

PHANTOMS & MONSTERS

R A D I O

AQUATIC CRYPTIDS ROUNDTABLE

MAX HAWTHORNE, RON MURPHY,
KENNEY IRISH, & STEVE KULLS

FRIDAY, JANUARY 20TH AT 9PM ET / 6PM PT

1
00:00:22,330 --> 00:00:14,370

[Music]

2
00:00:22,340 --> 00:00:27,580

you mean it could be done either way

3
00:00:27,590 --> 00:00:42,670

[Music]

4
00:00:48,760 --> 00:00:46,310

fantastic but it's it's Airy it needs to

5
00:00:52,130 --> 00:00:48,770

be very old butt

6
00:01:10,090 --> 00:00:52,140

[Music]

7
00:01:17,030 --> 00:01:12,350

thank you

8
00:01:46,850 --> 00:01:44,270

[Music]

9
00:01:49,010 --> 00:01:46,860

hey folks good evening and welcome to

10
00:01:50,870 --> 00:01:49,020

another episode of phantom zamasa's

11
00:01:53,149 --> 00:01:50,880

radio where we explore the strange and

12
00:01:55,249 --> 00:01:53,159

unexplained I'm your host lawn Stricker

13
00:01:57,770 --> 00:01:55,259

and thanks for joining me this evening

14

00:01:59,450 --> 00:01:57,780

uh if you enjoy our content then please

15

00:02:02,330 --> 00:01:59,460

subscribe like and share our

16

00:02:05,810 --> 00:02:02,340

presentations and uh please feel free to

17

00:02:08,449 --> 00:02:05,820

place comments as well uh Super Chat uh

18

00:02:10,010 --> 00:02:08,459

is acted during the show so please share

19

00:02:11,930 --> 00:02:10,020

your support for fans of monsters radio

20

00:02:12,890 --> 00:02:11,940

by clicking the dollar icon underneath

21

00:02:15,050 --> 00:02:12,900

the chat

22

00:02:17,449 --> 00:02:15,060

also support the channel by clicking

23

00:02:19,970 --> 00:02:17,459

super thanks icon and the buy me a

24

00:02:22,130 --> 00:02:19,980

coffee link your consideration is very

25

00:02:25,130 --> 00:02:22,140

much needed and appreciated so we got a

26

00:02:27,890 --> 00:02:25,140

uh a pretty large group here for this

27

00:02:31,130 --> 00:02:27,900

round table and uh let me start off by

28

00:02:33,170 --> 00:02:31,140

introducing Max Hawthorne who is a uh an

29

00:02:35,750 --> 00:02:33,180

American author and screenwriter

30

00:02:38,690 --> 00:02:35,760

uh referred to as the prince of paleo

31

00:02:41,350 --> 00:02:38,700

fiction is best known for his Cronus

32

00:02:44,150 --> 00:02:41,360

Rising series as a Sci-Fi

33

00:02:45,830 --> 00:02:44,160

uh suspense bearers which have garnered

34

00:02:48,650 --> 00:02:45,840

both book of the year and People's

35

00:02:50,630 --> 00:02:48,660

Choice Awards is the Amazon number one

36

00:02:53,449 --> 00:02:50,640

bestseller author of The crypto research

37

00:02:55,670 --> 00:02:53,459

book monsters and Marine Mysteries as

38

00:02:58,190 --> 00:02:55,680

well as Memoirs of a gym rat an

39

00:02:59,509 --> 00:02:58,200

outrageous expose of Health Club

40

00:03:02,089 --> 00:02:59,519

industry

41

00:03:04,130 --> 00:03:02,099

in children's book I want a

42

00:03:05,750 --> 00:03:04,140

tyrannosaurus for Christmas

43

00:03:08,270 --> 00:03:05,760

he has been interviewed by both

44

00:03:11,630 --> 00:03:08,280

Washington Post and fangora magazine has

45

00:03:14,930 --> 00:03:11,640

appeared on QVC spaced out radio Coast

46

00:03:16,430 --> 00:03:14,940

to Coast AM and in A Tribe Called Quest

47

00:03:20,030 --> 00:03:16,440

rap video

48

00:03:22,369 --> 00:03:20,040

I left my wallet in El Segundo

49

00:03:24,970 --> 00:03:22,379

in addition to being a bestseller Navi

50

00:03:27,729 --> 00:03:24,980

novelist he is a singer-songwriter

51
00:03:31,250 --> 00:03:27,739
avocational paleontologist

52
00:03:34,130 --> 00:03:31,260
uh crypted to researcher igfa world

53
00:03:37,009 --> 00:03:34,140
record holder angler and voting member

54
00:03:40,789 --> 00:03:37,019
of the author's Guild Max is an avid

55
00:03:43,430 --> 00:03:40,799
Sportsman and conservationist and Ron

56
00:03:45,649 --> 00:03:43,440
Murphy the cryptic Guru is with us

57
00:03:47,509 --> 00:03:45,659
tonight he has been investigating the

58
00:03:50,509 --> 00:03:47,519
stuff and nightmares for over 30 years

59
00:03:52,729 --> 00:03:50,519
he has delved deeply into the Shadows to

60
00:03:55,009 --> 00:03:52,739
shed light on the Things That Go Bump in

61
00:03:58,550 --> 00:03:55,019
the night and meticulously research the

62
00:04:01,009 --> 00:03:58,560
historical and psychological context of

63
00:04:03,530 --> 00:04:01,019

myths and legends from all around the

64

00:04:06,589 --> 00:04:03,540

world Ron seeks to uncover your

65

00:04:09,410 --> 00:04:06,599

archetypal uh precedent for monsters

66

00:04:13,550 --> 00:04:09,420

that haunt our Collective thoughts in

67

00:04:16,610 --> 00:04:13,560

2018 Iran also wrote on aquatic Monsters

68

00:04:19,370 --> 00:04:16,620

of the Great Lakes an investigation into

69

00:04:20,810 --> 00:04:19,380

the Legends and sightings of unknown

70

00:04:25,070 --> 00:04:20,820

animals

71

00:04:27,890 --> 00:04:25,080

uh Kenny W Irish otherwise known as the

72

00:04:30,590 --> 00:04:27,900

crypto punctologist is an author

73

00:04:33,469 --> 00:04:30,600

hardcore punk musician and sales

74

00:04:35,749 --> 00:04:33,479

marketing professional originally from a

75

00:04:38,270 --> 00:04:35,759

northern northern parts of Vermont he

76
00:04:41,870 --> 00:04:38,280
has recently relocated to the beautiful

77
00:04:44,870 --> 00:04:41,880
Adirondack area of Upstate New York he

78
00:04:47,689 --> 00:04:44,880
has lifelong Lifelong Love of folklore

79
00:04:50,810 --> 00:04:47,699
Legends monsters and UFO stories

80
00:04:54,950 --> 00:04:50,820
he has uh regularly attended and spoke

81
00:04:57,050 --> 00:04:54,960
of writer's guilds groups uh conferences

82
00:04:59,689 --> 00:04:57,060
festivals and and various other

83
00:05:02,450 --> 00:04:59,699
platforms across the country he has a

84
00:05:05,870 --> 00:05:02,460
passion for writing young readers

85
00:05:08,210 --> 00:05:05,880
chapters books in late summer 2022

86
00:05:11,270 --> 00:05:08,220
International Cryptids and legends and

87
00:05:14,390 --> 00:05:11,280
the follow-up to American cryptism's

88
00:05:17,990 --> 00:05:14,400

released via beyond the free publishing

89

00:05:20,210 --> 00:05:18,000

he's also an Explorer of the New York uh

90

00:05:22,129 --> 00:05:20,220

for the New York Bigfoot Society Kenny

91

00:05:24,950 --> 00:05:22,139

has appeared on numerous radio shows and

92

00:05:27,650 --> 00:05:24,960

podcasts including Coast to Coast AM he

93

00:05:30,350 --> 00:05:27,660

has filmed in several documentaries

94

00:05:33,350 --> 00:05:30,360

scheduled to broadcast in the near

95

00:05:36,950 --> 00:05:33,360

future and Steve calls otherwise known

96

00:05:38,749 --> 00:05:36,960

as this watch Detective former

97

00:05:40,670 --> 00:05:38,759

professional investigator and private

98

00:05:42,650 --> 00:05:40,680

investigator lenses 18 years of

99

00:05:43,850 --> 00:05:42,660

experience to the Bigfoot mystery and

100

00:05:46,189 --> 00:05:43,860

Cryptids

101
00:05:48,469 --> 00:05:46,199
Steve has appeared on numerous local

102
00:05:50,510 --> 00:05:48,479
news programs across the country and

103
00:05:53,090 --> 00:05:50,520
National venues such as Fox and Friends

104
00:05:55,790 --> 00:05:53,100
and interviewed in print and over 100

105
00:05:57,409 --> 00:05:55,800
newspapers over the last 10 years

106
00:05:59,990 --> 00:05:57,419
Steve has appeared on the History

107
00:06:02,570 --> 00:06:00,000
Channel series monster quest and

108
00:06:05,090 --> 00:06:02,580
America's Book of Secrets the National

109
00:06:07,730 --> 00:06:05,100
Geographic documented the truth behind

110
00:06:10,249 --> 00:06:07,740
the Loch Ness monster in the Nat Geo

111
00:06:12,529 --> 00:06:10,259
Channel series paranatural

112
00:06:14,689 --> 00:06:12,539
destination America's Monsters and

113
00:06:18,650 --> 00:06:14,699

Mysteries unsolved and paranormal

114

00:06:21,290 --> 00:06:18,660

survivors so guys thanks for joining me

115

00:06:26,689 --> 00:06:24,890

it's a pleasure to be here my friend

116

00:06:30,050 --> 00:06:26,699

thanks for putting up with me absolutely

117

00:06:31,850 --> 00:06:30,060

yeah thanks for the invite

118

00:06:34,430 --> 00:06:31,860

well I mean we got quite a group every

119

00:06:36,469 --> 00:06:34,440

night uh I don't know Kenny's still

120

00:06:38,150 --> 00:06:36,479

there

121

00:06:40,490 --> 00:06:38,160

maybe even backed out for a saying well

122

00:06:42,350 --> 00:06:40,500

I hope you back him oh boy so let me

123

00:06:45,710 --> 00:06:42,360

start off with Max I know Max was on

124

00:06:49,969 --> 00:06:45,720

with uh Bernadette couple weeks ago and

125

00:06:52,850 --> 00:06:49,979

uh you you kind of do a lot of this as

126
00:06:55,790 --> 00:06:52,860
far as paleontology and and fossils and

127
00:06:57,409 --> 00:06:55,800
such with the aquatics

128
00:07:00,529 --> 00:06:57,419
um tell us a bit about what you've done

129
00:07:02,570 --> 00:07:00,539
and what you're doing now

130
00:07:04,249 --> 00:07:02,580
right now I'm drinking out of a stitch

131
00:07:06,230 --> 00:07:04,259
Mark that belongs to my daughter so

132
00:07:07,909 --> 00:07:06,240
risking life and limb

133
00:07:11,450 --> 00:07:07,919
um well let's see I mean the

134
00:07:13,370 --> 00:07:11,460
paleontology thing was I mean a side

135
00:07:15,290 --> 00:07:13,380
effect of all the research that I do for

136
00:07:16,909 --> 00:07:15,300
my novels the Cronus Rising series is

137
00:07:18,770 --> 00:07:16,919
Paleo fiction so you're dealing with

138
00:07:21,290 --> 00:07:18,780

previous or marine life in the present

139

00:07:23,749 --> 00:07:21,300

and what might happen if you introduce

140

00:07:25,730 --> 00:07:23,759

an apex predator obviously into our

141

00:07:28,010 --> 00:07:25,740

Predator depleted oceans and such but uh

142

00:07:30,350 --> 00:07:28,020

so I mean I did a lot of stuff I mean I

143

00:07:32,450 --> 00:07:30,360

solved the mystery of please use your

144

00:07:35,150 --> 00:07:32,460

Locomotion how they use their four

145

00:07:36,770 --> 00:07:35,160

flippers to swim uh did a formal paper

146

00:07:38,930 --> 00:07:36,780

on that with paleontologist Mark

147

00:07:42,950 --> 00:07:38,940

mcmenaman and Paul De Lasalle from the

148

00:07:44,450 --> 00:07:42,960

UK I did a lot of work on I guess

149

00:07:46,790 --> 00:07:44,460

solving the mystery of why please Source

150

00:07:48,589 --> 00:07:46,800

had such long necks uh all sorts of

151
00:07:50,570 --> 00:07:48,599
stuff a lot of Megalodon research you

152
00:07:53,150 --> 00:07:50,580
name it I I've been doing it besides

153
00:07:56,990 --> 00:07:53,160
writing books and screenplays and all

154
00:07:59,689 --> 00:07:57,000
that stuff and videos and yeah it's a

155
00:08:03,050 --> 00:08:01,010
I don't know I mean there's so much

156
00:08:04,129 --> 00:08:03,060
stuff I'd just be blabbing about it you

157
00:08:05,870 --> 00:08:04,139
know like I was telling you we just did

158
00:08:08,150 --> 00:08:05,880
a YouTube video with evidence of a

159
00:08:10,430 --> 00:08:08,160
32-foot white shark you know a whale

160
00:08:13,189 --> 00:08:10,440
cart with yard-wide bites taken out of

161
00:08:15,830 --> 00:08:13,199
it with tooth marks Etc so where was

162
00:08:17,089 --> 00:08:15,840
that at that that washer show on Briar

163
00:08:20,689 --> 00:08:17,099

Island

164

00:08:22,550 --> 00:08:20,699

that's uh Nova Scotia and uh yeah it

165

00:08:24,830 --> 00:08:22,560

worked out nicely because actually one

166

00:08:26,330 --> 00:08:24,840

of the researchers she took photos of

167

00:08:28,309 --> 00:08:26,340

the carcass while it was still at Sea

168

00:08:30,830 --> 00:08:28,319

and all the bites were fresh and then

169

00:08:32,149 --> 00:08:30,840

when it became ashore her husband uh

170

00:08:33,769 --> 00:08:32,159

filmed it and everything got me

171

00:08:35,630 --> 00:08:33,779

measurements all this stuff and then he

172

00:08:37,730 --> 00:08:35,640

dissected it I mean he took the skeleton

173

00:08:39,889 --> 00:08:37,740

Etc but it was so falling apart at that

174

00:08:42,230 --> 00:08:39,899

point at that point it didn't matter but

175

00:08:44,990 --> 00:08:42,240

you know we got actually a 30-foot

176

00:08:46,490 --> 00:08:45,000

humpback which bites

177

00:08:48,590 --> 00:08:46,500

I can't even show my hands because the

178

00:08:49,970 --> 00:08:48,600

screen's not big enough here but big

179

00:08:52,070 --> 00:08:49,980

enough like we're talking a shark to

180

00:08:54,290 --> 00:08:52,080

size home so the one from Jaws three

181

00:08:58,509 --> 00:08:54,300

wow so

182

00:09:02,870 --> 00:08:58,519

yeah only thing is the actual shark

183

00:09:05,949 --> 00:09:02,880

yeah so Steve I I know you did a uh a

184

00:09:09,170 --> 00:09:05,959

Loch Ness documentary a while back

185

00:09:12,110 --> 00:09:09,180

uh what came of that I mean what was

186

00:09:15,350 --> 00:09:12,120

involved with that at the time

187

00:09:18,769 --> 00:09:15,360

well let's see we uh a really weird uh

188

00:09:21,530 --> 00:09:18,779

uh how it happened the director of the

189

00:09:24,530 --> 00:09:21,540

program was actually the director of

190

00:09:27,889 --> 00:09:24,540

My Monster Quest episode and he thought

191

00:09:29,509 --> 00:09:27,899

you know hey I was such a a strong you

192

00:09:32,210 --> 00:09:29,519

know presence during the monster quest

193

00:09:36,230 --> 00:09:32,220

that he wanted me to go out and lead a

194

00:09:39,350 --> 00:09:36,240

team in Loch Ness for that Geo Channel

195

00:09:42,769 --> 00:09:39,360

so we we had talked and uh in September

196

00:09:45,230 --> 00:09:42,779

the previous year 2010 and uh we were

197

00:09:48,290 --> 00:09:45,240

gonna film in 2011 so

198

00:09:51,410 --> 00:09:48,300

uh got sent out there and uh you know

199

00:09:54,110 --> 00:09:51,420

like we were gonna have uh side scan uh

200

00:09:58,130 --> 00:09:54,120

sonar we were going to have a couple of

201
00:10:01,670 --> 00:09:58,140
uh a marine biologist come with us we we

202
00:10:04,850 --> 00:10:01,680
had a captain of a boat that you know

203
00:10:05,750 --> 00:10:04,860
was very familiar with the the area

204
00:10:08,810 --> 00:10:05,760
um

205
00:10:10,910 --> 00:10:08,820
and we had and we had a a dive team as

206
00:10:13,970 --> 00:10:10,920
well to go in and start looking around

207
00:10:16,690 --> 00:10:13,980
her castle which is that famous castle

208
00:10:19,670 --> 00:10:16,700
you see in the In Search of scene there

209
00:10:21,530 --> 00:10:19,680
when they say you know lake monsters or

210
00:10:25,310 --> 00:10:21,540
Loch Ness

211
00:10:27,650 --> 00:10:25,320
um so I spent nine days out there uh I

212
00:10:31,009 --> 00:10:27,660
think six and a half days was spent

213
00:10:32,509 --> 00:10:31,019

always on the water I mean hours and

214

00:10:35,389 --> 00:10:32,519

hours on the water

215

00:10:39,110 --> 00:10:35,399

looking for things uh making

216

00:10:43,730 --> 00:10:39,120

observations I managed to debunk a hoax

217

00:10:46,610 --> 00:10:43,740

while I was there as well as as well as

218

00:10:49,490 --> 00:10:46,620

talk to a couple of

219

00:10:51,829 --> 00:10:49,500

you know really good strong witnesses as

220

00:10:53,030 --> 00:10:51,839

well and one not so good Witness

221

00:10:55,730 --> 00:10:53,040

es so

222

00:10:57,769 --> 00:10:55,740

you're gonna get those yeah but we we

223

00:11:00,650 --> 00:10:57,779

actually had a poligrapher by the name

224

00:11:04,790 --> 00:11:00,660

of David bird been with Scotland Yard

225

00:11:05,829 --> 00:11:04,800

for 35 years and had become really an

226

00:11:08,930 --> 00:11:05,839

international

227

00:11:11,210 --> 00:11:08,940

calligrapher giving polygraph exams and

228

00:11:14,210 --> 00:11:11,220

at the time he was coming to do this he

229

00:11:16,930 --> 00:11:14,220

had just came off of uh putting a

230

00:11:19,610 --> 00:11:16,940

Belgian serial killer on the box

231

00:11:21,290 --> 00:11:19,620

uh because the Belgian government called

232

00:11:22,550 --> 00:11:21,300

them in the interview the guy see if he

233

00:11:23,630 --> 00:11:22,560

was telling the truth about other

234

00:11:27,110 --> 00:11:23,640

murders

235

00:11:30,949 --> 00:11:27,120

so he was there and we got along because

236

00:11:33,170 --> 00:11:30,959

like uh my my background is in forensic

237

00:11:36,710 --> 00:11:33,180

interviewing and uh speaking with him

238

00:11:39,350 --> 00:11:36,720

there's a lot of similarities that you

239

00:11:41,990 --> 00:11:39,360

know in the build up to a polygraph exam

240

00:11:44,329 --> 00:11:42,000

the poligrapher will interview the

241

00:11:46,610 --> 00:11:44,339

subject they're going to speak with and

242

00:11:49,250 --> 00:11:46,620

basically use a little psychology on

243

00:11:52,310 --> 00:11:49,260

them as well to build up the reputation

244

00:11:54,470 --> 00:11:52,320

of the machine so it was just quite a

245

00:11:56,750 --> 00:11:54,480

learning experience and some of the

246

00:11:58,389 --> 00:11:56,760

observations I made there was quite a

247

00:12:02,990 --> 00:11:58,399

learning experience and I definitely

248

00:12:06,410 --> 00:12:03,000

came away with a better understanding of

249

00:12:10,670 --> 00:12:06,420

what it was and what it wasn't

250

00:12:13,790 --> 00:12:10,680

great so Ron you're folklores I knew you

251
00:12:17,150 --> 00:12:13,800
wrote a book about lake monsters or you

252
00:12:20,210 --> 00:12:17,160
know what what are your thoughts on lake

253
00:12:22,190 --> 00:12:20,220
monsters I mean you know we've got one

254
00:12:25,790 --> 00:12:22,200
semi-famous one here in Pennsylvania

255
00:12:27,410 --> 00:12:25,800
with Raystown Ray but overall what are

256
00:12:29,750 --> 00:12:27,420
your thoughts on this

257
00:12:31,190 --> 00:12:29,760
right

258
00:12:33,670 --> 00:12:31,200
well I mean think it's it's very

259
00:12:36,650 --> 00:12:33,680
intriguing uh one of your uh your uh

260
00:12:38,750 --> 00:12:36,660
listeners said that lake monsters act

261
00:12:40,790 --> 00:12:38,760
kind of like a gateway drug onto other

262
00:12:42,769 --> 00:12:40,800
Cryptids you know I think there is truth

263
00:12:45,050 --> 00:12:42,779

to that because I first became

264

00:12:47,690 --> 00:12:45,060

interested in these kind of strange

265

00:12:49,610 --> 00:12:47,700

unusual animals uh from in search of you

266

00:12:52,129 --> 00:12:49,620

know whenever you know as soon as you

267

00:12:53,210 --> 00:12:52,139

see that surgeon's photo you immediately

268

00:12:55,190 --> 00:12:53,220

are drawn into it it's like the

269

00:12:56,930 --> 00:12:55,200

Patterson Ghiblin film you immediately

270

00:12:59,269 --> 00:12:56,940

want to know as much as you can about it

271

00:13:01,190 --> 00:12:59,279

and um I was uh whenever I was a

272

00:13:02,990 --> 00:13:01,200

graduate school I was studying history

273

00:13:04,850 --> 00:13:03,000

it so happened I was studying in

274

00:13:07,009 --> 00:13:04,860

Sterling Scotland which is a hop skip

275

00:13:08,509 --> 00:13:07,019

and a jump from block now I said I have

276

00:13:11,629 --> 00:13:08,519

to get there I have to get the Loch Ness

277

00:13:12,769 --> 00:13:11,639

so I was able to take a tour of the of

278

00:13:14,090 --> 00:13:12,779

the lake

279

00:13:17,090 --> 00:13:14,100

um but it's it's really fascinating

280

00:13:20,569 --> 00:13:17,100

because so much of the world nowadays is

281

00:13:22,670 --> 00:13:20,579

very domesticated so walk Ness is a huge

282

00:13:25,069 --> 00:13:22,680

body of water but all the water that's

283

00:13:27,290 --> 00:13:25,079

feeding into it is pretty well tamed at

284

00:13:29,509 --> 00:13:27,300

this point the access to the ocean is

285

00:13:31,550 --> 00:13:29,519

now part of the Caledonian Canal so it's

286

00:13:33,530 --> 00:13:31,560

very it difficult for things to get

287

00:13:36,889 --> 00:13:33,540

there as a historian

288

00:13:39,230 --> 00:13:36,899

I like to look at the way people look at

289

00:13:41,090 --> 00:13:39,240

things in the past to see if somehow as

290

00:13:43,550 --> 00:13:41,100

Shakespeare would say

291

00:13:45,710 --> 00:13:43,560

if the past is prologue if it still

292

00:13:47,329 --> 00:13:45,720

makes sense to this very day

293

00:13:48,829 --> 00:13:47,339

um so I just became interested in all

294

00:13:51,050 --> 00:13:48,839

these lake monsters because what is so

295

00:13:53,389 --> 00:13:51,060

interesting is when we talk about Loch

296

00:13:55,850 --> 00:13:53,399

Ness where we talk about the great lakes

297

00:13:57,470 --> 00:13:55,860

or even Lake Champlain all these Lakes

298

00:14:00,350 --> 00:13:57,480

were made right around the same time

299

00:14:02,690 --> 00:14:00,360

about 14 000 years ago at the end of the

300

00:14:05,030 --> 00:14:02,700

last ice age so there's there's

301
00:14:06,710 --> 00:14:05,040
something to be said about that right so

302
00:14:08,690 --> 00:14:06,720
if we are looking at something we have

303
00:14:10,430 --> 00:14:08,700
to look at a commonality and there is

304
00:14:13,850 --> 00:14:10,440
indeed a comma not only among not only

305
00:14:16,069 --> 00:14:13,860
Lake bronzers but even the uh the uh the

306
00:14:17,509 --> 00:14:16,079
longitude and latitude in which these

307
00:14:18,910 --> 00:14:17,519
Lakes happen reside there's something

308
00:14:21,650 --> 00:14:18,920
going on

309
00:14:23,030 --> 00:14:21,660
geologically and geographically about

310
00:14:25,490 --> 00:14:23,040
these things and it starts kind of

311
00:14:27,110 --> 00:14:25,500
making sense after a while

312
00:14:29,629 --> 00:14:27,120
hmm

313
00:14:32,150 --> 00:14:29,639

so Kenny what are your thoughts on these

314

00:14:34,310 --> 00:14:32,160

aquatic cryptage

315

00:14:38,090 --> 00:14:34,320

well it's funny because a lot of people

316

00:14:40,069 --> 00:14:38,100

who I talk to and and know me see me

317

00:14:41,269 --> 00:14:40,079

kind of as like a Bigfoot guy but in

318

00:14:45,170 --> 00:14:41,279

reality

319

00:14:47,870 --> 00:14:45,180

um My First Love was champ uh being a

320

00:14:49,430 --> 00:14:47,880

big lover of Godzilla and about four

321

00:14:51,230 --> 00:14:49,440

when I was about four years old I had

322

00:14:53,090 --> 00:14:51,240

somebody say to me when I was living in

323

00:14:55,910 --> 00:14:53,100

Northern Vermont that Godzilla lived in

324

00:14:57,530 --> 00:14:55,920

Lake Champlain and that kind of that's

325

00:14:59,689 --> 00:14:57,540

kind of when I kind of went from like

326

00:15:02,090 --> 00:14:59,699

the Godzilla King Kong Incredible Hulk

327

00:15:04,129 --> 00:15:02,100

okay well you know it's just on TV too

328

00:15:06,829 --> 00:15:04,139

hey there might be something real you

329

00:15:08,930 --> 00:15:06,839

know about what's going on here so I

330

00:15:11,329 --> 00:15:08,940

mean you know out of all the Cryptids

331

00:15:13,490 --> 00:15:11,339

you know that that people uh talk about

332

00:15:15,530 --> 00:15:13,500

and sightings all across the world I

333

00:15:17,689 --> 00:15:15,540

mean something that would be

334

00:15:20,449 --> 00:15:17,699

I I'd say maybe

335

00:15:21,769 --> 00:15:20,459

more more relevant I don't even want to

336

00:15:24,650 --> 00:15:21,779

use the word relevant but something that

337

00:15:25,970 --> 00:15:24,660

I could see being more realistic is

338

00:15:27,710 --> 00:15:25,980

something that's living in the water

339

00:15:30,410 --> 00:15:27,720

that's that's that's down underneath

340

00:15:32,449 --> 00:15:30,420

that that borrows its way down I mean

341

00:15:35,329 --> 00:15:32,459

and you know kind of like what when Ron

342

00:15:38,150 --> 00:15:35,339

was talking earlier today or earlier a

343

00:15:42,769 --> 00:15:38,160

few minutes ago about just um

344

00:15:44,389 --> 00:15:42,779

the just the the magnitude of um you

345

00:15:45,829 --> 00:15:44,399

know years and years and thousands of

346

00:15:47,629 --> 00:15:45,839

years of people seeing different

347

00:15:48,889 --> 00:15:47,639

different creatures in the water not

348

00:15:50,689 --> 00:15:48,899

being able to understand what they are

349

00:15:52,790 --> 00:15:50,699

in a lot of bodies of water that are

350

00:15:55,009 --> 00:15:52,800

separated now at one point in time

351
00:15:56,750 --> 00:15:55,019
actually being connected

352
00:15:58,850 --> 00:15:56,760
um like with Lake Champlain that used to

353
00:16:01,670 --> 00:15:58,860
be part of the Atlantic Ocean you know

354
00:16:03,410 --> 00:16:01,680
and you know and then um the mile high

355
00:16:07,129 --> 00:16:03,420
glaciers came in there was a separation

356
00:16:09,230 --> 00:16:07,139
now it's a freshwater lake so you know

357
00:16:11,449 --> 00:16:09,240
you know there's there's speculation

358
00:16:12,530 --> 00:16:11,459
that you know something got trapped in

359
00:16:15,170 --> 00:16:12,540
it and

360
00:16:17,030 --> 00:16:15,180
um it no longer exists now but there

361
00:16:19,069 --> 00:16:17,040
were sightings and now people are are

362
00:16:20,750 --> 00:16:19,079
seeing things but yeah I

363
00:16:22,610 --> 00:16:20,760

I don't know about that um you know a

364

00:16:24,410 --> 00:16:22,620

lot of people talk about you know the

365

00:16:26,329 --> 00:16:24,420

large sturgeons that are in Lake

366

00:16:29,090 --> 00:16:26,339

Champlain and that that's you know what

367

00:16:31,069 --> 00:16:29,100

a lot of people are seeing but I don't I

368

00:16:33,110 --> 00:16:31,079

don't know um there's a lot of credible

369

00:16:34,790 --> 00:16:33,120

people that still to this day are are

370

00:16:36,889 --> 00:16:34,800

claiming sightings

371

00:16:40,009 --> 00:16:36,899

um I I like we mentioned I live in New

372

00:16:42,230 --> 00:16:40,019

York now and Lake George is a smaller

373

00:16:44,389 --> 00:16:42,240

Lake that's just um north of like Albany

374

00:16:46,670 --> 00:16:44,399

New York and there was a there was a

375

00:16:48,769 --> 00:16:46,680

hoax of uh lake monster

376

00:16:51,110 --> 00:16:48,779

um they called her Georgie

377

00:16:52,850 --> 00:16:51,120

um and it turned out to be a hoax it

378

00:16:54,350 --> 00:16:52,860

wasn't real but yet there's still people

379

00:16:56,870 --> 00:16:54,360

coming in from out of state that had

380

00:16:58,850 --> 00:16:56,880

never heard of such a creature that

381

00:17:01,009 --> 00:16:58,860

still to this day are reported exciting

382

00:17:03,530 --> 00:17:01,019

so I I don't know I mean it's it's it's

383

00:17:05,030 --> 00:17:03,540

definitely definitely plausible even in

384

00:17:06,409 --> 00:17:05,040

these smaller bodies of water that

385

00:17:08,449 --> 00:17:06,419

something does exist something's

386

00:17:16,370 --> 00:17:08,459

burrowing down underneath and hiding and

387

00:17:21,169 --> 00:17:19,429

yeah so it's interesting because even

388

00:17:23,929 --> 00:17:21,179

even though it was hoax people were

389

00:17:26,929 --> 00:17:23,939

still drawn to it weren't they there's a

390

00:17:28,309 --> 00:17:26,939

belief and a plausibility whenever you

391

00:17:30,169 --> 00:17:28,319

deal with bodies of water the same way

392

00:17:33,890 --> 00:17:30,179

Juan said at the very beginning you know

393

00:17:36,169 --> 00:17:33,900

in Pennsylvania we have Raystown Lake

394

00:17:38,090 --> 00:17:36,179

and raise time reside in there the whole

395

00:17:40,789 --> 00:17:38,100

problem is though it's a man-made lake

396

00:17:43,010 --> 00:17:40,799

so it wasn't like connected to anything

397

00:17:45,890 --> 00:17:43,020

you know this man-made like but people

398

00:17:48,409 --> 00:17:45,900

still believe it simply because

399

00:17:50,210 --> 00:17:48,419

fuzz its water could be lurking down

400

00:17:52,190 --> 00:17:50,220

there like you said Kenny like what

401
00:17:54,770 --> 00:17:52,200
could be burrowed in the depths of this

402
00:17:56,570 --> 00:17:54,780
place that we simply do not know so

403
00:17:58,789 --> 00:17:56,580
there's that that plausibility

404
00:18:01,130 --> 00:17:58,799
throughout this entire thing we talk

405
00:18:03,289 --> 00:18:01,140
about this for instance I got interested

406
00:18:05,390 --> 00:18:03,299
in in the Great Lake sponsors what led

407
00:18:08,270 --> 00:18:05,400
me to write a book is that I was invited

408
00:18:10,310 --> 00:18:08,280
to uh the American Abdul Saint Marie and

409
00:18:13,010 --> 00:18:10,320
I was on a panel with Linda Godfrey and

410
00:18:15,650 --> 00:18:13,020
Lauren Coleman and I started to hear a

411
00:18:17,090 --> 00:18:15,660
lot of Native American reports of hey

412
00:18:19,010 --> 00:18:17,100
did you hear about this story that

413
00:18:20,630 --> 00:18:19,020

happened in this Lake and I started to

414

00:18:23,210 --> 00:18:20,640

compile all these things again like you

415

00:18:25,909 --> 00:18:23,220

had said for you know a thousand years

416

00:18:27,830 --> 00:18:25,919

people have had these stories about

417

00:18:29,690 --> 00:18:27,840

something that looks very similar to

418

00:18:32,150 --> 00:18:29,700

what we would call the one that's

419

00:18:34,549 --> 00:18:32,160

monster or Lake Champlain it's part of

420

00:18:37,070 --> 00:18:34,559

our humanity and it seems to be really

421

00:18:39,529 --> 00:18:37,080

connected to these lakes that formed

422

00:18:43,610 --> 00:18:39,539

about 14 000 years ago

423

00:18:48,650 --> 00:18:46,730

is that okay sure okay

424

00:18:54,409 --> 00:18:48,660

um can we pull up that picture of the

425

00:18:56,150 --> 00:18:54,419

1972 flipper photo I sent it to him

426

00:18:57,230 --> 00:18:56,160

yeah I think Vincent will get it up

427

00:19:00,289 --> 00:18:57,240

there I know which one you're talking

428

00:19:02,150 --> 00:19:00,299

about yeah and everything like that I

429

00:19:05,590 --> 00:19:02,160

mean do you think that's a compelling

430

00:19:09,590 --> 00:19:05,600

picture I mean please

431

00:19:12,049 --> 00:19:09,600

no I believe that Nessie is our

432

00:19:14,390 --> 00:19:12,059

sightings of either Wells catfish or

433

00:19:16,669 --> 00:19:14,400

sturgeon like Adrian shine had said that

434

00:19:18,770 --> 00:19:16,679

they he believes they migrate in and out

435

00:19:20,390 --> 00:19:18,780

of the lock and that would make sense

436

00:19:22,909 --> 00:19:20,400

I've looked at some of the sonar hits

437

00:19:25,250 --> 00:19:22,919

and stuff and when you ever see the the

438

00:19:27,230 --> 00:19:25,260

uh like the large reading it's always

439

00:19:29,690 --> 00:19:27,240

around spawning fish

440

00:19:31,370 --> 00:19:29,700

you know I mean in Pennsylvania like

441

00:19:33,350 --> 00:19:31,380

places I've been like tinicum and stuff

442

00:19:35,090 --> 00:19:33,360

like that you'll see like when minnows

443

00:19:37,669 --> 00:19:35,100

are spawning itself I mean hundreds of

444

00:19:39,169 --> 00:19:37,679

thousands of them huge Channel Cats will

445

00:19:41,150 --> 00:19:39,179

just swim in there and just swim around

446

00:19:43,070 --> 00:19:41,160

with their mouths open like a whale

447

00:19:45,230 --> 00:19:43,080

shark or a whale female Plankton and

448

00:19:46,850 --> 00:19:45,240

Gorge themselves you know and it would

449

00:19:49,549 --> 00:19:46,860

make sense of a big Predator like a

450

00:19:51,230 --> 00:19:49,559

Wells or a sturgeon would want an easy

451
00:19:53,090 --> 00:19:51,240
meal like that you know these smaller

452
00:19:54,049 --> 00:19:53,100
fish with what's in there I uh I don't

453
00:19:55,669 --> 00:19:54,059
have to listen front of you but there's

454
00:19:57,230 --> 00:19:55,679
like trout and all sorts of other stuff

455
00:19:59,630 --> 00:19:57,240
like that that they would be so busy

456
00:20:01,130 --> 00:19:59,640
into reproduction that the Predator can

457
00:20:02,690 --> 00:20:01,140
just come in and Gorge yourself but that

458
00:20:10,330 --> 00:20:02,700
we need the actual The Flipper one

459
00:20:10,340 --> 00:20:16,490
the upper left

460
00:20:16,500 --> 00:20:24,549
that one there yeah no one the other way

461
00:20:29,150 --> 00:20:27,289
so now this is actually inverted 180

462
00:20:32,090 --> 00:20:29,160
degrees which apparently Darren Nash

463
00:20:33,890 --> 00:20:32,100

said the original was so this is how it

464

00:20:37,310 --> 00:20:33,900

originally was filmed and if you look at

465

00:20:39,169 --> 00:20:37,320

the UN touch retouched one at the bottom

466

00:20:42,230 --> 00:20:39,179

which is the real photo and not this one

467

00:20:44,330 --> 00:20:42,240

that was altered to me this looks like

468

00:20:46,430 --> 00:20:44,340

you see that Ridge curling there with

469

00:20:49,909 --> 00:20:46,440

the shading under it that to me looks

470

00:20:52,669 --> 00:20:49,919

like the flank of a sturgeon it does see

471

00:20:54,650 --> 00:20:52,679

it has that curving body it has The

472

00:20:56,990 --> 00:20:54,660

Ridges there the dermal scoots on there

473

00:20:58,669 --> 00:20:57,000

and possibly even a fin if you see it on

474

00:20:59,990 --> 00:20:58,679

the bottom right there now if he pulls

475

00:21:01,190 --> 00:21:00,000

up the sturgeon photo which is right

476

00:21:02,390 --> 00:21:01,200

next to it

477

00:21:05,570 --> 00:21:02,400

I don't know if you can get both at the

478

00:21:07,070 --> 00:21:05,580

same time you see that so to me I think

479

00:21:09,950 --> 00:21:07,080

what they filmed was a sturgeon and they

480

00:21:12,169 --> 00:21:09,960

said that this reading was like two 2.4

481

00:21:14,630 --> 00:21:12,179

meters something like that which is an

482

00:21:16,010 --> 00:21:14,640

average size sturgeon you know so I

483

00:21:17,450 --> 00:21:16,020

don't think it was a flipper but I think

484

00:21:19,250 --> 00:21:17,460

it was something organic and I think

485

00:21:21,110 --> 00:21:19,260

that's what it was I'm just curious what

486

00:21:23,330 --> 00:21:21,120

everybody else thinks

487

00:21:26,690 --> 00:21:23,340

well it was from what I've understood

488

00:21:28,490 --> 00:21:26,700

too it was it was very common for a seal

489

00:21:31,250 --> 00:21:28,500

or two to get into

490

00:21:34,310 --> 00:21:31,260

the uh the lock as well from through the

491

00:21:36,230 --> 00:21:34,320

Caledonian canal and sometimes with

492

00:21:38,510 --> 00:21:36,240

their thought is some of that the

493

00:21:41,750 --> 00:21:38,520

undulation people see sometimes as maybe

494

00:21:44,090 --> 00:21:41,760

a seal that gets through but I myself uh

495

00:21:46,549 --> 00:21:44,100

you know do subscribe I I went away

496

00:21:48,890 --> 00:21:46,559

thinking it was probably likely a

497

00:21:50,570 --> 00:21:48,900

sturgeon myself

498

00:21:53,330 --> 00:21:50,580

um and the other thing too is there is

499

00:21:55,430 --> 00:21:53,340

so much uh you know the one thing that

500

00:21:58,010 --> 00:21:55,440

that Lake gets is easterly winds and

501
00:21:59,390 --> 00:21:58,020
Westerly winds I mean that's why you

502
00:22:02,330 --> 00:21:59,400
know you can start off the day at 40

503
00:22:04,909 --> 00:22:02,340
degrees by midday at 75 an hour later

504
00:22:07,730 --> 00:22:04,919
it's down to 40 again an hour and a half

505
00:22:10,190 --> 00:22:07,740
later it's up to 65 the wet it's really

506
00:22:12,110 --> 00:22:10,200
some real weird weather but what that

507
00:22:15,890 --> 00:22:12,120
does is it causes some strange Ripple

508
00:22:18,049 --> 00:22:15,900
effects on that lock so and the debris

509
00:22:20,750 --> 00:22:18,059
you know can give the appearance I

510
00:22:23,210 --> 00:22:20,760
actually took some picture of debris

511
00:22:25,070 --> 00:22:23,220
just going by though I mean I happen to

512
00:22:28,430 --> 00:22:25,080
have the pleasure of staying right there

513
00:22:30,230 --> 00:22:28,440

on the lock at elderly castle and so I

514

00:22:31,549 --> 00:22:30,240

had a view of that Lake even when I

515

00:22:34,130 --> 00:22:31,559

wasn't on the boat

516

00:22:36,890 --> 00:22:34,140

and you would see things floating down

517

00:22:38,630 --> 00:22:36,900

the you know through the lock back and

518

00:22:42,409 --> 00:22:38,640

forth and you would think that it was

519

00:22:44,990 --> 00:22:42,419

something other than debris so very very

520

00:22:47,090 --> 00:22:45,000

fascinating stuff

521

00:22:49,010 --> 00:22:47,100

and my only point is is that if somebody

522

00:22:51,110 --> 00:22:49,020

is not familiar say they're they're

523

00:22:52,310 --> 00:22:51,120

driving along the roads along the lock

524

00:22:54,830 --> 00:22:52,320

because that's where a lot of the

525

00:22:56,750 --> 00:22:54,840

sightings happen you know if you're not

526

00:22:58,370 --> 00:22:56,760

used to seeing that kind of stuff on the

527

00:23:01,970 --> 00:22:58,380

lot you could be driving along and say

528

00:23:06,230 --> 00:23:03,649

I think there's there's so many of the

529

00:23:09,529 --> 00:23:06,240

historical sightings though that scream

530

00:23:11,450 --> 00:23:09,539

Wells catfish to me I mean like like the

531

00:23:13,370 --> 00:23:11,460

very first one you remember where this

532

00:23:15,409 --> 00:23:13,380

thing dragged somebody under and then a

533

00:23:17,029 --> 00:23:15,419

priest it was coming back and a priest

534

00:23:18,890 --> 00:23:17,039

told it to go away or whatever and all

535

00:23:20,110 --> 00:23:18,900

that I mean this is going back hundreds

536

00:23:23,570 --> 00:23:20,120

of years ago

537

00:23:26,390 --> 00:23:23,580

yeah so Jeremy Wade did us uh Colombia

538

00:23:27,950 --> 00:23:26,400

specials on Wells catfish and these

539

00:23:29,690 --> 00:23:27,960

girls had been attacked by a Wells

540

00:23:31,850 --> 00:23:29,700

because they were swimming near their

541

00:23:33,169 --> 00:23:31,860

where their nest was their eggs after

542

00:23:34,909 --> 00:23:33,179

they you know they protect their eggs

543

00:23:36,770 --> 00:23:34,919

and they grab the Girl by the leg and

544

00:23:38,750 --> 00:23:36,780

they yanked her under you know they had

545

00:23:40,549 --> 00:23:38,760

a big mouth and they don't have much you

546

00:23:41,930 --> 00:23:40,559

know your teeth but they bruise and pull

547

00:23:42,830 --> 00:23:41,940

you know if something big grabs you and

548

00:23:44,930 --> 00:23:42,840

pulls you under the water you're gonna

549

00:23:47,510 --> 00:23:44,940

be terrified and that sounds to me like

550

00:23:49,730 --> 00:23:47,520

a Wells protecting its nesting site from

551
00:23:52,070 --> 00:23:49,740
somebody's coming by you know I mean

552
00:23:54,289 --> 00:23:52,080
over people uh they saw one on the shore

553
00:23:56,510 --> 00:23:54,299
Nessie it was like two meters long it

554
00:23:58,669 --> 00:23:56,520
had antennas which would be whiskers

555
00:24:00,950 --> 00:23:58,679
okay and then it flopped around and it

556
00:24:02,990 --> 00:24:00,960
went back in the water and I mean so

557
00:24:05,029 --> 00:24:03,000
many of these site things sound like

558
00:24:07,730 --> 00:24:05,039
Wells catfish which are stocked all over

559
00:24:11,149 --> 00:24:07,740
Europe I mean my friend's son catches

560
00:24:13,190 --> 00:24:11,159
six Footers in England all the time

561
00:24:14,930 --> 00:24:13,200
I didn't even know they were I didn't

562
00:24:16,810 --> 00:24:14,940
even know they were in Loch Ness be

563
00:24:18,649 --> 00:24:16,820

quite honest with you I didn't know

564

00:24:19,330 --> 00:24:18,659

there's no proof that they're in there

565

00:24:21,710 --> 00:24:19,340

yet

566

00:24:23,870 --> 00:24:21,720

Adrian shine has said he believes that

567

00:24:26,029 --> 00:24:23,880

the big ones come in their you know

568

00:24:27,289 --> 00:24:26,039

migrate in and out of the lock okay and

569

00:24:29,930 --> 00:24:27,299

I'm saying because they're all over the

570

00:24:32,029 --> 00:24:29,940

UK it why wouldn't they be in Loch Ness

571

00:24:34,730 --> 00:24:32,039

and I mean you're when it comes to sonar

572

00:24:37,070 --> 00:24:34,740

these fish except at night they like to

573

00:24:38,270 --> 00:24:37,080

hide under logs on overhangs and stuff

574

00:24:40,130 --> 00:24:38,280

like that you're not even going to see

575

00:24:42,470 --> 00:24:40,140

them on Sonar they just sit there and

576

00:24:45,110 --> 00:24:42,480

chill you know that's what they do but

577

00:24:46,850 --> 00:24:45,120

well these these these things that show

578

00:24:50,270 --> 00:24:46,860

up where they're not supposed to show up

579

00:24:52,070 --> 00:24:50,280

I mean nothing tells these you know um

580

00:24:53,210 --> 00:24:52,080

different things that hey you know what

581

00:24:55,070 --> 00:24:53,220

you're not supposed to be here you're

582

00:24:56,630 --> 00:24:55,080

not supposed to be there they find a way

583

00:24:58,730 --> 00:24:56,640

they they just kind of follow it through

584

00:25:00,649 --> 00:24:58,740

like like Steve I don't know if you

585

00:25:02,990 --> 00:25:00,659

remember this but I saw something where

586

00:25:04,310 --> 00:25:03,000

like there was a big piece of ice or

587

00:25:06,289 --> 00:25:04,320

something going down like the Hudson

588

00:25:07,390 --> 00:25:06,299

river near New York and there was a seal

589

00:25:10,970 --> 00:25:07,400

on it

590

00:25:12,950 --> 00:25:10,980

do you remember that wow yeah yeah yeah

591

00:25:14,990 --> 00:25:12,960

and I mean that was only like five six

592

00:25:16,430 --> 00:25:15,000

years ago I think so it's like nobody's

593

00:25:17,750 --> 00:25:16,440

telling you know these creatures hey you

594

00:25:19,490 --> 00:25:17,760

know what you're not supposed to be here

595

00:25:21,350 --> 00:25:19,500

so you know they're they're just kind of

596

00:25:22,549 --> 00:25:21,360

making their way through and and I I do

597

00:25:24,110 --> 00:25:22,559

think that you know there's there's a

598

00:25:26,510 --> 00:25:24,120

lot of misidentifications and there's

599

00:25:29,210 --> 00:25:26,520

things that people see that they're not

600

00:25:31,490 --> 00:25:29,220

used to seeing and they they believe it

601
00:25:33,470 --> 00:25:31,500
to be this or that um but like I said

602
00:25:35,450 --> 00:25:33,480
you know the a seal going down the

603
00:25:36,950 --> 00:25:35,460
Hudson River in New York I mean that

604
00:25:39,789 --> 00:25:36,960
shouldn't happen but you know nobody

605
00:25:42,350 --> 00:25:39,799
told to seal that so yeah

606
00:25:44,450 --> 00:25:42,360
beluga whale in the Delaware River a few

607
00:25:46,789 --> 00:25:44,460
years ago absolutely they had made a

608
00:25:48,590 --> 00:25:46,799
seal drop by uh underneath the railroad

609
00:25:51,409 --> 00:25:48,600
bridge just north of the Dunn Memorial

610
00:25:53,810 --> 00:25:51,419
Bridge uh and he was hanging out there

611
00:25:56,029 --> 00:25:53,820
and got quite a gathering of all the

612
00:25:58,310 --> 00:25:56,039
Albany people all the Albany citizens

613
00:26:00,710 --> 00:25:58,320

because when do you get to see a seal

614

00:26:02,510 --> 00:26:00,720

well you know not not only that like you

615

00:26:04,850 --> 00:26:02,520

know I know this is it obviously isn't

616

00:26:07,370 --> 00:26:04,860

an aquatic creature but two years ago

617

00:26:09,230 --> 00:26:07,380

running down Main Street in uh Albany

618

00:26:11,630 --> 00:26:09,240

there was a there was a bear so I mean

619

00:26:14,029 --> 00:26:11,640

again nobody you know the these animals

620

00:26:15,769 --> 00:26:14,039

don't know to not not go to these areas

621

00:26:17,029 --> 00:26:15,779

obviously nobody was like oh look

622

00:26:18,470 --> 00:26:17,039

there's a Bigfoot running around in

623

00:26:20,510 --> 00:26:18,480

Albany you know there was like this

624

00:26:21,409 --> 00:26:20,520

identification but

625

00:26:23,450 --> 00:26:21,419

um you know

626

00:26:25,010 --> 00:26:23,460

very well you know sometimes I think

627

00:26:26,390 --> 00:26:25,020

that's where some of these these things

628

00:26:27,950 --> 00:26:26,400

come from is again something being

629

00:26:30,409 --> 00:26:27,960

somewhere where it's not supposed to be

630

00:26:32,990 --> 00:26:30,419

but something that is legit

631

00:26:34,490 --> 00:26:33,000

especially I used to live down in

632

00:26:36,289 --> 00:26:34,500

Maryland and I'm down I'm down on the

633

00:26:38,149 --> 00:26:36,299

buy a lot and all the stuff it drips in

634

00:26:42,230 --> 00:26:38,159

that buy I mean we've had Manatee come

635

00:26:45,110 --> 00:26:42,240

in there belugas uh huge makos come in

636

00:26:46,970 --> 00:26:45,120

there so yeah absolutely I mean these

637

00:26:48,470 --> 00:26:46,980

things do tend to show up or they're not

638

00:26:52,010 --> 00:26:48,480

supposed to we've even they're even

639

00:26:54,289 --> 00:26:52,020

manatees up in Boston Harbor so uh yeah

640

00:26:56,029 --> 00:26:54,299

these things do get they do get to where

641

00:26:57,830 --> 00:26:56,039

they're not really supposed to be well

642

00:26:59,690 --> 00:26:57,840

you know and as far as like Loch Ness

643

00:27:01,430 --> 00:26:59,700

too you know just like Lake Champlain I

644

00:27:03,169 --> 00:27:01,440

mean at one point in time well I believe

645

00:27:05,510 --> 00:27:03,179

it's it still is but at one point in

646

00:27:07,549 --> 00:27:05,520

time wasn't it wasn't it all like part

647

00:27:10,370 --> 00:27:07,559

of like the ocean as well I could be

648

00:27:12,110 --> 00:27:10,380

wrong but you know a lot you mentioned

649

00:27:13,970 --> 00:27:12,120

you mentioned Lake Champlain I think

650

00:27:16,610 --> 00:27:13,980

they're probably I think the Saint

651
00:27:19,490 --> 00:27:16,620
Lawrence is hooked into Champlain maybe

652
00:27:22,130 --> 00:27:19,500
in aquifers or underneath caverns and

653
00:27:24,529 --> 00:27:22,140
stuff I I think that's entirely possible

654
00:27:27,529 --> 00:27:24,539
yeah yeah I mean the thing is is I

655
00:27:29,690 --> 00:27:27,539
always say when it comes to the earth I

656
00:27:32,210 --> 00:27:29,700
mean we talk about you know the the the

657
00:27:34,789 --> 00:27:32,220
Earth is covered with water except for

658
00:27:36,470 --> 00:27:34,799
where you know land is you know but land

659
00:27:38,930 --> 00:27:36,480
in in my opinion they're just they're

660
00:27:40,549 --> 00:27:38,940
just kind of like little little islands

661
00:27:42,350 --> 00:27:40,559
and there's water underneath it so I

662
00:27:44,630 --> 00:27:42,360
mean everything's somehow connected you

663
00:27:46,490 --> 00:27:44,640

know but obviously you know you've got

664

00:27:47,870 --> 00:27:46,500

like you know fresh water well how does

665

00:27:50,630 --> 00:27:47,880

you know if it's connected to the ocean

666

00:27:52,850 --> 00:27:50,640

how does it you know maintain being

667

00:27:55,549 --> 00:27:52,860

fresh well the Earth does an amazing

668

00:27:59,210 --> 00:27:55,559

filtration on its own

669

00:28:02,210 --> 00:27:59,220

um so but I don't know I again I I just

670

00:28:04,669 --> 00:28:02,220

see you know as land as you know just

671

00:28:06,830 --> 00:28:04,679

little islands and you know with the how

672

00:28:08,269 --> 00:28:06,840

much water is covering the Earth

673

00:28:10,370 --> 00:28:08,279

um it's all connected one way or another

674

00:28:12,590 --> 00:28:10,380

whether it's um you know fresh water

675

00:28:13,810 --> 00:28:12,600

salt water or whatever it's all touching

676

00:28:16,130 --> 00:28:13,820

one way or another

677

00:28:18,830 --> 00:28:16,140

uh just to answer that question Loch

678

00:28:20,390 --> 00:28:18,840

Ness was not uh connected to the

679

00:28:21,890 --> 00:28:20,400

Atlantic Ocean it was actually carved

680

00:28:24,110 --> 00:28:21,900

out by a glacier

681

00:28:25,669 --> 00:28:24,120

okay it wasn't it wasn't connected to

682

00:28:27,590 --> 00:28:25,679

the Atlantic oceans of the Caledonian

683

00:28:30,230 --> 00:28:27,600

Canal was built

684

00:28:32,390 --> 00:28:30,240

um and uh in some places the lock is

685

00:28:35,390 --> 00:28:32,400

actually deeper than the Atlantic Ocean

686

00:28:35,400 --> 00:28:40,610

wasn't it frozen also for a while

687

00:28:47,169 --> 00:28:44,570

I I I can't personally vouch for that

688

00:28:49,909 --> 00:28:47,179

not quite that old yet yeah yeah

689

00:28:52,669 --> 00:28:49,919

the state fossil of Vermont the state

690

00:28:55,190 --> 00:28:52,679

fossil is a beluga well because it was

691

00:28:56,630 --> 00:28:55,200

found on the uh the out the banks of the

692

00:28:58,190 --> 00:28:56,640

Lake Champlain

693

00:28:59,510 --> 00:28:58,200

yeah it was that they were building them

694

00:29:00,769 --> 00:28:59,520

so we do know that it was open to the

695

00:29:03,110 --> 00:29:00,779

ocean

696

00:29:05,210 --> 00:29:03,120

yep yeah so we do know that it was open

697

00:29:07,070 --> 00:29:05,220

to the ocean and also we know around

698

00:29:10,490 --> 00:29:07,080

Loch Ness there have been a plenty of

699

00:29:12,529 --> 00:29:10,500

fossils of aquatic uh animals uh

700

00:29:14,930 --> 00:29:12,539

discovered within the uh within the uh

701
00:29:17,630 --> 00:29:14,940
the shell and The Rock layers around uh

702
00:29:19,730 --> 00:29:17,640
walked us so I again everything was

703
00:29:22,010 --> 00:29:19,740
interconnected at one time and I truly

704
00:29:23,870 --> 00:29:22,020
think as a historian and as a folklorist

705
00:29:26,510 --> 00:29:23,880
I think when we talk about the

706
00:29:29,029 --> 00:29:26,520
similarities in worldwide flood

707
00:29:32,389 --> 00:29:29,039
narratives we're coming pretty close to

708
00:29:34,909 --> 00:29:32,399
this uh as the source in my in my humble

709
00:29:39,110 --> 00:29:34,919
opinion because you know four years ago

710
00:29:41,149 --> 00:29:39,120
what as yesterday in Incline as humans

711
00:29:42,590 --> 00:29:41,159
and so many times we probably would have

712
00:29:44,269 --> 00:29:42,600
been able to watch us our ancestors

713
00:29:45,830 --> 00:29:44,279

would have been able to watch this and

714

00:29:47,990 --> 00:29:45,840

then I'd have been absolutely terrific

715

00:29:49,549 --> 00:29:48,000

whenever that bit of land that was

716

00:29:50,510 --> 00:29:49,559

holding back all the water finally gave

717

00:29:52,490 --> 00:29:50,520

way

718

00:29:55,430 --> 00:29:52,500

it would indeed appears that the world

719

00:29:59,149 --> 00:29:57,169

Ron you're still getting that that

720

00:30:01,310 --> 00:29:59,159

glitch at least on my end where you're

721

00:30:02,690 --> 00:30:01,320

like delayed a little yeah you are a

722

00:30:08,570 --> 00:30:02,700

little bit delayed

723

00:30:12,950 --> 00:30:10,310

um now

724

00:30:16,130 --> 00:30:12,960

and you know I'm going to ask Max to

725

00:30:18,710 --> 00:30:16,140

answer this uh initially but what are

726

00:30:21,409 --> 00:30:18,720

the chances that we that there could

727

00:30:24,590 --> 00:30:21,419

possibly be

728

00:30:29,990 --> 00:30:28,010

uh aquatic cryptids in our oceans even

729

00:30:33,230 --> 00:30:30,000

our Lakes but our oceans more particular

730

00:30:35,630 --> 00:30:33,240

like megalodon or something that was

731

00:30:38,330 --> 00:30:35,640

by the fossil record that was a that was

732

00:30:39,649 --> 00:30:38,340

known to exist at one point that doesn't

733

00:30:42,649 --> 00:30:39,659

know it's supposed to be extinct you

734

00:30:46,730 --> 00:30:42,659

mean yeah that's better I I think that

735

00:30:49,690 --> 00:30:46,740

the chances of unknown or incredibly

736

00:30:53,149 --> 00:30:49,700

large life forms in the ocean is

737

00:30:55,250 --> 00:30:53,159

99.9 I mean you're talking how many

738

00:30:56,510 --> 00:30:55,260

million cubic miles if I had monster

739

00:30:58,130 --> 00:30:56,520

Marine which is in front of me I'd have

740

00:31:00,409 --> 00:30:58,140

that answer to that but millions of

741

00:31:02,570 --> 00:31:00,419

cubic miles of ocean only five percent

742

00:31:04,789 --> 00:31:02,580

of the ocean floor has been explored

743

00:31:06,830 --> 00:31:04,799

that doesn't include the average of 11

744

00:31:08,930 --> 00:31:06,840

000 feet of water above that obviously

745

00:31:10,850 --> 00:31:08,940

in what's in it and all but I mean it

746

00:31:14,330 --> 00:31:10,860

goes on and on I I looked you know

747

00:31:16,490 --> 00:31:14,340

researched gigantic squid mega sharks I

748

00:31:17,930 --> 00:31:16,500

interviewed uh Gary lamotta's friend who

749

00:31:21,169 --> 00:31:17,940

was with him when he saw that 38 foot

750

00:31:22,610 --> 00:31:21,179

total total Turtle I'm sorry I tried to

751

00:31:24,950 --> 00:31:22,620

I was thinking of Nova Scotia at the

752

00:31:27,889 --> 00:31:24,960

same time and all that but um I mean it

753

00:31:30,350 --> 00:31:27,899

goes on and on and on but uh in terms of

754

00:31:33,350 --> 00:31:30,360

the shark thing I don't believe that

755

00:31:35,590 --> 00:31:33,360

Megalodon is still with us because

756

00:31:39,049 --> 00:31:35,600

you would need a breeding population

757

00:31:41,330 --> 00:31:39,059

at least 500 Animals number one and

758

00:31:43,909 --> 00:31:41,340

since my research suggests that the

759

00:31:45,529 --> 00:31:43,919

adults were primarily scavengers you

760

00:31:47,210 --> 00:31:45,539

would be seeing them a lot you'd be

761

00:31:50,450 --> 00:31:47,220

seeing a lot of whale carcasses with big

762

00:31:52,070 --> 00:31:50,460

bites at them Etc but when I did all the

763

00:31:55,610 --> 00:31:52,080

research for the book and even since

764

00:31:58,250 --> 00:31:55,620

then we keep coming up with evidence of

765

00:31:59,990 --> 00:31:58,260

sharks that are impossibly large

766

00:32:01,310 --> 00:32:00,000

compared to how big they're supposed to

767

00:32:03,590 --> 00:32:01,320

be

768

00:32:05,450 --> 00:32:03,600

um I think I documented one two three I

769

00:32:07,549 --> 00:32:05,460

mean in Monster and mystery Marine

770

00:32:09,049 --> 00:32:07,559

Mysteries the biggest one is this one

771

00:32:11,090 --> 00:32:09,059

off of the Galapagos I call it the

772

00:32:13,850 --> 00:32:11,100

Galapagos Giant and marine biologist

773

00:32:16,610 --> 00:32:13,860

Simon Pierce photographed a 40-foot

774

00:32:18,649 --> 00:32:16,620

whale shark and on its left total flank

775

00:32:21,230 --> 00:32:18,659

in the back there it had a bite scar

776

00:32:23,930 --> 00:32:21,240

four feet across with two through still

777

00:32:26,029 --> 00:32:23,940

visible from a shark which suggests a

778

00:32:27,950 --> 00:32:26,039

shark about the same size as the whale

779

00:32:29,630 --> 00:32:27,960

shark there were all different ones that

780

00:32:31,190 --> 00:32:29,640

I did the number crunching on and

781

00:32:33,590 --> 00:32:31,200

research and all this stuff and then

782

00:32:36,289 --> 00:32:33,600

since then more and more has been coming

783

00:32:38,750 --> 00:32:36,299

up a photographer I think it was in 2019

784

00:32:41,630 --> 00:32:38,760

he photographed an 11 foot great white

785

00:32:44,389 --> 00:32:41,640

with a 30 inch bite scar on its flank

786

00:32:47,630 --> 00:32:44,399

which again is much bigger than they're

787

00:32:49,070 --> 00:32:47,640

supposed to be and most recently I would

788

00:32:50,870 --> 00:32:49,080

like I was mentioning before when we did

789

00:32:53,330 --> 00:32:50,880

this documentary we got a whale carcass

790

00:32:55,190 --> 00:32:53,340

with yard wide bites taken out of it so

791

00:32:57,470 --> 00:32:55,200

I believe that and even the Discovery

792

00:32:59,090 --> 00:32:57,480

Channel mentioned is they think that

793

00:33:00,529 --> 00:32:59,100

Marine bioters are saying that white

794

00:33:02,090 --> 00:33:00,539

sharks occasionally suffer from

795

00:33:04,549 --> 00:33:02,100

gigantism

796

00:33:06,289 --> 00:33:04,559

and in which case they could be twice

797

00:33:08,210 --> 00:33:06,299

the length potentially that they're

798

00:33:10,970 --> 00:33:08,220

supposed to get which makes sense I mean

799

00:33:12,169 --> 00:33:10,980

I've caught insects that are two two and

800

00:33:14,750 --> 00:33:12,179

a half times as big as they're supposed

801
00:33:16,070 --> 00:33:14,760
to be there are American toads that are

802
00:33:17,470 --> 00:33:16,080
supposed to only grow four inches that

803
00:33:20,149 --> 00:33:17,480
grow eight inches in length sometimes

804
00:33:22,009 --> 00:33:20,159
gigantism exists and if that was the

805
00:33:23,750 --> 00:33:22,019
case then you got to figure that number

806
00:33:26,509 --> 00:33:23,760
one you don't need a breeding population

807
00:33:28,310 --> 00:33:26,519
anymore it just pops up here and there

808
00:33:31,430 --> 00:33:28,320
which explains why they're rarely seen

809
00:33:33,529 --> 00:33:31,440
it also means that that those genetics

810
00:33:36,649 --> 00:33:33,539
are not going to be passed on easily

811
00:33:37,730 --> 00:33:36,659
because of a female white shark is 40

812
00:33:40,549 --> 00:33:37,740
feet long

813
00:33:43,970 --> 00:33:40,559

and a 16-foot male comes up and tries to

814

00:33:45,830 --> 00:33:43,980

romance her he's going to be a snack

815

00:33:48,529 --> 00:33:45,840

you see what I'm saying and if it was

816

00:33:49,850 --> 00:33:48,539

reversed if it was a 35-foot male and

817

00:33:51,350 --> 00:33:49,860

something like that and trying to

818

00:33:52,610 --> 00:33:51,360

approach an 18-foot female she's going

819

00:33:55,009 --> 00:33:52,620

to run for her life

820

00:33:57,110 --> 00:33:55,019

see so I mean that's the only thing that

821

00:33:58,669 --> 00:33:57,120

makes sense the tooth puncture seemed to

822

00:34:00,409 --> 00:33:58,679

indicate white shark from what we've

823

00:34:01,970 --> 00:34:00,419

looked at and stuff and it just they

824

00:34:04,070 --> 00:34:01,980

just keep popping up though there's got

825

00:34:06,289 --> 00:34:04,080

to be at least five of these animals

826

00:34:07,909 --> 00:34:06,299

alive right now that are much bigger

827

00:34:14,349 --> 00:34:07,919

than 20 or 23 feet

828

00:34:18,169 --> 00:34:17,089

if you want to see them by the way I can

829

00:34:20,089 --> 00:34:18,179

start whipping out all sorts of

830

00:34:22,909 --> 00:34:20,099

Megalodon teeth Mega ancestor teeth

831

00:34:24,770 --> 00:34:22,919

white shark teeth I I got the ribs the

832

00:34:26,510 --> 00:34:24,780

fossils the tooth marks the Munch marks

833

00:34:27,889 --> 00:34:26,520

you name it though there's a giant

834

00:34:32,349 --> 00:34:27,899

display case right over there filled

835

00:34:37,790 --> 00:34:34,609

anybody else got any thoughts on that or

836

00:34:40,849 --> 00:34:37,800

if are these uh I mean are we

837

00:34:43,310 --> 00:34:40,859

it's possible that the these these

838

00:34:45,770 --> 00:34:43,320

creatures are coming from another period

839

00:34:47,810 --> 00:34:45,780

of time or still around and you know are

840

00:34:50,089 --> 00:34:47,820

still inhabiting our oceans well you

841

00:34:52,550 --> 00:34:50,099

know that reminds me of that that movie

842

00:34:55,070 --> 00:34:52,560

um I think it was called the Meg have

843

00:34:56,570 --> 00:34:55,080

you guys seen that movie where um they

844

00:34:58,730 --> 00:34:56,580

think they're actually at the bottom of

845

00:34:59,930 --> 00:34:58,740

the ocean they're furthest down but then

846

00:35:01,849 --> 00:34:59,940

they realize that there's actually

847

00:35:04,910 --> 00:35:01,859

another layer there and that's when they

848

00:35:06,890 --> 00:35:04,920

go down and they they come across and uh

849

00:35:08,870 --> 00:35:06,900

there's all kinds of creatures that

850

00:35:11,030 --> 00:35:08,880

they've they've never seen and then when

851
00:35:13,190 --> 00:35:11,040
they they they go back up through there

852
00:35:16,069 --> 00:35:13,200
I guess that's when one of the the large

853
00:35:17,690 --> 00:35:16,079
sharks follows them up through so it's

854
00:35:19,370 --> 00:35:17,700
funny because since that movie's come

855
00:35:21,050 --> 00:35:19,380
out and I've watched it I've had like

856
00:35:22,790 --> 00:35:21,060
many people say Hey you know do you

857
00:35:24,349 --> 00:35:22,800
think that you know and and some of them

858
00:35:25,849 --> 00:35:24,359
are you know conspiracy theory people

859
00:35:28,190 --> 00:35:25,859
you know hey you know do you think you

860
00:35:29,510 --> 00:35:28,200
know this is why this happened this and

861
00:35:31,130 --> 00:35:29,520
that and that's why you see certain

862
00:35:33,470 --> 00:35:31,140
things that they come up with people

863
00:35:36,829 --> 00:35:33,480

don't necessarily understand and you

864

00:35:38,390 --> 00:35:36,839

know and I I don't know but um you know

865

00:35:40,670 --> 00:35:38,400

again when we talk about you know how

866

00:35:41,950 --> 00:35:40,680

much of um uh Max talked about how much

867

00:35:44,270 --> 00:35:41,960

of the ocean that we've actually

868

00:35:47,150 --> 00:35:44,280

explored and been able to actually see

869

00:35:49,069 --> 00:35:47,160

and that we know about I mean

870

00:35:52,069 --> 00:35:49,079

I mean obviously yes I mean you would

871

00:35:53,510 --> 00:35:52,079

see you know like Max had mentioned that

872

00:35:55,609 --> 00:35:53,520

you know there'd be

873

00:35:57,589 --> 00:35:55,619

they're they're you'd see a lot more and

874

00:35:59,810 --> 00:35:57,599

there'd be a lot more Devastation with

875

00:36:01,430 --> 00:35:59,820

something like that around but uh I

876

00:36:03,470 --> 00:36:01,440

don't know I just the the fact that you

877

00:36:04,849 --> 00:36:03,480

know that that movie came out and a lot

878

00:36:06,349 --> 00:36:04,859

of people are actually kind of jumping

879

00:36:11,630 --> 00:36:06,359

on board with that just I don't know

880

00:36:11,640 --> 00:36:16,670

anybody else got any thoughts on that

881

00:36:22,250 --> 00:36:19,010

do you want to pull up the video and

882

00:36:25,849 --> 00:36:22,260

show the whale with the bite marks on it

883

00:36:28,790 --> 00:36:25,859

yeah if you if uh Vincent can get it up

884

00:36:31,430 --> 00:36:28,800

I beg your pardon well Vincent can get

885

00:36:34,370 --> 00:36:31,440

it up on screen

886

00:36:38,089 --> 00:36:34,380

that's what she said that's even worse

887

00:36:44,030 --> 00:36:41,510

well anyway you asked me to come on

888

00:36:46,609 --> 00:36:44,040

remember that okay

889

00:36:48,650 --> 00:36:46,619

this is your fault I didn't give him the

890

00:36:51,410 --> 00:36:48,660

URL though I gave him the URL for some

891

00:36:53,450 --> 00:36:51,420

other recent footage of Cryptid

892

00:36:55,010 --> 00:36:53,460

creatures possibly and I wanted to show

893

00:36:56,329 --> 00:36:55,020

people so we could talk about what they

894

00:36:58,550 --> 00:36:56,339

might be

895

00:37:01,310 --> 00:36:58,560

um I can send it to him right now if he

896

00:37:03,470 --> 00:37:01,320

can do it quick yeah if you want to

897

00:37:06,710 --> 00:37:03,480

um you know I I had mentioned earlier

898

00:37:08,390 --> 00:37:06,720

about about race Town Ray and we've had

899

00:37:10,849 --> 00:37:08,400

some people wanting to know what race

900

00:37:13,730 --> 00:37:10,859

Town Ray is I I first of all I'm gonna

901
00:37:16,849 --> 00:37:13,740
kind of get into it I know Ron can chime

902
00:37:20,930 --> 00:37:16,859
in on this but Raystown Ray

903
00:37:24,050 --> 00:37:20,940
was the uh was the upper juniana river

904
00:37:28,790 --> 00:37:24,060
that was damned off back in I think

905
00:37:31,790 --> 00:37:28,800
maybe the 70s uh by the um Army Corps of

906
00:37:34,190 --> 00:37:31,800
Engineers they built a huge Dam there

907
00:37:36,770 --> 00:37:34,200
and uh

908
00:37:39,589 --> 00:37:36,780
you know since that has happened and it

909
00:37:42,829 --> 00:37:39,599
I think I think the dam itself is a

910
00:37:45,950 --> 00:37:42,839
depth of like 120 foot it's pretty deep

911
00:37:50,870 --> 00:37:45,960
but people have said they have seen

912
00:37:53,810 --> 00:37:50,880
this huge aquatic creature similar to

913
00:37:56,810 --> 00:37:53,820

what people are seeing in in Lochness or

914

00:37:57,650 --> 00:37:56,820

you know that type of shape at

915

00:38:01,790 --> 00:37:57,660

um

916

00:38:05,150 --> 00:38:01,800

at Grace Town Lake now

917

00:38:06,710 --> 00:38:05,160

Ali got in there I have no idea I have

918

00:38:08,030 --> 00:38:06,720

talked to several of these people over

919

00:38:11,870 --> 00:38:08,040

the years

920

00:38:13,730 --> 00:38:11,880

I have uh I know uh Stan Gordon has

921

00:38:16,730 --> 00:38:13,740

talked to a few Witnesses I talked to

922

00:38:19,069 --> 00:38:16,740

people who have worked at the lake

923

00:38:21,250 --> 00:38:19,079

I know there was an investigation there

924

00:38:24,230 --> 00:38:21,260

years ago

925

00:38:26,329 --> 00:38:24,240

where who and I think it was probably

926
00:38:29,030 --> 00:38:26,339
the Paranormal Files who did the

927
00:38:31,130 --> 00:38:29,040
investigation where they thought it was

928
00:38:33,410 --> 00:38:31,140
very possible what people were seeing

929
00:38:34,550 --> 00:38:33,420
could actually be in the lake how I

930
00:38:37,250 --> 00:38:34,560
don't know

931
00:38:39,230 --> 00:38:37,260
but that that's something I I want to

932
00:38:41,860 --> 00:38:39,240
ask and and Ron if you've got anything

933
00:38:44,990 --> 00:38:41,870
to add to that please please do

934
00:38:46,670 --> 00:38:45,000
[Music]

935
00:38:49,190 --> 00:38:46,680
yeah I think it was paranormal fact or

936
00:38:51,589 --> 00:38:49,200
fate if because it was a picture a

937
00:38:53,990 --> 00:38:51,599
famous picture of raised Town Ray

938
00:38:56,569 --> 00:38:54,000

um so one of my theories you know from

939

00:38:59,690 --> 00:38:56,579

those Zoological point of view is we we

940

00:39:02,150 --> 00:38:59,700

talk about Elementals that certain types

941

00:39:04,730 --> 00:39:02,160

of spirits are attached to certain areas

942

00:39:05,990 --> 00:39:04,740

so so the idea I know someone in the

943

00:39:07,430 --> 00:39:06,000

chat room was talking about like

944

00:39:12,290 --> 00:39:07,440

mermaids

945

00:39:14,450 --> 00:39:12,300

typically think of the ocean but I spoke

946

00:39:17,210 --> 00:39:14,460

with somebody who claims that they saw a

947

00:39:20,930 --> 00:39:17,220

mermaid in a man-made lake outside of

948

00:39:23,569 --> 00:39:20,940

Reno Nevada so it seems as I said things

949

00:39:25,849 --> 00:39:23,579

are drawn to them is it possible that

950

00:39:28,370 --> 00:39:25,859

there is something inherent within the

951
00:39:30,349 --> 00:39:28,380
natural world and what some people you

952
00:39:32,450 --> 00:39:30,359
know Elementals you know you know a

953
00:39:34,010 --> 00:39:32,460
water Elemental a Woods element all

954
00:39:36,770 --> 00:39:34,020
these different kind of creatures that

955
00:39:38,750 --> 00:39:36,780
are associated with particular biome

956
00:39:40,430 --> 00:39:38,760
is it possible there's an intelligence

957
00:39:43,930 --> 00:39:40,440
energy out there that manifests itself

958
00:39:47,990 --> 00:39:43,940
as different things at different times

959
00:39:50,750 --> 00:39:48,000
stories because it seems as that should

960
00:39:53,390 --> 00:39:50,760
not have these creatures in them are are

961
00:39:55,430 --> 00:39:53,400
certainly showing something something's

962
00:39:56,990 --> 00:39:55,440
there you know these people even if

963
00:39:59,030 --> 00:39:57,000

there is misidentification going on

964

00:40:01,250 --> 00:39:59,040

they're definitely not lying about it

965

00:40:02,569 --> 00:40:01,260

they're seeing something that should not

966

00:40:04,490 --> 00:40:02,579

be there

967

00:40:06,410 --> 00:40:04,500

um it's an interesting Theory to think

968

00:40:08,329 --> 00:40:06,420

about as well too because when all kind

969

00:40:09,950 --> 00:40:08,339

of naturalistic theories run out you

970

00:40:11,630 --> 00:40:09,960

kind of have to look for the more of the

971

00:40:13,910 --> 00:40:11,640

woo as it were you know look if we're

972

00:40:15,829 --> 00:40:13,920

we're more kind of uh speculative ideas

973

00:40:17,210 --> 00:40:15,839

but that's one that I came up and it's

974

00:40:18,950 --> 00:40:17,220

not like throwing your hands up in the

975

00:40:21,950 --> 00:40:18,960

air it's like one of those things why

976
00:40:24,050 --> 00:40:21,960
hasn't there been a Bigfoot captured on

977
00:40:25,730 --> 00:40:24,060
a film that's not blurry and you think

978
00:40:27,849 --> 00:40:25,740
that at the end of the day couldn't we

979
00:40:30,650 --> 00:40:27,859
be talking about some sort of energy

980
00:40:33,230 --> 00:40:30,660
that inhabits certain areas around the

981
00:40:39,130 --> 00:40:35,630
well you you know I've had I had Nick

982
00:40:44,089 --> 00:40:39,140
Redfern on with me once uh and he swears

983
00:40:47,810 --> 00:40:44,099
that uh he and he believes that Nessie

984
00:40:50,690 --> 00:40:47,820
is actually a supernatural being I mean

985
00:40:52,190 --> 00:40:50,700
yeah so yeah we don't really have to go

986
00:40:53,569 --> 00:40:52,200
Supernatural see that's the thing as

987
00:40:55,069 --> 00:40:53,579
well too because whenever we start

988
00:40:58,450 --> 00:40:55,079

talking about supernatural we think that

989

00:41:01,310 --> 00:40:58,460

it's like above the the realm of of

990

00:41:02,630 --> 00:41:01,320

naturalism you know and it might be

991

00:41:05,450 --> 00:41:02,640

something that's very natural people

992

00:41:08,569 --> 00:41:05,460

have talked about fairies for thousands

993

00:41:10,670 --> 00:41:08,579

of years and places like Loch Ness that

994

00:41:14,329 --> 00:41:10,680

area around there very close to that

995

00:41:17,329 --> 00:41:14,339

area uh was a very famous uh fairy Hot

996

00:41:19,490 --> 00:41:17,339

Spot called um um aberfoil uh which is

997

00:41:21,829 --> 00:41:19,500

you know very very close Loch Ness and

998

00:41:24,230 --> 00:41:21,839

not only that but Lochness uh that area

999

00:41:26,630 --> 00:41:24,240

also has a lot of UFO sightings as well

1000

00:41:29,030 --> 00:41:26,640

so it seems that something strange is

1001
00:41:30,770 --> 00:41:29,040
going up there also uh the gray band is

1002
00:41:33,650 --> 00:41:30,780
said the Winger up in the Scottish

1003
00:41:36,230 --> 00:41:33,660
islands as well too

1004
00:41:37,849 --> 00:41:36,240
yeah absolutely so when we talk about

1005
00:41:40,430 --> 00:41:37,859
certain areas of the world we talk about

1006
00:41:42,410 --> 00:41:40,440
you know the idea of like the Chestnut

1007
00:41:44,150 --> 00:41:42,420
Ridge and we talked about there are

1008
00:41:45,710 --> 00:41:44,160
certain areas around the world that seem

1009
00:41:47,750 --> 00:41:45,720
to be a hot spot for these kind of

1010
00:41:49,490 --> 00:41:47,760
things and if I could just one more

1011
00:41:50,810 --> 00:41:49,500
thing a fish belly over there on the

1012
00:41:52,010 --> 00:41:50,820
couple because this is one of my

1013
00:41:53,750 --> 00:41:52,020

favorite things spring in the early

1014

00:41:56,390 --> 00:41:53,760

dolphin migration

1015

00:41:57,650 --> 00:41:56,400

up the Susquehanna will start soon so I

1016

00:41:59,569 --> 00:41:57,660

do want to point this one thing out

1017

00:42:02,870 --> 00:41:59,579

whenever I was writing my book on

1018

00:42:05,810 --> 00:42:02,880

mermaids there was a mermaid sighting in

1019

00:42:08,329 --> 00:42:05,820

the Susquehanna River of all places uh a

1020

00:42:10,550 --> 00:42:08,339

a very lucid uh fisherman reported

1021

00:42:12,589 --> 00:42:10,560

seeing a mermaid now of course

1022

00:42:14,750 --> 00:42:12,599

um you know zoologists claimed that it

1023

00:42:16,069 --> 00:42:14,760

probably was a seal that made it up

1024

00:42:18,050 --> 00:42:16,079

there but like we've all talked about

1025

00:42:20,390 --> 00:42:18,060

before you know this is still part of

1026
00:42:21,950 --> 00:42:20,400
the cryptozoology uh animals that are

1027
00:42:23,750 --> 00:42:21,960
out of place you know the things that

1028
00:42:25,670 --> 00:42:23,760
shouldn't be there this is all very

1029
00:42:27,770 --> 00:42:25,680
interested uh you know interesting

1030
00:42:30,650 --> 00:42:27,780
things to study

1031
00:42:33,589 --> 00:42:30,660
so I think Vincent has the video ready

1032
00:42:41,450 --> 00:42:33,599
to queue up so go ahead and and do that

1033
00:42:47,270 --> 00:42:43,190
you'll have to listen to my voice not

1034
00:42:47,280 --> 00:42:53,569
as if I wasn't talking too much already

1035
00:42:57,290 --> 00:42:55,970
I I try to get him to around the point

1036
00:42:59,990 --> 00:42:57,300
where you oh

1037
00:43:01,550 --> 00:43:00,000
where uh we're trying to Crunch the

1038
00:43:04,309 --> 00:43:01,560

numbers in terms of the size of this

1039

00:43:06,290 --> 00:43:04,319

because what happened is earlier I mean

1040

00:43:07,730 --> 00:43:06,300

the video was 22 or 24 minutes long

1041

00:43:09,950 --> 00:43:07,740

right

1042

00:43:12,589 --> 00:43:09,960

so here

1043

00:43:14,750 --> 00:43:12,599

is another thing then narration okay so

1044

00:43:18,109 --> 00:43:14,760

that mess to the left there was a group

1045

00:43:20,270 --> 00:43:18,119

of like five bytes and my guy

1046

00:43:21,650 --> 00:43:20,280

um Jeff's Tudor had actually went and

1047

00:43:23,630 --> 00:43:21,660

measured that but the carcass had

1048

00:43:25,430 --> 00:43:23,640

shifted it wasn't in the position you

1049

00:43:27,349 --> 00:43:25,440

see now when he went back then a few

1050

00:43:29,270 --> 00:43:27,359

days later it was different so that mess

1051
00:43:31,430 --> 00:43:29,280
of bytes on the left there was 52 inches

1052
00:43:34,430 --> 00:43:31,440
across they were trying to get the size

1053
00:43:36,230 --> 00:43:34,440
for the one on the far right so the

1054
00:43:38,270 --> 00:43:36,240
narration's not there but basically what

1055
00:43:39,650 --> 00:43:38,280
happened is this Frame here was useful

1056
00:43:41,630 --> 00:43:39,660
because I was able to take the

1057
00:43:43,190 --> 00:43:41,640
measurement of that boot crunch the

1058
00:43:45,829 --> 00:43:43,200
numbers for the size of the bite there

1059
00:43:50,990 --> 00:43:45,839
and get that as a 20 inch yard stick

1060
00:43:51,000 --> 00:43:55,430
um so you'll see then

1061
00:43:58,550 --> 00:43:56,990
it's kind of boring without them walking

1062
00:44:00,770 --> 00:43:58,560
and everything

1063
00:44:01,790 --> 00:44:00,780

yeah you can't get the sound file to

1064

00:44:03,950 --> 00:44:01,800

come up

1065

00:44:05,390 --> 00:44:03,960

uh it's just you it's on YouTube but oh

1066

00:44:07,809 --> 00:44:05,400

well yeah

1067

00:44:11,089 --> 00:44:07,819

for whatever reason you can't get it

1068

00:44:12,470 --> 00:44:11,099

seems to be frozen yeah

1069

00:44:13,790 --> 00:44:12,480

well anyway

1070

00:44:15,170 --> 00:44:13,800

um but thanks for putting that up

1071

00:44:16,790 --> 00:44:15,180

Vincent

1072

00:44:18,290 --> 00:44:16,800

um so I mean is there anything you want

1073

00:44:20,150 --> 00:44:18,300

to add to that Max

1074

00:44:21,950 --> 00:44:20,160

well no I'm just saying is that huge

1075

00:44:24,650 --> 00:44:21,960

bite over to the right there right is

1076

00:44:26,450 --> 00:44:24,660

actually over a yard across and we were

1077

00:44:28,370 --> 00:44:26,460

able to crunch numbers to show that then

1078

00:44:30,290 --> 00:44:28,380

later on there's when the carcass was at

1079

00:44:32,569 --> 00:44:30,300

Sea there's another bite where this

1080

00:44:35,450 --> 00:44:32,579

thing this whale was wounded by a ship

1081

00:44:37,730 --> 00:44:35,460

strike a propeller had chopped it up on

1082

00:44:39,349 --> 00:44:37,740

its shoulder quite badly and so there's

1083

00:44:41,150 --> 00:44:39,359

another bite on there where it's fresh

1084

00:44:42,890 --> 00:44:41,160

where you can see it and compare that to

1085

00:44:44,510 --> 00:44:42,900

like the the fin and stuff and you

1086

00:44:46,790 --> 00:44:44,520

realize that that bite is also at least

1087

00:44:48,829 --> 00:44:46,800

a yard across so there's a fresh one

1088

00:44:50,510 --> 00:44:48,839

with individual tooth notches and then

1089

00:44:52,250 --> 00:44:50,520

there's this one over here so you put

1090

00:44:55,190 --> 00:44:52,260

those together basically you're talking

1091

00:44:58,849 --> 00:44:55,200

about a carcass that has fresh and

1092

00:45:01,010 --> 00:44:58,859

non-fresh bites a yard across see that's

1093

00:45:01,970 --> 00:45:01,020

the incomplete bite right there this car

1094

00:45:03,170 --> 00:45:01,980

because it's probably pretty

1095

00:45:05,870 --> 00:45:03,180

deteriorated

1096

00:45:07,790 --> 00:45:05,880

but sometimes Chad wanted to know is it

1097

00:45:10,370 --> 00:45:07,800

is there a possibility and an orca mate

1098

00:45:13,069 --> 00:45:10,380

had done that an orca's bite isn't

1099

00:45:16,010 --> 00:45:13,079

shaped like that it's narrower it looks

1100

00:45:17,329 --> 00:45:16,020

more like a a lizard bite almost you

1101
00:45:20,329 --> 00:45:17,339
know their teeth remember they're

1102
00:45:22,010 --> 00:45:20,339
Dolphins so that Rostrum is not like

1103
00:45:24,230 --> 00:45:22,020
they don't have that cookie cutter bite

1104
00:45:25,910 --> 00:45:24,240
that a shark takes a white shark a tiger

1105
00:45:28,250 --> 00:45:25,920
shark you know they they take these

1106
00:45:30,290 --> 00:45:28,260
semi-circle chunks they excise flesh

1107
00:45:33,170 --> 00:45:30,300
when an orca bites it leaves grooves

1108
00:45:35,450 --> 00:45:33,180
like this it bites in and it shakes and

1109
00:45:37,849 --> 00:45:35,460
tears to rip out chunks you know they

1110
00:45:39,770 --> 00:45:37,859
don't just like excise flesh like a

1111
00:45:41,270 --> 00:45:39,780
shark does if that makes sense their

1112
00:45:43,430 --> 00:45:41,280
drawers are designed to grab like the

1113
00:45:46,550 --> 00:45:43,440

flukes of the great whales and hold them

1114

00:45:49,130 --> 00:45:46,560

in place While others batter the whale

1115

00:45:51,950 --> 00:45:49,140

to death and rip it apart Etc so they

1116

00:45:53,630 --> 00:45:51,960

tear out Jagged chunks by sheer force

1117

00:45:55,250 --> 00:45:53,640

shaking their heads that type of stuff

1118

00:45:58,430 --> 00:45:55,260

but if you're looking at work a skull

1119

00:46:00,950 --> 00:45:58,440

like uh I think the biggest one I I came

1120

00:46:03,370 --> 00:46:00,960

across was only like maybe 20 inches

1121

00:46:05,750 --> 00:46:03,380

wide like the jaws and stuff yeah

1122

00:46:06,770 --> 00:46:05,760

something like that it's in the book I

1123

00:46:09,349 --> 00:46:06,780

don't I don't I can't remember

1124

00:46:11,690 --> 00:46:09,359

everything but nowhere near that would

1125

00:46:14,390 --> 00:46:11,700

have to be like Leviton or even bigger

1126

00:46:16,550 --> 00:46:14,400

to get a white that's size but the shape

1127

00:46:19,910 --> 00:46:16,560

is it's you know you could see the teeth

1128

00:46:22,550 --> 00:46:19,920

it's definitely a shark bite

1129

00:46:23,990 --> 00:46:22,560

um we had a question from space cadet

1130

00:46:27,650 --> 00:46:24,000

Lottie since we were talking about the

1131

00:46:31,010 --> 00:46:27,660

UK and um

1132

00:46:33,050 --> 00:46:31,020

he wanted to know about the uh what we

1133

00:46:35,329 --> 00:46:33,060

thought about the evidence for Bo Nessie

1134

00:46:38,030 --> 00:46:35,339

at Lake Windermere in the Lake District

1135

00:46:39,890 --> 00:46:38,040

of UK you know

1136

00:46:41,990 --> 00:46:39,900

I had looked into that when all that

1137

00:46:44,210 --> 00:46:42,000

first started coming out and I don't

1138

00:46:47,270 --> 00:46:44,220

know what everybody else thinks about

1139

00:46:49,250 --> 00:46:47,280

that but it seemed to me that God that

1140

00:46:52,670 --> 00:46:49,260

was a publicity stunt for

1141

00:46:55,370 --> 00:46:52,680

for the the resort and the lake I don't

1142

00:46:57,410 --> 00:46:55,380

know I don't know if what was going on

1143

00:46:59,950 --> 00:46:57,420

there does anybody have any information

1144

00:47:02,450 --> 00:46:59,960

on that

1145

00:47:04,250 --> 00:47:02,460

well I know it's a very beautiful area

1146

00:47:05,809 --> 00:47:04,260

you know that's the area where the

1147

00:47:07,550 --> 00:47:05,819

romantics wrote

1148

00:47:08,990 --> 00:47:07,560

um but uh you know I don't remember you

1149

00:47:11,930 --> 00:47:09,000

know the cooler whichever writing about

1150

00:47:12,950 --> 00:47:11,940

the the monster in Lake Windermere but I

1151

00:47:14,210 --> 00:47:12,960

think that you're getting pretty close

1152

00:47:17,270 --> 00:47:14,220

to the point my friend I think that

1153

00:47:18,650 --> 00:47:17,280

we're talking about a tourist industry I

1154

00:47:20,270 --> 00:47:18,660

wanted to hang its hat on something

1155

00:47:22,970 --> 00:47:20,280

different yeah I think I think that's

1156

00:47:25,250 --> 00:47:22,980

what I think that's what it was yeah

1157

00:47:26,750 --> 00:47:25,260

I I heard the same exact thing that that

1158

00:47:29,030 --> 00:47:26,760

it was kind of

1159

00:47:31,490 --> 00:47:29,040

um it was definitely a publicity stunt

1160

00:47:35,030 --> 00:47:31,500

and you know my background in marketing

1161

00:47:37,550 --> 00:47:35,040

I mean I I've heard a lot of um

1162

00:47:40,309 --> 00:47:37,560

a lot of things to kind of get things on

1163

00:47:41,750 --> 00:47:40,319

a map to get people to uh come out I

1164

00:47:43,970 --> 00:47:41,760

mean it's just like if you think about

1165

00:47:45,530 --> 00:47:43,980

you know when um you know ghost hunters

1166

00:47:48,349 --> 00:47:45,540

came out and got really popular and then

1167

00:47:50,450 --> 00:47:48,359

everybody got kind of excited about it

1168

00:47:52,430 --> 00:47:50,460

um you know hotels and places you know

1169

00:47:54,410 --> 00:47:52,440

and Inns you know they never wanted to

1170

00:47:56,390 --> 00:47:54,420

say hey you know hey this is haunted now

1171

00:47:58,370 --> 00:47:56,400

they're like hey no this is haunted and

1172

00:48:00,349 --> 00:47:58,380

now people are coming out so before you

1173

00:48:02,809 --> 00:48:00,359

know things kind of kind of changed over

1174

00:48:04,730 --> 00:48:02,819

the years when something kind of kind of

1175

00:48:05,870 --> 00:48:04,740

got cool so it kind of kind of pulls

1176

00:48:07,550 --> 00:48:05,880

people in

1177

00:48:09,770 --> 00:48:07,560

um I I just wanted to throw something

1178

00:48:11,329 --> 00:48:09,780

out real quick because it's it's got

1179

00:48:13,329 --> 00:48:11,339

brought up twice about

1180

00:48:16,370 --> 00:48:13,339

um uh the the

1181

00:48:17,750 --> 00:48:16,380

creature in the man-made lake

1182

00:48:19,069 --> 00:48:17,760

um something that you know has been

1183

00:48:20,809 --> 00:48:19,079

brought up and I think I even saw

1184

00:48:22,790 --> 00:48:20,819

somebody mention something about it in

1185

00:48:26,589 --> 00:48:22,800

the chat as well

1186

00:48:29,990 --> 00:48:26,599

um so a man-made made lake body of water

1187

00:48:31,849 --> 00:48:30,000

so it's made it's there

1188

00:48:33,710 --> 00:48:31,859

um and and this has always been kind of

1189

00:48:34,910 --> 00:48:33,720

kind of a question of mine too could

1190

00:48:38,390 --> 00:48:34,920

there have been something in the ground

1191

00:48:40,730 --> 00:48:38,400

round that did get disrupted and I don't

1192

00:48:42,890 --> 00:48:40,740

know hibernating I I don't know and then

1193

00:48:46,370 --> 00:48:42,900

at some point you know ground was

1194

00:48:49,370 --> 00:48:46,380

saturated and then it came about I I

1195

00:48:51,170 --> 00:48:49,380

that on that's not where you know my I

1196

00:48:52,670 --> 00:48:51,180

would I didn't want to say expertise but

1197

00:48:53,930 --> 00:48:52,680

you know where that's where I'm really

1198

00:48:55,490 --> 00:48:53,940

weak in that but I just kind of wanted

1199

00:48:58,609 --> 00:48:55,500

to throw that out because I saw somebody

1200

00:49:00,230 --> 00:48:58,619

say that in here as well as it's I've

1201
00:49:03,530 --> 00:49:00,240
heard that

1202
00:49:04,970 --> 00:49:03,540
um outside of um uh um here in other

1203
00:49:06,650 --> 00:49:04,980
chats and different things like that

1204
00:49:08,329 --> 00:49:06,660
that something could have been stirred

1205
00:49:10,130 --> 00:49:08,339
up something could have been dug up to a

1206
00:49:11,870 --> 00:49:10,140
degree so I just didn't know what

1207
00:49:12,710 --> 00:49:11,880
people's uh thoughts were on that I just

1208
00:49:14,089 --> 00:49:12,720
thought it was kind of interesting

1209
00:49:15,290 --> 00:49:14,099
because again somebody threw that in

1210
00:49:17,710 --> 00:49:15,300
here

1211
00:49:21,710 --> 00:49:17,720
what do you think Max

1212
00:49:25,670 --> 00:49:21,720
uh like Kenny said totally not my area

1213
00:49:27,710 --> 00:49:25,680

you know I'm more like you know extant

1214

00:49:29,870 --> 00:49:27,720

extinct animals and all that other stuff

1215

00:49:31,970 --> 00:49:29,880

but to answer that other person's

1216

00:49:33,849 --> 00:49:31,980

question about the Orca thing if you can

1217

00:49:37,370 --> 00:49:33,859

get him to pull the video back up at

1218

00:49:39,890 --> 00:49:37,380

1953 like 19 minutes 53 seconds there's

1219

00:49:41,630 --> 00:49:39,900

a great color shot of the fresh carcass

1220

00:49:43,730 --> 00:49:41,640

with this giant uh giant bite on it

1221

00:49:46,550 --> 00:49:43,740

where you can see the individual teeth

1222

00:49:48,230 --> 00:49:46,560

like notches on one side which will show

1223

00:49:50,109 --> 00:49:48,240

you it's definitely not an orca because

1224

00:49:52,550 --> 00:49:50,119

orcas teeth are not

1225

00:49:54,890 --> 00:49:52,560

rounding you know following around mouth

1226

00:49:56,870 --> 00:49:54,900

if that makes sense you think you can do

1227

00:49:58,609 --> 00:49:56,880

that or is it I don't know if you can or

1228

00:50:00,710 --> 00:49:58,619

not

1229

00:50:02,329 --> 00:50:00,720

I I don't know if he's able to do it or

1230

00:50:04,609 --> 00:50:02,339

not

1231

00:50:06,890 --> 00:50:04,619

while he's queuing it up I want to let

1232

00:50:10,730 --> 00:50:06,900

you know that in Africa there is a

1233

00:50:14,089 --> 00:50:10,740

particular type of lungfish that can

1234

00:50:17,150 --> 00:50:14,099

um bury itself and sometimes over a year

1235

00:50:19,609 --> 00:50:17,160

until water comes and then it kind of

1236

00:50:22,670 --> 00:50:19,619

sea monkeys itself back into life again

1237

00:50:25,430 --> 00:50:22,680

so I guess that's not above the realm of

1238

00:50:28,490 --> 00:50:25,440

possible you know possibility it also

1239

00:50:31,370 --> 00:50:28,500

you can do that also oh absolutely yeah

1240

00:50:33,829 --> 00:50:31,380

yeah but the other thing that we have to

1241

00:50:36,829 --> 00:50:33,839

consider too is a lot of times things

1242

00:50:38,870 --> 00:50:36,839

get into the water from Birds you know

1243

00:50:40,970 --> 00:50:38,880

bird droppings they eat the eggs of

1244

00:50:42,710 --> 00:50:40,980

something then they go over so you know

1245

00:50:44,690 --> 00:50:42,720

until we figure out what these creatures

1246

00:50:47,089 --> 00:50:44,700

are it could be like you said they're

1247

00:50:48,650 --> 00:50:47,099

Max a giant sturgeon of some kind we

1248

00:50:51,349 --> 00:50:48,660

don't know whether it's getting into our

1249

00:50:53,390 --> 00:50:51,359

Lake because so many weird things have

1250

00:50:55,609 --> 00:50:53,400

been introduced into the the world

1251
00:50:57,049 --> 00:50:55,619
around us you know invasive species you

1252
00:51:01,549 --> 00:50:57,059
know it could even have been a snakehead

1253
00:51:07,490 --> 00:51:05,089
I know a lake in New Jersey that I am

1254
00:51:09,710 --> 00:51:07,500
convinced I put it in my book this guy

1255
00:51:13,609 --> 00:51:09,720
must have had a tropical fish tank and

1256
00:51:16,010 --> 00:51:13,619
he dumped his fish in there because I I

1257
00:51:18,290 --> 00:51:16,020
pulled a shadow out of the water okay

1258
00:51:19,670 --> 00:51:18,300
there it is right there now it even it

1259
00:51:21,790 --> 00:51:19,680
even circles it but if you look on the

1260
00:51:24,250 --> 00:51:21,800
right side of the bite there you can see

1261
00:51:26,930 --> 00:51:24,260
individual tooth curves

1262
00:51:29,750 --> 00:51:26,940
yeah they're characteristic gouges the

1263
00:51:32,150 --> 00:51:29,760

calling card of a gigantic shark

1264

00:51:34,430 --> 00:51:32,160

precise measuring is of course

1265

00:51:36,890 --> 00:51:34,440

impossible but knowing that this was a

1266

00:51:38,930 --> 00:51:36,900

humpback pushing 30 feet in length and

1267

00:51:41,569 --> 00:51:38,940

that their pectoral fins typically range

1268

00:51:43,849 --> 00:51:41,579

from 25 to 30 percent of their length

1269

00:51:45,770 --> 00:51:43,859

that means that this female's flippers

1270

00:51:47,150 --> 00:51:45,780

were anywhere from seven to nine feet

1271

00:51:49,970 --> 00:51:47,160

long

1272

00:51:52,490 --> 00:51:49,980

based on photographic studies I've

1273

00:51:55,670 --> 00:51:52,500

calculated an approximate one to 3.5

1274

00:51:57,470 --> 00:51:55,680

ratio a flipper width to length which

1275

00:51:59,569 --> 00:51:57,480

means that the flipper shown here is

1276
00:52:02,150 --> 00:51:59,579
around two to two and a half feet across

1277
00:52:05,030 --> 00:52:02,160
taking Force perspective and camera

1278
00:52:07,490 --> 00:52:05,040
angle into account this wound is likely

1279
00:52:10,309 --> 00:52:07,500
a yard or more across

1280
00:52:13,490 --> 00:52:10,319
most likely as our Mega Shark closed to

1281
00:52:16,370 --> 00:52:13,500
feed it was attracted to the open wound

1282
00:52:18,309 --> 00:52:16,380
as shown on this diagram that secondary

1283
00:52:21,170 --> 00:52:18,319
byte would have ended up about here

1284
00:52:23,210 --> 00:52:21,180
right next to or even partially on top

1285
00:52:31,210 --> 00:52:23,220
of the prop wound that fractured the

1286
00:52:35,569 --> 00:52:33,170
this whale

1287
00:52:37,130 --> 00:52:35,579
but anyway do you think a great way

1288
00:52:38,390 --> 00:52:37,140

could have done that you think one could

1289

00:52:40,670 --> 00:52:38,400

have got that big

1290

00:52:42,530 --> 00:52:40,680

well I mean I've collected enough

1291

00:52:47,390 --> 00:52:42,540

evidence either if it's not a white

1292

00:52:50,990 --> 00:52:47,400

shark the only other possibility is

1293

00:52:53,270 --> 00:52:51,000

otodus chubutensis which is was the

1294

00:52:55,250 --> 00:52:53,280

Megalodon's most recent ancestor they

1295

00:52:56,569 --> 00:52:55,260

split off I don't know how many millions

1296

00:52:58,250 --> 00:52:56,579

of years ago and they actually swam the

1297

00:53:00,530 --> 00:52:58,260

Seas together for many millions of years

1298

00:53:02,030 --> 00:53:00,540

and it grew up to 40 feet in length I

1299

00:53:04,309 --> 00:53:02,040

mean I could show you a chub utensis

1300

00:53:05,809 --> 00:53:04,319

tooth right now but their its teeth were

1301
00:53:08,750 --> 00:53:05,819
more like a great white it didn't have

1302
00:53:10,670 --> 00:53:08,760
those bone chisel maxillary teeth in

1303
00:53:13,130 --> 00:53:10,680
this in the front like Megalodon does

1304
00:53:15,109 --> 00:53:13,140
it's seeds were thinner more triangular

1305
00:53:17,270 --> 00:53:15,119
the you know the crowns more like a

1306
00:53:19,430 --> 00:53:17,280
white sharks too so it's not a white

1307
00:53:22,309 --> 00:53:19,440
shark that would be your best bet but

1308
00:53:24,109 --> 00:53:22,319
again we need a breeding population and

1309
00:53:26,030 --> 00:53:24,119
I would think that if there was 500 or

1310
00:53:27,349 --> 00:53:26,040
more of these things swimming around you

1311
00:53:29,150 --> 00:53:27,359
know every time somebody says they've

1312
00:53:31,490 --> 00:53:29,160
seen a 40-foot shark it's a basking

1313
00:53:34,250 --> 00:53:31,500

shark like you see the videos guys yeah

1314

00:53:35,690 --> 00:53:34,260

every time yeah but I mean you know it's

1315

00:53:37,069 --> 00:53:35,700

like look at the size of the shark and

1316

00:53:41,870 --> 00:53:37,079

it's a basking shark

1317

00:53:44,150 --> 00:53:41,880

but uh you know the I I mean I'm 99 sure

1318

00:53:46,790 --> 00:53:44,160

we've got some mutant white sharks out

1319

00:53:49,069 --> 00:53:46,800

there that are getting as they used to

1320

00:53:52,010 --> 00:53:49,079

say in Brooklyn stupid big you know like

1321

00:53:53,690 --> 00:53:52,020

that kind of thing so I don't miss that

1322

00:53:56,930 --> 00:53:53,700

town at all let me tell you no sorry

1323

00:54:02,510 --> 00:54:01,730

no no no uh space cadet Lottie ass

1324

00:54:04,430 --> 00:54:02,520

um

1325

00:54:08,230 --> 00:54:04,440

when are the panel's thoughts on the

1326

00:54:12,470 --> 00:54:08,240

mysterious Lace Lake vostok

1327

00:54:15,230 --> 00:54:12,480

uh I I imagine that I mean I have heard

1328

00:54:17,210 --> 00:54:15,240

it I have heard there there there is

1329

00:54:19,849 --> 00:54:17,220

supposedly

1330

00:54:22,069 --> 00:54:19,859

a creature in there does anybody got any

1331

00:54:25,069 --> 00:54:22,079

comments on that

1332

00:54:27,349 --> 00:54:25,079

all I can say is since we got through

1333

00:54:29,450 --> 00:54:27,359

coven for most of the way let's not

1334

00:54:33,849 --> 00:54:29,460

start exploring any new Lakes anytime

1335

00:54:33,859 --> 00:54:37,270

good point

1336

00:54:42,230 --> 00:54:41,270

yeah I I I tend to agree

1337

00:54:44,870 --> 00:54:42,240

um

1338

00:54:47,690 --> 00:54:44,880

Lori murty have you guys ever looked

1339

00:54:49,430 --> 00:54:47,700

into the stories of menagahila

1340

00:54:51,890 --> 00:54:49,440

monster

1341

00:54:54,890 --> 00:54:51,900

yeah I know you have so go ahead and

1342

00:54:57,049 --> 00:54:54,900

tell us what you found out okay so this

1343

00:54:59,569 --> 00:54:57,059

goes back to uh

1344

00:55:01,790 --> 00:54:59,579

um well you can always say this is

1345

00:55:05,030 --> 00:55:01,800

pre-european text but it comes down to

1346

00:55:07,069 --> 00:55:05,040

us as Europeans telling us the story so

1347

00:55:09,230 --> 00:55:07,079

it's kind of a mix match here but

1348

00:55:11,150 --> 00:55:09,240

anyways there was a tradition among the

1349

00:55:12,470 --> 00:55:11,160

Indians that lived along the Monongahela

1350

00:55:15,170 --> 00:55:12,480

right outside of Pittsburgh as a matter

1351

00:55:17,510 --> 00:55:15,180

of fact that a creature was known to

1352

00:55:19,970 --> 00:55:17,520

come up and steal deer from the banks

1353

00:55:22,130 --> 00:55:19,980

you know off the banks so there's ways

1354

00:55:25,069 --> 00:55:22,140

to look at this could it act as a

1355

00:55:27,650 --> 00:55:25,079

boogeyman to keep their kids away or

1356

00:55:29,630 --> 00:55:27,660

were they coming on a natural or natural

1357

00:55:31,430 --> 00:55:29,640

blood animals there's a couple way to

1358

00:55:33,530 --> 00:55:31,440

look at this it seems to be very

1359

00:55:36,290 --> 00:55:33,540

reptilian the way they describe it okay

1360

00:55:39,349 --> 00:55:36,300

and we know that by the time that the um

1361

00:55:41,569 --> 00:55:39,359

the the English came to uh Jamestown

1362

00:55:44,030 --> 00:55:41,579

there were alligators as far north as

1363

00:55:45,650 --> 00:55:44,040

the Potomac River so is it possible that

1364

00:55:47,870 --> 00:55:45,660

one summer one could have found its way

1365

00:55:49,970 --> 00:55:47,880

into Pittsburgh sure possibility but

1366

00:55:51,770 --> 00:55:49,980

usually folklore is based on upon

1367

00:55:53,030 --> 00:55:51,780

something rather than just a one

1368

00:55:55,309 --> 00:55:53,040

instance thing there has to be a

1369

00:55:57,589 --> 00:55:55,319

continuity here so the other best

1370

00:55:59,930 --> 00:55:57,599

guesstimate that I could make is that we

1371

00:56:01,309 --> 00:55:59,940

were dealing with an out of place bull

1372

00:56:03,589 --> 00:56:01,319

shark that found its way up the

1373

00:56:06,230 --> 00:56:03,599

Mississippi River into the Monongahela

1374

00:56:09,770 --> 00:56:06,240

and the reason why I say this is we know

1375

00:56:11,569 --> 00:56:09,780

for a fact that an Alton uh Illinois a a

1376

00:56:12,770 --> 00:56:11,579

bull shark was caught 800 miles away

1377

00:56:15,710 --> 00:56:12,780

from the ocean

1378

00:56:18,530 --> 00:56:15,720

and in my book on aquatic Monsters of

1379

00:56:21,470 --> 00:56:18,540

the Great Lakes we know that in 1955 in

1380

00:56:24,349 --> 00:56:21,480

Lake Michigan a young boy was attacked

1381

00:56:26,270 --> 00:56:24,359

by something that was called a shark

1382

00:56:28,849 --> 00:56:26,280

attack some people believed it was a

1383

00:56:31,309 --> 00:56:28,859

bull shark my opinion it was probably a

1384

00:56:33,349 --> 00:56:31,319

musk lounge or or some sort of Pike or

1385

00:56:35,290 --> 00:56:33,359

something like that but they thought

1386

00:56:37,370 --> 00:56:35,300

that it was relatively

1387

00:56:40,010 --> 00:56:37,380

explicable to say that a bull shark

1388

00:56:42,230 --> 00:56:40,020

actually attacked a young boy Lake

1389

00:56:44,270 --> 00:56:42,240

Michigan 1955.

1390

00:56:46,250 --> 00:56:44,280

so it's my opinion that bull sharks I

1391

00:56:49,490 --> 00:56:46,260

think bull sharks are one of these

1392

00:56:51,650 --> 00:56:49,500

Critters that can be a a monster in

1393

00:56:54,349 --> 00:56:51,660

anybody's eyes because they're they're

1394

00:56:56,270 --> 00:56:54,359

uh you know their predatory creature uh

1395

00:56:58,309 --> 00:56:56,280

they're aggressive and seeing one in a

1396

00:57:00,049 --> 00:56:58,319

lake or seeing something attacked in a

1397

00:57:02,569 --> 00:57:00,059

lake could provide a whole bunch of

1398

00:57:04,370 --> 00:57:02,579

different kind of monster stories

1399

00:57:06,530 --> 00:57:04,380

wow there have been there have people

1400

00:57:08,569 --> 00:57:06,540

been people who have seen bull sharks in

1401
00:57:11,470 --> 00:57:08,579
the Ohio river and I mean coming coming

1402
00:57:13,790 --> 00:57:11,480
out yeah absolutely I mean

1403
00:57:15,470 --> 00:57:13,800
osmosis with them is like nothing I mean

1404
00:57:17,990 --> 00:57:15,480
they get into fresh water and they start

1405
00:57:20,270 --> 00:57:18,000
going and uh they're pretty aggressive

1406
00:57:23,630 --> 00:57:20,280
as well so yeah I I that doesn't

1407
00:57:25,910 --> 00:57:23,640
surprise me at all yes that could be a

1408
00:57:27,650 --> 00:57:25,920
very plausible explanation

1409
00:57:29,870 --> 00:57:27,660
yeah that's what I came up with because

1410
00:57:31,730 --> 00:57:29,880
I studied it for a while because I like

1411
00:57:33,770 --> 00:57:31,740
things you know in in our hometown area

1412
00:57:36,530 --> 00:57:33,780
I like to kind of but then it's known as

1413
00:57:39,049 --> 00:57:36,540

the ugawa but it sounds very close to

1414

00:57:41,450 --> 00:57:39,059

agua so I think there's a lot of uh

1415

00:57:44,030 --> 00:57:41,460

influence from the uh the Spanish in

1416

00:57:46,309 --> 00:57:44,040

there as well too uh but you know it was

1417

00:57:48,230 --> 00:57:46,319

a an Indian tradition and there was even

1418

00:57:51,470 --> 00:57:48,240

reports of it showing up in places like

1419

00:57:57,230 --> 00:57:54,170

yeah it goes right through there so

1420

00:58:00,589 --> 00:57:57,240

absolutely yep yep yep

1421

00:58:03,410 --> 00:58:00,599

interesting well wasn't it a uh the the

1422

00:58:06,250 --> 00:58:03,420

shark attacks that inspired the movie

1423

00:58:08,569 --> 00:58:06,260

Jaws happened in a stream in New Jersey

1424

00:58:11,049 --> 00:58:08,579

absolutely and I believe that was the

1425

00:58:15,130 --> 00:58:11,059

bull shark as well

1426

00:58:18,650 --> 00:58:15,140

or something like that yeah yeah

1427

00:58:21,530 --> 00:58:18,660

1912. uh yeah so that that shark killed

1428

00:58:24,410 --> 00:58:21,540

three two or three kids didn't it it did

1429

00:58:26,630 --> 00:58:24,420

yeah it did horribly and it was

1430

00:58:28,970 --> 00:58:26,640

relentless it would not like give up its

1431

00:58:31,190 --> 00:58:28,980

prey which sounds like a bull shark they

1432

00:58:32,690 --> 00:58:31,200

once they latch on it's not like a white

1433

00:58:35,390 --> 00:58:32,700

shark where they bite spit and wait for

1434

00:58:37,130 --> 00:58:35,400

you to die you know and circle they just

1435

00:58:40,309 --> 00:58:37,140

hang on and keep tearing and tearing and

1436

00:58:43,190 --> 00:58:40,319

tearing so that's uh Hey can he pull up

1437

00:58:44,510 --> 00:58:43,200

this cadbuosaurus video I sent him a

1438

00:58:47,150 --> 00:58:44,520

link for because I'd like to get

1439

00:58:49,069 --> 00:58:47,160

people's opinion on on that if possible

1440

00:58:51,349 --> 00:58:49,079

yeah that I'd like to see I'd like to

1441

00:58:54,010 --> 00:58:51,359

talk about that as well that that thing

1442

00:58:57,349 --> 00:58:54,020

is kind of

1443

00:59:00,109 --> 00:58:57,359

you know you know talk talk about the

1444

00:59:01,970 --> 00:59:00,119

catosaurus anyway uh Max so people have

1445

00:59:04,549 --> 00:59:01,980

an idea what you're talking about

1446

00:59:06,770 --> 00:59:04,559

I I honestly I mean I know the general

1447

00:59:08,030 --> 00:59:06,780

reports that it's this creature that's

1448

00:59:10,309 --> 00:59:08,040

been seen

1449

00:59:12,470 --> 00:59:10,319

um different characteristics supposedly

1450

00:59:14,569 --> 00:59:12,480

there was a carcass of a small one at

1451
00:59:16,490 --> 00:59:14,579
one point I mean I think it relates more

1452
00:59:18,530 --> 00:59:16,500
like to these giant turtles with the

1453
00:59:20,349 --> 00:59:18,540
head and the neck and all that

1454
00:59:25,370 --> 00:59:20,359
um but there's a video that was from

1455
00:59:28,430 --> 00:59:25,380
2009 it's black and white and it shows

1456
00:59:32,690 --> 00:59:28,440
um a creature creatures uh moving along

1457
00:59:34,609 --> 00:59:32,700
laterally surfacing one spouts so

1458
00:59:36,470 --> 00:59:34,619
obviously it's either recitation or a

1459
00:59:38,809 --> 00:59:36,480
pennipet or something like that from the

1460
00:59:40,849 --> 00:59:38,819
look of it and all but they're one shot

1461
00:59:43,670 --> 00:59:40,859
the head shape is very very

1462
00:59:47,089 --> 00:59:43,680
characteristic and I know what I think

1463
00:59:49,370 --> 00:59:47,099

it is I want to see if Steve and Ron and

1464

00:59:51,230 --> 00:59:49,380

Kenny what they think about it you know

1465

00:59:52,309 --> 00:59:51,240

well I know what you're I know which one

1466

00:59:54,950 --> 00:59:52,319

you're talking about you're talking

1467

00:59:57,829 --> 00:59:54,960

about the the kind of the head or the

1468

01:00:02,170 --> 00:59:57,839

horse shaped head on that thing no this

1469

01:00:06,170 --> 01:00:04,370

or something like that and then there's

1470

01:00:08,030 --> 01:00:06,180

another video that I sent him a link for

1471

01:00:09,950 --> 01:00:08,040

that came out a few weeks ago that was

1472

01:00:12,650 --> 01:00:09,960

filmed off of North Carolina this is

1473

01:00:13,930 --> 01:00:12,660

free recent and it's a similar type of

1474

01:00:18,109 --> 01:00:13,940

thing

1475

01:00:20,630 --> 01:00:18,119

yeah with the same exact type of animals

1476

01:00:22,190 --> 01:00:20,640

and stuff I don't think they're I don't

1477

01:00:23,809 --> 01:00:22,200

believe there are some and people are

1478

01:00:26,450 --> 01:00:23,819

saying oh it's a mosasaur it's an

1479

01:00:30,650 --> 01:00:26,460

alligator it's a plesiosaur all this

1480

01:00:31,670 --> 01:00:30,660

stuff and I'm like no it's blank but uh

1481

01:00:34,609 --> 01:00:31,680

yeah

1482

01:00:36,109 --> 01:00:34,619

no I had people I mean I I posted it up

1483

01:00:38,390 --> 01:00:36,119

on the blog and people are telling well

1484

01:00:39,890 --> 01:00:38,400

just a manatee it came North now that's

1485

01:00:41,990 --> 01:00:39,900

not a manatee

1486

01:00:44,089 --> 01:00:42,000

I mean I hate to be like crushing

1487

01:00:46,309 --> 01:00:44,099

people's dreams and stuff like that you

1488

01:00:48,589 --> 01:00:46,319

know explaining logical explanations for

1489

01:00:51,530 --> 01:00:48,599

stuff but I'm not gonna like feed into

1490

01:00:54,530 --> 01:00:51,540

the hysteria if I see evidence that this

1491

01:00:56,270 --> 01:00:54,540

is a citation I'm gonna say and people

1492

01:00:57,890 --> 01:00:56,280

that shot the video or promote the video

1493

01:00:59,510 --> 01:00:57,900

might get pissed off about it and all

1494

01:01:01,549 --> 01:00:59,520

that I'm not trying to read anybody's

1495

01:01:03,289 --> 01:01:01,559

parade I'm just not going to support you

1496

01:01:05,569 --> 01:01:03,299

know a falsehood or a hoax or anything

1497

01:01:08,210 --> 01:01:05,579

else like that you know it is what it is

1498

01:01:09,829 --> 01:01:08,220

you have to follow the science and if

1499

01:01:12,289 --> 01:01:09,839

the science shows me a pair of whale

1500

01:01:14,329 --> 01:01:12,299

flukes breaking the surface I'm gonna

1501
01:01:16,490 --> 01:01:14,339
say there's the fluges you can see them

1502
01:01:19,190 --> 01:01:16,500
there's the peduncle there's the lobes

1503
01:01:21,349 --> 01:01:19,200
there you know Etc it's a whale

1504
01:01:23,510 --> 01:01:21,359
so

1505
01:01:24,970 --> 01:01:23,520
I guess I threw him off asking for that

1506
01:01:27,530 --> 01:01:24,980
with no notice

1507
01:01:29,809 --> 01:01:27,540
we'll see we'll see if he can get it up

1508
01:01:31,730 --> 01:01:29,819
there you know you know I don't know if

1509
01:01:34,730 --> 01:01:31,740
you guys know this but I saw a Bigfoot

1510
01:01:36,829 --> 01:01:34,740
almost 30 years ago oh really in the

1511
01:01:39,130 --> 01:01:36,839
water and swimming

1512
01:01:41,809 --> 01:01:39,140
is that right no joke

1513
01:01:43,849 --> 01:01:41,819

they were sisters in Connecticut in

1514

01:01:45,650 --> 01:01:43,859

squant's pond which is a lake adjacent

1515

01:01:48,770 --> 01:01:45,660

to part of Candlewood Lake where the

1516

01:01:50,030 --> 01:01:48,780

state park is there and I watched this

1517

01:01:52,130 --> 01:01:50,040

thing

1518

01:01:55,490 --> 01:01:52,140

um I'll just I'll blab until if you want

1519

01:01:56,809 --> 01:01:55,500

me to until he gets it right but uh so

1520

01:01:58,549 --> 01:01:56,819

this is literally like about 30 years

1521

01:02:01,010 --> 01:01:58,559

ago me and my brothers my family had a

1522

01:02:02,450 --> 01:02:01,020

big house on Candler Lake then and so we

1523

01:02:05,030 --> 01:02:02,460

were there for the summer we decided to

1524

01:02:08,210 --> 01:02:05,040

go to squons there's a Causeway between

1525

01:02:11,329 --> 01:02:08,220

these two Lakes okay and the causeway is

1526

01:02:13,309 --> 01:02:11,339

piled up rocks gravel little high little

1527

01:02:15,530 --> 01:02:13,319

road on top of it and then there's like

1528

01:02:17,990 --> 01:02:15,540

this I guess steel reinforced concrete

1529

01:02:20,750 --> 01:02:18,000

like six foot pipe that goes underwater

1530

01:02:22,910 --> 01:02:20,760

that under the causeway that allows the

1531

01:02:25,670 --> 01:02:22,920

lakes to share water animals can swim

1532

01:02:27,950 --> 01:02:25,680

back and forth yada yada yada so we went

1533

01:02:31,010 --> 01:02:27,960

there the crack of dawn it was like

1534

01:02:33,530 --> 01:02:31,020

still dark out oh there we go so let's

1535

01:02:35,390 --> 01:02:33,540

let's look at this really quick I can go

1536

01:02:46,430 --> 01:02:35,400

back and talk Bigfoot okay

1537

01:02:50,650 --> 01:02:48,470

did you see the square thing come up and

1538

01:02:52,849 --> 01:02:50,660

then it spout

1539

01:02:54,770 --> 01:02:52,859

right there you see that yeah and

1540

01:02:57,890 --> 01:02:54,780

they're gonna play it again it'll be in

1541

01:03:11,030 --> 01:02:59,150

if he can

1542

01:03:14,870 --> 01:03:13,789

there see that there I see it spout and

1543

01:03:28,430 --> 01:03:14,880

that's Square

1544

01:03:35,150 --> 01:03:32,150

so that in my opinion is the head of a

1545

01:03:37,910 --> 01:03:35,160

bull a male Bottlenose whale and I sent

1546

01:03:40,549 --> 01:03:37,920

him a photo of one for comparison and

1547

01:03:42,829 --> 01:03:40,559

you'll see it has that exact same square

1548

01:03:45,109 --> 01:03:42,839

shape that they grow this bulbous you

1549

01:03:46,730 --> 01:03:45,119

know melon on the front there that looks

1550

01:03:49,670 --> 01:03:46,740

identical to it

1551
01:03:51,470 --> 01:03:49,680
do you think it was one or several no I

1552
01:03:53,569 --> 01:03:51,480
think it's a pod and that's why you get

1553
01:03:54,950 --> 01:03:53,579
this like you guys were saying and Steve

1554
01:03:56,930 --> 01:03:54,960
was saying like with the seals and stuff

1555
01:03:58,970 --> 01:03:56,940
like that you know these citations are

1556
01:04:01,789 --> 01:03:58,980
moving along in a family group this type

1557
01:04:03,230 --> 01:04:01,799
of thing and that other video has this

1558
01:04:05,930 --> 01:04:03,240
is actually the other one's more

1559
01:04:08,770 --> 01:04:05,940
interesting because there's it looks

1560
01:04:11,210 --> 01:04:08,780
like like it's not anything

1561
01:04:14,630 --> 01:04:11,220
Supernatural or encrypted in my opinion

1562
01:04:16,490 --> 01:04:14,640
but it has one of those I sent him a

1563
01:04:17,270 --> 01:04:16,500

frame if he can pull it up

1564

01:04:20,930 --> 01:04:17,280

um

1565

01:04:25,010 --> 01:04:20,940

sent them by email or something like

1566

01:04:28,010 --> 01:04:25,020

that but let's see the the the

1567

01:04:29,809 --> 01:04:28,020

where are you okay so tell him the one

1568

01:04:31,910 --> 01:04:29,819

first one right

1569

01:04:34,329 --> 01:04:31,920

okay that's the flukes okay so we can

1570

01:04:37,549 --> 01:04:34,339

look at that real quick if you see that

1571

01:04:39,349 --> 01:04:37,559

no that's a dorsal fin

1572

01:04:41,510 --> 01:04:39,359

okay that's the flu so you see that

1573

01:04:43,549 --> 01:04:41,520

yellow thing is the peduncle the Green

1574

01:04:46,190 --> 01:04:43,559

Dot is for the right

1575

01:04:47,270 --> 01:04:46,200

fluke and the red one is the left one

1576

01:04:48,470 --> 01:04:47,280

which is already flushed down and

1577

01:04:49,789 --> 01:04:48,480

already starting to Splash into the

1578

01:04:51,829 --> 01:04:49,799

water you can see when you see it

1579

01:04:53,690 --> 01:04:51,839

swimming you'll see the wick tail curve

1580

01:04:55,549 --> 01:04:53,700

up and whatever so there's no doubt this

1581

01:04:57,589 --> 01:04:55,559

thing has flukes and it's a whale but

1582

01:05:00,410 --> 01:04:57,599

this is not that old video this is the

1583

01:05:02,030 --> 01:05:00,420

newer one okay right and then there's a

1584

01:05:03,349 --> 01:05:02,040

couple shots I said I'm showing because

1585

01:05:05,510 --> 01:05:03,359

they were like well where's the dorsal

1586

01:05:08,630 --> 01:05:05,520

and there is a nice shot several images

1587

01:05:11,150 --> 01:05:08,640

there you could see that's the dorsal on

1588

01:05:12,890 --> 01:05:11,160

one of them breaking the surface Etc and

1589

01:05:14,569 --> 01:05:12,900

stuff you know I had to go through this

1590

01:05:16,190 --> 01:05:14,579

thing frame by frame practically which

1591

01:05:18,589 --> 01:05:16,200

is a pain in the butt you know to shut

1592

01:05:20,510 --> 01:05:18,599

people up that's a dorsal fin anybody

1593

01:05:23,089 --> 01:05:20,520

who says it's not is you know smoking

1594

01:05:24,589 --> 01:05:23,099

something sorry but uh so you know

1595

01:05:26,270 --> 01:05:24,599

you're dealing with whales here but the

1596

01:05:28,309 --> 01:05:26,280

cool thing about this newer video is you

1597

01:05:30,589 --> 01:05:28,319

have this square head at one point and

1598

01:05:32,990 --> 01:05:30,599

there's he has a frame of it somewhere

1599

01:05:36,589 --> 01:05:33,000

on there if I I wish I could

1600

01:05:37,809 --> 01:05:36,599

get in there but um hold on where are

1601

01:05:40,309 --> 01:05:37,819

you

1602

01:05:45,589 --> 01:05:40,319

now that's okay now for hold like hold

1603

01:05:47,329 --> 01:05:45,599

right there now that okay is a male of a

1604

01:05:48,829 --> 01:05:47,339

different species this is why I'm saying

1605

01:05:50,750 --> 01:05:48,839

this footage is interesting there

1606

01:05:52,490 --> 01:05:50,760

appears to be two mature males you see

1607

01:05:53,630 --> 01:05:52,500

those pointy things up there is why

1608

01:05:56,089 --> 01:05:53,640

people were saying it was an alligator

1609

01:05:57,650 --> 01:05:56,099

or something like that okay so if you

1610

01:05:58,910 --> 01:05:57,660

pull up now I gave him an image of

1611

01:06:02,510 --> 01:05:58,920

whales

1612

01:06:03,410 --> 01:06:02,520

there this is a sexually mature male

1613

01:06:05,450 --> 01:06:03,420

um

1614

01:06:08,630 --> 01:06:05,460

no I so that's the one with the square

1615

01:06:13,849 --> 01:06:10,670

that's not it no no the group there's

1616

01:06:15,349 --> 01:06:13,859

another one a group of four

1617

01:06:17,390 --> 01:06:15,359

yeah right there and you see the top one

1618

01:06:19,250 --> 01:06:17,400

there now that's a mature male of a

1619

01:06:21,710 --> 01:06:19,260

different type of beaked whale you see

1620

01:06:23,990 --> 01:06:21,720

how it has those alligator like ABS on

1621

01:06:26,390 --> 01:06:24,000

top of the head that is what that is in

1622

01:06:28,370 --> 01:06:26,400

that one in that frame okay but then

1623

01:06:29,930 --> 01:06:28,380

there's another frame in there where you

1624

01:06:32,150 --> 01:06:29,940

can see in the video where the square

1625

01:06:34,490 --> 01:06:32,160

head pops up which is a male of a

1626

01:06:36,950 --> 01:06:34,500

different like a northern Bottlenose

1627

01:06:39,230 --> 01:06:36,960

whale so to me it seems like you've got

1628

01:06:41,270 --> 01:06:39,240

two different species right there see

1629

01:06:43,370 --> 01:06:41,280

the square head coming up okay when you

1630

01:06:45,349 --> 01:06:43,380

see the video it's undeniable so it's

1631

01:06:47,510 --> 01:06:45,359

like you have two different mature male

1632

01:06:49,789 --> 01:06:47,520

species two different species swimming

1633

01:06:51,529 --> 01:06:49,799

together and I don't know if that

1634

01:06:53,510 --> 01:06:51,539

happens in the wild or not but it's

1635

01:06:55,309 --> 01:06:53,520

happening in this video in my humble

1636

01:06:59,089 --> 01:06:55,319

opinion hmm

1637

01:07:00,890 --> 01:06:59,099

but yeah that does that's unusual you

1638

01:07:03,109 --> 01:07:00,900

think that they be together like that

1639

01:07:05,150 --> 01:07:03,119

but who knows or maybe they're just

1640

01:07:07,190 --> 01:07:05,160

passing along with each other or finding

1641

01:07:08,750 --> 01:07:07,200

the same food but that's the same square

1642

01:07:11,150 --> 01:07:08,760

head species that is in the

1643

01:07:13,370 --> 01:07:11,160

cadburysaurus video I mean you saw that

1644

01:07:15,170 --> 01:07:13,380

thing actually spout you know like you

1645

01:07:18,109 --> 01:07:15,180

see that in the back of the head there

1646

01:07:20,390 --> 01:07:18,119

and stuff so that's what that's what

1647

01:07:22,309 --> 01:07:20,400

they are in my humble opinion

1648

01:07:25,130 --> 01:07:22,319

or my not so humble opinion I get

1649

01:07:25,630 --> 01:07:25,140

accused of being an egotistical jerk

1650

01:07:28,210 --> 01:07:25,640

sometimes

1651

01:07:30,829 --> 01:07:28,220

[Laughter]

1652

01:07:33,109 --> 01:07:30,839

it's interesting I mean the cattle

1653

01:07:34,549 --> 01:07:33,119

burrow I mean I I have no idea what that

1654

01:07:36,950 --> 01:07:34,559

thing was I know they've had

1655

01:07:39,950 --> 01:07:36,960

investigations where they've done you

1656

01:07:41,750 --> 01:07:39,960

know documentaries about it and you know

1657

01:07:44,630 --> 01:07:41,760

but it's all conjecture for the most

1658

01:07:48,230 --> 01:07:44,640

part uh you know the the carcass they

1659

01:07:50,690 --> 01:07:48,240

did have wasn't really much to look at

1660

01:07:53,270 --> 01:07:50,700

um so um yeah it could very well have

1661

01:07:55,849 --> 01:07:53,280

been in that the caliber that was up in

1662

01:07:57,770 --> 01:07:55,859

that was up in Alaska was it not I think

1663

01:07:59,990 --> 01:07:57,780

they see them all over the place oh

1664

01:08:02,990 --> 01:08:00,000

really yeah it's like anything that

1665

01:08:04,609 --> 01:08:03,000

looks like you know unusual strange but

1666

01:08:08,329 --> 01:08:04,619

yeah that's see that's the thing

1667

01:08:12,349 --> 01:08:10,609

that's the dorsal there's the fluke

1668

01:08:14,750 --> 01:08:12,359

that's the that's the other male with

1669

01:08:17,209 --> 01:08:14,760

different species there's a flukes again

1670

01:08:20,950 --> 01:08:17,219

that does look like a whale yeah yeah

1671

01:08:23,150 --> 01:08:20,960

but there's more than one yeah

1672

01:08:24,950 --> 01:08:23,160

I think it plays again after a little

1673

01:08:26,570 --> 01:08:24,960

while like it repeats or something

1674

01:08:29,809 --> 01:08:26,580

but I believe you've got two different

1675

01:08:31,550 --> 01:08:29,819

species of mature males in here you're

1676

01:08:33,829 --> 01:08:31,560

hanging out together or swimming in the

1677

01:08:36,229 --> 01:08:33,839

same direction at least which is an

1678

01:08:39,829 --> 01:08:36,239

unusual fine honestly

1679

01:08:44,329 --> 01:08:39,839

unless it's common and you know

1680

01:08:48,349 --> 01:08:46,430

they're weird looking animals there's

1681

01:08:52,249 --> 01:08:48,359

the that's the bull with the sperm whale

1682

01:08:52,259 --> 01:08:56,749

look at that

1683

01:08:56,759 --> 01:08:59,749

hmm

1684

01:09:04,189 --> 01:09:01,249

I mean does anybody here think that's a

1685

01:09:05,809 --> 01:09:04,199

mosasaur or an alligator

1686

01:09:08,930 --> 01:09:05,819

or please you're stepping on an

1687

01:09:11,150 --> 01:09:08,940

alligator no but I'm only seeing that

1688

01:09:14,209 --> 01:09:11,160

you're saying two but I I'm only saying

1689

01:09:16,669 --> 01:09:14,219

where where where do you see two well

1690

01:09:19,070 --> 01:09:16,679

you've got two different heads so the

1691

01:09:20,809 --> 01:09:19,080

one with the square head is an

1692

01:09:22,309 --> 01:09:20,819

individual animal and then the one that

1693

01:09:25,689 --> 01:09:22,319

looks like an alligator

1694

01:09:28,490 --> 01:09:25,699

but that one is a different animal

1695

01:09:30,410 --> 01:09:28,500

is it possible it may have turned and

1696

01:09:32,630 --> 01:09:30,420

rolled and it's bringing its head up at

1697

01:09:35,990 --> 01:09:32,640

an angle that's changing it look at the

1698

01:09:39,050 --> 01:09:36,000

profile when you see it come up like the

1699

01:09:40,910 --> 01:09:39,060

the melon breaks the surface there and

1700

01:09:43,010 --> 01:09:40,920

it's we're lateral to it and then it

1701

01:09:44,450 --> 01:09:43,020

just drops back down again

1702

01:09:46,010 --> 01:09:44,460

so

1703

01:09:47,870 --> 01:09:46,020

but that's not that's not the same

1704

01:09:51,130 --> 01:09:47,880

animal right there I mean would it would

1705

01:09:53,990 --> 01:09:51,140

it be common for two

1706

01:09:55,729 --> 01:09:54,000

different species to like just swim next

1707

01:09:58,189 --> 01:09:55,739

to each other like that

1708

01:10:00,590 --> 01:09:58,199

and I I don't know I mean there's

1709

01:10:03,290 --> 01:10:00,600

similar species they're both bottlenoses

1710

01:10:04,790 --> 01:10:03,300

that type of thing but uh so I mean

1711

01:10:07,490 --> 01:10:04,800

imagine that they're similar in size

1712

01:10:10,070 --> 01:10:07,500

similar feeding habits Etc you know

1713

01:10:11,750 --> 01:10:10,080

maybe they're I don't know desperate for

1714

01:10:13,910 --> 01:10:11,760

company or something like that I think

1715

01:10:16,250 --> 01:10:13,920

that the the melon head one is the very

1716

01:10:17,209 --> 01:10:16,260

beginning though

1717

01:10:19,910 --> 01:10:17,219

but

1718

01:10:22,430 --> 01:10:19,920

I don't know if you can pop back or not

1719

01:10:24,290 --> 01:10:22,440

I just find it fascinating that if I'm

1720

01:10:25,729 --> 01:10:24,300

right see that that right there that's

1721

01:10:28,189 --> 01:10:25,739

not that can't be anything else but that

1722

01:10:30,470 --> 01:10:28,199

melon see and then it's not this that's

1723

01:10:32,450 --> 01:10:30,480

it's not the same animal

1724

01:10:34,370 --> 01:10:32,460

no no other part of the body looks like

1725

01:10:38,450 --> 01:10:34,380

that

1726

01:10:41,330 --> 01:10:38,460

next to it right

1727

01:10:42,770 --> 01:10:41,340

see that one's smaller I think the one

1728

01:10:44,510 --> 01:10:42,780

that that's a little further back but

1729

01:10:46,130 --> 01:10:44,520

it's also got it has to be according to

1730

01:10:48,290 --> 01:10:46,140

the when I've researched a mature male

1731

01:10:51,169 --> 01:10:48,300

with those knobs sticking up on its head

1732

01:10:53,990 --> 01:10:51,179

like that so I just find it fascinating

1733

01:10:56,510 --> 01:10:54,000

but I mean I don't see a mosasaur I

1734

01:11:02,649 --> 01:10:56,520

don't see a plesiosaur you know I don't

1735

01:11:08,510 --> 01:11:06,590

it does I mean at first glance looking

1736

01:11:09,890 --> 01:11:08,520

at it if you look at it quick then you

1737

01:11:11,990 --> 01:11:09,900

you know you don't keep backing it up

1738

01:11:14,270 --> 01:11:12,000

and analyzing it you know it kind of has

1739

01:11:16,790 --> 01:11:14,280

that Plesiosaurus if you see it quick

1740

01:11:18,830 --> 01:11:16,800

but you know the more you you break it

1741

01:11:21,110 --> 01:11:18,840

down and you look at it you can see you

1742

01:11:23,570 --> 01:11:21,120

can see the differences but again I

1743

01:11:26,090 --> 01:11:23,580

still I can't I can't see two I I can't

1744

01:11:28,130 --> 01:11:26,100

see two different it looks the same to

1745

01:11:30,410 --> 01:11:28,140

me I'll send you the link or they'll

1746

01:11:32,330 --> 01:11:30,420

send you the link and you yeah yeah and

1747

01:11:34,510 --> 01:11:32,340

analyze it definitely I'd love to hear

1748

01:11:38,030 --> 01:11:34,520

you know your feedback on it yeah please

1749

01:11:40,189 --> 01:11:38,040

yeah I I think that's the same species

1750

01:11:45,110 --> 01:11:40,199

as in the cabarasaurus video you know

1751

01:11:47,510 --> 01:11:45,120

that square head thing that no one but

1752

01:11:50,330 --> 01:11:47,520

anyway should I blab about the Bigfoot

1753

01:11:51,649 --> 01:11:50,340

swimming or tell us about the Bigfoot in

1754

01:11:53,090 --> 01:11:51,659

the water I'll I'll try and give you the

1755

01:11:57,050 --> 01:11:53,100

Cliff's Notes version without boring

1756

01:11:58,310 --> 01:11:57,060

yeah so the lake it had rained its butt

1757

01:11:59,990 --> 01:11:58,320

off the night before and it was like the

1758

01:12:02,930 --> 01:12:00,000

color of coffee and I don't mean coffee

1759

01:12:04,550 --> 01:12:02,940

with milk in it okay so which was we

1760

01:12:05,870 --> 01:12:04,560

didn't research this stuff so we got

1761

01:12:08,209 --> 01:12:05,880

there we were looking a fish we had

1762

01:12:11,030 --> 01:12:08,219

Bobbers and Minnows you guys ever go on

1763

01:12:13,070 --> 01:12:11,040

Barber fishing for sure awesome Okay

1764

01:12:15,110 --> 01:12:13,080

cool so we were sitting there for like

1765

01:12:16,430 --> 01:12:15,120

30 minutes catching nothing and then my

1766

01:12:18,410 --> 01:12:16,440

two brothers decided they were going to

1767

01:12:20,510 --> 01:12:18,420

climb you know walk up the hill cross

1768

01:12:21,890 --> 01:12:20,520

over the causeway go down the other side

1769

01:12:23,990 --> 01:12:21,900

and fish The Candlewood side like I said

1770

01:12:26,330 --> 01:12:24,000

these two Lakes are attached right there

1771

01:12:28,189 --> 01:12:26,340

okay just separated by this thing so I

1772

01:12:29,570 --> 01:12:28,199

figured I'll I'll be here by myself and

1773

01:12:31,130 --> 01:12:29,580

that's fine and they'll turn on

1774

01:12:32,630 --> 01:12:31,140

eventually and I'll catch all the bass

1775

01:12:35,090 --> 01:12:32,640

and whatever we figured there would be

1776

01:12:36,709 --> 01:12:35,100

crayfish because of all the rocks that

1777

01:12:38,510 --> 01:12:36,719

are used to build this thing up see so

1778

01:12:40,970 --> 01:12:38,520

that was the logic there unfortunately

1779

01:12:43,189 --> 01:12:40,980

when you have no visibility shiners are

1780

01:12:45,649 --> 01:12:43,199

not very useful unless a bass literally

1781

01:12:48,590 --> 01:12:45,659

smacks into them practically so we were

1782

01:12:49,910 --> 01:12:48,600

the fishing sucked okay so as it was

1783

01:12:51,770 --> 01:12:49,920

gradually getting light and this Lake

1784

01:12:54,110 --> 01:12:51,780

was like glass there was nobody on the

1785

01:12:55,910 --> 01:12:54,120

lake there wasn't anybody one side has a

1786

01:12:59,810 --> 01:12:55,920

few houses on it the other side is All

1787

01:13:01,070 --> 01:12:59,820

State Park and jungle cycle and I mean

1788

01:13:04,130 --> 01:13:01,080

it's rough over there

1789

01:13:06,470 --> 01:13:04,140

but uh so after a while I'm sitting on a

1790

01:13:09,709 --> 01:13:06,480

bucket and I see something pop up on

1791

01:13:11,930 --> 01:13:09,719

those 150 200 feet out like a dark

1792

01:13:13,490 --> 01:13:11,940

object and then it goes under and I'm

1793

01:13:15,470 --> 01:13:13,500

like oh that's interesting and then a

1794

01:13:17,810 --> 01:13:15,480

few minutes later it came up again and

1795

01:13:19,189 --> 01:13:17,820

I'm like what is that and it was each

1796

01:13:21,470 --> 01:13:19,199

time it would have went under it would

1797

01:13:23,149 --> 01:13:21,480

come up a little closer each time you

1798

01:13:25,310 --> 01:13:23,159

know like it was working its way towards

1799

01:13:27,229 --> 01:13:25,320

me but it was still fairly far and then

1800

01:13:29,750 --> 01:13:27,239

I started noticing as this song was

1801

01:13:32,810 --> 01:13:29,760

coming up it was kind of hairy and it

1802

01:13:34,729 --> 01:13:32,820

was like at a reddish brown color to it

1803

01:13:36,470 --> 01:13:34,739

so I thought oh it's a muskrat because

1804

01:13:37,669 --> 01:13:36,480

it was kind of round looking and then it

1805

01:13:40,250 --> 01:13:37,679

got a little closer I'm like no that's

1806

01:13:42,770 --> 01:13:40,260

too big to be a muskrat I'm like it's a

1807

01:13:44,990 --> 01:13:42,780

beaver like you know a beaver's butt you

1808

01:13:46,970 --> 01:13:45,000

know that round part of them or back and

1809

01:13:49,250 --> 01:13:46,980

all that you know I'm like no that's not

1810

01:13:51,530 --> 01:13:49,260

a beaver I'm like what is that you know

1811

01:13:53,990 --> 01:13:51,540

so now I stand up and I see this thing

1812

01:13:55,790 --> 01:13:54,000

and it comes up like this Dome and I

1813

01:13:57,830 --> 01:13:55,800

think's head was not like patties it

1814

01:13:59,149 --> 01:13:57,840

wasn't conical it was round just so

1815

01:14:01,490 --> 01:13:59,159

we're clear on this and covered with

1816

01:14:02,990 --> 01:14:01,500

hair and it would come up like that and

1817

01:14:05,450 --> 01:14:03,000

then it would go under so when I stood

1818

01:14:07,130 --> 01:14:05,460

up I started seeing more of it like you

1819

01:14:09,110 --> 01:14:07,140

know it was like a body sort of under

1820

01:14:11,510 --> 01:14:09,120

the surface behind it and you could see

1821

01:14:13,430 --> 01:14:11,520

like legs under the surface and the

1822

01:14:15,470 --> 01:14:13,440

weird part is when it went to submerge

1823

01:14:18,050 --> 01:14:15,480

the legs would move together

1824

01:14:20,750 --> 01:14:18,060

like a girl's wearing a mermaid suit you

1825

01:14:22,970 --> 01:14:20,760

know with the tail not like we swim like

1826

01:14:24,770 --> 01:14:22,980

a flutter kick or anything like that so

1827

01:14:26,450 --> 01:14:24,780

I I still couldn't figure out it was and

1828

01:14:28,790 --> 01:14:26,460

I'm like is that a

1829

01:14:31,490 --> 01:14:28,800

deer and I'm like no because you know

1830

01:14:33,169 --> 01:14:31,500

how deer are people in Champlain they

1831

01:14:35,090 --> 01:14:33,179

think it's champ all the time you see

1832

01:14:38,090 --> 01:14:35,100

the head and you know like the body

1833

01:14:39,530 --> 01:14:38,100

wasn't that and then I'm like is it an

1834

01:14:41,750 --> 01:14:39,540

Irish Setter because it was kind of that

1835

01:14:43,910 --> 01:14:41,760

color I'm like no that head is

1836

01:14:45,709 --> 01:14:43,920

definitely not a canine and I just

1837

01:14:48,110 --> 01:14:45,719

couldn't figure out what it was you know

1838

01:14:49,610 --> 01:14:48,120

and I was estimating from that vast

1839

01:14:51,169 --> 01:14:49,620

difference that it was

1840

01:14:53,689 --> 01:14:51,179

distance I'm sorry that it was maybe

1841

01:14:56,090 --> 01:14:53,699

five feet long but you know it was kind

1842

01:14:58,790 --> 01:14:56,100

of head towards me and the rest was back

1843

01:15:00,290 --> 01:14:58,800

and stuff so I thought okay it kept

1844

01:15:02,630 --> 01:15:00,300

going under and then coming up going on

1845

01:15:04,370 --> 01:15:02,640

there and coming up and in retrospect

1846

01:15:07,430 --> 01:15:04,380

apparently it was diving for crayfish

1847

01:15:09,290 --> 01:15:07,440

like it would swim to the bottom catch a

1848

01:15:12,709 --> 01:15:09,300

snack and come back up you know this

1849

01:15:14,810 --> 01:15:12,719

type of thing so when it was maybe

1850

01:15:16,370 --> 01:15:14,820

100 feet away I mean I'd have literally

1851
01:15:18,530 --> 01:15:16,380
have to go there to gauge the distance

1852
01:15:20,689 --> 01:15:18,540
and stuff like that but I decide you

1853
01:15:22,729 --> 01:15:20,699
know what like I'm gonna climb up the

1854
01:15:24,770 --> 01:15:22,739
hill on the Rocks the gravel and stuff

1855
01:15:26,810 --> 01:15:24,780
and get higher up so I can look down at

1856
01:15:28,550 --> 01:15:26,820
this thing I figure then I can see more

1857
01:15:30,590 --> 01:15:28,560
of it and figure out what it is so I

1858
01:15:32,870 --> 01:15:30,600
started doing that and the Rocks like

1859
01:15:34,430 --> 01:15:32,880
crumble like they did and apparently

1860
01:15:36,470 --> 01:15:34,440
this thing did not know I was there

1861
01:15:40,130 --> 01:15:36,480
sitting on a bucket this whole time and

1862
01:15:42,110 --> 01:15:40,140
as soon as that noise happened it like

1863
01:15:44,270 --> 01:15:42,120

Dove it kind of there was a big splash

1864

01:15:46,450 --> 01:15:44,280

and as it did and this is when I I

1865

01:15:51,950 --> 01:15:46,460

realized it was not something normal

1866

01:15:54,290 --> 01:15:51,960

it's arm like this upper arm forearm up

1867

01:15:56,870 --> 01:15:54,300

to the wrist like this broke the surface

1868

01:15:59,330 --> 01:15:56,880

okay and its arm was much bigger than

1869

01:16:01,310 --> 01:15:59,340

mine and much more muscular you know

1870

01:16:03,470 --> 01:16:01,320

whatever and covered with thick reddish

1871

01:16:05,270 --> 01:16:03,480

brown obviously soaked hair you saw all

1872

01:16:07,310 --> 01:16:05,280

this like that at the surface and then

1873

01:16:09,770 --> 01:16:07,320

it went under and then it rocketed

1874

01:16:12,050 --> 01:16:09,780

towards the uh

1875

01:16:14,209 --> 01:16:12,060

the narrow channel called that goes

1876
01:16:16,550 --> 01:16:14,219
through that pipe underwater and as it

1877
01:16:19,010 --> 01:16:16,560
did and I walked over there real quick I

1878
01:16:21,110 --> 01:16:19,020
saw like a shadowy form like go through

1879
01:16:22,970 --> 01:16:21,120
it kind of scared me a little because it

1880
01:16:25,370 --> 01:16:22,980
seemed a lot bigger than I thought that

1881
01:16:26,149 --> 01:16:25,380
distance and the water went like this

1882
01:16:29,990 --> 01:16:26,159
like

1883
01:16:32,570 --> 01:16:30,000
at this point I had no idea what it was

1884
01:16:34,550 --> 01:16:32,580
except I noticed it had an arm like a

1885
01:16:37,070 --> 01:16:34,560
person sort of I I was thinking it was

1886
01:16:38,630 --> 01:16:37,080
an orangutan which sounds stupid you

1887
01:16:40,729 --> 01:16:38,640
know why would somebody have a pet

1888
01:16:43,010 --> 01:16:40,739

orangutan that goes out and swimming

1889

01:16:45,530 --> 01:16:43,020

around a lake or whatever so I Rush up

1890

01:16:47,209 --> 01:16:45,540

the hill almost get killed by a car Rush

1891

01:16:49,430 --> 01:16:47,219

across to my brothers oh my guys guys

1892

01:16:50,689 --> 01:16:49,440

there's this big hairy red thing that's

1893

01:16:52,729 --> 01:16:50,699

what I was calling it The hairy red

1894

01:16:54,169 --> 01:16:52,739

thinning okay I still get mocked to this

1895

01:16:55,430 --> 01:16:54,179

day about it I said it's swimming

1896

01:16:58,250 --> 01:16:55,440

through it's going to come through any

1897

01:17:00,169 --> 01:16:58,260

second well stupid me by the time I

1898

01:17:01,430 --> 01:17:00,179

climbed up this thing almost got hit

1899

01:17:03,530 --> 01:17:01,440

climbed on the other side this thing had

1900

01:17:05,270 --> 01:17:03,540

already passed through so we're standing

1901

01:17:07,189 --> 01:17:05,280

there the three of us we're looking at

1902

01:17:08,810 --> 01:17:07,199

the water or this other side and

1903

01:17:11,090 --> 01:17:08,820

nothing's happening they're like you're

1904

01:17:13,189 --> 01:17:11,100

I got called a few names whatever but

1905

01:17:14,570 --> 01:17:13,199

then a few seconds later off to about

1906

01:17:16,550 --> 01:17:14,580

100 feet to the side where the other

1907

01:17:18,590 --> 01:17:16,560

Shore is there's all these lily pads

1908

01:17:21,229 --> 01:17:18,600

that stick out I don't know six eight

1909

01:17:23,209 --> 01:17:21,239

feet you know like Prime bass territory

1910

01:17:25,490 --> 01:17:23,219

and something was under the lily pads

1911

01:17:27,890 --> 01:17:25,500

and was crashing its way through you'd

1912

01:17:29,270 --> 01:17:27,900

see like this and then further down it

1913

01:17:31,250 --> 01:17:29,280

would pop up again and stuff like that

1914

01:17:33,530 --> 01:17:31,260

and I think whatever it was was in there

1915

01:17:35,330 --> 01:17:33,540

and working its way along the shoreline

1916

01:17:36,229 --> 01:17:35,340

and using the lily pads to conceal

1917

01:17:38,570 --> 01:17:36,239

itself

1918

01:17:40,130 --> 01:17:38,580

so I never thought much about it after

1919

01:17:42,050 --> 01:17:40,140

that we always joke about catching the

1920

01:17:44,630 --> 01:17:42,060

hairy red thing and stuff but then like

1921

01:17:46,669 --> 01:17:44,640

when I was writing Monastery Mysteries I

1922

01:17:48,830 --> 01:17:46,679

realized this thing must have been a

1923

01:17:51,770 --> 01:17:48,840

Bigfoot you know like of some kind maybe

1924

01:17:53,570 --> 01:17:51,780

a juvenile that had a addiction to

1925

01:17:55,250 --> 01:17:53,580

potato chips meaning crayfish and stuff

1926

01:17:57,410 --> 01:17:55,260

like that you know was out there the

1927

01:17:59,149 --> 01:17:57,420

crack of dawn this type of stuff so I

1928

01:18:01,610 --> 01:17:59,159

started researching I found a newspaper

1929

01:18:03,770 --> 01:18:01,620

article from like the early 1900s where

1930

01:18:06,709 --> 01:18:03,780

the fishermen were saying fishermen

1931

01:18:09,229 --> 01:18:06,719

reports seeing hairy Wild Child in Lake

1932

01:18:11,030 --> 01:18:09,239

you know and then uh yeah so somebody

1933

01:18:12,530 --> 01:18:11,040

from another Network she told me well

1934

01:18:14,570 --> 01:18:12,540

that's before people knew the term

1935

01:18:16,850 --> 01:18:14,580

Bigfoot or Sasquatch that's what they

1936

01:18:18,590 --> 01:18:16,860

would call them hairy Wild Man hairy

1937

01:18:20,570 --> 01:18:18,600

Wild Child in this case that type of

1938

01:18:23,090 --> 01:18:20,580

thing and

1939

01:18:24,770 --> 01:18:23,100

like yeah we did have cameras there was

1940

01:18:26,510 --> 01:18:24,780

no cell phones back then or anything

1941

01:18:27,770 --> 01:18:26,520

like that this type of stuff except for

1942

01:18:30,709 --> 01:18:27,780

the ones that you had like came with a

1943

01:18:32,390 --> 01:18:30,719

suitcase and stuff but uh so then when I

1944

01:18:35,149 --> 01:18:32,400

was on the show talking about it this

1945

01:18:38,810 --> 01:18:35,159

guy wrote in and he actually sort of

1946

01:18:40,729 --> 01:18:38,820

reinforced you know the the encounter

1947

01:18:43,070 --> 01:18:40,739

because he was explaining how in the

1948

01:18:45,470 --> 01:18:43,080

late 70s and early 80s him and his

1949

01:18:47,030 --> 01:18:45,480

friends used to go up to swans and they

1950

01:18:48,709 --> 01:18:47,040

would camp and they would take out

1951

01:18:51,050 --> 01:18:48,719

canoes and fish the lake this type of

1952

01:18:53,149 --> 01:18:51,060

stuff and he said that in the early 80s

1953

01:18:55,850 --> 01:18:53,159

the last time they went when they came

1954

01:18:57,649 --> 01:18:55,860

back to their Camp it had been attacked

1955

01:18:59,330 --> 01:18:57,659

the tents had been ripped apart

1956

01:19:01,669 --> 01:18:59,340

everything had been destroyed thrown all

1957

01:19:03,709 --> 01:19:01,679

over Etc so they thought it was as he

1958

01:19:06,470 --> 01:19:03,719

put it drug crazed hippies or something

1959

01:19:08,149 --> 01:19:06,480

like that okay so yeah so they didn't

1960

01:19:09,290 --> 01:19:08,159

want to go there back there then their

1961

01:19:10,970 --> 01:19:09,300

other friends were like Hey we're going

1962

01:19:12,410 --> 01:19:10,980

he goes no we don't we had a bad

1963

01:19:14,030 --> 01:19:12,420

experience he goes watch out for the

1964

01:19:16,669 --> 01:19:14,040

hippies they were joking so his other

1965

01:19:18,530 --> 01:19:16,679

friends were on squons on the state park

1966

01:19:20,270 --> 01:19:18,540

side where it's all mountainous and

1967

01:19:22,010 --> 01:19:20,280

Woody and all this other stuff and

1968

01:19:23,630 --> 01:19:22,020

they're canoeing along the sides of the

1969

01:19:24,950 --> 01:19:23,640

edge of the lake and then all of a

1970

01:19:27,050 --> 01:19:24,960

sudden they hear some crashing as they

1971

01:19:29,510 --> 01:19:27,060

approach a little clearing as he called

1972

01:19:31,850 --> 01:19:29,520

it and this big buck comes rushing Out

1973

01:19:34,550 --> 01:19:31,860

of the Woods dives into the water right

1974

01:19:36,709 --> 01:19:34,560

in front of their canoe terrifying and

1975

01:19:39,350 --> 01:19:36,719

swims for its life across the whole lake

1976

01:19:41,090 --> 01:19:39,360

which is quite a swim by the way and he

1977

01:19:43,610 --> 01:19:41,100

said they heard something crashing in

1978

01:19:45,350 --> 01:19:43,620

the brush following it and it stopped

1979

01:19:47,030 --> 01:19:45,360

just shy of the clearing and didn't come

1980

01:19:48,709 --> 01:19:47,040

any further and they thought maybe it

1981

01:19:51,169 --> 01:19:48,719

was a hunter which I would say is

1982

01:19:53,750 --> 01:19:51,179

ridiculous because have you ever been in

1983

01:19:55,189 --> 01:19:53,760

there that Terrain

1984

01:19:57,830 --> 01:19:55,199

if you tried running through there

1985

01:20:00,110 --> 01:19:57,840

you're gonna die break your leg your

1986

01:20:02,030 --> 01:20:00,120

neck something like that I mean it is

1987

01:20:03,590 --> 01:20:02,040

treacherous slippery

1988

01:20:05,689 --> 01:20:03,600

like

1989

01:20:08,510 --> 01:20:05,699

all sorts of stuff you'd have to see it

1990

01:20:10,250 --> 01:20:08,520

to believe it right but uh no person you

1991

01:20:12,410 --> 01:20:10,260

couldn't chase a deer anyway but anyway

1992

01:20:14,810 --> 01:20:12,420

so whatever it was stay there and then

1993

01:20:18,770 --> 01:20:14,820

it started throwing stuff at them for 15

1994

01:20:20,270 --> 01:20:18,780

minutes rocks branches Twigs all sorts

1995

01:20:21,290 --> 01:20:20,280

of stuff they were getting pelted and

1996

01:20:24,410 --> 01:20:21,300

everything and finally they were like

1997

01:20:26,870 --> 01:20:24,420

hey a-hole we're in a canoe stop it they

1998

01:20:28,490 --> 01:20:26,880

said then it stopped and he said after

1999

01:20:30,709 --> 01:20:28,500

he heard me talking about it he realized

2000

01:20:32,810 --> 01:20:30,719

this sounded like Bigfoot was bothering

2001
01:20:34,130 --> 01:20:32,820
them and that's like primate Behavior I

2002
01:20:35,590 --> 01:20:34,140
mean these creatures are known to do

2003
01:20:39,350 --> 01:20:35,600
that correct

2004
01:20:40,970 --> 01:20:39,360
other people yeah absolutely so I mean

2005
01:20:42,410 --> 01:20:40,980
that kind of made me feel good that I

2006
01:20:44,870 --> 01:20:42,420
didn't imagine seeing this thing

2007
01:20:46,910 --> 01:20:44,880
swimming Etc and all that but it's the

2008
01:20:50,390 --> 01:20:46,920
same spot same Lake

2009
01:20:52,370 --> 01:20:50,400
Etc so but anyway one day when they're

2010
01:20:56,290 --> 01:20:52,380
proven to exist and by the way I know

2011
01:20:59,689 --> 01:20:56,300
somebody who saw a full color

2012
01:21:01,729 --> 01:20:59,699
non-fuzzy photo of one by the way I

2013
01:21:04,490 --> 01:21:01,739

can't talk about it but she was totally

2014

01:21:05,810 --> 01:21:04,500

freaked out historical about what she's

2015

01:21:07,910 --> 01:21:05,820

seeing the photo that somebody showed

2016

01:21:09,530 --> 01:21:07,920

her and stuff but um but when it is

2017

01:21:10,850 --> 01:21:09,540

proven that they exist and then somebody

2018

01:21:12,590 --> 01:21:10,860

sees them swimming they're gonna be like

2019

01:21:14,750 --> 01:21:12,600

oh look at that they do swim with their

2020

01:21:16,750 --> 01:21:14,760

legs together see Max wasn't a complete

2021

01:21:18,290 --> 01:21:16,760

[h__h]

2022

01:21:20,209 --> 01:21:18,300

complete

2023

01:21:22,729 --> 01:21:20,219

still partial

2024

01:21:24,709 --> 01:21:22,739

well guys uh I'm gonna go around the

2025

01:21:27,189 --> 01:21:24,719

horn here I want you to tell the folks

2026

01:21:29,750 --> 01:21:27,199

how they get in contact with you

2027

01:21:31,729 --> 01:21:29,760

uh what projects you're doing what

2028

01:21:33,229 --> 01:21:31,739

you're involved with right now I'll go

2029

01:21:36,709 --> 01:21:33,239

ahead and start with Max

2030

01:21:38,390 --> 01:21:36,719

oh gosh I'm still blabbing ah okay um

2031

01:21:40,669 --> 01:21:38,400

get in contact me no please don't don't

2032

01:21:42,410 --> 01:21:40,679

come to my house don't send me one of

2033

01:21:44,510 --> 01:21:42,420

those two-page letters about a typo in

2034

01:21:46,729 --> 01:21:44,520

one of my books I got one

2035

01:21:49,550 --> 01:21:46,739

um let's see the last two books that of

2036

01:21:51,410 --> 01:21:49,560

mine that came out was this past year

2037

01:21:54,709 --> 01:21:51,420

um which is Cronus Rising Purgatory

2038

01:21:56,510 --> 01:21:54,719

which is book seven in the series and a

2039

01:21:58,430 --> 01:21:56,520

Christmas-themed horror Thriller called

2040

01:22:01,310 --> 01:21:58,440

the sleigh you can find either of these

2041

01:22:03,110 --> 01:22:01,320

on my website maxwellthorne.com or on

2042

01:22:05,090 --> 01:22:03,120

Amazon if you guys want to check me out

2043

01:22:08,330 --> 01:22:05,100

on Facebook the group is monsters and

2044

01:22:11,209 --> 01:22:08,340

Marine Mysteries which is easy to find

2045

01:22:16,130 --> 01:22:11,219

um and that's about all I could tell you

2046

01:22:19,370 --> 01:22:16,140

uh Ron yes sir yes okay so uh I uh just

2047

01:22:21,970 --> 01:22:19,380

I just got a uh my book one yeah I just

2048

01:22:24,890 --> 01:22:21,980

got a book finished uh on Earth lights

2049

01:22:27,050 --> 01:22:24,900

uh and um writing spook lights I'm

2050

01:22:28,490 --> 01:22:27,060

looking for a publisher right now uh so

2051

01:22:30,830 --> 01:22:28,500

I'm gonna be shopping that here before

2052

01:22:32,390 --> 01:22:30,840

long and uh you know just getting ready

2053

01:22:34,430 --> 01:22:32,400

for the conference season to start up

2054

01:22:38,350 --> 01:22:34,440

hopefully our pass across again this

2055

01:22:40,790 --> 01:22:38,360

year's salon at some point and Steve and

2056

01:22:43,189 --> 01:22:40,800

yeah I'm planning on getting out there

2057

01:22:47,169 --> 01:22:43,199

this year so absolutely I hope we can I

2058

01:22:53,390 --> 01:22:49,729

Steve what's uh what's going on your

2059

01:22:56,930 --> 01:22:53,400

your neck of the woods oh God I I hacked

2060

01:22:58,490 --> 01:22:56,940

a ton of stuff going on uh the uh if

2061

01:23:01,189 --> 01:22:58,500

anybody's gone over to the my YouTube

2062

01:23:03,890 --> 01:23:01,199

channel squash dtv.com I've been pumping

2063

01:23:07,370 --> 01:23:03,900

out a lot of material uh working on my

2064

01:23:09,350 --> 01:23:07,380

fourth book the psychology of Bigfoot uh

2065

01:23:11,870 --> 01:23:09,360

that's uh gonna deal with everything

2066

01:23:14,870 --> 01:23:11,880

from why people go out every time and

2067

01:23:16,669 --> 01:23:14,880

see Bigfoot to uh some of the trauma

2068

01:23:19,970 --> 01:23:16,679

that Witnesses go through when they see

2069

01:23:22,550 --> 01:23:19,980

a Bigfoot and the psychology of hoaxing

2070

01:23:24,709 --> 01:23:22,560

the boot too so there's a lot of

2071

01:23:26,149 --> 01:23:24,719

different elements to the psychology of

2072

01:23:29,450 --> 01:23:26,159

Bigfoot I thought it'd make a great

2073

01:23:31,370 --> 01:23:29,460

great read and uh that and I'm you know

2074

01:23:32,450 --> 01:23:31,380

got a bunch of conferences already uh

2075

01:23:35,149 --> 01:23:32,460

lined up

2076

01:23:37,970 --> 01:23:35,159

uh in Alabama Ohio

2077

01:23:42,850 --> 01:23:37,980

uh and that's just uh the couple already

2078

01:23:45,530 --> 01:23:42,860

in New York so it's been very busy

2079

01:23:48,050 --> 01:23:45,540

and Kenny

2080

01:23:49,189 --> 01:23:48,060

yeah so um I just started the outline

2081

01:23:51,410 --> 01:23:49,199

for

2082

01:23:53,390 --> 01:23:51,420

um uh another book um that's gonna be

2083

01:23:55,970 --> 01:23:53,400

published through Beyond The Fray um

2084

01:23:58,669 --> 01:23:55,980

International Cryptids just came out in

2085

01:24:00,830 --> 01:23:58,679

um August and uh so once that released I

2086

01:24:03,229 --> 01:24:00,840

took a little break

2087

01:24:05,390 --> 01:24:03,239

um and kind of took took took the rest

2088

01:24:07,310 --> 01:24:05,400

of the the year off on uh doing any

2089

01:24:09,470 --> 01:24:07,320

conferences or anything but I got a

2090

01:24:10,189 --> 01:24:09,480

couple so far that I've confirmed this

2091

01:24:12,050 --> 01:24:10,199

year

2092

01:24:15,050 --> 01:24:12,060

um one's going to be in um

2093

01:24:17,330 --> 01:24:15,060

uh North Carolina another one's going to

2094

01:24:20,270 --> 01:24:17,340

be in uh West Virginia uh there'll be

2095

01:24:22,490 --> 01:24:20,280

one coming up uh here in New York

2096

01:24:23,930 --> 01:24:22,500

um as well as

2097

01:24:26,270 --> 01:24:23,940

um you know just some some other things

2098

01:24:28,850 --> 01:24:26,280

some radio shows coming up

2099

01:24:29,870 --> 01:24:28,860

um some more um potential documentaries

2100

01:24:31,970 --> 01:24:29,880

so

2101

01:24:33,470 --> 01:24:31,980

we'll see what happens just uh just

2102

01:24:35,209 --> 01:24:33,480

having a lot of fun with it and uh

2103

01:24:37,430 --> 01:24:35,219

looking forward to uh definitely getting

2104

01:24:40,130 --> 01:24:37,440

back out there and um you know getting

2105

01:24:42,229 --> 01:24:40,140

on the uh conference conference tours if

2106

01:24:43,970 --> 01:24:42,239

you will

2107

01:24:45,110 --> 01:24:43,980

well guys I want to thank you all for

2108

01:24:47,870 --> 01:24:45,120

coming on

2109

01:24:49,610 --> 01:24:47,880

um it was very interesting I hope to

2110

01:24:51,950 --> 01:24:49,620

have you all back again

2111

01:25:02,890 --> 01:24:51,960

and uh you'll have a good weekend and

2112

01:25:08,390 --> 01:25:06,290

again buddy well that was yeah I yeah

2113

01:25:10,250 --> 01:25:08,400

okay well thanks for coming on and uh

2114

01:25:13,970 --> 01:25:10,260

you all have a great weekend

2115

01:25:15,950 --> 01:25:13,980

hey guys thank you so much for having me

2116

01:25:20,149 --> 01:25:15,960

it's great seeing you guys have a good

2117

01:25:24,350 --> 01:25:22,790

now if you have a sighting or encounter

2118

01:25:25,970 --> 01:25:24,360

report that you'd like to be considered

2119

01:25:27,770 --> 01:25:25,980

for the personal report show or even

2120

01:25:29,810 --> 01:25:27,780

posted on families of mosque feel free

2121

01:25:31,910 --> 01:25:29,820

to contact me at my email at lawn

2122

01:25:34,430 --> 01:25:31,920

Stricker fans monsters.com

2123

01:25:37,130 --> 01:25:34,440

I want to again uh thanks guys for being

2124

01:25:39,169 --> 01:25:37,140

on the panel tonight uh and thanks for

2125

01:25:40,729 --> 01:25:39,179

joining me this evening and and thanks

2126
01:25:41,750 --> 01:25:40,739
to each and all of you for watching and

2127
01:25:44,570 --> 01:25:41,760
chatting

2128
01:25:47,810 --> 01:25:44,580
uh I always appreciate you all coming in

2129
01:25:50,030 --> 01:25:47,820
the chat and leaving questions and some

2130
01:25:52,070 --> 01:25:50,040
good discussions come up Aaron it's

2131
01:25:54,790 --> 01:25:52,080
interesting to read so I much appreciate

2132
01:25:59,270 --> 01:25:54,800
that so this next Wednesday

2133
01:26:01,610 --> 01:25:59,280
uh 9 p.m Eastern 6 p.m Pacific I there

2134
01:26:05,689 --> 01:26:01,620
will be another personal report show

2135
01:26:08,030 --> 01:26:05,699
and uh next Friday night uh at 9 00 PM

2136
01:26:11,689 --> 01:26:08,040
we're going to be having a Phantoms of

2137
01:26:14,990 --> 01:26:11,699
monster 14 Research team update show

2138
01:26:16,850 --> 01:26:15,000

so uh we're gonna kind of get into what

2139

01:26:18,350 --> 01:26:16,860

we've been doing some of the sightings

2140

01:26:20,689 --> 01:26:18,360

and some of the work some of the people

2141

01:26:23,270 --> 01:26:20,699

and team have been doing so that should

2142

01:26:26,810 --> 01:26:23,280

be interesting and stay tuned uh at 11

2143

01:26:29,750 --> 01:26:26,820

p.m tonight Eastern 10 p.m

2144

01:26:33,290 --> 01:26:29,760

um central time for uh Bernadette Daniel

2145

01:26:35,570 --> 01:26:33,300

and uh a paranormal life so until we

2146

01:26:47,120 --> 01:26:35,580

meet again folks you stay healthy and

2147

01:26:47,130 --> 01:27:16,310

[Music]

2148

01:27:16,320 --> 01:27:21,130

foreign
