is derrick

1316

00:45:04,470 --> 00:45:02,400

randalls had done a lot of research on

1317

00:45:05,670 --> 00:45:04,480

this um after he got the visit there and

1318

00:45:07,750 --> 00:45:05,680

was led out there by this timber

1319

00:45:09,270 --> 00:45:07,760

surveyor and a couple of dnr the

1320

00:45:10,790 --> 00:45:09,280

department of natural resources and the

1321

00:45:12,390 --> 00:45:10,800

owner of this property

1322

00:45:14,309 --> 00:45:12,400

when he saw that bushness he did a lot

1323

00:45:15,829 --> 00:45:14,319

of research on and well it's it's

1324

00:45:17,670 --> 00:45:15,839

gorillas that's how they teach their

1325

00:45:19,190 --> 00:45:17,680

young to build nests they practice nests

1326

00:45:21,270 --> 00:45:19,200

and the little ones will do that and

1327

00:45:23,430 --> 00:45:21,280

it's a mirror image but not it won't

1328

00:45:25,109 --> 00:45:23,440

hold any weight it was just a almost

1329

00:45:27,430 --> 00:45:25,119

like a practice nest

1330

00:45:29,829 --> 00:45:27,440

and so that tells me you got big ones

1331

00:45:33,430 --> 00:45:29,839

and you got little ones and so it's some

1332

00:45:35,829 --> 00:45:33,440

sort of family unit i would suspect

1333

00:45:37,589 --> 00:45:35,839

uh and that they're there for a reason

1334

00:45:39,270 --> 00:45:37,599

probably because of a birthing scenario

1335

00:45:41,829 --> 00:45:39,280

or a nursery scenario for a spell of

1336

00:45:43,670 --> 00:45:41,839

time and also because of the nutrients

1337

00:45:44,870 --> 00:45:43,680

the amount of food in that area at that

1338

00:45:46,790 --> 00:45:44,880

time of year

1339

00:45:48,550 --> 00:45:46,800

and that the micro climate is phenomenal

1340

00:45:50,870 --> 00:45:48,560

so yeah yeah

1341

00:45:52,470 --> 00:45:50,880

we have the same thing at clearfield uh

1342

00:45:53,990 --> 00:45:52,480

right near the power lines they were

1343

00:45:55,349 --> 00:45:54,000

like

1344

00:45:56,550 --> 00:45:55,359

i don't want to say teepees but you

1345

00:45:57,589 --> 00:45:56,560

could tell something took sticks and

1346

00:45:59,109 --> 00:45:57,599

they were

1347

00:46:01,030 --> 00:45:59,119

intertwined

1348

00:46:03,349 --> 00:46:01,040

and something was large enough to keep

1349

00:46:05,430 --> 00:46:03,359

something out of the rain basically a

1350

00:46:06,710 --> 00:46:05,440

couple weeks later we went back up and

1351

00:46:09,109 --> 00:46:06,720

they were gone

1352

00:46:11,349 --> 00:46:09,119

like they erased where they were it was

1353

00:46:12,710 --> 00:46:11,359

it was very odd because we're like we

1354

00:46:14,870 --> 00:46:12,720

know we're in the right spot where are

1355

00:46:17,270 --> 00:46:14,880

these and they they were gone

1356

00:46:18,230 --> 00:46:17,280

very often

1357

00:46:20,309 --> 00:46:18,240

um

1358

00:46:22,790 --> 00:46:20,319

james asked is it possible that some

1359

00:46:24,069 --> 00:46:22,800

bigfoot hibernate like bears

1360

00:46:26,550 --> 00:46:24,079

do you think that's possible in some

1361

00:46:32,390 --> 00:46:30,069

i don't i i don't here in missouri uh

1362

00:46:35,270 --> 00:46:32,400

they're seen in the winter

1363

00:46:37,109 --> 00:46:35,280

spring whatever you know i i don't

1364

00:46:39,030 --> 00:46:37,119

i don't think they have that and i i

1365

00:46:40,470 --> 00:46:39,040

don't know i'm not scientifically

1366

00:46:42,550 --> 00:46:40,480

inclined but i don't

1367

00:46:45,030 --> 00:46:42,560

know how they would have that

1368

00:46:47,589 --> 00:46:45,040

hibernation system in them you know like

1369

00:46:48,950 --> 00:46:47,599

like bears do and other creatures do but

1370

00:46:49,829 --> 00:46:48,960

you know they're seeing enough around

1371

00:46:52,470 --> 00:46:49,839

here

1372

00:46:54,390 --> 00:46:52,480

uh on a regular basis that i don't think

1373

00:46:57,750 --> 00:46:54,400

they hibernate you know i think they've

1374

00:46:58,790 --> 00:46:57,760

got a massive body that needs caloric

1375

00:47:01,510 --> 00:46:58,800

intake

1376

00:47:03,829 --> 00:47:01,520

as as do the young you know of course a

1377

00:47:05,589 --> 00:47:03,839

bear is a large creature too but it has

1378

00:47:07,510 --> 00:47:05,599

the mechanism

1379

00:47:09,990 --> 00:47:07,520

to turn itself off so to speak for

1380

00:47:12,150 --> 00:47:10,000

several months at a time i just i don't

1381

00:47:13,589 --> 00:47:12,160

see that here nobody else really sees it

1382

00:47:16,390 --> 00:47:13,599

here because they're seen

1383

00:47:20,549 --> 00:47:16,400

a lot you know on a regular basis so i

1384

00:47:22,549 --> 00:47:20,559

don't hear i'm not i don't believe it

1385

00:47:26,630 --> 00:47:22,559

one way or the other as far as

1386

00:47:30,230 --> 00:47:28,309

yeah i think we all agree on that i

1387

00:47:31,589 --> 00:47:30,240

don't think they do hibernate i mean we

1388

00:47:33,190 --> 00:47:31,599

everywhere i you know i've gotten

1389

00:47:35,030 --> 00:47:33,200

reports from

1390

00:47:39,349 --> 00:47:35,040

all seasons so i don't think there's

1391

00:47:42,150 --> 00:47:39,359

really much to that right i don't know

1392

00:47:44,710 --> 00:47:42,160

so i got another question um

1393

00:47:47,430 --> 00:47:44,720

from forest do you guys know

1394

00:47:50,150 --> 00:47:47,440

the one thing that will drive sasquatch

1395

00:47:52,790 --> 00:47:50,160

crazy as to something to eat

1396

00:47:54,630 --> 00:47:52,800

or come for every time

1397

00:47:57,270 --> 00:47:54,640

i don't know

1398

00:47:59,829 --> 00:47:57,280

what's what's what's the what seems uh

1399

00:48:03,430 --> 00:47:59,839

let me ask shane

1400

00:48:05,349 --> 00:48:03,440

what do you believe uh they're

1401  
00:48:06,790 --> 00:48:05,359  
they're you know what they like to eat

1402  
00:48:08,150 --> 00:48:06,800  
the most i mean

1403  
00:48:09,750 --> 00:48:08,160  
i'm quite sure it's different in

1404  
00:48:10,630 --> 00:48:09,760  
different areas but how about up in your

1405  
00:48:12,309 --> 00:48:10,640  
area

1406  
00:48:13,990 --> 00:48:12,319  
yeah of course i can't speak for around

1407  
00:48:15,510 --> 00:48:14,000  
the country i mean up here i mean if you

1408  
00:48:17,670 --> 00:48:15,520  
look at if you just look at the native

1409  
00:48:19,349 --> 00:48:17,680  
american aspect of this the stories i

1410  
00:48:20,950 --> 00:48:19,359  
mean the natives talking about you know

1411  
00:48:22,710 --> 00:48:20,960  
them hanging salmon up in the salmon

1412  
00:48:25,030 --> 00:48:22,720  
here comes the saturn takes the salmon

1413  
00:48:26,549 --> 00:48:25,040

really you know and and now i do believe

1414

00:48:28,549 --> 00:48:26,559

there's a big part of this up here in

1415

00:48:30,470 --> 00:48:28,559

similar west obviously the rest of the

1416

00:48:32,230 --> 00:48:30,480

country doesn't have you know some parts

1417

00:48:34,069 --> 00:48:32,240

do but a lot of places don't have salmon

1418

00:48:35,030 --> 00:48:34,079

or steelhead they have trout and stuff

1419

00:48:36,950 --> 00:48:35,040

like that but

1420

00:48:38,549 --> 00:48:36,960

up here all all the way up to british

1421

00:48:40,630 --> 00:48:38,559

columbia there's reports of sasquatch

1422

00:48:42,630 --> 00:48:40,640

stealing you know hundreds years ago

1423

00:48:44,069 --> 00:48:42,640

native americans catches of salmon and

1424

00:48:45,670 --> 00:48:44,079

steelhead i think that plays a huge role

1425

00:48:48,230 --> 00:48:45,680

i mean look at the brown bear and the

1426

00:48:50,710 --> 00:48:48,240

grizzly that's what they eat um i do

1427

00:48:52,390 --> 00:48:50,720

believe again huckleberry huckleberry

1428

00:48:54,870 --> 00:48:52,400

and once again you have different types

1429

00:48:56,710 --> 00:48:54,880

of huckleberry all around the nation

1430

00:48:58,710 --> 00:48:56,720

you know up here we have the most

1431

00:49:00,150 --> 00:48:58,720

prominent one on the coasters is

1432

00:49:02,710 --> 00:49:00,160

evergreen huckleberry and i think that

1433

00:49:05,270 --> 00:49:02,720

plays a big role uh especially in these

1434

00:49:07,190 --> 00:49:05,280

micro climate areas where it'll last you

1435

00:49:09,829 --> 00:49:07,200

know it'll you know start off in august

1436

00:49:12,710 --> 00:49:09,839

and last in some areas until february

1437

00:49:14,150 --> 00:49:12,720

um so i think uh yeah and then i also

1438

00:49:15,990 --> 00:49:14,160

think you know sasquatch is

1439

00:49:17,510 --> 00:49:16,000

opportunistic it'll eat whatever the

1440

00:49:18,950 --> 00:49:17,520

heck can get his hands on but uh even

1441

00:49:20,630 --> 00:49:18,960

roadkill i think that's why we have so

1442

00:49:21,510 --> 00:49:20,640

many roadside crossings that's my

1443

00:49:23,190 --> 00:49:21,520

opinion

1444

00:49:25,589 --> 00:49:23,200

i think that's big here

1445

00:49:27,670 --> 00:49:25,599

yeah yes well the number one sighting is

1446

00:49:29,270 --> 00:49:27,680

you know roadside crossings and there's

1447

00:49:30,950 --> 00:49:29,280

a number of reasons for that

1448

00:49:32,230 --> 00:49:30,960

one there's more people on the roads

1449

00:49:33,589 --> 00:49:32,240

right you know there's less people

1450

00:49:35,589 --> 00:49:33,599

hiking and camping there's more people

1451

00:49:36,470 --> 00:49:35,599

on the roads driving and so of course

1452

00:49:38,470 --> 00:49:36,480

you're gonna have more roadside

1453

00:49:40,230 --> 00:49:38,480

crossings but i really do believe that

1454

00:49:42,549 --> 00:49:40,240

sasquatch is

1455

00:49:44,470 --> 00:49:42,559

opportunistic and will i got lots of

1456

00:49:46,470 --> 00:49:44,480

reports of sasquatch picking up a deer

1457

00:49:48,150 --> 00:49:46,480

on the side of the road or you know when

1458

00:49:50,710 --> 00:49:48,160

i did a cross-country trip all the way

1459

00:49:52,390 --> 00:49:50,720

to tennessee i i looked at the roads and

1460

00:49:56,710 --> 00:49:52,400

i saw tons of roadkill you name it

1461

00:49:58,549 --> 00:49:56,720

raccoons and and deer and armadillos and

1462

00:50:01,750 --> 00:49:58,559

you name it and i thought man what a

1463

00:50:03,270 --> 00:50:01,760

smorgasbord of easy food sources you

1464

00:50:05,670 --> 00:50:03,280

know if it's an omnivore which i do

1465

00:50:07,829 --> 00:50:05,680

believe it is it'll eat what you know so

1466

00:50:09,030 --> 00:50:07,839

yeah it'll eat whatever heck it wants um

1467

00:50:10,950 --> 00:50:09,040

you know some people will tell you they

1468

00:50:13,270 --> 00:50:10,960

like starburst and blueberry muffins i

1469

00:50:14,790 --> 00:50:13,280

don't know

1470

00:50:16,870 --> 00:50:14,800

you know here in pence well here where

1471

00:50:18,470 --> 00:50:16,880

i'm at i'm in south central pennsylvania

1472

00:50:20,309 --> 00:50:18,480

i'm near gettysburg

1473

00:50:23,270 --> 00:50:20,319

and uh if you go west to gettysburg

1474

00:50:25,349 --> 00:50:23,280

about 15 miles you get up into misho

1475

00:50:27,430 --> 00:50:25,359

state forest and misha is pretty well

1476

00:50:29,270 --> 00:50:27,440

known for bigfoot activity

1477

00:50:32,069 --> 00:50:29,280

but most of the sightings i get along

1478

00:50:33,829 --> 00:50:32,079

route 30 that goes right through misho

1479

00:50:36,230 --> 00:50:33,839

are people seeing

1480

00:50:38,829 --> 00:50:36,240

bigfoot coming out onto the shoulders or

1481

00:50:42,390 --> 00:50:38,839

onto the roads and picking up dead deer

1482

00:50:44,390 --> 00:50:42,400

yeah they do it a lot and uh i i think

1483

00:50:47,190 --> 00:50:44,400

most of the settings i get are from

1484

00:50:50,470 --> 00:50:47,200

people seeing them taking roadkill

1485

00:50:52,549 --> 00:50:50,480

they are opportunistic and um

1486

00:50:55,190 --> 00:50:52,559

absolutely

1487

00:50:57,190 --> 00:50:55,200

as far as regular food i mean other than

1488

00:50:58,150 --> 00:50:57,200

them hunting and i think they do hunt

1489

00:51:00,790 --> 00:50:58,160

game

1490

00:51:02,710 --> 00:51:00,800

uh i think especially here in pa but

1491

00:51:03,750 --> 00:51:02,720

i i seems to think they eat a lot of

1492

00:51:05,990 --> 00:51:03,760

nuts and

1493

00:51:09,109 --> 00:51:06,000

a lot of wild nuts hickories and and

1494

00:51:11,190 --> 00:51:09,119

such in this area uh i don't know what

1495

00:51:13,190 --> 00:51:11,200

do you think uh carter

1496

00:51:14,950 --> 00:51:13,200

well he referred to something in his

1497

00:51:16,630 --> 00:51:14,960

question about having to get a federal

1498

00:51:18,230 --> 00:51:16,640

permit so i wonder if he was getting

1499

00:51:20,230 --> 00:51:18,240

into some kind of pheromone chips or

1500

00:51:23,589 --> 00:51:20,240

some kind of

1501

00:51:24,630 --> 00:51:23,599

something that is federally controlled

1502

00:51:26,630 --> 00:51:24,640

because he mentioned that you have to

1503

00:51:28,470 --> 00:51:26,640

have a federal permit unless that was in

1504

00:51:29,829 --> 00:51:28,480

the form of a question you have to have

1505

00:51:31,829 --> 00:51:29,839

a federal license to get your hands on

1506

00:51:33,349 --> 00:51:31,839

this nasty stuff well you know i think a

1507

00:51:35,750 --> 00:51:33,359

pheromone chip would be pretty nasty you

1508

00:51:37,910 --> 00:51:35,760

know but uh i've got a lot i have

1509

00:51:39,510 --> 00:51:37,920

smelled those things they are pretty bad

1510

00:51:40,309 --> 00:51:39,520

well that might be he was referring to

1511

00:51:44,150 --> 00:51:40,319

you know

1512

00:51:46,870 --> 00:51:44,160

human food pies

1513

00:51:49,349 --> 00:51:46,880

oranges you know we know they like jerky

1514

00:51:51,349 --> 00:51:49,359

you know so

1515

00:51:52,790 --> 00:51:51,359

they're out there i mean they love human

1516

00:51:54,630 --> 00:51:52,800

food that's that's one of the problems

1517

00:51:57,589 --> 00:51:54,640

with habituation is when you start

1518

00:51:59,270 --> 00:51:57,599

feeding them and then you pull back

1519

00:52:01,910 --> 00:51:59,280

they get irritated because they want

1520

00:52:03,910 --> 00:52:01,920

that food they want that apple pie they

1521

00:52:05,510 --> 00:52:03,920

want them chicken leftovers the fried

1522

00:52:06,630 --> 00:52:05,520

gizzards they want the stuff that they

1523

00:52:08,870 --> 00:52:06,640

can't get

1524

00:52:10,790 --> 00:52:08,880

you know and so when you do

1525

00:52:12,470 --> 00:52:10,800

habituate them to a regular feeding

1526  
00:52:15,030 --> 00:52:12,480  
pattern and you decide you don't want to

1527  
00:52:16,549 --> 00:52:15,040  
do it anymore they get a little tested

1528  
00:52:18,309 --> 00:52:16,559  
you know yeah i think they're just like

1529  
00:52:20,390 --> 00:52:18,319  
you know like a bear would be i mean if

1530  
00:52:23,430 --> 00:52:20,400  
you're gifting that's why i'm asking

1531  
00:52:26,549 --> 00:52:23,440  
about gifting being possible dangerous

1532  
00:52:29,349 --> 00:52:26,559  
you know if you start gifting them food

1533  
00:52:31,190 --> 00:52:29,359  
that they expect uh who's to say they're

1534  
00:52:35,430 --> 00:52:31,200  
not caught gonna cause issues i don't

1535  
00:52:41,030 --> 00:52:38,309  
i've heard people gifting and like

1536  
00:52:43,270 --> 00:52:41,040  
it becomes a problem yeah

1537  
00:52:45,510 --> 00:52:43,280  
um like then they don't go away like a

1538  
00:52:47,670 --> 00:52:45,520

dog i don't like they expect it and then

1539

00:52:49,750 --> 00:52:47,680

makes them lazy i guess i don't know

1540

00:52:52,710 --> 00:52:49,760

but i've noticed that when we had any

1541

00:52:55,109 --> 00:52:52,720

sightings like a bigfoot or a sighting

1542

00:52:57,430 --> 00:52:55,119

the bigfoot wasn't far from any water

1543

00:52:58,470 --> 00:52:57,440

or like a reservoir or a lake of some

1544

00:52:59,670 --> 00:52:58,480

sort

1545

00:53:06,150 --> 00:52:59,680

so

1546

00:53:07,750 --> 00:53:06,160

don't feed them

1547

00:53:09,589 --> 00:53:07,760

let them go off to the lake and eat you

1548

00:53:11,589 --> 00:53:09,599

know

1549

00:53:13,430 --> 00:53:11,599

yeah i i don't think i'd be feeding how

1550

00:53:16,790 --> 00:53:13,440

about you shane i mean

1551

00:53:18,950 --> 00:53:16,800

you get people feeding them up there

1552

00:53:21,190 --> 00:53:18,960

once again i've heard stories about it

1553

00:53:24,309 --> 00:53:21,200

you get you do have i came across what i

1554

00:53:26,069 --> 00:53:24,319

assumed was somebody gifting uh i was up

1555

00:53:27,670 --> 00:53:26,079

in an area and i came across a bunch of

1556

00:53:28,710 --> 00:53:27,680

squash and pumpkins this huge pile of

1557

00:53:30,150 --> 00:53:28,720

stuff

1558

00:53:31,510 --> 00:53:30,160

and the guy was outside this van or a

1559

00:53:33,109 --> 00:53:31,520

guy i never saw the person there was a

1560

00:53:34,950 --> 00:53:33,119

van parked and he had a bigfoot sticker

1561

00:53:36,309 --> 00:53:34,960

so i assumed this guy was doing that you

1562

00:53:37,190 --> 00:53:36,319

don't hear about that a whole lot up

1563

00:53:39,670 --> 00:53:37,200

here

1564

00:53:41,589 --> 00:53:39,680

um i'm sure people do it um i just i

1565

00:53:43,910 --> 00:53:41,599

don't like to gift anything because then

1566

00:53:46,309 --> 00:53:43,920

it becomes uh you know happen they come

1567

00:53:48,710 --> 00:53:46,319

back and come back and come back um and

1568

00:53:50,549 --> 00:53:48,720

then when you stop that you know uh you

1569

00:53:52,230 --> 00:53:50,559

know what happens after that and and

1570

00:53:55,670 --> 00:53:52,240

then once again i've never i've never

1571

00:53:57,670 --> 00:53:55,680

seen any evidence that show shows that

1572

00:53:59,510 --> 00:53:57,680

they're actually taking it i mean

1573

00:54:02,390 --> 00:53:59,520

i remember uh there's a couple of cool

1574

00:54:03,589 --> 00:54:02,400

things i i saw a david ellis had a

1575

00:54:05,270 --> 00:54:03,599

watermelon that looked like something

1576

00:54:07,109 --> 00:54:05,280

i'd bitten through the watermelon and he

1577

00:54:08,870 --> 00:54:07,119

actually casted the watermelon chunk and

1578

00:54:10,309 --> 00:54:08,880

it actually looks like teeth

1579

00:54:13,349 --> 00:54:10,319

i've seen peanut butter jars where

1580

00:54:15,510 --> 00:54:13,359

people have got fingers you know nutella

1581

00:54:17,829 --> 00:54:15,520

um but then you know a lot of animals

1582

00:54:20,470 --> 00:54:17,839

you're leaving that stuff out there so

1583

00:54:22,309 --> 00:54:20,480

uh maybe sasquatch is is partaking but

1584

00:54:23,829 --> 00:54:22,319

then what else is partaking what trash

1585

00:54:25,670 --> 00:54:23,839

you're leaving out there and and all

1586

00:54:26,870 --> 00:54:25,680

that so i i don't do it i think there's

1587

00:54:29,430 --> 00:54:26,880

plenty other ways to go about it

1588

00:54:30,870 --> 00:54:29,440

personally but um once again maybe uh

1589

00:54:33,910 --> 00:54:30,880

there's something to it but just be

1590

00:54:35,349 --> 00:54:33,920

careful what you do

1591

00:54:37,910 --> 00:54:35,359

yeah i am

1592

00:54:39,910 --> 00:54:37,920

i know a farmer and this has been years

1593

00:54:42,470 --> 00:54:39,920

ago and i was actually younger

1594

00:54:44,710 --> 00:54:42,480

who used to grow pumpkins

1595

00:54:46,549 --> 00:54:44,720

and uh

1596

00:54:48,870 --> 00:54:46,559

i had heard people saying that they were

1597

00:54:50,710 --> 00:54:48,880

bigfoot in the area and you know

1598

00:54:53,270 --> 00:54:50,720

this is a while back but

1599

00:54:54,789 --> 00:54:53,280

this guy lost half his crop one year and

1600

00:54:57,109 --> 00:54:54,799

he was wondering he was going in there

1601  
00:54:58,950 --> 00:54:57,119  
eating the pumpkins

1602  
00:55:00,390 --> 00:54:58,960  
you know it wasn't people bust i don't

1603  
00:55:01,510 --> 00:55:00,400  
think people are going in there busting

1604  
00:55:04,150 --> 00:55:01,520  
them up

1605  
00:55:05,670 --> 00:55:04,160  
because something was eating on so uh i

1606  
00:55:07,270 --> 00:55:05,680  
don't know

1607  
00:55:09,030 --> 00:55:07,280  
yeah i was going to say real quick uh

1608  
00:55:10,950 --> 00:55:09,040  
you know there's that the there was an

1609  
00:55:11,910 --> 00:55:10,960  
article about chimpanzees i think it was

1610  
00:55:14,710 --> 00:55:11,920  
in like

1611  
00:55:15,750 --> 00:55:14,720  
somewhere in in africa maybe congo or

1612  
00:55:18,390 --> 00:55:15,760  
something

1613  
00:55:19,829 --> 00:55:18,400

where the chimpanzees these troops

1614

00:55:21,349 --> 00:55:19,839

you know they used to raid crops during

1615

00:55:23,750 --> 00:55:21,359

the day but there was so much gorilla

1616

00:55:25,589 --> 00:55:23,760

you know human warfare going on they did

1617

00:55:27,670 --> 00:55:25,599

they learned to go in at night sneak

1618

00:55:29,750 --> 00:55:27,680

into these crop areas in africa and

1619

00:55:31,670 --> 00:55:29,760

steal the crops at night when people

1620

00:55:33,589 --> 00:55:31,680

weren't fighting and they were very

1621

00:55:35,510 --> 00:55:33,599

meticulous about that to even the point

1622

00:55:36,950 --> 00:55:35,520

where they would cross a road

1623

00:55:38,789 --> 00:55:36,960

they would have somebody you know one of

1624

00:55:39,670 --> 00:55:38,799

their troops uh one of their members

1625

00:55:41,430 --> 00:55:39,680

watch

1626

00:55:42,870 --> 00:55:41,440

the road as the others crossed i mean

1627

00:55:44,069 --> 00:55:42,880

very very smart but then they would go

1628

00:55:46,309 --> 00:55:44,079

in and raid the crops tonight and take

1629

00:55:49,270 --> 00:55:46,319

them back and so uh

1630

00:55:50,789 --> 00:55:49,280

uh i wouldn't call that uh habituation i

1631

00:55:53,510 --> 00:55:50,799

wouldn't call that anything about being

1632

00:55:55,030 --> 00:55:53,520

smart and and and adapting to your

1633

00:55:57,349 --> 00:55:55,040

environments and i think sasquatch is

1634

00:55:58,710 --> 00:55:57,359

very capable of doing that as well uh

1635

00:56:00,390 --> 00:55:58,720

you know i don't think anybody's out

1636

00:56:01,750 --> 00:56:00,400

there leaving anything on purpose for

1637

00:56:06,950 --> 00:56:01,760

the chimpanzees but they know where to

1638

00:56:10,069 --> 00:56:08,470

interesting

1639

00:56:11,910 --> 00:56:10,079

um

1640

00:56:14,470 --> 00:56:11,920

you know i

1641

00:56:16,870 --> 00:56:14,480

i i've heard so many of

1642

00:56:18,630 --> 00:56:16,880

stories about this gifting you know jc

1643

00:56:21,270 --> 00:56:18,640

johnson used to talk about it with me

1644

00:56:22,950 --> 00:56:21,280

all the time and he'd be involved

1645

00:56:25,190 --> 00:56:22,960

he'd see people he didn't like people

1646

00:56:26,390 --> 00:56:25,200

gifting but supervisors colleagues used

1647

00:56:28,630 --> 00:56:26,400

to do it

1648

00:56:30,870 --> 00:56:28,640

but uh

1649

00:56:32,150 --> 00:56:30,880

we did have one situation where they

1650

00:56:35,270 --> 00:56:32,160

they were

1651  
00:56:38,309 --> 00:56:35,280  
in the process of doing some gifting

1652  
00:56:40,230 --> 00:56:38,319  
and now this was down in in uh around on

1653  
00:56:41,910 --> 00:56:40,240  
the uh

1654  
00:56:44,309 --> 00:56:41,920  
the reservation

1655  
00:56:46,230 --> 00:56:44,319  
the danae navajo over there by

1656  
00:56:48,710 --> 00:56:46,240  
farmington i think it was right off the

1657  
00:56:51,589 --> 00:56:48,720  
san juan river actually

1658  
00:56:53,990 --> 00:56:51,599  
but one time they received

1659  
00:56:57,109 --> 00:56:54,000  
and we checked it we had looked at it

1660  
00:57:01,750 --> 00:56:57,119  
was an anastasia

1661  
00:57:05,109 --> 00:57:03,430  
bizarre i mean like where'd this thing

1662  
00:57:06,309 --> 00:57:05,119  
find that thing and i guess it dug it up

1663  
00:57:07,589 --> 00:57:06,319

somehow

1664

00:57:09,109 --> 00:57:07,599

but uh

1665

00:57:09,990 --> 00:57:09,119

that was a damndest thing i've ever

1666

00:57:13,430 --> 00:57:10,000

seen

1667

00:57:15,670 --> 00:57:13,440

don't think i ever saw anything like

1668

00:57:17,829 --> 00:57:15,680

that

1669

00:57:18,870 --> 00:57:17,839

my canadian witness has been gifted a

1670

00:57:22,870 --> 00:57:18,880

marble

1671

00:57:23,829 --> 00:57:22,880

yeah and uh blue dragonflies left in his

1672

00:57:26,230 --> 00:57:23,839

house

1673

00:57:27,349 --> 00:57:26,240

really complete

1674

00:57:29,349 --> 00:57:27,359

perfectly

1675

00:57:31,510 --> 00:57:29,359

they're dead but they're ever their wing

1676  
00:57:34,230 --> 00:57:31,520  
and everything is still intact they're

1677  
00:57:35,109 --> 00:57:34,240  
just they just have just died

1678  
00:57:37,430 --> 00:57:35,119  
and so

1679  
00:57:39,589 --> 00:57:37,440  
there is all kinds of gifting you know

1680  
00:57:42,150 --> 00:57:39,599  
one of my habituates and witnesses they

1681  
00:57:43,990 --> 00:57:42,160  
used to take a paper plate

1682  
00:57:46,309 --> 00:57:44,000  
and they've been doing this before

1683  
00:57:48,309 --> 00:57:46,319  
they contacted me take a paper plate and

1684  
00:57:49,990 --> 00:57:48,319  
put it out by their barn

1685  
00:57:52,309 --> 00:57:50,000  
and they used a couple of rocks to

1686  
00:57:55,589 --> 00:57:52,319  
weight it down and they would leave food

1687  
00:57:58,069 --> 00:57:55,599  
left over dinner well

1688  
00:57:59,349 --> 00:57:58,079

the food was disappearing and you know

1689

00:58:01,030 --> 00:57:59,359

as you mentioned you don't know who's

1690

00:58:03,270 --> 00:58:01,040

taking it or what's taking it could be a

1691

00:58:04,069 --> 00:58:03,280

possum or a [h\_\_h] or whatever

1692

00:58:05,670 --> 00:58:04,079

but

1693

00:58:07,670 --> 00:58:05,680

one night they came out

1694

00:58:08,630 --> 00:58:07,680

and the food was gone

1695

00:58:10,870 --> 00:58:08,640

and

1696

00:58:13,109 --> 00:58:10,880

the rocks there was two rocks they had

1697

00:58:15,030 --> 00:58:13,119

there there was the third rock added and

1698

00:58:17,270 --> 00:58:15,040

they were stacked on top of each other

1699

00:58:19,349 --> 00:58:17,280

right in the middle of the plate

1700

00:58:21,030 --> 00:58:19,359

so what do you do with that

1701

00:58:23,190 --> 00:58:21,040

it's not a raccoon it's not a possum

1702

00:58:25,829 --> 00:58:23,200

it's not a bear you know

1703

00:58:28,630 --> 00:58:25,839

nobody does that so

1704

00:58:31,589 --> 00:58:28,640

there are signs that you know

1705

00:58:33,510 --> 00:58:31,599

the gifting can work you know and they

1706

00:58:35,670 --> 00:58:33,520

slowed the they slowed the feeding down

1707

00:58:38,309 --> 00:58:35,680

to a point where they kind of quit all

1708

00:58:40,150 --> 00:58:38,319

together because

1709

00:58:41,750 --> 00:58:40,160

the

1710

00:58:43,670 --> 00:58:41,760

frustration of

1711

00:58:46,789 --> 00:58:43,680

a couple of these sasquatch was starting

1712

00:58:49,030 --> 00:58:46,799

to show through so they just stopped

1713

00:58:51,430 --> 00:58:49,040

and it went away and there was nothing

1714

00:58:52,789 --> 00:58:51,440

but my point is that the gifting can

1715

00:58:54,309 --> 00:58:52,799

work and it doesn't always have to be

1716

00:58:57,190 --> 00:58:54,319

food it could just be material things

1717

00:58:59,750 --> 00:58:57,200

you know but i mean uh i've got all

1718

00:59:01,750 --> 00:58:59,760

kinds of stories about that reports you

1719

00:59:02,870 --> 00:59:01,760

know from people that

1720

00:59:04,870 --> 00:59:02,880

go through this

1721

00:59:07,430 --> 00:59:04,880

routinely

1722

00:59:09,510 --> 00:59:07,440

you know it's fascinating you know

1723

00:59:11,030 --> 00:59:09,520

yeah the only habituation i ever been

1724

00:59:12,470 --> 00:59:11,040

involved with and i actually really

1725

00:59:15,109 --> 00:59:12,480

wasn't evolving but i got a lot of

1726

00:59:17,750 --> 00:59:15,119

evidence from it was up in nova scotia

1727

00:59:20,150 --> 00:59:17,760

and this farmer was actually had them a

1728

00:59:23,670 --> 00:59:20,160

family group on his property

1729

00:59:25,589 --> 00:59:23,680

and uh it was interesting but

1730

00:59:26,470 --> 00:59:25,599

there were some things involved as well

1731

00:59:29,670 --> 00:59:26,480

um

1732

00:59:30,789 --> 00:59:29,680

possible ufo activity possible orbs and

1733

00:59:32,390 --> 00:59:30,799

such

1734

00:59:33,910 --> 00:59:32,400

um

1735

00:59:35,589 --> 00:59:33,920

there's a lot of things that were

1736

00:59:37,829 --> 00:59:35,599

unexplained

1737

00:59:38,870 --> 00:59:37,839

associated with these beings so i mean i

1738

00:59:39,170 --> 00:59:38,880

don't know

1739

00:59:40,789 --> 00:59:39,180

uh

1740

00:59:43,030 --> 00:59:40,799

[Music]

1741

00:59:45,589 --> 00:59:43,040

here again we come back to this possible

1742

00:59:48,630 --> 00:59:45,599

supernatural aspect of these things

1743

00:59:50,789 --> 00:59:48,640

um let me ask you this uh shane

1744

00:59:51,750 --> 00:59:50,799

do you think do you think bigfoot have a

1745

00:59:54,150 --> 00:59:51,760

language

1746

00:59:56,470 --> 00:59:54,160

uh in other words do they have is is it

1747

00:59:59,109 --> 00:59:56,480

a universal bigfoot language or is it

1748

01:00:01,829 --> 00:59:59,119

something per group have you

1749

01:00:04,069 --> 01:00:01,839

and i i think you guys have actually

1750

01:00:05,589 --> 01:00:04,079

recorded something like that at some

1751

01:00:07,750 --> 01:00:05,599

point haven't you

1752

01:00:09,270 --> 01:00:07,760

yeah you know i don't know but

1753

01:00:11,349 --> 01:00:09,280

i don't know if it's a language and

1754

01:00:14,390 --> 01:00:11,359

honestly this is one of the

1755

01:00:15,430 --> 01:00:14,400

areas that i you know uh i can't say a

1756

01:00:17,510 --> 01:00:15,440

whole lot i don't know if they have a

1757

01:00:19,750 --> 01:00:17,520

language uh we've recorded so many

1758

01:00:21,109 --> 01:00:19,760

intriguing stuff over the years

1759

01:00:23,510 --> 01:00:21,119

um

1760

01:00:25,349 --> 01:00:23,520

but you know a lot of it uh i mean quite

1761

01:00:26,309 --> 01:00:25,359

honestly i mean uh

1762

01:00:27,670 --> 01:00:26,319

they definitely have a form of

1763

01:00:31,510 --> 01:00:27,680

communication there's no doubt about

1764

01:00:33,750 --> 01:00:31,520

that um and within the language um

1765

01:00:35,349 --> 01:00:33,760

yeah i'm not sure um i know a lot of

1766

01:00:37,270 --> 01:00:35,359

people say they do

1767

01:00:39,190 --> 01:00:37,280

um but you know i mean a lot of stuff we

1768

01:00:40,390 --> 01:00:39,200

record i mean it's not like you know if

1769

01:00:42,230 --> 01:00:40,400

something's carrying on a full

1770

01:00:44,069 --> 01:00:42,240

conversation a lot of stuff is very like

1771

01:00:47,109 --> 01:00:44,079

i said that we've recorded up here in

1772

01:00:49,510 --> 01:00:47,119

similar to west is a very uh

1773

01:00:51,430 --> 01:00:49,520

sometimes you can almost sound almost uh

1774

01:00:53,510 --> 01:00:51,440

human-like and then a lot of times it's

1775

01:00:55,109 --> 01:00:53,520

it's very very very primate-like you

1776

01:00:56,710 --> 01:00:55,119

know we got a couple recordings that we

1777

01:00:58,789 --> 01:00:56,720

call chimp bits or

1778

01:01:01,109 --> 01:00:58,799

um where it sounds like a troop of

1779

01:01:02,710 --> 01:01:01,119

chimpanzees going crazy uh not barred

1780

01:01:05,109 --> 01:01:02,720

owls or anything like that this is and

1781

01:01:06,470 --> 01:01:05,119

visually looking at the stuff

1782

01:01:08,630 --> 01:01:06,480

it doesn't compare with anything up here

1783

01:01:10,870 --> 01:01:08,640

but um they definitely have some sort of

1784

01:01:12,710 --> 01:01:10,880

communicate you know communication i don't

1785

01:01:16,309 --> 01:01:12,720

know if that's an exact language or

1786

01:01:17,430 --> 01:01:16,319

not but uh yeah i mean i it's not uh

1787

01:01:19,589 --> 01:01:17,440

something

1788

01:01:21,270 --> 01:01:19,599

that i really subscribe to but it's

1789

01:01:23,349 --> 01:01:21,280

definitely definitely a possibility if

1790

01:01:25,589 --> 01:01:23,359

you look at the ron moorhead recordings

1791

01:01:28,069 --> 01:01:25,599

i mean uh and stuff like that that are

1792

01:01:29,589 --> 01:01:28,079

really really interesting and and uh

1793

01:01:31,510 --> 01:01:29,599

yeah and some of the other recordings

1794

01:01:33,670 --> 01:01:31,520

out there and we've got some similar

1795

01:01:34,950 --> 01:01:33,680

maybe they do have a form of language i

1796

01:01:37,109 --> 01:01:34,960

don't know

1797

01:01:38,390 --> 01:01:37,119

have you guys recorded anything up here

1798

01:01:39,829 --> 01:01:38,400

in pennsylvania

1799

01:01:42,150 --> 01:01:39,839

ryan

1800

01:01:43,829 --> 01:01:42,160

no i mean we've heard things like the

1801  
01:01:45,990 --> 01:01:43,839  
biggest thing we've ever heard was like

1802  
01:01:47,030 --> 01:01:46,000  
children it's not like children like

1803  
01:01:49,109 --> 01:01:47,040  
yeah

1804  
01:01:50,710 --> 01:01:49,119  
i hear that a lot around here

1805  
01:01:52,230 --> 01:01:50,720  
yeah and it seems like they're always

1806  
01:01:55,270 --> 01:01:52,240  
interested what we used to do those call

1807  
01:01:57,589 --> 01:01:55,280  
backs those uh we'd play you know coyote

1808  
01:01:59,430 --> 01:01:57,599  
sounds and we'd play baby's balance and

1809  
01:02:01,510 --> 01:01:59,440  
that always seemed to

1810  
01:02:03,349 --> 01:02:01,520  
make a little bit of activity happen so

1811  
01:02:04,950 --> 01:02:03,359  
they must be curious of babies in some

1812  
01:02:07,109 --> 01:02:04,960  
form or kids

1813  
01:02:08,470 --> 01:02:07,119

but uh maybe that's that's the biggest

1814

01:02:10,230 --> 01:02:08,480

thing we've ever heard was just like

1815

01:02:11,750 --> 01:02:10,240

children chattering that's the best way

1816

01:02:13,349 --> 01:02:11,760

to describe it i guess

1817

01:02:15,430 --> 01:02:13,359

how about you carter

1818

01:02:18,789 --> 01:02:15,440

yeah i've heard some uh

1819

01:02:21,670 --> 01:02:18,799

snickering i've heard some gibberish

1820

01:02:23,589 --> 01:02:21,680

some laughing um one night i was sitting

1821

01:02:25,029 --> 01:02:23,599

i went to my one of my research areas

1822

01:02:28,069 --> 01:02:25,039

here in missouri and i just went by

1823

01:02:30,390 --> 01:02:28,079

myself i took all my gear and i said you

1824

01:02:31,510 --> 01:02:30,400

know what screw it i'm not gonna use my

1825

01:02:33,270 --> 01:02:31,520

gear i'm gonna

1826  
01:02:35,589 --> 01:02:33,280  
sit right here i'm gonna have a couple

1827  
01:02:37,430 --> 01:02:35,599  
of shots of fireball and a cocktail i'm

1828  
01:02:40,470 --> 01:02:37,440  
gonna sit here by the fire and see if i

1829  
01:02:42,630 --> 01:02:40,480  
get activity and i was talking

1830  
01:02:43,510 --> 01:02:42,640  
to the sasquatch as though they were

1831  
01:02:44,309 --> 01:02:43,520  
there

1832  
01:02:45,750 --> 01:02:44,319  
and

1833  
01:02:47,750 --> 01:02:45,760  
uh

1834  
01:02:49,670 --> 01:02:47,760  
i heard at the end of my conversation

1835  
01:02:51,670 --> 01:02:49,680  
said here's all my gear

1836  
01:02:54,069 --> 01:02:51,680  
i'm not trying to record you i'm not

1837  
01:02:55,589 --> 01:02:54,079  
trying to film you i i've decided i'm

1838  
01:02:57,109 --> 01:02:55,599

not going to do that i want to violate

1839

01:02:59,190 --> 01:02:57,119

your situation so i'm just going to sit

1840

01:03:01,270 --> 01:02:59,200

here have a cocktail enjoy the quiet and

1841

01:03:03,349 --> 01:03:01,280

the peaceful night and if you're here

1842

01:03:04,789 --> 01:03:03,359

let me know and so and i heard this

1843

01:03:06,870 --> 01:03:04,799

little

1844

01:03:10,470 --> 01:03:06,880

it sounded like almost like hyena-like

1845

01:03:11,670 --> 01:03:10,480

it was it was kind of a a cackling laugh

1846

01:03:14,470 --> 01:03:11,680

didn't last long about two or three

1847

01:03:17,349 --> 01:03:16,069

it was an odd sound but i'm considered

1848

01:03:19,029 --> 01:03:17,359

going

1849

01:03:20,950 --> 01:03:19,039

holy crap of course i'm trying to think

1850

01:03:22,470 --> 01:03:20,960

you know i'm a researcher and i believe

1851

01:03:24,390 --> 01:03:22,480

certain things but i'm also trying to

1852

01:03:27,430 --> 01:03:24,400

find out what that could be i want to

1853

01:03:29,670 --> 01:03:27,440

disprove my theory if i can if i can't

1854

01:03:32,069 --> 01:03:29,680

then i'm on something in my mind and i

1855

01:03:36,150 --> 01:03:32,079

couldn't figure out you know

1856

01:03:38,390 --> 01:03:36,160

a coyote a rabbit a fox and heat of

1857

01:03:40,870 --> 01:03:38,400

vixen fox sometimes will sound somewhat

1858

01:03:42,230 --> 01:03:40,880

like that uh if you hear that coming at

1859

01:03:44,309 --> 01:03:42,240

you out of the middle of the night and

1860

01:03:46,789 --> 01:03:44,319

it's pitch black that'll get you

1861

01:03:48,950 --> 01:03:46,799

your vr have been walked up on a fox

1862

01:03:50,789 --> 01:03:48,960

with vixen fox and heat oh my god you

1863

01:03:52,069 --> 01:03:50,799

know that'll get you know that way but

1864

01:03:54,230 --> 01:03:52,079

i've heard

1865

01:03:55,829 --> 01:03:54,240

something and some of it was akin to ron

1866

01:03:57,750 --> 01:03:55,839

moorhead stuff

1867

01:04:00,470 --> 01:03:57,760

and ron and scott nelson have been to my

1868

01:04:01,990 --> 01:04:00,480

research area here in missouri a family

1869

01:04:03,990 --> 01:04:02,000

that has a habituation they came and

1870

01:04:05,670 --> 01:04:04,000

visited we talked about that i mean you

1871

01:04:07,510 --> 01:04:05,680

know scott nelson is a

1872

01:04:10,710 --> 01:04:07,520

linguist you know

1873

01:04:12,710 --> 01:04:10,720

from the the army i mean how do you

1874

01:04:15,510 --> 01:04:12,720

how do you shoot holes in that you know

1875

01:04:17,109 --> 01:04:15,520

i mean but he hasn't really

1876  
01:04:19,750 --> 01:04:17,119  
told us what kind of language he hasn't

1877  
01:04:22,150 --> 01:04:19,760  
explained it out but it's there are

1878  
01:04:23,430 --> 01:04:22,160  
breathing patterns and punctuations and

1879  
01:04:26,789 --> 01:04:23,440  
pauses

1880  
01:04:28,630 --> 01:04:26,799  
that indicate a spoken language

1881  
01:04:30,710 --> 01:04:28,640  
uh and that's his

1882  
01:04:32,710 --> 01:04:30,720  
theory and you know and i'm not smart

1883  
01:04:34,549 --> 01:04:32,720  
enough to argue that you know but i've

1884  
01:04:37,750 --> 01:04:34,559  
heard enough things to go

1885  
01:04:39,990 --> 01:04:37,760  
okay in my habituation lady in southeast

1886  
01:04:40,710 --> 01:04:40,000  
missouri she's had a creature call her

1887  
01:04:43,190 --> 01:04:40,720  
by

1888  
01:04:45,430 --> 01:04:43,200

her husband's favorite nickname for her

1889

01:04:46,789 --> 01:04:45,440

while she's out working in the garden

1890

01:04:48,470 --> 01:04:46,799

so

1891

01:04:49,990 --> 01:04:48,480

yeah i think they mimic i mean i think

1892

01:04:51,510 --> 01:04:50,000

they try to mimic a lot of times they

1893

01:04:53,109 --> 01:04:51,520

can mimic anything and that's why you

1894

01:04:55,670 --> 01:04:53,119

know when you hear them just say you're

1895

01:04:58,309 --> 01:04:55,680

like you know patty pie

1896

01:05:01,109 --> 01:04:58,319

uh well that's just mimicking i mean a

1897

01:05:02,630 --> 01:05:01,119

bird can do that you know

1898

01:05:05,109 --> 01:05:02,640

any kind of bird a lot of birds can do

1899

01:05:07,029 --> 01:05:05,119

that crows can do that you know so but

1900

01:05:09,910 --> 01:05:07,039

but if you hear that well that's

1901

01:05:12,150 --> 01:05:09,920

not necessarily language that's mimicry

1902

01:05:15,190 --> 01:05:12,160

but when you hear a run-on sentence with

1903

01:05:17,029 --> 01:05:15,200

pauses and stops and inflection

1904

01:05:18,150 --> 01:05:17,039

and

1905

01:05:20,309 --> 01:05:18,160

you go

1906

01:05:21,910 --> 01:05:20,319

that doesn't sound like a dog market or

1907

01:05:30,150 --> 01:05:21,920

a

1908

01:05:31,349 --> 01:05:30,160

we don't know right now but it sure

1909

01:05:33,270 --> 01:05:31,359

sounds

1910

01:05:35,430 --> 01:05:33,280

a lot more like a language than it does

1911

01:05:36,950 --> 01:05:35,440

like just a primal screen

1912

01:05:38,710 --> 01:05:36,960

you know it's an interesting question

1913

01:05:41,510 --> 01:05:38,720

and something i've always thought about

1914

01:05:43,589 --> 01:05:41,520

because when i had my encounter in 81

1915

01:05:47,109 --> 01:05:43,599

i'm standing looking at this thing it's

1916

01:05:49,670 --> 01:05:47,119

about 40 foot in front of me huge male

1917

01:05:51,430 --> 01:05:49,680

and it's clicking at me

1918

01:05:53,670 --> 01:05:51,440

now i don't know if it was gnashing its

1919

01:05:54,950 --> 01:05:53,680

teeth or it was like a nervous thing or

1920

01:05:57,270 --> 01:05:54,960

whatever it was

1921

01:05:58,309 --> 01:05:57,280

and that's the that's the drawing i had

1922

01:06:00,789 --> 01:05:58,319

made of it

1923

01:06:03,270 --> 01:06:00,799

but this thing uh it made a clicking

1924

01:06:07,750 --> 01:06:05,430

i've only ever heard a few other people

1925

01:06:09,990 --> 01:06:07,760

tell me that they've heard that sound

1926  
01:06:12,390 --> 01:06:10,000  
but i don't know if it was communication

1927  
01:06:13,750 --> 01:06:12,400  
or some type of nervous thing they did

1928  
01:06:15,430 --> 01:06:13,760  
when they saw something they weren't

1929  
01:06:18,710 --> 01:06:15,440  
familiar with

1930  
01:06:20,309 --> 01:06:18,720  
i don't know but i it distinctly clicked

1931  
01:06:22,069 --> 01:06:20,319  
at me

1932  
01:06:24,069 --> 01:06:22,079  
yeah there are african tribes that use

1933  
01:06:24,870 --> 01:06:24,079  
uh uh clicking

1934  
01:06:26,549 --> 01:06:24,880  
uh

1935  
01:06:28,390 --> 01:06:26,559  
in their in their language you know

1936  
01:06:29,430 --> 01:06:28,400  
they'll be talking whatever in their

1937  
01:06:30,950 --> 01:06:29,440  
language and

1938  
01:06:33,750 --> 01:06:30,960

you can hear that it's words but they'll

1939

01:06:35,670 --> 01:06:33,760

they'll stop and and use clicking sounds

1940

01:06:36,950 --> 01:06:35,680

you know uh

1941

01:06:39,349 --> 01:06:36,960

i don't remember the name of the tribe

1942

01:06:40,789 --> 01:06:39,359

but that is a speech pattern you know

1943

01:06:43,190 --> 01:06:40,799

right yep

1944

01:06:44,829 --> 01:06:43,200

what do you think shane

1945

01:06:47,589 --> 01:06:44,839

yeah i mean

1946

01:06:49,430 --> 01:06:47,599

um the clicking thing's interesting you

1947

01:06:51,750 --> 01:06:49,440

know i mean and here's the thing too is

1948

01:06:53,270 --> 01:06:51,760

you actually saw this figure and it was

1949

01:06:55,270 --> 01:06:53,280

making the noise if you heard that in

1950

01:06:56,950 --> 01:06:55,280

the woods you'd go well what the heck is

1951

01:06:59,270 --> 01:06:56,960

that but you absolutely you go you don't

1952

01:07:01,510 --> 01:06:59,280

put compare the two how many people have

1953

01:07:03,510 --> 01:07:01,520

heard stuff like that and not uh

1954

01:07:06,470 --> 01:07:03,520

known what was making that noise

1955

01:07:09,190 --> 01:07:06,480

um clicking whistles uh loops i mean all

1956

01:07:10,950 --> 01:07:09,200

that stuff uh i i think the majority of

1957

01:07:12,549 --> 01:07:10,960

us here have either heard it or recorded

1958

01:07:14,390 --> 01:07:12,559

it um

1959

01:07:17,349 --> 01:07:14,400

definitely a form of some sort of

1960

01:07:18,950 --> 01:07:17,359

communication of some sorts and but then

1961

01:07:20,150 --> 01:07:18,960

dave what is that i you know who knows

1962

01:07:22,150 --> 01:07:20,160

uh the

1963

01:07:23,829 --> 01:07:22,160

the interesting thing about the mimicry

1964

01:07:25,270 --> 01:07:23,839

and um

1965

01:07:27,029 --> 01:07:25,280

it's very interesting

1966

01:07:27,990 --> 01:07:27,039

but so you got to come from either one

1967

01:07:30,390 --> 01:07:28,000

way or the other when it comes to

1968

01:07:31,270 --> 01:07:30,400

mimicry is it can sasquatch mimic

1969

01:07:32,710 --> 01:07:31,280

something

1970

01:07:34,870 --> 01:07:32,720

at the stop of a diamond here's it for

1971

01:07:37,349 --> 01:07:34,880

the first time can it mimic it or

1972

01:07:39,270 --> 01:07:37,359

is it in an area long enough to like a

1973

01:07:41,270 --> 01:07:39,280

you know like like a parrot for example

1974

01:07:42,549 --> 01:07:41,280

parrot will pick it up over time after

1975

01:07:43,910 --> 01:07:42,559

you keep repeating something you know

1976

01:07:45,109 --> 01:07:43,920

and repeating repeating repeating it'll

1977

01:07:47,829 --> 01:07:45,119

pick it up

1978

01:07:48,950 --> 01:07:47,839

the sasquatch this comes to my thought

1979

01:07:51,190 --> 01:07:48,960

process like with some of these

1980

01:07:53,029 --> 01:07:51,200

long-term witnesses uh like donna up

1981

01:07:54,150 --> 01:07:53,039

here in in washington

1982

01:07:55,670 --> 01:07:54,160

where

1983

01:07:59,109 --> 01:07:55,680

uh this sasquatch seemed to be around

1984

01:08:01,029 --> 01:07:59,119

that house quite frequently uh a large

1985

01:08:03,109 --> 01:08:01,039

probably a large male not all the time

1986

01:08:04,789 --> 01:08:03,119

but quite frequently that

1987

01:08:07,109 --> 01:08:04,799

she could hear her dogs being called she

1988

01:08:08,870 --> 01:08:07,119

had two dogs that would go outside and

1989

01:08:10,309 --> 01:08:08,880

she would hey you know i can't remember

1990

01:08:12,150 --> 01:08:10,319

the dog's name off the top of my head

1991

01:08:13,270 --> 01:08:12,160

but she would call them or her husband

1992

01:08:15,029 --> 01:08:13,280

would call them

1993

01:08:16,229 --> 01:08:15,039

you know come back inside at night you

1994

01:08:17,110 --> 01:08:16,239

know come back in well one night she

1995

01:08:18,470 --> 01:08:17,120

heard

1996

01:08:20,390 --> 01:08:18,480

would sound like her husband calling the

1997

01:08:21,990 --> 01:08:20,400

dogs lay oh layla that was the name of

1998

01:08:23,510 --> 01:08:22,000

the dogs layla

1999

01:08:26,070 --> 01:08:23,520

she heard that

2000

01:08:27,990 --> 01:08:26,080

it was her husband wasn't home

2001

01:08:30,950 --> 01:08:28,000

but somebody was calling the dog

2002

01:08:32,470 --> 01:08:30,960

but did that sasquatch if it was did it

2003

01:08:33,910 --> 01:08:32,480

learn that over time or did it learn it

2004

01:08:35,669 --> 01:08:33,920

had to stop it but i mean just heard it

2005

01:08:36,870 --> 01:08:35,679

one day and decided to do that i think

2006

01:08:38,470 --> 01:08:36,880

when something's in an area long enough

2007

01:08:39,510 --> 01:08:38,480

i think sasquatch are very capable of

2008

01:08:41,910 --> 01:08:39,520

mimicry

2009

01:08:44,229 --> 01:08:41,920

uh but they i personally think they need

2010

01:08:45,669 --> 01:08:44,239

to be in an area long enough to to hear

2011

01:08:47,430 --> 01:08:45,679

that over and over again and mimic it

2012

01:08:48,950 --> 01:08:47,440

and they mimic and maybe and then they

2013

01:08:50,309 --> 01:08:48,960

almost perfect it

2014

01:08:51,749 --> 01:08:50,319

and uh

2015

01:08:54,789 --> 01:08:51,759

i i think that speaks to their

2016

01:08:56,309 --> 01:08:54,799

intelligence and and just their uh

2017

01:08:57,269 --> 01:08:56,319

it's actually kind of freaky

2018

01:09:01,430 --> 01:08:57,279

yeah

2019

01:09:03,749 --> 01:09:01,440

that clicking sound coming out of the

2020

01:09:05,189 --> 01:09:03,759

woods i wouldn't think it was a bird or

2021

01:09:06,229 --> 01:09:05,199

a squirrel or something making i

2022

01:09:09,269 --> 01:09:06,239

wouldn't even think it was anything

2023

01:09:11,189 --> 01:09:09,279

about a bigfoot but it was weird yeah uh

2024

01:09:13,749 --> 01:09:11,199

so you know i just got a question here

2025

01:09:16,309 --> 01:09:13,759

from forrest and it kind of goes along

2026

01:09:17,990 --> 01:09:16,319

the lines of a story that i have a

2027

01:09:20,390 --> 01:09:18,000

personal story and something i heard

2028

01:09:22,630 --> 01:09:20,400

from a team member just the other day he

2029

01:09:24,630 --> 01:09:22,640

said the leftover mash from any major

2030

01:09:27,430 --> 01:09:24,640

beer producing company factory is a

2031

01:09:28,870 --> 01:09:27,440

product that the sas would go crazy for

2032

01:09:31,430 --> 01:09:28,880

well

2033

01:09:32,630 --> 01:09:31,440

this team member was telling me that she

2034

01:09:35,510 --> 01:09:32,640

had heard

2035

01:09:36,630 --> 01:09:35,520

something related to corn mash but

2036

01:09:39,110 --> 01:09:36,640

stills

2037

01:09:41,990 --> 01:09:39,120

and it's funny when she said that to me

2038

01:09:43,590 --> 01:09:42,000

because my uncle and

2039

01:09:45,829 --> 01:09:43,600

he's no longer with us so i won't get

2040

01:09:47,749 --> 01:09:45,839

him in trouble but he he they used to

2041

01:09:48,870 --> 01:09:47,759

live up near roan mountain in ten you

2042

01:09:51,990 --> 01:09:48,880

know

2043

01:09:53,669 --> 01:09:52,000

north carolina and he had a still

2044

01:09:55,590 --> 01:09:53,679

and i remember when we went down and one

2045

01:09:58,390 --> 01:09:55,600

time when i was younger he was

2046

01:09:59,990 --> 01:09:58,400

mentioning to my grandfather about

2047

01:10:02,310 --> 01:10:00,000

the wild man

2048

01:10:03,830 --> 01:10:02,320

busting his is still up when he was

2049

01:10:05,030 --> 01:10:03,840

cooking

2050

01:10:09,430 --> 01:10:05,040

and they were

2051

01:10:13,750 --> 01:10:11,910

the corn mash so i i just thought that

2052

01:10:14,870 --> 01:10:13,760

was funny when she mentioned it then i

2053

01:10:16,950 --> 01:10:14,880

see this

2054

01:10:18,470 --> 01:10:16,960

hear about beer and green and i'm

2055

01:10:20,950 --> 01:10:18,480

thinking

2056

01:10:23,030 --> 01:10:20,960

that's unusual i i guess they would like

2057

01:10:24,790 --> 01:10:23,040

it but i don't know

2058

01:10:27,110 --> 01:10:24,800

have you heard anything like that any of

2059

01:10:30,149 --> 01:10:27,120

you like that before

2060

01:10:32,790 --> 01:10:30,159

no but i can i can imagine that you know

2061

01:10:34,550 --> 01:10:32,800

certain fruits certain trees at a

2062

01:10:36,149 --> 01:10:34,560

certain time of year

2063

01:10:38,470 --> 01:10:36,159

when they you know

2064

01:10:40,390 --> 01:10:38,480

reach a certain stage of decomposition

2065

01:10:43,030 --> 01:10:40,400

they could have medicinal or

2066

01:10:46,950 --> 01:10:43,040

intoxicating properties maybe

2067

01:10:49,110 --> 01:10:46,960

uh that my witness in canada uh this guy

2068

01:10:51,430 --> 01:10:49,120

uh you know at a certain time of year i

2069

01:10:52,709 --> 01:10:51,440

think he was the aspen tree

2070

01:10:54,709 --> 01:10:52,719

uh

2071

01:10:56,790 --> 01:10:54,719

the indigenous people up there and

2072

01:10:59,189 --> 01:10:56,800

others know of when they get to a

2073

01:11:02,550 --> 01:10:59,199

certain stage of decomposition you can

2074

01:11:04,229 --> 01:11:02,560

take big chunks of the rotting bark and

2075

01:11:05,990 --> 01:11:04,239

there's the tree itself and put in your

2076

01:11:07,990 --> 01:11:06,000

mouth and chew it up and it's got

2077

01:11:10,950 --> 01:11:08,000

medicinal purposes

2078

01:11:13,270 --> 01:11:10,960

to keep you healthy and it has

2079

01:11:14,950 --> 01:11:13,280

intoxicating purposes if you drink it if

2080

01:11:17,110 --> 01:11:14,960

you chew on it a little earlier or a

2081

01:11:19,030 --> 01:11:17,120

little later than you're supposed to

2082

01:11:21,270 --> 01:11:19,040

so

2083

01:11:22,950 --> 01:11:21,280

i can imagine that's happening naturally

2084

01:11:25,070 --> 01:11:22,960

because that's not something we'll ever

2085

01:11:27,990 --> 01:11:25,080

be a party yeah

2086

01:11:29,910 --> 01:11:28,000

[Laughter]

2087

01:11:32,070 --> 01:11:29,920

you know there's another there's another

2088

01:11:34,709 --> 01:11:32,080

aspect about the bigfoot phenomena that

2089

01:11:37,430 --> 01:11:34,719

that has been has interested me is is

2090

01:11:39,990 --> 01:11:37,440

how did they dispose of bodies burial

2091

01:11:41,669 --> 01:11:40,000

and such and and i think charter and i

2092

01:11:43,750 --> 01:11:41,679

talked about a bit about this earlier i

2093

01:11:44,790 --> 01:11:43,760

know he he looks into that with his

2094

01:11:47,430 --> 01:11:44,800

research

2095

01:11:50,790 --> 01:11:47,440

but we're we're investigating some

2096

01:11:52,950 --> 01:11:50,800

sightings and some old research

2097

01:11:55,189 --> 01:11:52,960

out at the uh the shawnee national

2098

01:11:57,110 --> 01:11:55,199

forest in southern illinois

2099

01:11:58,950 --> 01:11:57,120

and the gentleman who has talked to

2100

01:12:01,750 --> 01:11:58,960

myself and vincent

2101

01:12:04,470 --> 01:12:01,760

mentioned that he observed

2102

01:12:06,950 --> 01:12:04,480

bigfoot burying their dead by pulling

2103

01:12:09,270 --> 01:12:06,960

trees

2104

01:12:11,189 --> 01:12:09,280

pulling them down and and clearing out

2105

01:12:12,790 --> 01:12:11,199

and putting bodies underneath trees and

2106

01:12:14,470 --> 01:12:12,800

putting it back down

2107

01:12:16,149 --> 01:12:14,480

and covering it up

2108

01:12:16,950 --> 01:12:16,159

have you ever heard of anything like

2109

01:12:19,910 --> 01:12:16,960

that

2110

01:12:21,669 --> 01:12:19,920

i have yeah several times and you know

2111

01:12:22,709 --> 01:12:21,679

autumn williams has in one of her books

2112

01:12:25,830 --> 01:12:22,719

i think

2113

01:12:28,070 --> 01:12:25,840

uh the guy she had in florida and uh

2114

01:12:31,990 --> 01:12:28,080

there's a place here in missouri the

2115

01:12:35,270 --> 01:12:32,000

enoch book yeah enoch yeah enough yeah

2116

01:12:38,630 --> 01:12:35,280

yeah and uh there's a story here uh the

2117

01:12:40,550 --> 01:12:38,640

uh dora there's a town called dora

2118

01:12:42,390 --> 01:12:40,560

and the woman

2119

01:12:43,430 --> 01:12:42,400

was named after the town her name was

2120

01:12:45,030 --> 01:12:43,440

dora

2121

01:12:46,229 --> 01:12:45,040

i can't remember her name her last name

2122

01:12:48,630 --> 01:12:46,239

but anyway

2123

01:12:51,270 --> 01:12:48,640

she was routinely

2124

01:12:53,590 --> 01:12:51,280

taken out of her bedroom at night

2125

01:12:57,270 --> 01:12:53,600

taken across the street to some caves

2126

01:13:00,070 --> 01:12:57,280

and played with sasquatch children

2127

01:13:01,430 --> 01:13:00,080

one night the mother was in there and

2128

01:13:05,910 --> 01:13:01,440

she was

2129

01:13:08,630 --> 01:13:05,920

sobbing or very sad and they buried

2130

01:13:11,030 --> 01:13:08,640

she clawed the dirt and buried her

2131

01:13:13,189 --> 01:13:11,040

newborn that had died and she was

2132

01:13:15,350 --> 01:13:13,199

holding it trying to nurse it

2133

01:13:17,270 --> 01:13:15,360

and she put it in the ground and buried

2134

01:13:19,350 --> 01:13:17,280

it and patted it back down i've been

2135

01:13:21,990 --> 01:13:19,360

trying to find where this game is for so

2136

01:13:23,669 --> 01:13:22,000

long it's never going to happen yeah but

2137

01:13:26,790 --> 01:13:23,679

dora bradley that's it if you look up

2138

01:13:27,669 --> 01:13:26,800

dora bradley uh the story uh and uh what

2139

01:13:29,910 --> 01:13:27,679

uh

2140

01:13:32,630 --> 01:13:29,920

tom powell has a really great

2141

01:13:33,910 --> 01:13:32,640

uh version of that story he told us

2142

01:13:35,669 --> 01:13:33,920

actually he's the one who told the story

2143

01:13:36,790 --> 01:13:35,679

where i read it and there's a great

2144

01:13:39,510 --> 01:13:36,800

story

2145

01:13:40,870 --> 01:13:39,520

and but she had regular routine

2146

01:13:42,229 --> 01:13:40,880

interactions with these creatures she

2147

01:13:44,229 --> 01:13:42,239

watched the mother

2148

01:13:47,189 --> 01:13:44,239

bury her stillborn baby in this cave

2149

01:13:48,950 --> 01:13:47,199

where they used to play

2150

01:13:50,950 --> 01:13:48,960

i mean it's awesome stuff you know and

2151

01:13:52,470 --> 01:13:50,960

she watched it and she's been

2152

01:13:54,470 --> 01:13:52,480

interviewed before you know because a

2153

01:13:56,229 --> 01:13:54,480

lot of people don't buy that but

2154

01:13:57,830 --> 01:13:56,239

there's too many stories of that you

2155

01:13:59,990 --> 01:13:57,840

know yanking the tree out of the ground

2156

01:14:01,590 --> 01:14:00,000

and putting a baby in there and then put

2157

01:14:03,750 --> 01:14:01,600

the tree back down and patting it down

2158

01:14:05,590 --> 01:14:03,760

like it never happened you know and i've

2159

01:14:07,750 --> 01:14:05,600

heard a lot of stories about that being

2160

01:14:09,590 --> 01:14:07,760

able to pull up trees and brush to get

2161

01:14:11,030 --> 01:14:09,600

to the roots and the succulents

2162

01:14:12,550 --> 01:14:11,040

underneath and then putting it back down

2163

01:14:15,270 --> 01:14:12,560

without damaging the roots whatsoever

2164

01:14:16,790 --> 01:14:15,280

because they know how to do it so yeah

2165

01:14:18,950 --> 01:14:16,800

burial you know i think they they

2166

01:14:22,149 --> 01:14:18,960

probably do bury their dead yeah i think

2167

01:14:24,229 --> 01:14:22,159

they probably do i've heard stories but

2168

01:14:26,950 --> 01:14:24,239

the only stories i've ever heard about a

2169

01:14:29,350 --> 01:14:26,960

young you know a dead infant or a dead

2170

01:14:30,229 --> 01:14:29,360

juvenile being buried somebody told me

2171

01:14:32,310 --> 01:14:30,239

about

2172

01:14:35,430 --> 01:14:32,320

them actually

2173

01:14:37,830 --> 01:14:35,440

mourning a a juvenile that was put into

2174

01:14:39,510 --> 01:14:37,840

a house dumped and covered up with moss

2175

01:14:41,189 --> 01:14:39,520

and such and

2176

01:14:42,870 --> 01:14:41,199

i mean i don't know you know i've heard

2177

01:14:45,189 --> 01:14:42,880

of a lot of different things uh have you

2178

01:14:46,709 --> 01:14:45,199

heard anything like this ryan

2179

01:14:48,870 --> 01:14:46,719

i've heard of it i

2180

01:14:51,430 --> 01:14:48,880

don't know much about it like everyone

2181

01:14:52,229 --> 01:14:51,440

asks why we never find bigfoot audience

2182

01:14:54,950 --> 01:14:52,239

well

2183

01:14:57,350 --> 01:14:54,960

do they know how big the alleghenies are

2184

01:14:58,790 --> 01:14:57,360

yeah well they are i mean yeah

2185

01:15:00,870 --> 01:14:58,800

i mean uh

2186

01:15:03,030 --> 01:15:00,880

i mean a couple within a few weeks the

2187

01:15:05,350 --> 01:15:03,040

body's decomposed pretty well or it's

2188

01:15:07,669 --> 01:15:05,360

drug apart by whatever other animals in

2189

01:15:09,430 --> 01:15:07,679

the area so yeah it doesn't last long

2190

01:15:11,030 --> 01:15:09,440

around here especially seven to ten days

2191

01:15:13,430 --> 01:15:11,040

the body's gone you ever watched that

2192

01:15:15,510 --> 01:15:13,440

show uh the body farm yeah they put out

2193

01:15:17,669 --> 01:15:15,520

different you know human you know

2194

01:15:18,709 --> 01:15:17,679

cadaver cadavers that have been donated

2195

01:15:20,790 --> 01:15:18,719

and you know

2196

01:15:22,709 --> 01:15:20,800

large animals cattle horse whatever and

2197

01:15:24,229 --> 01:15:22,719

they just sit there let it rot

2198

01:15:26,470 --> 01:15:24,239

and watch it in

2199

01:15:28,390 --> 01:15:26,480

five to seven days seven to ten it's

2200

01:15:30,709 --> 01:15:28,400

gone the bot flies get in lay eggs and

2201

01:15:32,310 --> 01:15:30,719

you know the the the you know raccoons

2202

01:15:34,310 --> 01:15:32,320

the possums like the chill on the marrow

2203

01:15:36,550 --> 01:15:34,320

the bones and i mean once it's

2204

01:15:38,310 --> 01:15:36,560

you know disintegrated it's it goes to

2205

01:15:39,750 --> 01:15:38,320

the four corners it's gone nature is

2206

01:15:42,070 --> 01:15:39,760

very efficient

2207

01:15:44,550 --> 01:15:42,080

oh yeah and if you're you know lions

2208

01:15:45,830 --> 01:15:44,560

tigers elephants they go somewhere if

2209

01:15:47,830 --> 01:15:45,840

they're ill

2210

01:15:49,590 --> 01:15:47,840

and either they die or get better but

2211

01:15:52,229 --> 01:15:49,600

they hide themselves because they can't

2212

01:15:54,310 --> 01:15:52,239

walk or move around and hunt so they

2213

01:15:56,950 --> 01:15:54,320

will sometimes they die when they're

2214

01:15:58,709 --> 01:15:56,960

hidden and they're already buried

2215

01:15:59,350 --> 01:15:58,719

you know so you're never going to fight

2216

01:16:01,910 --> 01:15:59,360

them

2217

01:16:03,669 --> 01:16:01,920

shane what do you think about burials

2218

01:16:05,030 --> 01:16:03,679

could happen you know the problem with i

2219

01:16:06,310 --> 01:16:05,040

used to be a licensed arborist and i

2220

01:16:08,229 --> 01:16:06,320

used to work for a tree transplant

2221

01:16:10,630 --> 01:16:08,239

company and up here in stem northwest

2222

01:16:12,550 --> 01:16:10,640

there's so much timbering going on

2223

01:16:14,229 --> 01:16:12,560

if it with uh

2224

01:16:16,310 --> 01:16:14,239

if sasquatch was put you know you got a

2225

01:16:17,270 --> 01:16:16,320

eight-foot male that dies and you bury

2226

01:16:18,390 --> 01:16:17,280

him underneath the tree and you pull

2227

01:16:19,910 --> 01:16:18,400

that tree and put it down a tree is

2228

01:16:21,189 --> 01:16:19,920

gonna probably fall over with the wind

2229

01:16:23,430 --> 01:16:21,199

the snowfall

2230

01:16:25,669 --> 01:16:23,440

uh you know i just it's hard for me to

2231

01:16:27,110 --> 01:16:25,679

see that having transplanted many many

2232

01:16:29,110 --> 01:16:27,120

trees and seeing the amount of timbering

2233

01:16:31,669 --> 01:16:29,120

that goes on up in these areas

2234

01:16:33,510 --> 01:16:31,679

you know and we can get into

2235

01:16:35,510 --> 01:16:33,520

conspiracies and all that but i think

2236

01:16:37,590 --> 01:16:35,520

there'd be more bodies turning up do

2237

01:16:40,149 --> 01:16:37,600

they bury their their uh dead quite

2238

01:16:42,149 --> 01:16:40,159

possibly who knows um you know if

2239

01:16:43,990 --> 01:16:42,159

sasquatch is small in number which i

2240

01:16:45,669 --> 01:16:44,000

believe i don't think there's i think

2241

01:16:47,110 --> 01:16:45,679

they do quite well in small numbers like

2242

01:16:49,110 --> 01:16:47,120

a lot i mean there's no guerrilla

2243

01:16:50,870 --> 01:16:49,120

populations that do well uh cross river

2244

01:16:52,390 --> 01:16:50,880

gorilla for example do well in small

2245

01:16:54,470 --> 01:16:52,400

numbers

2246

01:16:56,070 --> 01:16:54,480

um you could uh it'd be like winning the

2247

01:16:58,790 --> 01:16:56,080

lottery buying a moving needle and a

2248

01:17:00,870 --> 01:16:58,800

haystack to find a body that will and uh

2249

01:17:02,470 --> 01:17:00,880

there's not many people out there

2250

01:17:03,910 --> 01:17:02,480

looking for bones let alone that can

2251

01:17:05,590 --> 01:17:03,920

recognize the bone unless you got a

2252

01:17:08,070 --> 01:17:05,600

skull right in front of you of course

2253

01:17:10,709 --> 01:17:08,080

right uh so i i think uh you know like

2254

01:17:11,990 --> 01:17:10,719

most animals uh cats dogs you know

2255

01:17:13,270 --> 01:17:12,000

sometimes when they go to die they don't

2256

01:17:15,350 --> 01:17:13,280

want to be eaten alive and they want to

2257

01:17:16,550 --> 01:17:15,360

go to the deepest darkest place

2258

01:17:18,229 --> 01:17:16,560

and they just disappear i think

2259

01:17:19,590 --> 01:17:18,239

sasquatch does a lot of that i think

2260

01:17:21,270 --> 01:17:19,600

they just go to the deepest darkest

2261

01:17:22,550 --> 01:17:21,280

place but do they bury their dead do

2262

01:17:24,470 --> 01:17:22,560

they eat their dead

2263

01:17:27,110 --> 01:17:24,480

i don't know once again uh it's an

2264

01:17:28,550 --> 01:17:27,120

interesting conversation but i think

2265

01:17:30,470 --> 01:17:28,560

the tree thing up here i think it'd be

2266

01:17:31,669 --> 01:17:30,480

more there would be more bodies found

2267

01:17:32,550 --> 01:17:31,679

but these trees wouldn't be able to

2268

01:17:34,390 --> 01:17:32,560

stand

2269

01:17:36,390 --> 01:17:34,400

um you would need a big tree and then

2270

01:17:39,590 --> 01:17:36,400

you'd have to secure that tree again

2271

01:17:43,430 --> 01:17:39,600

and it would probably fall over time

2272

01:17:47,590 --> 01:17:44,950

well i'm going to go around with each of

2273

01:17:48,950 --> 01:17:47,600

you and uh give me a comment uh any

2274

01:17:50,950 --> 01:17:48,960

other comments you have about the

2275

01:17:54,790 --> 01:17:50,960

bigfoot phenomena things important to

2276

01:17:56,630 --> 01:17:54,800

point out um i'll start off with carter

2277

01:17:58,950 --> 01:17:56,640

well

2278

01:18:01,590 --> 01:17:58,960

they're thinking

2279

01:18:04,229 --> 01:18:01,600

sentient sapient

2280

01:18:06,790 --> 01:18:04,239

beings i don't even call them a creature

2281

01:18:08,229 --> 01:18:06,800

you know i i think they're a lot smarter

2282

01:18:09,910 --> 01:18:08,239

than we give them credit for they're

2283

01:18:13,590 --> 01:18:09,920

probably could be a lot smarter than we

2284

01:18:16,390 --> 01:18:13,600

are you know and we have uh progressed

2285

01:18:17,910 --> 01:18:16,400

ourselves out of the ability to live off

2286

01:18:19,910 --> 01:18:17,920

the land like they do you know we have

2287

01:18:22,390 --> 01:18:19,920

cars computers jets blah blah blah you

2288

01:18:23,590 --> 01:18:22,400

know phones we don't have we got a store

2289

01:18:25,750 --> 01:18:23,600

we can go to the store and buy food

2290

01:18:28,550 --> 01:18:25,760

we've lost touch with how to really

2291

01:18:30,790 --> 01:18:28,560

survive in the world so i think they're

2292

01:18:34,229 --> 01:18:30,800

you know vastly more intelligent than us

2293

01:18:36,070 --> 01:18:34,239

on that level you know and uh you know

2294

01:18:37,750 --> 01:18:36,080

they're interacting with people and

2295

01:18:39,669 --> 01:18:37,760

they're just now coming out a lot of

2296

01:18:41,189 --> 01:18:39,679

these people are coming out and talking

2297

01:18:43,750 --> 01:18:41,199

about

2298

01:18:45,590 --> 01:18:43,760

the esoteric things that nobody likes to

2299

01:18:47,030 --> 01:18:45,600

talk about or doesn't hear a lot about

2300

01:18:49,669 --> 01:18:47,040

it doesn't get a lot of press because

2301

01:18:50,470 --> 01:18:49,679

okay that's crazy you know uh but you

2302

01:18:52,310 --> 01:18:50,480

know

2303

01:18:54,390 --> 01:18:52,320

there's something going on and here's

2304

01:18:57,189 --> 01:18:54,400

here's one thing i want to bring up

2305

01:19:00,070 --> 01:18:57,199

if there was nothing special because

2306

01:19:02,470 --> 01:19:00,080

they're discovering new species of

2307

01:19:04,229 --> 01:19:02,480

animals plants fish every week you hear

2308

01:19:05,990 --> 01:19:04,239

about something new there's a new tree

2309

01:19:08,550 --> 01:19:06,000

there's a new bush there's a new you

2310

01:19:12,149 --> 01:19:08,560

know you know pygmy ape there's new

2311

01:19:16,149 --> 01:19:14,709

what is so special about these beings

2312

01:19:17,830 --> 01:19:16,159

and i do believe the government knows

2313

01:19:19,990 --> 01:19:17,840

full well exactly what's going on what

2314

01:19:22,390 --> 01:19:20,000

is so special about them that they don't

2315

01:19:23,270 --> 01:19:22,400

want to talk about it they want to deny

2316

01:19:27,270 --> 01:19:23,280

it

2317

01:19:28,870 --> 01:19:27,280

dumb ape they talk about that stuff all

2318

01:19:31,030 --> 01:19:28,880

the time they discover new chips and

2319

01:19:32,390 --> 01:19:31,040

lizards all over the place and it's not

2320

01:19:33,189 --> 01:19:32,400

hidden or

2321

01:19:35,030 --> 01:19:33,199

it's

2322

01:19:37,669 --> 01:19:35,040

out in front of everybody so why all the

2323

01:19:39,510 --> 01:19:37,679

secrecy about this particular

2324

01:19:42,070 --> 01:19:39,520

being i don't get it there's something

2325

01:19:44,149 --> 01:19:42,080

up you know that's my two cents

2326

01:19:45,910 --> 01:19:44,159

how about you uh ryan you got anything

2327

01:19:47,750 --> 01:19:45,920

to say further

2328

01:19:49,350 --> 01:19:47,760

uh i truly believe there's there's

2329

01:19:51,669 --> 01:19:49,360

something out there just from all the

2330

01:19:53,270 --> 01:19:51,679

evidence from filming uh interviewing

2331

01:19:54,550 --> 01:19:53,280

people that are so

2332

01:19:56,310 --> 01:19:54,560

true and

2333

01:19:57,830 --> 01:19:56,320

believe what they saw

2334

01:20:00,470 --> 01:19:57,840

you can tell a person who's making up a

2335

01:20:01,750 --> 01:20:00,480

story who really saw something so i

2336

01:20:03,669 --> 01:20:01,760

truly believe there's something out

2337

01:20:05,750 --> 01:20:03,679

there and we've gotten great at uh

2338

01:20:07,510 --> 01:20:05,760

evidence even through just

2339

01:20:10,550 --> 01:20:07,520

my own experiences but

2340

01:20:13,430 --> 01:20:10,560

i'm a hopeful believer so i'm until i

2341

01:20:15,510 --> 01:20:13,440

see one or experience it firsthand i'm

2342

01:20:16,870 --> 01:20:15,520

hopeful that these creatures are out

2343

01:20:19,110 --> 01:20:16,880

there and

2344

01:20:21,830 --> 01:20:19,120

and uh

2345

01:20:24,229 --> 01:20:21,840

until i see one or there's a real one

2346

01:20:26,629 --> 01:20:24,239

dead one i mean uh

2347

01:20:27,669 --> 01:20:26,639

i i just have to wait till that happens

2348

01:20:29,590 --> 01:20:27,679

yeah

2349

01:20:31,110 --> 01:20:29,600

how about you shane

2350

01:20:33,510 --> 01:20:31,120

you know i'm just excited about the

2351

01:20:35,030 --> 01:20:33,520

future uh you know i'm seeing uh not

2352

01:20:36,470 --> 01:20:35,040

just within the olympic projects i work

2353

01:20:38,310 --> 01:20:36,480

with but other groups and individuals

2354

01:20:40,390 --> 01:20:38,320

working on some amazing things that are

2355

01:20:42,629 --> 01:20:40,400

i think down the road here

2356

01:20:43,910 --> 01:20:42,639

um i'm such an optimist on this because

2357

01:20:45,590 --> 01:20:43,920

uh you know a lot of people say oh we've

2358

01:20:47,750 --> 01:20:45,600

been at this for 50 years or 60s and

2359

01:20:49,830 --> 01:20:47,760

that to me that's mini school amount of

2360

01:20:52,550 --> 01:20:49,840

time for this subject matter

2361

01:20:53,669 --> 01:20:52,560

uh for something that uh people claim to

2362

01:20:56,470 --> 01:20:53,679

understand

2363

01:20:57,590 --> 01:20:56,480

uh i you know sasquatch they're they're

2364

01:20:59,830 --> 01:20:57,600

legit they're out there they're real

2365

01:21:01,750 --> 01:20:59,840

what are they i can't tell you i can't i

2366

01:21:03,270 --> 01:21:01,760

got my ideas my own hypothesis and i

2367

01:21:04,550 --> 01:21:03,280

could be wrong and i'm cool with that

2368

01:21:06,229 --> 01:21:04,560

but they are they're our real thing

2369

01:21:07,189 --> 01:21:06,239

they're really empty they're out there

2370

01:21:09,350 --> 01:21:07,199

um

2371

01:21:11,030 --> 01:21:09,360

and so i'm i'm really enthused because

2372

01:21:13,189 --> 01:21:11,040

uh you know working with groups like

2373

01:21:14,709 --> 01:21:13,199

with amy boo she's you know been a part

2374

01:21:16,790 --> 01:21:14,719

of this before

2375

01:21:17,669 --> 01:21:16,800

and uh you know project zoo book talking

2376

01:21:20,229 --> 01:21:17,679

to

2377

01:21:21,750 --> 01:21:20,239

young academics and other individuals

2378

01:21:23,910 --> 01:21:21,760

that are actually you know i i see

2379

01:21:25,270 --> 01:21:23,920

they're in the sasquatch closet they're

2380

01:21:26,870 --> 01:21:25,280

not ready to come out of that clause and

2381

01:21:28,709 --> 01:21:26,880

say oh yeah we're into we're interested

2382

01:21:29,990 --> 01:21:28,719

in the subject matter but they're

2383

01:21:32,390 --> 01:21:30,000

they're asking questions they're

2384

01:21:34,390 --> 01:21:32,400

providing feedback to me that's profound

2385

01:21:36,149 --> 01:21:34,400

and that's something that john binnerago

2386

01:21:37,510 --> 01:21:36,159

the late great john binonga wanted he

2387

01:21:39,189 --> 01:21:37,520

wanted to make the subject matter less

2388

01:21:41,350 --> 01:21:39,199

taboo and i think all of us can agree

2389

01:21:42,870 --> 01:21:41,360

with that we would love this job matter

2390

01:21:44,310 --> 01:21:42,880

no matter what where you come from to be

2391

01:21:45,669 --> 01:21:44,320

less taboo

2392

01:21:46,870 --> 01:21:45,679

and that's something john benedict

2393

01:21:49,270 --> 01:21:46,880

always wanted and that's kind of my

2394

01:21:51,669 --> 01:21:49,280

mantra and i'm seeing a movement within

2395

01:21:52,550 --> 01:21:51,679

academic academia in general that is

2396

01:21:54,310 --> 01:21:52,560

very

2397

01:21:56,310 --> 01:21:54,320

enthraling appealing

2398

01:21:58,149 --> 01:21:56,320

and uh i mean i there's only certain

2399

01:21:59,990 --> 01:21:58,159

things i can do i have my limitations

2400

01:22:02,550 --> 01:22:00,000

but to pass information in order to get

2401

01:22:05,110 --> 01:22:02,560

feedback they'll better what i'm doing

2402

01:22:07,270 --> 01:22:05,120

or better the people i work with doing

2403

01:22:09,910 --> 01:22:07,280

that's cool that's cool and i see that

2404

01:22:11,270 --> 01:22:09,920

gaining speed thanks to many individuals

2405

01:22:13,189 --> 01:22:11,280

including uh

2406

01:22:14,629 --> 01:22:13,199

you know amy boo and and uh the the

2407

01:22:16,149 --> 01:22:14,639

people i work with in the lim project

2408

01:22:17,430 --> 01:22:16,159

and the people i collaborate outside the

2409

01:22:19,830 --> 01:22:17,440

olympic project

2410

01:22:21,910 --> 01:22:19,840

um uh too many people get dismayed with

2411

01:22:24,470 --> 01:22:21,920

this topic and encryptives in general

2412

01:22:25,750 --> 01:22:24,480

and a lot of stuff but uh you know as

2413

01:22:27,430 --> 01:22:25,760

soon as you go down that road then if

2414

01:22:29,830 --> 01:22:27,440

you're not having fun at it get out but

2415

01:22:31,350 --> 01:22:29,840

uh yeah yeah just get out

2416

01:22:32,870 --> 01:22:31,360

yeah i don't think i'd be doing this if

2417

01:22:35,030 --> 01:22:32,880

i didn't enjoy it

2418

01:22:36,550 --> 01:22:35,040

i'd be doing it too long don't ruin it

2419

01:22:37,830 --> 01:22:36,560

for everybody else but here's here's one

2420

01:22:39,830 --> 01:22:37,840

thing i want to say

2421

01:22:41,430 --> 01:22:39,840

just this four of us

2422

01:22:43,669 --> 01:22:41,440

uh

2423

01:22:44,629 --> 01:22:43,679

we're discussing

2424

01:22:48,950 --> 01:22:44,639

in

2425

01:22:52,070 --> 01:22:48,960

all have

2426

01:22:54,950 --> 01:22:52,080

slightly differing opinions and beliefs

2427

01:22:57,030 --> 01:22:54,960

but we're not trashing each other

2428

01:22:58,709 --> 01:22:57,040

this is how research

2429

01:23:01,110 --> 01:22:58,719

should be done

2430

01:23:02,870 --> 01:23:01,120

we agree to disagree i i don't know if i

2431

01:23:03,990 --> 01:23:02,880

agree about that but i think about that

2432

01:23:05,669 --> 01:23:04,000

it doesn't

2433

01:23:07,830 --> 01:23:05,679

we're all a little bit right and we're

2434

01:23:09,030 --> 01:23:07,840

all probably a little bit wrong because

2435

01:23:10,870 --> 01:23:09,040

we don't know

2436

01:23:12,310 --> 01:23:10,880

you know the government knows because a

2437

01:23:15,110 --> 01:23:12,320

lot of companies know

2438

01:23:17,750 --> 01:23:15,120

you know the paper companies know uh but

2439

01:23:20,390 --> 01:23:17,760

we don't know so this is how an

2440

01:23:21,990 --> 01:23:20,400

intelligent discourse should be held and

2441

01:23:23,750 --> 01:23:22,000

thank you elon for putting this on but

2442

01:23:25,910 --> 01:23:23,760

you know this is how

2443

01:23:28,310 --> 01:23:25,920

you come to some conclusions that

2444

01:23:30,709 --> 01:23:28,320

everybody can embrace or give people

2445

01:23:32,950 --> 01:23:30,719

like the people watching the show

2446

01:23:35,270 --> 01:23:32,960

give them a voice too because some of

2447

01:23:38,310 --> 01:23:35,280

them believe what i say some believe

2448

01:23:40,550 --> 01:23:38,320

what shane and ryan so this is how it

2449

01:23:42,470 --> 01:23:40,560

should be done you know and you walk

2450

01:23:43,910 --> 01:23:42,480

away going well that was respectful and

2451  
01:23:45,830 --> 01:23:43,920  
intelligent i mean i'd agree with these

2452  
01:23:46,790 --> 01:23:45,840  
guys but you know that was that's how it

2453  
01:23:48,149 --> 01:23:46,800  
ought to be done because we're not

2454  
01:23:50,390 --> 01:23:48,159  
sitting there calling each other names

2455  
01:23:52,470 --> 01:23:50,400  
and you know trash

2456  
01:23:57,990 --> 01:23:52,480  
you know how hateful the cryptid world

2457  
01:24:02,550 --> 01:24:00,390  
i'm so tired of backbiting after all

2458  
01:24:04,390 --> 01:24:02,560  
this um you know it seems like oh it's

2459  
01:24:09,110 --> 01:24:04,400  
it is it's disgusting i feel like

2460  
01:24:09,120 --> 01:24:12,870  
trying to talk you know yeah

2461  
01:24:16,070 --> 01:24:14,709  
it's just this is real

2462  
01:24:18,229 --> 01:24:16,080  
so this

2463  
01:24:20,070 --> 01:24:18,239

so carter tell us what you're up to tell

2464

01:24:21,510 --> 01:24:20,080

us your projects and how people get a

2465

01:24:24,390 --> 01:24:21,520

hold of you

2466

01:24:25,189 --> 01:24:24,400

um you can get a hold of me my website

2467

01:24:29,189 --> 01:24:25,199

is

2468

01:24:34,149 --> 01:24:32,310

and uh i've written two books uh i

2469

01:24:35,270 --> 01:24:34,159

started one just because they had all

2470

01:24:36,790 --> 01:24:35,280

these

2471

01:24:39,910 --> 01:24:36,800

this material from

2472

01:24:42,310 --> 01:24:39,920

bfro reports and then i started hearing

2473

01:24:44,550 --> 01:24:42,320

the really esoteric quantum bizarre

2474

01:24:46,709 --> 01:24:44,560

stuff you know and you know ron moore

2475

01:24:48,629 --> 01:24:46,719

had even contributed to my first book so

2476

01:24:50,229 --> 01:24:48,639

i mean we're kind of on the same page

2477

01:24:52,070 --> 01:24:50,239

you know

2478

01:24:54,390 --> 01:24:52,080

but that i may be working on a second

2479

01:24:56,790 --> 01:24:54,400

book i don't know uh i've been invited

2480

01:24:59,350 --> 01:24:56,800

to a habituation site east of me here

2481

01:25:00,950 --> 01:24:59,360

that a guy has caves on his property and

2482

01:25:02,790 --> 01:25:00,960

he thinks that

2483

01:25:04,629 --> 01:25:02,800

they're living there because they block

2484

01:25:06,790 --> 01:25:04,639

the cave at certain times with giant

2485

01:25:08,550 --> 01:25:06,800

boulders and stuff so i'm working on the

2486

01:25:11,350 --> 01:25:08,560

the habituation stuff right now because

2487

01:25:13,990 --> 01:25:11,360

this is fascinating you know

2488

01:25:14,629 --> 01:25:14,000

so that's kind of what i'm doing and uh

2489

01:25:16,709 --> 01:25:14,639

and

2490

01:25:18,390 --> 01:25:16,719

the two books these these are them

2491

01:25:20,149 --> 01:25:18,400

there's one

2492

01:25:21,270 --> 01:25:20,159

and there's the other

2493

01:25:23,110 --> 01:25:21,280

uh

2494

01:25:24,870 --> 01:25:23,120

good books well researched if i do say

2495

01:25:27,030 --> 01:25:24,880

so myself you know there's no fiction in

2496

01:25:28,790 --> 01:25:27,040

the books these are what people tell me

2497

01:25:30,470 --> 01:25:28,800

some people i've talked to yeah they're

2498

01:25:32,709 --> 01:25:30,480

maybe full of crap but they're not in

2499

01:25:34,709 --> 01:25:32,719

the books i i i blow them off i can tell

2500

01:25:35,830 --> 01:25:34,719

when we all know we're getting yanked

2501

01:25:37,350 --> 01:25:35,840

you know right

2502

01:25:39,430 --> 01:25:37,360

you can tell when somebody's yanking

2503

01:25:40,709 --> 01:25:39,440

your chain you know so you know much as

2504

01:25:43,510 --> 01:25:40,719

i like to put some of these in there i

2505

01:25:45,510 --> 01:25:43,520

can't because you're full of crap dude

2506

01:25:46,870 --> 01:25:45,520

i'll move on to the next person so

2507

01:25:49,510 --> 01:25:46,880

anyway that's me you can get a hold of

2508

01:25:51,270 --> 01:25:49,520

me uh buy a book or if you got a report

2509

01:25:52,790 --> 01:25:51,280

that nobody else will listen to or talk

2510

01:25:55,990 --> 01:25:52,800

to i'm listening i'm like a laugh

2511

01:25:58,070 --> 01:25:56,000

laughter scoff i want your data you know

2512

01:25:59,430 --> 01:25:58,080

how about you ron

2513

01:26:01,430 --> 01:25:59,440

um

2514

01:26:03,189 --> 01:26:01,440  
we're always filming something

2515

01:26:05,189 --> 01:26:03,199  
uh we just finished a bigfoot film

2516

01:26:08,149 --> 01:26:05,199  
called mom double three which all our

2517

01:26:09,750 --> 01:26:08,159  
films are at [www.legendhunterfilms.com](http://www.legendhunterfilms.com)

2518

01:26:11,910 --> 01:26:09,760  
or you can get them on

2519

01:26:14,470 --> 01:26:11,920  
amazon we always have a couple projects

2520

01:26:16,470 --> 01:26:14,480  
going and currently i'm really

2521

01:26:18,390 --> 01:26:16,480  
i'm really

2522

01:26:19,910 --> 01:26:18,400  
concentrating on a lot of this missing

2523

01:26:24,550 --> 01:26:19,920  
people

2524

01:26:26,070 --> 01:26:24,560  
parks that just fascinates me the lives

2525

01:26:27,990 --> 01:26:26,080  
are amazing

2526

01:26:31,750 --> 01:26:28,000

and uh i just would really like to dive

2527

01:26:35,189 --> 01:26:33,669

it's great stuff and uh

2528

01:26:37,270 --> 01:26:35,199

make water not a bigfoot i don't know

2529

01:26:38,790 --> 01:26:37,280

but um

2530

01:26:40,390 --> 01:26:38,800

that's probably a couple projects down

2531

01:26:42,629 --> 01:26:40,400

the line because we jump around from

2532

01:26:44,070 --> 01:26:42,639

treasure hunting to bigfoot to a couple

2533

01:26:46,390 --> 01:26:44,080

different things so

2534

01:26:47,590 --> 01:26:46,400

i don't want all our films to be bigfoot

2535

01:26:50,870 --> 01:26:47,600

i it just

2536

01:26:52,390 --> 01:26:50,880

it gets redundant and old to me

2537

01:26:53,590 --> 01:26:52,400

in the dead horse i just i gotta do

2538

01:26:56,149 --> 01:26:53,600

something else for a little bit and then

2539

01:26:57,350 --> 01:26:56,159

we'll come back to it a different angle

2540

01:27:02,470 --> 01:26:57,360

so

2541

01:27:05,030 --> 01:27:02,480

and ryan are part of uh the phantoms of

2542

01:27:07,669 --> 01:27:05,040

monsters 14 research team

2543

01:27:10,229 --> 01:27:07,679

and uh we're glad to have them we've got

2544

01:27:13,110 --> 01:27:10,239

a pretty good bunch and we looked into a

2545

01:27:15,830 --> 01:27:13,120

lot of different things so uh

2546

01:27:18,149 --> 01:27:15,840

you guys are a big part of the team and

2547

01:27:19,750 --> 01:27:18,159

2549

01:27:25,189 --> 01:27:21,120

2550

01:27:28,070 --> 01:27:25,199

01:27:31,750 --> 01:27:29,679
